VISION

“GP Petroleums Ltd., will be the preferred partners, for providing world class Lubricants & Services, by applying technology and creating innovative Business Solutions”.

MISSION

To be the most sought after partner for lubricants & value added services for our Customers.

•
To cater to the growing needs of Automotive, Industrial, Marine and Process oil markets through technology and compliance.

•
To ensure continuous improvement in operating efficiency and innovate, as we move ‘Towards New Horizons’.

Dear Shareholders,

This has been a historic year where our country took centre stage and the entire world watched as the people of India voted for their new leaders. We witnessed NDA winning the 2019 elections in emphatic fashion clearly indicating the pro incumbency mood of the nation. The dance of democracy conducted at the end of every five years, is representative of India's incredible diversity in terms of its languages, religions, castes, creed, regions, urban and rural disparities.

India's growth story

The Indian economy continues to grow and surpass the global economic growth which is at a steady 3 percent. Our country's GDP is estimated to grow by 7.5% in 2020, making us one of the world's fastest-growing major economy. The growth prospects for advanced economies are likely to plateau somewhat over the medium term, sustained by an increase in the relative size of economies such as China and India, which are projected to enjoy robust growth. This stable global growth is expected to lead to higher demand for oil and lubricants.

India's growth rate is a result of revolutionary policy changes that have focused on modernizing the country, developing infrastructure, increasing jobs as well as creating a conducive business environment. Economic growth brings along increased prosperity and improved standards of living thereby providing the much needed stimulus to sales of vehicles and augments industrial consumption.

It would be pertinent to point out that your company is well placed to cater to the growing lubricants demand – both automotive and industrial resulting from higher vehicular and industrial equipment sales. Furthermore, we have successfully catered to the growing needs of automotive, industrial, marine and process oil markets through implementation of cutting-edge technologies and competent compliance systems.

External Influence on Business

Last year global crude oil prices showed movements in both the directions within the year. In October 2018, global oil prices touched \$86.74 a barrel — the highest since 2014. However, crude oil prices are expected to average out in 2019 and further decrease in 2020, according to World Bank.

The trade war between the US and China, along with uncertainties arising from the US sanctions on Iran would keep crude prices under control, which would in turn boost India's growth.

The union budget 2019 had a huge focus on creating a favourable platform to increase use of EV's with multiple exemptions and deductions in duty's and taxes. However, it would be pertinent to point out that the need for lubricants would still remain significant for the next few decades as understood from the various research agencies in the oil & gas as well as from automotive OEMs.

Last year at a glance

From its inception in India, Brand Repsol continues to deliver beyond expectations and is on its double digit growth trajectory. Your company won the 'Greatest sales growth award for Repsol Lubricants' at the Global EMAI Awards 2017 held in Madrid, Spain, in April 2018. We recorded the highest growth rate for Repsol Lubricants as compared to all the other markets that the Spanish oil major is present in. For the calendar 2018, your company was also awarded the HSE (Health, Safety & Environment) award by REPSOL Spain during their annual event. This was based on the quick response your company took to improve the safety standards in our operations and also for building safety awareness among the two wheeler riders in India and partnering with social organisations and the local police. Also a unique REPSOL branded helmet was distributed through promotional events.

The journey of Repsol started with the motor cycle range of products and today in its third year, it has synthetic range of lubricants for motor cycle, passenger cars and premium mineral for commercial vehicle. The Brand has been well accepted in the Indian market and widely available across country through our channel network. Our objective is to make it available in each & every city.

The year 2018 also marked the milestone of signing an extended agreement with REPSOL Spain, licencing us for distribution of REPSOL lubricants in the neighbouring countries of Sri Lanka, Nepal and Bhutan for the products manufactured in our plant at Vasai, Mumbai.

We have invested in resources to step up our technical capability in QC and R&D and warehouse management system (WMS). We are also pleased to inform that your company is fully prepared to meet the challenges of introduction of Bharat VI compliant lubricants.

In another milestone, we forayed into international territories by signing an agreement with MAG LUBE LLC, a leading manufacturer of lubricants in the Middle East, to manufacture and market IPOL lubricants across the world. The current focus would be in the Middle East, Africa and Far East markets mainly in the automotive and industrial lubricant space.

Your company also ventured into new horizons by launching new products to capture a growing business in a different industry segment. We launched Diesel Exhaust Fluid, which we have branded as IPOL Clearblue is targeting all the new generation commercial vehicles which have to

confirm to the Bharat VI norms. We have also launched IPOL Engine coolant (Antifreeze) to bring more value added products to our automotive portfolio. The B2B business has also forayed into Horticultural Orchard Spray Oil, by getting into a marketing arrangement for co-branding as IPOL- SPECOL and was launched during the winter of 2018. These oils are mainly be marketed in the state of Himachal Pradesh and J&K in India as they are the sole producers of apple in our country.

