NOTICE FOR ANNUAL GENERAL MEETING 133

MESSAGE FROM THE MANAGING DIRECTOR

Dear Shareholders,

The continued onslaught of COVID-19 made 2021 a uniquely challenging year. India was hit hard by the second wave of the pandemic in March 2021, which also affected your Company's 2Q performance. Overall, the year was marked by rising inputs costs and supply chain bottlenecks, which put pressure on our margins.

Despite these challenges, the Castrol India team demonstrated remarkable resilience and delivered its highest-ever revenue till date of Rs. 4,192 Crores in 2021, marking a growth of 40% over 2020. Further, we delivered strong volumes in 2021 bringing back our market share to 2019 pre-pandemic levels.

What did your Company do differently in 2021? We leveraged multiple growth opportunities through the expansion of independent workshops, launch of premium branded products, and introduction of new formats such as the Castrol Auto Service centers and Castrol Express Oil Change outlets. We not only invested in our brands, but we also strengthened our service & maintenance offerings to customers and scaled up adjacencies in the automotive aftermarket.

In 2021, we implemented the single biggest change to our B2C sales model in over twenty years by introducing a new route-to-market approach. This was aimed at bringing in higher sales force efficiency, enhancing productivity and digitalizing our business processes to make our operations more agile.

As industry leaders in the lubricants space, Castrol India is continuously evolving to be future-ready. In 2021, your Company was one of the first players in India to launch new products with BS-VI ready technology for both passenger cars and commercial vehicles. To cater to the rapidly growing electric vehicle (EV) segment, we are exploring options with two-wheeler EV manufacturers for developing EV fluids. At the same time, we continue to supply EV fluids to two leading passenger car OEMs in India. We are also supporting India's growing EV eco-system by collaborating with existing and new partners.

2021 saw your Company get external recognition for safety, quality, regulatory compliance, consistent delivery, and performance. Castrol India was conferred with the 'Ramp Up Agility' award by a leading OEM for enabling supply continuity for its ICE & Electric Car manufacturing operations. Further, the Castrol plant at Paharpur was awarded by the Indian Chamber of Commerce with its prestigious National Occupational Health & Safety Awards for 2021.

Advancing our sustainability agenda in India, we introduced targeted interventions in our operations, packaging, and distribution, with a focus on saving waste, reducing carbon, and improving people's lives. On the social front, our engagement with truck drivers and independent auto mechanics over the years, including our recent efforts to bring COVID-19 awareness, and community vaccination drives, helped us forge an even stronger bond with them. Your Company's efforts were acknowledged by the British Business Group, Delhi, who awarded us with the 2021 'Excellence in CSR award' for our programmes: Castrol Eklavya and Castrol Sarathi Mitra.

All these achievements reflect the power and salience of the Castrol brand and the relentless hard work of the Castrol India team. We delivered these results while looking after our people, enabling vaccination for our employees & contractors, and ensuring that everyone was safe and well during testing times. With vaccination rates going up in India and the economic environment moving towards normalcy, we remain confident of the long-term growth opportunities for Castrol India.

I sincerely thank all our employees, shareholders, distributors, customers, and wider stakeholders for their continued trust and support. We will continue to strengthen our business by exploring avenues for future growth and offering sustained value and returns to our shareholders and the wider society.

#INTHISTOGETHER - OUR RESPONSE TO THE COVID-19 PANDEMIC

Phase 1 of the #InThisTogether campaign focused on enabling COVID-19 vaccination registration for non-tech savvy trade, mechanics and consumers. Through various Castrol apps, our teams reached out to 450,000+ stakeholders and supported them to get registered and also receive both doses of the vaccine.

To complete their vaccination and address vaccine hesitancy, fully vaccinated mechanics were incentivized with two complimentary 1 litre packs of Castrol Activ. The Fast Scan App was used to nudge them through intra community word of mouth awareness and recognition on social media, thereby positively influencing more than 50,000 mechanics to get themselves vaccinated.

#INTHISTOGETHER - OUR RESPONSE TO THE COVID-19 PANDEMIC

Phase 2 of #InThisTogether endeavored to rebuild mechanics' livelihoods at Castrol India's Independent Workshops (IWS) by reviving customer footfalls and re-instilling customer confidence. 1,500 IWS were provided with dispensers for hand sanitizers and counter shields.

To address vaccine hesitancy, we organized multiple sessions with our plant staff, contractors, and communities neighboring our plants at Patalganga, Silvassa and Paharpur. Administrators, officials, and medical practitioners shared their expert opinions and guidance on vaccine protection and COVID-19 appropriate behaviour.

ACCELERATING DIGITAL TRANSFORMATION

The Castrol FASTSCAN app served as a powerful engagement tool and supported over 500,000 mechanics using the platform with the vaccination registration process by directing them to relevant and credible resources.

The Castrol FASTLANE application enables indirect customers to place orders at any time and from any location. Features like secure password-less entry, new product updates, current offers, and purchase history have attracted over 20,000 active customers.

The Castrol SMART application enables our sales force of 1,000+ to have meaningful conversations with retail store owners and IWS. By providing historical data and access to rich analytics at the point of capturing orders, the app has helped improve sales productivity and customer satisfaction.

Personalized and curated programs like Castrol Royals continue to build advocacy amongst franchise workshop dealers enabling them to focus on technological innovation and business growth. The Industrial Sales team partnered with the Nanyang Technological University, Singapore to conduct a series of online courses on Industrial Robotics, Industrial IoT and Sustainability in Manufacturing for Castrol Royals distributors. These three sessions were conducted by professors from the School of Mechanical and Aerospace Engineering.

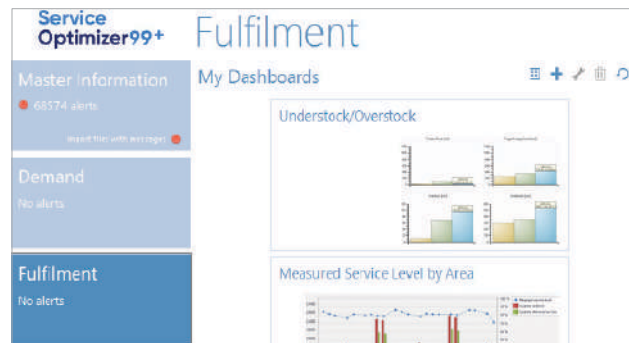

ACCELERATING DIGITAL TRANSFORMATION

A series of capability development programs such as Red Carpet, Profit Manager and Tele-skills upskilled and engaged service advisors and managers of franchise workshop customers.

The Castrol DIGICLAIM portal has significantly reduced manual intervention in scheme and claim processing, thereby reducing time spent on non-value addition activities and releasing working capital for customers and channel partners.

The Service Optimizer 99+ (SO99+) launched in March 2021, helped to successfully digitalize our Supply Chain replenishment capability through advance demand and supply planning. The system provides various important, collaborative, and flexible functionalities like Demand Collaboration Hub and helps in optimizing the inventory deployment by better demand forecasting accuracy and Multi-echelon Inventory Optimization.

Over 35,000 car and bike mechanics engaged with the Castrol Super Mechanic Academy, gaining access to live sessions with experts, training sessions in regional languages and a library of recorded sessions on automotive technology, service and maintenance.

Castrol's HEADSTART technical webinars kept heavy duty customers updated on the best practices in lubrication, leading to increased brand salience.

POWERFUL BRANDS. POWERFUL PERFORMANCE.

Castrol POWER1 ULTIMATE roped in Bollywood actor, Tiger Shroff, to establish rapid brand awareness and performance imagery among the youth. The new campaign plans to reach over 50 million biking enthusiasts on key digital platforms.

The new Castrol MAGNATEC, India's widest range of fully synthetic, BS-VI ready engine oils with the latest performance specifications was launched in 2021 to meet low-SAPS requirement for BS-VI cars and SUVs. Widely promoted through on-ground promotions and digital media, it generated awareness about the new engine oil requirements of BS-VI engines and Castrol MAGNATEC's superior product offering.

POWERFUL BRANDS. POWERFUL PERFORMANCE.

Castrol POWER1 ULTIMATE associated with high performance-oriented properties like All India Xbhp road trip united, web series Cruising Legends and sports movie TOOFAAN, to establish itself as a premium performance 4T engine oil brand. These integration initiatives helped the brand connect with biking enthusiasts across the country, resulting in a combined reach of 25 million on digital, thus maximizing top of mind recall for Castrol POWER1 ULTIMATE.

Castrol launched the fourth edition of the country's largest mechanic skilling initiative 'Castrol Super Mechanic Contest' with the theme of #SeekhengeJeetengeBadhenge. This contest, which salutes the passion and the spirit of mechanics who keep India moving, onboarded 140,000+ mechanics in the first phase, of which nearly 24,000 shortlisted participants received advanced certified training from the Automotive Skill Development Council, India.

Castrol Activ launched a new marketing campaign '#3XProtectionKeepsEngineFit' featuring 3 distinct ad films across a mix of television, digital and OTT platforms, to complement its strong on-ground execution. The films demonstrated Castrol Activ's superior protection to bike engines and how it shields them from excessive sound, heat, and stress.

Under Castrol CRB Turbomax, the 'Chance to Win Gold Coin' campaign was launched involving a 360-degree deployment of the 'Dhan Aasana' initiative and a TV campaign, to build large scale awareness. This ably supported the strong on-ground activity reaching 50,000+ consumers and influencers in focus markets across the country.

AWARDS AND ACCOLADES

In July 2021, Castrol India's flagship CSR programs - Castrol Eklavya for upskilling of mechanics and Castrol Sarathi Mitra for the holistic development of truck drivers - were recognized for 'Excellence in CSR' by the British Business Group Delhi.

GOTS (Global Organic Textile Standard) certification audit was successfully completed for the Silvassa plant pertaining to products Tribol BW 22 and Tribol BW 32, thereby ensuring organic status of textiles through environmentally and socially responsible manufacturing.

The Ford Q1 certification, a highly coveted award reflecting strong quality standards, processes and focus on customer service, was successfully renewed for the Silvassa plant in July 2021 – making it the only lubricants plant in Asia to win the prestigious award. In March 2021, the plant had successfully completed the annual Q1 manufacturing site assessment with all elements in "Green" and completed Materials Management Operating Guidelines/Logistic Evaluation (MMOG/LE), a mandatory sub-requirement for Ford Q1 with "Rating A".

Castrol India was awarded the Tata Motors Supplier Awards 2021 for 'Ramp Up Agility', for its contribution towards ensuring supply security for Tata's ICE and Electric Car manufacturing operations.

The Paharpur plant was conferred the Indian Chamber of Commerce Health & Safety Silver Award 2021 by the Hon'ble Minister for Labour, Government of West Bengal for utmost commitment to health and safety.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Pursuant to Schedule V to the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, a Management Discussion and Analysis Report covering business performance and outlook (within limits set by Company's competitive position) is provided below:

THE COMPANY'S RESPONSE TO THE COVID-19 PANDEMIC

In 2021, the world continued to reel under the threat of the coronavirus. The second wave of the COVID-19 pandemic hit India hard, and as a company, we were faced with several challenges and disruptions. Castrol India Limited managed this unprecedented situation with three clear objectives:

- Protecting our employees,
- Supporting our communities, and
- Protecting the financial health of our business

Employees: All employees, except the employees working in plants and those managing business critical activities, worked from home. The Company created safe operating guidelines for its sales teams and standard operating procedures for staff at its three manufacturing plants, following government advisories and guidelines. The Company activated a Site Task Force (STF) at its plants to provide all possible assistance to staff. Guidelines for safe operations during COVID-19 were deployed at all plants to ensure safeguards for the wellbeing of our people on the frontline. The Company kept teams informed and well engaged, and offered them psychological, ergonomic and IT support to work comfortably from home and safeguard their health.

Customers: The Company ensured business continuity and fulfilled customer demands during this period despite several logistic challenges. Teams were deployed to connect with the customers virtually and conducted several virtual technical training programmes for them. Sanitization services were offered complimentary to franchise and independent workshops nationally which prepared them to restart their business.

Communities: As a responsible corporate citizen, the Company committed its support as part of a country wide COVID-19 response. During the second wave that hit India hard, the Company continued to support the government's efforts by providing oxygen concentrators and critical medical

equipment to government hospitals across 3 states in the country. We also launched a COVID-19 vaccination support and awareness programme along with a vaccination drive for communities around our areas of operation and presence. Castrol India Limited made a social investment of around Rs. 21.2 Crores in 2021, collaborating with various national and local stakeholders to ensure sustained interventions.

Business continuity plans: The Company activated business continuity plans to respond effectively to the constantly evolving situation. Response plans were developed and continually monitored to protect the health and long-term sustainability of the company.

INDUSTRY STRUCTURE AND DEVELOPMENTS

India is amongst the top three lubricant markets¹ of the world and accounts for 6 to 7% of the global lubricant demand¹. India is seen as a market with immense potential for lubricant growth in an otherwise flat volumetric global lubricants industry¹.

India's lubricant market operates in three broad segments: Automotive, Industrial and Marine. All three segments include players from National Oil Companies, international oil majors, and several local companies. Castrol India Limited operates across all three segments and holds a leading position in the retail automotive segment, with notable presence in specialized industrial fluids.

Demand drivers

Lubricants play a major role in reducing friction generated by metal-to-metal contact. It also helps in reducing noise and heat generated in metal parts, such as engines in the automotive industry and cutting or honing parts in industrial applications, as well as in protecting metal parts from corrosion and wear & tear. Automotive vehicles require engine oils, transmission fluids, brake fluids, hydraulic oils and greases, while industrial and manufacturing applications require lubricants for metal working, rust preventives, and coolants in addition to process oils.

India's automotive industry is the world's fourth largest vehicle market¹ and the growing demand for vehicles is driving demand for automotive lubricants, along with increased usage of vehicles. Commercial automotive usage correlates with rising economic activity. Technological advancement in automotive hardware design is leading to demand for more efficient and premium lubricants. Demand for industrial lubricants arises from various industries such as Automotive, Wind, Power, Process Industries like Steel, Cement and general engineering, manufacturing etc. and is also linked to increased economic activity.

Supply drivers

Lubricants are manufactured by blending base oils with additives. This blending involves highly advanced formulations as per the specific purpose the lubricant serves, as well as in line with specifications from Original Equipment Manufacturers (OEMs) and industry norms. India is a net base oil deficit market leading to large scale import of base oils and additives. This exposes the lubricants business to fluctuations in foreign exchange rates and supply chain disruptions.

Major industry developments

Overall lubricants market

In 2021, post the second wave of the pandemic, economic recovery picked up and there was a steady expansion in the manufacturing and services sectors. Mobility across sectors such as retail & recreation and workplace also picked up a steady pace. New vehicle sales grew as compared to 2020, however total sales remained below 2019 pre-covid levels for all vehicle categories². As part of the 2021 Union Budget, the Government of India announced a new vehicle scrappage policy³, which was later tabled in the Parliament. The policy aims to phase out cars and commercial vehicles older than 15 to 20 years to slash urban pollution levels and stimulate automotive sales, which slowed down during India's post-COVID-19 recovery phase. Additionally, the vehicle scrappage policy will also stimulate demand for OEMs and encourage fuel-efficient, environment-friendly vehicles, thereby reducing vehicular pollution and oil import costs.

While lubricant offtake in 2021 grew over 2020, it continued to remain below 2019 levels. Automotive lubricants offtake dipped sharply in Q2 2021 but saw a steady recovery. The recovery was led by personal mobility, while offtake build up for commercial vehicles remained sluggish.

In 2021, the Castrol Auto Service (CAS) network expanded to 94 centers in more than 40 cities enabling our customers to grow their business and offer specialized services to their clients.

Impact of foreign exchange, crude oil, and raw material prices

2021 witnessed a continued rise in crude prices reaching up to USD 74.75 bbl mark in December⁴. While forex remained range bound, it lost some value especially during the last quarter of the year. The Indian economy saw month on month revival, however supply chains faced one of the most unprecedented challenges on account of rising inputs cost. Base oil prices touched a record high in the first half of the year due to lower refinery operating levels and for the first time, they were competing with fuel prices across the world. Lower fuel demand forced refiners to either shut their

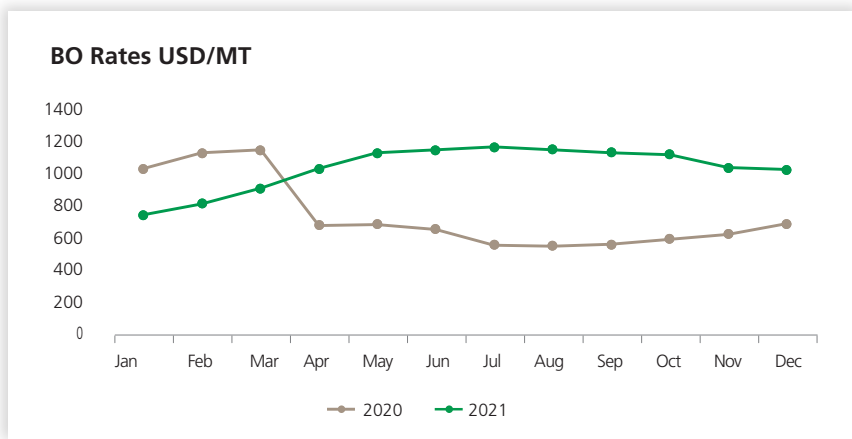

operations or operate at lower levels which in turn impacted base oil availability across the world with the highest impact seen in Asia Pacific.

