FINANCIAL PERFORMANCE

The turnover of the company stood at ₹56,397 lakhs in the financial year 2016-17 as against ₹50,305 lakhs in the financial year 2015-16 resulting in an increased turnover of 12%. An increased offtake by the existing customers resulted in this increased turnover. The earnings before Interest, Tax and Depreciation (EBITDA) stood at ₹8,173 lakhs in the financial year 2016-17 as against ₹6,842 lakhs in the financial year 2015-16. The increased turnover along with reduced operational costs has been the reason for the increased EBITDA inspite of a high employee cost. Efforts on modernization of facilities and improvement of the work culture to ensure more efficiency and increased productivity continue.

The exports stood at ₹1,018 lakhs in the financial year 2016-17 as compared to ₹1,517 lakhs in the financial year 2015-16. Continuous efforts are on to introduce the company's products to various international customers which also include setting up of a representative office in Europe in 2017-18. With the company becoming Euro VI compliant in relation to pumps it is expected that exports of the same will increase in 2017-18. The spares sales of the company in the financial year 2016-17 stood at ₹6328 lakhs as against that of ₹4129 lakhs in the financial year 2015-16.

The spares sales has seen a growth of 53%, due to an increased offtake of spares by OEMs and a greater thrust given by the company for increasing the spares sales. However efforts to increase the spares sales by employing more dealer outlets will continue in 2017-18.

The Profit After Tax (PAT) for the financial year 2016-17 stood at ₹2,493 lakhs which is higher than that of the previous financial year by 38%. The company's earning per share was ₹11.27 during the financial year 2016-17.

The supply of air suction valves increased substantially in 2016-17 and this combined with company's entry into Hero Moto Corp was one of the reasons for the increased turnover. The changeover to BS-IV vehicle emission norms from BS-III with effect from April 2017 resulted in the customers reducing their offtake to liquidate their vehicles stocks which were BS-III compliant before March 2017. This combined with the challenges of demonetization affected the two wheeler segment resulting in the turnover of the company not being as anticipated at the beginning of 2016-17. Though the company was able to efficiently manage its operating, financial and general administration costs, the employee costs continued to pose a challenge. Efforts towards introducing low cost automation continue. To augment its capacity to meet the specific needs of certain customers the company spent ₹1,838 lakhs in capital investments in the financial year 2016-17 as compared to ₹1,208 lakhs spent in the financial year 2015-16. The company continues to lay stress on R&D and has spent ₹911 lakhs in the financial year 2016-17 as against an amount of ₹863 lakhs spent in the previous financial year.

ANNEXURE III TO BOARD'S REPORT

REPORT ON CORPORATE SOCIAL RESPONSIBILITY (CSR) ACTIVITIES

1. A brief outline of the company's CSR policy, including overview of projects or programs proposed to be undertaken and a reference to the web-link to the CSR policy and projects or programs.

The CSR vision of the company as enumerated in the previous financial years is "to be a responsible corporate citizen by contributing to the well being of the society at large keeping in mind the national vision of ensuring a healthy, educated and a poverty free India and to protect the culture and heritage of this great ancient land". Towards this end the company continues to support the developmental activities of Academy of Higher Education, Tiruchirapalli and Culture and Heritage Trust of Karuveli, Karuveli. Culture and Heritage Trust of Karuveli is involved in the conservation and restoration of heritage buildings and in improving places of public interest in and around Karuveli. Organic farming, palm oil cultivation, forest cultivation and implementation of new techniques in farming are being undertaken at the village thereby improving the quality of life of the villagers. The trust sponsors the education of some under privileged children also. Academy of Higher Education runs the National College and Sesha Iyengar Memorial Higher Secondary School in Tiruchirapalli. Infrastructure development is a priority for both these educational institutions. Most of the students studying in these two educational institutions are first generation students and require a huge support in terms of education, health care and sanitation. The CSR committee reiterated its intention to support the activities of Academy of Higher Education and Culture and Heritage Trust of Karuveli and decided that the company should not extend its corporate social responsibility activity beyond these two implementing agencies in order to do justice to their requirements.

During the year 2016-17, Academy of Higher Education had requested funds for various infrastructure projects in the area of sports and sanitation. The company has contributed towards this requirement.

This company has consciously restricted its CSR activities to the fields of education, sanitation, health care and preservation of Culture and Heritage through Culture and Heritage Trust of Karuveli and Academy of Higher Education, Tiruchirapalli which are its implementing agencies. The CSR policy is displayed in the website of the company www.ucalfuel.com, weblink:<http://www.ucalfuel.com/policy-csr.pdf>.

