Latest Optimization

Established Third Manufacturing Plant of 2500 MT per month Capacity at Hyderabad

Established a kraft paper manufacturing plant with a capacity of 108000 MT per year

Growth Plans

Kraft Paper : Backward Integration

We have set up superior quality kraft paper manufacturing unit (1,08,000 mtpa) which will largely (around 80%) cater to inhouse requirement. The purpose of backward integrating into Kraft Paper was:

- a) Ensure best quality and consistency, improve columnar strength of boxes
- b) Need for kraft paper that suits modern high-speed corrugators
- c) Need to overcome bad odour problem in locally available kraft paper
- d) Control input price fluctuations, inventory and offer stable price to customer
- e) Reduce wastage in the manufacturing, need to overcome issues like paper cracking in converting activities
- f) Build competitive advantage through improvement in operational efficiency and profitability margins

Micro Fluted Carton : New Product Offering

The Company has set up a facility for the manufacture of Micro Fluted Cartons with capacity of 500 TPM and the project is operational from August 2023. Currently Mono carton business is dominated by few large players and there is huge growth potential given the growth of QSR, FMCG and Electronics.

Strong Demand For Sustainable Packaging

Leading & Growing Market

- ✓ It is one of the strongest growing sectors in the country
- ✓ More than 49% of the paper produced in the country is used for packaging purposes

The recyclability proposition of paper as well as growing environmental consciousness among consumers towards sustainable packaging is drawing heightened industry attention to entice customers which is positively influencing the market growth.

Convenient, Safe, & Cushioned Packaging demand in sectors like: Agriculture, Pharma, Retail, FMCG, Food, Electronics, and Toy Manufacturing.

Growing e-commerce market has increased demand for corrugated boxes for the shipment of products

Solid demand of Fresh Fruits and Vegetables Packaging

Rising Disposable Income & On-the-go Lifestyle

Increasing demand of Home, Personal Care Goods, & Electronic Goods

Environmental Sustainability & Circular Economy Initiative

We are a 0-discharge company

We have installed green technology to help minimize environmental damage, as the conservation of the environment is of prime importance to us

We at B&B are committed to the environment

We adhere to the best practices at an international level

Our closed loop steam condensate recovery system saves about 3 Million liters of water per year and saves on fuel (Coal)

Our specialized Starch Kitchen uses the machine wash water that comes of the Glue tray back for making fresh glue. Most manufacturers dispose this water out into the environment

We at B&B are committed to the environment

CHAIRMAN'S MESSAGE

Dear Shareholders,

It gives me great pleasure to present to you the Annual Report for the Financial Year 2024-25.

During the year, we operated in a challenging environment marked by fluctuating raw material prices and evolving customer demands. Despite these headwinds, your Company achieved steady growth, enhanced operational efficiency, and reinforced its position as a reliable partner in the corrugated packaging industry and has achieved a significant milestone with a revenue of Rs. 48217.82 Lakhs.

Our strategic focus on automation, sustainability, and customer-centric innovation has enabled us to improve product quality, optimize responsiveness, and offer environmentally responsible, recyclable packaging solutions well-aligned with the global transition toward sustainable supply chains.

Looking ahead, we are well-positioned to capitalize on the growing demand across industries like Corrugators, FMCG, Pharmaceuticals, Electronics, Textiles, Toys, Distillery and E-Commerce. With a committed team and clear strategic direction, we aim to drive responsible growth and create long-term value for all stakeholders.

I extend my sincere gratitude to our employees, customers, suppliers, and our valued shareholders for your continued trust and support. Together, we look forward to building a more sustainable and successful future.

With best regards,

Manish Kumar Gupta

COMPANY PERFORMANCE OVERVIEW

During the Financial Year 2024-25, your Company has reported the revenue from operation amounted to Rs. 48,217.82 Lakhs as against Rs. 37,451.51 Lakhs during the previous Financial Year 2023-24.

Despite the growth in top-line revenue, the Company has incurred a net loss of Rs. 426.58 lakhs in Financial Year 2024-25, as against a net profit of ₹1,886.03 lakhs in Financial Year 2023-24. The decline in profitability was primarily due to investment in newly established kraft paper manufacturing unit which resulted in increased depreciation, finance costs, and associated operational expenses. The management remains optimistic that this strategic expansion will contribute positively to the Company's long-term growth and profitability in the coming years.

STATE OF AFFAIRS

The Company is primarily engaged in the manufacturing of corrugated boxes and boards. During the Financial Year 2024-25, the Company expanded its operations to include the production of Kraft paper, marking a key step toward backward integration. This initiative enhances our supply chain efficiency, ensures better control over input quality, and supports our long-term cost optimization strategy.

FOR THE FINANCIAL YEAR ENDED March 31, 2025
*[Pursuant to section 204(1) of the Companies Act, 2013 and rule no.9 of
the Companies (Appointment and Remuneration Personnel) Rules, 2014]*

To,
The Members,
B&B Triplewall Containers Limited,

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **B&B Triplewall Containers Limited** (CIN: L21015KA2011PLC060106) (here-in-after called "the Company"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on **March 31, 2025** ("the audit period") complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2025 according to the provisions of:

- i. The Companies Act, 2013 (the Act) and the rules made there under;
- ii. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- iii. The Depositories Act, 1996 and the Regulations and Bye-laws Framed there under to the extent of Regulation 74 and 76 of SEBI (Depositories and Participants) Regulations, 2018;
- iv. The Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial borrowings. ; **(Not applicable to the Company during the Audit Period);**
- v. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; **(to the extent applicable);**
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 **(Not applicable to the Company during the Audit Period);**
 - (d) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 **(Not applicable to the Company during the Audit Period);**

- (e) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021 **(Not applicable to the Company during the Audit Period);**
- (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client to the extent of securities issued;
- (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 **(Not applicable to the Company during the Audit Period);**
- (h) The Securities and Exchange Board of India (Buy-back of Securities) Regulations, 2018 **(Not applicable to the Company during the Audit Period);**

vi. The Company has identified following laws applicable specifically to the Company:

1. The Shop & Establishment Act, 1954 and rules made thereunder
2. The Factories Act, 1948 and allied labor laws
3. Local/Municipality Laws

We have also examined compliance with the applicable clauses of the following:

- (i) The Secretarial Standards issued by The Institute of Company Secretaries of India and notified by Ministry of Corporate Affairs.
- (ii) The SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

We have not examined compliance by the Company with applicable financial laws, like direct and indirect tax laws, since the same have been subject to review by statutory financial audit and other designated professionals.

During the period under review, the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above, except for the following:

1. Certain Charge related e-forms have been delayed filed by the Company with the Registrar of Companies,
2. During the audit period, the Company did not have a qualified Company Secretary appointed as Compliance Officer up to June 23, 2024, in violation of the requirements under Regulation 6 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Consequently, the stock exchanges (NSE/BSE) imposed penalties for the said non-compliance, which were duly paid by the Company.

A qualified Company Secretary was appointed with effect from June 24, 2024.

3. As per Regulation 31(4) of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 ("SEBI Takeover Code"), the declaration by the promoters regarding pledge/encumbrance on securities is required to be furnished within seven working days from the closure of the financial year. However, in respect of the financial year ended on March 31, 2024, the said declaration was submitted with a delay.
4. It is observed that the intimation for Closure of Trading Window for the quarter ended 30th June, 2024, covering the period from 1st July, 2024 till 48 hours after the declaration of financial results, was filed with the Stock Exchange(s) on 1st July, 2024. As per SEBI (Prohibition of Insider Trading) Regulations, 2015, such intimation is required to be given prior to the commencement of the trading window closure period, so as to effectively inform designated persons and stakeholders in

advance.

5. The Outcome of the Board Meeting held on 30th May, 2024, was filed with the BSE beyond the prescribed timeline from the conclusion of the meeting, in contravention of the requirements under Regulation 30(6) read with Regulation 33(3)(c) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.
6. BSE imposed a penalty of Rs. 11,800 on the Company for non-filing of the XBRL of Voting Results for the event dated May 15, 2024 (Postal Ballot), within the prescribed timeline of two working days from its conclusion.

