CHAIRMAN MESSAGE

Dear Shareholders,

I am pleased to present you with our 11th Annual Report, providing you a glimpse of overall business performance of Rajshree Polypack Limited for financial year ("FY") 2021-22.

I look at this year as **"A year of global economic recovery"**. This year saw economies getting back on a mending path and then the world got hit by war crisis. Geopolitical tension accompanied by sanctions caused disruption in the global economy & supply chain and Company had to face significant volatility in raw material prices.

With consumer demand, recovery in domestic markets during FY 2021-22, the Company recorded staggering improvement in its performance by achieving Revenue and EBITDA of ₹19,855.64 Lakhs and ₹2,698.98 Lakhs as against ₹12,707.22 Lakhs and ₹2,088.86 Lakhs respectively for FY 2020-21. At the same time, the Company also achieved overall production volume growth of 38.64% in Sheet Extrusion and 36.23% in Thermoformed packaging products. Further, Company's Profit after Tax for FY 2021-22 rose to ₹955.10 Lakhs as against ₹888.01 Lakhs for FY 2020-21.

It gives me immense pleasure to acknowledge that today, your Company is one of the leaders in **'Rigid Thermoformed Packaging Products'** and has continuously been working to strengthen its Position in this industry.

In FY 2021-22, your Company was able to ramp up the production of Unit-II Extension, which help in improving the revenue of the Company. In the same year, the Company saw consolidation and modernization of Unit I and Unit III at Umbergaon, Gujarat. The Company has commenced the commercial production in Quarter 1 of financial year 2022-23. This new Facility has been funded through mix of term loans and internal

accruals. The new Facility will not only improve our installed capacities in Extrusion and Thermoforming but will also offer benefits of synergies arising from scale and modernization. Further, the Company have also added 2(two) machines for printing and our printing capacity stands to increase by 120(One Hundred and Twenty) million pieces due to these additions.

It gives me immense pride to note that your Company is the **1st in India to introduce "made in India" 9-layer rigid packaging products** with fully integrated facility under one roof.

Speaking of new product developments, Company developed and filed applications for 4(four) design patents and 1(one) product patent in barrier packaging during the FY 2021-22. Furthermore, your Company has developed **'dairy creamer packaging'** for largest dairy brand of India. In addition to the same, Company have also developed **'sealing and lidding laminate products'** for food packaging and undertook successful product trials with Customers. Further, with new manufacturing facility, Company have also entered a new product line of **'Tube Laminates'** for the Cosmetics Industry. With repeat orders coming in for the product, Company are confident that this product segment will help us to improve both our sales as well as profit margins in addition to opening new Industry for future growth.

Further, in order to boost export sales, Company have appointed 1(one) distributor in Dubai for generating demand of our product in Middle East/ North Africa ("**MENA**") region. The initial response is encouraging and Company is confident to see our exports grow in the coming years.

It gives me pleasure informing you that your Company has taken its first step in entering Sustainable Packaging Business by entering into a Joint Venture by the name Olive Ecopak Private Limited ("**Olive Ecopak**") with Gandhi family of Oracle Group ("**JV Project**"). Your Company will be holding 50.10% of Olive Ecopak's Equity Share Capital. Olive Ecopak will be manufacturing sustainable packaging products, more particularly for beverages and takeaway containers for the Food Service Industry. Olive Ecopak has already acquired 12.8 acres of land at Umbergaon, Gujarat for setting up its manufacturing unit and is currently in process of finalizing the construction plans. The JV Project will have an initial investment of ₹105 Crores including working capital and will be funded through mix of Equity and Debt. The JV Project will have a production capacity of 12000 (Twelve Thousand) Metric tons per annum approximately. Olive Ecopak expects to commence commercial production from October 1, 2023.

As we look ahead, on behalf of the Board of Directors, I like to place my heartfelt gratitude to our shareholders for their continued confidence in our abilities. I would also like to thank our lenders, suppliers, business partners, employees and all other stakeholders for their continuous support on the growth path of the Company.

Best wishes,

Management Discussion & Analysis

With almost 2 decades of experience in the packaging industry, Rajshree Polypack Limited (“RPPL” / “Company”) is one of the leaders in manufacturing of rigid plastic sheets for specialized Form, Fill and Seal (“FFS”) Application and thermoformed packaging products to the industry segment we cater to.

Our products range include packaging for dairy industry, Food and Beverages (“F&B”), bakery and confectionaries, trays for sweet and snacks, punnets for fruits and vegetables, electronic packaging, etc. We also developed Sealing and Lidding Laminates for food packaging and undertook product trials with multiple customers. We have a wide range of sizes and designs to meet the customers’ need and we aim to continue to build our strengths in the field of rigid and semi-rigid packaging products.

With an annual extrusion capacity of over 14,700 Metric Tons thermoforming capacity of 8,020 MT and more than 150 products, we are fundamentally committed to the ongoing technological advancement.

The proceeds that your company received from IPO were successfully utilized for the expansion of Unit II and the expansion was completed in June 2021. We take pride in letting you know that the Company is First in India to successfully manufacture ‘**Rigid Barrier Packaging Products**’ for enhanced shelf life of food products with integrated facility under one roof using European technology.

Further during the year, your Company undertook consolidation and modernization of Unit I and Unit III at Umbergaon, Gujarat and the project was nearing completion by the end of the financial year. This consolidation led to growth in our extrusion and thermoforming capacity by 500 Metric Tonnes Per Annum (“MTPA”) and 250 MTPA respectively apart from expected synergies led by scale and modernization. The project had capital investment of ₹ 17 Crores approx. which was funded through mix of term loan and internal accruals.

The Company also explored opportunities in Tube Laminates Segment and rolled out Tube Laminates during the year. The Company received its first order in month of May, 2022 from a manufacturer in the Cosmetics Industry and we now have multiple repeat orders for the Tube Laminates product. Our endeavor for research and development has helped us grow and this year we developed Dairy creamer Packaging for Largest Dairy Brand of India. In order to strengthen our global footprint, we appointed 1 distributor in Dubai. The Company has already started receiving export orders for barrier packaging products from Middle East North Africa (“MENA”) region. At the same time, the Company has also been focusing on expanding its geographical presence within the country by engaging with various customers and distributors.

The Company’s operational efficiency was further strengthened with the Implementation of SAP S/4HANA. The company received Certification from BRC for Global Standards for Packaging and packaging Materials. In addition to the same, the manufacturing units of the Company are also Sedex Certified. The Company also filed applications for 4 design patents and 1 product patent in Barrier Packaging during the year.

Given the environmental impact of certain packaging materials, consumers world-wide are becoming very eco-sensitive. Accordingly, all manufacturers are looking towards opportunities to become more eco-friendly and adopt sustainable solutions. The Company has entered into joint venture to form Olive Copak Private Limited in order to tap the food service industry with sustainable packaging.