For the first time, base oil prices surged to record high premiums to crude and diesel in response to unexpectedly tight supplies. COVID-19 caused additional challenges on sea logistics impacting supplies and imbalance between demand-supply and geopolitics continued to impact both availability and prices of multiple raw materials.

The following graph indicates the trend of crude prices and Rupee/USD for 2021.

The following graph indicates the trend of base oil price movement from 2020 to 2021.

Despite a highly uncertain and challenging business environment, the Company continued to generate value for its investors through strategic sourcing, leveraging term contracts, value improvement initiatives, extensive focus on service and quality as well as continuous monitoring of costs.

The Company worked on a best value purchase model and value-based inventory management, keeping a close watch on cash costs, and working capital.

OPPORTUNITIES AND THREATS

Opportunities

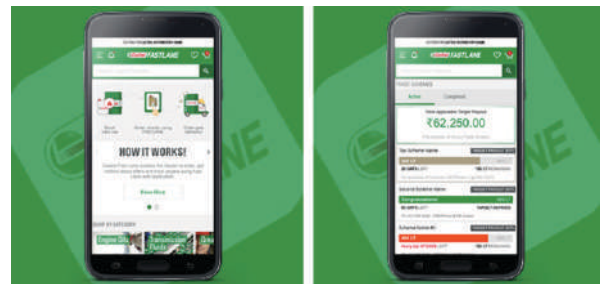

- Personal mobility: With the growth of new segments such as SUVs, increasing usage of passenger vehicles in smaller towns and a high percentage of personal vehicle owners being first-time users, the Company is tapping these segments through product innovations and sustained brand building campaigns.
- With the adoption of BS-VI specifications, the need for advanced engine oils is expected to rise. The Company is well positioned through BS-VI compliant offerings across categories to leverage this opportunity.

The all-new BS-VI compliant range of Castrol MAGNATEC is available in four variants which will help meet automotive OEMs recommendations for thinner grade lubricants.

- Improving technology in trucks: With stricter emission norms resulting in newer technologies for trucks, the CI4+ segment is the fastest-growing segment in the commercial vehicle category. The Company focused on this segment with sustained brand building efforts and launched four BS-VI ready variants for Castrol CRB Turbomax and CRB Minitruck under CK4 specifications.
- Agricultural sector: With growing farm mechanization in the Indian agricultural sector, the Company ensured augmented availability of its heavy-duty lubricants and tractor oils, along with farmer connects through rural activations.
- Original Equipment Manufacturer (OEM) alliances: The Company has built enduring associations with leading heavy duty equipment manufacturers and passenger vehicle OEMs. It also continued alliances with two car OEMs for supply of electric vehicle (EV) fluids in India.

- Advanced energy solutions: Apart from mobility, new age energy storage solutions are also an emerging area. The Company is working with collaborators in this field for lubricant solutions to meet this need.
- New channels: Digitally enabled service ecosystems are an emerging business opportunity. Acceleration in digital has been aided by the COVID-19 pandemic. The Company forged new relationships on this front to strengthen reach amongst consumers.
- Digital initiatives: Building on its digitalization strategy, the Company continued digital initiatives such as FASTSCAN, FASTLANE and Castrol SUPER MECHANIC online academy including training programmes to offer a premium experience to customers and consumers.

The Castrol FASTLANE app enables indirect customers to place orders securely at any time and from any location. Castrol FASTSCAN has also supported 500,000 mechanics with vaccination registration.

Threats

- Economic uncertainty due to the COVID-19 pandemic: While GDP has grown in 2021 over 2020 and recovered to 2019 levels in Q3 2021, uncertainty over sustained growth momentum remains around concerns on the impact of the next wave of the COVID-19 pandemic.
- Competitive activity: Competition in the lubricants market is intense and is likely to remain high in the foreseeable future. There is a rising trend of OEMs introducing lubricants under their own brand name, further impacting the competitive landscape.
- Electrification: India's passenger mobility segment is evolving with a growing electric vehicle (EV) market. While the EV market grows, the long-term demand for internal combustion engines (ICE) is also here to stay. EV's also require transmission fluids, greases, and coolants and Castrol is well positioned to cater to the EV segment and explore new business opportunities, while strengthening its existing business in ICE.

PRODUCT-WISE PERFORMANCE

Automotive lubricants

The Company continued to drive premiumization and synthetization in the personal mobility segment, despite a challenging operating context. The Company pursued growth opportunities and launched new products for cruiser bikes (Castrol Activ Cruise) and full synthetic performance oils in the premium segment for two-wheelers (Castrol POWER1 ULTIMATE).

In passenger car oils, the Company drove synthetic products across mass and premium segments and launched Castrol GTX SUV oils for sports utility vehicles. It also ran a digital brand campaign for Castrol MAGNATEC SUV supplemented through on-ground mechanic engagements.

In commercial vehicle oils, the Company promoted Castrol CRB TURBOMAX with presence in mass media and engagement with mechanics virtually as well as through ground activations. It also stayed connected with farmers through local rural activations.

To strengthen our Service & Maintenance offerings, we commissioned Castrol Express Oil Change services for two-wheelers in urban Jio-bp mobility stations, which offer a bike health check and oil change in less than twenty minutes for consumers on the go. We are collaborating with Ki Mobility Solutions, a digitally enabled multi brand service ecosystem, having myTVS as their brick-and-mortar multi brand workshop network and Gobump, an aggregator platform with 400,000 customers and 1,500+ partner garages across 16 Indian cities.

The Castrol Express Oil Change outlets offer two-wheeler customers quick and reliable oil change services on the go.

Marine lubricants

As per a global trade outlook shared by the United Nations⁵, global trade from shipping in 2021 was expected to touch USD 28 trillion, marking an increase of 23% compared to 2020. But the outlook for 2022 remains uncertain with many economies, including those in the European Union facing COVID-19 related disruptions which may affect consumer demand in 2022.

In 2021, there were several investments announced in India, which augur well for our business in the marine segment.

Energy lubricants

The Indian oil and gas market is expected to record a CAGR of over 2.64% during the forecast period of 2020 to 2025⁶. Factors, such as increasing natural gas pipeline capacity, increasing refining capacity, and increasing demand for petroleum products, are expected to increase the growth for the Indian oil and gas market during the forecast period. However, a huge dependence over imports of crude oil and natural gas for satisfying domestic demand and high volatility of crude oil prices might impact the growth of the Indian oil and gas market.

With the Reliance MJ project progressing, we are witnessing an increased activity and enquiries for subsea lubes and Castrol is well poised to cater to this segment.

Industrial lubricants

The Company worked closely with its customers aiding learning through trainings and seminars and entered new segments such as Robotics while also launching bespoke performance lubricants for industry sectors like textiles, which have helped strengthen our positions. Our Silvassa plant received a GOTS (Global Organic Textile Standards) certification, which enhances our opportunities to work closely with textile machinery manufacturers.

The Castrol Silvassa plant, a symbol of quality, safety and manufacturing excellence, celebrated its 25th Anniversary in July 2021 marking 25 years of safe and successful operations.

Quality

The Company focused on building a zero-defect mindset across the organization through state-of-the-art testing facilities, application of international standards and concepts, as well as skill development and awareness programmes. The Company rolled out a Quality culture survey, Quality Leadership awards & Digitization of Quality workflows to strengthen the Quality Culture across the organization. The Company successfully ended the year without any major quality incidents despite disruptions in operations due to the COVID-19 pandemic and natural calamities like cyclones Tauktae and Yaas.

The company completed the recertification audit of ISO 9001: 2015 and IATF 16949:2016 standards. The Silvassa plant was the proud recipient of the Ford Q1 recertification, a recognition of the plant's focus and quality excellence to the OEM business. The Silvassa plant also received Global Organic Textile Standard (GOTS) certification demonstrating proactive customer centric approach to explore new business opportunities with textile manufacturers.

FUTURE OUTLOOK

The outlook for 2022 has been examined closely by the Company through the broad dimensions of demand drivers and distribution channels.

Demand drivers

The key drivers of demand growth in each segment where the Company operates are explained below:

Automotive lubricants

- **Personal mobility:** The two-wheeler and passenger car lubricants category are now seeing a demand resurrection as the recovery builds up. While the long-term outlook is positive, the Company will continue to drive growth in this segment backed by a wide distribution reach, strong brand building and leveraging the growth of synthetic oils.
- **Commercial vehicles:** Despite short term challenges, this segment is expected to gradually pick up momentum. Growth in construction and off-highway sectors due to investment in infrastructure is also likely to lead to lubricants demand growth in this category. With the food & farming sector remaining resilient and growing, good lubricant demand growth is expected from the agricultural sector.

Industrial lubricants

Although the growth momentum in Industrial output tempered down as we progressed through the year (due to low base effect waning off), industrial production has registered a consistent growth trend through 2021. The Business confidence index has also trended positively and as activities build further momentum, the demand for industrial lubricants is expected to grow with optimistic prospects for the long term.

Marine & energy lubricants

World trade shows signs of bouncing back from a deep, COVID-19 induced slump, but the World Trade Organization economists caution that any recovery could be disrupted by the ongoing effects of the pandemic. Trade volume growth was expected to rebound to 7.2% in 2021 but remain well below the pre-pandemic levels.

Channels of distribution

The Company's products are distributed through 330 distributors who service close to 118,000 customers and sub-distributors who reach out to additional outlets in semi-urban and rural markets. It also leverages its distribution channels to reach a wider network of independent workshops. The Company also serves close to 3,000 key institutional accounts directly, and in some cases through its distributors. With our alliance with Jio-bp (Reliance bp Mobility Limited), we have access to a new channel and are expanding Castrol's footprint in fuel forecourts across India.

Over the last few years, the focus on priority channels including e-commerce has contributed to strong topline growth in the Company's business. The Company has invested in a digitally enabled integrated service model to implement better market coverage and improve customer experience for our indirect customers.

In 2021, the Company continued to drive simplification in systems and processes to bring in more speed and efficiency in its back-end operations. It has also leveraged digitalization to create a superior and premium experience for customers in their interaction and touchpoints with the Company.

RISKS AND CONCERNS

The risk from the COVID-19 pandemic continues to be one of the key business risks. The Risk Committee maintains an active oversight of this risk and the effectiveness of the risk mitigation strategies and plans put in place by the Company.

The general slowdown of the economy due to disruptions caused by the pandemic as well as continued volatility in input costs and foreign exchange remains a risk. The Company has appropriate mitigation plans to protect margins while continuing to grow and transform the business. While the Company's focus on long term strategic drivers and brand building continues, during 2021 appropriate strategic and pricing interventions as well as cost and efficiency management programmes were undertaken keeping in mind input costs, competitive positioning, and product brand strategy.

The Company actively managed its cyber security risk including the impact of greater remote working required during the pandemic by promoting the right behaviors and using tools and processes to protect its information, systems, assets, and people against current and emerging cyber security threats. The Company's Risk Management Committee actively monitors and reviews cyber security risks.

With India being a growth market, opportunities for employability and for commensurate roles are higher. The Company's strong capability offer which nurtures and develops its talent, makes its employees more relevant to the market, thereby increasing the risk of attrition for the Company.

Health, Safety, Security and Environment are critical focus areas for the Company. Road safety is an area of particular focus given that its frontline team and transporters drive across the country on business. Similarly, product quality and integrity continue to be another focus area. Its vision for Quality, 'right quality first time every time,' and 'zero defect' is a key enabler to help provide a premium customer experience. The Company has a robust risk mitigation plan to minimize identified risks through continuous monitoring and mitigating actions as may be required.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company maintains an adequate and effective Internal Control System commensurate with its size and complexity. It believes that these systems provide, among other things, a reasonable assurance that transactions are executed with management authorization. It also ensures that they are recorded in all material respects to permit preparation of financial statements in conformity with established accounting principles, along with the assets of the Company being adequately safeguarded against significant misuse or loss. An independent Internal Audit function is an important element of the Company's Internal Control System. This is supplemented through an extensive internal audit programme and periodic review by the management and the Audit Committee.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

Please note that Castrol India Limited follows the calendar year (January to December) for its financial reporting. For the full year ended 31 December 2021, the Company registered Revenue from operations of Rs. 4,192 Crores, which is its highest-ever till date. It also marks an overall revenue growth of 40% compared to Rs. 2,997 Crores for the full year ended 31 December 2020. The Company's Gross Profit increased

by 23% in 2021 over 2020. This was on account of higher volume and strategic price interventions.

Operating and Other expenses increased by Rs. 151 Crores as compared to the previous year on account of investment in people, safety, brand, and business growth opportunities. Profit before Tax increased by about 31% over previous year to Rs. 1029 Crores. This generated a healthy cash flow from operations for 2021 of Rs. 630 Crores.

Overall, the Company delivered a resilient performance for the year despite unprecedented rise in input costs and supply chain disruptions resulting from the ongoing COVID-19 pandemic.

In accordance with the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended till 2019, the Company is required to give details of significant changes (i.e. change of 25% or more as compared to the immediately previous financial year) in key financial ratios.

Key financial ratios

Particulars	Unit	2021	2020	% change
Debtors turnover	Times	17.04	9.05	88%
Inventory turnover	Times	4.80	3.77	27%
Current ratio	Times	2.17	2.05	6%
Operating profit margin	%	25%	26%	-10%
Net profit margin	%	18%	19%	-5%
EBITDA	%	25%	27%	-7%
Return on net worth*	%	50%	42%	18%

*Return on net worth is a measure of profitability of a company expressed in percentage. It is calculated by dividing profit for the year by average capital employed during the year.

Interest coverage ratio and debt equity ratio are not applicable to the Company since there are no borrowings. However, there is some finance cost in financial statements that wholly relates to the finance lease of corporate office (IND AS 116) which commenced in the financial year 2020.

Debtors turnover ratio indicates a company's effectiveness in collecting its receivables from customers. It is computed by dividing the revenue from operations by average trade receivables. The increase is mainly on account of increase in turnover for the year due to volume growth.

Inventory turnover ratio indicates the number of times a company sells and replaces its inventory during the period. It is calculated by dividing the cost of goods sold by the average inventory. The substantial increase in current year is mainly due to increase in volume growth and raw material prices.

Current ratio is a liquidity ratio that measures a company's ability to pay obligations that are due within twelve months. It is calculated by dividing the current assets by current liabilities.

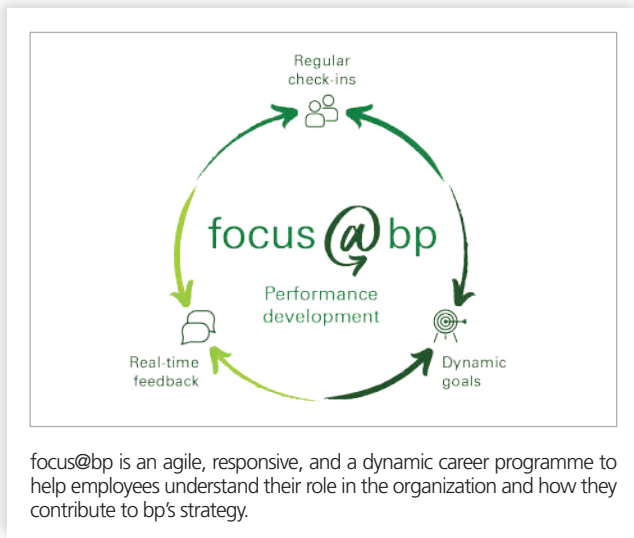

Operating profit margin is a profitability or performance ratio used to calculate the percentage of profit a company produces from its operations. It is calculated by dividing the earnings before interest & taxes (EBIT) by revenue from operations.

