Those Members who have registered themselves as a speaker will only be allowed to express their views/ask questions during the AGM. Speakers are requested to submit their questions at the time of registration, to enable the Company to respond appropriately.
16. The Company reserves the right to restrict the number of questions and number of speakers, as appropriate, to ensure the smooth conduct of the AGM.

PROCEDURE FOR REMOTE E-VOTING AND E-VOTING DURING THE AGM

17. In compliance with provisions of Section 108 of the Companies Act, 2013; Rule 20 of the Companies (Management and Administration) Rules, 2014, (including any statutory modification(s) or re-enactment thereof, for the time being in force); Regulation 44 of SEBI Listing Regulations, 2015 and Secretarial Standard on General Meetings (SS- 2) issued by the Institute of Company Secretaries of India, the Company is pleased to provide Members with a facility to exercise their right to vote by electronic means for the business to be transacted at the AGM.
18. Members whose name appears in the Register of Members or in the Register of Beneficial Owners maintained by the depositories as on the cut-off date i.e., Saturday, September 19, 2020 shall only be entitled to attend and vote at the AGM. A person who is not a Member as on the cut-off date should treat this Notice of AGM for information purpose only.
19. The remote e-voting facility will be available during the following period: Commencement of remote e-voting: From 9:00 AM (IST) on September 23, 2020 End of remote e-voting: Up to 5:00 PM (IST) on September 25, 2020. During this period, Members of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date i.e., Saturday, September 19, 2020, may cast their vote by remote e-voting. The remote e-voting module shall be disabled by NSDL for voting thereafter. Once the vote on a resolution is cast by the Members, the Member shall not be allowed to change it subsequently.

In addition, the facility for voting through electronic voting system shall also be made available during the AGM. Members attending the AGM who have not cast their vote by remote e-voting shall be eligible to cast their vote through e-voting during the AGM. Members who have voted through remote e-voting shall be eligible to attend the AGM, however, they shall not be eligible to vote at the meeting.

20. The procedure and instructions for remote e-voting are given below:

Step 1: Log-in to NSDL e-voting system at URL: <https://www.evoting.nsdl.com/>

Step 2: Cast your vote electronically on NSDL e-voting system.

Details on Step 1 to log in to NSDL e-voting system are mentioned below:

1. Visit the e-Voting website of NSDL. Open web browser by typing the following URL: <https://www.evoting.nsdl.com/> either on a personal computer or on a mobile or on a laptop.
2. Once the home page of e-Voting system is launched, click on the icon "Login" which is available under 'Shareholders' section.
3. A new screen will open. You will have to enter your User ID, your Password and a Verification Code as shown on the screen. Alternatively, if you are registered for NSDL eservices i.e. IDEAS, you can log-in at <https://eservices.nsdl.com/> with your existing IDEAS login. Once you log-in to NSDL eservices after using your log-in credentials, click on e-Voting and you can proceed to Step 2 i.e., Cast your vote electronically.

4. Your User ID details are given below :

Manner of holding shares i.e. Demat (NSDL or CDSL) or Physical

a) For Members who hold shares in demat account with NSDL.	8 Character DP ID followed by 8 Digit Client ID For example if your DP ID is IN300*** and Client ID is 12***** then your user ID is IN300***12*****.
b) For Members who hold shares in demat account with CDSL.	16 Digit Beneficiary ID For example if your Beneficiary ID is 12***** then your user ID is 12*****.
c) For Members holding shares in Physical Form.	EVEN Number followed by Folio Number registered with the company For example if EVEN is 123456 and folio number is 001*** then user ID is 123456001***.

5. Your password details are given below:

- a) If you are already registered for e-Voting, then you can use your existing password to login and cast your vote.
- b) If you are using NSDL e-Voting system for the first time, you will need to retrieve the 'initial password' which was communicated to you. Once you retrieve your 'initial password', you need to enter the 'initial password' and the system will force you to change your password.
- c) How to retrieve your 'initial password'?
 - (i) If your email ID is registered in your demat account or with the company, your 'initial password' is communicated to you on your email ID. Trace the email sent to you from NSDL in your mailbox. Open the email and open the attachment i.e. a .pdf file. Open the .pdf file. The password to open the .pdf file is your 8 digit client ID for NSDL account, last 8 digits of client ID for CDSL account or folio number for shares held in physical form. The .pdf file contains your 'User ID' and your 'initial password'.
 - (ii) If your email ID is not registered, please follow steps mentioned below in this Notice.

6. If you are unable to retrieve or have not received the "Initial password" or have forgotten your password:

- a) Click on "**Forgot User Details/Password?**" (If you are holding shares in your demat account with NSDL or CDSL) option available on www.evoting.nsdl.com.
- b) "Physical User Reset Password?" (If you are holding shares in physical mode) option available on www.evoting.nsdl.com.
- c) If you are still unable to get the password by aforesaid two options, you can send a request at evoting@nsdl.co.in mentioning your demat account number/folio number, your PAN, your name and your registered address.
- d) Members can also use the OTP (One Time Password) based login for casting the votes on the e-Voting system of NSDL.

7. After entering your password, tick on Agree to "Terms and Conditions" by selecting on the check box.

8. Now, you will have to click on "Login" button.

9. After you click on the "Login" button, Home page of e-Voting will open.

Details on Step 2 to cast vote electronically on NSDL e-Voting system are mentioned below:

1. After successful login at Step 1, you will be able to see the Home page of e-Voting. Click on e-Voting. Then, click on Active Voting Cycles.
2. After clicking on Active Voting Cycles, you will be able to see all the companies "EVEN" in which you are holding shares and whose voting cycle is in active status.

Item No. 8: To approve the annual limit for material related party transactions for a period of 5 years

Pursuant to the provisions of Section 188 of the Companies Act, 2013 (as amended) read with Rules 15 and 16 of Companies (Meetings of Board and its Powers) Rules, 2014 prescribes the procedure for approval of related party transaction(s).

Regulation 23 of the SEBI Listing Regulations has also prescribed seeking of Members' approval for material related party transaction(s). The proviso to Section 188 also states that nothing in Section 188(1) will apply to any transaction entered into by the Company in its ordinary course of business and on arms' length basis. In terms of the explanation to Regulation 23 of the SEBI Listing Regulations, transaction(s) with a related party are considered material if the transaction(s) to be entered into individually or taken together with previous transaction(s) during a financial year exceed 10% of the annual consolidated turnover of the Company as per the last audited financial statements of the Company.

Based on the approval of the Audit Committee, the Board is proposing to enter into related party transaction with Sun Pharma Laboratories Limited (SPLL), which is wholly owned subsidiary company of Sun Pharmaceutical Industries Limited, the holding company of Zenotech Laboratories Limited (the Company), for the manufacture of certain products using manufacturing facilities and spare capacity of the Company.

The Related Party Transactions (including on-going transactions), as mentioned in the resolution are in the ordinary course of business and at arms' length but however may exceed 10% of the annual turnover of the Company in each financial year.

In terms of Regulation 23(4) of the SEBI Listing Regulations, all material Related Party Transaction(s) shall require the approval of the Members through Ordinary Resolution and all entities/persons that are directly/indirectly related parties of the Company shall abstain from voting on such resolutions.

Accordingly, the Promoters shall abstain from voting on this resolution for approval of material related party transactions.

The disclosures required to be made under the provisions of the Companies Act, 2013 and the Companies (Meeting of Board and its Powers) Rules, 2014 as amended are given herein below:

1. Nature of relationship: Sun Pharma Laboratories Limited (SPLL), which is wholly owned subsidiary company of Sun Pharmaceutical Industries Limited, the holding company of the Company.
2. Name of the Director or Key Managerial Personnel who is related, if any: Except Dr. Azadar Husain Khan and Mr. Rakeshchandra Jagdishprasad Sinha, none of the other Directors or Key Managerial Personnel are related.
3. Nature, material terms, monetary value and particulars of the contract or arrangement: As proposed in the resolution no. 8 of this Notice.
4. Any other information relevant or important for the Members to take a decision on the proposed resolution: The transactions of the Company with the aforementioned related parties put up for approval are in the ordinary course of business and on arms' length basis. These transactions are based on business requirements and are necessary for the smooth and efficient functioning of your Company.

Keeping in view the intent of the law, all transactions (irrespective of the nature of the transactions) with the Related Parties have been aggregated while applying threshold limits for seeking your approval.

The above contracts/arrangements/transactions as mentioned in the resolution are approved by the Audit Committee and the Board of Directors as the same are in the interest of the Company. Approval of the Members is also sought for all the actions, decisions and approvals accorded by the Board of Directors (including the Audit Committee) in connection with the aforementioned related party transactions.

