THE TRANSFORMATION OF RAJ RAYON INDUSTRIES

“From Fiber to Fashion”

- SVG group, recognized for its progressive approach made a Complete Turn-around in Raj Rayon’s operations since taking over in 2021.
- Strategic investments were channeled into the company with a focus to eliminate obsolete machinery, update and enhance production capabilities with state-of-the-art Technology and reduce cost of production, setting the stage for future growth.
- Starting with first production in Jan 2023 with a Polymerization capacity of 300TPD, PoY capacity of 125TPD and DTY capacity of 60TPD. RRIL implemented one expansion in FY24 and has now completed the second consecutive expansion to reach a Polymerization capacity of 400TPD, PoY capacity of 350 TPD and DTY capacity of 150TPD and we plan to continue this journey.

CURRENT CAPACITY OF THE COMPANY STANDS AT

Capacity TPA	FY25	FY26
Chips	18,500	12,000
POY	82,000	1,26,000
DTY	46,800	54,000

“It is the business acumen of the promoters and the dedication of a skilled professional team that led to the transformation of Raj Rayon Industries. Their relentless efforts have made Raj Rayon Industries what it is today”

THE SYNERGY

Backward Integration:

Raj Rayon, known for its high-quality man-made fibers and yarn manufacturing, serves as the foundational step in the textile production chain, providing a strong basis for backward integration with SVG Fashions.

Operational Consolidation

Complete integration of production from buying petrochemical molecules at Raj Rayon to Ready made garments at the parent company creates unmatched synergies by optimizing production costs and enhancing supply chain efficiency.

Operational Consolidation

SVG Fashions, with a solid market presence and a premium client base including brands like Skechers, Reliance Retail, Adidas, and Puma, ensures a steady order flow for Raj Rayon, stabilizing production and maximizing output.

Creating Synergies:

The acquisition integrates Raj Rayon's upstream capabilities with SVG's downstream processes, optimizing the value chain from fiber production to finished garments and enabling the delivery of comprehensive textile solutions.

Products	UOM	Group Capacity
Fabric Processing	Mtr/annum	4,00,00,000
Knitted Fabrics	Tons/annum	16,000
Furnishing Fabrics	Mtr/annum	18,00,000
Embroidery Fabric	Mtr/annum	24,00,000
Ready Made Garments	Pcs/annum	12,00,000

Technological Advancements: Vapour absorption chillers use waste vapours to generate chilled water for air conditioning and Air Pre heaters use hot air from the plant to reduce fuel consumption. 2 and 3 dimensional pigment dosing systems which help to produce inherent dyed yarns and other specialties like cotton-like yarns

Vertical and Lateral Expansion:

Raj Rayon Industries Ltd. (RRIL) is poised to upgrade its vertically integrated production capacity of chips, POY, and DTY, by adding niche products in yarns and knitted fabrics. This strategic move will enable RRIL to enter higher value-added segments, which are expected to be margin accretive

Cost-Saving Measures: RRIL has implemented various cost-saving strategies to enhance EBITDA margins. Key measures include – a) Utilizing reusable packaging to reduce costs b) Optimizing logistics to cut expenses c) Leveraging increased capacity to negotiate better dealer margins within the existing network, aiming for an additional 2-3% savings at the EBITDA margin level.

Capacity Expansion:

The company is currently ramping up its production capacity with targeted capital expenditures focused on higher-margin products. The planned investments are expected to increase the existing combined capacity from 400 TPD to 700 TPD, nearly doubling the production capacity

Sustainable Margins: The management anticipates maintaining sustainable margins in the range of 5-7% for POY, with DTY margins expected to be between 10-12%.

Revenue Aspirations:

Management has set an ambitious goal to achieve a topline of INR 2900 crores (POY/FDY - ~780 cr, DTY - ~1760 cr, Chips - ~360 cr) by FY2027, reflecting their confidence in the company's growth potential.

MANAGEMENT VIEW:

Mr. Raikumar S. Agarwal

"I'm delighted to report that Raj Rayon Industries Ltd. has achieved another significant milestone, completing its 3rd consecutive capacity expansion plan at our Silvassa facility. This accomplishment is a testament to the dedication and expertise of our management team and workforce.

As we reflect on FY24-25, we're proud of the progress we've made in strengthening our position in the textile industry. Our growth strategies are yielding results, and we're confident that our commitment to excellence and innovation will drive sustained growth.

Looking ahead, we're excited about the opportunities that lie ahead. Our comprehensive plan is designed to elevate Raj Rayon to new heights, leveraging our strengths to achieve remarkable success. We're committed to delivering value to our stakeholders and setting new benchmarks in the industry.

With a clear vision and a strong team, we're poised to achieve extraordinary milestones in the coming years. I would like to express my gratitude to our employees, investors, and partners for their unwavering support.

Together, we'll continue to push boundaries and achieve greatness."

GROWTH DRIVERS:

- ✓ With the recent MIP (Minimum import price) imposed on cheap textile imports and Quality Control Order(QCO) making BIS certification mandatory for imported POY and FDY yarns, the industry dynamics for local yarn manufacturers is seeing tailwinds and we expect Indian yarn players to benefit from the same.
- ✓ The presence in complete value chain from yarn to garments, cost saving measures, strong management pedigree along with state-of-the-art equipment for polymer and yarn testing. The company takes pride in having access to such advanced facilities, which are only available in Leading plants worldwide.
- ✓ PLI schemes for polyester fabrics will result in increased demand for polyester yarns. Generous state wise capital subsidies and interest subventions will drive growth across the country.
- ✓ With the growing international support through FTAs and the on-going crisis in Bangladesh , Sri Lanka and China +1 wave, India will stand to gain by way of growing global demand for man-made fiber products from India.

RESEARCH AND DEVELOPMENT CAPABILITIES:

RRIL maintains a strong focus on research and development (R&D) activities, aiming to develop new products, explore innovative applications, improve operational efficiencies, and reduce manufacturing costs.

The facilities include state-of-the-art equipment for polymer and yarn testing. The company takes pride in having access to such advanced facilities, which are only available in leading plants worldwide.

The company's philosophy revolves around innovation and cost competitiveness. To achieve these goals, RRIL possesses comprehensive R&D facilities for spinning and texturizing.

SUSTAINABILITY AT OUR PLANTS

Efficient Recycling Treatment

We have installed a state-of-the-art Effluent Treatment Plant (ETP) with a Reverse Osmosis process for water recycling. Our aerobic ETP treats effluent water and generates significantly less CO₂ compared to traditional anaerobic ETPs.

Water and Energy Recovery and Utilization

Residual heat is recovered and utilized for preheating atmospheric air used in HTM heaters. This process ensures proper fuel combustion, reducing overall fuel consumption and CO₂ emissions. RRIL is Going one step further and has planned to install machinery to use Biomass as fuel which will also help reduce cost of production

Innovative Cooling Solutions

Waste vapors from the system are converted into chilled water through vapor absorption chillers. This chilled water is used for air conditioning the plant, thereby significantly reducing the power requirements for cooling production areas

Power Saving Initiatives

Various power-saving methods are continuously implemented to minimize power consumption. This includes the purchase of energy-efficient motors and the installation of solar power panels.

Sustainable Packaging Solutions

RRIL uses 100% recycled packing materials and have further achieved a reduction in packing material requirements by recycling these materials further by re-using them. Paper tubes and Jumbo bags are an example of re-using of packing materials.

Investment Rationale

“INSPIRE, EMPOWER AND CREATE”

Capex Led Growth - Capex of ~ INR 500-600 crores over the next 2-3 years and adding new cost efficient machineries with latest technologies. Capex will be executed at much lower cost due to existing ready infrastructure. Capex will expand the polymerization from 400 TPD to 700 TPD, POY/FDY from 350 TPD to 650TPD and DTY capacity from 150 TPD to 400 TPD resulting in reduced fixed costs.

Shift Towards Better Margin Products - The company's continuous polymerization process, which converts PET directly into fiber, has the potential to expand gross margins. Alongside the implementation of cost-saving measures and higher value-added product mix, the company expects to achieve high net profit margin. This is further supported by low leverage.

Completing Value Chain with Product features customised to customer needs, due to domain knowledge of down the line Products.

Raj rayon is supported by SVG Fashions which has down the line production facilities for making all types of fabrics and finally an in-House Apparel manufacturing set-up. This enables Raj Rayon to supply customized products as per the requirement of the end Customer.

