7. Borrowing by way of Debt Securities

To consider and, if thought fit, to pass the following as a Special Resolution:

“RESOLVED that pursuant to the provisions of sections 42 and 71 of the Companies Act, 2013 (the Act) read with the Companies (Prospectus and Allotment of Securities) Rules, 2014 and all other applicable provisions of the Act and the Rules framed thereunder, as may be applicable, and other applicable Guidelines and Regulations issued by the Securities and Exchange Board of India or any other law for the time being in force [including any statutory modification(s) or amendment(s) thereto or re-enactment(s) thereof for the time being in force] and in terms of the Articles of Association of the Company, approval of the Members of the Company be accorded to authorize the Board of Directors of the Company (hereinafter referred to as ‘the Board’ which term shall be deemed to include any Committee thereof) to borrow from time to time, by way of securities including but not limited to secured/unsecured redeemable Non-Convertible Debentures to be issued under Private Placement basis, in Domestic and/or International market, in one or more series/tranches aggregating up to an amount not exceeding Rs. 5,000 crores (Rupees Five Thousand Crores only), issuable/redeemable

at discount/par/premium, during the period of 1 (one) year from the date of this Annual General Meeting, on such terms and conditions as the Board may, from time to time, determine and consider proper and most beneficial to the Company including as to when the said securities be issued, the consideration for the issue, utilisation of the issue proceeds and all matters connected with or incidental thereto; provided that the said borrowing shall be within the overall borrowing limits of the Company.

FURTHER RESOLVED that approval of the Company be accorded to the Board of Directors of the Company (including any Committee thereof) to do all such acts, deeds, matters and things and to take all such steps as may be required in this connection including seeking all necessary approvals to give effect to this Resolution and to settle any questions, difficulties or doubts that may arise in this regard.”

Notes:

- A. The Explanatory Statement as required under section 102 of the Companies Act, 2013 is annexed hereto. Further, additional information with respect to Item No. 3 is also annexed hereto.

Messrs B S R & Co. LLP, Chartered Accountants, were appointed as Statutory Auditors of the Company at the 71st Annual General Meeting held on 4th August, 2017. Pursuant to Notification issued by the Ministry of Corporate Affairs on 7th May, 2018 amending section 139 of the Companies Act, 2013 and the Rules framed thereunder, the mandatory requirement for ratification of appointment of Auditors by the Members at every Annual General Meeting (“AGM”) has been omitted, and hence the Company is not proposing an item on ratification of appointment of Auditors at this AGM.

- B. **A MEMBER ENTITLED TO ATTEND AND VOTE AT THE MEETING IS ENTITLED TO APPOINT A PROXY TO ATTEND AND VOTE INSTEAD OF HIMSELF AND A PROXY NEED NOT BE A MEMBER.**

- C. The instrument appointing a proxy must be deposited, either in person or through post, with the Company at its Registered Office not less than 48 hours before the time for holding the Meeting. Corporate members intending to send their authorized representative(s) to attend the Meeting are requested to send to the Company a certified true copy of the relevant Board Resolution together with the specimen signature(s) of the representative(s) authorised under the said Board Resolution to attend and vote on their behalf at the Meeting.
- D. A person can act as a proxy on behalf of Members not exceeding fifty and holding in the aggregate not more than ten percent of the total share capital of the Company carrying voting rights. A Member holding more than ten percent of the total share capital of the Company carrying voting rights may appoint a single person as proxy and such person shall not act as a proxy for any other Member. Proxies submitted on behalf of limited companies, societies, etc., must be supported by an appropriate resolution/authority as applicable. The Proxy-holder shall prove his identity at the time of attending the Meeting.
- E. The Company's Registrar and Transfer Agents for its Share Registry Work (Physical and Electronic) are Karvy Computershare Private Limited (Karvy) having their office at Karvy Selenium Tower B, Plot number 31-32, Gachibowli, Financial District, Nanakramguda, Hyderabad, Telangana – 500032.
- F. The Register of Members and Transfer Books of the Company will be closed from Saturday, 14th July, 2018 to Tuesday, 7th August, 2018 (both days inclusive).
- G. The dividend, if declared at the Annual General Meeting, would be paid after 7th August, 2018 to those persons or their mandates:
- (a) whose names appear as Beneficial Owners as at the end of the business hours on Friday, 13th July, 2018 in the list of Beneficial Owners to be furnished by National Securities Depository Limited and Central Depository Services (India) Limited in respect of the shares held in electronic form; and
- (b) whose names appear as Members in the Register of Members of the Company after giving effect to valid share transfers in physical form lodged with the Company/its Registrar and Transfer Agents on or before Friday, 13th July, 2018.
- H. Under the Companies Act, 2013 dividends that are unclaimed/unpaid for a period of seven years are required to be transferred to the Investor Education and Protection Fund (IEPF) administered by the Central Government. An amount of Rs. 1,68,80,587 being unclaimed/unpaid dividend of the Company for the financial year ended 31st March, 2010 was transferred in September, 2017 to IEPF. | 31 st March, 2017 | 4 th August, 2017 | 2 nd September, 2024 |

Members who have not encashed the dividend warrants so far in respect of the aforesaid periods, are requested to make their claim to Karvy well in advance of the above due dates. Pursuant to the provisions of Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 (IEPF Rules), the Company has uploaded the details of unpaid and unclaimed amounts lying with the Company as on 4th August, 2017 (date of last Annual General Meeting) on the website of the Company (www.mahindra.com) as also on the website of the Ministry of Corporate Affairs.

Further, pursuant to the provisions of section 124 of the Companies Act, 2013 read with IEPF Rules, all shares on which dividend has not been paid or claimed for seven consecutive years or more shall be transferred to IEPF Authority as notified by the Ministry of Corporate Affairs.

In accordance with the aforesaid IEPF Rules, the Company has sent notice to all the Shareholders whose shares are due for transfer to the IEPF Authority and has also published notice in newspapers. The shareholders whose dividend/shares is/will be transferred to the IEPF Authority can claim the same from the IEPF Authority by following the procedure as detailed on the website of IEPF Authority <http://iepf.gov.in/IEPFA/refund.html>.

- I. Members can avail of the facility of nomination in respect of shares held by them in physical form pursuant to the provisions of section 72 of the Companies Act, 2013. Members desiring to avail of this facility may send their nomination in the prescribed Form No. SH-13 duly filled in to Karvy at the above mentioned address. Members holding shares in electronic form may contact their respective Depository Participants for availing this facility.
- J. The Securities and Exchange Board of India (SEBI) has made it mandatory for all companies to use the bank account details furnished by the Depositories and the bank account details maintained by the Registrar and Transfer Agents for payment of dividend to Members electronically. The Company has extended the facility of electronic credit of dividend directly to the respective bank accounts of the Member(s) through the Electronic Clearing Service (ECS)/National Electronic Clearing Service (NECS)/Real Time Gross Settlement (RTGS)/Direct Credit, etc.

As directed by SEBI, the Members holding shares in physical form are requested to submit particulars of their bank account alongwith the original cancelled cheque bearing the name of the Member to Karvy/Company to update their Bank Account details.

Members holding shares in demat form are requested to update their Bank Account details with their respective Depository Participant. The Company or Karvy cannot act on any request received directly from the Members holding shares in demat form for any change of bank particulars. Such changes are to be intimated only to the Depository Participants of the Members. Further, instructions, if any, already given

by them in respect of shares held in physical form will not be automatically applicable to shares held in the electronic mode.

- K. SEBI has decided that securities of listed companies can be transferred only in dematerialised form from a cut-off date, to be notified. In view of the above and to avail various benefits of dematerialisation, Members are advised to dematerialise the shares held by them in physical form.
- L. Pursuant to sections 101 and 136 of the Companies Act, 2013 read with the Rules framed thereunder, the Notice calling the Annual General Meeting along with the Annual Report 2017-18 would be sent by electronic mode to those Members whose e-mail addresses are registered with the Depository or the Company/Karvy, unless the Members have requested for a physical copy of the same. For Members who have not registered their e-mail addresses, physical copies would be sent by the permitted mode.

Members are requested to support this Green Initiative by registering/updating their e-mail addresses with the Depository Participant (in case of Shares held in dematerialised form) or with Karvy (in case of Shares held in physical form).

- M. Members are requested to:
- (a) intimate to Karvy, changes, if any, in their registered addresses at an early date, in case of Shares held in physical form;
 - (b) intimate to the respective Depository Participant, changes, if any, in their registered addresses at an early date, in case of Shares held in dematerialized form;

The new password shall comprise of minimum 8 characters with at least one upper case (A-Z), one lower case (a-z), one numeric value (0-9) and a special character (@,#,\$, etc.). The system will prompt you to change your password and update your contact details like mobile number, email ID etc. on first login. You may also enter a secret question and answer of your choice to retrieve your password in case you forget it. It is strongly recommended that you do not share your password with any other person and that you take utmost care to keep your password confidential.
- (v) You need to login again with the new credentials.
- (vi) On successful login, the system will prompt you to select the "EVENT" i.e. Mahindra & Mahindra Limited.
- (vii) On the voting page, enter the number of shares (which represents the number of votes) as on the cut-off Date under "FOR/AGAINST" or alternatively, you may partially enter any number in "FOR" and partially "AGAINST" but the total number in "FOR/AGAINST" taken together shall not exceed your total shareholding as on the cut-off date. You may also choose the option ABSTAIN. If the Member does not indicate either "FOR" or "AGAINST" it will be treated as "ABSTAIN" and the shares held will not be counted under either head.
- (viii) Voting has to be done for each item of the notice separately. In case you do not

desire to cast your vote on any specific item, it will be treated as abstained.

- (ix) Members holding multiple folios/demat accounts shall choose the voting process separately for each folio/demat accounts.
- (x) You may then cast your vote by selecting an appropriate option and click on "Submit".
- (xi) A confirmation box will be displayed. Click "OK" to confirm else "CANCEL" to modify. Once you have voted on the resolution(s), you will not be allowed to modify your vote.
- (xii) Corporate/Institutional Members (i.e. other than Individuals, HUF, NRI, etc.) are required to send scanned certified true copy (PDF Format) of the Board Resolution/Authority Letter etc., together with attested specimen signature(s) of the duly authorized representative(s), to the Scrutinizer at e-mail ID sbhagwatcs@yahoo.co.in with a copy marked to evoting@karvy.com. The scanned image of the above mentioned documents should be in the naming format "**Corporate Name_EVEN**".

If the authorised representative intends to vote through remote e-voting, the certified true copy (PDF Format) of the Board Resolution/Authority Letter etc., together with attested specimen signature(s) of the duly authorised representative(s) should reach the Scrutinizer not later than Monday, 6th August, 2018 (5:00 p.m. IST). In case if the authorised representative attends the meeting in person, the above mentioned documents shall be submitted before the commencement of AGM.

- B. In case a Member receives physical copy of the Notice of AGM [for Members whose e-mail IDs are not registered with the Company/ Depository Participant(s)]:

- (i) EVEN, User ID and Initial Password is provided in the Attendance Slip.

- (ii) Please follow all steps from Sl. No. (i) to (xii) above to cast your vote by electronic means.

III. OTHER INSTRUCTIONS:

- a. In case of any query and/or grievance, in respect of voting by electronic means, Members may refer to the Help & Frequently Asked Questions (FAQs) and E-voting user manual available at the download Section of <https://evoting.karvy.com> (Karvy Website) or contact at investors@mahindra.com, or Mr. Prem Kumar M., Manager, Karvy at Karvy Selenium, Tower B, Plot No. 31 & 32, Gachibowli, Financial District, Nanakramguda, Hyderabad, Telangana – 500 032 or at the email ID evoting@karvy.com or on phone No.: 040-6716 1500 or call Karvy's toll free No.: 1800-3454-001 for any further clarifications.

Additional Information with respect to Item No. 3

Mr. Anand G. Mahindra (DIN: 00004695), the Executive Chairman of the Company is liable to retire by rotation and being eligible, has offered himself for re-appointment.

Mr. Mahindra has completed 63 years of age. Mr. Mahindra graduated with Honours (Magna cum laude) from Harvard College, Cambridge, Massachusetts, in 1977. In 1981, he secured an MBA degree from the Harvard Business School, Boston, Massachusetts. He returned to India that year and joined erstwhile Mahindra Ugine Steel Company Limited (MUSCO), as Executive Assistant to the Finance Director. MUSCO was, at that time, the country's foremost producer of specialty steels. In 1989, he was appointed Deputy Managing Director and President of MUSCO. During his stint at MUSCO, he initiated the Mahindra Group's diversification into the new business areas of real estate development and hospitality management.

Mr. Mahindra was first appointed as a Director on the Board of the Company on 23rd November, 1989. He then took over as Deputy Managing Director of the Company in 1991 at a time when the turnover was US\$ 177 million. He initiated a comprehensive change programme in the Company to make it an efficient and aggressive competitor in the new liberalized economic environment in India.

In April 1997, he was appointed as Managing Director of the Company and in January, 2001 given the additional responsibility of Vice Chairman. In August 2012, he was appointed as Chairman and designated as Chairman & Managing Director of the Company. In November, 2016, Mr. Mahindra was re-designated as the Executive Chairman of the Company which was also approved by the shareholders at the 71st Annual General Meeting (AGM) of the Company held on 4th August, 2017.

The image that best symbolizes the Mahindra Group is that of a Banyan tree. The Banyan tree has a strong trunk that initially grows and spreads. The tree then sends down aerial roots that grow into the ground. For a while these roots are nourished by the main trunk – but then they start their own cycle of growth and become trunks themselves. And these new trunks start nourishing other aerial roots of their own, that ultimately grow into more trunks and so on... a thousand years later, if you ask which was the original trunk, you may not be able to tell.

That is how it is with the Mahindra Group. Initially, there was one central trunk – Mahindra and Mahindra. Over time, that trunk has sent out aerial roots and nurtured them. These new roots found themselves fertile soil, and with the right business model, the right customer acceptance and the right leadership, they have grown into new businesses and have become trunks themselves. And they grow more businesses. The perfect example is Mahindra Finance, which was initially nurtured by M&M and over the years, has grown newer businesses like Mahindra Rural Housing and Mahindra Insurance Brokers. In this way, just like the Banyan tree, the Group grows both horizontally and vertically. And the tree keeps growing and spreading.

The Banyan tree has the ability to ultimately morph into a forest where all the trunks have a symbiotic relationship with each other and are also connected by common branches and bonds. That is the way I see the Mahindra Federation evolving over time. And that is the way we create value. ”

Executive Chairman

Mahindra today is a truly global company with a network of manufacturing and R&D facilities spread across the globe.

We are committed to ethical values, sustainable business practices, and to driving positive change wherever we operate.

Above all, we are committed to creating shared value for our stakeholders, our communities and for ourselves.

One of the major ways we create value is by judiciously and intelligently leveraging the multiple types of capital available to us – not just Financial Capital, but also Manufactured Capital, Intellectual Capital, Human Capital, Social & Relationship Capital and Natural Capital.

The next few pages will show you how.

Announcement

We started with Integrated Reporting last year in line with our commitment towards transparency and the highest standards of corporate governance. This year, we are including key elements of Integrated Report (IR) with the Annual Report to present our shareholders with a broader, more holistic view of how we create and sustain value over the long-term. It is also in alignment with the framework of the International Integrated Reporting Council (IIRC), as well as SEBI's circular dated 6th February, 2016.

An Integrated Report takes corporate reporting beyond just discussing the financial resources, as any value creation activity requires other resources like people, natural resources and business relationships. This report will discuss how Mahindra & Mahindra Ltd. creates value using interlinkages between multiple types of capital. Where necessary, we have explained the concept by using charts and infographics.

Some IR related data might be management estimates and could be updated in subsequent publications like the Mahindra Sustainability Report.

How to Read This Report

Integrated Report (IR)

Businesses exist to create value for their diverse stakeholders. Today, businesses depend on more than just financial capital or plant and machinery to create this value. Employees and the environment are important, as is governance and the relationship with vendors, suppliers and with the community in which businesses operate and with society at large. A business's ability to sustain value over the long-term depends on how it manages, utilises and integrates all these tangible and intangible resources.

Integrated Reporting takes a broader view, covering not only the financial capital, but other capitals like Manufactured Capital, Intellectual Capital, Human Capital, Social & Relationship Capital and Natural Capital, collectively called Multiple types of capital. It also demonstrates the interlinkages between each capital with an easy to understand diagram showing capital-wise inputs, outputs and outcomes, measured by KPIs.

This Integrated Report then goes on to explain how the business sustains value using a robust governance framework comprising of Strategy, Risks and Opportunities, Stakeholder Engagements, Performance Reviews and Outlook.

The detailed Statutory Statements and Financial Reports are also part of this document and are in line with the requirements of the Companies Act, 2013 (including the rules made thereunder), Indian Accounting Standards, the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the applicable Secretarial Standards.

Scope of the Report

The reporting period of Mahindra & Mahindra Ltd for this Integrated Report is 1st April, 2017 to 31st March, 2018. It provides an overview of the operations and business development activities of the Company. We have adopted the International Integrated Reporting Council's (IIRC) Framework

for this report. This Integrated Report is also aligned to the nine principles of the Ministry of Corporate Affairs' National Voluntary Guidelines (NVG) on the social, environmental and economic responsibilities of business.

The scope of this Integrated Report is restricted to the domestic business of Mahindra & Mahindra Limited and Mahindra Vehicle Manufacturers Limited, consisting of the Automotive Sector, Farm Equipment Sector, Spares Business Unit, Mahindra Research Valley, Two-Wheeler Division, Construction Equipment Division and Powertrain Business Division. We have shown data related to other group businesses and companies, wherever required, only to provide a holistic view of the Company's performance and presence. Also, we have presented all the financials in the Integrated Report on the basis of the combined results of Mahindra & Mahindra Limited and Mahindra Vehicle Manufacturers Limited.

Overview of Multiple Types of Capital

Every business creates value by deploying, using and transforming various resources. These resources are also referred to as capitals in Integrated Reporting, and are broadly segregated as under:

Financial Capital

Financial capital is the conventional and traditional capital used to create, measure and report an organisation's business. It comprises the pool of funds available to the organisation through financing (debt, equity), operations and investments. Financial capital is used to create value through its transformation into other forms of capital like machinery (manufactured capital), people (human capital), know-how (intellectual capital) and energy (natural capital).

Intellectual Capital

Intellectual capital refers to the intangible resources that are critical to the value creation process. It includes brands, reputation, patents, copyrights, intellectual property as well as design, R&D and innovation capabilities.

Social & Relationship Capital

Social & Relationship capital refers to an organisation's relationship with all its stakeholders, internal and external, as well as direct and indirect. This includes its relationship with customers, vendors, suppliers, associates, alliances, dealers, sales network, government, regulatory authorities, communities and society.

Manufactured Capital

Manufactured Capital includes all the physical infrastructure including plant, buildings, machinery, equipment, tools and technology. It also includes infrastructure owned by third-parties like warehouses and logistics facilities. Manufactured capital is for the production or manufacture of products (in case of a manufacturing business) or services (in case of a non-manufacturing business).

Human Capital

The combined know-how, skill, effort and experience of the workforce of an organisation forms its human capital. The continuous success of any organisation depends on how well an organisation manages and motivates its people, as well as how it grooms talent and the leadership team.

Natural Capital

Natural capital constitutes renewable and non-renewable natural resources like land, water, air, fossil fuels and solar energy. Every organisation utilises natural capital in some form or the other. In businesses like mining and agriculture, for example, natural capital is one of the most critical capital's required for the process of value creation.

Each of these multiple types of capital form inputs that goes into the business model and are transformed through principal activities into outputs – the direct products or services manufactured or developed by organisations.

Yearly Performance M&M and MVML Snapshot

F18 was a good year for M&M with all-around performance, from both the Auto and Farm Equipment businesses. Normal monsoon, revival in rural demand, strong cost focus and a turnaround in the trucks business, ensured that along with top-line growth, the Company posted a strong growth in the bottom-line as well.

Manufactured Capital

Manufacturing world class farm equipment and automobiles is at the heart of what Mahindra & Mahindra does. Our manufactured capital comprising plants, machinery and equipment, as well as other physical infrastructure, enables us to produce tractors and vehicles that are innovative and offer tremendous value to our customers.

Our Plants

M&M's manufacturing plants are spread over 6 million sq.m at multiple locations across India. All our plants have been recertified under the ISO 14001: 2015 and OHSAS 18001:2007 standards and are in the process of adopting the revised environmental standard ISO 14001: 2015.

In addition we have several other manufacturing plants located across the globe. Our global footprint is shown in the Globalisation chapter later in this report.

As on 31st March, 2018, our property, plant and equipment (including capital work-in-progress) stood at ₹ 9,472 Cr. During the year, we incurred a capital expenditure of ₹ 2,857 Cr., where the major focus was on new product development and capacity enhancement.

Rise to Industry 4.0

Globally, manufacturing is moving toward a new paradigm- Industry 4.0 which incorporates next-gen technologies in automation, big data and the Industrial Internet of Things (IIoT). The I4.0 framework also includes cyber-physical systems, cutting edge analytics, cloud computing and cognitive computing. It focusses on the increasing use of information by machines to execute complex, hazardous tasks and comprises of devices that are instrumented, interconnected, inclusive and intelligent.

At Mahindra, we are making rapid strides to keep pace with these developments and are also among the first to adopt I4.0 in our manufacturing plants. Our journey into I4.0 is based on establishing key enablers which will aid automation and integration of shop-floor processes and machines. The modernisation of controllers with internet protocols will enable some of them to be available remotely for visualisation and optimisation through cutting-edge analytics.

At Mahindra, we are committed to making our systems more transparent and interoperable, backed by analytics, helping make these I4.0 tools into instruments for a sustainable competitive advantage. This will enable us to not only anticipate but also deal with the disruptive technologies that will embody the future of manufacturing in India.

Intellectual Capital

With new technologies like the Internet of Things, Artificial Intelligence, Automation, Big Data and Analytics, the world of tomorrow will be radically different from today. A business’s ability to continue delivering value in the future will depend on its ability to become future-ready by building the right intellectual capital through R&D, innovation, by sharpening the skills and knowledge of its people and developing a deeper understanding of its customers.

FUTURise

At Mahindra, we believe our intellectual capital will play an increasingly important role to FUTURise our growth, driven by innovation.

Innovation powers progress, drives positive change and that is why we are betting our future on it. Constantly changing the way we look at it. Mobility. Urbanization. Farm Mechanization. Information technology. By challenging ourselves to

**DO MORE

Mahindra’s Neural Network of Innovation

Mahindra Research Valley (MRV)

The MRV facility near Chennai, India is a state of the art research & development centre spread over 120 acres. This integrated R&D facility develops our future automotive and tractor products and enables Mahindra to deliver innovative and world-class products through the synergy of its people's skills & knowledge, combined with state-of-the-art infrastructure and equipment. MRV is the crucible of innovation and new technology development within Mahindra where our engineers collaborate with their colleagues at Mahindra's other R&D centres around the world to create path-breaking new innovations and technologies of the future.

Engine development

Mahindra has taken impressive strides in the development of BS VI emission norms compliant engines at optimum cost, keeping pace with the changing industry dynamics. The focus is not only on meeting the emission norms but enhancing the customer experience by developing engines which are lighter, more fuel efficient and increasingly refined in terms of their overall performance. As part of this future-ready approach, we have also developed petrol engines at our MRV facility. Our in-house development capacity is designed to straddle both diesel and petrol engines.

New product development

We are making continuous investments in technology development and patent acquisitions to enable us to develop and launch new products and sustain value-creation over the long-term.

- **MyAgriGuru** - Digital platform for farmers aimed at creating an integrated network in the agri-community
- **Trringo** - First-of-its-kind physical digital model allowing farmers to rent tractors and other mechanised farm equipment
- **NEMO** - The Next-gen Mobility platform of the future for seamless connections between people and transportation systems

Our peoples' commitment & dedication, their motivation and enthusiasm, experience and expertise form our most potent and powerful capital – our human capital. As we look to the future and aspire to FUTURise, that is to drive our growth through innovation and technology, we are confident that it is our people who will get us there.

Our Vision

Our goal is to be among the top 50 most admired global brands by 2021. To achieve this ambitious target we are building our human capital through practices and policies that nurture talent, foster stronger bonds and create future leaders across our businesses. Our two-tier HR approach, one at the Group level and the other at the Business level, enables us to align policies and undertake bespoke employee engagement initiatives throughout the Company.

The Mahindra Employee Value Proposition

At Mahindra, we do not transform people; they transform themselves as a result of the empowering work culture that we encourage across all our sectors and units. Our Employee Value Proposition of CAPable People - REAL Experience underpins effective human capital strategies that accelerate inclusive growth and drive the momentum towards collaborative success.

Enabling Transformation

Diversity & Inclusion

At Mahindra, diversity and inclusion is an organisational priority across every unit and department. As part of our goal to be among the top 50 most admired global brands by 2021, diversity and inclusiveness are embedded deep within the Mahindra culture. Every employee is treated

with respect and dignity, irrespective of gender, race, religion, ethnicity, or disabilities.

Understanding the significance of diversity, Mahindra formed the Group Diversity Council in November 2012.

Women at Work

Women feature prominently in our growth journey. We encourage more women in our workforce, particularly at the decision-making level. At Mahindra, our women-centric talent development initiatives ensure equal opportunities for women to progress in their careers. We have formulated

policies and undertaken several initiatives in this regard:

Women Leaders Programme - To reduce the gender gap and encourage more women at all levels (In association with the SP Jain Institute of Management & Research, Mumbai)

Second Career Internship & Full-time Employment Programmes - To help relaunch the careers of women planning to return to work after a break

Women Engineers & Technicians in Manufacturing - More than 100 women employees in manufacturing.

When we started our gender diversity journey, women constituted 16% of our total workforce. Today, there are 26% women at the entry level and 7% at the mid and senior leadership levels.

Employee Engagement

We regularly engage with our employees to keep them aligned with the organisation's growth strategy and their role in achieving it. We constantly work to create more growth and progression opportunities for employees.

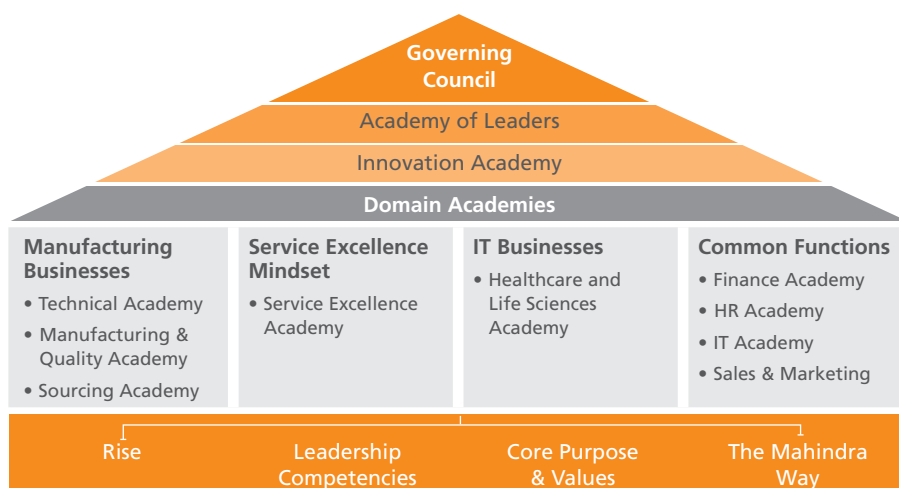

Mahindra Leadership University

The Mahindra Leadership University (MLU) is a strategic initiative to create admiration in the way we groom and develop talent. It has a strong governance mechanism and developmental framework consisting of a network of academies to create leaders with both leadership and domain capabilities with more than 16,59,620 man days of training in F18.

Some important flagship programs are -

- Future Leaders' Program (with IMD Lausanne and Yale, USA along with MLU)
- Mahindra Universe Program (in collaboration with Harvard University)
- Global Program for Management Development (with Ross School of Business University of Michigan)

The 3+5 Framework is integral to the Reflective Conversation Programs to foster culture and create explorations.

The 3+5 is a strategic tool to unleash human potential.

It consists of 3 Rise Pillars

And 5 RISE Leadership Characteristics

Whole New Mind: Combining the left brain of logic and rationality with the right brain of intuition & empathy for wholesome development

Multipliers and not Diminishers: Multipliers of passion, energy, commitment, engagement & a sense of ownership

Managing Fear and Leveraging Failure: Creating a culture where people take risks, do rapid prototyping, fail fast & create feedback loops that learn from failure

Mindfulness: Being here and now and open to all possibilities

Trust: Building Authenticity

Social & Relationship Capital

Sustaining and enduring relationships with all stakeholders is crucial for long-term value creation in any organization. Whether it is direct stakeholders like vendors, customers or employees, or indirect stakeholders like society, the community and government, a lasting relationship based on accountability, responsibility and trust is indispensable for sustaining long-term value creation.

At Mahindra, we are intensifying our efforts to realise a bright future not only for us, but also for the communities in which we operate. As we rise on the global stage, we aspire to uplift all sections of society through inclusive development and are fully committed to creating the maximum positive impact.

Social Capital

Our CSR initiatives aim to create a positive impact within communities through deeper engagements. We invested a total of ₹ 81.97 Cr. towards various social interventions in F18, with a focus on the constituencies of girl, youth & farmers in the domains of Education, Health & Environment.

Project Nanhi Kali

Nanhi Kali, a flagship CSR project supports the education of underprivileged girls in India. Currently, the project supports the education of 1,43,992 Nanhi Kalis across 4,900 centres, in 12 states.

With a 360-degree support to girls from grades 1 to 10, Nanhi Kali includes up to two hours of free after school remedial classes every day, a school supply kit with uniforms, shoes, note books, stationery, school bag and feminine hygiene items. Girls in secondary schools are provided access to digital tablets with preloaded smart educational content. The Nanhi Kali team takes active measures to sensitise parents and communities on the importance of educating girls and to become their collective guardians.

The largest donor is the Mahindra Group, which supports the education of 61,284 girls. Through the Nanhi Kali NSTAR Centres, additional 5,066 adolescent girls received training in 21st Century skills which include financial & computer literacy, spoken English, as well as health and nutritional awareness along with physical fitness. Of the 73 NSTAR Centres, 25 are supported by the Mahindra Group.