The Board of Directors recommend the Ordinary Resolution set out at Item No. 8 of the accompanying Notice for the approval of the unrelated Members of the Company in terms of Regulation 23 of the SEBI Listing Regulations.

In terms of Regulations 23(4) of the SEBI Listing Regulations, no related party shall vote to approved such resolutions whether the entity is a related party to the particular transaction or not.

Pursuant to the above provisions, Dr. Azadar Husain Khan and Mr. Rakeshchandra Jagdishprasad Sinha and their relatives are deemed to be interested in SPLL which is a wholly owned subsidiary of Sun Pharmaceutical Industries Limited, the holding company of the Company, in which they are employees.

Except Dr. Azadar Husain Khan and Mr. Rakeshchandra Jagdishprasad Sinha, none of the other Directors or Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested, in the resolution set out at Item No. 8 of the Notice.

Auditors and their Reports

Statutory Auditors

M/s. PKF Sridhar & Santhanam LLP (Firm registration number- 003990S/S 200018) Chartered Accountants, Hyderabad were appointed as the Statutory Auditors of the Company in the 26th Annual General Meeting of the Company held on September 28, 2015 for a period of five years i.e. till the conclusion of the 31st Annual General Meeting to be held in the year 2020, subject to ratification of their appointment at every annual general meeting.

Further, the first term of the appointment of Statutory Auditors expires at the conclusion of 31st Annual General Meeting. Accordingly, in terms of Section 139 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the present Statutory Auditors of the Company, M/s. PKF Sridhar & Santhanam LLP would hold office until the conclusion of the ensuing Annual General Meeting.

In terms of the provisions of Section 139 (2) (b) of the Companies Act, 2013, an Audit Firm can be appointed for two terms of five consecutive years each. Based on the recommendations of Audit Committee, the Board of Directors may recommend the re-appointment of M/s. PKF Sridhar & Santhanam LLP as the Statutory Auditors of the Company, for approval of the Members in the forthcoming 31st Annual General Meeting, to hold office for a period of five consecutive years from the conclusion of the ensuing 31st Annual General Meeting until the conclusion of 36th Annual General Meeting to be held in the calendar year 2025.

The Notes on the financial statements referred to in the Auditors' Report are self-explanatory and do not call for any further comments. The Auditors' Report is unmodified i.e. it does not contain any qualification, reservation or adverse remark or disclaimer.

Secretarial Audit

Pursuant to the provisions of Section 204 of the Companies Act, 2013 and the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the Board of Directors of the Company had appointed Mr. Mahadev Tirunagari, Company Secretary in Practice, Hyderabad, to undertake the Secretarial Audit of the Company for the financial year 2019-20. The Secretarial Audit Report for the financial year ended March 31, 2020, is appended herewith as Annexure 3 to this Report.

With regard to Observations/remarks contained in the Secretarial Auditors' Report, your directors' wish to respond/state as under:

Observation no. 1(a): As you are aware that there are ongoing litigations between the erstwhile promoters and the present promoters of the Company. The present management of the Company took over the possession of the Company's premises effective from 11 November 2011, pursuant to an Order passed by Company Law Board. Consequent to the takeover, it was found that, among others, various statutory books and records of the Company was missing. In order to recover the related missing records, the Company has initiated appropriate actions against Late Dr. Jayaram Chigurupati, the erstwhile Managing Director. The matter is currently subjudice. Further, the Company is in process of closure of all Civil Cases against Late Dr. Jayaram Chigurupati and his legal heirs, if any.

As reported by Secretarial Auditor, the Company is in process of closure of all Civil Cases against Late Dr. Jayaram Chigurupati and his legal heirs, if any.

Observation no. 1(b): In light of the non-availability of records of the Company as well its subsidiaries, the Company is unable to prepare consolidated accounts. In an effort to recover these missing related records, appropriate actions have already been initiated against the previous Managing Director, Dr. Jayaram Chigurupati who was in control over the affairs of the Company during the period of offence including filing of criminal complaint under the provisions of Section 630 of the erstwhile Companies Act, 1956 before the Economic Offence Court, Nampally, Hyderabad. Due to demise of Dr. Jayaram Chigurupati on January 31, 2019 the case before Economic Offence Court was abated.

The Company has evaluated and concluded that it is not controlling the US subsidiary. Further, the Board has decided to initiate the winding up process for the defunct subsidiary in Brazil. Accordingly, the Company is of the view that it does not have subsidiaries within the definition of IndAS 110 and hence, it is not required to prepare and present Consolidated Financial Statements.

Observation no. 1(c): Responded at observation no. 1(b) supra.

Reporting of Frauds by Auditors

During the year under review, the Statutory Auditors and Secretarial Auditor have not reported any instances of frauds committed in the Company by its Officers or Employees to the Audit Committee under section 143(12) of the Companies Act, 2013, details of which needs to be mentioned in this Report.

Consolidated financial statements

Books of accounts and other related records/documents of the overseas subsidiaries of the Company were missing and due to non-availability of those records/information, the Company is unable to prepare consolidated accounts and attach the required statements and particulars in terms of the applicable provisions of the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The facts of the case had already been reported in earlier years.

Overseas subsidiaries were apparently created; investments and loans were made during the period from 2006-07 to 2010-11 under the erstwhile management headed by Late Dr. Jayaram Chigurupati. Therefore, it was the responsibility of that management to handover those details to the Company during the transition. However, no details on those subsidiaries were made available to your Company. Despite several attempts by the Company to recover them, details concerning those subsidiaries including the documents and certificates related to the foreign exchange transactions which included loans and investments made to those foreign subsidiaries, could not be obtained.

The Company has evaluated and concluded that it is not controlling the US subsidiary. Further the Board had initiated the winding up process for the defunct subsidiary in Brazil. Accordingly, the Company is of the view that it does not have subsidiaries within the definition of IndAS 110 and hence, it is not required to prepare and present Consolidated Financial Statements.

The Company had filed a complaint before the Hon'ble Economic Offences Court, Nampally, Hyderabad, under the provisions of Section 630 of erstwhile Companies Act, 1956 against the former Managing Director, Late Dr. Jayaram Chigurupati, who was in complete control over the Company affairs during the period of these events. However, due to demise of Dr. Jayaram Chigurupati on January 31, 2019 the case before Economic Offence Court was abated.

Directors' Responsibility Statement

Pursuant to Section 134 (5) of the Companies Act, 2013, directors of your Company hereby state and confirm that:

- (a) in the preparation of the annual accounts, the applicable accounting standards had been followed along with proper explanation relating to material departures;
- (b) they had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year ended March 31, 2020 and of the profit of the Company for that period;

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above subject to the following observations:

1. As informed by the management /reported in the Annual Report for the financial year ended 31 March 2020 we report the following:
 - a) *It is noticed that there are ongoing litigations between the erstwhile promoters and the present promoters of the Company. The present management of the Company took over the possession of the Company's premises effective from 11 November 2011, pursuant to an Order passed by Company Law Board. Consequent to the takeover, it was found that, among others, various statutory books and records of the Company was missing. In order to recover the related missing records, the Company has initiated appropriate actions against Dr. Jayaram Chigurupati, the erstwhile Managing Director. The matter is currently subjudice. However, Dr. Jayaram Chigurupati was demised on 31 January 2019 and all the criminal cases against him were closed.*
Further, the Company is in process of closure of all Civil Cases against Late Dr. Jayaram Chigurupati and his legal heirs, if any.
 - b) *Due to the missing and non-availability of the books of account and other related records and documents of the overseas subsidiaries, the Company is unable to prepare consolidated financial statements and attach the required statements and particulars in terms of the provisions of Section 129 of the Companies Act, 2013 and relevant provision of the SEBI(Listing Obligations and Disclosure Requirements) Regulations, 2015, and also corresponding compliances under FEMA were not complied in relation to ODI etc., in subsidiaries.*
 - c) *The Company has complied with all the conditions of corporate governance code as envisaged under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, except for:*
 1. *Disclosures and compliance concerning subsidiaries of the Company due to the missing and non-availability of the books of account and other related records and documents of the subsidiaries as per SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015).*

I further report that

The Board of Directors of the Company is duly constituted with proper balance of Non-Executive Directors and Independent Directors. However, there are no Executive Directors on Board.

Further, two additional directors i.e. Ms. Jagruti Prashant Sheth and Mr. Rakeshchandra Jagdishprasad Sinha were appointed w.e.f. 01 February 2020. Apart from this, there were no other changes in the composition of the Board of Directors that took place during the period under review. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings/Committee meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and Committee Meetings are carried out unanimously as recorded in the minutes of the meetings of the Board of Directors or Committee of the Board, as the case may be.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period, following major events have happened which are deemed to have major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc.