We further report that:

The Board of Directors of the Company is duly constituted with a proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

As per the Minutes of the meetings duly recorded and signed by the Chairman, the decisions of the Board and Committees thereof were carried through with requisite majority.

We further report that, there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period, there was no event / action having a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines etc.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENTS

The Corrugated Packaging Industry in India continues to witness steady growth, driven by increasing demand across key sectors such as FMCG, pharmaceuticals, electronics, textiles, and e-commerce. As businesses increasingly adopt sustainable packaging solutions, corrugated boxes have emerged as a preferred choice due to their recyclability, cost-effectiveness, and versatility.

The industry is gradually shifting towards automation, standardized processes, and high-performance machinery to meet rising quality expectations and delivery timelines. Additionally, government initiatives promoting sustainability and the ban on single-use plastics are further encouraging the use of eco-friendly packaging alternatives. Despite challenges related to raw material price volatility and logistics costs, the long-term outlook for the industry remains positive, supported by robust consumption trends, organized retail growth, and a surge in digital commerce.

COMPANY OVERVIEW

Established in 2011, B&B Triplewall Containers Limited has grown to become a recognized industry leader in the manufacturing of high-quality corrugated boxes and boards. With over a decade of expertise, we have built a strong foundation based on innovation, operational excellence, and a customer-centric approach.

Our advanced manufacturing facilities are equipped with state-of-the-art technology, enabling us to deliver a diverse range of corrugated packaging solutions tailored to the unique requirements of major multinational corporations and packaging companies. Our product range spans across various sectors including FMCG, pharmaceuticals, textiles, electronics, distilleries, toys, and e-commerce.

In a significant strategic move during the Financial Year 2024-25, the Company commenced the manufacturing of kraft paper, marking a key step toward backward integration. This initiative enhances our supply chain efficiency, ensures better control over input quality, and supports our long-term cost optimization strategy.

Our state-of-the-art manufacturing facilities, coupled with a skilled and dedicated workforce, enable us to deliver tailored, high-performance, and environmentally responsible packaging solutions. Notably, we were the first company in India's corrugated segment to adopt the sheet feed model, underscoring our commitment to innovation and operational excellence.

With consistent growth in key sectors—especially e-commerce and FMCG, each expanding at approximately 15% annually—we are well-positioned to leverage emerging opportunities. Additionally, untapped markets such as fresh fruits and vegetables, along with increasing demand in the electronics and household appliance sectors, present strong avenues for future growth.

OPPORTUNITIES AND THREATS

OPPORTUNITIES

Your Company is one of the largest manufacturers of corrugated boxes in the country. It is equipped with state-of-the-art machinery. With industry experience spanning decades, healthy business relationships with existing customers and constant additions of new customers to the portfolio, the Company is consistently growing year on year.

Along with onboarding prospective customers, the Company also sees an opportunity to add value to customer's packaging needs by using high graphics while printing corrugated boxes, since these arts and graphics act as a medium of advertising for end consumers.

Key areas of growth and opportunity include the following:

- **Sustainability -Driven Packaging Trends:** Increasing environmental awareness and regulatory push against single-use plastics are creating significant opportunities for recyclable and biodegradable corrugated packaging.
- **E-commerce Growth:** The boom in e-commerce creates demand for secure, efficient, and attractive packaging solutions, opening new avenues for growth.
- **Export Market:** Expanding to international markets presents a substantial growth opportunity, especially in regions where demand for innovative packaging is high.
- **Untapped Segments:** Emerging opportunities in packaging for fresh fruits and vegetables, household appliances, and regional retail markets remain largely underpenetrated and offer scope for future expansion.
- **Technological Advancements:** Automation and digitization in manufacturing processes can improve productivity, consistency, and scalability, helping to meet large-volume, time-sensitive customer demands.
- **Backward Integration through Kraft Paper Manufacturing:** The commencement of kraft paper production enhances supply chain efficiency, cost control, and quality assurance, positioning the Company for improved margins and faster response to market needs.

THREATS

While the corrugated packaging industry offers significant growth potential, it is not without its challenges. Various external and internal factors can impact the Company's operations, profitability, and competitive positioning. Identifying and proactively managing these threats is essential to sustaining long-term performance and mitigating potential risks.

Key challenges includes following:

- **Raw Material Costs:** Fluctuations in the cost of raw materials, can impact profitability.
- **Regulatory Compliance:** Adherence to stringent environmental and safety regulations can increase operational costs.
- **Competitive Pressures:** The industry is highly competitive, with numerous players offering similar products, making differentiation crucial.
- **Supply Chain Disruptions:** Global supply chain issues, exacerbated by geopolitical tensions and pandemics, pose risks to timely delivery and cost management.
- **Economic Slowdowns:** Any slowdown in consumer-driven sectors or global trade could directly impact packaging demand and customer order volumes.

We are easily replaceable as a supplier of a generic product, but to counter this we have setup a technically advanced facility and we provide unparalleled service to the satisfaction of the dynamic requirements of the customers.

SWOT Analysis

➤ Opportunities:

1. Indian FMCG industry is growing at a faster rate
2. Shift towards sustainable packaging
3. Surge in the e-commerce sector

➤ Strength:

1. Experienced and efficient management team
2. Technically advanced and large capacity plants
3. Diverse customer portfolio
4. Satisfied customers
5. Company reducing Debt
6. Company with Zero Promoter Pledge

➤ **Weaknesses:**

1. Extremely competitive market

➤ **Threats:**

1. Easily replaceable as a supplier of generic product
2. Highly flammable products

SEGMENT WISE OR PRODUCT WISE PERFORMANCE

The Company is engaged in the business of Manufacturing and Sale of Paper & Paper products. In the context of IndAS-108 —Operating Segments, Paper and Paper Products constitute the only reportable segment of the Company.

The Company manufactures and sells following products under this segment:

- Kraft Paper
- Corrugated Boxes

The performance of each product for the financial year 2024–25 is outlined below:

1. Manufacturing of Corrugated Boxes

This segment continued to be the key contributor to the Company's overall revenue and profitability. Revenue from corrugated box manufacturing stood at Rs. 46,009 Lakhs during the financial year, representing approximately 95.43 % of the total revenue.

During the financial year, the Company focused on improving operational efficiency, reducing waste, and expanding customer reach. Continued investment in automated machinery and quality enhancement measures has further strengthened the Company's competitive position in the market. Additionally, the commencement of in-house kraft paper manufacturing contributed to improved raw material availability and cost stability, which positively impacted revenue performance.

2. Manufacturing of Kraft Paper

The Kraft Paper operations commenced during the financial year 2024–25, marking a significant step towards backward integration. This strategic move aims to ensure consistent quality, control over raw material supply, and improved cost efficiency in the production of corrugated boxes. In addition to supporting internal requirements, the Company has also commenced supplying kraft paper to third-party customers, thereby establishing an additional revenue stream.

In its first year of operation, the Kraft Paper unit contributed Rs. 2,208 Lakhs to the overall revenue.

OUTLOOK

Continuing with the system of benchmarking the manufacturing processes against industry best practices, upgradation of real time quality assurance systems and induction of state-of-the-art technology for its products and achieved higher levels of productivity and product excellence.

The Company implemented several initiatives encompassing cost management, supply chain optimization, smart procurement, long term coal linkages and productivity improvement through automation which helped in absorbing escalation in input costs, product development etc.

The state-of-the-art manufacturing facilities along with market leadership in value added corrugated boxes, world class product quality, established supply chain system strategically positions your Company to further enhance its leadership status in the Indian corrugated boxes in coming years.

Investment in R&D, coupled with a strong emphasis on customer satisfaction and operational efficiency, will continue to drive growth and enhance shareholder value.

