4. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

(a) Industry structure and developments

Globally, the Indian Pharmaceuticals Market (IPM) is the 3rd largest market, in terms of volume and 13th largest in terms of value.

The Indian Pharmaceutical Industry is estimated to grow at 20% Compound Annual Growth Rate (CAGR) over the next 5 years, driven by increasing consumer spending, rapid urbanisation and raising healthcare insurance among others.

Going forward, better growth in domestic sales would also depend on the ability of the Companies to align their product portfolio towards chronic therapies for diseases such as cardiovascular, anti-diabetes, anti-depressants and anti-cancers that are on the rise.

The Indian government has taken many steps to reduce costs and bring down healthcare expenses. Speedy introduction of generic drugs into the market has remained in focus and is expected to benefit the Indian Pharmaceutical Companies. In addition, the thrust on rural health programmes, life saving drugs and preventive vaccines also augurs well for the pharmaceutical companies.

Further, the Addendum 2015 of the Indian Pharmacopoeia (IP) 2014, published by the Indian Pharmacopoeia Commission (IPC) on behalf of the Ministry of Health & Family Welfare, is expected to play a significant role in enhancing the quality of medicines that would in turn promote public health and accelerate the growth and development of pharmaceutical sector.

Continuing its support, the Government of India unveiled Pharma Vision 2020' aimed at making India a global leader in end-to-end drug manufacture.

(b) Outlook, Risks and Concerns

The Indian Pharmaceutical Market grew by 12.6% to touch the market size of Rs. 98,414 Crores, during the year ended March 31, 2016. Around 3,364 products were introduced during the year (Source: AIOCD Pharmasofttech AWACS Private Limited- Moving Annual Total Turnover- March 2016).

The Industry has witnessed some sizzling action towards the end of the financial year 2015-2016. This year is also termed as the year of Triple impact, primarily due to the impact of Ban on Fixed Dose Combinations Drugs, National List of Essential Medicines (NLEM), Whole Sale Price Index, etc. leading to multiple complexities in budgeting Annual Operating Plans of 2016-17.

The Recent ban on 340 fixed dose combination drugs in India because of concerns over health risks has brought into focus the drastic need for tighter regulation of the Country's multibillion dollar pharmaceutical industry. This would be a setback to the Pharma Industry in terms of sales on short-term basis but it may cause a rethink in long-term pharma and sales strategy for Pharma Companies.

(c) Financial performance and Operations review

During the year under review, your Company registered a standalone total income of Rs. 102,995.45 lacs against Rs. 92,200.11 lacs in the previous year, thereby registering a growth of 11.71%. Your Company has been able to maintain a constant profitable growth despite the various stringent policies introduced by the Statutory and Regulatory Authorities.

The Earnings before interest and depreciation amounted to Rs. 25,467.51 lacs for the year under review as against Rs. 24,109.82 lacs in the previous year. The operations have resulted in a net profit after tax of Rs. 15,681.40 lacs during the year under review as against Rs. 14,590.50 lacs in the previous year.

Your Company's consolidated total income stood at Rs. 103,787.06 lacs as against Rs. 93,501.54 lacs in the previous year, thereby registering a growth of 11.00 %.

The domestic formulations business recorded a growth of 10.37% at Rs. 86,335.52 lacs as against Rs. 77,789.57 lacs in the previous year.

During the year under review, the export formulations business recorded a growth of 19.08% at Rs. 7,510.11 lacs as against Rs. 6,306.85 lacs in the previous year.

(d) Segment-wise or product-wise performance**i. Marketing**

FDC as a corporate is ranked at 25th position, recording a growth of 9.1% and attaining a market share of 0.96% (Source: AIOCD Pharmasofttech AWACS Private Limited- Moving Annual Total Turnover- March 2016).

As a Corporate, AYUSH therapies are being actively

evaluated to offset the impact due to banned drugs & price controls.

The year 2016-17 is definitely a challenging year not only for FDC, but for the entire Industry. FDC shall take up all possible efforts to maintain its best performance.

Annexure 2 - To the Independent Auditor's Report of even date on the standalone financial statements of FDC Limited**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of FDC Limited ("the Company") as of 31st March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial

control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the

Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. SIGNIFICANT ACCOUNTING POLICIES

a. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared under the historical cost convention, except for certain fixed assets, which were revalued on 30th September 1993 (Refer Note No. c below) and in case of assets where a provision is made for impairment losses, on accrual basis and are in accordance with the accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

b. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles in India requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities as at the date of financial statements and the result of operations during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

c. TANGIBLE FIXED ASSETS

All fixed assets other than revalued assets are stated at cost less accumulated depreciation / amortisation less impairment losses. Cost comprises of the purchase price and any other directly attributable costs of bringing the assets to its working condition for its intended use. Adjustments arising from exchange rates variances relating to liabilities attributable to fixed assets are taken to the Statement of Profit and Loss.

