CIFL Financials

Covid-19 – Pandemic of the Century

The breakout of the unexpected disease has brought the World to a halt. However, these are the times when a robust business practices and preparedness is tested. We have ensured that our employees, customers and businesses are least impacted in these extraordinary times.

Employees

- CIFL's top priority continues to be the health and wellbeing of its employees. Steps have been taken to ensure efficient workplace; have moved meetings and trainings to virtual formats
- Frequent communication via emails and video calls to boost employee morale and create health awareness
- After the Government's relaxation pertaining to financial services, we have opened our offices with minimum employee strength

Customers

- We are proactively servicing our customers with every possible avenue
- Our teams are actively in touch with customers via calls, emails, social media, and website
- Our business team is also reaching out to customers and educating them about the impact of moratorium and other policy decisions introduced by RBI and Govt. in response to Covid 19

Businesses

- We have done stress testing of our business and have ample liquidity to support our operations
- Our portfolio analysis suggest there is minimal impact on our book, and we expect normal recovery on going concern basis
- Our Business and Risk teams are actively communicating with customers to jointly evaluate the best possible solution to mitigate the crises

Covid-19 – Changing Business Landscape

Mid Corporate and SME Financing

Headwinds

- The business activity is adversely effected due to lockdown and we see demand to be sluggish for some quarters causing asset quality concerns
- Govt. has announced various measures along with major support to MSMEs as a part of Atmanirbhar Abhiyan

Our Stance

- Till 31st March, **38.9 % of our loan book assets have been under moratorium**
- **Provisioning based on ECL method** (c.₹17.3 crores) as per updated economic forecast and industry headwinds
- **Stress testing** of our book basis different scenarios

Housing Finance

Headwinds

- The housing credit growth which averaged 16% for last three years is expected to slow down to 9%-12% for FY21
- Govt. has provided liquidity support to HFCs and has also extended the Credit Linked Subsidy Scheme under PMAY to Mar'21 in anticipation of maintaining demand

Our Stance

- Strong focus on **affordable housing segment along with exposure to defensive segments such as education loans**
- We have **low LTV (49%; at POS)** of our housing finance book, hence any fall in prices should not impact our ability to recover in an event of default by customers

Fintech – Payments

Headwinds

- The subdued economic activity has led to decline in payment volume through retail channels such as UPI
- Aadhaar-enabled **(AePS) transactions doubled during the lockdown** mainly due to the government using AePS to transfer funds of various welfare and benefit scheme

Our Stance

- We were identified as **essential services provider** for payments business
- Our **45,000+ agent base provides AEPS cash out facility** including from the Aadhar accounts recognized by Govt. for its subsidies; while we are also planning to launch our own **MATM devices in next quarter**

Risk Philosophy

Risk Management

Our well-defined Risk Management Framework lays down the processes, policies and governance standards for successful management of risk across all functions. It includes periodic reporting to the Board & Risk Management Committee (RMC) about the risks faced by the company and remedial measures taken.

Leveraging Technology

We have implemented an enterprise wide loan management system – OmniFin which aids our decision-making by acting as the single platform for operational support. The Fintech arm has inhouse team of developers who have designed a customised CMS portal for credit processing and monitoring.

Dedicated credit and constant monitoring team to review and approve lending cases and RapiPay agents' credit

Risk team to continuously assess business performance, detect and prevent anomalies

Constant appraisal of cases to detect and act on early warning signals while also analysing the the velocity of funds

Regular and periodic site visits to assess the progress. Automated AI based KYC authentication

Monthly performance review with regard to sales, revenue, inventory, receivables, collections and various costs

Computation of Collateral cover on a monthly basis to provide adequate time for remedial measures

Credit monitoring

Business progress tracking

Constant review of transactions

Capital India Finance Limited (CIFL)

Our NBFC

Rediscover Business

CIFL is an India-focused, integrated financial services platform. We partner new-age, local businesses with high-energy entrepreneurs through customized financial solutions.

Business Finance Scenario

- India's Credit to GDP ratio has been diverging below its trend levels
- With the Government's aim of making India a \$5 trillion economy by 2025, the outstanding credit would need to double in absolute terms to even match the existing Credit to GDP trend level (of 65%)
- This will translate to an incremental credit flow of \$1.7 Tn into the economy over next 5 years, of which Large Corporates would need c.\$400 Bn and the MSME c.\$125 Bn
- As an NBFC, we believe we have an important role to play in nation building

Covid Effect – As the economic activity is impacted due to the lockdowns, we may see a slower progression, but the long-term growth story remain intact.