1. Obtaining consent of the shareholders for variation in terms of objects of the rights issue

Certificate of the Chief Executive Officer and Chief Financial Officer

After the takeover of premises in November, 2011, Zenotech under the new management had prepared an inventory of all the documents, registers, machineries, and assets and goods of the Company. As an alternative, in the absence of the original records, new management pending disposal of the petitions/cases filed, embarked upon an exercise of reconstruction of books of accounts for the year ended 31 March 2011 based on a best effort basis and so far as practicable under the circumstances including obtaining photocopies/ duplicate copies, requisite information of relevant books and records from external sources including previous auditors, banks and financial institutions, customers, suppliers, tax authorities, Ministry of Corporate Affairs, employees and other relevant sources. The reconstructed financial statements for the year ended 31 March 2011 were duly approved by the shareholders.

In view of non-availability of all books and records necessary and in the event in future if actual data is found, the same may force to change the information contained in aforesaid financial statements, to the extent, it is different from the data provided in the said financial results.

Subject to the foregoing, we, Rajendra Singh Parihar, Chief Executive Officer and Poly K.V., Chief Financial Officer, of Zenotech Laboratories Limited (the Company), hereby certify that:

- A. We have reviewed financial statements and the cash flow statement for the quarter and year ended March 31, 2020 and that to the best of our knowledge and belief, we state that:
- (1) these statements do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading;
 - (2) these statements together present a true and fair view of the Company's affairs and are in compliance with existing accounting standards, applicable laws and regulations.
- B. No transactions entered into by the Company during the quarter and year ended March 31, 2020 which are fraudulent, illegal or violative of the Company's code of conduct.
- C. We accept responsibility for establishing and maintaining internal controls for financial reporting and have evaluated the effectiveness of internal control systems of the Company pertaining to financial reporting and we have disclosed to the auditors and the audit committee that there are no deficiencies in the design or operation of such internal controls.
- D. We have indicated to the Auditors and the Audit Committee of the Board that during the period:
- (1) there are no changes in internal control over financial reporting;
 - (2) there are no changes in accounting policies and that the same have been disclosed in the notes to the financial statements; and

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY OVERVIEW

GLOBAL INDUSTRY OVERVIEW:

The global pharmaceutical market, estimated at US\$1.2 Trillion in 2019, is expected to expand at a Compounded Annual Growth Rate (CAGR) of 3-6% to US\$1.5-1.6 Trillion by 2024. Much of this is likely to be driven by the volume growth in pharmerging markets and the launch of high-end specialty innovative products in developed markets. However, overall tightening in pricing and patent expiry in developed markets could offset this growth.

Global pharmaceutical market growth

Regions	2019 (in US\$ Bn)	2014-2019 CAGR	2024 (in US\$ Bn)	2019-2024 CAGR
Developed	822	3.8%	985-1,015	2-5%
Pharmerging	358	7.0%	475-505	5-8%
Rest of the world	71	4.8%	85-95	2-5%
Global	1,250	4.7%	1,570-1,600	3-6%

Emerging trends and technologies:

The digital revolution and the availability of newer and improved biotechnological technologies is going to change profoundly the way medicine is practiced. Nine next generation biotherapeutics (NGB) have been launched already. Induced pluripotent stem cells (iPSC), CRISPR/Cas9 and other cells or gene-modifying techniques might be used to treat selected patient cohorts. The modalities to determine costs and accessibility for these treatments still need to be fine-tuned to allow for their broader sustainability. Bioethics considerations are also needed to better determine the allowed use of technologies such as CRISPR/Cas9. On the other hand, competition in the field is limited by the complexity of the manufacturing and distribution process.

Prescription digital therapeutics (DTx) might represent a completely new way to think about a pharmaceutical product. They are devices claimed to provide new treatment modalities and carrying indications and disease-specific treatment effectiveness claims in their prescribing labels. The number of mobile apps of this category submitted to the FDA for clearance or approval (under the De Novo pathway) is increasing. Areas of intervention include cognitive pathways and behavioural drivers of health, attention deficit hyperactivity disorder (ADHD), major depressive disorder and schizophrenia. Developers of these IT solutions often collaborate with pharmaceutical companies to complement their respective expertise towards the development of innovative approaches to cure.

The area of neglected tropical diseases has been traditionally covered by the activities of many philanthropic organisations, those research programmes are in many cases close to reach regulatory approval. Five to ten products are expected by industry experts to be launched in the next ten years. Priorities in funding of this type of research should be based on WHO's assessment, and it might be shifted to non-drug approaches or root causes identification.

Artificial intelligence, machine and deep learning will continue to be major areas of interest for investments, as they may support the identification and development of new breakthrough treatments, particularly in the areas of pre-clinical validation, target identification and efficiency of clinical development.

Real world evidence will be increasingly used to generate additional information to support the approval of new indications for already marketed medicinal products. Apps for remote monitoring and new study designs for site-less clinical trials are prerequisites to achieve this objective. The global industry expects health and patient senior advocacy roles – internal to pharmaceutical companies – to be present by 2019 in the most of the top 20 pharma companies, in order to better support the patient-centric approach to healthcare. These roles should bring clinical and commercial efforts together, to support patient engagement and clinical trial design.

Biopharma companies are expected to contribute to more than one-third of launches of new medicines in the next five years, but they might suffer pressures from payers to keep under control the high prices of this kind of products. Big, traditional pharma companies may continue to pursue M&A policies to acquire emerging biopharmas, or might prefer the way of partnership agreements to mitigate R&D risks.

Specific to the US are the monitoring of the outcomes of the reforms proposed by the government to deal with high prices of medicines and that of policies to control the prescription and use of opioids, a theme that will remain a complex and challenging topic to be addressed.

The current trends of the market:

The US market is expected to evolve faster (4–7%) compared to the top 5 European countries (1–4%) and Japan; emerging countries should also play an important role (5–8%). Among these last ones, Chinese market should reach a value of \$140–170 billion, even if its growth is declining to 3–6%. Turkey, Egypt and Pakistan are expected to experience the greatest growth in the next five years, while China, Brazil and India maintain by now the greater medicine spending. The launch of new, innovative medicinal products shall be the main driver for developed markets, coupled to improved access for the emerging ones. Biosimilars will gain an increasingly important role especially in the US, while the European scenario is dominated by policies to contain the costs for healthcare systems.

Pricing still remains a hot issue in the ongoing US debate, and it is subject to complex dynamics involving different phases of negotiations between manufacturers, the government and public and private payers. Innovative medicinal products are being launched with very high prices since many years; the industry expects it could reach a median price of \$100,000 per year by 2023 for oncological drugs. Price competition, independent review of prices and decline in the number of breakthrough approaches (i.e. CAR-T therapies or immune checkpoint inhibitors) compared to last five years might help, according to the report, to reduce such price increase. Pressures are also made in the US to reduce list price increases for established branded medicines. Net prices for manufactures increased at an estimated 1.5% in 2018 and are expected to rise at 0–3% over the next five years.

Trends for new products:

Average spending level on new products launched in 2019-2023 is expected to reach \$45.8 billion, slightly greater than \$43.4 billion observed for products launched in 2014-2018. This year and the next one are expected to show the bigger number of new launches, especially in the specialty, biologics and oncology areas, thus confirming the trend towards an increasing role of precision medicine where a new treatment is supposed to reach fewer patients. Stratification using specific biomarkers is an add-on characteristic of such approach.

The industry expects the launch of some 70-90 new oncology products in the next five years, out of more than 700 currently in late clinical development. Other emerging therapeutic areas that might see the launch of new products include non-alcoholic steatohepatitis (NASH), migraines, neuromuscular diseases, autism and other developmental disorders, and a range of molecular targets for cell and gene therapies.

The patent cliff of 2019:

The current year will see the loss of exclusivity for many branded products, leading to the launch of the corresponding generic or biosimilar versions of the drug. The impact on the market for small molecule-based products is expected to exceed \$121 billion in the next five years (+15%) in the developed areas, and to reach \$17.0 billion in 2023 for biologics.

Among the main products interested is adalimumab (Humira), which is already available as biosimilar in Europe, while it will maintain exclusivity in the US up to 2023. By this year nivolumab (Opdivo) and pembrolizumab (Keytruda) will be the only brands not be facing generic or biosimilar competition. The US is expected to present the greater growth of the biosimilar market, even if introduction of new bio-similars should continue to occur more rapidly in Europe. The introduction of incentives for this sort of medicinal products and an improved communication of their benefits to patients and providers are also envisaged by the report.

