Management Discussion And Analysis Report

INDUSTRY STRUCTURE AND DEVELOPMENTS

The financial year 2013-14 continued to be challenging year for the Indian economy. The Indian economy witnessed its second successive year of below 5% growth, driven predominantly by a decline in financial savings, low business confidence and sluggish investment demand, resulting in a sharp deceleration in industrial Growth. The recovery is likely to be a slow and long process. The High interest rates, stubborn retail inflation and lack of policy direction, combined with high level of Fiscal and Current Account Deficit (CAD) had an equally dampening effect on the Indian economy. Faced with compulsions to rein in the fiscal deficit, government put the brakes on Plan expenditure, as a result of which investment and consumption growth declined to their lowest levels in 11 years. In view of sticky retail inflation, RBI was compelled to increase the repo rate by 75 bps during the year. However, with retail inflation, as measured by the Consumer Price Index (CPI), dropping from 9.13% in December 2013 to 7.02% in May 2014, RBI held the policy rates steady in April 2014 and June 2014. RBI has further taken steps to inject liquidity in the banking system. Though both the fiscal deficit and CAD have narrowed, it is believed that the reduction in the fiscal deficit is temporary, which will catch up in the current financial year. The Balance of Payments situation however, appears to be comfortable.

OPPORTUNITIES & THREATS

The economy is expected to improve slowly in the current financial year. The forecast of GDP growth rate for 2014-15 is between 5.4% and 5.9% as compared to 4.7% in 2013-14. With the various steps taken by the government to revive investment and growth in the economy the industrial growth is likely to improve from the later part of current financial year which may create new opportunity for the Company. However continuing uncertainty in the global market, higher trade deficit and high inflation may impact the financial market.

The Company is taking various steps to withstand the uncertainty in the Financial Market.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

The business of the Company predominantly falls within a single primarily business segment viz. "Financial and Related Services" and hence the disclosure requirement of Accounting Standard- 17 "Segment Reporting" notified by the Central Government under Companies (Accounting Standards) Rules, 2006 is not applicable.

OUTLOOK

The index of industrial production in the year 2013-14 was lower at (-) 0.1% compared to 1.1% in the previous year. However it is likely to improve during the current financial year. The Indian electorate has voted overwhelmingly for stability. For the first time in nearly three decades, a non-coalition government is governing the country and expectations on the part of common people and industry alike, are running high. While business and investor sentiment has turned positive in the light of the mandate for stability, substantive changes on the ground may only come about in the later part of the year. There is a considerable improvement in the sentiment and outlook with a stable government. The government as expected has taken various initiative to kick start investment, much needed development of infrastructure and reviving the stalled projects. GDP growth in 2014-15 is projected to improve, but is unlikely to exceed 6%, since the macro-economic corrections that India needs are not yet in place. Concerns around the real size of the fiscal deficit remain and inflation is still well above the RBI's 'comfort level'.

Your Company will continue to strive for meaningful growth, focusing as always on superior credit quality, a balance portfolio mix and efficient cost management, in order to sustain profitability.

Your Company is fully aware that the opportunities in the infrastructure and real estate will be many and diverse in nature. While this provides impetus for our sustainable growth, your Company is also careful that from amongst the multiple choices of attractive businesses available it will make the right choice. Your Company's business model and its risk management policies and mechanisms are being constantly reviewed and upgraded to ensure this.

Further there are ample opportunities in retail loan segment of business like Housing Loan, Education Loan, Medical Loan etc. where the Company can enter, sustain and grow because of its unique combination of various resources and expertise. Your Company's well defined systems & procedures would emerge as leader in retail credit.

INDEPENDENT AUDITORS' REPORT

TO
THE MEMBERS OF
GOLDEN GOENKA FINCORP LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of **GOLDEN GOENKA FINCORP LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2014, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and the cash flows of the Company in accordance with the Accounting Standards referred to in Section 211(3C) of the Companies Act, 1956 ('the Act') read with the General Circular 15/2013 dated 13 September 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The Company is of the view that the said investment is long term strategic investment, hence no provision for diminution in value of said investment has been made in the current financial year. Our opinion is not qualified in respect of this matter.

