There are just two sentences to faithfully encapsulate our 2015-16 performance. Challenging year. Profitable growth.

ver the last few years, the Indian real estate sector encountered sluggish demand, which reflected in lower apartment handovers and a slower offtake of interior infrastructure products.

As demand declined, most interior infrastructure companies began to reduce sticker prices in the hope of carving away a larger market share. In doing so, a number of interior infrastructure companies eroded their margins.

Sticking to our principles

At Centuryply, we were faced with a challenging decision during the year under review. On the one hand, a number of industry observers advised us to reduce prices and 'play the market' or vacate our hard-fought industry-leading market share.

The management took a considered decision that even as we would be responding to a short-term battle through the desperate reduction in sticker prices, we would, in effect,

be losing a long-term war. This rationale was based on our understanding that consumers who had brought from us at higher sticker prices in the past would have felt cheated and the trade, surprised that we had selected to reduce prices, would have advised a number of their customers to hold back on their purchases in the hope that he would reduce prices further.

I am pleased to state that our decision to resist temptation paid off attractively. Even as a number of our competitors were keen The Company foresees a demand turnaround for panel products following the Central Government's 'Housing for all by 2022' programme

to moderate prices in the hope that they would be able to generate a superior price-value proposition, Centuryply achieved the opposite: it continued to emphasise its product superiority, how our brands would pay off in the long-term and how even though consumers would need to pay marginally higher for our brands for the moment, they would stand to benefit across the long-term through product durability.

The payback

The strategy paid off.

As the year progressed, what surprised us at Centuryply was the evolving maturity of the Indian consumer. Some consumers down-traded; they selected to buy lower-priced products. But most Indian consumers continued to trust a credible organised brand like Centuryply; they

continue to believe that it made eminent sense that when building (or rebuilding) one's home, a modest premium represented a reasonable insurance against product under-delivery.

The result then is reflected in our numbers.

Our sales grew by 6%, our EBIDTA grew by 8% and profit after tax by 11% over FY 2014-15.

These numbers did not just represent profitable growth; they were also the highest in our existence.

Strengthening our brands

At Centuryply, we selected to strengthen our business in a challenging year.

We proactively strengthened our brands through enhanced visibility, positioning and promotion. We did so because we believe

that the proposed Goods & Services Tax, when introduced, will strengthen the traction for organised plywood and related brands in India. As a future-facing decision, our conviction was showcased in the performance of our Sainik brand. The Sainik brand is a tough product that epitomises the spirit of the soldier ready for hardship. It enjoys a strong foothold in the economy value segment. It is available across markets within India with a competitive price tag. It is the most economical purchase in its category. It is termite and borer-resistant, all-weather resistant and boiling water-resistant. It also has the ability to withstand heavy loads. Besides, it is one of the sturdiest plywoods by virtue of hardwood as its core. The company invested in this brand with dedicated television commercial.

The result: Sainik volumes witnessed a phenomenal increase.

Growing our business

During the course of the year under review, we strengthened our business by expanding our product portfolio. We ventured into new segments, commissioning a particle board unit in Chennai to access raw material (timber waste) from several units in the vicinity and capitalise on the fact that there are no similar units in the city.

We introduced wood-plastic composite panels test-marketed under the Zykron brand name. We marketed our laminated doors portfolio aggressively leading to robust growth. We grew our laminates business by around 15% on the back of a strong catalogue and distribution network.

The test of any company lies in its performance across its most challenging period. The last year was ours. Having passed this test credibly, we are advantageously placed to grow our business when the overall business climate turns favourable.

The Company, through its subsidiary, is setting up a unit in Laos to secure our growing raw material appetite. The Company entered into purchase arrangements with several local entities in Laos for the purchase of face veneers, thereby reducing raw material costs and enhancing transportation efficiency.

We embarked on the process to manufacture MDF, one of the most popular panel products across the world with a large scope. Following the commissioning of this unit, we will possess a capacity to manufacture 198,000 cubic metres per annum, graduating it to one of the largest in the country.

Macroeconomic outlook

The Company foresees a demand turnaround for

panel products following the Central Government's 'Housing for all by 2022' programme as well as the interest rate subvention scheme for economically-disadvantaged classes related to home ownership. The RBI announced interest rates cuts that helped ease home loan rates and catalyse mortgage prospects.

The proposed implementation of GST will address the complexities and inefficiencies of the existing indirect tax framework through a robust technology platform. We believe that this will provide a level playing field between organised and unorganised players. Besides, the GST will also address the problem of double taxation and the cascading impact of regional tax disparities, while rendering inter-state based transactions tax-neutral.

Conclusion

The test of any company lies in its performance across its most challenging period.

The last year was ours.

Having passed this test credibly, we are advantageously placed to grow our business when the overall business climate turns favourable.

We are placed at an attractive cusp; we believe that the 2016 monsoon will be favourable, incomes will rebound and consumer spending will increase.

Coupled with the tax reforms that we expect, we believe that our best is just round the corner.

Regards, <mark>Sajjan Bhajanka,</mark> Chairman

"Timber is our principal raw material. Following the turn of the century, there has been a growing realisation that the world is facing a resource scarcity. The opening up of the Vietnamese, Cambodian, Laotian and Myanmar economies has eased short-term resource insecurity. Centuryply has been among the quickest to capitalise."

Prem Kumar Bhajanka, Managing Director

hen some of the largest Asian timber producing countries selected to ban the raw export of their principal forest product, a number of Indian plywood manufacturers, who would import timber, began to see the scaling down of their plywood businesses.

At Centuryply , we perceived this to be an opportunity.

Rather than mope, we did the unthinkable. We commissioned a face veneer unit in timber-rich Myanmar. This achieved

diverse objectives: it addressed the Myanmar government's priority to grow the log processing industry and enhance employment; it facilitated Centuryply's timely entry into resource-rich international geographies that secured its resource access; it enhanced the efficiency of transporting face veneers, generating a substantial cost advantage over wooden log transportation.

Success breeds success.

Centuryply extended its global presence to Laos, one of the richest timber repositories in South East Asia comprising approximately 11 million forest hectares. Laos' timber harvesting is based on a quota system of provincial forest management plans and infrastructure development programmes. The Laotian Ministry of Agriculture and Forestry and Department of Forestry are regulating logging plans across provinces. In this country. Centuryply set up a peeling unit to produce face veneers apart from having purchase arrangements with several local entities. The extension proved

business-strengthening; within a short span of entering Laos, Centuryply moderated its raw material cost.