Net profit margin is equal to how much net income or profit is generated as a percentage of revenue. It is calculated by dividing the profit for the year by revenue from operations.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS

People are the Company's key assets and in 2021, the focus continued to be safeguarding the health and well-being of employees amidst the ongoing pandemic, along with ensuring employee engagement. Employees spent ~2,658 hours on various technical, behavioral safety and leadership trainings.

As we navigated through the new organization structure post implementing 'Reinvent bp' in 2021, 'Purposeful Connections' was introduced as a new program to help teams accelerate from forming to performing while focusing on creating and strengthening the connects within the team, arriving at a common purpose and leading together to reimagine and reinvent the future of the organisation.

To help accelerate employee career growth and development, 'focus@bp' was piloted which drove the agenda of creating better manager – subordinate relations by encouraging regular check-ins and feedback during the performance cycle. Internal candidates continued to be successfully hired for vacancies with 42% positions being filled internally.

Hiring practices continued to ensure recruitment of diverse candidates with no compromise on meritocracy. The overall number of women in managerial populations at Castrol India Limited stood at 18% in 2021 and overall at 17%.

In 2021, as part of a review of internal controls over financial reporting, key controls in human resources and legal compliances were reviewed by the internal audit team to provide assertions to the management on design and operating effectiveness of these key controls.

The Company enjoyed cordial relations at plants with internal and external stakeholders. There was focused engagement with workmen and contractors at plants by senior leadership through employee townhalls, team meetings, plant performance reviews and recognition of exemplary safety and quality performance. The Company supported employees and their families during the pandemic through help with hospitalization, vaccination, medical facilities, and an on-call health manager. It also focused on mental health initiatives along with physical well-being to focus on holistic employee wellness.

The total number of people employed in the Company as on 31 December 2021, including factory workmen, was 631.

Health, Safety, Security and Environment

The Company accorded the highest priority to health and safety of the workforce with a commitment to comply with all

applicable laws and regulations. The Company has a Health, Safety, Security and Environment (HSSE) policy applicable to every member of the workforce including contractors. It maintained the highest standards of occupational HSSE with the leadership team reviewing business safety performance on a monthly basis.

The Company implemented best-in-class internal standards and an Operating Management System (OMS) to ensure safe, systematic, reliable, and environment-friendly operations. The leadership team of the company frequently checked the effectiveness of implementation and compliance of OMS and demonstrated visible safety leadership through field inspection programmes.

All three manufacturing plants of Castrol India Limited are certified with the Environment Management System (ISO 14001:2015), Occupational Health and Safety Management System (ISO 45001) and Quality Management System Standard (ISO 9001:2015), with two of the Company's plants certified with Automotive Quality Management System IATF 16949:2016.

The plants won several external recognitions for their exemplary HSSE performance and practices during 2021. Our Paharpur plant in West Bengal was awarded by the Indian Chamber of Commerce (ICC) with its prestigious National Occupational Health & Safety Awards. Castrol India Limited bagged the Silver award in the Oil & Gas Sector in the Large Enterprise category.

As a part of resource optimization, the Company focused on reducing energy, water and waste contributing towards minimizing its environmental footprint. The Company is also undertaking several programmes under its sustainability agenda. The Company's top priority is safety first with the primary objective that everyone goes home safely, every single day.

2. PERFORMANCE

Revenue from operations of your Company has increased by 40% mainly on account higher volume and strategic price interventions. Costs of materials were higher by about 63% over the previous year mainly due to unprecedented rise in input costs and supply chain disruptions resulting from the ongoing COVID-19 pandemic. Operating and Other expenses increased by INR 151 Crores as compared to the previous year on account of investment in people, safety, brand and business growth opportunities. Profit before Tax increased by about 31% over previous year to INR 1029 Crores. Your Company's performance has been discussed in detail in the 'Management Discussion and Analysis Report'. Your Company does not have any subsidiary or associate or joint venture company. There are no material changes and commitments affecting the financial position of your Company, which have occurred between the end of the year and date of this report. Further, there has been no change in the nature of business of the Company.

RESERVES

There is no amount proposed to be transferred to the reserves.

CHANGES IN SHARE CAPITAL

During the year under review, there was no change in the paid-up share capital of the Company.

3. RETURNS TO INVESTORS (DIVIDEND)

The Board of Directors of the Company had approved the Dividend Distribution Policy in line with Regulation 43A of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The policy is separately provided as **Annexure I** forming an integral part of this Report and is also uploaded on the website of the Company at https://www.castrol.com/content/dam/castrol/country-sites/en_in/india/home/corporate-governance/dividend-distribution_policy.pdf

The Board has recommended a final dividend of INR 3/- per equity share for the financial year ended 31 December 2021 (2020: Final dividend was INR 3/- per equity share) subject to the approval of members at the ensuing Annual General Meeting of the Company. The Board also declared interim dividend of INR 2.50/- per equity share for the financial year ended 31 December 2021 on 2 August 2021. (2020: interim dividend was INR 2.50/- per equity share)

The dividend payout for the year under review is in accordance with your Company's policy to pay sustainable dividend linked to long-term growth objectives of your Company to be met by internal cash accruals.

4. TRANSFERS TO THE INVESTOR EDUCATION AND PROTECTION FUND

Pursuant to applicable provisions of the Companies Act, 2013 read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("IEPF Rules"), all unpaid or unclaimed dividends are required to be transferred by the Company to the Investor Education and Protection Fund ("IEPF" or "Fund") established by the Central Government, after completion of seven years from the date the dividend is transferred to unpaid/unclaimed account. Further, according to the Rules, the shares in respect of which dividend has not been paid or claimed by the members for seven consecutive years or more shall also be transferred to the demat account created by the IEPF Authority.

The Company had sent individual notices and also advertised in the newspapers seeking action from the members who have not claimed their dividends for seven consecutive years or more. Thereafter, the Company has transferred such unpaid or unclaimed dividends and corresponding shares to IEPF, up to and including the interim dividend for the financial year ended 31 December 2014.

Members/claimants whose shares or unclaimed dividend, have been transferred to the IEPF demat Account or

the Fund, as the case may be, may claim the shares or apply for refund by making an application to the IEPF Authority in Form IEPF – 5 (available on <http://www.iepf.gov.in>) along with requisite fee as decided by the IEPF Authority from time to time. The member/claimant can file only one consolidated claim in a financial year as per the IEPF Rules.

The Company will be transferring the final dividend and corresponding shares for the financial year ended 31 December 2014 and the interim dividend and corresponding shares for the financial year ended 31 December 2015 within statutory timelines. Members are requested to ensure that they claim the dividends and shares referred above, before they are transferred to the said Fund. The due dates for transfer of unclaimed dividend to IEPF are provided in the report on Corporate Governance.

Details of shares/shareholders in respect of which dividend has not been claimed, are provided on website of the Company at https://www.castrol.com/en_in/india/home/investors/statement-of-unclaimed-dividend-and-shares.html. The shareholders are encouraged to verify their records and claim their dividends of all the earlier seven years, if not claimed.

5. SUPPLY CHAIN

2021 Continued to be a difficult year in a very challenging supply market with frequent disruptions. Amidst the uncertainties, the focus of your supply chain was on servicing customers & ensuring supply continuity. This was achieved through agile planning, resilient manufacturing & distribution. We continued to commit for future by investing in technology and digital capabilities, upgrading & investing in our plants to build capacity & capability to support our business and customer needs.

Healthy, Safety, Security and Environment continued to be at the core of the operations. Manufacturing sites faced onslaught of COVID-19 Wave 2 in the months of April & May, along with the cyclone Taukute & Yaas in the West & East coast respectively. Despite such challenging environment, the plants continued to operate through the year taking care of your employees and ensuring highest safety protocols. Vaccination camps were organized for employees and their family members, and multiple interventions made to ensure safety of teams coming to the plants every day. Sites continued to be managed with detailed protocols in place, ensuring compliance to relevant local laws and organization guidelines. Reinforcements were provided to COVID-19 affected employees and their family through support groups and other avenues.

Plants also ran campaigns to support community around our plants covering Special education assistance program, supplied relief material for families, organized 24 medical check-up camps with over 1080 beneficiaries and helped surrounding hospitals by donating oxygen Concentrators, monitors & ventilator, participating in COVID-19 recovery program.

Your plants continued to receive external recognition. Patalganga plant received 2020 National Safety Council of India Silver Award at the National level for demonstrating outstanding performance consistently in implementing OHS management system and procedures. This is second year in row that site has won this prestigious award from NSCI. Paharpur Plant has won the prestigious Indian Chamber of Commerce [ICC] National Occupational Health & Safety Awards 2020 Gold award in the Oil & Gas Sector in Large Enterprise Category. The site has won this rigorous award twice in a row despite a restrictive COVID-19 environment. Silvassa plant has been accredited with Global Organic Textile Standard (GOTS) certification. GOTS has been developed by leading standard setters to define world-wide recognized requirements for organic textiles. From the harvesting of the raw materials, environmentally and socially responsible manufacturing to labelling, textiles certified to GOTS provide a credible assurance to the consumer.

Tata Motors Limited recognized the team's exemplary support during pandemic period by way an award, when faced with severe global shortage of Base Oil and additives. This recognition from one of our key partners was a great example of agility and teamwork.

Your plants continue to invest in upgrading manufacturing capacity & capabilities - in new filling lines, online labelling solutions and upgrading blending processes in the plants to enable & support growth. In addition, the teams continued to drive efficiency in operations by focusing on loss identification & elimination thereby mitigating inflationary impact.

Sustainability is at the core of operations & practices – both existing & new in manufacturing. There has been constant focus on reducing flush oil generation and improving the flush reuse through technical & process assessments. There has been a rigorous focus on blending at optimum temperature to ensure efficiency of energy used. Energy audits have been undertaken across plants and recommendation implementation has commenced. Recycling & reuse of water is another focus area in the plants.

Agile planning continued to be at the heart of strong customer deliver during the year. The Supply Chain disruptions also posed an opportunity of servicing

a market which competition was struggling with. This was managed through formulation transition and activating relevant back up scenario to ensure availability of products on shelves. Close coordination with the suppliers and leveraging relationships helped us successfully anticipate risks and plan mitigation. 8. BOARD EVALUATION

The Nomination and Remuneration Committee of your Company approved the Policy on Nomination, Independence, Remuneration, Diversity and Evaluation ("Policy"), which has been adopted by the Board of Directors. The Policy provides for evaluation of the Board, the Committees of the Board and individual Directors, including the Chairman of the Board. The Policy provides that evaluation of the performance of the Board as a whole and the Board Committees and individual Directors shall be carried out annually.

Your Company has appointed a reputed agency that engages with the Chairman of the Board and Chairperson of the Nomination and Remuneration Committee in respect of the evaluation process. The agency prepares an independent report which is used for giving appropriate feedback to the Board/Committees/Directors for discussions in the meetings.

During the year, the evaluation cycle was completed by the Company which included the evaluation of the Board as a whole, Board Committees and individual Directors. The evaluation process focused on various aspects of the Board and Committees' functioning such as composition of the Board and its Committees, experience and competencies, performance of specific duties, obligations and governance issues. A separate exercise was carried out to evaluate the performance of individual Directors on parameters such as attendance, contribution and exercise of independent judgement.

The results of the evaluation of the Board and its Committees were shared with the Board and its respective Committees. The Chairman of the Board had discussions with members of the Board to discuss the performance feedback based on self-appraisal and peer review. The Nomination and Remuneration Committee Chairman discussed the performance review with the Chairman of the Board.

The Independent Directors met on 29 October 2021 to review performance evaluation of Non-Independent Directors and the Board of Directors and also of the Chairman taking into account views of Executive Directors and Non-Executive Directors.

Based on the outcome of the evaluation, the Board and its Committees have agreed on various action points,

which would result in each Director, its Committees and the Board, its Committees and each Director playing more meaningful roles to increase shareholder value.

11. CORPORATE SOCIAL RESPONSIBILITY

At Castrol India Limited, we believe that we have a responsibility to bring enduring positive value to communities we work with. In line with our core theme to keep India moving, we have and will continue to build enduring and engaging relationships with key stakeholders in the mobility sector.

Truck drivers and mechanics are two key partners who play a significant role in keeping the wheels of this sector moving. Truck drivers carry the majority of freight traffic in the country while mechanics service one of the largest automotive markets in the world. However, their skills, livelihood opportunities and socio-economic conditions need more focus.

At Castrol India Limited, we are committed to making a positive impact in the lives of truck drivers and mechanics by preparing them to face today's reality and leverage tomorrow's opportunity.

In line with this vision, Castrol India Limited now focusses on two key flagship CSR programmes:

- Programme for holistic development of truck drivers - Castrol Sarathi Mitra
- Programme for mechanics with an aim to strengthen skills development in automotive and industrial sectors, with a focus on technology – Castrol Eklavya

Additionally, Castrol India Limited continues to support community development initiatives around areas of operations and presence. The Company, from time to time, supports humanitarian aid activities in India, by providing relief and rehabilitation to people impacted by natural disasters.

Annexure I

DIVIDEND DISTRIBUTION POLICY

1. Objective

The objective of this Policy document is to articulate Castrol India Limited's Dividend Distribution Policy.

This Policy applies to all types of Dividend declared or recommended by the Board of Directors of the Company and seeks to conform to the requirements of Section 123 of the Companies Act, 2013, the notified rules thereof and other such provisions.

2. Philosophy

At Castrol we respect, and are committed to, our role towards shareholders and meeting our obligations to the communities in which we do business. We believe that sustainable growth can be achieved by creating wealth and jobs, developing useful skills, and investing time and money in people.

Castrol aims to share its prosperity with the shareholders by way of declaring dividend subject to liquidity and growth requirement.

3. The Regulatory Framework

Pursuant to Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, top 1000 Listed Companies in India as per Market Capitalization as on the preceding Financial Year shall formulate a dividend distribution policy.

4. Definitions

Unless repugnant to the context:

- 4.1 "Act" shall mean the Companies Act, 2013 including the Rules made thereunder.
- 4.2 Company or Castrol" shall mean Castrol India Limited.
- 4.3 "Chairman" shall mean the Chairman of the Board of Directors of the Company.
- 4.4 "Board" or "Board of Directors" shall mean Board of Directors of the Company.
- 4.5 "Dividend" shall mean Dividend as defined under Companies Act, 2013 or SEBI Regulations.
- 4.6 "SEBI Regulations" shall mean the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 together with the circulars issued thereunder, including any statutory modifications or re-enactments thereof for the time being in force.

5. Policy

5.1 Frequency of payment of dividend:

5.1.1 Castrol believes in rewarding its shareholders as and when the funds are available for distribution as dividend and generally strive to declare Interim Dividend at least once in a year and to recommend Final Dividend to the Members at the Annual General Meeting of the Company.

5.1.2 If the frequency of Interim Dividend is more than once, Castrol may not recommend Final Dividend for that year.

5.2. Internal and external factors that would be considered for declaration of dividend:

5.2.1 Castrol considers several Internal and External Factors before deciding declaration or recommendation of dividend.

5.2.2 The Internal Factors are adequacy of profits for last year and likely profits for next year, allocation of capital towards capital expenditure, probable mergers and acquisitions, loan repayments and working capital requirements.

5.2.3 The External Factors that would impact dividend payout are interest rate on surplus funds, taxation on distribution of dividend including taxation on dividend received from subsidiaries and dividend payout ratios of comparable companies.

5.3. The financial parameters that will be considered while declaring dividends:

5.3.1 In order to maximize corporate value over the long term, internal capital resources will be secured for measures that will increase corporate value. These measures include investments in R&D and Capital Investments, which are vital to future business expansion.

5.3.2 After taking into consideration the required investments for future growth and the level of free cash flow, surplus will be distributed to the shareholders to the maximum extent possible.

5.3.3 For dividends in each financial year, Castrol's policy is to enhance stable, uninterrupted profit distributions by taking into account consolidated results as well as indicators including dividends on equity (DOE), which is return on equity (ROE) multiplied by the payout ratio, although this is subject to the level of internal capital resources necessary.

5.3.4 Other Financial Parameters like Net Free cash generation after factoring internal parameters like Net Operating Profit after Tax, working capital and capital expenditure requirements, loan repayments and payouts towards any probable merger and acquisition will be considered by the Company before declaring or recommending dividend.

5.4. The circumstances under which their shareholders can or cannot expect dividend:

In an event where Company has undertaken a significant project requiring higher allocation of capital or Merger or Acquisitions which demands higher capital allocation or in event where the company profits are inadequate or company makes losses, the Company would like to use the Company's reserves judiciously and not declare dividend or declare dividend lower than its normal rate of dividend.