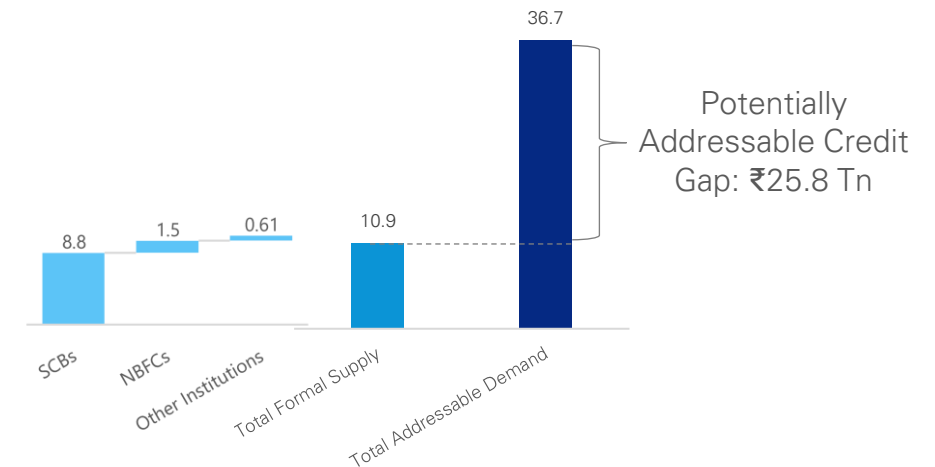

We have strengthened our credit and monitoring measures for SMEs to assess the Covid impact on their business and to support the subsequent lending operations.

