How we have performed over the last few years

Revenues (Rs. Crore)

Definition

Revenue is the income generated by a business from the sale of goods or services before the deduction of costs and expenses, taxes and promotions.

Why is this measured?

This showcases a Company's ability to grow the business through prudent marketing, pricing and awareness building, which can be compared with the Company's retrospective growth average or with sectoral peers.

Virinchi's performance

Revenues increased 0.5% to Rs. 366.94 Crore in FY 2021-22, a gain of Rs. 1.75 Crore. Total operating revenues increased by Rs. 10.00 Crore, Other income decreased by Rs. 8.24 Crore. Other income last year was high due to a write-off of loans by the US government in the US subsidiary as a part of government support to industry to tide over the liquidity crisis precipitated by the Covid pandemic.

Consolidated Highlights, FY 2021-22 Profit & Loss account / Balance Sheet

Consolidated operating revenue increased 2.8% to Rs. 364.01 Crore and total revenue increased 0.5% to Rs. 366.94 Crore	EBITDA decreased 3.8% to Rs. 102.60 Crore
Consolidated PAT increased 428.2% to Rs. 14.12 Crore	EPS increased 146.3% to Rs. 1.78
Consolidated EBITDA margin decreased 126 bps from 29.2%; PAT margin increased 312 bps from 0.73%	Receivables decreased from 79 days of turnover to 76 days

Net Profit (Rs.Crore)

Definition

Profit earned during the year after deducting all expenses and provisions.

Why is this measured?

It highlights the strength in the business model in terms of generating value for its shareholders.

Virinchi's performance

The Company reported a 428.2% increase in net profit to Rs. 14.12 Crore in FY 2021-22. The increase in Total Income by Rs. 1.75 Crore and decrease in administrative expenses of Rs. 5.54 Crore were primary reasons for the improvement. Depreciation and amortisation increased by Rs. 0.07 Crore and Finance costs decreased by Rs. 5.87 Crore due to a tapering of the impact of implementation of IND AS116; PBT increased by Rs. 6.55 Crore from Rs. 21.56 in FY 2020-21 to Rs. 28.11 Crore in FY 2021-22. Total taxes were Rs. 13.99 Crore during FY 2021-22 (inclusive of Deferred Taxes of Rs. 7.58 Crore).

EBITDA margin (%)

Definition

EBITDA margin is a profitability ratio distilled from revenue growth, value-addition and cost management.

Why is this measured?

The EBITDA margin indicates how much a Company earns (before accounting for interest and taxes) on each rupee of sales.

Virinchi's performance

EBITDA margin decreased by 126 bps to 27.9%. The margins decline was on account of an overall increase in expenses during the year.

Debt-equity ratio (x)

Definition

This is calculated by dividing the total debt by the net worth (less revaluation reserves)

Why is this measured?

This is an indicator of a Company's financial solvency, indicating the Company's ability to remunerate shareholders over debt providers.

Virinchi's performance

The Company's gearing decreased 4 bps to 0.47 in FY 2021-22 following a marginal increase in debt compared to an increase in net worth.

Interest cover (x)

Definition

This is derived through the division of EBITDA by interest outflow.

Why this is measured?

Interest cover indicates comfort in servicing interest, the higher the better

Virinchi's performance

The Company's interest cover, strengthened from 3.33 during FY 2020-21 to 3.91 during FY 2021-22 due to a fall in finance cost.

BUSINESS
OVERVIEW

Consolidation and cautious optimism

How Virinchi is returning back to the basics to build each of its businesses

Overview

The year under review proved challenging as it came in the backdrop of an extended pandemic that threw up unexpected challenges for a diversified company like ours.

Despite the unforeseen developments, the Company reported Rs 366.94 Crore in revenues and a cash profit of Rs 62.39 Crore in FY 2021-22. The strength of the business model was reflected in that we reported a cash profit in every quarter of the year under review. Even during the most challenging quarter (fourth) that the Company encountered during the last year, the Company reported more than Rs 14 Crore in cash profit, an index of the Company's competitiveness across market cycles.

The profitable performance of our Company during this challenging year with no Balance Sheet impairment is an index of the strength of our diversified business model. Our Company addressed all bank obligations and the business model – despite external challenges – remained relevant. The fact that the Company's revenue growth encountered sluggishness is also a reflection of the business complement where a stable performance by one business could be complemented by a sluggishness in another in a volatile world. This complemented reinforced the Company's overall resistance to a sharp decline and protected its ability to deliver long-term shareholder value. Given this reality, the performance of the Company during the last financial year was

credible, marked by systemic liquidity and intrinsic profitability.

The fact that the Company remained profitable and could service its interest and debt obligations indicates the underlying commitment of the Company and its businesses to support 'must run' customer environments.

Economy outlook

The year under review was marked by an extension of the pandemic and the financial stimulus in USA, the country where the Company's IT and micro-loan solutions are offered. The fact that liquidity remained high within that economy meant that fewer individuals turned to micro-loans, affecting the Company's capacity to grow this business. This is a reality that we have seldom

encountered, even though we do believe that a tightening of the US economy through higher interest rates and moderated liquidity should strengthen this business from the current year onwards.

The Indian fintech business is still at a nascent stage, addressing the evolving RBI regulatory environment. The business continues to face a large addressable market with a vast unmet need, and it is only a matter of time before this business is invested with the necessary growth capital that graduates it into the next trajectory.

The healthcare infrastructure business embarked on an ambitious project to commission a new 300 bed facility in Vishakhapatnam that is likely to be commissioned during

FY 2023-24. The facility is being taken across a 30-year lease, moderating the Company's cash outgo and reducing the break-even point. The Rs 85 Crore capital expenditure will be funded through debt and accruals without compromising the Company's overall Balance Sheet integrity. The expansion of our healthcare business represents a decisive initiative to grow this profitable segment of our business. The Company possesses an established competence in this space; the use of the existing brand will inspire patient traction and bed capacity utilisation; the transfer of best practices from our Hyderabad flagship facility to this new facility will strengthen the brand during the gestation period, making it possible for the facility to break even faster.

We believe that this expansion will enable our Company to achieve the critical mass of more than 1,000 healthcare beds across two growing cities. This scale will provide our business with national visibility and create a foundation for cash flows available reinvestment, accelerating the growth of this business.

Relevance of each business

At Virinchi, each of our business continued to remain relevant.

Our healthcare business addresses a growing need for specialised medical intervention, a need to access the best medical care, a positive offshoot of the widening insurance footprint across India, a growing traction for data-based and futuristic healthcare. The healthcare services business reported Rs 179.39 Crore in revenues during the financial year compared to Rs 160.85 Crore in the previous year. Our showpiece facility at Hyderabad reported an average occupancy of 31% during the course of the year which compared with 30% during the previous year.

Our payment & credit services business in India continues to be relevant, backed by a growing smart phone intermediation, need for real-time solutions and widening fin-tech solutions. We strengthened our business following the creation of Virinchi Capital Private Limited in FY 2020-21, a wholly-owned subsidiary that mobilised USD 2 Million to be invested in taking our mobile-driven credit card business ahead.

Our information technology business, which includes the SaaS business and International Data Centers & IT Services business in the US, rides a sweeping digitalisation, marked by growing data volumes, robotic process automation and micro-lending. Our IT business reported Rs 177.89 Crore in revenues during the last financial year compared with Rs 190.20 Crore in FY 2020-21; the contribution of this business to the overall revenues was 48.48% in FY 2021-22 compared with 52.08% in the previous year.

Outlook

Our complement of businesses continues to be relevant and we expect to recover our momentum across the foreseeable future.

We believe that the worst is over as far as the pandemic is concerned. As economies normalise, we see a reinvestment by medium to small players and expect attractive implications for our SaaS and IDC & IT Services businesses.

Our payment and credit services business awaits a wider market acceptance, riding smartphone penetration and online commerce.

The broadbased nature of our businesses will empower us to grow faster from this point onwards in the world's fastest growing major economy.

SAAS PRODUCT VARIANTS

- QFund TM provides a complete solution for managing:
- Payday loan
- Loan against salary
- Instalment loan
- Title / Auto equity loan
- Buy Now, Pay Later (BNPL)
- Line of credit (secured / unsecured)

Overview

The SaaS business of Virinchi is structured around its loan management system QFund. QFund is a US market leader in addressing the subprime market. QFundTM focuses on the creation of products directed at the retail micro finance industry in USA. Its proven B2B SaaS model is aligned strategies to launch QFund in other countries including India and for small businesses.

The SaaS business has consolidated while serving lenders in the US subprime market based on its two-decade experience. The product has grown organically and in partnership with customers, enjoys attractive margins and is likely to generate sustained SaaS-based revenue growth.