Company Values

Your company imbibes values that guide us to bring about positive transformation and augment inclusive growth. As a responsible corporate citizen, our policy is to nurture a culture that imbibes the attributes of quality management and environment friendliness. This policy, along with the 'Clean and Green Policy' forms an integral part of the Company's culture and is communicated through established channels of communication.

We would like to thank all our shareholders for their continuing support and look forward to delivering another year of value adding growth.

With my best wishes,

Manan Goel
Chairman

DIRECTORS' REPORT

Dear Shareholders,

The Directors have pleasure in presenting the 36th Annual Report of GP Petroleums Limited and Audited Financial Statements for the financial year ended March 31, 2019 together with the Auditors Report.

Financial Highlights

The summarized Financial Performance of the Company are as follows:

(₹ in Lakhs)

Particular's	2018-2019	2017-2018
Sales/ Income from Operations	60,657.34	53,200.91
Profit before Interest, Depreciation and Tax (EBIDTA)	3,530.34	3,518.89
Less: Interest and Finance Charges	667.35	703.77
Depreciation	318.45	312.23
Profit before Taxes	2,544.54	2,502.89
Less: Provision for Tax	919.55	866.64
Net Profit after Tax	1,624.99	1,636.25
Other Comprehensive Income before Tax	54.59	46.07
Less: Income Tax relating to above	19.08	16.26
Other Comprehensive Income after Tax	35.51	29.81
Total Comprehensive Income for the Year after Tax	1,660.50	1,666.05

Performance Highlights

Your Company has continued its growth path as revenue during the year 2018-19 increased by 14% to ₹ 606.57 Cr as against ₹ 532 Cr over the previous financial year. Net Profit before tax during the year 2018-19 increased by 1.7% as compared to the previous financial year.

As a result of the negligible generic industry growth the market witnessed intensified competition among the existing market players for a greater share. Nonetheless, your Company could achieve a satisfactory growth in sales revenue in spite of drop in volumes mainly due to improved sales realization and better product mix. On the other hand, though the rising input costs and volatility in the market led to greater pressure on margins, your Company's effective business strategy helped in posting such satisfactory result.

Dividend

The Board of Directors of your Company have recommended final dividend of ₹ 0.75 per equity share (15% on equity shares of ₹ 5/- each) for the year 2018-2019. Accordingly, disclosure for dividend amount of ₹ 382.38 Lakhs and tax thereon of ₹ 77.84 Lakhs has been made in the financial statements as per the provisions of IND AS. The final dividend, subject to approval of members, will be paid within statutory period, to those members whose names appear in the register of members, as on the record date.

Transfer of amounts and shares to Investor Education and Protection Fund

Pursuant to the provisions of Section 124 of the Companies Act, 2013 and Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Amendment Rules, 2017, read with all relevant notifications as issued by the Ministry of Corporate Affairs from time to time all shares in respect of which dividend has remained unpaid or unclaimed for a period of seven consecutive years have been transferred by the Company, within the stipulated due date, to the Investor Education and Protection Fund (IEPF).

A list of shareholders along with their folio number or DP. ID. and Client ID., who have not claimed their dividends for the last seven consecutive years i.e. 2011- 12 to 2017-18 and whose shares are therefore liable for transfer to the IEPF Demat account, has been displayed on the website of the Company at www.gppetroleums.co.in besides sending individual communication to the concerned shareholders and issuance of public notice. The Company has uploaded the details of unpaid and unclaimed amounts lying with the Company as on September 21, 2018 (date of last AGM) on the Company's website www.gppetroleums.co.in

Members are requested to ensure that they claim the dividends and shares referred above, before they are transferred to the said Fund. The shareholders are encouraged to verify their records and claim their dividends of all the earlier seven years, if not claimed.

Disclosure regarding Transfer of Reserve

During the year, under review, no amount was transferred to General Reserve.

Nature of Business

GP Petroleums Limited is engaged in the production of Automotive lubricants, Industrial Lubricants & Specialties, Process oils & Specialities. Under the Automotive lubricants category, the products include Automotive Engine Oils, Automotive Gear and Transmission Oils, Automotive Greases, Engine coolant (Antifreeze) and Brake fluids and Diesel Exhaust Fluid – 'Clear Blue'. Under the Industrial Lubricants & Specialties category, the products include Industrial lubricating Oils, Industrial Specialty Oils, Metal Working Fluids (cutting, drilling & forming), Corrosion preventive oils, Cleaners and Quenching oils, Industrial Greases and Horticultural Orchard Spray Oils. Under the Process oils & Specialities category, the products include Rubber Process Oils, White Oils and Specialties and Transformer oils.