Industry structure and developments

Economic overview & Outlook

Global Economy

As per the April 2022 report of the International Monetary Fund (IMF) on Global Economic Outlook, the global economic prospects have worsened largely because of Russia’s invasion of Ukraine—causing a tragic humanitarian crisis in Eastern Europe—and the sanctions aimed at pressuring Russia to end hostilities. In addition to the war, frequent and wider-ranging lockdowns in China—including in key manufacturing hubs—have also slowed activity there and could cause new bottlenecks in global supply chains. At the same time higher, broader, and more persistent price pressures also led to a tightening of monetary policy in many countries.

With all such events taking place almost at the same time, overall risks to economic prospects have risen sharply and policy trade-offs have become ever more challenging. The IMF in its report has projected global growth at 3.6% in 2022 and 2023.

Further, in many countries, inflation has become a central concern. In some advanced economies, including the United States and some European countries, it has reached its highest level in more than 40 years. There is a rising risk that inflation expectations become de-anchored, prompting a more aggressive tightening response from central banks. In emerging market and developing economies, increases in food and fuel prices could significantly increase the risk of social unrest.

Inflation is expected to remain elevated for longer than in the previous forecast. For 2022, inflation is projected at 5.7% in advanced economies and 8.7% in emerging market and developing economies—1.8% and 2.8% higher than projected in January. Although, a gradual resolution of supply-demand imbalances and a modest pickup in labor supply are expected in the baseline easing price inflation eventually, uncertainty again surrounds the forecast.

Indian Economy

RBI in its June 22 Bimonthly report has mentioned that recovery in the domestic economic activity is gathering strength. Rural consumption should benefit from the likely normal south-west monsoon and the expected improvement in agricultural prospects. A rebound in contact-intensive services is likely to bolster urban consumption, going forward. Investment activity is expected to be supported by improving capacity utilisation, the government's capex push, and strengthening bank credit. Growth of merchandise and services exports is set to sustain the recent buoyancy. Taking all these factors into consideration, the real GDP growth projection for 2022-23 was retained at 7.2 %, with Q1 at 16.2 %; Q2 at 6.2 %; Q3 at 4.1 %; and Q4 at 4.0 %, with risks broadly balanced.

The India government has implemented a range of policy initiatives in the areas of sustainable development, infrastructural improvements, ease of doing business, banking and financial services, job creation, digital transformation, manufacturing, and services industries to build a strong base for the Indian economy. This is reflected in the FY23 Union Budget which provides a framework for propelling growth by focusing on 4 key themes: (i) public investment for building modern infrastructure under PM Gati Shakti (ii) inclusive development (iii) productivity and investment, sunrise opportunities, energy transition, and climate action and (iv) financing of investment.

The macroeconomic stability indicators suggest the Indian economy is well-placed to take on the foreseen challenges. The growth in FY23 will be supported by widespread vaccine coverage, gains from supply side reforms, easing of regulations, robust export growth, and availability of fiscal space to ramp up capital spending.

Packaging

The main purpose of packaging is to protect and preserve the goods until the point of final consumption i.e., through the entire supply chain including storage, handling, movement, retailing and finally storage at consumers' end until final consumption. Packaging is the essential bridge between production and final consumption. Plastic packaging Industry is taking a very significant part in the contribution of the progress of our country and contributes to almost every daily requirement i.e., clothing, housing, construction, furniture, automobiles, household items, agriculture, horticulture, irrigation, packaging, medical appliances, electronics and electrical items.

Many times, the package design itself could become a registered brand. There are two basic functions that the packaging is aimed at: Protect the product & promote the product. Philip Kotler, an American marketing author, defines packing as having the three traditional purposes of "protection", "convenience" and "economy". However, today's era calls for adding all the modern functions of packaging.

Global Packaging Industry

The global packaging industry market size continues to grow mainly driven by the increasing demand from end-user sectors. The Global Packaging market accounted for \$926.43 billion in 2019 and is expected to reach \$1,652.28 billion by 2027 growing at a CAGR of 7.5% during the forecast period. Factors like rising e-commerce sales and growing demand for FMCG and pharmaceutical packaging are propelling the market growth.

Based on material type, the plastics/polymers segment is estimated to experience lucrative growth due to the necessity to feed and reduce food wastage. By geography, Asia Pacific is going to experience strong growth during the forecast period due to the easy accessibility of packaging raw materials such as fiber, plastic, and glass and the occurrence of manufacturing facilities of most of the packaging companies. (Source <https://www.businesswire.com/news/home/20210111005470/en/Global-Packaging-Market-Outlook-to-2027-and-the-Impact-of-COVID-19---ResearchAndMarkets.com>)

Indian Packaging Industry

The India Packaging Market was valued at \$ 75 Bn in 2020, and it is expected to reach \$ 204.81 Bn by 2025, registering a CAGR of 26.7% during the period of 2020-25. (Source: Packaging Industry Association of India)

Amid the e-commerce surge, the Indian packaging industry is witnessing steep growth and is one of the strongest growing segments. According to the Indian Institute of Packaging (IIP), packaging consumption in India increased 200% in the past decade, from 4.3 kgs per person per annum (PPPA) to 8.6 kgs PPPA.

Food processing is the largest consumer of packaging at 45%, followed by pharmaceuticals 25% and personal care products 10%. Increasing demand from these end-user segments is creating a huge potential for expansion.

The packaged F& B segment is witnessing an upsurge due to a demand spike for essential food products and shelf-stable foods. Demand from the grocery and dairy product segments has subsequently fueled the demand for vacuum packaging, trays and protective films and shelf life-extending modified atmospheric packaging and others.

The packaging industry in India is slowly but steadily coming up to speed with the mature global market and has historically been one of the most consistently growing sectors. With largescale opportunities emanating from both retail and e-retail, the coming of age of the packaging industry will drive transformation in the very nature of the industry in India – the organized players stand to gain ground displacing the smaller dispersed participants.

Industry Trends Leading to Growth of Indian Packaging Industry

- **Advancement in technology**

India's growing middle-class is demanding quality packaging that looks good and serves the purpose. Therefore, the packaging industry is adopting several technologies to enhance the quality and usability of products. Local manufacturers are also importing state-of-the-art equipment to ensure that the packaging is of world-class standards.

- **Focus on innovation**

The industry is witnessing best-in-class innovation in terms of packaging, labelling, customization, and recyclability. With dedicated R&D and innovation centres, companies in the sector are focused on creating unique solutions and are looking to minimize environmental impact.

- **Consumption boom**

Rising income levels and rapid urbanization have been at the core of India's growth story. According to a report by Boston Consulting Group, India's consumption growth is set to triple to \$4 Trillion by 2025. Rural India is a huge helping hand in making this possible. In rural India, per capita consumption is expected to grow 4.3 times by 2030, compared to 3.5 times in urban markets.

