**BFL 3 Month Report:** “The company registered a good performance in Q3 FY23 with record revenues of Rs 1,952 Crores . During the quarter, revenues grew sequentially by 4.7% while PAT grew sequentially by 8% In Q3 FY23, the Indian operations secured new business worth ~Rs 265 Crores across automotive & industrial applications.

In Q3 FY23, JSA performance has witnessed a sequential growth of 20% in topline and 52% in EBITDA. During the quarter, they secured new orders worth Rs 153 Crores. To further grow its presence in the Castings space, JSA has signed a BTA with Indo Shell Mould Limited to acquire its SEZ unit in SIPCOT, Erode. We expect the transaction to close by March 2023.

In Q3 FY23, BFL along with KSSL, has secured contracts worth Rs 600 crores, taking the orderbook to Rs 1,950 Crores as of Q3 FY22 . The fulfilment of these orders along with the export of Artillery Gun system will commence from beginning of FY24.

The overseas operations posted an EBITDA loss of Rs 62 Crs due to ramp up related issues of the new AI forgings capacities in Germany & USA . They continue their journey towards profitability with focus on improving capacity utilization, cost optimization, price increases & cost compensation from customers.

As we look ahead in to Q4 FY23, we expect growth momentum to continue across both the domestic and export markets. Aiding the standalone performance, we expect the new verticals to start registering meaningful contribution at a consolidated level and EPS accretive in FY24”.

## Commercial Vehicles

**Automotive Business:** The automotive export revenues has witnessed growth on both QoQ & YoY basis across Commercial & Passenger Vehicle segments. Revenues from the CV segment has grown by 5% while the PV segment revenues have grown by 10% sequentially. PV revenues at Rs 2,671 million are at a record high; we expect this trend to continue as demand sustains.

## Passenger Vehicles

North America CV and PV volumes continue to show robust growth on the back of fleet replacement and strong demand for personal mobility. European automotive market continues to remain gloomy with the only silver lining being MHCV truck volumes which have recorded a YoY growth in CY22.

## Industrial

**Industrials Business:** The industrial segment has shown all-round growth on a sequential and YoY basis. Oil & Gas, Agri, Construction & mining drove the incremental growth QoQ. We continue to diversify and de-risk our client basket with targeted focus on material handling, Railways and Agri equipment.