RISKS AND CONCERNS

In today's challenging business environment, companies operating in a global market are faced by uncountable numbers of risks. Below are some key risks faced by our Company:

- **Raw Material Costs:** Increases in the prices of basic raw materials, such as Kraft paper and glue, could elevate manufacturing costs and negatively impact profitability.
- **Market Demand:** A significant decline in demand for our products, due to introduction of alternative technologies, shifts in consumer habits, or an industry slowdown, may adversely affect profitability and business prospects.
- **Geographical Concentration:** A substantial portion of our sales is generated from operations in Karnataka, Telangana, Andhra Pradesh, and Tamil Nadu. Any adverse developments in these regions could impact revenue and operational results.
- **Fire Risk:** Our primary products are corrugated boards and boxes which are manufactured from highly flammable corrugated paper sheets, the risk of fire, could adversely affect our business. However, the Company has implemented necessary fire safety measures and secured adequate insurance coverage as required by the Tamil Nadu Fire Service Act of 1985.

- **Regulatory Changes:** Changes in government policies could pose additional challenges to the Company's operations.

FINANCIAL **STATEMENTS**

TO THE MEMBERS OF B&B TRIPLEWALL CONTAINERS LIMITED

Report on the Audit of the Standalone Financial Statements.

Opinion

We have audited the accompanying standalone financial statements of M/s. **B&B TRIPLEWALL CONTAINERS LIMITED** ("the Company"), which comprise the Standalone Balance Sheet as at March 31, 2025, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows for the year then ended, notes to the standalone financial statements including material accounting policy information and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other Accounting Principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its Profit, total comprehensive income, its cash flows and changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

A) Provisions for taxation, litigation, and other significant provisions

- (i) Accrual for tax and other contingencies requires the Management to make judgements and estimates in relation to the issues and exposures arising from a range of matters relating to direct tax, indirect tax, transfer pricing arrangements, claims, general legal proceedings, environmental issues, and other eventualities arising in the regular course of business.
- (ii) The key judgement lies in the estimation of provisions where they may differ from the future obligations. By nature, provision is difficult to estimate and includes many variables. Additionally, depending on timing, there is a risk that costs could be provided inappropriately that are not yet committed.

How the matter was addressed in Our audit procedures included:

- (i) We tested the effectiveness of controls around the recognition of provisions.
- (ii) We used our subject matter experts to assess the value of material provisions in light of the nature of

the exposures, applicable regulations, and related correspondence with the authorities.

(iii) We challenged the assumptions and critical judgements made by management which impacted their estimate of the provisions required, considering judgements previously made by the authorities in the relevant jurisdictions or any relevant opinions given by the Company's advisors and assessing whether there was an indication of management bias.

(iv) We discussed the status in respect of significant provisions with the Company's internal tax and legal team.

(v) We performed retrospective review of management judgements relating to accounting estimate included in the financial statement of prior year and compared with the outcome.

B) Assessment of contingent liabilities relating to litigations and claims

(i) The Company is periodically subject to challenges / scrutiny on range of matters relating to direct tax, indirect tax, and transfer pricing arrangements.

(ii) Further, potential exposures may also arise from general legal proceedings, environmental issues etc. in the normal course of business.

(iii) Assessment of contingent liabilities disclosure requires Management to make judgements and estimates in relation to the issues and exposures. Whether the liability is inherently uncertain, the amounts involved are potentially significant and the application of accounting standards to determine the amount, if any, to be provided as liability, is inherently subjective.

How the matter was addressed in our audit procedures included:

(i) We tested the effectiveness of controls around the recording and re-assessment of contingent liabilities.

(ii) We used our subject matter experts to assess the value of material contingent liabilities in light of the nature of exposures, applicable regulations, and related correspondence with the authorities.

(iii) We discussed the status and potential exposures in respect of significant litigation and claims with the Company's internal legal team including their views on the likely outcome of each litigation and claim and the magnitude of potential exposure and sighted any relevant opinions given by the Company's advisors.

(iv) We assessed the adequacy of disclosures made.

(v) We discussed the status in respect of significant provisions with the Company's internal tax and legal team.

(vi) We performed retrospective review of management judgements relating to accounting estimate included in the financial statement of prior year and compared with the outcome.

Information Other than the standalone financial statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we concluded that there is a material statement of this other information, we are required to report that fact. We have nothing to report in this regard.

Managements and Board of Directors Responsibility for the standalone financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the

Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the standalone financial statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related

safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company as far as it appears from our examination of those books.
- c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss including Other Comprehensive Income, Standalone Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the director is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in 'Annexure A'. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matter to be included in the auditor's report in accordance with the requirements of section 197(16) of the act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position as detailed in Note 42 of standalone financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were amounts which were required to be transferred to the Investor Education and Protection Fund by the Company and same has been transferred accordingly.
 - iv. (a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (b) The management has represented, that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been received by the company from any

person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- (c) Based on such audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The dividend declared or paid during the year by the company is in compliance with sec 123 of the companies act 2013.
- vi. Based on our examination, which includes test checks, the Company has used accounting software for maintaining its books of accounts for the financial year ended March 31, 2025, which has a feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "**Annexure B**" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of B&B TRIPLEWALL CONTAINERS LIMITED of even date)

Report on the Internal Financial Controls Over Financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”).

We have audited the internal financial controls over financial reporting of **B&B TRIPLEWALL CONTAINERS LIMITED** (“the company”) as of March 31, 2025, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal financial Controls over financial Reporting issued by the Institute of Chartered Accountants of India.

Management’s Responsibility for Internal Financial Controls

The Company’s management and Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over financial reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the

company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes forming part of the standalone financial statements

(All amounts in Indian Rupees, unless otherwise stated)

1 Corporate information

B&B Triplewall Containers Limited is a Public Limited Company incorporated and domiciled in India. Its registered office and principal place of business are situated at SY.NO.263/2/3, Marsur Madivala, Kasaba Hobli, Anekal Taluk, Bengaluru-562106. The Principal activities of the company are manufacture and sale of corrugated boards & boxes.

2 Basis Of Preparation And Measurement**2.1 Statement of compliance**

These standalone financial statements ('financial statements') of the Company have been prepared in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ('Ind AS') specified under Section 133 of the Companies Act, 2013 ('the Act') and other relevant provisions of the Act. The Company has uniformly applied the accounting policies during the periods presented.

2.2 Basis of preparation

The financial statements have been prepared on accrual and going concern basis.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

The financial statements are presented in INR, the functional currency of the Company. Items included in the financial statements of the Company are recorded using the currency of the primary economic environment in which the Company operates (the 'functional currency').

2.3 Basis of measurement

These financial statements have been prepared on historical cost basis, except for certain financial instruments which are measured at fair value or amortised cost at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

2.4 Key Accounting Estimates And Judgements

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures of contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of impairment of investments, useful lives of property, plant and equipment, valuation of deferred tax assets and fair value measurement of financial instruments, these are discussed below. Key sources of estimation of uncertainty in respect of revenue recognition, employee benefits and provisions and contingent liabilities have been discussed in their respective policies.

Impairment of Financial assets

The Company reviews its carrying value of investments carried at amortised cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

Valuation of deferred tax assets

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period.

Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.5 Recent Accounting Pronouncements

Ministry of Corporate Affairs ('MCA') notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31 March 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

3 Material Accounting Policy Information

The material accounting policies applied by the Company in the preparation of its financial statements are listed below. Such accounting policies have been applied consistently to all the periods presented in these financial statements, unless otherwise indicated.

3.1 Property, Plant and Equipment:

Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance cost are charged to the Statement of Profit and Loss during the period in which they are incurred.

Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Depreciation is provided on a pro-rata basis on the written-down-value method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013. Depreciation is not recorded on capital work-in-progress until construction and installation is complete and the asset is ready for its intended use.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

3.2 Investment Property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model. The cost of Investment property includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in statement of profit and loss as incurred.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in Statement of Profit and Loss in the period in which the property is derecognised.