Leasehold Land, buildings, major items of plant and machinery and research and development equipment at Jogeshwari and Roha were revalued on 30th September 1993 on the basis of the report of an approved valuer. Difference between the book value and the value as per valuer's report amounting to Rs. 730.70 lacs was transferred to Revaluation Reserve during the year ended 31st March 1994. These fixed assets are stated at revalued amounts less accumulated depreciation.

d. DEPRECIATION/ AMORTISATION/ IMPAIRMENT

Depreciation on the historical cost of tangible fixed assets is provided on straight line method using the rates arrived at based on the useful life prescribed under Schedule II to the Companies Act, 2013 except for the below mentioned asset where higher rate is considered based on the useful life of the asset as estimated by the management:

ASSET	Useful Life (No. of Years)
Vehicles	6

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/ external factors. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of the money and risks specific to the assets.

After recognition of impairment loss, the depreciation charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on straight line basis over its remaining useful life.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

Assets costing less than Rs. 5,000 are depreciated at the rate of hundred per cent.

Leasehold land/ improvements are amortised on a straight line basis over the period of lease ranging from 30 to 99 years.

e. INTANGIBLE ASSETS

Technical know-how

Technical know-how which are acquired, are capitalised and amortised over the period of its estimated useful life as estimated by the management on a straight line basis, not exceeding ten years.

Marketing Rights and Software

Cost relating to marketing rights and software, which are acquired, are capitalized and amortised over the period of its estimated useful life as estimated by the management on a straight line basis, not exceeding ten years.

f. INVESTMENTS

Investments that are readily realizable and intended to be held for not more than one year from the reporting period are classified as Current Investments. These are valued at lower of cost and fair value (repurchase price or market value) on an individual item basis.

Investments other than current are classified as Non-Current Investments which are valued at cost less provision for diminution in value, other than temporary, if any.

g. INVENTORIES

Raw materials and packing materials are valued at lower of cost and net realisable value, cost of which includes duties and taxes (net of CENVAT and VAT, wherever applicable) and is arrived at on weighted average cost basis. Cost of imported raw materials and packing materials lying in bonded warehouse includes customs duty. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Finished products including traded goods and work-in-progress are valued at lower of cost and net realisable value. Cost is arrived at on weighted average cost basis. Cost of finished products and work-in-progress includes material cost, labour, direct expenses, production overheads and excise duty, where applicable.

h. REVENUE RECOGNITION

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured

Revenue from sale of goods is recognised when significant risks and rewards of ownership are transferred to customers, which coincides with dispatch of goods to customers. The company collects sales taxes and value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the company. Hence, they are excluded from revenue. Excise duty deducted from revenue (gross) is the amount that is included in the revenue (gross) and not the entire amount of the liability arising during the year.

Dividend is recognised when the Company's right to receive the payment is established by the balance sheet date.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

Other income is accounted for on accrual basis except where the receipt of income is uncertain.

i. FOREIGN CURRENCY TRANSLATION/ TRANSACTIONS

Transactions in foreign currency are recorded at the rates prevailing on the date of the transaction.

Monetary assets and liabilities denominated in a foreign currency outstanding at the year end are restated at the year end exchange rates. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange differences arising out of settlement and restatement of foreign exchange monetary items are taken to the Statement of Profit and Loss.

The premium or discount arising at the inception of forward exchange contracts is amortised as expense or income over the life of the contract. Exchange differences on such contracts are recognised in the Statement of Profit and Loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognised as income or expense for the year.

j. GOVERNMENT GRANTS

Grants and subsidies from the government are recognised when there is reasonable assurance that the grant/ subsidy will be received and all attaching conditions will be complied with.

Government grants received as capital incentives/subsidies are credited to Capital Reserve. Government grants related to revenue is recognised on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs which they are intended to compensate.

Government grants relating to specific fixed assets are disclosed as deduction from the gross value of the assets concerned.

k. EMPLOYEE BENEFITS

Company's contribution to recognised provident fund, family pension fund and superannuation fund is defined contribution plan and is charged to the Statement of Profit and Loss on accrual basis. The Company recognises contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. There are no other obligations other than the contribution payable to the respective trusts.

Contribution to gratuity fund is defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year.

Short term compensated absences are provided for based on estimates. Long term compensated absences are provided for based on actuarial valuation. The actuarial valuation is done as per projected unit credit method.

Actuarial gains/ losses are immediately recognised in the Statement of Profit and Loss.

l. RESEARCH AND DEVELOPMENT

Revenue expenditure is charged off to Statement of Profit and Loss in the year in which it is incurred.

m. LEASE ACCOUNTING

Leases where substantially all the risks and benefits of ownership are retained by the lessor, are classified as operating leases. Operating lease expenses/income is recognised in the Statement of Profit and Loss on a straight line basis over the lease term.

n. EARNING PER SHARE

Basic earning per share is computed by dividing the net profit after tax attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year.

