EXECUTIVE CHAIRMAN'S REVIEW

Ladies and Gentlemen,

The World Travel & Tourism Council (WTTC) recently released its Economic Impact 2016 Annual Update Summary on Travel and Tourism. According to the Annual Update Summary, the Travel and Tourism Industry added 7.2 million jobs to the global economy and contributed over US \$ 7.2 trillion to the global GDP. Despite global uncertainties, Travel and Tourism grew by 3.7% year on year, thereby contributing 9.8% to the global GDP. Travel and Tourism sector supports 1 in 11 jobs globally. Despite many challenges the sector continues to produce healthy performance globally.

Insofar as India is concerned, we are emerging as one of the best performing economies across the globe with the GDP estimated to increase by 7.6% this year. The Indian Travel and Tourism Industry is a significant source of foreign exchange and is a major source of employment. In the year 2015, the contribution of the Travel and Tourism Industry to India's GDP was ₹ 8,309 billion which is 6.3% of India's GDP. As per WTTC's forecast, by 2026, India's Travel and Tourism Industry will increase to ₹ 18,362 billion or 7.2% of GDP.

We view the hospitality industry presently in midst of turbulent changes. With the advent of internet, easy smartphone access and ubiquitous mobile coverage, the business to consumer model has become the norm and the online travel agents are growing exponentially. Telephone incomes in hotels have been disrupted by mobile telephones and ground transportation threatens to be overtaken by companies such as taxi aggregators such as Uber and Ola. Almost all large hotel companies have changed their business models from asset intensive to asset light thus transforming themselves to pure management companies.

The recent merger of Starwood with Marriott valued Starwood at over US\$ 13 billion and will create the largest hotel company in the world with more than 1.1 million rooms. This would undoubtedly have an impact on rates and rebalance occupancy levels in highly consolidated markets. Companies such as Airbnb are reportedly valued at around US\$ 25 billion, largely underpinned by revenues diverted from hotels to private homes.

However, external risks from terrorism will continue to bear negatively against tourism. The recent terrorist attacks in Paris, Brussels and Orlando would have a significant impact on travellers' sentiment. The industry and the Government must take significant steps to counter any slowdown.

The introduction of the e-tourist visa has been a very welcome step. The scheme needs simplification by increasing the window beyond 30 days and allowing multiple entries.

As I have stated in the past, the number of foreign visitor arrivals to India does not compare favourably to several other countries in the region. The main reasons for poor foreign visitor arrivals are lack of infrastructure such as power shortages in several parts of the country, inadequate supply of water in most cities and poor hygiene in major tourist destinations.

The Indian hospitality industry has been requesting the Ministry of Finance, Government of India to grant it the Infrastructure Status. Unfortunately, the Infrastructure Status is highly restrictive and granted to hotel projects in cities with population of less than one million and development costs of over ₹ 200 crores (not including land cost or lease charges). This scheme was approved over three years ago and, as far as I am aware, has not garnered much attention from hotel companies or investors. The Finance Ministry must accord full Infrastructure Status to all hotel projects.

It is heartening that the Government is pursuing policies to encourage direct foreign investment. These policies should result in increasing numbers of business travellers visiting India which would have a direct and positive bearing on occupancies in metropolitan cities.

The Travel and Tourism Industry has been requesting the Government to establish a National Tourism Authority with representation from the industry and also by inter-connected Government Departments. This Tourism Authority's main task should be to plan a long term strategy to encourage more foreign travellers to the country.

As the number of hotels has increased in the past few years, trained manpower is becoming a limitation for the hospitality industry. We, on our part, have the Oberoi Centre For Learning And Development (OCLD) which trains young people in General Management, Kitchen and Housekeeping. I am proud to say that OCLD, presently in its 50th year, has trained several thousand people since its inception. It is a matter of pride that persons trained at OCLD are coveted by other hotel companies in India and abroad. We also have several other training programmes where young girls and boys are trained in other disciplines.

Vijayalaxmi Hegde, who has wide marketing experience, has written that travel was the luxury of the well-off globally and generally it was people from the western world who explored the far corners of the world. The rise of the world's middle-class population has changed the profile of the international traveller with significant cross-border travel between emerging and developed countries.

Many first time travellers are now eager to come back for more. Low-cost carriers are encouraging middle-class tourists to travel and the increasing number of these travellers cannot be ignored by the hospitality industry.

In the past, a travel agent's advice was considered to be the gospel truth. Today's travellers have several online sources to inform themselves of their prospective travels. These travellers research multiple sites and travel apps to learn more about local culture, food, shopping and other activities.

Travel is increasingly becoming multi-purpose. Many business travellers are now including tourist destinations in their itineraries.