3.3 Intangible Assets

Intangible Assets are recognised, if the future economic benefits attributable to the assets are expected to flow to the company and cost of the asset can be measured reliably. All other expenditure is expensed as incurred. The same are amortised over the expected duration of benefits. Such intangible assets are measured at cost less any accumulated amortisation and impairment losses.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period and adjusted prospectively, if appropriate.

3.4 Impairment of Non-financial assets - Tangible and intangible assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

3.5 Investments

Non current investments include Investments in subsidiary and these are measured at cost as per Ind AS 27".

3.6 Inventories

Inventories such as Raw Materials, Work-in-Progress, Finished Goods, Stores & Spares, Tools valued at the lower of cost or net realisable value (except scrap/waste which are value at net realisable value).

The cost is computed on weighted average basis. Finished Goods and Process Stock include cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

3.7 Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The specific recognition criteria described below also be met before revenue is recognised.

Sale of goods

Revenue from the sale of goods is recognised, when control of goods being sold is transferred to customer and where there are no longer any unfulfilled obligations. The performance obligations in contracts are considered as fulfilled in accordance with the terms agreed with the respective customers.

Revenue from the sale of goods is measured on transaction price excluding estimates of variable consideration that is allocated to performance obligations. Sales as disclosed, are exclusive of Goods and Services Tax.

The company considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the company expects to be entitled in exchange for transferring promised goods to a customer, excluding amount collected on behalf of third parties (for example taxes collected on behalf of government). The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both.

The transaction price is allocated by the company to each performance obligation in an amount that depicts the amount of consideration to which it expects to be entitled in exchange for transferring the promised goods to the customer.

Sale of services

Revenue is recognised upon transfer of control of promised services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those services.

Interest income

Interest income is recognized on time proportion basis using the effective interest method.

Rental income

Rental income from investment properties is recognised on a straight line basis over the term of the lease.

3.8 Income Taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively. Interest expenses and penalties, if any, related to income tax are included in finance cost and other expenses respectively. Interest Income, if any, related to Income tax is included in Other Income.

Current income taxes

Current income tax is the expected tax payable/receivable on the taxable income/loss for the year using applicable tax rates for the relevant period, and any adjustment to taxes in respect of previous years.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where there is an intention to settle the asset and the liability on a net basis.

Deferred income taxes

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

A deferred tax liability is recognised based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted, or substantively enacted, by the end of the reporting period. Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

3.9 Leases

Leases in which a substantial portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments and receipts under such leases are recognised to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, in which case the same are recognised as an expense in line with the contractual term.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership to the lessee.

"Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. Accordingly, it recognises the Right of use asset as well as Lease obligations considering the lease agreement"

4.0 Borrowing costs

Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

3.10 Foreign Currencies

Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction. Foreign exchange gains and losses from settlement of these transactions are recognised in the Statement of Profit and Loss. Foreign currency denominated monetary assets and liabilities are translated into functional currency at exchange rates in effect at the balance sheet date, the gain or loss arising from such translations are recognised in the statement of profit & loss.

3.11 Provisions and Contingent Liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

3.12 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non - cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, financing and investing activities of the Company are segregated.

3.13 Earnings Per Share

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

3.14 Foreign Currencies

Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction. Foreign exchange gains and losses from settlement of these transactions are recognised in the Statement of Profit and Loss. Foreign currency denominated monetary assets and liabilities are translated into functional currency at exchange rates in effect at the balance sheet date, the gain or loss arising from such translations are recognised in the statement of profit & loss.

3.14 Employee Benefits

Defined contribution plans

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, superannuation scheme, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Company's provident fund contribution, in respect of certain employees, is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Defined benefit plans

The Company provides for retirement/post-retirement benefits in the form of gratuity, and compensated absences, in respect of certain employees. All defined benefit plans obligations are determined based on valuations, as at the Balance Sheet date, made by independent actuary using the projected unit credit method. The classification of the Company's net obligation into current and non-current is as per the actuarial valuation report.

For defined benefit plans, the amount recognised as 'Employee benefit expenses' in the Statement of Profit and Loss is the cost of accruing employee benefits promised to employees over the year and the costs of individual events such as past/future service benefit changes and settlements (such events are recognised immediately in the Statement of Profit and Loss). The amount of net interest expense calculated by applying the liability discount rate to the net defined benefit liability or asset is charged or credited to 'Finance costs' in the Statement of Profit and Loss. Any changes in the liabilities over the year due to changes in actuarial assumptions or experience adjustments within the plans, are recognised immediately in 'Other comprehensive income' and subsequently not reclassified to the Statement of Profit and Loss.

3.15 Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

A. Financial Assets

On initial recognition, a financial asset is recognised at fair value. In case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction cost is attributed to the acquisition value of the financial asset. Financial assets are subsequently classified and measured at - Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. In case of Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction cost is attributed to the acquisition value of the financial asset. Financial assets are subsequently classified and measured at:

- amortised cost
- fair value through other comprehensive income (FVOCI)
- fair value through profit and loss (FVTPL)

Financial assets are not reclassified subsequent to their recognition, except during the period the Company changes its business model for managing financial assets.

[a] Cash and cash equivalents

Cash and cash equivalents are cash, balances with bank and short-term (three months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

[b] Trade Receivables and Loans

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

[c] Debt Instruments

Debt instruments are initially measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of (i) the company's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

[i] Measured at amortised cost:

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the effective interest rate ('EIR') method less impairment, if any. The amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

[ii] Measured at fair value through other comprehensive income (FVOCI):

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

[iii] Measured at fair value through profit or loss (FVTPL):

A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss.

[d] Equity Instruments:

All investments in equity instruments classified under financial assets are initially measured at fair value, the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL.

The Company makes such election on an instrument by-instrument basis. Fair value changes on an equity instrument is recognised as 'other income' in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

Impairment of Financial Asset

The Company applies expected credit loss (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables
- ii. Financial assets measured at amortized cost (other than trade receivables)
- iii. Financial assets measured at fair value through other comprehensive income (FVTOCI)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance.

In case of other assets (listed as ii and iii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

As a practical expedient, the Company uses a provision matrix to measure lifetime ECL on its portfolio of trade receivables. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forwardlooking estimates. At each reporting date, the historically observed default rates and changes in the forward-looking estimates are updated.

ECL allowance recognised (or reversed) during the period is recognized as income/ expense in the Statement of Profit and Loss under the head 'Other expenses'.

B. Financial Liabilities

Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest rate method.

Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Note: 51

Cash Flow Statement has been prepared using the In-direct Method prescribed in Indian Accounting Standard-7 issued under Companies (Accounts) Rules, 2014.

Note: 52

There is no impairment to assets as per Indian Accounting Standard 36 issued by Companies (Accounting Standard) Rules, 2014. Consequently, there is no impairment loss debited to Profit and Loss account.

Note: 53

The Company has classified certain class of security deposits such as electricity, telephone, and other similar deposits as non-current financial assets, as they are refundable only upon discontinuation of the related services and are not expected to be realized within 12 months from the reporting date. In accordance with Ind AS 109 - Financial Instruments (Para 5.1.1 and B5.1.1), financial assets are initially measured at fair value. However, in this case, the difference between the transaction value and fair value is not considered material due to the nature, amount, and expected duration of these deposits. Accordingly, the deposits have been measured at transaction value.