5.5. Policy as to how the retained earnings will be utilized:

5.5.1 The Company would like to retain the balances in Reserves and Surplus to give the required strength to the balance sheet for exploring leverage options for supporting growth.

5.5.2 The Company would be very cautious in declaring dividend out of past profits and reserves.

5.6. Transfer of Profits to Reserves:

The Company will not transfer any amount to reserves unless otherwise statutory.

5.7. Provisions regarding class of shares:

Currently, the Company has issued only Equity Shares and this Policy shall be applicable to Equity Shares.

As and when the Company issues other kind of shares, the Board shall amend this Policy along with Rationale at the time or before issue of other class of shares.

6. Procedure

6.1 The Chief Financial Officer in consultation with the Managing Director of the Company

shall recommend any amount to be declared as Dividend to the Board of Directors of the Company.

6.2 The Company Secretary & Compliance Officer of the Company shall ensure compliance of Insider Trading Rules of the Company and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

6.3 The Agenda of the Board of Directors where Dividend declaration is proposed shall contain the rationale of the proposal.

6.4 The Board of Directors shall approve the declaration or recommendation of Dividend after ensuring compliance of Act, SEBI Regulations and this Policy.

6.5 The Company shall ensure compliance of provisions of Act, SEBI Regulations and this Policy in relation to dividend.

6.6 Item on Confirmation of Interim Dividend(s) declared by the Board of Directors of the Company shall form part of Notice of every Annual General Meeting of the Company.

7. General

7.1 This Policy would be subject to revision/ amendment in accordance with the guidelines as may be issued by Ministry of Corporate Affairs and/or Securities Exchange Board of India from time to time, on the subject matter.

7.2 The Company reserves its right to alter, modify, add, delete or amend any of the provisions of this Policy.

7.3 In case of any amendment(s), clarification(s), circular(s) etc. issued by the relevant authorities, not being consistent with the provisions laid down under this Policy, then such amendment(s), clarification(s), circular(s) etc. shall prevail upon the provisions hereunder and this Policy shall stand amended accordingly from the effective date as laid down under such amendment(s), clarification(s), circular(s) etc.

- For the Independent Directors, the Committee shall assess the independence of Directors at the time of appointment/re-appointment and the Board shall assess the same annually as per the 'Policy on Independence of Directors'. The Board shall re-assess determinations of independence when any new interests or relationships are disclosed by a Director.
- The Independent Directors shall abide by the "Code for Independent Directors" as specified in Schedule IV to the Act. This policy is subject to the provisions of the Companies Act, 2013 and Listing Regulations issued by Securities and Exchange Board of India (SEBI) from time to time and that the Nomination and Remuneration Committee/Board to assess the Independence of Independent Directors of the Company according to the criteria of Independence laid down by the Companies Act, 2013 read with Listing Regulations.
- #### 5. Policy on Remuneration of Directors
- While determining Remuneration, the Committee shall take into account –
- a. Salary level of new Director/Employee is competitive, relative to the peer group.
 - b. Variable remuneration is awarded within the parameters and is subject to a requirement of continued service and corporate performance condition.
 - c. Where an existing employee is promoted to the Board, the Company will honour all existing contractual commitments including any outstanding share awards or pension entitlements.

- d. Where an individual is relocating in order to take up the role, the Company may provide certain one-off benefits such as reasonable relocation expenses, accommodation for a period following appointment and assistance with visa applications or other immigration issues and ongoing arrangements such as tax equalization, annual flights home, and housing allowance.
- e. Where an individual would be forfeiting valuable remuneration in order to join the Company, the Committee may award appropriate compensation based on evidence.

In making/revising remuneration package, the Committee would balance shareholder expectations, current best practice and the requirements of any new recruit.

The Committee may recommend to the Board, changes in remuneration terms of Directors, Key Managerial Personnel or Senior Management Personnel subject to the provisions of the Act and applicable Group policies, regulations of Service, Code of Ethics and Principles of legal compliance framed and adopted by the Company from time to time. The Directors and Key Managerial Personnel/Senior Management Personnel shall superannuate as per the applicable provisions of the regulation and prevailing policy of the Company. The Board of Directors will have the discretion to retain the Whole-time Director, Key Managerial Personnel and Senior Management Personnel in the same position/remuneration or revised remuneration after attaining the age of superannuation, for organizational development reasons.

The Committee will discuss succession plans for the Directors, Key Managerial Personnel and Senior Management Personnel in consonance with the Company's policies, as applicable from time to time.

(i) Remuneration for Independent Directors (IDs) and Non-Independent Non-Executive Directors (NED)

The remuneration should be sufficient to attract, motivate and retain world-class, non-executive talent. Remuneration practice should be consistent with recognized best practice standards for Chairman and NED remuneration. The aggregate annual remuneration payable to the NEDs is determined by shareholder resolution, subject to the limits of Law. The Non-Executive Directors nominated by Promoters are not entitled to receive any remuneration.

- a. Directors Sitting Fees – The NEDs are entitled to sitting fees as determined by the Board from time to time for attending Board/Committee meetings

thereof in accordance with the provisions of Act. Sitting fees amount may be subject to review on a periodic basis, as required. Within the parameters prescribed by law, the payment of sitting fees will be recommended by the Committee and approved by the Board.

- b. Profit-linked Commission – The profit-linked commission shall be paid to the NEDs within the monetary limit approved by the shareholders of the Company subject to the same not exceeding 1% of the net profits of the Company computed as per the applicable provisions of the Act. Amount of Commission would be determined considering the overall performance of the Company, attendance at the meetings of Board/Committees, Membership/Chairmanship of Committees and contribution by the respective NEDs. The Committee will recommend to the Board, the quantum of commission for each Director based upon the outcome of the evaluation process.
- c. The IDs and NEDs are not entitled to any stock options of the Company.

NEDs are supported through the Company Secretary's office. This support includes assistance with travel and transport, security advice (when needed) and administrative services. NEDs shall be issued letters of appointment that recognize that, their service is at the discretion of shareholders.

The quantum and structure of the Chairman's remuneration is set by the Board based upon a recommendation from the Nomination & Remuneration Committee. The Chairman is not involved in setting his own remuneration. The Chairman's office is not maintained by the Company however he is provided administrative support and all reasonable travelling, communication and other expenses incurred in carrying out his duties are reimbursed.

(ii) Remuneration for Managing Director (MD)/Whole-time Directors (WTDs)/Key Managerial Personnel (KMPs) and Senior Management Personnel (SMPs)

- a. The remuneration policy for the Managing Director (MD)/Whole-time Directors (WTDs)/KMPs and Senior Management Personnel (SMPs) shall be guided by five key principles.
 - i. Linked to strategy: A substantial proportion of remuneration is linked to success in implementing the Company's strategy.

- ii. Performance related: The major part of total remuneration varies with performance, with the largest elements being share based, further aligning with shareholders' interests.
 - iii. Long term: The structure of pay is designed to reflect the long-term nature of Castrol's business and the significance of safety and environmental risks.
 - iv. Informed judgement: There are quantitative and qualitative assessments of performance with the Committee making informed judgement within a framework approved by shareholders.
 - v. Fair treatment: Total overall pay takes account of both the external market and Company conditions to achieve a balanced, 'fair' outcome.
- b. The aim of this policy is to ensure that Whole-time Directors are remunerated in a way that reflects the Company's long-term strategy. Consistent with this, a high proportion of Directors' total potential remuneration has been, and will be, strongly linked to the Company's long-term performance. Salaries will normally be set in the home currency of the Director and reviewed annually. Remuneration shall comprise of two broad components; fixed and variable. Fixed portion comprises of Base pay and perquisites and variable pay termed as Performance Linked Bonus (PLB) comprises of a pre-determined maximum compensation that can be paid at the end of the performance year. Entire remuneration shall be paid as per the contract approved by the Board and terms approved by shareholders, as under:
- i. Fixed Component – This includes Salary and other perquisites/benefits. This provides base-level fixed remuneration to reflect the scale and dynamics of the business and to be competitive with the external market. Basic/ fixed salary is provided to all employees to ensure that there is a steady income in line with their skills and experience. In addition to the basic/fixed salary, the Company may provide employees with certain perquisites, allowances and benefits to enable a certain level of lifestyle and to offer scope for savings and tax optimization, where possible. The Company may also provide all employees with a social security net (subject to limits) by covering medical expenses and hospitalization through re-imbursements or insurance cover and accidental death and dismemberment through personal accident insurance.
 - ii. Performance Linked Bonus (PLB) – The specific amount payable to the MD/EDs would be based on performance as evaluated by the Board. It provides a variable level of remuneration dependent on short-term performance against the annual plan. Total overall Bonus is based on performance relative to measures and targets reflected in the annual plan, which in turn reflects Company's strategy.
 - iii. Retirals in the form of contribution to Provident Fund, Superannuation and Gratuity be paid as per statutory requirements.
 - iv. Based on the organizational need for retaining high performing employees and also those who are playing critical roles, from time to time, certain retention features may be rolled out as part of the overall compensation package. These may take form of Retention Bonuses, group Share Value Plan etc.
 - v. Severance Pay may be awarded (under supervision and with approval of the Committee) to the eligible MD/WTDs/ KMPs/SMPs in case of major organizational structuring(s).
 - vi. Long Term Incentives may be awarded (under supervision and with approval of the Committee) to the eligible MD/WTDs/ KMPs/SMPs based on their contribution to the performance of the Company, relative position in the organization, and length of service.
- c. Annual Compensation Review – The compensation review year will be financial year of the Company. The annual compensation review, as a part of the performance management system cycle, shall be guided by Industry/business outlook, employee differentiation based on individual performance rating achieved during the applicable performance year.
- ## 6. Board Evaluation
- a. The Board is committed to assessing its own performance as a Board in order to identify its strengths and areas in which it may improve its

functioning. Towards this end, the Committee shall establish the criteria and processes for evaluation of performance of Individual Directors, Chairperson of the Board, the Board as a whole and the Committees of the Board and recommend the same to the Board.

- b. The Board is responsible for monitoring and reviewing of the Board Evaluation framework.
- c. The Committee shall
 - i. formulate criteria for evaluation of performance of Independent Directors and the board of Directors;
 - ii. carry out evaluation of every Director's performance;
 - iii. determine whether to extend or continue the term of appointment of the independent Director, on the basis of the report of performance evaluation of independent Directors.
- d. The performance evaluation shall take place annually. It shall be the responsibility of the Chairperson of the Committee to organize the evaluation process.
- e. The appointment/re-appointment/continuation of Directors on the Board shall be subject to the outcome of the yearly evaluation process.
- f. The process and criteria for evaluation shall be guided by the "Guidance Note on Board Evaluation" issued by SEBI (No. SEBI/HO/CFD/CMD/CIR/P/2017/004 dated January 5 2017), applicable provisions of the SEBI Listing Regulations, 2015 and the Act and amendments/modifications thereto made from time to time.

7. Meeting of Independent Directors

The Independent Directors of the Company shall hold at least one meeting in a year, without the attendance of Non-Independent Directors and members of the management.

Such meeting shall:

- a. review the performance of Non-Independent Directors and the Board as a whole;
- b. review the performance of the Chairperson of the Company, taking into account the views of Executive Directors and Non-Executive Directors;
- c. assess the quality, quantity and timeliness of flow of information between the Company

management and the Board that is necessary for the Board to effectively and reasonably perform their duties.

The Independent Directors may call such meeting(s) at any point of time as desired.

8. Board Diversity Policy

1. The Board Diversity Policy aims to set out the approach to achieve diversity on the Board of Directors of the Company. Building a diverse and inclusive culture is integral to the success of Company. Ethnicity, age and gender diversity, underpinned by meritocracy are areas of strategic focus for the employee base and the same principle is applied to the composition of Board.

2. Policy Statement

The Board of Directors shall comprise of Directors having expertise in different areas/ fields like Strategic Planning, Finance, Law, Sales, Engineering or as may be considered appropriate. In designing the Board's composition, Board diversity shall not be limited to gender, age, cultural and educational background, ethnicity, professional experience, skills and knowledge. The Board shall have at least one Board member who has accounting or related financial management expertise and at least one woman Director.

The Board recognizes the benefits that diversity brings to the Board. In considering the composition of the Board, Directors will be mindful of:

- a. Diversity: ensuring the Board and the Company reflects the global communities in which it works;
- b. Inclusiveness: creating an environment where all board members, employees and business partners are valued and can give of their best;
- c. Meritocracy: ensuring that Board appointments are made on the basis of merit alone.

The Board delegates the search and nomination of new Directors to the Committee. When considering the nomination of new Directors, the Committee will evaluate the balance of skills, knowledge and experience on the Board in order to identify the capabilities desirable for a particular appointment. Such evaluations will also consider the diversity the individual brings to the overall Board and will aim to ensure as diverse a mix as possible.

THE ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY

[Pursuant to The Companies (Corporate Social Responsibility Policy) Rules, 2014]

1. Brief outline on the CSR policy of the Company

At Castrol India Limited (“CIL”), we believe that we have a responsibility to bring enduring positive value to communities we work with. In line with our core theme to keep India moving, we have and will continue to build enduring and engaging relationships with key stakeholders in the mobility sector.

Truck drivers and mechanics are two key partners who play a significant role in keeping the wheels of this sector moving. Truck drivers carry the majority of freight traffic in the country while mechanics service one of the largest automotive markets in the world. However, their skills, livelihood opportunities and socio-economic conditions need more focus.

At CIL, we are committed to making a positive impact in the lives of truck drivers and mechanics by preparing them to face today’s reality and leverage tomorrow’s opportunity.

Vision:

Transforming the lives of truck drivers and mechanics towards a sustainable livelihood and building pride in their professions.

Mission:

To prepare truck drivers and mechanics in India for today’s reality and tomorrow’s opportunity by:

- i. Enabling sustainable livelihoods and making them future-ready through upskilling
- ii. Providing opportunities for socio-economic growth through financial literacy and entrepreneurship development
- iii. Building pride in their professions through multiple programmatic interventions and platforms

In line with this vision, CIL now focusses on two key flagship CSR programmes:

- Programme for holistic development of truck drivers - Castrol Sarathi Mitra
- Programme for mechanics with an aim to strengthen skills development in automotive and industrial sectors, with a focus on technology – Castrol Eklavya

Additionally, the Company continues to engage with

communities around areas of operations and presence through various community development programmes focused on education and upskilling for youth and women.

The Company, from time to time, supports humanitarian aid activities in India, by providing relief and rehabilitation to people impacted by natural disasters.

The Company follows an approach of initiating pilot projects to test on-ground relevance with leading non-governmental organisations (NGOs). Based on stakeholder response, partner experience and contribution to agenda, the projects are accordingly scaled up or redesigned. Encouraged by the response, the portfolio continues to grow with expanding partnerships and investments.

Annexure V

PARTICULARS OF CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNING AND OUTGO REQUIRED UNDER THE COMPANIES (ACCOUNTS) RULES, 2014

A) Conservation of Energy

I. Capital investment on energy conservation equipment

Following are the key investments made for energy conservation in manufacturing plants

- INR 20 lacs in compressor & pump replacement
- INR 38 lacs for fuel conversion from HSD to PNG
- INR 20 lacs in solar tubes & enhancing natural light on the shop floor
- INR 20 lacs in energy efficient UPS

II. Steps taken or impact on conservation of energy

- Rationalization of EHT operations by changing temperature set points in storage tanks
- Replacing water feed tank, insulation, servicing of condensate recovery system, optimizing air fuel ratio and installation of energy efficient feedwater pumps to reduce Specific Fuel Consumption in boiler operations at Patalganga by 15%
- Lower temperature blending across 30% of the portfolio thereby reducing the heating requirement in manufacturing
- Consolidated energy audit across manufacturing to optimize energy conservation across all process end to end, with a multiyear implementation plan.
- Evaluation of increased usage of green energy across manufacturing plants

III. Sustainability

- Continuous optimization of flush oil generated in the manufacturing process & ensuring maximum reuse of the same across portfolio
- Collection of equivalent plastic from the market & compliance to the Extended Product Responsibility guidelines.
- Water audit in Silvassa through National Productivity Council, installation of sprinkler

system to reuse ETP treated water for gardening and eliminating major sources of water leakage in the plant

- Optimizing bottle design for upto 20% less plastic consumption, also resulting in reduction of logistics footprint
- Optimizing carton design to use 17% less paper, also saving water consumption & trees upstream in the overall carton manufacturing process. Enabling label suppliers to recycle label liner generated post label application.

