Price increases to cover inflation over the next few quarters

Higher inflation in the CY than cumulative 6 years

Price increases actioned - Bakery

- We are also witnessing quarter on quarter inflation in input costs.
- 1/3rd of the pricing is through MRP changes & 2/3rd through grammage reduction
- Grammage reduction requires a transition of SKUs that takes some time

Despite the high inflation, Operating Profitability in H1 is comparable to pre-covid levels
