2. Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
3. Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

4. In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Management of the Company is pleased to present its report on the Industry Scenario including on the Company's performance during the financial year 2024-25.

A. GLOBAL ECONOMY OVERVIEW:

The Global growth remained stable but subdued through 2024, and recent developments have significantly altered the outlook. Following sweeping tariff measures by the United States on April 2, 2025—bringing tariff rates to century-high levels—and subsequent global trade tensions, the IMF's April 2025 reference forecast downgraded global growth projections to 2.8% in 2025 and 3.0% in 2026, down from earlier estimates of 3.3% for both years. These estimates fall well below the 2000–2019 historical average of 3.7%. Advanced economies are expected to grow at 1.4% in 2025, with the US forecast lowered to 1.8% (a 0.9 percentage point downgrade) and the euro area to 0.8%. Emerging market and developing economies are projected to grow at 3.7% in 2025 and 3.9% in 2026.

Global headline inflation is expected to ease to 4.3% in 2025 and 3.6% in 2026, though the decline is slower than previously anticipated. Advanced economies are facing upward inflation revisions, while emerging markets see marginal downward changes. The global outlook is now dominated by heightened downside risks, including elevated trade policy uncertainty, reduced investment sentiment, asset repricing, and foreign exchange volatility. These risks are compounded for economies already experiencing debt stress, potentially leading to financial instability and challenges to the international monetary system.

To mitigate risks and restore stability, coordinated global action is essential. Policymakers must promote a rules-based and predictable trade environment, enhance transparency, and reduce uncertainty. Central banks should fine-tune monetary stances to balance inflation control and growth support, while using targeted foreign exchange interventions to contain volatility. Macroprudential measures must be activated to safeguard financial stability. Fiscal policy should aim to restore buffers through credible medium-term consolidation plans, while maintaining critical expenditures in areas such as health, infrastructure, and energy security. Structural reforms in labour, product, and financial markets can boost productivity, reduce debt overhang, and narrow cross-country disparities. Additionally, with aging populations and shifts in migration patterns, long-term growth prospects and external balances will be increasingly influenced by demographic dynamics. As global financial conditions tighten, resilience in emerging markets will depend on prudent debt management, sustained policy discipline, and strengthened international cooperation. For corporates, especially in trade-linked sectors, strategic agility and risk management will be key to navigating this evolving macroeconomic landscape.

B. INDIAN ECONOMY OVERVIEW:

Resilience Amid Global Uncertainties

India has solidified its position as the world's fastest-growing major economy over the past decade, demonstrating remarkable resilience despite global uncertainties in FY 2024-25. Real GDP growth stood at 6.5%, a decline from 9.2% in FY 2023-24. According to the Ministry of Statistics and Programme Implementation (MoSPI), the real GDP was estimated at 187.95 lakh crore, while nominal GDP rose by 9.9% to 331.03 lakh crore. The Gross Value Added (GVA) increased by 6.4% to 171.80 lakh crore.

Sectoral Performance

The sectoral performance showcased mixed but largely positive results. Agriculture recorded a growth of 3.8%, supported by favourable monsoon conditions, while the construction sector expanded by 8.6%, driven by infrastructure projects. Financial, real estate, and professional services reported a robust 7.3% growth, reflecting sustained market activity. The trade, hotels, transport, and communication sectors grew by 6.4%, indicating a rebound in consumer demand.

Inflation and Monetary Policy

Retail inflation dropped significantly to 3.16% in April 2025, marking the lowest level since July 2019. This decline was attributed to reduced food and fuel prices, coupled with the Reserve Bank of India's (RBI) strategic monetary policies. In response to the inflation trends, the RBI reduced the repo rate to 6.00%, adopting an accommodative stance to support both growth and economic stability.

Challenges and Strategic Responses

While India's growth prospects remain strong, potential risks include global economic slowdowns, geopolitical tensions, and inflationary pressures due to unforeseen supply shocks. However, the RBI's accommodative monetary stance is likely to bolster consumption and investment, while government policies, such as increased capital expenditure and tax incentives, are expected to sustain growth momentum. Additionally, stabilized global commodity prices and a resilient services sector are anticipated to support continued economic activity.

Future Growth Prospects

Looking ahead, India is expected to maintain its position as the world's fastest-growing major economy, with the IMF forecasting growth rates of 6.2% in 2025 and 6.3% in 2026, outpacing many of its global counterparts, while the Confederation of Indian Industry (CII) estimates a more optimistic 6.5%, supported by strong economic fundamentals and strategic policy measures. Further, the IMF projects global economic growth to be much lower, at 2.8 per cent in 2025 and 3.0 per cent in 2026, highlighting India's exceptional out performance.

Conclusion: Navigating Global Headwinds

India's economic outlook for 2025 and 2026 is among the brightest globally, as highlighted by the IMF. Despite uncertainties and revised downward growth forecasts for other large economies, India is positioned to retain its leadership in global economic growth. With ongoing reforms in infrastructure, innovation, and financial inclusion, the country is poised to navigate challenges effectively. The IMF's projections underscore India's resilience, reinforcing its growing significance in the global economic landscape. As global challenges persist, India not only withstands economic turbulence but also actively contributes to shaping a dynamic and resilient global growth narrative.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the above-mentioned reports, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions as per the applicable laws and regulations.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("**the Act**") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other Comprehensive Income, cash flows and Changes in Equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder. The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

ONESOURCE INDUSTRIES AND VENTURES LIMITED

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We have audited the internal financial controls over financial reporting of **ONESOURCE INDUSTRIES AND VENTURES LIMITED** ("the Company") as of 31 March, 2025 in conjunction with our audit of the Ind As financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India. ONESOURCE INDUSTRIES AND VENTURES LIMITED
(Formerly Known as Onesource Ideas Venture Limited)

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Disclaimer of Opinion

According to the information and explanation given to us, the Company has not established its internal financial control over financial reporting on criteria based on or considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. Because of this reason, we are unable to obtain sufficient appropriate audit evidence to provide a basis for our opinion whether the Company had adequate internal financial controls over financial reporting and whether such internal financial controls were operating effectively as at March 31, 2025.

We have considered the disclaimer reported above in determining the nature, timing, and extent of audit tests applied in our audit of the standalone financial statements of the Company, and the disclaimer does not affect our opinion on the standalone financial statements of the Company.

	<p>The management assessed that fair value of cash and short-term deposits, trade receivables, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.</p> <p>The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.</p> <p>The following methods and assumptions were used to estimate the fair values:</p> <p>(i) Long-term fixed-rate receivables/borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected losses of these receivables.</p> <p>(ii) Fair values of the Company's interest-bearing borrowings and loans are determined by using DCF method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at March 31, 2025 was assessed to be insignificant.</p> <p>(iii) The fair values of the unquoted equity shares, if any have been estimated using a discounted cash flow model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk and volatility, the probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.</p>				
	<p>Financial Risk Management</p> <p>The Company's principal financial liabilities, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets include loans, trade and other receivables, and cash and short-term deposits that derive directly from its operations.</p> <p>The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and interest rate risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.</p> <p>The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below:</p> <p>Credit Risk</p> <p>Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counter parties, taking into account their financial position, past experience and other factors.</p> <p>Trade and other receivables</p> <p>The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. In addition, receivable balances are monitored on an ongoing basis with the result that the Company's exposure to Bad debt is not significant. Also the Company does not enter into sales transaction with customers having credit loss history. There are no significant Credit risk with related parties of the Company. The Company's is exposed to Credit risk in the event of non payment of customers. Credit risk concentration with respect to Trade Receivables is mitigated by the Company's large customer base.