Drivers of Growth of Polyester Industry

The global polyester fibre market size was estimated at USD 118.51 billion in 2023 and is expected to grow at a CAGR of 7.3% from 2024 to 2030. The market growth is being fuelled by advancements in technology, expansion of research and development capabilities, and the growing utilization of polyester fibre in textile, apparel, and industrial applications. One of the main factors driving the product's growth is the increasing demand for cost-effective and durable materials in these industries. Polyester fibres offer several advantages over natural fibres, including high strength, wrinkle and abrasion resistance, and easy maintenance, making them an attractive choice for manufacturers and consumers alike.

The polyester industry is growing due to a number of factors, including:

- Demand for durable, cost-effective materials:

Polyester fibres are strong, durable, and easy to maintain, making them a popular choice for manufacturers and consumers.

- Growing Athleisure Market:

There has been a big shift towards fitness especially after COVID pandemic, which has increased the demand for performance and leisure wear across the globe which is predominantly Polyester.

- Automotive industry :

The expansion of the automotive industry is driving demand for polyester fibres, which are used in airbags, seatbelts, headliners in auto, carpets, and interior upholstery.

- Wide use of Polyester:

Polyester is used in many products and industries because of its strength, durability, and ability to stretch and shrink without losing strength like athleisure, home textiles, fashion, technical textiles, luggage, electronics, hotel industries, denims are also now 50% poly, mattress, carpet, rugs, fish nets,

Further as per the amendment in Regulation 36 (1) (b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the web-link, including the exact path, where complete details of the Annual Report are available, shall be sent via physical letter to those member(s) who have not registered their email address(es) either with the Company or with any Depository or MUFG Intime India Private Limited (Formerly Link Intime India Private Limited), Registrar & Share Transfer Agent (RTA) of the Company. Accordingly the company will sent the notice to those members.

9. Shareholders require to update KYC details pursuant to SEBI Master Circular No. SEBI/HO/MIRSD/POD-1/P/CIR/2024/37 dated May 07, 2024, and to dematerialise physical securities. The circular issued by SEBI mandates all the listed companies to record PAN, Address with PIN code, Mobile Number, Bank Account details, Specimen Signature and choice of Nomination of security holders holding securities in physical mode. While updating Email ID is optional, the security holders are requested to register email id also to avail online services. This is applicable for all security holders holding securities in physical mode. RTA will attend to all service requests of the shareholders with respect to transmission, dividend, etc., only after updating the above details in the records.
10. Since the 32nd AGM will be held through VC/OAVM Facility, the Route Map is not annexed in this Notice.
11. Members holding shares in electronic form are requested to intimate immediately any change in their address or bank mandates to their Depository Participants with whom they are maintaining their demat accounts. Members holding shares in physical form are requested to advise any change of address immediately to the Company/Registrar and Share Transfer Agent, MUFG Intime India Private Limited (formerly known as Link Intime India Private Limited)
12. Members must quote their Folio No. /Demat Account No. and contact details such as e-mail address, contact no. etc. in all their correspondence with the Company/Registrar and Share Transfer Agent.
13. Ms. Riddhi Shah, Practicing Company Secretary, Mumbai has been appointed as the Scrutinizer to scrutinize the voting process in a fair and transparent manner.
14. During the 32nd AGM, Members may access the scanned copy of Register of Directors and Key Managerial Personnel and their shareholding maintained under Section 170 of the Act, the Register of Contracts or arrangements in which Directors are interested under Section 189 of the Act.
15. In terms of the applicable provisions of the Act and Rules thereto, the Company has obtained e-mail addresses of its Members and have given an advance opportunity to every Member to register their e-mail address and changes therein from time to time with the Company for service of communications/documents (including Notice of General Meetings, Audited Financial Statements, Directors' Report, Auditors' Report and all other documents) through electronic mode.

Although, the Company has given opportunity for registration of e-mail addresses and has already obtained e-mail addresses from some of its Members, Members who have not registered their E-mail address so far are requested to register their e-mail for receiving all communications including Annual Report, Notices and Circulars etc. from the Company electronically. Members can do this by updating their email addresses with their depository participants.

16. In case of joint holders attending the 32nd AGM, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote.
17. Securities of listed companies would be transferred in dematerialised form only w.e.f. April 1, 2019. In view of the same, Members holding shares in physical form are requested to convert their holdings to dematerialized form to eliminate all risks associated with physical shares and for ease of portfolio management. Members can contact the Company's RTA for assistance in this regard.
18. As we all know that today the holders of physical certificates are required to submit various documents to the Registrar and Share Transfer Agent (RTAs) for processing the service requests and it is a common observation that tracking of the complaints posted by shareholders/ investors poses problems with the clients and their shareholders. Keeping in view of the difficulties faced by the investors, SEBI has come out with the circular: SEBI/HO/MIRSD/MIRSD-PoD-1/CIR/2023/72 dated 8th June 2023 wherein RTA's have mandated to build a user-friendly online mechanism/portal for processing of Investor service request and complaints. MUFG Intime India Private Limited (formerly known as Link Intime India Private Limited) , our RTA has developed an online mechanism and also implemented the same on our Website under the heading Swayam. Link of the same is: <https://swayam.linkintime.co.in/>

Swayam is designed to enhance services of RTA and provide a more efficient and user-friendly experience to all our investors/client's shareholders. All the procedures and related forms are available at a click of a button along with a complete track of the investor's query/ complaint. We request the members to use the same for ease of your query/ complaint.

VOTING:

19. In compliance with provisions of Section 108 of the Act read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended), Secretarial Standard on General Meetings (SS-2) issued by the Institute of Company Secretaries of India ("ICSI") and Regulation 44 of the SEBI Listing Regulations, the Company is pleased to provide its Members the facility to cast their votes either for or against each resolutions set forth in the Notice of the 32nd AGM using electronic voting system ('remote e-voting') and e-voting (during the 32nd AGM), provided by MUFG Intime India Private Limited (formerly known as MUFG Intime India Private Limited (formerly known as Link Intime India Private Limited)) ("MUFG") and the business may be transacted through such voting.

Only those Members who will be present in the 32nd AGM through VC / OAVM facility and have not cast their vote on the resolutions through remote e-voting, and are otherwise not barred from doing so, shall be eligible to vote through e-voting system during the 32nd AGM.

The voting period begins on **Saturday, September 27, 2025 (9.00 AM IST)** and ends on **Monday, September 29, 2025 (5.00 PM IST)**. During this period, Members holding shares either in physical or dematerialized form, as on cut-off date, i.e. as on **Tuesday, September 23, 2025** may cast their votes electronically. Any person, who acquires shares of the Company and becomes a Member of

the Company after dispatch of the Notice of 32nd AGM and holds shares as of the cut-off date i.e. **Tuesday, September 23, 2025**, may obtain the login ID and password by sending a request at rnt.helpdesk@linkintime.co.in. However, if a Member is already registered with Link Intime for e-voting, then he/she can use existing user id and password/PIN for casting the vote.

The Scrutinizer shall, immediately after the conclusion of voting at the 32nd AGM, first count the votes cast during the 32nd AGM, thereafter unblock the votes cast through remote e-voting and make, not later than two working days of conclusion of the 32nd AGM, a consolidated Scrutinizer's Report of the total votes cast in favour or against, if any, to the Chairman or a person authorised by him in writing, who shall counter sign the same.

The Results declared along with the report of the Scrutinizer shall be placed on the website of MUFG Intime India Private Limited (formerly known as Link Intime India Private Limited) (<https://instavote.linkintime.co.in>) and on the Company's website at <http://www.rajrayon.com/> immediately. The result will also be displayed on the Notice Board of the Company at its Registered Office. The Company shall simultaneously forward the results to National Stock Exchange of India Limited and BSE Limited, where the shares of the Company are listed. The resolutions, if passed by requisite majority, shall be deemed to have been passed on the date of the 32nd AGM i.e. September 30, 2025.