Note: 54**Correction of Prior Period Error**
Lease Accounting (Ind AS 116) :

During the financial year 2024-25, the Company identified that lease liabilities and corresponding right-of-use (ROU) assets relating to certain long-term lease agreements were not recognized in earlier periods as required under Ind AS 116. The error has been corrected retrospectively in accordance with Ind AS 8 by restating each of the affected financial statement line items for the prior periods and the opening balance sheet as at 1 April 2023. The restatement has no impact on the total cash flows. A third balance sheet as at 1 April 2023 has been presented as required by Ind AS 1. (ix) Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The results of sensitivity analysis is given below:

Particulars	As on	
	31-Mar-25	31-Mar-24
Defined Benefit Obligation (Base)	225.10	172.86

Particulars	As on			
	31-Mar-25		31-Mar-24	
	Decrease	Increase	Decrease	Increase
Discount Rate (- / + 1%) (%)	240.33	211.50	184.11	162.79
change compared to base due to sensitivity	6.8%	-6.0%	6.5%	-5.8%
Salary Growth Rate (- / + 1%)	211.58	239.94	162.80	183.89
(% change compared to base due to sensitivity)	-6.0%	6.6%	-5.8%	6.4%
Attrition Rate (- / + 50% of attrition rates)	240.97	213.51	179.33	166.66
(% change compared to base due to sensitivity)	7.0%	-5.2%	3.7%	-3.6%
Mortality Rate (- / + 10% of mortality rates)	225.10	225.10	172.85	172.86
(% change compared to base due to sensitivity)	0.0%	0.0%	0.0%	0.0%

Please note that the sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

There is no change in the method of valuation for the prior period. For change in assumptions please refer below where assumptions for prior period, if applicable, are given.

The discount rate indicated above reflects the estimated timing and currency of benefit payments. It is based on the yields / rates available on applicable bonds as on the current valuation date.

The salary growth rate indicated above is the Company's best estimate of an increase in salary of the employees in future years, determined considering the general trend in inflation, seniority, promotions, past experience and other relevant factors such as demand and supply in employment market, etc.

Attrition rate indicated above represents the Company's best estimate of employee turnover in future (other than on account of retirement, death or disablement) determined considering various factors such as nature of business, retention policy, industry factors, past experience, etc.

The assumptions used in this Report, other than the rates of mortality, are the expectations of the Company for future years. The Company acknowledges that it has been advised to consider the relevant factors (including historical trends, which may or may not be suitable for future projections or may be suitable only after certain adjustments / modifications) in determination of assumptions.

The Company has also been advised on the sensitivity of results to change in the chosen assumptions and experience variance / adjustments. Since it is the Company's prerogative to decide on expected future trends and since the Company is best aware of the various factors affecting the future trends, the assumptions given by the Company have been accepted.

Risk analysis

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus, the Company is exposed to various risks in providing the above gratuity benefit which are as follows:

Interest Rate risk: The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).

Liquidity Risk: This is the risk that the Company is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

Salary Escalation Risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic Risk: The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.

Regulatory Risk: Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit on gratuity of Rs. 20 Lakhs).

Asset Liability Mismatching or Market Risk: The duration of the liability is longer compared to duration of assets, exposing the Company to market risk for volatilities/fall in interest rate.

Investment Risk: The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

2. Defined contribution plans:

A sum of Rs. 150.52 Lakhs has been charged to the Statement of Profit and Loss in respect of Company's contribution to provident fund and employees state insurance.

Note: 58

Financial Risk Management

The Company's activities are exposed to a variety of Financial risks from its operations. The Key financial risks include Credit Risk, Market Risk and Liquidity Risk. The Company also uses derivative instruments on selective basis prudently to manage the volatility of financial markets and minimise the adverse impact on its financial Performance in accordance Risk Management Policy Framework.

a) Credit Risk

Credit risk is the risk that a customer or counterparty to a financial instrument fails to perform or pay the amounts due causing financial loss to the company. The company is exposed to credit risk from its operating activities primarily arising from trade receivables from customers and other financial instruments.

Customer Credit risk is managed as per the Company's established policy, procedures and control framework relating to customer credit risk management. The company assesses the credit quality of the counterparties taking into account their financial position and credit worthiness, the age of specific receivable balance and the current and expected collection trends, age of its contracts in progress, historically observed default over the expected life of trade receivables. Credit risk is also actively managed to the extent feasible by securing payment through letter of credit, advance payment and bill discounting facility. The Company's exposure (unsecured trade receivables) and credit ratings of its counter parties are continuously monitored and assessed while ensuring that the aggregate value of the transaction is reasonably spread amongst counterparties. The company uses the expected credit loss model to assess the impairment allowance on trade receivables, if any on the reporting date and accordingly applied the same for measurement and recognition of impairment losses on trade receivables.

Exposure to credit risks

Particulars	31st March 2025	31st March 2024
Financial assets for which loss allowance is measured using Life-time Expected Credit Losses (LECL)		
Trade receivables	8,594.19	7,670.76

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF B&B TRIPLEWALL CONTAINERS LIMITED

Report on the Audit of the Consolidated Financial Statements.

Opinion

We have audited the accompanying consolidated financial statements of M/s. **B&B TRIPLEWALL CONTAINERS LIMITED** ("the Holding Company") and its subsidiary (the Holding Company and its subsidiary together referred to as 'the Group'), which comprise the Consolidated Balance Sheet as at March 31, 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, notes to the consolidated financial statements including material accounting policies and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and on the other financial information of the subsidiaries the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other Accounting Principles generally accepted in India of the consolidated state of affairs of the Group, as at 31 March 2025, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the consolidated financial statements section of our report. We are independent of the Group and its joint venture in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

A) Provisions for taxation, litigation, and other significant provisions

(i) Accrual for tax and other contingencies requires the Management to make judgements and estimates in relation to the issues and exposures arising from a range of matters relating to direct tax, indirect tax, transfer pricing arrangements, claims, general legal proceedings, environmental issues, and other eventualities arising in the regular course of business.

(ii) The key judgement lies in the estimation of provisions where they may differ from the future obligations. By nature, provision is difficult to estimate and includes many variables. Additionally, depending on timing, there is a risk that costs could be provided inappropriately that are not yet committed.

How the matter was addressed in Our audit procedures included:

(i) We tested the effectiveness of controls around the recognition of provisions.

(ii) We used our subject matter experts to assess the value of material provisions in light of the nature of the exposures, applicable regulations, and related correspondence with the authorities.

(iii) We challenged the assumptions and critical judgements made by management which impacted their estimate of the provisions required, considering judgements previously made by the authorities in the relevant jurisdictions or any relevant opinions given by the Company's advisors and assessing whether there was an indication of management bias.

(iv) We discussed the status in respect of significant provisions with the Company's internal tax and legal team.

(v) We performed retrospective review of management judgements relating to accounting estimate included in the financial statement of prior year and compared with the outcome.

B) Assessment of contingent liabilities relating to litigations and claims

(i) The Company is periodically subject to challenges / scrutiny on range of matters relating to direct tax, indirect tax, and transfer pricing arrangements.

(ii) Further, potential exposures may also arise from general legal proceedings, environmental issues etc. in the normal course of business.

(iii) Assessment of contingent liabilities disclosure requires Management to make judgements and estimates in relation to the issues and exposures. Whether the liability is inherently uncertain, the amounts involved are potentially significant and the application of accounting standards to determine the amount, if any, to be provided as liability, is inherently subjective.

How the matter was addressed in our audit procedures included:

(i) We tested the effectiveness of controls around the recording and re-assessment of contingent liabilities.

(ii) We used our subject matter experts to assess the value of material contingent liabilities in light of the nature of exposures, applicable regulations, and related correspondence with the authorities.

(iii) We discussed the status and potential exposures in respect of significant litigation and claims with the Company's internal legal team including their views on the likely outcome of each litigation and claim and the magnitude of potential exposure and sighted any relevant opinions given by the Company's advisors.

(iv) We assessed the adequacy of disclosures made.

(v) We discussed the status in respect of significant provisions with the Company's internal tax and legal team.

(vi) We performed retrospective review of management judgements relating to accounting estimate included in the financial statement of prior year and compared with the outcome.

Information Other than the consolidated financial statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Report on Corporate Governance, Business Responsibility and Sustainability Report and the Directors' Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we concluded that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India. The Holding Company's Board of Directors are also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. Further, in terms of the provisions of the Act the respective Board of Directors of the companies included in the Group, and its joint venture company covered under the Act are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating

effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group and of its joint venture.