Mahindra Pride Schools (MPS)

The Mahindra Pride School is a one-of-a-kind 90 day livelihood training programme for youth from socially and economically disadvantaged communities. With a 100% placement record, the 9 schools in Pune, Patna, Chandigarh, Srinagar, Hyderabad, Varanasi and 3 in Chennai trained and placed 6,323 students in F18. Till date 26,674 students have been trained.

In F18, an additional 41,687 students were trained through 955 Mahindra Pride Classrooms conducted through Polytechnics and Arts & Science Colleges in 9 States. The Mahindra Pride Classrooms provide 40-120 hours of training to final year students covering English Speaking, Life Skills, Aptitude, Interview, Group Discussion and Digital Literacy.

Lifeline Express

Lifeline Express - the world's first hospital on rails, provides free medical services to economically weaker sections in geographically remote territories. In F18, 7,641 people received medical and diagnostic services, through the Lifeline Express at Ratlam, Madhya Pradesh.

Project Hariyali

Mahindra Hariyali was launched in 2007 with the aim of adding 1 million trees to India's green cover every year. Since then, Mahindra Hariyali has become a movement with employees as well as other stakeholders like customers, vendors and dealers undertaking tree plantation drives across the country. In F18, over 1.5 million trees were planted under the project.

Integrated Watershed Management Program (IWMP)

This project is a Private Public Partnership (PPP) model with Government of Madhya Pradesh in Bhopal and at Hatta with National Bank for Agriculture and Rural Development (NABARD) for increasing the ground water table with the objective of increasing agricultural productivity and improving living standards. It has been implemented in 48 villages benefiting 35,265 people.

Saving Lives with Safer Roads

M&M is partnering with SaveLIFE Foundation and Maharashtra State Road Development Corporation Limited (MSRDC) for creating India's first Zero Fatality Corridor on the Mumbai Pune Expressway through interventions in 4Es i.e. Engineering, Enforcement, Education and Emergency Response.

EMPLOYEE SOCIAL OPTIONS (ESOPS)

Esops are volunteering opportunities implemented exclusively by Mahindra employees based on the needs of the local communities. Every year we have a consistent rise in employee participation. In F18, over 69,274 employee volunteers contributed 4,09,078 person-hours for various services.

Relationship Capital

Engaging with all our stakeholders to understand their concerns, needs and expectations is a dynamic process deeply integrated into our strategy and plans. The views and feedback from our suppliers, customers, employees and investors, are incorporated regularly into our policies and processes.

Stakeholder engagement mechanism

We keep evolving our engagement modules to be in sync with the changing times and develop platforms best suited to our stakeholders.

Every business needs to be cognizant and conscious of its use of natural resources, for there is only one planet earth. The use of natural resources like land, water, air, forests, metals, minerals, energy & biodiversity is inevitable for organisations and thus managing them prudently is not only a responsibility but also an obligation for all organisations.

At Mahindra, our approach to utilising natural capital is governed by the 3Cs – conservation, continuous improvement and comprehensive disclosures. Our resource management policy flows from a cohesive framework of well-structured processes and focussed interventions to rejuvenate the planet's natural assets.

Mr. Anand G. Mahindra issued a challenge at Davos 2018, exhorting corporations to come forward and adopt Science Based Targets in large numbers and reach 500 commitments by the Global Climate Action Summit in September 2018. Taking on emission and carbon footprint reduction targets as per the SBT framework is a testimony of Company's continuing efforts to combat climate change.

All our interventions are directed towards the KPIs, material to our business.

Reduction of Greenhouse Gases (GHG)

We constantly strive to reduce the risk of global warming through constructive contribution based on efficient measurement, control and mitigation of GHG emissions. We are continuously working to reduce greenhouse gas emissions to zero and then 'offsetting' an equivalent amount of any remaining emissions.

Key developments

- Mahindra's Carbon Pricing leadership story featured in World Bank Report
- Inaugurated on-site Solar power plant
- Set up Bio-CNG plants
- Increased adoption of Wind Power

In 2016, M&M became the first Indian company to announce its internal carbon price of \$10 per tonne of carbon emissions. The move was in-line with business commitment to reduce its GHG emissions by 25% over the next three years.

Conservation of Energy

At M&M, we have two-pronged approach to energy management. First, maximizing the output from each watt of energy consumed and second, increasing alternative energy in our total energy mix. All our interventions are focused on this approach. This year, our businesses together saved 84,207 GJ of energy.

In F17, we signed up 'EP100' campaign led by 'The Climate Group', to double our energy productivity by 2030. This is part of our contribution towards achieving the climate goals agreed upon at COP21. We are investing on solar power too. This year, we have installed 269 kWp Solar Power Plant at a tractor ware-house, which will cater to 27% of our power requirement in Jaipur plant.

Being Water Positive

We continuously aim at creating more water than we are actually using for a sustainable future through reduction, reuse and harvesting. In 2013-14, Mahindra Group achieved water positive status through our 360-degree water management programme – H2Infinity. We are in the process of making our plants self-sufficient in water, it being the most essential natural resource.

Key developments

- AD Igatpuri plant certified as a water positive plant
- Detailed risk mapping and audits at different plants
- LEED certification for efficiency right from design stage
- IGBC green building certification

Over the last two years, our total water consumption has come down by almost 1,34,696 m³.

Automotive Sector and Farm Equipment Sector recycled and reused 35% and 43% respectively of the total water consumed.

Reduction of Waste Generated

We are focusing on creating a restorative, zero-waste economic model in which resources are used to full capacity and natural systems are regenerated. We follow a zero-waste philosophy and manages waste at every stage - from prevention to minimisation, from reuse to recycling and from energy recovery and disposal. As part of this philosophy, five plants were certified as zero waste to landfill in April 2018.

AD - Igatpuri plant became the 1st plant in India to be Certified as Zero Waste to Landfill by Intertek, USA followed by AD – Haridwar, AD – Zaheerabad, Farm Division – Zaheerabad, and Swaraj Plant 1.

Key developments

- Paint sludge and cotton waste recycling
- Setup up Biogas Plant

Promotion of Biodiversity

M&M has been focusing on biodiversity and its sustainable use in its operations. Some of our interventions to conserve and rejuvenate biodiversity includes ascertaining value for natural capital, reporting on 10-point India Business & Biodiversity Initiative (IBBI) declaration, conduct biodiversity assessments, and partner World Leaders like IBBI, Terracon and IUCN on biodiversity.

Materiality

Material issues are those that impact M&M directly or indirectly in terms of our economic, social or environmental sustainability, and the value created or delivered to our stakeholders over short, medium or long-term. It's a compass that provides direction to our sustainability journey and also helps us establish our priorities.

We periodically evaluate our material issues to introspect as well as shape the future course of action across the triple bottom line – social, environmental and financial. We have also continually enhanced the breadth and depth of our analysis to sharpen our materiality identification process.

The first step in determining material issues is stakeholder identification, followed by the development of an engagement mechanism in order to communicate with them on a regular basis. The responses which we receive from our stakeholders during the engagement are filtered on the basis of their needs, demands and expectations. These issues are further rated by the level of importance, by us and our stakeholders.

Accordingly, we arrived at our materiality for the Automotive and Farm Equipment Sectors.

Over and above engaging to define materiality, we continue to interact with our stakeholders around the year, through a host of channels.

- The Company sold 2,33,915 Utility Vehicles, a rise of 5.1% compared to last year. The UV portfolio is being further strengthened with the development of new products and upgrades to the existing model line-up.
- Scorpio – the iconic UV brand, recorded its highest ever sales at 53,934 vehicles, a rise of 9.4% over the previous year
- Launch of New 'All Powerful' Scorpio in November 2017 with 140 bhp mHawk diesel engine and a new 6-speed transmission
- Launched Bolero Power+ with enhanced value proposition
- Bolero and Bolero Power+ combined sales at 85,386 units, a rise of 23.1% over the previous year
- KUV100 NXT launched with more refined and pleasurable driving experience

Commercial Vehicles

- In the LCV segment <3.5T, the Company continues to be #1 with a 47.4% market-share
- In LCV <2T, the launch of Jeeto and Supro mini-truck helped increase market-share to 25%
- In the Pik-UP sub-segment, the Company has a market-share of 61.9%
- In January 2018, the Company launched an unprecedented buy-back after four years and maintenance guarantee for two years on the Bolero Pik-UP range
- In the HCV segment, the Company sold 9,484 vehicles, a rise of 41.2% compared to last year
- The Company was ranked #1 in the JD Power India Sales Satisfaction Index (Mass Market) StudySM

Overseas Operations

- Exports for the year decreased by 24.2% to 28,222 vehicles. This was largely on account of the adverse business and regulatory environment in the key markets of Nepal and Sri Lanka. However, the Company continued its efforts to grow its presence and strengthen the brand in key international markets.
- New CKD facility was inaugurated in Bangladesh
 - Mahindra Automotive North America (MANA), a subsidiary, launched ROXOR – a new off-road vehicle in the powersports segment, in the USA.

F18

2,48,594

F17

F18 was a record-breaking year for the Farm Equipment Sector with domestic sales of 3,02,082 tractors under the Mahindra and Swaraj brands – a rise of 21.5% over last year. The Company achieved its highest ever market-share of 42.9% and maintained its leadership in the domestic tractor market for the 35th consecutive year.

Some key developments during the year were :

Tractors

- Launch of Trakstar – the third tractor brand after Mahindra and Swaraj
- Technology leadership with launches of new product trio under Mahindra brand – NUVO, YUVO and JIVO
- In the higher HP segment, Swaraj 963 and Mahindra Novo 65 and 75 tractors launched
- First time Driverless Technology developed and demonstrated in India – a pioneering step towards revolutionising farming in India

Farm Mechanisation

- AppliTrac continues good growth with increased volumes of cultivators, rotavators and harvesters
- Forayed into sprayer business through investment in M.I.T.R.A. Agro Equipments Private Limited

Global Footprint

- Highest ever export of 15,449 tractors (including 298 CKD)
- Mahindra USA Inc, a subsidiary, sold 22,636 tractors -a record high
- CKD facility started in Mexico
- CKD facility in Brazil completes one year of operation

Risks and Opportunities

Monitoring, managing and mitigating risks is an integral part of the strategy of any organisation, as is the identification and leveraging of new opportunities in the business, industry and operating contexts.

At Mahindra, we constantly scan our operating as well as strategic horizons using a well-defined Risk Management Framework (RMF). This RMF is complemented by a framework of processes at various levels across the organisation, guided by the Risk Management Policy that is approved by the Board of Directors. Risk management as a function is independent of businesses with the

Chief Risk Officer (CRO), a part of the Group Strategy Office, being responsible for identifying and assessing corporate and asset level risks.

In addition to transactional risks, Climate Change Risk and Opportunity is emerging as a key issue across global organisations. This year, we continued with the structured

process under the TEMPLES framework (Technology-Economic-Media-Political-Legal-Environment-Societal) to identify risks and opportunities. This was led by our Chief Risk Officer and Chief Sustainability Officer.

The other short, medium and long-term risks, we believe could affect the value-creation in our businesses are:

| Risk | Description and Analysis | Countermeasures |
|--|--|--|
| Competitive Intensity | <ul style="list-style-type: none"> The Utility Vehicle market is witnessing intense competition. 21 new models were launched in the last 3 years, accounting for 55% of total UV sales. Increased competition in the form of new launches in the <3.5T (Small and Light Commercial Vehicles) segment, as well as in Medium and Heavy Commercial Vehicles from both domestic and global OEMs. The tractor market is also witnessing intense competition with each OEM trying to gain market share. | <ul style="list-style-type: none"> The Company is working to strengthen its UV portfolio through the launch of new products and refreshed variants. It has a strong product pipeline for rollout in the near future. Continuous investment in new product development, technology upgrades and increasing its distribution network. Focus on customer-centricity, enhancing the brand image and deepening relationships. Delivering a higher value proposition through cost-competitiveness. Offering a complete range of Farming Solutions to boost Farm Productivity. |
| Tax regulations | <ul style="list-style-type: none"> The higher tax rate on large UVs impacting the growth of the traditional large UV segment. | <ul style="list-style-type: none"> The Company is widening its product portfolio to include Compact UVs in its range. |
| Choice of Fuel and Emission Norms | <ul style="list-style-type: none"> Higher taxation on diesel vehicles is affecting their sales, which have declined from 58% of total sales in F13 to 40% in F18. New BS-VI emission norms come into effect from 1st April 2020. This will involve significant cost differentials for both Petrol and Diesel vehicles, with the pricing pressure on diesel vehicles expected to be higher. The likely introduction of new emission norms (TREM IV) for Tractors will call for additional investments by OEMs, increasing the material costs for tractors. | <ul style="list-style-type: none"> The Company is in the process of developing and introducing petrol engines across most of its products and segments. It is also working toward building cost effective BS-VI compliant solutions for its diesel engine portfolio. The Farm Equipment Sector is working toward developing innovative solutions to keep the cost increase for tractors to a minimum. |

| Risk | Description and Analysis | Countermeasures |
|-------------------------------------|---|--|
| New Safety Regulations | <ul style="list-style-type: none"> Bharat New Vehicles Safety Assessment Programme (BNVSAP) to be applicable from F19 for new vehicles and F20 for existing vehicles; this will impact the cost of vehicles. | <ul style="list-style-type: none"> The Company is geared up to meet the new BNVSAP safety norms and is confident of meeting them on time. |
| Dependence on Monsoon | <ul style="list-style-type: none"> A normal monsoon is important for both agriculture, as well as the rural economy and sentiment at large. The tractor business and automotive business to some degree run a risk of demand, in case of a significant variation in the monsoon. | <ul style="list-style-type: none"> The forecast from weather tracking agencies indicate a normal monsoon, largely mitigating this risk. |
| Increase in Commodity Prices | <ul style="list-style-type: none"> A sharp rise in commodity prices, particularly in the second half of F18 impacted the prices of castings, forgings and sheet metal. This is likely to continue in the current year as well. | <ul style="list-style-type: none"> The Company continues to mitigate this risk through cost re-engineering and value engineering activities. |
| Capacity Constraint | <ul style="list-style-type: none"> With the likely growth in demand, any disruption in production capacity or supplies, either in its own plants, or in supplier plants, would affect the performance of the Company adversely. | <ul style="list-style-type: none"> The Company has adequate capacity for the next few years. Even if demand grows beyond the budgeted level, the Company has enough capacity to take care of the additional market growth. Mahindra is also working with its suppliers through capacity planning and long-term contracts. The opportunities for global sourcing are also being explored. |

Opportunities

Automotive Sector

The Indian auto industry is expected to continue with its growth momentum of F18 when all segments, Passenger Vehicles (PV), Commercial Vehicles (CV), Three Wheelers (3W) and Two Wheelers (2W) reported their highest-ever sales. Excluding 2-Wheelers, the industry grew at 11.9% over the previous year, registering double-digit growth for the first time in seven years.

The Electric Vehicles (EV) segment is also expected to grow as both state and central governments are focusing on this environment friendly form of mobility. Advancing technologies globally are making EVs an increasingly viable alternative, particularly in urban areas.

Farm Equipment Sector

The Government's plan to double farmer income by 2022 is expected to open many new opportunities for Mahindra's Farm Equipment Sector. With the Government's strong focus on improving farm productivity and the adoption of better agricultural practices, the sector is poised for sustained growth. With a normal monsoon forecast by major global weather forecasting agencies, the Farm Equipment Sector is ideally positioned for the near and mid-term.

Strategic Overview

The business landscape is changing very rapidly and so are the enablers for success. Looking at the future, the right product at the right cost, sold through an efficient distribution network will be essential, but not sufficient. Much more will be needed to win in the marketplace. At Mahindra, we are well aware of this reality, and hence have already started the shift from just offering products, to providing solutions, and delivering experiences to our customers, with the product itself becoming an enabler.

Automotive Sector

With the objective of sustaining growth, the Company is pursuing several strategic initiatives in all key areas of its business, including the following-

- Strengthening the product portfolio with new launches
- Refreshing and updating existing products
- Strengthening Research and Development (R&D)
 - o Gasoline Engines
 - o Emission Norms
 - o Safety Norms
 - o Connected Vehicles
 - o Electric Vehicles
- Pursuing expansion in key global markets

Passenger Vehicles

- Launching new products to offer customers a complete range of UVs
- Developing gasoline engine options for most of its passenger vehicles by 2020
- Getting ready for BS-VI emission norms for its gasoline and diesel engine products
- Expanding the sales and service network

Small Commercial Vehicles

- Maintaining market dominance through an attractive customer value proposition
- Leveraging the network and focusing on technology leadership
- Smart, Connected and Electric commercial vehicles

Medium and Heavy Commercial Vehicles

- More service corridors & Parts Plazas
- Aggressive network expansion and market coverage
- Launching products in the ICV range to further strengthen the commercial vehicle portfolio.

Electric Vehicle

- Providing a diversified product portfolio from Mass Mobility to Objects of Desire – 3-wheelers, cars, commercial vehicles, buses, high-end luxury cars
- Maintaining a pioneering and leadership position by investments in technology with global partnerships
- Developing the EV ecosystem through partnerships with the government, shared mobility players and other key stakeholders.

Farm Equipment Sector

The Farm Equipment Sector's strategy is focused on delivering 'Farm Prosperity' to farmers. The strategy looks at farming from a holistic point of view, with the intent to catalyze the next revolution in farming enabled by new technology. For this, the Company will continually strive to deliver farming expertise and technologically superior – crop specific mechanization solutions.

With the objective of being a global farm machinery player, the Company has made strategic acquisitions and built a farm machinery portfolio for global markets.

Tractor

- Strengthening our domestic market leadership position with a 3-brand strategy
 - o Mahindra – Pioneering Technology
 - o Swaraj – Reliable, Powerful, Authentic
 - o Trakstar – Affordable Mechanisation
- Deepening the reach of our dealer network

- Increasing global presence in tractors through owned and acquired brands

Farm Machinery

- Developing a strong portfolio of Farm Machinery products for both the domestic and global markets
- Leveraging synergy between acquired businesses, operating from different geographies
- Focusing on profitable growth for the Farm Machinery portfolio

Globalisation

We have always been global. Since our beginning in 1945, we have been connected with the world through partnerships, growing presence in multiple geographies, a diverse and multinational workforce, and the boundless ambition to integrate ourselves with global communities.

In the year gone by, global growth and trade rebounded sharply and remained the story of the year. Such broad based and strong growth has not been seen since the world's initial sharp 2010 bounce back, from the financial crisis of 2008–09. In the United States, fiscal policy even turned much more expansive as the Fed continued on its path of interest rate normalisation. Other large Central Banks however, continued

with their accommodative monetary stance. Global commodity prices, including crude oil, rallied significantly during the year.

On the domestic side, economic activity which flagged for five consecutive quarters, began to recover as several elements started coming together to nurture this nascent acceleration. This started manifesting in estimates and high frequency as well as survey-based indicators. A normal monsoon, record foodgrains output, strong sales growth by Corporations, depleting finished goods inventories and resilience in several services sectors raised the prospects of sustained economic recovery.

However, even amidst this scenario, your Company recorded an increase of 4.4% in revenue from operations at Rs. 49,445 crores in the year under review as against Rs. 47,384 crores in the previous year.

The Profit for the year before Depreciation, Finance Costs, Exceptional items and Taxation recorded an increase of 23.9% at Rs. 7,259 crores as against Rs. 5,861 crores in the previous year. Profit after tax increased by 19.6% at Rs. 4,356 crores as against Rs. 3,643 crores in the previous year.

Your Company continues with its rigorous cost restructuring exercises and efficiency improvements which have resulted in significant savings through continued focus on cost controls, process efficiencies and product innovations that exceed customer expectations in all areas thereby enabling the Company to maintain profitable growth in the current economic scenario.

No material changes and commitments have occurred after the closure of the Financial Year 2017-18 till the date of this Report, which would affect the financial position of your Company. There has been no change in the nature of business of your Company.

Performance Review

Automotive Sector:

Your Company's Automotive Sector recorded total sales of 5,48,508 vehicles (4,90,870 four-wheelers and 57,638 three-wheelers) as against a total of 5,06,624 vehicles (4,52,893

four-wheelers and 53,731 three-wheelers) in the previous year, registering a growth of 8.3%.

In the domestic market, your Company sold a total of 5,20,286 vehicles as compared to 4,69,384 vehicles in the previous year, resulting in a growth of 10.8%.

In the Passenger Vehicle segment, your Company sold 2,48,859 vehicles [including 2,33,915 Utility Vehicles (UVs), 14,219 Vans and 725 Cars] registering a growth of 5.4%, as compared to the previous year's volume of 2,36,130 vehicles [including 2,22,541 UVs, 10,370 Vans and 3,219 Cars].

In the Commercial Vehicle segment, your Company sold 2,16,802 vehicles [including 41,305 vehicles <2T GVW, 1,58,269 vehicles between 2-3.5T GVW, 7,744 LCVs in the LCV > 3.5T segment and 9,484 Heavy Commercial Vehicles (HCVs)] registering a growth of 19.8% over the previous year's volume of 1,80,948 commercial vehicles [including 30,043 vehicles < 2T GVW, 1,36,564 vehicles between 2-3.5T GVW, 7,626 LCVs in the LCV > 3.5T segment and 6,715 HCVs].

In the Three-Wheeler segment, your Company sold 54,625 three wheelers, registering a growth of 4.4% over the previous year's volume of 52,306 three wheelers.

For the year under review, the Indian automotive industry (except 2W) grew 11.9%, with the Passenger Vehicle (PV) industry growth of 7.9% and Commercial Vehicle (CV) industry growth of 19.9%. Three industry sub-segments where your Company has an active presence, posted very robust growth. These are Utility Vehicles (UV) which grew 21%, LCV Goods < 3.5T at 29.8% and MHCV Goods at 19.4%.

Your Company's UV volume grew 5.1% to 2,33,915 units. The UV market share for your Company stood at 25.4% as against 29.2% in the previous year. Scorpio continues to strengthen its iconic status and recorded the highest ever sales with a volume of 53,934 units in Financial Year 2018. Bolero has been a very successful brand for your Company over the last 10 years, and for the year under review, Bolero along with the all New Bolero Power+, posted combined sales of 85,386 units. Your Company strengthened the UV portfolio with the launch of the 'KUV100 NXT' in October, 2017, the 'All Powerful Scorpio' in November, 2017 and the 'Plush New XUV500' in April, 2018.

Your Company is the pioneer for Electric Vehicles (EVs) in India, and for the year under review, sold [along with its subsidiary Mahindra Electric Mobility Limited] 4,026 EVs (1,094 four wheelers and 2,932 three wheelers) as against 1,021 EVs in the

previous year. This growth is supported by the Government's thrust on adopting EVs and your Company's efforts of working with various stakeholders, especially fleet operators.

In the LCV<3.5T segment, your Company retained the No. 1 position with a 47.4% market share. Your Company sold a total of 1,99,544 vehicles in this segment, which is a growth of 19.8% over the previous year. The LCV<3.5T segment has two sub segments viz. LCV<2T and LCV 2-3.5T, which is the Pik-UP segment. Your Company has a market share of 25% and 61.9% in the two sub segments respectively.

In the HCV segment, your Company sold 9,484 trucks as against 6,715 trucks in the previous year. This is a growth of 41.2%. The growth is driven by good product performance, improved service reach and spares availability. The Blazo series of trucks which are backed by guarantees on mileage and service are instrumental in building brand and growing sales. Your Company's market share in the HCV segment stands at 4.5%.

During the year under review, your Company posted an export volume of 28,222 vehicles as against the previous year's record exports of 37,240 vehicles. This is a de-growth of 24.2%. This de-growth is principally due to adverse business and regulatory environment in key markets of Nepal and Sri Lanka. Sales in Africa grew 13%.

The spare parts sales for the year stood at Rs. 2,083.8 crores (including Exports of Rs. 193.4 crores) as compared to Rs. 1,937.2 crores (including Exports of Rs. 115.6 crores) in the previous year, registering a growth of 7.6%.

Farm Equipment Sector

Your Company's Farm Equipment Sector recorded total sales of 3,17,531 tractors as against 2,63,177 tractors sold in the previous year thus recording a growth of 20.7%.

For the year under review, the tractor industry in India recorded sales of 7,09,308 tractors, a growth of 21.9%. Second consecutive year of normal monsoon, increase in MSPs and Government's thrust on Agriculture and rural development, helped drive the positive sentiment in the Agriculture Sector and the rural economy at large.

In the domestic market, your Company sold 3,02,082 tractors, as compared to 2,48,594 tractors in the previous year, recording a growth of 21.5%. In a very competitive industry, your Company continued its market leadership for the 35th consecutive year, with a market share at 42.6%.

Your Company's growth was driven by good performance of all products under the Mahindra and Swaraj Brands. The new product trio of Mahindra NOVO, YUVO and JIVO have helped build the 'technology leadership' image for the Company. JIVO which was launched in Financial Year 2018, proved to be an ideal choice for farmers in the fast growing orchard and horticulture space.

For the year under review, Swaraj Division of your Company, launched the Swaraj 963 in the 60+ HP segment. The Swaraj 963 and its variants, will help grow volume in the higher HP segment.

Further, your Company had developed and demonstrated technology for driverless tractors. First phase of this technology will be made available in the market in the Financial Year 2019. With this, your Company would take another pioneering step to revolutionise farming in India.

For the year under review, your Company exported 15,449 tractors registering a growth of 5.9% over the previous year. This is the highest ever tractor exports from India by your Company. There was growth in exports to USA and neighbouring countries.

Your Company continued to strengthen its global footprint by further expanding into Turkey, through the acquisition of Erkunt Traktor Sanayii A.S. (Erkunt), the 4th largest tractor brand in Turkey. This is the second acquisition by your Company in Turkey after Hisarlar which is a farm equipment company.

Spare parts net sales for the year stood at Rs. 605.3 crores (including exports of Rs. 52.9 crores) as compared to Rs. 534.4 crores (including exports of Rs. 43.8 crores) in the previous year, registering a growth of 13.3%.

Other Businesses

Mahindra Powerol

Under the Mahindra Powerol Brand, your Company has been a leader in providing power back-up solutions to the telecom industry for past 11 years. With a focus on changing customer needs, your Company has further expanded the business in Tele infra management and in the energy management solutions space.

In the retail genset business, your Company is the No. 2 brand by volume, and for the year under review, expanded the product range with the launch of gensets in the higher KVA range.

Construction Equipment Business

For the year under review, your Company (under the Mahindra EarthMaster brand) sold 1,229 Backhoe Loaders (BHLs) against

1,025 in Financial Year 2017, which is a growth of 19.9%. With an uptick in infrastructure spending, the BHL market in India grew 23.5% over the previous year. Your Company ranks 4th in the BHL industry.

Your Company forayed into fast growing road construction equipment business with the launch of Motor Grader - RoadMaster G75, in October, 2017. Your Company sold 164 motor graders in Financial Year 2018.

Two-Wheeler Business

During the year under review, the two-wheeler business of Mahindra Two Wheelers Limited was demerged into your Company. For the Financial Year 2017-18, your Company sold 32,661 two-wheelers (including 17,912 exports).

Transitioning to Goods and Services Tax

Effective 1st July, 2017, India introduced the landmark tax reform with initiation of the Goods and Services Tax (GST) regime. All businesses of your Company, made a timely and seamless transition to the new GST system.

Current Year's review

During the period 1st April, 2018 to 28th May, 2018, 72,813 vehicles were produced as against 62,615 vehicles and 67,244 vehicles were despatched as against 59,361 vehicles during the corresponding period in the last year. During the same period 56,961 tractors were produced and 57,290 tractors despatched as against 48,499 tractors produced and 48,210 tractors despatched during the corresponding period in the previous year.

Economic activity is expected to gather pace in Financial Year 2019 as the transitory effects of implementation of the Goods and Service Tax (GST) recede. The Reserve Bank of India (RBI) projects India's GDP growth to strengthen from 6.6 per cent in 2017-18 to 7.4 per cent in Financial Year 2019. The step-up in growth outlook is likely to be driven by a revival of investment on the demand side and manufacturing on the supply side. Credit off-take has also improved and is becoming increasingly broad-based, which augurs well for the underlying economic activity.

This outlook will also be lifted by tailwinds from normal rainfall with the weather bureau forecasting a 'normal' monsoon for the third successive year in its first stage long range forecast. While the spatial and temporal distribution remain to be seen, well spread out rainfall is likely to have a salutary impact on the overall demand conditions. Moreover, the thrust on rural and infrastructure sectors imparted through the Union Budget could further help rejuvenate rural demand and also crowd in private investment.

Global growth backdrop too remains benign with a synchronised cyclical rebound. A boost to US investment demand from corporate tax cuts, strong activity in the Euro area supported by accommodative monetary policy and improvement in growth prospects of Emerging Market Economies (EMEs) have been supportive of this rebound thus far. However, escalation in trade frictions and protectionist policies, abrupt changes in the pace and timing of normalization of monetary policy of developed country central banks and higher crude oil prices could pose downside risks to global trade and demand growth.

Finance

Financial Year 2017-18 saw the broadest synchronized global growth since the financial crisis. World economy grew at 3.8% in 2017 up from 3.2% in 2016, on the back of growth in trade, pickup in investment particularly among advanced economies. US economy grew at a robust pace and is expected to continue on the back of tax reforms and associated fiscal stimulus. US Federal Reserve hiked interest rates by a cumulative of 75 bps during the Financial Year. Eurozone also saw a rebound in business sentiment and investments with still accommodative monetary policy, political uncertainties largely sorted and Brexit negotiations making progress. Despite some slowdown recently, Japan recorded eight consecutive quarters of growth up to December, 2017.

Economic activity also continued to expand in major emerging market economies such as Brazil, Russia and South Africa - driven by higher crude and commodity prices. China witnessed slight slowdown as it transitions from an export-driven to a domestic demand driven growth model, and saw a rating downgrade with warnings on its excessive debt levels.

The latest World Economic Outlook by IMF predicts global growth to pick up to 3.9% in 2018 supported by strong momentum, favorable market sentiment, accommodative financial conditions, and the domestic and international repercussions of expansionary fiscal policy in the United States. The key risks to the optimistic outlook are rising trade protectionism and geo-political uncertainties especially in the Middle-East.

