20. Voting through Electronic Means: Pursuant to the Section 108 of the Companies Act, 2013, Rule 20 of the Companies (Management And Administration) Rules, 2014, as amended from time to time and Regulation 44 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company is pleased to provide the facility to the Members a facility to exercise their right to vote at the 52nd Annual General Meeting (AGM) by electronic means

21. The instructions for shareholders voting electronically are as under:

a) The voting period begins on **Friday, 12th September, 2025 (9.00AM IST) and ends on Sunday, 14th September, 2025 (5.00PM IST)** During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date i.e. **Monday, 08th September, 2025** may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

b) Shareholders who have already voted prior to the meeting date through e-voting would not be entitled to vote at the meeting value.

CDSL e-Voting System – For e-voting.

THE INTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING:

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2 : Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

c) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

d) In terms of **SEBI circular no. The Members may note that in terms of the provisions of the Listing Regulations, the related parties as defined thereunder (whether such related party(ies) is a party to the aforesaid transactions or not), shall not vote to approve resolutions under Item No. 6.

None of the Directors and/ or Key Managerial Personnel of the Company and/or their respective relatives is in any way, concerned or interested, financially or otherwise, in the proposed ordinary resolution as set out at Item No. 6 of the notice.

The Board of Directors recommends the passing of Ordinary Resolution set out at Item No. 6 of the accompanying Notice for approval by the Members.

Item No. 7

The Members are requested to note that the provisions of Companies Act, 2013 ("Act") and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") provide that there should be optimum combination of Executive and Non-executive Director including Independent Director on the Board of a listed Company. Therefore, in order to meet the above requirement and to fill the vacancy arisen from the resign of Mrs. Purti Katyal Independent Director of the Company, it was required to appoint an Independent Director at the earliest but not later than three months from the date of such casual vacancy.

In view of the above and based on the recommendation of the Nomination and Remuneration Committee (NRC), the Board of Director ("the Board") in its meeting held on 14.08.2025 had appointed Mrs. Mehak Jain (DIN: 11152162) as Additional Director with effect from 14.08.2025 and

subject to the approval of Shareholders of the Company as an Independent Director of the Company for a tenure of 5 years commencing from 14th August, 2025 to 13th August, 2030.

Pursuant to the provisions of the Section 161 of the Act and Articles of the Association of the Company, Mrs. Mehak Jain holds office upto the date of this Annual General Meeting ('AGM')

Mrs. Mehak Jain, aged about 36 years graduate in B.COM and Worked as a Company Secretary for More than 2 years.

Mrs. Mehak Jain is not disqualified from being appointed as a Director in accordance with Section 164 of the Companies Act, 2013, and has not been debarred from holding the office of director by virtue of any SEBI order or any other such authority and has given her consent to act as a Director of the Company. The Company has also received declaration from Mrs. Mehak Jain that she meets the criteria of independence as prescribed both under Section 149 (6) of the Companies Act, 2013 and under Listing Regulations, as amended from time to time. As required under Regulation 25 (8) of Listing Regulations, Mrs. Mehak Jain has also confirmed that she is unaware of any circumstances or situations which exists or may be reasonably anticipated that could impair or impact her ability to discharge her duties.

In compliance with Section 150 of the Act read with the corresponding Rules, Mrs. Mehak Jain has been duly registered with the Indian Institute of Corporate Affairs (IICA) and confirmed his adherence to the requirements of Rule 6(4) of the Companies (Appointment and Qualification of Directors) Rules, 2014 (as amended), within the prescribed timeline. As required under Section 160 of the Act, the Company received a notice in writing from a member proposing the candidature of Mrs. Mehak Jain for the position of Independent Director of the Company.

While considering the above appointment, the NRC thoroughly evaluated various aspects, including Independence, Integrity, leadership capabilities, administrative knowledge, and managerial experience, as key skills required for the role. Based on their assessment, the NRC and the Board of Directors are of the view that Mrs. Mehak Jain possesses the requisite skills and capabilities that would be of immense benefit to the Company and hence it is desirable to appoint her as an Independent Director.

In the opinion of the NRC and the Board of Directors, Mrs. Mehak Jain fulfills the conditions as set out in Section 149(6) and Schedule IV of the Act, as well as the Listing Regulations, for being eligible for appointment. The Board has established the veracity of the abovementioned declarations or documents submitted by Mrs. Mehak Jain. In the opinion of the Board, Mrs. Mehak Jain fulfils the conditions specified in the Act and the rules made there under and Listing Regulations and she is independent of the Management.

A copy of the draft Letter of Appointment for Independent Directors is available for inspection through electronic mode. Members desiring to inspect the same may send their request to gargfurnace@yahoo.com from their registered email address, mentioning their names and folio numbers/ demat account numbers, and including a self-attested copy of PAN card or Adhaar Card or Voter ID Card. Mrs. Mehak Jain will be remunerated through sitting fees for attending the Company's Board Meetings or any other purpose whatsoever, as may be determined by the Board from time to time and within the limits specified under the provisions of the Act, and Listing Regulations.

Based on the aforementioned considerations and in accordance with the Listing Regulations, the consent of the members is sought by way of a special resolution for the appointment of Mrs. Mehak Jain as an Independent Director, not liable to retire by rotation, as set forth in the accompanying Notice.

A brief profile of Mrs. Mehak Jain, nature of her expertise in specific functional areas and names of Companies in which he holds directorships or Chairmanships of Board committees, shareholding, and relationships between directors inter se, as stipulated under the Act, Listing Regulations, and Secretarial Standards, is provided in **Annexure-A** to this Notice.