The sector (microfinance or sub-prime loans) plays a critical role in national economic growth; it provides loans to unemployed or low-income individuals or groups with no access to alternative financial services.

This industry space in the US is returning to pre-pandemic levels following a 40% decline during the pandemic. QFund has an omni-channel capability, runs large installs with 1,000+ branches, enjoys exhaustive coverage of loan products (personal loan, title loan, line of credit) in the consumer lending space and is a completely home-grown product. Its leadership position in the US subprime market and proven performance for more than two decades places it in a comfortable position. At the same time, QFund is attractively placed for a launch in a new geography like India to cater to an increasing fintech appetite.

The rise and rise of India SaaS

India is the third largest SaaS ecosystem after US and China. The confluence of the pandemic-induced large digital adoption in the rise of ambitious, dynamic Indian intrapreneurs assures promising growth for the Indian SaaS industry. Funding activity in the first two quarters of 2022 surpassed the funding activity in 2021, which was a breakout year with over USD 4.3 Billion in funding for SaaS start-ups.

The Indian SaaS market is expected to account for almost 7-10% of the global SaaS market, from 2-4% at present. Estimates suggest that India's SaaS market could reach USD 20-25 Billion by 2025 from USD 4-7 Billion in 2020.

India boasts around 20 SaaS unicorns. There are 2000-plus SaaS companies in India against 1000 until 2018. SaaS revenues in India are witnessing an annual growth of 20% with a rising uptake in software-as-a-service solutions from Indian SMBs and enterprises across sectors, as well as vigorous growth from global markets. Indian SaaS solution providers differentiate themselves through product leadership and innovative strategies, such as remote sales and zero cost marketing.

The Company has engaged in large investments with a focus on IT security. The Company invested in cloud-based security monitoring infrastructure with a global leader in this space.

The Company is investing in continuous product growth in the area of User Centric Design (UCD), configurability and addition of new platform components like underwriting framework.

Performance, FY 2021-22

- IT business revenues grew -6.5% to Rs. 177.89 Crore
- SaaS business revenues grew -9.5% to Rs. 122.61 Crore; IDC & IT services business revenues grew 0.9% to Rs. 55.28 Crore
- Nearly 95% of SaaS business revenues was derived from clients of 8 years or more association
- The Company could maintain quarterly revenues and liquidity, supporting the growth needs of the business and debt service capability.

Outlook

The SaaS vertical intends to grow revenues from existing customers, new customers in the US subprime market and enter new geographies like India.

The existing US customers are seeing increased activity and some are engaged in inorganic expansion. The QFund business model is based on the business size of its customers, helping them grow. The US market is beginning to show increased confidence and intent to invest in new software platforms.

Moreover, the Company is planning multiple dimensions to meet the evolving scenario in the US market subprime industry. There is a consistent investment in the product to increase usability through UCD efforts, while adding configurability and features including an underwriting engine. These capabilities could help reduce efforts in setting up and supporting solutions for any customer. A single software code can be used in multiple settings through improved configurability and usability. This could enable a rapid turnaround by the QFund team and enhance self-serve customer opportunities.

Overview

At Virinchi, our India fintech comprises the launch of vCard, India's first mobile-based credit application that offers financial products in partnership with leading banks and NBFCs.

The vCard business - India's first UPI-based credit card, a downloadable credit card - leverages the Company's deep understanding of machine learning and mass fintech products. What makes this business compelling is that the credit card space in India is largely the domain of big commercial banks. An indigenous card like vCard represents a high point for the Make in India movement.

vCard plugs all related challenges that have been responsible for less than 5% penetration of credit cards in India. The conventional credit card segment in India is expensive in origination, expensive to service, ultra-expensive low-ticket collection, supply constraints and a high entry cost. The merchant challenges comprise the following: 2% toll-fee

with no tangible consumer benefits; expensive point-of-sale set-up with a high maintenance cost; focus on upsell to customers with zero consumer engagement; compliance with BharatQR and equivalents with nil traction. Besides, the credit card has encountered under-penetration, low point of sale acceptance, commoditised offerings, weak customer service and low innovation.

vCard, on the other hand, could emerge as a USD 1 Billion revenue business in five years based on the following realities: a UPI-based ~USD 300 mobile-first credit line to India's 600 Million population in addition to USD 3,000 mobile-first credit card to the 30 Million salaried class with the objective to create a USD 1 Billion profitable revenue enterprise in five years. Even as over 100 Million smartphones are sold each year and the fintech lending sector addresses USD 6 Billion and UPI USD 2 Billion, India enjoys a large under penetrated market (a mere 3.5 Crore credit card owners as against 90 Crore debit card owners) and an

underserved market (70-year-old commoditised plastic credit card engagement as against a mobile-first personalisation). Besides, the market has been restricted by expensive origination and intermediation (the cold-caller gets ~Rs. 4,000+ per credit card sold).

Benefits

The app - a category creator in the 'intelligent replacement of existing plastic credit cards' - leverages sophisticated and proven Machine Learning, resulting in the following capabilities:

- To underwrite customers without a credit bureau history
- To provide chat-based instant and zero contact customer support
- To personalise customer service and match individuals with merchant offers, payment options and default

risks through continuous cohort management

The uniqueness of this differentiated app-based vCard offering comprises the following:

- UPI acceptance with up to 30 days of interest-free period
- UPI acceptance network for merchant and peer-to-peer payments (PhonePe/ Google Pay/ Whatsapp/ PayTM/ BHIM etc.)
- A 15-25% APR credit line, which can be used as a credit line to transfer cash to one's own account and convert to EMIs at Personal Loan rates (unsecured overdraft facility), digital origination, multiple lenders, which reduces drop-offs, reduces origination costs, allows credit limits as small as Rs. 5,000 and makes it possible to 'check eligibility' on Facebook / Whatsapp / No Touch Origination

▪ Sophisticated mobile engagement, AI-based merchant matching for local and relevant rewards, with an IIT team working on zero-touch customer support, relevant gratification (instead of reward points or spam offers)

- Can be originated centrally for SMEs/ corporates through a unique QR source
- All UPI + card payments can be tagged as personal/ corporate spend, mandating a copy of the invoice/ bill copy
- Integrated expense report and approval/ reimbursement workflow can be implemented depending on partner workflow; vCard piloted the business and is actively covering around 1,000 installs per month through its credit card banking partner RBL Bank (soon to onboard an NBFC partner).

BIG NUMBERS	20,000+ vCards issued	216+ Rs. Crore, total card spend	178+ Rs. Crore, UPI spend

What the card has achieved

Wide acceptance

- UPI mobile credit card rides on a 150 Million UPI acceptance network

Lender cost structure

- Origination cost reduced by 100x
- Chat-bot based support as against call center costs
- Lowest cost, no-touch small collections
- Targeted financial education can reduce small ticket collection risks

Customer engagement

- Hyper-personalised gratification (as against reward points)
- Chat-based instant support
- Subscription-based concierge services

Merchant and P2P acceptance

- No-friction payments for multiple new use cases
- Customer discovery services to merchants
- Zero merchant acquisition cost

Product functionality

- Omni-channel zero MDR payments
- Instant credit card plus line origination
- AI-led personalised gratification
- MI-based default prediction and control
- Whatsapp-based contextual support
- Merchant and subscription services

Technological know-how

- Tensor Credibility Index™ will create cohorts, gratify customers, predict defaults and build rewards currency
- Proven and stable ML framework

Our strengths

Compliant: 'Acceptance network-independent' credit platform using UPI rails for transaction closure; PCI DSS-certified (Payment Card Industry Data Security Standards) by independent auditors

Technology: Credit decisioning based on Machine Learning-based multi-parametric model

Solution: End-to-end digitised loan life cycle across origination, onboarding, disbursals, collections, servicing and regulatory compliance & reporting.

Variants: Two product variants – co-branded credit card with banks and credit line from NBFCs.

Experience: Virinchi enjoys a strong fintech IT products experience business. The Company has processed accounts of more than 25 Million customers in USA across more than 200 parameters.

Eco-system: Virinchi's eco-system comprises regulatory agencies and partners (technology, customer service, customer collection and customer acquisition) resulting in an integrated operational structure. This has translated into paperless instant credit limit activation, UPI-based low MDR merchant payment and artificial intelligence-driven origination, service and collection.

Revenues: Virinchi is attractively placed to generate cash-accretive

revenues from customer origination, per use and renewal.

Inclusive: Virinchi leveraged technology to reduce the cost of origination of cards to one of the lowest entry points for a credit card anywhere in the world.

System: Virinchi expects to secure the card through a strong eco-system (CIBIL, Aadhar and online banking etc.) supported by effective counter-fraud GPS-driven safeguards.

Economy: Virinchi will capitalise on the UPI backbone to move money at close to zero cost.

