REPORT ON MANAGEMENT DISCUSSION AND ANALYSIS

Company Overview & Economic Environment

Garware Polyester Limited (GPL) is the pioneer and the largest exporters of polyester films in India. GPL is the only manufacturer of sun control window films in India and a trend-setter in Sun Control Film industry with a history of more than 3 decades of technological development. GPL is among the only two companies in the world having backward integration into manufacturing of Sun Control Films.

The Company manufactures Bi-axially Oriented Polyethylene Terephthalate (BOPET) / Polyester Films, Sun Control Films, BOPP Films, Thermal Lamination Films and Speciality Polyester Films of high quality for a variety of end applications. GPL also manufactures the premium grade heat rejection films based on the latest 'Nano Technology' developed in its in-house R&D facility center.

The Company is already backward integrated through the establishment of a Batch Process Polyester Chips plant which ensures a steady stream of supply of chips for the Film Lines. The BOPP line set up by the Company is part of the Company's efforts to ensure forward integration too.

Thus Company's strength is its integrated manufacturing facilities, R&D Center and development of speciality products for various applications.

1. Industry Structure and Developments

Polyester films have wide applications in a host of industries engaged in the manufacture of flexible packaging, shrink labels, electrical motor and cable insulation, sequin, magnetic media, imaging, metallic yarn, laminated films for glass tint, safety application etc. Sun Control films cater to the automobile and real estate sector. The Company has a well-developed marketing network throughout the world, some of the major regions being Europe, USA, Far East, Middle East, Africa, South America etc.

The Company has developed a wide network of dedicated customers in Europe, USA, Far East, Middle East, Brazil, Australia, China, Russia, New Zealand, Eastern Europe, Mexico and Africa. In order to expand the business and offer better services to the customers of Consumer products in overseas market, the Company has Subsidiary Companies situated in USA and UK. This ensures a cohesive global organization that can weave its operations in the above countries. The quality of GPL products is rated amongst the best in the world and the Company pays special attention on customer service and satisfaction due to which the customer base is consistent and increasing.

2. Opportunities and Threats

The supply demand situation for polyester films industry continues to be not favorable as the capacities are exceeding demand. The external environment is not conducive and supportive enough to meet the increased supply coming out of the developing and developed countries. This scenario is likely to continue for some more time until the Global economies and consumption picks up. Due to uncertainty in the advanced economies and continuing euro debt crisis, the Global economy is adversely impacted resulting in weak domestic and external demand. Furthermore, due to the commoditized nature of BOPET films, the Industry remains highly competitive with pressure on margins.

Polyester Film Business is continuously becoming more competitive with new capacities/ capabilities coming up both in commodity and speciality range.

All the manufacturers are making all efforts to cut down costs to meet the challenge of excessive capacities that have come up in India.

China and other Far East markets remain sluggish which has led to imports of speciality products like Shrink into India at very low prices, in that range of USD 2.30/kg and middle layer pet film for backsheet at USD 1.75/kg.

Opportunities exist in specialities like lidding films, Shrink and coated products provided quality is at par with other brands existing in the market and competitive pricing.

For the Company, the strategy is to focus on the speciality films, launch new products, strengthen network and Services and speed up brand building initiatives. Plans are afoot on a marketing warpath, overhauling the product portfolio and penetrate newer markets, launch aggressive advertisement campaigns. The Shrink Label Application Film is very well stabilized in the market. With demand outlook for High Shrink Films remaining robust, the Company has plans to shift to the speciality PET Shrink Films, where it sees a tremendous opportunity. In Thermal Film, GPL has developed Gold & Feather Feel Films. The Company therefore hopes to rapidly grow its market share in various film segments. With foray into BOPP, GPL has now become the only company in the segment which will be manufacturing BOPET, Sun Control Films, Thermal Lamination and BOPP.

GPL derives its strength from its established track record, experienced management, diversified customer and product profile, well recognized brands and integrated manufacturing facilities which are expected to augur well for the company's future growth.

