VAIBHAV GLOBAL LIMITED

(Formerly Vaibhav Gems Limited)

Chairman's Message

Dear Shareholders,

It is with great pleasure that I present to you the financial highlights of Vaibhav Global Limited for the year 2013-14. During the year, our consolidated total revenue grew by 45% to ₹ 1298 crores, EBITDA margin (excluding exchange gain/loss) increased from 9% to 12% at ₹ 157 crores and profit after tax was higher by 95% to ₹ 153 crore. Free cash flow of ₹ 160 crores was generated which was used judiciously to grow the business and rationalize business liabilities. During 2013-14, outstanding net debt reduced by ₹ 63 crores and preference shares including dividend thereon of ₹ 46.9 crores were redeemed entirely out of internal accruals. We expect to further pay down our outstanding debt in the current year to emerge as zero net debt company. Strong cash generation from the business has allowed us to expand returns on the capital employed in the business from 34% to 60% over the last year.

Underlying this strong performance is the growing customer engagement with our proprietary television and e-commerce platforms. We delivered significant value driven by taking a vertically integrated business model to over 1.3 million customers over the last seven years in the developed markets of the US, UK, Canada, and Ireland. Our TV Business & Web Business grew by 23% and 90% respectively during the year in dollar terms. We believe that we have hit the sweet spot on product pricing, creating a unique customer proposition that has seen retail sales volumes grow by 35% last year and by more than four times over the last three years. Currently, we ship out over 25,000 unique products every day on an average to our customers who have been constantly increasing their repeat buying on our sales platforms. These gains are based on steady market-share expansion as customers continue to turn to value conscious buying decisions. The deep discount value segment that we address has historically displayed stable growth across every stage of the market cycle. We believe that there is further opportunity to expand the life-time value that we currently derive from our deepening engagement with our customers.

We continue to make meaningful investments in our transition to the next level of competence and performance as a global corporation. This includes expansion and improvement in customer offerings, sales platforms, supply chain mechanisms, physical infrastructure and management resources. Last year, we introduced 2.4 million new unique products to our collection across fashion jewelry and lifestyle accessory offerings, closely following market trends. We initiated work on a robust SAP web platform that will become operational this year. During the year, we expanded our integrated US operations located in Austin, Texas, to over 65,000 sq. ft. and also moved our UK operations to a new 30,000 sq. ft. facility in London, which is an integrated operation comprising of warehouse, studio, customer service, IT and management resources. These facilities will support our growing volumes over the next few years. Further, we continue to expand our supply chain establishments in India, China, Thailand and Indonesia. We have also expanded our manufacturing capacity in Jaipur, India to 4 million pieces annually, which increases our annual aggregate global supply capability to 12 million units.

Following up on the additions to the senior management team last year, we have appointed Pulak Prasad, Vikram Kaushik, Mahendra Kumar Doogar and Peter Duncan Whitford to our Board of Directors and Hemant Sultania as Group CFO. They bring significant experience in management, finance and operations domain and we look forward to their continuing contribution to our onward journey of evolution. We also continue to invest in a robust senior and middle management team at both strategic and operational levels that will help create a strong bandwidth of capability.

We believe that we have some significant achievements to our credit. One, we are one of the very few Indian companies in any sector to have created a successful retail franchise in developed markets. Two, we are one of the very few profitable Indian companies within the emerging online/TV retail platforms.

Going forward, we will continue to invest in products, operations, facilities, people development, marketing and technology to build on our strong execution capabilities and customer experience. We are also committed to follow the highest standards of corporate governance and organizational integrity, while consistently creating value for all stakeholders.

Thank you,

Sunil Agrawal
Chairman & Managing Director

MANAGEMENT DISCUSSION AND ANALYSIS

Industry Structure and Developments

The global retail industry is undergoing a process of dynamic evolution that is impacting traditional business models and consumer behavior. Technology is changing the retail paradigm, taking it beyond time and location. New and innovative ways of customer engagement are being created with new technologies including TV shopping and e-commerce gaining mainstream acceptance and social media & mobile commerce driving the next wave of change. Integration of various media to capture a larger customer mindshare is important for ongoing growth for any player in the sector.

