5. PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013 AND LISTING REGULATIONS

In Conformity with the Provisions of Section 102(1) of the Companies Act, 2013 the following Explanatory Statement sets out all the material facts relating to the item of Special Business at item nos. 6 of the Notice dated 04th September 2025 and the same should be taken as forming part of the notice.

Pursuant to the amended provisions of Regulation 24A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"), as notified by SEBI on December 12, 2024, and in accordance with Section 204 of the Companies Act, 2013 ("the Act") and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the appointment of Secretarial Auditors is required to be approved by the shareholders of the Company in Annual General Meeting of the Company, based on the recommendation of the Board of Directors.

The Board of Directors, at its meeting held on 4th September, 2025 approved and recommended the appointment of M/s. Jajodia & Associates, Practicing Company Secretary, a Peer Reviewed Firm of Company Secretaries, as Secretarial Auditors of the Company for a term of five (5) consecutive financial years, commencing from the financial year 2025-26. The Company has received consent letter from M/s. Jajodia & Associates, Practicing Company Secretary, to act as Secretarial Auditor of the Company.

The Secretarial Auditor shall be paid remuneration and reimbursement of out-of-pocket expenses for the purpose of audit as may be approved by the Audit Committee/Board of Directors of the Company. The Audit Committee/ Board is proposed to be authorised to revise the fee, from time to time.

Pursuant to Regulation 36(5) of SEBI Listing Regulations as amended, the credentials and terms of appointment of M/s. Jajodia & Associates are as under:

M/s. Jajodia & Associates, Practicing Company Secretary, is proposed to be appointed for a term of five (5) consecutive years, to conduct the Secretarial Audit of five consecutive financial years commencing from 2025-26 to 2029-30.

The Board of Directors recommends the said resolution, as set out in Item No. 6 of this Notice for your approval.

MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW:

During the financial year 2024-25, the non-banking financial company (NBFC) sector experienced dynamic performance and significant developments. Across the industry, NBFCs continued to play a crucial role in the financial ecosystem by facilitating investment and trading in shares and securities.

The industry saw trends towards digitization and adoption of technology-driven solutions to enhance operational efficiencies and customer experience.

Overall, the NBFC sector in 2024-25 demonstrated resilience and adaptability amidst changing economic conditions, contributing significantly to the broader financial services sector.

OPPORTUNITIES, THREATS, RISKS AND CONCERNS:

Our worry regarding inflation persists. Despite the recent easing of prices, core prices have not moderated yet. Besides, the risk of El Niño and a below-normal monsoon can bring back the pressure on food prices. We expect the fall in prices to be short-lived as demand picks up along with food prices and the uncertainties around prices remain high (hence, the broad range for forecasts over the next 1.5 years). However, the supply side will probably improve and may help the rebounding economy keep prices under check in the long run (with greater certainties). In any case, we expect inflation to remain in the upper range of the RBI's inflation target band over the entire forecast period.

INTERNAL CONTROL SYSTEM:

The Company has maintained an adequate system of Internal Controls. The assets are safeguarded and protected against loss from unauthorized use and disposition. The transactions are authorized, recorded and reported diligently. The management regularly reviews the findings of these internal auditors and takes appropriate steps to implement the suggestions and observations made by them.

OUTLOOK:

According to the IMF's World Economic Outlook (WEO) released in January 2025, global economic growth is projected at 3.2% for 2025 (and 3.1% for 2024), slightly below the historical average of 3.7% (2000–2019). It is then expected to edge up slightly in the medium term.

Emerging markets, particularly in Asia, show resilience, with India projected at 6.5% for 2025 and China projected at 4.1% for 2025 (4.6% for 2024).

Global inflation is expected to decline to 4.4% in 2025 (and 5.8% in 2024) and 4.2% in 2026, with advanced economies reaching central bank targets sooner. The IMF emphasizes the need for a balanced policy mix to ensure price stability and rebuild fiscal buffers, while structural reforms are critical to address demographic shifts and boost medium-term growth.

INDIAN ECONOMY:

India's economy demonstrated strong momentum, with the provisional estimate for full-year GDP growth for FY25 standing at 6.5%, supported by easing monetary policy and lower tax burdens. Over the past five years, growth has remained robust, rising from 6.1% in FY19 to 8.2% in FY24. Export performance has surged, with total exports reaching an all-time high of US\$ 824.9 billion in FY25, marking a 6.01% growth over the previous year's figure of US\$ 778.11 billion in FY24. India's global export ranking improved from 20th to 17th. The Union Budget 2025–26 emphasizes balanced regional development, prioritizing agriculture, MSMEs, infrastructure, and manufacturing, with an 11.1% increase in capital expenditure. Inflation based on the CPI has eased to a provisional 2.10% in June 2025. This marks the lowest retail

inflation rate since January 2019, primarily driven by a decline in food prices. Financial indicators such as GST collections, UPI transactions, FDI inflows, and forex reserves reflect positive economic health. As global conditions stabilize, India is poised for continued economic expansion, building toward its long-term goal of becoming a middle-income economy. The Indian capital market mirrored this economic strength. Equity indices remained buoyant, backed by healthy corporate earnings and expanding retail participation. The debt market too remained vibrant, with active issuances by both institutional and retail investors. Regulatory enhancements from SEBI and RBI further reinforced market integrity and investor confidence.

The Indian financial sector has undergone a major transformation, with NBFCs emerging as key drivers of credit growth and financial inclusion. By addressing gaps left by banks, they have expanded retail lending across personal, vehicle, SME, and microfinance segments. As of 2025, NBFC advances stood at nearly 25% of scheduled commercial banks' credit, with retail loans forming a significant share. While near-term growth will be supported by falling interest rates and improved liquidity, banks are expected to benefit more in the medium term as margins and deposit repricing normalize.

BUSINESS OPERATIONS:

Stressed Asset Management:

Stressed Asset Management business is one of the key focus areas of the Company and INL being an NBFC has a pre-eminent position among the few players present in this industry.

INL purchases stressed assets and portfolios from banks and financial intermediaries and assist in resolution of such non-performing loans. INL has made significant investments in buying stressed asset portfolios, the economic benefits of which will accrue over the next few years.

Investment activity is the major segment in which your Company operates. The company invests in quoted as well as unquoted equity shares and in units of Mutual Funds. This segment has been influenced by the overall economic, regulatory and other global as well as domestic factors. As such we expect long term benefits from the investment in the stressed assets.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF INDIANIVESH LIMITED,

Report on the Audit of Standalone Ind AS Financial Statements

Qualified Opinion

We have audited the standalone Ind AS financial statements of India Nivesh Limited ('the Company'), which comprise the Balance Sheet as at 31st March, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and a summary of the material accounting policies and other explanatory information (hereinafter referred to as "Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2025, its loss, changes in equity and its cash flows for the year ended on that date

Basis for Qualified Opinion

- A. As required by section 138 of the companies Act 2013 internal audit was not done during the year.

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Companies Act, 2013 ("the Act"). Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to be communicated in our report.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the standalone Financial Statements and our auditor's report thereon.