Outlook

The Company is actively marketing to companies under TCP (Trusted Corporate Program) and BCG (Big Corporate Group)

The Company expects to use the vCard platform flexibility to roll out new products and increase the market base to extend the offering to professional and self-employed individuals; it will offer loans to buy used cars and bikes; it will provide educational loans and loans to SMEs

Build partnerships, expand the credit card co-branding with other banks

Launch a credit line with investments from NBFCs and small finance banks

CEO'S BUSINESS REVIEW

“The Company plans to further add 6,000 customers by March, 2023.”

A conversation with V. Satyanarayana, CEO, vCard and Vice Chairman & Whole Time Director, Virinchi Limited

Progress of vCard

We encountered traction in FY 2021-22. With respect to the co-branded RBL credit card, we faced challenges due to the Mastercard suspension, which led to a data service interruption for five months. These challenges forced the Company to switch to Visa, a noteworthy change that happened during the year under review. The Company's credit line programme, which was non-existent in the previous year, was launched in October 2021. We encountered customer growth within a short time.

The Company developed a unique method to ensure that customers were offered this credit line product. Following experimentation and research, we ensured a 20: 50:20 ratio in the good, better and best category score, resulting in a unique segmented customer profile.

Funding for vCard

QC Holdings Inc. invested in Virinchi Capital Private Limited, which helps us lend to NBFCs who in turn lend to the Company. We received Rs 15 Crore investment in 2021-22.

THE VIRINCHI ECO-SYSTEM

Credit card and credit line

We run a marketing campaign. A person downloads the vCard mobile application and goes through the process of formatting the data. The data is initially channelised for a cobranded credit card through RBL. The user gets a credit card with a limit of Rs 5 Lakh/Rs 2 Lakh/1 Lakh. The user gets a plastic card with a specific sub-limit of Rs 20,000 that can be used through a UPI-based mobile payment application. If a person is found eligible, a credit line product is sanctioned, where the person is digitally approved and the credit limit is enabled in his or her mobile application. This helps the person use the same mobile application to scan and transfer funds to his or her bank account.

Our business advantages

India comprises only 70 Million credit card holders compared to 940 Million debit card holders (January 2022). The reason for this mismatch: credit cards are expensive; banks that provide credit cards have large cost structures, which they need to cover, which, in turn, makes it expensive to provide a credit card to people below a certain income threshold. Interestingly, this large base accounts for a majority of Indians who conduct transactions using cash, debit card or UPI - the Company's target market. We intend to provide this large consumer base with their first credit card without the related inconvenience. A plastic credit card application takes around 15-30 days for approval whereas our customers will get their vCard in a single sitting for which they will need to bring their

PAN and Aadhar card, agree to our terms. The use of PAN cards at the time of registration will help us map an employee's spending behaviour and credit history, making it possible to identify probable defaulters and delinquents at an early stage.

Opportune moment

India has created a critical mass of about 50 Crore people with bureau history. vCard will be positioned at par with credit cards like Mastercard or Visa in terms of authorisation, security and other functional and non-functional features. Our product is at the centre of the fintech revolution where we will compete with credit cards like Mastercard and Visa on the one hand, while offering an alternative to popular UPI apps like Gpay and PhonePe. Our credit line will also be in competition with new-age loan products

Card advantages

A unique proposition of vCard is that the credit card can be used to make UPI-based payments. In the co-branded RBL programme, the user gets the sub-limit of the amount in the bank account every month. The user does not necessarily use the credit card each time; he or she can use the vCard mobile application to scan and make the payment. The user can make UPI-based credit card payments using this particular mobile application. The Company's credit line product also enables the customer to make payments using UPI.

Other advantages of the vCard comprise convenient payment and monthly statements. The ability to

convert into EMIs under the co-branded programme and credit line programme is a customer advantage. We provide interest-free supplements ranging from a purchase of Rs 1,000-Rs 5,000 for the credit line programme. The possibilities are enormous - a 24x7 operating system that helps transfer funds with one's cell phone.

Reasons of optimism for vCard

vCard has a rich potential. The transactional base of using UPI as a preferred payment mode is growing. An estimated 180 Million eligible for a credit card in India do not have one, the Company's target segment. All payments can be done by using UPI. If we compare it to a loan product, where a person goes and takes a personal loan at the beginning of the month till the end of the month. If we compare it with credit line linked to the UPI-based payment, the customer is only paying interest based on the consumption of the amount paid.

Customers are pleased as they get the full amount using vCard, which could not be possible as an amount of commission would have been channelised to Visa and Mastercard. vCard is expected to be successful as there is an ample market appetite for organised lending on which the Reserve Bank of India is focusing. The Company's product comprises advantages of mobile-based application that satisfies ease of use and a reasonable interest rate. The Company's value has been validated as peers stopped giving interest-free offers.

vCard statistics

Under the credit line programme, the Company issued around 6,000 cards under various approval stages. The Company gave more than 14,000 cards under the RBL co-branded credit card programme. As on March 31, 2022, the Company gave around 22,000 vCards to customers. In terms of transaction volume, the total spend on the co-branded card was almost Rs 150 Crore, Rs 30 Crore was the UPI expenditure and Rs 40 Crore comprised person-to-person transfers with the RBL credit card. The Company had a loan book outstanding of almost around Rs 4-5 Crore on the credit line side and as in August 2022, there was a loan book outstanding of Rs 10 Crore.

Achievements, FY 2021-22

- Launched and stabilised operations in the credit line segment
- Built up space of around 6,000+ customers in the credit line segment within a short time
- Relunched the co-branded credit card with Visa in December 2022
- Provided seamless processing and customer quality experience

Measuring customer experience

We measure customer experience for vCard through the speed with which

how a person can be on-boarded. The other metric used to measure customer experience is how much he or she is engaged with and how happy the customer is using the vCard.

Projecting the growth

The Company is projecting to grow to 1,000 credit line customers per month from 2023, which could need Rs 2 Crore on average, warranting around Rs 24 Crore of additional annual funding. The Company is expecting to source additional funds through foreign collaborators. The Company also expects to raise requisite funds from NBFCs and banks. The Company plans to add 6,000 customers by March 2023.

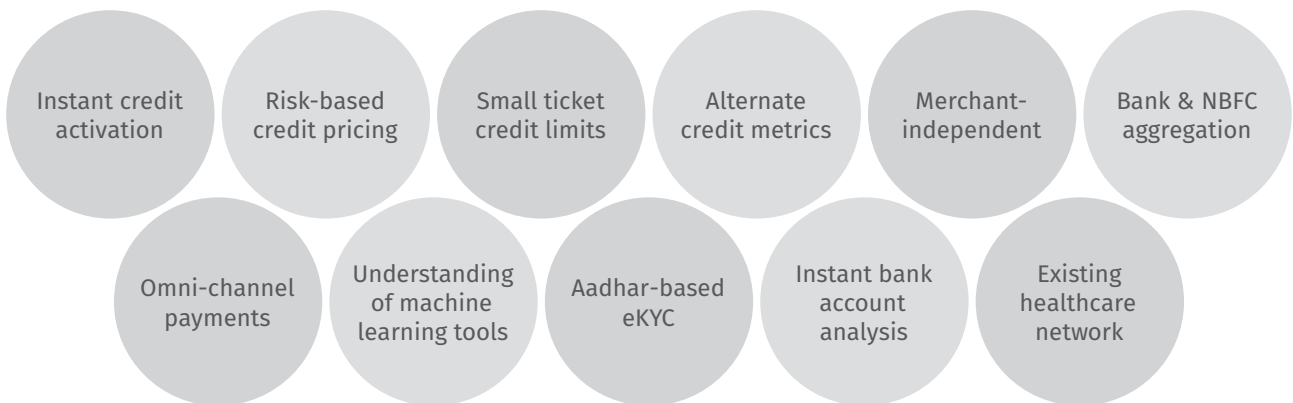

Outlook

The outlook of vCard is to enable the customer to pay all utility bills and integration with utility bills. The Company plans to issue a prepaid instrument within RBI guidelines. It plans to arrange for a kind of pre-paid card that can be loaded using the credit line. It seeks possibilities of providing loans to other segments not currently catering to self-employed and small tradesmen. Going forward, it seeks to focus on corporates and employees of stable corporate houses.

Qualitative drivers of our vCard business

- Small merchants accept digital payment modes with GST
- eSignature accepted by RBI
- Digilocker for all government documents
- Aadhar-linked KYC and bank accounts
- Digital bank statement analysis
- Stronger credit bureau reporting

Overview

Virinchi entered the business of healthcare in Hyderabad in 2015. The timing was opportune: there was an extensive under-investment in the country (3 beds per 1,000 of the population as against a requirement of 12 beds for every 1,000 people).

