Improved economic outlook and business environment is expected to accelerate the sales in FY 16

- With positive investment and business sentiment driven by government reforms, lower fuel price, moderating inflationary pressures leading to interest rate cut, the automobile sales are expected to show improvement in FY16.
- M&HCV growth is expected to be more comprehensive and sustainable in FY 16. We expect SCV segment will reflect growth momentum from Q2 FY 16.
- JNNURM Phase 2 orders to drive bus volumes
- Wide and compelling product range- with several new launches in Q4 FY 15 and FY 16 across Prima and Ultra Range, refreshes/variants in SCV and pick ups-Super Ace Mint and Ace Mega, provides strong foundation for growth.
- Export growth will continue to be high focus.

- New products and mid cycle enhancements to drive growth : Full Year of Tata ZEST and Tata BOLT and Nano Twist
- New generation models, will drive growth and gains in market share ,as being seen in Zest and followed with Bolt,
- **Product plan till 2020 defined -** with 2 new vehicle launches planned every year,
- Will continue to avail opportunities for extending the export markets

Tata Motors Group - Jaguar LandRover- Way Forward

- 2015/16 is an important year for JLR with major developments including:
 - Launch of the Discovery Sport, Jaguar XE, F-Pace and other exciting new products and derivatives
 - Launch of the new Ingenium Engine plant
 - Launch of the new Chery Jaguar Land Rover (CJLR) plant in China starting with production of the Evoque for the Chinese market to be followed by at least 2 further JLR products over the next 18 months
- These developments are expected to support the continued growth and profitability of JLR with strong EBITDA margins in the range experienced since JLR embarked on its growth strategy in 2011 although EBITDA margins in 2015/16 may be somewhat lower than the levels experienced in 2014/15 reflecting:
 - Start up of the China JV -- JLR will account for its 50% share of JV profits on the manufacture of the Range Rover Evoque and at least 2 other JLR products for the Chinese Market in PBT below EBITDA
 - Model mix and launch costs associated with new products
 - More mixed economic conditions across markets
- However, JLR is confident of significant volume growth in 2015/16 supported in particular by the launch of the Land Rover Discovery Sport, the China JV, the Jaguar XE and other new products to be announced

Jaguar XE

Tata Motors Group - Jaguar Land Rover- Way Forward

- JLR remains committed to it's strategy to invest substantially in future products, technologies and capacities to deliver profitable volume growth
 - For 2014/15, spending is now expected to come in at £3-£3.2b, somewhat lower than expected primarily reflecting timing of spending commitments
 - For 2015/16, total investment spending is likely to be in the region of £3.6-3.8b. We expect that depreciation and amortization will continue to increase as a result of the continuing growth in investment
- · JLR intends to continue to drive strong operating cash flow to fund investment
 - For 2014/15, cash flow after investment is now expected to be positive, reflecting strong profitability and lower spending
 - For 2015/16, given the higher investment, free cash flow could be negative, however, we expect that our strong balance sheet, including total cash and short-term investments of £4 billion and undrawn long-term credit lines of £1.485 billion at 31 December 2015, as well as proven access to capital markets and bank funding would support our investment plans as required
