Net sales at ₹ 1707 crore

EBITDA at ₹ 201 crore and PAT at ₹ 22.2 crore after extraordinary charge of ₹ 12.2 crore

EPS at ₹ 1.34 (before extraordinary items)

Dividend of ₹ 0.20 per equity share (20%) declared

- ***Engineering Businesses***
 - *17% increase in net sales*
 - *Strong Outstanding order book of ₹ 520 crore*
 - *Technology license renewal for High Speed Gears with expanded products & geographies*
 - *Entering niche low speed gear manufacturing with Technology License Agreement with Lufkin*
 - *The largest water order under execution*
- ***Sugar***
 - *Muted sugar prices during the year*
 - *Sugar Businesses' PBIT at ₹ 52.9 crore vis-a-vis loss of ₹ 22.2 crore last year*
 - *Despite high cane price announced for the season 2011-12, operating performance expected to be better*
 - *Improved sugar prices may offset increased costs*

Noida, November 28, 2011: Triveni Engineering & Industries Ltd. ('Triveni'), one of the largest integrated sugar producers in the country with 61000 TCD sugarcane crushing capacity, 68 MW of co-generation, 160KLPD of distillery; a market leader of engineered-to-order high speed gears & gearboxes and a leading player in water and wastewater management business, today announced its performance for the financial year 2011 and fourth quarter ended 30th September 2011.

PERFORMANCE OVERVIEW: FY 11 V/S FY 10 (Consolidated)

- Net Sales at ₹ 1707 crore
- EBITDA at ₹ 201 crore at a margin of 12%
- Profit before Interest & Tax (PBIT) at ₹ 120 crore at a margin of 7%
- Sugar operation's turnover lower by 6% on account of raw sugar processed during previous year.
- Engineering businesses, overall, recorded growth of 17% in sales and 15% growth in PBIT.
- Profit before tax (PBT) at ₹ 17.4 crore (after extraordinary charge of ₹ 12.2 crore) as against ₹ 95.8 crore as results of steam turbine operations not included in this year's results.
- Profit after tax (PAT) at ₹ 22.2 crore as against ₹ 69.8 crore in FY 10
- Dividend for FY 11 - 20%

Commenting on the Company's financial performance, Mr. Dhruv M. Sawhney, Chairman and Managing Director, Triveni Engineering & Industries Ltd, said:

"FY 11 witnessed a good performance despite difficult year for the sugar business. Sugar Businesses registered a profit before interest and tax at ₹ 52.9 crore as against a loss of ₹ 22.2 crore in the previous financial year. Even though the cane price announced by Uttar Pradesh Government will bring additional burden on the industry in terms of higher cost of production, the Government's announcement of export of one million tonne of sugar and withdrawal of the stock limits for sugar are two positive moves, which in our belief should help in strengthening the sugar prices. A healthy and stable sugar prices with integrated operations of co-generation and distillery will help the industry to maintain its profitability and allow it to pay remunerative prices to farmers for their produce.

The company's performance of two engineering businesses has also been good, especially in the current economic scenario. Both gears and water businesses witnessed growth in turnover as well as profitability and is carrying a strong order book of ₹ 520 crore into FY 12. Our engineering businesses are geared up to take advantage of any economic turnaround. The long term technology tie-ups concluded in our gears business will not only help us in consolidating our position in the existing line of business, but also help us to enhance our product portfolio and geographies considerably which will lead to enhanced potential for profitable growth going forward.
