CHAIRMAN'S MESSAGE

Dear Stakeholders,

I am pleased to share that your company has done well in a volatile global environment in the year gone by. In FY 2025, your company delivered revenue of ₹30,489.24 Lakhs at an operating margin of approximately 6%.

The global environment continues to evolve amidst several macroeconomic and geopolitical challenges. Conflicts like the ongoing Russia-Ukraine crisis, rising global inflation and fluctuating commodity prices have collectively contributed to a slowdown in global growth and increased uncertainty across industries. Despite this volatility, our resilience has been our strength.

Over the past three decades, OBCL has built a legacy rooted in unwavering commitment, perseverance and innovation. Our journey stands as a testament to what focused effort, ethical governance, and a future-ready mindset can accomplish. We are incredibly proud of our accomplishments but it is the road ahead that truly excites us. The future is filled with opportunities, and we remain determined to exceed expectations, every single time.

As we look towards 2025 and beyond, OBCL reaffirms its core values and strategic priorities. What has worked for us in the past, customer centricity, operational excellence and a culture of adaptability will continue to guide us forward. We aspire to remain not only a Provider of Choice, but also an Employer of Choice and an Investment of Choice, delivering consistent, long-term value to all our stakeholders.

The logistics sector, with its critical role in connecting global supply chains, is poised for a transformational phase. Digitization, sustainability and integrated logistics solutions will define the next era of growth and OBCL is well-positioned to lead from the front. Our focus on agility, data-driven decisions, and customer satisfaction will drive us through this exciting decade of expansion.

I would like to take this opportunity to thank every member of the OBCL family for their unwavering spirit and dedication. Your hard work fuels our growth. I also extend a warm welcome to all the new members who have recently joined us together, we are stronger.

To our valued stakeholders thank you for your continued trust, guidance and support. Our ambitious growth trajectory is not just powered by visionary leadership, but also by the strong ecosystem of customers and partners who believe in our purpose.

The future is bright and we are ready. With a shared vision and collective commitment, we look forward to scaling new heights and creating sustainable value for generations to come.

Heartfelt Wishes, Gopal Kumar Agrawalla Chairman & Non-Executive Director

MESSAGE FROM THE MANAGING DIRECTOR

Dear Stakeholders, Greetings to you all!

I trust this letter finds you in good health and high spirits. It is with great pleasure and a deep sense of responsibility that I write to you as the Managing Director of Orissa Bengal Carrier Limited, presenting your Company's 30th Annual Report for the Financial Year 2024–25.

I am pleased to share that, once again, OBCL has delivered a consistent and resilient performance, backed by a solid set of financial results. Our revenues and margins have shown healthy momentum across all business divisions, reinforcing our unwavering commitment to operational excellence and value creation.

During the year under review, increased Government spending on infrastructure projects significantly boosted the movement of raw materials, driving a surge in demand for our surface transportation services. We were able to respond efficiently by optimally balancing growth and margins across our domestic operations, which further strengthened our operational efficiency.

Performance Highlights for FY 2024–25:

- Revenue from operations stood at ₹30,489.24 Lakhs
- EBITDA was recorded at ₹201.41 Lakhs
- Profit After Tax (PAT) stood at ₹107.94 Lakhs

At OBCL, our stakeholders are at the heart of everything we do. We are committed to their well-being and have taken all possible steps to ensure consistent engagement, support and transparency throughout our operations. Our stakeholder-centric approach reflects in the efforts we have undertaken to understand their expectations and address their concerns meaningfully.

We have also embedded sustainability into our core value creation process. By integrating responsible business practices with profitability, we aim to build a more transparent, accountable and future-ready organization. Our initiatives are aligned with our broader commitment to community welfare, environmental responsibility and inclusive growth.

Looking ahead, we remain highly optimistic about the medium to long-term prospects of the Company. Over the past few years, OBCL has taken concrete steps to fortify its business fundamentals strengthening operational controls, enhancing service delivery and building a more agile and responsive logistics network. With India's economy projected to grow robustly in the years ahead, we believe OBCL is well-positioned to capitalize on emerging opportunities and enter a multi-year cycle of sustained growth.

In closing, I express my heartfelt gratitude to all our shareholders, customers, employees, partners and regulators for your continued trust, belief and support. Your encouragement fuels our journey forward, and we look forward to achieving many more milestones together.

ANNEXURE-6 TO BOARD'S REPORT

Management Discussion and Analysis Report

1. INDUSTRY STRUCTURE AND DEVELOPMENTS:

LOGISTICS-GLOBAL VIEW

"The Global Logistics Market was valued at USD 3931.8 Billion in 2024 with a projected CAGR of 7.2% from 2025 to 2030."

Global Logistics Industry includes all activities of the supply chain such as transportation, customer service, inventory management, flow of information and order processing. Other activities of the supply chain are warehousing, material handling, purchasing, packaging, information dissemination and maintenance among others.

In 2024, the global economy navigated moderate growth amidst persistent inflationary pressures and geopolitical instability. A year marked by significant global elections, the immediate impact of which is evident, while long-term effects remain to be seen, added another layer of complexity. Monetary policy, particularly interest rate adjustments in major economies, remained a central focus. Trade tensions and supply chain disruptions continued to strain global commerce and investment, while geopolitical volatility persisted. Concurrently, technological advancements, especially in AI and renewable energy, presented both significant opportunities for productivity gains and challenges related to workforce adaptation.

Looking ahead, the global economy in 2025 is projected to grow at a low but steady rate of 2.8%. The persistent conflict between Russia and Ukraine implicates the financial system. Commodity prices pose challenging trade-offs for central banks. Many emerging and frontier markets are facing especially difficult conditions. In China, financial vulnerabilities remain elevated amid ongoing stress in the property sector and new COVID-19 outbreaks. Bank holdings of domestic sovereign bonds have surged in emerging markets during the pandemic.

During the fiscal year 2024–25, the global freight transport and logistics landscape experienced significant turbulence, driven by a complex interplay of geopolitical, economic, environmental and technological forces. These factors not only disrupted established supply chains but also accelerated long-term trends toward digital transformation and sustainability. This report examines the key drivers of change and assesses their cascading impacts on freight operations worldwide.

Sustained conflicts in critical maritime chokepoints, such as the Red Sea, resulted in the rerouting of vessels. Trade dynamics were further complicated by an escalation of U.S.—China trade tensions. Renewed and sometimes extreme tariff policies (peaking at levels nearing 145% on certain goods) led to sudden cancellations of shipments. The logistics sector also experienced significant labour unrest. Widespread strikes at major U.S. ports, especially along the East and Gulf Coasts, led to stoppages that affected trade valued in the billions of dollars.

In parallel with regulatory mandates, the push for technological innovation supported the shift toward greener logistics. Advanced technologies such as artificial intelligence (AI), the Internet of Things (IoT), blockchain for enhanced tracking, and the use of autonomous vehicles contributed by streamlining operations and improving supply chain visibility.

The fiscal years 2024–25 were marked by a convergence of disruptive forces that reshaped the landscape of global freight transport and logistics. Geopolitical conflicts, trade tensions, labour disputes and environmental challenges compounded existing market pressures, while rapid technological adoption and strategic reconfigurations offered a path toward resilience.

LOGISTICS OVERVIEW-INDIA

"India is world's fifth largest economy by nominal GDP and is one of the fastest-growing economies globally. Indian logistics market size reached USD 282.3 Billion in 2023."

Efficient logistics is the bedrock of a growing economy like India. Reducing logistics costs is a key enabler for enhancing the competitiveness of all sectors, from manufacturing to agriculture and services. As India aims to become a USD 5 Trillion economy, improving supply chain efficiencies and reducing logistics overheads are fundamental to realizing this vision, as set by the Hon'ble Prime Minister.

As per the latest estimates for FY 2024–25, India's logistics cost is approx. 13.5-14% of GDP, marginally improved from previous years but still significantly higher compared to developed economies, where logistics costs range between 8–10% of GDP.

While comparable with other developing countries, the elevated cost base constrains India's global competitiveness.