Our opinion on the standalone Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The accompanying standalone Financial Statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Financial Statements, the Management and the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit

procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion through a separate report on the complete set of Financial Statements on whether the company has adequate internal financial controls with reference to Financial Statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone Financial Statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Financial Statements, including the disclosures, and whether the standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure A statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books Except for the possible effect of the

matters described in Basis for Qualified opinion paragraph above and the matters stated in paragraph 2(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

- c) Except for the possible effect of the matters described in Basis for Qualified opinion paragraph above, The financial statements dealt with by this Report are in agreement with the books of account.
- d) Except for the possible effect of the matters described in Basis for Qualified opinion paragraph above, in our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.
- e) The matter described in the "Basis for Qualified Opinion" paragraph above, in our opinion, may not have an adverse effect on the functioning of the Company.
- f) The modifications relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014
- g) On the basis of the written representations received from the directors as on 31st March 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
- h) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B.
- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in the standalone Financial Statements (Refer Note 24) of the standalone Ind AS Financial Statements);
 - ii. The Company did not have any long-term contracts, including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, other than as disclosed in the Note 36(e)(i) to the standalone financial statements, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

ANNEXURE “B” to the Independent Auditor’s Report of even date on the standalone Financial Statements of IndiaNivesh Limited for the year ended 31st March 2025.**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the (“the Act”)**

We have audited the internal financial controls over financial reporting of IndiaNivesh Limited (“the Company”) as of 31st March 2025 in conjunction with our audit of the standalone Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (“the Act”).

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial control system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS Financial Statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS Financial Statements in accordance with generally accepted accounting principles,

and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS Financial Statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanation given to us and based on our audit, the following material weakness has been identified in the operating effectiveness of the Company's internal financial controls over financial reporting as at 31st March, 2025:

The documentation in respect of specific policies and procedures pertaining to internal financial controls over financial reporting are not adequate and needs to be further strengthened. This may potentially result in the risk of overriding of these controls and misstatement in recording of transaction.

A "material weakness" is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's Financial Statements will not be prevented or detected on a timely basis.

In our opinion, except for the possible effect of the material weakness described above on the achievement of the objectives of the control criteria, the Company has maintained, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the material weaknesses identified and reported above in determining the nature, timing and audit tests applied in our audit of the standalone Financial Statements of the Company and these material weaknesses above does not affect our opinion on the standalone Financial Statements of the Company.

Description of the nature and purpose of Other Equity :

Statutory reserve

Statutory Reserve represents the reserve created pursuant to the Reserve Bank of India Act, 1934 (the "RBI Act") and related regulations applicable to those companies. Under the RBI Act, a non-banking finance company is required to transfer an amount not less than 20% of its net profit to a reserve fund before declaring any dividend. Appropriation from this reserve fund is permitted only for the purposes specified by the RBI.

Capital redemption reserve (CRR)

Capital redemption reserve represents reserve created pursuant to Section 55 (2) (c) of the Companies Act, 2013 by transfer of an amount equivalent to nominal value of the Preference shares redeemed. The CRR may be utilised by the Company, in paying up unissued shares of the Company to be issued to the members of the Company as fully paid bonus shares in accordance with the provisions of the Companies Act, 2013.

Securities premium reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

General reserve

The General Reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the General reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the General reserve will not be reclassified subsequently to the statement of profit and loss.

Retained earnings

Retained earnings or accumulated surplus represents total of all profits retained since Company's inception. Retained earnings are credited with current year profits, reduced by losses, if any, dividend payouts, transfers to General reserve or any such other appropriations to specific reserves.

Notes to the Standalone Ind AS financial statements as at 31st March 2025**Note 1 Corporate Information**

IndiaNivesh Limited (CIN L99500MH1931PLC001493) ("the company") is domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The Company is listed in Bombay Stock Exchange and is a registered NBFC. IndiaNivesh Limited is actively involved, as a principal, in investing & financing activity, acquisition and management of Stressed Assets as well as consultancy services.

Note 2 Material Accounting Policies**i Basis of Preparation**

The standalone financial statements ("financial statements") of the Company have been prepared to comply in all material respects with the Indian Accounting Standards ("Ind AS") notified under the Companies (Accounting Standards) Rules, 2015 (as amended from time to time). The financial statements have been prepared under the historical cost convention with the exception of certain financial assets and liabilities which have been measured at fair value, on an accrual basis of accounting and defined benefit plans where assets are measured at fair value. The Company is covered in the definition of Non-Banking Financial Company as defined in Companies (Indian Accounting Standards) (Amendment) Rules, 2016. As per the format prescribed under Division III of Schedule III to the Companies Act, 2013 on 11 October 2018, the Company presents the Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the order of liquidity. A maturity analysis of recovery or settlement of assets and liabilities within 12 months after the reporting date and more than 12 months after the reporting date is presented in the financials.

The Company's financial statements are reported in Indian Rupees, which is also the Company's functional currency.

ii Accounting Estimates

The preparation of the financial statements, in conformity with the Ind AS, requires the management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of financial statements and the results of operation during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates which are recognized in the period in which they are determined.

iii Historical cost convention

These financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities which are measured at fair value (refer accounting policy regarding financial instruments).

1. Financial instruments measured at fair value through profit or loss, if applicable
2. Financial instruments measured at fair value through other comprehensive income, if applicable

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing

circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Deferred tax assets

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

Provision and contingent liability

On an ongoing basis, Company reviews pending cases, claims by third parties and other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the financial statements. Contingencies the likelihood of which is remote are not disclosed in the financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

Allowance for impairment of financial asset:

The Company applies expected credit loss model (ECL) for measurement and recognition of impairment loss. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. At each reporting date, the Company assesses whether the loans have been impaired. The Company is exposed to credit risk when the customer defaults on his contractual obligations. For the computation of ECL, the loan receivables are classified into three stages based on the default and the aging outstanding. The Company recognises life time expected credit loss for trade receivables and has adopted simplified method of computation as per Ind AS 109.

Property, plant and equipment and Intangible Assets

Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Company's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

Determining whether an arrangement contains a lease

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determinesthe lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option.

iv Property, Plant and Equipment

Property, Plant and Equipment are stated at cost of acquisition including attributable interest and finance costs, if any, till the date of acquisition/ installation of the assets less accumulated depreciation and accumulated impairment losses, if any. Subsequent expenditure relating to Property, Plant and Equipment is capitalized only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the Statement of Profit and Loss as incurred. The cost and related accumulated depreciation are eliminated from the financial statements, either on disposal or when retired from active use and the resultant gain or loss are recognized in the Statement of Profit and Loss.

v Depreciation/ Amortization

Depreciation is provided as per the written down value method in accordance with useful life specified in Schedule II to the Companies Act, 2013.

vi Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial Assets

A financial asset is

- (i) a contractual right to receive cash or another financial asset; to exchange financial assets or financial liabilities under potentially favourable conditions;
- (ii) or a contract that will or may be settled in the entity's own equity instruments and a non-derivative for which the entity is or may be obliged to receive a variable number of the entity's own equity instruments; or a derivative that will or may be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the entity's own equity instruments.

Initial Recognition

In the case of financial assets, not recorded at fair value through profit or loss (FVTPL), financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

Financial Assets at Amortized Cost and Effective interest method

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is included in finance income using the Effective Interest Rate (EIR) method. Impairment gains or losses arising on these assets are recognized in the Statement of Profit and Loss.

Financial assets held for trading

The Company classifies financial assets as held for trading when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there evidence of a recent pattern of short-term profit is taking. Held-for-trading assets and liabilities are recorded and measured in the balance sheet at fair value.