Auditor's Responsibilities for the Audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and Obtain sufficient appropriate audit evidence regarding the financial information / financial statements of the entities or business activities within the Group and its joint venture, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the consolidated financial statements, of which we are the independent auditors.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements of subsidiary, whose financial statements information reflect (before eliminating inter-company transactions and balances) total assets of ₹1,663.18 lakhs as at 31st March, 2025, total revenues of ₹1,593.88 and net cash inflows amounting to ₹32.55 for the year ended on that date, as considered in the Consolidated Financial Statements. These financial statements and information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary and associates is based solely on the reports of the other auditors.

Our opinion on the Consolidated Financial Statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditor.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements.

b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditor.

c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of accounts maintained for the purpose of preparation of the consolidated financial statements.

d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

e) On the basis of the written representations received from the directors of the Holding Company and its subsidiary companies and taken on record by the Board of Directors of the Holding Company and its subsidiary companies respectively, covered under the Act, none of the directors of the Group companies and its joint venture company, are disqualified as on 31 March 2025 from being appointed as a director in terms of section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in 'Annexure A'. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

g) With respect to the other matter to be included in the auditor's report in accordance with the requirements of section 197(16) of the act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act read with Schedule V to the Act.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group as detailed in Note 42 to the consolidated financial statements;
- ii. The Holding Company, its subsidiary companies did not have any long-term contracts including

derivative contracts for which there were any material foreseeable losses as at 31 March 2025.

- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2025 and there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the subsidiary companies covered under the Act, during the year ended 31 March 2025.
- iv. (a) The respective managements of holding and its subsidiary companies incorporated in India whose financial statements have been audited under the Act have represented to us that that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the the Holding Company or its subsidiary companies to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The respective managements of holding and its subsidiary companies incorporated in India whose financial statements have been audited under the Act have represented to us that that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been received by the the Holding Company or its subsidiary companies from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on such audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The dividend declared and paid by the holding company during the year ended 31 March 2025 in respect of such dividend declared for the previous year is in compliance with sec 123 of the companies act 2013 as applicable to the extent it applies to payment of dividend.
- vi. Based on our examination, which includes test checks, the company and its subsidiary incorporated in India has used accounting software for maintaining its books of accounts for the financial year ended March 31, 2025, which has a feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

2. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/ "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and other auditor for subsidiary company included in the consolidated financial statements, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of B&B TRIPLEWALL CONTAINERS LIMITED of even date)

Report on the Internal Financial Controls Over Financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”).

We have audited the internal financial controls over financial reporting of **B&B TRIPLEWALL CONTAINERS LIMITED** (“the company”) as of March 31, 2025, in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Opinion

In conjunction with our audit of the consolidated financial statements of B&B TRIPLEWALL CONTAINERS LIMITED (‘the Holding Company’) and its subsidiaries (the Holding Company and its subsidiaries together referred to as ‘the Group’), as at and for the year ended 31 March 2025, we have audited the internal financial controls with reference to financial statements of the Holding Company, and its subsidiary companies, which are companies covered under the Act, as at that date.

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal financial Controls over financial Reporting issued by the Institute of Chartered Accountants of India.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over financial reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the the Holding Company and its subsidiary companies s, as aforesaid, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the the Holding Company and its subsidiary companies as aforesaid.

Meaning of Internal Financial Controls Over Financial reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions

of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls Over Financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

B&B TRIPLEWALL CONTAINERS LIMITED

Notes forming part of the Consolidated financial statements

(All amounts in Indian Rupees, unless otherwise stated)

1 Corporate information

The Consolidated financial statements comprise financial statements of "B&B Triplewall Containers Limited" ("the Holding Company") and its subsidiary "B&B Colour Cartons Private Limited" (Collectively referred to as "the Company") for the year ended 31st March 2025.

B&B Triplewall Containers Limited is a Public Limited Company incorporated and domiciled in India. Its registered office and principal place of business are situated at SY.NO.263/2/3, Marsur Madivala, Kasaba Hobli, Anekal Taluk, Bengaluru-562106. The Principal activities of the Company are manufacture and sale of corrugated boards & boxes.

The Principal activities of the Company consists of manufacture and sale of corrugated boards & boxes and Packaging materials.

2 Basis Of Preparation And Measurement of Consolidated financial Statements

2.1 Statement of compliance

These consolidated financial statements ('financial statements') have been prepared in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ('Ind AS') specified under Section 133 of the Companies Act, 2013 ('the Act') and other relevant provisions of the Act. The Company has uniformly applied the accounting policies during the periods presented.

2.2 Basis of preparation of Consolidated financial Statements

These Consolidated Financial Statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below. The accounting policies have been applied consistently over all the periods presented in these Consolidated Financial Statements

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

The consolidated financial statements are presented in INR, the functional currency of the Company. Items included in the financial statements of the Company are recorded using the currency of the primary economic environment in which the Company operates (the 'functional currency').

2.3 Basis of measurement of Consolidated financial Statements

These consolidated financial statements have been prepared on historical cost basis, except for certain financial instruments which are measured at fair value or amortised cost at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

2.4 Key Accounting Estimates And Judgements

The preparation of these consolidated financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures of contingent liabilities as at the date of the consolidated financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of impairment of investments, useful lives of property, plant and equipment, valuation of deferred tax assets and fair value measurement of financial instruments, these are discussed below. Key sources of estimation of uncertainty in respect of revenue recognition, employee benefits and provisions and contingent liabilities have been discussed in their respective policies.

Impairment of Financial assets

The Company reviews its carrying value of investments carried at amortised cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

Valuation of deferred tax assets

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period.

Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.5 Recent Accounting Pronouncements

Ministry of Corporate Affairs ('MCA') notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31 March 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

- 3 Material Accounting Policies**
The material accounting policies applied by the Company in the preparation of its financial statements are listed below. Such accounting policies have been applied consistently to all the periods presented in these consolidated financial statements, unless otherwise indicated.
- 3.1 Property, Plant and Equipment:**
Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.
Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance cost are charged to the Statement of Profit and Loss during the period in which they are incurred.
Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss.
Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".
Depreciation is provided on a pro-rata basis on the written-down-value method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013. Depreciation is not recorded on capital work-in-progress until construction and installation is complete and the asset is ready for its intended use.
The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.
- 3.2 Investment Property**
Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model. The cost of Investment property includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in statement of profit and loss as incurred. An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in Statement of Profit and Loss in the period in which the property is derecognised.
- 3.3 Intangible Assets**
Intangible Assets are recognised, if the future economic benefits attributable to the assets are expected to flow to the Company and cost of the asset can be measured reliably. All other expenditure is expensed as incurred. The same are amortised over the expected duration of benefits. Such intangible assets are measured at cost less any accumulated amortisation and impairment losses.
The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period and adjusted prospectively, if appropriate.
- 3.4 Impairment of Non-financial assets - Tangible and intangible assets**
Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.
If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.
- 3.5 Investments**
Non current investments include Investments in subsidiary and these are measured at cost as per Ind AS 27".
- 3.6 Inventories**
Inventories such as Raw Materials, Work-in-Progress, Finished Goods, Stores & Spares, Tools valued at the lower of cost or net realisable value (except scrap/waste which are value at net realisable value).
The cost is computed on weighted average basis. Finished Goods and Process Stock include cost of conversion and other costs incurred in bringing the inventories to their present location and condition.
- 3.7 Revenue Recognition**
Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The specific recognition criteria described below also be met before revenue is recognised.
- Sale of goods**
Revenue from the sale of goods is recognised, when control of goods being sold is transferred to customer and where there are no longer any unfulfilled obligations. The performance obligations in contracts are considered as fulfilled in accordance with the terms agreed with the respective customers.
Revenue from the sale of goods is measured on transaction price excluding estimates of variable consideration that is allocated to performance obligations. Sales as disclosed, are exclusive of Goods and Services Tax.
The Company considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods to a customer, excluding amount collected on behalf of third parties (for example taxes collected on behalf of government). The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both.
The transaction price is allocated by the Company to each performance obligation in an amount that depicts the amount of consideration to which it expects to be entitled in exchange for transferring the promised goods to the customer.
- Sale of services**
Revenue is recognised upon transfer of control of promised services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those services.
- Interest income**
Interest income is recognized on time proportion basis using the effective interest method.
- Rental income**
Rental income from investment properties is recognised on a straight line basis over the term of the lease.

