नोट

1. कोविड-19 की मौजूदा महामारी को ध्यान में रखते हुए, कार्पोरेट कार्य मंत्रालय ("एमसीए") ने अपने परिपत्र दिनांक 05 मई 2020, जिसे परिपत्र दिनांक 8 अप्रैल 2020 और 13 अप्रैल 2020 (जिसे यहाँ संयुक्त रूप से "एमसीए परिपत्र" कहा गया है) के साथ पढ़ा जाना है, द्वारा वीडियो कांफ्रेंसिंग (वीसी) या अन्य श्रव्य-दृश्य (ओएवीएम) माध्यम से किसी सामान्य स्थल पर सदस्यों की वास्तविक उपस्थिति के बिना सामान्य वार्षिक बैठक ("एजीएम") करने की अनुमति दी है। कंपनी अधिनियम, 2013 ("अधिनियम"), सेबी (सूचीकरण की बाध्यताएं एवं प्रकटण की अपेक्षाएं) विनियम, 2015 ("सूचीकरण विनियम") और एमसीए परिपत्रों के प्रावधानों के अनुपालन में, कंपनी की एजीएम वीसी / ओएवीएम के माध्यम से आयोजित किया जा रहा है। एजीएम का स्थान कंपनी का पंजीकृत कार्यालय माना जाएगा।
2. चूंकि एजीएम एमसीए परिपत्रों के अनुसार वीसी / ओएवीएम के माध्यम से आयोजित की जा रही है, इसलिए सदस्यों की वास्तविक उपस्थिति की आवश्यकता नहीं है। तदनुसार, सदस्यों द्वारा एजीएम के लिए प्रॉक्सी की नियुक्ति करने की सुविधा उपलब्ध नहीं होगी और इसलिए इस सूचना के साथ प्रॉक्सी फार्म और उपस्थित पर्ची संलग्न नहीं किया गया है।
3. वीसी / ओएवीएम के माध्यम से एजीएम में उपस्थित होने वाले सदस्यों की गणना अधिनियम की धारा 103 के तहत कोरम को पूरा करने के उद्देश्य से की जाएगी।
4. कार्पोरेट / संस्थागत सदस्य (यानी व्यक्ति / एचयूएफ, एनआरआई आदि को छोड़कर) अपनी ओर से वीसी / ओएवीएम के माध्यम से एजीएम में भाग लेने और एजीएम में सुदूर ई-मतदान या मतदान के माध्यम से अपने मताधिकार का प्रयोग करने के लिए अधिकृत प्रतिनिधियों को नियुक्त करने के हकदार हैं। बैठक में भाग लेने और मतदान करने के लिए अपने प्रतिनिधियों को अधिकृत करने के इच्छुक कार्पोरेट / संस्थागत सदस्यों से अनुरोध है कि वे स्कूटिनाइज़र को मंडल के संकल्प / प्राधिकरण पत्र की प्रमाणित प्रति gthirupal@gmail.com पर भेजें और इसकी प्रति अधिनियम की धारा 113 के तारतम्य में, बैठक में उनकी ओर से वीसी / ओएवीएम के माध्यम से भाग लेने और उनकी ओर से मतदान करने हेतु अपने प्रतिनिधि को अधिकृत करते हुए कंपनी पंजीयक और अंतरण एजेंट (आरटीए) मे. इंटीग्रेटेड रजिस्ट्री मैनेजमेंट सर्विसेस प्रा. लि. को उनके ईमेल आईडी irg@integratedindia.in पर भेजें।
5. विशेष कारोबार के संबंध में अधिनियम की धारा 102(1) के तारतम्य में ऊपर बताए गए अनुसार संबंधित व्याख्यात्मक विवरण इसके साथ संलग्न है और इस बैठक की सूचना का भाग है। सूचीकरण विनियमों के विनियम 26(4) और 36(3) तथा भारतीय कंपनी सचिव संस्थान द्वारा जारी सामान्य बैठक

The Board of Directors, in its Meeting held on 29 June 2020, has recommended a final dividend of

दिनांक 29 जून, 2020 को हुई अपनी बैठक में कंपनी के प्रति ₹ 1 प्रत्येक पर इक्विटी शेयर पर रु. 1.40/- (140%) के अंतिम लाभांश की सिफारिश की है। वर्ष 2019-20 का अंतिम लाभांश, यदि एजीएम में घोषित हो, घोषणा की तारीख से 30 दिनों के भीतर ऐसे सदस्यों को देय होगा जिनके नाम 16 सितंबर 2020 को सदस्यों की कंपनी पंजी में वास्तविक शेयरों के रूप में दर्शित होंगे। बहरहाल, डीमटीरियल रूप में धारित शेयरों के संबंध में, लाभांश का भुगतान ऐसे व्यक्तियों को किया जाएगा जिनके नाम डिपोजिटरियों द्वारा दिए गए विवरण के अनुसार 16 सितंबर 2020 को कारोबारी घंटों की समाप्ति पर हितलाभी स्वामियों के रूप में दर्शित होंगे।

9. इलेक्ट्रॉनिक रूप में शेयरों को धारित करने वाले सदस्य नोट करें कि डिपोजिटरी सहभागी (डी.पी.) द्वारा प्रदान किए गए बैंक खाते के विवरण का उपयोग कंपनी द्वारा लाभांश वारंट मुद्रित करने के लिए किया जाएगा। ऐसे सदस्य जो अपने बैंक खाते के विवरण अद्यतन करना / बदलना चाहते हैं, वे एमआईसीआर कोड सहित बैंक खाते के संपूर्ण विवरण के साथ ऐसे परिवर्तनों के बारे में अपने संबंधित डी.पी. को सूचित कर सकते हैं। वास्तविक रूप में शेयरों को धारित करने वाले सदस्य कंपनी के आरटीए को निरस्त किया गए चेक के साथ अपने बैंक विवरण भेज सकते हैं। ऐसे शेयरधारक जिन्होंने अपने बैंक खाते के विवरण अद्यतन नहीं किए हैं, लाभांश वारंट / डिमांड ड्राफ्ट / चेक उनके दर्ज पत्तों पर भेजे जाएंगे। लाभांश वारंटों / डीडी की धोखाधड़ी से नकदीकरण करने से सुरक्षा प्रदान करने के लिए, शेयरधारकों से अनुरोध किया जाता है कि वे अपने संबंधित डिपोजिटरी सहभागी (डी.पी.) के पास अपने बैंक खाते के विवरण अद्यतन करा लें।
10. सेबी के आज्ञापक परिपत्र दिनांक 20 अप्रैल, 2018 के तारतम्य में, शेयरों को वास्तविक रूप में धारित करने वाले सदस्य जिनके लेजर फोलियो स्थायी खाता संख्या (पैन) के साथ अद्यतन नहीं है, को अद्यतन हेतु कंपनी के आरटीए में उसे प्रस्तुत करना होगा। शेयरों को इलेक्ट्रॉनिक रूप में धारित करने वाले सदस्यों से अनुरोध है कि वे डी.पी. जिनके पास उनके इलेक्ट्रॉनिक खाते रखे गए हैं, को पैन प्रस्तुत करें।
11. 'हरित पहल' का समर्थन करने के लिए, ऐसे सदस्य जिन्होंने अब तक अपने ईमेल एड्रेस को दर्ज नहीं कराया है, से अनुरोध है कि वे अपने डीपी के पास दर्ज करा लें यदि शेयर इलेक्ट्रॉनिक रूप में धारित हैं और यदि उनके द्वारा वास्तविक रूप में धारित शेयर किए जाते हैं, तो कंपनी के आरटीए के पास दर्ज कराएँ।

सदस्यों से अनुरोध है कि वे अपने नाम, डाक का पता, ईमेल एड्रेस, टेलीफोन / मोबाइल नंबर, स्थायी खाता संख्या (पैन), आदेश, नामांकन, मुख्तारनामा, बैंक विवरण जैसे बैंक का नाम और शाखा का विवरण, बैंक खाता संख्या, एमआईसीआर कोड, आईएफएससी कोड आदि से संबंधित परिवर्तन, यदि कोई हो, की सूचना अपने संबंधित डी.पी. को, यदि शेयर

₹ 1.40/- (140%) per equity share of ₹ 1/- each fully paid up. The Final Dividend for the year 2019-20, if declared at the AGM, will be paid within 30 days from the date of declaration, to those Members whose names appear on the Company's Register of Members as on 16 September 2020 in respect of physical shares. However, in respect of shares held in dematerialized form, the dividend will be payable to those persons whose names appear as beneficial owners as at the closure of the business hours on 16 September 2020 as per the details furnished by the depositories.

9. Members holding shares in electronic mode may note that bank account details provided by the Depository Participants (DPs) will be used by the Company for printing on dividend warrants. Members who wish to update/change their bank account details may advise their respective DPs about such change with complete details of bank account including MICR Code. Members holding shares in physical form may send their bank details along with cancelled cheque to Company's RTA. For shareholders who have not updated their bank account details, dividend warrants/demand drafts/cheques will be sent to their registered addresses. In order to provide protection against fraudulent encashment of dividend warrants/DDs, shareholders are requested to update their Bank account details with their respective Depository Participants (DPs).
10. Pursuant to SEBI mandate vide its circular dated 20 April 2018, Members holding shares in physical mode whose ledger folios have not been updated with Permanent Account Number (PAN) are required to submit the same to Company's RTA, for updation. Members holding shares in electronic form are requested to submit the PAN to DPs with whom they are maintaining their electronic accounts.
11. To support the 'Green Initiative', Members who have not yet registered their e-mail addresses are requested to register the same with their DPs in case the shares are held by them in electronic form and with Company's RTA in case the shares are held by them in physical form.

Members are requested to intimate changes, if any, pertaining to their name, postal address, e-mail address, telephone/ mobile numbers, Permanent Account Number (PAN), mandates, nominations, power of attorney, bank details such as, name of the bank and branch details, bank account number, MICR code, IFSC code, etc., to

Chairman's Letter

Dear Shareholders,

It gives me immense pleasure to share through this letter, the achievements and financial highlights of your Company during the past year. The unprecedented & unforeseen crisis due to the virulent Novel Corona Virus (Covid-19) had shaken the humankind across the world and economy in particular. Even your Company's business operation was halted in view of the countrywide lockdown but even under these conditions, your Company could post a decent financial performance due to good progress made during the year.

In FY 2019-20, there were considerable challenges in the business environment we operate. In spite of the challenges, your Company has achieved the growth targets with greater emphasis on R&D, technology updation and constant infrastructure modernisation to meet the fast changing business environment. Your Company has achieved significant growth in revenues. Your Company has continued to maintain its leadership position in supplying equipment / systems to Defence Forces and is on a steady growth path. I take this opportunity to share with you the performance highlights during the past year and the future outlook for the Company.

Highlights of the Year

Your Company achieved a turnover of ₹ 12,60,776 Lakhs during 2019-20 against ₹ 11,78,922 Lakhs in 2018-19, thereby registering a growth of 6.94%. BEL achieved an export sale of 48.59 Million USD during the year. Some of the countries, where your Company's products were exported are Switzerland, USA, France, Germany, Israel, Sweden, Seychelles, Mauritius, Armenia, Srilanka, Guinea, Namibia and Indonesia. The major Products / Systems exported during the year include Radars, Radar Finger Printing Systems, Sub Systems of Radars & Spares, Coastal Surveillance System, EW Systems, Data Links, Cable Looms, Mechanical Parts, Communication Equipments, E.O. Sensors and Vacuum Interrupters etc.

Growth of
6.94%
in Turnover

All the nine manufacturing Units of the Company have performed well. The Profit After Tax is ₹ 1,79,383 Lakhs for 2019-20 as against ₹ 1,92,729 Lakhs in 2018-19. The Net Worth of the company has increased from ₹ 9,01,891 Lakhs in year 2018-19 to ₹ 9,85,294 Lakhs in 2019-20. At Rs 51,97,318 Lakhs (as on 1st April 2020) the order book continues to be healthy and further good order inflow projections are expected in the next 2-3 years.

R&D has been the main focus area of your Company for increasing indigenisation and value addition in our products / systems. The total investment on R&D as a percentage of turnover during the year was 7.5% which is one of the highest among the defence PSUs. It is our constant effort towards indigenous development that has led us to achieve 79% of our turnover from indigenous products. 21% of our revenues came from products manufactured through ToT from foreign OEMs. Defence being the mainstay of the Company, has contributed 82% of sales revenue in 2019-20 as against 68% in 2018-19, with the balance 18% coming from the non-defence sector.

Some of the major products / systems introduced during 2019-20 are Radars for export, CSS for Maldives, Ship to Shore Communication System, Systems for Akash NG, Digital Flight Control Computer (DFCC) Mk-IA, Battlefield Surveillance System (BSS), CDMA based wireless communication system, IFDSS, Software Defined Radio (SDR)-TAC, COMNET Guinea, Missile Data Link Unit MK II, Radar Warning Receiver, Tethered UAV, Handheld Signal Generator, NAISS, IPSS, Varunastra Acoustic System (VAS), Bharani Mk-II Radar, IFF MK-XII etc.

Your Company has received orders worth about Rs 13,20,000 lakhs during the year. Major Orders received include Akash, Chain of Static Sensors (CSS) Ph.II, Upgrade for EW system, Radars, AMCs for Radars & Weapon Systems, Software Defined Radio (SDR), Sonars, Advanced Communication Systems etc.

Your Company has been granted three (3) patents in 2019-20, with this the total no. of patents granted is ten (10). As many as 135 technical papers were published by scientists and R&D engineers of BEL in various National and International journals / seminars / conferences. Your Company has filed for 160 IPRs (including 94 Patents).

Some of the performance highlights of your Company are:

- Product Development & Innovation Centre inaugurated by Hon'ble Raksha Mantri at Bengaluru Unit.
- New State-of-the-art manufacturing facility for Composite Material, Environmental Testing & Finishing inaugurated by Hon'ble RRM at Navi Mumbai Unit.
- New Production Building at BEL Hyderabad Unit.
- Secure Triple Play Services at BEL Bengaluru Unit
- 2100 Litre Climatic Chamber with 60 TR Chillers at BEL Kotdwara Unit.
- Excellent "MoU" Rating for 2018-19 from DPE.
- Commencing operations of New Marketing Office at Oman and expansion of office at New York to handle marketing activities.
- Creation of new SBU in the area of Advanced Defence Systems-Navy (ADSN).
- Creation of Micro SBU (Separate Business Verticals) in the area of Seekers & Missiles, Solar Power Systems, Unmanned Systems & Energy Storage Products.
- BEL has filed 160 Intellectual Property Rights (IPR) applications in the areas of Electro optics, Surveillance, Radar technology, Communication technology and Software technology.
- BEL has empanelled 263 partners towards Collaborative R&D which includes 30 collaborative R&D partners, 165 design service providers, 35 consultants and 38 Production service providers.
- CMMI Level-5 Certification to two more SW Centres and Level-3 Certifications for 3 SW Centres.

You will be happy to know that your Company has received several accolades during the Year, the most noteworthy being:

- Platinum Level recognition for Ghaziabad & Hyderabad Units in CII EXIM Bank Business Excellence Awards.
- India's Best PSU Award 2018 by Dalal Street Investment Journal.

- IPC First India Award.
- Aerospace & Defence Awards for 'Excellence in Exports & CSR'.
- 'Governance Now' Awards for Research & Innovation.
- Jamnalal Bajaj Fair Business Practices Award.

Future Outlook

The prevailing turbulence in the global business environment has been impacting business and posing a major threat for growth. To combat the risks associated, your Company is foraying into new business areas and keeping pace with the fast changing technological advancements besides enhancing operational efficiency. Also, the Government's emphasis on 'Make in India' initiative in Defence sector provides a great opportunity for the Company to enhance indigenization efforts and to address the emerging opportunities in Indian Defence sector.

BEL is targeting a healthy growth of 12-15% during 2020-21. Segments like Radar and Missile Systems, Communication and Network Centric systems, Anti-Submarine Warfare & Sonar Systems, Tank Electronics, Gun upgrades, Electro Optic systems and Electronic Warfare & Avionics systems will continue to drive the Company's growth in the coming years. Your Company is always focused on enhancing capabilities and competitiveness through indigenisation, diversification, continuous modernisation, creating several world-class facilities for R&D, Testing, Production, Skill development and outsourcing to Indian industries with increased thrust on MSME sectors. In the non - defence segment your Company is pursuing business in the field of Homeland Security solutions, Smart City, Energy Storage Products including e-Vehicle Charging Stations, Solar, Space Electronics including Satellite Integration, Network & Cyber Security, Railways & Metro Solutions, Airports Solutions, EVMs, Telecom Products, PNVDs, Medical Electronics, Composites and Software Solutions.

The future for your Company looks promising as well as challenging. The Defence Sector is being opened up for private sector participation with evolutions of Defence Procurement Procedure. In this changing business scenario, your Company is focusing on enhancing interaction levels and building long term relationships with emerging Strategic Partners, Customers and other key stakeholders in the Indian defence industry. The real impact of Covid-19 on your Company is to be seen in the near future as the situation is evolving. However, your Company has started taking mitigation measure to reduce the impact on the performance.

The Government has introduced "Make-II" procedure for enhancing the participation of Indian Industry including MSME's in providing the import substitution and for promotion of innovative solutions for defence equipment. Your Company has also responded to many of the "Make-II" projects which are in line with BEL's business.

It is important for BEL to stay abreast of technology and develop new products regularly to meet the requirements of the customers and in providing the cost effective & innovative solutions. Thrust on R&D across the Company will continue with roadmaps drawn for future products, new technology areas, intellectual property creation, acquisition of key technologies and filing of patents. Your Company is also laying greater emphasis on working closely with DRDO labs, research institutions and academic institutions as well as with niche technology companies & consultants for development of new products and systems. Your Company is working on emerging technologies such as Artificial Intelligence, Big Data Analytics, Internet of Things, 5G Wireless communication, Robotics & Computer vision, Augmented & Virtual Reality, Quantum Cryptography etc. under the R&D collaboration with academia and start-ups.

To retain the leadership position in strategic electronics your Company has evolved various strategies and has developed action plans to face competition and maintain technological edge.

Some of the major projects planned for execution during 2020-21 are Long Range Surface to Air Missile System (LRSAM), ICU Ventilators, Akash Missile System (7 Sqdn), Coastal Surveillance System (CSS) Phase-II, Kerala Fibre Optic Network (K-FON), Shakti Ph-III, Integrated Perimeter Security System (IPSS), HUMSA NG Systems, Integrated Air Command & Control System (IACCS), Samyukta Upgrade, Thermal Imagers for tanks, Smart City Projects, Electronic Fuzes, Delhi CCTV, Naval Airfield Integrated Security System (NAISS), Software Defined Radios.

On the Export front, the order book as on 1st April 2020 is US \$ 164.01 Million including Offset orders of US \$ 73.65 Million. To give greater thrust to exports, your Company has opened marketing office at Oman during the year, in addition to the offices which are operational at New York, Myanmar, Singapore, Vietnam and Sri Lanka. Your Company has put in efforts for increasing the business opportunities in South East Asia, Europe, Middle East, Africa and North America by incessant engagement with Customers and is also working closely with other Indian Companies & local partners in respective countries as part of maximizing geo-strategic reach and to increase global footprint.

Strategic New Initiatives

Your Company is working in strategic areas like Homeland Security solutions, Smart City, Li-Ion Cells/Fuel Cells, Solar Projects, Space Electronics including Satellite Integration, Network & Cyber Security, Railways & Metro solutions, Composites, Software Services, Unmanned Systems including Robotics, RF and IR Seekers, Missiles, Rockets, Glide Bombs & Ammunition in-line with the emerging needs of the Customers.

CSR

Your Company has taken various CSR programmes/initiatives/projects as per the Company's CSR & Sustainability Policy, which is in-line with Section 135 & Schedule VII of the Companies Act, 2013. Your Company has spent ₹ 3116.96 Lakhs in key sectors like School Education, Healthcare, Nutrition, Rural Development & Vocational Skill Development. Your Company has donated an amount of ₹ 1,000 Lakhs from CSR funds to PM-CARES Fund, set up to provide relief to those affected by any kind of emergency or distress situation, such as that posed by COVID-19 pandemic.

Governance and Sustainability

Your Company takes pride in constantly adopting and maintaining the highest standards of values and principles. A detailed report on compliance of the guidelines on Corporate Governance, as required by the SEBI (LODR) Regulations, 2015 and the guidelines issued by the Department of Public Enterprises for CPSEs, forms part of the Board's Report.

The corporate performance of BEL, which is measured in terms of the economic, environmental and societal parameters augers well to reinforce the image of BEL as a socially responsible corporate entity. Sustainability in BEL is the continuing commitment to behave ethically and contribute towards economic development while improving the quality of life of its workforce, their families and the local community and society at large. The philosophy of greening the environment through recycle, reuse and reduce approach will continue in the near future.

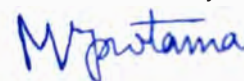

Acknowledgements

I am grateful to the Board of Directors and members of management committee for their unwavering support and guidance. Ministry of Defence and Defence Services have been continuously providing valuable guidance and support. I further deeply appreciate our shareholders, esteemed customers and business associates for providing the opportunities to earn their confidence.

The dedication and commitment of our employees and officers at all levels continues to be the major strength of our Company. We shall make continuous efforts to build on these strengths to face future challenges and sustain the momentum for profitable growth.

With Best Wishes,

Yours sincerely

Company's Turnover for the year 2019-20 has increased to ₹ 12,60,776 Lakhs from ₹ 11,78,922 Lakhs in 2018-19, registering a growth of 6.94%. Profit after tax for the year is ₹ 1,79,383 Lakhs as compared to ₹ 1,92,729 Lakhs in the previous year. Turnover from indigenously developed products is 79%. Supplies to the defence contributed to 82% of turnover in 2019-20 as compared to 68% in the previous year.

Impact of COVID-19 Pandemic

The World Health Organization declared a global pandemic of the Novel Coronavirus disease (COVID-19) on 11 February 2020. In the last month of the financial year 2019-20, the COVID-19 pandemic developed rapidly into a global crisis, forcing Governments to enforce lock-downs of all economic activity.

As per the instruction of Govt. of India, enforcing social distancing to contain the spread of the disease, work in all the Company's Units/Offices were temporarily suspended w.e.f 24.03.2020, except for essential staff. Subsequently, Bangalore Unit of the Company resumed partial operations in April 2020 for the manufacture of ventilators based on the orders received from Ministry of Health and Family Welfare adhering to all the precautionary measures and after obtaining approval from concerned authorities. The lockdown has affected the operations of the Company during end of March 2020, April 2020 and partially in the month of May 2020.

BEL has undertaken a detailed study, on the possible impact of COVID-19 on Company's operations including the financial parameters. The internal study and analysis predict that on short term, the COVID-19 may impact the Company's operations in terms of delivery schedules, however, on a long term basis, it is likely to have a less impact on the Company's operations and performance.

Defence being the major revenue segment of BEL; BEL does not foresee any fall in the demand for its products/services due to COVID impact on a long term basis, though there may be a little delay in order acquisition in the short term. Enhanced focus of the Government of India on Self Reliance (Atmanirbhar Bharat Abhiyan), is likely to boost the Company's prospects as an leading indigenous solution provider in defence sector and will have a favourable impact on the Company's performance in the coming years.

Dividend

In pursuant to regulation 43A of the SEBI (LODR) Regulations, 2015, the Board of Directors of the Company has formulated a Dividend Distribution Policy keeping in view the provisions of SEBI (LODR) Regulations, 2015, the Companies Act, 2013, Guidelines issued by SEBI, DPE, DIPAM, Ministry of Finance and other Guidelines to the extent applicable to the Company. The Policy is placed on the Company's website at <http://www.bel-india.in/ContentPage.aspx?MID=17&CID=527&LId=1&link=527>

The Board of Directors has recommended a final dividend of ₹ 1.40/- per equity share (140%), amounting to ₹ 34,112 lakhs for the year 2019-20. An interim dividend of ₹ 1.40 per equity share (140%) has been paid to the shareholders during 2019-20. Thus, the total dividend for the year 2019-20 is ₹ 2.80/- per equity share (280%), amounting to ₹ 68,224 Lakhs.

Transfer to Reserves

An amount of ₹ 40,000 Lakhs is transferred to general reserves for the financial year 2019-20.

Share Capital

The Company's authorized capital is ₹ 25,000 lakhs (250,00,00,000 equity shares of ₹ 1/- each) and paid-up share capital is ₹ 24,366 lakhs as on 31 March 2020. There was no change in the paid-up share capital during the year.

Major Orders Executed

Some of the flagship projects executed during the year for tri services and non-defence customers are Command & Control Systems, Thermal Imagers for tanks, upgrade of Communication System, Land Based EW Systems, Weapon Repair Facility, Electronic Fuzes, various Radars, Naval Airfield Integrated Security System (NAISS), Kerala Fibre Optic Network (K-FON), Smart City Projects, Delhi CCTV Project, Schilka Upgrade, Avionics Package for Light Combat Aircraft (LCA), Classroom Jammers, Real-time Train Information System (RTIS) for Railways and Part supply of Long Range Surface-to-Air Missile (LRSAM) System.

Exports

Your Company has been giving an increased thrust towards harnessing the export potential of Defence electronics products & systems including Homeland Security Solutions, Border Protections Systems and state of the art systems & solution and professional electronics to address civilian market, which represents its core area of business.

BEL has been exporting various products and systems to foreign countries and Original Equipment Manufacturers (OEMs). Having established a healthy relationship with its current & prospective customers and based on their requirements, BEL is regularly interacting with Ministry of External Affairs & Ministry of Defence for enabling supply of various products and systems to them.

BEL is also exploring civil and medical equipment's market in developed, developing & third world countries with product and solutions like Artificial Intelligence based solutions, software development for various civilian projects, post office and school's upgradation projects, smart cities, critical infrastructure development, solar power generation projects, ventilators, etc.

BEL is focusing on the various opportunities in the area of helping OEM's to meet offset obligations in various Request for Proposals (RFPs) of Ministry of Defence on account of offset policy incorporated in the Defence Procurement Procedure. In this regard BEL is closely working and partnering with various major foreign Aerospace and Defence Companies. BEL is also offering proven products and systems to meet the specific requirements of customers. BEL has identified contract manufacturing (build to print and build to spec) and Transfer of Technology of the latest systems and solution as new areas of emerging export opportunities. Further efforts are being made to establish long term supply chain relationship with global players.

BEL with concentrated effort is focusing on the various Make in India programs. BEL has offered its various products and services to major Platform OEM's and their Tier-I suppliers. This has helped the Company in leveraging partnership for co-development, co-production and similar arrangements with various OEM's to get the manufacturing of the products at the Company and utilization of services of Company not only for Indian programs but also for their Global requirements.

Company has achieved an export order acquisition worth US\$ 101.47 Million during 2019-20, from various customers viz., USA, France, Germany, Switzerland, Israel, Sweden, Myanmar, Mauritius, Armenia, Namibia and Bhutan. Export order acquisition in 2019-20 was all time high in BEL and with this the export orders on hand as on 1 April 2020 is US\$ 164.01 Million.

Company has achieved an export sale of US\$ 48.59 Million during 2019-20, to various countries, viz., Switzerland, USA, France, Germany, Israel, Sweden, Seychelles, Mauritius, Armenia, Srilanka, Guinea, Namibia, Indonesia, China and SEZ's. Major Products / Systems exported are Weapon Locating Radar, Coastal Surveillance Systems Radar, Sub Systems of Radar and EW Systems, Data Link II, Cable looms, Mechanical Parts, Communication Equipment's, IFF-Interrogator, Radar Finger Printing System, EOS, Vacuum Interrupters and Radar Spares, etc.

Increase in export sale was mainly due to the concentrated efforts made by the Company and new export initiatives taken such as continuous and focused discussion with Ministry of External Affairs & Ministry of Defence and customers, proactive approach to the customers with offering new and complete systems and procedures, increase in the customer's base, taking up new customized & critical projects and delivering them on time as per the requirement of customers, more directed efforts in support / services extended to customers to develop solutions based on their requirement and future threats and opportunities.

Initiatives taken to increase exports by development of new markets for products & services during the year 2019-20:

❖ Marketing Offices Abroad

- BEL has put in efforts for increasing the business opportunities in USA, Europe, South East Asia, Africa and Middle East by incessant engagement with customers.
- A Marketing office in Oman was established.
- New Partners / Agents were identified and arrangements were signed in various countries worldwide.

❖ Strategic Alliance with the Foreign OEMs

Proposed strategic alliance with foreign OEMs to address global markets by offering the best value proposition.

- IAI – Missile Systems.
- Elbit Systems Electro Optics, Israel – Electro optics.

