TCS' Innovative Industry Solutions Win Two IoT Global Awards

Tata Consultancy Services' TCS DigiFleet™ and TCS Smart Store Solutions Were Recognized for their Scalability and Innovativeness

LONDON | MUMBAI, January 10, 2022: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS) won two awards at the [Internet of Things \(IoT\) Global Awards 2021](#) for TCS DigiFleet™ in the Automotive, Transport and Travel category and TCS Smart Store solutions in the Retail, Marketing and Hospitality category.

The IoT Global Awards honor the most innovative companies, products, and individual talent. TCS' solutions won the awards for their scalability, innovativeness, as well as business return on investment delivered to customers.

TCS' products and solutions are built on its Bringing Life to Things™ IoT business framework that leverages machine learning and artificial intelligence technologies to help enterprises address critical business challenges and help create a sustainable and equitable world.

TCS DigiFleet is an IoT-enabled SaaS that assimilates telematics and environmental data to provide real-time impactful business insights about fleet and freights. It enhances visibility across the supply chain, improves operational efficiency of their logistics on the move, as well as helps them achieve their sustainability goals. The solution's modules include:

- a. dPulse: Increases fleet reliability and utilization, helping reduce fuel and maintenance costs and driving sustainability strategies.
- b. dMove: Predicts supply chain disruptions in a multi-modal, multi-carrier network. It provides insights and unified visibility on route optimization, parcel condition and ETA prediction.

TCS Smart Store is an AI-based image and video analytics solution that leverages sensor fusion-based infrastructure and contextual algorithms to provide real-time alerts and analytics. The solution enables smart and self-aware store operations and elevates in-store customer experience. Use cases include retail shrinkage, AI-driven stock replenishment, and AI-based sales improvement.

"Our IoT solutions built our Bringing Life to Things framework combine physical context with digital intelligence to unlock exponential business value. TCS DigiFleet makes supply chain operations more resilient and TCS Smart Store elevates instore experience for customers in new normal. We are pleased to win two IoT Global Awards 2021 for these innovative solutions," said Regu Ayyaswamy, Global Head, IoT & Digital Engineering, TCS.

TCS offers a comprehensive portfolio of IoT services spanning strategy and consulting services, implementation, technical and business integration services, and post deployment managed services. With its deep contextual knowledge and engineering expertise, TCS supports enterprise-wide transformations across industries like manufacturing, consumer packaged goods, retail, energy, utilities, transportation, logistics, healthcare, hi-tech and telecom.

About Tata Consultancy Services (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model,

recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 528,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US \$22.2 billion in the fiscal year ended March 31, 2021, and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