3.8 Income Taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively. Interest expenses and penalties, if any, related to income tax are included in finance cost and other expenses respectively. Interest Income, if any, related to Income tax is included in Other Income.

Current income taxes

Current income tax is the expected tax payable/receivable on the taxable income/loss for the year using applicable tax rates for the relevant period, and any adjustment to taxes in respect of previous years.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where there is an intention to settle the asset and the liability on a net basis.

Deferred income taxes

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

A deferred tax liability is recognised based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted, or substantively enacted, by the end of the reporting period. Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

3.9 Leases

Leases in which a substantial portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments and receipts under such leases are recognised to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, in which case the same are recognised as an expense in line with the contractual term.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership to the lessee.

"Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. Accordingly, it recognises the Right of use asset as well as Lease obligations considering the lease agreement"

3.10 Borrowing costs

Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

3.11 Foreign Currencies

Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction. Foreign exchange gains and losses from settlement of these transactions are recognised in the Statement of Profit and Loss. Foreign currency denominated monetary assets and liabilities are translated into functional currency at exchange rates in effect at the balance sheet date, the gain or loss arising from such translations are recognised in the statement of profit & loss.

3.12 Provisions and Contingent Liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

3.13 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, financing and investing activities of the Company are segregated.

3.14 Earnings Per Share

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the holding company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

3.15 Foreign Currencies

Foreign currency transactions are translated into the functional currency using exchange rates at the date of the transaction. Foreign exchange gains and losses from settlement of these transactions are recognised in the Statement of Profit and Loss. Foreign currency denominated monetary assets and liabilities are translated into functional currency at exchange rates in effect at the balance sheet date, the gain or loss arising from such translations are recognised in the statement of profit & loss.

3.16 Employee Benefits

Defined contribution plans

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, superannuation scheme, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Company's provident fund contribution, in respect of certain employees, is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Defined benefit plans

The Company provides for retirement/post-retirement benefits in the form of gratuity, and compensated absences, in respect of certain employees. All defined benefit plans obligations are determined based on valuations, as at the Balance Sheet date, made by independent actuary using the projected unit credit method. The classification of the Company's net obligation into current and non-current is as per the actuarial valuation report.

For defined benefit plans, the amount recognised as 'Employee benefit expenses' in the Statement of Profit and Loss is the cost of accruing employee benefits promised to employees over the year and the costs of individual events such as past/future service benefit changes and settlements (such events are recognised immediately in the Statement of Profit and Loss). The amount of net interest expense calculated by applying the liability discount rate to the net defined benefit liability or asset is charged or credited to 'Finance costs' in the Statement of Profit and Loss. Any changes in the liabilities over the year due to changes in actuarial assumptions or experience adjustments within the plans, are recognised immediately in 'Other comprehensive income' and subsequently not reclassified to the Statement of Profit and Loss.

3.17 Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

A. Financial Assets

On initial recognition, a financial asset is recognised at fair value. In case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction cost is attributed to the acquisition value of the financial asset. Financial assets are subsequently classified and measured at - Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. In case of Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction cost is attributed to the acquisition value of the financial asset. Financial assets are subsequently classified and measured at:

- amortised cost
- fair value through other comprehensive income (FVOCI)
- fair value through profit and loss (FVTPL)

Financial assets are not reclassified subsequent to their recognition, except during the period the Company changes its business model for managing financial assets.

[a] Cash and cash equivalents

Cash and cash equivalents are cash, balances with bank and short-term (three months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

[b] Trade Receivables and Loans

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

[c] Debt Instruments

Debt instruments are initially measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of (i) the Company's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

[i] Measured at amortised cost:

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the effective interest rate ('EIR') method less impairment, if any. The amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

[ii] Measured at fair value through other comprehensive income (FVOCI):

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

[iii] Measured at fair value through profit or loss (FVTPL):

A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss.

[d] Equity Instruments:

All investments in equity instruments classified under financial assets are initially measured at fair value, the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL.

The Company makes such election on an instrument by-instrument basis. Fair value changes on an equity instrument is recognised as 'other income' in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

Impairment of Financial Asset

The Company applies expected credit loss (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables
- ii. Financial assets measured at amortized cost (other than trade receivables)
- iii. Financial assets measured at fair value through other comprehensive income (FVTOCI)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance.

In case of other assets (listed as ii and iii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

As a practical expedient, the Company uses a provision matrix to measure lifetime ECL on its portfolio of trade receivables. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates. At each reporting date, the historically observed default rates and changes in the forward-looking estimates are updated.

ECL allowance recognised (or reversed) during the period is recognized as income/ expense in the Statement of Profit and Loss under the head 'Other expenses'.

B. Financial Liabilities

Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest rate method.

Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

3.18 Basis of Consolidation

The Consolidated Financial Statements comprise the financial statements of the holding company and its subsidiary. The Holding Company consolidates all the entities where control exists as per Ind AS 110, Consolidated Financial Statements from the date control commences until the date control ceases. Generally, there is a presumption that a majority of voting rights result in control.

The Holding company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Assets, liabilities, income and expenses of a subsidiary acquired or disposed off during the year are included in the Consolidated Financial Statements from the date the holding company gains control until the date the Holding company ceases to control the subsidiary. Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Parent Company, i.e., year ended on 31st March. The Consolidated Financial Statements have been combined on a line-by-line basis, after fully eliminating intra-Company balances, and intra-Company transactions and resulting unrealised profits. Unrealised losses resulting from intraCompany transactions are not eliminated unless cost cannot be recovered. Ind AS 12, Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intraCompany transactions.

Consolidated Profit or loss and each component of other comprehensive income (OCI) are attributed to the owners of the holding company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. Any difference between the amount at which the non-controlling interest are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to shareholders.

Note: 50

Cash Flow Statement has been prepared using the In-direct Method prescribed in Indian Accounting Standard- 7 issued under Companies (Accounts) Rules, 2014.

Note: 51

There is no impairment to assets as per Indian Accounting Standard 36 issued by Companies (Accounting Standard) Rules, 2014. Consequently, there is no impairment loss debited to Profit and Loss account.

Note: 52

The Company has classified certain class of security deposits such as electricity, telephone, and other similar deposits as non-current financial assets, as they are refundable only upon discontinuation of the related services and are not expected to be realized within 12 months from the reporting date.

In accordance with Ind AS 109 - Financial Instruments (Para 5.1.1 and B5.1.1), financial assets are initially measured at fair value. However, in this case, the difference between the transaction value and fair value is not considered material due to the nature, amount, and expected duration of these deposits. Accordingly, the deposits have been measured at transaction value.