The time has come for Centuryply to make the Far East the fulcrum of its raw material security.

The company is contemplating entering Indonesia, a country with ample forested land. The company's presence in this country will enhance raw material access on the one hand and moderate costs on the other, strengthening the overall business.

At Centuryply, these global initiatives, when fully mature, will account for a substantial part of the company's projected resource appetite, creating a robust foundation of derisked and sustainable long-term growth.

SECTION #2

At Centuryply, capacity addition is about making an educated futuristic guess based on retrospective demand and emerging trends

"At Centuryply, we are a proactive capacity creator. Our periodic capacity investments – increasing capacity of our laminate unit, setting up a plywood unit at Kandla and veneer unit in Myanmar - have helped generate consistent revenue growth."

Sanjay Agarwal, Managing Director

t Centuryply, we believe that what drives offtake is adequate stock on the retailer's shelf.

This, in turn, is drawn from proactive capacity creation – whether through brownfield means (where the company adds to its existing capacity) or greenfield (through capacity creation from scratch).

Over the years,
Centuryply's competitive
advantage has been
derived from the ability
to commission capacities
on schedule, do so in
shorter tenures, do so
at competitive costs
and commission these
capacities in locations
marked by relatively underaddressed supply.

This aggression is reflected in the numbers: the company's plywood

manufacturing capacity increased to 2.10.000 cubic metres its existing manufacturing facilities in West Bengal, Assam. Haryana, Tamil Nadu, Gujarat, Uttarakhand and Myanmar. Even as the country's plywood sector grew 10-12% compounded across the last decade ending 2015-16, the company's capacity increased 25-30%, creating a foundation for consequently enhanced market share.

Centuryply had two alternatives when it embarked on its expansion journey: all incremental growth in a centralised facility to capitalise on economies of scale or commission progressive capacity in dispersed units across the country and Far East.

The Company selected to commission units

proximate to consumption markets and ports. This translated into a number of business advantages: earlier, the timber would be transported from the port deep into the hinterland, peeled and transformed into products that would then be delivered across the country.

By commissioning proximate to ports, the company eliminated the need to deliver the largest quantity in the product chain (timber) across the longest distance. By peeling on-site and creating downstream products, the company was able to service the hinterland better, quicker and at a lower transportation cost.

Besides, this proximity enhanced trade confidence; dealers and distributors began to live with lower inventories, convinced that Centuryply would replenish their shelves faster, strengthening their working capital efficiency and overall competitiveness.

Based on the capacity

to commission plants faster, the company was effectively placed to put its products faster in the marketplace, carving out a relatively larger market share.

With the hinterland seeded better, the company was able to scale its new plant faster: the Gujarat unit scaled to an average capacity utilisation within months of commissioning; it reported a good capacity utilisation even during a demand-challenged 2015-16.

At Centuryply, with scale came diversity.

The Company invested periodically in new products. The Company launched its laminates brand in 2004, steadily enhancing its manufacturing capacity from 2.4 million sheets to 4.8 million sheets

in 2015-16 to service growing downstream demand. The Company invested in a 198,000 cubic metre per annum MDF plant in Punjab (projected commissioning July, 2017) promising to generate more than ₹500 cr in peak annual revenues. The Company is commissioning a 54,000cubic metre per annum greenfield particle board unit at its Chennai plant (projected commissioning June 2016) using sawmill waste and timber remnants. The project cost is estimated at 20% lower than mid-market branded plywood variants and MDF.

These realities emphasise the point that at Centuryply, our competitive advantage starts from the time we plan a new manufacturing facility.

Over the years. Centuryply's competitive advantage has been derived from the ability to commission capacities on schedule, do so in shorter tenures, do so at competitive costs and commission these capacities in locations marked by relatively underaddressed supply.

THE GST GAME-CHANGER

How the proposed GST implementation will level the playing field for organised plywood brands in India

erhaps the single biggest profit driver for the Indian plywood sector lies in GST implementation. The ₹18,000 crore Indian plywood sector is dominated by unorganised players who account for more than 65% of the total plywood market.

These unorganised players are advantageously placed; they are largely outside the country's tax net, immediately enjoying an advantage over organised

"The Goods and Services Tax (GST) will do away with complexities and inefficiencies of the indirect tax framework – double taxation as well as the cascading effects of regional disparities in tax rates. It will render state-based transactions tax-neutral and sound the death knell for clandestine businesses. This will reduce taxes, enhance business ease and improve tax collections. Winwin for all." Sanjay Agarwal, CEO and Managing Director

brands that completely respect the laws of the land and pay taxes. As a result, organised players find it easier to sell below the prices of the organised brands, carving into their respective shares.

This inequity is likely to come to an end.

The GST, hailed as the

biggest indirect tax reform in the country's existence, is likely emerge as a gamechanger for all those who have for long respected the country's laws – and suffered. GST will change the game in various ways: levied on manufacture, sale and consumption of goods and services and breaking state-based fiscal walls leading to national economic integration.

The country's indirect tax system is presently complex, marked by overlapping taxes levied by the Centre and States. The GST's 'dual' structure will comprise two components – the Central GST and State GST. Each will be empowered to legislate and administer respective taxes. Besides, excise, service tax, central sales tax, value-added taxes, entry tax or octroi

tax will all be incorporated under a single umbrella, eliminating a multiple tax structure.

For long, the plywood industry did not need to pay an excise duty or VAT for procuring wood; hence, no CENVAT credit was available for plywood manufacturers, enhancing the attractiveness for unorganised players in evading the 12.5% excise duty, which immediately provided them with a costing headstart.

Following the imposition of GST, this unfair advantage enjoyed by unorganised players will disappear, redressing the industry balance.

The result: following GST implementation, the tax burden on organised players will decline by 5-6%, while increasing it

by 15-18% for unorganised competitors, narrowing the cost differentiation and strengthening organised sector competitiveness. Besides, the tax reform will inspire organised manufacturers operating out of godowns dispersed across the country to commission large strategic warehouses.