Specialty medicines to treat chronic disease

Ageing has a great impact on the increasing number of patients suffering for chronic diseases. This area, together with those of complex and rare diseases, is the target of specialty medicines. A market that will represent around 50% of the total in 2023, when spending for specialty products is expected to reach \$475–505 billion. Oncology, autoimmune, immunology, HIV and multiple sclerosis are the most interesting therapeutic areas, says IQVIA, covering 74% of the expected growth in developed countries.

INDIAN PHARMACEUTICAL INDUSTRY:

India is the largest provider of generic drugs globally. Indian pharmaceutical sector supplies over 50 per cent of global demand for various vaccines, 40 per cent of generic demand in the US and 25 per cent of all medicines in the UK.

India enjoys an important position in the global pharmaceuticals sector. The country also has a large pool of scientists and engineers with a potential to steer the industry ahead to greater heights. Presently, over 80 per cent of the antiretroviral drugs used globally to combat AIDS (Acquired Immune Deficiency Syndrome) are supplied by Indian pharmaceutical firms.

Market Size

Indian pharmaceutical sector is expected to grow to US\$ 100 billion, while medical device market is expected to grow US\$ 25 billion by 2025. Pharmaceuticals export from India stood at US\$ 20.70 billion in FY20. Pharmaceutical export include bulk drugs, intermediates, drug formulations, biologicals, Ayush and herbal products and surgical.

India's biotechnology industry comprising biopharmaceuticals, bio-services, bio-agriculture, bio-industry, and bioinformatics is expected to grow at an average growth rate of around 30 per cent a y-o-y to reach US\$ 100 billion by 2025.

India's domestic pharmaceutical market turnover reached ₹ 1.4 lakh crore (US\$ 20.03 billion) in 2019, up 9.8 per cent y-o-y from ₹ 129,015 crore (US\$ 18.12 billion) in 2018.

Investments and Recent Developments:

The Union Cabinet has given its nod for the amendment of existing Foreign Direct Investment (FDI) policy in the pharmaceutical sector in order to allow FDI up to 100 per cent under the automatic route for manufacturing of medical devices subject to certain conditions.

The drugs and pharmaceuticals sector attracted cumulative FDI inflow worth US\$ 16.50 billion between April 2000 and March 2020 according to the data released by Department for Promotion of Industry and Internal Trade (DPIIT).

Some of the recent developments/investments in the Indian pharmaceutical sector are as follows:

- Affordable medicines under Pradhan Mantri Bhartiya Janaushadhi Pariyojana (PMBJP) achieved record sales turnover of ₹ 52 crore (US\$ 7.38 million) in the month of April 2020.
- During December 2019, on moving annual total (MAT) basis, industry growth was at 9.8 per cent, with price growth at 5.3 per cent, new product growth at 2.7 per cent, while volume growth at two per cent y-o-y.
- In October 2019, Telangana Government proposed Hyderabad Pharma City with financial assistance from the Central government of ₹ 3,418 crore (US\$ 489 million).
- As on August 2019, the moving annual turnover (MAT) for biosimilar molecules sold in the domestic market stood at ₹ 1,498 crore (US\$ 214.31 million).
- Healthcare sector witnessed private equity of total US\$ 1.1 billion with 27 deals in H1's 2019.
- Indian pharmaceutical industry's export to the US will get a boost as branded drugs worth US\$ 55 billion will become off-patent during 2017-2019.

Government Initiatives

Some of the initiatives taken by the Government to promote the pharmaceutical sector in India are as follows:

- India plans to set up a nearly ₹ 1 lakh crore (US\$ 1.3 billion) fund to provide boost to companies to manufacture pharmaceutical ingredients domestically by 2023.
- In November 2019, the Cabinet approved extension/renewal of extant Pharmaceuticals Purchase Policy (PPP) with the same terms and conditions while adding one additional product namely, Alcoholic Hand Disinfectant (AHD) to the existing list of 103 medicines till the final closure/strategic disinvestment of Pharma CPSUs.
- Under Budget 2020-21, ₹ 65,012 crore (US\$ 9.30 billion) has been allocated to the Ministry of Health and Family Welfare. The Government has allocated ₹ 34,115 crore (US\$ 4.88 billion) towards the National Health Mission under which rural and urban people will get benefited.
- ₹ 6,400 crore (US\$ 915.72 million) has been allocated to health insurance scheme Ayushman Bharat – Pradhan Mantri Jan Arogya Yojana (AB-PMJAY).
- As per Economic Survey 2019-20, Government expenditure (as a percentage of GDP) increased to 1.6 per cent in FY20 from 1.2 per cent in FY15 on health.
- The National Health Protection Scheme is the largest Government funded healthcare programme in the world, which is expected to benefit 100 million poor families in the country by providing a cover of up to ₹ 5 lakh (US\$ 7,723.2) per family per year for secondary and tertiary care hospitalisation. The programme was announced in Union Budget 2018-19.
- The Government of India is planning to set up an electronic platform to regulate online pharmacies under a new policy to stop any misuse due to easy availability.
- Government of India unveiled 'Pharma Vision 2020' to make India a global leader in end-to-end drug manufacture. Approval time for new facilities has been reduced to boost investment.

Road Ahead

Medicine spending in India is projected to grow 9-12 per cent over the next five years, leading India to become one of the top 10 countries in terms of medicine spending.

Going forward, better growth in domestic sales would also depend on the ability of companies to align their product portfolio towards chronic therapies for diseases such as cardiovascular, anti-diabetes, anti-depressants and anti-cancers, which are on the rise.

The Indian Government has taken many steps to reduce costs and bring down healthcare expenses. Speedy introduction of generic drugs into the market has remained in focus and is expected to benefit the Indian pharmaceutical companies. In addition, the thrust on rural health programmes, life-saving drugs and preventive vaccines also augurs well for the pharmaceutical companies.

Overview on Biotechnology Industry

India's biotechnology industry comprising bio-pharmaceuticals, bio-services, bio-agriculture, bio-industry and bioinformatics is expected to grow at an average growth rate of around 30 per cent a year and reach US\$ 100 billion by 2025. Biopharma, comprising vaccines, therapeutics and diagnostics, is the largest sub-sector contributing nearly 62 per cent of the total revenues at ₹ 12,600 crore (US\$ 1.89 billion).

India is among the top 12 biotech destinations in the world and ranks third in the Asia-Pacific region. India is the largest producer of recombinant Hepatitis B vaccine. India has emerged as a leading destination for clinical trials, contract research and manufacturing activities owing to the growth in the bio-services sector.

Government Health Expenditure:

Most governments in developing countries usually finance programs that support child immunization against various diseases as part of the basic public health package. Though India too has such immunization programs, because of relatively high birth rate and population, the share of government health budget in total health care expenditure is relatively low. The total health expenditure in India is around 3.6%, far below than that of other emerging economies.

Threat of Drug Substitution:

The threat of substitutes in the biotechnology field depends on the area of therapeutic segment. While patent protection might stop the threat of alternative drugs and chemicals for a period of time, eventually there will be companies that can produce a similar product at a cheaper price.

Overview on Ophthalmology Industry

India has tremendous unmet need for ophthalmic care. India has over 10% of the world's blind people. India's over US\$1.3 billion ophthalmic market is expected to grow at a compound annual rate (CAGR) of over 6% a year to about \$US2 billion by 2021. The factors that fuel India's ophthalmic market growth include an upsurge in dietary change-related eye diseases, growing incidence of myopia, a growing middle class and improved access to care. In terms of treatments for diseases or disorders, the largest markets are for cataract surgery, retinal drugs, and glaucoma medications.

Ophthalmic drug Market:

Ophthalmology is a branch of medicine that deals with the anatomy, physiology, and diseases of the eye. An ophthalmologist is a specialist in medical and surgical eye problems, who performs operations on eyes. They are specially trained to provide the full spectrum of eye care, from prescribing glasses and contact lenses to complex and delicate eye surgery. The devices include glasses, lenses, diagnostics, lasers, solutions, and surgical instruments. The global ophthalmology drug and device market is expected to register a CAGR of 5.3% during the forecast period of 2018-2023.

Cataract volume has registered a rapid increase in the recent years. The aging population is expected to burden all areas of health care, and ophthalmologists provide approximately 90% of their procedure-based services to seniors. Cataract surgery is the most frequent surgical procedure performed in many countries and provides significant improvements in quality of life, to elderly population at low costs.

With an increase in the demand for ophthalmological devices, projecting future cataract surgery needs are vital for health resource, hospital, and surgical center management and planning. Other factors, such as availability of new drugs and devices and prevalence of eye disease are expected to drive the market over the forecast period.