Diluted earning per share is computed by dividing the net profit after tax attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year as adjusted for the effects of all dilutive potential equity shares, if any.

o. ACCOUNTING FOR TAXES ON INCOME

Tax expense comprises of current and deferred tax. Provision for current tax is made, based on the tax payable under the Income-tax Act, 1961. Deferred tax assets and liabilities from timing differences between taxable income and accounting income is accounted for using the tax rates and the tax laws enacted or substantially enacted as on the balance sheet date.

At each balance sheet date, the Company reassesses unrecognised deferred tax assets. Deferred tax assets are recognised only to the extent that there is a reasonable certainty of their realisation. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

MAT credit is recognised as an asset when there is convincing evidence that the Company will pay normal income tax during the specified period. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income tax during the specified period.

p. PROVISIONS AND CONTINGENCIES

The Company creates a provision when there exist a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

1. SIGNIFICANT ACCOUNTING POLICIES

a. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The consolidated financial statements have been prepared and presented under the historical cost convention, except for certain fixed assets of FDC Limited which were revalued on 30th September 1993 (Refer Note d below) and in case of assets where a provision is made for impairment losses, on accrual basis and are in accordance with the accounting standards notified under Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014 and to the extent possible in the same format as that adopted by the parent company (FDC Limited) for its separate financial statements. The accounting policies are generally uniform for the Group and are consistent with those used in the previous year.

b. USE OF ESTIMATES

The preparation of consolidated financial statements in conformity with generally accepted accounting principles in India requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the disclosure of contingent liabilities as at the date of financial statements and the result of the operations during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

c. BASIS OF CONSOLIDATION

The consolidated financial statements include the financial statements of FDC Limited ("the Company"), the parent company and all of its subsidiaries (together referred to as "the Group") and its joint venture company. The consolidated financial statements of the Group have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses in accordance with Accounting Standard 21 - "Consolidated Financial Statements". The Group accounts for its proportionate share of interest in the joint venture companies by proportionate consolidation method in accordance with Accounting Standard 27 - "Financial Reporting of Interests in Joint Ventures". The accounting policies have been consistently applied by the Group during the year. The financial statements of all subsidiaries and joint venture companies are drawn upto the same date as the parent company.

In the preparation of consolidated financial statements, all significant intra-group transactions and accounts are eliminated. Unrealised profits, if any, on items carried in inventories are also eliminated from the consolidated financial statements. Unrealised losses resulting from intra-group transactions have also been eliminated except to the extent that recoverable value of related assets is lower than their cost to the Group.

The excess of cost of investment in the subsidiaries/ joint venture companies over the share of equity in the subsidiaries/ joint venture companies at the respective dates of investment is recognised in the financial statements as Goodwill and the same is charged off during the year of acquisition. The excess of share of equity in the subsidiaries/ joint venture companies over the cost of acquisition in the subsidiaries/ joint venture companies at the respective dates of investment is recognised in the financial statements as Capital Reserve. The share of equity in such subsidiaries/ joint venture companies is determined on the basis of the latest financial statements of the subsidiaries/ joint venture companies prior to the date of investment.

d. TANGIBLE FIXED ASSETS

All fixed assets other than revalued assets are stated at cost less accumulated depreciation/ amortisation less impairment losses. Cost comprises of the purchase price and any other directly attributable costs of bringing the assets to its working condition for its intended use. Adjustments arising from exchange rates variances relating to liabilities attributable to fixed assets are taken to the Statement of Profit and Loss.

Leasehold land, buildings, major items of plant and machinery and research and development equipments of FDC Limited at Jogeshwari and Roha were revalued on 30th September 1993 on the basis of the report of an approved valuer. Difference between the book value and the value as per valuer's report amounting to Rs. 730.70 lacs was transferred to Revaluation Reserve during the year ended 31st March 1994. These fixed assets are stated at revalued amounts less accumulated depreciation.

e. DEPRECIATION/ AMORTISATION/ IMPAIRMENT

FDC Limited

Depreciation on the historical cost of tangible fixed assets is provided on straight line method using the rates arrived at based on the useful life prescribed under Schedule II to the Companies Act, 2013 except for the below mentioned asset where higher rate is considered based on the useful life of the asset as estimated by the management:

Asset	Useful Life (No. of Years)
Vehicles	6

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/ external factors. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of the money and risks specific to the assets.

After recognition of impairment loss, the depreciation charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on straight line basis over its remaining useful life.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

Assets costing less than Rs. 5,000 are depreciated at the rate of hundred per cent.

Leasehold land/ improvements are amortised on a straight line basis over the period of lease ranging from 30 to 99 years.