US retail is a mature market valued at almost \$ 5* trillion, growing in line with GDP growth. Within this framework, the US e-commerce retail market is valued at over \$ 250* billion, growing over 10% as customers increasingly turn to the internet for their buying decisions along with TV-based home shopping.

UK's online B2C market is valued at over £ 87** billion annually the largest e-commerce market in Europe. In line with the global trend, customers in the UK have also displayed an increasing propensity to buy online. This trend continues to gather momentum across various categories of buying activity.

The jewelry industry is undergoing a gradual transformation from 'valuable investment' to 'fashion statement', a process that is impacting traditional business models and consumer behavior. Within the jewelry industry, fashion jewelry is seen as a segment that is clearly receptive to online sales platforms. This is even more true for fast fashion players that rapidly take new trends to the mass market in quick time. Vaibhav Global's electronic retail channels are operating in the fashion jewelry and lifestyle accessories space in the U.S. and U.K. markets and are slated to benefit significantly from these changing trends.

Business Overview

Vaibhav Global Limited (VGL) is a global retailer of fashion jewelry and lifestyle accessories on its proprietary Home TV and e-commerce platforms with live telecasts in the US, UK, Canada and Ireland.

The Home TV platform provides direct customer access to over 100 million households in our principal operating markets. Further, the fashion jewelry portfolio has been extended to incorporate lifestyle accessories, an adjacent market with similar price points and customer behavior. Products are outsourced from micro-markets across India, China, Thailand and Indonesia, while core manufacturing operations are in Jaipur, India.

Source: * U.S Census Bureau News; ** IMRG Capgemini e-Retail Sales, Jan 2013

During 2013-14, revenues grew 45% to ₹ 1298 crores, EBITDA margins expanded from 9% to 12% and profit after tax (before exceptional items) increased by 95% to ₹ 153 crores.

Revenue growth was driven by the retail segment with strong contribution from both Home TV and e-commerce sales that increased by 23% and 90% respectively in dollar terms. TV volumes constituted 70% of retail volumes with the balance coming from e-commerce. The TV/web mix continues to get more balanced, which we see as a positive because we see TV and Web converging down the road and this will prepare us very well for that scenario.

In 2013-14, realizations on TV came in at \$ 24 compared to \$ 23 in the previous year and Web realizations were at \$ 13 compared to \$ 12 in the previous year. Realizations have stabilized and last year's growth has been achieved on expanding volumes after successfully transitioning from a fine jewelry based business profile to one that now predominantly includes fashion jewelry and lifestyle accessories. Our volume growth of 35% to 9.4 million units in 2013-14 also corroborates with our objective of taking market share from the competition by ingraining deeply into customers seeking value in their purchase decisions. We believe we have had a very successful year from this perspective.

These growth achievements have been delivered on the back of substantial efficiencies in the employment of resources. Our cash accretive business model has generated positive free cash flows during the year which has allowed us to reduce our outstanding debt (at a net debt basis) to ₹ 52 crores as on 31st March, 2014 as compared to ₹ 115 crores at the end of last financial year. Net debt to Shareholder's Equity improved from 0.72 to 0.22 and return on capital employed expanded from 34% to 60%. We believe that our internal accruals are adequate to reach zero net debt level in the current year. This will be another key milestone towards the creation of long-term value for our stakeholders.

The VGL management believes that 2013-14 has been a positive milestone in its corporate journey. It remains fully committed to developing a significant pool of capabilities for long-term sustainable growth to emerge as a leading, globally competitive enterprise.

The primary emphasis of the Company is on increasing market share in existing geographies through ongoing investment in strategic initiatives. By commissioning constant innovation in all facets of its operations, VGL has delivered strong business performance and is moving forward in its objective of becoming a sizeable player in the electronic retail market within its vertical segments.

We will continue to invest in expanding marketing, operations, facilities, people development and hardware/software technologies to build the critical infrastructure needed to refine our execution capabilities and our customer experience.

INDEPENDENT AUDITORS' REPORT

To the Members of Vaibhav Global Limited
(formerly known as Vaibhav Gems Limited)

Report on the Financial Statements

We have audited the accompanying financial statements of Vaibhav Global Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2014, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Note No.1 SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Preparation of Financial Statements

- a. The financial statements have been prepared in compliance with the applicable Accounting Standards prescribed in Companies (Accounting Standards) Rules 2006, other pronouncement of Institute of Chartered Accountant of India, with relevant provisions of Companies Act, 1956; applicable guidelines issued by the Securities Exchange Board of India (SEBI) and generally accepted accounting principles applicable in India (GAAP). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires changes in the accounting policy hitherto in use.
- b. The financial statements have been prepared under historical cost convention on an accrual basis.

2. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Management believes the assumption used in the estimates is prudent and reasonable. Difference between the actual results and estimates are recognized in the period in which the results are known /materialized.

3. Fixed Assets

Fixed Assets are stated at cost less accumulated depreciation and impairment losses. Cost includes capital cost, freight, duties, taxes and other incidental expense incurred during the construction / installation stage attributable to bringing the asset to working condition for its intended use.

4. Depreciation and Amortization

- a. Depreciation on Fixed Assets, other than assets acquired on lease, is being provided on written down value method at the rate and in the manner specified in Schedule XIV of the Companies Act, 1956.
- b. Assets acquired on lease is amortized over the period of lease in equal installments.
- c. Assets individually costing up to ₹ 5,000 are fully depreciated in the year of purchase.

5. Intangible Assets

Intangible assets are recognized if it is probable that future economic benefits that are attributable to the asset will flow to the company and the cost of the assets can be measured reliably.

Intangible Assets are amortized over their respective individual estimated useful lives on a straight line basis.

6. Impairment of Assets

As at each balance sheet date, the carrying amount of assets is tested for impairment so as to determine

- a. the provision for impairment loss, if any, required or
- b. the reversal, if any, required for impairment loss recognized in previous periods.

Impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is determined

- a. in the case of an individual asset, at the higher of net selling price and the value in use.
- b. in the case of a cash-generating unit (a group of assets that generates identified independent cash flows), at the higher of the cash generating unit's selling price and the value in use.

Value in use is determined as the present value of estimated future cash flow from the continuing use of an asset and from its disposal at the end of its useful life.

7. Borrowing Cost

Borrowing Cost attributable to the acquisition or construction of qualifying assets are capitalised as a part of the cost of such assets. All other borrowing costs are charged to revenue.

8. Inventories

- a. Inventories are valued at lower of cost and estimated net realisable value. Cost is determined on 'First-in First-out', 'Specific Identification', or "Weighted Averages' basis as applicable. Cost of Inventories Comprises of all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost of semi finished and finished goods are determined on absorption costing method.
- b. All raw materials purchased are simultaneously issued for production. Accordingly material-in-process includes such raw materials as well. Semi Finished Goods are goods manufactured and pending for pre-shipment inspection. Materials consumed are materials used in production of semi finished and finished goods only.
- c. Identification of a specific item and determination of estimated net realizable value involve technical judgments of the management, which has been relied upon by the Auditors.

9. Investments

Long-term investments including those held through nominees are stated at cost. Provision for diminution in the value of long-term investments (including Loans and Advances to Subsidiaries considered as a part of net investment) is made only if such a decline is other than temporary in the opinion of the management.

Current investments are carried at lower of cost and fair value.

10. Revenue Recognition

Sale of Goods:

Revenue from sales of goods is recognized when risk and rewards of ownership of the products are passed on to the customers, which is generally on dispatch of goods and is stated net of returns, trade discounts, claims etc.

Dividend on Investment:

Revenue is recognized when the right to receive payment is established.

Interest Income:

Interest Income is recognized on time proportionate basis.

Commission Income:

Revenue is recognized on the accrual basis.

11. Foreign Currency Transactions:

a. Initial Recognition:

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction.

b. Conversion:

Monetary items denominated in foreign currencies at the year-end are translated at closing rates. Non-monetary items which are carried in terms of historical cost denominated in foreign currency are reported using the exchange rate at the date of transaction and investment in foreign companies are recorded at the exchange rates prevailing on the date of making the investments. Contingent Liabilities are translated at closing rate.

Exchange differences arising on the settlement of monetary items or on restatement of monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.

d. Forward Exchange Contract not intended for trading or speculation purposes:

The premium or discount arising at the inception of forward exchange contracts is amortized as expense or income over the life of contract. Exchange differences on such contract are recognized in the statement of profit and loss in the year in which the exchange rate changes. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or as expense.