Key structural inefficiencies persist, including:

- Sub-optimal modal mix with excessive reliance on road transport
- Fragmented regulatory and institutional frameworks
- Warehousing and packaging losses
- Shortage of skilled manpower and sub-optimal fleet capacity
- Inadequate intermodal and last-mile connectivity infrastructure

Key Infrastructure Development Projects

Initiative	Description	Status	
Sagarmala	Modernization of ports and coastal shipping	Over 230 projects completed; ~₹1.2 lakh crore invested	
Bharatmala	Highway development & economic corridors	Over 50,000 km sanctioned; ~12,000 km completed	
Dedicated Freight Corridors (DFCs)	Rail freight corridors across major routes	Eastern & Western DFCs are 90% operational	
PM Gati Shakti – National Master Plan	Integration of all logistics & infra plans	Digital platform launched; 1600+ projects mapped	

Regulatory & Digital reforms such as E-Sanchit, Turant Customs, FASTag and Unified Logistics Interface Platform (ULIP) proved to be a game changer by improving logistics visibility multifold, cutting down expensive delays and transports costs and enhancing enterprise efficiency.

As India continues its growth trajectory, logistics will be a decisive factor in determining the nation's ability to attract investment, facilitate trade and become a global manufacturing and innovation hub. A coordinated approach involving infrastructure investment, institutional reform, and state-level action is essential to building a future-ready, cost-effective and sustainable logistics ecosystem.

INITIATIVES UNDERTAKEN BY CHHATTISGARH GOVERNMENT

"Chhattisgarh has been categorized as an Aspirer in LEADS 2024 in the Landlocked category."

The state's performance in reasonableness of Road Freight Rates and Prices of Terminal Services remains notably weak. A few positive initiatives taken by the State include providing regulatory clearances under single window mechanism and presence of a grievances redressal mechanism for the sector.

State policy for logistics:

New Industrial Policy (2024–30) was notified on February 27, 2025, effective November 01, 2024 to March 31, 2030, explicitly promoting logistics infrastructure which offers incentives such as:

- Stamp-duty waivers
- **♣** Interest and capital subsidies
- ♣ Vehicle purchase subsidies
- **♣** SGST reimbursement up to 75% of FCI for MSMEs

Additionally, logistics park incentives include duty exemptions, EPF grants, training reimbursements and infrastructure subsidies under the older policy.

Institutional mechanism for logistics implementation:

- ♣ Institute of Driver Training & Research (IDTR) provides professional upskilling through simulators and workshops to improve driver standards.
- ♣ The State has initiated the institutional setup for logistics by appointing a nodal officer for logistics.

<u>Infrastructure & Connectivity Projects:</u>

- ♣ Raipur—Visakhapatnam Expressway (464 km/6-lane)-to improve connectivity to Visakhapatnam Port; expected to be operational by 2025.
- ♣ Raipur—Ranchi—Dhanbad Expressway (707 km/4-lane) under Bharatmala Pariyojana to link coal belts and industrial areas; nearing implementation.
- ♣ Chhattisgarh allocated ₹9,500 Crore for infrastructure in FY 2025–26, including ₹2,000 Cr for new roads and ADB-backed upgrades in tribal areas.
- ♣ Expansion of state highway and district road network from 1100 km to a targeted 2,500 km by 2030 to support logistics flow.

Digital Platforms & Governance:

- ♣ Single Window System 2.0 rolled out, digitizing approvals from 16 departments and streamlining permits and clearances.
- ♣ ULIP Implementation continued, integrating real-time logistics visibility, ministry data exchanges, and unified documentation platforms.
- ▶ VAHAN and SAARTHI systems fully operational statewide, reducing bottlenecks in vehicle registration and driver licensing.

Green Logistics & Innovation:

- ♣ India's first hydrogen fuel-cell truck was launched at the Gare Pelma III coal block, in partnership with Adani, to reduce diesel usage and emissions.
- ♣ Special 5% incentives were introduced for adoption of digital logistics systems, renewable technologies and waste management solutions.

We believe that our management team's experience and their understanding of our business and industry will enable us to continue to take advantage of both current and future market opportunities. Our experience together with our consistent and successful track record of timely delivery and customer satisfaction provides us a competitive edge.

Segment-wise or product-wise performance

The 2 reportable segments of the Company during the year ended March 31, 2025 are:

- a. **Road Transportation Service**: comprises truckload delivery services through its owned and hired vehicles provided to clients across various industries.
- b. **Trading Business**: Comprises the trading of various items like coal, sand, iron & steel etc. and its sales to various domestic parties.

During the year under review, the net segment revenue from Road Transportation Service was Rs. 30489.24 Lakhs and Rs. 3395.71 Lakhs from Trading Business.

DETAILS OF OUR BUSINESS

Branch Distribution Network

Our Distribution Network having 39 branches spread in various parts of India and providing services across all cities of India. It enables us to cater to a diverse mix of customers including corporate, small and other enterprises, distributors and traders. Our Registered Office is located in Raipur, Chhattisgarh. Our large geographic coverage and operational network enable us to further integrate our operations, increase cost efficiencies and increase freight volumes.

Our Business Model

Our Company is maintaining its own fleet containing 83 commercial vehicles which includes trucks and trailers. In addition to this we hire around 18,000 vehicles from local market in the area from where service is to be provided which ensures timely arrangement of vehicle at our customer place. Therefore, the mix of our own fleet and vehicle hired by us for providing transportation services enables us to provide effective and exceptional services to our customer. The fleet operates across the country ensuring nation-wide services to our corporate and government customers. The specification of vehicle depends on the type of service required by our customer.

Our truck load delivery services operate through a hub-and-spoke model which enables us to transport goods and provide our customers access to multiple destinations for booking and delivery of goods. Our routes of

operation for the transportation of goods connect various regions in India i.e., western & eastern regions and also southern & northern parts of India.

We believe that our differentiated service offerings, large integrated hub-and-spoke transportation network, commitment towards prompt and safe delivery of the goods and time bound services will enable us to develop our brand across India.

We work with clients to develop logistics solutions that meet their requirements.

For transportation services, we typically enter into time bound service contracts with our clients, which are renewed on regular basis as and when required. We offer flexibility in our contracts as our transportation contracts are usually customized according to certain terms, which may vary depending on whether we quote our prices on the basis of per truck (dedicated vehicles), per trip, per ton, per ton-per kilometer, overall project-based (optimization based, or cost savings based), cost-plus management fees or per unit transported, among others.

Competition

The goods transportation industry is unorganized, competitive and highly fragmented in India. We believe that the principal competitive factors include service quality, reliability, price and the availability and configuration of vehicles that are able to comprehensively address varying requirements of different customer segments and specific customer needs. Being IBA Approved, we get an edge over other unorganized and Non IBA Approved transporters. We believe that our ability to compete effectively is primarily dependent on ensuring consistent service quality and timely services at competitive prices, thereby strengthening our brand over the years.

BUSINESS OPPORTUNITIES & STRENGTH:

Pan-India surface logistics services provider

We are a pan-India surface logistics service provider and we believe that we are one of the reliable transporters in and across India. We are an established entity in the transportation industry in India with over 30 years of operations. We believe that our dedication towards quality, reliability and timeliness of services offered compete effectively with our competitors in the organized as well as unorganized sector, thereby strengthening our name over the years.

Experienced and motivated management team

Our Promoters are engaged in the business of Transport and Logistics for more than 30 years which gives us the advantage of developing our presence, relationship with our customers, and cordial relationship with our drivers and other employees. We also have a dedicated and experienced management team who are in charge of operation, quality management and delivery to each of our customers and functions well as a team along with the expertise and vision to expand our business.

We believe that our management team's experience and their understanding of our business and industry will enable us to continue to take advantage of both current and future market opportunities. Our experience together with our consistent and successful track record of timely delivery and customer satisfaction provides us a competitive edge.