(A) THE INSTRUCTIONS FOR E-VOTING ARE AS FOLLOWS:

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2 : Shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- (i) The voting period begins on **Saturday, September 27, 2025 (9.00 AM IST)** and ends on **Monday, September 29, 2025 (5.00 PM IST)**. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date on **Tuesday, September 23, 2025** may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the

ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- (i) In terms of SEBI circular no. **SEBI/HO/CFD/CMD/CIR/P/2020/242** dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Conservation of energy, technology absorption and foreign exchange earnings and outgo

The details of conservation of energy, technology absorption, foreign exchange earnings and outgo are as follows:

A) Conservation of energy:

- We have Installed Air Preheater in the Exhaust of the Heaters which Reduces the Power Load to Heat the Air for Combustion of the Fuel in the Heaters & reduce the Flue Gas Temperature too.
- We Have Installed Air Coolers for the Condensation of the Vapours of the Process Column which Ultimately reduces the Water Purification Cum Power cost to Treat it from Bore well to the Condition where it can be Made Useable for the Process, also the Natural Cooling Reduces the Power Load of the Fans too of the Cooling Towers .
- We have been using the IE3 Motors for More Energy Savings.
- We have Designed the Continuous Polymerisation Plant Building is Such a way that the required Ventilation of Air is achieved without use of Exhaust Fans to remove the heat of the Building. This results in reduced capex and regular energy costs.
- All the old Electrical panels, Cables, transformers have been replaced by new latest technology equipment which will be more efficient and reduce monthly energy bills.
- New Variable frequency drives have been installed to ensure high efficiency and optimum use of energy.
- All new lights that are being installed are low power consuming LED type fittings.
- Elimination of Tedious process for movement of main raw materials;

The main raw material for the plant will be PTA which was previously coming in bags due to various reasons. We will bring PTA in tankers to our plant which will save the cost of transportation, cost of bags, handling costs and also electrical energy consumed during transportation to the height via electrical hoists. This will also save costs incurred due to pilferage during transportation of bags.

It was observed during regular cost audit exercise, that due to the temperature difference during day & night, It is possible to stop 50% electrical fans of all coolers in the night. This translates in considerable energy saving during the night.

Similarly regular energy savings are achieved by optimizing the plant process parameters & process activity due to reduced loads on all the cooling towers & chillers.

The company has also increased the use of electricity free turbo vent in place of electrical operated exhaust fan resulting in 100% savings.

B) Technology absorption

The company has purchased new H.T. Power capacitor banks which will increase the power factor to nearly 1 and reduce energy costs.

Melt Transfer Line:

We have already installed a direct melt transfer line to the POY plant which will bypass the process of making chips and save the energy consumed for cooling the polymer and cutting into chips, packing and transporting to POY area and re-heating and extruding at the PoY stage. This will be in addition to the assured uninterrupted supply to the POY lines for better production efficiency.

Installing new POY plant

We are in the process of installing new POY production lines with better quality, higher efficiency and lower energy consumption and material wastage.

I report that:

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by M/s. **Raj Rayon Industries Limited** (hereinafter called the company) CIN: **L17120DN1993PLC000368**. Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Company's Responsibilities:

The Company's Management and Board of Directors are responsible for the maintenance of secretarial record under the Companies Act, 2013 and compliance of the provisions of the Corporate and other applicable laws, rules, regulations and standards. Further the Company's Management and Board of Directors are also responsible for establishing and maintaining adequate systems and process, commensurate with the size and operations of the Company to identify, monitor and ensure compliances with the applicable laws, rules, regulations and guidelines.

Auditor's Responsibility Statement:

My responsibility is only to examine and verify those compliances on a test basis and express an opinion on these secretarial records based on audit.

I have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the Secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. I believe that the processes and practices, I followed provide a reasonable basis for my opinion.

I have not verified the correctness and appropriateness of financial records and books of accounts of the Company. Wherever required, I have obtained the Management's Representation Letter about the compliance of Laws, rules and regulations and happening events, etc.

The Secretarial Audit report is neither an assurance as to the future viability of the Company nor of the efficacy or effectiveness with which the management has conducted the affairs of the Company.

Limitations:

I have conducted the secretarial audit by examining the secretarial records including minutes, documents, registers, other records and returns related to the applicable laws on the Company etc. However some of the documents and records mentioned herein have been received via electronic

means. The management has confirmed that the records submitted to me are true and correct. I have relied upon representation given by the Management of the Company for certain areas which otherwise requires physical verification.

Report on Secretarial Records and Compliances made thereunder:

Based on verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorised representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has during the audit period covering the financial year ended on March 31, 2025 complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March 2025 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings; **Not Applicable**
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') ;
 - a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;

MANAGEMENT DISCUSSION & ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENT

The Indian textile and apparel industry continues to remain one of the most significant contributors to the national economy, both in terms of domestic consumption and exports. During FY 2024-25, the sector witnessed gradual recovery from global demand slowdown and supply chain disruptions seen in the previous years. Supported by government incentives and improving consumer sentiment, the industry has shown resilience and adaptability.

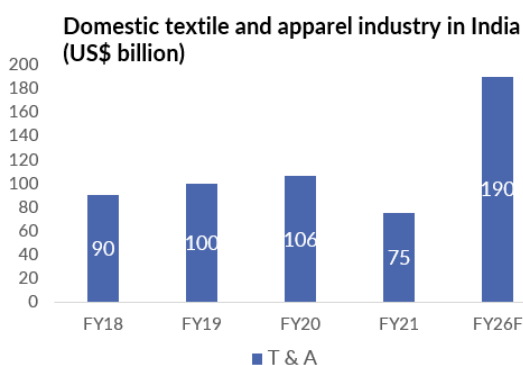

India is the second-largest producer of textiles and garments globally and the largest producer of cotton. The industry contributes around 2% to India's GDP, 13-14% to industrial production, and nearly 11-12% to the country's export earnings. With a workforce of over 45 million people directly employed and more than 100 million in allied sectors, textiles remain one of the largest sources of employment generation in India.

In FY 2024-25, domestic demand was driven by increasing disposable incomes, changing fashion trends, rising penetration of branded apparel, and the growth of e-commerce platforms. On the global front, export opportunities improved as markets in the US and Europe began stabilizing, while Free Trade Agreements (FTAs) under negotiation with the UK, EU, and other nations are expected to open new avenues for Indian exporters.

The Government of India continued to provide strong policy support with schemes such as the Production Linked Incentive (PLI) Scheme for Textiles, the establishment of PM MITRA Mega Textile Parks, and support for Technology Upgradation and Technical Textiles Mission. These initiatives are expected to modernize the sector, improve competitiveness, and attract large-scale investments.

At the same time, the industry continues to face challenges including raw material price volatility, rising energy costs, competition from other low-cost textile manufacturing countries, and increasing compliance requirements related to sustainability and environmental standards. Despite these challenges, the long-term outlook for the Indian textile industry remains positive, supported by its strong raw material base, skilled workforce, growing domestic market, and improving export competitiveness.

- The Indian textile and apparel (T&A) market is estimated to be valued at USD 175bn in FY24, with the domestic market contributing 79% and exports accounting for 21% of the market size. The polyester yarn industry has been growing at an average CAGR of 4-5% only, so the demand supply equation is likely to be favorable for polyester yarn makers.
- The Indian domestic T&A market has registered a CAGR of 8%, growing from USD 50 bn in FY11 to USD 138bn in FY24. The Ministry of Textiles targets the domestic T&A market to touch USD 250bn by FY31, growing at 9% CAGR, faster than the global textile industry.
- Within the total domestic T&A market, India's home textiles market is estimated at USD 10bn for FY24, slated to expand at ~7% CAGR over FY24-FY31 to USD 16bn.

OPPORTUNITIES & THREATS

Opportunities

Strong Domestic Consumption – Rising disposable incomes, urbanization, and increasing preference for branded and organized retail are driving steady demand in the domestic market. The growth of e-commerce and digital retail channels is expanding the reach of textile products across Tier II and Tier III cities.

Export Growth Potential – With global buyers diversifying sourcing away from China, India is well-positioned to capture a larger share of international markets, particularly in the US and Europe. Pending **Free Trade Agreements (FTAs)** with the UK and EU are expected to provide a competitive edge to Indian exporters.

Government Support – Initiatives such as the **PLI Scheme**, **PM MITRA Parks**, and focus on **Technical Textiles** and **Man-Made Fiber (MMF)** segments are expected to modernize production capacities and improve cost efficiencies.

Shift Towards Sustainability – Increasing global demand for sustainable, organic, and eco-friendly fabrics presents new opportunities. Indian companies investing in green technologies and circular economy models can gain a competitive advantage.

Technical Textiles & Niche Segments – Rising applications of technical textiles in healthcare, infrastructure, automotive, and defense sectors provide significant growth avenues.

Threats

Raw Material Volatility – Prices of cotton, polyester, and other key raw materials remain unpredictable due to global supply-demand imbalances, weather conditions, and international trade dynamics.

Global Demand Fluctuations – The textile industry is heavily dependent on export markets. Any slowdown in the US, EU, or other major markets due to inflationary pressures or geopolitical instability directly impacts Indian exporters.

Intense Competition – Countries like Bangladesh, Vietnam, and Turkey continue to offer cost competitiveness in terms of labor and logistics, posing a challenge to Indian players.