At Centuryply, we believe that the GST introduction will lead to a larger number of people selecting to buy branded products, affecting the existence of unorganised players who may be compelled to either go out of production or become regional ancillaries of the larger branded labels.

This will be more pronounced in the country's plywood sector, which is presently accounted for a large proportion of unorganised competition.

Centuryply has proactively invested in its business – capacities, locations, products and brands – to carve out a disproportionately larger market share when the switchover transpires.

ENHANCING VISIBILITY

Brand-building of home décor products was limited to paints, tiles and bath accessories. Similar initiatives in the plywood and allied segments were few. Until Centuryply came along.

"For long, the strength of Centuryply's brand was not reflected in its product offtake. Because plywood was considered commodity. Because carpenters were decision-makers. Because the ISI certification formed a benchmark for product selection; value-added offerings were glossed over (relatively speaking). Because most Centuryply subbrands were just trade names as consumers failed to differentiate. Centuryply needed to evolve from being just another manufacturer to a holistic service provider, covering interior design and extending to online platforms. And that is what the company achieved."

Kiran Khalap, Managing Director and co-founder, Chlorophyll

Cumulative spending of A&P in the last five years (₹ Cr)

5 TV commercials launched in the last

ven though consumers have been aware of the Centuryply brand for long, when it came to the moment of truth, the usual response was: 'Whatever the carpenter says.'

And when it came to carpenters, the usual consideration was 'Babu, buy the product that is cheaper because you will save money' or 'Even the other product has an ISI mark, so why buy Centuryply?'

And from this recognition began the need to enhance the Centuryply brand to a point where the carpenter would pronounce with finality: 'Centuryply ke alaava kisi aur brand ke baare me sochiye ga bhi nahi.'

This is how Centuryply got there.

Strengthening its brand:

As competition increased, Centuryply simply carved out a larger attention share. In 2014, the company introduced television commercials for plywood and laminated products; the 'Unsung Heroes' campaign for the Sainik brand won an award at the Goa Ad Fest for its thematic positioning. In just two years, Centuryply launched three television commercials to enhance recall. If people thought 'plywood'; then the first thing they would remember was the Centuryply advertisement; if anyone mentioned a lower-priced alternative, the consumer was likely to remember the Centuryply quality-cum-safety.

Leveraging pan-India footprint: Centuryply's products were available across ~20,000 stores (across Tier-I and II cities). However, they could be displayed better to swing the consumer's preference at the last instant.

Centuryply selected to strengthen product showcasing using inshop and out-shop activities across the entire portfolio and country. The result was a decisive transformation at points of sale: the consumer went into a store intending to buy another brand but

emerged having bought Centuryply.

Refreshing the catalogue: The offtake of laminates is influenced extensively by the frequency of catalogue renewal. Conventionally, new laminates would be introduced every second year; Centuryply revolutionised the space with the introduction of four catalogues a year. This created a buzz: trade channels discovered a new peg with which to address consumers by referring to a catalogue that was two quarters in circulation as 'old'. Consumers began to get a perspective that Centuryply's designs were absolutely the latest. Besides, it set most thinking: 'A company introducing more designs than competition must surely be creating better products as well."

Making a decisive online presence: Centuryply recognised that it was not enough to be present in every neighbourhood with a retail outlet; it needed to be in every social media platform as well: Facebook, Twitter,

LinkedIn, YouTube and Pinterest. Centuryply began to engage directly with consumers. The Company updated contents periodically. Its Facebook page generated more than 100,000 'likes'. Besides, keeping browsing convenience in mind, it created separate websites for various products.

With sectoral realities evolving with speed, Centuryply invested in initiatives to enhance skills and competence

"At Centuryply, we have created a stronger team by focusing on people, process and culture. Besides, we aim to incorporate several initiatives to keep enriching HR value." Mr Sugata Halder, Head – Human Resource

People

At Centuryply, we believe that competitive advantage is derived from prudent recruitment. Instead of traditional recruitment consultants, the Company extended to online portals to access a larger database of prospective employees. This differentiated approach also helped identify suitable candidates from a locational perspective. Following initial screening, the shortlisted resumes were shared with branch heads who took a final decision.

Centuryply's talent management entailed capturing 'performance' and 'potential' to identify the best fit for roles and chart exciting career roadmaps. More than 30 individuals from the junior middle management level were shortlisted for fast-tracked career growth. This made it possible for the company to create a talent pipeline. Select senior middle management employees underwent the 'Talk Tomorrow Today' (T3) programme that discussed career progression opportunities.

Process

With the company operating from 35 branches, it became impractical to place dedicated HR personnel across every location. Centuryply responded to this challenge with HR automation and consolidation

(in its portal). The company's portal offers diverse information - payroll, attendance, claims, leave and travel applications, among others - at a single point.

Besides, the Company's dispersed presence made it difficult to connect with sales officers and managers at branches. Even as brief factory visits enhanced their awareness of the Company's catalogue, there emerged a growing need to enhance their awareness of organisational ethics and culture. As a part of the automation, relevant 90-minute films were shot and screened in classrooms.

Culture

Centuryply recognised the need to continuously enrich its culture. The Company redrafted its vision statement to Sarvada Sarvottam (Always the best) supported by relevant features. The company emphasised 'frugality' as one of its prominent value-drivers: the need to achieve objectives within budget. The Company embarked on a unique initiative to encourage the embrace of these values. Members were asked to nominate colleagues who exemplified these values: the person who received the most number of votes was declared 'Value Champion' and felicitated.

SETTING TRENDS

Centuryply posted record profit in a year when plywood industry growth remained muted

"DNA: the one reason behind Centuryply reporting record profits. The core of this DNA is experience. Rich multi-year and multi-market experience. The result is a sense of foresight that makes it possible for them to forecast demand patterns and regulatory trends. The result: proactivity." Sanjay Agarwal, Managing Director and CEO

he three words that have helped cushion Centuryply from demand slowdowns: wide product portfolio. This represents suitable insurance: by not putting all its eggs in one or few baskets, the company seeds demand across a large number of products at varying stages of their evolution. The result is that there is always some product that is doing remarkably well, some product performing reasonably well and some product in the nascent end of its product acceptance cycle that could potentially translate into robust offtake across the foreseeable future. The net effect is robust performance, good markets or weak.