Established Marketing Setup

Marketing is an important function of our organization. We provide our service throughout India, based on strength of relationship with our customers who have been associated with our Company for a long period. Our promoters along with the marketing team play an important role for timely and quality delivery of services. To retain our customers, our marketing team regularly interacts with them and focuses on gaining an insight into the services and other additional needs of such customers.

Diversified Customer Base

We serve customers across several industry sectors viz. Metal, Steel, coal, aluminum, cement, petrochemicals, paper, marble, tiles, infra, textile, FMCG etc.

Quality of Services

We adhere to quality standards as per industry standards, hence, we get repetitive work order from our customers, as we believe we are capable of meeting their quality standards at competitive costs, which enables us to maintain our brand image in the market.

Strategic location

We are headquartered in Chhattisgarh which contributes approximately 30.00% to India's steel/sponge iron production, 20.00% cement in India's production, so there are large number of steel and cement industry in our belt providing us a benefit to easily cater them the services they need to transport goods to other required location.

Augment our fund-based capacities in order to scale up business operation

Our business operations are working capital intensive. In order to effectively expand our business arenas/ services and also diversify the operating routes in various geographical locations, along with the existing facilities we need to have access to a larger amount of liquid funds and sufficient working capital. We expect to increase our volumes, revenues and scale of operations and we will require substantial working capital for the same. It is hence our strategy to raise funds from this issue and augment our fund based working capital capabilities.

Increase our goods transportation network

We are expanding our goods transportation network across Northern, Central, and Eastern India while enhancing depth in existing regions.

THREATS & RISKS:

Need for Integrated Logistics Infrastructure

India's logistics sector remains highly unorganised, with many small, independent operators across the supply chain. This lack of integration leads to inefficient resource use, limited standardisation and poor coordination among stakeholders. Adopting digital platforms and developing logistics parks and hubs can drive consolidation, streamline processes, enhance efficiency and reduce costs through scale benefits.

Impact of Volatile Fuel Prices on Logistics

Fuel makes up a major part of transportation costs for logistics providers. Since India relies heavily on imported crude oil, global price changes directly affect domestic diesel costs. These fuel price fluctuations significantly impact industry margins, affecting all stakeholders in the supply chain. Sharp increases in prices can disrupt operations, forcing logistics companies to either raise charges or absorb losses. On the other hand, sudden drops in fuel costs may temporarily boost profits and lead to intense market competition. To manage this risk, many logistics firms link customer contracts to fuel price variations.

Addressing Truck Driver Shortage

The trucking profession often appears unattractive to potential drivers due to safety concerns, tough working conditions, irregular hours and extended time away from home. However, improvements in road infrastructure and the adoption of safety-enhancing technologies are gradually making the profession safer and more sustainable, leading to better working conditions for drivers.

Enhancing Last-Mile Delivery Efficiency

The last-mile segment of the logistics chain presents persistent challenges, including limited manpower, inadequate road infrastructure, traffic congestion, inaccurate address mapping and weather-related disruptions. These factors contribute to delivery delays, increased operational costs, and reduced customer satisfaction particularly for sectors like e-commerce and FMCG, which heavily rely on timely and efficient deliveries.

To address these issues, logistics providers are increasingly adopting digital mapping technologies, exploring alternative delivery modes.

Geopolitical and Socio-Political Risks

Events such as war at international borders, terrorist attacks, civil unrest or communal disturbances, whether in India or globally may significantly impact financial markets. Any major hostilities involving India or key global economies, or other acts of violence beyond our control, could materially affect investor sentiment and economic stability. Such events often lead to heightened market volatility, which in turn could adversely impact the price of our equity shares.

Regulatory and Legal Uncertainties

Changes in laws, regulations or tax policies and their adverse interpretation, may increase compliance burdens, operational costs or liabilities. Such legal uncertainties could negatively impact our business performance, reduce demand for our services, and affect our financial condition, results of operations and overall growth prospects.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The Company has established adequate internal control systems commensurate with its size and business nature, covering inventory, fixed assets and sale of goods and services. These systems ensure that all assets are safeguarded against unauthorized use or disposition and that all transactions are properly authorized, recorded and reported.

A robust internal audit mechanism supports effective implementation of corporate policies related to financial reporting, accounting and information security. The Audit Committee oversees internal controls, reviews their adequacy and provides regular recommendations.

To further strengthen operational integrity, the Company has appointed M/s. RA Agrawal & Associates as Internal Auditors for comprehensive departmental reviews.

Additionally, under the "One Company One Software" policy, the Company has implemented *Lozics* software to enhance security and streamline financial processes.

Key features include:

- Restricted access-only authorized personnel can modify entries
- **♣** Simplified verification and audit processes.
- **♣** Regular employee training for smooth adoption.
- Proven reliability-already used by 100+ logistics companies.

These measures collectively enhance operational transparency, accuracy and data security across the organization.

FINANCIAL PERFORMANCE AND FUTURE OUTLOOK:

Financial performance with respect to operational performance

During the year under review, the Company recorded a Revenue from Operations of ₹30,489.24 Lakhs and a Net Profit After Tax of ₹107.94 Lakhs, compared to ₹33,279.82 Lakhs and ₹368.62 Lakhs respectively in the previous year. The Profit Before Tax as a percentage of Revenue from Operations stood at 0.66% for FY 2024-25, as against 1.64% in the previous year.

To enhance revenue in the coming years, OBCL is exploring opportunities in untapped sectors of the transport industry. Additionally, a new software platform is under development to onboard over 10,000 commercial transport vehicles, which is expected to significantly boost operations and competitiveness.

The Board is optimistic about long-term growth in the transport sector and is confident in the Company's potential to capitalize on emerging opportunities. The Management remains committed to improving profitability and ensuring sustainable growth in the forthcoming financial years.

Events occurring after the balance sheet date

There are no transactions of material nature that have occurred after March 31, 2025, which could have any impact on the financial performance of the Company for the year 2024-25.

Human Resources

We consider our employees vital to our success and strategy. As of March 31, 2025, we had 147 employees across India. Our administrative team supports key functions like planning, IT, HR and finance, while our decentralized management enables timely decisions. Driver recruitment, training, and retention are crucial to our growth. We offer comfortable equipment, performance-based incentives, safety rewards, and direct communication with senior management, fostering a motivated workforce committed to operational excellence and customer satisfaction.

CORPORATE GOVERNANCE REPORT

ANNEXURE 7(i) TO BOARD'S REPORT

CORPORATE GOVERNANCE REPORT

1. <u>COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE</u>

At Orissa Bengal Carrier Limited (OBCL), we uphold a tradition of outstanding governance, established by our visionary founders which is seamlessly integrated into our daily operations. BOARD MEETINGS

Schedule of Board/Committee meetings

The dates of the Board, Committee and the Annual General Meeting are proposed in advance. The Company Secretary attends all Board meetings and generally assists Directors in the discharge of their duties and also ensures good information flow within the Board and between the Board and Senior Management. In addition, the Company Secretary attends to secretarial and Board governance matters and is responsible for ensuring that Board procedures are followed properly.

Voting on a resolution in the meeting of the Governing Board is valid only when the Independent Directors have cast their vote on such resolution.

Board Agenda

The Board agenda is prepared by the Company Secretary and are finalised in consultation with the MD. The Board agenda and notes thereof are ordinarily sent to the Directors in advance to enable them to read and comprehend the matters to be dealt with and seek further information/clarification, if required.

The agenda of the Board meetings is managed in such a way that it allows for flexibility when it is needed. Directors are provided with complete information related to agenda items in a timely manner. Wherever it is not practicable to attach any document to the agenda, the same is tabled before the meeting with specific reference to this effect in the agenda. In special and exceptional circumstances, additional or supplementary items on the agenda are permitted after obtaining permission of the Chairman of the Board Meeting and with the concurrence of the Independent Directors.

The Board has chosen to receive all its agenda papers electronically for all its Board and Committee meetings and has eliminated the need for hard copy of Agenda Papers. However, the hard copy of the Board agenda papers is sent to the Directors at specific request by them.