Compliance & Sustainability Pressures – Increasing global focus on ESG norms, stricter labor standards, and environmental regulations require continuous investment in compliance, which may impact margins.

High Operational Costs – Rising energy, transportation, and financing costs put pressure on profitability, especially for small and medium enterprises in the fragmented textile ecosystem.

Labour force and employment:

The Textile Industry provides direct employment to over 50 million people. Even though the pandemic had disturbed the labour and employment situation, it is back on its feet with a renewed vigour and work from factory and office is back on the cards for most corporates.

Import & Exports of raw material and readymade garment:

The High sea freight costs have adversely impacted exports globally and Indian textile importers have turned to domestic suppliers, thereby increasing demand locally and digital platforms.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

The Company operates in the segment of Manufacturing and Marketing of Synthetic Textiles Yarns.

OUTLOOK

The outlook for the Indian textile industry remains positive, supported by a strong domestic market, favorable government policies, and improving export prospects. With rising consumer demand for fashion, home textiles, and technical textiles, the sector is expected to witness steady growth in the coming year.

The Government's continued focus on strengthening the textile ecosystem through initiatives such as **PLI Scheme, PM MITRA Parks, and National Technical Textiles Mission** will enhance competitiveness, attract investments, and accelerate technology adoption. The expected conclusion of **Free Trade Agreements (FTAs)** with key markets such as the UK and EU is likely to provide significant export opportunities and improve India's global market share.

On the domestic front, demand is projected to rise owing to urbanization, increasing penetration of organized retail, and rapid growth of e-commerce platforms. Growing awareness around sustainability and eco-friendly products will encourage companies to adopt greener processes, thereby opening new product categories and premium market segments.

However, challenges relating to raw material price volatility, rising energy costs, global economic uncertainties, and compliance with evolving environmental and labor standards may continue to put pressure on margins. Companies with a strong focus on **product innovation, operational efficiency, digital adoption, and sustainability practices** will be better positioned to manage risks and capture emerging opportunities.

Overall, the Indian textile industry is poised for steady growth in FY 2025-26, and your Company is well-prepared to leverage its strengths, expand its market presence, and create long-term value for stakeholders.

INTERNAL CONTROLS SYSTEMS AND THEIR ADEQUACY.

- RRIL's well-defined organisation structure, policy guidelines, predefined authority levels and an extensive system of internal controls, ensure optimal utilisation and protection of resources, IT security, accurate reporting of financial transactions and compliance with applicable laws and regulations.
- RRIL has adequate system of internal control in place to ensure that assets are safeguarded against loss from unauthorised use or disposition, and that transactions are authorised, recorded, and reported correctly.
- RRIL's internal audit function is empowered to examine the adequacy, relevance and effectiveness of control systems, compliance with laws, regulations and policies, plans and statutory requirements.
- RRIL has a strong budgetary control system. Actual performance is reviewed with reference to the budget by the management on an ongoing basis.

SUSTAINABILITY AT OUR PLANTS

	<u>Efficient Water Recycling and Treatment</u> We have installed a state-of-the-art Effluent Treatment Plant (ETP) with a Reverse Osmosis process for water recycling. Our aerobic ETP treats effluent water and generates significantly less CO2 compared to traditional anaerobic ETPs
	<u>Energy Recovery and Utilization</u> Residual heat is recovered and utilized for preheating atmospheric air used in HTM heaters. This process ensures proper fuel combustion, reducing overall fuel consumption and CO2 emissions
	<u>Innovative Cooling Solutions</u> Waste vapors from the system are converted into chilled water through vapor absorption chillers. This chilled water is used for air conditioning the plant, thereby significantly reducing the power requirements for cooling production areas
	<u>Power Saving Initiatives</u> Various power-saving methods are continuously implemented to minimize power consumption. This includes the purchase of energy-efficient motors and the installation of solar power panels
	<u>Sustainable Packaging Solutions</u> We have achieved a reduction in packing material requirements by recycling materials such as paper tubes, which are reused multiple times

The Company's strategy for development of Human Resources is through providing a motivating work environment, recruiting the best talents, providing challenging goals and by creating a culture for learning and growth. Industrial relations remained cordial at the plants.

RISKS AND CONCERNS:

The textile industry operates in a dynamic environment influenced by global economic conditions, raw material availability, policy changes, and evolving consumer preferences. While the long-term outlook remains positive, the sector continues to face several risks and concerns that may impact business performance:

1. Raw Material Price Volatility

The Company remains exposed to fluctuations in cotton, polyester, and other fiber prices, which are influenced by international trade dynamics, weather conditions, and government policies. Sudden price spikes can affect cost structures and margins.

2. Global Economic Uncertainty

A significant portion of India's textile output is export-oriented. Any slowdown in key markets such as the US and Europe, coupled with inflationary pressures and geopolitical tensions, may adversely affect demand for Indian textile products.

3. Foreign Exchange Risk

With considerable export revenues, the Company is exposed to currency fluctuations. Sharp movements in foreign exchange rates could impact profitability.

4. Competition

Indian manufacturers face intense competition from countries like Bangladesh, Vietnam, and Turkey, which enjoy cost advantages in labor and logistics. This increases pressure on pricing and profitability in international markets.

5. Regulatory and Compliance Challenges

Increasingly stringent global requirements on sustainability, environmental protection, and labor standards necessitate continuous investment in compliance. Failure to adapt may lead to loss of market access and reputational risk.

6. Operational Risks

Rising energy costs, logistics challenges, and dependence on migrant labor pose operational risks, especially for small and medium enterprises within the textile ecosystem.

7. Technological Obsolescence

Rapid technological changes in manufacturing, automation, and digital integration require continuous upgradation. Companies that lag behind may lose competitiveness.

CORPORATE GOVERNANCE CERTIFICATE FROM COMPANY SECRETARY IN PRACTICE

To,
The Members of
M/s. RAJ RAYON INDUSTRIES LIMITED

I have examined the compliance of Corporate Governance by **M/s. RAJ RAYON INDUSTRIES LIMITED** ("the Company") for the Financial Year ended 31st March, 2025, as stipulated in the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations') as referred to in Regulation 15(2) of the SEBI Listing Regulations for the Financial Year ended 31st March, 2025.

The compliance of conditions of Corporate Governance is the responsibility of the Company's Management. My examination has been limited to a review of the procedures and implementations thereof, adopted by the Company for ensuring the Compliance with the conditions of Corporate Governance as stipulated in the said Regulations. It is neither an audit nor an expression of Corporate Governance as stipulated in the above-mentioned SEBI Listing Regulations, as applicable.

In my opinion and to the best of my information and according to the explanation given to me and based on the representations made by the Management, I certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above-mentioned SEBI Listing Regulations, as applicable except the followings:

1. *There was Non-compliance under Reg. 38 of SEBI (LODR), Regulations, 2015 with the requirements pertaining to the Minimum Public Shareholding (MPS) requirements from the June 2023 quarter till the date of this report and the Company has paid fines levied under Standard Operating Procedure (SOP) for suspension and revocation of trading of specified securities of listed entities with both exchanges BSE and NSE till the June, 2024 quarter (days) wise.*

However, the Company has yet not paid fines levied under Standard Operating Procedure (SOP) by both exchanges BSE and NSE for the September, 2024, December, 2024 and March, 2025 quarter(s) (days) wise.

Further, BSE Ltd. and National Stock Exchange of India Limited on account of Non-compliance under Reg.38 of SEBI (LODR), Regulations, 2015 read with Rule 19(2)(b) and 19(A) of the Securities Contract (Regulation) Rule, 1957 have freeze the entire promoters demat account(s) till the non-compliances continues.

The Company was under IBC had taken action for OFS to achieve MPS in last financial year, however, the company could not achieve the MPS on time.

I further state that such compliance is neither an assurance to the future viability of the Company nor of the efficiency or effectiveness with which the management has conducted the affairs of the Company.

We have implemented several safeguards, including safety audits, emergency preparedness action plans, fire safety measures, emergency training and other focused initiatives. We are committed to preventing injuries and occupational illness and we drive the same through our organization by promoting the requirements as per ISO 45001: 2018 and other similar guidelines.

- b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

To find and eliminate any risks in our offices and manufacturing facility, we have put in place a systematic risk management procedure. Engineers, production-in-charge personnel, and Environment Health & Safety (EHS) team members are key stakeholders who are involved in risk assessments and the risk management process.

Documentation, approval and dissemination to all pertinent parties participating in the activity are necessary for all identified risks and risk mitigation plans. Accordingly, we have incorporated safety observations, rectification plans & procedures in all our operations which includes Hazard Identification & Risk Assessment for all manufacturing as well as administrative activities, contractor safety management, external audits, etc.