Corporate Debt Levels (% of GDP) in India is Low

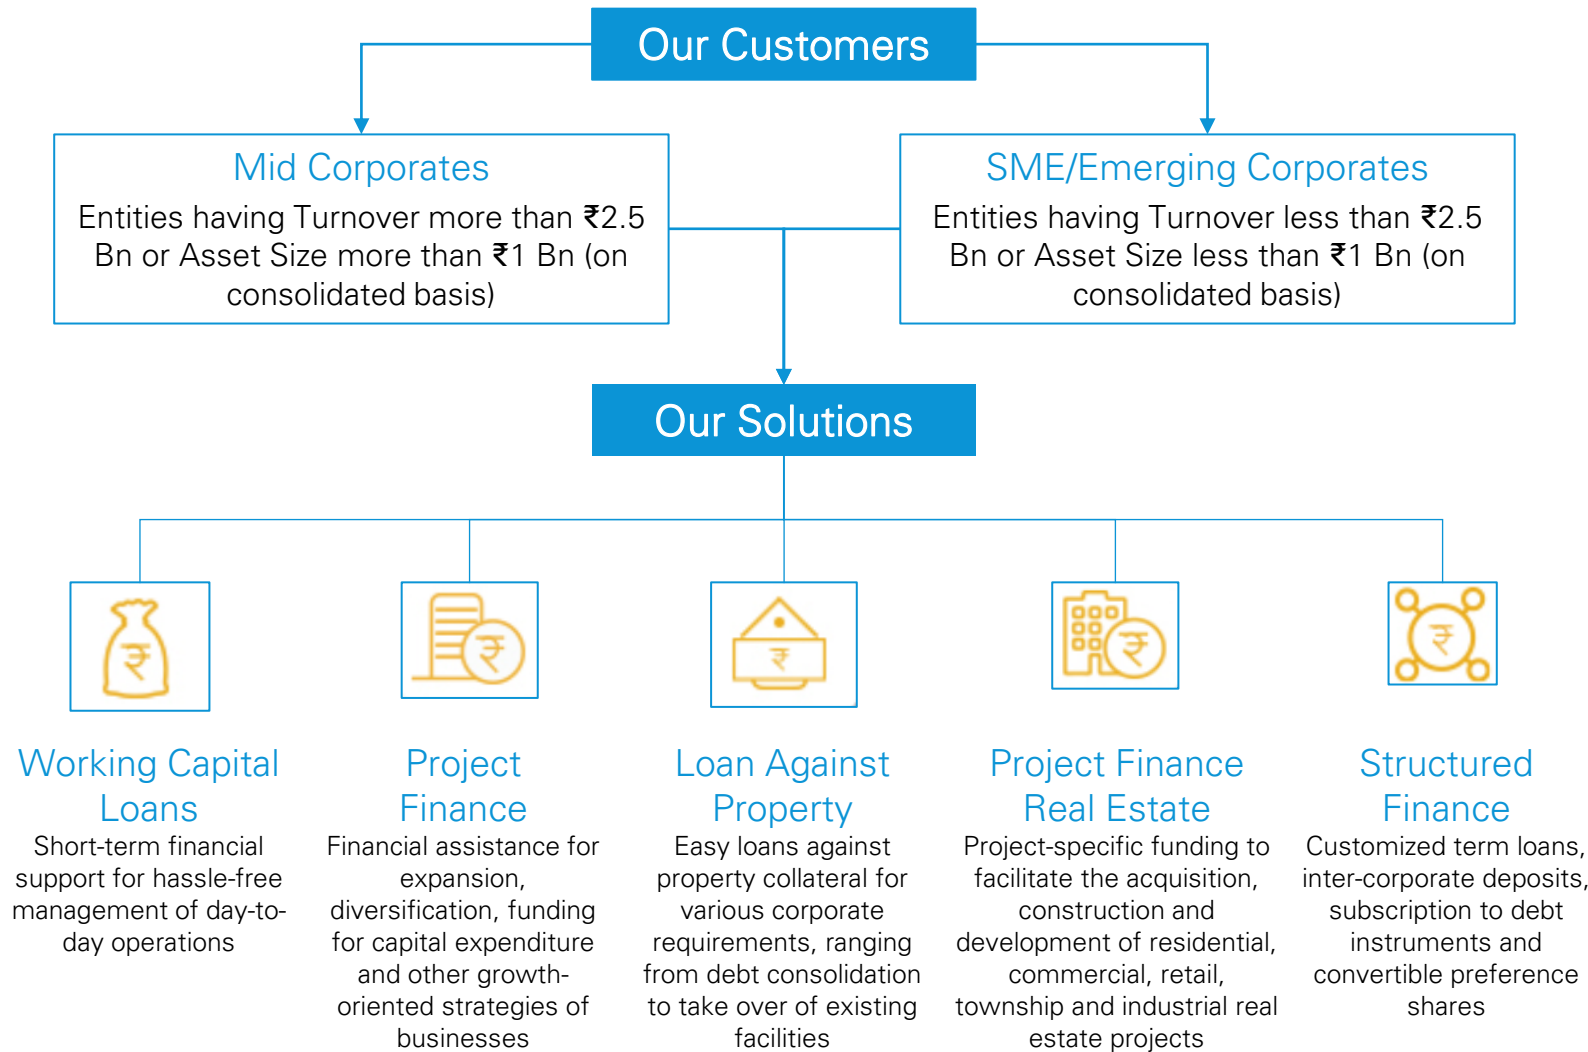

Potentially Addressable Credit Gap in the MSME Sector (₹ Tn)

SME/Emerging Corporates Book – across products (₹ Mn)

Mid-Corporates Book – across products (₹ Mn)

- We are building a healthy and sustainable loan book focusing on our vision to provide financing towards growth
- We have measured an additional impairment loss allowance under Covid 19 scenario and recognized a total provision towards expected credit losses of ₹17.3 crores as at 31st March 2020

Region Wise Moratorium

38.9% of our book is under moratorium as on 31st March 2020

*All figures as on 31st March 2020

CIFL Performance

- **Capital and financial resources** – Capital adequacy remain strong at **80.35%**
- **Profitability** – We believe that we have considered all the possible impact of known events arising out of COVID 19 pandemic in the preparation of financial results. Meanwhile, **we are taking various steps to control our operating costs**
- **Liquidity position** – Our current liquidity position is comfortable, and we are **comfortably placed to meet our repayment obligations** and other commitments
- **Ability to service debt and other obligations** – We are **comfortably servicing our debt obligations** and given the scale of operations, we will continue to meet its obligations in future too
- **Assets** – Based on the past quarterly performance, **the delinquencies are significantly under check** and overdues are recovered through persistent efforts. We are adequately secured through the tangible assets being mortgaged in favor of the Company
- **Internal Financial reporting and Control** – We have an adequate internal financial controls over financial reporting which were operating effectively during post lock down period as well

Capital India Home Loans (CIHL)

Our HFC

घर आपका साथ हमारा

Capital India Home Loans is a wholly owned subsidiary of Capital India Finance Limited. Our focus is on offering seamless loan solutions to home buyers in India. Leveraging technology, we make the process of taking loans simple, fast and transparent.