❖ Major leads in pipeline for following products and systems offered to foreign countries / customers:

- Coastal Surveillance System.
- Radar.
- Upgradation of Naval Radar and Sonars.
- Contract Manufacturing.
- Communication Equipment's.
- Avionics.

❖ The following were the scope for offset business during the year 2019-20:

- Data Link II for the Boeing Company, USA.
- IFF – Interrogator for the Boeing Company, USA.
- Radar Finger Printing Systems for the Boeing Company, USA.
- EoS CoMPASS for Elop, Israel.
- Operators Module for SAAB, Sweden.
- EW & Radar Sub-Assemblies for Thales, France.

MoU with Government

Your Company has been signing a Memorandum of Understanding (MoU) every year with the Government of India, Ministry of Defence. Performance of the Company for the year 2018-19 has been rated as "Excellent" in terms of the MoU with the Government of India. The MoU rating for 2019-20 is under review by the Government of India.

Order Book Position

The Order Book of the Company as on 1 April 2020 is ₹ 51,973 Crores. The order book comprises of mainly major programs like Long Range Surface-to-Air-Missile System, Akash, Integrated Air Command Control System,

Battlefield Surveillance System, Coastal Surveillance System (Phase-II), Advanced Composite Communication System, Command Information Decision Support System, EW Suite, Kerala-Fibre Optics Network, Smart City Projects, Integrated Perimeter Security Solution, Naval Airfield Integrated Security System, Samyukta upgrade, AMCs for Surveillance Radar Element, Software defined Radio, Commander Thermal Imaging Sights, Sonars, Shakti PH III etc.

Finance

During this year, your Company has declared dividend of 280% as compared to 340% in the previous year. Apart from the final dividend of ₹ 41,422 Lakhs (170%) for the year 2018-19 which was paid out in 2019-20, interim dividends amounting to ₹ 34,112 lakhs (140%) has been paid during the year 2019-20.

In order to achieve the projected growth in the coming years, a focused initiative is taken up by your Company in taking up some major projects, which are progressing well and the outcome from these projects should enable the Company to achieve the planned higher trajectory of turnover and growth. Despite some amount of budgetary constraints faced by customers, your Company has been able to meet all the incremental working capital requirements through internal accruals. Out of the term loan of ₹ 10,000 lakhs availed in previous years to fund its CAPEX requirement an amount of ₹ 833 lakhs is outstanding as on 31 March 2020. Your Company has retained highest rating by ICRA for both short term and long term borrowing.

The inventory position (net) of the Company as on 31 March 2020 was ₹ 3,96,275 Lakhs as compared to ₹ 4,45,479 Lakhs as on 31 March 2019. This works out to 117 days of value of production as on 31 March 2020 as against 136 days of the previous year. This reduction has been possible due to better inventory control.

The position of trade receivables (net) as on 31 March 2020 was ₹ 6,73,291 Lakhs as compared to ₹ 5,36,921 Lakhs as on 31 March 2019. This works out to 195 days of turnover as on 31 March 2020 as compared 166 days of turnover achieved during the previous year. The increase in trade receivables was mainly on account of higher turnover during the last quarter of the financial year.

Deposits

The Company does not have any Public Deposit Scheme at present. However, the matured Public Deposit amount (collected prior to February 2006) with the Company was ₹ 36.95 Lakhs as on 31 March 2020. Out of this, 34 deposits amounting to ₹ 36.50 Lakhs are not claimed or not paid as these accounts are frozen on advice by Karnataka Lokayukta. The remaining matured deposits of ₹ 0.45 Lakh as on 31 March 2020 is unpaid due to in-sufficient documents/records produced by Depositors.

Research & Development

Company's R&D Philosophy is to enhance its pre-eminence in products / services of Defence Electronics and other chosen fields through Research & Development. Company's R&D strives for development of new products built with cutting-edge technology modules. While fully meeting the customer requirements, the products developed by Company are state-of-the-art, competitive and incorporate highest quality.

Company has established three-tier R&D Structure, namely, Central Research Laboratories (CRLs), a central Product Design & Innovation Centre (PD&IC) and Design and Engineering (D&E) functions attached to various Units/SBUs. The Central Research Laboratories (CRLs) at Bengaluru and Ghaziabad are involved in conducting futuristic R&D in core business areas of the Company and in developing technology modules for use by SBUs/Units. PD&IC at Bengaluru develops common technology modules, subsystems and products in areas of Radar Signal Processing, RF & Microwave Components, Energy Solutions, Electro-optics and Lasers, Encryption Modules, MMICs, Embedded Systems etc. that can be used as building blocks by SBUs/ Units. The D&E groups at SBUs / Units provide Systems and System of Systems solutions to the end users. Towards this, they get necessary technology modules and subsystems developed through CRLs, PD&IC and collaborative R&D partners. They conduct all evaluations and trials needed in the process of inducting these systems into the service. They also extend technical support during the entire product life-cycle and also take care of obsolescence management.

D&E Projects Initiated During 2019-20: Several R&D projects have been initiated during the year 2019-20 both through in-house developments and collaborative efforts (mainly with DRDO). Major projects initiated in 2019-20 are Akash Prime, Development of IRST, 2-Vehicle Rohini, Long Range Surface to Air Missiles, development of indigenous ASR-MSSR, High Power Radar, ECM Jammer MK III, MKIIA MSSR and Active Phased Array based configurable Tactical Surveillance Radar.

D&E Projects Realised During 2019-20: Some of the major projects realized / completed during the year 2019-20 are BEL's Indigenous SoC, Application Software for MRSAM, Sub 1M Ku-Band Manpack Satcom Terminal, Digital Radar Warning Receiver (Tarang Mk-II), DFCC Mk1A Prototype, SDR-TAC, CMS15, USHUS-2 and completion of NC NC trials of ASR & MSSR for Navy.

Important R&D awards/recognitions received during 2019-20 are Indian Chamber of Commerce PSE Excellence award for R&D and IETE's Young Scientist Award won by Mr Vikas Negi, Manager of Ghaziabad Unit.

BEL has met all the MoU parameters w.r.t R&D by timely completion of the following:

- Indigenous development of System on Chip (SoC) and offering it to customers.
- Development of Indigenous X Band LNA MMIC for Radar application and submitting it to DRDO for evaluation/ Field trials.
- Completion of four AI enabled projects ("Proof of Concept" of Object detection and tracking, Social Network Analysis: development, testing & getting first order, Robotic Surveillance Platform: development, testing & getting first order, Proof of Concept Human Face Recognition: development, testing & its first billing).
- System integration and readiness of Compact Gun Fire Control System and offering to Customer for Trial.
- System readiness of LTE based customized eNodeB and offering to customer for Trial.

BEL has set up a Research Park at IIT-Madras for facilitating research projects in collaboration with Academic Institutions/Startups. BEL has also set up a Research cell

at Kochi which is currently focusing in research towards development of Side Scan Sonars.

New products developed through in-house / collaborative development efforts during the year 2019-20 are as follows:

- 1. Weapon Locating Radar (WLR) Export Version:** Weapon Locating Radar is a Field Artillery Radar System for locating missile batteries, mortars, guns, rocket launchers and guiding direction of fire from friendly guns, rockets and batteries. It has been developed by the Company jointly with DRDO and has been customized for export.
- 2. Ship to Shore Communication System:** The project is state-of-the art multi-layer IP based Wide Area Network (WAN) communication system, which has the capability of Satellite Communication on The Move (SOTM) for transportation of mission critical data, voice and video from ship to shore terminal in real time with reliability and security.
- 3. Systems for Akash NG:** Multi-Function Radar, Command Control Unit subsystems including communication equipment and network for Akash-NG have been developed by the Company jointly with DRDO.
- 4. Dip Brazed Chassis for Digital Flight Control Computer (DFCC):** The chassis for DFCC has so far been imported. It has aircraft interface connectors (24 Nos.) mounted on front panel making assembly and disassembly of DFCC on/ from aircraft a laborious and time-consuming process. The new and indigenously designed chassis is 1 ATR chassis and has connectors on the rear panel for ease of assembly & disassembly on / from aircraft.
- 5. Battlefield Surveillance System High Altitude Area (BSS HAA):** BSS HAA is a mobile automated surveillance system capable of integrating inputs from all battlefield surveillance devices/sensors at division and corps level and processing them to confirm their veracity, prevent duplication, fusing them with other inputs and databases to produce a battlefield scenario to aid the commander in decision making. This version of BSS has been developed for operation in high altitude areas.

- 6. CDMA Based Wireless Communication System:** CDMA based wireless communication link is a long-range wireless communication link for ground to air communication. The wireless communication link provides one-way uplink from ground based transmitter stations to airborne receiver systems. The communication link covers a range of 450 kms.
- 7. Software Defined Radio (SDR)-TAC:** SDR-TAC is a multi-mode, multi-role & multi-channel Software Defined Radio with both voice & data operations to cater to communication need of network-centric warfare operations. This radio has been developed by the Company jointly with DRDO, is designed for both ship and shore deployments. It can be configured for different combinations of frequency bands as per the user requirements. It provides both narrowband and wideband point-to-point and networked communication.
- 8. Missile Data Link Unit (MDLU) MK II:** MDLU MK II is an enhanced version of MDLU with enhanced range.
- 9. R118 for Trainer Aircraft:** It is a Radar Warning Receiver (RWR) designed by DARE and manufactured by the Company originally for use on fighter aircraft. The original R118 has been customized for use on Trainer aircraft.
- 10. Tethered Unmanned Aerial Vehicle:** A Tethered Unmanned Aerial Vehicle (TUAV) - 'PATANG' with EO sensor payload is used for day & night aerial surveillance purpose. Powered from ground, the system can provide 24X7 operations. TUAV can be hoisted to a height of 100m and the day/night camera can be controlled from Ground Control Station. This System is developed in partnership with academia.
- 11. Hand Held Function Signal Generator:** It is a portable, fully programmable test device for Go - No Go testing of various types of RWR systems deployed in the field.
- 12. Naval Airfield Integrated Security System (NAISS):** It is a system developed to strengthen the perimeter security of naval air stations. It includes an anti-climbing fence, drain detection intrusion systems, a CCTV network and under-vehicle surveillance.
- 13. Integrated Perimeter Security System (IPSS):** It is a system developed for the IAF. It includes a smart fence, surveillance systems, thermal cameras, motion detectors and a central control and command center.
- 14. Varunastra Acoustic System (VAS):** Varunastra is a first indigenous heavy weight torpedo of India, designed by NSTL (DRDO Lab) and developed by BEL. It is ship's "fire and forget" type of weapon against submarines. VAS is the homing electronics for Torpedo.
- 15. Bharani Mk-II Radar:** It is a compact, low level, lightweight solid-state 2D surveillance Radar. It has been designed and developed by the Company along with LRDE, DRDO. It has an integral IFF Mk XII with mode-S capability for identification of hostile aircrafts.
- 16. IFF MK-XII(S) for RAN 40L:** Interrogator for Friend or Foe is designed for Indian navy. It has six different modes of operation and an instrumented range of 450Kms. It also has mono pulse capability.
- 17. The Advanced Torpedo Decoy System (ATDS) Maareech:** This is a comprehensive system for defence against vintage and modern torpedoes on board ASW and non-ASW platforms. The ATDS system is designed by DRDO Labs and manufactured by BEL. The ATDS system consists of ATDS Sonar and ATDS FCS (Fire Control System).
- 18. Indigenous Ku Band SOTM:** Satellite on The Move has a 3 Axis Stabilized Antenna System mounted on a vehicle to track the Satellite even when the vehicle is moving and providing high speed communication. It provides voice, video and data capabilities from aboard a moving vehicle. The system has built-in GPS & IMU to auto-point to chosen satellite with fine tuning aided by beacon tracking. It is mountable on various military & commercial vehicles.
- 19. NFS Satellite Terminal:** NFS Satellite terminal is developed for the NFS Network. NFS is pan India network with Geo Redundant Hubs, Static and Suitcase based terminals. It acts as backup to NFS terrestrial network at about 164 locations whereas it is a primary medium of communication at 55 sites where NFS terrestrial connectivity is not available. NFS satellite terminal supports voice, video and data services.

20. Indian Regional Navigation Satellite System

(IRNSS) Receiver, also known as NavIC (Navigation in Indian Constellation) has been designed and developed by the Company based on design inputs from ISRO. It provides navigational parameters (latitude, longitude and altitude) and timing information as output. The receiver has been developed to work in SPS (Standard Positioning Service) mode in the present version. The timing server is also designed using NavIC Receiver, which can be used to generate and disseminate accurate timing information to a network that needs to be synchronized.

21. MWIR (Mid Wave Infra-Red) Sight for SHAR:

Indigenous MWIR sight has been developed for SHAR center/ISRO as replacement for an imported camera for tracking Satellite Launch Vehicle. The system is capable of producing clear IR signature of the Satellite Launch Vehicle up to range of 1200 Kms.

22. Surveillance Remotely Operated Vehicle (SROV):

This Surveillance Robotic Platform is a miniature, tracked platform designed for carrying out surveillance covertly. It is developed based on design from Research & Development Establishment (Engineers), Pune. It can be deployed within buildings for carrying out surveillance during counter-terrorist or counter-insurgency operations. It is capable of providing video feedback in real time.

Future Plan of Action: BEL plans to continue investing in R&D for meeting the continuously emerging requirements of its customers as well as diversification. Collaborations with academia and national labs will be strengthened, while a major thrust would be for in-house developments in order to overcome the challenges of Lock-in for proprietary technologies. Artificial Intelligence, Cyber Security, IoT, Robotics, Drones & their payloads and various EW technologies will continue to be the focus of the Company. These technologies will be adapted in products and solutions being developed across the Company. In addition, SoC based products, EV battery developments, e-Governance projects and several other developments will be undertaken.

New Facilities Established

In our endeavour to maintain the infrastructure on par with International Standards, specific groups in all Units/SBUs

continuously scan technology changes across the global market that are taking place and identify new processes for acquisition. During the year 2019-20, Company has spent ₹ 51,297 Lakhs as part of CAPEX investment towards modernization of plant & machinery, test instruments, R&D investments, infrastructure up-gradation etc.

Following are some of the major facilities established during the year:

- Product Development & Innovation Centre (PD&IC) inaugurated by Hon'ble Raksha Mantri at Bengaluru Unit.
- New State-of-the-art manufacturing facility for Composite Material, Environmental Testing & Finishing inaugurated by Hon'ble Raksha Rajya Mantri at Navi Mumbai Unit.
- New Production Building at BEL, Hyderabad Unit.
- Secure Triple Play Services at BEL, Bengaluru Unit.
- 2100 Litre Climatic Chamber with 60 TR Chillers at BEL Kotdwara Unit.

SAP Implementation and other IT Initiatives:

In SAP various new processes have been introduced for the automation of employee related services. OYO hotels booking to payment and OLA booking to payment process have been integrated with SAP. Comprehensive Cyber Crisis Management Plan (CCMP) for BEL has been implemented in line with the guidelines of CERT-in and covering people, processes and technology issues. The CCMP outlines a framework for dealing with cyber related incidents for a co-ordinated, multi-disciplinary and broad based approach for rapid identification, information exchange, swift response and remedial actions to mitigate and recover from malicious cyber related incidents impacting critical national processes.

As part of the CCMP, Centralized Internet Gateway and Security Operations Centre (SOC) for monitoring traffic on internet infrastructure. The setup includes next generation firewalls including intrusion prevention system, network data leakage prevention, anti- advanced persistent threat. Security Information and Event Management (SIEM) has been implemented for incident monitoring, alerting, tracking, response and closure.

For centralized management and monitoring of network assets of all units, Network Monitoring & Management System (NMS) tool has been deployed centrally at IS department for WAN and LAN. The tool provides Centralized topology for all units in a single dashboard for easy troubleshooting of network outages, periodical backup of critical devices, regular health checks, proactive monitoring and historical reporting.

Quality

Quality, Technology and Innovation are three guiding pillars of BEL's business initiatives. Quality, being the first pillar, has been one of the focus areas for the Company. Quality initiatives have been taken up for improvement in performance related to Product Design, On-time-Delivery, Process Cycle Times, Statistical Process Control (SPC), Quality Control, Customer Service etc.

The Company is committed for improvement of its activities through process approach in line with World-Class Quality Systems. All Units / Strategic Business Units (SBUs) / Common Services Groups (CSGs) are accredited to ISO 9001 Quality Management System (QMS). Thirteen Units / SBUs of the Company have upgraded their QMS to Aerospace Standard, AS 9100D. All Units of the Company are committed to Environment Management System through ISO 14001 Certification. Ghaziabad Unit is upgraded its OHSAS from ISO 18001 to ISO 45001. Seven Units/SBUs/ Divisions of the Company are certified for Information Security Management System ISMS ISO 27001.

Test Equipments Calibration and Maintenance departments of Bangalore Complex, Ghaziabad and Panchkula Units are certified by National Accreditation Board for Testing and Calibration Laboratories (NABL) in accordance with ISO / IEC 17025 Standard. BEL Software Technology Centre at Bangalore Complex is CMMi level 5 certified. D&E-Network Centric System and CRL-Ghaziabad, Chennai, Hyderabad Units are certified for CMMi level 3.

EFQM (European Foundation of Quality Management) Model for Business Excellence is being followed in BEL since 2002. During 2019-20, Ghaziabad and Hyderabad Units received CII Exim Platinum Awards based on EFQM Model.

Continual improvements in products and processes are being brought out through various approaches, one such

approach is 'Six Sigma Methodology'. Junior and Middle level executives select Six Sigma projects from different areas of concern related to products and processes to bring about improvements.

During the year, 24 senior executives from various units have been trained for Six Sigma Black Belt by Indian Statistical Institute, Bengaluru. These Black Belts guide other Green Belt executives in their Six Sigma Projects. Total 495 Six Sigma Projects have been completed during the year 2019-20. Out of 31 Six Sigma projects nominated for Regional/National level competitions, 15 projects received regional level awards and 16 projects received national level championships awards.

The Company has facilitated involvement of Non-executives in the Quality Movement through Quality Control Circles (QCC). During the year 2019-20, 761 QCC Presentations were made by various QCCs. Many QCC circles were nominated to participate in national competitions and all were adjudged for various categories of Awards. One QCC Team URJA from Navy Mumbai Unit of the Company, represented the Company in the International Convention ICQCC 2019, held at Tokyo, Japan and won the "Gold Award".

Another approach for Quality Improvement is through Suggestion Scheme, wherein employees from Non executives to Managers provide suggestions for which they are suitably rewarded on implementation of their suggestions. Around 4244 suggestions were awarded in the year 2019-20. Selected BEL employees participated at 30th National Convention conducted by Indian National Suggestion Schemes Association (INSSAN). During the year, Bangalore Complex has received 1st Prize under Engineering Industry Category in "Excellence in Suggestion Scheme contest: 2018-19" organised by INSSAN.

The Company has nominated D&E Engineers for Global Certification on Reliability "Certified Reliability Engineer (CRE)" by American Society for Quality (ASQ). During the year, 35 D&E Engineers have been certified for CRE. The Company has also nominated D&E Engineers for Design for Six Sigma Green Belt (DFSS-GB) Certification by Indian Statistical Institute. During the year 59 D&E Engineers have been certified as "DFSS Green Belts".

During the year, 43 operating level Quality Engineers in various SBUs / Units have been certified as "Certified

Quality Engineers (CQE)" by ASQ. Certified Manager for Quality and Organisation Excellence (CMQ&OE) by ASQ for Senior level executives, has also been conducted 13 Senior executives have been certified.

Quality Recognition Award (QRA) is awarded for best performing Unit/SBU in 7 key business processes. Panchkula Unit, MR SBU, and EW&A SBU, received 1st, 2nd and 3rd awards respectively.

In order to inculcate a culture of Project Management, training programs for Project Management Professionals (PMP) were conducted. During the year 65 PMPs have been certified by Project Management Institute (PMI).

This year, the Company has finalized Integrated Customer satisfaction survey process for capturing holistic perceptions of customers right from ordering agencies through execution till the end users with PDCA approach. Export Product Quality Audit process is institutionalized and Audit Manual is released. SAP module is developed and implemented for conducting internal audits for QMS, EMS, ISMS and OHSAS.

Human Resources

Your Company employed 9,279 persons as on 31 March 2020 as compared to 9,612 persons as on 31 March 2019. Out of these employees, 4,973 were engineers / scientists and 1,991 were women employees as on 31 March 2020. A total of 29 employees were inducted during the year. 3 employees belonging to SC, 1 employees belonging to ST, 6 employees belonging to OBC and 4 employees belonging to the minority community were recruited during the year.

Your Company has been complying with the Government directives on reservation. The particulars of SC/ST and other categories of employees as on 31 March 2020 are as under:

Category of Employees	Executives		Non-Executives	
	Group 'A'	Group 'B'	Group 'C'	Group 'D'
Scheduled Caste	1,035	28	566	33
Scheduled Tribe	349	12	132	21
OBC	1,297	37	791	37
Ex-Servicemen	87	1	261	50
Physically Challenged	94	5	115	2

Various Training programs were conducted during the year to enhance competencies in Technical, Functional, Managerial and Leadership areas. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

(A) Industry Structure and Developments, Strengths, Weaknesses, Opportunities and Threats, Major Initiatives undertaken and planned to ensure sustained Performance and Growth:

(a) General outlook of economy, industry in which the Company operates, Government Budget, particularly the Defence Budget, market conditions and how these impact the Company, measures taken / action plan to protect the interest of the Company;

The Indian Economy is estimated to become fifth largest in the world as per World Economic Outlook (WEO) of October 2019. The Union Budget 2019-20, had articulated about India becoming 5 trillion USD economy by 2024-25. Given the challenges in Global Economies like trade tensions between the world's largest economies, protectionism etc., the Global output growth is estimated to be slower. As per Second Advance Estimates released by Central Statistics Office (CSO) in February 2020, the Indian economy growth is estimated to be 5% in 2019-20, compared to 6.1% in 2018-19. However, there is growth in macroeconomic stability of India for the last five years, but the challenge faced by the financial sectors in India has put an undue pressure on the Indian economy.

The Balance of Payment has improved due to higher capital flows by way of FDI and Foreign Portfolio Investment (FPI) to the country leading to increase in foreign exchange reserves (USD 302 billion in end March 2019 to USD 461.2 billion as on 10 January 2020). The Current Account Deficit (CAD) has been narrowing leading to reduction in external indebtedness and independent domestic policy.

The unprecedented and unforeseen crisis due to the virulent novel Corona Virus (Covid-19) has shaken the entire human kind across the world. However, due to Covid-19, the real impact on the Indian economy is to be seen in the near future as the situation is evolving.

The pandemic Covid-19 which started in China has affected the whole world and the economies are reeling under the lockdown of various Industries across sectors including Defence.

Defence

As per SIPRI report released in April 2020, the total World Military spending rose to USD 1.917 trillion in 2019 compared to USD 1.822 trillion in 2018 which is an increase of 3.6% compared to the previous year. This is the largest annual growth in Defence spending since 2010.

The United States continues to be the highest military spender in the world, followed by China, India, Russia and Saudi Arabia, with India as the 3rd largest military spender in the World.

In the challenging Geo Political situation, the Indian Union Budget in February, 2020 has allocated ₹ 4,71,378 Crores for 2020-21 for Defence, with an increase of 9.37% over the previous year of ₹ 4,31,011 Crores. The budget for Capital Expenditure has increased from ₹ 1,03,394 Crores in 2019-20 to ₹ 1,13,734 Crores in 2020-21, which is about 10% hike over the previous year.

The Capital Expenditure allocated to Air Force is ₹ 43,282 Crores, Army is ₹ 32,462 Crores and Navy is ₹ 26,688 Crores. Out of the total budget allocation, 59% of Air Force budget is for Capital Expenditure, Navy it is 54% and Army 18%.

The increase in capital budget for defence is not commensurate with the procurement plans of the defence forces and it may also impact the payments for the delivery of ongoing projects of the Defence forces. The Pandemic Covid-19 is likely to impact the Indian Defence Budget /Expenditure in the coming years.

Non-Defence:

Apart from its core Defence Business, BEL has ventured into several non-defence areas like Homeland Security, Smart City, Energy Storage Products, Solar, Space Electronics, Network & Cyber Security, Railways & Metro solutions, Composites and Software.

Homeland Security

The Homeland Security market in India is spread across Central/State Governments, Government Entities including PSUs and Private Sector Organizations. A significant market opportunity exists in Police Modernization, Critical Infrastructure Protection, Border Management, Counter Terrorism Activities, Urban Area Security, Ground Transportation, Port & Maritime Security, etc. Prevailing internal security concerns due to terrorist activities & crime, data thefts, remote monitoring needs for centralized command & control, Asset Protection & Disaster Management, growth in public infrastructure, increased IT spending, various Government initiatives, increase in security spending are boosting demand for the Homeland Security market in India.

The total budget allocation of Union Home Ministry for 2020-21 for the Police Forces (which includes the Central Armed Police Forces and Delhi Police) is ₹ 1,05,244 Crores against ₹ 1,03,204 Crores in 2019-20, a hike of 2%. Out of this budget, ₹ 77,887 Crores has been allocated for the Central Armed Police Forces.

Smart City

Under the Smart City Mission launched by Government of India in June 2015, 100 smart cities have been selected and all the 100 cities have incorporated Special Purpose Vehicles (SPVs), City Level Advisory Forums (CLAF) and appointed Project Management Consultants (PMC) to appraise, approve, implement, manage, operate, monitor and evaluate the projects. The 2020-21 Budget has proposed for setting up of 5 new smart cities, which will be full-fledged new development similar to Gujarat International Finance Tec - City, Special Economic Zones, etc.

The 2020-21 Budget has not mentioned any particular budget increment for the Smart Cities Mission. The 2019 budget had allocated ₹ 6,450 Crore for the Smart Cities Mission for 2019-20 against ₹ 6,169 Crore in 2018-19, a 4.5 % hike than the previous year. As per reports, as much as 5,151 smart city projects with a cost of ₹ 2 Lakh Crore are in various stages of implementation among the 100 smart cities since the inception of Smart City Mission.

The new Strategic Business Unit headed by a General Manager, which was formed exclusively to address the Smart City and Homeland Security Business has made significant achievement by bagging several orders for Homeland Security and Smart City Projects which are under different stages of implementation.

Energy Storage Products

There are substantial business opportunities in the alternative power storage segment in the coming years due to huge requirement of high energy, maintenance free batteries for defence and strategic applications and also the policy interventions by GoI towards E-vehicles.

Among the mature storage technologies, Lithium-ion batteries are the most versatile and efficient storage devices and find usage in a wide spectrum of applications in both defence and non-defence areas. The Electric Vehicles (EV) market in India has gained momentum after several policy initiatives like the National Electric Mobility Mission Plan (NEMMP), Faster Adoption & Manufacturing of Hybrid & EV (FAME) and FAME 2. As per report, the market for Lithium-ion battery in India is expected to grow at a CAGR of 35% in the next 3-4 years.

In addition to Lithium-ion opportunities, Fuel Cell technology-based Energy Storage Products are also projected to dominate the future energy storage markets globally as well as in India.

Seeing the opportunity for Li-ion Cells and emerging market for Fuel Cells, BEL has identified Li-ion Cells/Batteries and Fuel Cells as one of the focus areas. Towards this, BEL has created a dedicated micro SBU to address the business in a focused manner and further expand its presence in the Energy Storage Products segment by manufacturing of Li-ion Cells and development / manufacturing of Fuel Cells.

Solar

The Government has set an ambitious target of generating 450GW of renewable energy by 2030. This includes a target of generating 175GW of renewable energy by 2022 with a target of 100GW from Solar Power. However, the GoI is confident of achieving 225GW of renewable energy by 2022 breaching the

set target of 175GW. In the Budget for year 2020-21, ₹ 2,516 Crores has been earmarked for solar power which includes both grid-interactive and off-grid projects.

BEL has scaled up its operations from a Cell/Module manufacturing to execution of Solar Power Plant projects under Engineering Procurement Construction (EPC) / Developer mode. BEL has created a new Micro SBU to give a focused approach to target the requirements of Solar Business. In near future, this segment is expected to contribute to BEL's business on a continuous basis.

BEL has also been shortlisted by ISRO for manufacturing of Multi Junction Solar Cells for space application. The plant with a capacity of about 60,000 multi junction Cells per annum will be setup by ISRO and complete manufacturing will be operated by BEL.