Rigid Packaging Industry

Rigid packaging has become one of the most essential components of the packaging market. It provides excellent protection to products, protecting them from any physical shocks and various other types of damage. The demand for the rigid packaging market has been surging since the product is extensively used for packing reactive and volatile as well as highly durable products.

Rigid packaging has important applications in numerous industries including F&B, pharmaceuticals, personal care, electronics etc. The F&B sector is a critical end-user of rigid packaging products. Heightened consumption of ready-to-eat and convenience food products will help the market gain remarkable traction in the years to come.

Global Rigid Plastic Packaging Industry

According to a Comprehensive Research Report by Market Research Future (MRFR), "Rigid Packaging Market Information by Materials, Product, Application, and Region - Forecast till 2027", the market is estimated to grow at a 7.5% CAGR to reach USD 800 Billion by 2027.

Packaged Food industry has seen fast-paced growth over the past years. This rapid growth of packaged food industry can be attributed to the evolving consumer lifestyles, and the rising consumption of a variety of snacks like bread, potato chips and sausages in India, China, and the Middle East. Soaring number of food retail outlets coupled with cloud kitchens as well as emergence of new products in the market have been favorable as well.

Asia Pacific is right at the forefront of the worldwide market, as the number of health-conscious consumers in the region continues to soar. Beverages and packaged food segments are growing rapidly in the region because of the healthy living trend, with products like yogurt and sour milk products being sold in rigid plastic packaging. India has been garnering significant momentum in the rigid packaging market, primarily from extensive beverage and food uses.

Indian Rigid Packaging Industry

Indian rigid plastic packaging market is expected to reach USD18.02 billion by 2027, growing at a CAGR of 8.01% during the forecast period. Indian rigid plastic packaging market is mainly driven by rising GDP, increasing per capita income, surging sales through e-commerce, changing consumer perception, etc.

The market's expected growth can be attributed to the strong growth of the F&B industry, which is the primary end-user of rigid plastic packaging. In the F&B industry, rigid plastic packaging is in high demand to ensure food safety and shelf life. In addition, due to rising healthcare spending, the healthcare industry, which is another major end-user of rigid plastic packaging, has seen strong growth in the last decade. Moisture resistance, tamper-proof caps, light and chemical resistance, and other properties of rigid plastic packaging are gaining traction in the healthcare sector.

India is becoming more of a manufacturing hub, and its exports are increasing as well. To cater to the international market, packaging standards are being raised, which necessitates the use of better packaging methods such as blow molding, injection molding, rotomolding, and others (thermoforming, extrusion, etc.) as well as materials such as Polyethylene ("PE"), Polyethylene terephthalate ("PET"), Polypropylene ("PP"), Polystyrene ("PS"), Expanded Poly Styrene ("EPS"), and others [(Polycarbonate ("PC"), Plastic ("PL"), Polyvinyl Chloride ("PVC))] and better machinery to ensure that the end product quality and visual appeal are of the highest standard.

RAJSHREE POLYPACK LIMITED

Opportunities

- **Rigid plastics replacing traditional packaging materials:**

Rigid plastic packaging will continue to benefit from the drive to replace materials like glass and metal with lightweight, cost-effective, and high-performance plastic materials in various markets.

- **Consumer concern about food waste and food safety:**

Consumers today are increasingly looking to buy products which are long lasting and suitable for handling. The packaging industry has introduced various active and intelligent packaging technologies in response to this concern

- **Constant upgradation of Technologies:**

Companies are constantly upgrading their technology in order to provide safer and better packaging to the end use products. This has helped in growth in demand for the product and ultimately rigid packaging.

- **Rise in Exports:**

With rise in demands of rigid plastic packaging globally, the company has the opportunity to expand its global footprint. With orders flowing in from MENA region, the Company has taken steps towards grabbing the opportunity.

- **Entering Cosmetics Industry**

In the current year, our Company has introduced a new product- Tube Laminates with small token sales to one of the manufacturers in the cosmetics industry. The trial was successful and we have started receiving repeat orders for the same.

Threats

- **Fluctuation in raw material prices:**

The prices for our primary raw materials (including raw materials imported by our Company) used for the manufacture of plastic rigid sheets and thermoformed products have been volatile. These materials being global commodities, their prices are cyclical in nature and fluctuate in accordance with global market conditions. Any significant fluctuations in prices of raw material due to factors such as rise in input and commodity prices or shortages in supply may impact performance of the Company.

- **Change in Government Policies:**

Any significant change in government policies may have an adverse impact on the performance of the Company.

- **High Capital Investment:**

Being in manufacturing sector, the Company has high investments in its plant and machinery. With constant upgradation in technology, the Company needs to be proactive in undertaking such upgradations.

- **Rising Environmental awareness and consumer preference:**

Rising environmental awareness amongst consumers can lead to reduction in our product sales. Our Company has started entering other segments in order to mitigate the same.

Segment-wise performance

Presently, the Company operates in only one primary segment i.e., Rigid packaging products and hence, segment-wise information is not applicable to the Company.

Outlook

With Consolidation and modernization of Unit I & Unit III at Umbergaon, Gujarat, our company has increased its production capacity and is poised to increase the production. The company has taken steps to boost its global presence and orders coming in from MENA region build up our confidence in the Opportunity that we have. We further expect increase in sales of products with better price realization.

We have been undertaking successful product trials of barrier packaging products with various marquee food brands of India and expect to generate good orders over time. At the same time, the Company has developed new products like Tube Laminates for which the Company has already started receiving repeat orders from cosmetics industry. These new product and further addition in the product base shall help our company grow in the future.

The Company is also working on entering the sustainable packaging product market through a Joint Venture with Mumbai based Gandhi family under the company named Olive Ecopak Private Limited ("OEPL"). The Joint Venture will help the Company to develop and grow its customer base in the Food Service Industry (Hotels, Restaurants & Catering).

