MFDs- Diversity bring Sustainability & Stability

Deconcentrating The MFDs share

Value proposition offered to MFDs helps increase the MFDs pie every year with existing base stable.

The growing MFD base helps us to deconcentrate the overall MFD structure with top 100 MFDs contributing just 14.59% to AUM.

As of 30th September 2025

MFDs Combining with Insurance

A large MFD base & a multi-product basket platform helps MFDs to cross-sell insurance. Of the 35,200 MFDs, 13,305 MFDs are also POSPs who sell insurance products.

The large MFD base presents significant opportunities to increase the POSP base and to cross-sell insurance products to their existing retail investors.

Getting growth from uncharted and underpenetrated markets

- Prudent is one of the very few national distributors (non-bank) with a presence in the B-30 market catering to retail investors. This geography is under penetrated and provides an opportunity to grow.
- 21% of Prudent's AUM is in B-30 markets.
- Since FY18, it has opened branches in 66 locations. 44 of these are in B-30 markets.
- The mix of the physical and digital model allows it to selectively target markets for expansion, especially in Tier 2 or Tier 3 cities.

A SIP Led Equity AUM Bringing Stability to Net Flows

- As on Mar-25, AUM from the mutual fund business stood at Rs. 1,03,515 Cr with 96.7% of total AUM being equity-oriented.
- Since individual investors tend to stay invested for longer periods and prefer equity-oriented schemes, Prudent banks on them for a steady inflow of funds through SIP accounts.
- Historically, net sales number closely trails our gross sales from SIPs. Hence, SIPs provide stability to net sales.
- Monthly SIP flow as of March-25 is Rs 981 crore. Annualizing this, we are expecting gross flows from SIPs of Rs 11750 crores in FY26 which is 11% of the FY26 opening AUM.