Housing Finance Landscape

At ₹13.4 Tn, home loans made up 52% of total outstanding personal loans portfolio of Banks as of Mar'20. To meet the current investment shortfall, credit flow from NBFCs will need to go up.

NBFC credit penetration as % of respective GDPs		Mortgage to GDP Ratio	
 UK: 264%		 China: 20%	
 USA: 74%		 Thailand: 17%	
 Japan: 130%		 Malaysia: 34%	
 India: 13%		 India: 9%	
India has abysmal credit penetration		India has relatively low ratio in the region	

- The current estimate of the housing shortage in urban areas is around 10 Mn units. Investment of ₹120 Tn required to address the housing shortage
- Most of the housing shortage lies in the Economically Weaker Section (EWS) and Lower Income Group (LIG) segment
- The housing finance space as a result of ongoing slowdown in the real estate sector is expected to emerge as a mature market with clear demarcation among players catering to different segments
- **Covid Effect** – The Covid-19 induced slowdown is likely to further impact the performance of housing finance companies (HFCs), which were facing slower growth, liability and asset quality related challenges in FY2020
- The liquidity of repossessed properties could get impacted which could also impact the losses on the sale of properties especially those that were financed at higher LTV ratios

CIHL Offerings

- **Co-lending** for secured and unsecured offering

Loan Book Overview (as on 31st Mar 2020)

Our Fintech Venture

RapiPay 

RapiPay is a customer centric Fintech company providing an array of transactional services to the underbanked via a country wide network of “RapiPay Saathi”.

FinTech Insight – Payments

FinTech is a dynamic segment of the financial services sector that is gaining significant momentum and disrupting the traditional financial services value chain. New FinTech companies and market activity are reconstituting the competitive landscape, blurring the identity of a player in the financial services sector.

Aadhar enabled Payment System (AePS) boom:

- The payment channel developed by NPCI in 2015 works as cash points for rural bank customers where they can withdraw cash from their Aadhar linked bank accounts simply by scanning their fingerprints at biometric compatible point of sale (POS) devices
- Government is utilizing this channel to transfer funds related to various subsidies and schemes directly to the beneficiaries Aadhar linked account
- Subsequently cashing out through this method is seeing a surge

Aadhar Enabled Payment Systems (AEPS) market (under B2B2C model), GMV (₹ tn)

Source: Numbers for FY2018-20 are basis retail payment statistics on NPCI platform; FY2023-25 is estimated basis inputs received via market conversation