Its manufacturing facilities are located in Vasai with a production capacity of 80,000 kiloliters. The Company also holds exclusive license to manufacture and market premium quality lubricants under the brand name "Repsol" in India. Further details may be referred to under the heading "Company Profile".

Quality Assurance and Accreditations

The Company's Plant at Vasai is accredited under ISO: 9001:2015 for quality standards, ISO 45001:2018 for Health & Safety Management Systems and ISO 14001:2015 for environmental standards. The support provided by the Company's accredited R&D Centers have helped in improving the quality of products and upgrading product formulation. Your Company's products primarily marketed under the brand name IPOL and REPSOL are well established and accepted in the industry for their quality and range.

Future Outlook

The Indian lubricant market is expected to register a CAGR of 4.64%, during the forecast period, 2019-2024. The major factors driving the growth of the market are the increasing vehicular production along with the increasing construction and infrastructure activities in the country.

The key drivers of demand growth in each product category where the Company operates are automotive lubricants, industrial lubricants & Specialties, Process oils & Specialities. With growth in use of two wheelers by young urban and semi urban work force, first time users and woman work force, this category of engine oils will continue to see an upward trend. Premium lubricants will continue to lead the growth for passenger cars and the Company is well placed to take advantage of the same with its well-developed portfolio of premium lubricants. The demand for premium quality lubricants in light and medium commercial vehicle segment is expected to grow due to continued growth in economic activity.

The demand for Industrial lubricants saw a marginal slow down due to the dip in IIP seen in the last quarter of 2018. However, the industrial lubricants demand is likely to grow with economic reforms gaining momentum as India's long-term prospects for growth remain optimistic. As global OEMs continue their focus in India, growth

prospects are likely to get a further boost. The Company's products are distributed through wide network of distributors who service medium and small customers spread over the rural markets. The Company also leverages its distribution channels to reach a wider network of independent workshops and retail outlets. The Company also sells directly to major key accounts.

1) Listed Entity's Competitive Position of the Company

GP Petroleums Ltd., India, is an ISO 9001:2015, EMS 14001:2015 & OHSAS 18001 (Now ISO 45001: 2018) certified company, specializes in formulating, manufacturing and marketing of industrial & automotive lubricants, process oils, transformer oils, greases and other specialties under the brand name of IPOL in India and internationally for more than four decades.

The IPOL brand of GP Petroleums has established itself as one of the well accepted industrial and automotive lubricants in India with a wide network of Distributors and Dealers in the country. The company has well equipped manufacturing facilities, with automated filling & packaging stations. GP has invested in high precision quality-control and product development labs to meet the growing needs of premium lubricants.

GP Petroleums plants in India has an annual production capacity of 80,000 KL. We have in-house Base Oil Storage facility of 15,000 KL is one of the largest in the Indian industry, which ensures consistency of quality and supply security.

The company has invested in resources to step up technical capability in Quality control and R&D and warehouse management system to meet its ambitious growth plans and to meet global standards and OEM expectations. The Company is fully prepared to meet the challenges of introduction of Bharat VI compliant lubricants.

IPOL has one of the widest ranges of products carefully designed to suit various applications and deliver high performances. These are available in a variety of pack sizes as per market needs. The products have several latest national and international performance specifications and approvals to their credit such as API, JASO, ACEA etc. other than OEM credentials.

The Company has added new products to its automotive portfolio namely Diesel Exhaust Fluid, branded as IPOL Clearblue to cater to the new generation commercial vehicles which have to conform to the Bharat VI norms and IPOL Engine coolant (Antifreeze) to improve engine efficiency and Horticultural Orchard Spray Oil, co-branded as IPOL- SPECOL to cater to the apple producing markets of Himachal Pradesh & Jammu and Kashmir.

The Company has forayed into international automotive and industrial lubricant space by tying up with MAG LUBE LLC, a leading manufacturer of lubricants in the Middle East, to manufacture and market IPOL lubricants across Middle East, Africa and Far East markets.

The Companies premium Lubricants marketed under the Brand Repsol continues to deliver beyond expectations and recorded the highest growth in India for Repsol Lubricants as compared to all the other markets that the Spanish oil major is present in.

Repsol branded products came with added benefits and special features that catered to the newly emerging premium and top-end segment across markets in the country.

REPSOL lubricants are developed in the state of the art global R&D center in Spain, which caters to the newly emerging premium and top end segments. These premium products are produced by GP Petroleums Ltd in its own manufacturing plants Vasai (Mumbai) & Daman, in India, with modern testing facilities, in accordance to the stringent quality standards, certified by Repsol S A, Spain.

2) Industry Structure and developments:

India is the world's largest lubricants market, next to US and China with a total consumption of approximately 2.4 billion litres. The Company operates in major segments of automotive and industrial applications in the highly competitive and fragmented lubricants industry comprising Public sector Companies, international majors and local companies. The Indian lubricant market is expected to register a CAGR of 4.64%, during the forecast period, 2019-2024.