On the domestic front the year began on a jubilant note with the Union Budget giving a strong thrust to the rural economy and a normal monsoon after two years of deficient rainfall. The much awaited Goods and Services Tax (GST) was rolled out on 1st July, 2017, replacing multiple taxes levied by Governments. Economic activity accelerated as is evident from high frequency indicators such as strong retail sales, depleting finished goods inventories and green shoots of renewal of capex cycle.

On the other hand, financial markets saw volatility on the back of US Fed tightening and rising crude prices. In addition, Banking Sector was also fraught with non-performing assets and frauds.

Indian Rupee which appreciated till the early part of January, 2018 on buoyant capital inflows, started depreciating subsequently over concerns of the impact of higher crude oil prices on India's trade deficit and closed the year at Rs. 65.18 per USD.

CPI inflation remained benign during the first half of Financial Year 2018 which led to the Reserve Bank of India (RBI) to ease policy rates by 25 bps. However, inflation gradually started inching up in the second half of the year due to unfavourable base effect and rise in food and fuel inflation. Going forward there are various uncertainties on the inflation outlook primarily on account of impact of HRA increases by various State Governments, increase in MSP in Union Budget 2018, rising fuel and commodity prices and normalisation of monetary policy by major advanced economies. Systemic liquidity, which had remained in surplus since demonetization, turned into deficit towards close of the year. Consequently, even though RBI remained in a pause mode since August, 2017, bond markets experienced rise in yields due to drying liquidity, concerns about inflation and the fiscal situation.

Your Company continued to focus on managing cash efficiently and ensured that it had adequate liquidity and back up lines of credit. During the year, your Company repaid Rs. 80.69 crores of long term borrowings from internal accruals.

During the year, your Company also availed short term export finance. As on 31st March, 2018, Rs. 668 crores of export finance was outstanding, out of which Rs. 365 crores was under the interest equalization scheme of Government of India.

The Company's Bankers continue to rate your Company as a prime customer and extend facilities/services at prime rates. Your Company follows a prudent financial policy and aims not to exceed an optimum financial gearing at any time. The Company's total Debt to Equity Ratio was 0.10 as at 31st March, 2018.

Your Company has been rated by CRISIL Limited (CRISIL), ICRA Limited (ICRA), India Ratings and Research Private Limited (India Ratings) and CARE Ratings Limited (CARE) for its Banking facilities. All have re-affirmed the highest credit rating for your Company's Short Term facilities. For Long Term facilities and Non-Convertible Debenture (NCD) programme, CRISIL,

ICRA and India Ratings have re-affirmed their credit ratings of CRISIL AAA/Stable, [ICRA]AAA (stable) and IND AAA/Stable for the respective facilities rated by them. With the above rating affirmations, your Company continues to enjoy the highest level of rating from all major rating agencies at the same time.

The AAA ratings indicate highest degree of safety regarding timely servicing of financial obligations and is also a vote of confidence reposed in your Company's Management by the rating agencies. It is an acknowledgement of the strong credit profile of your Company over the years, resilience in earnings despite cyclical upturns/downturns, robust financial flexibility arising from the significant market value of its holdings and prudent management.

Investor Relations (IR)

Your Company continuously strives for excellence in its IR engagement with International and Domestic investors and has set up feedback mechanism to measure IR effectiveness. Structured conference calls and periodic investor/analyst interactions including one-on-one meeting, participation in investor conferences, quarterly earnings calls and annual analyst meet with the Chairman, Managing Director and Business Heads were organised during the year.

Your Company interacted with around 670 Indian and overseas investors and analysts (excluding quarterly earnings calls and specific event related calls) during the year. Your Company always believes in leading from the front with emerging best practices in IR and building a relationship of mutual understanding with investor/analysts. As a key milestone in this continuing endeavour, your Company created a digital interactive annual review of the Company's performance on the Corporate website to provide an interactive experience beyond what is available in the Annual Report. The Company had created its first Integrated Report (for Financial Year 2017). Your Company also continues to organise con-call on Environment, Social and Corporate Governance (ESG) for analysts and investors, which has received excellent feedback from investors and ESG analysts for this pioneering initiative.

Your Company ensures that critical information about the Company is available to all the investors by uploading all such information at the Company's website. Your Company has created a 'Group Investor Relations Council' to share best practices across all the listed group companies and learn from each other.

With your Company maintaining majority shareholding of 51.19%, MMFSL continues to benefit by leveraging the financial and operational synergies with the Company and with the simultaneous QIP issuance, it has been able to diversify its investor base. MMFSL's Capital Adequacy has strengthened with this capital raise. It further enables MMFSL to augment its long term resources to enable it to meet its business growth and funding requirements as well as meet the investment required to be made in its subsidiaries and joint ventures.

D. INTERNAL FINANCIAL CONTROLS

The Corporate Governance Policies guide the conduct of affairs of your Company and clearly delineates the roles, responsibilities and authorities at each level of its governance structure and key functionaries involved in governance. The Code of Conduct for Senior Management and Employees of your Company (the Code of Conduct) commits Management to financial and accounting policies, systems and processes. The Corporate Governance Policies and the Code of Conduct stand widely communicated across your Company at all times.

Your Company's Financial Statements are prepared on the basis of the Significant Accounting Policies that are carefully selected by Management and approved by the Audit Committee and the Board. These Accounting policies are reviewed and updated from time to time.

Your Company uses SAP ERP Systems as a business enabler and to maintain its Books of Account. The transactional controls built into the SAP ERP systems ensure appropriate segregation of duties, appropriate level of approval mechanisms and maintenance of supporting records. The Information Management Policy reinforces the control environment. The systems, Standard Operating Procedures and controls are reviewed by Management. These systems and controls are audited by Internal Audit and their findings and recommendations are reviewed by the Audit Committee which ensures the implementation.

Your Company has in place adequate internal financial controls with reference to the Financial Statements commensurate with the size, scale and complexity of its operations. This year your Company's Internal Financial Controls were deployed through Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), that addresses material risks in your Company's operations and financial reporting objectives.

Such controls have been assessed during the year under review taking into consideration the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by The Institute of Chartered Accountants of India. Based on the results of such assessments carried out by Management, no reportable material weakness or significant deficiencies in the design or operation of internal financial controls was observed.

Your Company recognises Internal Financial Controls cannot provide absolute assurance of achieving financial, operational

and compliance reporting objectives because of its inherent limitations. Also, projections of any evaluation of the Internal Financial Controls to future periods are subject to the risk that the Internal Financial Control may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate. Accordingly, regular audits and review processes ensure that such systems are reinforced on an ongoing basis.

Industrial Relations

The year under review witnessed a very positive Industrial Relations Scenario across all manufacturing locations for the Automotive and Farm Equipment Sectors.

Your Company's focus continues towards propagating proactive and employee centric practices. The Transformational Work Culture initiative, which aims to create an engaged workforce with an innovative, productive and competitive shop-floor ecosystem, continues to grow in strength. The Transformational Work Culture Committee (TWCC) continually engages with long-term strategic initiatives which range from anticipated Labour Law reforms to 'Swachh Bharat Abhiyaan'. Some examples of the programs put in place include 'Rise for Associates', Industrial Relations Skills for Frontline Officers, Cultural Diagnostics Projects, Transformational work culture Projects, e-Compliance, e-Quizz for associates, e-portal for reward and recognition of associates, e-safety module and Code of Conduct for Associates. Some of the programs are run in collaboration with Mahindra Leadership University (MLU).

In order to develop skills and foster togetherness at the workplace, your Company rolled out multiple training and engagement programs covering a wide range of topics, viz. positive attitude, stress management, creativity, team effectiveness, safety and environment, quality tools, TPM, skill building programs, customer focus, awareness on Promise 2019, Code of Conduct and a Union Leadership Development Program.

The Mahindra Skill Excellence initiative is a holistic approach to enhance the skill and capabilities of shop floor associates, and has received good participation across manufacturing facilities. As a result of this effort, an associate from your Company represented India at the Worlds Skill Competition in Abu Dhabi in August, 2017 and the 'Beijing Arc Cup Competition' for third year in a row.

In an endeavor to generate ideas towards improving quality, reducing cost, ensuring safety and improving productivity, your Company's shop floor associates generated on an average 20 ideas per person.

Significant emphasis was also laid towards raising awareness on health and wellness of employees through annual medical check-ups, health awareness activities, and diet food has become a way of life over past three years. Your Company maintains an 'Employee Health Index' at an individual level and this has been a useful tool in identifying employees who require focused counselling and monitoring.

Proactive and employee-centric shop floor practices, a focus on transparent communication of business goals, an effective concern resolution mechanism, and a firm belief that employees are the most valuable assets of the Company, are the cornerstone of your Company's employee relations approach. An 'open door policy' with constant dialogue to create win-win situations, have helped your Company build trust and harmony. The Industrial Relations scenario continued to be largely positive across all Manufacturing locations. Bonus settlements were amicably agreed upon at all locations.

The sustained efforts towards building a transformational work culture resulted in zero production loss in the Financial Year 2017-18 and helped create a collaborative, healthy and productive work environment.

Safety, Occupational Health and Environment

During the year under review, your Company revised its Safety, Occupational Health & Environmental (SOH&E) Policy. The leadership's commitment towards SOH&E, is demonstrated through inclusion of compliance as well as voluntary commitments in the revised policy. SOH&E targets have been set as per the revised policy. Implementation of various initiatives under the policy and achievement of set targets were assessed through audits (both internal and external) and management reviews.

At each Plant location, annual events were organised and commemorated like National Safety Day/Month, World

Environment Day, Road Safety Week and Fire Service Week. Training programs were conducted for all stakeholders as per the scheduled training calendar through various physical and e-learning modules. In the year under review, your Company completed second batch of Accelerated Learning Program (ALP) on safety, to encourage innovations and best practices related to SOH&E. To strengthen the safety culture, Behaviour Based Safety (BBS) - Level 2 has been introduced at all plants.

Your Company carried out statutory safety audits including electrical safety audits of all facilities, as per the amended legal requirements. For the year under review, your Company achieved substantial reduction in the fire load at all the manufacturing plants.

Your Company continued its commitment to improve the wellbeing of employees and contract associates through various activities under project Parivartan like organising physical fitness activities including Walkathon, Yoga, Zumba, medical check-ups, health consultation and counselling. Further, all locations observed World Health Day, World Heart Day, World Kidney Day and World Diabetes Day. Way2Wellness sessions were conducted covering topics like Healthy Heart and Diabetic feet.

In line with the 'Go Green' philosophy, your Company is continuously adopting new techniques to eliminate and minimise the environmental impact. Various projects have been implemented by your Company in air, water and waste water management and solid waste management. These initiatives are also extended to the supplier community of your Company.

Your Company has adopted Global Reporting Initiative (GRI) - G4 Guidelines, and has undertaken projects aimed at climate change mitigation, sustainable source use and protection of bio-diversity. Some examples of successful initiatives are LED lighting project, Energy efficiency Motors, Solar power installation and certified green building projects with platinum and gold rated facilities.

In addition to above, World Ozone Day, World Environment Day, No Print Day, World Earth Day, World Water Day and Energy Conservation Week and Water Conservation Week are also observed on an annual basis.

Certifications/Recertifications

All Plants of your Company have been recertified under standard ISO 14001: 2015 and OHSAS 18001: 2007. Further, all plants are in the process of implementing, integrated management system along with adopting the revised environmental standard ISO 14001: 2015.

In March, 2018, all seven plants of Automotive Sector were awarded TPM excellence award, by Japanese Institute of Plant Maintenance (JIPM). In April, 2018, five Plants of your Company also received certification for "Zero Waste to Landfill" from Intertek USA.

The Company has revised its targets under SOH&E policy and these targets are reviewed periodically by senior management. The focused initiatives and reviews have helped to improve SOH&E performance of your Company in the period 2017-18.

ANNEXURE I

Dividend Distribution Policy

The Dividend Distribution Policy ("the policy") establishes the principles to ascertain amounts that can be distributed to equity shareholders as dividend by the Company as well as enable the Company strike balance between pay-out and retained earnings, in order to address future needs of the Company. The policy shall come into force for accounting periods beginning from 1st April, 2016.

Dividend would continue to be declared on per share basis on the Ordinary Equity Shares of the Company having face value Rs. 5 each. The Company currently has no other class of shares. Therefore, dividend declared will be distributed amongst all shareholders, based on their shareholding on the record date.

Dividends will generally be recommended by the Board once a year, after the announcement of the full year results and before the Annual General Meeting (AGM) of the shareholders, as may be permitted by the Companies Act. The Board may also declare interim dividends as may be permitted by the Companies Act.

The Company has had a consistent dividend policy that balances the objective of appropriately rewarding shareholders through dividends and to support the future growth.

As in the past, subject to the provisions of the applicable law, the Company's dividend payout will be determined based on available financial resources, investment requirements and taking into account optimal shareholder return. Within these parameters, the Company would endeavor to maintain a total dividend pay-out ratio in the range of 20% to 35% of the annual standalone Profits after Tax (PAT) of the Company.

While determining the nature and quantum of the dividend payout, including amending the suggested payout range as above, the Board would take into account the following factors:

- Internal Factors:
 - i. Profitable growth of the Company and specifically, profits earned during the financial year as compared with:
 - a. Previous years and
 - b. Internal budgets,
 - ii. Cash flow position of the Company,
 - iii. Accumulated reserves,
 - iv. Earnings stability,
 - v. Future cash requirements for organic growth/expansion and/or for inorganic growth,
 - vi. Brand acquisitions,
 - vii. Current and future leverage and, under exceptional circumstances, the amount of contingent liabilities,
 - viii. Deployment of funds in short term marketable investments,
 - ix. Long term investments,
 - x. Capital expenditure(s), and
 - xi. The ratio of debt to equity (at net debt and gross debt level).
- External Factors:
 - i. Business cycles,
 - ii. Economic environment,
 - iii. Cost of external financing,

- iv. Applicable taxes including tax on dividend,
- v. Industry outlook for the future years,
- vi. Inflation rate, and
- vii. Changes in the Government policies, industry specific rulings & regulatory provisions.

Apart from the above, the Board also considers past dividend history and sense of shareholders' expectations while determining the rate of dividend. The Board may additionally recommend special dividend in special circumstances.

The Board may consider not declaring dividend or may recommend a lower payout for a given financial year, after analyzing the prospective opportunities and threats or in the event of challenging circumstances such as regulatory and financial environment. In such event, the Board will provide rationale in the Annual Report.

The retained earnings of the Company may be used in any of the following ways:

- i. Capital expenditure for working capital,
- ii. Organic and/or inorganic growth,
- iii. Investment in new business(es) and/or additional investment in existing business(es),
- iv. Declaration of dividend,
- v. Capitalisation of shares,

ANNEXURE III

SECRETARIAL AUDIT REPORT

For the Financial Year ended 31st March, 2018

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Mahindra & Mahindra Limited
Gateway Building
Apollo Bunder
Mumbai 400 001

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Mahindra & Mahindra Limited (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conduct/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorised representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2018, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2018 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of foreign direct investment, overseas direct investment and external commercial borrowings;

(v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):

- (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
- (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
- (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;

- (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 (Not applicable to the Company during the Audit period); and
- (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 (Not applicable to the Company during the Audit period).

I further report that having regard to the compliance system prevailing in the Company and on examination of the relevant documents and records in pursuance thereof, the Company has complied with the following laws applicable specifically to the Company:

- (a) The Motor Vehicles Act, 1988 and the Rules made thereunder;
- (b) The Petroleum Act, 1934 and the Rules made thereunder;
- (c) The Ozone Depleting Substances (Regulation and Control) Rules, 2000 and The Ozone Depleting Substances (Regulation and Control) Amendment Rules, 2001;

(d) The Batteries (Management and Handling) Rules, 2016.

I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by the Institute of Company Secretaries of India;
- (ii) Listing Agreements entered into by the Company with BSE Ltd. and the National Stock Exchange of India Ltd. read with The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with provisions of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda

items before the meeting and for meaningful participation at the meeting.

As per the minutes of the meetings duly recorded and signed by the Chairman, the decisions of the Board and its committees were unanimous.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period:

- i. The Hon'ble National Company Law Tribunal approved the Scheme of Arrangement (Demerger), demerging the two wheelers business of Mahindra Two Wheelers Limited, a subsidiary of the Company, as a going concern with the Company.
- ii. The Company issued and allotted to its members 62,15,96,272 Equity Shares of Rs. 5/- each as fully paid up bonus equity shares.

ANNEXURE V-A

POLICY ON APPOINTMENT OF DIRECTORS AND SENIOR MANAGEMENT AND SUCCESSION PLANNING FOR ORDERLY SUCCESSION TO THE BOARD AND THE SENIOR MANAGEMENT

DEFINITIONS

The definitions of some of the key terms used in this Policy are given below.

“**Board**” means Board of Directors of the Company.

“**Company**” means Mahindra & Mahindra Limited.

“**Committee(s)**” means Committees of the Board for the time being in force.

“**Employee**” means employee of the Company whether employed in India or outside India including employees in the Senior Management Team of the Company.

“**HR**” means the Human Resource Department of the Company.

“**Key Managerial Personnel**” (KMP) refers to key managerial personnel as defined under the Companies Act, 2013 and includes:

- (i) Managing Director (MD), or Chief Executive Officer (CEO); or Manager; or Whole Time Director (WTD)
- (ii) Chief Financial Officer (CFO);
- (iii) Company Secretary (CS); and
- (iv) Such other officer, not more than one level below the directors who is in whole-time employment, designated as key managerial personnel by the Board.

“**Governance, Nomination and Remuneration Committee**” (GNRC) means Governance, Nomination and Remuneration Committee of Board of Directors of the Company for the time being in force.

“**Senior Management**” means personnel of the Company who are members of its Core Management Team excluding Board of Directors comprising of all members of management one level below the executive directors including the functional heads.

I. APPOINTMENT OF DIRECTORS

- The GNRC reviews and assesses Board composition and recommends the appointment of new Directors. In evaluating the suitability of individual Board member, the GNRC shall take into account the following criteria regarding qualifications, positive attributes and independence of director:
 1. All Board appointments will be based on merit, in the context of the skills, experience, independence and knowledge, for the Board as a whole to be effective.
 2. Ability of the candidates to devote sufficient time and attention to his professional obligations as Independent Director for informed and balanced decision making.

3. Adherence to the Code of Conduct and highest level of Corporate Governance in letter and in spirit by the Independent Directors.

- Based on recommendation of the GNRC, the Board will evaluate the candidate(s) and decide on the selection of the appropriate member. The Board through the Chairman & Managing Director will interact with the new member to obtain his/her consent for joining the Board. Upon receipt of the consent, the new Director will be co-opted by the Board in accordance with the applicable provisions of the Companies Act, 2013 and Rules made thereunder.

REMOVAL OF DIRECTORS

If a Director is attracted with any disqualification as mentioned in any of the applicable Act, rules and regulations thereunder or due to non-adherence to the applicable policies of the company, the GNRC may recommend to the Board with reasons recorded in writing, removal of a Director subject to the compliance of the applicable statutory provisions.

SENIOR MANAGEMENT PERSONNEL

The GNRC shall identify persons who are qualified to become directors and who may be appointed in senior management team in accordance with the criteria laid down above.

Senior Management personnel are appointed or promoted and removed/relieved with the authority of Chairman & Managing Director based on the business need and the suitability of the candidate.

II. SUCCESSION PLANNING:

Purpose:

The Talent Management Policy sets out the approach to the development and management of talent in the Mahindra Group to ensure the implementation of the strategic business plans of the Group and the Group Aspiration of being among the Top 50 globally most-admired brands by 2021.

Board:

The successors for the Independent Directors shall be identified by the GNRC at least one quarter before expiry of the scheduled term. In case of separation of Independent Directors due to resignation or otherwise, successor will be appointed at the earliest but not later than the immediate next Board meeting or three months from the date of such vacancy, whichever is later.

The successors for the Executive Director(s) shall be identified by the GNRC from among the Senior Management or through external source as the Board may deem fit.

The GNRC will accord due consideration for the expertise and other criteria required for the successor.

The Board may also decide not to fill the vacancy caused at its discretion.

Senior Management Personnel:

A good succession-planning program aims to identify high growth individuals, train them and feed the pipelines with new talent. It will ensure replacements for key job incumbents in KMPs and senior management positions in the organization.

Significantly, we have a process of identifying Hi-pots and critical positions. Successors are mapped for these positions at the following levels:

1. Emergency successor
2. Ready now
3. Ready in 1 to 2 years
4. Ready in 2 to 5 years
5. Ready in more than 5 years

in order to ensure talent readiness as per a ladder approach.

Policy Statement:

The Talent Management framework of the Mahindra Group has been created to address three basic issues:

- 1) Given the strategic business plans, do we have the skills and competencies required to implement them? If not, how do we create them – by developing them internally or through lateral induction from outside?
- 2) For critical positions, what is the succession pipeline?
- 3) What are the individual development plans for individuals both in the succession pipeline as well as others?

The framework lays down an architecture and processes to address these questions using the 3E approach:

- a) **Experience** i.e. both long and short-term assignments. This has 70% weightage.
- b) **Exposure** i.e. coaching and mentoring – 20% weightage.
- c) **Education** i.e. learning and development initiatives – 10% weightage.

The Talent Management process is applicable to all employees. Over the years, the Talent Management framework has become a well-structured and process-oriented system which is driven by an interactive and collaborative network of Talent Councils at the Group and Sector Levels. These Talent Councils, which consist mainly of Senior business leaders supported by HR, are a mix of Sector (Business) and Functional Councils coordinated by an Apex Talent Council, headed by the Group Chairman. The Apex Council reviews the work done by the Talent Councils and facilitates movement of talent across Sectors. The Sector/Functional Councils meet regularly throughout the year and the Apex Council interacts with each one of them separately once a year, and in addition conducts an integrated meeting where the Chairpersons of all the Councils are present.

The Talent Management process can be represented pictorially as under:

The talent pipeline is maintained and developed so as to ensure that there is a seamless flow of talent. An important part of this exercise is drawing up and implementing IDAPs (Individual Development Action Plans) for every Executive concerned using the 3E approach mentioned above.

ANNEXURE V-B

POLICY FOR REMUNERATION OF THE DIRECTORS, KEY MANAGERIAL PERSONNEL AND OTHER EMPLOYEES

Purpose

This Policy sets out the approach to Compensation of Directors, Key Managerial Personnel and other employees in Mahindra and Mahindra Limited.

Policy Statement

We have a well-defined Compensation policy for Directors, Key Managerial Personnel and all employees, including the Chairman, Presidents and other Members of the Group Executive Board who are employees of the Company. The overall compensation philosophy which guides us is that in order to achieve global leadership and dominance in domestic markets, we need to attract and retain high performers by compensating them at levels that are broadly comparable with the median of the comparator basket while differentiating people on the basis of performance, potential and criticality for achieving competitive advantage in the business.

In order to effectively implement this, we have built our Compensation structure by a regular annual benchmarking over the years with relevant players across the industry we operate in.

NON-EXECUTIVE INCLUDING INDEPENDENT DIRECTORS:

The Governance, Nomination and Remuneration Committee (GNRC) shall decide the basis for determining the compensation, both Fixed and variable, to the Non-Executive Directors, including Independent Directors, whether as commission or otherwise. The GNRC shall take into consideration various factors such as director's participation in Board and Committee meetings during the year, other responsibilities undertaken, such as membership or Chairmanship of committees, time spent in carrying out their duties, role and functions as envisaged in Schedule IV of the Companies Act, 2013 and Clause 49 of the Listing Agreement with Stock Exchanges and such other factors as the GNRC may consider deem fit for determining the compensation. The Board shall determine the compensation to Non-Executive Directors within the overall limits specified in the Shareholders resolution.

Executive Directors:

The remuneration to Chairman & Managing Director and Executive Director(s) shall be recommended by GNRC to the Board. The remuneration consists of both fixed compensation and variable compensation and shall be paid as salary, commission, performance bonus, stock options (where applicable), perquisites and fringe benefits as approved by the Board and within the overall limits specified in the Shareholders resolution. While the fixed compensation is determined at the time of their appointment, the variable compensation will be determined annually by the GNRC based on their performance.

Key Managerial Personnel (KMPs)

The terms of remuneration of Chief Financial Officer (CFO) shall be determined by GNRC from time to time after seeking inputs from Audit Committee in this regard. The terms of

remuneration of the Company Secretary and such other officer, not more than one level below the directors, who is in whole time employment, designated by the Board as Key Managerial Personnel shall be finalised/ revised either by any Director or Mr. Rajeev Dubey or Mr. V. S. Parthasarathy or Mr. S. Durgashankar or such other person as may be authorised by the Board from time to time. The remuneration shall be consistent with the competitive position of the salary for similar positions in the industry and their Qualifications, Experience, Roles and Responsibilities. Pursuant to the provisions of section 203 of the Companies Act, 2013 the Board shall approve the remuneration at the time of their appointment.

The remuneration to directors, KMPs and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

Employees

We follow a differential approach in choosing the comparator basket for benchmarking, depending upon the level in the organization:

- For all employees from Operational to Executive Band, we benchmark with a set of comparators from the same industry.
- For Strategic band and above, we have a position-based approach and the comparator basket includes benchmarks from across relevant industries.

We have a CTC (Cost to Company) concept which includes a fixed component (Guaranteed Pay) and a variable component (Performance pay). The percentage of the variable component increases with increasing hierarchy levels, as we believe employees at higher positions have a far greater impact and influence on the overall business result. The CTC is reviewed once every year and the compensation strategy for positioning of individuals takes into consideration the following elements:

- Performance
- Potential
- Criticality
- Longevity in grade

Remuneration for the new employees other than KMPs and Senior Management Personnel will be decided by the HR, in consultation with the concerned business unit head at the time of hiring, depending upon the relevant job experience, last compensation and the skill-set of the selected candidate.

The Company may also grant Stock Options to the Employees and Directors (other than Independent Directors and Promoter) in accordance with the ESOP Scheme of the Company and subject to the compliance of the applicable statutes and regulations.

ANNEXURE VII

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

SECTION 134(3)(m) OF THE COMPANIES ACT, 2013 READ WITH RULE 8(3) OF THE COMPANIES (ACCOUNTS) RULES, 2014 IS FORMING PART OF THE BOARD'S REPORT FOR THE FINANCIAL YEAR 2017-18

(A) Conservation of Energy

Your Company is committed to sustainable business practices by contributing to environment conservation and protection. Your Company considers, energy conservation as one of the strong pillars of preserving natural resources and improving the bottom-line under 'Mission Sustainability'.

Your Company is the first Indian company to join the World Bank's 'Carbon Pricing Leadership Consortium' which was launched at COP21 in Paris. Subsequently, in October, 2016, your Company announced its internal Carbon Price of USD 10 per ton of carbon emitted. Carbon Pricing is an internationally recognised business tool that enables companies to invest in low carbon technologies, which help reduce future emissions and lower operating costs.

Your Company is the first Indian signatory to EP100 (Energy Productivity 100%) by 2030, a program promoted by the international non-profit organization, 'The Climate Group'.

Your Company ensures strict compliance with all the statutory requirements. Further, your Company had taken commitment of reducing 25% carbon footprint of its operations by Financial Year 2019, from the baseline of Financial Year 2016.

Your Company has taken various initiatives as listed below, for energy conservation and preserving natural resources.

- Programs for improving energy efficiency.
- Thrust on use of renewable energy.
- Converting existing facilities in to Green buildings and factories.
- Rain water harvesting, reduce usage and recycling of water.
- Thrust on zero waste to land fill and circular economy.
- Eco efficiency in supply chain.

(i) The steps taken/impact on conservation of energy:

- Replacement of conventional lighting with LED lighting.
- Waste heat recovery from air compressor units.
- Installation of high efficiency motors and pumps in manufacturing facilities.
- Installation of VFD's for blower motors and pumps.
- Program to install energy efficient Air conditioning system.
- Installation of High velocity low speed (HVLS) fans on shop floor.
- Installation of Heat pumps for cooling and heating.
- Cold box process instead of hot box process in Foundry.
- Optimisation of cycle time and elimination of idle running losses on machines.
- Waste heat recovery from paint shop ovens.
- Adoption of innovative Nano-technology at Pre-treatment to reduce process temperature.
- Installation of energy efficient screw air compressor.

Your Company believes in employee engagement for driving results. Towards this goal, your Company has taken multiple initiatives. Select few are listed below:

- Display of revised policy for Sustainability and Energy Management.
- National energy conservation week celebration at all plants.
- Sustainability month celebration at all plants.
- Sale of LED's and fans through 'UJALA Scheme' for all employees.
- Competitions for slogans, suggestions, posters and Quiz.
- Residential electricity bill saving competition for employees.
- Energy conclave organized for officers.
- Awareness creation through e-mailers, wall papers, posters and slogans.
- Spreading the importance of energy conservation in nearby schools and colleges.

(ii) The steps taken by the Company for utilising alternate sources of energy:

For the year under review, your Company increased utilisation of Solar power from 2.7MW to 3.5 MW. In addition, your Company installed 4.2 MW of wind power capacity. This is the first ever wind power capacity installation for your Company.

Power from renewable energy sources is 5.1% of total power consumption and this mitigates 13,857 Tons of CO₂ per year. Your Company has set target to increase the share of renewable energy to 10% by Financial Year 2020.

(iii) The capital investment on energy conservation equipments

For the year under review, the capital investment on energy conservation equipment was Rs. 15.63 crores. This investment was broadly done in the areas of heat recovery, LED lighting, energy efficient motors, pumps and many more energy conservation initiatives.

In addition to the above, your Company invested Rs. 14 crores towards harnessing energy from renewable energy sources.

As a result of all above initiatives and similar initiatives taken in previous years, the carbon footprint for your Company has reduced by 21% (target of 25% by Financial Year 2019), over the baseline of Financial Year 2016.

(B) Technology Absorption**(i) The efforts made towards technology absorption:**

Your Company is committed towards technology driven innovation and lays strong emphasis on inculcating an innovation driven culture within the organisation.

During the year under review, your Company continued to work on technology upgradation and capability development in the critical areas of Powertrain, Emission, Gasoline engines, Transmission, CAE, NVH, CFD, Safety, Weight reduction, Alternate fuels, Automotive electronics and Connected Vehicles. On the Farm Sector front, technology areas such as smart implements, electronic architecture for future digitization and features that enhance safety and connectivity were explored. This would help in ensuring that the Company's products retain their competitive edge in the market for years to come.