Virinchi Hospitals

The Company launched a modern flagship healthcare facility in Hyderabad (Banjara Hills) comprising 350 beds in November 2016 (upgraded to 450 beds). This facility compares with the best of South Asia: 11 operating theatres, 130 ICU beds, 3T Functional MRI, 128 Slice, Dual Energy Spectral CT and a ceiling-mounted Cath Lab. The NABH and NABL-accredited facility comprises 250 super-specialists and a single integrated HIS/ EMR. The flagship hospital achieved a cash breakeven in FY 2018-19 within 30 months of commissioning.

Virinchi is committed to achieve its overarching commitment to serve a billion patients by 2030 through a complement of mobility-backed business processes, replicate and scale superior patient experiences, build 'the widest healthcare mobility

ecosystem', provide free Cloud-based clinic management, lab management and hospital information system, investment-light physical hospital infrastructure, quality transaction data and electronic medical records, machine learning-based predictive tools to build a data-backed healthcare analytics vertical and engage with Government departments to offer free Mobility Network Services.

Most healthcare facilities are designed around a brick-centric approach; Virinchi's model reconciles virtual healthcare solutions complemented by the physical structure, resulting in lower costs, superior clinical outcomes, larger patient data pool and knowledge sharing.

At Virinchi created a quasi-university model knowledge approach complemented by a commercial healthcare proposition; its commitment to Right to Science in therapy advances diagnosis and therapy offers stem cell-based therapies, organ regeneration, adoptive immune therapies, nanotechnology for disease detection, drug delivery and cell/ tissue corrections, among others.

Virinchi has selected to focus on a balance of people and machine learning. The Company remunerates doctors around a fixed fee model. Virinchi collaborates with more than 300 reputed institutions (US, UK, China and Israel, among others) to implement the Right to Science programme. The Company comprises a base of more than 500,000 patients.

The Company strengthened its healthcare outcomes through evidence-based medication: comprehensive patient data management with objective-based data capture, sophisticated machine learning algorithms with proven medical NLP algorithms, proprietary lexicons and unstructured data management and the institution of an in-house analytics group to monitor data quality.

The following upsides emerged: Patient cohort identification and monitoring; phenotypes for targeted medication; PHM with community/ government agencies; quality data for clinical research and integrated analytics delivery in a sophisticated mobility environment.

Strengths

Mobile video consultation

Virinchi provides video consultations with doctors vis smartphones.

Building world class healthcare eco-system

The flagship continued to attract prominent doctors across different therapeutic areas, incentivised by the availability of cutting-edge technologies and professional freedom.

Event history logging

With the help of wearable medical devices and remotely accessed bed side units, vital clinical features are monitored in real-time to provide timely feedback

Medical event book keeping

Virinchi's mobile app enables each patient to access a complete medical history of every test and hospitalisation record on cloud and mobile for the individual and his family for their entire lifetime, which can be forwarded to any doctor for a second medical opinion

Healthcare as a welcome experience

Virinchi is a paperless 'mobile-only' hospital with all front office, nursing and ward processes executed on electronic tablets.

Achievements, FY 2021-22

- The business generated revenues of Rs. 179.39 Crore (Rs. 160.85 Crore in the previous year). Revenues from this business accounted for 49.3 of the Company's revenues (44.1% in the previous year).
- Virinchi Hospitals (under the brand name of Cell Correct Diagnostics) obtained NABL accreditation and empanelment with ICMR to carry out RNA-based virus screening, which included RT-PCR testing for COVID-19 in May 2020. Virinchi Hospitals invested in personal protecting equipment, consumables and testing kits to assist patients in the post-lockdown phase.
- For three consecutive weeks (April and May 2022), the business consistently had 90-95 critical care patients on the ventilator and catered to all with a success rate of 87%.
- The hospital had 35 ventilators in April 2021; within 10 days, this increased to 100 ventilators (60 added) for our patients.
- The hospital was in the forefront in diagnosing and treating COVID-19 patients with treatment protocols revised weekly based on the latest evidence published in peer-reviewed journals, WHO guidelines and National and State Guidelines.
- As per standardised mortality ratio (measurement of deviation of actual mortality with the predicted mortality rate), the predicted mortality of patients was 32% but the observed mortality was 17%, an achievement
- The hospital added a new technology like Thromboelastogram (TEG) that tracks the dynamics or sequence of clot development, optimising the treatment for critically ill patients.
- The hospital added another extra-corporeal membrane oxygenation (ECMO) machine (increasing to a total of two); it added high frequency oxygen devices and upgraded dialysis machines
- The hospital was the only one in Hyderabad to start a healthcare package for the economically weaker sections in August 2021. Statistically, 18-20% patients availed this package (65-70% discounted).
- The hospital launched a card for providing free treatment to 1,000+ ambulance drivers and their families in Telangana.
- The pediatric intensive care centre was launched in 2021; the youngest patient saved was one-and-a-half-years old with diabetes.

Outlook

Virinchi Hospitals signed an MOU for taking over a building in Visakhapatnam that will house its next hospital from FY 2023-24.

The Company tied up with a purpose-driven technology-led oncology platform called Karkinos Healthcare, a Tata-backed group, for cancer care. The cancer care centre will comprise a radiation facility and the partnership is expected to be operational by the second quarter of 2023.

Virinchi Hospitals invested in robotics surgery to address complex surgeries on the brain, spinal cord, kidneys and joints, to be operational from 2023. The Company is focused on liver transplants and expects to commence by December 2022.

How Virinchi Hospitals has made a difference in the lives of its patients

Conversations with various doctors at Virinchi Hospitals

We had made a Covid commitment and policy that anybody who does not require oxygen we will not admit and that we will admit only the really ill patients - probably the biggest survival success result across all hospitals in Hyderabad."

We made beds available to those engaged in duty on the streets like the traffic police, healthcare workers, doctors and people working in other hospitals. If they needed a bed, we made sure that beds were available, period."

Following the second Covid wave, we had a family of three that was severely burnt (60%) after a gas cylinder burst. They did not get a bed in another hospital. They were brought to Virinchi Hospitals; we treated them for 39 days and were able to send them home recovered and walking. Six months later, all three came to our ICU to distribute sweets all across the hospital, including our housekeeping staff, and we could not recognise them!"

Looking at the severity of the peak of the second wave, we made every single bed available for Covid patients. We stopped all other work for one month and a half."

We made all personal protection equipment available to everyone and ensured a compliance with all isolation regulations until someone was proven to be negative."

Virinchi focused on being transparent. The healthcare app made it possible to check historical reports at any point of time with one click only. At the same time, one can get their reports on the app within 30 minutes after the doctor reviews the test report."

The motive of Virinchi Hospitals is to 'make a difference' and treat a billion patients by the end of this decade. We are recognised for our commitment to provide world-class healthcare and excellent patient service."

Virinchi stands for patient privacy and data security. Our unique business model has improved decision-making as the updates of our patients can be overseen in real time through our robust technologies."

Be it black fungus or Omicron, Virinchi Pharmacies made sure that all medicines were readily available for our patients."

We applied for our liver transplant license and hope to have our first transplant addressed in September 2022."

Management Discussion and Analysis

Global economic overview

The global economy grew an estimated 5.9% in 2021 compared to a de-growth of 3.3% in 2020. This improvement was largely due to increased vaccination rollout the world over and a revival in economic activity based on catch-up consumption.

The global economy was affected by prohibitive shipping freight rates, a shortage of shipping containers and semiconductor chips in 2021, affecting global economic recovery. Inflation was at its highest since 2011, especially in the advanced economies, catalysed by a run up in commodity prices. Some emerging

and developing economies were positioned to withdraw policy support to contain inflation even as the economic recovery was still incomplete.

The global economy is projected to grow at a modest 2.6% in 2022.

Indian economic overview

The Indian economy reported an attractive recovery in 2021-22, its GDP rebounding from a de-growth of 7.3% in 2020-21 to a growth of 8.7% in 2021-22. By the close of 2021-22, India

was among the six largest global economies, its economic growth rate was the fastest among major economies (save China), its market size at around 1.40 Billion the second

most populous in the world and its rural under-consumed population arguably the largest in the world.

Y-o-Y growth of the Indian economy

(Source: IMF, World Bank, UNCTAD)

The Indian economy was affected by the second wave of the pandemic that affected economic growth towards the far end of the previous financial year and across the first quarter of the financial year under review. The result is that after a growth of 1.6% in the last quarter of FY 2020-21, the Indian economy grew 20.1% in the first quarter of FY 2021-22 due to the relatively small economic base during the corresponding period of the previous year.

There were positive features of the Indian economy during the year under review.