Over the years, Centuryply

widened its portfolio: it now comprises laminates, ready doors, MDF and particle boards, among others. Within each segment, Centuryply created sub-brands across price points. The result is a complete choice: a product for every preference and pocket.

The benefits of this wide portfolio were showcased during the year under review: the offtake of premium plywood declined owing to the slowdown in the sector; the laminate segment (launched in 2004) reported about 20% growth, emerging as the third largest player in the country's organised sector. Besides, the new doors vertical performed creditably. And in a futurefacing initiative, Centuryply launched a new product

like the cement fibre board with attractive prospects.

The result of this portfoliowidening strategy was reflected in the numbers. A good part of the company's 2015-16 revenues were derived from products or brands launched in the last five years, emphasising the company's ability to rejuvenate revenues.

Enhancing raw material security

Timber represents the most critical resource in the plywood sector. The sourcing of this precious resource is increasingly restricted. A few resourceproviding countries have embarked on the initiative to conserve their export of raw timber. Centuryply was one of the first plywood companies to recognise that prospective competitiveness would be derived from the ability to secure timber availability. A company with adequate anytime timber availability would inevitably emerge as the most sustainable.

In view of this, Centuryply emerged as the first company to commission a face veneer plant in Myanmar. The plant consumes local timber, processes it and exports face veneers – generating foreign exchange for the Myanmar government, employment for its workers and resource security for itself.

The decision was not only regulatory-compliant;

it proved business strengthening in more ways than resource security. Raw timber loses around 30% moisture when made into face veneer; another 30% weight is lost following peeling, resulting in a significant decline in transportation costs compiled with enhanced viability.

The competitive dynamics of this approach encouraged the company, through its subsidiary, to enter into purchase arrangements with various entities in Laos and also to setup a similar face veneer unit in Laos, likely to be commissioned in 2016-17.

Centuryply's international units helped reduce raw material and transportation costs, enhancing profitability.

Enforcing discipline

The business of plywood and related product manufacture is marked by a number of variables. The superior management of these variables makes it

possible for the company to enhance process efficiency.

Centuryply invested in initiatives to enhance process discipline. The result was that capacity utilisation increased; the increased output helped effectively cover fixed costs, strengthening the company's business model.

Strengthening the Balance Sheet

At Centuryply, we believe that the biggest all-market asset is a robust Balance Sheet.

The company's Balance Sheet was marked by modest gearing, net worth of ₹528.88 cr and a working capital cycle of 70 days.

The company's EBIDTA margin was maintained at 17% in 2015-16 as well. As a result, the proportion of accruals in the company's capital investment programme increased, strengthening its sustainability.

A good part of the company's 2015-16 revenues were derived from products or brands launched in the last five years, emphasising the company's ability to rejuvenate revenues.

REINVENTING THE COMPANY

Centuryply launched innovative products periodically to enhance long-term revenues.

"We started as a plywood manufacturer and gradually ventured into ancillary interior infrastructure segments. We introduced different plywood variants. We launched laminates. We launched doors and furniture. We will shortly launch MDF and particle boards. We will continue broadening our portfolio availability through our common dealership." Keshav Bhajanka, Executive Director

Complementary

Centuryply focuses on the manufacture / marketing of panel products (plywood, laminates, MDF and particle boards among others). This deliberate positioning makes it possible for the company to capitalise on existing trade channels, generate superior leads and enhance dealer loyalty.

Foresight

Centuryply strategically selects to enter under-addressed product segments. Even as this approach may be considered challenging, it holds out a number of advantages: competition is limited, any brand upside translates into attractive market share; the brand does not remain a brand but graduates to generic name; the company does not fight for market share but creates a market that did not exist.

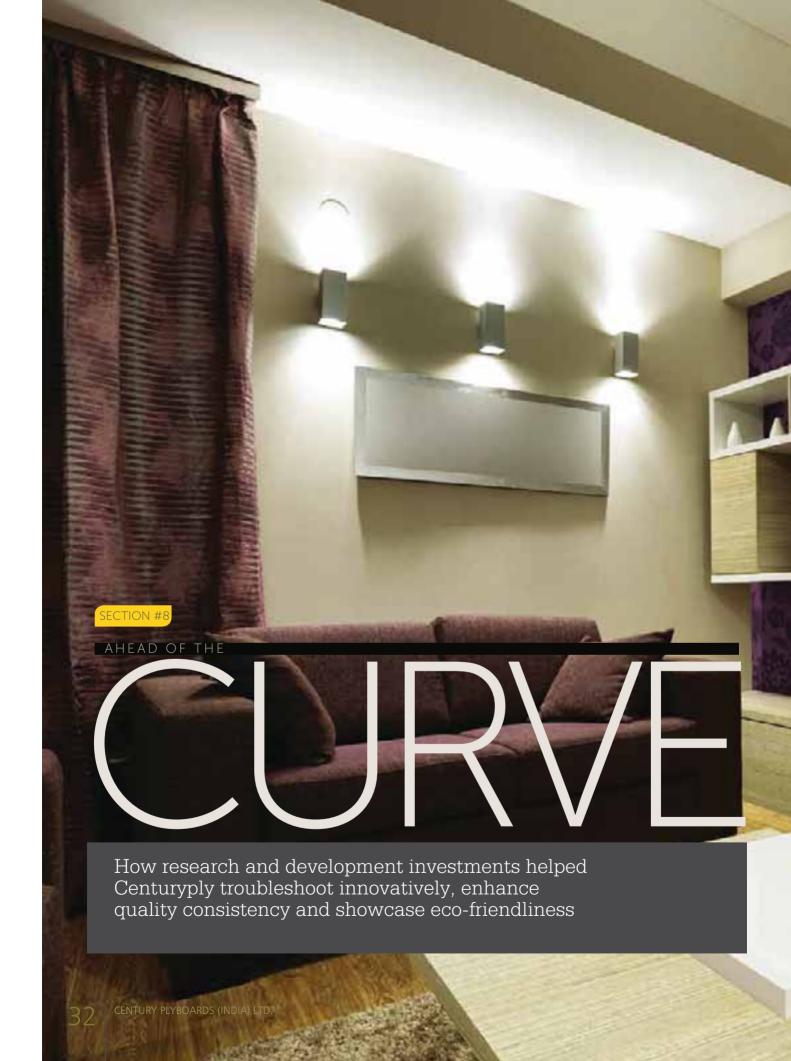

This approach was validated during the last financial year. The company launched decorative and moulded panel doors in 2015 on the grounds that furniture ownership would gradually evolve from the traditional carpentry mode to branded off-the-shelf purchase. Centuryply invested in brand building; it popularised the concept.

