# Logistics Growth Drivers

## GST

- Rationalizing the impact of taxes on Production, Distribution and Inventory management
- Consolidation of warehouses and moving towards Hub-and-spoke model
- Multi modal movement between Hubs
- Shift of business from unorganized to organized sector

## Logistics Infrastructure Development

- Creation of additional dedicated road, rail as well as costal capacity,
- Will reduce unit cost of Transportation by speeding up freight train operations.
- Increased bulk multi modal movement for improved productivity & efficiency
- Will result in development of logistic Warehouses in the vicinity of Freight Corridor.

## Increased outsourcing of Logistics

- Growth in trend towards outsourcing of logistics in non traditional industries.
- Larger scope of outsourcing e.g. order processing, packaging, kitting etc. will go up

## E-commerce driven growth in consumption

- With increased per capita disposable income, consumption driven sectors will grow.
- Sectors like Food services, e-commerce, consumable durables etc. will get a boost and distribution will become more omni channel.

## GST

- Rationalizing the impact of taxes on Production, Distribution and Inventory management
- Consolidation of warehouses and moving towards Hub-and-spoke model
- Multi modal movement between Hubs
- Shift of business from unorganized to organized sector

## Transportation

- Larger Warehouses and borderless movement of goods would leads to increased transportation lot sizes, multimodal movement
- Lesser border checks/paper work would lead to faster movement of trucks. Transit times and cost may shrink by 20-30%

## Warehouse

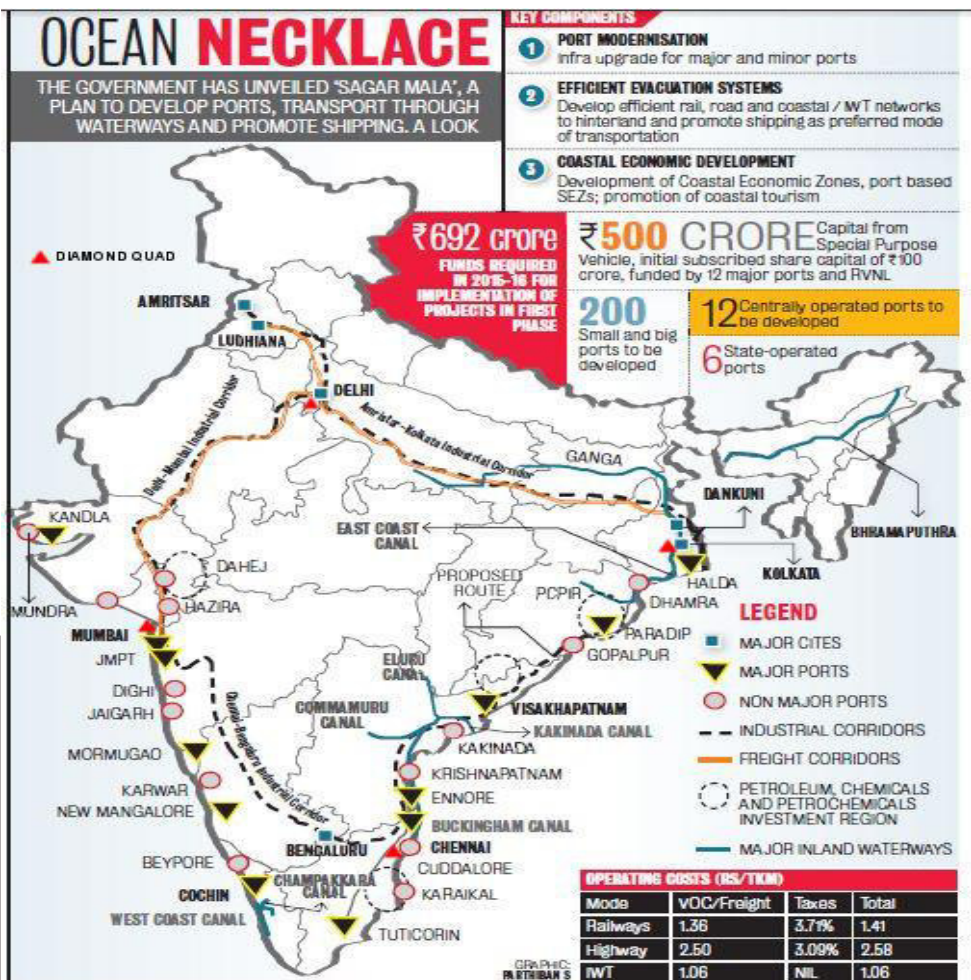

- Network to be determined based on the ambit of Additional Tax.
- Network optimization efforts to commence
- Consolidation of warehousing to commence.
- Emergence of hub and Spoke model
- Larger sizes of warehouses (hubs)
- Warehouses closer to manufacturing and/ or consumption areas.

# GST: Status post implementation

Area	Expected Impact	Current Status
Increased speed & efficiency for trucks	Reduced transit time, less bottlenecks and paperwork , reduced corruption	Improvement in certain routes but national impact to be seen post e-way bill implementation
Rationalizing the impact of taxes on Production, Distribution and Inventory management leading to reduced inventory costs & supply chain efficiency	Consolidation of warehouses with abolition of CST and emergence of hub & spoke distribution networks	Impact seen on ground but slow due to frequent changes in GST
Reduced paperwork and compliances	E-transactions, simple system	Still too many complications in rate structure Return filings etc.
Shift of business from unorganized to organized sector in logistics specially in surface transport	Registration and compliance of all unorganized players for a level playing field	Due to recent changes in GST road transport activities are out of GST requirement now

**Logistics Infrastructure Development**

- Creation of additional dedicated road, rail as well as costal capacity,
- Will reduce unit cost of Transportation by speeding up freight train operations.
- Increased bulk multi modal movement for improved productivity & efficiency
- Will result in development of logistic Warehouses in the vicinity of Freight Corridor

**Sagar Mala**

Sagar Mala envisages port led development of the country that would look towards transforming the existing Ports into modern world class Ports and integrate the development of the Ports, and provide a boost to multimodal logistics

**Bharat Mala**

This will connect eastern and western India through 7,000 Km of National Highways. It will allow goods to move comfortably across the country and help reduce the cost of passenger and freight travel. The project will improve road connectivity not just in coastal and border areas, but also provide seamless connectivity along the borders with Nepal, Bangladesh, China, Pakistan and Bhutan, which is crucial for strategic reasons.

**Dedicated Freight Corridors**

DFC will give boost to share of railways in carrying domestic freight and strengthening the prospects of multi-modal transportation in India.

**Increased outsourcing of Logistics**

- Growth in trend towards outsourcing of logistics in non traditional industries
- Larger scope of outsourcing e.g. order processing, packaging, kitting etc. will go up

**Impact of Outsourcing on logistic sector**

- **Transit Time Reduction** : Acceleration of loading and unloading processes, better co-ordination of roads transport shipments by railway.
- **Price Reduction** : Rebate on rail price because of larger transport volume and Economics of scales effects on warehousing at the terminal.
- **Shortening of Tracking delay** : Own tracking system and better integration with the logistic management system.
- **Frequency** : Improved Frequency with additional shipments.
- **Reliability** : Flexible transport mode choice.

*Exhibit 1 :Five Levels of Logistics Outsourcing*

**E-commerce driven growth in consumption**

- With increased per capita disposable income, consumption driven sectors will grow.
- Sectors like Food services, e-commerce, consumable durables etc. will get a boost and distribution will become more omni channel.