Foreign direct investments (FDI) in India increased 1.95% to USD 83.57 Billion in FY 2021-22 from USD 81.72 Billion in FY 2020-21, a validation of global investing confidence in

India's growth story. The government approved 100% FDI for insurance intermediaries and increased FDI limit in the insurance sector from 49% to 74% in Union Budget 2021-22.

In 2021, India was the largest recipient of global remittances. The country received USD 87 Billion during 2021, with the US being the largest source (20%). India's foreign exchange reserves stood at an all-time high of USD 642.45 Billion as on September 3, 2021, crossing USD 600 Billion in forex reserves for the first time.

India's currency weakened 3.59% from Rs. 73.28 to Rs. 75.91 to a US dollar through FY 2021-22. The consumer price index (CPI) of India stood at an estimated 5.3% in FY 2021-22. India reported improving

Goods and Services Tax (GST) collections month-on-month in the second half of 2021-22 following the relaxation of the lockdown, validating the consumption-driven improvement in the economy. The country recorded its all-time highest GST collections in March 2022 standing at Rs. 1.42 Lakh Crore, which is 15% higher than the corresponding period in 2021.

India's per capita income was estimated to have increased 16.28% from Rs. 1.29 Lakh in FY 2020-21 to Rs. 1.50 Lakh in FY 2021-22 following a relaxation in lockdowns and increased vaccine rollout.

India's tax collections increased to a record Rs 27.07 Lakh Crore in FY 2021-22 compared with a budget estimate of Rs 22.17 Lakh Crore. While

direct taxes increased 49%, indirect tax collections increased 30%. The tax-to-GDP ratio jumped from 10.3% in FY 2020-21 to 11.7% in FY 2021-22, the highest since 1999.

Retail inflation in March at 6.95% was above the RBI's tolerance level of 6% but fuel prices played no part in this surge. Retail inflation spiked to a 17-month high in March 2022, above

the upper limit of the RBI's tolerance band for the third straight month.

The Budget 2022-23 sought to lay the foundation of the Indian economy over the 'Amrit Kaal' period of the next 25 years leading to 100 years of independence in 2047. The capital expenditure target of the Indian government expanded by 35.4% from Rs. 5.54 Lakh Crore to Rs. 7.50

Lakh Crore. The effective capital expenditure for FY 2022-23 is seen at Rs. 10.7 Lakh Crore.

Outlook

The Indian economy is projected to grow by a little more than 7% in FY 2022-23, buoyed by tailwinds of consistent agricultural performance,

flattening of the COVID-19 infection curve, increase in government spending, favourable reforms and an efficient roll-out of the vaccine

leading to a revival in economic activity.

Global IT industry overview

The global information technology (IT) industry spending is expected to grow from USD 8,384.32 Billion in 2021 to USD 9,325.69 Billion by the end of 2022, growing at a CAGR of 11.2%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working and the closure of commercial activities that resulted in operational challenges. Further, it is expected to reach USD 13,818.98 Billion in 2026, at a CAGR of 10.3% during the forecasted period.

The tech market of Asia Pacific region is forecasted to grow by 6.2% by the end of 2022 to reach USD 675 Billion. The government bodies as well as

the corporate bodies across the globe account for a substantial share of technology spending. Countries like Philippines and Vietnam are anticipated to lead the market of tech goods and services, reaching 9.1% and 9.0% respectively. Moreover, India's tech market is catalysed by the evolution of digitalisation and innovation, which have pushed India's share in the global sourcing market to 59%.

The COVID-19 pandemic created a considerable impact on the technology sector, affecting the supply of raw materials, disrupting the electronics value chain and causing an inflationary risk on products. However, this disruption has led to remote working, due to which there has been increased

demand of companies with remote-working technologies. As a result, security software is expected to experience a high-order benefit from a growing remote workforce. There has been an increase in IT spending on security software, as organisations compete to secure endpoints, such as cloud-based tools, log management and VPNs. Hardware companies are also examining utmost demand from enterprises, for laptops and mobility devices to help employees to work from home. Hence, IT spending forecasts indicate continued demand for cloud infrastructure services and potential increases in spending on specialised software.

Indian healthcare industry overview

The Indian healthcare sector was anticipated to report a three-fold rise, increasing at a CAGR of 22% between 2016 and 2022 to reach USD 372 Billion in 2022 from USD 110 Billion in 2016. This growth is catalysed by rise in income levels, significant health awareness of lifestyle diseases and improved access to insurance. The hospital industry of India has a market share of 80% in the total healthcare market and is expected to reach USD 132 Billion by FY2023 from USD 61.8 Billion in FY 2016-17, growing at a CAGR of 16-17%. As of 2021, the Indian healthcare sector is one of India's largest employers as it employs a total of 4.7 Million people. In terms of quality and accessibility of healthcare, India ranks 66th among 195 countries, which indicates headroom for enhancing healthcare services penetration in India and development of the healthcare industry.

In the Economic Survey of 2022, India's public expenditure on

healthcare stood at 2.1% of GDP in 2021-22 against 1.8% in 2020-21 and 1.3% in FY 2019-20. A growing middle-class, coupled with rising awareness of new diseases, are boosting the demand for health insurance coverage. With increasing demand for affordable and quality healthcare, penetration of health insurance is poised to expand in the coming years.

With the growth of Indian population by 181.5 Million people (approximately 17.7%) from 2011 to 2022, government health expenditure also grew by ~1.35% during the same decade. The Government aims to raise its healthcare spending to 2.5% of GDP from the current level of 1.1% of the GDP by 2025 under the National Health Policy 2017. Also India's healthcare sector is influenced by private hospitals as, about 70% of the rural population and 80% of the urban residents rely on private hospitals.

The Indian healthcare industry is considered one of the best in

the world in terms of technology, infrastructure, nurses and specialist doctors. Its competitive advantage lies in its large pool of well-trained medical professionals. As of January 2022, the number of medical colleges in India stood at 595. The country has also become one of the leading destinations for high-end diagnostic services with tremendous capital investment for advanced diagnostic facilities, thus catering to a greater proportion of population. Moreover, the e-health market size is estimated to reach USD 10.6 Billion by 2025, broadbasing the healthcare industry even further. Additionally, medical tourism market is expected to reach USD 13.42 Billion by 2026 from USD 2.89 Billion in 2020, catalysing the growth of hospitals and labs in India. The cost of surgery in India is about one-tenth of that in the US or Western Europe. Hence, India is a cost competitive country compared to peers in Asia and Western countries.

9. The Certificate from the Secretarial Auditor of the Company under SEBI(Share Based Employee Benefit) Regulations, 2014 as amended, will be available for inspection by the shareholders and is also available on the website of the Company at www.virinchi.com.
10. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Shareholders holding shares in electronic format, therefore, are requested to submit their PAN to their Depository Participants with whom they are maintaining their demat accounts. Shareholders holding shares in physical form may submit their PAN and other details to the Company’s R&T Agents in accordance with SEBI Circular SEBI/HO/MIRSD/DOP1/ CIR/P/2018/73 dated 20 April 2018.
11. Shareholders holding shares in physical form are requested to consider converting their holdings to dematerialized form to eliminate all risks associated with physical shares and for ease of portfolio management. Members can contact the R&T Agent of the Company for assistance in this regard.
12. Pursuant to section 72 of the Act, shareholders are entitled to make a nomination in respect of shares held by them. Shareholders desirous of making a nomination, pursuant to the Rule 19(1) of the Companies (Share Capital and Debentures) Rules, 2014 are requested to send their requests in Form No. SH-13, to the R&T Agent of the company. Further, shareholders desirous of cancelling/ varying nomination pursuant to the rule 19(9) of the Companies (Share Capital and Debentures) Rules, 2014, are requested to send their requests in Form No. SH-14, to the R&T Agent of the Company.
13. In accordance with the MCA’s “Green Initiative in Corporate Governance” allowing companies to share documents with its shareholders in the electronic mode and related amendments to the Listing Agreement with the Stock Exchanges, the company is sharing all documents with shareholders in the Electronic mode, wherever the same has been agreed by the shareholders. Shareholders are requested to support this green initiative by registering/ updating their e-mail.
14. In compliance with Section 108 of the Act, read with the corresponding rules, and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements)

Regulations, 2015 (“the Listing Regulations”), the Company has provided a facility to its members to exercise their votes electronically through the electronic voting (“e-voting”) facility provided by the Central Depository Services India Limited (CDSL). Members who have cast their votes by remote e-voting prior to the AGM may participate in the AGM but shall not be entitled to cast their votes again. The manner of voting remotely by members holding shares in dematerialized mode, physical mode and for members who have not registered their email addresses is provided in the instructions for e-voting section which forms part of this Notice. The Board has appointed Mr. G. Vinay Babu, Practicing Company Secretary, as the Scrutinizer to scrutinize the e-voting in a fair and transparent manner.