Financial asset measured at FVOCI

Unrealised gains or losses on debt instruments measured at FVOCI are recognised in other comprehensive income, and on derecognition of such instrument accumulated gains or losses are recycled to profit and loss statement. Interest income on such instrument is recognised in profit and loss statements as per EIR method.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies the Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on financial assets and credit risk exposures.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. Simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of Profit and Loss.

De-recognition of Financial Assets

The Company de-recognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity.

If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

b) Equity Instruments and Financial Liabilities

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. The Company subsequently measures all equity investments at fair value through profit or loss, unless the management has elected to classify irrevocably some of its strategic equity investments to be measured at FVOCI, when such instruments meet the definition of equity under Ind AS and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Financial Liabilities

A financial liability is

- (i) a contractual obligation to deliver cash or another financial asset to another entity; or to exchange financial instruments under potentially unfavourable conditions;
- (ii) or a contract that will or may be settled in the entity's own equity instruments and is a non-derivative for which the entity is or may be obliged to deliver a variable number of its own equity instruments; or a derivative that will or may be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the entity's own equity instruments.

Initial Recognition

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings and payables as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below

Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative amortization. Amortization is recognized as finance income in the Statement of Profit and Loss.

Financial liabilities at amortized cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognized over the term of the borrowings in the Statement of Profit and Loss.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

De-recognition of Financial Liabilities

Financial liabilities are de-recognized when the obligation specified in the contract is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

c) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis to realize the assets and settle the liabilities simultaneously.

vii Employee Benefits**a Defined Contribution Plan**

Contributions to defined contribution schemes such as provident fund, employees' state insurance, labour welfare are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as Defined Contribution Schemes as the Company has no further obligations beyond the monthly contributions.

b Defined Benefit Plan

The company provides for retirement benefits in the form of Gratuity. Since there are no employees during the year Actuaries gratuity valuation and provision for gratuity is not required. subsequent periods.

c Leave entitlement and compensated absences

Accumulated leave which is expected to be utilized within next twelve months, is treated as short-term employee benefit. Leave entitlement, other than short term compensated absences, are provided based on a actuarial valuation, similar to that of gratuity benefit. Re-measurement, comprising of actuarial gains and losses, in respect of leave entitlement are recognized in the Statement of Profit and Loss in the period in which they occur.

d Short-term Benefits

Short-term employee benefits such as salaries, wages, performance incentives etc. are recognized as expenses at the undiscounted amounts in the Statement of Profit and Loss of the period in which the related service is rendered. Expenses on non-accumulating compensated absences is recognized in the period in which the absences occur.

viii Cash and Cash Equivalents

Cash and cash equivalents include cash in hand and term deposits with bank, with original maturities of 3 months or less.

ix Revenue Recognition

The Company recognises revenue from contracts with customers based on a five step model asset out in Ind AS 115, Revenue from Contracts with Customers, to determine when to recognize revenue and at what amount. Revenue is measured based on the consideration specified in the contract with a customer. Revenue from contracts with customers is recognised when services are provided and it is highly probable that a significant reversal of revenue is not expected to occur. Revenue is measured at fair value of the consideration received or receivable. Revenue is recognised when (or as) the Company satisfies a performance obligation by transferring a promised service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset. When (or as) a performance obligation is satisfied, the Company recognizes as revenue the amount of the transaction price (excluding estimates of variable consideration) that is allocated to that performance obligation.

The Company recognizes revenue from contracts with customers based on a five step model as set out in Ind 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognize revenue when (or as) the Company satisfies a performance obligation

(i) Interest Income

The Company recognises interest income using Effective Interest Rate (EIR) on all financial assets subsequently measured at amortised cost or fair value through other comprehensive income (FVOCI). EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.

The Company recognises interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. In case of credit-impaired financial assets [as set out in note no. 3.4(i)] regarded as 'stage 3', the Company recognises interest income on the amortised cost net of impairment loss of the financial asset at EIR. If the financial asset is no longer credit-impaired [as outlined in note no. 3.4(i)], the Company reverts to calculating interest income on a gross basis.

Delayed payment interest (penal interest) levied on customers for delay in repayments/non payment of contractual cashflows is recognised on realisation.

Interest on financial assets subsequently measured at fair value through profit or loss (FVTPL) is recognised at the contractual rate of interest.

(ii) Dividend Income

Dividend income on equity shares is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

(iii) Fees and Commission

The Company recognises service and administration charges towards rendering of additional services to its loan customers on satisfactory completion of service delivery.

Fees on value added services and products are recognised on rendering of services and products to the customer.

Distribution income is earned by selling of services and products of other entities under distribution arrangements. The income so earned is recognised on successful sales on behalf of other entities subject to there being no significant uncertainty of its recovery.

Foreclosure charges are collected from loan customers for early payment/closure of loan and are recognised on realisation.

(iv) Net gain on fair value changes

Financial assets are subsequently measured at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI), as applicable. The Company recognises gains/losses on fair value change of financial assets measured as FVTPL and realised gains/losses on derecognition of financial asset measured at FVTPL and FVOCI.

(v) Taxes

Incomes are recognised net of the Goods and Services Tax/Service Tax, wherever applicable.

x Income Tax:

Income tax comprises of current and deferred income tax. Income tax is recognized as an expense or income in the Statement of Profit and Loss, except to the extent it relates to items directly recognized in equity or in OCI.

a Current Income Tax

Current income tax is recognized based on the estimated tax liability computed after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

b Deferred Income Tax

Deferred tax is determined by applying the Balance Sheet approach. Deferred tax assets and liabilities are recognized for all deductible temporary differences between the financial statements' carrying amount of existing assets and liabilities and their respective tax base. Deferred tax assets and liabilities are measured using the enacted tax rates or tax rates that are substantively enacted at the Balance Sheet date. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date. Deferred tax assets are only recognized to the extent that it is probable that future

taxable profits will be available against which the temporary differences can be utilized. Such assets are reviewed at each Balance Sheet date to reassess realization.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Minimum Alternative Tax (MAT)

Minimum Alternative Tax ("MAT") credit is recognised as an asset only when and to the extent it is probable that the Company will pay normal income tax during the specified period.

Minimum Alternative Tax (MAT) credit is recognized as an asset only when and to the extent it is probable that the Company will pay normal income tax during the specified period. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as 'MAT Credit Entitlement'. The Company reviews the 'MAT Credit Entitlement' asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will be able to utilize the MAT Credit Entitlement within the period specified under the Income-tax Act, 1961.

xi Leases

The company has adopted Ind AS 116-Leases effective 1st April, 2019, using the modified retrospective method. The company has applied the standard to its leases with the cumulative impact recognised on the date of initial application (1st April, 2019).

The company's lease asset classes primarily consist of leases for Premises. The company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the company has the right to direct the use of the asset.

At the date of commencement of the lease, the company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and leases of low value assets. For these short term and leases of low value assets, the company recognises the lease payments as an operating expense on a straight line basis over the term of the lease.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

xii Impairment of Non-Financial Assets

As at each Balance Sheet date, the Company assesses whether there is an indication that a non-financial asset may be impaired and also whether there is an indication of reversal of impairment loss recognized in the previous periods. If any indication exists, or when annual impairment testing for an asset is required, the Company determines the recoverable amount and impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is determined:

- In case of an individual asset, at the higher of the assets' fair value less cost to sell and value in use; and
- In case of cash generating unit (a group of assets that generates identified, independent cash flows), at the higher of cash generating unit's fair value less cost to sell and value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specified to the asset. In determining fair value less cost to sell, recent market transaction are taken into account. If no such transaction can be identified, an appropriate valuation model is used.