The major factors driving the growth of the market are the increasing vehicular population of young and middle class urban and semi urban work force along with the increasing construction and infrastructure activities in the country. Though, mineral oils still commands a considerable share among the automotive lubricants consumed, in India, demand for synthetic lubricants is gradually increasing.

The domestic lubricants industry continued to witness stiff competition among players leading to an overall shift in perception of lubricants market from volume driven to value driven. Though the economy remained more or less stable during the year, rise in input costs had an impact on the returns of the industry. Additionally devaluation of Rupee also had its impact on the lubricants market.

In spite of these constraints, your Company has been able to register positive growth in revenues, due to its comprehensive approach towards sales realisations and sound product mix backed by strong marketing network. Your Company with its well diversified portfolio of products is expected to perform better in the coming years and exploit emerging opportunities in the highly competitive lubricants landscape. Company with its well diversified basket of products is expected to perform reliably in the coming years and exploit envisaged opportunities.

3) Opportunities and threats:

With opportunities in personal mobility driven by growing young urban and semi urban work force especially increasing women riders and shifting of trend towards higher quality formulations and lighter viscosity grades, the Company is well placed to leverage this opportunity.

The Company closely works with leading OEMs in India on product development with new technologies as well as to meet the environmental standards on low emissions and fuel efficiency. With its premium quality products the Company is well positioned to focus on the Medium / light commercial vehicles segment which is expected to grow due to the last mile connectivity and increase in economic activity.

The Company is ready with its bouquet of BS VI compliant products with newer technologies to comply with the stricter emission norms stipulated by the government.

Continued focus on the strong and wide distribution in different market segments will enable future growth. With growing environmental concerns and increasing demand for biofuels from large industries, the Company is planning to foray into production of biofuels which will augment revenue after seeking appropriate approvals.

Based on the current and future market scenario, the base oil and forex trend is expected to continue to remain volatile. Published GDP estimates indicate a possible marginal slowdown in the growth rates. Competition in the lubricants market is intense and likely to remain high in the near future. More and more OEMs are likely to introduce lubricants under their own brand name, further intensifying the competition. Margins and volume will come under pressure owing to gradual rise in input costs and continuous technology changes.

4) Segment Wise performance:

The growth in automotive sector owing to increase in personal mobility by increasing young work force has increased the activity in the automotive and ancillary industries leading to increase in demand of the Metal Working Fluids, Hydraulic Fluids, Gear Oils and Industrial Greases. These segment performed much better than the previous year.

Similarly with good monsoon in the previous year and forecast for this year, the manufacturing in the Tractor Segment has been steadily increasing with growth in demand for Transmission Fluids, Engine Oils and Greases. Overall there has been increase in the business of the Metal Working Fluids.

5) Risk and concerns:

In the Year 2018, both Brent Crude and foreign exchange remained highly volatile. From early 2018, the rupee continued to erode and lost around 15% in value from January to October, while Brent Crude rose by 23% during the same period and touched a four-year high in October. These adverse market factors impacted raw material prices significantly across all major categories. As a result of rising crude and foreign exchange for most part of 2018, feedstock prices for additives, chemicals and polymer increased significantly. Indian base oil prices rose steadily during first half of 2018 due to rising input cost coupled with seasonal demand before subsiding in the second half.

Your Company is exposed to usual industry risks, which inter-alia includes, market risk, product liability risk, product failure risk, technical obsolescence risk, liquidity risk, inventory risk, manpower risk, exchange rate fluctuation risk, regulatory and compliance risk and capacity utilization risk.

Apart from the aforesaid usual risks applicable to an industrial undertaking, the Company does not foresee any serious area of concern. The Company has appropriate mitigation plans in place to deal with such risks. With use of shared services across all functions, the Company continuously monitors quality and cost and improve overall productivity.

6) Outlook

With increase in sales, the lubricants for two-wheelers will continue to see an upward trend. Premium lubricants will lead the growth for passenger cars and the Company is well placed to take advantage of the same with its well-rounded portfolio of premium products. The demand for lubricants in commercial vehicle segment is expected to grow due to growth in economic activities. Growth in construction, mining and investment in infrastructure for smart cities initiative of the government augurs well for the growth of Indian lubricant industry.

There is substantial investment in synthetic & semi-synthetic lubricants and bio-based lubricants to meet the future demand from emerging new industrial uses. The "Make-in-India" initiative launched by the Indian government with the vision of making India a global manufacturing hub, by encouraging both domestic and international majors to manufacture their products within the country will drive forecasted revenues and sales volume in the next five fiscal years.