Your Company continues to invest in technology development and patent acquisitions. For the year

under review, your Company filed a total of 161 patents. Cumulatively, your Company has filed over 1,000 patents.

(ii) The benefits derived like product improvement, cost reduction, product development or import substitution:

The efforts taken by your Company towards technology development and absorption help deliver competitive advantage to your Company through the launch of new products and variants, introduction of new features and improvement of product performance. Some examples of results delivered in the year 2017-18 are:

- The all new tractor platform YUVO, with many industry first features like advanced hydraulics, more back-up torque, 12F+3R gears and adjustable seat.
- The JIVO 4WD tractor launched in April, 2017, with features like side shift gears, Automatic Depth & Draft Control (ADDC) and 2 speed PTO.
- The new product line for US Market as 6000, 7000, 8000 & 9000 series of products.
- The launch of NOVO Platform Extension with premium version for higher Hp tractors ranging from 65-75 Hp Models in domestic market.
- Demonstration of Intelligent tractors with Auto Steer technology on YUVO Platform.
- Launch of the new 'All Powerful' Scorpio, with a 140 bhp mHawk engine, new 6-speed transmission and enhanced driving dynamics.
- Launch of KUV100 NXT with new Hi-Tech features, more premium and plush interiors and a more refined and pleasurable driving experience.
- Launch of Plush New XUV500, with Technopack, luxurious interiors and higher power and torque. It offers a more pleasurable ride through an enhanced suspension, and comes with a quieter cabin.
- Satisfactory progress on various projects related to meeting BS VI emission standards, as well as development of new gasoline powertrains.
- Use of new materials with a focus on light weighting.
- The launch of DIGISENSE, a connected vehicle technology platform with multi product vehicle connectivity across a wide range of mobility products, tractors and businesses.

Management Discussion and Analysis

Management Discussion and Analysis

Mahindra & Mahindra Limited (M&M) or (Mahindra) is the flagship company of the Mahindra Group, which consists of diverse business interests across the globe and aggregate revenues of around US \$ 20.7 billion.

The Automotive and Farm Equipment Sectors of the Company, continue to focus on creating products and technology led services, which enable its customers and stakeholders to Rise. By focussing on customer centricity, delivering accessible technology, innovation and enhancing people capabilities, the Company continues to drive growth in the domestic market while pursuing global expansion.

For the year under review, improvement in overall economic sentiment, two consecutive years of normal monsoon, Government's focus on development of rural parts of the country, and the continued investment on the Agriculture and Infrastructure Sectors, coupled with easy availability of affordable finance helped drive the demand for the automotive as well as the tractor industry.

In the Financial Year 2017-18, your Company sold 5,48,508 vehicles (a growth of 8.3% in comparison to the previous year) and 3,17,531 tractors (a growth of 20.7% over the previous year).

In the Financial Year 2017-18, your Company sold 5,48,508 vehicles (a growth of 8.3% in comparison to the previous year) and 3,17,531 tractors (a growth of 20.7% over the previous year).

The Automotive and Farm Sectors, along with their subsidiary, associate companies and joint ventures, achieved global sales of 1.03 million vehicles and tractors (6,89,432 vehicles and 3,41,319 tractors), a growth of 8% over the previous year. This is the first year when the combined sales of vehicles and tractors crossed the million mark.

INDUSTRY STRUCTURE, OVERVIEW AND TRENDS

Automotive Industry

The Indian automotive industry comprises of several Indian-origin and multinational players with varying degrees of presence in different segments.

After more than 15 years of establishing manufacturing base in India, MNC OEMs have garnered 85.9% share of the domestic Passenger Vehicles (PV) market. However, in the Commercial Vehicle (CV) space, Indian Origin OEMs continue to hold 96.5% of the domestic market.

This is the first year when the combined sales of vehicles and tractors crossed the million mark.

Almost all MNC OEMs have well established India development and sourcing centres. These centres are being leveraged to design and develop emerging market products in India. In addition, a high degree of India sourcing delivers price competitiveness for these new products. Further, the MNCs have aggressively pursued channel expansion and today, have a good channel presence in urban centres and are in the process of expanding into rural parts. At the same time, MNCs are increasingly using India as an export base. Today, 20.7% of MNC production is exported from India.

India homegrown OEMs, over the years, have invested in developing capabilities in product development and world class manufacturing. As a result, products designed and manufactured by Indian OEMs are very competitive as compared to MNC OEM products.

Keeping in view the need for safe mobility and clean air, the Government and Industry are focussed towards delivering mobility solutions that are safe and clean.

Today, the industry is focussed on managing portfolio readiness for the new safety norms that are under implementation and the BSVI emission norms from April, 2020.

In addition to above, the Government has taken aggressive targets towards adopting electric vehicles. The industry is gearing up for meeting this challenge on the technology and product fronts.

Tractor Industry

Similarly, the domestic tractor market has a mix of Indian origin and international OEMs, and is segmented by horsepower.

Industry is typically classified under the following segments < 20HP, 20-30 HP, 30-40 HP, 40-50 HP and >50 HP. Among these, 30-40 HP and 40-50 HP together account for 83% of the total industry. In the recent years (Financial Years 2013 to 2018) the >50 HP segment has seen good growth, owing to increased affordability, tractor versatility and evolution of farming practices especially in case of farmers with large land holdings. At the same time, there is growth in the horticulture segment of agriculture, leading to growth of the lower HP segment.

The key to raising farm productivity, is increase the level of mechanisation and improve farming practices.

Indian agriculture is characterised by low productivity and a high degree of manual work. At the same time, demand for farm labour is cyclic and there is shortage of farm labour in many parts of the country. The key to raising farm productivity, is increase the level of mechanisation and improve farming practices. This situation, coupled with Government's focus on improving farm productivity, is creating an opportunity for private players to venture into custom hiring business.

Global Automotive Industry

In the Calendar Year (CY) 2017, global automotive sales for Passenger and Commercial Vehicles stood at a record 96.8 million, which was a growth of 3.1% over the previous year. This growth is marginally less than the five year CAGR of 3.3%. This growth in 2017 was primarily driven by China, India and Europe, which collectively account for 55.8% of the global automotive market. The US market de-grew 1.6%, while the markets in Japan and Brazil grew 5.4% and 9.2% respectively, on a low base effect. *Source: OICA (Organisation Internationale des Constructeurs d'Automobiles).*

Auto sales in Africa have de-grown for three consecutive years and stood at 1.2 million, which is a drop of 30.4% over the all time high in 2014. This slowdown is a result of weak economic sentiment, high inflation and high interest rates.

The automotive market in Russia has posted a growth of 14.1% (a growth after four years), almost at 50% of their all-time high in 2012.

Indian Automotive Industry

In the Financial Year 2017-18, the auto industry continued the growth momentum and posted a total growth of 14.2%. The industry (excluding 2W) posted a 11.9% growth – a double

digit growth after a gap of seven years. All industry segments viz. Passenger Vehicles (PV), Commercial Vehicles (CV), Three Wheelers (3W) and Two Wheelers (2W) reported the highest ever sales. Total automotive sales (excluding 2W) crossed 4.78 million, while the 2W sales crossed the 20 million mark.

The PV segment grew 7.9%, wherein the growth driver was the 21.0% growth in UVs. Over the past six years (Financial Years 2012 to 2018), there has been an increased customer preference for UVs, resulting in heightened competitive intensity and multiple new product launches in the segment. In this period, the UV segment grew 16.8% CAGR as against a very flat performance of the car segment at 1.1% CAGR. Because of this high growth in UVs, UVs as a share of PVs has almost doubled in the period of six years and now stand at 28.0%.

The CV industry posted a growth of 19.9%, which is highest in the last seven years. The MHCV (Goods) industry grew 19.4% and crossed the three lakh mark for the first time, with a volume of 3,04,664 units. This is 1.8% higher than the all-time high of 2,99,334 in Financial Year 2012. This is a very good recovery considering that the MHCV (Goods) industry had bottomed out at 1,61,909 units (down by 45.9% over Financial Year 2012) in Financial Year 2014. This recovery is driven by replacement demand, ban on overloading and benefits of GST implementation. The LCV < 3.5T GVW segment posted a volume of 4,21,078 units, which is a growth of 29.8% over the previous year, but this volume is still lower by 16,790 vehicles over the all-time high in Financial Year 2013. The Pick-Up segment, which is LCV 2-3.5T GVW, grew a robust 23.1% on back of demand from rural, agri Sectors, and posted all-time high sales of 2,55,599 units. This segment has shown a healthy growth of 15.1% CAGR over last six years. This growth is a result of positive sentiment, prosperity in the rural economy and availability of affordable finance.

The performance of the auto industry in the Financial Year 2017-18 needs to be reviewed in two parts – first quarter of the Financial Year 2018 and rest of the year. The demand in first quarter of the Financial Year 2018 was muted due to two reasons (i) Implementation of BSIV for all vehicle categories from 1st April, 2017 and (ii) Implementation of GST from 1st July, 2017. With the Hon. Supreme Court directing the industry for implementation of BSIV for all vehicle categories from 1st April, 2017, the supply side for the CV industry was disturbed,

The industry (excluding 2W) posted a 11.9% growth – a double digit growth after a gap of seven years.

resulting in short supply of BSIV vehicles in the first quarter of the Financial Year 2018. In the PV segment, the demand in the first quarter of the Financial Year 2018 was subdued, as the customers expected a price reduction post GST implementation.

The table below summarises the demand pattern in the four quarters of Financial Year 2018 – clearly showing a subdued demand in the first quarter and recovery in the remaining three quarters:

| Industry Segment | F18 | | | | |
|----------------------------|--------------|--------------|--------------|--------------|--------------|
| | Q1 | Q2 | Q3 | Q4 | F18 |
| PV | 4.4% | 13.4% | 6.1% | 7.2% | 7.9% |
| CV | -9.1% | 21.0% | 33.7% | 30.9% | 19.9% |
| 3W | -21.8% | 4.1% | 51.2% | 86.8% | 24.2% |
| 2W | 7.8% | 12.3% | 15.7% | 24.8% | 14.8% |
| Total Domestic | 6.1% | 12.5% | 15.7% | 23.6% | 14.2% |
| Domestic (Excl. 2W) | -1.5% | 13.3% | 15.7% | 19.2% | 11.9% |

The growth in the two wheeler industry was at a robust 14.8%. The scooter segment grew 19.9%, taking the share of scooters, 2W sales to 33.3%. The motorcycle segment grew a good 13.7% - a double digit growth after six years, indicating recovery towards the rural sentiment and markets.

The demand for automobiles was driven by the Indian economy continuing the growth path, sustained demand in

rural, due to positive sentiment, investment thrust in road and infrastructure projects, coupled with moderate inflation. The demand was helped by ease of affordable finance, while new launches by OEMs created the necessary excitement in the market. Cost of ownership of an automobile is an important factor for demand, and in Financial Year 2018, this factor was also on the positive side due to benign price hikes and moderate fuel price hikes for most part of the year.

The table below shows the size of various segments of the Indian auto industry for the periods Financial Year 2016-17 and Financial Year 2017-18 and the growth rates, spanning Financial Years 2015-16 to 2017-18:

| Industry Segment | Domestic Sales | | YoY Growth | | |

The results of these efforts can be seen from the improvement in scores for sales satisfaction and customer service for Mahindra brand. For the year 2017, your Company was ranked #1 in J.D. Power India Sales Satisfaction Index (Mass Market) StudySM. Scores in the J.D. Power India Customer Service Index (Mass Market) StudySM have improved from 798 in the year 2012 to 871 in the year 2017.

Overseas Operations – Automotive Sector

The Automotive Sector of your Company exported a total of 28,222 vehicles during the Financial Year 2018, a de-growth of

24.2% over the previous year. This de-growth is principally due to adverse business and regulatory environment in key markets of Nepal and Sri Lanka. Sales in Africa grew by 13%.

Your Company continued efforts to grow presence and strengthen brand in key international markets. In September, 2017, your Company inaugurated a CKD facility in Bangladesh. The facility has commenced operation with the launch of the 'Made in Bangladesh' Jeeto Human Hauler. In April, 2018, the KUV100 NXT was launched in Italy.

In March, 2018, Mahindra Automotive North America (MANA), a second level subsidiary of your Company, launched ROXOR - a new Off-Road vehicle in the powersports segment in USA. ROXOR was conceived, designed, engineered and is being produced in Detroit, USA by MANA which recently opened a new North American Automotive headquarter and manufacturing center in the USA.

FARM EQUIPMENT SECTOR

Tractors

For the period under review, your Company sold 3,17,531 tractors (domestic plus export), under the Mahindra and Swaraj brands, as against 2,63,177 tractors sold in the previous year, registering a growth of 20.7%. This is the highest ever volume for your Company.

In the domestic market, your Company sold a total of 3,02,082 tractors, which is a growth of 21.5% over the previous year.

In Financial Year 2018, your Company launched a third tractor brand in the domestic market - 'Trakstar' under Gromax Agri Equipment Limited (earlier known as Mahindra Gujarat Tractor Limited), which is the new corporate brand identity of your Company's subsidiary. Gromax will focus on providing affordable mechanization solutions to the farming community in the 30 to 50 HP segment.

Your Company's market share (including Gromax) for the year under review stood at 42.9%. This is the highest ever market share for your Company and your Company maintained the leadership position of the domestic tractor market for the 35th consecutive year.

In March, 2018, Mahindra Automotive North America (MANA), a second level subsidiary of your Company, launched ROXOR - a new Off-Road vehicle in the powersports segment in USA.

The volume growth for your Company was driven by the good performance of all products under the Mahindra and Swaraj brands.

The new product trio of Mahindra NOVO, YUVO and JIVO helped build the 'technology leadership' image for the Company. JIVO, the sub 25 HP tractor, which was launched in Financial Year 2018, proved to be an ideal choice for farmers in the fast-growing orchard and horticulture space. YUVO the technologically advanced tractor, helped gain market share in the 40-50 HP and the 30-40 HP segments and NOVO continues to strengthen your Company's presence in the >50HP segment.

In the higher HP segment, your Company launched two key offerings. In March, 2018, Swaraj 963 - the all new tractor platform in 60 to 75 HP segment was launched. Suited for wide range of applications, Swaraj 963 is designed to offer higher productivity, reliability, durability with ease of maintenance. In April, 2018, under the Mahindra brand, your Company launched the NOVO 65 and 75 HP tractors. These tractors create new benchmarks in technology and productivity with wide array of world class/category first features.

Further, your Company has developed and demonstrated technology for driverless tractors. First phase of this technology will be made available in the market in Financial Year 2019. With this, your Company would take another pioneering step to revolutionise farming in India.

Farm Mechanisation

Farm mechanisation is an important enabler to address the concerns of farm productivity and labour shortage. Your Company has presence in the mechanisation space through Mahindra AppliTrac, which offers efficient and affordable mechanisation solutions across the spectrum of farming operations. These include rotary tillers, cultivators, harvesters, and rice transplanters.

For the year under review, Mahindra AppliTrac saw good growth owing to significant increase in volumes of cultivators and rotavators. Harvester segment also saw a good growth due to increase in food grain production particularly Rice and Wheat.

Your Company's market share (including Gromax) for the year under review stood at 42.9%. This is the highest ever market share for your Company and your Company maintained the leadership position of the domestic tractor market for the 35th consecutive year.

Through the investment in M.I.T.R.A Agro Equipments Private Limited, a Maharashtra-based AgTech company, your Company made a foray into sprayer business for horticulture segment. Through a partnership with DeWulf Group, a Belgium based world class manufacturer of agricultural machinery, your Company will be able to bring the latest technology for potato planting to India.

Global Footprint – Farm Equipment Sector

For the year under review, your Company exported 15,449 tractors (including 298 CKD) as compared to 14,583 tractors (including 156 CKD), a growth of 5.9%. This is the highest ever export of tractors by your Company from India.

Your Company strengthened its position in neighbouring markets of Sri Lanka, Nepal, Bangladesh and Myanmar, and continued to grow in key markets of USA, Mexico and Brazil.

Mahindra USA Inc., a subsidiary of your Company, sold 22,636 tractors and posted record sales with a growth of 8.4%. Mahindra USA continues to expand its reach and strengthen the Mahindra brand in the North American market, by connecting with the consumer through various mediums.

Further strengthening on-ground presence in Mexico, your Company started a CKD facility, with an aim to grow Mahindra brand in Mexico. Mahindra Mexico S.De.R.L.DE.C.V is a fully owned subsidiary of Mahindra USA.

Mahindra do Brasil Industrial Ltda, your Company's tractor CKD facility in Brazil, completed one successful year of operation and is helping your Company to build on-ground presence in Brazil.

With an objective to strengthen the global footprint, your Company is pursuing organic as well as inorganic growth opportunities.

ALLIED BUSINESSES

Mahindra Powerol

Under the Mahindra Powerol Brand, your Company has been a leader in providing power back-up solutions to the telecom

industry for the past 11 years. With a focus on changing customer needs, your Company has further expanded the business in tele infra management and in the energy management solutions space.

In the retail genset business, your Company is the No.2 brand by volume, and for the year under review, expanded the product range with the launch of gensets in the higher KVA range.

With a focus on offering greener solutions, your Company now offers energy solutions through green gensets, powered with Lithium ion batteries. Further, in June, 2017, your Company incorporated Mahindra Waste To Energy Solutions Limited as a new subsidiary to carry out activities in relation to conversion of organic waste to energy and organic fertilizer as a by-product.

Construction Equipment — Mahindra EarthMaster

For the year under review, your Company (under the Mahindra EarthMaster brand) sold 1,229 Backhoe Loaders (BHLs) against 1,025 in Financial Year 2017, which is a growth of 19.9%. With an uptick in infrastructure spending, the BHL market in India grew 23.5% over the previous year. Your Company ranks 4th in the BHL industry.

RoadMaster G75 is the only indigenously developed product in the motor grader space and is developed keeping in mind the needs of road contractor fraternity of maximizing the efficiency of operations.

Two-Wheeler Business

During the year under review, the two-wheeler business of Mahindra Two Wheelers Limited was demerged into your Company. For the Financial Year 2017-18, your Company sold 32,661 two-wheelers (including 17,912 exports). The business, is in the process of realigning its strategy.

OPPORTUNITIES AND THREATS

Automotive Sector

Given the importance of the automobile industry to the economy, its potential for generating employment opportunities and its backward and forward linkages with several sectors, the Government is keen to support its development under the 'Make in India' initiative.

Your Company strengthened its position in neighbouring markets of Sri Lanka, Nepal, Bangladesh and Myanmar, and continued to grow in key markets of USA, Mexico and Brazil.

Going forward, the Auto Industry is expected to show good growth across all segments on back of healthy economic outlook, finance penetration, urbanisation, investment in roads, infrastructure and new launches by OEMs.

Growing concerns over air pollution, road safety, sustainability and urban congestion – among consumers and society at large, are driving the regulations and policies for motor vehicles and urban development. These will impact choice of fuel, ownership patterns and will have a significant impact on the future of the automotive industry.

The Government has already announced the plan for migration to BSVI emission norms for all vehicles from April, 2020. Similarly, the Government has announced the plan for migration to new safety norms under Bharat New Vehicle Safety Assessment Program (BNVSAP) by Financial Year 2019 for new vehicles and Financial Year 2020 for existing vehicles.

With an objective of improving air quality and reducing the fuel import bill, the Government is very actively pursuing the plan for electrification of the vehicle fleet and very aggressive targets for Electric Vehicle adoption have been set by NITI Aayog, in a report released in May, 2017.

Increasing need for advanced technologies in the vehicles, competitive intensity and ever spiralling customer expectations - calls for increased R&D, closer working with suppliers, shorter product life cycles and rigorous monitoring of costs.

Farm Equipment Sector

Strong Government support for improvement in agriculture productivity, greater adoption of improved agricultural practices and rural development at large, is expected to drive sustainable growth in agriculture sector. The Government has put in place a program for doubling the farmer's income by 2022.

India, with its large base of small and marginal farmers, has several regions with low penetration of farm mechanisation. With increasing labour cost and labour scarcity, greater adoption of various forms of mechanization is the way forward. In this scenario, the market for tractors and other farm equipment is expected to grow in the long term.

Going forward, the Auto Industry is expected to show good growth across all segments on back of healthy economic outlook, finance penetration, urbanisation, investment in roads, infrastructure and new launches by OEMs.

India being the world's largest tractor market with a growing rural economy presents a good opportunity for players in the farm mechanization space. Hence going forward, the competitive intensity in the farm mechanization space is expected to increase, leading to new product launches and product offerings at high value points. Also, the customer expectations of performance, quality and technology are increasing with time. Staying ahead of competition by offering products with modern technology and features is likely to put pressure on costs.

Allied Businesses

The rising demand for power backup solutions and infrastructure development will create opportunities in the power generation and infrastructure equipment space. This is an opportunity for the Company to grow its offerings in power solutions and construction equipment.

RISKS AND CONCERNS

Automotive and Farm Equipment Sectors

The Company's business is exposed to many internal and external risks and it has consequently put in place robust systems and processes, along with appropriate review mechanisms to actively monitor, manage and mitigate these risks.

Competitive Intensity

Keeping in mind the high growth potential of the Indian automotive market, all OEMs, homegrown as well as MNCs, have presence across all vehicle segments. Today, multinational OEMs are now deeply entrenched in the Indian market with local development centres, a strong local supplier base and good channel penetration.

In the Passenger Vehicle Segment (PV), the differentiation between cars and UV has largely blurred. There is great demand for compact UVs with car like features. As of now, 45% of UV sales are from UVs less than 4m length, while UVs as a share of PVs stand at 28% (was 14% in 2012). The competitive intensity in the segment will only increase.

The LCV < 3.5T Commercial Vehicle Segment (CV), which is 55% of the CV Goods industry, where your Company is the market leader. However, there

India being the world's largest tractor market with a growing rural economy presents a good opportunity for players in the farm mechanization space.

is increased competition with new and competitive launches from homegrown as well as MNC brands.

The medium and heavy commercial vehicle segment, has two dominant domestic players and in the recent past, has witnessed new entrants including MNC brands. However, the new entrants have seen limited success owing to the strong on ground presence of current market leaders and deep-rooted brand bonding.

With aim to remain competitive in the market and sustain leadership, your Company continues to invest in new product development, technology upgrades, increasing channel reach, and the focus on delivering customer centric products, services and build brand. Another significant focus area for your Company is building cost competitiveness and altogether, your Company is striving to drive profitable growth.

India is the world's largest tractor market by volume and the Tractor industry has presence of strong Domestic as well as MNC OEMs. There is intense competition in the market with each OEM trying to offer its unique value proposition to the customer.

Your Company intends to remain ahead of the competition by offering continuous product upgrades, introducing superior technology and by offering a complete range of farming solutions to boost farm productivity.

Tax Regulations

India has traditionally seen tax rate differential between small and large passenger vehicles. This differential is based on length of vehicle, engine size and fuel type. The differential tax rates are a deterrent to the customer for buying large and luxury vehicles. This differential in tax rates gets carried forward under the GST regime implemented in July, 2017.

While the flagship products of your Company attract higher tax rates, your Company is continuously working on strengthening the portfolio of vehicles that attract lower tax rates.

Choice of Fuel and new emission norms

The customer's choice of fuel type, has been essentially governed by the operating economics, which in turn is driven by (i) Cost differential between petrol and diesel fuel, and (ii) Higher taxation on certain class of Diesel vehicles, arising from concerns over clean air. In addition to impacting operating economics, this also leads to a negative perception for diesel as a fuel.

Since deregulation of fuel prices in October, 2014, the gap between petrol and diesel process has narrowed significantly. This narrowing price gap, in combination with higher taxes on certain categories of diesel vehicles, have led to decrease in demand for diesel fuelled passenger

vehicles. The share of diesel vehicle sales in total passenger vehicles has dropped from 58% in the Financial Year 2013 to 40% in the Financial Year 2018. However, the decline in share of diesel vehicles has stabilised at 40% over the last 8 quarters.

Going further, the Government has announced the implementation of BSVI emission norms from 1st April, 2020. With this, the concern over cleanliness of diesel emission will go away, but there is a cost differential involved in meeting BSVI emission norms for Petrol and Diesel vehicles, with Diesel emission being higher. This differential is likely to put pricing pressure on the diesel fuelled vehicles with BSVI implementation.

Your Company is actively pursuing a strategy to develop and introduce Petrol engines across the product range. Further, there are aggressive time and cost targets for meeting BSVI emission for diesel engines. Progress on the development of Petrol powertrains as well as development of BSVI emission technologies within the time and cost targets is satisfactory.

For tractors, likely introduction of new emission norms (TREM IV), will call for additional investments by OEMs and increase in material cost for the tractor. This increase in cost will need to be passed on to the customer. Your Company will do its best by exploring innovative means to keep the costs under control.

New Regulation for Safety

Concerns over road safety are driving legislation and regulatory reforms. The Government of India has already announced the implementation timelines for the next level of safety regulations for India. The new safety regulations are being rolled out under the name of Bharat New Vehicle Safety Assessment Program (BNVSAP). These will be applicable from Financial Year 2019 for new vehicles and Financial Year 2020 for existing vehicles.

Conforming to the next stage of safety regulations will call for use of advanced technologies and will have an impact on costs. Your Company is geared up and is confident of meeting these regulations.

Your Company is actively pursuing a strategy to develop and introduce Petrol engines across the product range.

Introduction of Roll Over Protection System (ROPS) in tractors, will require investment in technology and increase the material cost, thus putting pressure on the overall cost structure.

New Products

To remain competitive in the market, for exceeding customer expectations and to meet requirements of legislation, your Company has an aggressive programme for development of new products and technologies. The success of new product launches will have an important bearing on its future growth and profitability of the Company.

Environment and Alternate fuels

With concerns over air quality and the need to reduce dependence on fossil fuels, the Government is actively pursuing large scale adoption of Electric Vehicles (EVs), especially for intra-city uses.

Your Company is a pioneer for EVs in India, and is actively pursuing development of the EV market, products and technology. However, due to the push from the Government for adoption of EVs, and the potential market opportunity, almost all leading OEMs and some new players, are actively pursuing development of EV technologies and products, across vehicle categories. The competition in the EV space is expected to be intense.

Today, your Company's EV portfolio comprises of the e₂o+ electric car, eVerito, and the Supro EV cargo/van and the e-Alfa 3W. Keeping in mind the needs of the future, your Company is developing eKUV (EV version of the compact SUV KUV100) and the 3W – TREO. The Company, through its subsidiary Mahindra Electric Mobility Limited (MEML), is investing in development of next generation EV technologies, which include 380 V powertrain, high efficiency drive train motors and local manufacturing of batteries. In parallel, your Company is closely working with the Government, both at the Centre and at the State level and other participants of the mobility ecosystem to create an EV ecosystem in India.

Monsoon

A normal monsoon is important for both agriculture as well as the rural economy and sentiment at large. The tractor business

Your Company is a pioneer for Electric Vehicles in India, and is actively pursuing development of the Electric Vehicle (EV) market, products and technology.

in particular and the automotive business to some degree, run the risk of a drop in demand, in case of a significant variation in the monsoon. In addition, an untimely monsoon and uneven spread have the potential of adversely impacting the business as observed in the Financial Years 2015 and 2016.

Commodity Prices

Financial Year 2017-18, saw a sharp increase in commodity prices. Steel products such as castings, forgings and sheet metal saw an unprecedented increase in second half of the Financial Year. The uptrend in commodities is expected to continue in the coming Financial Year. Your Company continues to work on mitigating the inflationary impact through cost re-engineering and value engineering activities.

Capacity

Your Company has built adequate manufacturing capacity for the immediate future and is planning to invest in additional capacity in preparation for the mid to long term prospects. Specifically, on the front of Electric Vehicles, your Company will invest over Rs.500 crores in its Electric Vehicle (EV) Project under the new EV Policy of the Government of Maharashtra. This investment will be utilized towards product development and capacity enhancement for Electric Vehicles and related components.

On the supplier end, the Company is working closely with its key suppliers to minimise any supply constraints through capacity planning and longer-term contracts. At the same time, opportunities for global sourcing are also being actively pursued.

your Company is closely working with the Government, both at the Centre and at the State level and other participants of the mobility ecosystem to create an EV ecosystem in India.

OUTLOOK – AUTOMOTIVE & FARM SECTORS

Both the Automotive and Farm Sectors strive to sustain profitable growth, maintain leadership position in the domestic market and at the same time, explore global opportunities for growth. Simultaneously, your Company continues its focus on achieving cost leadership through focused cost optimisation, productivity improvements, value engineering, supply chain management and exploiting synergies between various group businesses.

Automotive Business

The mid-term outlook for the Indian auto industry is very positive. SIAM (Society of Indian Automobile Manufacturers) have forecasted the PV and CV industries to grow in double digits. The potential size of the Indian vehicle market (PV + CV) by the Financial Year 2021-22 will be as large as ~5.8 million vehicles (current size 4.14 million). This is a growth rate of ~9.0% CAGR.

SIAM (Society of Indian Automobile Manufacturers) have forecasted the PV and CV industries to grow in double digits.

In the Financial Year 2019, automotive industry growth is likely to be driven by economic growth, increased investment in road and infrastructure projects, third year of normal monsoon and an overall improvement in consumer confidence. Seventh pay commission pay-outs will also help drive demand for automobiles and tractors.

Crude oil prices are likely to go up as compared to Financial Year 2018 levels, which in turn are likely to cause inflationary pressures in the economy, leading to possible hardening of interest rates. The cost of ownership of vehicle could see some increase over Financial Year 2018, partly coming from increase in fuel prices, partly from price hikes resulting from hardening in commodity prices and partly from increase in interest rates.

For the Financial Year 2019, SIAM forecasts a good growth for the Indian Auto Industry. The PV industry is expected to grow between 8-10%, LCV goods at 11-13%, CV total at 10-12%, a 3-5% growth in the 3W segment – mostly in the 3W goods space and the 2W industry is expected to grow at 4-6%.

On the export front for the auto business, recent product launches, complimented by brand building efforts will help push growth for your Company.

Tractor and Farm Equipment Business

The tractor industry growth for the Financial Year 2018 is expected to be driven by a positive sentiment in rural India, emanating from a third consecutive year of a normal monsoon, increased agri production - resulting in good agri incomes. Continued

Continued thrust of Government for development of agri and rural sector will also help keep the sentiment upbeat.

thrust of Government for development of agri and rural sector will also help keep the sentiment upbeat.