15. The facility for voting during the AGM will also be made available. Members present in the AGM through VC and who have not cast their vote on the resolutions through remote e-voting and are otherwise not barred from doing so, shall be eligible to vote through the e-voting system during the AGM.
16. Any person who acquires shares of the Company and becomes a Member of the Company after sending of the Notice and holding shares as of the cut-off date, may obtain the login ID and password by sending a request at helpdesk.evoting@cdslindia.com. However, if he / she is already registered with CDSL for remote e-voting then he / she can use his / her existing user ID and password for casting the vote.
17. In compliance with the Circulars, the Annual Report 2021-22, the Notice of the 33rd AGM, and instructions for e-voting are being sent only through electronic mode to those members whose email addresses are registered with the Company / depository participant(s).
18. The Scrutinizer will submit his report to the Chairman of the Company (‘the Chairman’) or to any other person authorized by the Chairman after the completion of the scrutiny of the e-voting (votes casted during the AGM and votes casted through remote e-voting), not later than 48 hours from the conclusion of the AGM. The result declared along with the Scrutinizer’s report shall be communicated to the stock exchanges, CDSL, and RTA and will also be displayed on the Company’s website, www.virinchi.com
19. Since the AGM will be held through VC in accordance with the Circulars, the route map, proxy form and attendance slip are not attached to this Notice.

CDSL e-Voting System – For Remote e-voting and e-voting during AGM

1. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules,

2014 (as amended) by the Companies (Management and Administration) Amendment Rules, 2015 and Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020 under Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and MCA Circulars dated April 08, 2020, April 13, 2020, May 05, 2020 and May 05, 2022 the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with M/s. Aarthi Consultants Private Limited and Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-Voting’s agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL.

2. The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available to atleast 1000 members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.
3. The attendance of the Members attending the AGM/EGM through VC/OAVM will be counted for the purpose of ascertaining the quorum under Section 103 of the Companies Act, 2013.
4. Pursuant to MCA Circular No. 14/2020 dated April 08, 2020, the facility to appoint proxy to attend and cast vote for the members is not available for this AGM. However, in pursuance of Section 112 and Section 113 of the Companies Act, 2013, representatives of the members such as the President of India or the Governor of a State or body corporate can attend the AGM through VC/OAVM and cast their votes through e-voting.
5. In line with the Ministry of Corporate Affairs (MCA) Circular No. 2/2022, Dated 5th May, 2022, 17/2020 dated April 13, 2020, the Notice calling the 33rd AGM has been uploaded on the website of the Company at www.virinchi.com. The Notice can also be accessed from the websites of the Stock Exchanges i.e. BSE Limited at www.bseindia.com. The AGM Notice is also disseminated on the website of CDSL (agency for providing the Remote e-Voting facility and e-voting system during the AGM/EGM) i.e. www.evotingindia.com.

THE INTRUCTIONS FOR SHAREHOLDRES FOR REMOTE E-VOTING ARE AS UNDER:

- (i) The e-voting period commences on Saturday, September 24, 2022 (9:00 a.m. IST) and ends on Tuesday, September 27, 2022 (5:00 p.m. IST). During this period, members holding share either in physical or dematerialized form, as on cut-off date, i.e. as on September 21, 2022 may cast their votes electronically. The e-voting module will be disabled by CDSL for voting thereafter. A member will not be allowed to vote again on any resolution on which vote has already been cast. The voting rights of members shall be proportionate to their share of the paid-up equity share capital of the Company as on the cut-off date, i.e. as on September 21, 2022.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/ CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/ CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Profit before Tax (PBT) stood at Rs. 1303.64 Lakhs as against Rs. 1305.83 Lakhs for the previous year. Profit after Tax (PAT) stood at Rs. 1236.71 Lakhs as against Rs. 859.26 Lakhs for the previous year.

The SaaS business has consolidated itself while serving the lenders operating in the US sub prime market. It's loan management system QFund has been operating in the industry for more than 2 decades now. The product has grown organically and in partnership with its customers.

The company was also able to support the urgent needs of its clients to innovate new products or enabling existing products in delivering services in the 'pandemic environment'. These ranged from very critical ability to enhanced automation of disbursement & payment to a completely new multi-party lending business model for a large Ohio, USA based client.

The industry space in the US is gradually getting back to pre-pandemic levels. The industry had seen a decline of more than 40% during the pandemic but with customer activity showing recovery and lender's loan books getting back to pre-pandemic level means that the industry should be operating at its regular activities. This should also see more intent to invest in growth including the digitization part from existing and potential customers.

The SaaS vertical helps aligning strategies to launch QFund in additional geography including India. The business will also look at launching QFund for small business. The vCard business in India has seen a good growth momentum during the year.

With availability of COVID vaccine, the economy has opened up and the industry has turned around in 2021 – 22.

The healthcare vertical has seen an overall growth for the year with periods of peak revenues during the second wave of Covid in Q1FY2021-22 to flattening revenues in the subsequent quarters. The outlook is positive for the industry with medical tourism going back to pre-pandemic levels with the central government allowing international patient travel.

There have been no material changes and commitments, which affect the financial position of the Company which have occurred between the end of the financial year to which the financial statements relate and the dates of this report.

During the year under review, there is no change in nature of the business of the Company. The affairs of the Company are conducted in accordance with the accepted business practices and within the purview of the applicable legislations.

Amounts Transferred to Reserves

The Board of the company has decided to carry Rs. 1236.71 Lakhs to its Reserves.

DIVIDEND

Your directors did not recommend any dividend on shares for this year.

PERFORMANCE SUBSIDIARIES INFORMATION

Tyohar Foods Private Limited

The Company had planned to take up a project under Tyohar Foods Private Limited and had purchased a 50,000 Sq. feet of building in 4047 Square meters of Land located at Survey No 15, Suraram Village, Qutbullapur Mandal, R.R.Dist by participating in an open auction conducted by Canara Bank on 16th August 2012 and the said property was registered vide Certificate of Sale Doc. No.11361/2012 dt.25th Sep, 2009 and were put in possession of the said premises.

All the legal cases are closed on the property and the company is in the process to make suitable business plans.

Virinchi Healthcare Private Limited

Virinchi Healthcare Private Limited (VHPL) has three units in Hyderabad with a total operating bed capacity of 600 which can be enhanced upto 800. The flagship hospital at Banjara Hills, Hyderabad with bed capacity of 400, delivers therapeutic care over 35 specialties. Virinchi has a dedicated clinical team pursuing MoUs and medical

partnerships with globally reputed institutions in the US, UK, China, Israel etc., to deliver a unique 'Right to Science' program to make global medical innovations available to Indian patients to treat previously incurable conditions.

The flagship hospital is led by leading doctors in the country offering the best of therapeutic and diagnostic care through some of the Industry Leading Medical Infrastructure including 3T fMRI, Ceiling Mounted IVUS Cath Lab, Dual Energy 128 Slice CT, 11 Fully Equipped Operation Theatres & widest range of in-house diagnostic capabilities.

All three units obtained the license from ICMR to screen RNA based viruses and the license to treat Covid-19 patients from the District Medical & Health Office, Hyderabad.

The healthcare revenues and EBIT were high in Q1 of FY22 due to Covid-19 related increase in capacity utilization. The Covid-19 pandemic has impacted the healthcare industry in general and our healthcare services business due to travel restrictions on both domestic and international patients till Q3FY22.

The increase in revenues in Q1FY22 due to Covid was offset by the fall in capacity utilization during the remaining three quarters of FY22 and the overall performance of VHPL during the year under review FY 2021-22 saw a slight growth, with a total turnover of Rs. 179.83 crores and EBIT of Rs. 31.09 crores vis-à-vis Rs 161.25 crores of revenue and EBIT of Rs. 19.86 crores in FY 2020-21.

Virinchi Learning Private Limited

We have successfully trained and placed 200 students under NSDC program this year. We are planning to partner NSDC on few more training programs to increase the training potential so that rural youth can make the most out of this program. We have developed training material for 10 courses, of which 7 courses are approved by NSDC and 3 are awaiting approval. There is a dedicated learning portal for the students who enroll in our training programs. We have partnered with reputed hospitals to provide placements to the candidates trained under our NSDC program. Our next year plan is to soon expand the program across Andhra Pradesh and Telangana, attain more number of placement partners, and train as many aspirants as possible.

- ii. The Independent Directors of the Company shall not be entitled to participate in the Stock Option Scheme of the Company, if any, introduced by the Company.

Board member Evaluation

One of the key functions of the Board is to monitor and review the Board evaluation framework. The Board works with the Nomination and Remuneration Committee to lay down the evaluation criteria for the performance of the Chairman, the Board, Board committees and executive / non-executive / independent directors through a peer evaluation, excluding the director being evaluated.