India is the leading producers of key industrial ores and minerals. With increased industrial activity the demand for industrial lubricants will increase for fuel efficiency and maintenance. The increased use of bio-based lubricants to address harmful environmental effects is the

current trend in the lubricants market and is boosting the overall growth of the market. The need for fuel efficiency of vehicles has given rise to increase use of synthetic lubricants. This trend has shifted the focus from volume to quality.

The transport industry accounts for major share of the lubricants market and witnessing increase use of synthetic and bio-based lubricants to comply with stringent vehicle emission regulations. The governments push for electric vehicles and subsidy may result in major shift in the outlook of lubricant industry.

7) Internal Financial Control and Their Adequacy

Your Company's internal Control System has been designed to provide for accurate recording of transactions with internal checks and prompt reporting, adherence to applicable Accounting Standards and Policies, compliance with applicable statutes, policies and procedures, guidelines, and authorisations. Consequent to the implementation of Companies Act 2013 (the Act), the Company has complied with the specific requirements in terms of Section 134 (5)(e) of the Act calling for the establishment and implementation of Internal Financial Control Framework that supports compliance with requirements of the Act in relation to Directors' Responsibility Statement. The Company has an independent internal audit function with extensive internal audit programme and periodic review by the management and audit committee. During the year the controls were tested and no reportable material weakness in the design or operation observed.

8) Discussion on financial performance with respect to operational performance

Operational Highlights

Your Company is committed to increase its market share in India and bring the advanced and best technological products to the end customers and accordingly:

- The Overall Manufacturing revenue of 2018-19 increased by 17.26 Crores, an increase of 4 % over previous year in spite of decrease in sales volume mainly due to improved sales realization and better product mix.

9) Material developments in Human Resources / Industrial Relations front, including number of people employed

Your Company adopts human capital strategy to develop and maintain required manpower. Objective of 'human capital' strategy is to attract talent, instill leadership, develop a Culture and drive the Organisation ahead.

The Company places highest importance in implementation of contemporary HR practices to enhance the overall employee effectiveness. With a strong governance mechanism at its core, the code of conduct has been communicated to and implemented for all the employees. Being an equal opportunity employer, your company strives to implement the programs to promote various initiatives including awareness of 'The Prevention of Sexual Harassment at Work Place Policy'. There has been no complaint of the sexual harassment at workplace since its inception. It takes pride to have complied with all the legal requirements. The continuous process of audits & gap analysis helps the Company to have better compliance.

The Company has maintained cordial industrial relationship and solved maximum labour issues amicably. Your Company also provided opportunity to semi-skilled workers to make them skilled workers. Your Company has 287 employees on roll as on March 31, 2019.

10) Changes in Key Financial Ratios

There has been no significant changes in key financial ratios, during the financial year 2018-19 as compared to the immediately previous financial year 2017-18.

Report on the Audit of Financial Statements

Opinion

We have audited the accompanying financial statements of GP Petroleums Limited ("the Company") which comprises the Balance Sheet as at 31st March, 2019, the Statement of Profit and Loss (including Other Comprehensive Income) and Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the Financial Statements, including a summary of Significant Accounting Policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Company Act, 2013 (the 'Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act, of the state of affairs (financial position) of the Company as at 31st March, 2019 and Profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Company's Act, 2013. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

There is no key audit matter requiring information to the members of the company.

Information other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and those charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), change in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- a. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- b. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- d. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- e. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Opinion

We have audited the internal financial controls over financial reporting (IFCoFR) of GP Petroleums Limited as of 31st March 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2019, based on the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

1. Significant Accounting Policies

A) Basis of preparation and presentation of financial statements

The Company's financial statements for the year ended March 31, 2019 have been prepared in accordance with Indian Accounting Standards (Ind AS) as per Companies (Indian Accounting Standards) Rules, 2015, and Companies (Indian Accounting Standards) Amendment Rules, 2016, notified, under Section 133 of Companies Act, 2013 ("the Act") and other relevant provisions of the Act

The financial statements are prepared on the basis of going concern under the historical cost convention using the accrual method of accounting, except for the following items:-

Items	Basis of measurement
Land and Building	Measured at Fair Value
Defined Benefit Plan	Plan assets are Measured at Fair Value

The financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest rupee, unless otherwise stated.

All the Assets and Liabilities have been classified as Current or Non – Current as per the Company's normal operating cycle and other criteria set out in Schedule III of the Companies Act, 2013. Based on the nature of the products and the time between the acquisition of Assets for processing and their realization in cash or cash equivalent, the Company has ascertained its operating cycle to be 12 months for the purpose of current – non current classification of Assets and Liabilities.

On transition to Ind AS, the Company has elected to use the exemption available under Ind AS 101 to continue with the carrying value of all its PPE & Investment Property recognized as at April 1, 2016 (transition date) except land and building measured at Fair Value as deemed cost and use that as its deemed cost as at date of transition.