12. Employee Benefits

- a. Short term and other long term employee benefits are recognized as an expense at the undiscounted amount in the statement of profit and loss of the year in which the related service is rendered.
- b. Employee's Retirement benefits are recognized as an expense in the statement of profit and loss for the year in which the employee has rendered services. The expense is recognized at the present value of the amounts payable, determined using actuarial valuation by an independent actuary using the projected unit credit method. Actuarial gains and losses in respect of post employment and other long term benefits are charged to the statement of profit and loss.
- c. In respect of Employee Stock Options, the excess of market price of shares as at the date of grant of option granted to employee (including certain employees' of subsidiaries) over the exercise price is treated as Employee Compensation Cost and amortized on a straight – line basis over the vesting period.

13. Provision for Current and Deferred Taxation

Income tax expense for the year, comprising current tax and deferred tax is included in determining the net profit for the Year.

A provision is made for the current tax based on tax liability computed in accordance with relevant tax rates and Tax laws. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future Taxable income will be available against which such deferred tax assets can be realized. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual Certainty supported by convincing evidence that they can be realized against future taxable profits. At each balance sheet Date the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable Income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

14. Earning Per Share

The basic earning per share is computed by dividing the net profit after tax for the year by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per shares, net profit after tax for the year and weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. the average market value of the outstanding shares)

15. Cash and Cash Equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

16. Provision, Contingent Liabilities and Contingent Assets

Provisions are recognized for liabilities that can be measured only by using a substantial degree of estimation, if

- a. the Company has a present obligation as a result of past event,
- b. a probable outflow of resources is expected to settle the obligation and
- c. the amount of the obligation can be reliably estimated

Contingent Liability is disclosed in case of

- a. a present obligation arising from a past event, when it is not probable that an outflow of resources will be required to settle the obligation
- b. a possible obligation, unless the probability of outflow of resources is remote.

Contingent Assets are neither recognized, nor disclosed.

Provisions, Contingent Liabilities and Contingent Assets are reviewed at each Balance Sheet Date.

INDEPENDENT AUDITORS' REPORT

ON THE CONSOLIDATED FINANCIAL STATEMENTS OF VAIBHAV GLOBAL LIMITED

To ,

The Board of Directors of Vaibhav Global Limited

We have audited the accompanying consolidated financial statements of Vaibhav Global Limited ("the Company") and its subsidiaries (the Company and its subsidiaries constitute "the Group") which comprise the consolidated balance sheet as at March 31, 2014, and the consolidated Statement of Profit and Loss and consolidated Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation of these consolidated financial statements on the basis of separate financial statements and other financial information regarding components that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with accounting principles generally accepted in India; this includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

We report that the consolidated financial statements have been prepared by the Company's Management in accordance with the requirements of Accounting Standards (AS) 21, "Consolidated financial statements" as notified pursuant to the Companies (Accounting Standards) Rules, 2006 and on the basis of the separate financial statements of Vaibhav Global Limited and its subsidiaries.

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on the financial statements of the subsidiaries and certain other information compiled by the management as mentioned in the 'Other Matter' paragraph below, the consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2014;
- (b) in the case of the consolidated Statement of Profit and Loss, of the profit for the year ended on that date; and
- (c) in the case of the consolidated Cash Flow Statement, of the cash flows for the year ended on that date.

Emphasis of Matter

We draw attention to:

- i. Accounting Policy on Inventories wherein the determination of estimated net realizable value and specific identification involves technical judgments of the management which has been relied upon by us. Our opinion is not qualified in respect of this matter.
- ii. Note 33 to the consolidated financial statements. As explained therein the auditors of two subsidiaries have laid an emphasis of matter on the ability of the subsidiaries to continue on going concern basis without adequate support of the Company.

Our opinion is not qualified in respect of the above matters.

Other Matter

The financial statements of five subsidiaries, whose financial statements reflect total assets (net) of ₹ 346.40 crores as at March 31, 2014, total revenues of ₹ 1,432.74 crores and net cash inflows amounting to ₹ 13.20 crores for the year then ended have been audited either by other auditors or by one of us and whose reports have been furnished to us by the Management. Our opinion is based solely on the reports of such auditors. Our opinion is not qualified in respect of this matter.