The Company has stopped sale of Sun Control Film in Domestic Market for automobile application since the ban imposed by the Judgment of the Hon Supreme Court of India on use of film on Car windows and hence diverted its capacity for international market to a large extent and developed some value added products for domestic building window glass for exterior as well as for interior application.

3. Outlook Exports

Plain Film:

The Company has maintained its record of being the top exporter of polyester films and bagged the top exporter award from Plexconcil. With the introduction of variety and high quality product offerings, the Company is fully confident of maintaining its strong position in exports. Presently Company products are being successfully sold in China, Europe, Eastern Europe, USA, South America, Africa, Middle East, Far-East, Australia, New Zealand etc.

Sun Control Film:

Your Company is one of the premier Window Film manufacturers and have been a trend-setter in Sun Control / Window Film Industry with a history of more than 30 years of technological development. We are the only Window Film manufacturer in the world that manufactures not only the base Polyester Film but also the resin used to make the base film. This offers us a distinct competitive advantage in terms of supreme control over product quality, material availability and also production costs. We manufacture Window Films for all applications (e.g. Automotive, Architectural, Safety, Anti-Graffiti etc.).

Garware Polyester Limited has revenues exceeding 1000 crore annually and is listed on the Bombay Stock Exchange (BSE). The Company has state of the art manufacturing facilities in India and has branches / subsidiaries in Maryland, USA and London, UK. Apart from India, the company has been catering to customers across North America, South America, Russia, Europe, China, Far East, Middle East and Africa.. We are the marketer of the brand 'GLOBAL WINDOW FILMS' which is registered in the US and is one of the most popular brands there. We have recently introduced a fresh new logo and expanded our product line for the brand "GLOBAL". Our share in matured markets like USA have grown exponentially. In addition to this, we also market our film in "Garware Sun Control" brand. In the domestic market in India, we are market leaders and have a strong brand recall. Our main products in the

domestic market is safety films and high heat rejection films for the building segment. We also sell laminated material under neutral/customized packaging, dyed film and release liner, thus offering marketing opportunities to distributors world-wide.

The Global Solar control film market is growing due to increasing awareness of advantages of solar control films, reduction of energy costs & carbon footprint, reduction of ultra-violet (UV) rays and infrared (IR) emissivity. The surge in both, automobile sales in export markets and in real estate development globally is also helping in the growth of solar control films and we see good potential for our growth in this segment.

The Company through its Step Down Subsidiary Global Pet Films Inc. (GPF) USA has been catering to customers across AMERICAS. Annexure - B to the Independent Auditor's Report

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Garware Polyester Limited** ("the Company") as of 31st March, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and

expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

1. SIGNIFICANT ACCOUNTING POLICIES

A. Basis of presentation of Financial Statements

The financial statements are prepared under the historical cost convention modified by revaluation of fixed assets in accordance with the prescribed Accounting Standards under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014 and other relevant provisions of the Act on accrual basis. The accounting policies have been consistently applied by the company and are consistent with those used in the previous year.

B. Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes different from the estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in the current and future periods.

C. Fixed Assets and Depreciation / Amortization

Fixed Assets are stated at cost net of MODVAT / CENVAT and includes amounts added on revaluation, less accumulated depreciation. Cost comprises of the purchase price and any directly attributable cost of bringing the assets to working condition for its intended use including interest and other incidental and trial run expenses up to the date of commercial production. Surplus on revaluation of assets is credited to Capital / Revaluation Reserve.

Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

After impairment, depreciation / amortization is provided on the revised carrying amount of the asset over its remaining useful life. A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation / amortization if there was no impairment.

E. Investments

Investments are considered as non-current investments and are stated at cost of acquisition. Market value of Quoted Investments at the date of the Balance Sheet is disclosed. Provision for diminution in the value of long-term investments is made only if such a decline is other than temporary in the opinion of the Management. On disposal of an investment, the difference between the carrying value and the net disposal proceeds is recognised in the statement of profit and loss.

Annexure - A to the Independent Auditor's Report

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit on financial statements of the Company as of and for the year ended 31st March 2017, we have audited the internal financial controls over financial reporting of Garware Polyester Limited as of that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3)

provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