Note: 53**Employee benefit plans****1. Defined benefit plans - Gratuity**

In accordance with Indian law, the Company operates a scheme of gratuity which is a defined benefit plan. The gratuity plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 to 30 days' salary payable for each completed year of service. Vesting occurs upon completion of five continuous years of service. The Company manages the plan through a trust. The following table sets out the details of the defined benefit retirement plans and the amounts recognised in the financial statements:

(ix) Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The results of sensitivity analysis is given below:

Particulars	As on	
	31-Mar-25	31-Mar-24
Defined Benefit Obligation (Base)	226.75	173.56

Particulars	As on			
	31-Mar-25		31-Mar-24	
	Decrease	Increase	Decrease	Increase
Discount Rate (- / + 1%) (% change compared to base due to sensitivity)	240.33 6.8%	211.50 -6.0%	184.11 6.5%	162.79 -5.8%
Salary Growth Rate (- / + 1%) (% change compared to base due to sensitivity)	211.58 -6.0%	239.94 6.6%	162.80 -5.8%	183.89 6.4%
Attrition Rate (- / + 50% of attrition rates) (% change compared to base due to sensitivity)	240.97 7.0%	213.51 -5.2%	179.33 3.7%	166.66 -3.6%
Mortality Rate (- / + 10% of mortality rates) (% change compared to base due to sensitivity)	225.10 0.0%	225.10 0.0%	172.85 0.0%	172.86 0.0%

Please note that the sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

There is no change in the method of valuation for the prior period. For change in assumptions please refer below where assumptions for prior period, if applicable, are given.

The discount rate indicated above reflects the estimated timing and currency of benefit payments. It is based on the yields / rates available on applicable bonds as on the current valuation date.

The salary growth rate indicated above is the Company's best estimate of an increase in salary of the employees in future years, determined considering the general trend in inflation, seniority, promotions, past experience and other relevant factors such as demand and supply in employment market, etc.

Attrition rate indicated above represents the Company's best estimate of employee turnover in future (other than on account of retirement, death or disablement) determined considering various factors such as nature of business, retention policy, industry factors, past experience, etc.

The assumptions used in this Report, other than the rates of mortality, are the expectations of the Company for future years. The Company acknowledges that it has been advised to consider the relevant factors (including historical trends, which may or may not be suitable for future projections or may be suitable only after certain adjustments / modifications) in determination of assumptions.

The Company has also been advised on the sensitivity of results to change in the chosen assumptions and experience variance / adjustments. Since it is the Company's prerogative to decide on expected future trends and since the Company is best aware of the various factors affecting the future trends, the assumptions given by the Company have been accepted.

Risk analysis

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus, the Company is exposed to various risks in providing the above gratuity benefit which are as follows:

Interest Rate risk: The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).

Liquidity Risk: This is the risk that the Company is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

Salary Escalation Risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic Risk: The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.

Regulatory Risk: Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit on gratuity of Rs. 20 Lakhs).

Asset Liability Mismatching or Market Risk: The duration of the liability is longer compared to duration of assets, exposing the Company to market risk for volatilities/fall in interest rate.

Investment Risk: The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

2. Defined contribution plans:

A sum of Rs. 155.28 Lakhs has been charged to the Statement of Profit and Loss in respect of Company's contribution to provident fund and employees state insurance.

Financial Risk Management

The Company's activities are exposed to a variety of Financial risks from its operations. The Key financial risks include Credit Risk, Market Risk and Liquidity Risk. The Company also uses derivative instruments on selective basis prudently to manage the volatility of financial markets and minimise the adverse impact on its financial Performance in accordance Risk Management Policy Framework.

a) Credit Risk

Credit risk is the risk that a customer or counterparty to a financial instrument fails to perform or pay the amounts due causing financial loss to the company. The company is exposed to credit risk from its operating activities primarily arising from trade receivables from customers and other financial instruments.

Customer Credit risk is managed as per the Company's established policy, procedures and control framework relating to customer credit risk management. The company assesses the credit quality of the counterparties taking into account their financial position and credit worthiness, the age of specific receivable balance and the current and expected collection trends, age of its contracts in progress, historically observed default over the expected life of trade receivables. Credit risk is also actively managed to the extent feasible by securing payment through letter of credit, advance payment and bill discounting facility. The Company's exposure (unsecured trade receivables) and credit ratings of its counter parties are continuously monitored and assessed while ensuring that the aggregate value of the transaction is reasonably spread amongst counterparties. The company uses the expected credit loss model to assess the impairment allowance on trade receivables, if any on the reporting date and accordingly applied the same for measurement and recognition of impairment losses on trade receivables.

Exposure to credit risks	31st March 2025	31st March 2024
Financial assets for which loss allowance is measured using Life-time Expected Credit Losses (LECL)		
Trade receivables	8,730.42	7,887.97
Summary of change in loss allowances measured using LECL		
Opening allowance	(116.30)	(107.74)
Provided during the year	(4.44)	(8.56)
Amounts written-off	-	-
Closing allowance	(120.74)	(116.30)

During the year ended 31 March 2025 and 31 March 2024, The company has recognized 'nil' impairment loss on all financial assets except for trade receivables above.

b) Market Risk

Market Risk is the risk that the fair value or future cash flows of the financial instrument will fluctuate because of changes in market prices.

i) Foreign Exchange Risk

The Company is exposed to foreign currency risk primarily on account of import payables denominated in different currencies as given below. As of the reporting date, the Company has not entered into any forward contracts or derivative instruments to hedge its foreign currency exposure.

The Company monitors exchange rate movements and evaluates its foreign currency exposure regularly. However, it currently follows a natural hedging approach, relying on short credit cycles and internal risk assessments rather than active hedging.

Sensitivity analysis:			
Particulars	% Change	Impact on Profit Before Tax - Increase/(Decrease)	
		31st March 2025	31st March 2024
Sensitivity on USD import exposure	1% Increase	(0.71)	(0.08)
Sensitivity on USD import exposure	1% Decrease	0.71	0.08

Sensitivity on CHF import exposure	1% Increase	(0.04)	0.00
Sensitivity on CHF import exposure	1% Decrease	0.04	(0.00)

ii) Interest rate risk

The Company's interest rate risk arises primarily from borrowings at variable rates linked to market benchmarks. As of the reporting date, the Company has not entered into any interest rate swaps or derivative contracts to hedge its exposure.

Management regularly monitors interest rate movements and evaluates borrowing structures. Based on current interest rate trends and the size of borrowings, the Company has assessed that the risk is acceptable and has opted not to hedge.

Sensitivity analysis:			
Particulars	% Change	Impact on Profit Before Tax - Increase/(Decrease)	
		31st March 2025	31st March 2024

Borrowings from banks & other financial institutions	100 basis points decrease	138.92	105.64

c) Liquidity Risk

Liquidity risk arises from the Company's inability to meet its financial obligations in a timely manner. The Company manages this risk through regular monitoring of cash flows and maintaining sufficient undrawn working capital facilities. The Company does not use hedging instruments for liquidity risk but relies on operational cash flow and sanctioned credit lines.

14. VOTING THROUGH ELECTRONIC MEANS:

- In compliance with provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014, Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements), 2015 ("Listing Regulations") and any other applicable provisions, the Company is pleased to provide members the facility to exercise their right to vote at the 14th Annual General Meeting (AGM) by electronic means and the business may be transacted through Remote e-Voting Services provided by Central Depository Services (India) Limited (CDSL).
- The facility for voting through ballot paper, shall be made available at the AGM and the Members attending the AGM, who have not cast their vote by remote e-voting, may exercise their right to vote at the AGM.
- The Members who have cast their vote by remote e-voting prior to the AGM may also attend the AGM but shall not be entitled to cast their vote again.
- A Member can vote either by remote e-voting or at the AGM. In case a Member votes by both the modes then the votes cast through remote e-voting shall prevail and the votes cast at the AGM shall be considered invalid.
- The remote e-voting period commences on Friday, September 26, 2025 (09:00 A.M. IST) and ends on Monday, September 29, 2025 (5:00 P.M. IST) (both days inclusive).
- **Shivam Grover & Associates, Company Secretaries**, have been appointed by the Board of Directors of the Company as Scrutinizer for scrutinizing the remote e-voting process as well as voting at the AGM, in a fair and transparent manner.

THE INTRUCTIONS FOR SHAREHOLDRES FOR REMOTE E-VOTING ARE AS UNDER:

- (i) The e-voting period begins on 26th September, 2024 and ends on 29th September, 2024. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of 23rd September, 2024 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide

remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and e-mail Id in their demat accounts in order to access e-Voting facility.