At the quarterly Board meetings, the MD gives a comprehensive update on OBCL's business and operations. The CFO presents the financial performance and significant financial highlights. Certain business heads provide an update on their areas of business and Key Management Personnel are present at Board meetings, when required. Agenda also includes minutes of the meetings of all the Board and its Committees for the information of the Board.

For any business exigencies, the resolutions are passed by circulation and later placed at the subsequent Board/Committee Meeting for noting. The Chairpersons of various Board Committees brief the Board on all the important matters discussed and decided at their respective Committee meetings, which are generally held prior to the Board meeting.

The Company also provides regular updates to the Board members on material changes to regulatory requirements applicable to the Directors periodically.

The minutes of Board meetings are prepared with details of the matters considered by the Board and are reviewed by the Managing Director before being circulated to the other Directors for their comments.

Number of Board Meetings

The Board of Directors of the Company met Six (6) times during the year on the following dates: May 30, 2024, July 26, 2024, August 14, 2024, November 14, 2024, February 14, 2025 and March 31, 2025. The maximum gap between any two meetings was not more than one hundred and twenty days. The necessary quorum was present throughout all the meetings.

Separation of Offices of Chairman & Managing Director

The Company has been following the principle of separation of the role of Chairman and the Managing Director. Mr. Gopal Kumar Agrawalla is the Non-Executive Chairman of the Board. Mr. Ravi Agrawal is the Managing Director of the Company and is entrusted with the day-to-day management of the affairs of the Company. The Managing Director carries out his functions subject to superintendence, control and management of the Board of Directors of the Company.

INDEPENDENT AUDITORS' REPORT

TO,
THE MEMBERS,
M/s Orissa Bengal Carrier Limited

REPORT ON THE AUDIT OF CONSOLIDATED FINANCIAL STATEMENTS

OPINION

We have audited the accompanying consolidated financial statements of **Orissa Bengal Carrier Limited**, which comprise the Balance Sheet as at **31st March**, **2025**, the Statement of Profit & Loss and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the Accounting Principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, the profit and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

EMPHASIS OF MATTER

We draw attention to:

1. **Note No. 41** of Consolidated Ind-AS Financial Statement stating that balances of Trade Receivables, Deposits, Loans & Advances, Advances received from customers, Liability for expenses and Trade Payables are subject to confirmation from the respective parties and consequential reconciliation/adjustment arising there from, if any. The management however do not expect any material variation on the same.

We do not modify our opinion in respect of this matter.

2. **Note No. 42** of Consolidated Ind-AS Financial Statement stating that the balances of trade payables & sundry creditors may also include the balances which are payable to micro and small enterprises. However, the management does not have ready information with regard to categorization of small and micro enterprises. Further, as per Finance Act, 2023 payments of MSME dues (micro and small) are covered within the ambit of Section 43B(h) of Income Tax Act' 1961. Hence, any such dues outstanding of the same shall be allowed as expense only when payments to such entities are made within the defined time period. The management however do not expect any significant dues to such entities.

We do not modify our opinion in respect of this matter.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

A) Revenue Recognition

The Key Audit Matter <u>Completeness of revenue recognized for</u> service rendered:

The Company engaged in providing goods transportation services through company owned fleet as well as through external fleet to the customers throughout India. The Company recognizes "Revenue" on rendering of services and the related liability towards its venders.

Whilst the Company is able to track the physical consignments and location of each shipment through own fleet by using GPS and software and for external fleet through the fleet owner, the details of each shipment showing inter-alia its start date, delivery date, date of receiving the proof of delivery (POD) and date of recognising revenue is recorded electronically in accounting software.

Management ensures satisfaction of the performance obligation at the reporting date and completeness and accuracy of data entered electronically, which is basis of recording of costs and related revenues. Since the management ensures accuracy and completeness of performance obligation electronically, recognition of revenue related to transportation service business is considered a key audit matter.

How the matter addressed in our audit

Our audit procedure includes:

We have tested the design, implementation and operating effectiveness of internal controls over judgement exercised over the following as well as their operating effectiveness:

- a. Determination of performance obligations, transaction price and the allocation thereof.
- b. Control over the determination of the estimates used as well as their operating effectiveness.

We have tested the relevant controls relating to contracts and related information used in recording and disclosing revenue in accordance with the revenue accounting standard.

We have tested relevant controls related to recognition of revenue, to ensure that accrual of revenue is made for each completed service.

We obtained, on sample basis, direct confirmation from Vendors and customers for outstanding balances.

We also performed substantive testing by selecting samples of revenue transactions recorded during the year by verifying the underlying documents, which included goods dispatch notes and shipping documents. We have also tested samples of direct costs to ensure that all expenses have corresponding revenue by verifying the consignment note/date of receiving the proof of delivery (POD).

Employee benefits – actuarial assumptions:

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees or for the termination of employment.

The net defined benefit liability (asset) is the deficit or surplus, adjusted for any effect of limiting a net defined benefit asset to the asset ceiling.

The deficit or surplus is: the present value of the defined benefit obligation less

(b) the fair value of plan assets.

The present value of a defined benefit obligation is the present value, without deducting any plan assets, of expected future payments required to settle the obligation resulting from employee service in the current and prior periods.

Accounting for defined benefit plans is complex because actuarial assumptions are required to measure the obligation and the expense and there is a possibility of actuarial gains and losses. Moreover, the obligations are measured on a discounted basis because they may be settled many years after the employees render the related service.

Due to the above-mentioned requirements employee benefits is considered as key audit matter by us.

Our audit procedure includes:

The procedures performed by the auditor reported by them, included the following:

- Reconciled the underlying data used by the Company's Appointed Actuary (the "Appointed Actuary) with the trial balance and the data obtained by us from the policy administration system to ensure completeness.
- Understood from the Appointed Actuary the assumptions used and the basis for the same to evaluate these assumptions with the available peer details.
- Assessed the Company's methodology for settlement of employees benefits against recognized actuarial practices.
- Obtained and reconciled the provision amount with the Appointed Actuary's certificate in this regard.
- Grossing up and classification of the Plan Assets; and
- Liability adequacy test as at the reporting dates.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

a. The Company's Board of Directors is responsible for the preparation and presentation of its report (herein after called as "Board Report") which comprises various information required under section 134(3) of the Companies Act' 2013 but does not include the financial statements and our auditor's report there on.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

b. In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent, and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

<u>AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS</u>

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

i. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis

for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- ii. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable users of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

OTHER MATTERS

The accompanying Consolidated Financial Statement includes the audited consolidated financial results in respect of its subsidiary company whose consolidated financial results reflect total assets of Rs. 2,466.84 lakhs as at 31st March, 2025 and total net profit after tax of Rs. 123.30 lakhs and total comprehensive income of Rs. 123.30 lakhs for the period from June 04, 2024 to March 31, 2025, as considered in the consolidated audited financial results which has been audited by us i.e., M/s Agrawal Mahendra & Co.

 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial control over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended: The said provision is not applicable to the company.
 - In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 read with Schedule V of the Act.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact, of pending litigations as at March 31, 2025 on its financial position in its Consolidated financial statements Refer Note 30;
 - ii. The Company did not have any long-term contracts including derivative contracts as at March 31, 2025:
 - iii. There were no amounts which were required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2025;
 - iv. (a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to

or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (b) The management has represented, that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- v. No Dividend have been declared or paid during the year by the company.
- vi. Based on our examination carried out in accordance with the Implementation Guidance on Reporting on Audit Trail under Rule 11(g) of the Companies (Audit and Auditors) Rules,2014 (Revised 2024 Edition) issued by the Institute of Chartered Accountants of India, which included test checks, we report that the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

Additionally, the audit trail has been preserved by the company as per the statutory requirements for record retention. Our examination of the audit trail was in the context of an audit of financial statements carried out in accordance with the Standard of Auditing and only to the extent required by Rule 11(g) of the Companies (Audit and Auditors) Rules,2014. We have not carried out any audit or examination of the audit trail beyond the matters required by the aforesaid Rule 11(g) nor have we carried out any standalone audit or examination of the audit trail.