Similarly, Centuryply launched fibre cement and PVC boards in FY2015-16. The introduction of these products was in line with the company's strategy to create a portfolio of non-wood panel products. Centuryply was convinced that the popularity of these products would rise; the Company seeded the market with imported products. The Company expects to carve a 10% market share of the country's ₹1,000 cr FCB market by 2020.

Rigorous

Over the years, Centuryply has progressively de-risked product introduction. The company selects to enter product niches through imports, seeding the market to a point where the demand can justify a fullfledged manufacturing facility. For instance, the Company introduced prelaminated MDF and particle boards. After these products had matured, the company initiated steps for setting-up particle board unit and MDF unit. The particle board unit is about to be commissioned: the MDF units is likely to be commissioned in July 2017. A combination of high capacity utilisation and brand popularity translated into favourable terms of trade from day one, strengthening overall profitability.

Cutting costs

Centuryply believes that the most enduring company is one with the lowest cost structure.

Over the years, the Company has reduced costs: raw material procurement to process optimisation. In a strategic initiative, the Company commissioned face veneers unit in Myanmar and is about to commission another in Laos. Raw material costs as a proportion of revenues declined from 53% to 38% in the three years ending 2015-16. The result is that even as the Company's revenue grew only 6% in a challenging 2015-16, it reported the highest profit in its existence.

Balance Sheet integrity

Centuryply believes that all-market viability is derived from a conservative Balance Sheet. This preference is reflected in the Company's low long-term debtequity ratio of 0.12. In turn, this translated into a comfortable interest cover of 5.23 x in FY2015-16.

Enhancing liquidity

Centuryply's product superiority is reflected in its working capital efficiency. The cash conversion cycle is a measure of how effectively the management is able to manage short-term assets and liabilities to generate cash. When the company markets what people desire to buy, cash inflow is relatively fast. This is reflected in Centuryply's cash conversion cycle: 70 days in FY2015-16 compared to 88 days in FY2014-15 even as the external marketplace environment became increasingly challenging.

Investing prudently

Centuryply is a consistent business investor. The Company is investing ₹444 crores in a greenfield MDF and plywood plant (commercial production FY2016-17) expected to generate peak annual revenues of ₹534 crore, strengthening the Company's prospective return ratios (on employed capital and equity).

"There are usually two options: borrow funds, invest and operationalise or utilise surpluses for onward reinvestment. At Centuryply, the latter strategy has led to sustainable growth, minimising interest outflow and protecting the bottomline in good markets and bad."

KEEPING UP WITH TIMES

As our organisation has grown larger, our systems have been strengthened to handle growing volumes

"Centuryply proactively invested in IT systems with the objective to create a scalable growth foundation that would progressively moderate costs and enhance profitability." Mr Sabyasachi Chakrabarty Thakur, Chief Information Officer

Latest ERP platform

The Company graduated to a robust SAP HANA platform (version EHP 0 to EHP 7) with enhanced features - among the most respected ERP platforms the world over. All transactions are mapped in this system with the capability to analyse large data chunks. This ERP module facilitates sales force automation and customer management.

Procurement management

The ERP facilitates the automation of imported raw material procurement. The system helps map stock levels, consumption trends and indicative periods of raw material requirements leading to informed decisions, reducing the turnaround time at each stage and enhancing systemic accountability.

Marketing and brand activities

Centuryply invests nearly 4% of revenues in marketing (above the line and below the line) structured around biannual plans. All the company's activation plans and merchandising events are tracked on SAP; the Company tracks marketing materials across branches to arrest pilferage. The process empowers managers in making informed decisions.

Invoice automation

The process (under execution) maps the vendor invoice in the system that is processed with speed for electronic funds transfer, reducing processing time by 50%. This will reduce the vendor payment cycle.

Sales force automation

The new ERP facilitates sales force automation.

The entire sales force is provided PDAs to access real time information on market trends, distributor inventories, distributor payments status and product movement, among others. The Company started a pilot project; when implemented, the initiative will enable the sales force to assess market trends in real-time, leading to informed decisions.

Procurement

Centuryply leverages the ERP to procure smarter.

The Company identifies the right vendors across criteria, eliminates intermediaries, identifies OEM-approved vendors and enables e-auctioning. This helps negotiate better with vendors, resulting in superior terms of trade. The project has been implemented, easing raw material procurement.

The SAP HANA platform will increase efficiency and develop analytic reports faster, helping the company significantly expand its business in five years.

enturyply extended into the laminates business in 2004-05; within a short period, the Company emerged as the third largest in India's organised laminates market.

There are a number of reasons for Centuryply's outperformance. The laminates business reported 18% CAGR in the last three years. The company virtually reinvented its business through diverse concurrent initiatives. The result is customer delight, a number of them turning around to ask, 'Is this an imported product?'

Catalogue-driven

Even as the paints industry is driven by shade-card innovation, the laminates business is catalysed by design catalogues. The better the catalogue, the more impressed the consumers. Centuryply's catalogues are refreshed every 12 months. The Company plans new catalogues at least six

months in advance. New designs are selected following market research and discussions. Besides, catalogues are divided into various sections according to design themes. For effective referencing, the catalogue is divided into theme-based sections. The marketing team interfaces with each dealer so that they may explain designs to consumers and architects. Besides, the company commissioned full-sheet displays across 60 pan-India counters to enhance counter share and display space.

Dedicated outlets

Centuryply commissioned Inspiria outlets (12) to strengthen its brand – in Chandigarh, Kolkata, Pune, Chennai, Ahmedabad, Bangalore, Hubli, Cochin, Indore, Nagpur and Gurgaon.

Website and visualise

Centuryply launched visualiser and a dedicated laminates website, making it possible to view online the full sheet image of most laminates and

download the catalogue.

Club One

Centuryply launched an elite club of channel partners where members were taken to international locations for educational purposes.