On the international front for the tractor business, your Company will focus on strengthening its presence in existing markets of USA, South and Central America, Africa and neighbouring markets, while exploring to expand to newer geographies. Your Company will continue its efforts to grow and draw synergies from the recent alliances and acquisitions of MAM, SAMPO, Hisarlar and Erkunt.

STRATEGY

The Business landscape is changing very rapidly and so are the enablers for success. What have been the winning combinations in the past, is no more a winning formula today and in times to come.

In the past, success was about getting the right product at the right cost through an efficient channel. Going into the future, the product, cost and the channel will be essential, but not sufficient. Much more will be needed to win at the marketplace. The winning mantras are going to be around providing a solution, delivering an experience and having a purpose. Customers are also increasingly assigning value to a company that has a purpose.

The winning mantras are going to be around providing a solution, delivering an experience and having a purpose. Customers are also increasingly assigning value to a company that has a purpose.

Your Company realises this, and hence has already started the shift from just offering products, to providing a solution and delivering an experience, with the product becoming an enabler. Rise, is the purpose of your Company.

Automotive Sector

With an objective to sustain growth, your Company is pursuing several strategic initiatives in all key areas of business. The key elements of strategy include strengthening the product portfolio, refresh and update existing products and strengthen Research & Development (R&D) and technology capabilities. Technology focus areas are around gasoline engines, emission, safety, connected vehicles and electric vehicles. In addition, your Company is pursuing expansion in overseas markets. Establishing the channel and building the brand in key focus markets remain the priorities for your Company.

During the year under review, your Company and Ford Motor Company agreed to explore a strategic alliance - designed to leverage the benefits of Ford's global reach and expertise and Mahindra's scale in India and successful operating model. In March, 2018, the two companies signed MoUs to co-develop midsize and compact SUV, electric vehicle and connected car solutions.

With the Government's thrust on rapid adoption of EVs, your Company being the pioneer in EVs in India, continues to focus and invest in development of new products and advanced technologies specific to electric vehicles.

Farm Equipment Sector

The Farm Equipment Sector's strategy is focussed to deliver 'Farm Prosperity' to the farmers. The strategy looks at farming from a holistic view, with an intent to catalyse next revolution in farming. For this, your Company will continually strive to deliver farming knowhow and technologically superior - crop specific mechanisation solutions.

With the objective of being a global farm machinery player, your Company has done strategic acquisitions in this space and has built a farm machinery portfolio for global markets. Acquired in Financial Year 2016, Mitsubishi Agriculture Machinery, Japan, now, known as Mahindra Mitsubishi Agriculture Machinery (MMAM), is the Centre of Excellence for rice value chain. Sampo Rosenlew (Finland), acquired in Financial Year 2016 is helping address the global combine harvester business.

Turkey is the 4th largest tractor market in the world by volume. To strengthen the presence in this strategic market, your Company acquired Hisarlar in Financial Year 2017 and then Erkunt Traktor Sanayii A.S. (Erkunt) in Financial Year 2018. Erkunt is the 4th largest tractor brand in Turkey.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES AND EMPLOYEE RELATIONS

The strategic purpose of Human Resources is to be a catalyst for creating the Human Capital transformation required to ensure sustained business outperformance, while simultaneously addressing the needs of its multiple stakeholders (beginning with customers and employees) and strengthening the core values of the Group. In the long run, the ultimate metric for success is continuous improvement in the total factor productivity, while addressing the business imperatives of cash, cost, competence and confidence. The emphasis has been on aligning all the HR levers towards achieving these goals. In line with the above, the Group's Human Resources Philosophy

is guided by the three Rise Pillars of Accepting No Limits, Alternative Thinking and Driving Positive Change, and the Group's aspiration of being among the top 50 most admired global brands by 2021, by enabling people everywhere to Rise.

In this overall architecture, a key strategic initiative that needs mentioning is Employer Branding, coupled with the Employee Value Proposition of delivering a uniform One Mahindra experience to all employees.

Talent Management, Leadership Development and Performance Management Systems

Focus continued on the Talent Management, Leadership Development processes and Performance Management System, which included Development Centres, Individual Development Planning, e-learning, up-skilling programs, Leadership Lifecycle programs and Action-Learning Projects.

The Tech Ladder implementation in Mahindra has been a response to one of the biggest challenges the Company has been facing in Talent Management. Over years, the Company has lived with the dilemma of how to build a healthy pipeline of talent in specialist areas especially of Product Development and manage careers of people in these areas. In the past, several attempts had also been made to implement some ideas in this regard, but without success. The HR Team spent a good amount of time with the key stakeholders including the top management to detail out the objectives, gaps in the current system, benchmarking of Global organizations, especially in technology space before actually starting to design and implement the solution. The critical success factor was the ability of the team to engage with and involve over 700 people at the Mahindra Research Valley and the leadership team, to come out with an architecture, which is relevant and highly doable. The team has also taken it to its logical execution. What the Company has today as Tech Ladder, could well be redefining the capability building and talent management of technical functions as a first of its kind in the industry.

MLU portal has been created as a one-stop center for visibility of all offerings across the Group, both existing and new cutting-edge offerings. The portal is powered by a Group-wide Learning Management System (LMS) that has been implemented by the Company. The learnings can be leveraged among the Group to enable line of sight of learning modules and participate in those that create visibility and attractiveness to an employee from his/her capability perspective.

The Mahindra Leadership University (MLU) is a strategic initiative to support the Group in its journey of being one amongst the Top 50 most admired Global brands by 2021.

During the past one year, MLU using the framework of a ladder approach conceptualised, designed and delivered over 172 workshops (including 77 new offerings) through its academies. This ladder approach to leadership development recognises and addresses the need for varying inputs tailored to the different levels of leadership in the Mahindra Group. To cater to the unique requirements of the Services Businesses of the Mahindra Group, the Service Excellence Academy was launched in February, 2017.

Reflective Conversations

The journey of Reflective Conversations continues with the aim to make Mahindra a Reflective Organization, thereby enabling the Company to grow towards the Group's aspiration. The proliferation, which began with Mr. Anand Mahindra and the Group Executive Board in July, 2013, has cascaded down to Department Heads and a few Managers, now covering around 2,000 employees across multiple businesses of the Group. To ensure cultural transformation and sustenance, the ecosystem for the practice of Reflective Conversations is being strengthened with more focus on building a pool of trainers internally, focused reinforcement, role-modelling by leaders and partnership with stakeholders across Sectors to fully harness the power of Reflective Conversations in HR and Business levers for higher engagement, better connect with stakeholders and breakthrough innovation.

To further facilitate practice and to build a culture of Reflective Conversations, the Company has continued with its Coach Certification Program titled 'Mahindra Certified Reflective Conversationalist' (MCRC) to develop leaders as Executive Coaches. The MCRC program has been certified as a value-add to develop coaching capability by the International Coach Federation (ICF), United States of America. High potential

executives have benefited from the executive coaching extended to them by MCRC participants.

Future Leaders Program

In January, 2017, the Company completed its first cohort of the Future Leaders Program (FLP), a strategic Leadership development and Talent management journey for the Group. FLP was an 18-month development journey through a three-way collaboration between IMD Lausanne, the Yale School of Management, USA, and the Mahindra Leadership University.

develop women managers in the middle management to create a pipeline of female leaders for the Mahindra Group. To spread awareness about fostering an environment of inclusivity, various media such as Audio Visuals, websites, stories, best practice sharing and awards were used. Mahindra Group was awarded as the first runners-up in the United Nations Global Compact Network India (UN GCNI) Best Innovative Practices for Women at Workplace for its Women Leaders Program.

Group Management Cadre

The Group Management Cadre (GMC) Program is the Group's prestigious strategic leadership development program for campus recruits sourced from top B-schools of India. This program continues to strengthen Mahindra's position as an 'Employer of Choice' across premier B-School campuses and create a strong talent pool to drive Mahindra's future growth. Through this program, 27 GMCs joined the Group in 2017 across its various Sectors and functions.

The Mahindra War Room

The Mahindra War Room, which is a pioneer in its field, continues to retain its position as the largest and the most-liked Employer

Branding Events in the top B-schools of India (as was evident from the Nielsen Campus Track Survey, 2017). The 10th Edition of the event was rolled out between July and November, 2017, whereby Mahindra reached out to the brightest young minds across the top B-Schools of India, and four other International colleges, including Yonsei University - South Korea; Fudan University - China; Asian Institute of Management – Manila and Nanyang Business School – Singapore, to provide them with an experiential dimension to learning, thus enabling them to creatively present their solutions for real business issues directly to the respective business heads. The Grand Finale of the event happened at Grand Hyatt on 6th November, 2017 in the presence of the Group Executive Board Members who were also the jury for the event. Team Chaarpai from IMT Ghaziabad were winners and Team Howitzers from IIM Lucknow stood Runners Up for the event.

Best Companies to Work for

This year Mahindra & Mahindra was ranked 14th in the annual Business Today's *Best Companies to Work for* Awards 2018 recognising top 25 employers, across industries in the country. This achievement and recognition was mirrored by the rank given out by *Great Places to Work* last year, wherein the Company was adjudged the 23rd best place to work in India and ranked among top 10 in *India's Best Companies to Work for* in the Manufacturing category. The consistent appearance in the Top 25 best places to work for in India for last three years only reaffirmed the belief that any recognition and strength of the employer brand in the external audiences is built by consistently working towards providing employees a great day-to-day experience at the workplace.

The Rise Awards

The Rise internalization programs not only cover Officers but also Workmen on the shop-floor, with whole-hearted participation by the latter in each manufacturing plant. Rise Awards were institutionalized for workmen across the Group, through competitions at the Plant, Sector and Group Levels. The awards ceremony was

Rise@Work and M-Advocates

Social media is being effectively leveraged as a tool for employee collaboration and brand advocacy. In this regard, a Groupwide collaboration platform called Rise@Work was launched with over 27,000 users across the Group. There are plans to enhance employee coverage and user engagement with the platform. An integrated social media architecture to build the Mahindra employer brand through the social media space has also been launched and branded as M-Advocates.

Multi-rater Feedback

An in-house Multi-rater feedback instrument has been designed to provide feedback to Senior Leaders on the behaviours manifested under the three Rise pillars and the five Leadership characteristics. A total of 1,100 employees have been covered so far and there are plans to expand the scope and coverage of the instrument. This manifestation will go a long way in building admiration for the employer brand.

Transformational Work Culture

The Transformational Work Culture initiative which aims to create an engaged workforce and an innovative, productive and competitive shop-floor ecosystem, continues to grow in strength. The Transformational Work Culture Committee (TWCC) continually engages with long-term strategic initiatives which range from anticipated Labour Law reforms to 'Swachh Bharat Abhiyaan', Rise for Associates, Industrial Relations Skills for Frontline Officers, Transformational work culture Projects, e-Compliance, e-Quiz for associates, e-portal on reward and recognition for associates, e-safety module, Code of Conduct for Associates, Skill and employability enhancement training and workshops for flexi workforce and cutting-edge ER Practices under MLU.

Industrial Relations

The Industrial Relations scenario continued to be largely positive across all Mahindra Automotive Manufacturing locations and during the year there have been three wage settlements which were concluded. The wage settlement in other two locations are on the verge of finalisation. Settlements for bonus have

been a win-win and the Company continues to maintain a cordial, harmonious and collaborative work environment.

In order to foster holistic development of associates, focus on skill and will are of utmost importance. Hence, a series of various new behavioural training programs and awareness capsules were rolled out which sustained the regular training programs. These training programs covered a wide range of topics, including business acumen, customer sensitivity, building winning spirit, ownership and achievement mindset, working together as a team, Human Rights, Code of Conduct, including Union leadership development programs. Certain key programs to improve knowledge base resulting into productivity, quality improvement initiatives like poka-yoke, innovation and creativity, and behaviour-based safety were majorly on radar. System orientation program such as Safety and Environment, quality tools and TPM were given major thrust across all plants. The scope of program is widened enough to include flexi workforce as well.

Mahindra Skill Excellence

The Mahindra Skill Excellence Initiative has been further strengthened and sustained to enhance the skill on shop-floor. The participation from associates across manufacturing facilities has increased in the last four years from 2,400 of last year to 3,000 this year. This initiative has helped the Company to motivate the employees across Plants and give up-skilling a serious and methodical approach. The initiative has brought laurels by winning awards in IndiaSkill competition, CII regional work Skill Competition and National level Indian Institute of Welding competition. The Company's associates also got selected for World Skills and Beijing Arc Cup Competition. The associates are now participating in 'Beijing Arc Cup Competition' for the third time. For the year under review, there has been a strategic orbital shift in the skill building initiative for associates. A focused effort has been laid to develop associates on future skills such as mechatronics. Besides, ideas were generated by Associates to resolve quality concerns, reduce cost, ensure safety and improve productivity. The shop floor associates implemented 17 ideas per person resulting into benefits in Quality, Productivity, Safety, Sustainability and Cost.

A Healthy Work Environment

The cornerstones of the Company's employee relations approach are:

- Proactive and employee-centric shop floor practices;
- A relentless focus on transparent communication of business goals through monthly Plant Head communication;

- An effective concern resolution mechanism;
- The firm belief that employees are the most valuable assets of the Company.

The Company had a total of 20,867 employees on its rolls as on 31st March, 2018.

An 'open door policy' and constant dialogue to create win-win situations have helped the Company to build trust and harmony. All this resulted in zero production loss in the Financial Year 2017-18 and helped create a peaceful, healthy and collaborative work environment.

The Company had a total of 20,867 employees on its rolls as on 31st March, 2018.

Internal Control Systems

Your Company maintains adequate internal control systems commensurate with the nature of its business and size and complexity of its operations. These are regularly tested for their effectiveness by Statutory as well as Internal Auditors. Your Company's Internal Financial Controls are deployed through Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), that addresses material risks in your Company's operations and financial reporting objectives. The framework is a combination of entity level controls (including Enterprise Risk Management, Legal Compliance Framework, Internal Audit and Anti-Fraud Mechanisms such as Ethics Framework, Code of Conduct, Whistle Blower Policy, etc.), process level controls, information technology based controls, period end financial reporting and closing controls.

Further, the Internal Control Systems have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information. In the highly networked IT environment of the Company, validation of IT Security receives focused attention from IT specialists and Statutory Auditors. Your Company has a strong and independent Internal Audit function consisting of professionally qualified accountants and engineers. The Chief Internal Auditor reports directly to the Chairman of the Board. The Internal Audit function develops an audit plan for the Company, which covers, inter alia, corporate, core business operations, as well as support functions. The Audit Committee reviews the annual internal audit plan. Significant audit observations are presented to the Audit Committee, together with the status of the management

actions and the progress of the implementation of the recommendations.

The Audit Committee reviews the adequacy and effectiveness of the Company's internal control environment and monitors the implementation of audit recommendations. During the year, the Company has taken steps to review and document the adequacy and operating effectiveness of internal controls. Nonetheless, your Company recognises that any internal control framework, no matter how well designed, has inherent limitations and accordingly, regular audits and review processes ensure that such systems are reinforced on an ongoing basis.

Your Company's Management has carried out the evaluation of design and operative effectiveness of these controls and noted no significant deficiencies/material weaknesses that might impact financial statements as at the Balance Sheet date.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

Overview

The financial statements have been prepared in accordance with Ind AS as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

The Group's consolidated financial statements have been prepared in compliance with Ind AS 110 on Consolidation of Accounts and presented in a separate section.

FINANCIAL INFORMATION [STANDALONE]

Property, Plant and Equipment and Other Intangible Assets:

As at 31st March, 2018, the Property, Plant and Equipment and Other Intangible Assets stood at Rs. 10,988 crores as compared to Rs. 9,811 crores as at 31st March, 2017. During the year, the Company incurred capital expenditure of Rs. 2,683 crores (previous year Rs. 2,219 crores). The major items of capital expenditure were on new product development and capacity enhancement.

Borrowings:

| | 2018 | 2017 | Inc./ (Dec.) |
|--|--------------|--------------|--------------|
| Long Term Borrowings | 2,196 | 2,234 | (38) |
| Short Term Borrowings | 668 | 539 | 129 |
| Current Maturities of Long Term Borrowings | 94 | 78 | 16 |
| Unclaimed Matured deposits | 1 | 1 | - |
| Total | 2,959 | 2,852 | 107 |

Borrowings (including current maturities of long term debt and unclaimed matured deposits) have increased from Rs. 2,852 crores in the previous year to Rs. 2,959 crores in the current year mainly due to increase in short term borrowings.

Inventories:

| | 2018 | 2017 |
|--|------|------|
| Raw materials and bought out components as a % of cost of materials consumed | 4.2% | 3.9% |
| Finished goods and Stock-in-trade as a % of sales of products | 2.9% | 3.5% |

Raw materials and bought out components as a % of cost of materials consumed has marginally increased mainly on account of build-up for production in view of upcoming growth in F19. However, finished goods and Stock-in-trade as a % of sales of products has decreased mainly on account of lower build-up in finished goods inventory and increased sales.

Trade Receivable:

Trade Receivable is Rs.3,173 crores as at March 31, 2018, as compared with Rs.2,939 crores as at March 31, 2017. Also, as a percentage of gross revenue from sales of products and services, trade receivable is higher at 6.5% for the year ended March 31, 2018, as compared to 6.3% for the previous year mainly on account of growth in tractor sales.

RESULTS OF OPERATIONS

Income:

(Rs. in crores)

| Particulars | 2018 | | 2017 | | Inc./(Dec.) |
|---|---------------|--------------|---------------|--------------|-------------|
| | Amount | % | Amount | % | % |
| Sales of Products | 48,288 | 99.3 | 46,247 | 105.2 | 4.4 |
| Sale of Services | 583 | 1.2 | 462 | 1.1 | 26.2 |
| Other Operating revenue | 574 | 1.2 | 675 | 1.5 | (15.0) |

| Less : Excise Duty on Sales | 812 | 1.7 | 3,404 | 7.7 | (76.1) |
| Net Sales & Income from Operations | 48,633 | 100.0 | 43,980 | 100.0 | 10.6 |
| Other Income | 1,036 | 2.1 | 1,345 | 3.1 | (23.0) |

Net Sales, Income from Operations & Other Income:

The net sales and income from operations of the Company increased by 10.6% as compared to the previous year mainly driven by superior performance of the tractor business.

The Government of India introduced the Goods and Services Tax (GST) with effect from 1st July, 2017. GST is collected on behalf of the Government and no economic benefit flows to the entity and hence Income from Operations under GST regime is presented excluding GST as per Ind AS 18 'Revenue'. However, Income from Operations under pre-GST regime included Excise Duty which is now subsumed in GST. Consequently, the figures for the year ended 31st March, 2018 are not comparable with the previous period presented in the above table.

Other income during the Financial Year 2017-18 at Rs. 1,036 crores is lower than Rs. 1,345 crores earned in the previous year mainly on account of lower gain with respect to investment option valuation and dividend income during 2017-18 as compared to 2016-17.

| Particulars | 2018 | | 2017 | | Inc./(Dec.) |
|---|---------------------|---|---------------------|---|-------------|
| | Amount (Rs. crores) | % to Net Sales & Income from Operations | Amount (Rs. crores) | % to Net Sales & Income from Operations | % |
| Material Costs | 34,135 | 70.2 | 32,081 | 72.9 | 6.4 |
| Employee Benefits Expense | 2,841 | 5.8 | 2,714 | 6.2 | 4.7 |
| Finance Costs | 112 | 0.2 | 160 | 0.4 | (30.0) |
| Depreciation, Amortisation and impairment Expense | 1,479 | 3.0 | 1,526 | 3.5 | (3.1) |
| Other expenses | 5,434 | 11.2 | 4,670 | 10.6 | 16.4 |
| Total Expenses | 44,001 | 90.5 | 41,151 | 93.6 | 6.9 |

Expenditure:

The total expenditure during the year as a percentage of net sales and income from Operations is 90.5% as compared to 93.6% in the previous year. The reduction is a reflection of the cost management initiatives undertaken by the Company.

Material Cost:

The material cost as a percentage of net sales & income from operations has decreased from 72.9% in the previous year to 70.2% in the current year on account of improved operating leverage.

Personnel Cost:

The personnel cost as a percentage of net sales & income from operations has decreased from 6.2% in the previous year to 5.8% in the current year.

Other Expenses:

Other expenses as a percentage of net sales and operating income has increased on account of freight and advertisement expenses to support and enhance sales in a challenging market.

Depreciation, amortisation and impairment:

Depreciation, amortisation and impairment expenses as a percentage of net sales and operating income also shows a decrease over the previous year. This is mainly on account of impairment of certain Property, Plant and Equipment and intangible assets made during 2016-17.

Finance Costs:

The interest expense for the year ended is lower mainly due to higher interest capitalisation.

Exceptional Items:

Exceptional items in the current year comprises of profit on sale and reversal of provision of certain long term investments. Exceptional items in the previous year is on account of profit earned on sale of certain long term investments and transfer of agri business partly offset by impairment of certain investments in subsidiaries and joint ventures considering the performance of these companies and their future projections.

Provision for taxation:

The provision for current tax and deferred tax for the year ended March 31, 2018 as a percentage to profit before tax (after exceptional items) is higher than the previous year

mainly on account of reduction in tax incentives/concessions, lower dividend income and increase in deferred tax due to statutory tax rate increase in 2017-18 as compared to 2016-17.

Corporate Governance

COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Your Company is committed to the highest standards of business ethics and corporate governance.

Your Company believes in doing business the right way and always seeks to ensure that the performance is driven by integrity and value. It treats all its shareholders fairly and equitably, recognizes, protects and facilitates the exercise of shareholders' rights by providing transparency, professionalism and accountability. It respects minority rights and aims to enhance long term stakeholder value without compromising on ethics.

A Report on compliance with the Corporate Governance provisions as prescribed under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") is given herein below:

I. BOARD OF DIRECTORS

The composition of the Board of your Company is in conformity with Regulation 17 of the Listing Regulations. The Executive Chairman of your Company, though a Professional Director in his individual capacity, is a Promoter and the number of Non-Executive and Independent Directors is more than one-half of the total number of Directors.

Mr. Anand G. Mahindra, Executive Chairman and Dr. Pawan Goenka, Managing Director are the Whole-time Directors of your Company. The remaining Non-Executive Directors, comprising of seven Independent Directors including a Woman Director and one Non-Independent Director as on 31st March, 2018 have an optimal mix of professionalism, knowledge and expertise from diverse fields, possess the requisite qualifications and experience which enables them to discharge their responsibilities, provide effective leadership to business and enhance the quality of Board's decision making process.

The maximum tenure of Independent Directors is in compliance with the Companies Act, 2013 ("the Act") and the Listing

Regulations. All the Independent Directors have confirmed that they meet the criteria as mentioned in Regulation 16(1) (b) of the Listing Regulations and section 149(6) of the Act.

Apart from reimbursement of expenses incurred in the discharge of their duties, the remuneration that these Directors were entitled to under the Act as Non-Executive Directors and the remuneration that a Non-Executive Director may receive for professional services rendered to the Company through a firm in which he is a partner, none of these Directors have any other pecuniary relationships with your Company, its Subsidiaries or Associates or their Promoters or Directors, during the two immediately preceding financial years or during the current financial year. None of the Directors of your Company are inter-se related to each other.

Professional fees for the year under review to Khaitan & Co., Advocates & Solicitors, in which Mr. R. K. Kulkarni, Non-Executive and Independent Director is a partner, amounted to Rs. 139.06 lakhs (including out of pocket expenses).

Mr. Deepak S. Parekh, Non-Executive and Independent Director ceased to be a Director with effect from 8th August, 2017 upon completion of his tenure as an Independent Director as approved by the Shareholders at the 68th Annual General Meeting of the Company held on 8th August, 2014 and subsequent to year end, Mr. S. B. Mainak, who had been representing Life Insurance Corporation of India ("LIC") on the Board of the Company, ceased to be a Director of the Company with effect from 11th May, 2018.

Further, the Governance, Nomination and Remuneration Committee ("GNRC") at its meeting held on 28th May, 2018 on the basis of performance evaluation of Independent Directors and taking into account the external business environment, the business knowledge, acumen, experience and the substantial contribution made by Mr. M. M. Murugappan and Mr. Nadir B. Godrej during their tenure, has recommended to the Board that continued association of Mr. M. M. Murugappan and Mr. Nadir B. Godrej as Independent Directors of the Company would be beneficial to the Company. Based on the above and the performance evaluation of Independent Directors, the Board recommended the re-appointment of

Mr. M. M. Murugappan and Mr. Nadir B. Godrej, as Independent Directors of the Company, not liable to retire by rotation, to hold office for a second term of two consecutive years on the Board of the Company.

V. SUBSIDIARY COMPANIES

Regulation 16 of the Listing Regulations defines a "material subsidiary" to mean a subsidiary, whose income or net worth exceeds twenty percent of the consolidated income or net worth respectively, of the listed entity and its subsidiaries in the immediately preceding accounting year.

Under this definition, the Company did not have any unlisted material subsidiary, incorporated in India during the year under review.

The subsidiaries of the Company function independently, with an adequately empowered Board of Directors and adequate resources. For more effective governance, the minutes of Board Meetings of subsidiaries of the Company are placed before the Board of Directors of the Company for their review at every quarterly Meeting.

The other requirement of Regulation 24 of the Listing Regulations with regard to Corporate Governance requirements for Subsidiary Companies have been complied with.

VI. DISCLOSURES

A. Policy for determining 'material' subsidiaries

Your Company has formulated a Policy for determining 'Material' Subsidiaries as defined in Regulation 16 of the Listing Regulations. This Policy has also been posted on the website of the Company and can be accessed through the web link: <http://www.mahindra.com/resources/investor-reports/FY18/Annual Reports/Links-AnnualReport.zip>.

B. Policy on Materiality of and Dealing with Related Party Transactions

Your Company has formulated a Policy on Materiality of and Dealing with Related Party Transactions which specify the manner of entering into related party transactions. 2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

i. Reduction during sourcing/production/distribution achieved since the previous year throughout the value chain?

For the above mentioned products, there is no explicit tracking mechanism in respect of resource use. However, the resource use for entire portfolio is tracked and monitored. Since the products portfolio is distributed across various manufacturing locations of the Company, the resource use is monitored per unit of equivalent vehicle or equivalent tractor manufactured. The methodology for calculation – (for equivalent production) has been revised in the reporting year. The figures of previous year as reported in the Annual Report and as per revised calculation are presented in the table below. This information has also been reported in the Company’s Sustainability Report for F18.

| Resource Use | Divisions | Unit of Measurement | Current Year 2017-18 | Previous Year 2016-17 (With revised calculation) | Previous Year 2016-17 as reported in Annual Report |
|--|------------------------|---------------------------------------|----------------------|--|--|
| Specific Energy Consumption | Automotive Division | GJ/Equivalent Vehicles | 1.230 | 1.336 | 2.391 |
| | Farm + Swaraj Division | GJ/Equivalent Tractors | 1.260 | 1.331 | 1.393 |
| Specific Green House Gas Emissions (Scope 1 and 2) | Automotive Division | tCO ₂ /Equivalent Vehicles | 0.185 | 0.192 | 0.339 |
| | Farm + Swaraj Division | tCO ₂ /Equivalent Tractors | 0.190 | 0.204 | 0.210 |
| Specific Water Consumption | Automotive Division | KL/Equivalent Vehicles | 1.113 | 1.169 | 1.978 |
| | Farm + Swaraj Division | KL/Equivalent Tractors | 0.965 | 1.104 | 1.104 |

It can be seen from the above table that there is an improvement in each area.

ii. Reduction during usage by consumers (energy, water) has been achieved since the previous year?

Due to constant innovations and focus on fuel efficiency, there would be a reduction of energy use by consumers. However, tracking of such reduction is

not possible as it is highly dependent on individual customers’ driving habits.

3. Does the company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

The Company has been working to enhance the degree of sustainability associated with its sourcing practices under the umbrella of “ONE SOURCING”. This includes strategy of one supplier per platform and common supplier basket for multiple businesses, setting up of vendor parks at its new plants, sourcing from tightly knit clusters, optimizing logistics to reduce fuel consumption, emissions and carbon footprint, re-working packaging to minimize waste and maximize re-use. The Sustainability road map of the Company covers these areas and the Company takes steps to ensure that its sourcing methods are sustainable. Almost the entire sourcing work is done from the country with a very small percentage of input being procured from overseas.

The Company has Green Supply Chain Management Policy and a Supplier Code of Conduct, which has been shared with all suppliers, under which, the Company is committed to improve the awareness with regard to legal compliances, enhance eco-efficiencies, employee health and safety initiatives etc. at supplier end through initiatives such as Supplier Business Capability Building (SBCB), Mahindra Supplier Evaluation Standard (MSES), Mass Manufacturing Approval (MMA) and Supply Risk Mitigation & Management (SRMM). Continuous engagement with suppliers is ensured through supplier meets, business reviews, multiple training sessions and two-way interactive M SETU Platform. To motivate the suppliers to take the Sustainability agenda forward, good practices at supplier end are recognized, by institutionalizing “Annual Sustainability Award”.

4. Has the Company taken any steps to procure goods and services from local and small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

Yes. The Company has a practice of purchasing goods and services from local suppliers. The Company does not have

any small suppliers where the owner himself or herself is a worker. The Company has multiple plants spread across West, South and North of India. The major factors influencing selection of Suppliers across these regions are:

- ▶ Capability, performance and on-time delivery.
- ▶ Compliance on environment, health and safety guidelines.
- ▶ Readiness to participate in sustainable supply chain management program.
- ▶ Total cost.

The purchasing group has a standard practice of sharing its annual plans and next two year's tentative plans with its key suppliers through communication meets and supplier business reviews. These suppliers are provided with managerial and technical assistance to train them on practices and procedures that will ensure improvements in Productivity, Quality, Cost, Delivery, Safety and Moral (PQCDSM). This is done by initiatives like Supplier Business Capability Building (SBCB), Mahindra Supplier Evaluation Standard (MSES), Technical Capability Building programs, Supply Risk Mitigation and Management (SRMM), Safety Training & assessments and technical support for special processes during new product developments, VAVE activities along with Associate Value Specialist Program for suppliers, etc. The Company has special focus on creating supplier parks near the plants for e.g. Chakan Supplier Park and Zaheerabad Supplier Park. The Company has a continued focus on buying from local suppliers, geographically nearest to the company's manufacturing facility. Almost the entire sourcing work is done from the country with a very small percentage of input being procured from overseas.

5. Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

It is the Company's ongoing endeavour to have a mechanism to recycle products and limit the waste arising out of production of vehicles and tractors. The Company has initiated well documented processes to ensure compliance with the European Union Directive 2005/64/

EC which is now implemented for vehicles exported to European Union. Our objective is to restrict the amount of waste produced from End of Life of vehicles (ELVs) and increase the recovery and recycling of ELVs that arise. The information on recyclable parts and manual for dismantling is provided with export vehicles. Your Company follow the ISO 22628:2002, to calculate the recyclability rate, the recoverability rate and reusability rate (RRR) of our export vehicles. We have 5 models complying with the European Union Directive 2005/64/EC norms on recyclability. Your Company is actively participating in the committee formed by Society of Indian Automotive Manufacturers (SIAM) to frame processes and procedures for Product Recycling in India. At present, the batteries used in vehicles are recycled in a structured manner through the battery manufacturing companies in India. Similarly other parts such as tyres, body components, etc. are recycled in an unstructured manner through licensed scrap dealers who either recover the material used or cannibalize/refurbish the parts for reuse. So far your Company has been doing a simplified Life Cycle Assessment (LCA) in the form of compliance with ELV directive for European M1 & N1 products. The vehicles are exported and certified as per European Emission Compliance (EEC) directive 2005/64/EC. We have now conducted an experimental project to evaluate full LCA during 2017. For this study one UV pickup model Bolero Maxi Truck (BMT) and one XUV 500 assessment has been completed. The outcomes will be incorporated in the future development phases.

The CO₂ emissions are evaluated during the type approval test at the government approved test agencies and this data is used to assess the CO₂ impact of products as Company weighted average fuel consumption (CAFC) to align with future Fuel Economy emission regulation in India.

Principle 3: Businesses should promote the wellbeing of all employees.

1. Please indicate the Total number of employees: 41673
2. Please indicate the Total number of employees hired on temporary/contractual/casual basis: 20806
3. Please indicate the Number of permanent women employees: 690

4. Please indicate the Number of permanent employees with disabilities: 61
5. Do you have an employee association that is recognized by management: Yes
6. What percentage of your permanent employees is members of this recognized employee association? (Total Unionized Permanent Workmen/Total Permanent Workmen) 90%
7. Please indicate the Number of complaints relating to child labor, forced labor, involuntary labor, sexual harassment in the last financial year and pending, as on the end of the financial year.

| Sr. No. | Category | No. of complaints filed during the financial year | No. of complaints pending as on end of the financial year |
|---------|---|---|---|
| 1. | Child labour/forced labour/involuntary labour | Nil | Nil |
| 2. | Sexual harassment | 1 | 0 |
| 3. | Discriminatory employment | Nil | Nil |

One complaint pending as on 31st March, 2017, was also disposed-off during the year.

8. **What percentage of your under mentioned employees were given safety and skill up-gradation training in the last year?**
 - ▶ Permanent Employees: 94%
 - ▶ Permanent Women Employees: 85%
 - ▶ Casual/Temporary/Contractual Employees: 68%
 - ▶ Employees with Disabilities: 92%

Principle 4: Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalized.

1. **Has the company mapped its internal and external stakeholders?**
Yes
2. **Out of the above, has the company identified the disadvantaged, vulnerable and marginalized stakeholders?**
Yes
3. **Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalized stakeholders? If so, provide details thereof, in about 50 words or so.**

The Company has made conscious efforts to design products and offerings, specifically to improve the earning potential and encourage entrepreneurship amongst rural and semi-urban stakeholders through offering accessible and affordable technology. Moreover, in the Farm equipment business vertical, there is a conscious focus to deliver 'Farm Prosperity' through various products and services that are designed to improve farm productivity especially amongst small farmers. Trringo is a revolutionary tractor and farm equipment rental business that harnesses the power of technology through a strong franchisee network to make farm mechanization easily accessible, affordable and reachable to every Indian farmer. EPC - a Mahindra group company, popularly known as EPC Irrigation is a pioneer of micro-irrigation in India. EPC provides complete solution for agriculture with a focus on Micro-Irrigation, Pumps and inter-related requirements of fertigation and agronomic support.

The Integrated Watershed Management (IWMP) project, a Public Private Partnership (PPP) with the Government of Madhya Pradesh at Damoh has been fully implemented and handed over to the Village Level Water Committees (WCs) and Self Help Groups (SHGs). This project was implemented in 32 villages that spread across 9,660 hectares of land covering 4,219 households thereby benefiting 21,095 people. There were three main interventions of the project 1) Soil & Water Conservation, 2) Productivity Enhancement and 3) Livelihood Generation. The project resulted in 1) Ground Water availability at 6.2 meters as against the baseline of 8 meters. 2) An average percentage increase of income from agriculture by 339% over the baseline. 3) An average percentage increase of household income by 363% over the baseline. The project being scalable and sustainable has resulted in replication at Bhopal and Hatta in Madhya Pradesh.

This project at Bhopal follows the similar PPP model with the Government of Madhya Pradesh. Being implemented in 35 villages that is spread over 10,760 hectares of land covering 6,673 households benefitting 34,228 people. At Hatta, the project is on a 50-50% partnership with National Bank for Agriculture and Rural Development (NABARD). Being implemented in 13 villages that is spread over 4,816 hectares of land covering 1,613 households

benefitting 6,884 people. All three programs follow the 'Ridge to Valley' watershed treatment model.

A Watershed plan is created for each village based on a thorough examination of the village geography. Factors considered in the situational analysis include topography, existing watershed structures, rain water drainage routes, existing storage tanks, irrigation channels, etc. Each village gets a combination of watershed structures that work in unison to achieve the final overall output. Along with increasing water availability, simultaneous work on implementing 'best in class farming package of practices' is also done. Handholding farmers during the entire crop cycle result in sustainable benefits of increase crop production and income generation.

Self Help Groups (SHGs) for livelihood generation are also formed in close co-ordination with the village councils resulting in the generation of additional income sources.

Note: Change in Bhopal Project details vis a vis Previous Year

In F18, 3 villages were merged under the Bhopal Municipal Corporation area and hence removed from the IWMP Bhopal project intervention area.

This removal resulted in the reduction in number of villages, households and project coverage area

IWMP - Bhopal

| Parameters | F17 | F18 |
|--------------------------|--------|--------|
| Number of Villages | 38 | 35 |
| Coverage Area (hectares) | 12,140 | 10,760 |
| Households | 7,066 | 6,673 |
| Population | 30,000 | 34,228 |

The company has entered into a 'Agroforestry Livelihood Generation Programme' at Araku Valley. The Agroforestry project is regenerating the lost green cover through plantation of indigenous species and at the same time generating livelihood opportunities by planting fruit bearing trees for the tribal population staying in the valley to earn income from. The programme is in its phase 2 in which entire tree plantation is done by the NGO partner Naandi Foundation.

Further details of community development initiatives are given in Principle 8.

Principle 5: Businesses should respect and promote human rights.

1. Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

The Business Responsibility Policy covers the aspects on Human Rights for the Company. Human Rights issues are a part of the supplier selection process and are also included in the contracts drawn up with them. The Company has put in place a Whistleblower Helpline managed by an external agency to ensure that any violations to its Code of Conduct (including violation of Human rights) are addressed objectively. Besides this, through various awareness sessions, various stake holders like contractors, security personnel, associates are sensitized and this helps to promote adherence on Human Rights aspects.

2. How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management.

8 Complaints have been received through the Whistleblower Helpline. 1 was received by the Chairman of the Audit Committee.

There is an active and a well-defined four step Grievance Redressal Machinery available at each plant for workmen through which all types of grievances are redressed. Additionally, Employee Satisfaction Survey for workmen is periodically carried out and all low scoring responses are discussed in Focused Group Meetings and duly resolved. Although there is no process to separately maintain records for grievances related to Human Rights, the above stated mechanism adequately addresses this issue. There is a mechanism for all employees of Automotive and Farm Sectors to voice their concerns to the Sector President through a 'Reach-out' mailbox which is addressed with confidentiality. Besides, in order to address the Human Rights violation in specific for blue collared workmen (Permanent and Flexible workforce), a Grievance Register has been kept at Time Office to raise concerns. However, no complaints have been received or reported for the reporting year.

Principle 6: Business should respect, protect, and make efforts to restore the environment.

1. Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/Suppliers/Contractors/NGOs/others.

The Company has various policies related to environmental protection. The Green Supply Chain Management Policy includes environment protection and covers suppliers. The subsidiaries/Joint Ventures have their own policies which are in sync with the Company's environmental policies.

2. Does the company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for webpage etc.

Yes. Every year the company discloses its performance in Dow Jones Sustainability Index (DJSI), Carbon Disclosure Project (CDP) and CII Sustainability Plus. Sustainability Roadmap is ready with targets taken to reduce carbon emissions, water consumption, increase in use of renewable energy, enhance recycling of waste. It is reviewed periodically. It is the 1st company globally to sign a program EP-100 which is committed to double the energy productivity by 2030. It has also announced its internal carbon price of US \$ 10 per ton of carbon emitted and became first company in India to do so. The Company is also a signatory for India Business Biodiversity Initiative (IBBI). These strategies and initiatives are elaborated in the Company's Sustainability Report for F18 and will be available on <http://www.mahindra.com/How-We-Help/Environment/Sustainability>.

Please note the indicative list of various projects implemented in this regard. The complete details will be available in the Sustainability Report for F18

Energy Savings:

- ▶ Heat recovery system
- ▶ Energy efficient air conditioning system
- ▶ Programmable logic controllers for machines

Water Savings:

- ▶ Installation of level controllers
- ▶ Use of ETP/STP treated water for gardening and flushing
- ▶ Rain water harvesting for recharging pits

Waste Reduction:

- ▶ 5 plants certified for Zero Waste to Landfill.

- ▶ Use of metallic waste in furnace
- ▶ Reusing sand for core making

3. Does the company identify and assess potential environmental risks? Y/N

Yes, the Company has a mechanism to identify and assess potential environmental risks across all locations.

4. Does the company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if Yes, whether any environmental compliance report is filed?

Yes. The name of the CDM is – Program of Activities (PoA) 9731: Energy Efficiency through Micro irrigation system – India. The Registered PoA aims at encouraging energy efficiency through installation of efficient irrigation system such as drip and sprinkler irrigation replacing the conventional flood method of irrigation resulting in GHG Emission reduction & Water Conservation. It was registered in September 2013.

5. Has the Company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc? Y/N. If yes, please give hyperlink for web page etc.

Yes. Same as stated under Sr 2 above mentioned under Principal 6.

6. Are the Emissions/Waste generated by the company within the permissible limits given by CPCB/SPCB for the financial year being reported?

Yes

7. Number of show cause/ legal notices received from CPCB/ SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.

Nil

Principle 7: Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner.

1. Is your company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with:

Yes. The company is member of following trade and chamber or association in alphabetical order.

- a. The Associated Chambers of Commerce and Industry of India,
- b. Bombay Chamber of Commerce and Industry

(BCCI), c. Confederation of Indian Industry (CII), d. Employers' Federation of India, e. Federation of Indian Chambers of Commerce and Industry, f. Indian Merchants Chambers, g. National Human Resource Development Network, h. Society of Indian Automobile Manufacturers (SIAM), i. The Energy and Resource Institute, j. Tractor Manufacturer's Association (TMA).

2. **Have you advocated/lobbied through above associations for the advancement or improvement of public good? Yes/No; if yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others).**

The Company participates as a stakeholder of SIAM and TMA on policies related to Automotive and Tractor Industry, Sustainable Mobility and Farm Tech Prosperity, Economic Reforms, Sustainable Business Principles (Sustainable Supply Chain Management) and Vehicle Recall policy. The Company also contributes through CII/BCCI, when views are solicited on matters such as Securities Law, Corporate Laws, etc.

Principle 8: Businesses should support inclusive growth and equitable development.

1. **Does the company have specified programmes/initiatives/projects in pursuit of the policy related to Principle 8? If yes details thereof.**

Yes. Since its inception Mahindra & Mahindra Limited has been a socially responsible corporate making investments in the community which go beyond any mandatory legal and statutory requirements. The CSR vision of the Company is to focus its efforts within the constituencies of girls, youth and farmers, by innovatively supporting them through programs designed in the domains of education, health and environment, while harnessing the power of technology. By investing our CSR efforts in these critical constituencies who contribute to nation building and the economy, your Company will enable its stakeholders and communities to RISE. In accordance with the Companies Act, 2013 Mahindra & Mahindra Limited has committed 2% PBT annually towards CSR initiatives. Further the unique Employee Social Options platform (ESOP) provides

employees a menu of volunteering opportunities enabling them to participate actively in the company's CSR initiatives. Some of the major initiatives the company has invested in F18 are as follows:

- a. **Project Nanhi Kali** – Provision of educational support to underprivileged girls from poor urban, remote rural and tribal communities across India.
- b. **Mahindra Pride School and Mahindra Pride Classrooms** – Livelihood training programme for youth from socially and economically disadvantaged groups.
- c. **Mahindra Scholarships at Mahindra United World College of India (MUWCI)** – To enable deserving and meritorious students to study at MUWCI.
- d. **Promoting Health and Preventive Healthcare** – Providing financial and psychological support to patients suffering from critical and life threatening illnesses, palliative care program for people with chronic illnesses such as cancer, Alzheimer's, kidney failure, lung conditions and stroke and support for setting up The Head and Neck Cancer Institute of India.
- e. **Lifeline Express** – Supported a mobile hospital on a train, providing medical interventions and surgeries often in remote rural areas.
- f. **Mahindra Hariyali** – Afforestation initiative to improve green cover and protect bio-diversity in the country and at the same time contribute to the livelihood of farmers.
- g. **Integrated Watershed Management Project (IWMP)** – A public private partnership with the Government of Madhya Pradesh at Bhopal and National Bank for Agriculture and Rural Development (NABARD) at Hatta for Soil & Water Conservation, Productivity Enhancement and Livelihood Generations interventions.
- h. **Mahindra Saarthi Abhiyaan:** Scholarships to daughters of truck drivers which allows them to pursue higher education thus reducing drop outs amongst girls.
- i. **Wardha Farmer Family Project (WFFP)** – The project supports small and marginal farmers, targeting to improve their livelihood opportunities and prosperity

by training them in effective farming practices including soil health, crop planning, creating model farms with bio-dynamic farming practices, with an aim of increasing crop productivity.

- j. **BAJA:** Training under graduate engineering students in automotive engineering thereby enabling them to get jobs in the automobile industry.
- k. **A World In Motion (AWIM):** Training Class V and VI students in mechanical automobile concepts for building vehicles for road and water.
- l. **Environment, Health & Safety Plus Center (EHS+):** The EHS+ Center aims to provide factory managers with information and tools to improve environment, health and safety conditions for workers and surrounding communities. These trainings focus on increasing resource efficiency, enhancing gender equity and empowerment, and reducing greenhouse gas emissions.
- m. **Rise for Safe Roads:** First of its kind in India, the project will create India's 1st ZERO Fatality Corridor on the Mumbai Pune Expressway. Interventions under 4E's are conducted i.e. Engineering, Enforcement, Education and Emergency Response. Supplementing efforts for defensive driver training for long haul truck drivers are also conducted under the Anticipatory Driving and Action Prevention Training (ADAPT™) program.
- n. **Village Social Transformation Mission:** A path breaking public- private partnership, between the Government of Maharashtra and India's leading corporates and philanthropic organisations, to plug developmental gaps in rural Maharashtra and collectively partake in nation building.
- o. **ESOP:** The Company's ESOP programme supports employees in creating volunteering projects based on the needs of underprivileged communities in and around their places of work.

2. Are the programmes/projects undertaken through in-house team/own foundation/external NGO/government structures/any other organization?

CSR initiatives are implemented either directly by the company through its ESOP structure where the Mahindra

employees directly implement the CSR programmes or through implementing partners which include NGOs having an established track record of at least 3 years in carrying on the specific activity. The main implementation partners the company works with are the Mahindra Foundation, The K. C. Mahindra Education Trust, Tech Mahindra Foundation and Naandi Foundation.

3. Have you done any impact assessment of your initiative?

Impact assessments were conducted by Deloitte Touche Tohmatsu Limited to measure the outputs and outcomes for the following projects:

- Integrated Watershed Management Program (IWMP) at Damoh, Madhya Pradesh : A PPP with the Government of Madhya Pradesh. The project resulted in 1) Ground Water availability at 6.2 meters against the baseline of 8 meters. 2) An average percentage increase of income from agriculture by 339% over the baseline. 3) An average percentage increase of household income by 363% over the baseline.
- Integrated Watershed Management Program (IWMP) at Bhopal, Madhya Pradesh : A PPP with the Government of Madhya Pradesh. The project resulted in 1) Ground Water availability at 10.9 meters against the baseline of 12 meters. 2) An average percentage increase of income from agriculture by 262% over the baseline. 3) An average percentage increase of household income by 150% over the baseline.
- Community Farming Project at Raigad, Maharashtra undertaken with NGO Partner Swades Foundation. The project has resulted in an average annual income increase of 86%. The average post-intervention annual income is INR 60,053/- as compared to INR 32,318/- before the intervention.

4. What is your company's direct contribution to community development projects - Amount in INR and the details of the projects undertaken?

Your Company's contribution to community development projects amounts to approximately Rs. 81.97 crores during F18. Details of some of the major initiatives the company has invested in F18 are given in Point 1 above.

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

Where CSR projects are implemented, your Company ensured that the initiative is successfully adopted and owned by the community. Below are three examples of the same:

- (a) **PROJECT NANHI KALI** provided educational support (material and academic) to underprivileged girls in India through an after school support program. In F18, the project supported the education of 1,43,992 girls. Of these 14,843 girls were supported by Mahindra & Mahindra Limited, while the Mahindra Group as a whole supported 61,284 girls. The balance girls are supported by individuals and other corporates. The Mahindra Group also supported 25 NStar centres (out of 73 centres) through which 5,066 young girls (16-21 years) received training in computer skills, English speaking, financial literacy, health and nutritional awareness along with physical fitness, to enable them to build a life of dignity and self-respect. When the project is introduced in a new area, your Company ensures that a 'Village Education Committee' is set up and parents as well as village elders are sensitised on the importance of girls' education in particular, and other gender related issues. The NStar centres for adolescent girls are in the community and a household screening is done to map the girls in the area who are then enrolled at the centre. The centre champions who run the centre are local recruits from the community and this plays a major role in the community's acceptance of the centre.
- (b) **INTEGRATED WATERSHED MANAGEMENT PROJECT (IWMP)** – The project is a Public Private Partnership (PPP) with Government of Madhya Pradesh at Bhopal and with National Bank for Agriculture and Rural Development (NABARD) at Hatta for increasing the ground water table resulting in increased agricultural productivity and improved living standards. These projects have benefitted 35,265 people in 48 villages. Through the project, your Company has successfully increased the ground water table through various 'watershed' measures. All the Soil &

Water Conservation, Productivity Enhancement and Livelihood Enhancement interventions are conducted in complete cohesion with the community i.e. the Village Level Water Committees (WCs) and Self Help Groups (SHGs). The IWMP Project at Damoh has been successfully completed and handed over to the community in F18, thus creating a sustainable and replicable model.

- (c) **MAHINDRA PRIDE SCHOOLS (MPS)** – MPS is a livelihood training school for youth from socially and economically disadvantaged backgrounds. In F18, the Mahindra Group supported 9 MPS in Pune, Patna, Chandigarh, Srinagar, Hyderabad, Varanasi and 3 in Chennai, through which 6,323 students were trained. From inception till date 26,674 students have been trained and 100% have been placed. Mahindra & Mahindra Limited supported the school in Chandigarh, Srinagar, Hyderabad, Varanasi and 2 in Chennai which skilled 3,711 students in F18. Further, in F18, 41,687 students were trained through 955 Mahindra Pride Classrooms in Polytechnics and Arts & Science Colleges across 9 States. The Mahindra Pride Classrooms provide 40-120 hours of training to final year students covering English Speaking, Life Skills, Aptitude, Interview, Group Discussion and Digital Literacy. The USP of the project is 100% placement of the students in lucrative jobs. The alumni of MPS who are employed with different companies serve as role models to the community. More often than not, alumni have directly influenced the new incoming batches of students to enrol. Active alumni clubs regularly send referrals to MPS and at least 30-40% of a batch comprises of referrals. The alumni also act as peer leaders and mentors to students undergoing training at MPS and motivate the current batch of students by sharing their success stories of how they overcame their challenges with the help of MPS.
- (d) **MAHINDRA HARYALI** – It is planting of one million trees every year. The community benefits from the plantations since it supports livelihood as well. For. E.g. in Araku, the plantations have helped sustain coffee plantations which have yielded high returns to the tribal population in the valley. Apart from the

Araku valley, plantations undertaken by communities across the country have focused on planting fruit bearing trees since the economic value of such plants is high, communities are eager to adopt these projects. Awareness related to benefits of trees in arresting soil erosion and climate change too has increased in the recent past as a result communities are more receptive of the Mahindra Hariyali project.

Principle 9: Businesses should engage with and provide value to their customers and consumers in a responsible manner

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year.

Customer complaints are treated very seriously in the organization. We hear our customers through various mediums such as emails to customercare@mahindra.com, With You Hamesha 24X7 Call Centre toll free no, websites, tweet handle, telephone, letter, fax etc. The status of pending complaints/cases as on 31st March, 2018 is as follows:

| 2017-18 | Automotive Division | Farm Division (Including Swaraj) | Total |
|--|---------------------|----------------------------------|--------|

2. Does the company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A. /Remarks (additional information)

Yes. In addition to mandatory requirements, company also provides service and safety labels as deemed appropriate. e.g.: Product fuel economy data displayed for each variant at selling points (Dealership).

3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behavior during the last five years and pending as on end of financial year. If so, provide details thereof, in about 50 words or so.

Yes. The Company has been impleaded in the below listed proceedings that allege violation of provisions of the Competition/ MRTP Act. The Company is vigorously defending itself in these proceedings.

Description of the matters pending under the Competition Act, 2002:

Case No. 3/2011:

Based on the information given by the Informant Shamsheer Kataria against 3 car manufacturers, Honourable Competition Commission of India (CCI) had started investigation in respect of 17 car manufacturers about the non-availability of spare parts in the open market. One of the allegations is OEMs are restricting the availability of spare parts in the open market other than their own distribution network resulting in high prices of the said spare parts and the said spare parts not being available to the independent car repairers. The DG had initiated the investigation in which your Company had submitted the detailed information as sought by the DG. Thereafter the DG submitted a report and based on the said report, the Commission had issued notices to the 17 car manufacturers

to file their respective responses on the said report. Accordingly, your Company had filed the reply to the said report along with all possible supporting documents. Thereafter, the matter was heard by the CCI and on 25th August, 2014. CCI passed an order (Order) against fourteen automobile companies including Mahindra & Mahindra Limited and has imposed a penalty of Rs. 292.25 crores amounting to 2% of the average annual turnover for the years 2007-08, 2008-09 and 2009-10. Your Company vide a Writ Petition W.P.(C) 6610/2014 (W.P) filed before the Hon'ble Delhi High Court (HC) has challenged the vires of certain sections of the Competition Act, 2002 based on which penalty has been calculated and also the Order has been passed by the CCI. The W.P filed by your Company is currently pending before the Delhi High Court and an

interim order staying the order of the CCI is in force until further orders.

4. Did your company carry out any consumer survey/ consumer satisfaction trends?

Yes, through

- ▶ JP Power Syndicate Study - Applicable for Personal Model
- ▶ CaPS Study (Done by Central Team at Worli)- Applicable for Personal and Commercial Model
- ▶ CSat (Customer Satisfaction for Commercial Channel) through TNS
- ▶ Brand Track Study
- ▶ Premonasia Survey for Tractors

Independent Auditors' Report to the Members of Mahindra & Mahindra Limited

Report on the Audit of the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Mahindra & Mahindra Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2018, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the state of affairs, profit (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at 31 March 2018, its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Other Matters

The comparative financial information of the Company for the year ended 31 March 2017, included in these standalone Ind AS financial statements, as adjusted to give effect to the merger of the Two Wheeler business of Mahindra Two Wheeler Limited ('MTWL'), were audited by the predecessor auditor who expressed an unmodified opinion on those financial statements (vide their unmodified opinion dated 30 May 2017). The merger of MTWL is pursuant to the Scheme of Arrangement ('Scheme') which has been approved by the National Law Company Tribunal ('NCLT') vide its order dated 25 October 2017. The Scheme is effective from the appointed date of 1 October 2016, and the merger being a common control business combination,

the comparative financial statements of the Company have been restated to record the merger from 1 April 2016. Further, adjustment for the merger for the year ended 31 March 2017 is based on the financial statements of MTWL which were audited by the auditors of MTWL who expressed unmodified opinion (vide their unmodified report dated 25 July 2017) and whose report has been furnished to us by the Management, and has been relied upon by us for the purpose of audit of these standalone Ind AS financial statements. Our opinion is not modified in respect of this matter with respect to the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss, the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31 March 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2018 from being appointed as a Director in terms of Section 164(2) of the Act.

- f) With respect to the adequacy of the internal financial controls with reference to the standalone Ind AS financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements; – Refer Note 38 to the standalone Ind AS financial statements.
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts; – Refer Note 18 to the standalone Ind AS financial statements.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made since they do not pertain to the financial year ended 31 March 2018. However amounts as appearing in the audited standalone Ind AS financial statements for the period ended 31 March 2017 have been disclosed.

Annexure B to the Independent Auditors' Report of even date on the standalone Ind AS financial statements of Mahindra & Mahindra Limited – 31 March 2018

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **Mahindra & Mahindra Limited** ("the Company") as of 31 March 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls with reference to financial statements based on the internal control criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable, to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone Ind AS financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2018, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes forming part of the Financial Statements

1. General information

Mahindra & Mahindra Limited ('the Company') is a limited company incorporated in India. The address of its registered office and principal activities of the Company are disclosed in the introduction to the Annual Report.

The Ordinary (Equity) shares of the Company are listed on the National Stock Exchange of India Limited ("NSE"), the BSE Limited ("BSE") in India. The Global Depository Receipts (GDRs) (underlying equity shares) of the Company are listed on the Luxembourg Stock Exchange and are also admitted for trading on International Order Book (IOB) of the London Stock Exchange.

2. Significant Accounting Policies

(a) Statement of compliance and basis of preparation and presentation

These standalone or separate financial statements of Mahindra & Mahindra Limited ('the Company') have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

These standalone or separate financial statements were approved by the Company's Board of Directors and authorised for issue on 29th May, 2018.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values.

(c) Measurement of fair values

A number of Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has established policies and procedures with respect to the measurement of fair values.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(d) Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Key sources of estimation uncertainty at the date of financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of useful lives of property, plant and equipment, intangible assets, provision for product warranty and fair value of financial assets/liabilities and impairment of investments.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Useful lives of property, plant and equipment and intangible assets

The Company reviews the useful life of property, plant and equipment and intangible assets at the end of each reporting period. This re-assessment may result in change in depreciation and amortisation expense in future periods.

Provision for product warranties

The Company recognises provision for warranties in respect of the products that it sells. Provisions are discounted, where necessary, to its present value based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Fair value of financial assets and liabilities and investments

The Company measures certain financial assets and liabilities on fair value basis at each balance sheet date or at the time they are assessed for impairment. Fair value measurement that are based on significant unobservable inputs (Level 3) requires estimates of operating margin, discount rate, future growth rate, terminal values, etc. based on management's best estimate about future developments.

(e) Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and accumulated impairment, if any.

Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use.

Depreciation is provided on straight-line basis for property, plant and equipment so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful lives. The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the Statement of Profit and Loss.

The management's estimate of useful lives are in accordance with Schedule II to the Companies Act, 2013, other than the following asset classes, based on the Company's expected usage pattern supported by technical assessment:

| <u>Asset Class</u> | <u>Useful lives</u> |
|---|---|
| i) Certain items of Plant and Equipment | 2 years, 3 years, 5 years, 7 years, 10 years, 20 years and 25 years as the case may be. |
| ii) Buildings (Roads) | 15 years |
| iii) Vehicles | 5 years |

(f) Intangible assets

Intangible assets are initially recognised at cost.

Subsequent to initial recognition, intangible assets with indefinite useful lives are carried at cost less accumulated impairment, if any. Intangible assets with definite useful lives are amortised on a straight line basis so as to reflect the pattern in which the asset's economic benefits are consumed.

Intangible assets under development

The Company expenses costs incurred during research phase to profit or loss in the year in which they are incurred. Development phase expenses are initially recognised as intangible assets under development until the development phase is complete, upon which the amount is capitalised as intangible asset.

Other intangible assetsi) *Technical Knowhow*

The expenditure incurred is amortised over the estimated period of benefit, not exceeding six years commencing with the year of purchase of the technology.

ii) *Development Expenditure*

The expenditure incurred on technical services and other project/product related expenses are amortised over the estimated period of benefit, not exceeding five years.

iii) *Brand license fee*

The expenditure incurred is amortised over the period of relevant licence fee or the estimated period of benefit, whichever is lower.

iv) *Software Expenditure*

The expenditure incurred is amortised over three financial years equally commencing from the year in which the expenditure is incurred.

v) *Others*

The expenditure incurred is amortised over the estimated period of benefit.

The amortisation period for intangible assets with finite useful lives are reviewed annually and changes in expected useful lives are treated as changes in estimates.

(g) Impairment of assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount, which is the higher of the value in use or fair value less cost to sell, of the asset or cash-generating unit, as the case may be, is estimated and impairment loss (if any) is recognised and the carrying amount is reduced to its recoverable amount. In assessing the value in use,

the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

When an impairment loss subsequently reverses, the carrying amount of the asset or a cash-generating unit is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) earlier.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

(h) Inventories

Inventories comprise all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw materials and bought out components are valued at the lower of cost or net realisable value. Cost is determined on the basis of the weighted average method.

Finished goods produced and purchased for sale, manufactured components and work-in-progress are carried at cost or net realisable value whichever is lower. Excise duty is included in the value of finished goods inventory, where applicable.