Source: RBI, CIFL Research, NPCI, Nielson

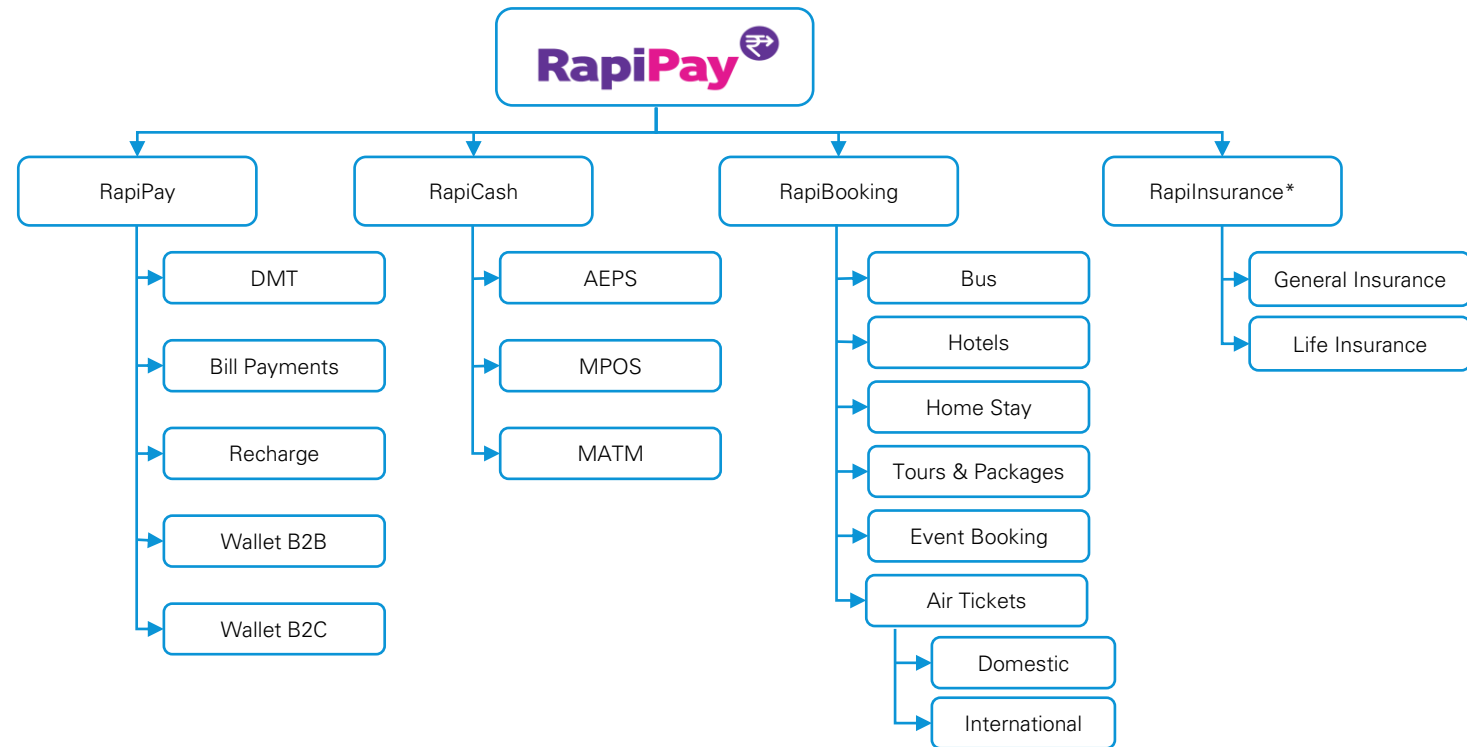

- The Business Correspondent (BC or Agent) model is an innovative solution that developing nations have come out with to drive the financial inclusion for the underbanked
- In India, as per Nielson report, of the 120 Mn migrant workers, more than 80% are from inadequately connected rural areas and they account for 80% of the country's domestic remittances
- The BC model brings the transaction touch-point closer to this set of customers that is available even at non-banking hours
- A remitter can transfer upto ₹5,000 per transaction with a monthly cap of ₹ 25,000, thus making Domestic Money Transfer (DMT) a ₹400 Bn annual opportunity
- RapiPay has positioned itself among few players with pan India presence through its agents

RapiPay Fintech Private Limited, operates on an **Assisted mode (B2B)** via a **Franchised Retail Network of Distributors and Retailers** across India, providing services to the unbanked and underserved section of India.

RapiPay holds a PPI (Pre-Paid Instrument) License from RBI. It provides money transfer services across country. RapiCash vertical is enabling people get cash in the areas where normal banking channels are scant.

- RapiPay has the fast-growing franchised retail network that facilitates convenient and secure financial transactions for consumers towards payments for various utilities, bank account transactions and domestic money remittance
- We intend to build RapiPay a leading player in fintech payment space through our vision of providing financial services to the unserved