Go-To-Market

One of the major reasons for growth was the revamp of the entire Go-To- Market Strategy. Centuryply worked with its top internal team, external consultants and experts to create a new strategy. This delivered excellent results with clean, efficient & simple layered distribution system. This GTM helped achieve incremental revenues without cannibalisation.

People

Centuryply strengthened recruitment and simplified key responsibility areas resulting in better accountability.

Step forward

Centuryply enhanced sales force automation to enhance uniformity

in reporting and easier information access.

This then is the result: despite its premium positioning, Centuryply reported a robust growth in the laminate segment in 2015-16.

With all these initiatives in place, Centuryply expects to grow in excess of 20% annually over the next three years. The Company plans to extend its priority partner program and the demand generation activity to drive sales. It also aims to achieve an all-time high of 10,000 signages within the first quarter of the current fiscal to drive brand visibility.

SECTION #12

What are engineered wooden products?

Engineered wood products (or wooden panel products) are value-added wood products manufactured through the bonding of wood panels with synthetic adhesives through heat and pressure.

What makes this space attractive?

The use of engineered wood panels is on the rise owing to its ease of use, strength and lower wastage. Of the three (plywood, medium density fibre boards and particle boards), demand for particle boards and medium density fibre boards is rising owing to their environment-friendliness.

Please describe how plywood is manufactured.

Plywood is manufactured by gluing individual veneer panels with adhesive by pressing the panels together through heat. Plywood can be manufactured from hardwood and softwood. The material is versatile because it enjoys a range of applications, possesses surface dimensional stability, better panel shear and high chemical resistance.

What are particle boards?

Particle boards are sheet materials manufactured out of inexpensive material like saw dust and agro wastes like bagasse and rice husk, among others, blended with synthetic resin adhesives and consolidated under heat and pressure. The product is used extensively in kitchen counter tops, cabinets, shelves, flooring materials, stair treads and door cores, among others. Particle boards are costcompetitive, slick, flat and environment-friendly.

Centuryply's greenfield particle board unit is about to be commissioned and readied for optimum utilisation.

What is medium density fibre board?

MDF derives its name from the density of fibreboard. MDF enjoys a density of 600-800 kg/m3. The MDF fibres are normally made by using

a thermomechanical pulping process. MDF is a composite engineered wood product made from wood waste and other lignocelluloses materials, refined into fibres and glued with urea formaldehyde resin or melamine resin at high temperature and pressure to form the MDF panel. The product is considered eco-friendly: it is mostly manufactured from 100% renewable and sustainable wood. MDF panel has a uniform and smoother finish than particle board - a perfect material for modular furniture products.

What are the prospects of MDF in India?

MDF consumption is presently low in India compared to the global average. Following the scarcity of natural wood, MDF is gaining popularity. Interestingly, MDF sale has outpaced the offtake of wooden panel products in the last couple of years and is estimated to be growing at a CAGR of 25-30%. As we see it, plywood could lose market share to MDF, translating into healthy double-digit growth rate of about 20%. The result

is that we foresee MDF market size of more than ₹40 bn by FY2020, growing its share of the overall industry from 6% to 10% by FY2020.

How does Centuryply expect to address this reality?

Centuryply is investing in a 198,000 cubic metre per annum MDF plant in Punjab for ₹444 crore. The plant is expected to be commissioned by July 2017. The plant is expected to generate annual revenues in excess of ₹500 crore. The plant is located proximate to the national highway (8 km) and Jalandhar, a key market. The region is suitable for agro-forestry with fertile soil and ample river water availability. The farmers in the area will benefit as they can alternatively grow agro-forestry products for sustainable income; Himachal Pradesh is just 30 km from the plant site, a state with rich quality agro-forestry resources. Besides, the timber markets are located close to the factory, resulting in procurement ease.

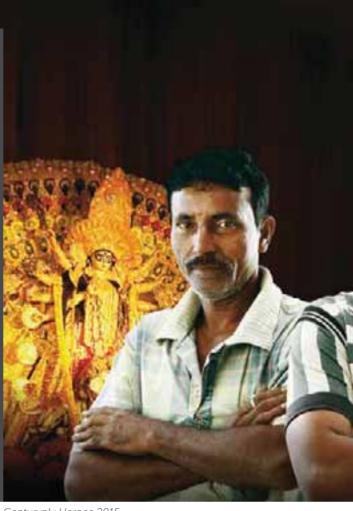

SECTION #14

RESPONSIBLE!

The first word that Centuryply evokes is 'pioneer'.

Whether it is through the introduction of new manufacturing technologies, quality benchmarks or the introduction of new-age product ranges. Helping drive sectoral change and bottomline transformation.

Interestingly, Centuryply is also engaged in creating a better world: through healthcare, education, environmental cleanliness initiatives.

Centuryply Heroes 2015

Centuryply Heroes

In 2015, Centuryply selected three extraordinary individuals from a field of 200 - professional carpenters who delivered outstanding art during Bengal's coveted Durga Puja by rising above their limitations. Centuryply captured the story of their inspiring lives on film, showcasing the triumph of the human spirit. A program was built around this film on YouTube, the number of viewer likes influencing the contribution to these carpenters. The program was promoted through print, electronic, outdoor and digital media to drive YouTube traffic.

Centuryply Laminates Care

Centuryply organised a health camp for carpenters, contractors and their family members - a first-of-its kind activity in the industry. Centuryply commenced this initiative at Sangam Vihar, a prominent Delhi carpenter hub in December 2015, covering 80 families. The initiative was conducted with Max Super Speciality Hospital (Saket). Another health check camp was organised with Medica North Bengal clinic in Siliguri in March 2016, covering 43 contractors and family members, addressing their blood sugar, blood pressure, weight and ECG, among others.

Friends of Tribal Society

Centuryply is committed to support this non-government voluntary organisation dedicated to tribal education, health care and uplift. FTS (1989) was established in Kolkata; it has spread to 27 chapters pan-India. The NGO promotes education through its innovative One Teacher School project, operating in the tribal areas of North East India, Jharkhand, Odisha, West Bengal, Andhra Pradesh, Chattisgarh, Madhya Pradesh, Maharashtra, Gujarat and Rajasthan.