The Board of Directors, based on the recommendation of the NRC, consider that the appointment of Mrs. Mehak Jain as an Independent Director is in the interest of the Company and, therefore, recommends the Special Resolution as set out at item no. 7 of the Notice for approval of the Members.

Except Mrs. Mehak Jain an appointee, none of the Directors or Key Managerial Personnel of the Company or their relatives is concerned or interested, financially or otherwise, in the resolution as set out in the Notice.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Part-A

For FY 2024–25

**Presented by Toshak Garg, Promoter cum Managing Director
Garg Furnace Limited**

Leading the Future – Next-Gen Vision at Garg Furnace

Namaste Shareholders,

It gives me great pride to present the Management Discussion and Analysis for FY 2024–25 on behalf of the Board of Garg Furnace Limited. As the next generation entrusted with this legacy, I see our role not just as steel manufacturers—but as engineering partners, building stronger foundations for India's growth through quality, innovation, and responsibility.

This year marked a turning point. We have begun shifting from a commodity mindset to a value-first, margin-driven model. The steel industry is evolving, and so are we. Every decision we made this year was rooted in one core belief: Steel should perform, not just weigh.

Our Three Core Focus Areas in FY 2024–25

1. Chemistry-Led Product Innovation

Tailoring our steel compositions to meet specific strength, machinability, and consistency requirements for industrial applications.

2. Entry into Value-Added Segments

Launching high-strength steel and self-drilling screws aimed at auto, engineering, and infrastructure sectors.

3. Strategic Acquisition (Initiated)

We have taken a decisive step toward acquiring a 51% stake in Vaneera Industries Ltd., which brings advanced alloy steel capabilities to our ecosystem.

Industry Context – The Steel Landscape in FY 2024–25

This year brought challenges across the global steel value chain. Benchmark per-ton steel prices declined by 10–15%, driven by:

- Global oversupply
- Softened demand from China
- Volatile input prices and freight

Despite strong infrastructure-led demand in India, margin pressure persisted industry-wide. Many players saw squeezed profitability and stagnating growth.

Our Response: Innovation, Efficiency, and Margin-Focus

Amid this backdrop, Garg Furnace chose not to compete on price—but on performance. We redesigned our internal chemistry, processes, and customer base with one goal: Improve bottom-line profitability regardless of commodity cycles.

Chemistry-Led Value Creation

- Introduced custom steel compositions—carbon, manganese, and chromium balanced for specific performance needs
- Supplied to auto component suppliers, agricultural equipment makers, and industrial fastener producers
- Gained traction as a preferred vendor to Tier-2 OEM suppliers
- Enabled performance-linked pricing, reducing dependence on general market prices

This strategic transformation allowed us to:

- Carve out a niche based on quality
- Maintain 100% capacity utilization
- Grow margins and customer loyalty, even as prices fell

Financial Performance Snapshot

Despite falling steel prices, our innovation-led strategy helped us increase net profit by 60%, proving that quality and value addition are the future of this business. And we continued to remain 100% debt free.

Delivered What We Promised (from FY 2023–24)

Commitment (Last Year)

Status FY 2024–25

Improve margins through better quality & direct scrap sourcing

 50% direct sourcing achieved, cost savings realized

Enter alloy steel market

 Strategic step taken via proposed Vaneera stake

Diversify into auto/defense-grade steels

 Value-added grades accepted by OEM-tier suppliers

Strategic Expansion – Vaneera Industries Ltd.

This year, we initiated the acquisition process for a 51% stake in Vaneera Industries Ltd., Ludhiana—a critical step in our journey toward becoming a premium alloy steel player.

Why Vaneera?

- Advanced metallurgy: LRF, EMS, VD

- Total planned capacity: 204,000 MT
- Serves auto, engineering, and defense sectors
- Allows mid-premium pricing at 5–10% discount to arc furnace steel
- Perfect for import substitution

The acquisition is expected to:

- Expand product range
 - Improve realizations
 - Provide entry into high-margin, performance-focused industries
-  Fasteners: Scaling a New Growth Vertical

We also commissioned a new self-drilling screw plant this year:

- 400 MT/year capacity, expandable to 1200 MT
- Technology sourced from Taiwan
- Targets India's ₹5,000 Cr+ fastener market (20%+ imports)
- Strong policy tailwinds with anti-dumping protections

Our positioning here is clear: Local quality at global standards.

Sustainability & Compliance

We continue our journey as a responsible manufacturer:

- 100% recycled scrap used as raw material

Outlook for FY 2025–26

As we look ahead, we're optimistic and laser-focused. Key initiatives:

- Complete the Vaneera acquisition and begin alloy steel production
- Scale up value-added steel and fastener volumes
- Expand customer base in auto and engineering segments
 - Sustain bottom-line-led growth, not just top-line expansion

Our internal goal is clear: Build a differentiated, defensible steel business that thrives in every cycle.

A Note of Gratitude

To all our shareholders, thank you for believing in us. This year we didn't grow by chance—we grew by choice, by discipline, and by design.

As I take forward the legacy of Garg Furnace, I assure you that the best is yet to come. We are not just forging steel anymore—we are forging value, resilience, and leadership.

Warm regards,
Toshak Garg

NAMASTE SHAREHOLDERS

It gives me great pride to present the Management Discussion and Analysis for FY 2024–25 on behalf of the Board of Garg Furnace Limited. As the next generation entrusted with this legacy, I see our role not just as steel manufacturers—but as engineering partners, building stronger foundations for India's growth through quality, innovation, and responsibility.