- c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes, we have a mechanism in place for employees to identify and report workplace dangers and make improvement suggestions. All personnel receive the necessary training to identify hazards and problems. At regular intervals, management representatives and workers on the shop floor conduct joint inspections, and appropriate corrective and preventive actions are performed to mitigate the identified risks. Employee participation and open discussion of safety-related topics are encouraged in order to foster an open and transparent safety culture throughout our organization.

As a practice, we impart training for work-related hazards in all our operations. Any hazards or hazardous conditions can immediately be reported to the operational head, safety head as well as supervisor.

The actions taken are discussed with workers in our quarterly safety committee meetings. Further, awareness sessions and documented procedures are implemented to prevent the recurrence of the hazard.

INDEPENDENT AUDITOR'S REPORT

To
The Members of
Raj Rayon Industries Limited

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the accompanying financial statements of **Raj Rayon Industries Limited** ('the Company'), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flow for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effects of the matter described in the **Basis for Qualified Opinion** section of our report, the aforesaid financial statements give the information required by the Companies Act, 2013 (the Act) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its profit including total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

The Management is in the process to obtain details of three inoperative bank accounts which are continuing in the name of the Company from prior to the Corporate Insolvency Resolution Process when the current management was not in charge of the affairs of the Company. Accordingly, we are unable to comment on the impact, if any, on the financial statement arising out of subsequent availability of such pending bank statements.

The matter stated above was also the subject matter of qualification in our audit opinion for year ended March 31, 2024.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013 (the Act). Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Judgement is involved to determine that the aforesaid capitalisation meet the recognition requirement under Ind AS including determination of whether the criteria for intended use of the management has been met.</p> <p>Accordingly, the above matter relating to Property, Plant and Equipment has been considered as a key audit matter.</p>	<p>Our audit procedures included and were not limited to the following:-</p> <ul style="list-style-type: none"> - Assessed the design and operating effectiveness of the controls with respect to capital expenditure incurred and classified under capital work in progress. - Assessed the nature of the additions made to Property, Plant and Equipment, and Capital work-in-progress on a test check basis to test whether they meet the recognition criteria as set out Ind AS 16 – Property, Plant and Equipment.

Information Other than the Financial Statements and Auditor's report thereon

The Company's Board of Directors are responsible for the preparation of other information. The Other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to the Board report, Business responsibility Report, Corporate Governance report and Shareholder's information, but does not include the financial statement and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those charged with Governance for the Financial Statements

The accompanying financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash

flows of the Company in accordance with the accounting principles generally accepted in India, including the INDAS specified under Section 133 of the Act and other accounting principles generally acceptable in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial control system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit

evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that individually or in aggregate makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. Pursuant to the Companies (Auditor's Report) Order, 2020 ("the Order" "CARO"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and except for the matter described in the "Basis for Qualified Opinion", obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) Except for the matters described in the "Basis for Qualified Opinion" paragraphs above, in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books and records.
 - (c) The Balance sheet, the Statement of Profit & Loss (including other comprehensive income), Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) Except for the matters described in the "Basis for Qualified Opinion" paragraphs above, in our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015.

- (e) On the basis of the written representation received from the directors as on March 31, 2025 taken on records by the Board of Directors, none of the directors are disqualified as on March 31, 2025 from being appointed as a Directors in terms of Section 164(2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure "B".
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, in our opinion and to the best of our information and according to the explanations given to us, the Company has not paid remuneration to its directors during the year.
- (h) With respect to the matters to be included in the Auditor's report in accordance with the Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigation which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred if any, to the Investor Education and Protection Fund by the Company.
- iv.
 - (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (b) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (c) Based on such audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representation under sub clause (i) and (ii) of Rule 11(e) of The Companies (Audit and Auditors) Rules, 2014, as provided under (a) and (b) above, contains any material misstatement.
- v. The Company has not declared or paid any dividend during the year ended March 31, 2025 and hence reporting compliance of Section 123 of the Act is not applicable.
- vi. As more fully described in note 42 to the financial statements, based on our examination which included test checks, the Company has used accounting software for maintaining its books of

account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that, audit trail feature is not enabled for direct changes to data in the underlying database and in the application when using certain privileged access rights. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with in respect of the accounting software.

Additionally, the audit trail of relevant prior years has been preserved for record retention to the extent it was enabled and recorded in those respective years by the Company as per the statutory requirements for record retention.

Annexure “A” referred to in “Report on Other Legal and Regulatory Requirements” section of our report to the members of Raj Rayon Industries Limited of even date:

- i. (a) In respect of Company’s Property, Plant and Equipment (PPE) and Intangible Assets:
 - A. The Company has maintained proper records, showing full particulars including quantitative details and situation of Property, Plant and Equipment (PPE) and Capital work in progress.
 - B. The Company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a regular programme of physical verification of its property, plant and equipment (PPE) under which the assets are physically verified in a phased manner over a period of three years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, certain property, plant and equipment and capital work in progress were verified during the year and no material discrepancies were noticed on such verification.
- (c) According to the information and explanation given to us and the records examined by us and based on the examination of the scanned copies of the title deeds of the immovable properties pledged with the bankers as security against borrowings, we report that the title deeds of the immovable properties that have been pledged as security against borrowings and other facilities availed by the Company, are held in the name of the Company as at the balance sheet date.
- (d) The Company has not revalued its Property, Plant and Equipment during the year and hence reporting under clause 3(i)(d) of the Order is not applicable to the Company.
- (e) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records, neither any proceedings have been initiated during the year nor are pending as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988, as amended, and rules made thereunder and hence reporting under clause 3(i)(e) of the Order is not applicable to the Company.
- ii. (a) According to the information and explanations given to us, the inventories have been physically verified during the year by the management at reasonable intervals. In our opinion and based on information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operation. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories, when compared with the books of account.
- (b) According to the information and explanations given to us, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, at points of time during the year, from a bank on the basis of security of current assets. In our opinion and according to the information and explanations given to us including the revised submissions made by the Company to its banker based on closure of books of accounts at the year end, the revised quarterly returns or statements comprising stock statements, book debt statements and other stipulated financial information filed by the Company with such banks or financial institutions are in agreement with the unaudited books of account of the Company of the respective quarters and no material discrepancies have been observed.
- iii. According to the information and explanations given to us, during the year, the Company has not made investments in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to Companies, Firms, Limited Liability Partnerships or any

other parties and hence reporting under Clause iii (a) to iii (f) of the Order are not applicable to the Company.

- iv. In our opinion and according to the information and explanations given to us and on the basis of our examination of the records, the Company has complied with the provisions of section 185 and 186 of the Act, to the extent applicable with respect to the loans made during the year. The Company has not made any investments and provided any guarantee and security during the year.
- v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits or amounts which are deemed to be deposits from the public and hence reporting under the Clause 3(v) of the Order is not applicable.
- vi. We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government of India, regarding the maintenance of cost records under sub-section (1) of Section 148 of the Act and are of the opinion that prima facie, the prescribed accounts and records have been maintained. We have, however, not made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. According to the information and explanations given to us and on the basis of our examination of the records, the Company is generally regular in depositing undisputed statutory dues including Goods and Services Tax, provident fund, employees' state insurance, income-tax, duty of customs, and other material statutory dues applicable to the Company.

There were no undisputed amounts payable in respect of the aforesaid statutory dues were outstanding as at the last day of the financial year for a year of more than six months from the date they became payable.

- viii. According to the information and explanations given to us, there were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961) and hence reporting under Clause 3(viii) of the Order is not applicable to the Company.
- ix. (a) Based on our audit procedures and on the basis of information and explanations given to us, we are of the opinion that the Company has not defaulted in the repayment of loans or other borrowings or in the repayment of interest thereon to the lenders.

(b) The Company is not declared as wilful defaulter by any bank or financial institution or other lender.

(c) According to the information and explanations given to us by the management, term loans were applied for the purpose for which the loans were obtained.

(d) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, we report that no funds raised on short term basis have not been utilised for long term purposes.

(e) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries and hence reporting under Clause 3(ix)(e) of the Order is not applicable to the Company.

(f) Based on our audit procedures and on the basis of information and explanations given to us, during the year the Company has not raised any funds on the pledge of securities held in its subsidiaries and hence reporting under clause 3(ix)(f) of the Order is not applicable to the Company.