Risks and concerns

Risk	Description	Mitigation
Demand Risk	A cyclical downturn can lead to a slowdown in the Company's target markets and impact its sales velocity.	The Company has demonstrated ability of driving significant growth in sales volumes over the years by seeking to offer the right brand, at the right price, in the right package, and through the right channel. Its wide range of product portfolio enables it to cater to diverse consumer segments.
Business Agreement Risk	The Company relies on strategic relationships and agreements with various clients. Termination of agreements, or less favourable renewal terms could adversely affect profitability.	The Company has demonstrated ability of significantly enhancing product offering which makes it a favourable partner.
Regulatory Risk	Regulations on consumer health and the risk of the Company's products being targeted for discriminatory tax and packaging waste recovery may adversely impact business.	RPPL adheres to best manufacturing practices and takes the issues of sustainability relating to packaging and waste recovery very seriously. It works closely and constantly engages with different stakeholders, to develop sustainable packaging focused on protecting the environment and also waste recycling. The Company has entered into a Joint Venture by the name Olive Ecopak Private Limited for developing sustainable packaging products.
Business Viability Risk	An inability to integrate the operations of or leverage potential operating and cost efficiencies from the newly acquired territories and sub territories may adversely affect the Company's business and future financial performance.	To ensure success of the newly acquired operations, the Company invests significant management time and financial resources to develop local market strategies (including that for potential cultural and language barriers), and assimilate business practices to ensure business viability.
Consumer Preference Risk	Failure to adapt to changing consumer health trends and address misconceptions relating to impact of usage of plastic products on the health may adversely impact demand.	RPPL sales team works closely with management to ascertain the changing consumer habits and constantly focus on product innovation and expanding range of products which are safe to use and eco-friendly.
Raw Material Risk	An interruption in the supply or significant increase in the price of raw materials or packaging materials may adversely affect the Company's business prospects, results of operations and financial condition.	Maximizing cost efficiencies is an integral part of RPPL's strategy, whereby it constantly focuses on reducing cost of goods sold, effectively managing operating expenses and enhancing cash flows. For this, the Company has undertaken several initiatives including backward integration and centralized material procurement. It leverages its scale of operations to achieve better bargaining power with suppliers, resulting in better working capital management. The Company's ability to improve asset utilization enables it to achieve higher operating leverage and amortize overheads on a wider base. Additionally, the Company continues to invest in advanced technologies to improve operational efficiencies and work processes in its operations, thereby ensuring integrated operational data from manufacturing, planned procurement and superior tracking of transportation of the Company's products .

Material developments in Human Resources / Industrial Relations front, including number of people employed

As of March 2022, the Company had 590 full time employees on its payroll. The Company has maintained its record of good industrial relations with its employees. During the year, various initiatives had been taken to improve the performance and productivity levels in various departments of the Company.

The Company has its own in-house facilities in the plant to train the new recruits before their placement, that helps in optimum utilization of resources as well as maintaining quality standards. It also indulges into and implements various HR initiatives and activities including employee welfare, special rewards, performance review system and various employee motivation activities.

Details of significant changes (i. e. change of 25% or more as compared to the immediately previous financial year) in key financial ratios, along with detailed explanations therefore, including:

Particulars		FY 2021-22	FY 2020-21
Debtors Turnover Ratio	Days	53.53	75.61
Creditors Turnover Ratio	Days	39.21	58.55
Inventory Turnover	Days	121.26	96.37
Interest Coverage Ratio	Times	5.14	11.63
Assets Turnover Ratio	Times	2.12	1.53
Debt Equity Ratio	Times	0.33	0.16
Debt/EBIDTA Ratio	Times	1.42	0.80

Debtors Turnover Ratio: With increased scale of operations, the Company has consistently been focusing on improving efficiency in debtors recovery also. Such efforts have helped the Company in improved Debtors Turnover Ratio.

Creditors Turnover Ratio – In view of significant volatility or upside movement in raw material prices, the Company has purchased and maintained much higher inventory during the year. The key raw material of the Company does not have credit period of more than 25 days unlike all other expenses. Accordingly, the Creditors Turnover Ratio of the Company for the year stands improved.

Inventory Turnover Ratio – In view of significant volatility or upside movement in raw material prices, the Company has purchased and maintained much higher inventory during the year. At the same time, the work in process, finished goods and other material inventory have increased in line with higher scale of operations.

Interest Service Coverage Ratio – During the year, the Company was required to utilize considerably higher Working Capital limits as compared to earlier year primarily due to expanded scale of operations and significant increase in raw material prices. Such higher utilization resulted in considerably higher interest cost for the Company. The interest cost was further increased on account of provision of interest expenses on lease obligations in line with Ind-AS requirements. Since, growth in the Earnings before Interest and Depreciation for the year is not commensurate with increase in Interest Cost, the Interest Service Coverage Ratio has seen sharp decline.

Assets Turnover Ratio – The Company had implemented major expansion project during financial year 2020-21 which was capitalized in March 2021 in the books of the Company. Since, production and sales from the said project commenced during the current financial year, the Assets Turnover Ratio has been improved substantially.

Debt Equity Ratio – The Debt Equity Ratio of the Company increased during the year on account of significantly higher utilisation of Working Capital Limits by the Company. Further, fresh term loan obtained by the Company for the purpose of consolidation and modernization of unit I and unit III also aided to such increase in the ratio.

Debt EBIDTA Ratio – The Company was required to use significantly higher quantum of Working Capital Limits in addition to fresh term loan for the purpose of consolidation and modernization of unit I and unit III. Since, growth in EBIDTA of the Company for the year was not commensurate with Growth in borrowings, the Debt EBIDTA Ratio of the Company has increased.

Details of any change in Return on Net Worth as compared to the immediately previous financial year along with a detailed explanation thereof

The Company Return on Net Worth (“RoNW”) has decreased slightly at 8.25% for FY 2021-22 as compared to 8.27% for FY 2019-20. The drop in RoNW was primarily driven by lower profits on account of significantly higher raw material costs and capital investment on consolidation and modernization of Unit I and Unit III. The earning effect of such investment is expected to be visible in FY 2022-23 when the Company shall be able to utilise its enhanced production capacity while encashing on synergies of scale and modernization. At the same time, increased sales of barrier packaging products with better price and margin realisation shall also help the Company in achieving better profitability and returns.

ANNEXURE-III

REPORT ON CORPORATE GOVERNANCE (As on March 31, 2022)

A. RPPL's Philosophy on Code of Governance

Corporate governance is a systematic process, driven by ethical conduct of the business and affairs of an organization aimed at promoting sustainable business and enhancing shareholder value in the long term. Corporate governance therefore, in essence, is a referral paradigm, comprising a mechanism to benchmark company's business and affairs to a combination of laws, regulations, procedures, implicit rules and good corporate practices, which ensure that a company meets its obligations with the objective to optimize shareholder value and fulfill its responsibilities to the stakeholder community, comprising of customers, employees, shareholders, government and other societal segments.

RPPL's Governance philosophy is based on trusteeship and for promoting and maintaining integrity, transparency and accountability, across all business practices. As a corporate citizen, our business fosters a culture of ethical behavior and disclosures aimed at building trust of all stakeholders, such as shareholders, customers, suppliers, financiers, government and the community. This philosophy is built upon a rich legacy of fair, transparent and effective governance, and led by strong emphasis on human values, individual dignity and adherence to honest, ethical and professional conduct.

The Company believes that a sound governance discipline also enables the Board of Directors ("**Board**") to direct and control the affairs of the Company in an effective manner and maximize stakeholder value, including the society at large. We at RPPL believe that this is an ongoing journey for sustainable value creation for all stakeholders and we continuously endeavor to improve upon our practices in line with the changing demands of the business. RPPL adopts innovative approaches for leveraging all its resources and encourages a spirit of conversion of opportunities into achievements. The RPPL's Code of Business Conduct & Ethics and the Company's Code of Conduct for Prevention of Insider Trading are an extension of our values and reflect our commitment to ethical business practices, integrity and regulatory compliances.