Space Electronics

ISRO has opened up opportunities for manufacturing of 'Polar Space Launch Vehicles' (PSLVs) and Small & Micro Satellites, for the Indian Industry. The Global requirement for small satellites is expected to touch around 500 numbers per annum. ISRO has ambitious plans to increase the number of Satellite launches on an average of about 18 satellites per annum from the year 2020-21 onwards. In commensurate with the plans of ISRO, the Department of Space (DoS) has been allocated a budget of ₹ 13,479 Crores for year 2020-21 in comparison to ₹ 11,538 Crores in the previous year. In addition to this, ISRO has approval for launch of 30 PSLVs and 10 Geo Synchronous Satellite Launch Vehicles (GSLVs) in next three years.

BEL is one of the major players in ground segment of Satellite Communication and desires to enter into Space Electronic Systems, manufacture of Small & Micro Satellite and address Launch Vehicle segment jointly with Indian private industry. BEL has long term objective of becoming a prominent player in Space Based Assets and Payloads. During year 2019-20, BEL has responded to New Space India Limited (NSIL) EoI for productionisation of PSLV for ISRO in consortium and also expressed its interest for participation in productionisation of Small Satellite Launch Vehicle (SSLV) for ISRO.

BEL has qualified as an industry partner of ISRO for Assembly, Integration and Testing (AIT) of satellites. During this year, BEL has completed Satellite AIT of three RISAT satellites at ISRO. BEL has collaborated with ISRO and has come out with new products like next generation Indigenous Receivers for Positioning and Navigation (IRNSS), GSAT Terminals, LTCC based Substrates and High power TWTs, which have usage in Defence, Government Services and Paramilitary Applications. BEL is jointly working with ISRO for supply and commissioning of various types of Satellite Networks and HUBs for SatCom Applications.

Network and Cyber Security:

With the advancement of digital technologies and their use in almost all areas, businesses like e-Governance, defence, banking, etc have become vulnerable to cyber attacks. To address the above issues, Cyber Security solutions in the areas of Cyber Warfare, Espionage, National Defence, Protection of Intellectual Property, Data Security for employee/ customer/personal information are being developed. The global Cyber Security market is expected to reach about USD 190 billion by year 2025 and Cyber Security market in India is estimated to be about ₹ 30,000 Crores for next 3 years.

BEL is working in the domain areas of Network Elements and Security, Computing Elements, Encryption, AI & Data Analytics, Security Management, Digital Identity Solutions, Cyber Forensics, Security Services, Secure Network Segregation Solution etc.

BEL has completed the implementation of projects like Security Analytics Centre (SAC) and developed products like Data Diode, PKI, Secure Storage Solutions, Secure Computing Devices, etc.

BEL is empanelled by Indian Computer Emergency Response Team (CERT-In) for providing Information Security Auditing Services. BEL has obtained EAL4 certification for one of its products. During the year, BEL has signed MoUs with several reputed Govt / Private organisations including Academia for cooperation in the field of Cyber Security.

Railways and Metro

The total capital outlay for Indian Railway (amount spent on asset creation) for 2020-21 is ₹ 1,61,042 Crore which is 3% higher than the 2019-20 (₹ 1,56,352 Crores). There are substantial business opportunities in the Rail and Metro business in India. As per the reports, around 34 Metro Rail projects are under construction stage including 9 newly approved projects in different parts of India.

The modernization and new projects like National Common Mobility Card (NCMC) compliant Automatic Fare Collection (AFC) Gating system for Metro's, Indian Computer Based Train Control/Automatic Train Supervision (ATS), Real Time Information System (RTIS) for Indian Railways, LTE based Mission critical communication networks for railways, Unmanned Railway Crossing system, Composite Panels for Rail and Metros, etc. are some of the key areas in which BEL is pursuing for business.

BEL is collaborating with various Public/Private organizations in the area of ATS System, Mission critical Communication System, Composite panel etc. NCMC compliant AFC gating system executed by BEL will be implemented across all modes of transportation i.e. Metro, Trains or Buses in phased manner. Also, having done the pilot implementation of RTIS project, BEL is keen to participate in Phase-II implementation of RTIS project for pan India coverage.

Composites

Composites are used for the manufacture of various products in Aerospace & Defence, Wind Energy, Transportation, Marine Applications etc. As per the reports, the Global Composites market size is expected to grow from USD 90.6 billion in 2019 to USD 131.6 billion by 2024. The demands for lightweight, high-performance, corrosion resistance, long life are some of the key factors which are influencing the growth of Composite business.

BEL is planning to address the Composites structure requirements of Shipyards, Aero structures, Railways & Metros, Land equipments, etc.

BEL has setup facilities for Resin Film Infusion (RFI) and Vacuum Assisted Resin Transfer Molding Process (VARTM). BEL has also tied up with CSIR lab, Academia for consultancy and development of Composites structures. Composite panels are being planned for development as per the requirement of Shipyards and Railways.

Software

The defence technology is transiting from Platform Centric Warfare to Network Centric Warfare. In this transition, Software is becoming a crucial piece of weaponry in the modern defence system. Advance software systems and embedded software technologies play a vital role in modern warfare.

India is one of the leading software development center in the World and Indian IT Industry is growing at a CAGR of 10.71%. As per reports, the Indian IT Industry comprising of Software Products, IT services, Engineering and R&D services, ITES/BPO, Hardware and e-commerce is expected to grow to USD 350 billion by 2025. Majority of the revenue comes from exports of software and services.

BEL is pursuing Business opportunities with potential customers like Para-military Forces, Special Forces, State Governments, other non-defence customers etc in addition to existing Defence customers. To address the Software business opportunity in a focused manner in both Indian and export market, a dedicated General Manager has been appointed.

Apart from core defence segments, opportunities with respect to Homeland Security, e-Governance Projects, Smart Cities, Digital Transformation Projects, Software Simulators, Software Assurance Services are also being focused.

Focused Approach for New Areas in Defence

To give a focused approach to upcoming areas in Defence & Aerospace sector, BEL has ventured into Unmanned Systems, RF and IR Seekers, Missiles, Rockets, Glide Bombs & Ammunition.

Unmanned Systems

Military applications like reconnaissance, intelligence gathering, detection of threats etc. are migrating

from Manned Systems to Unmanned Systems, due to criticality of missions, avoidance of risk associated with International norms and value for human life.

The Indian UAV segment offers an overall opportunity of about USD 5 billion during the LTIPP Plan period ending by 2027. Opportunities in Unmanned Systems include Unmanned Aerial Vehicle (UAV) systems, Unmanned Ground Vehicles (UGVs) and Unmanned Underwater Vehicles (UUVs) & Unmanned Surface Vehicle (USV) systems.

BEL has been addressing the UAV/UGV/UUV/USV requirements of the Indian Defence / Non-Defence segments by partnering with DRDO / foreign OEMs/ Indian Academia/ Startups etc. BEL has been working on the Payloads (like EO, Communication, ESM etc.) and Ground Control Station requirements of UAVs and also developing capabilities in Drone Guard Systems. BEL has started a Micro SBU to address the opportunities of Unmanned Systems for both Defense and Non-Defence customers.

RF and IR Seekers

The next generation of SAM and other AD Missiles are based on active/passive seeker technologies, which uses RF seekers and IR seekers for homing on to the targets. The requirements for RF and IR Seekers are derived demands arising out of procurement of various Next Generation Missiles.

As per the defence acquisition plans of India and friendly countries, opportunities for RF and IR Seekers is about ₹ 28,000 Crores in next 10 years.

BEL is involved with DRDO for concurrent absorption of technology for further engineering and productionisation of RF and IR Seekers. These seekers will be a key differentiator in all future Indigenous AD and other Missile Systems. BEL manufactured and supplied RF seekers are already successfully used in the flight trials.

Missiles, Rockets, Glide Bombs & Ammunition

Make in India initiative of MOD, has given an opportunity to Indian Industry to take up indigenous development and manufacture of identified missiles, projectiles and related ammunitions.

As per the defence acquisition plans of India, opportunities for this segment is about ₹ 10,000 Crores in next 10 years.

BEL is pursuing opportunities under Make II category and other procurement category of DPP. Along with this, BEL is also exploring opportunities in manufacture of propellants for Defence/Space segments. BEL is partnering with Academia, R&D Institutes, Start-ups etc. as knowledge/ technology partners.

BEL is already engaged in the development and manufacture of Missile Electronics and parts, Ammunition fuzes etc. BEL is pursuing several MoD and DRDO (DCCP) opportunities which are at different stages of procurements. Apart from this, BEL is also creating necessary infrastructure for manufacture of missiles, glide bombs, rockets and its related parts.

(b) Industry Structure and Developments

Presently, India is the second largest importer of defence equipment with majority of its defence needs being met through imports. Government of India aims to develop a strong self-reliant domestic industry in the defence sector with substantial participation from private sector including MSMEs and Start-ups to reverse the trend of imports.

In this regard, the Government has taken several initiatives like "Make-In-India" program, creation of an eco-system for development of technologies through innovation by MSMEs / Start-ups, etc. With the support of the Government, Indian industry is expected to move up in the value chain and deliver quality products, systems and services to the Defence forces. Government has promulgated a draft defence production policy that aims at increasing defence production to Rs 1,70,000 Crores by 2025.

MoD has introduced the Strategic Partnership model (SP) for the Indian private sector, as part of DPP 2016. The model aims to progressively build indigenous capabilities in the private sector to design, develop and manufacture complex weapon systems and platforms.

To promote indigenous defence manufacturing, Government has undertaken initiatives like liberalisation of Industrial Licensing, development of Defence Corridors, funding for Innovation in Defence and Aerospace through iDEX / DIO, continuous updation of DPP, thrust on exports, etc. MoD has released a simplified Make-II procedure to help import substitution and promote Innovative solutions. Suo-Moto proposal can also be submitted under Make-II category.

Foreign Direct Investment (FDI) up to 49% is allowed through automatic route and above 49% under Government route wherever it is likely to result in access to modern technology.

DRDO developed technologies are now made available on non-exclusive basis to Indian industry including private sector against payment of ToT and Royalty fees. Also, DRDO has come out with a revised Policy and Procedures for Transfer of Technology to Industry during October 2019.

Two Defence industrial corridors in Uttar Pradesh and Tamil Nadu is being established by the Government. The Uttar Pradesh Defence Corridor will have six nodes at Agra, Aligarh, Chitrakoot, Jhansi, Kanpur and Lucknow. The Tamil Nadu Defence Corridors will have five nodes at Chennai, Coimbatore, Hosur, Salem and Tiruchirappalli. An investment plan of about ₹ 3,100 Crores and ₹ 3,700 Crores has been announced for Tamil Nadu and UP corridors respectively by Ordinance Factories, DPSUs and Private Companies.

The procedure of 'Make-I' has been simplified and a new 'Make-II' program has been introduced by Government that will help MSME and Startup companies to integrate into defence production. BEL is also participating in many of the "Make II" programs of defence services.

Under these changing business scenarios, BEL is focusing on enhancing its interaction levels and building long term relationships with emerging Strategic Partners, Users and other key stake holders in the Indian defence industry.

(c) SWOT Analysis

Strengths

- Established defence electronics player in India.
- Defence PSU with a good image, reputation and work ethics culture.
- Strong multi layered in-house R&D for technology and new product development.
- Committed work force with good infrastructure for manufacturing and quality assurance.
- Well established systems and procedures including companywide ERP system.
- Decades of experience resulting in excellent domain knowledge and core competencies in defence electronics.
- Wide product range with strong product support network.
- Strong relationship with Armed forces, defence R&D labs and Government agencies.
- Loyal customer base.
- Agility in diversification initiatives.
- Active learning from collaborators.
- Expertise and experience in executing large & complex System Integration Projects & Turnkey Solutions.
- Consistently profit making.
- Long term commitment to customers.

Weaknesses

- Gaps in some of the critical technology areas.
- Dependence on defence market.
- Time to Market – High.
- Dependence on DRDO for technology in certain segments.
- Depleting reserves.

Opportunities

- Growing defence and security needs.
- Government's emphasis on Make-In-India for manufacture of defence equipments.

- Growing defence budget allocation towards modernization, upgrade programs and Maintenance Repair & Overhaul.
- Increased impetus on modernisation of central paramilitary and police forces.
- Withdrawal of OEMs from China as a manufacturing base.
- Growing market for allied non-defence areas such as Homeland Security, Smart City, Space Electronics, Energy Storage Products, Network & Cyber Security, Composites, Solar based power plants, Railways etc.

Threats

- Rapid changes in technology in defence.
- Difficulty in sourcing of few critical and denied technologies.
- Policy interventions favoring Private sector.
- Manifold increase in competition from Indian Private industry and foreign OEMs including their JVs in Defence sector.
- Procurement of electronic systems under Strategic Partnership Model.
- Impact due to COVID like Pandemics.

(d) Major initiatives undertaken/planned, including strategy, goals and targets set by the top management, to ensure sustained performance and growth of the Company

The Company has undertaken the following major initiatives to ensure sustained performance and growth of the Company:

(i) Strategic alliances in emerging businesses through Co-development, Co-production and Manufacturing ToT:

The Company is working in many strategic areas of national importance such as Weapon systems, modern Land based AESA Radars, Naval Radars, Airborne Radars, Next Generation Electronic Warfare Suites and Counter Measure Systems, Air Defence Systems,

Unmanned Systems for Land, Air & Surface and Under-Water applications, Anti-Submarine Warfare Systems, Software Defined Radio, C4I Systems, Passive Night Vision Devices, Multi-sensor Stabilization Systems, Arms and Ammunitions, Transportation Solutions for Railways and Metro, Composite Products for Land, Marine & Avionics segments, Artificial Intelligence & Robotics, Space Electronics & Launch Vehicles, Solar, Medical Equipments and related solutions, Energy Storage Products etc.

Many strategic alliances have already been formed and more partnerships are being pursued with Defence laboratories, Ordnance Factory Board, DPSUs, Academia, Startups, niche technology companies and reputed global and Indian companies/agencies for addressing the emerging Defence and Non- defence businesses including exports.

Some of the products & systems identified and being pursued for alliances for Co-development, Co-production and Manufacturing ToT include Surface-to-Air Missile (SAM) Systems, RF/IIR Seeker, Air Defence Radars (Land and Naval based), Navigational Complex System, Sonar Systems, Next Generation Night Vision Devices, Gun Upgrades/New Gun Programs, Explosives, Ammunitions, Inertial Navigation Systems, High Power Lasers, Tethered Unmanned Aerial Vehicles and Swarm UAVs, Remotely Operated Vehicle (RoV), Counter Measure Systems, Electronics Systems for Futuristic Infantry Combat Vehicle (FICV), Satcom Terminals, Composite products, Rail & Metro Solutions, Li-ion Cells, Medical Equipments etc.

(ii) Joint Ventures (for existing / emerging business areas):

BEL has been continuously exploring opportunities for establishing Joint Ventures / Special Purpose Vehicles with reputed companies in complementary technology / Strength areas to bridge technology gaps and also to scale up the existing areas as well as enter into emerging business areas.

The Joint Venture BEL-THALES Systems Limited (BTSL) is formed between BEL and Thales, France with an objective to engage in design, development, marketing, supply and support of civilian and select

defence radars for the Indian and global markets. Benefitting from the confluence of work culture and Technology / manufacturing support of the Parent Companies, the JV has imbibed the best practices of both parent organisations and is growing into a centre for development, evolution and customization of products and as a trusted supplier. BTSL is presently engaged in the co-development of a Multi-Target Tracking Radar with Thales Netherlands to address the Indian weapon systems projects as well as the global requirements. BTSL has successfully customized and deployed a FM based Passive Radar Demonstrator in Bangalore. A well-equipped Integration and Verification facility for high end avionics systems setup is geared to fulfill the offset sourcing in the defense market. The Company is also involved in providing technical and product support for Air Traffic Management Radars.

BEL is in discussion with an Israeli OEM to establish a new Joint Venture Company to provide Product Life Cycle Support for the Weapon System Programs.

Technology Updation and R&D Challenges

Core Technologies: Core technologies required for developing products and solutions for the Defence Forces are often not readily available. These need to be developed and constantly upgraded for building solutions with a competitive edge.

Lock in for Proprietary Technologies: While it is inevitable for the defence forces across the world to depend on proprietary technologies, getting locked in to a single source for the technologies and solutions is a challenging situation for them.

Measures

To overcome the challenge of continuous upgrade w.r.t underlying core technologies for all products and solutions across BEL, a 3 tier R&D structure is put in place. At the topmost tier, two Central Research Laboratories (CRLs) located at Bengaluru and at Ghaziabad are engaged in blue sky research for development of core technologies in the areas of Radio Frequency and Microwave, Embedded Computing Systems, Radar Signal Processing, Network Centric

Software, Sensor Signal Processing, Very Large Scale Integration, Smart Computing Systems, Network and Data Fusion and Electronic Warfare etc. These are then engineered into core technology modules and products by the Product Development and Innovation Centre (PD&IC), which forms tier 2. This is complimented by BEL Software Technology Centre (BSTC) for related software modules. At the third tier, Development and Engineering divisions operating at all Strategic Business Units liaison with the customers for understanding their requirements, mapping them to technical specifications and developing products/solutions incorporating the core technology modules developed through the higher tiers, i.e CRLs, PD&IC and BSTC.

To overcome the challenge of lock-in to proprietary technologies, wherever feasible, the Company develops technology modules/ solutions based on standard protocols which can be evaluated using standard test & measuring instruments. Even when a given Technology Module/ Product/ Solution is Built to Specs (tailor made for the defence forces), they are developed with standard interfaces so that they can be used as plug and play modules in a larger system. Even within the solution developed, standard interfaces, modularity and scalability is ensured. This safeguards against the lock-in situation and ensures that the system developed is easily maintainable. Further, wherever a subsystem or a component is procured, multiple sources for this subsystem/ component are created to safeguard company from getting locked in.

R&D Initiatives and Achievements

Following are some of the new initiatives undertaken by BEL in the areas of R&D and technology development during the year 2019-20:

- BEL has initiated development of several Artificial Intelligence based products some of which are: "Object Detection and Tracking", "Social Network Analysis", "Robotic Surveillance Platform", "Human Face Recognition".
- Air Defence Fire Control Radar that will replace existing Fire Control Radars.

- Long Range Surface to Air Missile (LRSAM) is an Indo-Israeli surface-to-air missile, designed to defend against any type of airborne threat including aircraft, helicopters, anti-ship missiles, UAVs, ballistic missiles, cruise missiles and combat jets. Ship launched Long Range Surface-to-Air Missile (LRSAM) has been successfully test fired from a warship off the coast of Odisha.
- More than 71 Technical Papers were published by scientists and R&D engineers of BEL in various national and international Journals/Seminars/Conferences.
- During the year 2019-20, BEL has filed for 160 IP applications (patents / copyrights) in various areas of technology. Three patents have been granted to BEL in the year 2019-20.

Some of the new initiatives undertaken by Company in collaboration with academia are as follows:

- Design and development of nano UAV (Insectocopter).
- Autonomous quad rotor drone for operating in GPS denied environment.
- Cooperative spectrum sensing algorithm development.
- Automatic speech recognition for border languages.
- Voice recognition for pilots for identification of false/deceptive targets.
- Game theory based interception, AI based Multi Sensor Fusion, Geo referencing of UAV image/ video.
- Image analysis based identification, Thermal image extraction & classification, Target size & distance using photogrammetry, tracking of static/moving object UAV.
- Development of AI model for real-time detection, Tracking and Classification of human/vehicle activities from video stream.

Specific areas in which R&D was carried on and benefits derived as a result of the activities are as follows:

Like every year, several R&D projects were taken up by BEL in 2019-20 and several were completed in

specific business segments/ areas. These include R&D projects in major segments like Radars & Weapon Systems, Communication Systems, Naval Systems, Electronic Warfare & Avionics, Air Situational Warfare, Tank Electronics, Electro Optics and Laser Systems and commercial segment. The benefits derived are in the form of major share of revenues generated by the Company in the above business segments. Indigenous R&D typically leads to more than 80% of the Company's turnover. Besides, several technology modules have been developed some of which have resulted in import substitutions, thereby reducing the import bill. Some of the BEL developed solutions have also resulted in export orders received by the Company.

Details of Major accomplishments in equipment and components area:

- R&D projects undertaken by BEL which have resulted in export orders are Coastal Surveillance System for Maldives, Coastal Surveillance System for Seychelles, Weapon Locating Radar for Armenia and COMNET for Guinea.
- R&D projects which have fetched considerable revenues for the Company (both Defence and non-Defence segments) include LRSAM, Train Simulator for Mumbai Monorail, System for High Altitude Area, National Common Mobility Card Based Auto Fare Collection Gate, Systems for Low Intensity Conflict, Ship-borne System, IEWS Upgrade, Upgraded stabilised optronix Platform, Real Time Train Information System, Missile Data Link Unit Mk II, CDMA Based wireless communication system, Instant Fire Detection and Suppression System, Digital flight control computer, Multi-Purpose Weapon Sight, Multi-Function Radar and Command and Control Unit for Akash-NG, X Ray Baggage Inspection System.
- Technology Modules and subsystems developed indigenously, which have resulted in import substitution are dip brazed chassis for flight control computers, LNAs and Data Processor for radars, Maintenance and Training Support Device (MTSD), Medium Wavelength Infra-Red (MWIR) Zoom Lens for Thermal Imager (TI) Sights, High power

Digital Dual Transmit- Receive Unit (DTRU) and Dual Receive Unit (DRU) for Air Surveillance Radar, Compact Tracking Radar (CTR), Multi-Function Console (MFC) for Radar, Satellite On The Move.

(e) Diversification / Expansion Plans:

As a diversification strategy, the Company has been exploring opportunities in allied defence and non-defence areas for growth, leveraging its strengths and capabilities acquired in the defence electronics domain. In the past 4-5 years, the non-defence portion, on an average (exception being in 2018-19 due to EVM/VVPTs) in company's business is about 15-20% of total turnover. This year company has about 18% of turnover from non-defence segment. The company aims to achieve revenues of about 20-25% of company's turnover from the non-defence business in the coming years.

The Company has been putting continuous efforts and focus to enter and address several new areas in both defence and non-defence for further expanding its business in new markets and sustaining the growth. Some of the areas being focused upon by BEL in defence include – Next Generation Weapon Programs including critical parts in RF, EO and other Electronic parts, Airborne Radars, Arms & Ammunitions and Explosives, Unmanned Systems, Aircraft Integration, Night Vision Devices, INS solutions for various Platforms, Helmet mounted Display Systems, Counter Measures Systems for Airborne Platforms, Composites etc.

Some of the areas being focused upon by BEL in the non-defence include - Air Traffic Controller Radars, Space Electronics, Space Launch Vehicles, Space grade Solar Cells, Satellite Assembly & Integration, Railway and Metro Solutions, Software, Electric Vehicles (Li-ion Cells, Fuel Cells, Charging Stations, etc), Homeland Security and Smart City Businesses, Smart Meters, Healthcare electronic equipments to combat COVID-19 situation.

BEL has successfully diversified into Electronic Fuzes, Critical parts for Weapon Programs, Light weight Composite Shelters & Masts, Homeland Security & Smart Cities, Network & Cyber Security, Rail & Metro solutions (Real time Train Information System,

Automatic fare Collection and Gating system for Metro), Intelligent Traffic Management Systems, Energy Storage Products, Solar Power Plants, Cells & Modules, Satellite Assembly & Integration, X-Ray Baggage Scanners (X-BIS) etc.

BEL also continuously strives to expand its business by capturing new customers in the existing geographical markets as well as new geographies for its proven products, Systems and Solutions. BEL has ventured into new Business Models like Government Owned Company Operated (GOCO Model), OPEX Model etc to expand its business by capturing new Customer segments. BEL is striving to exploit its dual use technologies for expanding the market as well as customization of its products / solutions to meet the new customer segments / geographical areas, especially in the export markets.

BEL is leveraging on its new International Marketing offices to expand the reach of its products and services to the new Markets and also explore Offset Opportunities. BEL is also forging partnership with other PSUs/ Industry players for quickly expanding the geo spatial reach through resource sharing.

(f) Specific Measures on Risk Management, Cost Reduction and Indigenisation:

1. Risk Management:

BEL operates in businesses which involves exposure to various types of risks such as dynamic customer requirements, technology /security considerations, research & development, long duration for equipment evaluation and trials, timely on-site product support requirements in adverse conditions, etc.

In order to address these risks comprehensively, BEL has established an Enterprise Risk Management (ERM) framework, across the company. The deployment of ERM is based on the Risk Management Policy released with due approval of the Board.

The Risk Management Policy outlines Risk Management Structure, Scope & Objectives, Focus Areas, Roles and Responsibilities of Risk champions and other concerned

personnel in the company. A comprehensive framework for Risk Identification, Evaluation, Prioritization and Mitigation of various risks associated with different areas such as Technology, Market, Security including Cyber Security, Operations, Finance, Human Resources, etc are also defined in the Policy.

The Risk Management framework of BEL has three tier Structure, with the Board of Directors (BoD) (represented by Risk Management Committee (RMC) of the Board) at the Apex Level and the Corporate Risk Management Committee (CRMC) at Corporate Level and Unit Risk Management Committees (URMCs) at the SBUs/Units /R&D Centres.

The Company level risks are monitored by CRMC which is headed by a "Functional Director" and senior management of corporate at General Manager Level are its members.

URMCs are constituted at each of the Units/SBUs/R&D centres for effective management of Risks. The Unit Risk Management Committees (URMCs) are headed by the respective SBU/Unit Heads/R&D Centre Heads and coordinated by respective Unit/R&D Centre Risk Champions. URMCs focus on risks specific to their area of operations.

URMCs carryout risk assessment in their respective operational areas, as an ongoing activity and every quarter conduct a formal review of risks and suggest mitigation measures. The URMCs further prioritize and grade their risks as per their assessment in terms of probability and impact. The top risks are reported by URMCs to CRMC every quarter. CRMC analyses the Risk Register received from the URMCs and also Company Level Risks.

The risks having Company-wide impact, which needs review and advice, are placed before RMC. After review and recommendations by RMC, these risks are addressed by introducing suitable changes or introduction of policies and processes if required. Risks, that may have significant impact on company's business operations and may threaten the existence of the Company, are further referred by

RMC to the Board. The Board would further review the risks and gives approval for appropriate mitigation measures. These mitigation measures are implemented and further reviewed by RMC for compliance and the implementation status reported to the Board.

The risks, which may have high potential of impact on major projects, investment proposals etc, are referred to CRMC for detailed review and analysis and for mitigation measures. Major Project proposals and those having strategic importance mandatorily include risk analysis reports as part of their proposals while seeking approval from the approving authority. This is to enable the approving authority to take informed decisions.

Some of the Risk Mitigation measures implemented at BEL include in-house R&D to develop critical technologies, hedging to overcome any unforeseen FE variations, business diversification to maintain planned growth rates, partnerships for co-development & addressing new business opportunities, Indigenization, comprehensive vendor development and evaluation process, etc.

To have a uniform understanding of the ERM in the company, all new members of the CRMC, URMCs and other Senior Executives are trained in ERM on a continuous basis. The ERM training programs are periodically organized by Corporate Human Resources Department. ERM training is included in the calendar program of BEL Academy of Excellence (BAE), Bengaluru, as a continuous activity.

BEL has taken up revision of Risk Management Policy for the company, taking into consideration the changes in the business environment. The revised policy will be released after necessary approvals.

2. Cost Reduction:

In view of increasing competitive environment for electronic products both in civil & defence, BEL has adopted cost reduction strategy as one of the thrust areas. "The Cost Reduction" Task Forces are set up in all the Units/SBUs with members from Cross Functional Areas. The Task Forces identify & take up projects and set target

for achieving cost reduction. Cost reduction activities concentrate on both manufacturing & non-manufacturing areas and encompass all facets of business.

3. Indigenization:

BEL has always been striving to attain self-reliance through indigenization efforts and thereby meet the strategic needs of the nation. The indigenization activity covers development initiatives through in-house R&D, collaborative R&D & joint development with national labs, academic institutions etc. To give further thrust on indigenization, the Company has set up an integrated state-of-the-art Product Development & Innovation Centre at Bengaluru. With all these efforts, around 79% of turnover was generated from indigenous technology during the year 2019-20 marching towards attaining self-reliance in strategic electronics.

(B) Internal Control System and its Adequacy:

BEL has a robust system of internal controls in place. It has documented policies and procedures on Purchase, Sub-contract, Works contract, Accounting, HR, IT and Security, Sub-delegation of Powers, etc. covering all financial and operating functions, and revised in tune with the changing times. These controls have been designed to provide a reasonable assurance with regard to maintaining of proper accounting controls for ensuring reliability of financial reporting, monitoring of operations, and protecting assets from unauthorized use or losses, compliance with regulations, etc. BEL has implemented File Life Cycle Management System (FLM) for online processing and approvals of procurement and other proposals, which facilitates complete transparency, accountability, protection and security of the information/files. Elaborated guidelines for preparation of accounts are followed consistently for compliance with Indian Accounting Standards (Ind AS) and Companies Act, 2013.