This year marked a turning point. We have begun shifting from a commodity mindset to a value-first, margin-driven model. The steel industry is evolving, and so are we. Every decision we made this year was rooted in one core belief: Steel should perform, not just weigh.

INDUSTRY OVERVIEW

The global steel industry in FY 2024–25 witnessed significant headwinds. Benchmark steel prices declined by 10–15% due to global oversupply, softened demand in China, and fluctuating input and freight costs. While India's infrastructure-driven demand remained robust, industry-wide profitability was challenged.

In this evolving landscape, Garg Furnace Limited (GFL) made a strategic shift from volume-based growth to a value-first, margin-led business model. Our focus remains on engineering high-performance steel solutions, especially in specialized and fast-growing end-use segments such as automotive, infrastructure, and precision manufacturing.

OUR COMPANY

We operate in the steel industry, primarily supplying to the agricultural, auto, nut and bolt and cycle parts market in India.

Our Three Core Focus Areas in FY 2024–25

1. **Chemistry-Led Product Innovation**
Tailoring our steel compositions to meet specific strength, machinability, and consistency requirements for industrial applications.
2. **Entry into Value-Added Segments**
Launching high-strength steel and self-drilling screws aimed at auto, engineering, and infrastructure sectors.
3. **Strategic Acquisition (Initiated)**

OPPORTUNITIES AND THREATS

OPPORTUNITIES

Chemistry-Led Value Creation

Introduced custom steel compositions—carbon, manganese, and chromium balanced for specific performance needs

Supplied to auto component suppliers, agricultural equipment makers, and industrial fastener producers

Gained traction as a preferred vendor to Tier-2 OEM suppliers

Enabled performance-linked pricing, reducing dependence on general market prices

This strategic transformation allowed us to:

- Carve out a niche based on quality
- Maintain 100% capacity utilization
- Grow margins and customer loyalty, even as prices fell

THREATS

- Volatility in raw material (scrap) and energy costs
- Pricing pressure from imports and commoditized steel players
- Delays in infrastructure spending or auto sector slowdowns
- Risk of integration and execution in new acquisitions and business verticals

FINANCIAL/OPERATIONAL PERFORMANCE

Despite falling steel prices, our innovation-led strategy helped us increase net profit by 60%, proving that quality and value addition are the future of this business and we continued to remain 100% debt free. The detailed performance has already been discussed in the Directors' Report under the column 'Financial Performance'.

INTERNAL CONTROL & SYSTEMS

The company has adequate internal control procedures commensurate with its size and nature of its business. These internal policies ensure efficient use and Protection of assets and resources. Compliance with policies, ensure reliability of financial and operational reports. The detailed point has already been discussed in the Directors' Report under the point Internal Financial Control.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF GARG FURNACE LIMITED

Report on the Audit of the Financial Statements Opinion

We have audited the accompanying Financial Statements of **Garg Furnace Limited** ("the Company") (CIN: **L99999PB1973PLC003385**), which comprise the Balance Sheet as at 31st March, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2025 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S.no.	Key Audit Matter	Auditors' Response
1.	<p>Revenue recognition:</p> <p>note 2(xiv) and note 24 of the financial statements. The Company's sales revenue mainly arose from sale of Iron and Steel products such as M.S. Round, Billet, Ingot, Wire Rod etc. The Company recognizes sales revenue based on the terms and conditions of transactions, which vary with different customers. For sales transactions in a certain period around balance sheet date, it is essential to ensure whether the transfer of control of the goods by the Company to the customer occurs before the balance sheet date or otherwise. Considering that there is significant volume of sales transactions close to the year end, involving material amounts and such revenue recognition is subject to whether transfer of control to the customers has occurred before the balance sheet date or otherwise, we consider the risk of revenue from sale of goods being recognised in the incorrect period, a key audit matter.</p>	<p>Principal Audit Procedures:</p> <p>We evaluated the design of internal controls over recognition of revenue in the appropriate period in accordance with the Company's accounting policy. Information Other than Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report and Shareholder's Information, but does not include the Financial Statements and our Auditor's Report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and describe actions applicable in the applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters

related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's Report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of our audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's Report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to

the date of our Auditor's Report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our Auditor's Report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid Financial Statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on 31st March, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure A”. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company’s internal financial controls with reference to Financial Statements.
- g) With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Financial Statements – Refer Note 33
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, if any, to the Investor Education and Protection Fund by the Company.

- iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The company has not declared, paid or propose to pay any dividend during the year.
- vi. Based on our examination, which included test checks, the Company has used accounting softwares for maintaining its books of account for the financial year ended 31st March, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the softwares. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trial has been preserved by the company as per the statutory requirements for the record retention.

2. As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE ‘A’ TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Garg Furnace Limited of even date)

Report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to Financial Statements of **Garg Furnace Limited** (“the Company”) as of 31st March, 2025 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Management is responsible for establishing and maintaining internal financial controls with reference to Financial Statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Financial Statements

included obtaining an understanding of internal financial controls with reference to Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the Auditor's judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Financial Statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A Company's internal financial control with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial control with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to Financial Statements and such internal financial controls with reference to Financial Statements were operating effectively as at 31st March, 2025, based on the criteria

for internal financial control with reference to Financial Statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT**(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Garg Furnace Limited of even date)**

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

- i. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation of Property Plant and Equipment. The Company does not have any intangible assets.