ANNEXURE X TO BOARD'S REPORT

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. GENERAL OVERVIEW

Despite the challenges of demonetisation and uncertainty in Goods and Service Tax (GST) implementation, vehicle production remained buoyant and the auto component industry posted an encouraging performance in 2016-17 recording a growth of 14.3% over that of the previous year largely influenced by the increased aftermarket sales. The growth in the two wheeler segment was largely visible in the moped and scooter segment wherein the company's share of business is comparatively low and the company is slowly making inroads. In the passenger car segment the company has been able to retain its market share. The impending implementation of GST from July 2017 and the Government's stress on domestic manufacturing through its "Make in India" program and other incentives, its increased focus on infrastructure, the change in labour laws, the ease of doing business and the increased thrust on exports are expected to generate higher levels of demand in the auto and auto component industry during 2017-18. The Government's continued thrust on rural development may also fuel a demand in the two wheeler segment in the current financial year thereby resulting in newer opportunities for the company. However, faced with the prospect of stricter vehicle emission norms from the financial year 2020 and with the Original Equipment Manufacturers (OEMs) likely to move away from the conventional carburettor to fuel injection system the company is faced with the formidable task of establishing itself as a credible manufacturer of Fuel Injection systems and is continuously working in this direction. The rising operating costs and the difficulty in securing corresponding increases from the OEMs continue to cause concern. The new models being introduced by Original Equipment Manufacturers (OEMs) have made the two wheeler environment very competitive and the company understands that its success depends on its ability to deliver cost effective solutions for the newer models of vehicles which the OEMs keep churning out at regular intervals to attract the customers and its R&D is continuously working towards this end. The company's foray into newer areas like defence, aerospace and electronic components continue and these activities can be expected to yield results in a few years from now.

2. FUTURE BUSINESS STRATEGY

The company believes that a technological transformation of the automotive industry is imminent which therefore calls upon the component industry to invest more in R&D, create intellectual property and acquire and develop relevant technologies at a much faster pace to remain ahead and competitive. R&D efforts in the carburettor segment continue to cater to the newer models of two wheelers being introduced by the OEMs from time to time. The financial year 2020 vehicle emission norms have made it imperative for the company to improve the design of the existing conventional carburettor and the company is now ready with a carburettor incorporating electronic features meeting the 2020 vehicle emission norms. The company is also working with select OEMs for developing appropriate fuel injection systems for their vehicles. Thus the company is working towards establishing itself as a supplier of mechanical and electronic carburettors and fuel injection systems by the year 2020.

Leap frogging a generation of technology in just three years is a formidable task and calls for sizable investments in technology acquisition and absorption and also in skilling of people and the company is preparing itself for this graduation from BSIV to BSVI vehicle emission norms.

The company's long term vision is to become an one-stop shop solution provider for all engine management requirements of the two wheeler industry and a major supplier of vacuum and oil pumps for the four wheeler industry and efforts are continuing towards achieving this objective. With the existing dealer network for spares market proposed to be expanded and the products profile for spares market proposed to be enlarged, the company hopes to perform well in this segment in the current financial year also. The company's efforts to further enlarge its customer portfolio by bringing other major two / four wheeler players into its fold continue.

3. ANALYSIS OF SALES 2016-17 AND OF UCAL FUEL SYSTEMS LIMITED (UFSL) Vis-à-vis INDUSTRY

The company performed well in the first three quarters of 2016-17 as compared to that of 2015-16. However in the fourth quarter the performance was comparatively lower due to the OEMs liquidating their BS-III compliant stock to meet the deadline of March 2017 and due to challenges of demonetization. However the company ended 2016-17 with a 12% increase in turnover as compared to 2015-16. This was because of an increase in the sale of carburettors and air suction valves as compared to that of the previous year due to a change in the market dynamics and a quantum jump

of about 53% in OEM spares offtake in the year 2016-17 keeping with the market trends. The oil pump and vacuum pump segment witnessed a marginal increase in 2016-17 as compared to 2015-16 due to increased customer offtake. In fact the after market segment was the silver lining for the auto component industry in the financial year 2016-17. Vis-a-Vis the industry, the market share of carburettors increased marginally in financial year 2016-17 followed by a substantial increase in the air suction valve. The market share in the pump segment also increased marginally in the financial year 2016-17.

With BS IV norms having come into effect from April 2017 the carburettor design had been enhanced to meet the BSIV requirement. To cater to this change in vehicle emission norms, facilities have been added and improvements made in existing facilities. Timely support on this significant change has been appreciated by the customers.

There has been a continued focus on quality and productivity. TPM and TQM activities were strengthened across all plants to achieve the targets and objectives. Knowledge sharing among various plants about best practices followed and new initiatives taken was actively encouraged to ensure better deployment of workforce. As a result of TPM and TQM improved production, reduced costs, improved quality and reduced wastages were achieved.

With a view to contain administrative cost of managing various units in the same location, it was decided to consolidate the manufacturing plants based on feasibility and operational convenience. The casting operations in Chennai were all consolidated in two plants in Maraimalai Nagar. This has helped in improving the productivity and quality of the operations. "ANNEXURE B" TO THE INDEPENDENT AUDITORS' REPORT

The Annexure referred to in our report to the member of UCAL FUEL SYSTEMS LIMITED ('the Company') for the year ended 31st March 2017.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of M/S. UCAL FUEL SYSTEMS LIMITED ("the Company") as of March 31st, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have audited the internal financial controls over financial reporting of M/S. UCAL FUEL SYSTEMS LIMITED ("the Company") as of March 31, 2017 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Holding Company are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance note on Audit of Internal Financial Controls over Financial Reporting issued by Institute of Chartered Accountants of India ("ICAI"). Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matters

Our aforesaid reports under Section 143(3) of the Companies Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting, insofar as it relates to a subsidiary company M/s Ucal Polymer Industries Private Limited, which is a company incorporated in India, is based on the corresponding report of the auditors of such company incorporated in India.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.