By treatment, the market is segmented into Dry eye drugs, Retinal drugs, Anti-inflammatory/allergy/infective drugs, Anti-glaucoma drugs. Cataract has the largest market share in the ophthalmic drugs market. Ophthalmic drug type market is segmented into Prescription drugs and Over-the-Counter (OTC) drugs. OTC drugs for ocular allergy and dry eye is rapidly growing. Furthermore, geographically, ophthalmic drug market is segmented into North America (US), Europe (Germany, UK, and France) and Asia Pacific (Japan, India, and China). North America has the largest ophthalmic drugs market. Asia which comprises majority of pharmerging countries is the fastest growing ophthalmic drugs market. The major Ophthalmic drug market segments are Cataract, Glaucoma, Macular edema, Refractory error, Macular degeneration and Eye infections.

Over coming years, there will be much research in ophthalmic, especially for sustained release implants and injection technologies for retinal diseases. Sustained release formulations will offer marked potential for revenue growth. Diabetic Macular Oedema (DME) will also be important to the future of the ophthalmic drug market. The number of people developing Type II diabetes is rising, with many diabetic patients developing DME.

Overview on Oncology Industry

Oncology Market size was valued at \$136.7 billion in 2019 and is poised to grow at a CAGR of 11.9% during the forecast period 2020-2025. Oncology is a branch of medicine that deals with the prevention, diagnosis, and treatment of cancer. Cancer is a disease, which involves the abnormal growth of cells that result in the formation of a tumor. However, benign tumor are not cancers. The abnormal tumor cells tend to spread to other local tissues and different parts of the body through the blood and lymphatic system. Treatment of cancer depends upon the stages of the disease progression. Increased prevalence of cancer, unhealthy lifestyle, and increasing geriatric population are the primary factors driving the growth of the oncology market. High market growth potential in developing nations, rise in the number of pipeline products, and the upsurge in demand for personalized medicines are poised to create new opportunities for the market players during the forecast period 2020-2025.

Oncology Market review:

The analysis of the following segments of the Oncology Market is based on:

North America dominated the Oncology Market with market share of 53.19% in 2019. This is owing to emerging bio pharmacy companies in the U.S. for oncology and the growing concern of people towards health are contributing to the growth of the oncology market. Asia pacific is estimated to be fastest growing CAGR during the forecast period 2020-2025 owing to high number of cases in India, Taiwan, Malaysia, and China. India has the largest number of Breast Cancer Patients with mortality rates of 55% followed by Oral Cavity Cancer with a mortality rate of 60%. Higher incidence of gallbladder cancer in north India and NE region compared to other parts.

OPPORTUNITIES AND THREATS

Threats from other low cost countries exist as a challenge for Indian Pharma industry. However, on the quality front, India is better known for reliability as compared to most countries. Prices of drugs being subject to control and regulation by the Government may emerge as another threat to the margins.

OUTLOOK

The COVID-19 outbreak and the lockdown across countries manifested into a healthcare-cum-economic crisis. The situation is uncertain and it is difficult to predict when economies will fully normalise. Hence, FY21 is likely to be a challenging year.

The world population at large, will have to learn to co-exist with the COVID-19 virus till an effective vaccine is developed and a significant portion of the world population is inoculated with the vaccine. Many existing medicines are being evaluated as potential options in COVID-19 treatment. Any positive outcome from the clinical trials of these products may also help in treating patients.

This co-existence with the virus will remarkably change things in the future:

- Since pharmaceuticals are viewed as essential items, the pharmaceutical industry has witnessed relatively less adverse impact of the pandemic, unlike other sectors, Zenotech continues to manufacture its products despite the lockdown.
- The economic disruption linked to COVID-19 will take time to recover, with the outlook for economic activities globally, being inhibited. It may have a consequential effect on GDP across countries, bearing adverse impact on consumption of pharmaceutical products.
- It is possible that a certain percentage of the global workforce will continue to work from home, which will result in significant change in their consumption pattern of products and services.
- Social distancing may become the new normal for everybody till the virus is contained. This will require individuals and corporates to adopt safer protocols in offices, manufacturing facilities, travelling, meetings, amongst others.
- Sales force visit to doctors had stopped as clinics and hospital OPD consultations, were temporarily closed. Elective surgeries have been deferred. This will have a near-term impact on marketing and selling of pharmaceutical products and prescription generation for acute care products.
- Lead times for transportation of raw materials and finished goods increased due to the lockdown, but are expected to gradually normalize once the lockdowns across economies are relaxed.
- Zenotech is focused on profitable growth, sustainable cash flows and controlling costs, objectives that have become more critical during these times of uncertainty.

RISKS AND CONCERNS

Every business carries inherent risks and all of them cannot be eliminated. The management at Zenotech has been striving to minimize the known risks. Further, Pharma companies in India, will need to realign their quality and compliance structure to conform to the constantly evolving regulatory guidelines. With the FDA and other regulators broadening the scope of compliance requirements, it helps if companies have a holistic approach and make regulatory compliance part of their corporate strategy. This includes effective training, proper timely communication, periodic reviews, and support from the top management. Regulators have to focus on aligning country-specific regulatory frameworks to global standards enabling harmonization of standards and help companies drive efficiencies.

COVID-19 Risk Response

The COVID-19 pandemic has resulted in a new world order. Countries imposed lockdowns on economic activities beyond essential services, restrictions came up on travel and physical contact alongside business operation suspension in most industries. The pharmaceutical sector, being a supplier of essential items, has been relatively less impacted compared to other industries.

Zenotech promptly evolved a COVID-19 Risk Management Plan and formed COVID-19 Risk Response Teams under the guidance of senior management to tackle challenges stemming from the pandemic.

Following are some priorities for Zenotech to ensure business continuity:

1. Employee protection – Keep workplace COVID-19 free, working remotely wherever feasible
2. Supply chain protection - Keep plants operational with safety protocols, maintain adequate stock levels, ensure timely deliveries, enhance captive consumption, and have close vendor connect to ensure supply chain continuity
3. Support mechanisms and infrastructure –collaboration tools, strengthen security related controls and enable access for remotely operating vendors
4. Financial health – Focus on collections and effective debtor management to maintain adequate liquidity, while simultaneously continuing to focus on cost optimisation.

Despite our proactive COVID-19 risk response initiatives, we estimate sluggish sales in the near-term. The impact of the COVID-19 pandemic is difficult to quantify as of now, but the Company will try to ensure that it emerges stronger across its various businesses.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company's internal control systems are designed to ensure that all the assets of the Company are safeguarded and protected against any loss and that all the transactions are properly authorized, recorded and reported. The Company endeavors to comply with all the applicable technical, legal, regulatory and other compliances.

The Company has an adequate system of internal controls towards achieving efficiency in operations, optimal utilization of available resources, effective monitoring thereof and compliance with applicable laws.

OPERATIONAL PERFORMANCE

As already stated, during the year under review, the Company recorded revenue of ₹ 2,593.83 Lakhs (previous year ₹ 1,302.91 Lakhs) from its operations ~ 100% increase over the corresponding previous year. The Company reported a profit of ₹ 1,073.07 Lakhs as against the reported loss of previous year (311.94 Lakhs), including exceptional items of ₹ 636.96 Lakhs towards reversal of Service tax provisions under SVLDRS Scheme, 2019. During the year, the Company registered operational profit of ₹ 440.79 Lakhs for the first time since its inception. The operational performance for the Oral Solid Dosage (OSD) and Eye care facilities of the Company was at par with its installed capacities. However, the Cyto Injectables and General Injectables are yet to attain its optimum utilization due to low market demands. The Company started production from its newly commissioned Depot Injectable facility during the latter part of the year and expecting more revenues from this facility in future subject to market demands. Based on the projected business plans for the forthcoming years, the Company believes that it can maintain its positive performance by utilizing its existing resources to its maximum. Your Company is constantly striving to optimize its operational capacities, control costs to remain competitive which would help to improve the operational efficiency.

Revamping project of Biotech Facility of the Company is completed and Sun Pharmaceutical Industries Limited, holding company and one of the promoter of the Company, had initiated product development activities in the said facility. The Company had invested in enhancing its utilities, infrastructure and manpower to support its future operations.