Impairment losses of continuing operations, including impairment on inventories, are recognized in the Statement of Profit and Loss, except for properties previously revalued with the revaluation taken to OCI. For such properties, the impairment is recognized in OCI up to the amount of any previous revaluation.

When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss is reversed through the Statement of Profit and Loss.

xiii Earnings Per Share

Basic earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders of the Company and weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number

of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

xiv Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the Company has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of obligation. Provisions (excluding gratuity and compensated absences) are determined based on management's estimate required to settle the obligation at the Balance Sheet date. In case the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. A contingent liability also arises, in rare cases, where a liability cannot be recognized because it cannot be measured reliably.

Contingent assets are disclosed in the financial statements.

xv Borrowing costs

Borrowing costs consist of interest and other ancillary costs that an entity incurs in connection with the borrowing of funds. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs

All borrowing costs are charged to the Statement of Profit and Loss except:

- a) Borrowing costs directly attributable to the acquisition or construction of assets that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of such assets.
- b) Expenses incurred on raising long term borrowings are amortised using effective interest rate method over the period of borrowings.

Investment Income earned on the temporary investment of funds of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

xvi Expenditures

(i) Finance costs

Borrowing costs on financial liabilities are recognised using the EIR

(ii) Fees and commission expenses

Fees and commission expenses which are not directly linked to the sourcing of financial assets, such as commission/incentive incurred on value added services and products distribution, recovery charges and fees payable for management of portfolio etc., are recognised in the Statement of Profit and Loss on an accrual basis.

(iii) Taxes

Expenses are recognised net of the Goods and Services Tax/Service Tax, except where credit for the input tax is not statutorily permitted

xvii Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker ("CODM"). The Company's operating businesses are organized and managed separately according to the nature of services provided, with each segment representing a strategic business unit that offers different markets. The Company has identified three business segments - Investment & Trading in Shares & Securities, Finance activities & Unallocable. Unallocable item include income, expenses, assets and liabilities which are not allowed to any reportable business segment. The segment revenues, results, assets and liabilities include the respective amounts identifiable to each of the segment and amounts allocated on a reasonable basis. Accordingly, these financial statements are reflective of the information required by the Ind AS 108 "Operating segments".

xviii Provision for Standard Assets and non-performing Assets

The Company makes provision for standard assets and non-performing assets as per Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016. Provision for standard assets in excess of the prudential norms, as estimated by the management, is categorised under Provision for Standard Assets, as General provisions and/or as Gold Price Fluctuation Risk provisions.

Note 25: Segment Reporting

- a) In accordance with the requirements of Ind AS 108 "Operating Segments", the Company's business activities can be classified into three segment namely Investment & Trading in Shares & Securities, Finance Activities and Unallocable. In computing the segment information, certain estimates and assumptions have been made by the management, which have been relied upon. The Chief Operating Decision Maker (CODM) monitors the operating results of its business units separately for making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profits or losses and is measured consistently with operating profits or losses in the financial statements. However, income taxes are managed on a entity as whole basis and are not allocated to operating segments.

Note 28 : Financial Risk Management Framework

In the course of its business, the Company is exposed to certain financial risks namely credit risk, interest risk, currency risk & liquidity risk. The Company's primary focus is to achieve better predictability of financial markets and seek to minimize potential adverse effects on its financial performance.

The financial risks are managed in accordance with the Company's risk management policy which has been approved by its Board of Directors.

Market risk

Market risk is the risk that the fair value of future cash flow of financial instruments will fluctuate due to changes in the market variables such as interest rates, foreign exchange rates and equity prices.

Interest Rate Risk

The company uses a mix of cash and borrowings to manage the liquidity & fund requirements of its day-to-day operations. Further, certain interest bearing liabilities carry variable interest rates.

Interest Rate sensitivity

The sensitivity analysis below have been determined based on exposure to interest rate for non-derivative instruments at the end of reporting period. For floating rate liabilities, analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected. With all other variables held constant, the company's profit before tax is affected through the impact on floating rate borrowings, as follows:

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows:

Particulars	As at 31 March 2025	As at 31 March 2024
Variable-rate instruments:		
Borrowings (other than debt securities)	(1,31,35,771.13)	(1,22,50,252.14)
Loans	84,662.10	16,23,177.66

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's loss before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	As at 31 March 2025	As at 31 March 2024
Increase in basis points	50 basis points	
Effect on loss before tax, increase by	1,30,51,109	1,06,27,074
Decrease in basis points	50 basis points	
Effect on loss before tax, decrease by	1,30,51,109	1,06,27,074

Currency risk:

Currently Company does not have transaction in foreign currencies and hence the company is not exposed to currency risk.

Price risk:

The Company is exposed to equity price risk arising from investments held by the Company and classified in the balance sheet either as fair value through OCI or at fair value through profit or loss. To manage its price risk arising from investment in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company. The majority of the company's equity investments are listed on the Bombay Stock Exchange (BSE) or the National Stock Exchange (NSE) in India.

b) Financial Instruments regularly measured using Fair Value - recurring items

Credit risk

Credit risk is the risk of financial loss arising out of a customer or counterparty failing to meet their repayment obligations to the Company. The Company assesses the credit quality of all financial instruments that are subject to credit risk.

Classification of financial assets under various stages :

The Company classifies its financial assets in three stages having the following characteristics:

Stage 1: unimpaired and without significant increase in credit risk since initial recognition on which a 12 month allowance for ECL is recognised;

Stage 2: a significant increase in credit risk since initial recognition on which a lifetime ECL is recognised;

Stage 3: objective evidence of impairment, and are therefore considered to be in default or otherwise credit impaired on which a lifetime ECL is recognised.

Financial instruments were not subjected to simplified ECL approach under Ind AS 109 'Financial Instruments' and accordingly were not subject to sensitivity of future economic conditions.

Liquidity risk

Liquidity is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. The Company's management is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

Maturity profile of non-derivative financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

The company measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company has not disclosed the fair values for financial instruments for loans, trade receivables, cash and cash equivalents, Trade payables, borrowings and financial liabilities because their carrying amounts are reasonable approximation of their fair values.

(ii) Fair value hierarchy

Fair value hierarchy explains the judgement and estimates made in determining the fair values of the financial instruments that are -

- recognized and measured at fair value
- measured at amortized cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF INDIANIVESH LIMITED,

Report on the Audit of Consolidated Ind AS Financial Statements

Qualified Opinion

We have audited the consolidated Ind AS financial statements of IndiaNivesh Limited ('the Holding Company') and its subsidiaries (Holding company and its subsidiaries together referred to as "the Group") comprising of the Consolidated Balance Sheet as at 31st March, 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and a summary of the material accounting policies and other explanatory information (hereinafter referred to as "Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph of this report, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2025, its loss, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

- a. As required by section 138 of the companies Act 2013 internal audit was not done during the year.
- b. One of the wholly owned subsidiary Company namely IndiaNivesh Shares and Securities Private Limited (INSSPL) has not made impairment testing of goodwill amounting to Rs 20.36 crores under intangible assets as required by Ind AS 36- "Impairment of Assets". In absence of the impairment testing, we are unable to comment on the carrying value of the goodwill and resultant impact of the same in the consolidated financial Statements.