"Annexure A" to the Independent Auditor's Report of even date on the Consolidated Financial Statements of ORISSA BENGAL CARRIER LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **ORISSA BENGAL CARRIER LIMITED** as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ORISSA BENGAL CARRIER LIMITED

Schedules forming part of the Consolidated Financial Statements

1. Corporate information

Orissa Bengal Carrier Limited is a public company domiciled in India and incorporated under the provisions of the Companies Act,1956. The company is engaged in Transportation activities. The Company got listed with BSE Limited on SME platform on April 05, 2018 and migrated to Main Board of BSE & NSE Limited on dt. 07.04.2022.

2. Basis of preparation

a) Statement of compliance:

These Consolidated financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), other relevant provisions of the Act and other accounting principles generally accepted in India.

b) Basis of Preparation:

The Consolidated financial statements have been prepared on a historical cost convention, except for followings:-

- a) Certain financial assets and financial liabilities that are measured at fair value as required under relevant Ind AS
- b) Defined Benefit Plans plan assets measured at fair value

c) Significant accounting judgements, estimates and assumptions

The preparation of the company's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

d) Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumptions when they occur.

i. Taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

ii. Employee benefit plans

The cost of the defined benefit gratuity plan, other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

iii. Contingencies

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal, contractor and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgement and the use of estimates regarding the outcome of future events.

iv. Property Plant and Equipment

Useful lives and residual values are determined by the management at the time the asset is acquired and reviewed at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

3. Significant accounting policies

3.1. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- ▶ Expected to be realised or intended to be sold or consumed in normal operating cycle
- ► Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- ► Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- ► It is expected to be settled in normal operating cycle
- ► It is held primarily for the purpose of trading
- ▶ It is due to be settled within twelve months after the reporting period, or
- ▶ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

3.2. Property, Plant & Equipment

Recognition and initial measurement

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company.

All other repair and maintenance costs are recognized in statement of profit or loss as incurred.

Subsequent measurement (depreciation and useful lives)

Property, plant and equipment are subsequently measured at cost less accumulated depreciation and impairment losses, if any.

Depreciation on property, plant and equipment has been provided using written down value method using rates determined based on management's assessment of useful economic lives of the asset.

Followings are the estimated useful lives of various category of assets used which are aligned with useful lives defined in schedule II of Companies Act, 2013:

Office Building 60 Years Office Building (RCC Structure) 30 Years Furniture & Fixture 10 Years Vehicles (Four Wheeler) 8 Years Vehicles (Two Wheeler) 10 Years 5 Years Office Equipment Electricals & Fittings 10 Years Computers 3 Years Truck & Trailors 8 Years

Truck & Trailors 12 Years (Acquired on or after 01.04.2024)

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Derecognition:

An item of property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the statement of profit

and loss, when the asset is de-recognized.

Capital work-in-progress (CWIP)

Cost of property, plant and equipment not ready for use as at the reporting date are disclosed as capital work-in progress.

Intangible Assets

Recognition and initial measurement

Intangible assets acquired separately are measured on initial recognition at cost.

Subsequent measurement (amortization and useful lives)

Following initial recognition, Intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

Intangible assets with finite useful lives are amortised on a WDV basis over their estimated useful lives. The amortization period, residual value and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Intangibles with indefinite useful lives are not amortised but tested for impairment by comparing its recoverable amount with its carrying amount-

- annually and,
- whenever there is an indication that the intangible asset may be impaired.

Amortization on software is charged on straight line method taking the useful life of the same as three years from the month of acquisition.

3.3. Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets to determine whether there is any indication of impairment. If any such indication of impairment exists, then the asset's recoverable amount is estimated. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash generating units (CGUs).

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3.4. Provisions, Contingent Liabilities And Contingent Assets

Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Company expects some or all of a provision to be reimbursed, reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in respective expense.

Contingent Liabilities and Contingent Assets

Contingent liabilities are not recognized but are disclosed in the notes. Contingent Assets are neither recognized nor disclosed in the financial statements.

3.5. Income tax Current tax:

Provision for current tax is made as per the provisions Sec 115BAA of the Income Tax Act, 1961.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax:

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxation authority.

3.6. Employee Benefits

Short-term Employee Benefits:

Employee benefit liabilities such as salaries, wages and bonus, etc. that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at an undiscounted amount expected to be paid when the liabilities are settled."

Post-employment benefit plans:

Defined Contribution Plans:

State governed Provident Fund Scheme and Employees State Insurance Scheme are defined contribution plans. The contribution paid / payable under the schemes is recognised during the period in which the employees render the related services.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

The Company has defined benefit plan namely, Gratuity. The Company has also taken policy for all employees, except workers, with Life Insurance Corporation of India (LIC) to meet its obligation towards gratuity. Any differential between the fund amount as per LIC and the actuarial calculation is charged to revenue.

The Company net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in other comprehensive income (OCI). The Company determines the net interest expense/(income) on the net defined benefit liability/(asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit

liability/(asset), taking into account any changes in the net defined benefit liability/(asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

3.7. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ► In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to/ by the Company.

Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole;

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: valuation techniques for which the lowest level input that has a significant effect on the fair value measurement are observable, either directly or indirectly.

Level 3: valuation techniques for which the lowest level input which has a significant effect on the fair value measurement is not based on observable market data.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.8. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- ▶ Debt instruments at amortised cost The Company has cash & cash equivalents, loans and trade receivables classified within this category.
- ▶ Debt instruments at fair value through other comprehensive income (FVTOCI) The Company does not have any financial asset classified in this category.
- ▶ Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL) The Company has Investments in equity instruments classified in this category.
- ▶ Equity instruments measured at fair value through other comprehensive income (FVTOCI) The Company does not have any financial asset classified in this category.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation and losses arising from impairment are recognised in the Statement of Profit & Loss. The amortised cost of the financial asset is also adjusted for loss allowance, if any.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Company has not designated any such debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit & Loss.

Equity investments at FVTPL

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments held by company are classified as at FVTPL. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

Impairment of financial assets

In accordance with IndAS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

Financial assets that are debt instruments, and are measured at amortised cost e.g. Loans and trade receivables.

The company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables that do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

b) Financial liabilities

Initial recognition and measurement

All financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

All financial liabilities are initially measured at fair value deducted by, in the case of financial liabilities not recorded at fair value through profit or loss, transaction costs that are attributable to the liability.

Subsequent measurement

Financial liabilities are classified as measured at amortised cost using the effective interest method. The Company's financial liabilities include trade payables, borrowings and other financial liabilities.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as expense over the relevant period of the financial liability in the Statement of Profit and Loss.

Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the Balance Sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

3.9. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

3.10. Revenue Recognition

Revenue is recognised based to the extent it is probable that the economic benefit will flow to the company and revenue can be reliably measured regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excludes taxes & duties collected on behalf of the Government and is reduced for deductions, penalties and rebates or similar allowances deducted by customers.

Freight services

Freight income is accounted for on actual delivery of consignments by the Company to the customers and unqualified acknowledgements are obtained from them. Generally, the contracts are Fixed-price, thus the associated costs can be reliably measured. Freight and Vehicle Trip Expenses are accounted when vehicles deliver the consignments to the Company at destination. However, withholding taxes (TDS, TCS etc) are accounted for on receipt of corresponding payment or information of such deductions, whichever is earlier.

Loading & Unloading Charges

Revenue from loading and unloading charges is recognized when the related service is rendered to the customer and control over the service is transferred, in accordance with Ind AS 115. The income is recognized at the point in time when the performance obligation is satisfied, i.e., upon completion of the loading/unloading activity, and it is probable that economic benefits will flow to the entity and the amount of revenue can be reliably measured

Trading Activities

Revenue from sale of goods (such as Iron, Steel, Metal, Coal, River Sand and other trading commodities) is recognised when control of the goods is transferred to the customer, which generally coincides with dispatch or delivery, depending on the terms of the contract. The Company ensures that there is a clear evidence of sale, delivery of goods, and no continuing managerial involvement before recognising revenue.