INDEPENDENT AUDITORS' REPORT

To
The Members of
Zenotech Laboratories Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Zenotech Laboratories Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2020, and the standalone statement of Profit and Loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the *standalone* financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters	Auditor's Response
Going Concern	
The Company has losses from last many years Hence we were required to assess whether the going concern assumption is appropriate.	<p>Our Audit Procedures included:</p> <ul style="list-style-type: none"> ● Review of management's budgets (including consideration of adjustment for COVID19 impact on business if any) to gain an understanding of the inputs and process underpinning the cash flow model prepared for the going concern assessment. ● Discussion with the management on the cash flow position and the plans for meeting the requirements of cash deficits, if any, in the business plans. ● Evaluation of the plans of the company for becoming cash positive from operations and becoming profitable over a period. ● Evaluation of the disclosures provided in the standalone financial statements to ensure that this aspect has been appropriately disclosed.

Key audit matters	Auditor's Response
Impairment of Property, Plant and Equipment	
Non-recognition of impairment provision on Property, Plant and Equipment.	Our audit procedures included: <ul style="list-style-type: none"> ● Checks to identify if the plant is performing below the rated capacity. ● Review of all Long pending capital advances if any as at the reporting date of the financials. ● Review the assessment made by the management and evaluating whether those are mitigating the risk of not considering the provision for impairment as at the reporting date of the financials. ● Review to ensure there is no significant movement in the land price as per registration value prescribed by State Government which calls for impairment, if any.

Emphasis of Matter

We draw attention to Note 28 in the standalone financial statements which describes the reconstruction of financial records, various legal proceedings as follows:

- (a) Based on the information provided to us by the Management, the books of accounts for the financial years ended 31st March 2011 & 31st March 2012 were reconstructed by the Management post 12th November 2011.
- (b) The matters relating to several financial and non-financial irregularities pertaining to period prior to 12th November 2011 are currently sub-judice and the impact of the various legal proceedings would be made in the standalone financial statements of the Company as and when the outcome of the above uncertainties becomes known and the consequential adjustments / disclosures are identifiable / determinable. The Company has represented to us that based on the steps taken by the Management and evidence available so far, any financial impact on the standalone financial statements of the Company is likely to be significantly low.

Our opinion is not modified in respect of the above matters.

Information Other than the Standalone Financial Statements and Auditors' Report Thereon

The Company's management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Board of Directors' report and Management Discussion & Analysis Report but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management and Those Charged with Governance for Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards (Ind AS) prescribed under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so..

Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to the standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure A

Referred to in paragraph 1 on 'Report on Other Legal and Regulatory Requirements' of our report of even date to the members of Zenotech Laboratories Limited ("the Company") on the standalone financial statements as of and for the year ended 31 March 2020.

- (i) In respect of the Company's fixed assets :
- (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
 - (b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, certain fixed assets were supposed to be physically verified by the management during the year end which has been postponed to next year due to nation-wide lockdown imposed for containing COVID19 pandemic by the Indian Government. In our opinion, and according to the information and explanations given to us, no material discrepancies were noticed on such verification in the past 2 years.
 - (c) According to the information and explanations given to us, the records examined by us and based on the examination of the conveyance deeds provided to us, we report that, the title deeds, comprising all the immovable properties of the land and buildings which are freehold, are held in the name of the Company as at Balance Sheet date.
- (ii) The inventory has been physically verified by the management at reasonable intervals during the year. In our opinion, the frequency of such verification is reasonable. The discrepancies noticed on verification between the physical stocks and the book records were not material and have been dealt with in the books of account.
- (iii) Based on our audit procedures & according to the information and explanation given to us, the Company has not granted any loans, secured or unsecured to parties covered in the register maintained under section 189 of the Act and hence 3(iii) of the Order is not applicable to the Company.
- (iv) Based on our audit procedures & according to the information and explanation given to us, the Company has neither given any loan, guarantees or security nor made any investment during the year covered under section 185 and 186 of the Act. Therefore clause 3(iv) of the Order is not applicable to the Company.
- (v) Based on our audit procedures & according to the information and explanation given to us, the Company has not accepted any deposits from the public within the meaning of the Act and the rules made there under and hence clause 3(v) of the Order is not applicable.
- (vi) The Company is not required to maintain cost records specified by the Central Government under sub section (1) of section 148 of the Act.
- (vii) (a) According to the information and explanations given to us and the records of the Company examined by us, the Company has generally been regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income-tax, duty of customs, duty of excise, Goods and Services Tax(GST), cess and any other statutory dues as applicable with the appropriate authorities.

According to the information and explanation given to us and the records of the Company examined by us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, duty of customs, duty of excise, Goods and Services Tax(GST), cess and any other statutory dues were in arrears, as at 31 March 2020 for a period of more than six months from the date they became payable.

According to the information and explanations given to us and based on our examination of the records of the Company, there are no dues of Income-tax, Sales Tax, Service tax, Goods and Services Tax(GST), Duty of customs, Excise duty and Value added tax as at 31 March 2020, which have not been deposited with the appropriate authorities on account of any dispute, except as stated below:

Name of statute	Nature of dues	Amount ₹ in '000*	Period to which amounts relates	Forum where dispute is pending
A.P. Vat Act, 2005	VAT	1,685	FY 2009-10 to 2012-13	Deputy Commissioner Commercial Taxes (Appeal)

The Customs Act, 1962	Customs Duty	5,160	Prior to Financial year 2011-12 (Customs Act)	Principal Commissioner of Customs, Hyderabad

*excluding penalty & Interest.

** Pertaining to Sales Tax for which no records/ details are available with the Company and hence Interest not ascertained.

- (vii) In our opinion and according to the information and explanations given to us, the Company has defaulted in repayment of loans or borrowings to government agencies which are as follows:

Name of the Lender	Period	Amount (₹ in '000s)*
Technology Development Board	FY 2011-18	27,645

*amount of accrued interest only.

- (ix) According to the information and explanations given to us, the Company has utilized the money raised by way of Right issue of Equity shares during FY 2017-18 for the purposes for which they were raised.
- (x) To the best of our knowledge and belief and according to the information and explanations given to us, we report that no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year nor have we been informed of such case by the management.

Annexure B

Referred to in paragraph 2(f) on 'Report on Other Legal and Regulatory Requirements' of our report of even date Report on the Internal Financial Controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

Opinion

We have audited the internal financial controls with reference to standalone financial statements of Zenotech Laboratories Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to standalone financial statements

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to the Standalone Financial Statements for the Year ended March 31, 2020

(All amounts in thousands of Indian Rupees except share data and where otherwise stated)

1.1 Corporate information

Zenotech Laboratories Limited (the “Company”) is a public limited company listed on BSE. The Company is a pharmaceutical specialty generic injectables company engaged in the area of manufacturing biotechnology products. The Company’s injectables product portfolio primarily serves niche therapy areas like oncology and anesthesiology.

1.2 Going concern

The Company is well placed to meet the cash burn requirements in the coming periods for it to develop and build the business to a profitable level as per the projections prepared by the Company. Hence the Company’s financials have been prepared on a going concern basis.

1.3 Consolidated Financial Statements

The Books of accounts and other related records/documents of the overseas subsidiaries of the Company were missing and due to non-availability of those records/information, complaint before the Hon’ble Economic Offences Court, Nampally, Hyderabad, under the provisions of Section 630 of erstwhile Companies Act, 1956 was filed against the former Managing Director, Late Dr. Jayaram Chigurupati, who was in complete “control over the Company’s affairs during the period of those events”, which is abated by the court due to demise of the accused. The Company has evaluated and concluded that it is not controlling the US Subsidiary as per Ind AS 110 Consolidated Financial Statements basis its inability to exercise power over the investee. Further, the Company received the winding up order for its defunct subsidiary in Nigeria. The Company engaged consultant in Brasil to file the winding-up applications in adherence to the laws of the country. Accordingly, the Company is of the view that it does not have subsidiaries within the definition of Ind AS 110 and hence is not required to prepare and present a Consolidated Financial Statement.

2. Significant accounting policies

2.1 Statement of Compliance

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015 (as amended)] and other relevant provisions of the Act.

Basis of preparation and presentation

These financial statements have been prepared on a historical cost basis, except for certain financial instruments that are measured at fair value at the end of each reporting period, as explained in the accounting policies below.

The financial statements are presented in INR and all values are rounded to the nearest thousands (INR 000), except when otherwise indicated.

Functional and Presentation Currency

Items included in financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (“the functional currency”). Indian rupee is the functional and presentation currency of the Company.

IND AS 27 Separate financial statements

An entity is required to account for its investments in subsidiaries, joint ventures and associates either:

- (a) at cost; or
- (b) in accordance with IND AS 109. Such cost shall be cost as per IND AS 27 or deemed cost.