The cause lies in the numbers. About 8 crore tribals in 100,000 villages suffer a literacy rate of only 12% against the national average of 65%. FTS is unique: almost 99% of its schools are 75-100 km from the nearest rural centre and unconnected to motorable roads; the locations suffer deep subsistence issues with per capita income not more than ₹15 per day; the living standards in the locations is still much the way people have lived the last few hundred years.

What makes the FTS model effective is its one teacher-school concept: the teacher needs to be a local resident; the school is run under trees or a room provided by villagers; the education covers three years following which the student is mainstreamed into a

The NGO intends to establish 100,000 Ekal Vidyalayas throughout the country's tribal belt. Centuryply has volunteered support.

Walk for a cause

North East Officers and Professionals Association, in association with Centuryply, organised a walkathon on 10th January, 2016 in Kolkata to aid poor cancer patients from the North East who come to Kolkata for treatment at Tata Medical Center. The event was supported by eminent people of the North-East, including footballer Bhaichung Bhutia. The walkathon. organised in the Maidan area, generated a footfall of around 2,000 people. More than 200 Centuryply employees participated.

Indian Institute of Cerebral Palsy

Realising the importance of early screening and intervention. IICP was the first institute in eastern India to start a comprehensive service to cater to the needs of high-risk infants. Over the years, the service has expanded to cater for the growing number of infants referred to IICP, which has become a premier institution in the field of early detection and intervention for infants with neuro-motor difficulties. The early intervention clinic (EIC) provides guidance on home management in which families with a disabled child is supported by a trans-disciplinary team of therapists, special educators and social workers. An average 350 children at risk of disability or with cerebral palsy and other disabilities were addressed. Centuryply made a contribution to this project.

Achievements of Kolkata Port in 2015-16

- Kolkata Port handled 50.195 million tonnes (mt) of traffic in 2015-16, a growth of 8.43%, outperforming the 4% growth by major Indian ports (April 2015 to February 2016)
- Kolkata Dock System handled record cargo of 16.688 mt in 2015-16, a growth of 9% over 2014-15. KDS also achieved the highest container throughput of 577,749 TEUs in 2015-16, a 9.39% growth over 2014-15.
- KoPT handled 662,891 TEUs in 2015-16, a 5.21% growth in container traffic over 2014-15; it ranked third among major Indian ports in container traffic
- KoPT handled 3,503 ships in 2015-16, the highest among major Indian ports, a 7.22% growth over the previous year.

ised on the opportunity to commission the first privatised container freight station of Kolkata Port. The service offered by Centuryply was fast and transparent with minimal waiting time. The customers received hassle-free service at a reasonable cost with customised offerings.

- The business was EBIDTA-accretive, low-risk and profit directly proportionate to traffic volumes.
- The Company enjoyed a 10-year tax benefit under Section 80IA of the Income Tax Act.

Over the years, the company strengthened this professionally-managed vertical through technology investments. The Company is fully digitising processes for information access and higher transparency.

HOW THE REAL ESTATE INDUSTRY WILL INFLUENCE THE CONSTRUCTION INFRASTRUCTURE SECTOR

The construction infrastructure industry (comprising building materials) rides the growth of the real estate sector

Real estate sector

The real estate sector in the country has been one of the key drivers of the economy. The industry started its journey by focusing to construct upscale to mid-budget housing primarily in the metropolitan and Tier-I cities. As urbanisation accelerated the sector started focusing on building ultra-luxury housing, shopping complexes, theme parks, entertainment zones, amongst others. With the passage of time, the dynamics of the sector started changing and the focus started shifting towards tier II cities. This virtually lay the foundation for mass housing projects.

Impact of the Real Estate Bill

Better organised real-estate sector

Since the real-estate sector in India is unorganised, the Bill will establish state-level authorities called Real Estate Regulatory Authorities (RERAs) to regulate transactions related to residential and commercial projects.

The authority will grade the projects, helping customers make better decisions.

Timely completion and hand-over

The Bill ensures that 70% of the money taken from buyers has to be kept aside in a separate bank account and this money can only be used for construction activities. This will ensure that the sellers don't invest the money received from one project into another project.

Accurate information

As per the bill, it will become mandatory for sellers to disclose all information like project layout, approval, land status, contractors, schedule and completion of project with customers as well as RFRA.

Appropriate punishment

If the developer fails to hand the property over to the buyer on time, then is would be liable to pay the same amount as interest which it charging from the buyer for a delay in payment. Also, the property cannot be sold on the basis of 'super area'. If the developer violates the orders of appellate tribunal, then he/she can get a jail term of up to three years or penalty.

Allottees association and after-sales service

It has been made mandatory to set-up an allottees association within three months of the allotment of major units/properties so that the residents can manage common facilities like a library and a common hall.

Housing for All by 2022

Requirements to achieve the vision by 2022

- By 2022, India needs to develop about 11 crore housing units
- Investments of more than USD 2 trillion or about USD 250 to 260 billion annual investment until 2022
- Investments will need to grow at a CAGR of 12 to 13% (unadjusted for inflation) in 2022

Dividend

The Board, at its meeting held on 8th March, 2016, declared an interim dividend of ₹1/- per equity share (exclusive of applicable Dividend Distribution tax). In view of the ongoing expansion plans and new projects, your Directors have considered it financially prudent in the long-term interests of the Company to reinvest the profits into the business of the Company and as such no further dividend has been recommended for the year ended 31st March, 2016.

Transfer to Reserves

No amount is proposed to be transferred to General Reserves.

Share Capital

The paid up Equity Share Capital of the Company as on 31st March, 2016 was ₹22,25,27,240 divided into 22,21,72,990 Equity Shares of ₹1 each and including ₹3,54,250 received on account of forfeited shares. There has not been any change in the Equity Share Capital of the Company during the Financial Year ended 31st March, 2016. During the year under review, the Company has neither issued shares with differential voting rights nor issued sweat equity or granted stock options.

Indian Economy and State of Company Affairs

The global economy continued to remain under pressure owing to multiple macroeconomic realignments. These include: the slowdown and rebalancing in China; a further decline in commodity prices, especially for oil, with sizable redistributive consequences across sectors and countries; a related slowdown in investment and trade; and declining capital flows to emerging markets and developing economies.