- x. (a) The Company has not raised any money during the year by way of initial public offer / further public offer hence the reporting under Clause 3(x)(a) of the Order is not applicable.
- (b) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made preferential allotment of shares, private placement of shares or fully or partly convertible debentures during the year and hence reporting under Clause 3(x)(b) of the Order is not applicable.
- xi. (a) During our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of fraud by or on the Company, noticed or reported during the year, nor have we been informed of such case by the management.
- (b) During the year, no report under sub section 12 of Section 143 of the Act has been filed by us in Form ADT-4 as prescribed in rule 13 of Companies (Audit and Auditors) rules, 2014 with the Central Government.
- (c) Based on our audit procedures performed and according to the information and explanations given to us, no whistle blower complaints received during the year by the Company and hence reporting under clause 3 (xi) (c) of the Order is not applicable to the Company.
- xii. In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company and hence reporting under clause 3 (xii) of the Order is not applicable to the Company.
- xiii. According to the information and explanations given to us and based on our examination of the records of the Company, all the transactions with related parties are in compliance with section 177 and 188 of the Act and all the details have been disclosed in the financial statements as required by the applicable Accounting Standard. *(Refer note no. 33 to the financial statements).*
- xiv. (a) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has an adequate internal audit system commensurate with the size and nature of the business.
- (b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedure.
- xv. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions prescribed under Section 192 of the Act with directors or persons connected with them during the year and hence provisions of section 192 of the Act are not applicable to the Company.
- xvi. (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934 and hence reporting under clause 3(xvi) (a), (b) and (c) of the Order is not applicable to the Company.
- (b) In our opinion, there is no core investment company within the “Companies in the Group” as defined in the Core Investment Companies (Reserve Bank) Directions, 2016 and hence reporting under clause 3(xvi)(d) of the Order is not applicable to the Company.
- xvii. The Company has not incurred any cash losses during the financial year covered by our audit and in the immediately preceding financial year.

- xviii. There has been no resignation of the statutory auditors of the Company during the year and hence reporting under clause 3(xviii) of the order is not applicable to the company.
- xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. According to the information and explanations given to us, and based on our examination of the records of the company, the company has incurred average net loss in the period of three immediately preceding financial years and hence, it is not required to spend any money under sub-section (5) of section 135 of the Act. Accordingly, reporting under clause (xx) of the Order is not applicable to the Company for the year.

Annexure “B” referred to in “Report on Other Legal and Regulatory Requirements” section of our report to the Members of The RAJ RAYON INDUSTRIES LIMITED of even date:

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

We have audited the internal financial controls with reference to financial statements of **Raj Rayon Industries Limited** (“the Company”) as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company's Internal Financial Controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of Internal Financial Controls with reference to financial statements included obtaining an understanding of Internal Financial Controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the

transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements; and (4) also provide reasonable assurance by the internal auditors through their internal audit reports given to the organization from time to time.

Inherent Limitations of Internal Financial Controls

Because of the inherent limitations of Internal Financial Controls, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls to future periods are subject to the risk that the internal financial controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the best of our information and according to the explanations given to us, the Company has, broadly in all material respects, an adequate internal financial controls system with reference to financial statements and such Internal Financial Controls with reference to financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential Component of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to financial statements issued by the Institute of Chartered Accountants of India.

RAJ RAYON INDUSTRIES LIMITED

Notes on Financial Statements for the year ended 31st March, 2025

General Information

Raj Rayon Industries Limited ("the Company") is a limited company domiciled and incorporated in India and its shares are publicly traded on the Bombay stock exchange (BSE) and National Stock Exchange (NSE), in India. The registered office of the company is situated at survey No. 177/1/3, Village Surangi, Dadra & Nagar Haveli, Silvassa-396230, India. Company is engaged in the business of manufacturing and trading of polyester chips, polyester yarn and processed yarn.

Pursuant to an application made by State Bank of India, the Hon'ble National Company Law Tribunal, Ahmedabad bench ("Adjudicating Authority"), vide its order dated 23rd January, 2020, had ordered the commencement of the corporate insolvency resolution ("CIR") process in respect of the company under the provisions of the Insolvency and Bankruptcy Code, 2016 (the "Code"). Pursuant to its order dated 05th October, 2021 ("NCLT Order"), the Adjudicating Authority approved the resolution plan ("Approved Resolution Plan") submitted by M/s SVG Fashions Private Limited ("Resolution Applicant") ("RA") for the Company under Section 31 of the Insolvency and Bankruptcy Code, 2016 ("Code"). As per the terms of Section 31 of the Code, the Approved Resolution Plan shall be binding on the Company, its employees, members, creditors, guarantors and other stakeholders involved in the Resolution Plan.

1A). MATERIAL ACCOUNTING POLICIES:

The material accounting policies applied by the company in the preparation of the financial statements are listed below. Such accounting policies have been consistently to all periods presented in these financial statements, unless otherwise stated.

a. Statement of Compliance

The financial statements have been prepared in accordance with the accounting principles generally accepted in India including Indian Accounting Standards (Ind-AS) prescribed under the Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirement of Division II of Schedule III of the Companies Act 2013, (Ind AS Compliant Schedule III), as applicable to financial statement.

Accordingly, the Company has prepared these financial statements which comprise the Balance Sheet as at 31 March 2025, the Statement of Profit and Loss, the Statement of Cash Flows and the Statement of Changes in Equity for the year ended as on that date, and accounting policies and other explanatory information (together hereinafter referred to as "financial statements").

These financial statements are approved for issue by the Board of Directors on 29th May, 2025.

b. Basis of preparation and presentation

The financial statements have been prepared under the historical cost convention with the exception of certain financial instruments that are required to be measured at fair values at the end of each reporting period.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes in account the characteristics of the asset or liability if market

participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind-AS 116, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use in Ind AS 36.

The financial statements are presented in INR and all values are rounded to the nearest crores, except when otherwise indicated.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

c. **Property, plant and equipment (PPE)**

Property, plant and equipment are stated at cost / allocated cost less accumulated depreciation and accumulated impairment losses, if any. Capital work in progress is stated at cost, net of accumulated impairment loss, if any. Cost includes all costs relating to acquisition and installation of Property, plant and equipment including any incidental costs of bringing the assets to their working condition for their intended use, including relevant borrowing costs for qualifying assets and any expected costs of decommissioning. Expenditure incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance, are charged to the Statement of Profit and Loss in the year in which the costs are incurred.

Where cost of the part of the asset is significant to total cost of asset and useful life of that part is different from useful life of the asset, useful life and the value of that significant part shall be determined separately through internal/external expert. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. Major shut-down and overhaul expenditure is capitalised as the activities undertaken improves the economic benefits expected to arise from the asset.

Assets in the course of construction are reflected in capital work in progress. At the point when an asset is operating at management's intended use, the cost of construction is transferred to appropriate category of Property, plant and equipment. Costs associated with the commissioning of an asset are capitalized where the asset is available for use but incapable of operating at normal levels until a period of commissioning has been completed. Revenue (net of cost) generated from production during the trial period is capitalized.

Any assets whose value is less than Rs. 5,000 is charged to statement of profit and loss.

De-recognition

The carrying amount of a property, plant and equipment is de-recognized when no future economic benefits are expected from its use or on disposal. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the statement profit & loss.

Machinery spares that can be used only in connection with an item of Property, plant and equipment & where use are expected is more than one year are capitalized along with plant & machinery.

Depreciation

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation is recognised as to write off the cost of assets (other than freehold land and properties under construction) less their residual values.

Depreciation commences when the assets are ready for their intended use. Depreciation on all property plant and equipment except freehold land are provided on a straight-line method on the basis of the useful life prescribed in Schedule II of the Companies Act, 2013 or the economic useful lives determined as per technical assessment. In case of below mentioned class of assets, life of the assets has been determined as per technical assessment.

Class of assets	Years
Factory Building	3 - 30 years
Office Premises	60 years
Plant & Machinery	15 - 25 years
Furniture & Fixtures	10 years
Office Equipment	5 - 10 years
Computers	6 years

The useful lives are reviewed annually. If the expected useful life of the asset is significantly different from previous estimates, the depreciation period is changed accordingly.

d. Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost / allocated cost less accumulated amortization and accumulated impairment losses, if any.

The cost of an intangible asset includes purchase cost (net of rebates and discounts), including any import duties and non-refundable taxes, and any directly attributable costs on making the asset ready for its intended use.

Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

Costs incurred on technical know-how/ license fee relating to process design/ plants/ facilities are capitalized at the time of capitalization of the said plant/ facility and amortized on pro-rata basis over a period of five years. Computer software is capitalised on the date of installation and is amortised on pro-rata basis over a period of five years.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use. Gain and loss arising from de-recognition of an intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the assets are recognized in the statement of profit and loss when the asset is de-recognized or on disposal.

e. Inventories

Inventories are stated at the lower of cost and net realisable value.