Revenue is recognised only when it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably. Taxes such as VAT, GST, etc. collected on behalf of the government are not considered as part of revenue. Revenue is recognised net of such indirect taxes.

Interest income

Interest income on financial asset is recognised using the effective interest rate (EIR) method. EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset.

Other Income

Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

3.11. Earnings per share

Basic earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of equity shares.

3.12. Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

3.13. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The board of directors of the Company has been identified as being the chief operating decision maker by the Management of the company.

3.14. Foreign currency transactions

Transactions in foreign currencies are recorded by the Company entities at their respective functional currency at the exchange rates prevailing at the date of the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currency are translated to the functional currency at the exchange rates prevailing at the reporting date.

Non Monetary asset and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction

Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss with the exception that the exchange differences on foreign currency borrowings included in the borrowing cost when they are regarded as an adjustment to interest costs on those foreign currency borrowings;

3.15. Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets up to the assets are substantially ready for their intended use. The loan origination costs directly attributable to the acquisition of borrowings (e.g. loan processing fee, upfront fee) are amortised in the year in which they occur

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

a)Description of the type of the plan		
Defined Renefit Plan – Gratuity		

Defined Benefit Plan – Gratuity

The Company operates gratuity plan wherein every employee is entitled to the benefit equivalent to 15 days of total basic salary last drawn for each completed year of service. Gratuity is payable to all eligible employees of the Company on retirement, separation, death or permanent disablement, in terms of the provisions of the Payment of Gratuity Act, 1972.

Post-Employment Benefits plan typically expose the Company to actuarial risks such as: Salary increase, Discount rate, Morality and Disability and withdrawals

a) Salary Increases:— Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.

b) Discount Rate:- Reduction in discount rate in subsequent valuations can increase the plan's liability.

b)

- c) Mortality & disability:- Actual deaths & disability cases proving lower or higher than assumed in the valuation can impact the liabilities
- d) Withdrawals:- Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact Plan's liability.

The following tables set out the status of the gratuity plan, unavailed leave and amounts recognized in the

There were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

The carrying amounts of trade receivables, trade payables, cash and cash equivalents, loans & advances, other bank balances and other financial assets are considered to be the same as their fair values, due to their short-term nature.

The fair values of borrowings are based on discounted cash flows using a borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

35. Financial risk management objectives and policies

The Company's principal financial liabilities comprise of borrowings, trade payables and other payables etc. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets includes trade receivable, security deposit, loans and advances, cash and cash equivalents etc. that derive directly from its operations. The Company also holds investments in the form of quoted Equity shares that are measured at FVTPL and unquoted Equity shares measured at amortised cost.

The Company is exposed to market risk, credit risk and liquidity risk. The management oversees the management of these risks. The management is responsible for formulating an appropriate financial risk governance framework for the Company and periodically reviewing the same. The management ensures that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The management reviews and agrees policies for managing each of these risks, which are summarised below.

(a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, foreign currency risk and Equity price risk.

(i) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Since the Company has borrowings, therefore Company is exposed to such risk.

(ii) Foreign Currency Risk

The Indian Rupee is the Company's most significant currency. As a consequence, the Company's results are presented in Indian Rupee. So, the Company is not exposed to such risk.

(iii) Equity Price Risk

The Company's investment in shares are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the price risk through diversification and by placing limits on individual and total instruments. Reports on the portfolio are submitted to the management on a regular basis.

(b) Credit Risk

The maximum exposure to credit risks is represented by the total carrying amount of these financial assets in the balance sheet

	As at	As at
Particulars	March 31,	March 31, 2024
	2025	·

Trade receivables	8,943.22	7,075.02
Loans and Advances	605.14	340.02
Other financial assets	436.61	373.31

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

Credit risk arises mainly from loans, trade receivables and financial assets. The Company maintains a defined credit policy and monitors the exposures to these credit risks on an ongoing basis. None of the trade receivables are credit impaired as on reporting date.

On adoption of Ind AS 109, the Company uses expected credit loss model to assess the impairment loss or gain. Based on internal assessment which is driven by the historical experience/ current facts available in relation to default and delays in collection thereof, the expected credit loss for trade receivables is not significant.

The carrying amount of financial assets represents the maximum credit exposure. The Company monitors credit risk very closely. The Management impact analysis shows credit risk and impact assessment as low.

The Company's exposure to credit risk for trade receivables are as follows:

(c) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

INDEPENDENT AUDITORS' REPORT

To the Members of Orissa Bengal Carrier Limited

REPORT ON THE AUDIT OF STANDALONE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying standalone financial statements of **Orissa Bengal Carrier Limited**, which comprises of the Balance Sheet **as at March 31, 2025**, the statement of Profit & Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view, in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other Accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its profit, other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA" s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis of Matter

We draw attention to:

1. **Note No. 40** of Standalone Ind-AS Financial Statement stating that balances of Trade Receivables, Deposits, Loans & Advances, Advances received from customers, Liability for expenses and Trade Payables are subject to confirmation from the respective parties and consequential reconciliation/adjustment arising there from, if any. The management however do not expect any material variation on the same.

We do not modify our opinion in respect of this matter.

Note No. 41 of Standalone Ind-AS Financial Statement stating that the balances of trade payables & sundry creditors may also include the balances which are payable to micro and small enterprises. However, the management does not have ready information with regard to categorization of small and micro enterprises. Further, as per Finance Act, 2023 payments of MSME dues (micro and small) are covered within the ambit

of Section 43B(h) of Income Tax Act' 1961. Hence, any such dues outstanding of the same shall be allowed as expense only when payments to such entities are made within the defined time period. The management however do not expect any significant dues to such entities.

We do not modify our opinion in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

A) Revenue Recognition

The Key Audit Matter Completeness of revenue recognized for service rendered:

The Company engaged in providing goods transportation services through company owned fleet as well as through external fleet to the customers throughout India. The Company recognizes "Revenue" on rendering of services and the related liability towards its venders.

Whilst the Company is able to track the physical consignments and location of each shipment through own fleet by using GPS and software and for external fleet through the fleet owner, the details of each shipment showing inter-alia its start date, delivery date, date of receiving the proof of delivery (POD) and date of recognising revenue is recorded electronically in accounting software.

Management ensures satisfaction performance obligation at the reporting date and completeness and accuracy of data entered electronically, which is basis of recording of costs and related revenues. Since the management ensures accuracy and completeness performance obligation electronically, recognition of revenue related to transportation service business is considered a key audit matter.

How the matter addressed in our audit

Our audit procedure includes:

We have tested the design, implementation and operating effectiveness of internal controls over judgement exercised over the following as well as their operating effectiveness:

- a. Determination of performance obligations, transaction price and the allocation thereof.
- b. Control over the determination of the estimates used as well as their operating effectiveness.

We have tested the relevant controls relating to contracts and related information used in recording and disclosing revenue in accordance with the revenue accounting standard.

We have tested relevant controls related to recognition of revenue, to ensure that accrual of revenue is made for each completed service.

We obtained, on sample basis, direct confirmation from Vendors and customers for outstanding balances.

We also performed substantive testing by selecting samples of revenue transactions recorded during the year by verifying the underlying documents, which included goods dispatch notes and shipping documents.

We have also tested samples of direct costs to ensure that all expenses have corresponding revenue by verifying the consignment note/date of receiving the proof of delivery (POD).

Employee benefits – actuarial assumptions:

Employee benefits are all forms of consideration given by an entity in exchange for service rendered by employees or for the termination of employment.

The net defined benefit liability (asset) is the deficit or surplus, adjusted for any effect of limiting a net defined benefit asset to the asset ceiling.

The deficit or surplus is:

- (a) the present value of the defined benefit obligation less
- (b) the fair value of plan assets.

The present value of a defined benefit obligation is the present value, without deducting any plan assets, of expected future payments required to settle the obligation resulting from employee service in the current and prior periods.

Accounting for defined benefit plans is complex because actuarial assumptions are required to measure the obligation and the expense and there is a possibility of actuarial gains and losses. Moreover, the obligations are measured on a discounted basis because they may be settled many years after the employees render the related service.