Significant Accounting Policies and Notes to Financial Statements

1 Significant Accounting Policies

1.1 Basis of Preparation of Financial Statements

The financial statements of the Company have been prepared in conformity with Generally Accepted Accounting Principles in India, to comply in all material respects with the Accounting Standards ('AS') notified under Section 211(3C) of the Companies Act, 1956 ("the 1956 Act") (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 ("the 2013 Act") in terms of General Circular 15/2013 dated 13th September, 2013 of the Ministry of Corporate Affairs) and the relevant provisions of the 1956 Act/ 2013 Act, as applicable. Further, the Company follows the guidelines issued by the Reserve Bank of India ('RBI') as applicable to a Non-Banking Financial (Non-Deposit Accepting or Holding) Company ('NBFC'). The financial statements have been prepared under the historical cost convention, on accrual basis. The accounting policies applied by the Company are consistent with those applied in the previous year except as otherwise stated elsewhere.

1.2 Use of estimates

The preparation of financial statements requires the management to make estimates and assumptions which are considered to arrive at the reported amounts of assets and liabilities and disclosure of contingent liabilities as on the date of the financial statements and the reported income and expenses during the reporting year. Although these estimates are based upon the management's best knowledge of current events and actions, actual results could differ from these estimates. The difference between the actual results and the estimates are recognised in the periods in which the results are known / materialised. Any revision to the accounting estimates are recognised prospectively in the current and future years.

1.3 Fixed Assets, Depreciation/Amortisation and Impairment

a) Fixed Assets

Tangible Fixed Assets are carried at cost less accumulated depreciation/amortisation and impairment losses, if any. Cost comprises of the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use. Borrowing costs relating to acquisition of fixed assets, which takes substantial period of time to get ready for their intended use, are also capitalised to the extent they relate to the period till such assets are ready to put to use.

b) Depreciation/Amortisation

Depreciation/Amortisation is provided on the Written Down Value Method ('WDV') as per the rates and in the manner prescribed in Schedule XIV of the Act. Management estimates the useful lives of Fixed Assets to be in accordance with the useful lives prescribed in the aforementioned Schedule.

Fixed Asset costing upto ₹ 5,000/- are depreciated fully over a period of 12 months from the date of purchase.

Depreciation/Amortisation on assets purchased / sold during the reporting period is recognised on pro-rata basis.

c) Impairment

The carrying amount of assets is reviewed at each Balance Sheet date to determine if there is any indication of impairment, based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation, if there was no impairment.

1.4 Investments

Investments which are readily realisable and intended to be held for not more than one year from the date on which such investments are made are classified as current investments in accordance with the RBI guidelines and Accounting Standard 13 on 'Accounting for Investments' as notified under the Companies (Accounting Standards) Rules, 2006. Current investments also include current maturities of long-term investments. All other investments are classified as non-current investments. Current investments are carried at lower of cost and market price determined category-wise. All non-current investments including investments in Subsidiary Companies, are carried at cost. However, provision for diminution in value, other than temporary in nature, is made to recognise a decline, on an individual basis.

Cost is arrived at on weighted average method for the purpose of valuation of investment.

The Company also makes additional provision towards loan assets, to the extent considered necessary, based on the management's best estimate. Provision for other financial services is also made on similar basis.

1.8 Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured:

- a) Revenue from sale of Stock for Trade (shares/securities, commodities and mutual fund) is recognised when a binding obligation has been entered into.
- b) Interest Income from Loan assets is recognised in the Statement of Profit and Loss on accrual basis as per the terms and conditions of the loan agreement, except in the case of non-performing assets where it is recognised, upon realisation, as per the Prudential Norms / Directions of the Reserve Bank of India, applicable to NBFCs. Penal interest is recognized upon realization.
- c) Fees from consultancy services are recognised pro-rata over the period of the contract as and when services are rendered. The Company collects service tax on behalf of the government and, therefore, it is not an economic benefit flowing to the company. Hence, it is excluded from revenue. Other fee based income is accounted for on accrual basis.
- d) Profit/loss from derivative instruments (futures and options) are recognised on a marked to market basis.
- e) Dividend income is recognised when the right to receive the dividend is established.
- f) Profit or Loss on sale of investments is recognised when a binding obligation has been entered into.