Cost of raw materials, production consumables and stores & spares includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost of finished goods and work-in-progress include cost of direct materials computed on specific identification method and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs.

Costs of inventories are determined on weighted average basis. Net realisable value represents the estimated selling price for inventories less all estimated costs necessary to make the sale.

f. Revenue from contract with customers

a) Revenue from sale of goods

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

Revenue is adjusted for variable consideration such as discounts, rebates, refunds, credits, price concessions, incentives, or other similar items in a contract when they are highly probable to be provided. The amount of revenue excludes any amount collected on behalf of third parties.

The Company recognises revenue generally at the point in time when the products are delivered to customer or when it is delivered to a carrier for export sale, which is when the control over product is transferred to the customer. In contracts where freight is arranged by the Company and recovered from the customers, the same is treated as a separate performance obligation and revenue is recognized when such freight services are rendered.

In revenue arrangements with multiple performance obligations, the Company accounts for individual products and services separately if they are distinct – i.e., if a product or service is separately identifiable from other items in the arrangement and if a customer can benefit from it. The consideration is allocated between separate products and services in the arrangement based on their stand-alone selling prices. Revenue from sale of by products is included in revenue.

b) Dividend & Interest Income

Dividend income from investments is recognized when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

c) Export Incentives

Export Incentives other than advance license are recognized at the time of exports and the benefits in respect of advance license received by the Company against export made by it is recognized as and when goods are imported against them.

g. Foreign currency transactions

The Company's financials are presented in INR, which is functional currency of the Company. In preparing the financial statements, transactions in currencies other than the Company's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period:

- i. Monetary items denominated in foreign currencies are restated at the rates prevailing at that date.
- ii. Non-monetary items carried at fair value that are denominated in foreign currencies are restated at the rates prevailing at the date when the fair value was determined. The gain or loss arising on

translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

- iii. Non-monetary items that are measured terms of historical cost in a foreign currency are not restated.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognized in profit or loss in the period in which they arise.

h. Retirement and other employee benefits

Defined Contribution Plan

Payments to defined contribution retirement benefit plans such as provident fund are recognized as an expense in the statement of profit and loss when an employee renders the related service.

If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Defined Benefits Plan

For defined retirement benefit plans, such as gratuity the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period.

Defined benefit costs are categorized as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense. Curtailment gains and losses are accounted for as past service costs.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service cost is recognized in profit or loss in the period of a plan amendment.

Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

The retirement benefit obligation recognized in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Short-term and other long-term employee benefits

A liability is recognized for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service. These benefits include bonus/incentives and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognized in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

i. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Board of directors of the Company has been identified as the Chief Operating Decision Maker which reviews and assesses the financial performance and makes the strategic decisions.

j. Borrowing cost

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to finance cost.

Borrowing Cost that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period to get ready for its intended use.

The Company determines the amount of borrowing costs eligible for capitalisation as the actual borrowing costs incurred on that borrowing during the year less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Company borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalisation are determined by applying a capitalisation rate to the expenditures on that asset.

All other borrowing costs are expensed in the Statement of Profit and Loss in the period in which they occur.

k. Leases

The Company assesses at *contract inception* whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Company recognises a right-of-use asset and a lease liability at the commencement date of the lease. The right-of-use asset is initially measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities and comprises of the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

Right-of-use assets are amortised on a straight-line basis over shorter of its estimated useful life or the lease term.

Ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment.

Lease Liabilities

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured if there is a modification, a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Company as lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short term leases of real estate properties that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the lease of low-value assets recognition exemption to leases that are considered of low value. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

I. Financial Instruments

Financial assets and financial liabilities are recognised when an entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through Statement of Profit and Loss (FVTPL)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in Statement of Profit and Loss.

A. Financial assets

a) Recognition and initial measurement

A financial asset is initially recognised at fair value and, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. Purchases and sales of financial assets are recognised on the trade date, which is the date on which the Company becomes a party to the contractual provisions of the instrument.

b) Classification of financial assets

Financial assets are classified, at initial recognition and subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit and loss. A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is classified as FVTOCI only if it meets both of the following conditions and is not recognised at FVTPL;

- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and

- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the Other Comprehensive Income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

All other financial assets are classified as measured at FVTPL.

In addition, on initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets at FVTPL are measured at fair value at the end of each reporting year, with any gains and losses arising on remeasurement recognized in statement of profit and loss. The net gain or loss recognized in statement of profit and loss incorporates any dividend or interest earned on the financial asset and is included in the 'other income' line item. Dividend on financial assets at FVTPL is recognized when:

- The Company's right to receive the dividends is established,
- It is probable that the economic benefits associated with the dividends will flow to the entity,
- The dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

c) Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

d) Impairment

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, and other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet

The Company has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions; the Company expects to recover the carrying amount of these assets.

e) Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant year. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter year, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognized in statement of profit and loss and is included in the 'Other income' line item.

B. Financial liabilities and equity instruments

a) Classification as debt or equity

Debt and equity instruments issued by a Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

b) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in Statement of Profit and Loss on the purchase, sale, issue, or cancellation of the Company's own equity instruments.

c) Financial liabilities

Financial liabilities are classified as other financial liabilities 'at FVTPL' or 'other financial liabilities'.

Financial liabilities at FVTPL:

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- It has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- It is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- It forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in Statement of Profit and Loss. The net gain or loss recognised in Statement of Profit and Loss incorporates any interest paid on the financial liability and is included in the Statement of Profit and Loss. For Liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risks are recognized in OCI.

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

Other financial liabilities:

The Company enters into deferred payment arrangements (acceptances) whereby overseas lenders such as banks and other financial institutions make payments to supplier's banks for import of raw materials and property, plant and equipment. The banks and financial institutions are subsequently repaid by the Company at a later date providing working capital benefits. These arrangements are in the nature of credit extended in normal operating cycle and these arrangements for raw materials are recognized as Acceptances (under trade payables) and arrangements for property, plant and equipment are recognised as other financial liabilities. Interest borne by the Company on such arrangements is accounted as finance cost. Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities:

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether attributable or not to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

m. Government grants

Government grants are not recognized until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Company recognizes as expenses the related costs for which the grants are intended to compensate or when performance obligations are met.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognized in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

n. Earnings per share

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of common shares outstanding during the period.

Diluted EPS is determined by adjusting the profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding, for the effects of all dilutive potential equity shares.

Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease earning per share from continuing operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

o. Income taxes

Income tax expense represents the sum of the current tax and deferred tax.

Current tax

Current tax is based on taxable profit for the year. Taxable profit is different from accounting profit due to temporary differences between accounting and tax treatments, and due to items, which are never taxable or tax deductible. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the taxation laws prevailing and applicable for the relevant assessment year.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

In the case of unused tax losses probability is evaluated considering factors like existence of sufficient taxable temporary differences, convincing evidence that sufficient taxable profit will be available. At the end of each reporting period, the Company reassesses unrecognized deferred tax assets and, the Company recognizes a previously unrecognized Deferred Tax Asset to the extent that it has become probable that future taxable profit will allow the Deferred Tax Asset to be recovered.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all part of the asset to be recovered.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

The Company offsets, the tax assets and liabilities (on a year-on-year basis) where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis or to realise the assets and liabilities on net basis

Current and Deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

p. Impairment of non-financial asset

The Company reviews the carrying amounts of its non-financial assets to determine whether there is any indication based on internal/ external factors that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). An asset's recoverable amount is the higher of an asset or cash-generating units (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for Impairment at least annually, and whenever there is an indication that the asset may be impaired.

q. Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material) discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Trade receivables above ninety days and against whom any legal cases filed/to be filed are treated as doubtful in nature and accordingly provision has been made.

The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Onerous contracts

Present obligations arising under onerous contracts are recognized and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfill it. The cost of fulfilling a contract comprises the costs that relate directly to the contract (i.e., both incremental costs and an allocation of costs directly related to contract activities).

Show cause notices issued by various government authorities are not considered as obligation. When the demand notices are raised against such show cause notices and are disputed by the Company then these are classified as possible obligations.

r. Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize such contingent liability but discloses its existence in the financial statements.

s. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and short term deposits with an original maturity of less than three months or less that are readily convertible to a known amount of cash which are subject to an insignificant risk of changes in value.