B) Technology Absorption

(i) Efforts made towards technology absorption

- The Company continued to derive sustainable benefits from technology with the analytical testing and blending laboratory facilities operating out of Silvassa and the technology deployment activities carried out from Mumbai.
- This was another year where the Company's product development capability helped the business meet pressing consumer needs, partner closely with its customers and leverage strengths of its global affiliates to meet the needs of the local India market.
- The Company launched products throughout financial Year 2021 in motorcycle, passenger cars, commercial vehicles, Industrial & HD spaces, with superior benefits to consumers. The company continued with its introduction of BS VI ready products across all spaces which will help the country with its low carbon future.
- India government leapfrogged BS V and moved directly from BS IV to BS VI giving the industry about 4 years for the change which took about 9 years in Europe. BSVI came into effect from 1 April 2020 in India to keep a check and control over release of air pollutants from equipment using internal combustion engines including vehicles. Company also launched BS VI ready products for new next generation cars in OEM space under its MAGNATEC portfolio. Molecule with DUALOCK technology cling to the surface, lock with each other and protect the critical engine parts. This helps provide 50% better protection from WARM-UP wear and STOP-

START wear, saves upto 50L fuel in a year. Thus giving non stop protection from every start.

- The following BSVI ready products in MAGNATEC portfolio were launched in market:
 - MAGNATEC STOP-START 0W-20
 - MAGNATEC STOP-START 5W-30
 - MAGNATEC SUV 5W-40
 - MAGNATEC STOP-START 0W-16
- The company continued to work with major local and global OEMs in motorcycles, passenger cars, commercial vehicles segments to develop products tailor made for their requirement.
- The company introduced POWER1 Ultimate range of fully synthetic motorcycles oils with 5-in-1 formula for bikes and Scooters. The product is crafted to help unlock ultimate performance for bike's engine through its unique 5-in-1 formula, that delivers the thrill of outstanding performance through five key benefits of Excellent acceleration, Excellent protection, Enduring performance, Smooth riding and Keeps engine cool. The company also worked on POWER1 Super Bike variants.
- Products were upgraded in terms of their specification across POWER1, CRB, MAGNATEC.
- Benefits derived like product improvement, cost reduction, product development or import substitution.
- Localization projects were carried out across the industrial and automotive portfolio looking at cost optimized formulations and raw materials.
- Company launched next generation rust preventive product with reduced VOC elements.
- Products were continuously made robust looking at the base oils, additive packages and solvents across formulations.
- Field trials were continued in India to generate performance data in local conditions to build claims.

(ii) Imported technology

- Automotive: High performance automotive lubricants were introduced into Indian market within the last 3 years: VECTON LONG DRAIN 15W-40 CK-4/ E9 proven up to 120,000KM ODI, MAGNATEC STOP-

START 0W-20 & 5W-30 with up to 50L fuel savings per annum.

- E-Fluids: Unlike passenger cars with combustion engines, which require a multi-speed transmission, the electric motor in an electric vehicle generates a constant torque almost independently of the speed. It is important to note that the transmission oil plays an even more significant role in an electric vehicle than in combustion engines. The EV transmissions are developing from an electric motor with a separate electric gearbox to a combined system with increased demands on the EV fluids. The company continued to work with OEMs to develop e-fluids for their requirement. The company supplies e-fluids to MG motors and TATA.
- Industrial: High performance and metal working lubricants were introduced into the Indian market within last 3 years: Environment friendly products Hysol SL 35 XBB, Alusol SL 61 XB and Techniclean 80 XBC which delivers prolonged fluid life with an improved health and safety profile; Optitemp 6590, Optitemp XBT1LF, Optigear Synthetic CT 320, Molub Alloy 6080/460-1.5 for High Performance application, Tribol BW 32, Perfecto X series, Rustilo HL 01 etc. for other industrial applications.

(iii) Expenditure on R&D	(INR in Crores)
Capital	1.28
Recurring	3.97
Total	5.25

(C) Foreign Exchange Earnings and Outgo

1. Activities relating to Export

There were no significant exports by the Company during the year. However, some quantities of the products were exported to Vietnam, Shenzhen, Thailand and Belgium.

2. Earnings and Outgo	(INR in Crores)
Foreign Exchange Earnings	63.41
Foreign Exchange Outgo	1047.69

Board Meetings

The Board meets at regular intervals to discuss and decide on the business policy and strategy of the Company apart from other Board business. A tentative annual calendar of the Board and Committee meetings is circulated to the Directors well in advance to facilitate them to plan their schedule and to ensure meaningful participation in the meetings. However, in case of a special and urgent business need, the Board's approval is taken by passing resolutions by circulation, as permitted by law, which are noted and confirmed in the subsequent Board meeting.

The notice of Board meeting is given well in advance to all Directors. Usually, meetings of the Board are held in Mumbai. The agenda and pre-reads are circulated well in advance before each meeting, to all Directors, for facilitating effective discussion and decision making. Considerable time is spent by the Directors on discussions and deliberations at the Board meetings.

The Company Secretary & Compliance Officer is responsible for preparation of the agenda including the background papers and convening of the Board and Committee meetings. The Company Secretary & Compliance Officer attends all meetings of the Board and its Committees, advises/assures the Board on compliance and governance principles and ensures appropriate recording of minutes of the meetings.

In addition to the formal meetings, interactions outside the Board meetings also take place between the Chairman and the Independent Directors and with other Directors.

During the financial year, total 5 (five) Board meetings were held i.e. on 1 February 2021, 26 April 2021, 18 June 2021, 2 August 2021 and 29 October 2021 respectively. The maximum interval between any two meetings was within the maximum allowed gap pursuant to the

Companies Act, 2013 and the SEBI Listing Regulations read with the Circulars issued by MCA and SEBI with respect to increase in the gap and extension for holding meetings pursuant to COVID-19 pandemic.

Independent Directors' Meeting

During the year, the Independent Directors of the Company met separately on 29 October 2021 without the presence of other Directors or management representatives, to review the performance of Non-Independent Directors, the Board and the Chairman of the Company and to assess the quality, quantity and timeliness of flow of information between the management and the Board.

Directors' Induction and Familiarization

The Board members are provided with necessary documents/brochures, reports and internal policies to enable them to familiarize themselves with the Company's procedures and practices. Periodic presentations are made at the Board and the Committee meetings, on business and performance updates of the Company, global business environment, business strategy and risks involved.

Upon appointment, Independent Directors and Executive Directors are issued letters of appointment setting out in detail, the terms of appointment, duties, responsibilities and expected time commitments. The induction process for Non-Executive Directors and Independent Directors include interactive sessions with the management, business and functional heads, visits to markets/plants, etc.

The Independent Directors, from time to time, request the management to provide detailed understanding of any specific project, activity or process of the Company. The management provides such information and training either at the meeting of Board of Directors or otherwise.

Board Evaluation

The Nomination and Remuneration Committee has specified the criteria for performance evaluation of the Directors, the Board and its Committees. The Board is committed to evaluating its own performance as a Board and evaluating performance of Individual Directors, in order to identify strengths and areas in which it may improve functioning. Further, overall effectiveness of the Board is measured to decide the appointments and re-appointments of Directors. The details of annual Board evaluation process for Directors have been provided in the Board's Report.

Following are the major criteria applied for performance evaluation:

1. attendance and contribution at Board and Committee meetings and application of his/her expertise, leadership qualities and knowledge to give overall strategic direction for enhancing the shareholders' value.
2. his/her ability to create a performance culture that drives value creation and a high quality of debate with robust and probing discussions.
3. his/her ability to monitor the performance of the management and satisfy himself/herself with integrity of the financial controls and systems in place, etc.

Independent Directors' performance is evaluated also based on his/her help in bringing an independent judgment to bear on the Board's deliberations especially on issues of strategy, performance, risk management, resources, key appointments and standards of conduct and his/her ability to bring an objective view in the evaluation of the performance of the Board and the management.

Directors seeking appointment / re-appointments

The details of Directors seeking appointments / re-appointments forms a part of the Notice of the 44th Annual General Meeting of the Company.

3. Committees of the Board

The Board Committees are set up to carry out clearly defined roles which are considered to be performed by members of the Board, as a part of good governance practice. Minutes of the proceedings of Committee meetings are circulated to the Directors and placed before Board meetings for noting. The Board has currently established the following Committees:

(A) Audit Committee

Members of the Audit Committee have wide exposure and knowledge in areas of finance and accounting. The terms of reference of the Audit Committee have been drawn up in line with Regulation 18 of the SEBI Listing Regulations and Section 177 of the Companies Act, 2013.

The Audit Committee, *inter alia*, provides reassurance to the Board on the existence of an effective internal controls environment.

The terms of reference of the Audit Committee are briefly described below:

1. oversight of the Company's financial reporting process and the disclosure of its financial information to ensure that the financial statement is correct, sufficient and credible;

2. recommending to the Board, the appointment, re-appointment and, if required, the replacement of the statutory auditor and the fixation of audit fees;
3. reviewing and monitoring the auditor's independence and performance;
4. recommending to the Board, the appointment and remuneration of cost auditor;
5. approval of payment to statutory auditor for any other services rendered by the statutory auditor;
6. reviewing with the Management, the annual financial statement and quarterly financial information;
7. reviewing with the Management, performance of internal auditor and adequacy of the internal control systems;
8. reviewing the adequacy of internal audit function, including the structure of the internal audit department, staffing and frequency of internal audit;
9. discussing with internal auditor any significant findings and follow-up thereon;
10. reviewing the findings of any internal investigations by the internal auditor into matters where there is suspected fraud or irregularity or a failure of internal control systems of a material nature and reporting the matter to the Board;
11. discussion with statutory auditor before the audit commences;
12. to look into the reasons for substantial defaults, if any, in the payment to the depositors, debenture holders, shareholders (in case of non-payment of declared dividends) and creditors;
13. to review the functioning of the whistle blower mechanism;
14. approval or any subsequent modification of transactions of the Company with related parties;
15. to evaluate internal financial controls and risk management systems; and
16. approval of appointment of Chief Financial Officer (CFO).

As on 31 December 2021, the Audit Committee comprises six (6) members viz. Mr. Uday Khanna, Mr. R. Gopalakrishnan, Ms. Sangeeta Talwar, Mr. Rakesh Makhija, Mr. A. S. Ramchander and Mr. Udayan Sen. Mr. Uday Khanna is the Chairman of the Committee.

SECTION: PRINCIPLE-WISE PERFORMANCE**Principle 1 – Ethics, Bribery and Corruption, Transparency****Code of Conduct**

The Company's Code of Conduct (also referred to as the 'Code') is a public statement that the Company is committed to doing the right thing.

The Code is based on the Company's values and clarifies the ethics and compliance expectations for everyone who works for the Company. The Code includes sections on operating safely, responsibly and reliably; Company's people; Company's business partners; the governments and communities the Company works with and its assets and financial integrity. The Code includes references to Company's relevant internal standards including anti-bribery and anti-corruption, anti-money laundering, competition and anti-trust laws and trade sanctions. The Company conducts due diligence on all its vendors and customers in accordance with these policies.

To Whom the Code of Conduct applies to

Our Code applies to all bp employees, officers, and members of the Board. Business partners, including operated joint ventures and third parties, can have a direct impact on our reputation through their behavior. For this reason, we want to work with business partners that share our commitment to safety and ethics and compliance. We expect and encourage all our contractors and their employees to act in a way that

is consistent with our Code. We will take appropriate measures where we believe they have not met our expectations or their contractual obligations.

The Company collaborates closely with all stakeholders in order to initiate and foster fair business practices in all spheres of business to create and sustain an ethical and transparent environment.

Certifying the Code

Each year, the Company engages its employees in Code of Conduct certification. It is embedded in the annual performance contract of all employees to comply with the Code.

Fostering a 'Speak Up' culture

The Company is committed to providing an open environment where its employees, contractors and other stakeholders are comfortable speaking up whenever they have a question about the Code or think that laws, regulations or the Code may have been breached. All stakeholders are encouraged to raise concerns with the Company's management team or the helpline number available to all stakeholders.

In the financial year 2021, a total of 10 complaints, issues and concerns were reported under the Speak up policy of the Company and were investigated/ are under investigation in accordance with the Code of Conduct protocols of the Company.

For details on shareholders' / investors' complaints, refer to the Corporate Governance Report on Page 50.

Principle 2 – Products Lifecycle Sustainability

Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

All three CIL manufacturing plants are certified to the Environment Management System (ISO 14001:2015), Occupational Health and Safety Management System (ISO 45001: 2018) and Quality Management System Standard (ISO 9001:2015), with two of the plants certified with the Automotive Quality Management System IATF 16949:2016. Our Silvassa plant received a GOTS (Global Organic Textile Standards) certification in 2021.

The Company's commitment to sustainability is demonstrated through maintaining products like Castrol VECTON RX fuelsaver with 3% fuel efficiency and Castrol VECTON LONG DRAIN CK4 proven up to 120,000KM ODI.

The Company also launched EV fluids to cater to the growing requirement of electric mobility in India. The company continues to work with OEMs to develop EV fluids for their requirement. The Company currently supplies EV fluids to two of India's leading passenger car OEMs and is exploring options to supply EV fluids to manufacturers of two wheelers.

In the Industrial segment, the Company has environment friendly products like Hysol SL 35 XBB, Alusol SL 61 XB and Techniclean 80 XBC which deliver prolonged fluid life with an improved health and safety profile. In greases, we have environment friendly Mine Grease for Construction and Mining space and Molub Alloy 6080/460-1.5 for the steel industry. We are also offering our sustainable carbon neutral product Optigear CT 320 for wind industry.

The Company launched BS-VI ready products for new next generation cars in the OEM space under its MAGNATEC portfolio. Molecules with DUALOCK

technology cling to the surface, lock with each other and protect the critical engine parts. This helps provide 50% better protection from WARM-UP wear and STOP-START wear, saves upto 50 litres of fuel in a year, thus giving non-stop protection from every start.

The following BS-VI ready products were launched in 2021 in India under the MAGNATEC portfolio:

- MAGNATEC STOP-START 0W-20
- MAGNATEC STOP-START 5W-30
- MAGNATEC SUV 5W-40
- MAGNATEC STOP-START 0W-16

The raw material sourcing and finished goods distribution systems of the company continue to be optimized with a focus on ensuring as much bulk consolidation as possible. The focus continues to be on maximizing high-capacity vehicles for delivering the products.

The Company has taken various energy efficiency measures at its plants including - consolidated energy audit to optimize energy conservation across all processes end to end, with a multi-year implementation plan, reduced temperature blending across 30% of the portfolio thereby reducing the heating requirement in manufacturing, rationalization of EHT operations by changing temperature set points in storage tanks and multiple efficiency measures to reduce Specific Fuel Consumption in boiler operations by 15% at its Patalganga plant in Maharashtra.

With continued focus on sustainability, there is continuous optimization of flush oil generated in the manufacturing process and ensuring maximum reuse of the same across our portfolio.

Equivalent plastic is collected from the market as per compliance to the Extended Product Responsibility guidelines (EPR) guidelines.

Installation of sprinkler system to reuse ETP treated water for gardening and eliminating major sources of water leakage in the plant is being undertaken at Silvassa.

The Company also optimized its bottle packaging design, thus achieving upto 20% less plastic consumption, also

resulting in reduction of logistics footprint, optimizing carton design to use 17% less paper, thus contributing to reduction in water consumption & trees upstream in the overall carton manufacturing process and enabling label suppliers to recycle label liner generated post label application.

Principle 3 – Employees’ well-being

Businesses should promote the well-being of all employees

The Company’s approach for managing its core asset i.e. its people is founded on the following beliefs:

- Our employees’ safety is our first priority
- bp grows best by growing its own people
- Our people have potential - we need to develop it
- Diversity matters - so does inclusion
- We need the best talent and need to meet the expectations of the best talent.

In its constant endeavor to be a contemporary organization, the Company reviews its policies and benchmarks them against the best in class to ensure that the Company’s agenda on employee well-being and engagement is serviced effectively. The Company gets feedback from its employees through an annual internal Pulse survey.

The last survey indicated that overall employee engagement score for the Company was in the top quartile indicating very good engagement.

Harmonious and cordial industrial relations are prevalent at all three of the Company’s plants. As on 31 December 2021, Castrol India Limited had 469 permanent employees, of which 80 were female employees. In addition, the Company employed 92 contract staff and 162 workmen. The Company does not have any employees with permanent disability. Workers’ trade unions are active in each of the plants and approximately 26% of permanent employees are members of these trade unions. In summary, the Company’s people agenda is focused on the following principles:

1. Health, Safety, Security and Environment (HSSE)

HSSE is at the heart of everything that the Company does and is a key enabler of its business strategy. The Company is committed to the goal of ‘no accidents, no injury to people and no damage to the environment’. Safety is the Company’s first priority and the Company’s goal is to ensure that everyone who works for Castrol goes home safely every day.