Packaged travel is becoming less and less popular. Individual travellers care more about an experience and less about a product; they crave customisation more than ever before. The hospitality industry must incorporate customisation options into their existing services so that they can stay relevant to the modern traveller.

I have always strongly believed that people are our biggest asset. We must continue to select carefully, train and motivate our people. This will enable us to compete effectively with other hotel companies.

As many of you know, the widely read and renowned Travel + Leisure magazine announced that "The Oberoi" Brand has been rated as the Best Hotel Brand in the World in a Readers' Poll in 2015. This recognition is a testimony of the high standards maintained by our hotels and resorts in India and overseas.

I take this opportunity to thank the Tourism Department, Government of India, the Company's shareholders and other stakeholders for their support. Last but not least, I thank the Directors on our Board for their continued advice and support.

Thank you.

P.R.S. Oberoi
Executive Chairman

MANAGEMENT DISCUSSION AND ANALYSIS

Industry Structure, Developments and Outlook

The Global Economy – Performance & Prospects

World GDP is estimated to have grown at 2.4% in 2015 as compared to 3.3% in the previous year and further strengthen over the next two years to 2.9% in 2016 and 3.2% in 2017.

The United States economy also witnessed a slowdown, growing at 2.0% in 2015 from 2.4% in 2014. However, the Country is expected to recuperate, given lower energy costs, rising household wealth and an accommodative monetary policy.

The growth rate of the Chinese economy is expected to reduce from 7.4% in 2014 to 6.8% in 2015 as the country shifts to a service orientated nation from an export driven economy.

The appreciation of the US dollar against most world currencies has realigned global demand towards Europe, Japan and a few emerging markets. GDP growth rates for both the Euro region (0.9% in 2014 to 1.4% in 2015) and Japan (-0.1% in 2014 to 0.7% in 2015) display a marginal increase and are projected to continue on the road to recovery.

The India Story

Emerging as one of the best performing economies globally, India's economy expanded by 7.2% in 2014-15 and is estimated to grow to 7.6% in 2015-16, as per the Economic Survey 2015-16.

The Union Budget for 2016-17 laid emphasis on nine areas integral to the country's progress; a simpler taxation model, investment in infrastructure, fiscal discipline, ease of doing business, job creation, agriculture, social sector, education and rural sector.

Going forward, the Economist Intelligence Unit forecasts the GDP growth to average 7.3% from 2016-17 to 2020-21, driven by growth in employment, an expanding middle class, a gradual shift towards services from the low-yielding agricultural sector and the notably high saving and investments rates.

Travel & Tourism

Global scenario

Surpassing the growth of the global economy (2.4%), the Travel & Tourism sector grew at 2.8% in 2015. The industry's total contribution to GDP is 9.8% (US\$7.2 trillion) of the world's GDP and its total contribution to employment of 9.5% (284 million) of the total jobs in the global economy. Business and Leisure Spending crossed US\$4,700 billion within the year.

While the United States of America and China remain the largest Travel and Tourism markets, the World Travel & Tourism Council estimates the South Asian region has the highest growth rate at 6.9%.

The Travel & Tourism sector has remained resilient in 2015 and the sector is projected to continue thriving in the coming year. The strength of the US dollar will affect the price sensitive travelers' decisions. Nevertheless, the current oil prices, at their lowest in the past decade, have reduced travel costs and led to an increase in demand.

India

The Indian Travel & Tourism Industry is a significant source of foreign exchange, a major employment generator, and an integral part of the India growth story. The sector has registered prominent growth in recent years due to an expanding Indian middle class, increase in foreign tourist arrivals, a growing airline sector, and momentum from Government-led initiatives.

In 2015, the total contribution of Travel & Tourism to GDP was ₹ 8,309 billion (6.3% of GDP) and is forecasted to reach ₹ 18,362 billion (7.2% of GDP) by 2026, as per the WTTC's Economic Impact 2016 Report.

The Government has continually displayed a commitment towards augmenting the Indian tourism sector. The 2016-17 Union Budget allocated ₹ 15.9 billion to infrastructural development and promotion which is a 70% hike over the previous year. The "Clean India" campaign and development of inland waterways for transport and tourism are projects that have gained momentum over the previous year. Additionally, programmes such as "Make in India" and the "Smart Cities" initiative have highlighted the Government's support to skill development and investments in Hospitality and Tourism.

Tourism & Hospitality - Trends and Opportunities for Growth

In addition to the initiatives stated above, the Prime Minister has proactively sought foreign investment from countries such as China, the United States and Japan, leading to an increase of business related travel to the country.