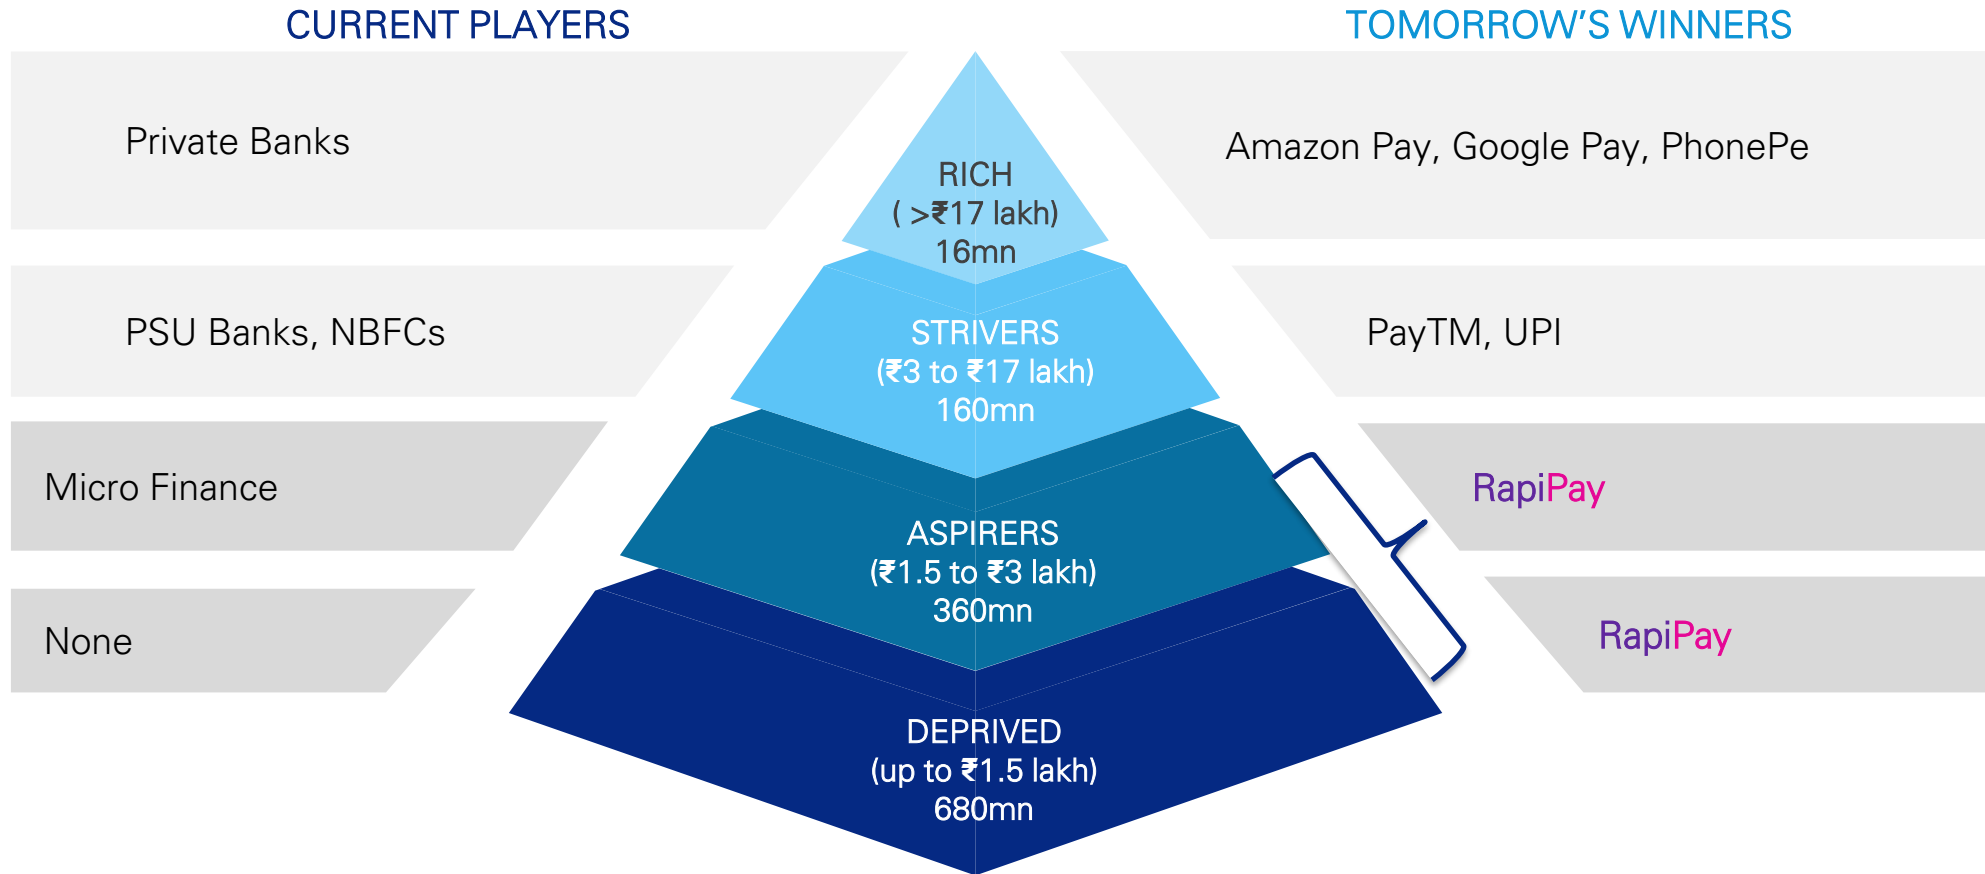

**To be launched soon*

Vision

Building the largest network of "RapiPay Saathis" – competent and equipped with technology – to provide retail financial services via one-stop payments solution platform to its end customers, in a manner that is simple and secure.