Measurement and Recognition

After initial recognition, items of PPE are shown at cost less accumulated depreciation and any accumulated impairment losses.

B) Use of Estimates

The preparation of financial statements requires management to make estimates, assumptions and judgements that affect the reported balances of assets and liabilities and disclosures as at the date of the financial statements and the reported amounts of income and expenditure for the periods presented. Actual results may differ from the estimates considering different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Impact on account of revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

C) Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following notes:-

Note 2 :- Useful life of Property, plant and equipment

Note 19 :- Recognition of Deferred taxes

Note 36 :- Defined benefit obligation

D) Measurement of Fair Values

The Company's accounting policies and disclosures require the measurement of fair values, for both financial assets and liabilities.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the assets or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and lowest priority to

unobservable inputs (Level 3 inputs).

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

E) Property, Plant and Equipment (PPE)

Recognition and Measurement

PPE is measured on initial recognition at cost net of taxes/duties, credits availed, if any, and subsequently carried at cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of PPE includes borrowing costs directly attributable to acquisition, construction or production of qualifying assets. Qualifying assets are assets which necessarily take a substantial period of time to get ready for its intended use.

Machinery spares that meet the definition of PPE are capitalized and depreciated over the useful life of the principal item of the asset.

Subsequent Expenditure

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Derecognition

An item of PPE is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the item. Any gain or loss arising on disposal or retirement of item of PPE is determined as the difference between the sale proceeds and the carrying amount of the item and is recognized in the statement of profit or loss in the period in which the PPE is derecognized.

F) Intangible Assets

Intangible Assets are recognized initially at acquisition cost and subsequently carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized on a straight line basis over the estimated lives.

Gains or Losses arising from the retirement or disposal proceeds and the carrying amount of the assets are recognized as income or expense in the Statement of Profit & Loss.

G) Investment Property

Investment property is the property either to earn rental income or for capital appreciation or for both but not for sale in ordinary course of business, use in production or supply of goods or services or for administrative purpose. Investment properties are measured initially at cost, including transaction costs.

Investment properties are derecognized either upon disposal or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period in which the property is derecognized.

H) Depreciation

Depreciation on PPE is provided to the extent of depreciable amount on the Straight Line Method (SLM). Depreciation is provided based on useful life of the assets as prescribed in Schedule II of The Companies Act, 2013.

In case of Electrical Fittings and Laboratory Equipments, Management has estimated useful life to be 15 years, instead of 10 years prescribed in Schedule II of Companies Act, 2013.

In case of Intangible Software, Management has estimated its useful life to be 6 years, as Schedule II does not provide the same.

I) Impairment

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to the Profit And Loss Statement in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

J) Foreign Currency Transactions

Transactions denominated in foreign currencies; if any, are recorded at the exchange rate prevailing on the date of the transaction or that approximates the actual rate at the date of the transaction.

Monetary items denominated in foreign currencies at the year end, if any, are restated at year end rates. In case of items which are covered by forward exchange contracts, the difference between the year end rate and rate on the date of the contract is recognized as exchange difference and the premium paid on options; if any, is recognized over the life of the contract.

Non monetary foreign currency items; if any, are carried at cost.

Any income or expense on account of exchange difference either on settlement or on translation; if any, is recognized in the Profit And Loss Statement.

K) Financial Instruments

a) Financial Assets

Initial Recognition and Measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortized cost.

Subsequent Measurement

For the purpose of subsequent measurement financial assets are classified into two broad categories:-

- Financial Assets at Fair Value
- Financial Assets at Amortized Cost

Where assets are measured at fair value, gains and losses are either recognized entirely in the statement of profit and loss, or recognized in other comprehensive income.

A financial asset that meets the following two conditions is measured at amortized cost:-

- **Business Model Test:** The objective of the company's business model is to hold the financial asset to collect the contractual cash flows.
- **Cash Flow Characteristics Test:** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding. A financial asset that meets the following two conditions is measured at fair value through OCI:-
- **Business Model Test:** The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- **Cash Flow Characteristics Test:** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of interest on the principal amount outstanding.

All other financial assets are measured at fair value through profit and loss.

All equity investments are measured at fair value in the balance sheet, with value changes recognized in the statement of profit and loss, except for those equity investments for which the entity has elected irrevocable option to present value changes in OCI.

Impairment of financial assets

The company assesses impairment based on Expected Credit Losses (ECL) model at an amount equal to 12 months expected credit losses, or, lifetime expected credit losses, depending upon whether there has been a significant increase in credit risk since initial recognition.