BEL has implemented company-wide ERP system (SAP) with centralised deployment. Governance Risks and Compliance (GRC) Access Control module has been implemented as the primary means of addressing user access risks by embedding preventive rule based checks while assigning authorisations to business transactions.

Authorisations to users are given based on principles of Segregation of Duties and Least Privilege. Risk rules have been configured in the system in several business processes like Finance, Procure to Pay, Order to Cash, Material Management, HR and Payroll. Risk analysis reports are regularly run to ensure that processes are under control. Additional control in the form of biometric fingerprint authentication for critical transactions is also in place. Audit logs for all changes in roles and authorisations are maintained.

BEL has its own Internal Audit Department commensurate with the size of its operations, with teams of professionally qualified personnel who conduct regular and comprehensive internal audits to ensure that all checks and internal control systems are in place. Besides, the Company has sub-committee of the Board viz. Audit Committee (AC) to keep a close watch on compliance with Internal Control Systems. Also, being a Government Company, BEL is subject to Audit by Comptroller & Auditor General of India (C&AG).

BEL's Internal Audit teams are located at major manufacturing units and Corporate Office of the Company which carry out audits as per risk-based Annual Audit Programme approved by Audit Committee of the Board. All the Internal Audit teams submit audit reports to their team leaders and after considering the Auditees' replies / action taken reports, team leaders submit reports of significant issues observed during audit to Head of Internal Audit on periodical basis. Head of Internal Audit submits his/her reports to Company's Management at various levels for corrective actions and finally submits report to the Audit Committee of Board indicating status of compliance with well-established internal control systems of the Company and plan for mitigating the key risks associated with major activities of the Company.

BEL's Internal Audit checks the adequacy and effectiveness of internal control system through regular audits, system reviews, process reviews, data analytics, etc. and provides assurance on compliance with the legal and regulatory requirements, and internal policies and procedures of the company. Functioning of Internal

Audit as well as Internal Control systems are periodically reviewed by Board-level Audit Committee. The Audit Committee of the Board of Directors, comprising Independent Directors, regularly reviews the audit plans, significant audit findings, adequacy of internal controls, and compliance with accounting standards & policies from time to time and issues directives for compliance to further strengthen the internal control system keeping in view the dynamic environment in which the Company is operating.

The Company continues its efforts to align all its processes and controls with global best practices, to assure the highest level of Corporate Governance.

(C) Financial/Operational Performance:

1. Strategy & Objectives:

The main objectives of the financing strategy of your Company are to generate adequate internal resources for profitable growth, to give value for money and create wealth for shareholders, to maintain highest credit rating and to build in risk mitigation strategies in the business processes to minimize exposure to financial risks.

2. Performance Highlights:

(₹ in Lakhs)

Particulars	Year ended 31 March 2020	Year ended 31 March 2019

3. Analysis of Financial Performance of 2019-20:

- Turnover registered a growth of 6.94% from ₹ 11,78,922 Lakhs in 2018-19 to ₹ 12,60,776 Lakhs in 2019-20.
- Value of production has increased from ₹ 11,92,142 Lakhs in 2018-19 to ₹ 12,34,833 Lakhs in 2019-20. Increase of 3.58%.
- Turnover per employee has increased from ₹ 122.65 Lakhs in 2018-19 to ₹ 135.87 Lakhs in 2019-20.
- PAT to Turnover Ratio is 14.23% in 2019-20 as compared to 16.35% in 2018-19.
- Net Worth has increased from ₹ 9,01,891 Lakhs in 2018-19 to ₹ 9,85,294 Lakhs in 2019-20.
- The return on Net worth is 18.21% during 2019-20 as compared to 21.37% in the previous year.
- Earnings per share is ₹ 7.36 in 2019-20 as compared to ₹ 7.91 in 2018-19.
- Book value per share is ₹ 40.44 in 2019-20 as compared to ₹ 37.01 in 2018-19.

(D) Development in Human Resources

Competency Enhancement of employees is an important aspect of the Company's Human Resource Strategy. The programs planned by Human Resource Development for the employees are aimed at improving their skills for present and future roles i.e., training for the present roles and development for the future. Enhancement of work related skills both at the individual and at the team level through various HRD initiatives ensure overall development and well-being of our employees.

The Executive Competency Enhancement basket includes Management Development Programmes (MDPs), Technology Enhancement Programmes (TEP) and Quality Enhancement Programmes (QEP) conducted for Executives by In House Experts as well as through Faculty from Premier Institutions/ Agencies.

In the year 2017, BEL established an exclusive Training Academy, NALANDA - BEL Academy for Excellence. The programs are conducted across the Technology, Quality and Behavioural and Leadership Domains.

The Academy facilitates enhancement of competencies through Trainings to address the needs of the current role and through Developmental initiatives to address the needs future role for the Executives across all the Units of BEL. Training and Development has broadly been categorized into three types:

- i) Short Term Programs: Training programs in the area of Radar Signal and Data processing, Aerial Delivery and Airborne Surveillance Systems, Advance Signal Processing Techniques for Modern Radar, Seminar on Technologies for Indian Defence Industries, Tracking and Neutralization of Unauthorized Drones, Microwave & RF, Smart Materials, Structures & Systems, Advanced Metal Processing and Evaluation Techniques, Met materials and Applications, Agile Mobile based Embedded SW Development, IT in Defence. Short term courses are also conducted in various functional areas and other related domains of BEL.
- ii) Certification Programs: WEB based and customized certification programs (4 months duration) from DIAT, Pune in technology areas EW, RADAR, VHDL, DSP, Lab VIEW. Six months WEB based certification program on Foreign Trade by Indian Institute of Foreign Trade was also conducted.
- iii) Long Term Programs: Two customized WEB based M. Tech programs, one from IIT-Madras on Communication & Signal Processing and other from BITS-Pilani on Artificial Intelligence.

The Academy also facilitates Six Sigma projects and in the year 2019-20, 462 Six Sigma projects were completed with estimated savings of ₹ 142 Crores. On the Quality and Project Management front, Global certification such as CRE, CMQ/OE, CQE, CMQ/OE, CSQE in collaboration with American Society of Quality (ASQ) & PMP in collaboration with Project Management Institute (PMI), USA are organized in the Academy.

In the Leadership domain, various programs have been organized to address the Behavioural Competency Enhancement such as, Structured Development Programs, Change Management Program, Advanced Program for Senior Executives, Women Leadership Workshops, Outbound Training Program, Risk Management, HR Analytics Programs, High Impact Train the Trainer and Finance for Non Finance etc.

New initiatives by the Company include Online Development Centres for Executives to ensure focused developmental learning.

Some of initiatives rolled out to enhance Leadership Capabilities of General Managers during the year are enumerated below:

- Introduction of Orientation programs for Newly promoted GMs.
- Executive Coaching.
- Training for Board Interviews.
- Training on Value Creating Financial Strategies.
- Awareness programs on RTI, POSH & Disciplinary Procedures.
- Advance Management Program which included an Overseas Module for gaining International Business Perspective.

Skill development programs for Non-Executives were organized by Unit HRDs in the areas of Technology, Functional Domain, General Management, Professional Development Programs and Other Programs such as Quality, Safety, First aid, Official Language and business specific topics.

BEL has been promoting health and well-being programs for all employees. Workplace health and well-being programs not only have a positive impact on employee wellness, they also lead to a significant increase in the productivity, overall engagement and cohesiveness of the workforce.

Annexure-6

CORPORATE GOVERNANCE REPORT

Philosophy and Code of Governance

Bharat Electronics Limited's (the Company) philosophy of Corporate Governance is based on the principles of honesty, integrity, accountability, adequate disclosures, compliances, transparency in decision-making and avoiding conflicts of interest. The Company gives importance to adherence to adopted corporate values & objectives and continuously ensures ethical & responsible leadership at all levels in the Company in discharging social responsibilities as a corporate citizen. The Company believes in customer satisfaction, financial prudence and commitment to values. Our corporate structure, business and disclosure practices have been aligned to our Corporate Governance Philosophy.

The Company strives to transcend much beyond the basic requirements of Corporate Governance focusing consistently towards value addition for all its stakeholders.

Board of Directors

Composition

Pursuant to the Companies Act, 2013, Bharat Electronics Limited is a 'Government Company' as 51.14% of the total paid-up share capital of the Company is held by the President of India as on 31 March 2020.

Meetings and Attendance of Board Meetings

During the financial year ended 31 March 2020, eight Board Meetings were held and the maximum interval between any two meetings was not more than 120 days. The Board Meetings were held on 3 May 2019, 29 May 2019, 29 July 2019, 16 September 2019, 4 November 2019, 30 January 2020, 28 February 2020 and 31 March 2020. Auditor's Certificate on Corporate Governance

The Members of Bharat Electronics Limited,

We have examined the compliance of conditions of Corporate Governance by Bharat Electronics Limited ('the Company'), for the year ended on 31 March 2020, as per the Regulations 17 to 27, clauses (b) to (i) of Regulation 46(2) and paragraphs C and D of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations') and Department of Public Enterprises (DPE) Guidelines on Corporate Governance for Central Public Sector Enterprises.

Management Responsibility

The compliance of conditions of Corporate Governance is the responsibility of the Management of the Company. The responsibility includes the design, implementation and maintenance of internal controls and procedures to ensure the compliance with the conditions of the Corporate Governance stipulated in the Listing Regulations.

Auditors Responsibility

Our responsibility is limited to examining the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of an opinion on the financial statements of the Company.

We have carried out an examination of the relevant records of the Company, in accordance with the Guidance Note on Reports or Certificates for Special Purposes issued by the Institute of Chartered Accountants of India. The Guidance note requires that we comply with the ethical requirements of Code of Ethics issued by the Institute of Chartered Accountants of India. We have complied with the relevant applicable requirements of the Standard on Quality Control for Firms that Perform Audits and Reviews of Historical Financial information, and Other Assurance and Related services Engagements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in Regulations 17 to 27, clauses (b) to (i) of regulation 46(2) and paragraphs C and D of Schedule V of the Listing Regulations as applicable. However, the Company is yet to appoint the adequate number of Independent Directors, including one Independent Woman Director which results in non-compliance of Regulation 17(1)(b) and Provisio to Regulation 17(1)(a) respectively. It is informed that the appointment of Directors is done by Government of India and filling up of vacancies of the said Independent Directors is also pending with the appointing authority namely Government of India.

We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

Restrictions on use

This certificate is issued solely for the purpose of complying with the aforesaid Regulations and may not be suitable for any other purpose.

SUSTAINABILITY REPORT

Your Company is committed to achieve the economic, ecological and social responsibility objectives of sustainable development through its varied business operations and activities in a planned way by proactively undertaking Environment Management and Sustainable Development programmes. It has over the years acquired enough in-house expertise in the areas of Resource Management and Sustainable Development, including Water Management, Waste Management, Energy Conservation, use of Non-Conventional Energy like Wind Energy, Solar Energy, etc. The Company strives to build on this expertise and further promotes sustainable development initiatives in its business operations and activities. The Company has formulated a Policy towards Sustainable Development to fulfill this objective and also keeping in view the requirement under the Guidelines issued by Government of India, Department of Public Enterprises (DPE). BEL's Sustainable Development Policy are posted on the website of the Company www.bel-india.in

An overview of the Company's Environment Management and Sustainable Development efforts is provided in the following paragraphs.

Environment Management

Bharat Electronics Limited (BEL) has been systematically integrating sustainability into its operations through best practices. We are looking for sustainable development and are committed to a clean and green environment. All BEL units are committed to environmentally friendly working practices and firmly believe that environmental sustainability leads to the design of economically viable and reliable products. BEL sets targets in accordance with the DPE Guidelines, further approaches to adopting breakthrough technology to improve the environmental performance of products from design to disposal. Conservation of natural resources such as rainwater collection, energy saving and waste reduction are practiced in all BEL units. BEL looks beyond obvious opportunities available for improvising the performance against environmental commitments.

Cleaner Technology

Concepts of cleaner technologies that prevent generation

of pollution are practiced in the production process itself. Quest for continual improvement in introduction of cleaner technologies in electronic manufacturing processes are always on. These efforts have largely reduced pollutant generation. Our Research and Development Departments are always on the lookout for environment friendly components and processes. Corporate standards have published several process guidelines for environment friendly materials, components and manufacturing processes that are moving into design across the Company. Corporate standards have been regularly reviewed, standardised and introduced many RoHS (Restriction of Certain Hazardous Substances) items that comply with European and other International Guidelines. In continuing efforts from previous years, 44 new RoHS-compliant standards have been introduced and 88 standards have been revised covering areas such as electronics / mechanical components and raw materials. In the area of electronic / electrical / mechanical components and raw materials, 14 process standards (new and revision) have been published with clause addressing guidelines in the safety and environmental aspect. A cumulative total of 606 RoHS compliant standards have been introduced in the areas of electronic / electrical / mechanical components and raw materials.

BEL understands that pollution prevention begins at source. In view of this, several improvements and adjustments have been made to the existing BEL processes. Many RoHS-compliant processes have been introduced in PCB manufacturing and metal finishing processes. Few of them to mention are low-smoke halogen cables, low VOC (Poly urethane) finishing operations, Trivalent Chromium based Chromate Conversion coating. The technical series document was published on replacement of cadmium plating compliant with RoHS for fasteners and screws. This helps spread awareness and adhere to RoHS-compliant alternatives among various D&E and Quality engineers throughout BEL.

Sustainable Development Initiatives

BEL has established a systematic approach for conservation of natural resources. Major focus revolves around saving power, water and enhancing greenery and other several initiatives have been taken in this regard. Wind generation power plants of total capacity 13.9 MW are installed at Davanagere and Hassan, Karnataka state for captive consumption, along with

3,340 kWp Grid connect solar PV power plants at roof top of various buildings of all BEL Units. The solar power plant contributed about 6.83% of energy consumption of all Units of BEL. Overall renewable energy contribution for the entire Company is about 53%. Generation of renewable energy (Green Energy) through wind and solar reduces the release of Green House Gases into the atmosphere.

During the year 2019-20, about 247.8 Lakh units of electrical energy was wheeled from wind energy power plants installed at Davanagare and Hassan, Karnataka state for captive consumption and CO₂ emission avoided is 23,102 metric ton. BEL has taken up sustainable development projects in the areas of Energy efficient retrofit LED lights, DALI (Digitally Addressable Lighting Interface) Lighting Control System, Sky Light Pipe for day light harvesting, reducing carbon footprint and water footprint. Incorporation of Green building concept have been introduced in all new buildings and all future buildings are going to meet Green Rating for Integrated Habitat Assessment (GRIHA) rating compliance.

Emissions to Air

Air emissions from process are controlled through appropriate air pollution control equipment. The paint booth and plating baths are operated at a slight vacuum pressure to suck air emissions from these processes. Wet paint booths and wet scrubbers are used to treat air emissions before emitting gaseous emissions. The emission results are within the discharge standards of the Pollution Control Board. These results are evidenced by ambient air quality measured at various locations in the factory. In addition to air pollution control equipment provided for plating bath, suction filter are also provided at work station suck solders fume. All operations are maintained efficiently to prevent air pollution.

Water Pollution

Waste water generated during the manufacturing process is separated at the source itself and adequate treatment is given to meet the pollution control standards. This isolated treatment is very specific to the nature of the waste water produced and results in effective detoxification with less chemical consumption. BEL has taken a step forward to treat wastewater to meet reusable standards and is recycled for production purposes. Similarly, the domestic waste water produced is treated and recycled for horticultural purposes. Dual plumbing system is part of design for all new building. Recently inaugurated

5-star GRIHA rated BEL Academy for Excellence and C-type residential quarters are provided with dual plumbing system. In addition to reuse of treated sewage, BEL-Bangalore Complex provides 1 MLD with tertiary treated Bangalore Water Supply and Sewerage Board (BWSSB) for horticultural applications, avoiding the use of 1 MLD fresh water. Another noble project began to clean the public sewer of 10 MLD and rejuvenate the local Bengaluru Lake has commenced. 2 MLD of this will be used for BEL gardening and other applications that result in huge conservation of natural resources and groundwater.

Hazardous Waste Management System

The principle of reduction, re-use and recycling is observed when handling hazardous waste. Hazardous waste production has been reduced at the process level by introducing suitable chemicals and processes that create less hazardous sludge in the wastewater detoxification process and adopting cleaner technology. The use of sodium hydrides, sodium hypochlorite and sodium metabisulphite instead of lime, bleaching powder and ferrous sulfate helps to reduce the amount of hazardous sludge. In addition, the introduction of cyanide-free zinc-plating and coppering processes has helped reduce hazardous waste production. The hazardous waste generated is treated scientifically. BEL has set up a system for the safe handling / handling of hazardous waste by creating an exclusive, well-protected site for the safe storage of hazardous waste. BEL has tied up with the State Pollution Control Board, "Treatment, Storage & Disposal Facility" operators for disposal of landfillable solid hazardous waste. Recyclable wastes are handed over to Pollution Control Board authorised agencies for scientific processing and recycling. This system effectively prevents pollution caused by hazardous waste.

E- Waste Management

E-waste generated during the manufacturing of products is handed over to Pollution Control Board authorised agencies for scientific processing, recovery and recycling as a manufacturer. End of life E-wastes like computer and other electronics items are handed over to Pollution Control Board authorised agencies for scientific processing, recovery and recycling. End of life E-waste product like Electronic Voting Machines are collected back as extended producer responsibility. After dismantling the product, E-wastes are channelized to Pollution Control Board authorised agencies for scientific processing and recycling. Users of Electronics products are provided with handling and disposal guidelines

for safe disposal of E-waste after end of use. Efforts are being made to bring down the hazardous component in electronic products through introduction of as many as possible RoHS compliant components.

Biomedical Waste

Biomedical wastes generated in the BEL hospital and medical centers are collected and disposed of scientifically as per regulatory guidelines.

Solid Waste Management

BEL has established a system for the separation of waste generated at source, which facilitates the scientific treatment and disposal of solid waste. Biodegradable wastes are composted in an organic waste converter; it has been introduced for the treatment of municipal solid waste in addition to use of Bio-methanisation plant. Upflow anaerobic biogas plant of 2.0 tons results in savings of 45kg/day equivalent to PNG in cooking alongside the scientific handling of the municipal waste management problem. An organic waste converter with a capacity of 1.0 Ton per day was installed to convert food waste and green waste into manure. Land fillable wastes are being sent for processing at a well-established solid waste treatment facility in Bengaluru.

Water Management

Water conservation measures are achieved through the outcome of a water audit. Several water protection projects have been implemented to protect water, such as demand based water supply automation, borehole pumping automation, water tank level controller, efficient dishwashing system, and the use of inflow water with air mixing. The implementation of these water conservation projects have led to a steady reduction in water consumption every year. Rainwater collection and innovative borehole recharging allowed us to collect surface runoff water and replenish groundwater. The large-scale rainwater harvesting reservoir at Bangalore unit has a capacity of 170 million liters with expected an annual yield of around 234 million liters. Roof top rainwater harvesting had collected 650 m³ of rainwater in the last year which was directly used for the generation of RO water. All the units are having rainwater recharging facilities. In addition rainwater collection and reuse facilities are also created.

On Site Emergency Plan and Systems

Emergency preparedness and response plans exist at the plant level and workplace level, which have been institutionalized with the integration of a multi-disciplinary task team covering hazard assessment, risk reduction and emergency response. Mock drills on emergency planning are being conducted periodically by the Individual Strategic Business Groups involving:

- Task Force and repair team.
- Firefighting team.
- Security Team.
- Transport Team.
- First aid and medical team.

And the sequences of events are recorded for improving the mock drill exercise while the Planning is monitored by the high officials of the organization.

Incident controllers go to the accident site and co-ordinate with rescue teams and take steps to restore normalcy after the incident, if any.

The learning from the stock taking meeting will be implemented as corrective action measures for improvement.

Ecological Sustainability

We embark on a journey to ecological sustainability, greenery, right from the entrance of the BEL. Around 200 different plant species are grown in the area, home to various birds and other creatures supported by fruit and flower plants. In our 685 acres of green campus, we care for a lawn of approximately 4,90,000 square meters and hedges of 25,000 meters and over 1,39,600 trees.

The green carpet helps to retain dust, absorbs heat, low carbon sink and releases fresh oxygen. Lush green plantations spread over 200 acres of land testify to Company's commitment to afforestation.

BEL-Bangalore Complex took a new step last year to transplant 7 trees that would otherwise be cut. These transplanted trees grow very well. BEL planted around 1500 trees during last year afforestation program. The area is cleaned and afforested during the Swachh Bharat campaign at the BEL -Bangalore Complex. Next year we planned to plant another 1500 trees.

BUSINESS RESPONSIBILITY REPORT (BRR)

Section A: General Information about the Company:

1. Corporate Identity Number (CIN) of the Company : L32309KA1954GOI000787
2. Name of the Company : Bharat Electronics Limited
3. Registered address : Outer Ring Road, Nagavara, Bengaluru -560045
4. Website : www.bel-india.in
5. E-mail id : secretary@bel.co.in
6. Financial Year reported : 2019-20
7. Sector(s) that the Company is engaged in (industrial activity code-wise) : Radar - 26515
Communication & C4I systems - 26303
Electro-Optic - 26700
8. List three key products/services that the Company manufactures/provides (as in balance sheet):
 - i. Radars
 - ii. Communication & C4I systems
 - iii. Electro-Optic
9. Total number of locations where business activity is undertaken by the Company:
 - i. Number of International Locations (Provide details of major 5):
Overseas Offices at: 05 i.e. New York (USA), Singapore, Vietnam, Myanmar, Sri Lanka and Oman.
 - ii. Number of National Locations:
Manufacturing Units at: 09 i.e. Bengaluru (Karnataka), Ghaziabad (Uttar Pradesh), Panchkula (Haryana), Kotdwara (Uttarakhand), Pune and Navi Mumbai (Maharashtra), Hyderabad (Telangana) and Machilipatnam (Andhra Pradesh) and Chennai (Tamil Nadu).
Regional/Marketing Offices at: New Delhi, Mumbai, Kolkata and Visakhapatnam.
10. Markets served by the Company – Local/State/National/International: National and International.

Section B: Financial Details of the Company:

1. Paid up Capital : ₹ 24,366 Lakhs
2. Total Turnover : ₹ 12,60,776 Lakhs
3. Total Profit After Taxes : ₹ 1,79,383 Lakhs

4. Total Spending on Corporate Social Responsibility (CSR) (including amount set aside) as percentage of profit after tax (%) : 2% of average Net profits of the Company made during the three immediately preceding financial years. Refer to Annexure - 2 Report on CSR activities.
5. List of activities in which expenditure in 4 above has been incurred : (Refer to the Annexure-2 report on CSR activities).

Besides, the standard terms & conditions in the purchase order clearly specifies conformance to safety, handling & environment. The Company has also introduced e-Procurement, Integrity Pact etc., to further ensure transparency and fair business practices. Based on the vendor rating mechanism, feedback is provided to suppliers with regard to quality, cost, delivery & performance. To summarize, majority (more than 60%) of the vendors available in the AVD conform to key principles of Business Responsibility.

The Company's environmental policies are communicated to suppliers & vendors through purchase orders and work orders. Environmental awareness and policy requirements are communicated during annual vendor meet for compliance.

Section C: Other Details:

1. Does the Company have any Subsidiary Company/ Companies?

Yes.

- i. BEL Optronic Devices Limited, Pune.
- ii. BEL-THALES Systems Limited, Bengaluru.

2. Do the Subsidiary Company/Companies participate in the BR Initiatives of the parent Company? If yes, then indicate the number of such subsidiary company(s)

No

3. Do any other entity/entities (e.g. suppliers, distributors etc.) that the Company does business with, participate in the BR initiatives of the Company? If yes, then indicate the percentage of such entity/entities? [Less than 30%, 30-60%, More than 60%]

Outsourcing activity in the Company is governed by well established procedure. As quality, delivery and cost are of prime importance, extreme care is taken in the selection and establishment of blemish free vendors. There is a Vendor Evaluation Committee in place and the broad activities of the committee include assessment of capabilities & infrastructure, quality accreditations, environmental certifications, vendors client list and their registration with the vendor, bankers' details, vendors' credentials etc. The vendors fulfilling these conditions will only be included in the Approved Vendor Directory (AVD) of the Company.

Section D: BR Information

1. Details of Director/Directors responsible for BR:

- a) Details of the Director/Directors responsible for implementation of the BR policy/policies:

3. Governance Related to BR:

- Indicate the frequency with which the Board of Directors, Committee of the Board or CEO assess the BR performance of the Company. Within 3 months, 3-6 months, Annually, More than 1 year?

Periodical review of the working of CSR & Sustainability Policy, Policy on Prevention, Prohibition and Redressal of Sexual Harassment at Workplace, Whistle Blower Policy, Code of Business Conduct and Ethics for Board Members, Key Managerial Personnel and Senior Management, Code of Conduct and Fair Disclosure Procedure for Regulating, Monitoring, Reporting and Prohibition of Insider Trading in BEL Securities, Related Party Transactions Policy, Risk Management Policy are being carried out by the Board of Directors / Committee(s) of the Board.

- Does the Company publish a BR or a Sustainability Report? What is the hyperlink for viewing this report? How frequently it is published?

Yes. The Company publishes BR Report and Sustainability Report as part of its Annual Report and posts the same on its website at <http://www.bel-india.in/ContentPage.aspx?MIId=17&CIId=427&LIId=1&link=427>

Section E: Principle-wise performance:

Principle 1

- Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs/ Others?

Yes, the policy covers the Company. In addition, the Company has adopted Integrity Pact with all vendors / suppliers / contractors / service providers for all Orders / Contracts of value ₹ 300 Lakhs. The pact essentially envisages an agreement between the prospective vendors / bidders and the Principal (BEL), committing the Persons / officials of both sides, not to resort to any corrupt practices in any aspect / stage of the contract. Only those vendors/bidders, who commit themselves to such a Pact with the Principal, would be considered competent to participate in the bidding process. Integrity Pact, in respect of a particular contract, would

be operative from the stage of invitation of bids till the final completion of the contract. Any violation of the same would entail disqualification of the bidders and exclusion from future business dealings.

- How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

In the Company, there is constant effort to enhance customer satisfaction level. Accordingly, many initiatives have been taken to address product support issues effectively. Product Support Monitoring Groups have been established across the company to address all supportability issues. Dedicated Senior Officers at the level of Additional General Managers / Sr. Deputy General Managers are appointed for Army, Navy and Air Force for monitoring progress on Complaint Handling. The Company has opened 10 Regional Product Support Centres for supporting Indian Airforce & Indian Army and Water Front Support Centres at 7 Locations for Supporting Indian Navy ensuring timely resolution of Customer Complaints. These Support Centres are single point of contact of Customers in their respective operational zones, thereby facilitating better and faster Co-ordination between customers and the Company's manufacturing Units. Customers Co-ordination Cell has been set up at Bengaluru for registration of complaints. The facility is armed with Toll Free BSNL/MTNL number along with CRM module of SAP connected through internet. Our customers can log-in to the Customers Co-ordination Cell and register complaints. Also, the CRM module helps the customer to track progress on complaint online, by getting Unique Docket Number for the registered complaint. The cell generates monthly report on summery of complaints for management. Details of complaint handling data are appended in the table below:

Summary of Complaints for the financial year 2019-20:

No of Complaints Registered	No of Complaints Resolved	No of Complaints Pending
132052	11559 (87.5%)	1646 (12.5%)

During the financial year 2019-20, the Company has received in 03 complaints/grievances from shareholders in SEBI (SCORES) and all of them are successfully resolved.

Principle 2

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

The following products are designed to address Social/ Environmental concerns.

- i. Smart City Projects
- ii. Delhi CC TV
- iii. Real-time Train Information System (RTIS)

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

- i. Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain?
- ii. Reduction during usage by consumers (energy, water) has been achieved since the previous year?

BEL's manufacturing process is not constant and involves integration of multiple electronic components to make a product. The production varies from the manufacture of small sub-systems to Radar, etc. Therefore, product-specific information is not possible to quantify. However, overall electricity consumption has been quantified.