Independent directors have three key roles - Governance, Control and Guidance. Some of the performance indicators based on which the independent directors are evaluated include:

- ✓ The ability to contribute to and monitor our corporate governance practice.
- ✓ The ability to contribute by introducing international best practices to address business challenges and risks
- ✓ Active participation in long term strategic planning
- ✓ Commitment to the fulfillment of a director's obligations and fiduciary responsibilities, these include participation in Board and Committee meetings.
- ✓ To improve the effectiveness of the Board and its Committees, as well as that of each individual director, a formal and rigorous Board review is internally undertaken on an annual basis.

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of VIRINCHI LIMITED ("the Company"), which comprises the Standalone Balance Sheet as at March 31, 2022, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we

have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matter.

Depending on the facts and circumstances of the entity and the Audit, there are no key audit matters to communicate in the Audit Report

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis

for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in: (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to

communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The standalone Balance Sheet, the standalone statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - v. The Management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall directly or indirectly, lend or invest in other persons or entities

identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Funding Parties or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

vi. Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations above (iv) and (v) under sub-clause (i) and (ii) of Rule 11(e) contain any material misstatement.

vii. The company has not declared or paid any dividend during the year.

2. As required by the Companies (Auditor’s Report) Order, 2020 (“the Order”) issued by the Central Government

in terms of Section 143(11) of the Act, we give in “Annexure B” a statement on the matters specified in paragraphs 3 and 4 of the Order.

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of VIRINCHI LIMITED of even date

Report on the Internal Financial Controls over Financial Reporting under Clause (i) Of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of VIRINCHI LIMITED (“the Company”) as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit

to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection

of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of Changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls

system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Standalone Notes and other explanatory information to financial statements

for the year ended March 31, 2022

(Rs. In Lakhs, except share & per share data, unless otherwise stated)

1. Corporate Information

Virinchi Limited, India (“Virinchi”) is an IT Products & Services company offering customized solutions to companies across the globe since 1990. Virinchi is a publicly held company listed on the BSE LTD, one of India’s largest stock exchanges, since the year 2000. Virinchi has developed & retained IP in several software products operating in supply chain management, alternate financial services, however, has had limited success in offering most of the solutions barring the software product for financial services where Virinchi has reached leadership position considering the market share of this niche industry. The Organisation is led by First Generation IIT/IIM Entrepreneurs and operates out of its Corporate Office at Banjara Hills, Hyderabad, India & US Head Quarters at Marlboro, New Jersey.

2. Significant Accounting Policies

(a) Statement of Compliance

The Standalone financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as “Ind AS”) as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time.

(b) Basis of Preparation

These Standalone Financial statements have been prepared in Indian Rupee (₹) which is the Functional Currency of the Company.

These Standalone financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS), under historical cost convention on accrual basis, except for certain Financial Instruments which are measured at Fair Value or amortised cost at the end of each reporting Period, as explained in the Accounting Policies. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company’s normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. As the year-end figures are taken from the source and rounded to the nearest digits, the figures reported for the previous quarters might not always add up to the year-end figures reported in this statement.

The statement of cash flows has been prepared under indirect method.

(c) USE OF ESTIMATES AND JUDGEMENTS:

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures of contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

- i) **Income tax** expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.
- ii) **Current income taxes:** The company recognizes tax liabilities based upon self-assessment as per the tax laws. When the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such final determination is made.
- iii) **Deferred Income taxes:** Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination

Standalone Notes and other explanatory information to financial statements

for the year ended March 31, 2022

(Rs. In Lakhs, except share & per share data, unless otherwise stated)

and affects neither accounting nor taxable profit or loss at the time of the transaction. Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised. Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

iv) Useful Life of property, plant and equipment The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

(d) Revenue Recognition

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

The Company's revenues are derived from sale of services and recognized as per Ind AS 115.

▪ Sale of Services:

Service income is recognized as and when the underlying services are performed. There was no change in the point of recognition of revenue upon adoption of Ind AS 115. Upfront non-refundable payments received under these arrangements continue to be deferred and are recognized over the expected period that related services are to be performed.

▪ Interest income is accrued on, time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

(e) Cost Recognition Cost and expenses are recognised when incurred and have been classified according to their nature. The costs of the Company are broadly categorised into employee benefit expenses, depreciation and amortisation expense, Finance Cost and Administrative and other Operating expenses. Employee benefit expenses include Salaries including bonus, ESOPS cost, incentives and allowances, contributions to provident and other funds and staff welfare expenses. Administrative and Other Operating expenses include Power & Fuel, Fees to external consultants, facility expenses, travel expenses, etc.

(f) Foreign Currency Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the balance sheet date and exchange gains and losses arising on settlement and restatement are recognised in the statement of profit and loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

(g) Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

(h) Cash and Cash Equivalents Cash and cash equivalents comprise balance at bank & Deposits and Cash in hand.

Cash and Cash Equivalents includes as at 31st Mar 2022 and 31st Mar 2021 restricted cash and bank balances of Rs. 982.95 lakhs and Rs.296.44 lakhs respectively. These restrictions are primarily on account of bank balance held as marginal money deposit against guarantees

Bank borrowings for working capital not considered as a part of Cash and Cash Equivalents.

Standalone Notes and other explanatory information to financial statements

for the year ended March 31, 2022

(Rs. In Lakhs, except share & per share data, unless otherwise stated)

Financial Assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in statement of profit and loss.

Financial Liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

- (i) **Provisions and Contingent Liabilities** A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

List of Contingent Liabilities are given below:

1. Corporate guarantee extended to wholly owned subsidiary namely M/s. Virinchi Healthcare Pvt Ltd for an amount of Rs. 88.38 Crores and the outstanding liability as on 31st March 2022 is amounting to Rs. 85.23 crores.
2. Income Tax disputed liability for the Assessment year 2017-2018 amounting to Rs. 572.91 lakhs
3. Income Tax disputed liability for the Assessment year 2017-2018 amounting to Rs. 268.76 lakhs

- (j) **Investments in subsidiaries** Investment in subsidiaries are measured at cost.

- (k) **Property, plant and equipment** : Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight line basis so as to expense the cost less residual value over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual value are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives (Years) are as mentioned below:

Standalone Notes and other explanatory information to financial statements

for the year ended March 31, 2022

(Rs. In Lakhs, except share & per share data, unless otherwise stated)

Buildings	30
Plant and Machinery	15
Furniture & fixtures, Electrical Equipment	10
Vehicles	10
Office equipment	5
Computers	3

Depreciation is not recorded on capital work-in-progress until construction and or installation is complete and the asset is ready for its intended use.

(l) Intangible assets:

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets purchased are measured at cost as of the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Product Development: Salaries and other cost paid to resources working on new products are capitalized as intangible asset under the head "Product Development". Management has estimated life of this product is about 10 years subject to certain improvements to the same product/source code.

Computer Software: The company amortizes Computer software using the straight-line method over a period of 6 years.

(m) Impairment

Financial assets (other than at fair value) The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets are impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

(ii) Non-financial assets

Tangible and intangible assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

(n) Employee benefits

(i) Defined contribution plans

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

Standalone Notes and other explanatory information to financial statements

for the year ended March 31, 2022

(Rs. In Lakhs, except share & per share data, unless otherwise stated)

(ii) Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, Bonus, Earned Leave etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid when there is a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(o) Earnings per share

Basic earnings per share is computed by dividing profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors

(p) Lease :

Current year effect on Lease Accounting:

- (i) Financial Charges on Lease Rs 206.64 lakhs
- (ii) Amortization cost on Right of Use Asset Rs 374.06 lakhs

Independent Auditor's Report

To

The Members of

VIRINCHI LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of VIRINCHI LIMITED ("the Company") and its subsidiaries (the Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (herein after referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2022, the consolidated Profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and other auditors in terms of their reports referred to in "Other Matter" paragraph below, is sufficient and appropriate to

provide a basis for our opinion.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon:

- The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Management's Responsibility for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group is also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are

required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial results/financial information of the entities within the Group and its associates and jointly controlled entities to express an opinion on the consolidated Financial Results. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial results of which we are the independent auditors. For the other entities included in the consolidated Financial Results, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in: (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances,

we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER:

We did not audit the financial statements / financial information of 11 subsidiaries, whose Financial Statements / Financial information reflect Group's share of total assets of Rs. 13,351.05 Lakhs as at 31st March 2022, Group's share of total revenue before elimination of Rs. 7,494.53 Lakhs and Group's share of total net profit/(loss) after tax of Rs. 540.32 Lakhs for the period from 01-04-2021 to 31-03-2022, as considered in the consolidated Financial Statements. These financial statements/financial information of 10 Subsidiary companies have been audited by other Auditors whose reports have furnished to us by the Management and in respect of Ksoft Systems Inc., the financial statements and other financial information have not been Audited which are prepared and submitted to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associates, and our report in terms of subsection (3) of section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associates is based solely on the audit reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by section 143(3) of the Act, based on our audit and the other financial information of subsidiaries, as noted in the 'other matters' paragraph, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors of the company and its subsidiaries, none of the directors of the group companies is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the Auditor's reports of the Company and its subsidiary companies. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the internal financial controls over financial reporting of those companies, for reasons stated therein.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated financial statement does not have pending litigations which would have impact on its consolidated financial position of the group.
 - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long term contracts including derivative contracts.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its subsidiary companies.
 - iv. The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or group companies to or in any other persons or entities, including foreign entities ("Intermediaries"), with the

understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Company or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

The Management has represented that, to the best of its knowledge and belief, no funds have been received by the Company or group companies from any persons or entities, including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company or group companies shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Funding Parties or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- vi. Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) contain any material misstatement.
- vii. The company or group companies has not declared or paid any dividend during the year.