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Companies Act, 2013 ("the Act"). Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Annual Financial Results section of our report. We are independent of the Group and its associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us and other auditors in terms of their reports referred to in "Other Matter" paragraph below, is sufficient and appropriate to provide a basis for our opinion on the annual financial results

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to be communicated in our report.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding companies Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. The Holding Company's Board of Directors are also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and the Board of Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the Companies included in Group are also responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material

if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion through a separate report on the complete set of financial statements on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the consolidated financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, to be included in the Auditors' report, according to the information and explanations given to us, and based on our

audit and on the consideration of the audit reports of the other auditors on separate financial statements and the other financial information of the subsidiary companies, we report, to the extent applicable, that there are no qualifications or adverse remarks by the respective auditors in the CARO reports of the companies incorporated in India and included in the consolidated financial statements.

2) As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements.
- b) in our opinion proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors, except for the matters stated in paragraph of "Basis for Qualified opinion" and paragraph 2(i) (vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
- c) The consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
- d) Except for the possible effect of the matters described in the Basis for Qualified Opinion above, in our opinion, the aforesaid consolidated Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) The matter relating to going concern described under in paragraph a. of Basis for Qualified Opinion paragraph above, in our opinion, may have an adverse effect on the functioning of the Company.
- f) On the basis of the written representations received from the directors of the Holding Company and taken on record by the Board of Directors of the Holding Company and the reports of statutory auditor of subsidiary companies incorporated in India covered under the Act, none of the directors of the Holding Company, is disqualified as at 31 March 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- g) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books except for the matters stated in paragraph 2(i) (vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
- h) With respect to the adequacy of the internal financial controls over financial reporting of the Holding Company and its subsidiaries incorporated in India and the operating effectiveness of such controls, refer our separate report in "Annexure A"; and
- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries:
 - i. The Company has disclosed the impact of pending litigations on its financial position in the financial statements (Refer Note 32) of the Consolidated Financial Statements).
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. (a) respective Managements of the Company and its subsidiary which is company incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or any of such subsidiary to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or any of such subsidiary ("Ultimate Beneficiary") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiary
 - (b) The respective Managements of the Company and its subsidiary which is company incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company or any of such subsidiary from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company or any of such subsidiary shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiary") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiary.
 - (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Company and its subsidiary which is company incorporated in India whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
 - v. Company has not declared dividend during the year hence reporting with respect to section 123 of the Company Act is not applicable.
 - vi. Based on our examination, which included test checks, the Holding Company has used Accounting Software for maintaining its books of accounts which has a feature of recording Audit Trail (Edit Log) facility which operated throughout the year . ANNEXURE “A” to the Independent Auditor’s Report of even date on the consolidated financial statements of IndiaNivesh Limited for the year ended 31st March 2025.**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the (“the Act”)**

In conjunction with our audit of the consolidated Ind AS financial statements of IndiaNivesh Limited (“the Holding Company”) as of and for the year ended 31 March 2025, we have audited the internal financial controls over financial reporting of the Holding Company and its subsidiary companies which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies, which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by these companies incorporated in India considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (“the Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (“the Act”).

Auditor’s Responsibility

Our responsibility is to express an opinion on the Holding Company’s and its subsidiary companies incorporated in India, internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to internal financial control was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness.

Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their report referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Group’s internal financial controls system with reference to consolidated financial statements.

Meaning of Internal Financial Controls with reference to consolidated Financial Reporting

A company's internal financial controls with reference to consolidated financial statement is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls with reference to consolidated Financial Reporting

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanation given to us and taking into consideration the report of the other auditors referred to in the Other Matter Paragraph below, the holding company and its subsidiary companies which are incorporated in India, the following material weakness has been identified in the operating effectiveness of the Company's internal financial controls with reference to consolidated financial statements as at 31st March, 2025:

The documentation in respect of specific policies and procedures pertaining to internal financial controls over financial reporting is not adequate and needs to be further strengthened. This may potentially result in the risk of overriding of these controls and misstatement in recording of transaction.

A "material weakness" is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement with reference to consolidated financial statements will not be prevented or detected on a timely basis.

In our opinion, except for the possible effect of the material weakness described above on the achievement of the objectives of the control criteria, the Company has maintained, in all material respects, an adequate internal financial controls system with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the material weaknesses identified and reported above in determining the nature, timing and audit tests applied in our audit of the consolidated financial statements of the Company and these material weaknesses above does not affect our opinion on the consolidated financial statements of the Company.

Description of the nature and purpose of Other Equity :
Statutory reserve

Statutory Reserve represents the reserve created pursuant to the Reserve Bank of India Act, 1934 (the "RBI Act") and related regulations applicable to those companies. Under the RBI Act, a non-banking finance company is required to transfer an amount not less than 20% of its net profit to a reserve fund before declaring any dividend. Appropriation from this reserve fund is permitted only for the purposes specified by the RBI.

Capital redemption reserve (CRR)

Capital redemption reserve represents reserve created pursuant to Section 55 (2) (c) of the Companies Act, 2013 by transfer of an amount equivalent to nominal value of the Preference shares redeemed. The CRR may be utilised by the Company, in paying up unissued shares of the Company to be issued to the members of the Company as fully paid bonus shares in accordance with the provisions of the Companies Act, 2013.

Securities premium reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

General reserve

The General Reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the General reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the General reserve will not be reclassified subsequently to the statement of profit and loss.

Retained earnings

Retained earnings or accumulated surplus represents total of all profits retained since Company's inception. Retained earnings are credited with current year profits, reduced by losses, if any, dividend payouts, transfers to General reserve or any such other appropriations to specific reserves.

As per the format prescribed under Division III of Schedule III to the Companies Act, 2013 on 11 October 2018, the Company presents the Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity in the order of liquidity. A maturity analysis of recovery or settlement of assets and liabilities within 12 months after the reporting date and more than 12 months after the reporting date is presented in the financials

The Group's financial statements are reported in Indian Rupees, which is also the Group's functional currency.

ii Accounting Estimates

The preparation of the consolidated financial statements, in conformity with the Ind AS, requires the management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of financial statements and the results of operation during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates which are recognized in the period in which they are determined.

iii Historical cost convention

These financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities which are measured at fair value (refer accounting policy regarding financial instruments).

1. Financial instruments measured at fair value through profit or loss, if applicable
2. Financial instruments measured at fair value through other comprehensive income, if applicable

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Deferred tax assets

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Group will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

Provision and contingent liability

On an ongoing basis, Group reviews pending cases, claims by third parties and other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the financial statements. Contingencies the likelihood of which is remote are not disclosed in the financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

Allowance for impairment of financial asset:

The Group applies expected credit loss model (ECL) for measurement and recognition of impairment loss. The Group recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. At each reporting date, the Group assesses whether the loans have been impaired. The Group is exposed to credit risk when the customer defaults on his contractual obligations. For the computation of ECL, the loan receivables are classified into three stages based on the default and the aging outstanding. The Group recognises life time expected credit loss for trade receivables and has adopted simplified method of computation as per Ind AS 109.