Stores, spares and tools other than obsolete and slow moving items are carried at cost. Obsolete and slow moving items are valued at cost or estimated net realisable value, whichever is lower.

(i) Foreign exchange transactions and translation

Transactions in foreign currencies i.e. other than the Company's functional currency of Indian Rupees are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the functional currency using exchange rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value is determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for exchange differences on transactions entered into in order to hedge certain foreign currency risks (refer policy on Derivative Financial Instruments and Hedge Accounting).

(j) Investments in subsidiaries, associates and joint ventures

The Company accounts for its investments in subsidiaries, associates and joint ventures at cost less accumulated impairment, if any.

(k) Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Classification and subsequent measurement

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured at either amortised cost or fair value depending on their respective classification.

On initial recognition, a financial asset is classified as - measured at :

- Amortised cost; or
- Fair Value through Other Comprehensive Income (FVTOCI) - debt investment; or
- Fair Value through Other Comprehensive Income (FVTOCI) - equity investment; or
- Fair Value through Profit or Loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

All financial assets not classified as measured at amortised cost or FVTOCI are measured at FVTPL. This includes all derivative financial assets unless designated as effective hedge instruments which are accounted as per hedge accounting requirements discussed below.

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment expenses are recognised in profit or loss. Any gain and loss on derecognition is also recognised in profit or loss.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Debt investment at FVTOCI are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in Other Comprehensive Income (OCI). On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

For equity investments, the Company makes an election on an instrument-by-instrument basis to designate equity investments as measured at FVTOCI. These elected investments are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the reserves. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments. These investments in equity are not held for trading. Instead, they are held for medium or long-term strategic purpose. Upon the application of Ind AS 109, the Company has chosen to designate these investments as at FVTOCI as the Company believes that this provides a more meaningful presentation for medium or long-term strategic investments, than reflecting changes in fair value immediately in profit or loss. Dividend income received on such equity investments are recognised in profit or loss.

Equity investments that are not designated to be measured at FVTOCI are designated to be measured at FVTPL. Subsequent changes in fair value are recognised in profit or loss.

Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company is recognised at the proceeds received, net of directly attributable transaction costs.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is a derivative (that does not meet hedge accounting requirements) or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all of the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for the amount it may have to pay.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised and the proceeds received are recognised as a collateralised borrowing.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 18.

Derivative financial instruments and hedge accounting

The Company enters into derivative financial instruments, primarily foreign exchange forward contracts and interest rate swaps, to manage its exposure to foreign exchange and interest rate risks. Derivatives embedded in non-derivative host contracts that are not financial assets within the scope of Ind AS 109 are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

Derivatives are initially recognised at fair value at the date the contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

The Company designates certain hedging instruments, which include derivatives in respect of foreign currency risk, as either fair value hedges or cash flow hedges. Hedges of foreign exchange risk on firm commitments are accounted for as cash flow hedges.

At the inception of the hedge relationship, the Company documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Company documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

Changes in fair value of the designated portion of derivatives that qualify as fair value hedges are recognised in profit or loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated under hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in the profit or loss.

Amounts previously recognised in other comprehensive income and accumulated in equity relating to (effective portion as described above) are reclassified to profit or loss in the periods when the hedged item affects profit or loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in profit or loss.

Impairment of financial assets

The Company applies the expected credit loss (ECL) model for recognising impairment loss on financial assets. With respect to trade receivables, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVTOCI, the loss allowance is recognised in OCI and is not reduced from the carrying amount of the financial asset in the balance sheet.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

(I) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty, in respect of revenue upto 30th June, 2017, and net of customer returns, trade allowance, rebates, value added taxes and amount collected on behalf of third parties.

Sale of goods

Revenue from the sale of goods is recognized when all the following conditions are satisfied:

- a) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- b) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- c) the amount of revenue can be measured reliably;
- d) it is probable that the economic benefits associated with the transaction will flow to the entity; and
- e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Sale of services

Sale of services are recognised on rendering of such services.

Dividend and interest income

Dividend from investments are recognised in profit or loss when the right to receive payment is established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable. The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

(m) Government Grants

The Company, directly or indirectly through a consortium of Mahindra Group Companies, is entitled to various incentives from government authorities in respect of manufacturing units located in developing regions. The Company accounts for its entitlement as income on accrual basis.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

The benefit of a government loan at a below market-rate of interest is treated as government grant and is measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

(n) Employee Benefits***Superannuation Fund, ESIC and Labour Welfare Fund***

The Company's contribution paid/payable during the year to Superannuation Fund, ESIC and Labour Welfare Fund are recognised in profit or loss.

Provident Fund

Contributions to Provident Fund are made to a Trust administered by the Company/Regional Provident Fund Commissioners and are charged to profit or loss as incurred. The Company is liable for the contribution and any shortfall in interest between the amount of interest realised by the investments and the interest payable to members at the rate declared by the Government of India in respect of the Trust administered by the Company.

Long term Compensated Absences

Company's liability towards long term compensated absences are determined by independent actuaries, using the projected unit credit method.

Gratuity, post retirement medical benefit and post retirement housing allowance schemes

Company's liability towards gratuity, post retirement medical benefit and post retirement housing allowance schemes are determined by independent actuaries, using the projected unit credit method. Past services are recognised at the earlier of the plan amendment/curtailment and the recognition of related restructuring costs/termination benefits.

The obligation on long term compensated absences and defined benefit plans are measured at the present value of estimated future cash flows using a discount rate that is determined by reference to the market yields at the balance sheet date on government bonds where the currency and terms of the government bonds are consistent with the currency and estimated terms of the obligation.

Remeasurement gains/losses

Remeasurement of defined benefit plans, comprising of actuarial gains or losses, return on plan assets excluding interest income are recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. Remeasurements are not reclassified to profit or loss in subsequent period.

Remeasurement gains or losses on long term compensated absences that are classified as other long term benefits are recognised in profit or loss.

Employee Stock Option Scheme

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

(o) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(p) Income taxes

Current tax

Current tax is determined as the amount of tax payable in respect of taxable income for the year. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilized. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax against which the MAT paid will be adjusted. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

(q) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of these cash flows (when the effect of the time value of money is material).

Provisions for the expected cost of warranty obligations are recognised at the time of sale of the relevant products, at the best estimate of the expenditure required to settle the Company's obligation.

(r) Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Certain arrangements convey a right to use an asset in return for a payment or series of payments. At inception of the arrangement, the Company determines whether such an arrangement is or contains a lease and separates the consideration into those for the lease and those for other elements. The lease component is accounted as per Company's accounting policy on leasing transactions.

The Company as lessor

Rental income from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

The Company as lessee

Assets held under finance leases are initially recognised as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Company's general policy on borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue.

3. Recent Accounting Pronouncements

Standards issued but not yet effective:

In March 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2018, notifying Ind AS 115 - 'Revenue from Contracts with Customers' and consequential amendments to various Ind AS standards. The amended Rules also notified amendments to Ind AS 12 - 'Income Taxes', Ind AS 21 - 'The Effect of Changes in Foreign Exchange Rates', Ind AS 28 - 'Investments in Associates and Joint Ventures' and Ind AS 40 - 'Investment Property'. These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB). The amendments are effective from accounting periods beginning from 1st April, 2018.

Ind AS 115 – 'Revenue from Contracts with Customers':

This standard establishes a single comprehensive model for accounting of revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition guidance under Ind AS 11 Construction Contracts and Ind AS 18 Revenue. The Company is currently assessing the impact of application of Ind AS 115 on the Company's financial statements.

Amendments to Ind AS 12 – 'Income Taxes':

The amendments clarify the requirement for recognising deferred tax assets on unrealised losses on debt instruments that are measured at fair value. The amendments also clarify certain other aspects of accounting for deferred tax assets. The changes will not have any material impact on the financial statements of the Company.

Amendments to Ind AS 21 – 'The Effect of Changes in Foreign Exchange Rates':

The amendments clarify translation of advance payments denominated in foreign currency into functional currency at the spot rate on the day of payment. The guidance aims to reduce diversity in practice. The changes will not have any material impact on the financial statements of the Company.

Amendments to Ind AS 28 – 'Investments in Associates and Joint Ventures':

The amendments clarifies accounting options in consolidated financial statements of a venture capital or similar entity and investment entity. These amendments are not applicable to the Company's standalone financial statements.

Amendments to Ind AS 40 – 'Investment Property':

The amendments clarify transfers of investment property to or from the portfolio in the case of a change of use. These amendments are not applicable to the Company's standalone financial statements.

Amendments to Ind AS 112 – 'Disclosure of Interests in Other Entities':

The amendments clarify that disclosure requirements for interest in other entities also apply to interests that are classified (or included in a disposal group that is classified) as held for sale or as discontinued operations in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations. These amendments are not applicable to the Company's standalone financial statements.

32. Employee Benefits

General description of defined benefit plans :

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Post retirement medical

The Company provides post retirement medical cover to select grade of employees to cover the retiring employees and their spouse upto a specified age through mediclaim policy on which the premiums are paid by the Company. The eligibility of the employee for the benefit as well as the amount of medical cover purchased is determined by the grade of the employee at the time of retirement.

Post retirement housing allowance

The Company operates a post retirement benefit scheme for a certain grade of employees in which a monthly allowance determined on the basis of the last drawn basic salary at the time of retirement, is paid to the retiring employee in lieu of housing.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset Volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets underperform compared to this yield, this will create or increase a deficit. The defined benefit plans may hold equity type assets, which may carry volatility and associated risk.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plan's investment in debt instruments.

Inflation risk

The present value of some of the defined benefit plan obligations are calculated with reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability. The post retirement medical benefit obligation is sensitive to medical inflation and accordingly, an increase in medical inflation rate would increase the plan's liability.

Life expectancy

The present value of defined benefit plan obligation is calculated by reference to the best estimate of the mortality of plan participants, both during and after the employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Details of defined benefit plans as per actuarial valuation are as below.

b) Interest Rate Risk

The Company uses a mix of cash and borrowings to manage the liquidity and fund requirements of its day-to-day operations. Further, certain interest bearing liabilities carry variable interest rates.

Interest Rate risk on variable rate borrowings is managed by way of interest rate swaps.

Hedge Accounting : Interest Rate Swaps

Interest Rate Swaps entered into by the Company meet the requirements for hedge accounting under Ind AS 109 - Financial Instruments, and thus are accounted as such.

d) Credit Risk Management

Credit Risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company's exposure are continuously monitored.

e) Financial Guarantees

In addition, the Company is exposed to credit risk in relation to financial guarantees given to banks provided by the Company. The Company's maximum exposure in this respect is the maximum amount the Company could have to pay if the guarantee is called on. However, financial guarantees are accounted as explained in note 2 (k).

Rupees crores

| Particulars | 2018 | 2017 |
|---------------------------------------|-------|-------|
| Financial Guarantee Liabilities | 40.85 | 44.62 |

f) Trade Receivables

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The Company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses. The Company has taken dealer deposits, bank guarantees etc. which are considered as collateral and these are considered in determination of expected credit losses, where applicable.

Amounts pertaining to these collaterals are as given below:

Rupees crores

| Particulars | 2018 | 2017 |

- g) The Company's maximum exposure to credit risk in respect of Financial Guarantee contracts are disclosed in note 35 (h).

In respect of other financial assets, the maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of financial assets.

h) Liquidity Risk Management

Maturity profile of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

| Total | 9,166.09 | 285.89 | 594.23 | 1,705.96 |

The amounts included above for financial guarantee contracts are the maximum amounts the Company could be forced to settle under the arrangement for the full guaranteed amount if that amount is claimed by the counterparty to the guarantee. Based on expectations at the end of the reporting period, the Company considers that it is more likely than not that such an amount will not be payable under the arrangement.

The following table details the Company's liquidity analysis for its derivative financial instruments. When the amount payable or receivable is not fixed, the amount disclosed has been determined by reference to the projected interest rates as illustrated by the yield curves at the end of the reporting period.

i) Sensitivity Analysis

Foreign Currency Sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in exchange rates, with all other variables held constant.

Rupees crores

| Particulars | Currency | Change in rate | Effect on Profit Before Tax | Effect on pre-tax equity |
|---|----------|-------------------|-----------------------------------|--------------------------------|
| Year ended 31 st March, 2018 | USD | +10% | 48.97 | (22.14) |
| | EUR | +10% | (1.96) | — |
| Year ended 31 st March, 2017 | USD | +10% | 44.55 | (10.92) |
| | EUR | +10% | 4.22 | — |

If the change in rates decline by a similar percentage, there will be opposite impact of similar amount on Profit Before Tax and Pre-tax Equity.

The sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

Interest Rate sensitivity

The sensitivity analysis below have been determined based on exposure to interest rate for both derivative and non-derivative instruments at the end of reporting period. For floating rate liabilities, analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

| Rupees crores | | | | |
|---|----------|--|-----------------------------------|--------------------------------|
| Particulars | Currency | Increase/ decrease in basis points | Effect on Profit Before Tax | Effect on pre-tax equity |
| Year ended 31 st March, 2018..... | EUR | +25 | — | 3.56 |
| Year ended 31 st March, 2017 | EUR | +25 | — | 3.91 |

If the change in rates decline by a similar percentage, there will be opposite impact of similar amount on Profit Before Tax and Pre-tax Equity.

j) Offsetting of balances

The Company has not offset financial assets and financial liabilities.

k) Collaterals

The Company has availed working capital facilities and other non-fund based facilities viz. bank guarantees and letters of credit, which are secured by hypothecation of book debts, receivables, outstanding monies and all other current assets.

38. Contingent Liability & Commitments :

(A) Contingent Liability :

(a) Claims against the Company not acknowledged as debts comprise of :

- (i) Excise Duty, Sales Tax and Service Tax claims disputed by the Company relating to issues of applicability and classification aggregating **Rs. 2,240.66 crores** (2017 : Rs. 3,536.07 crores) before tax.
- (ii) Other matters (excluding claims where amounts are not ascertainable) : **Rs. 27.38 crores** (2017 : Rs. 28.79 crores) before tax.

(b) Taxation matters:

- (i) Demands against the Company not acknowledged as debts and not provided for, in respect of which the Company is in appeal and exclusive of the effect of similar matters in respect of assessments remaining to be completed.
 - Income-tax : **Rs. 904.43 crores** (2017 : Rs. 627.66 crores).
- (ii) Items in respect of which the Company has succeeded in appeal, but the Income-tax Department is pursuing/likely to pursue in appeal/reference and exclusive of the effect of similar matters in respect of assessments remaining to be completed :
 - Income-tax matters : **Rs. 64.17 crores** (2017 : Rs. 110.78 crores).

(c) The Customs, Excise and Service Tax Appellate Tribunal (CESTAT) by its order dated 7th December, 2009 has rejected the Company's appeal against the order dated 30th March, 2005 passed by the Commissioner of Central Excise (Adjudication), Navi Mumbai confirming the demand made on the Company for payment of differential excise duty (including penalty) of Rs. 304.10 crores in connection with the classification of Company's Commander range of vehicles, during the years 1991 to 1996. Whilst the Company had classified the Commander range of vehicles as 10-seater attracting a lower rate of excise duty, the Commissioner of Central Excise (Adjudication), Navi Mumbai, has held that these vehicles could not be classified as 10-seater as they did not fulfil the requirement of 10-seater vehicles, as provided under the Motor Vehicles Act, 1988 (MVA) read with Maharashtra Motor Vehicles Rules, 1989 (MMVR) and as such attracted a higher rate of excise duty. The Company has challenged the CESTAT order in the Supreme Court.

In earlier collateral proceedings on this issue, the CESTAT had, by an order dated 19th July, 2005 settled the controversy in the Company's favour. The CESTAT had accepted the Company's submission that MVA and MMVR could not be referred to for determining the classification for the purpose of levy of excise duty and rejected the Department's appeal against the order of the Collector, Central Excise classifying the Commander range of vehicles as 10-seater. The Department had challenged the CESTAT order in the Supreme Court.

Without prejudice to the grounds raised in this appeal, the Company has paid an amount of Rs. 40.00 crores in January, 2010. The Supreme Court has admitted the Company's appeal and has stayed the recovery of the balance amount till further orders.

Both these orders of the Tribunals were heard and disposed off by the Honorable Supreme Court, in August 2014. Since contrary views were expressed by the Tribunals in two parallel proceedings, the Honorable Supreme Court directed that a larger bench of the Tribunal be constituted to hear the appeals without expressing any opinion on the issues.

The Larger Bench of the CESTAT heard the matter in February, 2015 and by an order dated 27th February, 2015, remanded the matter to the Commissioner of Central Excise for consideration of the case afresh keeping all issues open. The matter is presently pending before the Honorable Commissioner. The Company strongly believes, based on legal advice it has received, that it has a good case

on merits and would eventually succeed in the matter. As regards Commander case the matter is still pending adjudication before the Commissioner. However, pending the final outcome, basis the earlier adjudication order, the Company has reflected the above amount aggregating Rs. 304.10 crores (duty+penalty) and the interest of Rs. 390.72 crores accrued on the same upto 31st March, 2018, under note (a)(i) above.

In another case relating to Armada range of vehicles manufactured during the years 1992 to 1996, by the Company at its Nashik facility, the Commissioner of Central Excise, Nashik passed an order dated 20th March, 2006 confirming a demand of Rs. 24.75 crores, on the same grounds as adopted for Commander range of vehicles. This matter was heard by the Honorable Tribunal at Mumbai, which was pleased to allow the Company's appeal.

(d) In respect of (a) & (b) above, it is not practicable for the Company to estimate the closure of these issues and the consequential timings of cash flows, if any.

(B) Commitments :

The estimated amount of contracts remaining to be executed on capital account and not provided for as at 31st March, 2018 is **Rs. 888.09 crores** (2017 : Rs. 965.43 crores) and other commitment as at 31st March, 2018 is **Rs. 7.50 crores** (2017 : Rs. 7.50 crores).

39. Research and Development expenditure

(a) In recognised Research and Development units :

- (i) Expensed to Profit or Loss, including certain expenditure based on allocations made by the Company, aggregate **Rs. 822.00 crores** (2017 : Rs. 804.56 crores) [excluding depreciation and amortisation of **Rs. 564.24 crores** (2017 : Rs. 474.88 crores)].
- (ii) Development expenditure incurred during the year **Rs. 830.39 crores** (2017 : Rs. 716.42 crores).
- (iii) Capitalisation of assets **Rs. 163.97 crores** (2017 : Rs. 120.12 crores).

(b) In other units :

- (i) Expensed to Profit or Loss, including certain expenditure based on allocations made by the Company, aggregate **Rs. 75.05 crores** (2017 : Rs. 84.12 crores) [excluding depreciation and amortisation of **Rs. 25.88 crores** (2017 : Rs. 29.33 crores)].
- (ii) Development expenditure incurred during the year **Rs. 154.64 crores** (2017 : Rs. 101.88 crores).
- (iii) Capitalisation of assets **Rs. 9.34 crores** (2017 : Rs. 29.97 crores).

40. The Scheme of Arrangement ('The Scheme') for merger of Two Wheeler business of the Company's subsidiary, Mahindra Two Wheelers Limited (MTWL), with the Company has been approved by the Mumbai Bench of National Company Law Tribunal and on completion of the required formalities on 25th October, 2017, the Scheme has become effective from appointed date i.e., 1st October, 2016. The merger has been accounted under the 'pooling of interests' method in accordance with Appendix C of Ind AS 103 'Business Combinations' and comparatives have been restated for merger from the beginning of the previous year i.e. 1st April, 2016. Further, in terms of the Scheme, 5,03,888 Ordinary (Equity) shares (pre-bonus) of Rs. 5 each of the Company have been issued and allotted as fully paid up to the minority shareholders of MTWL in the ratio of 1 (One) Ordinary (Equity) Share of Rs. 5 each fully paid-up in the capital of the Company for every 461 (Four Hundred and Sixty One) fully paid-up Equity Shares held in MTWL. Consequently, an amount of **Rs. 335.87 crores** representing difference between the consideration issued and value of net identifiable assets acquired has been transferred to Capital Reserve.

41. Previous year's figures have been regrouped/reclassified wherever necessary.

Consolidated Accounts

Independent Auditor's Report to the Members of Mahindra & Mahindra Limited

Report on the Audit of Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of **Mahindra & Mahindra Limited** (hereinafter referred to as "the Company" or "M&M") and its subsidiaries (the Company and its subsidiaries together referred to as "the Group"), its associates and its joint ventures, which comprise the Consolidated Balance Sheet as at 31 March 2018, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement for the year then ended, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated state of affairs, consolidated profit (including other comprehensive income), consolidated statement of changes in equity and consolidated cash flows of the Group including its associates and joint ventures in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates and its joint ventures and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for assessing the ability of the Group and of its associates and joint ventures to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate or cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting

and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143 (10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of Group and of its associates and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause Group and its associates and joint ventures to cease to continue as a going concern.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph 2 (a) of the Other matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, associates and joint ventures, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates and joint ventures as at 31 March 2018, and their consolidated profit (including other comprehensive income), consolidated statement of changes in equity and consolidated cash flows for the year ended on that date.

Other matters

1. The comparative financial information of the Group, its associates and joint ventures for the year ended 31 March 2017 prepared in accordance with Ind AS included in these consolidated financial statements have been audited by the predecessor auditor who had audited the financial statements for the relevant period. The report of the predecessor auditor on the comparative financial information dated 30 May 2018 expressed an unmodified opinion.
2. (a) We did not audit the financial statements of 157 subsidiaries, whose financial statements reflect total assets of Rs. 39,384 crores as at 31 March 2018, total revenues of Rs. 38,009 crores and net cash inflows amounting to Rs. 825 crores for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit of Rs. 357 crores for the year ended 31 March 2018, as considered in the consolidated financial statements, in respect of 34 associates and 19 joint ventures, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Company's Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, associates and joint ventures and our report in terms of sub-section (3) of Section 143 of the Act, insofar as it relates to the aforesaid subsidiaries, associates and joint ventures is based solely on the reports of the other auditors.

Certain of these subsidiaries, associates and joint ventures are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Company's management has converted the financial statements of such subsidiaries/associates/joint ventures located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries/associates/ joint ventures located outside India is based on the reports of other auditors and the conversion adjustments prepared by the management of the Company and audited by us.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on financial

statements and the other financial information of subsidiaries, associates and joint ventures, as noted in the 'Other matters' paragraph, we report, to the extent applicable, that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors of the Company as on 31 March 2018 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary companies, associate companies and joint ventures incorporated in India, none of the directors of the Group companies, its associate companies, and joint ventures incorporated in India is disqualified as on 31 March 2018 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company, its subsidiary companies, associate companies and joint ventures incorporated in India and the operating effectiveness of such controls, refer to our separate Report in the "Annexure".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements as also the other financial information of the subsidiaries, associates and joint ventures, as noted in the 'Other matters' paragraph:
 - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group, its associates and joint ventures. Refer Note 40 to the consolidated financial statements.

- ii. Provision has been made in the consolidated financial statements, as required under the applicable law or Ind AS, for material foreseeable losses, on long-term contracts including derivative contracts. Refer Note 20 to the consolidated financial statements in respect of such items as it relates to the Group, its associates and joint ventures.
- iii. There has been no delay in transferring amounts to the Investor Education and Protection Fund by the Company and its subsidiary companies, associate companies and joint ventures incorporated in India during the year ended 31 March 2018.
- iv. The disclosures in the consolidated financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016

to 30 December 2016 have not been made since they do not pertain to the financial year ended 31 March 2018. However, amounts as appearing in the audited consolidated financial statements for the period ended 31 March 2017 have been disclosed.

Annexure to the Independent Auditors' Report of even date on the Consolidated Ind AS financial statements of Mahindra & Mahindra Limited

Report on the Internal Financial Controls under Clause (i) of Sub section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of **Mahindra & Mahindra Limited** ("the Company") as of and for the year ended 31 March 2018, we have audited the internal financial controls with reference to financial statements of Company, its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company, its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial statements criteria established by the Holding Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company, its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable, to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and

operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies, associate companies and joint ventures which are companies incorporated in India, in terms of their reports referred to in the Other matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on consideration of reporting of the other auditors as mentioned in the Other Matters paragraph,

the Company, its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India have, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2018, based on the internal controls with reference to financial statements criteria established by the Holding Company, considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.

Other matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements in so far as it relates

to eighty five subsidiary companies, eight associate companies and sixteen joint ventures which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Notes to the Consolidated Financial Statements for the year ended 31st March, 2018

1. General information

Mahindra & Mahindra Limited ('the Company') is a limited company incorporated in India. The address of its registered office and principal activities of the Company are disclosed in the introduction to the Annual Report.

The Ordinary (Equity) shares of the Company are listed on the National Stock Exchange ("NSE"), the Bombay Stock Exchange ("BSE") in India. The Global Depository Receipts (GDRs) (underlying equity shares) of the Company are listed on the Luxembourg Stock Exchange and also admitted for trading on International Order Book (IOB) of London Stock Exchange.

2. Significant Accounting Policies

a) Statement of compliance and basis of preparation and presentation

These consolidated financial statements of Mahindra & Mahindra Limited and its subsidiaries ('the Group' or 'Mahindra Group') have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

These consolidated financial statements were approved by the Company's Board of Directors and authorised for issue on 29th May, 2018.

b) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values.

c) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries.

Subsidiaries

Subsidiaries are entities over which the Group has control. Subsidiaries are consolidated on a line-by-line basis from the date the control is transferred to the Group. They are deconsolidated from the date that control ceases. The acquisition method of accounting is used to account for business combinations by the Group. Changes in the Group's interest in subsidiaries that do not result in a loss of control are accounted as equity transactions. The carrying amount of the Company's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. These financial statements are prepared by applying uniform accounting policies in use at the Group.

Associates

Associates are the entities over which the Group has significant influence. Investment in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Joint Arrangements

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have the rights to the net assets of the arrangement. The results, assets and liabilities of a joint venture are accounted using the equity method of accounting. Where the Group's activities are conducted through joint operations (i.e. the parties have rights to the assets and obligation for liabilities relating to the arrangement), the Group recognises its share of assets, liabilities, income and expenses of such joint operations incurred jointly along with its share of income from the sale of output.

d) Measurement of fair values

A number of Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Group has established policies and procedures with respect to the measurement of fair values.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

e) Critical Accounting Estimates and Judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Key sources of estimation uncertainty at the date of financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of useful lives of property, plant and equipment, other intangible assets, provision for product warranty, fair value of financial assets/liabilities and impairment of investments and goodwill.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Useful lives of property, plant and equipment and other intangible assets

The Group reviews the useful life of property, plant and equipment and other intangible assets at the end of each reporting period. This re-assessment may result in change in depreciation and amortisation expense in future periods.

Provision for product warranties

The Group recognises provision for warranties in respect of the products that it sells. Provisions are discounted, where necessary, to its present value based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Fair value of financial assets and liabilities and investments

The Group measures certain financial assets and liabilities on fair value basis at each balance sheet date or at the time they are assessed for impairment. Fair value measurement that are based on significant unobservable inputs (Level 3) requires estimates of operating margin, discount rate, future growth rate, terminal values, etc. based on management's best estimate about future developments.

Impairment of goodwill

The Group estimates the value in use of the cash generating unit (CGU) based on the future cash flows after considering current economic conditions and trends, estimated future operating results and growth rate and anticipated future economic and regulatory conditions. The estimated cash flows are developed using internal forecasts. The discount rate used for the CGUs represent the weighted average cost of capital based on historical market returns of comparable companies.

f) Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any.

Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use.

Depreciation is provided on straight-line basis for property, plant and equipment so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful lives. The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in profit or loss.

The management's estimate of useful lives are in accordance with Schedule II to the Companies Act, 2013, other than the following asset classes, based on the Group's expected usage pattern supported by technical assessment:

| Asset Class | Useful lives |
|--------------------------------|--------------|
| i) Plant and equipment | 2-25 years |
| ii) Buildings, including roads | 3-60 years |
| iii) Vehicles | 2-10 years |

g) Goodwill and Intangible Assets

Goodwill is initially recognised as the excess of consideration paid and acquirer's interest in the net fair value of the identifiable net assets of acquired business. Subsequent to initial measurement, goodwill is measured at cost less accumulated impairment, if any. Goodwill is allocated to the cash-generating unit which is expected to benefit from the business combination.

Intangible assets are initially recognised at cost except those acquired in a business combination on or after the transition date in which case it is recognised at their acquisition date fair value.

Subsequent to initial recognition, intangible assets other than goodwill and intangible assets with indefinite useful lives are carried at cost less accumulated amortisation and accumulated impairment, if any. Intangible assets with indefinite useful lives are reviewed annually to determine whether indefinite-life assessment continues to be supportable. Intangible assets with definite useful lives are amortised on a straight line basis so as to reflect the pattern in which the asset's economic benefits are consumed.

Intangible assets under development

The Group expenses costs incurred during research phase to profit or loss in the year in which they are incurred. Development phase expenses are initially recognised as intangible assets under development until the development phase is complete, upon which the amount is capitalised as intangible asset.

Intangible assets acquired under business combination

Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value on the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

Other intangible assets

Technical Knowhow

The expenditure incurred is amortised over the estimated period of benefit, not exceeding six years commencing with the year of purchase of the technology.

Development Expenditure

The expenditure incurred on technical services and other project/product related expenses are amortised over the estimated period of benefit, not exceeding five years.

Brand license fee

The expenditure incurred is amortised over the period of relevant licence fee or the estimated period of benefit, whichever is lower.

Software Expenditure

The expenditure incurred is amortised over three financial years equally commencing from the year in which the expenditure is incurred.

Others

The expenditure incurred is amortised over the estimated period of benefit.

The amortisation period for intangible assets with finite useful lives are reviewed annually and changes in expected useful lives are treated as changes in estimates.

h) Impairment of Assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount, which is the higher of the value in use or fair value less cost to sell, of the asset or cash-generating unit, as the case may be, is estimated and impairment loss (if any) is recognised and the carrying amount is reduced to its recoverable amount.

When an impairment loss subsequently reverses, the carrying amount of the asset or a cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) earlier. Impairment loss recognised in profit or loss are presented as part of 'other expenses'.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

i) Inventories

Inventories comprise all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw materials and bought out components are valued at the lower of cost or net realisable value. Cost is determined on the basis of the weighted average method.