3. Does the company have procedures in place for sustainable sourcing (including transportation)?

If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

The Company has established strict selection mechanism for the selection of suppliers to include in the Approved Vendor Directory (AVD) of the Company towards sustainable sourcing and long-term mutual benefit. The MSMEs and Start ups are also encouraged. The company provides feedback to suppliers by regularly monitoring their performance on

various parameters, including quality, cost and delivery. The Company's image, ethical & transparent business practices, good relationship with vendors, etc., ensure that majority of the items are sourced for sustainability. The MSME meet is also held and the sustainable supply is encouraged. The company also insists and encourages all vendors to comply with the Quality System standards ISO9000 and Environmental Management System standard ISO14001 as part of sustainable sourcing.

4. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

Yes, the Company is engaged in the design, manufacture & supply of Strategic Electronics Products/Systems primarily for the defence requirements as well as for select non-defence markets. Nearly one third of the total turnover is generated from indigenously developed products. In order to enhance procurement from local suppliers, various Units of BEL across India engage in continuous Vendor Development program to attract vendors from around the respective Unit locations.

Besides, the Company also has 16 Ancillary Units owned by small entrepreneurs at Bengaluru. The ancillary units were established to encourage establishment of small industries in different areas of production. The products manufactured by the ancillary units include Castings, Composites, Cable Harness, Coils & Transformers, Communication Equipment, Electronics Testing Systems, Indigenization of Defence Products, Industrial Tailoring, Power Supply & UPS, Rubber & Plastic Products, Sheet Metal Products, Solar Products, Stainless Steel Customized Products and Traffic Signal Systems.

The services include Advanced Welding, Assembly & Testing of Electronic Products, CNC Machining, Electroplating, Indigenization of Defence Products, Painting & coating, Product Improvement and Sheet Metal Fabrication. Design services include: Communication, Equipments, Composites, Electronics, Equipment, Machine Design, Rubber and Plastic products, Sheet Metal Products, Shelter & Manpacks, Solar Products, Tools & Jigs etc.

If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

The Company generates, updates & maintains AVD including MSMEs for standard components, materials and sub-contract items across India. This provides ample of opportunities for the small and local vendors to get qualified as the Company's approved vendor by improving their capacity and capability to be in tune with the Company's requirements. The AVD is referred to by all the Units/SBUs to facilitate the procurement of items from the respective local vendors.

To facilitate the vendors to scale up their capacity and capability, the vendors are evaluated through vendor rating mechanism including quality and delivery rating. Besides, the Company adopts stringent criterion on various parameters including capacity & capability for evaluation. The various issues arising due to the above factors are addressed during the annual vendor meet of BEL for mutual benefit. BEL Conduct Training Programs at free of cost (Problem Solving Techniques, Zero Defect, 5S, Lean, 6 Sigma, QMS, ISO 9001/14001 etc.,) for MSME vendors as part of hand holding. BEL has in place Collaborative R&D Process by engaging domestic vendors including MSME as Technology partners towards indigenization efforts. Besides, the Company also provides support to Startups in line with Government Guidelines.

- Does the Company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof.

The Company does not re-cycle its products, since most of the products are used in strategic / national security applications. The products are not returned back to the Company once they are delivered to customers. However, guidelines have been provided to the customers who are willing to return the end-of-life/obsolete products. The Company has a well-established mechanism to channel the waste generated during the manufacture of products / equipment through authorized re-cyclers approved by Pollution Control Board. Metal waste, waste oils, solvents and copper containing rejects

are sent (100%) to authorised re-cyclers for re-cycling & recovery. Paper, plastics are delivered to re-cyclers. In addition, food wastes are used for the generation of bio-gas in the Bio-Methanization plant which in turn was used for light cooking applications. The wastewater generated during manufacturing is treated and re-cycled for production & horticultural purposes.

Principle 3

- Please indicate the total number of employees : 9,279
- Please indicate the total number of employees : 4,440 hired on Contractual/temporary/casual basis
- Please indicate the number of permanent : 1,991 women employees
- Please indicate the number of permanent : 216 employees with Disabilities
- Do you have an employee association : Yes that is recognized by management?
- What percentage of your permanent : 95.12% employees are Members of this recognized employee association?
- Please indicate the Number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year:

Sl. No.	Category	No of complaints filed during the year 2019-20	No of complaints pending as on 31 March 2020
1.	Child labour/forced labour/involuntary labour	Nil	Nil
2.	Sexual harassment	02	02
3.	Discriminatory employment	Nil	Nil

- What percentage of your under-mentioned employees was given safety & skill up-gradation training in the last year?

Sl. No.	Category	% of employees covered through training on safety aspects	% of employees covered through training on skill up-gradation
1.	Permanent Employees	22%	85%
2.	Permanent Women Employees	20%	83%
3.	Casual/ Temporary/ Contractual Employees	60%	12%
4.	Employees with Disability	16%	85%

Principle 4

- Has the company mapped : Yes
its internal and external stakeholders?
- Out of the above, has the : Yes
Company identified the
disadvantaged, vulnerable & marginalized stakeholders?
 i. SC/ST employees
 ii. Employees with disabilities
 iii. Women employees
- Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalized stakeholders? If so, provide details thereof, in about 50 words or so.

Special Initiatives for SC/ ST employees and their children:

With a view to encourage and provide financial assistance to meritorious children of SC / ST employees, Management has instituted a scholarship in the name of Late Prime Minister Shri. Jawaharlal Nehru for pursuing professional courses besides Diploma/ Certified courses including ITI certified course.

- Total Generation : 53,12,100 KW hrs during 2019-20
- Total wheeled energy : 48,09,957 KW hrs during 2019-20

- c. Reduction in CO₂ emission : 4,824 tons of CO₂ equivalent
- d. Carbon Credits : Registered with UNFCC
- e. Cumulative wheeled from inception : 5,79,59,524 KW hrs
- f. Cumulative CO₂ emission reduction : 67,291 tons of CO₂ equivalent

Davanagere 8.4 MW wind energy power plant (2.1MW X 4 Nos)

- a. Total Generation during 2019-20 : 1,85,42,400 KW hrs
- b. Total wheeled energy : 1,69,22,372 KW hrs during 2019-20
- c. Reduction in CO₂ emission : 16,968 tons of CO₂ equivalent
- d. Carbon Credits : Yet to be registered with UNFCC
- e. Cumulative wheeled from inception : 6,62,57,774 KW hrs
- f. Cumulative CO₂ emission reduction : 71,414 tons of CO₂ equivalent

For the above mentioned project, periodic environmental compliance is not required to be filed.

5. Has the company undertaken any other initiatives on clean technology, energy efficiency, renewable energy, etc? Y/N. If yes, please give hyperlink for web page etc.

Yes. The concepts of cleaner technology are practiced in the manufacturing process for prevention of pollution. The Company always pay more attention towards prevention of pollution at source itself. In such endeavour several improvements and modifications have been incorporated in the existing processes. Many of the Restriction of Certain Hazardous Substances (RoHS) compliant processes have been introduced in PCB manufacturing and metal finishing processes. Further environmentally friendly material such as low smoke halogen cables, low VOC metal finishing operation (poly urethane), cyanide free silver, zinc and

copper plating, trivalent chromium based chromate conversion coating have been practiced. Technical series document has been released on RoHS compliant cadmium plating alternates for fasteners and screws. This aids in spreading awareness and adherence on RoHS compliant alternatives among various D&E and Quality engineers across BEL. Cyanide free Silver, zinc and copper plating in Naval systems electroplating shop. Introduction of Piped Natural Gas (PNG) for production in Bangalore Complex Unit.

BEL has got 13.9 MW wind power plant and 3340 kWp Grid Interactive Roof Top solar PV power plant Plant. Total green energy wheeled form wind power plant during 2019-20 is 247.8 Lakhs of units and CO₂ emission avoided is 23102 Mt. The solar power plant contributed about 6.83 % of energy consumption of all Units of BEL. Over all renewable energy contribution for the entire company is about 53%. In addition to other energy conservation measures like Energy efficient retrofit LED lights, DALI (Digitally Addressable Lighting Interface) Lighting control system, Sky Light pipe for day light harvesting, Occupancy based lighting, BLDC fans, Star rated Energy efficient transformers.

Incorporation of Green building concept have been introduced in all new buildings and all future buildings are going to meet Green Rating for Integrated Habitat Assessment (GRIHA) rating compliance.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BHARAT ELECTRONICS LIMITED

We are issuing this revised report to comply with the observations made by the Comptroller and Auditor General of India with respect to Emphasis of Matter paragraph to the Independent auditor's report. This Independent auditor's report supersedes our report issued on 29 June 2020.

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **Bharat Electronics Limited** ("the Company"), which comprise the Balance Sheet as at 31 March, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to financial statements, including a summary of significant accounting policies and other explanatory information, in which are included the Returns for the year ended on that date audited by the branch auditors of the Company's branches located at Ghaziabad, Panchkula, Kotdwara, Pune, Navi Mumbai and Machilipatnam.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March, 2020 and its profit (including Other Comprehensive Income), the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's*

Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

1. We draw attention to Note no.30(17) of the financial statements toward impact of outbreak of coronavirus (COVID 19) on the business operations of the company which depends on certain developments that are uncertain and cannot be predicted. Our opinion is not modified in respect of the above matter.
2. We draw attention to Note no.30(14) of the financial statements towards recognition of retention sales due to lockdown on account of outbreak of coronavirus (COVID 19) and our opinion is not modified in respect of the above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the Board's Report including its annexures, Corporate Governance and shareholders information but does not include the standalone Financial Statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the

course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally

accepted in India, including the accounting standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of

a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We have considered the audit report of 6 branches audited by branch auditor in forming our opinion on the standalone financial statements.

Other matter

1. We did not audit the financial statements of six branches included in the standalone financial statements of the Company whose financial statements reflect total assets of ₹ 7,15,674 lakhs as at 31 March 2020 and total revenues of ₹ 4,76,833 lakhs for the year ended on that date, as considered in the standalone financial statements. The financial statements of these branches have been audited by the branch auditors appointed by Comptroller & Auditor General of India, whose reports

have been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in respect of these branches, is based solely on the report of such branch auditors.

Our opinion is not modified in respect of the above matter.

2. In respect of the units audited by the branch auditors on whose report we rely on, we observed that the branch auditors of the Ghaziabad and Kotdwara units without modifying their opinion have emphasised that liquidated damages are inherent in determination of transaction price in contracts and it shall form part of the variable consideration and need to be reduced from revenue instead providing the same. We have considered the above and observed that the accounting treatment followed in these units are in line with the accounting policy of the company and as followed in the other units.

Our opinion is not modified in respect of the above matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure- A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the company so far as it appears from our examination of those books. The audit of the accounts of Bangalore complex, Hyderabad and Chennai units and Corporate office were carried out by us, whilst the audit of Ghaziabad, Panchkula, Kotdwara, Pune, Navi Mumbai and

Machilipatnam units were audited by the respective branch auditors. The report of the branch auditors have been considered by us while preparing our report. In case of New York, Singapore and other offices, not visited by us, the returns / records received from the said offices have been verified and found to be adequate for the purpose of our audit.

- c) The reports on the accounts of the branch offices of the Company audited under Section 143(8) of the Act by branch auditors (in respect of Ghaziabad, Panchkula, Kotdwara, Pune, Navi Mumbai and Machilipatnam units) have been sent to us and have been properly dealt with by us in preparing this report.
- d) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flow dealt with by this Report are in agreement with the books of accounts of the Company and with the Returns received from the offices not visited by us.
- e) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- f) The Company being a Government Company, the provisions of Section 164(2) of the Companies Act, 2013 in respect of disqualification of Directors are not applicable.
- g) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- h) With respect to the other matters to be included in the Auditor's Report in accordance with the

requirement of Section 197(16) of the Companies Act, 2013 as amended:

The company being a Government Company, the provisions in relation to payment of managerial remuneration as mandated by Section 197 read with Schedule V to the Companies Act, 2013 is not applicable.

- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in our report of even date)

The Annexure referred to in Independent Auditors' Report to the members of the company on the standalone financial statements for the year ended 31 March, 2020, we report that:

- i) a) The Company has generally maintained proper records showing full particulars including quantitative details and situations of its fixed assets.
- b) As explained to us and based on our examination of records, the Management has generally carried out the physical verification of a portion of the Fixed Assets in accordance with their phased programme of physical verification, which is considered reasonable, having regard to the size of the Company and nature of its fixed assets. In accordance with the programme, certain fixed assets were verified during the year and discrepancies, if any, were properly dealt with on such verification during the year. As informed to us, no material discrepancies have been noticed on such verification during the year.
- c) As explained to us and based on our examination of records, the title deeds of immovable properties are held in the name of the company, except for those which are mentioned in Note No.1(xv) (D),(F),(H) & Note No.3(xiii)(A) to the standalone financial statements.
- ii) The Physical verification of inventory (excluding stock with third parties and material in transit) have been conducted at reasonable intervals by the company. We were informed that, no material discrepancies have been noticed on such verification. The discrepancies noticed on such verification have been properly dealt in the books of accounts.

In respect of materials with sub-contractors, confirmation have been generally received and reconciled with the book records. However, in case of such items for which no confirmations have been received, which are not

significant, the company has dealt with the same by making adequate provision in the books of accounts.

- iii) According to the information and explanations given to us, the Company has granted unsecured loans to subsidiary company covered in the register maintained under section 189 of the Companies Act, 2013 ("Act"). The company has not granted loans to firms or other parties covered in the register maintained under section 189 of the Act.
 - a) According to the information and explanation given to us and based on the audit procedures conducted by us, we are of the opinion that the terms and conditions of loans granted by the company to its subsidiary covered in the register maintained under section 189 of the Companies Act, 2013 are not, prima facie, prejudicial to the company's interest.
 - b) According to the information and explanation given to us, the schedule of repayment of principal and payment of interest has been stipulated and repayments are regular.
 - c) There are no overdue amounts in respect of the loan granted to the subsidiary company listed in the register maintained under section 189 of the Act.
- iv) The Company being a Government Company, the provisions of section 185 and 186 of the Companies Act, 2013 in respect of loans, investments, guarantees, and security, are not applicable.
- v) According to the information and explanations given to us, the company has not accepted any deposit from public in the current year as per the directives issued by the Reserve Bank of India and the provisions of sections 73 to 76 or any other relevant provisions of the Companies Act and the rules framed there under. We were informed that no order has been passed by Company Law Board or National Company Law Tribunal

or Reserve Bank of India or any Court or any other Tribunal.

All deposits have matured and settled except for ₹ 36.95 lakhs, out of which ₹ 36.50 lakhs is retained as per Garnishee Order of Lokayukta, Bengaluru and the balance of ₹ 0.45 lakhs though matured is unpaid due to legal issues.

vi) We have broadly reviewed the books of account relating to materials, labour and other items of cost maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014 prescribed by the Central Government for the maintenance of cost records under section 148 (1) (d) of the Companies Act, 2013 and we are of the opinion that prima facie, the

prescribed cost accounts and records have been made and maintained. However, we have not carried out any detailed examination of the cost records with a view to determine whether they are accurate or complete.

vii) a) Based on our examination of books of account and according to the information and explanations given to us, in our opinion, the company is regular in depositing undisputed statutory dues including Provident Fund, Income tax, Goods and Services Tax, Service Tax, duty of customs and other statutory dues applicable to the appropriate authority. No undisputed statutory dues were outstanding as at 31 March 2020 for a period of more than six months from the date they became payable.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in our report of even date)

Report on the Internal Financial Controls over financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **BHARAT ELECTRONICS LIMITED**, ("the Company") as of 31 March, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require

that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of

financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the

degree of compliance with the policies or procedures may deteriorate.

Opinion

During the year, a fraud on the company by its employees has been detected during the routine internal audit (Refer note 30(21) to the financial statements) and pursuant to which additional financial controls have been established by the company.

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting (including the additional financial controls established by the company as mentioned in above para) were operating effectively as at 31 March, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

<p><u>Comments on Profitability</u></p> <p>Statement of Profit & Loss</p> <p>Revenue from operations</p> <p>Note no. 23 – ₹ 12,921.11 crore</p> <p>Comment No. I - The Revenue from operations of the Company includes ₹ 225.12¹ crore accounted as Bill and Hold sales in respect of three overseas deliveries based on customer's letters to postpone delivery in view of the COVID 19 logistic problems. This is not in line with Ind AS 115 (Para 38) as Performance Obligations at a point in time was not satisfied, as on 31 March 2020 due to the following:</p> <ul style="list-style-type: none"> ➤ BEL did not have a present right to payment, ➤ Customer does not have legal title to the goods, ➤ Significant risks and rewards of ownership was not passed on to customers due to contractual terms of delivery at site. <p>In all the three Orders, the conditions for the customers having obtained control of the products have not been met, which is the prerequisite in a Bill and Hold arrangement (Para B81 of Ind AS 115). Even the clarification of ICAI² on such sales states that <i>control is not passed on to the customer if the seller is paying for the cost of storage and insurance on the goods during the period the goods are held by it. It also states that in situations where control is transferred only when the product is delivered to the customer's site, it would not be appropriate to recognize revenue on the Bill and Hold basis.</i></p> <p>The aforesaid sales is not in line with ICAI clarifications as the cost of insurance and storage is borne by BEL till the goods are delivered at the port of destination.</p> <p>Thus the aforesaid sales are not in line with Ind AS 115 and ICAI clarifications. This has resulted in overstatement of revenue by ₹ 225.12 crore with consequent overstatement of profit to the extent of ₹ 90.06 crore and understatement of finished goods to the extent of ₹ 135.06 crore.</p>	<p>The Revenue of ₹ 225.12 crore has been recognised under the criteria of "Performance obligation being satisfied at a Point in Time". The principal criteria specified in Para 38 (read with Para 33) of Ind AS 115 for determination of the point in time when performance obligation is satisfied is determination of the time when the "Customer obtaining control of the Asset". Further as per Para 38(e) read with Para B81 to B83 of Ind AS 115, customer acceptance of the item is a criteria for determination of "Customer having obtained control".</p> <p>In respect of all the three deliveries, the customer has accepted these items after Inspection, (as per contractual terms) and the items have been unconditionally appropriated to the contract as on 31 March 2020.</p> <p>Also, the items have been made as per customer specifications and on unconditional appropriation to the contract the customer only has the ability to direct the use of and obtain substantially all the remaining benefits of the Asset.</p> <p>Since the items had been accepted by the customer but could not be dispatched, due to pandemic situation (COVID-19), the revenue was recognized on Bill and Hold basis based on "Retention letters" issued by the customer for holding the items till the pandemic situation improves. This is in line with ICAI clarification that "where goods are ready but could not be dispatched due to lockdown conditions imposed by the government, revenue can be recognized if conditions of Bill and Hold Criteria are met".</p> <p>In respect of the sales recognized, the criteria laid down in Para B81 for "Bill and Hold Sales" has been satisfied as elaborated below:</p> <table border="1" data-bbox="774 1612 1428 1808"> <thead> <tr> <th>Criteria</th> <th>How met</th> </tr> </thead> <tbody> <tr> <td>The reason for bill-and-hold arrangement must be substantive.</td> <td>The items were retained by BEL based on the customer request for retention of goods due to COVID-19.</td> </tr> </tbody> </table>	Criteria	How met	The reason for bill-and-hold arrangement must be substantive. <p>Comment No. III – The Revenue from operations of the Company includes ₹ 68.66 crore of revenue recognised and accounted by the Company against two contracts entered with the Ministry of Defence (the customer). The contractual terms for the above specify FOR Bengaluru with the consignee as “The Project Director, Ship Building Centre, Visakhapatnam” after completion of Inspection by the customer authorised agencies. The agreed price is inclusive of Installation,</p>	<p>The Revenue of ₹ 68.66 crore has been recognised under the criteria of “Performance obligation being satisfied at a Point in Time”. The principal criteria specified in Para 38 (read with Para 33) of Ind AS 115 for determination of the point in time when performance obligation is satisfied is determination of the time when the “Customer obtaining control of the Asset”. Further as per Para 38(e) read with Para B81 to B83 of Ind AS 115, customer acceptance of the item is a criteria for determination of “Customer having obtained control”.</p>						

C&AG Comments	Company's Reply										
<p>Harbour Acceptance Trial (HAT) & Sea Acceptance Trial (SAT) from Inspection, Packing and Insurance upto Consignee site. The Company has accounted for revenue based on an email dated 9 April 2020 issued by the customer representative indicating completion of Factory Acceptance Tests (FAT). However, the Inspection Notes containing the material description pertaining to the above revenue was issued by the Inspection Agency on 16 June 2020 which indicated conduct of inspection from 11 March 2020 to 16 June 2020. As the inspection and acceptance of the equipment relating to the above contracts was not completed as at 31 March 2020, accounting of revenue to the extent of ₹ 68.66 crore is not in order and against accounting policy No. 5(A) (iii) (b) of the Company. The condition for the customer having obtained the control of the product has also not been met which is the prerequisite in a Bill and Hold arrangement (Ind AS 115 Para B81).</p> <p>The clarification by ICAI on such sales states that <i>control is not passed on to the customer if the seller is paying for the cost of storage and insurance on the goods during the period the goods are held by it. It also states that in situations where control is transferred only when the product is delivered to the customer's site, it would not be appropriate to recognise revenue on a Bill and Hold basis.</i></p> <p>In both the cases mentioned above, the cost of insurance and storage is borne by BEL till the goods are delivered at the port of destination (consignee site) and the control was not transferred since the goods were not delivered to the customers' site.</p> <p>Thus the aforesaid sales are not in line with Ind AS 115 and ICAI clarifications. This has resulted in overstatement of sales to the extent of ₹ 68.66 crore with consequent overstatement of profit to the extent of ₹ 36.51 crore and understatement of finished goods to the extent of ₹ 32.15 crore.</p>	<p>The customer has accepted these items after Inspection, (as per contractual terms) and the items have been unconditionally appropriated to the contract as on 31 March 2020.</p> <p>The customer acceptance is evidenced by the fact that the customer nominated third party Inspection Agency, i.e., Chief Quality Assurance Establishment (Warship Equipment), Bangalore completed their inspection on 29 February 2020, and promulgated Factory Acceptance Test (FAT) by the Customer. FAT was completed by the customer on 24 March 2020.</p> <p>The relevant items have been made as per customer specifications and on unconditional appropriation to the contract the customer only has the ability to direct the use of and obtain substantially all the remaining benefits of the Asset.</p> <p>The items have been retained at the company as a Reference System as per the directions of the Customer.</p> <p>In respect of the sale recognized, the criteria laid down in Para B81 for "Bill and Hold Sales" has been satisfied as elaborated below:</p> <table border="1" data-bbox="774 1077 1428 1885"> <thead> <tr> <th data-bbox="774 1077 1061 1118">Criteria</th> <th data-bbox="1061 1077 1428 1118">How met</th> </tr> </thead> <tbody> <tr> <td data-bbox="774 1118 1061 1232">The reason for bill-and-hold arrangement must be substantive.</td> <td data-bbox="1061 1118 1428 1232">The items were retained by BEL as a Reference System based on the customer request.</td> </tr> <tr> <td data-bbox="774 1232 1061 1419">The product must be identified separately as belonging to the customer.</td> <td data-bbox="1061 1232 1428 1419">The items were inspected and accepted by the customer and were unconditionally appropriated to the contract as belonging to the customer.</td> </tr> <tr> <td data-bbox="774 1419 1061 1605">The product must be ready for physical transfer to the customer.</td> <td data-bbox="1061 1419 1428 1605">The items inspected and accepted by the customer were ready for dispatch but were retained based on the customer request.</td> </tr> <tr> <td data-bbox="774 1605 1061 1885">The entity cannot have the ability to use the product or to direct it to another customer.</td> <td data-bbox="1061 1605 1428 1885">The company does not have the ability to use or direct the product to another customer, as the items were manufactured as per the customer specifications and unconditionally appropriated to the contract.</td> </tr> </tbody> </table>	Criteria	How met	The reason for bill-and-hold arrangement must be substantive. ii. **Provision for Warranties - as per Accounting Policy No. 20 of the Company.**

Provision for warranties is made in respect of products whose normal warranty period is outstanding. As the warranty provision period varies from product to product, provision is made at Strategic Business Unit (SBU) level based on average period of warranty period. Provision is made based on trend based estimate of the likely expenses to be incurred. The provision is measured at the present value of the estimated cost of Warranty.

iii. **Provision for Site restoration - as per Accounting Policy No. 23 of the Company.**

In accordance with the terms and conditions of the Lease agreement entered into with Lessor, the company is required to return the land in its original condition. Accordingly provision in respect of Site restoration obligation has been made. The provision required is reviewed and required adjustment made at each year end.

The provision is measured at the present value of the best estimate of the cost of restoration.

Notes to Accounts

(₹ in Lakhs)

iv. **Provision for Onerous contracts - as per Accounting Policy No. 23 of the Company.**

In respect of certain contracts entered into by the company, it is expected that the likely cost to complete the contract would exceed the Revenue received / receivable against the contract. In such cases, provision in respect of the expected losses has been made. The provision required is reviewed and required adjustment made at each year end. The provision is measured at the present value of the best estimate of loss likely to be incurred.

v. Amount debited to opening provision.

vi. An amount of ₹ 13,937 (₹ 7,606) has been debited against Natural Code Heads wrt Warranty Cost. An amount of Nil (Nil) has been debited against Natural Code Heads wrt Site Restoration Obligation.

vii. Performance warranty obligation in respect of sales where back to back warranty of vendor is available, potential liability if any, in the event of default of vendor is not ascertainable and not expected to be significant.

viii. During the previous years, warranty provision relating to EVM and VVPAT project was made based on the best estimates of the management as the trend was not established in the normal course. However during the current year as the actual expenditure was lower than as envisaged by the management and hence accordingly excess provision is withdrawn.

A. POST EMPLOYMENT BENEFIT OBLIGATION

(i) GRATUITY :

The Company provides gratuity to employees in India as per payment of Gratuity Act, 1972. The Company has a Gratuity Scheme for its employees, which is a funded plan. Every year, the Company remits fund to the Gratuity Trust to the extent of shortfall of the assets over the fund obligations, which is determined through actuarial valuation. As per the Gratuity Scheme, gratuity is payable to an employee on the cessation of his employment after he has rendered continuous service for not less than five years in the Company. For every completed year of service or part thereof in excess of six months, the Company shall pay gratuity to an employee at the rate of fifteen days salary based on the last drawn basic & dearness allowance.

(iii) EMPLOYEES PROVIDENT FUND [INTEREST SHORTFALL]:

Employees Provident Fund is managed by Provident Fund Trust of the Company. The Company contributes Management's contributions payable towards Employee Provident Fund to the Trust.

The contribution made by the company and shortfall of interest if any, is recognised as an expense in statement of profit and loss under Employee benefits expense. In accordance with the actuarial valuation of provident fund liabilities and based on the assumptions, there is a shortfall in the interest cost as the present value of the expected future earnings of the fund is less than the expected amount to be credited to the individual members based on the expected guaranteed rate of interest of the provident fund trust.

	Total	35,699	27,147

C. Pension Scheme :

The Company has got a defined contribution pension benefit plan for the benefit of its employees in respect of which contribution is made on an annual basis to a Trust setup for this purpose.

The benefit under the scheme are available for the employees as per the rules laid down in this regard.

i) A narrative description of the specific or unusual risks arising from a defined benefit plan (i.e. Gratuity and BERECHS)

The specific risk relating to defined benefit plans are as follows :-

Movement in long term government bond rate between two reporting periods which will impact discount rate and consequently the present value of obligations. Risk of higher / lower salary escalation / benefit as considered for valuation vis-a-vis the actual experience through the Financial Year. However, both the risks are mitigated on a regular basis i.e. yearly as valuations are done after every year based on updated assumptions.

ii) A narrative description of any asset-liability matching strategies.

The gratuity plan of the company is a funded plan. The assets backing this plan are predominantly insurer-managed funds. Hence the company has limited flexibility in terms of implementing asset-liability matching strategies for this plan. The post retirement medical plan of the company is an unfunded plan. Hence asset-liability matching strategies are not relevant for this plan.

iii) A description of the funding arrangements and funding policy.

The Gratuity plan of the company is a funded plan. 98.65% (95.20%) of the plan assets backing this plan are insurer managed assets and 1.34% (2.94%) of the plan assets are invested in Central and State Government Securities. The annual contribution to the fund is normally set equal to the deficit as disclosed by the preceding actuarial valuation of the benefit obligations.

The post-retirement medical plan [BERECHS] is an unfunded plan.