Significant Accounting Policies and Notes to Financial Statements (Contd.)

1.11 Borrowing Costs

Borrowing costs relating to the acquisition / construction of qualifying assets are capitalised until the time all substantial activities necessary to prepare the qualifying assets for their intended use are complete. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

The ancillary costs incurred in connection with the arrangement of borrowings are amortised over the life of underlying borrowings. Premium payable on redemption of debentures is amortised over the tenure of the debentures. These form part of the borrowing costs.

Borrowing costs also include exchange differences arising from Foreign currency borrowings, to the extent they are regarded as an adjustment to the borrowing costs.

All other costs related to borrowings are recognised as expense in the period in which they are incurred.

1.12 Segment reporting

Based on the risks and returns associated with business operations and in terms of Accounting Standard-17 (Segment Reporting), the Company is predominantly engaged in a single reportable segment of 'Financing and Related Services'.

1.13 Leases

Leases, where the lessor effectively retains substantially all the risks and rewards of ownership of the leased asset, are classified as operating leases. Operating lease payments are recognised on a straight-line basis over the lease term.

1.14 Earnings Per Share (EPS)

Basic EPS is calculated by dividing the net profit or loss for the year, attributable to equity shareholders, by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted EPS, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.15 Cash and Cash Equivalents

Cash and Cash Equivalents in the Cash Flow Statement comprise of cash on hand and at bank, demand deposits with banks, cheques on hand, remittances in transit and short term highly liquid investments with an original maturity of three months or less.

1.16 Taxes on Income

Tax expense comprises of current tax [(net of Minimum Alternate Tax (MAT) credit entitlement)] and deferred tax.

Current tax is the amount of tax payable on the taxable income for the year determined in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the Balance Sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities. The deferred tax assets and deferred tax liabilities relate to the taxes on income levied by the same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each Balance Sheet date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in Guidance Note issued by The Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement. The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

1.17 Provisions, Contingent Liabilities and Contingent Assets

A provision is recognised when the company has a present obligation as a result of past event and it is probable that outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent Liabilities are not recognised but are disclosed in the notes to financial statements. Contingent Assets are neither recognised nor disclosed in the financial statements.

Significant Accounting Policies and Notes to the Consolidated Financial Statements

1 Significant Accounting Policies

1.1 Basis of Preparation of Consolidated Financial Statements

The consolidated financial statements of the Company have been prepared in conformity with Generally Accepted Accounting Principles in India, to comply in all material respects with the Accounting Standards ('AS') notified under Section 211(3C) of the Companies Act, 1956 ("the 1956 Act") (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 ("the 2013 Act") in terms of General Circular 15/2013 dated 13th September, 2013 of the Ministry of Corporate Affairs) and the relevant provisions of the 1956 Act/ 2013 Act, as applicable. Further, the Company follows the guidelines issued by the Reserve Bank of India ('RBI') as applicable to a Non-Banking Financial (Non-Deposit Accepting or Holding) Company ('NBFC'). The financial statements have been prepared under the historical cost convention, on accrual basis. The accounting policies applied by the Company are consistent with those applied in the previous year except as otherwise stated elsewhere.

1.2 Use of estimates

The preparation of consolidated financial statements requires the management to make estimates and assumptions which are considered to arrive at the reported amounts of assets and liabilities and disclosure of contingent liabilities as on the date of the financial statements and the reported income and expenses during the reporting year. Although these estimates are based upon the management's best knowledge of current events and actions, actual results could differ from these estimates. The difference between the actual results and the estimates are recognised in the periods in which the results are known / materialised. Any revision to the accounting estimates are recognised prospectively in the current and future years.

