Q1 FY26 Earnings Presentation 31st July 2025

DISCLAIMER

Except for historical information, the statements made in this presentation constitute forward looking statements. These include statements regarding the intent, belief or current expectations of GE Shipping and its management regarding the Company's operations, strategic directions, prospects and future results which in turn involve certain risks and uncertainties. Certain factors may cause actual results to differ materially from those contained in the forward looking statements; including changes in freight rates; global economic and business conditions; effects of competition and technological developments; changes in laws and regulations; difficulties in achieving cost savings; currency, fuel price and interest rate fluctuations etc. The Company assumes no responsibility with regard to publicly amending, modifying or revising the statements based on any subsequent developments, information or events that may occur.

Q1FY26 HIGHLIGHTS

- Q1FY26: Net profits of INR 505 Cr on a consolidated basis
- Our consolidated NAV is INR 1,431/share as on 30th June 2025
- Declared Interim dividend (14th consecutive quarterly) of INR 7.20/Share for Q1FY2026.

NORMALISED FINANCIALS

- The impact of the exchange rate on foreign currency loans and current assets and liabilities, including cash and bank balances, has been removed
- o NCD & Currency Swap:
- o Funds raised through NCDs have been swapped into USD using INR-FCY swaps, thus creating synthetic fixed rate USD loans.
- o The MTM change of these swaps impacts the reported numbers.
- Normalized numbers are worked out after making necessary adjustments to reported numbers to reflect the effective cost of the synthetic USD loans.

NORMALISED FINANCIAL HIGHLIGHTS

- GE Shipping Q1FY26 consolidated Net Profit at INR 506 Cr
- Declared Interim dividend of INR 7.20/Share for Q1FY2026

CRUDE AND PRODUCT TANKERS

Crude Tankers

- Global dirty trade is flat y/y in 1QFY26. The decline in North American exports were offset by jump in South American exports.
- While MEG exports have been flat y/y, OPEC+ unwinding of supply cuts is likely to be positive for Crude tankers going ahead.
- Chinese crude imports grew y/y amidst domestic stock building, but imports at other key consumption centers has been soft.
- The crude tanker fleet growth remained flat compared to the previous year.

Product Tankers

- Total seaborne product trade growth was also flat y/y in 1QFY26.
- The long-haul inter-basin trade growth remains muted predominantly led by weak EU imports.
- The product tanker fleet saw growth of \sim 3% y/y. However, large number of LR2 tankers have switched to dirty trading over the last 6-8months, thereby curtailing effective product tanker fleet growth.

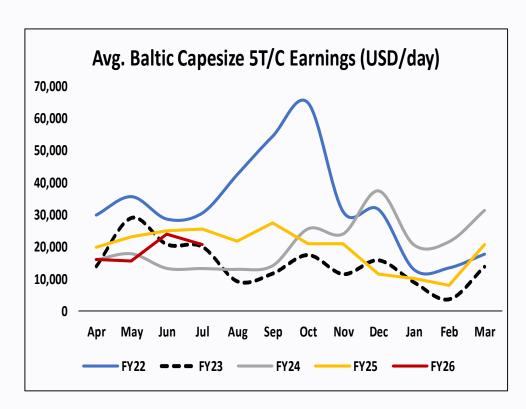

Tanker asset prices & order book

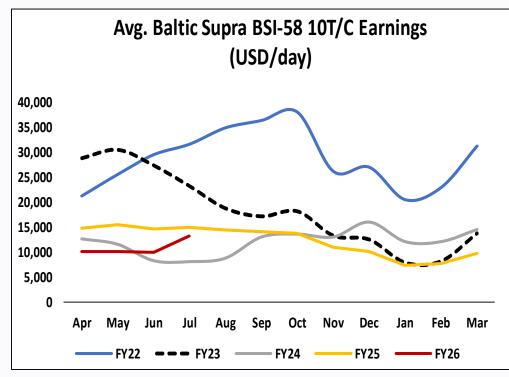

- Tanker asset prices have broadly remained flat over 1QFY26.
- The orderbook for crude and product tankers is currently 12% and 20% of their respective fleets.