The Company expects every employee to be a safety leader. Road safety continues to be a focus area for the Company and thus all professional drivers (those driving on company business) undergo rigorous defensive driver training and all road safety related incidents, however minor, are reported and investigated in an attempt to adopt lessons learnt. The same driving standards are used while working with contractors engaged in transporting raw material and finished goods.

All new employees, permanent and contract undergo HSSE training within five days of joining the Company. The Company has fully implemented a Global Operating Management System (OMS) to continuously improve the delivery of safe, responsible and reliable operations. OMS has helped the Company to manage four key elements of operations – People, Plants, Processes and Performance effectively. The Company has been regularly providing annual preventive health checks for all employees. Furthermore, to contribute to employees’ better management of work-life balance, the Company has taken several initiatives including:

Employee wellbeing programme: This is a personal, confidential and professional counseling service for employees and their family members provided by professional consultants through telephone, email or face-to-face in English and regional languages and available at all times. Employee well-being took a centerstage in 2021 at Castrol.

Along with health and physical well-being we also ensured we helped employees remain mentally and emotionally fit and agile.

Agile working: A core component of the Company's diversity and inclusion ambition is agile working which encompasses a wide range of working options enabling employees to work flexibly at full potential. Part-time working, job share, homeworking and flexible hours are some options granted under this initiative.

Career break and Maternity/Paternity leave: These benefits are available to employees of the Company irrespective of their levels.

Workplace facilities: The Company aims to provide an ergonomically safe and comfortable work environment at all offices and plants. In addition, there are fun activities conducted periodically to engage teams, recognize people and celebrate birthdays and welcome new joiners across all offices.

2. Leadership development

Building people's functional capability is one of the key elements of the Company's investment in people. There is an emphasis on employee engagement and building line manager and employee capability via trainings covering a range of key people and Human Resource (HR) processes. Robust talent management sessions are conducted with focus on managers having talent conversations with their teams. All eligible employees captured their development needs in a structured format following talent conversations with their line managers. Internal candidates filled in 42% of the vacancies the Company had in 2021.

Global Capability Week was introduced for the very first time in the Company in 2017. We have continued with this theme since then. In 2021, during the lockdown and continued work from home we used this as an opportunity to upskill our employees on various technical and behavioral topics.

Our employees spent a total of 2,658 hours attending various virtual sessions on technical, behavioral and leadership aspects. Our plant technicians focused on safety related aspects when the plants reopened. Various teams came together to remodel the safety protocols in the plants under guidelines by bp and the local laws. Employee capability continued to form a critical pillar of the Company's development architecture.

The Company continued to actively drive Ethics & Compliance via mandatory training programs and by organizing focused sessions on Ethics & Compliance, stressing the importance of key themes including Speak Up/Listen Up, Always do the right thing, zero-retaliation and zero tolerance to non-compliance. We continued to monitor our Cyber Security scores and generate cyber awareness across all teams and locations.

3. Diversity, Equity and Inclusion (DE&I)

The Business Resource Groups (BRGs) on DE&I is employee-initiated and employee-driven and works towards making the Company more inclusive by helping to deliver its DE&I ambition. We also have specific initiatives in the country which help us attract diverse employees. We also conducted specific learning series for line managers to build their capability around respect and inclusion.

The Company continued to invest in leadership development through the flagship leadership offer for all team leaders and managers. We introduced 'Purposeful Connections', a new programme which aims at developing better working relations within the team creating trust and empathy between team members. There were no complaints relating to child labour, forced labour or involuntary labour in the last financial year.

4. Sexual Harassment Prevention and Grievance Handling Policy

The India sexual harassment prevention and grievance handling policy (the "Policy") was rolled

out in April 2014, this provides guidance around the process to raise such a grievance and methodology for recourse and redressal of the grievance. While the Policy is based on the 'The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013', which deals specifically with acts committed against women, Castrol India Limited follows this policy irrespective of gender.

Effective 15 September 2019, there were changes in the constitution of the Internal Committees (ICs) for the various locations in India. We have 4 employees and one external member representing the Internal Committee. We also now have coopted members representing each location across India. In 2021, there was one training session run for the POSH committee, P&C and some of the leaders to refresh the awareness thereby creating a stronger committee.

Principle 4 – Stakeholder Engagement Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalized

The company through its partners interacts and engages with truck drivers who form an important part of India's economic value chain, moving goods across the country. Castrol contracts its logistics through Logistics Services companies who operate approx 750 trucks for Castrol on a daily basis, employing close to 2,000+ truck drivers. With a vision to improve the drivers' safety & wellbeing we work very closely with our partners to engage, train and support drivers to stay safe on road. Programs like Defensive Driver Training (DDT) and several risk-based trainings on road safety were organised throughout 2021 to improve safety mindset and safe driving behaviours.

Road Safety Month was celebrated across all the locations from January to February 2021. More than 2,000 hours of safety focused engagements were done with drivers across the locations.

As a big chunk of the driver community found it difficult to get themselves registered for COVID-19 vaccination,

we connected with more than 700 drivers and helped 400+ truck drivers to get registered for vaccination on the COWIN portal. This was in addition to awareness sessions on the importance of vaccine and other COVID-19 controls.

Along with the CSR team we felicitated the driver community for their dedication to duty and service to people during the COVID-19 pandemic lockdown period. Around 400 drivers operating for Castrol logistics partners were recognised in the same program.

Across our manufacturing sites, we have contractors who provide us services in the areas of housekeeping, engineering & construction, material handling and other project activities. As the country was reeling under the impact of COVID-19, Castrol India Limited undertook various engagement sessions for its contractors and their workforce with support of local authorities to promote vaccination drives.

Castrol India Limited worked closely with local authorities and JV partners to offer free vaccination for all its contractors at its three manufacturing plants. A total of 650+ contractors were vaccinated through these vaccination drives ensuring close to 93% of contractors being fully vaccinated.

Our employees also participated in various activities to contribute towards making a positive impact on local communities and the environment. At our Silvassa plant our employees led a community awareness session on Water, Sanitation, Health and Personal Hygiene as a part of the 'Ujjwal Kal' program. On World Environment Day 2021, we conducted multiple engagement activities on the theme of 'Ecosystem Restoration' for our employees & contractors.

Principle 5 – Businesses should respect and promote Human Rights

A formal Human Rights policy was launched in 2014 and has been revised in 2020 which applies to every employee at bp / Castrol.

There are many ways in which human rights issues might be associated with our activities, including impacts on

people's livelihoods, access to water, land and resources, workforce rights – including modern slavery, and the actions of the security personnel who protect our sites.

Our actions and operations can also bring about major benefits and improvements to individuals, communities and society. bp wants to contribute to sustainable development and is working to do more to support the delivery of the UN Sustainable Development Goals (SDGs). We also recognize the importance of a just transition as envisaged by the Paris Agreement – one which delivers decent work, quality jobs and supports the livelihoods of local communities. We aim to actively advocate for policies that support net zero. This includes encouraging the use of finance and revenues from carbon pricing to support the just transition.

To deliver our purpose we must continue to work to a consistent and high set of standards wherever we operate in the world. There will be instances where we won't get it right, and we will need the support and challenge of others to help us make a positive, and sustainable difference to people's lives. The policy document (link below) further details our Commitment, Delivery and Governance which has been put in place.

Principle 6 – Business should respect, protect, and make efforts to restore the environment

The Company continues to focus on the goals: 'no accidents, no harm to people and no damage to the environment'. The Company has been fully committed to comply with all applicable laws and requirements and maintains the highest standards of Occupational Health, Safety and Environment. The Company has defined and implemented an HSSE policy which uniformly applies to all relevant stakeholders. Safety and environmental performance is integral to the business performance of the Company.

The Company has adopted a strategy to advance in the area of energy transition by providing products and services that help business and consumers lower their carbon footprint and use of resources. The experience and expertise the Company have acquired over decades inform its actions, future plans and belief that, to meet global climate goals improving energy efficiency is vital.

The Company is driven to help our customers to minimise waste – wasted energy through friction, down time etc. More information is available on the Company's website in the section on sustainability:

https://www.castrol.com/en_in/india/home/castrol-story/sustainability.html

All manufacturing plants of the Company are certified by internationally recognised and certified bodies for Environment Management System (ISO 14001:2004) and Occupational health and safety management systems (ISO 45001: 2018) and ISO 9001:2008 (Quality Management System Standard).

Regular internal and external audits help to continually improve the process and make the Company's processes more efficient. HSSE performance of the company is being reviewed monthly by the Country Leadership Team. The Company has initiatives to address environmental aspects from its manufacturing sites e.g. Non usage of chemicals that can result in Ozone Depletion.

Sites have programmes in place to track energy and water consumption and work towards its conservation. Sites have developed a programme on waste management focusing on 3Rs i.e. Reduce, Reuse and Recycle. The company maintains a risk register with all potential environmental, safety, health and business risks. These risks are assessed, and barriers put in place to eliminate, reduce and mitigate risk to 'as low as reasonably practicable' level, and the same is monitored regularly. The register is reviewed annually and endorsed by the leadership team.

Apart from this, the manufacturing plant sites have an elaborate oil spill plan which includes possible scenarios

of oil leakage and spill with necessary controls. The same is reviewed annually.

The Company ensures safe, systematic, reliable and environmentally friendly operations through its Operating Management System (OMS). The effectiveness of implementation and compliance of OMS is being checked through systematic process called Field Inspection lead by the leadership team. The Company is also taking various initiatives to reduce environment footprint of its operations.

The Company has taken various measures to ensure Resource Conservation including:

- Using energy efficient technology like solar and LED lights to reduce energy consumption and move towards cleaner energy.
- Using fuel additive with furnace oil to obtain best fuel efficiency, boiler condensate recovery and maintenance resulting in lower furnace oil consumption
- Optimizing power and utility operations
- Reduction of Waste through recycle of cleaning oils.
- Adopting technologies and cleaner fuel for its heating requirements.
- Recycling treated water from effluent treatment plant for overall water conservation.

The Company is also committed to continually work on optimizing logistics' processes to bring in efficiency and reduce carbon footprint as also to reduce the road safety risks.

The Company's environmental performance has been recognized and appreciated by various stakeholders and bodies. The Company has complied to all necessary statutory permits and has not received any show cause/legal notices from any State or Central Pollution Control Board.

Principle 7 – Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

The Code of the Company provides that the Company will not directly take part in any political activity, but

it could engage in policy debates in various ways including lobbying, on subjects of legitimate concern to the Company, its staff and the communities in which it operates. This is done in a highly regulated manner and only by authorized officers of the Company.

The Company does not take part directly in any activity promoted by any political party and does not make any political contributions – in cash or in kind.

The Company aims to engage constructively with local Governments wherever it operates, as well as to build constructive relationships with the media fraternity.

The Company complies with all applicable laws and regulations that prohibit bribery and corruption, and ensures that its suppliers, contractors, and business partners if any do the same. All business partners who represent or act on behalf of the Company are asked to comply with applicable anti-bribery and anti-corruption laws. Wherever appropriate, they are required to demonstrate and disclose to the Company that they have appropriate programmes in place to prevent bribery and corruption. The Company is represented in many industry and business associations which work in relevant areas including:

- Federation of Indian Chambers of Commerce and Industry (FICCI)
- Bombay Chamber of Commerce and Industry (BCCI)
- Confederation of Indian Industry (CII)

Principle 8 – Businesses should support inclusive growth and equitable development

At Castrol India, we believe that we have a responsibility to bring enduring positive value to communities we work with. In line with our core theme to keep India moving, we have and will continue to build enduring and engaging relationships with key stakeholders in the mobility sector.

In furtherance of this, the Company's Corporate Social Responsibility (CSR) policy articulates the vision and guidelines for achieving these objectives. The policy applies to all CSR activities of the Company in India and is always underpinned and guided by the code of conduct.

At Castrol India, we are committed to making a positive impact in the lives of truck drivers and mechanics, two key partners who play a significant role in keeping the wheels of this sector moving. Truck drivers carry most of the freight traffic in the country while mechanics service one of the largest automotive markets in the world. However, their skills, livelihood opportunities and socioeconomic conditions need more focus.

With a vision of transforming the lives of truck drivers and mechanics towards a sustainable livelihood and pride for their professions, Castrol India CSR initiatives focus on two key flagships programmes:

Programme for holistic development of truck drivers – Castrol Sarathi Mitra

The programme aims at holistically improving lives of truck drivers through interventions that enable a sustainable livelihood and opportunities for socioeconomic growth. The programme launched in 2017 focuses on:

- Road safety training
- Financial literacy training
- Eye check-ups with distribution of corrective glasses and overall wellbeing of truck drivers

Trainings are also provided on Castrol Truck Aasanas: yoga postures which were specifically developed keeping in mind the tough and demanding live of truck drivers. Engagement with families of Castrol Sarathi Mitra drivers through the Castrol Family Connect programme creates a sense of pride in the drivers and their family members.

Since 2020, the programme is being delivered in hybrid model - classroom based training and virtually. Additionally, sessions on health and hygiene practices, linkages to schemes introduced by government, tele-counselling and stress management are being provided to support the drivers and their family members during these pandemic situations. Castrol Sarathi Mitra programme has trained over 125,000 truck drivers across the country till date.

Programme for mechanics with an aim to strengthen skill development – Castrol Eklavya

Launched in 2009, the Castrol Eklavya programme is one of the largest skilling initiatives in the automotive

industry in India aiming to deliver inclusive growth for mechanics, covering the basics and focusing on diagnostic skills. Over the years, the programme has evolved to cover more than 10 states in India and has expanded the curriculum to include digital content on technical skills, life skills, business skills and financial literacy training.

The training is aligned to National Skills Qualification Framework (NSQF) and incorporates trade wise competencies designed in the National Occupation Standard (NOS) by the automotive skill sector council.

Since 2020, the programme is being delivered in a hybrid model - classroom based training and virtually. Additionally, sessions on health and hygiene practices, linkages to schemes introduced by government, tele-counselling and stress management are also being provided to support the mechanics and their family members during these pandemic situations.

The Castrol Eklavya programme has trained over 225,000 mechanics across the country till date.

Other initiatives

Community development initiatives around areas of operations and presence

The Company continued to engage with the communities around its plant and other areas of presence through various community development programmes focused on upskilling and education.

- **Project Ujwal Kal** launched in Silvassa aims at promoting behavioral change among community members around various crucial social issues by providing information on important socio-economic matters, conducting awareness sessions and community engagement sessions like medical camps, trainings etc. Functional literacy training aims at increasing the level of functional literacy among illiterate/neo-literate adults. The motive is to help them in basic day to day functionality and to empower them against exploitation and harassment while performing these functions. School remedial learning programme in Silvassa and Patalganga aims at learning enhancement and holistic child

development. The programme is supported by school authorities, teacher involvement, active community outreach, parental involvement and extra-curricular activities to increase acceptability amongst students and parents.

- **'Two Wheels One Life'** is our programme for safe two-wheeler riding training for youth in and around Mumbai created awareness of safe two-wheeler driving techniques in more than 7,000 youth in and near the city. India's first mobile two-wheeler simulator was launched in 2018 as part of this programme.

The two-wheeler simulator which has been specially mounted on a mobile platform for ease of movement across locations helps in hands on training in the module which also includes classroom training, on wheel demonstration and on-wheel assessment followed by counselling for students possessing a valid license, a bike and helmet. This training programme is hugely encouraged by the Andheri RTO in Mumbai where the applicants for two-wheeler license must necessarily pass the on-wheel assessment on this simulator. During the pandemic, we were able to continue the programme and reiterate the importance of road safety through online mobilization and virtual training.

Humanitarian aid

During the second COVID-19 wave, the Company continued to support the government's efforts by providing oxygen concentrators and critical medical equipment to government hospitals across 3 states in the country. COVID-19 vaccine hesitancy support and awareness programme along with vaccination drive was also launched during the year in the communities around our areas of operation and presence.

With the objective of creating a sustainable and meaningful impact, one that is relevant to local needs and aligned with the Company's agenda, all activities have been supported by third party monitoring and an evaluation process to ensure flagging of mid-course corrections that may be required enabling the Company stay on track. With a social investment of around Rs. 21.2 Crores in 2022, the CSR portfolio focused on creating an

enabling environment with active participation of local stakeholders, which was the key to ensuring sustainability of interventions.

Principle 9 – Businesses should engage with and provide value to their customers and consumers in a responsible manner

The Company is in the business of meeting the needs of its customers and consumers in an efficient and compelling manner. Products are developed basis insights gained from regular consumer and customer interactions and structured research projects.