Satisfaction of performance obligation

- In majority of the contract, performance obligation is satisfied "at a point in time" which is primarily determined on customer obtaining control of the asset. One of the prime indicator considered for this is transfer of significant risk and rewards to the customer based on Inco terms. Where a contract involves multiple performance obligation, the criteria specified in Ind AS 115 is applied to determine the point in time when the performance obligation is satisfied.
- Under "Bill and hold" arrangement performance obligation is satisfied on unconditional appropriation of the goods to the contract. Normally no obligation towards custodial service exists.
- Contract with the customer normally do not contain significant financial component and any advance payment received and / or amount retained by customer is with intention of protecting either parties to the contract.
- Variable consideration primarily consists of amount receivable/reimbursable against foreign exchange variation clause. The amount of revenue recognised in respect of the same is determined based on the methodology specified in the contract. The amount is recognised as revenue on accrual/admittance of claim by customer.
- The company's turnover mainly includes supply of defence electronics equipments and systems.
- Contract entered into with customer, typically do not have a return/refund clause.
- Warranties provided are primarily in the nature of performance warranty.
- The company normally uses the input method to recognise revenue in respect of contracts in which performance obligation are satisfied over a period of time. For revenue recognition, the percentage of completion method is adopted where in the percentage of actual cost incurred to total estimated cost is applied to the contract price for arriving at the quantum of revenue to be recognised.

Notes to Accounts

(₹ in Lakhs)

- I. Contract with customer (other than AMC) in respect of which revenue is recognised over a period of time typically involves multiple activities of different nature like construction of building, supply and installation of equipments, networking of equipment and system etc. Due to this it is not possible to quantify in physical terms the quantum of work done (i.e. output) reliably. Whereas, under input method, the cost incurred in respect of these varied activities can be captured and compared to the total estimated cost to be incurred (which can be estimated reliably), for arriving at the percentage of completion. In case of AMC contracts, output method is used to recognise revenue where passage of time is the criteria for satisfaction of performance obligation.
- J. For revenue recognition in respect of performance obligation satisfied at a "point in time" the following criteria is used for determining whether customer has obtained "Control on asset".
- Transfer of significant risk and rewards
 - Customer has legal title to the asset
 - The entity has transferred physical possession of the asset
 - Customer has accepted the asset
 - Entity has the present right to payment for the asset
- K. Transaction price is typically determined based on contract entered into with customer. Allocation of transaction price in respect to multiple obligation is based on relative standalone selling price.
- L. No non-cash considerations are received/given during the current/previous year.

An amount of ₹ 7,725 (₹ 2,974) (net) has been recognised as revenue during the year out of performance obligation satisfied in previous periods.

ii) The company has Leased out Point of Sales machines to Government of Haryana for period of five years from 2016-17 to 2021-22

The company has Leased out few portions of Land to different organizations under non-cancellable Operating Lease. Lease period is spread over from the year 1967 to 2077. The leases have various terms, escalation clause, lease renewal rights etc. On renewal, the terms of the lease are renegotiated.

The company has not recognized any income as contingent rent.

b) As a Lessee:

The Company has leases that were classified as finance lease applying Ind AS 17, for such leases the carrying amount of the right of use amount at the date of initial application of Ind AS 116 is the carrying amount of the lease on the transition date as measured applying Ind AS 17. Accordingly an amount of ₹ 1,275 has been reclassified from property, plant and equipment to right of use assets.

On transition, the company recognises right of use asset representing its right to use the underlying asset for the unexpired lease period.

The right of use asset is recognised at :

- The carrying amount of prepaid rent when no future lease payments are payable; or
- At the carrying amount and discounted at incremental borrowing rate. Accordingly right of use asset is ₹ 365 and Corresponding lease liability ₹ 365 has been recognised. On application of Ind AS 116 in respect of these assets, nature of expenses has been reclassified from lease rent to depreciation cost for right of use asset and finance cost for interest accrued on lease liability.

The above lease contracts, entered by company pertains to land taken on lease for generation of power through solar project and buildings for business purposes. The company has restriction with respect to disposal of these assets.

17. COVID - 19 Impact

The outbreak of CORONA Virus (COVID-19) Pandemic globally and in India is causing significant disturbance and slowdown of economic activity. The company has evaluated impact of this pandemic on its business operations and based on its review and current Indicators of future economic conditions, there is no material impact on the financial statements of the company.

In the preparation of financial statements, the company has considered probable effects from the pandemic relating to COVID-19 on the carrying amount of the Inventories, Receivables, other assets and revision in cost estimates for completing the contract / penalties for non fulfillment of contractual obligations.

Major customers of the company are from Indian defence services. Since the supplies are based on firm and fixed contracts there is no impact on the business due to this pandemic. Further as the major amount of receivable is from Ministry of Defence, Government of India, Government and Government related entities the company expects that the balances are realisable.

The extent of the impact of COVID-19 on the future operational and finance performance will depend on certain developments including the duration and spread of the out break, the future impact on employees, vendors all of which are uncertain and cannot be predicted. As the impact of COVID-19, if any, on the future operational and financial performance of the company would be different from management estimates in this regard, the company will continue to closely monitor any changes as they emerge.

18. Dividend not recognised at the end of the reporting period

The directors have recommended a final dividend of INR 1.40 (INR 1.70) per share [represents absolute figure].

The proposed dividend is subject to approval of shareholders in the ensuing Annual General Meeting and if approved would result in cash outflow of approximately of ₹ 34,112.

3. Valuation technique used to determine Fair Value

a. LIC Investment - (Level 2)

Based on valuation report of the Scheme provided by LIC.

b. Mana Effluent Treatment Plant Ltd - (Level 3)

BEL has invested in equity securities of Mana Effluent Treatment Plant Ltd. which is an unlisted company. The Company's cost of investment in Mana Effluent Treatment Plant Ltd is only ₹ 5 (out of issued Share Capital of ₹ 163). The company has opted for Net Asset Value method for fair valuation.

c. Defence Innovation Organisation (DIO) - (Level 3)

BEL has contributed to equity capital of M/s Defence Innovation Organisation (DIO), a 'Not for Profit' Company as per the provisions of Section 8 of the Companies Act, 2013 with an objective of funding innovation in defence sector. The company has opted for Net Asset Value method for fair valuation.

NOTE 34

Financial risk management

i) Risk Management framework and policies

The Company is broadly exposed to credit risk, liquidity risk and market risk (fluctuations in exchange rates, interest rates and price risk) as a result of financial instruments.

Board of Directors have the overall responsibility for the establishment, monitoring and supervision of the Company's Risk Management framework. The Board has set up a Risk Management Committee, for this purpose, which is responsible for developing and monitoring the risk management policies. The Company has an established Risk Management Policy that outlines risk management structure and provides a comprehensive frame work for identification, evaluation, prioritization, treatment of various risks associated with different areas of finance and operations.

The company has a centralized Treasury function which is responsible to undertake appropriate measures to mitigate financial risk in accordance with the policies and procedures formulated by the Board. Hedging transactions are undertaken by a team with appropriate skills and experience in consultation with an external expert. The Company does not trade in derivatives for speculation.

ii) Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Company's activities expose it primarily to the financial risks of changes in foreign exchange rates and interest rate movements (refer to notes below on currency risk and interest risk).

iii) Currency Risk

BEL is exposed to foreign exchange risk arising from foreign currency transactions primarily relating to purchases and sales made in foreign currencies such as US Dollar, Euro, Great Britain Pound and Japanese Yen. Foreign exchange risk arises from existing and future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Company's functional currency (INR).

The Company has a Board approved currency risk management policy implemented by a Risk Management Committee that reviews the Company's exposure to this risk on a regular basis. The Risk Management Policy recommends hedging

Notes to Accounts

(₹ in Lakhs)

upto 50% of the open foreign currency exposure. However the decision to enter into a hedging arrangement is made by the Risk Management Committee based on the relevant data inputs and the advice of the external specialist consultant retained for this purpose.

The Company's export proceeds are realized mostly by remittance into an Export Earners Foreign Currency account (EEFC) which is then utilised for payments to be made in foreign currency, thereby mitigating the currency risk on exports. Imports to the extent of around 7% (10%) of annual foreign exchange outgo are not covered by the Exchange Rate Variation (ERV) clause in the related customer contract and hence are open to currency risk. These imports are benchmarked as per the policy and appropriate decision on covering the risk is taken on a case to case basis. The Company's currency risk policy advocates forward contract hedging for mitigating risk wherever required.

As on 31 March 2020, there are no outstanding forward contracts.

The company's exposure to foreign currency risk in respect of major currencies is given below:

Particulars	As at 31 March 2020					As at 31 March 2019				
	USD	EURO	GBP	CHF	J Yen	USD	EURO	GBP	CHF	J Yen
Trade Payable	1,609	139	14	22	136	659	154	23	41	45
Trade Receivable / Contract Asset	267	6	-	-	-	52	3	-	-	-
Net Exposure	1,342	133	14	22	136	607	151	23	41	45

iv) Foreign Currency Sensitivity

The sensitivity of profit or loss to changes in the exchange rate arises mainly from foreign currency denominated financial instruments. The sensitivity to variations in respect of major currencies is given below. This analysis assumes that all other variables remain constant.

Particular	Impact on Profit	
	As at 31 March 2020	As at 31 March 2019
USD – Increase by 5%	5,122	2,127
USD – Decrease by 5%	(5,122)	(2,127)
EURO – Increase by 5%	564	600
EURO – Decrease by 5%	(564)	(600)
GBP – Increase by 5%	65	105
GBP – Decrease by 5%	(65)	(105)
CHF – Increase by 5%	89	146
CHF – Decrease by 5%	(89)	(146)
J Yen – Increase by 5%	5	1
J Yen – Decrease by 5%	(5)	(1)

v) Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing instruments will fluctuate because of fluctuations in market interest rates.

Notes to Accounts

(₹ in Lakhs)

vi) Variable Rate Borrowing

The company has been sanctioned a Term Loan of ₹ 10,000 on 31.03.2017 [Outstanding as on 31 March 2020 is ₹ 833 (₹ 3,334)]. Interest payable on this loan is based on SBI's Minimum Commercial Lending Rate - MCLR. [SBI is eligible to reset the interest charged on yearly basis]. There would be an additional outflow of cash of ₹ 8 if the interest rate goes up by 1% and saving of ₹ 8 in cashflow if interest rate goes down by 1%. The impact on the statement of profit and loss will not be significant.

In addition the company has been sanctioned a working capital limit of ₹ 4,00,000. The sanctioned limit includes fund based limit of ₹ 50,000 and non fund based limit of ₹ 3,50,000. The fund based limit of ₹ 50,000 has not been utilised during the year [Outstanding as on 31 March 2020 is Nil (31 March 2019 is Nil)]. The outstanding balance as on 31.03.2020 with respect to non fund based limit is ₹ 3,14,236 (₹ 1,88,007). The interest is payable based on SBI's 1 year MCLR rate. As the borrowing is nil there is no impact on likely change in interest rates.

vii) Equity Price Risk

The company's exposure to equity price risk is negligible as its equity investment (other than in Subsidiaries and Associate) is negligible.

viii) Liquidity Risk

Liquidity Risk is the risk that a Company could encounter if it faces difficulty in meeting the obligations associated with financial liabilities by delivering cash and other financial asset or the risk that the Company will face difficulty in raising financial resources required to fulfill its commitments. The Company's exposure to liquidity risk is very minimal as it has a prudent liquidity risk management process in place which ensures maintaining adequate cash and marketable securities to pay its liabilities when they are due. To ensure continuity of funding, the Company has access to short-term bank facilities in the nature of bank overdraft facility, cash credit facility and short-term borrowings to fund its ongoing working capital requirements and growth needs when necessary.

The Company meets its liquidity requirement mainly through internally generated cash flows which is monitored centrally by treasury. There is an established process of rolling cash forecasts from various operating units which form the basis for mapping expected cash inflows, to meet the liabilities.

The table below analyses the company's financial liabilities based on their contractual maturities. The amounts disclosed are contractual undiscounted cash flows.

ix) Credit Risk

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises from credit exposures from customers, cash and cash equivalent with banks, security deposits and loans.

The credit risk of the Company is managed at a corporate level by the risk management committee which has established the credit policy norms for its customers and other receivables. Significant amount of trade receivables are due from Government / Government Departments, Public Sector Companies (PSUs) consequent to which the Company does not have a credit risk associated with such receivables. In case of non Government trade receivables, sales are generally carried out based on Letter of Credit established by the customer thereby reducing the credit risk.

In a few cases credit is extended to customers based on market conditions after assessing the solvency of the customer and the necessary due diligence to determine credit worthiness. Advance payments are made against bank guarantee which safeguards the credit risk associated with such payments. Impairment losses on financial assets (representing mainly liquidated damages leviable for delayed deliveries and other disallowances) have been made after factoring contractual terms, etc and other indicators.

The cash and cash equivalent with banks are in the form of short term deposits with maturity period of upto 1 year. The Company has a well structured Risk Mitigation Policy whereby there are preset limits for each bank based on its net worth and earning capacity which is reviewed on a periodic basis. The Company has not incurred any losses on account of default from banks on deposits.

The credit risk in respect of other financial assets is negligible as they are mostly due from Government department / parties.

Loan of ₹ 1,653 (₹ 2,987) is outstanding [as on 31.03.2020] from BELOP [100% subsidiary company]. The subsidiary company has been regular in repayment of its dues (Interest and Principal) and no credit risk is expected in terms of repayment of the loan amount.

x) Capital Management

The Company's Capital Management objective is to maintain a strong capital base to provide adequate returns to the shareholders and ensure the ability of the company to continue as a going concern. The Company has a conservative approach for raising capital through debt but reserves the right to leverage this alternative at an appropriate time to fuel growth and maintain optimal capital structure.

Notes to Accounts

NOTE 36

Critical estimates and judgments

While preparing the financial statements, management has made certain judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgments made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements and estimates that have a significant risk of resulting in a material adjustment are as under:

i. **Research and Development Expenditure - Accounting Policy No. 10 - (Refer Note 5 and 12)**

Developmental expenditure incurred with respect to No Cost No Commitment (NCNC) Projects and Joint developmental projects which are not fully compensated by the development partner are carried forward till the completion of project.

Notes to Accounts

(₹ in Lakhs)

ii. **Estimation of defined benefit obligation - Key actuarial assumptions - (Refer Note 21)**

iii. **Estimation of provision for warranty claims - (Refer Note 21)**

Warranty provision computation involves estimation of average warranty cost based on trend based analysis. If the estimations made varies, the same will impact the expense recognised.

iv. **Recognition of Revenue - (Refer Note 23)**

Input methods towards performance obligations over time involves estimation of Stage of completion based on actual costs incurred to the estimated total costs expected to complete the contract. If the estimations made varies, the same will impact the Revenue recognised.

v. **Intangible assets (Refer Note 4 and 5)**

Amount carried forward as other intangible assets and Intangible assets under development are tested for impairment annually with respect to certainty of future economic benefits.

vi. **Lease (Refer Note 1)**

The company evaluates if an arrangement qualifies to be a lease as per the requirement of Ind AS 116. Identification of lease requires significant judgements. The company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated.

NOTE 37

Uncertainty over Income tax treatment

The Company has on-going disputes with Income Tax Authorities against demands arising on completion of assessment proceedings under Income Tax Act, 1961. The disputes are on account of disallowances of certain expenses like depreciation claimed on Energy Saving Devices, Provision for Liquidated Damages and Foreign Exchange Loss on capital assets. These matters are pending before the forum of Tax Authorities.

The Company has evaluated the above pending disputes and expects that its position will likely be upheld on ultimate resolution and these will not have a material adverse effect on the Company's financial position and results of operations.

Bharat Electronics Limited manufactures and supplies electronic equipment and systems to defence sector. Other than defence sector, the Company has also got a limited presence in the civilian market.

Significant Accounting Policies

1. Basis of Preparation

The financial statements are prepared and presented in accordance with Generally Accepted Accounting Principles in India (GAAP) comprises the mandatory Indian Accounting Standards (Ind AS) [as notified under section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015], as amended from time to time, to the extent applicable, the provisions of the Companies Act, 2013 and these have been consistently applied.

2. Use of Estimates

The preparation of the financial statements in conformity with GAAP requires that the management make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liability and contingent assets as at the date of financial statements and the reported amounts of revenue and expenses during the reporting period. Although such estimates are made on a reasonable and prudent basis taking into account of all available information, actual results could differ from these estimates and such differences are recognised in the period in which the results are ascertained.

3. Basis of Measurement

The financial statements have been prepared on a historical cost basis except for the following assets and liabilities which have been measured at fair value:

- Derivative financial instruments, if any
- Financial assets and liabilities that are qualified to be measured at fair value
- The defined benefit asset / liability is recognised as the present value of defined benefit obligation less fair value of plan assets.

4. Functional and Presentation Currency

The financial statements are presented in Indian Rupee (INR) which is the functional and the presentation currency of the Company.

5. Revenue Recognition

A. Revenue from Contract with Customers

- i. Revenue is recognized when (or as) the company satisfies a performance obligation by transferring a promised goods or services (i.e., an Asset) to a Customer.
- ii. **Satisfaction of performance obligation over time**
 - a. Revenue is recognised overtime where the transfer of control of goods or services take places over time by measuring the progress towards complete satisfaction of that performance obligation, if one of the following criteria is met:
 - the company's performance entitles the customer to receive and consume the benefits simultaneously as the company performs
 - the company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced
 - the company's performance does not create an asset with an alternative use to the company and the company has an enforceable right to payment for performance completed to date.

b. Progress made towards satisfying a performance obligation is assessed based on the ratio of actual costs incurred on the contract up to the reporting date to the estimated total costs expected to complete the contract. If the outcome of the performance obligation cannot be estimated reliably and where it is probable that the costs will be recovered, revenue is recognised to the extent of costs incurred.

c. In case of AMC contracts, where passage of time is the criteria for satisfaction of performance obligation, revenue is recognised using the output method.

iii. Satisfaction of performance obligation at a point in time

a. In respect of cases where the transfer of control does not take place over time, the company recognises the revenue at a point in time when it satisfies the performance obligations.

b. The performance obligation is satisfied when the customer obtains control of the asset. The indicators for transfer of control include the following:

- the company has transferred physical possession of the asset
- the customer has legal title to the asset
- the customer has accepted the asset
- when the company has a present right to payment for the asset
- the customer has the significant risks and rewards of ownership of the asset. The transfer of significant risks and rewards ownership is assessed based on the Inco- terms of the contracts.

Ex-Works contract – In case of Ex-works contract, revenue is recognised when the specified goods are unconditionally appropriated to the contract after prior Inspection and acceptance, if required.

FOR Contracts – In the case of FOR contracts, revenue is recognised when the goods are handed over to the carrier for transmission to the buyer after prior inspection and acceptance, if stipulated, and in the case of FOR destination contracts, if there is a reasonable expectation of the goods reaching destination within the accounting period.

c. Bill and hold Sales

Bill and hold sales is recognised when all the following criteria are met:

- the reason for the bill and hold sales is substantive
- the product is identified separately as belonging to the customer
- the product is currently ready for physical transfer to the customer
- the company does not have the ability to use the product or to direct it to another customer

iv. Measurement

a. Revenue is recognized at the amount of the transaction price that is allocated to the performance obligation.

The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amount collected on behalf of third parties.

In case of price escalation and ERV, where additional consideration is to be determined and approved by the customers, such additional revenue is recognised on receipt of confirmation from the customer(s).

b. In case where the contracts involve multiple performance obligations, the company allocates the transaction price to each performance obligation on the relative stand-alone selling price basis.

Bundled Contracts - In case of a Bundled contract, where separate fee for installation and commissioning or any other separately identifiable component is not stipulated, the Company applies the recognition criteria to separately identifiable components (sale of goods and installation and commissioning, etc.) of the transaction and allocates the revenue to those separate components based on stand-alone selling price.

Multiple Elements - In cases where the installation and commissioning or any other separately identifiable component is stipulated and price for the same agreed separately, the Company applies the recognition criteria to separately identified components (sale of goods and installation and commissioning, etc.) of the transaction and allocates the revenue to those separate components based on their stand-alone selling price.

c. If the stand-alone selling price is not available the company estimates the stand alone selling price.

v. **Penalties**

Penalties (including levy of liquidated damages for delay in delivery) specified in a contract are not treated as an inherent part of Transaction Price if the levy of same is subject to review by the customer.

vi. **Significant financing component**

Advances received towards execution of Defence related projects are not considered for determining significant financing component since the objective is to protect the interest of the contracting parties.

In respect of other contracts, the existence of significant financing component is reviewed on a case to case basis.

B. **Other Income**

Recognition of other income is as follows:

i. **Interest Income**

Interest income is recognised using the effective interest rate method.

ii. **Dividend Income**

Dividend income is recognised when the Company's right to receive the payment is established.

iii. **Rental Income**

Rental income arising from operating leases is accounted for on a straight-line basis over the lease term unless increase in rentals are in line with expected inflation or otherwise justified.

iv. **Duty Drawbacks**

Duty drawback claims on exports are accounted on preferring the claims.

v. **Other Income**

Other income not specifically stated above is recognised on accrual basis.

6. **Property, Plant and Equipment, Capital Work-in-Progress**

Property, plant and equipment is initially measured at cost and subsequently at cost less accumulated depreciation and cumulative impairment losses, if any. Cost for this purpose includes all attributable costs for bringing the asset to its location and condition. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset, if the recognition criteria for a provision are met.

The cost of property, plant and equipment not ready for their intended use as at each reporting date is disclosed as capital work-in-progress.

Capital work-in-progress comprises supply-cum-erection contracts; the value of capital supplies received at site and accepted, capital goods in transit and under inspection.

7. **Intangible Assets, Intangible Asset under Development**

The cost of software (which is not an integral part of the related hardware) acquired for internal use and resulting in significant future economic benefits,

is recognised as an Intangible Asset in the books of accounts when the same is ready for use. Intangible Assets that are not yet ready for their intended use as at the reporting date are classified as "Intangible Assets under Development".

Cost of Developmental work which is completed, wherever eligible, is recognised as an Intangible Asset.

Cost of Developmental work under progress, wherever eligible, is classified as "Intangible Assets under Development".

Intangible Asset under Development includes amount funded by the company to external agencies towards developmental project(s) and expenditure incurred by the company towards material cost, employee cost and other direct expenditure.

8. Depreciation / Amortisation

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets. The Company, based on technical assessments, depreciates certain items of building, plant and equipment and other asset classes over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The Management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Where cost of a part of the asset is significant to total cost of the asset and estimated useful life of that part is different from the estimated useful life of the remaining asset, estimated useful life of that significant part is determined separately and the significant part is depreciated on straight-line basis over its estimated useful life.

The residual values, useful lives and methods of depreciation / amortisation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Intangible assets are amortised over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The residual values, useful lives and amortisation methods, are reviewed at each financial year end and adjusted prospectively, if appropriate.

9. Disposal of Property, Plant and Equipment

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

10. Research and Development Expenditure

- (i) Expenditure on Research activity is recognised as an expense in the period when it is incurred.
- (ii) Development expenditure (other than on specific development - cum sales contracts and Developmental projects initiated at customer's request), is charged off as expenditure when incurred. Developmental expenditure on development – cum - sale contracts and on Developmental projects initiated at customer's request are treated at par with other sales contracts.

Development expenditure incurred in respect of Joint development projects which are not fully compensated by the development partner are carried forward where the company is nominated as a production agency and future economic benefits are expected.

Developmental projects are reviewed periodically and the amount carried forward, if any, is charged off in the event of the project being declared closed by the customer / end user without any commitment to place order.

- (iii) Expenditure incurred towards other developmental activity (including joint developmental activity in collaboration with external agencies) where the research results or other knowledge is applied for developing new or improved products or processes, are recognised as an Intangible Asset if the recognition criteria specified in Ind AS 38 are met and when the product or process developed is expected to be technically and commercially usable, the company has sufficient resources to complete development and subsequently use or sell the intangible asset, and the product or process is likely to generate future economic benefits.
- (iv) Expenditure incurred on Developmental projects for participating in No Cost No Commitment (NCNC) trials, based on Request for Quote from customer, are carried forward till conclusion of the trials and will be amortised over the orders to be received.

In case customer order is immediately not forthcoming:

- the amount is capitalised if further economic benefit is expected from its use, or
- the amount is charged off in the event of the project being closed by the customer / end user without any commitment to place order.

11. Expenditure on Technical Know-How

Expenditure incurred on technical know-how is charged off to Statement of Profit and Loss on incurrance unless it qualifies for recognition as an Intangible Asset either separately on its own or in combination with other assets / expenses.

12. Investment Property

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

13. Impairment of Non-Financial Assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be

impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset in determining fair value less costs of disposal.

Reversal of impairment provision is made when there is an increase in the estimated service potential of an asset or Cash Generating Unit (CGU), either from use or sale, on reassessment after the date when impairment loss for that asset was last recognised.

14. Leases

Company as a Lessee:-

Contracts with third party, which give the company the right of use in respect of an Asset, are accounted in line with the provisions of Ind AS 116 – Leases, if the recognition criteria as specified in the Accounting standard are met.

Lease payments associated with Short terms leases and Leases in respect of Low value assets are charged off as expenses on straight line basis over lease term or other systematic basis, as applicable.

At commencement date, the value of "right of use" is capitalised at the present value of outstanding lease payments plus any initial direct cost and estimated cost, if any, of dismantling and removing

the underlying asset and presented as part of Plant, property and equipment.

Liability for lease is created for an amount equivalent to the present value of outstanding lease payments and presented as Borrowing. Subsequent measurement, if any, is made using Cost model.

Each lease payment is allocated between the liability created and finance cost. The finance cost is charged to the Statement of Profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

The lease payments are discounted using the interest rate implicit in the lease, if that rate can be determined, or the company's incremental borrowing rate.

Lease modifications, if any are accounted as a separate lease if the recognition criteria specified in the standard are met.

Company as a lessor:

Leases are classified as operating lease or a finance lease based on the recognition criteria specified in Ind AS 116 – Leases.

a) **Finance Lease :**

At commencement date, amount equivalent to the "net investment in the lease" is presented as a Receivable. The implicit interest rate is used to measure the value of the "net investment in Lease".

Each lease payment is allocated between the Receivable created and finance income. The finance income is recognised in the Statement of Profit and loss over the lease period so as to reflect a constant periodic rate of return on the net investment in Lease.

The asset is tested for de-recognition and impairment requirements as per Ind AS 109 – Financial Instruments.

Lease modifications, if any are accounted as a separate lease if the recognition criteria specified in the standard are met.

b) **Operating lease:**

The company recognises lease payments from operating leases as income on either a straight-line basis or another systematic basis, if required.

Lease modifications, if any are accounted as a separate lease if the recognition criteria specified in the standard are met.

15. **Borrowing Costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. General borrowing costs are capitalised to qualifying assets by applying a capitalisation rate to the expenditure on that asset. The capitalisation rate is the weighted average of the borrowing costs applicable to general borrowings outstanding, other than specific borrowings. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

16. **Government Grants**

Grants from Government are measured at fair value and initially recognised as Deferred Income.

The amount lying in Deferred Income on account of acquisition of Fixed Asset is transferred to the credit of Statement of Profit and Loss in proportion to the depreciation charged on the

respective assets to the extent attributable to Government Grants utilised for the acquisition.

The amount lying in Deferred Income on account of Revenue Expenses is transferred to the credit of Statement of Profit and Loss to the extent of expenditure incurred in the ratio of the funding to the total sanctioned cost, limited to the government grant received.

17. Investments in Joint Venture and Associates

The Company accounts for its interests in associates and joint ventures in the separate financial statements at cost.

18. Inventories

All inventories of the Company other than disposable scrap are valued at lower of cost or net realisable value. Disposable scrap is valued at estimated net realisable value. Cost of materials is ascertained by using the weighted average cost formula.

Cost of Work - in - progress and finished goods include Materials, Direct Labour and appropriate overheads. Adequate provision is made for inventory which are more than five years old which may not be required for further use.

19. Income Taxes

Income tax comprises of current and deferred tax.

(i) Current Income Tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date. Current tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

(ii) Deferred Tax

Deferred tax is provided using the Balance Sheet method on temporary differences between the tax bases of assets and liabilities and their carrying

amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

20. Provision for Warranties

Provision for expenditure on account of performance guarantee & replacement / repair of goods sold is made on the basis of trend based estimates.

21. Foreign Currencies

Transactions in foreign currencies are initially recorded by the Company at their respective currency exchange rates at the date the transaction qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency by using the closing exchange rate at the reporting date. Differences arising on settlement or translation of monetary items are recognised in statement of profit and loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the dates of the initial transactions.

22. Employee Benefits

(i) All employee benefits payable wholly within twelve months of rendering the related services are classified as short term employee benefits and they mainly include (a) Wages & Salaries; (b) Short-term compensated absences; (c) Profit-sharing, incentives and bonuses and (d) Non-monetary benefits such as medical care,

subsidised transport, canteen facilities etc., which are valued on undiscounted basis and recognised during the period in which the related services are rendered.