The investments in subsidiaries is recognised at deemed cost

2.2 Summary of significant accounting policies

a. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- > Expected to be realised or intended to be sold or consumed in normal operating cycle

- > Held primarily for the purpose of trading
- > Expected to be realised within twelve months after the reporting period, or
- > Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- > It is expected to be settled in normal operating cycle
- > It is held primarily for the purpose of trading
- > It is due to be settled within twelve months after the reporting period, or
- > There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. Considering the nature of activity, the Company has determined the operating cycle as twelve months.

b. Foreign currencies

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of the following:

- > Exchange differences arising on monetary items that forms part of a reporting entity's net investment and Loans & Advances in a foreign operation are recognised in profit or loss in the separate financial statements of the reporting entity as appropriate.

Transactions in currencies other than the Company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated using the exchange rate prevailing on the last day of the reporting period.

Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

c. Use of estimates and Judgement

The preparation of financial statements in conformity with INDAS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosures of contingent assets and contingent liabilities at the date of financial statements, income and expenses during the period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an on-going basis. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods which are affected.

Application of accounting policies that require critical accounting estimates and assumptions having the most significant effect on the amounts recognized in financial statements are as follows:

i) Useful life of PPE

Depreciation on property, plant and equipment is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by the management based on technical assessment. The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives of property, plant and equipment.

ii) Measurement of defined benefit plan obligation

The cost of the defined benefit gratuity plan and other post-employment leave absences benefits and the present value of the gratuity obligation and leave absence obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates in India. Further details about gratuity obligations are given in Note 11(c).

iii) Impairment of non-financial assets

Property Plant & Equipment are tested for impairment when the events occur or changes in circumstances indicate that recoverability amount of asset or cash generating unit is less than its carrying value. The recoverable amount is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The calculation involves use of significant estimates and assumptions which includes turnover and earnings multiples, growth rates and net margins used to calculate the projected cash flows, risk adjusted discount rate, future economic and market conditions.

iv) Write down in value of Inventories

Inventory write downs are accounted considering the nature of inventory, ageing, liquidation plan and net realisable value. Any changes in these estimates will impact upon the write down value of Inventories.

v) Estimation for Litigations

The Company has been advised by its legal counsel, the probability of outflow of resources and based on this the contingent liability has been recognised. Any change in the estimated probability will impact upon the contingent liability.

vi) Estimation of uncertainties relating to the global health pandemic from COVID-19

In March 2020, the World Health Organisation declared COVID-19 to be a pandemic. The Company has evaluated the impact of this pandemic on its business operations, liquidity and financial position and based on management's review of current indicators and economic conditions there is no material impact on its financial results as at March 31, 2020. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration and accordingly the impact may be different from that estimated as at the date of approval of financial results. The Company will continue to monitor any material changes to future economic conditions.

d. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- > in the principal market for the asset or liability, or
- > in the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- > Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- > Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- > Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- > Quantitative disclosures of fair value measurement hierarchy (Refer Note 22 (a) & (b))

e. Revenue recognition

With effect from 1 April 2018, the Company has adopted Ind AS 115 'Revenue from Contracts with Customers' which introduces a new five-step approach to measuring and recognising revenue from contracts with customers. Under Ind AS 115, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for services to a customer.

The Company has opted for the modified retrospective application permitted by Ind AS 115 upon adoption of new standard. Accordingly, the standard has been applied for the year ended 31st March 2019 only (i.e. the initial application period). Modified retrospective application also requires the recognition of cumulative impact of adoption of Ind AS 115 on all contracts as at 1st April 2018 ('transition date') in equity and the impact on such transition date is not material.

Also, the Company has elected to use the practical expedient that there is no financing component involved when the credit period offered to customers is less than 12 months (also refer Credit Risk).

Prior to adoption of INDAS 115, the Company's revenue was primarily comprised of Revenue from Contracts and Interest income. The recognition of these revenue streams is largely unchanged by Ind AS 115.

Sale of goods:

Revenue from contracts with customers is recognised when control of the goods or services are transferred, being when the products are delivered to the customer. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the Customer. Revenue from these sales is recognised based on the price specified in the contract, net of the discounts. No element of financing is involved as the sales are made with an credit term which is consistent with market practice.

Rendering of Services:

Revenue from sale of services is recognised in accordance with the terms of the relevant agreements as accepted and agreed with the customers. Upfront non-refundable payments received are deferred and recognised as revenue over which the related services are performed.

Price variance is accounted as and when the amounts are confirmed as recoverable.

Interest income

Interest on deposits is recognized on the time proportion method using the underlying interest rates.

f. Taxes**Current income tax**

Income tax expense comprises of current and deferred tax. Income tax expenses is recognised in profit or loss except to the extent that it relates to items recognised in OCI or directly in equity in which case it is recognised in OCI or directly in equity respectively. Current tax is the expected tax payable on the taxable profit for the year using tax rates enacted or substantively enacted by the end of the reporting period and any adjustments to the tax payable in respect of previous years.

The tax currently payable is based on taxable profit for the year, if any. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off deferred tax assets against deferred tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

g. GST paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the GST paid, except:

- > When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- > When receivables and payables are stated with the amount of tax included, the net amount of tax recoverable from or payable to the taxation authority, is included as part of receivables or payables in the balance sheet.

h. Property, plant and equipment

Freehold land is carried at historical cost.

Fixed assets (Tangible/ Intangible) are stated at cost less accumulated depreciation/amortization and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Expenditure directly relating to construction activity is capitalized to the extent those relate to the construction activity or is incidental thereto.

Gains and losses on disposal of a property plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property plant and equipment and are recognised in other income/ other expenses in the statement of profit and loss.

Depreciation is fully provided using the Straight Line Method ('SLM') over the useful lives of the assets considered by the management's technical assessment, as given below:

1) Factory Building	30 years
2) Plant & Machinery	10 to 20 years
3) Furniture & Fittings	10 years
4) Motor Vehicles	8 years
5) Office Equipment	5 years
6) EDP Equipment	3 years

Depreciation and amortization methods and useful lives are reviewed periodically, including at each financial year end. Depreciation is charged on a proportionate basis for all assets purchased and sold during the year.

Assets costing below ₹5,000/- are depreciated in full in the same year.

The cost of fixed assets not ready for their intended use before such date, are disclosed as capital work-in-progress and are carried at cost.

For transition to the Ind AS, the Company has decided to continue with the carrying value of all of its Property, Plant and Equipment as at April 01, 2015 (transition date) measured as per the previous GAAP as its deemed cost as of transition date.

i. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

j. Inventories

Inventories are valued at the lower of cost and net realisable value. Cost of inventories comprises cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. The method of determining cost of various categories of inventories is as below:

- i) Raw materials, Packing materials, Stores and spares - First - in - First Out method.
- ii) Finished goods and Work-in-process - Weighted average method, which comprises direct material costs and appropriate overheads.

Inventories are stated net of write downs or allowances on account of obsolete, damaged or slow moving inventories.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and costs necessary to affect the sale.

k. Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company's assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash generating unit (CGU). In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately to reach the Company's CGU to which individual assets are allocated.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior period years. Such reversal is recognised in the statement of profit or loss.

I. Provisions, contingent Liabilities & contingent Assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent assets are disclosed in the Financial Statements by way of notes to accounts only in case of inflow of economic benefits is probable.

Contingent liabilities are disclosed in the Financial Statements by way of notes to accounts for possible obligations which will be confirmed only by future events not wholly within the controls of the Company or present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or reliable estimate of the amounts of the obligation cannot be made.

m. Retirement and other employee benefits

- i) **Gratuity:** Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation made at the end of each financial year under the projected unit credit method. Actuarial gains/losses comprise experience adjustments and the effect of changes in actuarial assumptions and are recognized immediately in the other comprehensive Income as Income on the basis of valuation by an independent Actuary. The liability is unfunded.
- ii) **Provident Fund:** A retirement benefit in the form of provident fund scheme is a defined contribution and the contribution is charged to the statement of profit and loss of the year when the contribution to the respective fund is due. There are no other obligations other than the contribution payable to the respective fund.
- iii) **Compensated Absences:** Liability in respect of compensated absence is determined and charged to the statement of profit and loss on the basis of valuation by an independent actuary.

n. Earnings per shares:

Basic earnings per share is calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of shares outstanding during the year is adjusted for events such as bonus issue that have changed the number of shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the year attributable to equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

o. Leases:

Company as lessor: Rental Income from operating lease is generally recognised on straight- line basis over the term of the lease.

p. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the asset.

For purposes of subsequent measurements, 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Equity investments

All equity investments in subsidiaries are measured at cost less diminution other than temporary. All equity investments in scope of Ind AS 109 are measured at fair value.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of similar financial assets) is primarily derecognised i.e. removed from the Company's balance sheet when:

- > the Company has transferred its rights to receive cash flows from the asset ; and either
- > the Company has transferred substantially all the risks and rewards of the asset, or
- > the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the assets carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss will be recognised as profit or loss on disposal.