In 2020, Castrol expanded its Full Synthetic Engine oils portfolio for bikes with the launch of Castrol POWER1 ULTIMATE with a 5-in-1 formula, offering benefits across Acceleration, Protection, Smooth riding, Keeping the engine cool and Enduring performance. Along with this we introduced a new variant with 15W50 viscosity on Castrol Activ CRUISE with a 2.5 litre pack, catering to high performance cruiser bikes.

The company also launched Castrol GTX SUV to cater to the rapidly growing SUV segment. GTX SUV provides 50% better engine protection under heavy loads.

In response to the ongoing COVID-19 situation, Castrol India launched a campaign to #SaluteTruckers for keeping India moving by ensuring supply of essential products throughout the country.

A recent study by Castrol India revealed that while 1 in 3 truckers and farmers admitted to having health related issues including back pain, lack of sleep, tiredness and joint pain; only 11% of them were inclined towards building a healthier lifestyle and immunity, which featured as one of the lowest priorities among these communities. The campaign paid tribute to both the communities for their efforts during the unprecedented times of COVID-19 pandemic, encouraging them to strengthen their wellbeing and introduce the ethos of a healthy lifestyle in their daily routine through a curated set of aasanas. Castrol partnered with the Yoga Institute of Mumbai, as in the past two years, refreshing its health programme Castrol CRB Turbomax Truck Aasana and CRB Plus Khet Aasana for truckers and farmers. Over the

past two and half years, Castrol India has touched the lives of over 365,000 truckers and farmers with Castrol CRB Turbomax Truck Aasana and CRB Plus Khet Aasana, reaching over 50 cities and 2,000 villages, advocating the role of these aasanas to improve their lifestyle.

Castrol, through its network of independent workshops, has provided complimentary lubricants aimed at servicing and maintaining vehicles of essential service workers including doctors, nurses, paramedics, police, healthcare workers, municipal workers, and garbage collectors who bravely helped keep India safe.

In addition, Castrol India has also undertaken a complimentary sanitization drive for its independent workshops network across ten cities. This sanitization drive promoted a safe environment for the workshop mechanics and consumers as they make their way into everyday life with lockdowns being lifted in some parts of the country. The drive was accompanied by safety briefings and hygiene awareness at all these workshops.

As part of the 'Castrol Protects' campaign, Castrol provided the customers with a sanitization kit to help the franchise workshop staff maintain hygiene and safety. Castrol also provided sanitization dispensing units to Franchise Workshops as part their channel offers.

Castrol touched the lives of over 62,000 mechanics and their families across India through monetary contributions amidst the national lockdown in early 2021, as an extension of its activities under its CSR programme for mechanics - Castrol Eklavya. The contribution supports them to cope with the crisis during this difficult time.

Contributing to the overall empowerment and upliftment of the mechanics community, enabling them to earn a sustainable livelihood and live with pride is the key motto of the Castrol Eklavya programme.

Castrol Activ had launched a new marketing campaign post the lockdown in 2020, continuing on the brand purpose of 'Protect what you love'. The campaign was focused on reminding people to 'Keep moving ahead with #Non-Stop Protection' when the lockdown

was lifted and the country started to open up. This was further amplified with #ProtectIndiasEngine, encouraging people to pledge their support for the mechanic community and for each pledge received.

The Company committed to spend atleast Rs. 10 per pledge (upto a maximum Rs. 50 lakhs) for the upskilling and development of independent mechanics. The campaign received approx. 250,000 pledges, and the amount towards the same was used for various initiatives in 2021 like the Castrol Super Mechanic program and online trainings.

The Company has organized its business through different distribution channels which include retail, franchised and independent workshops, as well as industrial and heavy duty direct/ indirect customers, keeping in mind channel specific needs and offers.

The Company regularly tracks customer satisfaction scores in different channels and amongst its distributors and takes conscious steps to improve customer satisfaction by taking appropriate actions.

The Company follows the applicable laws across all its businesses. During the period of 1 January to 31 December 2021, there have been no new cases/ complaints with regard to irresponsible advertising related to company business/products.

However, in certain ongoing and new, litigations/ complaints/disputes against CIL, the counter parties may have wrongfully alleged unfair trade practice or anti-competitive behavior, however no order and/ or judgement against CIL has been passed in the year under review.

To ensure product and formulation compliance, regular audits are conducted at the plants. The Company has Quality key performance indicators and customer complaint closure time is tracked as a metric. In 2021, 99% of the genuine quality complaints received from the market were closed within an average period of 14 working days.

The Company mentions information such as claims and technical specification used in the product, in addition to the mandatory information on the product labels.

Castrol is a technology leader in the lubricant industry that carries out its business in an honest, respectful and

responsible manner. Castrol is renowned for being an extremely ethical organization with strong embedded values and stringent adherence to our Code of Conduct.

INDEPENDENT AUDITOR'S REPORT

To The Members of Castrol India Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Castrol India Limited ("the Company"), which comprise the Balance Sheet as at December 31, 2021, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flows Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at December 31, 2021, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matter

Key audit matters is the matter that, in our professional judgment, was of most significance in our audit of the financial statements of the current period. This matter was addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. We have determined the matter described below to be the key audit matter to be communicated in our report:

Key audit matter

The Company has material indirect tax litigations which involve significant judgment to determine the outcome of the matters into probable, possible and remote.

Refer note 12, 25(i)(a)(1) & 25(ii) to the financial statements.

Auditor's response

Principal audit procedures:

Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as under:

- Obtained a detailed understanding of the Company's process and controls with respect to assessment of possible outcome of indirect tax litigations.
- Evaluated the design of the controls relating to assessment of probability of outcome, estimates of the timing and the amount of the outflows, and appropriate reporting by the management and testing implementation and operating effectiveness of the key controls.
- Performed following procedures on samples selected
 - Understood the matters by reading the correspondence/communications and made corroborative enquiries with appropriate level of management personnel including status update, expectation of outcomes with the basis, and the future course of action contemplated by the Company and perusing legal opinions obtained by management.

- Evaluated the evidences supporting the judgement of the management about possible outcome and the reasonableness of the estimates. We involved our internal tax experts in assessing the nature and amount of the tax exposures and assessed management's conclusions on whether exposures are probable, possible or remote.
- Evaluated appropriateness of adequate provisions or disclosures in accordance with applicable accounting standards.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Management Discussion and Analysis, Director's Report including annexures, Business Responsibility Report, Corporate Governance and Information for Shareholders, but does not include the financial statements and our auditor's report thereon.

- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the Company to express an opinion on the financial statements.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flows Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on December 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on December 31, 2021 from being appointed as a director in terms of Section 164(2) of the Act.

- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company except when disputes relating to ownership of the underlying shares are unresolved - refer note 11 to the financial statements.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Castrol India Limited (“the Company”) as of December 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at December 31, 2021, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

1. Corporate information

Castrol India Limited (the 'Company') is a public limited Company incorporated in India with its registered office at Technopolis Knowledge Park, Mahakali Caves Road, Chakala, Andheri (East), Mumbai-400 093. The equity shares of the Company are listed on two recognised stock exchanges in India. The Company is principally engaged in the business of manufacturing & marketing of automotive and industrial lubricants and related services.

2. Significant accounting policies

2.1. Basis of preparation

Statement of Compliance with Indian Accounting Standards (Ind AS): The financial statements have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 ("the Act") and other relevant provisions of the Act and other accounting principles generally accepted in India.

2.2. Use of estimates and judgements

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognized prospectively.

2.3. Critical accounting estimates

A. Useful lives and residual values of property, plant and equipment

Property, plant and equipment represent a material portion of the Company's asset base. The periodic charge of depreciation is derived after estimating useful life of an asset and expected residual value at the end of its useful life. The useful lives and residual values of assets are estimated by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on various external and internal factors including historical experience, relative efficiency and operating costs and change in technology.

B. Income taxes

The Company's tax jurisdiction is India. Significant judgments are involved in determining the provision for income taxes including amounts to be recovered or paid for uncertain tax positions. Management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits.

C. Defined benefit obligations

Defined benefit obligations are measured at fair value for financial reporting purposes. Fair value determined by actuary is based on actuarial assumptions. Management judgement is required to determine such actuarial assumptions. Such assumptions are reviewed annually using the best information available with the Management.

D. Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Potential liabilities that are possible but not probable of crystallising or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognised.

2.4 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards. There is no such notification which would have been applicable from January 1, 2022

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

2. Significant accounting policies (Contd.)

2.5 Summary of significant accounting policies

a. Current versus non-current classification

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b. Revenue recognition

Revenue

Revenue from contracts with customers is recognised on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Company is expected to be entitled to in exchange for those goods or services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold, and services rendered is net of variable consideration on account of discounts offered by the Company as part of the contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognised only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

Sale of products

Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer, as may be specified in the contract.

Income from services

Revenue from services is recognized over time by measuring progress towards satisfaction of performance obligation for the services rendered. The Company uses input method for measurement of revenue from services as it is directly linked to the expenses incurred by the Company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

2. Significant accounting policies (Contd.)

Interest income

Interest income is recorded using the Effective Interest Rate (EIR) for debt instruments carried at amortised cost. EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument to the gross carrying amount of the financial asset.

c. Foreign currencies

Functional currency

The functional currency of the Company is the Indian rupee. These financial statements are presented in Indian rupees (rounded off to crore).

Transactions and balances

Foreign currency transactions are recorded in the functional currency by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. All foreign currency monetary assets and monetary liabilities as at the Balance Sheet date are translated into the functional currency at the applicable exchange rates prevailing on that date. All exchange differences arising on translation, are recognised in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Gain or losses upon settlement of foreign currency transactions are recognized in the Statement of Profit and Loss for the period in which the transaction is settled.

d. Retirement and other employee benefits

Gratuity

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on respective employee's salary and tenure of employment with the Company.

Liabilities with regard to Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using projected unit credit method. The Company fully contributes all ascertained liabilities to the Castrol India Limited Employees' Gratuity Fund Trust ('the Trust'). Trustees administer contributions made to the Trusts and contributions are invested in insurance and deposit schemes.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability.

Gains and losses through remeasurements of the net defined benefit liability/(asset) are recognised in other comprehensive income. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognised in other comprehensive income. The effect of any plan amendments is recognised in net profit in Statement of Profit and Loss.

Superannuation

Certain employees of the Company are participants in a defined contribution plan. The Company has no further obligations to the plan beyond its monthly contributions which are periodically contributed to the Castrol India Limited Staff Pension Fund, the corpus of which is invested with the Life Insurance Corporation of India and Bajaj Allianz Life Insurance Co. Ltd.

Provident fund

Eligible employees of the Company receive benefits from a Provident fund, which is defined benefit plan. Both the eligible employees and the Company make monthly contributions to the provident fund equal to a specified percentage of the covered employee's salary. The Company contributes a portion to the Castrol India Limited

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

2. Significant accounting policies (Contd.)

Employees' Provident Fund Trust ('The PF trust'). The PF trust invests in specific designated instruments as permitted by Indian Law. The rate at which the annual interest is payable to the beneficiaries by the PF trust is being administrated by the Government. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the PF trust and the notified interest rate.

Compensated absences

The Company has a policy on compensated absences which is applicable to its executives joined upto a specified period and all workers. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date.

Termination benefits

Termination benefits, in the nature of voluntary retirement benefits or termination benefits arising from restructuring, are recognised in the Statement of Profit and Loss. The Company recognises termination benefits at the earlier of the following dates:

- a) when the Company can no longer withdraw the offer of those benefits; or
- b) when the Company recognises costs for a restructuring that is within the scope of Ind AS 37: Provisions, Contingent Liabilities and Contingent Assets and involves the payment of termination benefits.

Share-based compensation

Share value plan

BP PLC ("Ultimate Holding Company") has a "Share Value Plan" whereby the specified employees of its subsidiaries are granted restricted share units of Ultimate Holding Company. Each restricted share unit represents a conditional entitlement to receive one share of Ultimate Holding Company in future, provided that certain terms and conditions are met. The main terms and conditions are a) continuous employment with the BP group until the end of vesting period and b) achievement of certain performance targets by the employee and/or BP Group. The cost of equity-settled transactions with employees is measured by reference to the fair value of the equity instruments on the date on which they are granted and is recognized as an expense over the vesting period. A corresponding credit is recognized within equity since the cost of such share value plan is borne by the Ultimate Holding Company.

Restricted share unit and options

BP PLC ("Ultimate Holding Company") has a "One time reinvent plan" whereby all the employees of its subsidiaries are granted restricted share units of Ultimate Holding Company. Each restricted share unit represents a conditional entitlement to receive one share of Ultimate Holding Company in future, provided that certain terms and conditions are met. Each Option consist of a defined number of shares of ultimate holding company (lot) at a fixed price with a condition entitlement to sell the lot of shares in future after the vesting period.

The main terms and conditions are a) continuous employment with the BP group until the end of vesting period and b) achievement of certain performance targets by the employee and/or BP Group. The cost of equity-settled transactions with employees is measured by reference to the fair value of the equity instruments on the date on which they are granted and is recognized as an expense over the vesting period. A corresponding credit is recognized within equity since the cost of such share value plan is borne by the Ultimate Holding Company.

Share match plan

The Ultimate Holding Company has a "Share Match Plan" whereby all executive employees of its subsidiaries have been given a right to purchase the shares of Ultimate Holding Company upto a specified amount. Every employee who opts for the scheme contributes by way of payroll deduction a specified amount towards purchase of share. The Company contributes equal amount and charges it to employee benefits expense.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

2. Significant accounting policies (Contd.)

Other employee benefits

Short term employee benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

Redundancy Expenses are fully charged to the Statement of Profit and Loss in the year in which they accrue.

e. Taxes

Income tax expense comprises current income tax and deferred income tax. Income tax expense is recognised in the Statement of Profit and Loss except to the extent it relates to items recognised directly in equity, in which case it is recognised in other comprehensive income or other equity as the case may be.

Current income tax

Current tax is the amount of tax payable based on the taxable profit for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961.

The current tax year for the Company being the year ending March 31, the provision for taxation for the year is aggregate of the provision made for the three months ended on March 31, 2021 and the provision for the remaining period of nine months ending on December 31, 2021. The provision for the remaining period of nine months has been arrived at by applying the applicable tax rate of the financial year 2021-22 to Profit Before Tax of the said period.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profits.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognized deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off tax assets against tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

f. Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises the purchase price, including import duties and non-refundable purchase taxes (Net of taxes credit wherever applicable) and any attributable cost of bringing the assets to its working condition for its intended use. Such cost also includes the cost of replacing part of the Property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

2. Significant accounting policies (Contd.)

Property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the Property, plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit and loss as incurred.

Depreciation on Property, plant and equipment is calculated on a straight-line basis, from the month of addition, using the estimated useful lives based on single shift, as specified in schedule II to the Companies Act, 2013, except in respect of the following assets:

Assets description	Useful life as per management (as technically assessed)	Useful life under schedule II
Residential and office buildings	5 years to 30 years	60 years
Plant and machinery	2 years to 21 years	15 years
Computers	3 years to 6 years	3 years
Equipment board with dealers	3 years	10 years
Furniture and fixtures (including office equipment)	2 years to 15 years	10 years
Motor vehicles	4 years to 10 years	8 years
Laboratory equipment	5 years to 21 years	10 years

The residual values, useful lives and methods of depreciation of Property, plant and equipment are reviewed at the end of each reporting period and adjusted prospectively, if appropriate.

g. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles are not capitalised and the related expenditure is reflected in statement of profit and loss in the period in which the expenditure is incurred.

Intangible assets are amortised over the useful economic life i.e. 4-5 years based on management assessment and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets is recognised in the statement of profit and loss.

h. Leases

The Company has adopted Ind AS 116 "Leases" effective January 1, 2020 using the modified retrospective approach without restating the comparative period. Leases that were accounted for as operating leases in accordance with Ind AS 17, are recognized at the present value of the remaining lease payments starting January 1, 2020 and discounted using the lessee's incremental borrowing rate as at the date of initial application.

The Company, at the inception of a contract, assesses whether a contract, is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. A lessee recognizes a right-of-use ("ROU") asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments.

The Company elected to use the transition practical expedient that allows the standard to be applied only to the contracts previously identified under Ind AS 17, "Leases" and the contracts assessed using the guidance available under Appendix – C to Ind AS 17, "Determining Whether an Arrangement Contains a Lease". Also, the Company has elected not to recognize right-of-use of assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

2. Significant accounting policies (Contd.)

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured, with a corresponding adjustment to the ROU asset, upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments.

