Growth was driven by strong performance across all three verticals. The Formulation facility at Gagillapur continued to scale-up production which improved capacity utilization. The Company expects a majority of customer approvals to be in place in the second half of the fiscal year.

In addition to strong revenue growth, the Company's profitability margins strengthened compared to the corresponding quarter in the previous financial year. The EBITDA margin increased by 58 basis points to 12.8%, while the PAT margin increased by 108 basis points to 5.7%. Profitability numbers are also significantly higher than the YTDFY13 EBITDA and PAT margins. The EBITDA margin has grown 241 basis points to 13.2% while PAT has grown 209 basis points to 6.0%, respectively.

"We are focusing on higher capacity utilization to achieve higher revenues and better margins which resulted in 36% growth in the top-line and 108% growth in the bottom-line. In addition to strong revenue growth, our profitability margins are increasing and we've nearly achieved our FY13 PAT in the first half of this year. We expect our margins to further improve as our sales shift more to formulations and capacity utilization increases. Granules will continue to focus on improving manufacturing efficiency so we can build on our competitive advantage in order to offer unparalleled value for our customers" said Krishna Prasad, Managing Director of Granules India.
