Management Message

Rajan Nanda, Chairman and Managing Director

Despite a better quarter than the preceding one, it is clear that the tractor industry as a whole continues to suffer from the whiplash of the poor and uneven monsoon. The improvement in unit sales over the preceding quarter has largely been driven by on ground sales and marketing initiatives. Farm distress continues to be a major issue of concern. Large investments in irrigation, mechanization and automation are called for and we need to back the customer with more government engagement in areas such as successful implementation of strong and effective crop insurance regime, easing of loans for seeds and inputs. We hope that the forthcoming budget will put a sharp spotlight on agriculture

Nikhil Nanda, Managing Director

Escorts today is a leaner, fitter company. We have cut flab, created efficiencies through integration of production processes and cut costs across the board. Further reduction in material costs, investment in expanding product portfolio across businesses with a special focus on railway products holds the key for us. Our sustained momentum in South & West geographies has started showing results and we will maintain our push to leverage these opportunity markets. In addition, we have continued to invest in channel development and enhancing distribution coverage for a better customer outreach. We are confident that just as Escorts has navigated the trough without going back on our growth goals, we will be even stronger and ride the crest when it comes.

Tractor Industry Overview

Domestic Industry

- Y-o-Y Industry down by 1.5%, Q-o-Q Industry up by 31.5%.
- Deficient monsoon, worsening water reservoirs, lower WPI (Inflation) has resulted in lower disposable income in rural area, impacting rural demand negatively.
- Industry likely to be flat or marginally positive in Q4FY16
- Full year basis industry is expected to go down by 12-14%.
- The long term growth fundamentals of industry are strong with lowering of the replacement cycle, but the pace of the central & state Government's policy roll out and the final monsoon behavior would govern the short term industry performance.

Industry Overview

Construction Equipment Industry

- The construction equipment industry is de-growing consecutively in the 5th year.
- Served industry up by 2 % in Q3 FY16
 - Few segments like Crawler Excavators, Pavers, Concreting Equipment & Material Processing Equipment have seen a positive movement.
 - Backhoe Loaders & Off-highway trucks have seen decline.
 - Mobile Cranes have posted some de-growth.
 - Compactors have improved significantly.
- In the short term, industry sentiment looks better especially in light of number of road projects having been awarded & the rate cut by RBI. However any structural revival in the industry is expected to take time and may be pushed to the next year.