Lease liabilities and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

i. Inventories

Inventories consist of raw and packing materials, stock-in-trade and finished goods. Inventories are valued at lower of cost and net realisable value. Cost of inventories is determined on weighted average basis. Cost of manufactured finished goods and work-in-progress includes material cost determined on weighted average basis and also includes an appropriate portion of allocable overheads. Cost of traded goods includes cost of purchase and other cost incurred in bringing the inventories to the present location and condition. Due allowances are made in respect of slow moving, non-moving and obsolete inventories based on estimate made by management.

Impairment of non-financial assets

The carrying amount of assets are reviewed for impairment at the end of each reporting date if there is any indication of impairment based on internal/external factor. An impairment loss is recognised in the statement of profit and loss wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's or cash generating unit's fair value less cost of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining fair value, recent market transactions are taken into account.

The business plans which are approved on an annual basis by senior management are the primary source of information for the determination of value in use. As an initial step in the preparation of these plans, various assumptions regarding market conditions, and cost inflation rates are set by senior management. These assumptions take account of existing prices and other macro economic factors and historical trends and variability.

Impairment losses including impairment on inventories are recognised in the statement of profit and loss, except for previously revalued tangible assets, where the revaluation was taken to revaluation reserve. In this case, the impairment is also recognised in the revaluation reserve up to the amount of any previous revaluation.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment. Such reversal is recognised in the statement of profit and loss.

j. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

2. Significant accounting policies (Contd.)

k. Financial instruments

a) Non-derivative financial instruments:

Initial recognition and measurement

All financial assets and liabilities are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Purchase and sale of financial assets are recognised using trade date accounting.

Subsequent measurement

Financial assets carried at amortised cost

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (FVOCI)

A financial asset is measured at FVOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

b) Derivative financial instruments

The Company enters into foreign exchange forward contracts to manage its foreign exchange rate risks.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in statement of profit and loss immediately.

Derecognition of financial instruments

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in statement of profit and loss if such gain or loss would have otherwise been recognised in statement of profit and loss on disposal of that financial asset.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

2. Significant accounting policies (Contd.)

Financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. The Company estimates cash flows by considering all contractual terms of the financial instrument through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 months expected credit losses. 12 months expected credit losses are portion of the lifetime expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12 months expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward looking information.

I. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Company's cash management.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

2. Significant accounting policies (Contd.)

m. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares). For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

n. Cash dividend

The Company recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

o. Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

Notes:

- (i) The management does not expect these demands / claims to succeed. Claims, where the possibility of outflow of resources embodying economic benefits is remote, have not been considered in contingent liability.

- 25. (ii)** The Company has received following demand orders from Maharashtra Sales Tax Department for disputes relating to the movement of goods from the Plant/ MWHs situated in Maharashtra to the CFAs for sale of goods made by the company in the states other than Maharashtra, where applicable taxes have been paid as per the provisions of law. The department alleged that the movement of goods was to fulfil pre-existing orders in the destination States, and were therefore in the nature of inter-State sales. The Company contends that the movement of goods from Maharashtra was not pursuant to any contract /order from customers in other States hence the understanding of operations/systems recorded in the assessment orders are not factually correct. The Company's tax payment methodology in respect of the goods sold is adequately supported by robust legal grounds/precedents and in Company's opinion the said demands are unjustified. Thus considering the favorable orders from MVAT Tribunal and based on the legal advice the Company has not made any provision in the books for the year ended 31st December 2021 and considered this to be remote.

27 Employee Benefits

I) Defined Contribution Plan

Contribution to Provident and Other Funds' in Note 18 includes Rs. 0.98 Crore (December 31, 2020: Rs. 1.04 Crore) for ESIC and Labour Welfare Fund. Note 21 includes Insurance Rs. 4.24 Crore (December 31, 2020: Rs. 2.13 Crore) for Medical Insurance benefits and post retiral medical benefit scheme. Salaries, wages and bonus in Note 18 includes Rs. 1.39 Crore for share match (December 31, 2020: Rs. 1.40 Crore).

II) Defined Benefit Plan

A) General Description of Defined Benefit Plan

i) Gratuity

The Company operates gratuity plan wherein every employee is entitled to the benefit equivalent to fifteen days/one month salary last drawn for each completed year of service depending on the date of joining. The same is payable on termination of service, retirement or death, whichever is earlier. The benefit vests after five years of continuous service.

The Company has a defined benefit gratuity plan in India (funded). The Company defined benefit gratuity plan is a final salary plan for India employees, which requires contributions to be made to a separately administered fund.

The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age. The fund has the form of a trust and it is governed by the Board of Trustees, which consists of an equal number of employer and employee representatives. The Board of Trustees is responsible for the administration of the plan assets and for the definition of the investment strategy.

ii) Provident Fund

The Provident Fund (administered by a trust) is a defined benefit scheme whereby the Company deposits amounts determined as a fixed percentage of basic pay to the fund every month. The actuary has provided a valuation and determined the fund assets and obligations as at December 31, 2021. Further, it has been determined that the yield on the investments of the trust is adequate to meet the obligation towards the payment of the interest rate notified by the government.

iii) Pension Benefit to Past Employees

Under the Company's pension scheme, certain categories of employees, on retirement, are eligible for monthly differential pension which is accounted for on an actuarial basis as on the Balance Sheet date.

iv) Compensated absences

The Company has a policy on compensated absences which is applicable to its executives joined upto a specified period and all workers. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid as a result of the unused entitlement that has accumulated at the Balance Sheet date.

B) The plans in India typically expose the Company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to government bond yields; if the return on plan asset is below this rate, it will create a plan deficit. Currently the plan has a relatively balanced investment in equity securities and debt instruments.
Interest risk	A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Each year, the Board of Trustees reviews the level of funding in the India gratuity plan. Such a review includes the asset-liability matching strategy and investment risk management policy. This includes employing the use of annuities and longevity swaps to manage the risks. The fair values of the above investments are determined based on prices in active markets. The Board of Trustees decides its contribution based on the results of this annual review. Generally, it aims to have a portfolio mix of equity instruments, property and debt instruments. The Board of Trustees aim to keep annual contributions relatively stable at a level such that no plan deficits (based on valuation performed) will arise.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

29. Financial Risk Management

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company has constituted a Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Audit Committee of the Company. The primary market risk to the Company is foreign exchange risk. The Company uses forward contracts to mitigate foreign exchange related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer.

A. Liquidity Risk

The company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The company has no outstanding bank borrowings. The company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

As of December 31, 2021 and December 31, 2020, the Company had a working capital of Rs. 1209.6 Crore and Rs. 997.0 Crore respectively including cash and cash equivalents of Rs. 184.23 Crore and Rs. 194.68 Crore respectively.

The table below provides details regarding the contractual maturities of significant financial liabilities as on reporting date.

Particulars	Amount (Rs in Crore)			
	On demand	Less than 1 year	1 to 5 years	Total
As at December 31, 2021				
Other financial liabilities	(16.91)	(285.72)	-	(302.63)
Trade and other payables	-	(620.65)	-	(620.65)
As at December 31, 2020				
Other financial liabilities	(15.36)	(290.08)	(6.22)	(311.66)
Trade and other payables	-	(545.53)	-	(545.53)

B. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: foreign currency risk and other price risk, such as commodity risk. Financial instruments that are affected by market risk include deposits and foreign exchange forward contracts. The sensitivity analysis in the following sections relate to the position as at 31 December 2021 and 31 December 2020. The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets and liabilities. This is based on the financial assets and financial liabilities held at 31 December 2021 and 31 December 2020.

B1. Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (primarily material costs are denominated in a foreign currency). The Company manages its foreign currency risk by hedging certain material costs that are expected to occur within a range of 1 to 3 month period for hedges of purchases of base oil and additives. When a derivative is entered into for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure. For hedges of highly probable transactions the derivatives cover the period of exposure from the point of the commitment up to the point of settlement of the resulting payable that is denominated in the foreign currency. At 31 December 2021 and 31 December 2020 the Company hedged more than 80% of its expected foreign currency purchases for 1 to 3 months. Those hedged purchases were highly probable at the reporting date. This foreign currency risk is hedged by using foreign currency forward contracts. Details are as given below.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

29. Financial Risk Management (Contd.)

Hedged Foreign Currency exposure as at Balance Sheet Date

	As at December 31, 2021	As at December 31, 2020
No of buy contracts relating to firm commitments for imports	2	2
Foreign currency - USD	20,823,416	15,950,957
Rs. Crore	157.26	117.47

Unhedged Foreign Currency exposure as at Balance Sheet Date

The following table analyses the foreign currency risk from financial instruments

Particulars	As at December 31, 2021		As at December 31, 2020	
	Foreign currency	Rupees in Crore	Foreign currency	Rupees in Crore
Trade payables				
USD	32,635,147	242.50	2,087,865	14.31

USD	5,868,939	43.61	435,193	3.18
EURO	212,494	1.79	5,400	0.05
GBP	3,856	0.04	-	-

Sensitivity Analysis

The Company is mainly exposed to changes in USD and Euro. The sensitivity analyses demonstrate a reasonably possible change in USD and Euro exchange rates, with all other variables held constant. 5% appreciation/depreciation of USD and Euro with respect to functional currency of the Company will have impact of following (decrease)/increase in profit (Rs. in Crore)

Particulars	As at December 31, 2021	As at December 31, 2020
USD	8.35	(0.13)
Euro	1.29	0.82
Total	9.64	0.68

B2. Commodity Price risk

The Company exposure to market risk with respect to commodity prices primarily arises from the fact that we are a purchaser of base oil. This is a commodity product whose prices can fluctuate sharply over short periods of time. The prices of base oil generally fluctuate in line with commodity cycles. Material purchases forms the largest portion of our operating expenses. The Company evaluates and manages commodity price risk exposure through operating procedures and sourcing policies. The Company has not entered into any commodity derivative contracts. It may also be noted that there are no direct derivatives available for base oil, but there are derivatives for crude oil.

'0.00' represents amount less than Rs. 0.01 crore.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

29. Financial Risk Management (Contd.)

Sensitivity : 1% decrease in commodity rates would have led to approximately an additional 1.23 Crore (December 31, 2020 – 0.68 Crore) gain in the statement of profit and loss. 1% increase in commodity rates would have led to an equal but opposite effect.

C. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables), deposits with banks and foreign exchange transactions. The Company's customer mainly consists of its distributors and Original Equipment Manufacturers (OEMs). The Company has a credit policy, approved by the Management that is designed to ensure that consistent processes are in place to measure and control credit risk.

The Company has trade relationships only with reputed third parties. The receivable balances are constantly monitored, resulting in an insignificant exposure of the Company to the risk of non-collectible receivables. Credit risk is managed through credit approvals, establishing credit limits, obtaining collaterals from the customers in the form of deposits and/or bank guarantees and periodically monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The maximum credit exposure associated with financial assets is equal to the carrying amount.

The Company historical experience of collecting receivables, supported by the level of default, is that credit risk is low across territories and so trade receivables are considered to be a single class of financial assets.

An impairment analysis is performed at each reporting date on an individual basis for major clients. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in financial statements. The expected credit loss is provided basis the above impairment analysis done.

In case of cash and cash equivalents, since the amount is in form of demand deposits with bank there is no credit risk perceived. Hence no provision for expected credit loss has been made.

30. (A) Fair Value Measurement

The Carrying value and fair value of financial instruments by categories as of December 31, 2021, December 31, 2020 were as follows

Particulars	As at December 31, 2021		As at December 31, 2020	
	Carrying value	Fair Value	Carrying value	Fair Value
Assets				
Loans	6.62	6.62	6.12	6.12
Other financial assets	-	-	-	-
Foreign exchange forward contracts	-	-	0.32	0.32
Total	6.62	6.62	6.44	6.44
Liabilities				
Other financial liabilities	-	-	6.22	6.22
Foreign exchange forward contracts	1.83	1.83	-	-
Total	1.83	1.83	6.22	6.22

The management assessed that cash and cash equivalents, loans, other balances with banks, trade receivables, trade payables and other current liabilities/assets approximate their carrying amounts largely due to the short-term maturities of these instruments.

(B) Fair Value Hierarchy

The Company does not have any financial instrument other than derivatives which are measured at fair value through Profit & loss.

The fair value of such derivatives is categorised as level 2 based on the valuation technique used to arrive at the fair value.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

31. Equity Settled Share-based payments

a) Share Match Plan

During the year ended **31st December, 2021 : 82,322 shares** (31st December, 2020 : 99,388 shares) were purchased by employees at weighted average fair value of GBP 3.13 per share (31st December, 2020 : GBP. 3.30 per share). The Company contribution during the year on such purchase of shares amounting to Rs. 1.38 crores (31st December, 2020 : Rs 1.40 crores) has been charged under employee benefit expense under Note 27.

b) Share Value Plan

The expense recognised for employee services received during the year is shown in the following table:

Particulars	December 31, 2021 Rupees in Crore	December 31, 2020 Rupees in Crore
Total expense recognised for equity settled share-based payment transaction	18.00	4.68

All share-based payments transactions relate to employee compensation.

Fair values and associated details for restricted share units granted are as follows :

Particulars	December 31, 2021	December 31, 2020
Share Value Plan		
Number of units granted	212,765	193,920
Weighted average fair value	\$4.63	\$3.51

Number of units granted	1,260,000	-
Weighted average fair value	\$4.63	-
Options		
Number of units granted	1,350,000	-
Weighted average fair value	\$0.82	-

The BP group operates a number of equity-settled employee share plans under which share units are granted to the group's senior leaders and certain other employees. These plans typically have a three-year performance or restricted period during which the units accrue net notional dividends which are treated as having been reinvested. Leaving employment will normally preclude the conversion of units into shares, but special arrangements apply for participants that leave for qualifying reasons. The number of shares that are expected to vest each year under employee share plans are shown in the table below.

Share Plan Vesting	December 31, 2021 Number of shares	December 31, 2020 Number of shares
Within one year	78,739	90,357
1 to 2 years	158,760	92,922
2 to 3 years	217,130	193,220
3 to 4 years	2,610,000	-
Total	3,064,629	376,499

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2021

32. Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders. The primary objective of the Company capital management is to maximize the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company monitors capital using a gearing ratio and is measured by net debt divided by total capital plus net debt. The Company includes within net debt trade and other payables, less cash and cash equivalents. The Company did not have any borrowings at any time during the year.

Particulars	As at December 31, 2021 Rupees in Crore	As at December 31, 2020 Rupees in Crore
Trade payables	620.65	545.53
Other payables	437.86	433.74
Less: cash and cash equivalents	184.23	194.68
Net debt	874.28	784.59
Total equity	1,645.51	1,414.23
Capital and net debt	2,519.79	2,198.82
Gearing ratio	35%	36%

- 33.** Estimation uncertainties relating to the global health pandemic from COVID-19 (COVID-19): The Company has considered the possible effects that may result from the pandemic relating to COVID-19 in the preparation of the financial statements including the recoverability of carrying amounts of financial and non-financial assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of the pandemic, the Company has, at the date of approval of the financial statements, used internal and external sources of information and expects that the carrying amount of these assets will be recovered. The impact of COVID-19 on the financial statements may be different from that estimated as at the date of approval of these financial statements.'
- 34.** The Parliament of India has approved the Code on Social Security, 2020 (the Code) which may impact the contributions by the Company towards provident fund, gratuity and ESIC. The Code has been published in the Gazette of India however, the effective date has not yet been notified. The Company will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective, if any.

Instructions for remote e-voting:

22. Any person, whose name is recorded in the Register of Members or in the Register of beneficial owners (in case of electronic shareholding) maintained by the depositories as on the **cut-off date, i.e. Wednesday, 1 June 2022** only shall be entitled to avail the facility of remote e-voting.
23. The remote e-voting period commences on **Saturday, 4 June 2022 at 9.00 am IST** and ends on **Tuesday, 7 June 2022 at 5.00 pm IST**. The remote e-voting module shall be disabled by CDSL for voting thereafter. Once the vote on a resolution is cast by the member, the member shall not be allowed to change it subsequently.
24. The voting right of members shall be in proportion to their share in the paid-up equity share capital of the Company as on the cut-off date.
25. Pursuant to the provisions of Section 108 of the read with Rule 20 of the Companies (Management and Administration) Rules, 2014 and Regulation 44 of the SEBI Listing Regulations (as amended), and MCA Circulars, the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with CDSL for facilitating voting through electronic means, as the authorized e-Voting’s agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL.

26. Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09 December 2020**, under Regulation 44 of the SEBI Listing Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions.

Currently, there are multiple e-voting service providers ("ESPs") providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.