Property, plant and equipment and Intangible Assets

Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per schedule II of the Companies Act, 2013 or are based on the Group's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

Determining whether an arrangement contains a lease

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option.

iv Principles for Consolidation

These consolidated financial statements ("CFS") are prepared on the following basis in accordance with Ind AS 110 on "Consolidated Financial Statements" specified under Section 133 of the Act.

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included on a line by line basis in the consolidated financial statements from the date on which controls commences until the date on which control ceases.

Non-controlling interest ("NCI")

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

Loss of Control

When the Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value on the date the control is lost. Any resulting gain or loss is recognized in profit or loss.

Transactions eliminated on Consolidation

The financial statements of the Holding Company and its subsidiary used in the consolidation procedure are drawn upto the same reporting date i.e. 31 March 2020. The financial statements of the Holding Company and its subsidiary are combined on a line by-line basis by adding together the book values of like items of assets, liabilities, income and expenses. Intra-group balances and transactions, and any unrealized income and expenses arising from intragroup transactions, are eliminated. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment. The Group follows uniform accounting policies for like transactions and other events in similar circumstances.

Associate

Associates are the entities over which the Group has significant influence. Investment in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Business Combination

Business combinations are accounted for using the acquisition method. At the acquisition date, identifiable assets acquired and liabilities assumed are measured at fair value. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition date fair values irrespective of the fact that outflow of resources

embodying economic benefits is not probable. The consideration transferred is measured at fair value at acquisition date and includes the fair value of any contingent consideration. However, deferred tax asset or liability and any liability or asset relating to employee benefit arrangements arising from a business combination are measured and recognized in accordance with the requirements of Ind AS 12, Income Taxes and Ind AS 19, Employee Benefits, respectively.

Where the consideration transferred exceeds the fair value of the net identifiable assets acquired and liabilities assumed, the excess is recorded as goodwill. Alternatively, in case of a bargain purchase wherein the consideration transferred is lower than the fair value of the net identifiable assets acquired and liabilities assumed, the Group after assessing fair value of all identified assets and liabilities, record the difference as a gain in other comprehensive income and accumulate the gain in equity as capital reserve. The costs of acquisition excluding those relating to issue of equity or debt securities are charged to the Statement of Profit and Loss in the period in which they are incurred.

In case of business combinations involving entities under common control, the above policy does not apply. Business combinations involving entities under common control are accounted for using the pooling of interests method. The net assets of the transferor entity or business are accounted at their carrying amounts on the date of the acquisition subject to necessary adjustments required to harmonise accounting policies. Any excess or shortfall of the consideration paid over the share capital of transferor entity or business is recognized as capital reserve under equity.

v Property, Plant and Equipment

Property, Plant and Equipment are stated at cost of acquisition including attributable interest and finance costs, if any, till the date of acquisition/ installation of the assets less accumulated depreciation and accumulated impairment losses, if any. Subsequent expenditure relating to Property, Plant and Equipment is capitalized only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the Statement of Profit and Loss as incurred. The cost and related accumulated depreciation are eliminated from the financial statements, either on disposal or when retired from active use and the resultant gain or loss are recognized in the Statement of Profit and Loss.

vi Intangible Assets

Intangible Assets are stated at cost less accumulated amortization and net of impairment if any. An Intangible asset is recognized if it is probable that future expected future economic benefits that are attributable to the asset will flow to the Group and its cost can be measured reliably. Intangible Assets having finite useful life are amortized over the estimated useful life.

vii Depreciation/ Amortization

Depreciation is provided as per the written down value method in accordance with useful life specified in Schedule II to the Companies Act, 2013.

viii Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial Assets

A financial asset is

- (i) a contractual right to receive cash or another financial asset; to exchange financial assets or financial liabilities under potentially favourable conditions;

- (ii) or a contract that will or may be settled in the entity's own equity instruments and a non-derivative for which the entity is or may be obliged to receive a variable number of the entity's own equity instruments; or a derivative that will or may be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the entity's own equity instruments.

Initial Recognition

In the case of financial assets, not recorded at fair value through profit or loss (FVTPL), financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

Financial Assets at Amortized Cost and Effective interest method

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is included in finance income using the Effective Interest Rate (EIR) method. Impairment gains or losses arising on these assets are recognized in the Statement of Profit and Loss.

Financial assets held for trading

The Group classifies financial assets as held for trading when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there evidence of a recent pattern of short-term profit is taking. Held-for-trading assets and liabilities are recorded and measured in the balance sheet at fair value.

Financial asset measured at FVOCI

Financial assets are measured at fair value through OCI if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows and to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in the Statement of Profit and Loss.

Financial asset not measured at amortized cost or at fair value through OCI is carried at FVTPL.

De-recognition of Financial Assets

The Group de-recognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognizes its retained interest in the assets and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

b) Equity Instruments and Financial Liabilities

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by Company are recognised at the proceeds received, net of directly attributable transaction cost.

Financial Liabilities

A financial liability is

- (i) a contractual obligation to deliver cash or another financial asset to another entity; or to exchange financial instruments under potentially unfavourable conditions;
- (ii) or a contract that will or may be settled in the entity's own equity instruments and is a non-derivative for which the entity is or may be obliged to deliver a variable number of its own equity instruments; or a derivative that will or may be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the entity's own equity instruments.

Initial Recognition

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings and payables as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below

Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative amortization. Amortization is recognized as finance income in the Statement of Profit and Loss.

Financial liabilities at amortized cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognized over the term of the borrowings in the Statement of Profit and Loss.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

De-recognition of Financial Liabilities

Financial liabilities are de-recognized when the obligation specified in the contract is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

c) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis to realize the assets and settle the liabilities simultaneously.

ix Employee Benefits**a Defined Contribution Plan**

Contributions to defined contribution schemes such as provident fund, employees' state insurance, labour welfare are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as Defined Contribution Schemes as the Group has no further obligations beyond the monthly contributions.

b Defined Benefit Plan

The Group also provides for gratuity which is a defined benefit plan, the liabilities of which is determined based on valuations, as at the balance sheet date, made by an independent actuary using the projected unit credit method. Re-measurement, comprising of actuarial gains and losses, in respect of gratuity are recognized in the OCI, in the period in which they occur. Re-measurement recognized in OCI are not reclassified to the Statement of Profit and Loss in subsequent periods. Past service cost is recognized in the Statement of Profit and Loss in the year of plan amendment or curtailment. The classification of the Group's obligation into current and non-current is as per the actuarial valuation report.

c Leave entitlement and compensated absences

Accumulated leave which is expected to be utilized within next twelve months, is treated as short-term employee benefit. Leave entitlement, other than short term compensated absences, are provided based on a actuarial valuation, similar to that of gratuity benefit. Re-measurement, comprising of actuarial gains and losses, in respect of leave entitlement are recognized in the Statement of Profit and Loss in the period in which they occur.

d Short-term Benefits

Short-term employee benefits such as salaries, wages, performance incentives etc. are recognized as expenses at the undiscounted amounts in the Statement of Profit and Loss of the period in which the related service is rendered. Expenses on non-accumulating compensated absences is recognized in the period in which the absences occur.

e Termination benefits

Termination benefits are recognized as an expense as and when incurred.

x Cash and Cash Equivalents

Cash and cash equivalents include cash in hand and term deposits with bank, with original maturities of 3 months or less.

xi Revenue Recognition

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind AS.