(b) The Company has a regular programme of physical verification of the Property Plant and Equipment at reasonable intervals. In accordance with this programme, certain Property Plant and Equipment were verified during the year, and no material discrepancies were noticed on such verification.

(c) The Company has all the original title deeds of immovable properties in its own name.

(d) The Company has not revalued any of its Property, Plant and Equipment or intangible assets during the year.

(e) No proceedings have been initiated during the year or are pending against the Company as at 31st March, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.
- ii. (a) The inventory has been physically verified by the management during the year. In our opinion, the frequency of verification is reasonable, and, the coverage and procedure of such verification is appropriate having regard to the size of the Company and the nature of its operation. No discrepancies of 10% or more in the aggregate for each class of inventory were noticed between the physical stock of inventory and the books of accounts.

(b) The Company has not been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, at any point of time during the year, from banks or financial institutions on the basis of security of current assets and hence reporting under clause 3(ii)(b) of the Order is not applicable.

- iii. The Company has made investments in other companies during the year. It has not provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties.
- (a) The company has not provided loans or advances in the nature of loans, or stood guarantee, or provided security to any other entity, hence reporting under clause 3(iii)(a) is not applicable to the company.
- (b) The terms and conditions in respect of investments are not prejudicial to the company's interest.
- (c) The company has not given any loans and advances in the nature of loans during the year, hence reporting under clause 3(iii)(c), (d), (e) and (f) is not applicable to the company.
- iv. The Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013 in respect of investments made. The company has not given any loans, guarantee and any security to any person during the year.
- v. The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Hence, reporting under Clause 3(v) of the order is not applicable.
- vi. We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of Cost records under section 148 of the Companies Act, 2013 and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have, however, not made a detailed examination of such records with a view to determine whether they are accurate or complete.
- vii. (a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.
- There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues in arrears as at 31st March, 2025 for a period of more than six months from the date they became payable except the following: -

Sr. No	Name of the Statute	Nature of the Dues	Amount (in Rs. Lakhs)	Period to which amount relates
1.	The Punjab Labour Welfare Fund Act, 1965	Punjab Labour Welfare Fund	Rs. 2.50	Up to Financial year 2024-25

- (b) There are no statutory dues referred to in sub clause(a) above which have not been deposited on account of a dispute.
- viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961.
- ix. (a) The company has not defaulted in any repayment of loans or other borrowings or in the payment of interest thereon to any lender.
 (b) The company has not been declared as a willful defaulter by any bank or financial institution or government or any government authority.
 (c) The Company has not taken any term loan during the year and the term loans outstanding at the beginning of the year have been utilised for the purpose for which they were obtained and hence, reporting under clause 3(ix)(c) of the Order is not applicable.
 (d) The company has not raised funds for short-term basis, hence reporting under clause 3(ix)(d) is not applicable.
 (e) The Company does not have any subsidiary, joint venture or associate companies, hence reporting under clause 3(ix)(e) is not applicable.
 (f) The Company does not have any subsidiary, joint venture or associate companies, hence reporting under clause 3(ix)(f) is not applicable.
- x. (a) The Company has not raised any money by way of initial public offer or further public offer (Including Debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
 (b) During the year, the Company has made a preferential allotment of 400000 equity shares at a price of ₹ 195/- per share to the promoter group. The Company has complied with requirements of Section 42 of Act with respect to such preferential allotment and the amounts so raised have been used for the purposes for which the funds were raised.
- xi. (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
 (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
 (c) No whistle-blower complaints were received during the year by the Company.
- xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- xiii. In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties

- and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- xiv. a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
(b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv. In our opinion during the year the Company has not entered into any non-cash transactions with its directors or persons connected with its directors. and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi. In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi) of the Order is not applicable.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors of the Company during the year.
- xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of Section 135 of the said Act. Accordingly, reporting under clause 3(xx)(a) of the Order is not applicable for the year.

(b) There is no amount remaining unspent under section (5) of section 135 of Act. Accordingly, reporting under clause 3(xx)(b) of the Order is not applicable for the year.

1. Corporate Information

Garg Furnace Limited (“the Company”) (CIN: L99999PB1973PLC003385) is a public company domiciled in India and incorporated under the provisions of Companies Act. Its equity shares are listed on Bombay Stock Exchange Limited (BSE). The registered office of the Company is situated at Kanganwal Road Jugiana G.T. road, Ludhiana. The Company is engaged in the business of manufacturing and trading of Iron and Steel products such as M.S. Round, Billet, Ingot, Wire Rod etc.

The Financial Statements are approved for issue by Companies Board of Directors on 30th May, 2025

2. A. Material accounting policies / critical accounting estimates and judgements**I. Statement of Compliance**

The financial statements of the company have been prepared in accordance with the Indian Accounting Standards (“IND AS”) specified under section 133 of the Companies Act, 2013 (“the Act”) read with the Companies (Indian Accounting Standard) Rules, 2015, as amended from time to time. The financial statements have been prepared on going concern basis and all the applicable Ind AS effective as on the reporting date have been complied with.

II. Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

III. Functional and presentation currency

The functional currency of the company is Indian rupee (INR). The financial statements are presented in Indian rupees (INR) and all values are rounded to nearest lakh up to two decimals, unless otherwise stated.

IV. Use of estimates and judgements

The preparation of financial statements, in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgements and use of assumptions in these financial statements have been disclosed in notes. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management become aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made, and if material, their effects are disclosed in the notes to the financial statements.