Sources: Industry Reports

DRY BULK

USD/day	1QFY26	1QFY25	% change
Capesize	18,591	22,701	-18%

USD/day	1QFY26	1QFY25	% change
Supramax	10,127	15,000	-32%

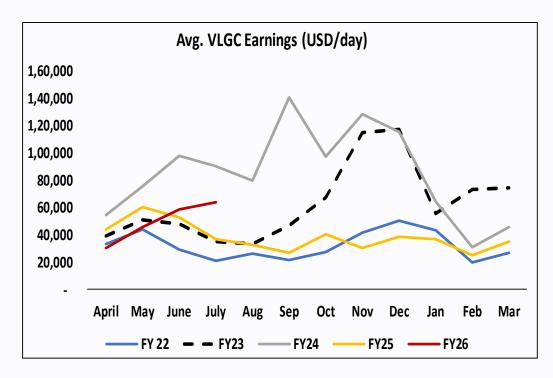

DRY BULK

- Spot earnings declined by 18-30% y/y across asset classes in 1QFY26, although they improved from the previous quarter.
- During the quarter, global iron ore trade picked up slightly as weather disruptions eased leading to improved supply from major exporters Australia and Brazil.
- Coal trade declined steeply by ~10% y/y during the quarter as domestic production in China and India remained strong. Coal inventories in both countries also remained elevated, further softening import demand.
- Global grain trade declined during the quarter as improved US exports were offset by slowing exports from Russia and Ukraine.
- Bauxite trade continued its strength during 1QFY26, growing by 19% y/y as Chinese demand for Guinean supplies remained resilient.
- Bulk carrier fleet grew by 3% y/y during 1QFY26.
- Order book for the dry bulk sector is at ~10.7% of fleet.

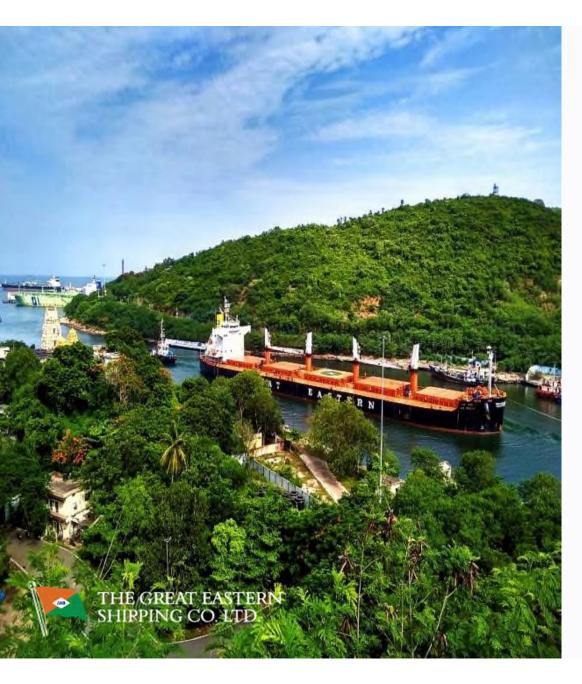

LPG GAS

USD/day 1QFY26 1QFY25 % change VLGC 44,865 52,406 -14%

- VLGC spot earnings were down 14% y/y in 1QFY26.
- VLGC trade grew by 7% y/y in 1QFY26, aided by higher exports from US while MEG exports were softer y/y.
- Nominal fleet growth stood at 3% y/y in 1QFY26.
- US-China trade war led to alteration in trade routes as China sourced more LPG from MEG and Canada, while US diverted its exports to alternate destinations.
- Decline in earnings has led to a slight correction in VLGC asset prices.
- The total VLGC orderbook-to-fleet ratio stands at 30%.