With a compounded annual growth rate (CAGR) of 6.2% between 2010 and 2015, the International Visitor Arrivals grew by 9.1% for the period of January-March 2016 over that of the same period last year. The e-Tourist Visa now is available for 150 nations as of February 2016 expediting travel to India from all destinations.

Domestic travel spending has also witnessed impetus, attributing 82.5% to the direct Travel & Tourism GDP. Although a large portion of domestic travel has historically been for business purposes, an increasing number of Indian are now travelling for leisure. The appreciation of the US dollar has made international travel unattractive to many who are now seeking to travel within the country for holidays. Domestic tourism, therefore, is likely to gain traction, given the rising disposable incomes and abundance of low cost flights.

With reference to the Hospitality Industry, the supply of branded rooms has grown at a CAGR of 15.5% over the past five (2011-12 to 2014-15) years, with the demand for these rooms growing at a similar pace of 15.3% for the same period. The nationwide occupancies surpassed the 60% mark but were accompanied by a correction in average rates. The Food and Beverage department continued to be a major revenue generator for the Indian Hotel Industry.

The positive outlook for the Indian economy, coupled with the favourable external environment and emphasis on Travel & Tourism as well as related industries by the Government, points towards a steady upswing in the hospitality sector. As future supply dwindles concurrent with the increase in demand for quality branded accommodation, the Company is optimistic about the opportunities ahead.

ANNEXURE – B TO INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the 2013 Act”)

We have audited the internal financial controls over financial reporting of **EIH Limited** (“the Company”) as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

In view of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note : The Company's investments (Note 13) include holding of 16% equity shares in the capital of Golden Jubilee Hotels Private Limited (GJHPL). GJHPL has failed to service its debts. Some of the lending banks have recently recalled the loan given to GJHPL and declared the same as NPA. There is also winding up petition filed by a creditor. Company generally follows an accounting policy of making provision in case of permanent diminution only. However, considering the facts of the case, Company feels that the viability of GJHPL is at stake and provision has been made for abundant caution.

We have audited the accompanying consolidated financial statements of **EIH LIMITED** (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") its associates and jointly controlled entities, comprising of the Consolidated Balance Sheet as at 31st March, 2016, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group including its Associates and Jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and consistent application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that operate effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates and jointly controlled entities as at 31st March, 2016, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Emphasis of Matter

We draw attention to the following matters in the Notes to the consolidated financial statements:

- a. Note 43 to the consolidated financial statements regarding disclosure of advance towards equity shares in Mashobra Resort Limited and allotment of shares pending settlement of legal issues between Government of Himachal Pradesh and EIH Limited. Though the Hon'ble High Court has given decision restoring the Arbitration award the Company is contemplating challenging the same before higher authorities. As such the uncertainty of the allotment of shares still continues.
- b. Note 44 to the consolidated financial statements, which indicate that Oberoi Kerala Hotels & Resorts Limited will not commence any construction / operation of the hotel on the freehold land at Thekkady having a cost of ₹ 17.18 Million. The said Company has taken a decision for its disposal. Necessary approvals are still awaited from Government of Kerala as the matter is under their active consideration. However, the accounts have been drawn up on going concern basis. On receipt of approval from Government of Kerala, this would be treated as Current Assets. These conditions indicate the existence of material uncertainty that cast significant doubt about the Company's ability to continue as a going concern.

Our opinion is not modified in respect of these matters.

Other Matters

We did not audit the financial statements of twelve subsidiaries, and one jointly controlled entity, whose financial statements / financial information reflect total assets of ₹ 4,648.40 Million as at 31st March, 2016, total revenues of ₹ 2,560.03 Million and net cash flows amounting to ₹ (80.41) Million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, jointly controlled entities and associates, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, insofar as it relates to the aforesaid subsidiaries, jointly controlled entities and associates, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, are not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors .

In conjunction with our audit of the consolidated financial statements of the Company for the year ended March 31, 2016, we have audited the internal financial controls over financial reporting of EIH Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies, its associate companies and jointly controlled companies incorporated in India except one of its subsidiaries, Mumtaz Hotels Ltd which is not audited by us.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies, its associate companies and jointly controlled companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating

effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies, its associate companies and jointly controlled entities, which are incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to Mumtaz Hotels Ltd, whose financial statements / financial information reflect total assets of ₹ 1175.93 Million as at 31st March, 2016, total revenues of ₹ 962.73 Million and net cash flows amounting to ₹ 69.75 Million for the year ended on that date, as considered in the consolidated financial statements and which is a company incorporated in India, is based on the corresponding report of the auditor of Mumtaz Hotels Ltd.