V. Current versus Non- current classification

The company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

Expected to be realized or intended to be sold or consumed in normal operating cycle.

- a. Held primarily for the purpose of trading.
 - b. Expected to be realized within twelve months after the reporting period, or
 - c. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- All other assets are classified as non-current.

A Liability is treated as current when:

- a. It is expected to be settled in normal operating cycle.
- b. It is held primarily for the purpose of trading.
- c. It is due to be settled within twelve months after the reporting period, or
- d. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The company classifies all other liabilities as non-current.

VI. Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period or each case.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions
- Quantitative disclosures of fair value measurement hierarchy
- Investment in unquoted equity shares financial instruments
- Financial instruments

VII. Property, plant and equipment

All items of property, plant and equipment are stated at cost less accumulated depreciation and impairment if any. Freehold land is stated at cost and not depreciated. The Cost of an item of Property, Plant and Equipment comprises:

- Its purchase price net of recoverable taxes wherever applicable and any attributable expenditure (directly or indirectly) for bringing the asset to its working condition for its intended use.
- Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.
- Initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, if any, the obligation for which an entity incurs either where the item is acquired or

as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Depreciation on property, plant and equipment has been provided on the straight line method as per the useful life prescribed in Schedule II to the Companies Act, 2013

Depreciation is calculated on pro-rata basis from the date of installation till the date the asset is sold or discarded.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under Capital work-in-progress. The depreciation method, useful lives and residual value are reviewed periodically and at the end of each reporting period.

VIII. Intangible Assets

Intangible assets are stated at cost less accumulated amount of amortisation and impairment if any. Intangible assets are amortised over their respective individual estimated useful lives on a straight line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence etc. The amortization method, estimated useful lives are reviewed periodically and at end of each reporting period.

IX. Impairment of Non-financial assets

The impairment assessment for all assets is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the assets or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss.

X. Inventories

Raw materials and stores, work in progress, traded and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials and stores is computed on FIFO basis plus direct expenditure, Cost of work in progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

XI. Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expense in the period in which they are incurred.

XII. Provisions, Contingent liabilities and Contingent Assets

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. A present obligation that arises from past events where it is neither probable that an outflow of resources will be required to settle nor a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

XIII. Foreign currency translation

Items included in the financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is Garg Furnace Limited functional and presentation currency.

Foreign currency translations are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss.

XIV. Revenue recognition

The Company has adopted Indian Accounting Standard 115 (Ind AS 115) - 'Revenue from contracts with customers'.

Revenue from sale of products is recognized upon transfer of control to customers. Revenue is measured at the amount of consideration which the Company expects to be entitled to in exchange for transferring distinct goods to a customer as specified in a contract, excluding amounts collected on behalf of third parties (for example, taxes and duties collected on behalf of the Government). A receivable is recognized upon satisfaction of performance obligations as per the Contracts.

"To determine whether to recognise revenue, the Company follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when/as performance obligation(s) are satisfied."

Use of significant Judgements in Revenue Recognition

Judgement is required to determine the transaction price for the contract. The transaction price could be either a fixed amount of consideration or variable consideration with elements such as volume discounts, price concessions, incentives etc. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period.

The Company assesses its revenue arrangements against specific recognition criteria's like exposure to the significant risks and rewards associated with the sale of goods. When deciding the most appropriate basis for presenting revenue or costs of revenue, both the legal form and substance of the agreement between the Company and its customers are reviewed to determine each party's respective role in the transaction.

Other Operating Revenue

Dividend income is recognized when the right to receive payment is established.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

Claims receivables on account of insurance are accounted for to the extent the Company is reasonably certain of their ultimate collection.

XV. Income Tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the period. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or

expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profits. Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences and incurred tax losses to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the period

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are also recognised in other comprehensive income or directly in equity respectively.

XVI. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash in hand, demand deposits held with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

XVII. Financial instruments

Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments.

Initial Recognition:

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss.

Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income (“FVOCI”) or fair value through profit or loss (“FVTPL”) on the basis of following:

- The entity’s business model for managing the financial assets and
- The contractual cash flow characteristics of the financial asset.

Amortised Cost:

A financial asset shall be classified and measured at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Fair Value through OCI:

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Fair Value through Profit or Loss:

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through OCI.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

Classification and Subsequent Measurement: Financial liabilities:

Financial liabilities are classified as either financial liabilities at FVTPL or ‘other financial liabilities’.

Financial Liabilities at FVTPL:

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL:

Gains or Losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

Impairment of financial assets:

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company assesses on a forward looking basis the expected credit losses associated with its assets. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

Derecognition of financial instruments:

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognizes a collateralized borrowing for the proceeds received.

A financial liability is derecognized when the obligation specified in the contract is discharged or cancelled or expires.

XVIII. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

XIX. Employee benefits**(i) Short term obligations**

Liabilities for wages and salaries, short term compensated absence and ex-gratia including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be

paid when the liabilities are settled. The liabilities are presented as current employee benefits obligations in the balance sheet.

(ii) Post-employment obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligations at the end of the reporting period less the fair value of plan assets (if any). The defined benefit obligation is calculated annually as per Valuation report given by Actuary on the basis of Guidance issued by The Actuarial Society of India.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expenses in the statement of profit or loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(iii) Defined contribution plans

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

XX. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker [CODM]. The managing committee is considered to be the 'Chief Operating Decision Maker' (CODM) as defined in IND AS 108. The Operating Segment is the level at which discrete financial information is available. The CODM allocates resources and assess performance at this level. In the context of Ind AS 108 on 'Segment Reporting', the results are considered to constitute a single reportable entity/ business segment for which the operating results are regularly reviewed by the company's Chief Operating Decision Maker.