The Group recognizes revenue from contracts with customers based on a five step model as set out in Ind 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognize revenue when (or as) the Group satisfies a performance obligation

(i) Interest Income

The Group recognises interest income using Effective Interest Rate (EIR) on all financial assets subsequently measured at amortised cost or fair value through other comprehensive income (FVOCI). EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.

The Group recognises interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. In case of credit-impaired financial assets [as set out in note no. 3.4(i)] regarded as 'stage 3', the Group recognises interest income on the amortised cost net of impairment loss of the financial asset at EIR. If the financial asset

is no longer credit-impaired [as outlined in note no. 3.4(i)], the Group reverts to calculating interest income on a gross basis.

Delayed payment interest (penal interest) levied on customers for delay in repayments/non payment of contractual cashflows is recognised on realisation.

Interest on financial assets subsequently measured at fair value through profit or loss (FVTPL) is recognised at the contractual rate of interest.

(ii) Dividend Income

Dividend income on equity shares is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

(iii) Other Revenue from Operations

The Group recognises revenue from contracts with customers (other than financial assets to which Ind AS 109 'Financial Instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 'Revenue from contracts with customers'. The Group identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognises revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

(iv) Fees and Commission

The Group recognises service and administration charges towards rendering of additional services to its loan customers on satisfactory completion of service delivery.

Fees on value added services and products are recognised on rendering of services and products to the customer.

Distribution income is earned by selling of services and products of other entities under distribution arrangements. The income so earned is recognised on successful sales on behalf of other entities subject to there being no significant uncertainty of its recovery.

Foreclosure charges are collected from loan customers for early payment/closure of loan and are recognised on realisation.

(v) Net gain on fair value changes

Financial assets are subsequently measured at fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI), as applicable. The Group recognises gains/losses on fair value change of financial assets measured as FVTPL and realised gains/losses on derecognition of financial asset measured at FVTPL and FVOCI.

(vi) Recoveries of financial assets written off

The Group recognises income on recoveries of financial assets written off on realisation or when the right to receive the same without any uncertainties of recovery is established.

(vii) Taxes

Incomes are recognised net of the Goods and Services Tax/Service Tax, wherever applicable.

xii Income Tax:

Income tax comprises of current and deferred income tax. Income tax is recognized as an expense or income in the Statement of Profit and Loss, except to the extent it relates to items directly recognized in equity or in OCI.

a Current Income Tax

Current income tax is recognized based on the estimated tax liability computed after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

b Deferred Income Tax

Deferred tax is determined by applying the Balance Sheet approach. Deferred tax assets and liabilities are recognized for all deductible temporary differences between the financial statements' carrying amount of existing assets and liabilities and their respective tax base. Deferred tax assets and liabilities are measured using the enacted tax rates or tax rates that are substantively enacted at the Balance Sheet date. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date. Deferred tax assets are only recognized to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized. Such assets are reviewed at each Balance Sheet date to reassess realization.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Minimum Alternative Tax (MAT)

Minimum Alternative Tax ("MAT") credit is recognised as an asset only when and to the extent it is probable that the Group will pay normal income tax during the specified period.

Minimum Alternative Tax (MAT) credit is recognized as an asset only when and to the extent it is probable that the Group will pay normal income tax during the specified period. In the year in which the Group recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as 'MAT Credit Entitlement'. The Group reviews the 'MAT Credit Entitlement' asset at each reporting date and writes down the asset to the extent the Group does not have convincing evidence that it will be able to utilize the MAT Credit Entitlement within the period specified under the Income-tax Act, 1961.

xiii Leases

The Group has adopted Ind AS 116-Leases effective 1st April, 2019, using the modified retrospective method. The Group has applied the standard to its leases with the cumulative impact recognised on the date of initial application (1st April, 2019).

The Group's lease asset classes primarily consist of leases for Premises. The Group assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether

- (i) the contract involves the use of an identified asset
- (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and leases of low value assets. For these short term and leases of low value assets, the Group recognises the lease payments as an operating expense on a straight line basis over the term of the lease.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

xiv Impairment of Financial and Non-Financial Assets

a. Impairment of Financial Assets

The measurement of impairment losses on loan assets and commitments, requires judgement, in estimating the amount and timing of future cash flows and recoverability of collateral values while determining the impairment losses and assessing a significant increase in credit risk.

The Group's Expected Credit Loss (ECL) calculation is the output of a complex model with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL model that are considered accounting judgements and estimates include

- The Group's criteria for assessing if there has been a significant increase in credit risk
- Development of ECL model, including the various formulae and the choice of inputs
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL model

b. Impairment of Non-Financial Assets

As at each Balance Sheet date, the Group assesses whether there is an indication that a non-financial asset may be impaired and also whether there is an indication of reversal of impairment loss recognized in the previous periods. If any indication exists, or when annual impairment testing for an asset is required, the Group determines the recoverable amount and impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is determined:

- In case of an individual asset, at the higher of the assets' fair value less cost to sell and value in use; and
- In case of cash generating unit (a group of assets that generates identified, independent cash flows), at the higher of cash generating unit's fair value less cost to sell and value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specified to the asset. In determining fair value less cost to sell, recent market transaction are taken into account. If no such transaction can be identified, an appropriate valuation model is used.

Impairment losses of continuing operations, including impairment on inventories, are recognized in the Statement of Profit and Loss, except for properties previously revalued with the revaluation taken to OCI. For such properties, the impairment is recognized in OCI up to the amount of any previous revaluation.

When the Group considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss is reversed through the Statement of Profit and Loss.

xv Earnings Per Share

Basic earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders by weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

xvi Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the Group has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of obligation. Provisions (excluding gratuity and compensated absences) are determined based on management's estimate required to settle the obligation at the Balance Sheet date. In case the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. A contingent liability also arises, in rare cases, where a liability cannot be recognized because it cannot be measured reliably.

Contingent assets are disclosed in the financial statements.

xvii Borrowing costs

Borrowing costs consist of interest and other ancillary costs that an entity incurs in connection with the borrowing of funds. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs

All borrowing costs are charged to the Statement of Profit and Loss except:

- a) Borrowing costs directly attributable to the acquisition or construction of assets that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of such assets.
- b) Expenses incurred on raising long term borrowings are amortised using effective interest rate method over the period of borrowings.

Investment Income earned on the temporary investment of funds of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

xvii Expenditures**(i) Finance costs**

Borrowing costs on financial liabilities are recognised using the EIR

(ii) Fees and commission expenses

Fees and commission expenses which are not directly linked to the sourcing of financial assets, such as commission/incentive incurred on value added services and products distribution, recovery charges and fees payable for management of portfolio etc., are recognised in the Statement of Profit and Loss on an accrual basis.

(iii) Taxes

Expenses are recognised net of the Goods and Services Tax/Service Tax, except where credit for the input tax is not statutorily permitted

xix Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker ("CODM"). The Group's operating businesses are organized and managed separately according to the nature of services provided, with each segment representing a strategic business unit that offers different markets. The Group has identified three business segments - Investment & Trading in Shares & Securities, Finance activities & Other services and Broking & Other services. Unallocable item include income, expenses, assets and liabilities which are not allowed to any reportable business segment. The segment revenues, results, assets and liabilities include the respective amounts identifiable to each of the segment and amounts allocated on a reasonable basis. Accordingly, these financial statements are reflective of the information required by the Ind AS 108 "Operating segments".

xx Provision for Standard Assets and non-performing Assets

The Group makes provision for standard assets and non-performing assets as per Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016. Provision for standard assets in excess of the prudential norms, as estimated by the management, is categorised under Provision for Standard Assets, as General provisions.