Keeping in view the Company's size, reach, complexity of operations and corporate tradition, the Corporate Governance framework is based on the following main principles:

- Appropriate composition and size of the Board, with each member bringing in expertise in their respective domain;
- Timely and adequate flow of information to the members of the Board and its Committees for meaningful and focused discussion at the meetings to enable them discharge their fiduciary duties;
- Strategic supervision, monitoring and guidance by the Board which is made up of appropriate size, experience and commitment to discharge their responsibilities;
- Independent verification of Company's financial reporting from time to time and on quarterly basis;
- Timely and balanced disclosure of all material information; and disclosure of all deviations, if any, to all stakeholders and equitable and fair treatment to all the stakeholders (including employees, customers, vendors and investors);
- Compliance with applicable laws, rules, regulations and guidelines with transparency and defined accountability and
- Proper business conduct by the Board members, senior management and employees.

In line with this philosophy, the Company and its Board continuously strive for excellence through adoption of best governance and disclosure practices. The Board continuously strive to play an active role in fulfilling its fiduciary obligation to shareholders by efficiently overseeing management functions to ensure their effectiveness in delivering shareholder value and societal expectations, with ethical and responsible business conduct. The governance framework ensures its effectiveness through an efficient system of timely disclosures and transparent business practices.

Your Company confirms compliance to the Corporate Governance requirements as enshrined in the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("**SEBI Listing Regulations**"), the details of which for the financial year ended March 31, 2022 is as set out hereunder:

RAJSHREE POLYPACK LIMITED

INDEPENDENT AUDITOR'S REPORT

To the Members of Rajshree Polypack Limited Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Rajshree Polypack Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2022, and the Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015 as amended and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and profit, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the year ended March 31, 2022. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Sr. No	Key Audit Matters (Risk)	How the Key Audit Matter was addressed in our audit
1.	<p>Revenue Recognition</p> <p>Refer Note 2 of financial statements with respect to the accounting policies followed by the Company for recognizing revenue from sale of goods.</p> <p>The Company recognised revenues amounting to Rs. 19,855.64 lakhs for the year ended March 31, 2022, as disclosed in Note 31 to the financial statements.</p> <p>Revenue from the sale of goods are recognized when control of the goods has been transferred to the customers and when the unfulfilled obligations are not pending towards the customer. Depending on the contractual terms with the customers, this can be either at the time of dispatch or delivery of goods. This is considered as the appropriate point where the performance obligations as per the contracts are satisfied.</p> <p>We have identified revenue recognition as a key audit matter as the management and its external shareholders focus on revenue as a key performance indicator and as Revenue is significant area, which could result into a risk of understatement / overstatement of Revenue.</p>	<p>Our audit procedures in respect of this area, among others, included the following:</p> <ul style="list-style-type: none"> - Evaluated the Company's accounting policies pertaining to revenue recognition for sale of goods and assessed compliance with the policies in terms of Ind AS 115 – Revenue from contracts with customers. - Understood the process to evaluate recognition of revenue on transfer of control of the goods to the customers. - Evaluated the design of key controls and operating effectiveness of the relevant key controls with respect to revenue recognition on test check basis. - Performed test check by selecting samples of sale of goods transactions, recorded during the year by verifying the underlying documents. - Performed analytical procedures on sale of goods recognised during the year to identify unusual variances. - Selected samples on test check basis, to test sale of goods transactions recorded before and after the financial year end date to determine whether the sale has been recognised in the appropriate financial year. - Selected samples on test check of discounts and credit notes to identify unusual items. - Examined journal entries (using statistical sampling) posted to revenue to identify unusual or irregular items. - Tested the adequacy and appropriateness of the disclosures made in the financial statements, as prescribed in Indian Accounting Standards and applicable financial reporting framework.

<p>2.</p>	<p>First time adoption of Ind AS</p> <p>As stated in note 54 to the financial statements, the Company has prepared its first Ind AS financial statement for the years ended March 31, 2022 and 2021 and presented an opening balance sheet as at April 1, 2020 in accordance with Ind AS 101 - First Time Adoption of Indian Accounting Standards (Ind AS). Prior to conversion to Ind AS, the Company prepared and presented its financial statements in accordance with the generally accepted accounting principles in India (previous GAAP). We have identified transition to Ind AS as a Key Audit Matter considering the change in policies and process of financial reporting, materiality of reconciliation adjustments, the pervasive impact on recognition, measurement, presentation, and disclosure in the financial statement together with significant management judgments for evaluation of mandatory exception and optional exemptions. Further, there is significant audit effort involved to assess the impact due to the aforementioned transition.</p> <p>The areas where there was a significant impact on account of first- time adoption of Ind AS; involved the following standards amongst others:</p> <p>a) Ind AS 109, Financial Instruments</p> <p>b) Ind AS 116, Leases</p> <p>Considering the significance of the above transition with respect to the preparation of financial statements by the Company, the complexities and efforts involved in judgment and estimates, this matter has been determined as a key audit matter for the current year audit.</p>	<p>Our audit procedures in respect of this area, among others, included the following:</p> <ul style="list-style-type: none"> - Read the Ind AS impact assessment performed by the Company and understood the resultant changes made to the accounting policies considering the requirements of Ind AS Framework. - Understood the process and controls deployed by the company w.r.t financial reporting closure process, we also tested the operating effectiveness for adequacy. - Evaluated the impact assessment performed by management to identify areas to be impacted on account of transition to Ind AS including mandatory exception and optional exemptions. - Reperformed the reconciliation adjustments posted as at April 1, 2020 on transition to Ind AS and March 31, 2021. - Tested the adequacy and appropriateness of the disclosures made in the financial statements, is as prescribed in Indian Accounting Standards and applicable financial reporting framework.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Director's report but does not include the financial statements and our auditor's report thereon. The Director's report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Director's report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance under SA 720 'The Auditor's responsibilities Relating to Other Information'.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

RAJSHREE POLYPACK LIMITED

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

We give in "Annexure A" a detailed description of Auditor's responsibilities for Audit of the Financial Statements.

Other Matter

The comparative financial information of the Company for the year ended March 31, 2022 and the transition date opening Balance Sheet as at April 1, 2020 included in these financial statements are based on the previously issued statutory financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2006 for the year ended March 31, 2020 and March 31, 2021 on which we issued an unmodified audit opinion vide our reports dated June 26, 2020 and June 24, 2021 respectively on those financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have also been audited by us.

Our opinion is not modified in respect of this matters.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
 2. As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e. On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure C".

