MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. INDUSTRY STRUCTURE AND DEVELOPMENT

Globally and in India, slow-down in industrial markets has meant that growth levels over short-term will be relatively slow. In corollary, the impact could result in the 'End-Users' to become extremely budget conscious, easily shift to cheaper equivalents and conscientiously postpone preventive maintenance and associated projects.

2. OPPORTUNITIES

Strategic alternatives, unchartered terrains and value added services will provide opportunities for sustenance.

3. THREATS

With perfect market having no barriers on entry and exit, keen competition is the order of the day and retention of market share would be a threat which has to be meticulously reckoned with.

4. RISKS AND CONCERNS

Concern is on the timing of economic recovery. As per analysts, short-time seems a period of six months and long-time period could be anywhere between one to two years. The sooner the growth impetus, greater will be the buoyancy to be back on track.

5. CURRENT YEAR OUTLOOK

Business has a positive correlation to the general economic and industrial growth. To remain competitive, it is essential to:

- Maintain and enhance customer loyalty.
- Undertake product customisation with strong distribution and on-time delivery system.
- Consistent technical and after sales/service support.

6. HUMAN RESOURCES DEVELOPMENT

It is essential to maintain the morale and motivation of employees, particularly during slowdown. Their competency and confidence to deliver positive outcomes under constraints would enable the organisation to stay afloat. Employee engagement, training and counselling will be undertaken in greater measures.

There were 246 employees on the muster roll of the Company as on March 31, 2013.

REPORT ON CORPORATE GOVERNANCE

Good governance is an integral part of corporate management. It is a process of building positive relationship with various stakeholders and involves conducting business in a fair and transparent manner. It also implies that the management must be empowered to drive the enterprise forward without undue restraint and operate within the framework of applicable laws.

1. COMPANY'S PHILOSOPHY ON THE CODE OF CORPORATE GOVERNANCE

SIGNIFICANT ACCOUNTING POLICIES

Note 1

Basis of preparation of financial statements

These financial statements are prepared under the historical cost basis of accounting and evaluated on a going concern basis, with revenues recognised and expenses accounted for on their accrual to comply in all material aspects with the applicable Accounting Principles and applicable Accounting Standards notified u/s. 211 (3C) of the Companies Act, 1956, other relevant provisions of the Companies Act, 1956 and the guidelines issued by the Securities and Exchange Board of India (SEBI).

Use of estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported balances of assets and liabilities as on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. All the assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria set out in Schedule VI to the Companies Act, 1956. Accounting estimates could change from period to period. Actual results could differ from these estimates. Appropriate changes in estimates are made as and when the Management becomes aware of the changes in the circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which the changes are made and if material, their effects are disclosed in the notes to the financial statements.

The following significant accounting policies have been adopted in the preparation and presentation of the financial statements:

1.01 Revenue recognition

- (a) Revenue from sale of goods is recognised on transfer of all significant risks and rewards of ownership to the buyer. The amount recognised as sale is exclusive of sales tax/VAT and are net of returns. It is stated at gross and net of excise duty.
Excise duty relating to the difference between closing and opening stock is recognised as part of changes in inventories of finished goods, work-in progress and stock-in trade.
- (b) Income from conversion job is recognised on its completion and on its acceptance by the customers.
- (c) Dividend income is accounted for in the year in which the right to receive the same is established.
- (d) Interest income is recognised using the time-proportion method, based on rates implicit in the transaction.

1.02 Fixed assets

Tangible assets shown under gross block are valued at cost of acquisition inclusive of inward freight, duties, taxes and other incidental expenses/adjustments related to its acquisition. All such direct costs are capitalised when the tangible fixed assets are ready for use. Intangible assets relating to product development are recorded at actual cost incurred on the development of products and are capitalised once the products receive approval from relevant authorities and the same are carried at cost less accumulated amortisation.

1.03 Depreciation and amortisation

- (a) Depreciation on tangible assets has been calculated in accordance with the revised Schedule XIV of the Companies Act, 1956:
 - (i) All assets (except leasehold interest): On written down value basis.
 - (ii) Lease hold land: On straight line basis over the period of lease.
 - (iii) Intangible assets: Over a period of approximately four years.
- (b) Depreciation on additions to fixed assets during the current year are charged on pro-rata basis, for the period of use.
- (c) Depreciation methods, useful lives and residual values of fixed assets are reviewed at each reporting date.

1.04 Impairment of assets

An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

1.05 Investments

Valued at cost inclusive of dividend re-invested thereon (where applicable).

1.06 Inventories

- (a) Traded goods, raw materials and packing materials: At cost or net realisable value, whichever is lower.
- (b) Process stock: At cost or estimated realisable value, whichever is lower and
- (c) Finished goods: At cost or net realisable value, whichever is lower and are inclusive of cenvat thereon.
Note: Cost is determined on a weighted average basis.

1.07 Employee benefits

- (a) Gratuity: The Company has computed its liability towards future payments of gratuity to employees, on actuarial basis and the charge for current year is debited to the Statement of Profit and Loss.
- (b) Superannuation: The Company contributes towards superannuation fund, for future payment of retirement benefits to employees. The contributions accruing during each year are charged to the Statement of Profit and Loss.

- (d) Provident fund: Employer's contribution to provident fund is charged to the Statement of Profit and Loss.

SIGNIFICANT ACCOUNTING POLICIES

1.08 Foreign currency transactions

Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of the transaction or that approximates the actual rate on the date of the transaction. Any income or expense on account of exchange difference, either on settlement or on translation is recognised in the Statement of Profit and Loss. Assets and liabilities in foreign currencies are restated at the year-end exchange rates.

1.09 Leases

Lease rental payments under operating lease are recognised as an expense on straight line basis in the Statement of Profit and Loss over the lease term.

1.10 Taxes on income

- Current tax: Provision for current tax is made based on tax liability computed after considering tax allowances and exemptions.
- Deferred tax: Provision for deferred tax is made using the applicable rate of taxation, for all timing differences, which arise during a year and are reversed in subsequent periods.

1.11 Provisions and contingent liabilities

Based on the best estimate of the Management, provisions are determined on the outflow of economic benefits, which are required to settle obligations, as at the reporting date. Where no reliable estimate can be made, a disclosure is made as contingent liability. Disclosure for contingent liability is also made when there is a possible obligation that may, but probably will not, require an outflow of the Company's resources.

(a) Segment policies

Revenues and identifiable operating expenses in relation to the segments are categorised based on items that are individually identifiable to that segment. The accounting policies adopted for segment reporting are in line with accounting policies adopted by the Company for the purpose of financial statements.

(b) Business segments

For Management reporting purpose, the Company is organised in to two major operating segments:
