MANAGEMENT DISCUSSION AND ANALYSIS

Business Environment

The average Assets Under Management of the mutual fund industry declined to 6.65 lacs crore in March 2012 as compared to 6.82 lacs crore of December 2011. Mutual funds lost about seven lakh folios (1.5%) during the six months ended March 2012 to end with 4.64 crore folios, and for the year ended March 2012, the industry lost about eight lakh folios or 1.7%, indicating that the number of folio closures rose substantially during the last six months. The retail category was the biggest loser in terms of folios, especially in equity. The Indian mutual fund industry is passing through one of its worst phases as lackluster equities markets, low distributor support and abundance of high-yield debt instruments in the market prompt investors to redeem their money from mutual funds.

The mutual fund industry, however, has the potential to become one of the fast growing segment of the Indian Financial Market as it provides a variety of schemes to suit the needs and risk return profile of different categories of investors. Besides, it is also well regulated by the Securities and Exchange Board of India. There are currently 44 funds, including foreign funds operating in India, together offering over 740 mutual fund schemes. From the recent mergers taking place among different private sector funds, it appears that the mutual fund industry has entered a phase of consolidation and growth.

The Government's decision to permit SEBI-registered Mutual Funds to accept subscriptions from foreign investors, who meet KYC requirements for equity schemes, would enable Mutual Funds to have direct access to foreign investors and widen the class of foreign investors in Indian equity market. This could lead to better times for the industry as overseas investors are expected to be mature and therefore longer term in their orientation, especially considering that the long-term India growth story still remains intact. Though the mutual fund industry is correctly going through a difficult period, it is expected to pick up momentum once again when equity markets get stabilized.

Considering the potential for growth, the Trustees of the Shriram Mutual Fund has decided to reactivate the Mutual Fund and accordingly, the Company is in the process of submitting necessary documents with SEBI for their permission to launch new schemes.

The performance of the Company for year ended March 31, 2012 is given in brief below:-

Note No.1 Significant accounting policies

1.1 Presentation and disclosure -

(a) Presentation and disclosure of financial statements during the year ended 31 March 2012, the revised Schedule VI notified under the Companies Act 1956, has become applicable to the company, for preparation and presentation of its financial statements. The adoption of revised Schedule VI does not impact recognition and measurement principles followed for preparation of financial statements. However, it has significant impact on presentation and disclosures made in the financial statements. The Company has also reclassified the previous year figures in accordance with the requirements applicable in the current year.

(b) Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

(c) The accounts have been prepared primarily on historical cost convention and on accrual basis.

1.2 Tangible Fixed assets and depreciation:

Fixed assets are stated at cost of acquisition less accumulated depreciation. Depreciation is provided on Written Down Value method in the manner and at the rates specified in Schedule XIV to the Companies Act, 1956.

1.3 Investments

Investments that are intended to be held for not more than a year are classified as current investments and all other investments as long term investments. Current investments are carried at lower of cost and fair value computed category wise. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in nature in value of such investments.

1.4 Employee Benefits.

- 1.4.1 Company's contributions to Provident Fund are charged to Profit and Loss Account.
- 1.4.2 The provision for leave encashment and provision for gratuity is made on actuarial valuation.

1.5 **Revenue recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Dividend income on investments is accounted for when the right to receive the payment is established.

1.6 Income taxes

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized directly in equity is recognized in equity and not in the statement of profit and loss.

The Deferred Tax Assets & Liabilities arising on account of timing difference are recognised in the profit & loss account. Deferred tax assets have been recognized only to the extent there is virtual certainty that the assets would be realized in future.

1.7 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period.

1.8 Provisions

A provision is recognized when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Receivable from broker

The Company's claim for the recovery from a broker for a principal amount of Rs.72.10 lakhs, together with interest thereon has been upheld by the Arbitration Tribunal of the Bombay Stock Exchange Ltd. However, the Income Tax Department had issued prohibitory orders /attachment notices, against the Exchange in respect of properties of the broker. In response, the Exchange has filed a Writ Petition, before the Hon'ble High Court, Bombay against the Income Tax Department, challenging the prohibitory order/ attachment notices. The Hon'ble Court has passed an Interim Order, interalia directing the Exchange not to disburse the amount till further orders. The said Writ Petition is pending before the Hon'ble High Court, Bombay.

In view of the uncertainty pending finality of the proceedings, the Company has not recognised the interest on principal amount of Rs.72.10 lakhs. In the previous year, the Company received Rupees Three lakhs from the Exchange, as a part payment against the award.