Due to abovementioned requirements employee benefits is considered as key audit matter by us.

Our audit procedure includes:

The procedures performed by the auditor reported by them, included the following:

- Reconciled the underlying data used by the Company's Appointed Actuary (the "Appointed Actuary) with the trial balance and the data obtained by us from the policy administration system to ensure completeness.
- Understood from the Appointed Actuary the assumptions used and the basis for the same to evaluate these assumptions with the available peer details.
- Assessed the Company's methodology for settlement of employees benefits against recognized actuarial practices.
- Obtained and reconciled the provision amount with the Appointed Actuary's certificate in this regard.
- Grossing up and classification of the Plan Assets; and
- Liability adequacy test as at the reporting dates.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act,2013 ("the Act") with respect to the preparation and presentation of these financial statements to give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies(Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Director's are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statement in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1. As required by Section 143 (3) of the Act, we report that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standard) Rules, 2015 as amended.
- (e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.

- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial control over financial reporting.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 read with Schedule V of the Act.

- (h) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:
 - i. The Company has disclosed the impact, of pending litigations as at **March 31, 2025** on its financial position in its Standalone financial statements Refer Note 30;
 - ii. The Company did not have any long-term contracts including derivative contracts as at March 31, 2025;
 - iii. There were no amounts which were required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended **March 31, 2025**;
 - iv. Management Representation
- (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under subclause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
 - v. The Company has not declared or paid any dividends during the year.
 - vi. Based on our examination carried out in accordance with the Implementation Guidance on Reporting on Audit Trail under Rule 11(g) of the Companies (Audit and Auditors) Rules,2014 (Revised 2024 Edition) issued by the Institute of Chartered Accountants of India, which included test checks, we report that the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

Additionally, the audit trail has been preserved by the company as per the statutory requirements for record retention. Our examination of the audit trail was in the context of an audit of financial statements carried out in accordance with the Standard of Auditing and only to the extent required by Rule 11(g) of the Companies (Audit and Auditors) Rules,2014. We have not carried out any audit or examination of the audit trail beyond the matters required by the aforesaid Rule 11(g) nor have we carried out any standalone audit or examination of the audit trail.

2. As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

"Annexure A" to Independent Auditors' Report

(Referred to in paragraph 1(f) under "Report on Other Legal and Regulatory Requirements" section of our report to the members of ORISSA BENGAL CARRIER LIMITED of even date)

Report on the Internal Financial Controls Over Financial Reporting under clause (i) of sub section 3 of Section 143 of the Companies Act,2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Orissa Bengal Carrier Limited** ("the Company") as of **March 31, 2025** in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

ix.

(a) In our opinion and according to the information and explanations given to us, the company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender and hence reporting under clause 3(ix)(a) of the Order is not applicable.

- (b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
- (c) In our opinion and according to the information and explanations given to us, the Company has utilized the money obtained by way of term loans during the year for the purpose for which they were obtained.
- (d) On an overall examination of the standalone financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- (e) On an overall examination of the standalone financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.
- (f) The Company has not raised any loans during the year on pledge of securities held in its subsidiaries, joint ventures or associate companies and hence reporting on clause 3(ix)(f) of the Order is not applicable.

X

- (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.

xi.

- (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) We have taken into consideration the whistle blower complaints received by the Company during the year (and upto the date of this report), while determining the nature, timing and extent of our audit procedures.
- xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- xiii. In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable Indian accounting standards.

xiv.

- (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures
- xv. In our opinion during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

xvi.

(a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank

of India Act, 1934. Hence, reporting under clause 3(xvi)(a) and (b) of the Order are not applicable.

- (b) In our opinion, the Company is not a Core Investment Company (CIC). Hence, reporting under clause 3(xvi)(c) of the Order is not applicable.
- (c) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.

xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.

xviii. There has been no resignation of the statutory auditors of the Company during the year.

xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date.

We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

XX.

- (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of Section 135 of the said Act. Accordingly, reporting under clause 3(xx)(a) of the Order is not applicable for the year.
- (b) There were no ongoing projects, hence reporting under clause 3(xx)(b) of the Order is not applicable for the year.
- xxi. Reporting of Clause 3(xxi) in relation to qualifications or adverse remarks by the respective auditors in the Companies (Auditor's Report) Order (CARO) reports of the companies included in the consolidated financial statements is not applicable in case of financial statements.

ORISSA BENGAL CARRIER LIMITED

Schedules forming part of the Standalone Financial Statements

1. Corporate information

Orissa Bengal Carrier Limited is a public company domiciled in India and incorporated under the provisions of the Companies Act,1956. The company is engaged in Transportation activities. The Company got listed with BSE Limited on SME platform on April 05, 2018 and migrated to Main Board of BSE & NSE Limited on dt. 07.04.2022.

2. Basis of preparation

a) Statement of compliance:

These financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), other relevant provisions of the Act and other accounting principles generally accepted in India.

b) Basis of Preparation:

The financial statements have been prepared on a historical cost convention, except for followings:-

- a) Certain financial assets and financial liabilities that are measured at fair value as required under relevant Ind AS
- b) Defined Benefit Plans plan assets measured at fair value

c) Significant accounting judgements, estimates and assumptions

The preparation of the company's standalone financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

d) Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumptions when they occur.

i. Taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

ii. Employee benefit plans

The cost of the defined benefit gratuity plan, other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

iii. Contingencies

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal, contractor and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgement and the use of estimates regarding the outcome of future events.

iv. Property Plant and Equipment

Useful lives and residual values are determined by the management at the time the asset is acquired and reviewed at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

3. Significant accounting policies

3.1 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- ► Held primarily for the purpose of trading
- ► Expected to be realised within twelve months after the reporting period, or
- ► Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- ► It is expected to be settled in normal operating cycle
- ► It is held primarily for the purpose of trading
- ▶ It is due to be settled within twelve months after the reporting period, or
- ▶ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

3.2 Property, Plant & Equipment

Recognition and initial measurement

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company.

All other repair and maintenance costs are recognized in statement of profit or loss as incurred.

Subsequent measurement (depreciation and useful lives)

Property, plant and equipment are subsequently measured at cost less accumulated depreciation and impairment losses, if any.

Depreciation on property, plant and equipment has been provided using written down value method using rates determined based on management's assessment of useful economic lives of the asset.

Followings are the estimated useful lives of various category of assets used which are aligned with useful lives defined in schedule II of Companies Act, 2013:

Office Building 60 Years Office Building (RCC Structure) 30 Years Furniture & Fixture 10 Years Vehicles (Four Wheeler) 8 Years Vehicles (Two Wheeler) 10 Years Office Equipment 5 Years 10 Years Electricals & Fittings 3 Years Computers Truck & Trailors 8 Years

Truck & Trailors 12 Years (Acquired on or after 01.04.2024)

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Derecognition:

An item of property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the statement of profit and loss, when the asset is de-recognized.

Capital work-in-progress (CWIP)

Cost of property, plant and equipment not ready for use as at the reporting date are disclosed as capital work-in progress.

Intangible Assets

Recognition and initial measurement

Intangible assets acquired separately are measured on initial recognition at cost.

Subsequent measurement (amortization and useful lives)

Following initial recognition, Intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

Intangible assets with finite useful lives are amortised on a WDV basis over their estimated useful lives. The amortization period, residual value and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Intangibles with indefinite useful lives are not amortised but tested for impairment by comparing its recoverable amount with its carrying amount-

- annually and,
- whenever there is an indication that the intangible asset may be impaired."

Amortization on software is charged on straight line method taking the useful life of the same as three years from the month of acquisition.

3.3 Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets to determine whether there is any indication of impairment. If any such indication of impairment exists, then the asset's recoverable amount is estimated. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash generating units (CGUs).

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3.4 Provisions, Contingent Liabilities And Contingent Assets

Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Company expects some or all of a provision to be reimbursed, reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in respective expense.