1.3 Principles of Consolidation

Golden Goenka Fincorp Limited (the Holding Company, hereinafter referred to as "the Company"), its subsidiaries and associate are collectively referred to as 'the Group'. The Consolidated Financial Statements of the Group have been prepared in accordance with Accounting Standard 21 (AS-21) "Consolidated Financial Statements" and Accounting Standard 23 (AS-23) "Accounting for Investments in Associates in Consolidated Financial Statements" notified by the Central Government under the Companies (Accounting Standards) Rules, 2006. The consolidated financial statements have been prepared on the following basis:

- a) The financial statements of the Holding Company and its subsidiary companies have been combined on line by line basis by adding together the book value of like items of Assets, Liabilities, Income and Expenses after eliminating intra-group balances and intra-group transactions resulting in unrealised profits or losses.
- b) Uniform accounting policies for like transactions and other events in similar circumstances have been adopted and presented, to the extent possible, in the same manner as the Holding Company's separate financial statements.
- c) The excess of cost of the Holding Company of its investment in the subsidiary over the Holding Company's portion of equity of the subsidiary as at the date of investment is recognised in the consolidated financial statements as Goodwill. It is tested for impairment on a periodic basis and written-off if found impaired.
- d) The excess of Holding Company's portion of equity of the Subsidiary, over cost as at the date of investment, is treated as Capital Reserve.
- e) Investment in associate is accounted using the equity method and disclosed separately in the Consolidated Balance Sheet.

1.4 Fixed Assets, Depreciation/Amortisation and Impairment

a) Fixed Assets

Tangible Fixed Assets are carried at cost less accumulated depreciation / amortisation and impairment losses, if any. Cost comprises of the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use. Borrowing costs relating to acquisition of fixed assets, which take substantial period of time to get ready for their intended use, are also capitalised to the extent they relate to the period till such assets are ready to put to use.

Intangible Assets comprising of computer software and licenses expected to provide future enduring economic benefits are carried at cost less accumulated amortisation and impairment losses, if any. Cost comprises of purchase price and directly attributable expenditure on making the asset ready for its intended use. Any technology support cost or annual maintenance cost for such software is charged to the Statement of Profit or Loss.

b) Depreciation/Amortisation

Depreciation/Amortisation is provided on the Written Down Value Method ('WDV') as per the rates and in the manner prescribed in Schedule XIV of the Act. Management's estimates the useful lives of fixed assets to be in accordance with the useful lives prescribed in the aforementioned Schedule.

Fixed Asset costing upto ₹ 5,000/- are depreciated fully over a period of 12 months from the date of purchase.

Depreciation / Amortisation on assets purchased / sold during the reporting period is recognised on pro-rata basis.

c) Impairment

The carrying amount of assets is reviewed at each balance sheet date to determine if there is any indication of impairment, based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation, if there was no impairment.

1.5 Investments

Investments which are readily realisable and intended to be held for not more than one year from the date on which such investments are made are classified as current investments in accordance with the RBI guidelines and Accounting Standard 13 on 'Accounting for Investments' as notified under the Companies (Accounting Standards) Rules, 2006. Current investments also include current maturities of long-term investments. All other investments are classified as non-current investments. Current investments are carried at lower of cost and market price determined category-wise. All non-current investments including investments in Subsidiary Companies, are carried at cost. However, provision for diminution in value, other than temporary in nature, is made to recognise a decline, on an individual basis.

Cost is arrived at on weighted average method for the purpose of valuation of investments.

Significant Accounting Policies and Notes to the Consolidated Financial Statements (Contd.)

1.6 Stock for Trade

Stock for Trade is carried at lower of cost and market price, determined category-wise.

1.7 Loan Assets

Loan Assets include loans advanced by the Company, secured by collateral offered by the customers, if applicable.

Loan assets are carried at net investment amount including installments fallen due and are net of unmatured / unearned finance charges, amounts received, assets not paid for, etc.

1.8 Provisioning / Write-off of assets

The Company makes provision for Standard and Non-Performing Assets as per the Non-Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007, as amended from time to time. The Company also makes additional provision towards loan assets, to the extent considered necessary, based on the management's best estimate. Provision for other financial services is also made on similar basis.