Annexure “A” To the Independent Auditor’s Report

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of VIRINCHI LIMITED of even date)

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2022, we have audited the internal financial controls over financial reporting of VIRINCHI LIMITED (herein after referred to as “Company”) and its subsidiary companies, which is incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company and its subsidiary companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention

and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its subsidiary companies based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and

perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial

controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its Subsidiary Companies.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company and its subsidiary companies, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

(c) Basis of consolidation

- (i) The consolidated financial statements incorporate the financial statements of the Parent Company and its subsidiaries. For this purpose, an entity which is, directly or indirectly, controlled by the Parent Company is treated as subsidiary. The Parent Company together with its subsidiaries constitute the Company. Control exists when the Parent Company, directly or indirectly, has power over the investee, is exposed to variable returns from its involvement with the investee and has the ability to use its power to affect its returns.

Consolidated Notes and other explanatory information to financial statements for the year ended March 31, 2022 (Rs. In Lakhs, except share & per share data, unless otherwise stated)

- (ii) Consolidation of a subsidiary begins when the Parent Company, directly or indirectly, obtains control over the subsidiary and ceases when the Parent Company, directly or indirectly, loses control of the subsidiary. Income and expenses of a subsidiary acquired or disposed off during the year are included in the consolidated Statement of Profit and Loss from the date the Parent Company, directly or indirectly, gains control until the date when the Parent Company, directly or indirectly, ceases to control the subsidiary.
- (iii) The consolidated financial statements of the Company combines financial statements of the Parent Company and its subsidiary line-by-line by adding together the like items of assets, liabilities, income and expenses. All intra-Company assets, liabilities, income, expenses and unrealised profits/losses on intra Company transactions are eliminated on consolidation. The accounting policies of subsidiaries have been harmonised to ensure the consistency with the policies adopted by the Parent Company.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

The consolidated financial statements have been presented to the extent possible, in the same manner as Parent Company's standalone financial statements.

(d) Basis of Preparation

These Financial statements have been prepared in Indian Rupee (₹) which is the Functional Currency of the Group.

These financial statements have been prepared on a historical cost basis, except for certain Financial Instruments which are measured at Fair Value or amortised cost at the end of each reporting Period, as explained in the Accounting Policies. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Group's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Group has considered an operating cycle of 12 months.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. As the year-end figures are taken from the source and rounded to the nearest digits, the figures reported for the previous quarters might not always add up to the year-end figures reported in this statement.

The statement of cash flows has been prepared under indirect method.

(e) USE OF ESTIMATES AND JUDGEMENTS:

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures of contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

- i) **Income tax** expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.
- ii) **Current income taxes:** The Company recognizes tax liabilities based upon self-assessment as per the tax laws. When the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such final determination is made.
- iii) **Deferred Income taxes:** Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination

Consolidated Notes and other explanatory information to financial statements

for the year ended March 31, 2022 (Rs. In Lakhs, except share & per share data, unless otherwise stated)

and affects neither accounting nor taxable profit or loss at the time of the transaction. Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised. Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

iv) Useful Life of property, plant and equipment The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

(f) Revenue Recognition

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Group expects to receive in exchange for those products or services.

The Group's revenues are derived from sale of goods and services.

▪ Sale of Services

Service income is recognized as and when the underlying services are performed. There was no change in the point of recognition of revenue upon adoption of Ind AS 115. Upfront non-refundable payments received under these arrangements continue to be deferred and are recognized over the expected period that related services are to be performed.

▪ Sale of goods

Revenue from sale of goods is recognized where control is transferred to the Company's customers at the time of shipment to or receipt of goods by the customers. There was no change in the point of recognition of revenue upon adoption of Ind AS 115.

▪ Revenue from Healthcare Services:

Revenue from patients is recognized when the company satisfies performance obligation by transferring promised goods and services to patients. Revenue is measured based on the transaction price which is the fair value of the consideration received /receivable net of discount/concession and GST. The Income by way of doctor's Consultancy fees and the consequent liability towards Doctor's Consultation charges are considered as accrued as and when the amounts are finalized and certainty of recovery from patients is established.

Revenue from dietary/pharmacy sales and other associates services is recognized at the point when the goods are sold or services are rendered.

▪ Interest income is accrued on, time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

(g) Cost Recognition Cost and expenses are recognised when incurred and have been classified according to their nature. The costs of the Company are broadly categorised in employee benefit expenses, depreciation and amortisation expense, Finance Cost and Administrative and other Operating expenses. Employee benefit expenses include Salaries, incentives and allowances, contributions to provident and other funds and staff welfare expenses. Administrative and Other Operating expenses include Power & Fuel, Fees to external consultants, facility expenses, travel expenses, etc.

(h) Foreign Currency Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the balance sheet date and exchange gains and losses arising on settlement and restatement are recognised in the statement of profit and loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

Consolidated Notes and other explanatory information to financial statements

for the year ended March 31, 2022 (Rs. In Lakhs, except share & per share data, unless otherwise stated)

- (i) **Financial assets** and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired.

Cash and Cash Equivalents Cash and cash equivalents comprise balance at Bank & Deposits and Cash in hand.

Cash and Cash Equivalents includes as at 31st Mar 2022 and 31st Mar 2021 restricted cash and bank balances of Rs.3092.07 Lakhs and Rs.1042.20 Lakhs respectively. These restrictions are primarily on account of bank balance held as marginal money deposit against guarantees.

Bank borrowings for working capital not considered as a part of Cash and Cash Equivalents.

Financial Assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in statement of profit and loss.

Financial Liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

- (j) **Provisions and Contingent Liabilities** A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

List of Contingent Liabilities are given below:

1. Income tax disputed liability for the assessment year 2017-18 amounting to Rs. 572 Lakhs, Appeal is under process with CIT (A).
2. Income Tax disputed liability for the Assessment year 2017-2018 amounting to Rs. 269 Lakhs, Appeal is under process with CIT (A).

- (k) **Property, plant and equipment** : Property, plant and equipment are stated at cost comprising of purchase price

Consolidated Notes and other explanatory information to financial statements for the year ended March 31, 2022 (Rs. In Lakhs, except share & per share data, unless otherwise stated)

and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight line basis so as to expense the cost less residual value over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual value are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives (Years) are as mentioned below:

Buildings	30
Plant and Machinery	15
Furniture & fixtures, Electrical Equipment	10
Vehicles	10
Office equipment	5
Computers	3

Depreciation is not recorded on capital work-in-progress until construction and installation is complete and the asset is ready for its intended use.

(K) Intangible assets:

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets purchased are measured at cost as of the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Product Development: Salaries and other cost paid to resources working on new products are capitalized as intangible asset under the head "Product Development". Management has estimated life of this product is about 10 years subject to certain improvements to the same product/source code.

Computer Software: The Company amortizes Computer software using the straight-line method over a period of 6 years.

(i) Impairment

Financial assets (other than at fair value) The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets are impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

(ii) Non-financial assets

Tangible and intangible assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

(m) Employee benefits

(i) Defined contribution plans

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

Consolidated Notes and other explanatory information to financial statements

for the year ended March 31, 2022

(Rs. In Lakhs, except share & per share data, unless otherwise stated)

(ii) Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, Bonus, Earned Leave etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid when there is a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(n) Earnings per share

Basic earnings per share are computed by dividing profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

o) Leases:

Current year effect on Lease Accounting:

- (i) Financial Charges on Lease Rs.1207.10 Lakhs
- (ii) Amortization cost on Right of Use Asset Rs. 797.66 Lakhs