RAJSHREE POLYPACK LIMITED

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON EVEN DATE ON THE FINANCIAL STATEMENTS OF RAJSHREE POLYPACK LIMITED

Auditor's Responsibilities for the Audit of the Financial Statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the year ended March 31, 2022 and are therefore, the key audit matters. We describe these matters in our auditor's report unless law or

regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE B TO INDEPENDENT AUDITORS' REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF RAJSHREE POLYPACK LIMITED FOR THE YEAR ENDED 31 MARCH 2022

[Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report]

- (i). (a) A. The company has maintained proper records showing full particulars including quantitative details and situation of Property, Plant and Equipment.
 - B. The Company has maintained proper records showing full particulars of intangible assets.
- (b) All the Property, Plant and Equipment have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us, the title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) as disclosed in the financial statements are held in the name of the Company except for the original title deeds of immovable properties aggregating to ₹ 69.48 lakhs are pledged with the banks and are not available with the Company. The same has been independently confirmed by the bank and verified by us.
- (d) According to the information and explanations given to us, the Company has not revalued its property, plant and Equipment (including Right of Use assets) and its intangible assets. Accordingly, the requirements under paragraph 3(i)(d) of the Order are not applicable to the Company.
- (e) According to the information and explanations given to us, no proceeding has been initiated or pending against the Company for holding benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder. Accordingly, the provisions stated in paragraph 3(i) (e) of the Order are not applicable to the Company.

- (ii). (a) The inventory (excluding stocks with third parties) has been physically verified by the management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them. In our opinion, the frequency, coverage and procedure of such verification is reasonable. No material discrepancies were noticed on verification between the physical stocks and the book records.
- (b) The Company has been sanctioned working capital limits in excess of Rs. 5 crores in aggregate from Banks/ financial institutions on the basis of security of current assets. Quarterly returns / statements are filed with such Banks/ financial institutions which are not in agreement with the books of account. Details of the same are as below:

Quarter	Name of bank	Particulars	Amount as per books of account (Rs. in lakhs)	Amount as reported in the quarterly return/ statement (Rs. in lakhs)	Amount of difference (Rs. in lakhs)	Whether return/ statement subsequently rectified

ANNEXURE C TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF RAJSHREE POLYPACK LIMITED

[Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report of even date to the Members of Rajshree Polypack Limited on the Financial Statements for the year ended March 31, 2022]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Opinion

We have audited the internal financial controls with reference to financial statements of Rajshree Polypack Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2022, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI) (the "Guidance Note").

RAJSHREE POLYPACK LIMITED

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls With reference to Financial Statements

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

RAJSHREE POLYPACK LIMITED

Accompanying notes to the financial statements for the year ended March 31, 2022

1 General Information

"Rajshree Polypack Limited ("the Company") is a company incorporated in India under the provisions of Companies Act, 1956 on October 15, 2011. The Company was an SME and was listed on NSE Emerge in the year 2018 however, the Company has migrated its equity shares from SME Platform (NSE emerge) of National Stock Exchange of India to the Main board of National Stock Exchange of India w.e.f November 26, 2021. The registered address of the Company is located 503-504, Lodha Supremus Bldg., Wagle Estate, Thane (West)-400604.

The Company is engaged in the business of manufacturing and trading of "Plastic Packaging Product". The Company operates through its three manufacturing units in Daman.

The Financial Statements were approved for issue by the Board of Directors on May 30, 2021. The Financial Statements are presented in Indian Rupees (INR) and all values are rounded to the nearest Lakhs except where otherwise indicated.

2 Significant Accounting Policies

Significant accounting policies adopted by the company are as under:

2.1 Basis of Preparation of Financial Statements:

(a) Statement of Compliance with Ind AS

"These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the "Act") read with the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The financial statements up to year ended 31 March 2021 were prepared in accordance with the accounting standards notified under the section 133 of the Act, read with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

These financial statements for the year ended 31 March 2022 are the first financial statements of the Company under Ind AS. Refer note 54 for an explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows."

Accounting policies have been consistently applied to all the years presented except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(b) Basis of measurement

The financial statements have been prepared on a historical cost convention on accrual basis, except for the following material items that have been measured at fair value as required by relevant Ind AS:-

i) Certain financial assets and liabilities measured at fair value (refer accounting policy on financial instruments)

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

(c) Use of estimates

The preparation of financial statements in conformity with Ind AS requires the Management to make estimate and assumptions that affect the reported amount of assets and liabilities as at the Balance Sheet date, reported amount of revenue and expenses for the year and disclosures of contingent liabilities as at the Balance Sheet date. The estimates and assumptions used in the accompanying financial statements are based upon the Management's evaluation of the relevant facts and circumstances as at the date of the financial statements. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates, if any, are recognized in the year in which the estimates are revised and in any future years affected.

Judgement, estimates and assumptions are required in particular for:

i) Impairment of non-financial assets (tangible and intangible)

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU's) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Accompanying notes to the financial statements for the year ended March 31, 2022

In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining the fair value less costs to disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

ii) Defined benefit obligations

The cost of the defined benefit gratuity plan is determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, expected returns on plan assets and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases, discount rate and return on planned assets are based on expected future inflation rates for India

iii) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted price in active markets since they are unquoted, their value is measured using valuation technique including the discounted cash flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

iv) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. In respect of trade receivables the Company applies the simplified approach permitted by Ind AS 109 - Financial Instruments, which requires expected lifetime losses to be recognised upon initial recognition of the receivables. For all

other financial assets, expected credit losses are measured at an amount equal to the 12-months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

v) Income tax and Deferred Tax

Deferred tax assets are not recognised for unused tax losses as it is not probable that taxable profit will be available against which the losses can be utilised. Significant management judgement/estimate is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

vi) Provision of Inventories

Management reviews the inventory listing on a periodic basis. This review involves comparison of the carrying value of the aged inventory items with the respective net realizable value. The purpose is to ascertain whether an allowance is required to be made in the financial statements for any obsolete slow-moving items and net realisable value. Management is satisfied that adequate allowance for obsolete and slow-moving inventories has been made in the financial statements.

2.2 Property, plant and equipment:

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of Profit and Loss during the year in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 1 April 2020 measured as per the Indian GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

RAJSHREE POLYPACK LIMITED

Accompanying notes to the financial statements for the year ended March 31, 2022

Depreciation methods, estimated useful lives

The Company depreciates property, plant and equipment over their estimated useful lives using the straight line method. The estimated useful lives of assets are as follows:

Property, plant and equipment

Leasehold improvement*	Lease period
Buildings	30 Years
Leasehold Property	16 Years
Plant and Machinery	15 Years
Moulds & Dies	15 Years
Electric Installation	10 Years
Computers	3 Years
Fire Extinguishers	15 Years
Furniture & Fixtures	10 Years
Office & IT Equipments	5 Years
Vehicles - Motor Car	8 Years
Vehicles - Motor Bike	10 Years

* Leasehold improvements are amortized over the lease period, which corresponds with the useful lives of the assets.