Contingent Liabilities and Contingent Assets

Contingent liabilities are not recognized but are disclosed in the notes. Contingent Assets are neither recognized nor disclosed in the financial statements.

3.5 Income tax

Current tax:

Provision for current tax is made as per the provisions Sec 115BAA of the Income Tax Act, 1961.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate."

Deferred tax:

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxation authority.

3.6 Employee Benefits

Short-term Employee Benefits:

Employee benefit liabilities such as salaries, wages and bonus, etc. that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at an undiscounted amount expected to be paid when the liabilities are settled.

Post-employment benefit plans:

Defined Contribution Plans:

State governed Provident Fund Scheme and Employees State Insurance Scheme are defined contribution plans. The contribution paid / payable under the schemes is recognised during the period in which the employees render the related services.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

The Company has defined benefit plan namely, Gratuity. The Company has also taken policy for all employees, except workers, with Life Insurance Corporation of India (LIC) to meet its obligation towards gratuity. Any differential between the fund amount as per LIC and the actuarial calculation is charged to revenue.

The Company net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in other comprehensive income (OCI). The Company determines the net interest expense / (income) on the net defined benefit liability / (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability / (asset), taking into account any changes in the net defined benefit liability / (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

3.7 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ► In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to/ by the Company.

Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole;

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: valuation techniques for which the lowest level input that has a significant effect on the fair value measurement are observable, either directly or indirectly.

Level 3: valuation techniques for which the lowest level input which has a significant effect on the fair value measurement is not based on observable market data.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.8 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- ▶ Debt instruments at amortised cost The Company has cash & cash equivalents, loans and trade receivables classified within this category.
- ▶ Debt instruments at fair value through other comprehensive income (FVTOCI) The Company does not have any financial asset classified in this category.
- ▶ Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL) The Company has Investments in equity instruments classified in this category.
- ▶ Equity instruments measured at fair value through other comprehensive income (FVTOCI) The Company does not have any financial asset classified in this category.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation and losses arising from impairment are recognised in the Statement of Profit & Loss. The amortised cost of the financial asset is also adjusted for loss allowance, if any.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Company has not designated any such debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit & Loss.

Equity investments at FVTPL

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments held by company are classified as at FVTPL. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

Impairment of financial assets

In accordance with IndAS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

Financial assets that are debt instruments, and are measured at amortised cost e.g. Loans and trade receivables.

The company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables that do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

b) Financial liabilities

Initial recognition and measurement

All financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

All financial liabilities are initially measured at fair value deducted by, in the case of financial liabilities not recorded at fair value through profit or loss, transaction costs that are attributable to the liability.

Subsequent measurement

Financial liabilities are classified as measured at amortised cost using the effective interest method. The Company's financial liabilities include trade payables, borrowings and other financial liabilities.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as expense over the relevant period of the financial liability in the Statement of Profit and Loss.

Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the Balance Sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

3.9 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

3.10 Revenue Recognition

Revenue is recognised based to the extent it is probable that the economic benefit will flow to the company and revenue can be reliably measured regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excludes taxes & duties collected on behalf of the Government and is reduced for deductions, penalties and rebates or similar allowances deducted by customers.

Freight services

Freight income is accounted for on actual delivery of consignments by the Company to the customers and unqualified acknowledgements are obtained from them. Generally, the contracts are Fixed-price, thus the associated costs can be reliably measured. Freight and Vehicle Trip Expenses are accounted when vehicles deliver the consignments to the Company at destination. However, withholding taxes (TDS, TCS etc) are accounted for on receipt of corresponding payment or information of such deductions, whichever is earlier.

Loading & Unloading Charges

Revenue from loading and unloading charges is recognized when the related service is rendered to the customer and control over the service is transferred, in accordance with Ind AS 115. The income is recognized at the point in time when the performance obligation is satisfied, i.e., upon completion of the loading/unloading activity, and it is probable that economic benefits will flow to the entity and the amount of revenue can be reliably measured.

Interest income

Interest income on financial asset is recognised using the effective interest rate (EIR) method. EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset.

Other Income

Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

3.11 Earnings per share

Basic earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of equity shares.

3.12 Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

3.13 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The board of directors of the Company has been identified as being the chief operating decision maker by the Management of the company.

3.14 Foreign currency transactions

Transactions in foreign currencies are recorded by the Company entities at their respective functional currency at the exchange rates prevailing at the date of the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currency are translated to the functional currency at the exchange rates prevailing at the reporting date.

Non Monetary asset and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss with the exception that the exchange differences on foreign currency borrowings included in the borrowing cost when they are regarded as an adjustment to interest costs on those foreign currency borrowings;

3.15 Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets up to the assets are substantially ready for their intended use. The loan origination costs directly attributable to the acquisition of borrowings (e.g. loan processing fee, upfront fee) are amortised in the year in which they occur.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

31. Employee benefits		
a)Description of the type of the plan		

Defined Benefit Plan – Gratuity

The Company operates gratuity plan wherein every employee is entitled to the benefit equivalent to 15 days of total basic salary last drawn for each completed year of service. Gratuity is payable to all eligible employees of the Company on retirement, separation, death or permanent disablement, in terms of the provisions of the Payment of Gratuity Act, 1972.

Post-Employment Benefits plan typically expose the Company to actuarial risks such as: Salary increase, Discount rate, Morality and Disability and withdrawals

- a) Salary Increases:— Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.
- b) Discount Rate: Reduction in discount rate in subsequent valuations can increase the plan's liability.
- c) Mortality & disability:- Actual deaths & disability cases proving lower or higher than assumed in the valuation can impact the liabilities.
- d) Withdrawals:- Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact Plan's liability.
- b) The following tables set out the status of the gratuity plan, unavailed leave and amounts recognized in the Company's financial statements.

There were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

The carrying amounts of trade receivables, trade payables, cash and cash equivalents, loans & advances, other bank balances and other financial assets are considered to be the same as their fair values, due to their short-term nature.

The fair values of borrowings are based on discounted cash flows using a borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

34. Financial risk management objectives and policies

The Company's principal financial liabilities comprise of borrowings, trade payables and other payables etc. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets includes trade receivable, security deposit, loans and advances, cash and cash equivalents etc. that derive directly from its operations. The Company also holds investments in the form of quoted Equity shares that are measured at FVTPL and unquoted Equity shares measured at amortised cost.

The Company is exposed to market risk, credit risk and liquidity risk. The management oversees the management of these risks. The management is responsible for formulating an appropriate financial risk governance framework for the Company and periodically reviewing the same. The management ensures that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The management reviews and agrees policies for managing each of these risks, which are summarised below.

(a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, foreign currency risk and Equity price risk.

(i) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Since the Company has borrowings, therefore Company is exposed to such risk.

(ii) Foreign Currency Risk

The Indian Rupee is the Company's most significant currency. As a consequence, the Company's results are presented in Indian Rupee. So, the Company is not exposed to such risk.

(iii) Equity Price Risk

The Company's investment in shares are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the price risk through diversification and by placing limits on individual and total instruments. Reports on the portfolio are submitted to the management on a regular basis.

(b) Credit Risk

The maximum exposure to credit risks is represented by the total carrying amount of these financial assets in the balance sheet

Particulars	As at March 31, 2025	As at March 31, 2024
Trade receivables	7,611	7,075
Loans and Advances	1,554	340
Other financial assets	437	373

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

Credit risk arises mainly from loans, trade receivables and financial assets. The Company maintains a defined credit policy and monitors the exposures to these credit risks on an ongoing basis. None of the trade receivables are credit impaired as on reporting date.

On adoption of Ind AS 109, the Company uses expected credit loss model to assess the impairment loss or gain. Based on internal assessment which is driven by the historical experience/ current facts available in relation to default and delays in collection thereof, the expected credit loss for trade receivables is not significant.

The carrying amount of financial assets represents the maximum credit exposure. The Company monitors credit risk very closely. The Management impact analysis shows credit risk and impact assessment as low.

The Company's exposure to credit risk for trade receivables are as follows:

(c) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.