XXI. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the

facility will be drawn down. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

XXII. Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing: The profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- The after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- The weighted average number of additional equity shares that would been outstanding assuming the conversion of all dilutive potential equity shares.

XXIII. Assets Held for Sale;

Non-current assets or disposal groups comprising of assets and liabilities are classified as 'held for sale' when all of the following criteria's are met: (i) decision has been made to sell. (ii) the assets are available for immediate sale in its present condition. (iii) the assets are being actively marketed and (iv) sale has been agreed or is expected to be concluded within 12 months of the Balance Sheet date.

Subsequently, such non-current assets and disposal groups classified as held for sale are measured at the lower of its carrying value and fair value less costs to sell. Non-current assets held for sale are not depreciated or amortised.

In view of the management, the current assets (financial & other) have a value on realization in the ordinary course of business at least equal to the amount at which they are stated in the balance sheet.

XXIV. Events occurring after balance sheet date

There are no major events which have occurred after the balance sheet date requiring disclosure in the financial statements.

1. Corporate Information

Garg Furnace Limited ("the Company") (CIN: L99999PB1973PLC003385) is a public company domiciled in India and incorporated under the provisions of Companies Act. Its equity shares are listed on Bombay Stock Exchange Limited (BSE). The registered office of the Company is situated at Kanganwal Road Jugiana G.T. road, Ludhiana. The Company is engaged in the business of manufacturing and trading of Iron and Steel products such as M.S. Round, Billet, Ingot, Wire Rod etc.

The Financial Statements are approved for issue by Companies Board of Directors on 30th May, 2025

2. A. Material accounting policies / critical accounting estimates and judgements

I. Statement of Compliance

The financial statements of the company have been prepared in accordance with the Indian Accounting Standards ("IND AS") specified under section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standard) Rules, 2015, as amended from time to time. The financial statements have been prepared on going concern basis and all the applicable Ind AS effective as on the reporting date have been complied with.

II. Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

III. Functional and presentation currency

The functional currency of the company is Indian rupee (INR). The financial statements are presented in Indian rupees (INR) and all values are rounded to nearest lakh up to two decimals, unless otherwise stated.

IV. Use of estimates and judgements

The preparation of financial statements, in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgements and use of assumptions in these financial statements have been disclosed in notes. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management become aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made, and if material, their effects are disclosed in the notes to the financial statements.

V. Current versus Non- current classification

The company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

Expected to be realized or intended to be sold or consumed in normal operating cycle.

a. Held primarily for the purpose of trading.

b. Expected to be realized within twelve months after the reporting period, or

c. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

GARG FURNACE LIMITED

Notes to Financial Statements for the year ended 31st March, 2025

A Liability is treated as current when:

- a. It is expected to be settled in normal operating cycle.
- b. It is held primarily for the purpose of trading.
- c. It is due to be settled within twelve months after the reporting period, or
- d. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The company classifies all other liabilities as non-current.

VI. Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

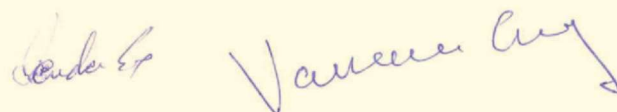

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period or each case.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions
- Quantitative disclosures of fair value measurement hierarchy
- Investment in unquoted equity shares financial instruments
- Financial instruments

VII. Property, plant and equipment

All items of property, plant and equipment are stated at cost less accumulated depreciation and impairment if any. Freehold land is stated at cost and not depreciated. The Cost of an item of Property, Plant and Equipment comprises:

- Its purchase price net of recoverable taxes wherever applicable and any attributable expenditure (directly or indirectly) for bringing the asset to its working condition for its intended use.
- Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.
- Initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, if any, the obligation for which an entity incurs either where the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Depreciation on property, plant and equipment has been provided on the straight line method as per the useful life prescribed in Schedule II to the Companies Act, 2013

Depreciation is calculated on pro-rata basis from the date of installation till the date the asset is sold or discarded.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under Capital work-in-progress. The depreciation method, useful lives and residual value are reviewed periodically and at the end of each reporting period.

VIII. Intangible Assets

Intangible assets are stated at cost less accumulated amount of amortisation and impairment if any. Intangible assets are amortised over their respective individual estimated useful lives on a straight line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence etc. The amortization method, estimated useful lives are reviewed periodically and at end of each reporting period.

IX. Impairment of Non-financial assets

The impairment assessment for all assets is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the assets or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is

limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss.

X. Inventories

Raw materials and stores, work in progress, traded and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials and stores is computed on FIFO basis plus direct expenditure, Cost of work in progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

XI. Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expense in the period in which they are incurred.

XII. Provisions, Contingent liabilities and Contingent Assets

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. A present obligation that arises from past events where it is neither probable that an outflow of resources will be required to settle nor a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non - occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

XIII. Foreign currency translation

Items included in the financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is Garg Furnace Limited functional and presentation currency.

Foreign currency translations are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss.

XIV. Revenue recognition

The Company has adopted Indian Accounting Standard 115 (Ind AS 115) - 'Revenue from contracts with customers'.