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of acquisition. Depreciation on sale/deduction from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in Statement of Profit and Loss under 'Other Income'.

Depreciation methods, useful lives and residual values are reviewed periodically at each financial year end and adjusted prospectively, as appropriate.

2.3 Other Intangible Assets

Intangible assets are stated at acquisition cost, net of accumulated amortization.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets recognised as at 1 April 2020 measured as per the Indian GAAP and use that carrying value as the deemed cost of the intangible assets.

The Company amortized intangible assets over their estimated useful lives using the straight line method. The estimated useful lives of intangible assets are as follows:

Intangible assets

SAP Software	6 years
Other Software	3 years

Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

2.4 Foreign Currency Transactions

(a) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(b) Transactions and balances

"On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. Gains/Losses arising out of fluctuation in foreign exchange rate between the transaction date and settlement date are recognised in the Statement of Profit and Loss.

All monetary assets and liabilities in foreign currencies are restated at the year end at the exchange rate prevailing at the year end and the exchange differences are recognised in the Statement of Profit and Loss.

2.5 Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability accessible to the Company."

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. The Company's management determines the policies and procedures for fair value measurement such as derivative instrument.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Accompanying notes to the financial statements for the year ended March 31, 2022

2.6 Revenue Recognition

According to Ind AS 115, revenue is measured at the amount of consideration the Company expects to receive in exchange for the goods or services when control of the goods or services and the benefits obtainable from them are transferred to the customer. Revenue is recognised using the following five step model specified in Ind AS 115:

Step 1: Identify contracts with customers

Step 2: Identify performance obligations contained in the contract Step

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligation

Step 5: Recognise revenue when a performance obligation is satisfied.

The performance obligations arising from sale of products with the Company's customers are satisfied at a point in time. Payment terms are generally agreed upon individually with customers. Sales of products are recognised when control of the products has transferred based on the agreed terms. Revenue is net of sales returns and allowances, discounts, volume rebates and any taxes or duties collected on behalf of government such as goods and service tax, etc.

Sale of services are recognised on satisfaction of performance obligation towards rendering of such services.

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

A contract liability is the Company's obligation to transfer goods or services to a customer, for which the Company has already received consideration from customers.

If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract

Export incentives

Income from export incentives are accounted for on export of goods if the entitlements can be estimated with reasonable assurance and conditions precedent to claim are fulfilled.

Dividend & Interest Income

Dividend income is recognised when the Company's right to receive the payment is established by the reporting date.

Interest income is recognised using the effective interest rate (EIR) method

Other Income

Other incomes are accounted on accrual basis

2.7 Taxes

Tax expense for the year, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the year.

(a) Current income tax

Current tax assets and liabilities are measured at the amount expected to be recovered or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the year end date. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

(b) Deferred tax

Deferred income tax is provided in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the year and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognized in Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

RAJSHREE POLYPACK LIMITED

2.8 Leases

The Company as a lessee

The Company's lease asset classes primarily consist of leases for Office Premises, Godowns, land and Buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a Lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases

2.9 Inventories

Inventories are valued at lower of cost and net realisable value. Cost is determined on the Weighted Average Method

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials, packaging materials and stores and spare parts are valued at lower of cost and net realizable value. Cost includes purchase price, (excluding those subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.

Raw materials, Components, Stores and Spares and Packing Material held for use in production of Inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost

The cost of manufactured Inventories and Work-In-Process is the direct cost of manufacture plus appropriate allocated overheads.

The net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale

The comparison of cost and net realisable value is made on an item by item basis

2.10 Impairment of non-financial assets

"The Company assesses at each year end whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Company estimates the asset's recoverable amount and the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in Statement of Profit and Loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through Statement of Profit and Loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash in flows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit")."

2.11 Provisions and contingent liabilities

Provisions are recognized when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The Company records a provision for decommissioning costs. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognized as part of the cost of the particular asset. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the decommissioning liability. The unwinding of the discount is expensed as incurred and recognized in the statement of profit and loss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2.12 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks, cash on hand and short-term deposits net of bank overdraft with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, cash in banks and short-term deposits net of bank overdraft.

2.13 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a) Financial assets

(i) Initial recognition and measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- a) at amortized cost; or
- b) at fair value through other comprehensive income; or
- c) at fair value through profit or loss.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows."

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method (EIR).

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue

and foreign exchange gains and losses which are recognized in Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to Statement of Profit and Loss and recognized in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL): Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

(iii) Impairment of financial assets

In accordance with Ind AS 109, Financial Instruments, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets that are measured at amortized cost and FVOCI.

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

Life time ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the year end.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payment is more than 30 days past due.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the statement of profit and loss. In balance sheet ECL for financial assets measured at amortized cost is presented as an allowance, i.e.

RAJSHREE POLYPACK LIMITED

as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

(iv) Derecognition of financial assets

A financial asset is derecognized only when

- a) the rights to receive cash flows from the financial asset is transferred or
- b) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the financial asset is transferred then in that case financial asset is derecognized only if substantially all risks and rewards of ownership of the financial asset is transferred. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

(b) Financial liabilities

(i) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and at amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

(iii) Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

(c) Equity instruments:

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument- by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

(a) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.14 Employee Benefits

(a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(b) Other long-term employee benefit obligations

(i) Defined contribution plan

Provident Fund: Contribution towards provident fund is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss

(ii) Defined benefit plans

Gratuity: The Company provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the other comprehensive income in the year in which they arise.

2.15 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and is allocated to statement of profit and loss over the periods and in the proportions in which depreciation on those assets is charged.

2.16 Borrowing cost

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of the respective asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset which necessarily takes a substantial period of time to get ready for its intended use or sale. Ancillary cost of borrowings in respect of loans not disbursed are carried forward and accounted as borrowing cost in the year of disbursement of loan. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest expenses calculated as per effective interest method, exchange difference arising from foreign currency borrowings to the extent they are treated as an adjustment to the borrowing cost and other costs that an entity incurs in connection with the borrowing of funds.

2.17 Segment reporting

Ind AS 108 establishes standards, for the way that business enterprises report information about operating segments and related disclosures about products, services and geographic areas, and major customers.

The primary reporting of the Company has been performed on the basis of business segments. Based on the "management approach" as defined in Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the Company's performance and allocates resources to manufacture of "Thermoformed Packaging Products" only hence it has been considered as the only reportable business segment and hence no separate financial disclosures provided in respect of its single business segment.

2.18 Statement of Cash Flows

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

2.19 Earnings Per Share

"Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Earnings considered in ascertaining the Company's earnings per share is the net profit or loss for the year after deducting preference dividends and any attributable tax thereto for the year. The weighted average number of equity shares outstanding during the year and for all the years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares."

2.20 Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1, 2022, as below:

Ind AS 103 – Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 – Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

RAJSHREE POLYPACK LIMITED

Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 – Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 116 – Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.