However, for trade receivables, the company does not track the changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

b) Financial Liabilities

All financial liabilities are initially recognized at fair value and, in case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial liabilities are classified as measured at amortized cost or fair value through profit and loss (FVTPL). A financial liability is classified as FVTPL if it is classified as held for trading, or it is a derivative or is designated as such on initial recognition. Financial Liabilities at FVTPL are measured at fair value and net gain or losses, including any interest expense, are recognized in statement of profit and loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in statement of profit and loss. Any gain or loss on derecognition is also recognized in statement of profit and loss.

L) Inventories

Items of Inventories are measured at lower of cost and net realizable value after providing for obsolescence and damage, if any. Cost of inventories comprises of cost of purchase, cost of conversion and other costs incidental to purchase in bringing them to their respective present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

M) Revenue Recognition

Sale of Goods

The Company derives revenues primarily from sale of manufactured goods, traded goods. Effective April 1, 2018, the Company has adopted Indian Accounting Standard 115 (Ind AS 115) -'Revenue from contracts with customers' The effect on adoption of Ind-AS 115 was insignificant.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Other Income

Interest income is recognized using effective interest rate method and on time proportion basis taking into account the amount outstanding and the interest rate applicable.

Dividend income is recognized when right to receive payment is established.

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

Rent income is recognized based on the mutual agreement between the parties on time proportion basis.

Export Incentives under the "Duty Drawback Scheme" are accounted in the year in which the exports are made.

N) Lease Accounting

Leases, where the lessor retains, substantially all the risk and rewards incidental to ownership of the leased assets, are classified as operating lease. Operating lease expense is recognized in the statement of profit and loss on a straight line basis over the lease term. In respect of assets given on lease, lease rentals are accounted on accrual basis in accordance with the respective lease terms.

O) Employee Benefits

Short-Term Employee Benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognized in the statement of Profit and Loss as an expense at the undiscounted amount on an accrual basis.

These benefits include compensated absences such as paid annual leave and performance incentives which are expected to occur within twelve months after the end of the period in which the employee renders the related services.

The cost of compensated absences is accounted as under:-

- a) In case of accumulated compensated absences, when employees render service that increase their entitlement of future compensated absences, and
- b) In case of non-accumulating compensated absences, when the absences occur.

Post-Employment Benefits

Defined Contribution Plans

Defined Contribution Plan is a post employment benefit plan under which a Company pays specified contributions to a separate entity. Contributions to Employees Provident Fund, Employees State Insurance and Employees' Pension Scheme are as per the Statute and are recognized as expenses during the period in which the employees perform the services.

Defined Benefit Plans

The Company's liability towards Gratuity, which is a defined benefit plan, is determined on the basis of valuations, as at Balance Sheet date, carried out by an independent Actuary. Re-measurement of the net defined benefit liability which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset celling if any (excluding interest) are recognized immediately in the Balance Sheet with a charge or credit recognized in Other Comprehensive Income in the period in which they occur. Re-measurement gains/losses recognized in Other Comprehensive Income are recognized immediately in retained earnings and will be reclassified to statement of Profit and Loss.

P) Borrowing Costs

Borrowing costs; if any, include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as a part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the profit loss statement in the period in which they are incurred.

Q) Income Taxes

Income tax expense comprises of current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognized in statement of Profit and Loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

Tax expenses comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rate. Deferred Income tax reflect the current period timing difference between taxable and accounting income for the period and reversal of timing differences of earlier years/period. Deferred tax assets are recognized only to the extent that there is a reasonable certainty that sufficient future income will be available except that deferred tax assets, in case there are unabsorbed depreciation or losses, are recognized if there is virtual certainty that sufficient future taxable income will be available to realize the same.

Deferred tax assets and liabilities are measured using the tax rates and tax law that have been enacted or substantively enacted by the Balance Sheet date.

R) Provisions, Contingent Liabilities and Contingent Assets

Provision is recognized in the accounts when there is a present obligation as a result of past event(s) and it is probable that there will be an outflow of resources required to settle the obligation and a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimate.

Contingent Liabilities are disclosed unless the possibility of outflow of resources is remote.

Contingent Assets are neither recognized nor disclosed in the financial statements.

39 Capital Management

Risk Management

For the purpose of company's capital management, equity includes equity share capital and all other equity reserves attributable to the equity shareholders of the company. The Company manages its capital structure and makes adjustments in light of changes in economic conditions or its business requirements. The Company's objectives are to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to shareholders through continuing growth and maximise the shareholders value. The Company funds its operations through internal accruals. The management and the Board of Directors monitor the return on capital as well as the level of dividends to shareholders.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio between 30% to 50%. The Company includes within net debt, interest bearing loans and borrowings, less cash and cash equivalents.

As at March 31, 2018 and March 31, 2019, the Company has only one class of equity shares and has debt, consequent to such capital structure, there are no externally imposed capital requirements. In order to maintain or achieve an optimal capital structure, the company allocates its capital for distribution of dividend or re-investment into business based on its long term financial plans.