Revenue from sale of products is recognized upon transfer of control to customers. Revenue is measured at the amount of consideration which the Company expects to be entitled to in exchange for transferring distinct goods to a customer as specified in a contract, excluding amounts collected on behalf of third parties (for example, taxes and duties collected on behalf of the Government). A receivable is recognized upon satisfaction of performance obligations as per the Contracts.

"To determine whether to recognise revenue, the Company follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when/as performance obligation(s) are satisfied."

Use of significant Judgements in Revenue Recognition

Judgement is required to determine the transaction price for the contract. The transaction price could be either a fixed amount of consideration or variable consideration with elements such as volume discounts, price concessions, incentives etc. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period.

The Company assesses its revenue arrangements against specific recognition criteria's like exposure to the significant risks and rewards associated with the sale of goods. When deciding the most appropriate basis for presenting revenue or costs of revenue, both the legal form and substance of the agreement between the Company and its customers are reviewed to determine each party's respective role in the transaction.

Other Operating Revenue

Dividend income is recognized when the right to receive payment is established.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

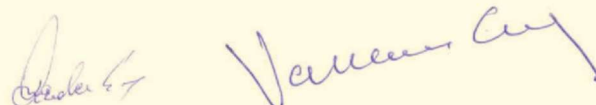

Claims receivables on account of insurance are accounted for to the extent the Company is reasonably certain of their ultimate collection.

XV. Income Tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the period. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

GARG FURNACE LIMITED

Notes to Financial Statements for the year ended 31st March, 2025

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profits. Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences and incurred tax losses to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the period

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are also recognised in other comprehensive income or directly in equity respectively.

XVI. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash in hand, demand deposits held with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

XVII. Financial instruments

Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments.

Initial Recognition:

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss.

Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- The entity's business model for managing the financial assets and
- The contractual cash flow characteristics of the financial asset.

Amortised Cost:

A financial asset shall be classified and measured at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Fair Value through OCI:

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Fair Value through Profit or Loss:

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through OCI.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

Classification and Subsequent Measurement: Financial liabilities:

Financial liabilities are classified as either financial liabilities at FVTPL or 'other financial liabilities'.

Financial Liabilities at FVTPL:

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL:

Gains or Losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

Impairment of financial assets:

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company assesses on a forward looking basis the expected credit losses associated with its assets. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

GARG FURNACE LIMITEDNotes to Financial Statements for the year ended 31st March, 2025**Derecognition of financial instruments:**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognizes a collateralized borrowing for the proceeds received.

A financial liability is derecognized when the obligation specified in the contract is discharged or cancelled or expires.

XVIII. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

XIX. Employee benefits**(i) Short term obligations**

Liabilities for wages and salaries, short term compensated absence and ex-gratia including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefits obligations in the balance sheet.

(ii) Post-employment obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligations at the end of the reporting period less the fair value of plan assets (if any). The defined benefit obligation is calculated annually as per Valuation report given by Actuary on the basis of Guidance issued by The Actuarial Society of India.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expenses in the statement of profit or loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(iii) Defined contribution plans

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

XX. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker [CODM]. The managing committee is considered to be the 'Chief Operating Decision Maker' (CODM) as defined in IND AS 108. The Operating Segment is the level at which discrete financial information is available. The CODM allocates resources and assess performance at this level. In the context of Ind AS 108 on 'Segment Reporting', the results are considered to constitute a single reportable entity/ business segment for which the operating results are regularly reviewed by the company's Chief Operating Decision Maker.

XXI. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

XXII. Earnings per share**(i) Basic earnings per share**

Basic earnings per share is calculated by dividing: The profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- The after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- The weighted average number of additional equity shares that would be outstanding assuming the conversion of all dilutive potential equity shares.

XXIII. Assets Held for Sale;

Non-current assets or disposal groups comprising of assets and liabilities are classified as 'held for sale' when all of the following criteria's are met: (i) decision has been made to sell, (ii) the assets are available for immediate sale in its present condition, (iii) the assets are being actively marketed and (iv) sale has been agreed or is expected to be concluded within 12 months of the Balance Sheet date.

Subsequently, such non-current assets and disposal groups classified as held for sale are measured at the lower of its carrying value and fair value less costs to sell. Non-current assets held for sale are not depreciated or amortised.

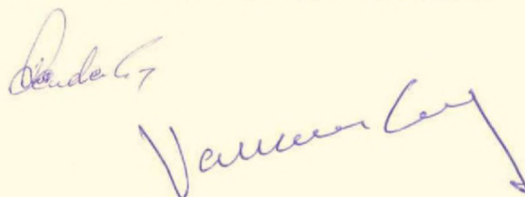

GARG FURNACE LIMITED

Notes to Financial Statements for the year ended 31st March, 2025

In view of the management, the current assets (financial & other) have a value on realization in the ordinary course of business at least equal to the amount at which they are stated in the balance sheet.

40 Financial Risk Management

The financial assets of the company include investments, trade and other receivables and cash and bank balances that derive directly from its operations. The financial liabilities of the company include loans and borrowings, trade payables, and other payables, and the main purpose of these financial liabilities is to finance the day to day operations of the company.

The company is mainly exposed to the following risks that arise from financial instruments:

- (i) Market risk
- (ii) Liquidity risk
- (iii) Credit risk

The Company's senior management oversees the management of these risks and that advises on financial risks and the appropriate financial risk governance framework for the Company.

This note explains the risks which the company is exposed to and policies and framework adopted by the company to manage these risks:

(i) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise two types of risk: foreign currency risk and interest rate risk.