1. B) Recent pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. April 1, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

2. C) Significant accounting judgments, estimates and assumptions

The preparation of the Company’s financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In the process of applying the Company’s accounting policies, management has made the following judgment, estimates and assumptions which have the most significant effect on the amounts recognized in the financial statement

a) Useful lives of property, plant and equipment

Management reviews the useful lives of property, plant and equipment at least once a year. Such lives are dependent upon an assessment of both the technical lives of the assets and also their likely economic lives based on various internal and external factors including relative efficiency and operating costs. This reassessment may result in change in depreciation and amortisation expected in future periods.

b) Contingent Liabilities

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal, contractor, land access and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgment and the use of estimates regarding the outcome of future events.

37 Fair Value Measurement

Financial instruments

The details of significant accounting policies, including criteria for recognition, the basis of measurement and the basis on which income and expenditure are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 1.

A Calculation of fair values

The fair values of the financial assets and liabilities are defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used to estimate the fair values of financial instruments:

- i. The fair value of the long-term borrowings carrying floating-rate of interest is not impacted due to interest rate changes and will not be significantly different from their carrying amounts as there is no significant change in the under-lying credit risk of the Company (since the date of inception of the loans).
- ii. Cash and cash equivalents, trade receivables, other financial assets, trade payables, and other financial liabilities have fair values that approximate to their carrying amounts due to their short-term nature.

Financial Assets and Liabilities

The accounting classification of each category of financial instruments, and their carrying amounts are set out as below:

a. Financial Assets

(Rs. In Lakhs)						
Instruments carried at fair value	FVOCI (Equity instruments)	FVOCI (Other instruments)	FVTPL	Instruments carried at amortized cost*	Total Fair Value	Total Carrying Value

Total	-	29,748.86	29,748.86	29,748.86

*The carrying value and fair value approximation, if any.

c. Fair value hierarchy

The Company uses the following hierarchy for determining and/or disclosing the fair value of financial instruments by valuation techniques:

The categories used are as follows:

- **Level 1:** It includes financial instruments measured using quoted prices and the mutual funds are measured using the closing Net Asset Value (NAV).
- **Level 2:** The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- **Level 3:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The below table summarises the categories of financial assets and liabilities as at 31st March, 2025 and 31st March, 2024 measured at fair value:

As at March 31, 2025	Level 1	Level 2	Level 3	Total

38 Financial risk management

The Company’s Board of Directors has overall responsibility for the establishment and oversight of the Company’s risk management framework.

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk;
- Market risk; and
- Interest rate risk

(A) Credit risk

Credit risk arises from the possibility that the value of receivables or other financial assets of the Company may be impaired because counterparties cannot meet their payment or other performance obligations.

RAJ RAYON INDUSTRIES LIMITED

Notes on Financial Statements for the year ended 31st March, 2025

(All amounts are in ₹ Lakhs except unless otherwise stated)

To manage credit risks from trade receivables other than Related Party, the credit managers from Order to Cash department of the Company regularly analyse customer's receivables, overdue and payment behaviours. Some of these receivables are collateralised and the same is used according to conditions. These could include advance payments, security deposits, post-dated cheques etc. Credit limits for this trade receivables are evaluated and set in line with Company's internal guidelines. There is no significant concentration of default risk.

Credit risks from financial transactions are managed independently by Finance department. For banks and financial institutions, the Company has policies and operating guidelines in place to ensure that financial instrument transactions are only entered into with high quality banks and financial institutions. The Company had no other financial instrument that represents a significant concentration of credit risk.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through out each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- i) Actual or expected significant adverse changes in business,
- ii) Actual or expected significant changes in the operating results of the counterparty,
- iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- iv) Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements.

Financial assets are written off when there is no reasonable expectations of recovery. Where loans or receivables have been written off, the Company continues engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized in statement of profit & loss.

Credit risk is managed at Company level.

For other financial assets, the Company assesses and manages credit risk based on internal control and credit management system. The finance function consists of a separate team who assess and maintain an internal credit management system. Internal credit control and management is performed on a Company basis for each class of financial instruments with different characteristics.

The Company considers whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. It considers available reasonable and supportive forward-looking information.

Macroeconomic information (such as regulatory changes, market interest rate or growth rates) are also considered as part of the internal credit management system.

A default on a financial asset is when the counterparty fails to make payments as per contract. This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors.

The Company measures the expected credit loss of trade receivables from individual customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, no additional provision has been considered necessary in respect of trade receivables more than 90 days for the 31st March 2025, since the management has taken suitable measures to recover the said dues and is hopeful of recovery in due course of time.

"The Company maintains exposure in cash and cash equivalents, deposits with banks, investments, and other financial assets. Individual risk limits are set for each counter-party based on financial position, credit rating and past experience. Credit limits and concentration of exposures are actively monitored by the Management of the Company. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company believes that the current value of trade receivables reflects the fair value/recoverable values.

(B) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company’s approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company’s reputation. Due to the dynamic nature of underlying businesses, the Company maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecast of Company’s liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. In addition, the company’s liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans. "

Maturities of financial liabilities

The tables below analyse the company’s financial liabilities into relevant maturity groupings based on their contractual maturities for: all non-derivative financial liabilities, and the amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

(C) Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates, interest rates and equity prices - will affect the Company’s income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimising the return.

The Company is exposed to market risk primarily related to foreign exchange rate risk (currency risk), interest rate risk and market value of its investments. Thus the Company’s exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currencies. "

(i) Foreign Currency Risk

Foreign currency opportunities and risks for the Company result from changes in exchange rates and the related changes in the value of financial instruments (including receivables and payables) in the functional currency (INR). The Company is exposed to foreign exchange risk arising from foreign currency transactions primarily with respect to US Dollar(USD).

The USD exchange rate has changed substantially in recent periods and may continue to fluctuate substantially in the future. The Company has put in place a Financial Risk Management Policy to Identify the most effective and efficient ways of managing the currency risks. "

Sensitivity analysis

The following table details the Company’s sensitsivity to a 25 basis points increase and decrease in the Rupee against the relevant foreign currencies is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management’s assessment of the reasonably possible change in foreign exchange rates. This is mainly attributable to the net exposure outstanding on receivables or payables in the Company at the end of the reporting period. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 0.25% change in foreign currency rate. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases. In cases where the related foreign exchange fluctuation is capitalised to fixed assets or recognised directly in reserves, the impact indicated below may affect the Company's income statement over the remaining life of the related fixed assets or the remaining tenure of the borrowing respectively.

(Rs. In Lakhs)				
	Year ended March 31, 2025		Year ended March 31, 2024

JYP	-	-	(0.24)	0.24

(D) Cash flow and fair value interest rate risk

- Interest rate risk management:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market rates. The Company’s exposure to the risk of changes in market rates relates primarily to the Company’s long-term debt obligations with floating interest rates.

RAJ RAYON INDUSTRIES LIMITED
Notes on Financial Statements for the year ended 31st March, 2025
(All amounts are in ₹ Lakhs except unless otherwise stated)

The Company’s approach to managing interest rate risk is to have a judicious mix of borrowed funds with fixed and floating interest rate obligation. Moreover, the short-term borrowings of the Company do not have a significant fair value or cash flow interest rate risk due to their short tenure.

The Company is also exposed to interest rate risk on its financial assets that includes fixed deposits, since the same are generally for short duration, the Company believes it has manageable risk and achieving satisfactory returns. The Company also has long - term fixed interest bearing assets. However the Company has in place an effective system to manage risk and maximise return.

- Interest rate risk exposure:

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

	(Rs. In Lakhs)	
	As at March 31, 2025	As at March 31, 2024
Fixed-rate instruments		
Financial assets	0.41	2,245.12
Financial liabilities	18,011.87	11,694.83
Variable-rate instruments		
Financial assets	-	-
Financial liabilities	5,731.48	5,937.81
Total	23,743.75	19,877.76

- Interest rate sensitivity

Interest rate sensitivity

A reasonably possible change of 25 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables remain constant. In cases where the related interest rate risk is capitalised to fixed assets, the impact indicated below may affect the Company's income statement over the remaining life of the related fixed assets.

(iii) Price Risk

The Company's exposure to price risk arises from investment in mutual funds and classified in the balance sheet as fair value through profit and loss. Mutual fund investments are susceptible to market price risk, mainly arising from changes in the interest rates or market yields which may impact the return and value of such investments. However, due to very short tenor of the underlying portfolio in the liquid schemes, these do not pose any significant price risk.

39. Capital management

(a) Risk management

The Company's objectives when managing capital are to:

1. Safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
2. Maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, reduce debt or sell assets."