Impairment of financial assets

In accordance with Ind AS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- > Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- > Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115

The company follows 'simplified approach' for recognition of impairment loss allowance on:

- > Trade receivables or contract revenue receivables; and
- > The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

In accordance with IndAS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets that are debt instruments, and are measured at amortised cost.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 months ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-months ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- > All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.
- > Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. On that basis, the Company estimates the following provision matrix based on the assumptions which are derived based on the expected outcomes.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

- > ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.
- > For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction cost

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

- > **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit or loss.

> **Financial liabilities at amortised cost**

After initial recognition financial liabilities if any are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

> **Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

> **Offsetting of financial instruments**

Financial assets and liabilities are offset and the net amount is presented in Balance Sheet when, and only when, the Company has a legal right to offset the recognized amounts and intends either to settle on a net basis or to realize the assets and settle the liability simultaneously.

q. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

Cash flows are reported using the indirect method, whereby profit/(loss) before tax is adjusted for the effects of transactions of no cash nature and any deferrals or accruals of past or future cash receipts or payments. Cash flow for the year is classified by operating, investing and financing activities.

r. Recent Accounting Pronouncements:

- (i) New standards notified and adopted by the Company

Ind AS 116 Leases

On 30 March 2019, the Ministry of Corporate Affairs (MCA) notified Ind AS 116, 'Leases' as part of the Companies (Indian Accounting Standards (Ind AS)) Amendment Rules, 2019. Ind AS 116 replaces existing standard on leases i.e. Ind AS 17, Leases with effect from accounting periods beginning on or after 1st April 2019.

It eliminates the classification of leases as either finance leases or operating leases for a lessee as required by Ind AS 17. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value.

A lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Requirements with regard to lessor accounting are substantially similar to accounting requirements contained in Ind AS 17. Accordingly, a lessor will continue to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

The Company's operating leases mainly relate to leasing of equipments which is cancellable with 60 days prior notice and is effective from 18th November, 2017.

The adoption of this new standard did not have any significant impact on the financial statements.

Other Amendments to the existing standards

A number of other accounting standards have been modified on miscellaneous issues with effect from 1st April 2019. Such changes include clarification/guidance on:

- a) business combination accounting in case of obtaining control of a joint operation;
- b) accounting in case of obtaining joint control of an operation wherein there was no joint control earlier;
- c) income tax consequences in case of dividends;
- d) accounting for income tax when there is uncertainty over income tax treatment of an item by tax authorities;
- e) accounting treatment for specific borrowings post capitalization of corresponding qualifying asset;
- f) accounting for prepayment features with negative compensation in case of debt instruments;
- g) accounting for plan amendment, curtailment or settlement occurring in-between the reporting periods in case of long-term employee benefit plans;
- h) accounting for long-term interests in associates and joint ventures to which the equity method is not applied but that in substance form part of the net investment in the associate or joint venture (long-term interests).

The above amendments came into force from 1st April 2019. The effect of these amendments on the financial statements is not material.

(b): Fair Value Hierarchy

As no financial instrument has been re-measured at fair value on recurring basis as at each financial period end, fair value hierarchy disclosure is not applicable

Note 23: Financial Risk Management

A) Credit Risk

As the Company currently deals only with the parent entity, it is not exposed to any credit risk as on the reporting date

B) Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions.

Management monitors rolling forecasts of the companies' liquidity position comprising the cash and cash equivalents on the basis of expected cash flows.

i) **Financial Arrangements** NIL

ii) Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for all non-derivative financial liabilities.

There are no derivatives financial liabilities for the company.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

Note 28:

a) Update on the events and circumstances relating to on-going differences with Late Dr. Jayaram Chigurupati, the erstwhile Promoter and Managing Director of the Company.

Post acquisition of stake in the Company by Ranbaxy Laboratories Limited and Daiichi Sankyo Company Limited (taken over by Sun Pharmaceutical Industries Limited effective from 24 March 2015 pursuant to a merger scheme herein after referred to as the "current promoters") there were disagreements on various accounts between Late Dr. Jayaram Chigurupati and Ranbaxy Laboratories Limited/Daiichi Sankyo Company Limited resulting in various legal cases being filed by both the parties before various forums. The Management was denied access to the factory and other premises of the Company due to which a legal case was filed before the Company Law Board (CLB), Chennai, for taking over the physical possession of the factory premises from Late Dr. Jayaram Chigurupati, the erstwhile Promoter and Managing Director of the Company. Owing to the protracted legal case, the physical possession of the factory premises could be taken over on November 13, 2011 in the presence of CLB appointed Advocate Commissioner, in pursuance to an Order passed by the CLB. Subsequent to the gaining of the possession of the factory premises, further assessment by the Management revealed that, among others, certain books and records, supplementary documents and statutory registers till the period 12 November 2011 were missing and which are still not in the possession of the Company. The Honourable Company Law Board vide order dated 8 October 2012 further directed the erstwhile Promoter and Managing Director of the Company to return all the documents and provide written details of all missing documents/ assets/ statutory records / equipment of the Company. The Honourable High Court of Andhra Pradesh has also passed a similar order. The Company not yet received any of these documents/ information

Notes to the Standalone Accounts Contd...

(All amounts in thousands of Indian Rupees except share data and where otherwise stated)

The Management, therefore, based on the available limited records, statutory returns filed, supplementary documents, invoices, external corroborative evidence and after considering the various non compliances under the Companies Act, 1956, listing agreement and Foreign Exchange Management Act, etc. post 12 November 2011, reconstructed financial statements for the years ended 31 March 2011 and 2012. Management is also in the process of regularizing and compounding such non compliances with the various authorities concerned.

Since matters relating to several financial and non-financial irregularities are sub-judice and various legal proceedings are on-going, any further adjustments / disclosures to the financial statements, if required, would be made in the financial statements of the Company as and when the outcome of the above uncertainties is known and the consequential adjustments / disclosures are identifiable/ determinable.

b) Investment in subsidiaries:

Upon obtaining control of the Company, the Management observed that no books of account and records were available regarding its overseas subsidiaries. The management has not received any response from the erstwhile Managing Director on the queries raised regarding details pertaining to these subsidiaries and seeking documents / certificates related to Forex transactions with these subsidiaries including certain loans and investment made in the same. Provision has not been made for potential and financial consequences arising out of such on-going evaluations, the outcome of which will depend on the nature and extent of non compliances which is currently not determinable. Meanwhile, the Company received the winding up order for its defunct subsidiary in Nigeria and winding-up process for the defunct subsidiary in Brazil is in progress.

Notes to the Standalone Accounts Contd...

(All amounts in thousands of Indian Rupees except share data and where otherwise stated)

- b). The Company has filed certain legal cases before the appropriate forum against the erstwhile promoter and managing director with regard to loss of vehicles, missing records including intellectual property, unauthorised use of the name & Logo of the Company and certain missing DNA clones.
- c). Subsequent to Daiichi Sankyo Company Limited (DS) acquiring 63.92% stake in Ranbaxy Laboratories Limited (now Sun Pharmaceutical Industries Limited) in October 2008, DS announced an open offer to acquire 20% share of the Company at ₹ 113.62 per share. Aggrieved by the pricing of the share, erstwhile promoter and one or two other shareholders filed a petition in the Hon'ble High Court of Madras. The Company has been named as Respondent in the said case. An interim injunction in connection with the offer was given by the Hon'ble High Court of Madras and subsequently it was quashed by the Hon'ble Supreme Court based on a petition filed by DS against the said injunction. Meanwhile some of the shareholders (excluding Ranbaxy) including erstwhile promoter of the Company filed a petition with Securities Appellate Tribunal (SAT) with respect to the pricing of the share of the Company against the order of the SEBI turning down erstwhile promoters' complaint. SAT directed DS to price the open offer at ₹ 160 per share. DS has filed an appeal against the SAT order in the Supreme Court. The Supreme Court vide its order dated July 8, 2010 has ruled in favour of DS and allowed the open offer to be made at the price of ₹ 113.62 per share.

In June 2012, erstwhile promoter has filed a writ petition before Honourable Andhra Pradesh High Court against Foreign Investment Promotion Board and Daiichi Sankyo Company Limited challenging acquisition of 20% shares of the Company by DS through an open offer.

- d). In addition, the Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business including litigation before various tax authorities. The Company's Management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial conditions. The Company has accrued appropriate provision wherever required.
- e). Other than those disclosed, the Company has not received any significant claims post 31 March 2011.