(ii) Disclosures for defined benefit plans

(a) Defined benefit obligations - Gratuity (funded)

The Company has a defined benefit gratuity plan for its employees. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the Act, every employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the employee's length of service and salary at retirement age. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn) for each completed year of service as per the provisions of the Payment of Gratuity Act, 1972. The scheme is funded.

For determination of the liability in respect of gratuity, the Company has used following actuarial assumptions:

Note: 54 First time adoption of Ind AS

Transition to Ind AS

These are the company's first financial statements prepared in accordance with Ind AS.

These financial statements are the first set of Ind AS financial statements prepared by the Company. Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for year ending on 31 March 2022, together with the comparative year data as at and for the year ended 31 March 2021, as described in the significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at 1 April 2020, being the Company's date of transition to Ind AS. This note explains the principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheet as at 1 April 2020 and the financial statements as at and for the year ended 31 March 2021.

(a) Exemptions and exceptions availed

(i) Ind AS optional exemptions

A. Deemed cost for property, plant and equipment and intangible assets

Since there is no change in the functional currency, the Company has elected to continue with carrying value for all of its property, plant and equipment as recognized in its Indian GAAP financial statements as its deemed cost at the date of transition after making adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38, and investment properties. Accordingly the management has elected to measure all of its property, plant and equipment and intangible assets at their Indian GAAP carrying value.

B. Fair value measurement of financial assets or financial liabilities at initial recognition

Ind AS 101 provides the option to apply the requirements in paragraph B5.1.2A (b) of Ind AS 109 prospectively to transactions entered into on or after the date of transition to Ind AS. The Company elected to apply the Ind AS 109 prospectively to financial assets and financial liabilities after its transition date."

(ii) Ind AS mandatory exceptions

The company has applied the following exceptions from full retrospective application of Ind AS as mandatorily required under Ind AS 101:

A. De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. The Company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS."

B. Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as at the date of transition. Further, the standard permits measurement of financial assets accounted at amortized cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable. Accordingly, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. Measurement of financial assets accounted at amortized cost has been done retrospectively except where the same is impracticable."

C. Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1 April 2020 are consistent with the estimates as at the same date made in conformity with previous GAAP. The company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Fair valuation of financial instruments carried at FVTPL
- Impairment of financial assets based on expected credit loss model."

A.3 Reconciliations

The following reconciliations provides the effect of transition to Ind AS from Indian GAAP in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards:

(g) Notes to first-time adoption

(i) Defined benefit liabilities

Under the previous GAAP, the remeasurements of the defined benefit plans were forming part of the profit or loss for the year. Under Ind AS, these remeasurements of the defined benefit plans i.e. actuarial gains and losses on the net defined benefit liability are recognized in other comprehensive income instead of profit or loss.

(ii) Lease asset

Under previous GAAP, lessee classified a lease as an operating or a finance lease based on whether or not the lease transferred substantially all risk and rewards incident to the ownership of an asset. Operating lease were expensed in the statement of profit and loss. Under Ind AS 116, all arrangement that fall under the definition of lease except those for which short-term lease exemption or low value exemption is applied, the Company has recognized a right-of-use assets and a lease liability on the lease commencement date. Right-of-use assets is amortized over the lease term on a straight line basis and lease liability is measured at amortized cost at the present value of future lease payments.

(iii) Deferred tax assets (net)

Under Previous GAAP, deferred taxes were recognized for the tax effect of timing differences between accounting profit and taxable profit for the year using the income statement approach. Under Ind AS, deferred taxes are recognized using the balance sheet for future tax consequences of temporary difference between the carrying value of assets and liabilities and their respective tax bases. Deferred tax has been computed on adjustments made as detailed above and has been adjusted in the financial statement.

(iv) Investment

Investment in Equity Instruments and Mutual Funds are carried at fair value through Profit and Loss in Ind AS, as compared to being carried at cost under IGAAP

(v) Trade Receivables

As per requirement of Ind AS 109, the Company has applied expected credit loss model for recognizing the allowance for doubtful debts

(vi) Retained Earnings

Retained Earnings as at April 01, 2020 has been adjusted consequent to the above Ind AS transition adjustments.

(vii) Security Deposits

Under the previous Indian GAAP, the interest free security deposits both received and paid were carried at nominal amount. Under Ind AS, Lease/Security deposits received and paid are measured at fair value on initial recognition. Unwinding of discount is treated as interest expense/income and is accrued as per the EIR method.

The difference between the fair value and the nominal value of deposits paid is considered as Right-of-use assets and amortized over the lease term on a straight line basis.

Note:

* (i) 'Investments - Non-current - is classified in Level 1 of Fair Value Hierarchy'

(b) Fair valuation techniques

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The management assessed that fair value of Trade receivables (net), Cash and cash equivalents, Other bank balances, Loans - current, Other financial asset - current, Borrowings - Current, Trade payables and Other financial liabilities - current approximate their carrying amounts largely due to the short-term maturities of these instruments.

The amortized cost using effective interest rate (EIR) of non-current financial assets consisting of security deposits are not significantly different from the carrying amount. The impact of fair value on non-current borrowing, non-current security deposits and non-current term deposits is not material and therefore not considered for above disclosure.

Accompanying notes to the financial statements for the year ended March 31, 2022

(c) Fair value hierarchy

Financial assets and financial liabilities are measured at fair value in the financial statement and are grouped into three levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1 : Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 : Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3 : Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Note: 56 Risk management framework

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the Board. The Company is exposed to various financial risks. These risks are categorised into market risk, credit risk and liquidity risk.

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk;
- Market risk

(a) Credit risk :

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

Trade receivable

Customer credit risk is managed by the business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. To manage trade receivable, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, economic trends, analysis of historical bad debts and aging of such receivables. For receivables, as a practical expedient, the Company computes expected credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 51. The Company does not hold collateral as security.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the management in accordance with the Company's policy. Counterparty credit limits are reviewed by the management on an annual basis, and may be updated throughout the year / period. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

(b) Liquidity risk :

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows to ensure it has sufficient cash to meet operational needs. Such forecasting takes into consideration the Company's debt financing plans, covenant compliance and compliance with internal statement of financial position ratio targets.

(c) Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of certain commodities. Thus, its exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities. The objective of market risk management is to avoid excessive exposure in revenues and costs.

(i) Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

Particulars	As at March 31, 2022	As at March 31, 2021	As at April 01, 2020

- Borrowings	1,066.09	151.07	318.44
Total	1,433.51	569.15	822.30

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Accompanying notes to the financial statements for the year ended March 31, 2022

(₹ in Lakhs)

Fair value sensitivity analysis for floating-rate instruments

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, is as follows:

Effect	Increase/ (decrease) in basis points	Effect on profit before tax		
		As at March 31, 2022	As at March 31, 2021	As at April 01, 2020