(a) Foreign currency risk

The company during the year is not exposed to any foreign currency risk as there are no dealings in foreign exchange

(b) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company's total long-term debt obligations (including current maturities) as at 31st March, 2025 is ₹ 140.14 Lakhs (previous year ₹ 149.54 Lakhs) out of which are borrowings amounting to ₹ 80.14 Lakhs (previous year ₹ 89.54 Lakhs) is interest bearing and with variable rate of interest. The balance borrowings amounting to ₹ 60.00 Lakhs (previous year ₹ 60.00 Lakhs) is interest free loan repayable on demand.

At the reporting date the interest rate profile of the Company's interest bearing financial instrument is at its fair value:

Variable rate instruments	Carrying amount	
	Financial Year	Financial Year
	2024-25	2023-24
Long term borrowings	69.69	80.13
Short term borrowings (Current maturities of long term debt)	10.44	9.41

Cash flow sensitivity analysis for variable rate instruments

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. A change of 100 basis points in interest rates for variable rate instruments at the reporting date would have increased/(decreased) profit or loss for the below years by the amounts shown below. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Variable rate instruments	Financial Year	Financial Year
	2024-25	2023-24
Increase/ (decrease) in 100 basis point	0.80	0.90

(ii) Liquidity Risk

Liquidity risk refers to the risk that the Company will encounter difficulty to meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The financial liabilities of the company include loans and borrowings, trade and other payables. The company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations.

The company monitors its risk of shortage of funds to meet the financial liabilities using a liquidity planning tool. The company plans to maintain sufficient cash to meet the obligations as and when falls due.

The below is the detail of contractual maturities of the financial liabilities of the company at the end of each reporting period:

Particulars	Financial Year	Financial Year
	2024-25	2023-24
Borrowings including current maturities	140.13	149.54
Less than 1 year	10.44	9.41

Later	-	-

(iii) Credit Risk

Credit risk refers to the risk of default on its contractual terms or obligations by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables which are typically unsecured. Credit risk on cash and bank balances is limited as the company generally invests in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies.

The company assesses the creditworthiness of the customers internally to whom goods are sold on credit terms in the normal course of business. The credit limit of each customer is defined in accordance with this assessment.

The impairment analysis is performed on client to client basis for the debtors that are past due at the end of each reporting date. The company has not considered an allowance for doubtful debts in case of Trade receivables that are past due but there has not been a significant change in the credit quality and the amounts are still considered recoverable.

The following table gives details in respect of percentage of revenues generated from top one customer and other customers:

Particulars	Financial Year	Financial Year
	2024-25	2023-24
Top 1 Customer (%)	11.67%	12.26%
Other Customer (%)	88.33%	87.74%

Credit Risk Exposure

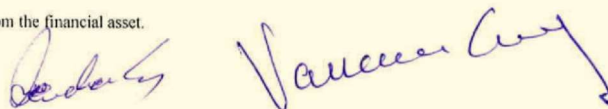

The Company has used a practical expedient by computing the expected loss allowance for trade receivables based on historical credit loss experience and adjustments for forward looking information.

Particulars	Financial Year	Financial Year
	2024-25	2023-24
Less than one year	2322.42	2253.59
More than one year	111.18	123.72

The allowance for lifetime expected credit loss on customer balances for the year ended 31st March, 2025 was ₹ 30.94 Lakhs (previous year ₹ 29.92 Lakhs).

Write off policy

The financial assets are written off in case there is no reasonable expectation of recovering from the financial asset.

GARG FURNACE LIMITED**Notes to the financial statements for the year ended 31st March, 2025***(All amounts ₹ in Lakhs, unless otherwise stated)***41 Capital Management**

The capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the company. The primary objective of the company's capital management is to maintain optimum capital structure to reduce cost of capital and to maximize the shareholder value.

The company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants which otherwise would permit the banks to immediately call loans and borrowings. In order to maintain or adjust the capital structure, the company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's gearing ratio was as follows:

42 Significant Transaction

During the previous year, the Board of Directors of the Company, at its meeting held on December 19, 2023, approved the issuance of 28,00,000 (Twenty-Eight Lakh) warrants on a preferential basis, at an issue price of ₹195/- per warrant, to certain persons/entities belonging to the promoter group and non-promoter group of the Company. Each warrant carries the right to subscribe to one fully paid-up equity share of face value ₹10/- at a price of ₹195/- (including a premium of ₹185/- per share) within a period of eighteen months from the date of allotment. The consideration for the preferential issue is payable in cash and was received through electronic means/banking channels, in compliance with applicable laws and regulations. The preferential allotment has been undertaken pursuant to the applicable provisions of the Companies Act, 2013 (including Sections 23(1)(b) and 42), read with applicable rules made thereunder, and the provisions of Chapter V of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended, and other applicable regulatory provisions.

Out of the total 28,00,000 warrants issued; during the previous year, the Company converted 6,00,000 warrants into equity shares of face value ₹10/- each at a price of ₹195/- per share (including ₹185/- as share premium). Further, during the current year, the Company converted an additional 4,00,000 warrants into equity shares on the same terms.

The Company proposed the preferential allotment as a cost and time-effective capital-raising method to meet its growing financial and operational needs. The proceeds from the issue are intended to be used for:

- (a) Meeting the working capital requirements
- (b) Business expansion activities
- (c) General corporate purposes

This strategic capital raise through preferential offer aligns with the Company's long-term business objectives and growth trajectory.