Finished goods produced and purchased for sale, manufactured components and work-in-progress are carried at cost or net realisable value whichever is lower. Excise duty is included in the value of finished goods inventory.

Stores, spares and tools other than obsolete and slow moving items are carried at cost. Obsolete and slow moving items are valued at cost or estimated net realisable value, whichever is lower.

j) Foreign exchange transactions and translation

The functional currency of the Company and its Indian subsidiaries is Indian Rupees whereas the functional currency of foreign subsidiaries is the currency of their countries of domicile.

Transactions in foreign currencies are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the functional currency using exchange rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are measured at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for exchange differences on transactions entered into in order to hedge certain foreign currency risks (refer policy on Derivative Financial Instruments and Hedge Accounting).

For the purposes of presenting these consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into Indian Rupees using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity (and attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that includes a foreign operation that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposal (i.e. partial disposals of associates or joint arrangements that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

k) Financial Instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Classification and subsequent measurement

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured at either amortised cost or fair value depending on their respective classification.

On initial recognition, a financial asset is classified as measured at -

- Amortised cost; or
- Fair Value through Other Comprehensive Income (FVTOCI) – debt investment; or
- Fair Value through Other Comprehensive Income (FVTOCI) – equity investment; or
- Fair Value through Profit or Loss

The classification of debt instrument as amortised cost or FVTOCI is based on the business model and cash flow characteristics of such instrument.

Financial assets are not reclassified subsequent to their initial recognition, except if the Group changes its business model for managing financial assets.

All financial asset not classified as measured at amortised cost or FVTOCI are measured at FVTPL. This includes all derivative financial assets unless designated as effective hedge instruments which are accounted as per hedge accounting requirements discussed below.

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain and loss on derecognition is recognised in profit or loss.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Debt investment at FVTOCI are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

For equity investments, the Group makes an election on an instrument-by-instrument basis to designate equity investments as measured at FVTOCI. These elected investments are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the reserves. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments. These investments in equity are not held for trading. Instead, they are held for medium or long-term strategic purpose. Upon the application of Ind AS 109, the Group has chosen to designate these investments as at FVTOCI as the Group believes that this provides a more meaningful presentation for medium or long-term strategic investments, than reflecting changes in fair value immediately in profit or loss. Dividend income received on such equity investments are recognised in profit or loss.

Equity investments that are not designated as measured at FVTOCI are designated as measured at FVTPL and subsequent changes in fair value are recognised in profit or loss.

Financial liabilities and equity instruments

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group is recognised at the proceeds received, net of directly attributable transaction costs.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is a derivative (that does not meet hedge accounting requirements) or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Compound instruments

An issued financial instrument that comprises of both the liability and equity components are accounted as compound financial instruments. The fair value of the liability component is separated from the compound instrument and the residual value is recognised as equity component of other financial instrument. The liability component is subsequently measured at amortised cost, whereas the equity component is not remeasured after initial recognition. The transaction costs related to compound instruments are allocated to the liability and equity components in the proportion to the allocation of gross proceeds. Transaction costs related to equity component is recognised directly in equity and the cost related to liability component is included in the carrying amount of the liability component and amortised using effective interest method.

Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all of the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for the amount it may have to pay.

If the Group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised and the proceeds received are recognised as a collateralised borrowing.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Financial guarantee contracts and loan commitments

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts and loan commitments issued by the Group are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 18.

Derivative financial instruments and hedge accounting

The Group enters into derivative financial instruments, primarily foreign exchange forward contracts and interest rate swaps, to manage its exposure to foreign exchange and interest rate risks. Derivatives embedded in non-derivative host contracts that are not financial assets within the scope of Ind AS 109 are treated as separate derivatives when their risks and economic characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

Derivatives are initially recognised at fair value at the date the contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

The Group designates certain hedging instruments, which include derivatives in respect of foreign currency risk, as either fair value hedges or cash flow hedges. Hedges of foreign exchange risk on firm commitments are accounted for as cash flow hedges.

At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

Changes in fair value of the designated portion of derivatives that qualify as fair value hedges are recognised in profit or loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated under hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in the statement of profit and loss.

Amounts previously recognised in other comprehensive income and accumulated in equity relating to (effective portion as described above) are reclassified to profit or loss in the periods when the hedged item affects profit or loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the statement of profit and loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in the profit or loss.

Impairment of financial assets

The Group applies the expected credit loss (ECL) model for recognising impairment loss on financial assets. With respect to trade receivables, the Group measures the loss allowance at an amount equal to lifetime expected credit losses. For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12 month ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition. 12 month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVTOCI, the loss allowance is recognised in OCI.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

I) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are inclusive of excise duty and net of customer returns, trade allowance, rebates, value added taxes and amount collected on behalf of third parties.

Sale of goods

Revenue from the sale of goods is recognized when all the following conditions are satisfied:

- a) the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- b) the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- c) the amount of revenue can be measured reliably;
- d) it is probable that the economic benefits associated with the transaction will flow to the entity; and
- e) the costs incurred or to be incurred in respect of the transaction can be measured reliably

Sale of services

Sale of services are recognised on rendering of such services.

Dividend and interest income

Dividend from investments are recognised in profit or loss when the right to receive payment is established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Income from financing business

Interest income and expense related to financing business of the Group are recognised in profit or loss using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to the gross carrying amount of the financial asset or the amortised cost of the financial liability.

When calculating the effective interest rate for financial instruments other than credit-impaired assets, the Group estimates future cash flows considering all contractual terms of the financial instrument, but not expected credit losses. For credit-impaired financial assets, a credit-adjusted effective interest rate is calculated using estimated future cash flows including expected credit losses.

The calculation of the effective interest rate includes transaction costs and fees paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or financial liability.

Long term construction contracts and property development activity

Income from real estate sales is recognised on the transfer of all significant risks and rewards of ownership to the buyers and it is not unreasonable to expect ultimate collection and no significant uncertainty exists regarding the amount of consideration. However if, at the time of transfer substantial acts are yet to be performed under the contract, revenue is recognised on proportionate basis as the acts are performed, i.e. on the percentage of completion basis.

When the outcome of the construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting periods, measured based on the proportion of the contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When contract costs incurred to date plus recognised profits less recognised losses exceed progress billings, the surplus is shown as amounts due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included in the balance sheet, as a liability, as advances received. Amounts billed for work performed but not yet paid by the customer are included in the consolidated balance sheet under trade receivables, whereas amount not billed for work performed are included under other current assets.

Further, in accordance with the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable) issued by the Institute of Chartered Accountants of India, revenues from real estate projects are recognised only when:

- i. all critical approvals necessary for commencement of the project have been obtained,
- ii. the actual construction and development cost incurred is at least 25% of the total construction and development cost (without considering land cost),
- iii. when at least 10% of the sales consideration is realised, and
- iv. where 25% of the total saleable area of the project is secured by contracts of agreement with buyers.

Revenue from sale of land and other rights are considered upon transfer of all significant risks and rewards of ownership of such real estate/property as per the terms of the contract entered into with the buyers, which generally with the firmity of the sale contracts/agreements.

Project management fees receivable on fixed period contracts is accounted over the tenure of the contract/agreement. Where the fee is linked to the input costs, revenue is recognised as a proportion of the work completed based on progress claims submitted. Where the management fee is linked to the revenue generation from the project, revenue is recognised on the percentage of completion basis.

Vacation Ownership

The activity of selling vacation ownership and providing holiday facilities to members is for a specified period each year, over a number of years, for which membership fee is collected either in full up front, or on a deferred payment basis. Admission fee, which is non-refundable, is recognized as income on admission of a member to the extent there is no significant uncertainty as to its collectability at inception. Entitlement fee, which entitles the members the vacation ownership facilities over the agreed membership period, is recognized as income equally over the tenure of membership (33 years / 25 years / 10 years or any other tenure applicable to the respective member), commencing from the year of admission of each member. Entitlement fees which will be recognised in future periods are disclosed under Other Liabilities – Deferred Income.

Annual subscription fee dues from members are recognized as income on accrual basis and fees pertaining to the period beyond the date of the balance sheet is recognised as Deferred Income. Interest income is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time proportionate basis, by reference to the principal outstanding and at the agreed rates. Income of resorts from room rentals, food and beverages, etc. is recognized when services are rendered.

Revenue is recognized only when it is probable that the economic benefits associated with the transaction will flow to the Group. Revenue with respect to instalments/contracts where there is an uncertainty about collectability is deferred (even though the membership is not cancelled). The estimation of such revenues doubtful of recovery has been made by the Group based on past trends of year-wise cancellation of memberships and considering factors impacting future trends.

Revenue from sale of vacation ownership weeks is recognised when related right to use the specific property over the specific week(s) is transferred to the buyer for a consideration, which coincides with transfer of significant risks and rewards of ownership.

Income from sale of vacation ownership weeks in villas is recognized when the outcome of a villa project can be estimated reliably. Project revenue and contract costs associated with the contract are recognised as revenue and expenses respectively by reference to the percentage of completion of the project activity at the reporting date.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense in profit or loss in the period in which such probability occurs.

m) Government Grants

The Group, directly or indirectly through a consortium of group companies, is entitled to various incentives from government authorities in respect of manufacturing units located in developing regions. The Group accounts for its entitlement as income on accrual basis.

The benefit of a government loan at a below market-rate of interest is treated as government grant and is measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates at the inception of the loan.

n) Employee Benefits***Superannuation Fund, ESIC and Labour Welfare Fund***

The Group's contribution paid / payable during the year to Superannuation Fund, ESIC and Labour Welfare Fund are recognised in profit or loss.

Provident Fund

Contributions to Provident Fund are made to Trusts administered by the Group/Regional Provident Fund Commissioners and are charged to profit or loss as incurred. The Group is liable for the contribution and any shortfall in interest between the amount of interest realised by the investments and the interest payable to members at the rate declared by the Government of India in respect of the Trust administered by the Group companies.

Long term Compensated Absences

The liability towards long term compensated absences are determined by independent actuaries using the projected unit credit method.

Gratuity, post retirement medical benefit and post retirement housing allowance schemes

The liability towards gratuity, post retirement medical benefit and post retirement housing allowance schemes are determined by independent actuaries, using the projected unit credit method. Past services are recognised at the earlier of the plan amendment/curtailment and the recognition of related restructuring costs/termination benefits.

The obligation on long term compensated absences and other defined benefit plan are measured at the present value of estimated future cash flows using a discount rate that is determined by reference to the market yields at the balance sheet date on government bonds (high quality corporate bonds in case of foreign companies) where the currency and terms of the government bonds are consistent with the currency and estimated terms of the defined benefit obligation.

Remeasurement gains/losses

Remeasurement of defined benefit plans, comprising of actuarial gains or losses, return on plan assets excluding interest income are recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. Remeasurements are not reclassified to profit or loss in subsequent period.

Remeasurement gains or losses on long term compensated absences that are classified as other long term benefits are recognised in profit or loss.

Share based payments

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

Share appreciation rights which are cash settled share-based payments are recognised as employee benefit expense over the relevant service period. The liabilities are remeasured to fair value at each reporting date.

o) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

p) Income taxes***Current tax***

Current tax is determined as the amount of tax payable in respect of taxable income for the year. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilized. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill. Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Group will pay normal income tax against which the MAT paid will be adjusted. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

q) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of these cash flows (when the effect of the time value of money is material).

Provisions for the expected cost of warranty obligations are recognised at the time of sale of the relevant products, at the best estimate of the expenditure required to settle the Group's obligation.

Contingent liabilities acquired in a business combination are initially measured at fair value at the acquisition date. At the end of the subsequent reporting periods, such contingent liabilities are measured at the higher of the amount that would be recognised in accordance with Ind AS 37 - Provisions, Contingent Assets and Contingent Liabilities and the amount initially recognised less cumulative amortisation recognised in accordance with Ind AS 18 – Revenue.

r) Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Certain arrangements convey a right to use an asset in return for a payment or series of payments. At inception of the arrangement, the Group determines whether such an arrangement is or contains a lease and separates the consideration into those for the lease and those for other elements. The lease component is accounted as per Group's accounting policy on leasing transactions.

The Group as lessor

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Rental income from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the Group's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

The Group as lessee

Assets held under finance leases are initially recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated balance sheet as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue.

s) Business combinations

The Group accounts for its business combinations under acquisition method of accounting. The acquiree's identifiable assets including goodwill, liabilities and contingent liabilities that meet the condition for recognition are recognised at their fair values at the acquisition date. The excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed is recognised as goodwill. Any shortfall is treated as a bargain purchase and recognised as capital reserve.

Before recognising gain in respect thereof, the Group determines whether there exists clear evidence of underlying reasons for classifying the business combination as a bargain purchase. Thereafter, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognises any additional asset or liabilities that are identified in that reassessment. The Group then reviews the procedures used to measure the amounts that Ind AS requires for the purposes of calculating the bargain purchase. If the gain remains after this reassessment and review, the Group recognises it directly in equity as capital reserve.

The interest in non-controlling interest is initially measured at fair value or at the proportionate share of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition by acquisition basis. Subsequent to initial acquisition, the carrying amount of non-controlling interest is the amount of those interest in initial recognition plus the non-controlling interest's share of subsequent changes in equity of subsidiaries.

When the consideration transferred by the Group in business combination includes assets or liabilities resulting in a contingent consideration arrangement, the contingent consideration is measured at its acquisition date fair value and included as a part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments, are adjusted retrospectively, with corresponding adjustments against goodwill or capital reserve as the case may be.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amount for the items for which the accounting is incomplete. Those provisional amount are adjusted during the measurement period (which cannot exceed one year from the acquisition date), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amount recognised at that date.

In consolidated financial statements, acquisition of non-controlling interest is accounted as equity transaction. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

Business Combination under common control are accounted as per Appendix C in Ind AS 103 - Business combinations, at carrying amount of assets and liabilities acquired and any excess of consideration issued over the net assets acquired is recognised as capital reserve on common control business combination.

t) Acquisition of interest in associate and joint ventures

Acquisition of interest in an associate or a joint venture, is initially recognised at cost. Any excess of the cost of the investment over the Group's share of the fair value of the identifiable assets and liabilities of the investee is regarded as goodwill, which is included in the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised in equity as capital reserve in the period in which the investment is acquired.

3. Recent accounting pronouncements

Standards issued but not yet effective:

In March 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2018, notifying Ind AS 115 – 'Revenue from Contracts with Customers' and consequential amendments to various Ind AS standards. The amended Rules also notified amendments to Ind AS 12 – 'Income Taxes', Ind AS 21 – 'The Effect of Changes in Foreign Exchange Rates', Ind AS 28 – 'Investments in Associates and Joint Ventures' and Ind AS 40 – 'Investment Property'. These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB). The amendments are effective from accounting periods beginning from 1st April, 2018.

Ind AS 115 – 'Revenue from Contracts with Customers':

This standard establishes a single comprehensive model for accounting of revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition guidance under Ind AS 11 Construction Contracts and Ind AS 18 Revenue. The Company is currently assessing the impact of application of Ind AS 115 on the Company's consolidated financial statements.

Amendments to Ind AS 12 – 'Income Taxes':

The amendments clarify the requirement for recognising deferred tax assets on unrealised losses on debt instruments that are measured at fair value. The amendments also clarify certain other aspects of accounting for deferred tax assets. The changes will not have any material impact on the consolidated financial statements of the Company.

Amendments to Ind AS 21 – 'The Effect of Changes in Foreign Exchange Rates':

The amendments clarify translation of advance payments denominated in foreign currency into functional currency at the spot rate on the day of payment. The guidance aims to reduce diversity in practice. The changes will not have any material impact on the consolidated financial statements of the Company.

Amendments to Ind AS 28 – 'Investments in Associates and Joint Ventures':

The amendments clarify accounting options in consolidated financial statements of a venture capital or similar entity and investment entity. These amendments are not applicable to the Company's consolidated financial statements.

Amendments to Ind AS 40 – 'Investment Property':

The amendments clarify transfers of investment property to or from the portfolio in the case of a change of use. These amendments are not applicable to the Company's consolidated financial statements.

Amendments to Ind AS 112 – 'Disclosure of Interests in Other Entities':

The amendments clarify that disclosure requirements for interest in other entities also apply to interests that are classified (or included in a disposal group that is classified) as held for sale or as discontinued operations in accordance with Ind AS 105, Non-current Assets held for Sale and Discontinued Operations. The changes will not have any material impact on the consolidated financial statements of the Company.

31. Employee Benefits**General description of defined benefit plans:****Gratuity**

Some of the group entities operate a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. Some entities makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

A Group company provides certain severance benefit to employees on leaving service. The benefit is payable after one year of service and is one months salary for every completed year of service. Additionally based on number of years of service an additional benefit is provided on normal retirement.

Post retirement medical

Few entities provide post retirement medical cover to select grade of employees to cover the retiring employee and their spouse upto a specified age through mediclaim policy on which the premiums are paid by the Company. The eligibility of the employee for the benefit as well as the amount of medical cover purchased is determined by the grade of the employee at the time of retirement.

Post retirement housing allowance

The Company operates a post retirement benefit scheme for a certain grade of employees in which a monthly allowance determined on the basis of the last drawn basic salary at the time of retirement, is paid to the retiring employee in lieu of housing.

Risk exposure

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets underperform compared to this yield, this will create or increase a deficit. The defined benefit plans may hold equity type assets, which may carry volatility and associated risk.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans' investment in debt instruments.

Inflation risk

The present value of some of the defined benefit plan obligations are calculated with reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability. The post retirement medical benefit obligation is sensitive to medical inflation and accordingly, an increase in medical inflation rate would increase the plan's liability.

Life expectancy

The present value of defined benefit plan obligation is calculated by reference to the best estimate of the mortality of plan participants, both during and after the employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Defined benefit plans - Actuarial valuation as on 31st March, 2018

33. Financial instruments

Financial Risk Management Framework

In the course of its business, the Group is exposed to a certain financial risks namely credit risk, interest risk, currency risk and liquidity risk. The Group's primary focus is to achieve better predictability of financial markets and seek to minimize potential adverse effects on its financial performance.

The financial risks are managed in accordance with the risk management policy which has been approved by Board of Directors of the respective Group companies.

Board of Directors of financial services businesses have established Asset and Liability Management Committee (ALCO), which is responsible for developing and monitoring risk management policies for their businesses. The financial services businesses are exposed to high credit risk given the unbanked rural customer base and diminishing value of collateral. The credit risk is managed through credit norms established based on historical experience.

1. Market Risk Management

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates etc. could affect the Group's income or the value of its holdings of financial instruments including cash flow. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while maximising the return.

(a) Currency Risk

The Group's exposure to currency risk relates primarily to the Group's operating activities including anticipated sales and purchase and borrowings where the transactions are denominated in foreign currencies.

The Group's foreign currency exposures are managed within approved parameters. The Group hedges its foreign currency risk mainly by way of Forward Covers. Other derivative instruments may also be used if deemed appropriate.

The carrying amounts of the Group's foreign currency exposure at the end of the reporting period are as follows :

(b) Interest Rate Risk

The Group uses a mix of cash and borrowings to manage the liquidity and fund requirements of its day-to-day operations. Further, certain interest bearing liabilities carry variable interest rates.

Interest Rate risk on variable rate borrowings is managed by way of interest rate swaps.

Hedge Accounting : Interest Rate Swaps

Interest Rate swaps entered into by the Group meet the requirements for hedge accounting under Ind AS 109 - Financial Instruments, and thus are accounted as such.

2. Credit Risk Management

Credit Risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group usually deals with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The exposure is continuously monitored.

(a) Financial Guarantees

In addition, the Group is exposed to credit risk in relation to financial guarantees given to banks provided by the Group. The Group's maximum exposure in this respect is the maximum amount the Group could have to pay if the guarantee is called on. The accounting of financial guarantees is as explained in Note 2(k). Accordingly, the amount recognised in Balance Sheet as liabilities is as below :

| Particulars | Rupees crores | |
|--------------------------------------|---------------|-------|
| | 2018 | 2017 |
| Financial Guarantee Liabilities..... | 39.25 | 43.79 |

The Group's maximum exposure to credit risk in respect of Financial Guarantee contracts is Rs. 847.96 crores and Rs. 792.70 crores as at 31st March, 2018 and 2017 respectively.

(b) Trade Receivables

The Group applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The Group has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Group. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses.

The loss allowance for trade receivables using expected credit losses for different ageing periods are as follows:

Credit Quality of Financial Loans

Financial services business has a comprehensive framework for monitoring credit quality of its retail and other loans based on Days past due monitoring. Repayment by individual customers and portfolio is tracked regularly and required steps for recovery is taken through follow ups and legal recourse.

Inputs considered in the ECL model

In assessing the impairment of loans assets under Expected Credit Loss (ECL) Model, the loan assets have been segmented into three stages. The three stages reflect the general pattern of credit deterioration of a financial instrument. The differences in accounting between stages, relate to the recognition of expected credit losses and the calculation and presentation of interest revenue.

The company categorises loan assets into stages based on the Months Past Due status:

- Stage 1: 0-1 month Past Due
- Stage 2: 2-3 months Past Due
- Stage 3: More than 3 months Past Due

Assumptions considered in the ECL model

The financial services business has made the following assumptions in the ECL Model:

- "Loss given default" (LGD) is common for all three stages and is based on loss in past portfolio. Actual cashflows are discounted with average rate for arriving loss rate. Effective interest rate (EIR) has been taken as discount rate for all retail loans.
- "Probability of default" (PD) is applied on Stage 1 and Stage 2 on portfolio basis and for Stage 3 PD is 100%.

Estimation Technique

The financial services business has applied the following estimation technique in its ECL model:

- Probability of default for Stage 1 loan assets is calculated as average of 5 years of movement of cases from Stage 1 to Stage 3 in next 12 months. Probability of default of Stage 2 is calculated based on lifetime ageing of 4 years completed portfolio moving to stage 3. In case of housing loan probability of default of Stage 2 is calculated based on outstanding loan portfolio till March 2017 moving to stage 3.
- Loss given default is calculated based on discounted actual cash flow on past portfolio in default along with reversals.

There is no change in estimation techniques or significant assumptions during the reporting year.

Forward Looking Information

In calculating the expected credit loss rates, the financial services business considers historical loss rates on portfolio over a period which covers most external factors like drought, government and policy changes etc and analysis of data has not shown any correlation directly with external events on repayment by retail loan customers.

Assessment of significant increase in credit risk

When determining whether the risk of default has increased significantly since initial recognition, the financial services business considers both quantitative and qualitative information and analysis based on the business's historical experience, including forward-looking information. The financial services business considers reasonable and supportable information that is relevant and available without undue cost and effort. The financial services business uses the number of days past due to classify a financial instrument in low credit risk category and to determine significant increase in credit risk in retail. As a backstop, the financial services business considers that a significant increase in credit risk occurs no later than when an asset is more than 30 days past due.

Definition of default

The definition of default used for internal credit risk management purposes is based on RBI Guidelines and in case of housing loan based on NHB Guidelines. Under Ind AS, the financial services business considers a financial asset to be in default when it is more than 90 days past due. The financial services business considers a financial asset under default as 'credit impaired'.

Policy for write off of Loan Assets

The financial services business writes off all loans on half yearly basis which has been past due by 6 months from date of maturity and in case of housing loan when there is no collection from last 3 years.

Impairment loss

The expected credit loss allowance provision is determined as follows:

| | Performing Loans - 12 month ECL | Under performing loans - 'lifetime ECL not credit impaired' | Impaired loans - 'lifetime ECL credit impaired' | Total |
|---|---------------------------------------|---|---|------------------|
| | Rupees crores | | | |

'12 months ECL' and 'lifetime ECL not credit impaired' are collectively assessed. 'Lifetime ECL credit impaired' are individually assessed.

Loan which are written off continue to be subject of enforcement activity.

Significant changes in the gross carrying value that contributed to change in loss allowance

The financial services business mostly provides loans to retail individual customers in Rural and Semi urban area which are of small ticket size. Change in any single customer repayment will not impact significantly to Company's provisioning. All customers are being monitored based on past due status of outstanding loan and corrective actions are taken accordingly to limit the financial services businesses risk.

Concentration of Credit Risk

Financial services business's loan portfolio is predominantly to finance retail automobile and allied equipment loans, housing loans and other business loans. The financial services business manages concentration of risk primarily by geographical region in India. The following tables show the geographical concentrations of financial loans as at year end:

| Particulars | Rupees crores | |

Maximum Exposure to credit Risk

The maximum exposure to credit risk of loans is their carrying amount. The maximum exposure is before considering both the effect of mitigation through collateral.

Narrative Description of Collateral

The amount of collateral obtained, if deemed necessary by the financial services business upon extension of credit, is based on management's credit evaluation of the counterparty. Collateral primarily include vehicles and residential units purchased by retail loan customers.

The amounts included above for financial guarantee contracts are the maximum amounts the Group could be forced to settle under the arrangement for the full guaranteed amount if that amount is claimed by the counterparty to the guarantee. Based on expectations at the end of the reporting period, the Group considers that it is more likely than not that such an amount will not be payable under the arrangement.

The following table details the Group's liquidity analysis for its derivative financial instruments. When the amount payable or receivable is not fixed, the amount disclosed has been determined by reference to the projected interest rates as illustrated by the yield curves at the end of the reporting period.

4. Sensitivity Analysis

(a) Foreign Currency Sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in major exchange rates, with all other variables held constant.

| Particulars | Currency | Change in rate | Rupees crores | |
|---|-----------|----------------|--------------------------------|-----------------------------|
| | | | Effect on Profit Before Tax | Effect on pre-tax equity |
| Year ended 31 st March, 2018..... | KRW / USD | +10% | 13.38 | — |
| | KRW / JPY | +10% | (49.44) | — |
| | INR / EUR | +10% | (2.94) | — |
| Year ended 31 st March, 2017 | KRW / USD | +10% | 26.22 | — |
| | KRW / JPY | +10% | (62.27) | — |
| | INR / EUR | +10% | 47.28 | — |

If the change in rates decline by a similar percentage, there will be opposite impact of similar amount on Profit Before Tax and Pre-tax Equity.

The sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

(b) Interest Rate sensitivity

The sensitivity analyses below have been determined based on exposure to interest rate for both derivative and non-derivative instruments at the end of reporting period. For floating rate liabilities, analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year. The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

| Particulars | Currency | Increase / decrease in basis points | Rupees crores | |
|---|----------|---|--------------------------------|-----------------------------|
| | | | Effect on profit before tax | Effect on pre-tax equity |
| Year ended 31 st March, 2018..... | INR | +50 bps | (56.66) | — |
| | EUR | +25 bps | (2.47) | 3.56 |
| Year ended 31 st March, 2017 | INR | +50 bps | (50.82) | — |
| | EUR | +25 bps | (0.63) | 3.91 |

If the change in rates decline by a similar percentage, there will be opposite impact of similar amount on Profit Before Tax and Pre-tax Equity.

34. Significant acquisitions and changes in ownership:

a) Acquisition of Subsidiaries

Mahindra Logistics Limited

On 10th November, 2017, Mahindra & Mahindra Limited sold 13.59% stake in Mahindra Logistics Limited through Initial Public Offer (IPO) in which the other private equity shareholder also sold an equivalent stake. Consequent to the IPO, due to changes in the rights of the private equity shareholder, the status of Mahindra Logistics Limited has changed from joint venture to subsidiary. Further, in accordance with IndAS 110 - 'Consolidated Financial Statements', the retained interest has been re-measured at fair value. The gain on sale of stake and the re-measurement gain on retained interest have been recognised as exceptional items in the Consolidated Statement of Profit & Loss.

Consequent to gaining of control, the results of Mahindra Logistics operations have been consolidated by the Group from 10th November, 2017 on a line-by-line basis.

(c) The Customs, Excise and Service Tax Appellate Tribunal (CESTAT) by its order dated 7th December, 2009 has rejected the Company's appeal against the order dated 30th March, 2005 passed by the Commissioner of Central Excise (Adjudication), Navi Mumbai confirming the demand made on the Company for payment of differential excise duty (including penalty) of Rs. 304.10 crores in connection with the classification of Company's Commander range of vehicles, during the years 1991 to 1996. Whilst the Company had classified the Commander range of vehicles as 10-seater attracting a lower rate of excise duty, the Commissioner of Central Excise (Adjudication), Navi Mumbai, has held that these vehicles could not be classified as 10-seater as they did not fulfil the requirement of 10-seater vehicles, as provided under the Motor Vehicles Act, 1988 (MVA) read with Maharashtra Motor Vehicles Rules, 1989 (MMVR) and as such attracted a higher rate of excise duty. The Company has challenged the CESTAT order in the Supreme Court.

In earlier collateral proceedings on this issue, the CESTAT had, by an order dated 19th July, 2005 settled the controversy in the Company's favour. The CESTAT had accepted the Company's submission that MVA and MMVR could not be referred to for determining the classification for the purpose of levy of excise duty and rejected the Department's appeal against the order of the Collector, Central Excise classifying the Commander range of vehicles as 10-seater. The Department had challenged the CESTAT order in the Supreme Court.

Without prejudice to the grounds raised in this appeal, the Company has paid an amount of Rs. 40.00 crores in January, 2010. The Supreme Court has admitted the Company's appeal and has stayed the recovery of the balance amount till further orders.

Both these orders of the Tribunals were heard and disposed off by the Honorable Supreme Court, in August 2014. Since contrary views were expressed by the Tribunals in two parallel proceedings, the Honorable Supreme Court directed that a larger bench of the Tribunal be constituted to hear the appeals without expressing any opinion on the issues.

The Larger Bench of the CESTAT heard the matter in February, 2015 and by an order dated 27th February, 2015, remanded the matter to the Commissioner of Central Excise for consideration of the case afresh keeping all issues open. The matter is presently pending before the Honorable Commissioner. The company strongly believes, based on legal advice it has received, that it has a good case on merits and would eventually succeed in the matter. As regards Commander case the matter is still pending adjudication before the Commissioner. However, pending the final outcome, basis the earlier adjudication order, the Company has reflected the above amount aggregating Rs. 304.10 crores (including penalty) and the interest of Rs. 390.72 crores accrued on the same upto 31st March, 2018, under Note (a)(i) above.