Note 33 : Segment Reporting
a. Basis of preparation

The Chief Operating Decision Maker monitors the operating results of the business segment separately for the purpose of making decision about resource allocation and performance assessment. Segment performance evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements. The operating segments have been identified considering the nature of services, the differing risks and returns, the organization structure and the internal financial reporting system.

The segment reporting of the Group has been prepared in accordance with Ind AS - 108, "Operating Segment" specified under the section 133 of the Companies Act 2013 (the Act) read with Companies (Indian Accounting Standards) Rule 2015 (as amended from time to time) and other relevant provision of the Act. For management purposes, the Group's business activities can be classified into three segments namely Investment & Trading in Shares & Securities, Finance and Other Activities and Broking and Other Activities. The information about all the segments is given.

Note 34 : EMPLOYEE BENEFITS

(All amounts in Rs. hundreds, unless otherwise stated)

A) General description of defined benefit plans
Gratuity

The Group provides for the gratuity, a defined benefit retirement plan covering qualifying employees. The plan provides for lump sum payments to employees upon death while in employment or on separation from employment after serving for the stipulated period mentioned under The Payment of Gratuity Act, 1972. The Group makes annual contribution to the Gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity fund.

Post retirement medical

The Group provides for post retirement medical cover to select grade of employees to cover the retiring employee and their spouse upto a specified age through mediclaim policy on which the premiums are paid by the Group. The eligibility of the employee for the benefit as well as the amount of medical cover purchased is determined by the grade of the employee at the time of retirement.

Through its defined benefit plans the Group is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility -

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets underperform compared to this yield, this will create or increase a deficit. The defined benefit plans may hold equity type assets, which may carry volatility and associated risk.

Change in bond yields -

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plan's investment in debt instruments.

Inflation risk -

The present value of some of the defined benefit plan obligations are calculated with reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability. The post retirement medical benefit obligation is sensitive to medical inflation and accordingly, an increase in medical inflation rate would increase the plan's liability.

Life expectancy -

The present value of defined benefit plan obligation is calculated by reference to the best estimate of the mortality of plan participants, both during and after the employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Details of defined benefit plans as per actuarial valuation are as follows:

Note 36 : Fair Value Measurement

The Group measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group has not disclosed the fair values for financial instruments for loans, other financial assets, trade receivables, cash and cash equivalents and bank balances other than cash and cash equivalents, Borrowings, Trade payables and other financial liabilities because their carrying amounts are reasonable approximation of their fair values.

(ii) Fair value hierarchy

Fair value hierarchy explains the judgement and estimates made in determining the fair values of the financial instruments that are -

a) recognized and measured at fair value

b) measured at amortized cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities

Note 37 : Financial Risk Management Framework

Whilst risk is inherent in the Group's activities, it is managed through an integrated risk management framework, including ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Group's continuing profitability and each individual within the Group is accountable for the risk exposures relating to his or her responsibilities. The Group is exposed to credit risk, liquidity risk, interest rate risk and market risk. It is also subject to various operating and business risks. The Group also has a system of internal controls to reduce the residual risk in each of these categories and the effectiveness of these controls is assessed periodically.

The financial risks are managed in accordance with the Group's risk management policy which has been approved by its Board of Directors.

Market risk

Market risk is the risk that the fair value of future cash flow of financial instruments will fluctuate due to changes in the market variables such as interest rates, foreign exchange rates and equity prices.

Interest Rate Risk

The Group uses a mix of cash and borrowings to manage the liquidity & fund requirements of its day-to-day operations. Further, certain interest bearing liabilities carry variable interest rates.

Interest Rate sensitivity

The sensitivity analysis below have been determined based on exposure to interest rate for non-derivative instruments at the end of reporting period. For floating rate liabilities, analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

The interest rate profile of the Group's interest-bearing financial instruments as reported to the management of the Group is as follows:

Particulars	As at 31 March 2025	As at 31 March 2024
Variable-rate instruments:		
Financial liabilities (Borrowings)	1,31,59,702.88	1,23,07,795.81
Financial assets (Loans)	(24,668.63)	(15,70,423.71)

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's loss before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	As at 31 March 2025	As at 31 March 2024
Increase in basis points	50 basis points	
Effect on loss before tax, increase by	(65,675.17)	(53,686.86)
Decrease in basis points	50 basis points	
Effect on loss before tax, decrease by	(65,675.17)	(53,686.86)

Currency risk:

Currently Group does not have transaction in foreign currencies and hence the company is not exposed to currency risk.

Price risk:

The Group is exposed to equity price risk arising from investments held by the Group and classified in the balance sheet either as fair value through OCI or at fair value through profit or loss. To manage its price risk arising from investment in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group. The majority of the Group's equity investments are listed on the Bombay Stock Exchange (BSE) or the National Stock Exchange (NSE) in India.

b) Financial Instruments regularly measured using Fair Value - recurring items

Financial assets/ financial liabilities	Fair Value			
	Financial assets/ Financial liabilities	Category	As at 31 March 2025	As at 31 March 2024
Investment in equity instruments- Quoted	Financial assets	FVTOCI	19,667.47	15,781.91

Securities held for trading - Quoted	Financial assets	FVTPL	60.39	7,50,311.07
			19,728	7,66,093

The table below summaries the impact of increases/decreases of the index on the Group's equity and profit for the period. The analysis is based on the assumption that the equity/index had increased by 1% or decreased by 1% with all other variables held constant, and that all the company's equity instruments moved in line with the index.

Other components of equity would increase/decrease as a result of gain/losses on equity securities classified as fair value through other comprehensive income.

Credit risk

Credit risk is the risk of financial loss arising out of a customer or counterparty failing to meet their repayment obligations to the Group. The Group assesses the credit quality of all financial instruments that are subject to credit risk.

Classification of financial assets under various stages :

The Group classifies its financial assets in three stages having the following characteristics:

Stage 1: unimpaired and without significant increase in credit risk since initial recognition on which a 12 month allowance for ECL is recognised;

Stage 2: a significant increase in credit risk since initial recognition on which a lifetime ECL is recognised;

Stage 3: objective evidence of impairment, and are therefore considered to be in default or otherwise credit impaired on which a lifetime ECL is recognised.

Financial instruments were not subjected to simplified ECL approach under Ind AS 109 'Financial Instruments' and accordingly were not subject to sensitivity of future economic conditions.

Liquidity risk

Liquidity is defined as the risk that the Group will not be able to settle or meet its obligations on time or at a reasonable price. The Group's management is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Group's net liquidity position through rolling forecasts on the basis of expected cash flows.

Maturity profile of non-derivative financial liabilities

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows

Note 38 : Capital Management

The Group's objectives when managing capital are to :

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the Group is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. We consider the amount of capital in proportion to risk and manage the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets in order to maintain or adjust the capital structure.

The Group determines the amount of capital required on the basis of operations, capital expenditure and strategic investment plans. The capital structure is monitored on the basis of net debt to equity and maturity profile of overall debt portfolio.

For the purpose of the Group's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Group. The Group includes all interest bearing borrowings less cash and cash equivalents in order to compute its net debt.