- (ii) Incremental liability for payment of long term compensated absences such as Annual Leave, Sick Leave and Half Pay Leave is determined as the difference between present value of the obligation determined annually on actuarial basis using Projected Unit Credit method and the carrying value of the provision contained in the balance sheet and provided for.
- (iii) Incremental liability for payment of Gratuity and Employee Provident fund to employees is determined as the difference between present value of the obligation determined annually on actuarial basis using Projected Unit Credit Method and the Fair Value of Plan Assets funded in an approved trust set up for the purpose for which monthly contributions are made in the case of provident fund and lump sum contributions in the case of gratuity.
- (iv) Incremental liability under BEL Retired Employees Contributory Health Scheme (BERECHS) is determined annually on actuarial basis using Projected Unit Credit Method and provided for.
- (v) Actuarial liability for the year is determined with reference to employees at the end of January of each year.
- (vi) Actuarial gains and losses and the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in other comprehensive income (OCI). Net interest expense (income) on the net defined liability (asset) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in statement of profit and loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in statement of profit and loss.

- (vii) Payments of voluntary retirement benefits are charged off to revenue on incurrence.
- (viii) Defined Contribution Plan

The Company operates employee pension scheme and superannuation pension scheme for its employees that are categorised as a defined contribution plans. For defined contribution plans, the Company pays contributions to independently administered funds at a fixed percentage of employees' pay. These contributions are recorded in the statement of profit and loss. The Company's liability is limited to the extent of contributions made to these funds.

23. Provisions

A. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of profit and loss net of any reimbursement.

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established,

the Company recognizes any impairment loss on the assets associated with that contract.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

B. Contingent Liabilities/Assets

Contingent Liabilities/Assets to the extent the Management is aware, are disclosed by way of notes to the financial statements.

24. Cash Flow Statement

Cash flow statement has been prepared in accordance with the indirect method prescribed in Ind AS 7 - Statement of Cash Flows.

25. Fair value Measurement

The Company measures certain financial instruments, such as derivatives and other items in its financial statements at fair value at each reporting date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

26. Financial Assets

(i) Initial Recognition and Measurement

All financial assets are recognised initially at fair value. In the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset are included in the cost of the asset.

(ii) Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments measured at amortised cost,
- Debt instruments measured at fair value through other comprehensive income (FVTOCI),
- Debt instruments, derivatives and equity instruments measured at fair value through profit or loss (FVTPL),
- Equity instruments measured at fair value through other comprehensive income (FVTOCI).

(iii) Derecognition

A financial asset or part of a financial asset is derecognised when the rights to receive cash flows from the asset have expired.

(iv) Trade and Other Receivables

Receivables are initially recognised at fair value, which in most cases approximates the nominal value. If there is any subsequent indication that those assets may be impaired, they are reviewed for impairment.

27. Forward Contracts

The Company uses derivative financial instruments such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

28. Embedded Derivative

The embedded derivative, if required, is separated from host contract and measured at fair value.

29. Cash and Cash Equivalents

Cash comprises of cash on hand and demand deposits. Cash equivalents are short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash, which are subject to an insignificant risk of change in value.

Bank overdrafts, if any, are classified as borrowings under current liabilities in the balance sheet.

30. Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies the expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets with credit risk exposure.

- a. Time barred dues from the government / government departments / government companies are generally not considered as increase in credit risk of such financial asset.
- b. Where dues are disputed in legal proceedings, provision is made if any decision is given against the Company even if the same is taken up on appeal to higher authorities / courts.
- c. Dues outstanding for significant period of time are reviewed and provision is made on a case to case basis.

Impairment loss allowance (or reversal) is recognised as expense / income in the statement of profit and loss.

31. Financial Liabilities

(i) Initial Recognition and Measurement

Financial liabilities are classified, at initial recognition, at fair value through profit or loss as loans, borrowings, payables, or derivatives, as appropriate.

Loans, borrowings and payables, are stated net of transaction costs that are directly attributable to them.

(ii) Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial Liabilities at fair value through Profit or Loss:

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined in Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

(iii) Loans and Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate method (EIR). Gains and losses are recognised as profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

(iv) Trade and Other Payables

Liabilities are recognised for amounts to be paid in future for goods or services received, whether billed by the supplier or not.

32. Reclassification of Financial Instruments

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is

a change in the business model for managing those assets. If the Company reclassifies financial assets, it applies the reclassification prospectively.

33. Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

34. Cash Dividend and Non-Cash distribution to Equity Holders

The Company recognises a liability to make cash or non-cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company.

35. Errors and Estimates

The Company revises its accounting policies if the change is required due to a change in Ind AS or if the change will provide more relevant and reliable information to the users of the financial statements. Changes in accounting policies are applied retrospectively, unless it is impracticable to apply.

A change in an accounting estimate that results in changes in the carrying amounts of recognised assets or liabilities or to statement of profit and loss is applied prospectively in the period(s) of change.

Discovery of material errors results in revisions retrospectively by restating the comparative amounts of assets, liabilities and equity of the earliest prior period in which the error is discovered. The opening balances of the earliest period presented are also restated.

36. Earnings Per Share

The Company presents basic and diluted earnings per share data for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary equity holders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

37. Events after the Reporting Period

Adjusting events are events that provide further evidence of conditions that existed at the end of the reporting period. The financial statements are adjusted for such events before authorisation for issue.

Non-adjusting events are events that are indicative of conditions that arose after the end of the reporting period. Non-adjusting events after the reporting date are not accounted, but disclosed.

Consolidated Financial Statements

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BHARAT ELECTRONICS LIMITED

We are issuing this revised report to comply with the observations made by the Comptroller and Auditor General of India with respect to Emphasis of Matter paragraph to the Independent auditor's report. This Independent auditor's report supersedes our report issued on 29 June 2020.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Bharat Electronics Limited ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associate, which comprise the Consolidated Balance Sheet as at 31 March, 2020, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associate as at 31 March, 2020, and its consolidated profit and consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the

Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group and its associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

1. We draw attention to Note no.30(15) of the consolidated financial statements toward impact of outbreak of coronavirus (COVID-19) on the business operations of the Holding company which depends on certain developments that are uncertain and cannot be predicted. Our opinion is not modified with respect to the above matter.
2. We draw attention to Note no.30(21) of the consolidated financial statements towards recognition of retention sales due to lockdown on account of outbreak of coronavirus (COVID-19) and our opinion is not modified in respect of the above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding company's Board of Directors is responsible for the preparation of the other information. The other information comprises the Board's Report including its annexures, Corporate Governance information and shareholders information but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group and its associate in accordance with the accounting principles generally accepted in India, including the accounting standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and its associate and for preventing and detecting frauds and other irregularities; selection

and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of the Group and its associate to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associate are also responsible for overseeing the Company's financial reporting process of the Group and of its associate.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Group and of its associate has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and of its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and of its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

1. We did not audit the financial statements of two subsidiaries whose financial statements reflect total assets of ₹ 52,813 lakhs as at 31 March, 2020, total revenues of ₹ 9,545 lakhs and net cash flows amounting to ₹ 2,664 lakhs for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include

the Subsidiaries' share of net profit (including Other Comprehensive Income) of ₹ 371 lakhs for the year ended 31 March, 2020, whose financial statements have not been audited by us.

The consolidated financial statements reflects assets of the associate of ₹ 16,209 lakhs as "Investment in associate" and include Associate's share of net profit (including other comprehensive income) of ₹ 3,185 lakhs, whose financial statement have not been audited by us.

These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associate and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associate, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements and our report on the Other Legal and Regulatory Requirements below is not modified in respect of the above matters based on our reliance on the work done and the reports of the other auditors and the financial statements certified by the Management.

2. In respect of the units audited by the Holding Company's branch auditors on whose report we rely on, we observed that the Holding Company's branch auditors of Ghaziabad and Kotdwara units without modifying their opinion have emphasised that liquidated damages are inherent in determination of transaction price in contracts and it shall form part of the variable consideration and need to be reduced from revenue instead providing the same. We have considered the above and observed that the accounting treatment followed in these units of the Holding company are in line with the accounting policy of the Holding company and as followed in the other units of the Holding company.

Our opinion is not modified in respect of the above matter.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the books of accounts maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) The Group and of its associate, being a Government Company, the provisions of Section 164(2) of the Companies Act, 2013 in respect of disqualification of Directors are not applicable.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Group and of its associate and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirement of Section 197(16) of the Companies Act, 2013 as amended:

The Group and its associate, being a Government Company, the provisions in relation to payment of managerial remuneration as mandated by Section 197 read with Schedule V to the Companies Act, 2013 is not applicable.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group

and its associate - Refer Note No. 30(10) to the consolidated financial statements.

ii. The Group and its associate has made provisions, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long term contracts- Refer Note No.21 to the consolidated financial statements. The Group and its associate does not have any derivative contracts.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Group and of its associate.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the company as of and for the year ended 31 March, 2020, we have audited the internal financial controls over financial reporting of Bharat Electronics Limited ("the Holding Company") and its subsidiary companies and its Associate, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Holding company, its subsidiary companies and its associate company, which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company and its subsidiaries and its associate, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the Institute of Chartered Accountants of India and deemed to be prescribed under section 143(10) of the Companies Act, 2013, both applicable to an audit of Internal

Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding company and its subsidiaries and its associate.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting included those policies and procedures that :

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directions of the company; and,
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

During the year, a fraud on the Holding company by its employees has been detected during the routine internal

audit (Refer note 30(18) to the financial statements) and pursuant to which additional financial controls have been established by the Holding company.

In our opinion and to the best of our information and according to the explanations given to us, the Holding company, its subsidiary companies and its Associate company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting (including the additional financial controls established by the Holding company as mentioned in above para) were operating effectively as at 31 March, 2020, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3) (i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to two subsidiary companies and one Associate company, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

<p>Comments on Profitability</p> <p>Statement of Profit & Loss</p> <p>Revenue from operations</p> <p>Note no. 23 – ₹ 12,967.67 crore</p> <p>Comment No. I - The Revenue from operations of the Company includes ₹ 225.12¹ crore accounted as Bill and Hold sales in respect of three overseas deliveries based on customer's letters to postpone delivery in view of the COVID 19 logistic problems. This is not in line with Ind AS 115 (Para 38) as Performance Obligations at a point in time was not satisfied, as on 31 March 2020 due to the following:</p> <ul style="list-style-type: none"> ➤ BEL did not have a present right to payment, ➤ Customer does not have legal title to the goods, ➤ Significant risks and rewards of ownership was not passed on to customers due to contractual terms of delivery at site. <p>In all the three Orders, the conditions for the customers having obtained control of the products have not been met, which is the prerequisite in a Bill and Hold arrangement (Para B81 of Ind AS 115). Even the clarification of ICAI² on such sales states that <i>control is not passed on to the customer if the seller is paying for the cost of storage and insurance on the goods during the period the goods are held by it. It also states that in situations where control is transferred only when the product is delivered to the customer's site, it would not be appropriate to recognize revenue on the Bill and Hold basis.</i></p> <p>The aforesaid sales is not in line with ICAI clarifications as the cost of insurance and storage is borne by BEL till the goods are delivered at the port of destination.</p> <p>Thus the aforesaid sales are not in line with Ind AS 115 and ICAI clarifications. This has resulted in overstatement of revenue by ₹ 225.12 crore with consequent overstatement of profit to the extent of ₹ 90.06 crore and understatement of finished goods to the extent of ₹ 135.06 crore.</p>	<p>The Revenue of ₹ 225.12 crore has been recognised under the criteria of "Performance obligation being satisfied at a Point in Time". The principal criteria specified in Para 38 (read with Para 33) of Ind AS 115 for determination of the point in time when performance obligation is satisfied is determination of the time when the "Customer obtaining control of the Asset". Further as per Para 38(e) read with Para B81 to B83 of Ind AS 115, customer acceptance of the item is a criteria for determination of "Customer having obtained control".</p> <p>In respect of all the three deliveries, the customer has accepted these items after Inspection, (as per contractual terms) and the items have been unconditionally appropriated to the contract as on 31 March 2020.</p> <p>Also, the items have been made as per customer specifications and on unconditional appropriation to the contract the customer only has the ability to direct the use of and obtain substantially all the remaining benefits of the Asset.</p> <p>Since the items had been accepted by the customer but could not be dispatched, due to pandemic situation (COVID-19), the revenue was recognized on Bill and Hold basis based on "Retention letters" issued by the customer for holding the items till the pandemic situation improves. This is in line with ICAI clarification that "where goods are ready but could not be dispatched due to lockdown conditions imposed by the government, revenue can be recognized if conditions of Bill and Hold Criteria are met".</p> <p>In respect of the sales recognized, the criteria laid down in Para B81 for "Bill and Hold Sales" has been satisfied as elaborated below:</p> <table border="1" data-bbox="774 1612 1428 1808"> <thead> <tr> <th>Criteria</th> <th>How met</th> </tr> </thead> <tbody> <tr> <td>The reason for bill-and-hold arrangement must be substantive.</td> <td>The items were retained by BEL based on the customer request for retention of goods due to COVID-19.</td> </tr> </tbody> </table>	Criteria	How met	The reason for bill-and-hold arrangement must be substantive. <p>Comment No. II – The Revenue from operations of the Company includes ₹ 140.36 crore being the revenue recognised by the Company in respect of three contracts pertaining to Mazagaon Dock Shipbuilders Limited (MDL). The contractual terms for the above contract are 'FOR Destination - MDL, Mumbai'. The materials relating to the above sales are yet to be despatched. The Company accounted for the sale based on retention letter issued by MDL on 23 March 2020 and inspection notes issued by the Inspection authorities.</p> <p>As the customer has not amended the provisions of the contract relating to transfer of risk & rewards and not accepted the billing by the Company, accounting of the same under Bill and Hold is not correct and is in contravention of Ind AS 115 requirement. The Company has also not satisfied all the conditions of the Accounting Policy No. 5(A) (iii) (b) relating to Revenue (Performance Obligation at a point of time). The conditions for the customer having obtained control of the products have not been met, which is a prerequisite in a Bill and Hold arrangement (Ind AS 115 Para B81).</p> <p>Further, the clarification issued by ICAI (FAQ 28) considering COVID pandemic on such sales states that <i>the control is not passed on to the customer if the seller is paying for the cost of storage and insurance on the goods during the period the goods are held by it. <p>Harbour Acceptance Trial (HAT) & Sea Acceptance Trial (SAT) from Inspection, Packing and Insurance upto Consignee site. The Company has accounted for revenue based on an email dated 9 April 2020 issued by the customer representative indicating completion of Factory Acceptance Tests (FAT). However, the Inspection Notes containing the material description pertaining to the above revenue was issued by the Inspection Agency on 16 June 2020 which indicated conduct of inspection from 11 March 2020 to 16 June 2020. As the inspection and acceptance of the equipment relating to the above contracts was not completed as at 31 March 2020, accounting of revenue to the extent of ₹ 68.66 crore is not in order and against accounting policy No. 5(A) (iii) (b) of the Company. ii. Provision for Warranties - as per Accounting Policy No. 19 of the Group.

Provision for warranties is made in respect of products whose normal warranty period is outstanding. As the warranty provision period varies from product to product, provision is made at Strategic Business Unit (SBU) level based on average period of warranty period. Provision is made based on trend based estimate of the likely expenses to be incurred. The provision is measured at the present value of the estimated cost of warranty.

iii. Provision for Site restoration - as per Accounting Policy No. 22 of the Group.

In accordance with the terms and conditions of the Lease agreement entered into with Lessor, the parent company is required to return the land in its original condition. Accordingly provision in respect of Site restoration obligation has been made. The provision required is reviewed and required adjustment made at each year end.

The provision is measured at the present value of the best estimate of the cost of restoration.

iv. Provision for Onerous contracts - as per Accounting Policy No. 22 of the Group.

In respect of certain contracts entered into by the parent company, it is expected that the likely cost to complete the contract would exceed the Revenue received / receivable against the contract. In such cases, provision in respect of the expected losses has been made. The provision required is reviewed and required adjustment made at each year end. The provision is measured at the present value of the best estimate of loss likely to be incurred.

v. Performance warranty obligation in respect of sales where back to back warranty of vendor is available, potential liability, if any, in the event of default of vendor is not ascertainable and not expected to be significant.

vi. Amount debited to opening provision.

vii. An amount of ₹ 13,937 (₹ 7,606) has been debited against Natural Code Heads wrt Warranty Cost. An amount of Nil (Nil) has been debited against Natural Code Heads wrt Site Restoration Obligation.

viii. During the previous years, warranty provision relating to EVM and VVPAT project was made based on the best estimates of the management as the trend was not established in the normal course. However during the current year as the actual expenditure was lower than as envisaged by the management and hence accordingly excess provision is withdrawn.

(iii) EMPLOYEES PROVIDENT FUND [INTEREST SHORTFALL] : (in respect of parent company)

Employees Provident Fund is managed by Provident Fund Trust of the Company. The Company contributes Management's contributions payable towards Employee Provident Fund to the Trust.

The contribution made by the company and shortfall of interest if any, is recognised as an expense in statement of profit and loss under Employee benefit expense. In accordance with the actuarial valuation of provident fund liabilities and based on the assumptions, there is a shortfall in the interest cost as the present value of the expected future earnings of the fund is less than the expected amount to be credited to the individual members based on the expected guaranteed rate of interest of the provident fund trust.

C. Pension Scheme : [In respect of Parent company]

The Company has got a defined contribution pension benefit plan for the benefit of its employees in respect of which contribution is made on an annual basis to a Trust setup for this purpose.

The benefit under the scheme are available for the employees as per the rules laid down in this regard.

i) A narrative description of the specific or unusual risks arising from a defined benefit plan (i.e. Gratuity and BERECHS)

The specific risk relating to defined benefit plans are as follows :- Movement in long term government bond rate between two reporting periods which will impact discount rate and consequently the present value of obligations. Risk of higher / lower salary escalation / benefit as considered for valuation vis-a-vis the actual experience through the Financial Year. However, both the risks are mitigated on a regular basis i.e. yearly as valuations are done after every year based on updated assumptions.

ii) A narrative description of any asset-liability matching strategies.

The gratuity plan of the company is a funded plan. The assets backing this plan are predominantly insurer-managed funds. Hence the company has limited flexibility in terms of implementing asset-liability matching strategies for this plan. The post retirement medical plan of the company is an unfunded plan. Hence asset-liability matching strategies are not relevant for this plan.

iii) A description of the funding arrangements and funding policy.

The Gratuity plan of the company is a funded plan. 98.65% (95.20%) of the plan assets backing this plan are insurer managed assets and 1.34% (2.94%) of the plan assets are invested in Central and State Government Securities. The annual contribution to the fund is normally set equal to the deficit as disclosed by the preceding actuarial valuation of the benefit obligations. The post-retirement medical plan [BERECHS] is an unfunded plan.

Satisfaction of performance obligation

- a. In majority of the contract, performance obligation is satisfied "at a point in time" which is primarily determined on customer obtaining control of the asset. One of the prime indicator considered for this is transfer of significant risk and rewards to the customer based on Inco terms. Where a contract involves multiple performance obligation, the criteria specified in Ind AS 115 is applied to determine the point in time when the performance obligation is satisfied.

Consolidated Notes to Accounts

(₹ in Lakhs)

- b. Under "Bill and hold" arrangement performance obligation is satisfied on unconditional appropriation of the goods to the contract. Normally no obligation towards custodial service exists.
 - c. Contract with the customer normally do not contain significant financial component and any advance payment received and / or amount retained by customer is with intention of protecting either parties to the contract.
 - d. Variable consideration primarily consist of amount receivable / reimburseable against foreign exchange variation clause. The amount of revenue recognised in respect of the same is determined based on the methodology specified in the contract. The amount is recognised as revenue on admittance/accrual of claim by customer.
 - e. The Group turnover mainly includes supply of defence electronics equipments and systems.
 - f. Contract entered into with customer, typically do not have a return / refund clause.
 - g. Warranties provided are primarily in the nature of performance warranty.
 - h. The company normally uses the input method to recognise revenue in respect of contracts in which performance obligation are satisfied over a period of time. For revenue recognition, the percentage of completion method is adopted where in the percentage of actual cost incurred to total estimated cost is applied to the contract price for arriving at the quantum of revenue to be recognised.
 - i. Contract with customer (other than AMC) in respect of which revenue is recognised over a period of time typically involves multiple activities of different nature like construction of building, supply and installation of equipments, networking of equipment and system etc. Due to this it is not possible to quantify in physical terms the quantum of work done (i.e. output) reliably. Whereas, under input method, the cost incurred in respect of these varied activities can be captured and compared to the total estimated cost to be incurred (which can be estimated reliably), for arriving at the percentage of completion. In case of AMC contracts, output method is used to recognise revenue where passage of time is the criteria for satisfaction of performance obligation.
 - j. For revenue recognition in respect of performance obligation satisfied at a "point in time" the following criteria is used for determining whether customer has obtained "Control on asset".
 - Transfer of significant risk and rewards
 - Customer has legal title to the asset
 - The entity has transferred physical possession of the asset
 - Customer has accepted the asset
 - Entity has the present right to payment for the asset
 - k. Transaction price is typically determined based on contract entered into with customer. Allocation of transaction price in respect to multiple obligation is based on relative standalone selling price.
 - l. No non-cash consideration are received / given during the current / previous year.
- (iii) An amount of ₹ 7,725 (₹ 2,974) (net) has been recognised as revenue during the year out of performance obligation satisfied in previous periods.

The Consolidated Financial Statements ("CFS") have been prepared on the basis of audited financial statements of the Parent Company viz., Bharat Electronics Limited (BEL), its subsidiaries viz., BEL Optronic Devices Limited, Pune (Share Holding 100%) and BEL-THALES Systems Limited, Bangalore (Share Holding 74%) (Incorporated on 28.08.2014), and audited financial statements of Associate Company viz., GE BE Private Limited, Bangalore (Share Holding 26%). The financial statements of the Parent and its Subsidiaries have been combined on a line-by-line basis by adding together like items of assets, liabilities, income and expenses, after eliminating intra-group transactions and unrealized profit / loss. In respect of Associate GE BE Pvt Ltd, consolidation has been done on equity method basis. The financial statements of the subsidiaries and Associate are drawn upto the same reporting date as that of the Parent Company.

Another associate company, Defence Innovation Organisation (DIO), a not for profit company registered under Sec. 8 of the Companies Act, 2013 is not considered for consolidation as the parent company do not exercise any control and also do not have any right on variable returns, other than equity investment.

- The difference between the cost to the parent company of its investment in the subsidiary companies and the parent company's portion of the equity in the subsidiary with reference to the date of acquisition of controlling interest is recognised in the financial statements as Goodwill / Capital Reserve. The parent company's share of post acquisition profit / losses of the subsidiaries is adjusted in the revenue reserves.
- Non Controlling interests in the net results of operations and the net assets of the subsidiaries represent that part of the profit / loss and the net assets not attributable to the parent company.
- Additional information disclosed in individual financial statements of the parent and subsidiaries / Associate having no bearing on the true and fair view of the consolidated financial statements and also the information pertaining to the items which are not material have not been disclosed in the consolidated financial statements.

6. Statement of Compliances

The consolidated financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) [as notified under section 133 of the Companies Act, 2013 (the "Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended] and other relevant provision of the Act.

The Company's standalone financial statements up to and for the year ended 31 March 2016 were prepared in accordance with the Companies (Accounting Standards) Rules, 2006, notified under Section 133 of the Act and other relevant provisions of the Act.

7. Impairment of Assets

The parent company has analysed indications of impairment of assets of each geographical composite manufacturing unit considered as Cash Generating Units (CGU). On the basis of assessment of internal and external factors, an amount of ₹ 124 (₹ 3,831) is provided as provision for impairment. The subsidiaries (BEL Optronic Devices Limited and BEL-THALES Systems Limited) and Associate (GE BE Private Ltd.) have also analysed indications of impairment of assets and found no indication of impairment of assets and hence no provision for the same is considered necessary.

8. Short Term Borrowings

- The parent company has been sanctioned working capital limit of ₹ 4,00,000 by Consortium Bankers (SBI Lead Bank). The sanctioned limit includes fund based limit of ₹ 50,000 and non fund based limit of ₹ 3,50,000.
- The interest rate payable on fund based limit is linked to SBI 1 year MCLR Rate. [Interest rate payable as on 31.03.2020 is 7.90% p.a. (8.55% p.a.)].
- The amount utilised is repayable on demand. Utilisation as on 31.03.2020 is Nil (Nil).
- The above sanction limit is secured by hypothecation of Current Assets of the parent company.

12. Leases [Parent Company]

Adoption of Ind AS 116

Effective 1 April, 2019, the company has adopted Ind AS 116 "Leases" using modified retrospective approach and hence the comparative information is not restated. The adoption of the standard did not have any material impact on the financial statements of the company.

a) As a Lessor:

i) The future minimum Lease Rent Receivable

Particulars	As at 31 March 2020	As at 31 March 2019
Not later than one year;	399	339
Later than one year and not later than five years;	486	594

The company has Leased out Point of Sales machines to Government of Haryana for period of five years from 2016-17 to 2021-22.

The company has Leased out few portions of Land to different organizations under non-cancellable operating Lease. Lease period is spread over from the year 1967 to 2077. The leases have various terms, escalation clause, lease renewal rights etc. On renewal, the terms of the lease are renegotiated.

The company has not recognized any income as contingent rent.

b) As a Lessee:

The Group has leases that were classified as finance lease applying Ind AS 17, for such leases the carrying amount of the right of use amount at the date of initial application of Ind AS 116 is the carrying amount of the lease on the transition date as measured applying Ind AS 17. Accordingly an amount of ₹ 1,293 [Parent Company ₹ 1,275 and BELOP ₹ 18] has been reclassified from property, plant and equipment to right of use assets.

On transition, the company recognises right of use asset representing its right to use the underlying asset for the unexpired lease period.

The right of use asset is recognised at :

- The carrying amount of prepaid rent when no future lease payments are payable. or
- At the carrying amount and discounted at incremental borrowing rate. Accordingly right of use asset is ₹ 365 and Corresponding lease liability ₹ 365 has been recognised. On application of Ind AS 116 in respect of these assets, nature of expenses has been reclassified from lease rent to depreciation cost for right of use asset and finance cost for interest accrued on lease liability.

The above lease contracts, entered by company pertains to land taken on lease for generation of power and buildings for business purposes. The company has restriction with respect to disposal of these assets.

The company has not recognized any expenses as contingent rent.

The maturity analysis of contractual cash flows of lease liabilities disclosed in Note 34.

14. Segment Reporting

Ministry of Corporate Affairs vide Notification no. 463 (E) dated 5 June, 2015 and as amended has exempted the Companies engaged in Defence Productions from the requirement of Segment Reporting.

15. COVID - 19 Impact

The outbreak of CORONA Virus (COVID-19) Pandemic globally and in India is causing significant disturbance and slowdown of economic activity. The company has evaluated impact of this pandemic on its business operations and based on its review and current indicators of future economic conditions, there is no material impact on the financial statement of the company.

In the preparation of financial statements, the company has considered probable effects from the pandemic relating to COVID-19 on the carrying amount of the Inventories, Receivables, other assets and revision in cost estimates for completing the contract/penalties for non fulfillment of contractual obligations. Major customers of the company are from Indian defence services. Since the supplies are based on firm and fixed contracts there is no impact on the business due to this pandemic. Further as the major amount of receivable is from Ministry of Defence, Government of India, Government and Government related entities the company expects that the balances are realisable.

The extent of the impact of COVID-19 on the future operational and finance performance will depend on certain developments including the duration and spread of the out break, the future impact on employees, vendors all of which are uncertain and cannot be predicted. As the impact of COVID-19, if any on the future operational and financial performance of the company would be different from management estimates in this regard, the company will continue to closely monitor any changes as they emerge.

NOTE 34

Financial risk management

i. Risk Management framework and policies

The Group is broadly exposed to credit risk, liquidity risk and market risk (fluctuations in exchange rates, interest rates and price risk) as a result of financial instruments.

Board of Directors has the overall responsibility for the establishment, monitoring and supervision of the Group's Risk Management Framework. The Board has set up a Risk Management Committee, for this purpose, which is responsible for developing and monitoring the risk management policies. The Group has an established Risk Management Policy that outlines risk management structure and provides a comprehensive frame work for identification, evaluation, prioritization, treatment of various risks associated with different areas of finance and operations.