1.9 Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

- a) Revenue from sale of Stock for Trade (shares/securities, commodities and mutual fund) is recognised when a binding obligation has been entered into.
- b) Income from Loan Assets is recognised in the Statement of Profit and Loss on accrual basis as per the term and condition of the loan agreement, except in the case of non-performing assets where it is recognised, upon realisation, as per the Prudential Norms / Directions of the RBI, applicable to NBFC.
- c) Fees from consultancy services are recognised pro-rata over the period of the contract as and when services are rendered. The Company collects service tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue. Other fee based income is accounted for on accrual basis.
- d) Profit/loss from derivative instrument (future and options) are recognised on a marked to market basis.
- e) Dividend income is recognised when the right to receive the dividend is established.
- f) Profit or Loss on sale of investments is recognised when a binding obligation has been entered into.
- g) Interest is recognised using the time proportion basis taking into account the amount outstanding and the interest rate applicable.
- h) All other income is accounted for on accrual basis.

1.10 Prior Period and Extra Ordinary Items

Prior Period and Extra Ordinary items having material impact on the financial affairs of the Company are disclosed separately.

Significant Accounting Policies and Notes to the Consolidated Financial Statements (Contd.)

1.11 Retirement and Other Employee Benefits

a) Gratuity

Liability for gratuity, which is a defined benefit scheme, is provided for based on an actuarial valuation carried out as at the balance sheet date. The Company has taken a policy administered by Life Insurance Corporation of India. Actuarial gains/losses are charged to the Statement of Profit and Loss and are not deferred.

b) Compensated Absences

Short term compensated expenses are charged to the Statement of Profit and Loss in the year in which the related service is rendered.

c) Provident Fund and Employee State Insurance

The provision of Employees' Provident Fund (under the provisions of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952) and Employee State Insurance is not applicable to the Company as the number of employees were less than 20 during the year and at year end.

1.12 Borrowing Costs

Borrowing costs relating to the acquisition / construction of qualifying assets are capitalised until the time all substantial activities necessary to prepare the qualifying assets for their intended use are complete. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

The ancillary costs incurred in connection with the arrangement of borrowings are amortised over the life of underlying borrowings. Premium payable on redemption of debentures is amortised over the tenure of the debentures. These form part of the borrowing costs.

Borrowing costs also include exchange differences arising from Foreign currency borrowings, to the extent they are regarded as an adjustment to the borrowing costs.

All other costs related to borrowings are recognised as expense in the period in which they are incurred.

1.13 Segment Reporting

Based on the risks and returns associated with business operations and in terms of Accounting Standard-17 (Segment Reporting), the Group is predominantly engaged in 'Financing and Related Services' and 'Property Development and Construction' as primary reportable segments.

Revenue and expenses have been identified to a segment on the basis of relationship to operating activities of the segment. Revenue and expenses which relate to enterprise as a whole and are not allocable to a segment on reasonable basis have been disclosed as "Unallocable".

Segment assets and segment liabilities represent assets and liabilities in respective segments. Fixed assets used in the Group's business have not been identified to any of the reportable segments, as the fixed assets are used interchangeably between segments.

1.14 Leases

Leases, where the lessor effectively retains substantially all the risks and rewards of ownership of the leased asset, are classified as operating leases. Operating lease payments are recognised on a straight-line basis over the lease term.

Significant Accounting Policies and Notes to the Consolidated Financial Statements (Contd.)

1.15 Earnings Per Share (EPS)

Basic EPS is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted EPS, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.16 Cash and Cash Equivalents

Cash and cash equivalents in the Cash Flow Statement comprises of cash on hand, cash at bank, demand deposits with banks, cheques on hand, remittances in transit and short-term highly liquid investments with an original maturity of three months or less.

1.17 Taxes on Income

Tax expense comprises of current tax [(net of Minimum Alternate Tax (**MAT**) credit entitlement)] and deferred tax.

Current tax is the amount of tax payable on the taxable income for the year determined in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the Balance Sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities. The deferred tax assets and deferred tax liabilities relate to the taxes on income levied by the same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each Balance Sheet date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the **MAT** credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in guidance note issued by The Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as **MAT** Credit Entitlement. The Company reviews the same at each Balance Sheet date and writes down the carrying amount of **MAT** Credit Entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

1.18 Provision, Contingent Liabilities and Contingent Assets

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent Liabilities are not recognised but are disclosed in the notes to financial statements. Contingent Assets are neither recognised nor disclosed in the consolidated financial statements.