The debt equity for the year is as under:

43 Financial Risk Management Objectives and Policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the Risk Management Committee.

The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including deposits and loans and borrowings.

The company manages market risk through Risk Management committee, which evaluates and exercises independent control over the entire process of market risk management. The committee recommends risk management objectives and policies, which are approved by Risk Management and Board.

a Market Risk

Market Risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market Risk comprises three types of risk: Interest Rate Risk, Currency Risk and Other Price Risk, such as Commodity Risk. Financial Instruments affected by Market Risk include Loans and Borrowings, Deposits and FVTOCI Investments.

The sensitivity analysis in the following sections relate to the position as at 31 March 2019 and 31 March 2018.

The following assumptions have been made in calculating the sensitivity analysis:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 19 and 31 March 2018.

The sensitivity of equity is calculated by considering the effect of any associated cash flow hedges at 31 March 2019 for the effects of the assumed changes of the underlying risk.

i) Interest Rate Risk

Interest Rate Risk is the risk that the Fair Value or Future Cash Flow of a financial instrument will fluctuate because of changes in market interest rates. In order to balance the company's position with regards to interest income and interest expense and to manage the interest rate risk treasury performs a comprehensive interest rate risk management.

The company is not exposed to significant interest rate risk as at the respective reporting dates.

ii) Foreign Currency Risk

Foreign currency risk mainly arises from transactions undertaken by an operating unit denominated in currencies other than its functional currency. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency). The Company manages its foreign currency risk by converting the foreign currency exposure into INR on the date of entering into the transaction.

The carrying amounts of the Company's financial assets and financial liabilities denominated in foreign currencies at the reporting date are as follows:

Particulars	As at			
	31 st March 2019		31 st March 2018	
	USD	₹	USD	₹
Trade Receivables	77,065	5,329,400	852,488	54,918,128
Cash and Cash equivalents	18,855	1,333,498	132,190	8,615,458
Other Financial Assets	198,107	13,700,131	97,282	6,191,590
Net Exposure for Assets	294,027	20,363,029	1,081,960	69,725,176
Financial Liabilities				
Borrowings	7,664,762	530,162,012	16,778,079	1,119,051,996
Other Financial Liabilities	168,300	11,638,804	1,531,381	99,314,149
Net Exposure for Liabilities	7,833,062	541,800,816	18,309,460	1,218,366,145
Net exposure (Assets-Liabilities)	(7,539,035)	(521,437,787)	(17,227,500)	(1,148,640,969)

The following table details the Company's sensitivity to a 1% increase and decrease in the functional currency against the relevant foreign currencies of all the companies in the Company.

1% is the sensitivity rate used when reporting foreign currency risk and represents management's assessment of the reasonably possible change in foreign exchange rates.

The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 1% change in foreign currency rates. A positive number below indicates an increase in profit and other equity where the respective functional currency strengthens by 1% against the relevant foreign currency. For a 1% weakening of the functional currency against the relevant currency, there would be an equal and opposite impact on the profit and other equity, and the balances below would be negative:

Effect in INR	As at	
	March 31, 2019	March 31, 2018
	₹	₹
USD Impact @ 1% Increase in Foreign Currency	(5,214,378)	(11,486,410)
USD Impact @ 1% Decrease In Foreign Currency	5,214,378	11,486,410

Credit Risk

Credit Risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the company periodically assesses the financial reliability of customers and other counter parties, taking into account the financial condition, current economic trends and analysis of historical bad debts and ageing of financial assets. Individual risk limits are set and periodically reviewed on the basis of such information.

Financial Assets are written off when there are no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. When such recoveries are made, these are then recognized as income in the statement of profit and loss.

The company measures the expected credit loss of trade receivables based on historical trend, industry practices and the business environment in which the entity operates.

Ageing of Accounts Receivables

	As at	
	March 31, 2019	March 31, 2018
	₹	₹
Less than 180 days	869,007,436	1,362,917,905
More than 180 days	69,825,333	55,385,135

Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low.

The following tables detail the Company's remaining contractual maturity for its financial liabilities. The tables have been drawn up based on the cash flows of financial liabilities based on the earliest date on which the Company can be required to pay:

Ind AS 116 - Leases

On March 30, 2019, Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116, Leases which will replace the existing leases Standard Ind AS 17, Leases and related interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of Leases for both parties to a contract, i.e., the Lessee and the Lessor. Ind AS 116 introduces a single lessee accounting model and requires the lessee to recognise assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value.

This standard will come into force from April 1, 2019. Therefore, the Company will adopt Ind AS 116, effective annual reporting period beginning that date.

As per our Report of even date.