The parent company has a centralized Treasury function which is responsible to undertake appropriate measures to mitigate financial risk in accordance with the policies and procedures formulated by the Board. Hedging transactions are undertaken by a team with appropriate skills and experience in consultation with an external expert. The Group does not trade in derivatives for speculation.

ii. Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Group's activities expose it primarily to the financial risks of changes in foreign exchange rates and interest rate movements (refer to notes below on currency risk and interest risk).

iii. Currency Risk

The Group is exposed to foreign exchange risk arising from foreign currency transactions primarily relating to purchases and sales made in foreign currencies such as US Dollar, Euro, Great Britain Pound and Japanese Yen. Foreign exchange risk arises from existing and future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Group's functional currency (INR).

Consolidated Notes to Accounts

(₹ in Lakhs)

The Group has a Board approved currency risk management policy implemented by a Risk Management Committee that reviews the Company's exposure to this risk on a regular basis. The Risk Management Policy recommends hedging upto 50% of the open foreign currency exposure. However the decision to enter into a hedging arrangement is made by the Risk Management Committee based on the relevant data inputs and the advice of the external specialist consultant retained for this purpose.

The Parent Company's export proceeds are realized mostly by remittance into an Export Earners Foreign Currency account (EEFC) which is then utilised for payments to be made in foreign currency, thereby mitigating the currency risk on exports. Imports to the extent of around 7% (10%) of annual foreign exchange outgo are not covered by the Exchange Rate Variation (ERV) clause in the related customer contract and hence are open to currency risk. These imports are benchmarked as per the policy and appropriate decision on covering the risk is taken on a case to case basis. The Company's currency risk policy advocates forward contract hedging for mitigating risk wherever required.

As on 31 March 2020, there are no outstanding forward contracts.

The Group's exposure to foreign currency risk in respect of major currencies is given below :

Particulars	As at 31 March 2020					As at 31 March 2019				
	USD	EURO	GBP	CHF	J Yen	USD	EURO	GBP	CHF	J Yen
Trade Payable	1,609	175	14	22	136	659	182	23	41	45
Trade Receivable	267	6	-	-	-	52	4	-	-	-
Net Exposure	1,342	169	14	22	136	607	178	23	41	45

iv. Foreign Currency sensitivity

The sensitivity of profit or loss to changes in the exchange rate arises mainly from foreign currency denominated financial instruments. The sensitivity to variations in respect of major currencies is given below. This analysis assumes that all other variables remain constant.

	Impact on Profit	
	As at 31 March 2020	As at 31 March 2019
USD – Increase by 5%	5,122	2,127
USD – Decrease by 5%	(5,122)	(2,127)
EURO – Increase by 5%	718	707
EURO – Decrease by 5%	(718)	(707)
GBP – Increase by 5%	65	105
GBP – Decrease by 5%	(65)	(105)
CHF – Increase by 5%	89	146
CHF – Decrease by 5%	(89)	(146)
J Yen – Increase by 5%	5	1
J Yen – Decrease by 5%	(5)	(1)

v. Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing instruments will fluctuate because of fluctuations in market interest rates.

vi. Variable Rate Borrowing:

The parent company has been sanctioned a Term loan of ₹ 10,000 on 31.03.2017 (Outstanding as on 31st March 2020 is ₹ 833 (₹ 3,334). Interest payable on this loan is based on SBI's Minimum Commercial Lending Rate - MCLR. (SBI is eligible to reset the interest charged on yearly basis). There would be an additional outflow of cash of ₹ 8 if the interest rate goes up by 1% and saving of ₹ 8 in cashflow if interest rate goes down by 1%. The impact on the statement of profit and loss will not be significant.

In addition the parent company has been sanctioned a working capital limit of ₹ 4,00,000. The sanctioned limit includes fund based limit of ₹ 50,000 and non fund based limit of ₹ 3,50,000. The fund based limit of ₹ 50,000 has not been utilised during the year [Outstanding as on 31 March 2020 is Nil (31 March 2019 is Nil)]. The outstanding balance as on 31.03.2020 with respect to non fund based limit is ₹ 3,14,236 (₹ 1,88,007). The interest is payable based on SBI's 1 year MCLR rate. As the borrowing is nil there is no impact on likely change in interest rates.

In case of subsidiary company [BELOP] has also been sanctioned fund based and non-fund based working capital limits of ₹ 4,600 by the consortium bankers of SBI (Lead bank) and Axis Bank. The rate of interest is 8.80% p.a. (Axis Bank) and 8.70% p.a. (SBI). The rate of interest charged by SBI and Axis Bank are linked to their base rate which is subject to fluctuations. Outstanding as on 31 March 2020 is Nil in respect of which interest payable is based on SBI and Axis Bank's base rate (as per the terms and conditions, both SBI and Axis Bank are eligible to reset the interest charged on periodic basis).

vii Equity Price Risk

The Group's exposure to equity price risk is negligible as its equity investment (other than in Associate) is negligible.

viii. Liquidity Risk

"Liquidity Risk is the risk that a Group could encounter if it faces difficulty in meeting the obligations associated with financial liabilities by delivering cash and other financial asset or the risk that the Company will face difficulty in raising financial resources required to fulfill its commitments. The Group's exposure to liquidity risk is very minimal as it has a prudent liquidity risk management process in place which ensures maintaining adequate cash and marketable securities to pay its liabilities when they are due. To ensure continuity of funding, the Company has access to short-term bank facilities in the nature of bank overdraft facility, cash credit facility and short-term borrowings to fund its ongoing working capital requirements and growth needs when necessary.

The Group meets its liquidity requirement mainly through internally generated cash flows which is monitored centrally by treasury. There is an established process of rolling cash forecasts from various operating units which form the basis for mapping expected cash inflows, to meet the liabilities".

The table below analyses the Group's financial liabilities based on their contractual maturities. The amounts disclosed are contractual undiscounted cash flows.

The Group does not have any outstanding derivatives as on 31 March 2020.

ix. Credit Risk

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises from credit exposures from customers, cash and cash equivalent with banks, security deposits and loans.

The credit risk of the Parent Company is managed at a corporate level by the risk management committee which has established the credit policy norms for its customers and other receivables. Significant amount of trade receivables are due from Government/Government Departments, Public Sector Companies (PSUs) consequent to which the Company does not have a credit risk associated with such receivables. In case of non Government trade receivables, sales are generally carried out based on Letter of Credit established by the customer thereby reducing the credit risk.

In a few cases credit is extended to customers based on market conditions after assessing the solvency of the customer and the necessary due diligence to determine credit worthiness. Advance payments are made against bank guarantee which safeguards the credit risk associated with such payments. Impairment losses on financial assets (representing mainly liquidated damages leviable for delayed deliveries and other disallowances) have been made after factoring contractual terms, etc and other indicators.

The cash and cash equivalent with banks are in the form of short term deposits with maturity period of upto 1 year in case of parent company. The Parent Company has a well structured Risk Mitigation Policy whereby there are preset limits for each bank based on its net worth and earning capacity which is reviewed on a periodic basis. The Parent Company has not incurred any losses on account of default from banks on deposits. The credit risk in respect of other financial assets is negligible as they are mostly due from government department / parties.

x. Capital Management

The Group's Capital Management objective is to maintain a strong capital base to provide adequate returns to the shareholders and ensure the ability of the company to continue as a going concern. The Group has a conservative approach for raising capital through debt but reserves the right to leverage this alternative at an appropriate time to fuel growth and maintain optimal capital structure.

The Company has a well defined Dividend Distribution Policy which lays the framework for payments of dividend and retention of surplus for future growth and enhancing shareholders wealth. The parent company has borrowed an amount ₹ 10,000 from Bank for construction of quarters. [Outstanding as on as on 31 March 2020 is ₹ 833 (₹ 3,334)] [Refer Note 18 & 20]. The parent Company has been sanctioned borrowing limits with banks to the tune of ₹ 4,00,000.

NOTE 36

Critical estimates and judgments [Parent Company]

While preparing the consolidated financial statements, management has made certain judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgments made in applying accounting policies that have the most significant effects on the amounts recognised in the consolidated financial statements and Estimates that have a significant risk of resulting in a material adjustment are as under:

- i. **Research and Development Expenditure - Accounting Policy No. 10 - (Refer Note 5 and 12)**
Developmental expenditure incurred with respect to No Cost No Commitment (NCNC) Projects and Joint developmental projects which are not fully compensated by the development partner are carried forward till the completion of project.
- ii. **Estimation of defined benefit obligation - Key actuarial assumptions - (Refer Note 21)**
- iii. **Estimation of provision for warranty claims - (Refer Note 21)**
Warranty provision computation involves estimation of average warranty cost based on trend based analysis. If the estimations made varies, the same will impact the expense recognised.

iv. **Recognition of Revenue - (Refer Note 23)**

Input methods towards performance obligations over time involves estimation of Stage of completion based on actual costs incurred to the estimated total costs expected to complete the contract. If the estimations made varies, the same will impact the Revenue recognised.

v. **Intangible assets (Refer Note 4 and 5)**

Amount carried forward as other intangible assets and intangible assets under development are tested for impairment annually with respect to certainty of future economic benefits.

vi. **Lease (Refer Note 1)**

The company evaluates if an arrangement qualifies to be a lease as per the requirement of Ind AS 116. Identification of lease requires significant judgements. The company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated.

NOTE 37

Uncertainty over Income tax treatment [Parent Company]

The Company have on-going disputes with Income Tax Authorities against demands arising on completion of assessment proceedings under Income Tax Act, 1961. The disputes are on account of disallowances of certain expenses like depreciation claimed on Energy Saving Devices, Provision for Liquidated Damages and Foreign Exchange Loss on capital assets. These matters are pending before the forum of Tax Authorities. The Company has evaluated the above pending disputes and expects that its position will likely be upheld on ultimate resolution and these will not have a material adverse effect on the Company's financial position and results of operations.

NOTE 38

Recent accounting pronouncements

Ministry of Corporate Affairs (MCA) notifies new standard or amendment to the existing standard. There is no such notification which would have been applicable from 1 April, 2020.

- Derivative financial instruments, if any
- Financial assets and liabilities that are qualified to be measured at fair value
- The defined benefit asset / liability is recognised as the present value of defined benefit obligation less fair value of plan assets.

4. Functional and Presentation Currency

The financial statements are presented in Indian Rupee (INR) which is the functional and the presentation currency of the Company.

5. Revenue Recognition

A. Revenue from Contract with Customers

- i. Revenue is recognized when (or as) the company satisfies a performance obligation by transferring a promised goods or services (i.e., an Asset) to a Customer.
- ii. **Satisfaction of performance obligation over time**
 - a. Revenue is recognised overtime where the transfer of control of goods or services take places over time by measuring the progress towards complete satisfaction of that performance obligation, if one of the following criteria is met:
 - the company's performance entitles the customer to receive and consume the benefits simultaneously as the company performs
 - the company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced
 - the company's performance does not create an asset with an alternative use to the company and the company has an enforceable right to payment for performance completed to date.
 - b. Progress made towards satisfying a performance obligation is assessed based on the ratio of actual

costs incurred on the contract up to the reporting date to the estimated total costs expected to complete the contract. If the outcome of the performance obligation cannot be estimated reliably and where it is probable that the costs will be recovered, revenue is recognised to the extent of costs incurred.

- c. In case of AMC contracts, where passage of time is the criteria for satisfaction of performance obligation, revenue is recognised using the output method.

iii. **Satisfaction of performance obligation at a point in time**

- a. In respect of cases where the transfer of control does not take place over time, the company recognises the revenue at a point in time when it satisfies the performance obligations.

- b. The performance obligation is satisfied when the customer obtains control of the asset. The indicators for transfer of control include the following:

- the company has transferred physical possession of the asset
- the customer has legal title to the asset
- the customer has accepted the asset
- when the company has a present right to payment for the asset
- the customer has the significant risks and rewards of ownership of the asset. The transfer of significant risks and rewards ownership is assessed based on the Inco- terms of the contracts.

Ex-Works contract – In case of Ex-works contract, revenue is recognised when the specified goods are unconditionally appropriated to the contract after prior Inspection and acceptance, if required.

FOR Contracts – In the case of FOR contracts, revenue is recognised when the goods are handed over to the carrier for transmission to the buyer after prior inspection and acceptance, if stipulated,

and in the case of FOR destination contracts, if there is a reasonable expectation of the goods reaching destination within the accounting period.

- c. Bill and hold Sales

Bill and hold sales is recognised when all the following criteria are met:

- the reason for the bill and hold sales is substantive
- the product is identified separately as belonging to the customer
- the product is currently ready for physical transfer to the customer
- the company does not have the ability to use the product or to direct it to another customer

iv. **Measurement**

- a. Revenue is recognized at the amount of the transaction price that is allocated to the performance obligation.

The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amount collected on behalf of third parties.

In case of price escalation and ERV where additional consideration is to be determined and approved by the customers, such additional revenue is recognised on receipt of confirmation from the customer(s).

- b. In case where the contracts involve multiple performance obligations, the company allocates the transaction price to each performance obligation on the relative stand-alone selling price basis.

Bundled Contracts - In case of a Bundled contract, where separate fee for installation and commissioning or any other separately identifiable component is not stipulated, the Company applies the recognition criteria to separately identifiable components (sale of goods and installation and commissioning, etc.) of the transaction and allocates the revenue to those separate components based on stand-alone selling price.

Multiple Elements - In cases where the installation and commissioning or any other separately identifiable component is stipulated and price for the same agreed separately, the Company applies the recognition criteria to separately identified components (sale of goods and installation and commissioning, etc.) of the transaction and allocates the revenue to those separate components based on their stand-alone selling price.

- c. If the standalone selling price is not available the company estimates the stand alone selling price.

v. **Penalties**

Penalties (including levy of liquidated damages for delay in delivery) specified in a contract are not treated as an inherent part of Transaction Price if the levy of same is subject to review by the customer.

vi. **Significant financing component**

Advances received towards execution of Defence related projects are not considered for determining significant financing component since the objective is to protect the interest of the contracting parties.

In respect of other contracts, the existence of significant financing component is reviewed on a case to case basis.

B. Other Income

Recognition of other income is as follows:

i. **Interest Income**

Interest income is recognised using the effective interest rate method.

ii. **Dividend Income**

Dividend income is recognised when the Company's right to receive the payment is established.

iii. **Rental Income**

Rental income arising from operating leases is accounted for on a straight-line basis over the lease term unless increase in rentals are in line with expected inflation or otherwise justified.

iv. **Duty Drawbacks**

Duty drawback claims on exports are accounted on preferring the claims.

v. **Other Income**

Other income not specifically stated above is recognised on accrual basis.

6. Property, Plant and Equipment, Capital Work-in-Progress

Property, plant and equipment is initially measured at cost and subsequently at cost less accumulated depreciation and cumulative impairment losses, if any. Cost for this purpose includes all attributable costs for bringing the asset to its location and condition. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset, if the recognition criteria for a provision are met.

The cost of property, plant and equipment not ready for their intended use as at each balance sheet date is disclosed as capital work-in-progress.

Capital work-in-progress comprises supply-cum-erection contracts, the value of capital supplies received at site and accepted, capital goods in transit and under inspection.

7. Intangible Assets, Intangible Asset under Development

The cost of software (which is not an integral part of the related hardware) acquired for internal use and resulting in significant future economic benefits, is recognised as an Intangible Asset in the books of accounts when the same is ready for use. Intangible Assets that are not yet ready for their intended use as at the reporting date are classified as "Intangible Assets under Development".

Cost of Developmental work which is completed, wherever eligible, is recognised as an Intangible Asset.

Cost of Developmental work under progress, wherever eligible, is classified as "Intangible Assets under Development".

Intangible Asset under Development includes amount funded by the company to external agencies towards developmental project(s) and expenditure incurred by the company towards material cost, employee cost and other direct expenditure.

8. Depreciation / Amortisation

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets. The Company, based on technical assessments, depreciates certain items of building, plant and equipment and other asset classes over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The Management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Where cost of a part of the asset is significant to total cost of the asset and estimated useful life of that part is different from the estimated useful life of the remaining asset, estimated useful life of that significant part is determined separately and the significant part is depreciated on straight-line basis over its estimated useful life.

The residual values, useful lives and methods of depreciation / amortisation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Intangible assets are amortised over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The residual values, useful lives and amortisation methods, are reviewed at each financial year end and adjusted prospectively, if appropriate.

9. Disposal of Property, Plant and Equipment

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated

as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

10. Research and Development Expenditure

- (i) Expenditure on Research activity is recognised as an expense in the period when it is incurred.
- (ii) Development expenditure (other than on specific development - cum sales contracts and Developmental projects initiated at customer's request), is charged off as expenditure when incurred. Developmental expenditure on development – cum - sale contracts and on Developmental projects initiated at customer's request are treated at par with other sales contracts.

Development expenditure incurred in respect of Joint development projects which are not fully compensated by the development partner are carried forward where the company is nominated as a production agency and future economic benefits are expected.

Developmental projects are reviewed periodically and the amount carried forward, if any, is charged off in the event of the project being declared closed by the customer / end user without any commitment to place order.

- (iii) Expenditure incurred towards other developmental activity (including joint developmental activity in collaboration with external agencies) where the research results or other knowledge is applied for developing new or improved products or processes, are recognised as an Intangible Asset if the recognition criteria specified in Ind AS 38 are met and when the product or process developed is expected to be technically and commercially usable, the company has sufficient resources to complete development and subsequently use or sell the intangible asset, and the product or process is likely to generate future economic benefits.
- (iv) Expenditure incurred on Developmental projects for participating in No Cost No Commitment (NCNC) trials, based on Request for Quote from customer, are carried

forward till conclusion of the trials and will be amortised over the orders to be received.

In case customer order is immediately not forthcoming:

- the amount is capitalised if further economic benefit is expected from its use, or
- the amount is charged off in the event of the project being closed by the customer / end user without any commitment to place order.

11. Expenditure on Technical Know-How

Expenditure incurred on technical know-how is charged off to Statement of Profit and Loss on incurrance unless it qualifies for recognition as an Intangible Asset either separately on its own or in combination with other assets / expenses.

12. Investment Property

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

13. Impairment of Non-Financial Assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash-Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market

assessments of the time value of money and the risks specific to the asset in determining fair value less costs of disposal.

Reversal of impairment provision is made when there is an increase in the estimated service potential of an asset or Cash Generating Unit (CGU), either from use or sale, on reassessment after the date when impairment loss for that asset was last recognised.

14. Leases

(i) Company as a Lessee:

Contracts with third party, which give the company the right of use in respect of an Asset, are accounted in line with the provisions of Ind AS 116 – Leases, if the recognition criteria as specified in the Accounting standard are met.

Lease payments associated with Short terms leases and Leases in respect of Low value assets are charged off as expenses on straight line basis over lease term or other systematic basis, as applicable.

At commencement date, the value of "right of use" is capitalised at the present value of outstanding lease payments plus any initial direct cost and estimated cost, if any, of dismantling and removing the underlying asset and presented as part of Plant, property and equipment.

Liability for lease is created for an amount equivalent to the present value of outstanding lease payments and presented as Borrowing. Subsequent measurement, if any, is made using Cost model.

Each lease payment is allocated between the liability created and finance cost. The finance cost is charged to the Statement of Profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

The lease payments are discounted using the interest rate implicit in the lease, if that rate can be determined, or the company's incremental borrowing rate.

Lease modifications, if any are accounted as a separate lease if the recognition criteria specified in the standard are met.

(ii) Company as a lessor:

Leases are classified as operating lease or a finance lease based on the recognition criteria specified in Ind AS 116 – Leases.

a) Finance Lease :

At commencement date, amount equivalent to the “net investment in the lease” is presented as a Receivable. The implicit interest rate is used to measure the value of the “net investment in Lease”.

Each lease payment is allocated between the Receivable created and finance income. The finance income is recognised in the Statement of Profit and loss over the lease period so as to reflect a constant periodic rate of return on the net investment in Lease.

The asset is tested for de-recognition and impairment requirements as per Ind AS 109 – Financial Instruments.

Lease modifications, if any are accounted as a separate lease if the recognition criteria specified in the standard are met.

b) Operating lease:

The company recognises lease payments from operating leases as income on either a straight-line basis or another systematic basis, if required.

Lease modifications, if any are accounted as a separate lease if the recognition criteria specified in the standard are met.

15. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are

capitalised as part of the cost of the asset. General borrowing costs are capitalised to qualifying assets by applying a capitalisation rate to the expenditure on that asset. The capitalisation rate is the weighted average of the borrowing costs applicable to general borrowings outstanding, other than specific borrowings. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

16. Government Grants

Grants from Government are measured at fair value and initially recognised as Deferred Income.

The amount lying in Deferred Income on account of acquisition of Fixed Assets is transferred to the credit of Statement of Profit and Loss in proportion to the depreciation charged on the respective assets to the extent attributable to Government Grants utilised for the acquisition.

The amount lying in Deferred Income on account of Revenue Expenses is transferred to the credit of Statement of Profit and Loss to the extent of expenditure incurred in the ratio of the funding to the total sanctioned cost, limited to the government grant received.

17. Inventories

All inventories of the Company other than disposable scrap are valued at lower of cost or net realisable value. Disposable scrap is valued at estimated net realisable value. Cost of materials is ascertained by using the weighted average cost formula.

Cost of Work - in - progress and finished goods include Materials, Direct Labour and appropriate overheads.

Adequate provision is made for inventory which are more than five years old which may not be required for further use.

18. Income Taxes

Income tax comprises of current and deferred tax.

(i) Current Income Tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date. Current tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

(ii) Deferred Tax

Deferred tax is provided using the Balance Sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

19. Provision for Warranties

Provision for expenditure on account of performance guarantee & replacement / repair of goods sold is made on the basis of trend based estimates.

20. Foreign Currencies

Transactions in foreign currencies are initially recorded by the Company at their respective currency exchange rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency exchange rate at the reporting date. Differences arising on settlement or translation

of monetary items are recognised in statement of profit and loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the dates of the initial transactions.

21. Employee Benefits

- (i) All employee benefits payable wholly within twelve months of rendering the related services are classified as short term employee benefits and they mainly include (a) Wages & Salaries; (b) Short-term compensated absences; (c) Profit-sharing, incentives and bonuses and (d) Non-monetary benefits such as medical care, subsidised transport, canteen facilities etc., which are valued on undiscounted basis and recognised during the period in which the related services are rendered.
- (ii) Incremental liability for payment of long term compensated absences such as Annual Leave, Sick Leave and Half Pay Leave is determined as the difference between present value of the obligation determined annually on actuarial basis using Projected Unit Credit method and the carrying value of the provision contained in the balance sheet and provided for.
- (iii) Incremental liability for payment of Gratuity and Employee Provident fund to employees is determined as the difference between present value of the obligation determined annually on actuarial basis using Projected Unit Credit Method and the Fair Value of Plan Assets funded in an approved trust set up for the purpose for which monthly contributions are made in the case of provident fund and lump sum contributions in the case of gratuity.
- (iv) Incremental liability under BEL Retired Employees Contributory Health Scheme (BERECHS) is determined annually on actuarial basis using Projected Unit Credit Method and provided for.
- (v) Actuarial liability for the year is determined with reference to employees at the end of January of each year.
- (vi) Actuarial gains and losses and the return on plan assets (excluding interest) and the effect of the asset ceiling (if

any, excluding interest), are recognised immediately in other comprehensive income (OCI). Net interest expense (income) on the net defined liability (asset) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in statement of profit and loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in statement of profit and loss.

(vii) Payments of voluntary retirement benefits are charged off to revenue on incurrence.

(viii) Defined Contribution Plan

The Company operates employee pension scheme and superannuation pension scheme for its employees that are categorised as a defined contribution plans. For defined contribution plans, the Company pays contributions to independently administered funds at a fixed percentage of employees' pay. These contributions are recorded in the statement of profit and loss. The Company's liability is limited to the extent of contributions made to these funds.

22. Provisions

A. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of profit and loss net of any reimbursement.

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

B. Contingent Liabilities/Assets

Contingent Liabilities/Assets to the extent the Management is aware, are disclosed by way of notes to the financial statements.

23. Cash Flow Statement

Cash flow statement has been prepared in accordance with the indirect method prescribed in Ind AS 7 - Statement of Cash Flows.

24. Fair value Measurement

The Company measures certain financial instruments, such as derivatives and other items in its financial statements at fair value at each reporting date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or

liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

25. Financial Assets

(i) Initial Recognition and Measurement

All financial assets are recognised initially at fair value. In the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset are included in the cost of the asset.

(ii) Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments measured at amortised cost,
- Debt instruments measured at fair value through other comprehensive income (FVTOCI),
- Debt instruments, derivatives and equity instruments measured at fair value through profit or loss (FVTPL),
- Equity instruments measured at fair value through other comprehensive income (FVTOCI).

(iii) Derecognition

A financial asset or part of a financial asset is derecognised when the rights to receive cash flows from the asset have expired.

(iv) Trade and Other Receivables

Receivables are initially recognised at fair value, which in most cases approximates the nominal value. If there is any subsequent indication that those assets may be impaired, they are reviewed for impairment.

26. Forward Contracts

The Company uses derivative financial instruments such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

27. Embedded Derivative

The embedded derivative, if required, is separated from host contract and measured at fair value.

28. Cash and Cash Equivalents

Cash comprises of cash on hand and demand deposits. Cash equivalents are short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash, which are subject to an insignificant risk of change in value.

Bank overdrafts, if any, are classified as borrowings under current liabilities in the balance sheet.

29. Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies the expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets with credit risk exposure.

- a. Time barred dues from the government / government departments / government companies are generally not considered as increase in credit risk of such financial asset.
- b. Where dues are disputed in legal proceedings, provision is made if any decision is given against the Company even if the same is taken up on appeal to higher authorities / courts.
- c. Dues outstanding for significant period of time are reviewed and provision is made on a case to case basis.

Impairment loss allowance (or reversal) is recognised as expense / income in the statement of profit and loss.

in future for goods or services received, whether billed by the supplier or not.

30. Financial Liabilities

(i) Initial Recognition and Measurement

Financial liabilities are classified, at initial recognition, at fair value through profit or loss as loans, borrowings, payables, or derivatives, as appropriate.

Loans, borrowings and payables, are stated net of transaction costs that are directly attributable to them.

(ii) Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial Liabilities at fair value through Profit or Loss:

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined in Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

(iii) Loans and Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate method (EIR). Gains and losses are recognised as profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

(iv) Trade and Other Payables

Liabilities are recognised for amounts to be paid

31. Reclassification of Financial Instruments

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. If the Company reclassifies financial assets, it applies the reclassification prospectively.

32. Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

33. Cash Dividend and Non-Cash distribution to Equity Holders

The Company recognises a liability to make cash or non-cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company.

34. Errors and Estimates

The Company revises its accounting policies if the change is required due to a change in Ind AS or if the change will provide more relevant and reliable information to the users of the financial statements. Changes in accounting policies are applied retrospectively, unless it is impracticable to apply.

A change in an accounting estimate that results in changes in the carrying amounts of recognised assets or liabilities or to statement of profit and loss is applied prospectively in the period(s) of change.

Discovery of material errors results in revisions retrospectively by restating the comparative amounts of

assets, liabilities and equity of the earliest prior period in which the error is discovered. The opening balances of the earliest period presented are also restated.

35. Earnings Per Share

The Company presents basic and diluted earnings per share data for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary equity holders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

36. Events after the Reporting Period

Adjusting events are events that provide further evidence of conditions that existed at the end of the reporting period. The financial statements are adjusted for such events before authorisation for issue.

Non-adjusting events are events that are indicative of conditions that arose after the end of the reporting period. Non-adjusting events after the reporting date are not accounted, but disclosed.

37. Principles of Consolidation

The financial statements of the Holding Company together with the audited financial statements of its subsidiary companies and step down subsidiary company have been combined on a line-by-line basis by adding together all the items of assets, liabilities, income and

expenses after eliminating all the intra group balances and transactions. Interest in associates are accounted for using the equity method. They are initially recognized at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit or loss and Other Comprehensive Income of equity accounted investees until the date on which significant influence ceases.

The amounts shown in respect of reserves comprise the amount of the relevant reserves as per the balance sheet of the Holding Company and its share in the post - acquisition increase in the relevant increase of the subsidiary companies and step down subsidiary company.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Holding Company's financial statements.

The excess of cost to the company of its investments in subsidiary companies and step down subsidiary company over its share of the equity of the subsidiary companies and step down subsidiary company at the date on which the investments are made, is recognized as "Goodwill on consolidation" being an asset in the consolidated financial statements. Alternatively, where the share of equity in the subsidiary companies and step down subsidiary company as on the date of the investment is in excess of cost of investment of the Holding Company, it is recognized as "Capital reserve" and shown under the head "Reserves and surplus", in the consolidated financial statements.