India has been the only bright spot in a dim global economy. India's relative macro outperformance continued in a difficult global environment. The country reported a GDP growth of 7.6% (advanced estimates) in 2015-16, reflecting a turnaround

in the economic activities of the country. The decline in crude prices helped control inflation in the economy. The Government has announced several infrastructure projects and housing projects which will drive the construction sector and allied sectors positively. A Harvard University study has predicted that India is expected to achieve the highest growth rate of more than 7.9% over the next eight years and is well ahead of the anticipated growth in China.

The real estate sector continued to remain weak during the year under review, which also slowed down the allied sectors, including the building material sector. The turnaround has been slower than expected, a factor which led retailers to go slow. This impacted the organisations engaged in the building material business adversely. With the RBI reducing rates along with a turnaround in the infrastructure sector, the real estate segment is expected to report a better performance in the coming years, which will in turn help the building material industry as a whole.

During FY 2015-16, despite afore-mentioned challenging business environment, your Company reported a top-line growth of 5% over the previous year. At Standalone level, the Gross Income stood at ₹ 1799.25 crore as compared to ₹ 1709.54 crore in the previous year. The operations and financial results of the Company are elaborated in the annexed Management Discussion and Analysis.

Future Outlook

The Indian economy is poised for a strong turnaround. Easing the lending rates will augur well in terms of investments in the economy. A host of infrastructural investment-proposals are also expected to drive growth in the coming years. The implementation of GST is a matter of time. The introduction of GST remains a much awaited reform, which will provide numerous benefits to both business and consumers. With the introduction of GST, supply chain inefficiencies will be reduced, inter-state trade will become easy and the market will integrate at a national level. The various initiatives like the 'Make in India' programme and 'Digital India' will further give impetus for growth.

In India, real estate is the second largest employer after agriculture and is slated to grow at 30% over the next decade. The Indian real estate market has become one of the most preferred destinations in Asia Pacific as overseas funds accounted for more than 50% of all investment activity in India in 2014, as compared with just 26% in 2013.

The Indian real estate market is expected to touch US\$ 180 billion by 2020. The housing sector alone contributes 5-6% to the country's Gross Domestic Product (GDP). The Government of India has been supportive to the real estate sector. In August 2015, the Union Cabinet approved 100 'Smart City Projects' in India. The Government has also raised FDI limits for townships and settlements development projects to 100%. Real estate projects within the Special Economic Zone (SEZ) are also permitted a 100% FDI. In Union Budget 2015-16, the government allocated US\$ 3.72 billion for housing and urban development. The government has also released draft guidelines for investments by Real Estate Investment Trusts (REITs) in non-residential segment.

Future Plans of Expansion

In view of the improving market scenario and growing demand for MDF boards, the Board at its Meeting held on 21st July, 2015 approved a proposal for setting-up a greenfield unit for manufacturing Medium Density Fibre (MDF) Board, Plyboard and Block-board in Punjab with an approximate CAPEX of ₹ 405 crore in the first phase. The Company has already acquired and taken possession of the land at Hoshiarpur in Punjab for this purpose and development of the same is under process. Commercial production is expected to commence in the first quarter of the financial year 2017-18.

The construction of the Company's Particle Board unit at Chennai is also in final stage and the unit is expected to

commence commercial production by end of first quarter of the financial year 2016-17.

The Company is investing heavily on raw-material security, distribution network, positioning of brand and its human capital. The Company, through its subsidiaries in Singapore, Laos and Indonesia, is exploring and entering into purchase arrangements with various entities for securing availability of raw materials from various parts of Laos and Indonesia.

The Company has also entered into economy segment product through its secondary brand "Sainik', enabling it to penetrate smaller cities and rural markets.

Sajjan Bhajanka Chairman and Managing Director

Remuneration Policy

1. Preamble

- 1.1 The Remuneration Policy provides a framework for remuneration paid to the members of the Board of Directors ("Board"), Key Managerial Personnel ("KMP") and the Senior Management Personnel ("SMP") of the Company (collectively referred to as "Executives"). The expression "senior management" means personnel of the Company who are members of its core management team excluding Board of Directors comprising all members of management one level below the executive directors, including the functional heads.
- 1.2 The policy will be reviewed every year by the Nomination and Remuneration Committee of the Board of Directors.

2. Aims & Objectives

The aims and objectives of this remuneration policy may be summarized as follows:

- 2.1 The remuneration policy aims to enable the Company to attract, retain and motivate highly qualified members for the Board and other executive level.
- 2.2 The remuneration policy seeks to enable the Company to provide a wellbalanced and performance-related compensation package, taking into account shareholder interests, industry standards and relevant Indian corporate regulations.
- 2.3 The remuneration policy will ensure that the interests of Board members & senior executives are aligned with the business strategy and risk tolerance, objectives, values and long-term interests of the Company and will be consistent with the "pay-for-performance" principle.
- 2.4 The remuneration policy will ensure that remuneration to directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and longterm performance objectives appropriate to the

working of the Company and its goals.

3. Principles of remuneration

- 3.1 Support for Strategic Objectives: Remuneration and reward frameworks and decisions shall be developed in a manner that is consistent with, supports and reinforces the achievement of the Company's vision and strategy.
- 3.2 Transparency: The process of remuneration management shall be transparent, conducted in good faith and in accordance with appropriate levels of confidentiality.
- 3.3 Internal equity: The Company shall remunerate the board members, KMP and senior management in terms of their roles within the organisation. Positions shall be formally evaluated to determine their relative weight in relation to other positions within the Company.
- 3.4 External equity: The Company strives to pay an equitable remuneration, capable of attracting and retaining high quality personnel. Therefore the Company will remain logically mindful of the ongoing need to attract and retain high quality people and the influence of external remuneration pressures. Reference to external market norms will be made using appropriate market sources, including relevant and comparative survey data, as determined to have meaning to the Company's remuneration practices at that time.
- 3.5 **Flexibility:** Remuneration and reward offerings shall be sufficiently flexible to meet both the needs of individuals and those of the Company whilst complying with relevant tax and other legislation.
- 3.6 **Performance-Driven Remuneration:** The Company shall entrench a culture of performance driven remuneration through the implementation of the Performance Incentive System.
- 3.7 Affordability and Sustainability: The Company shall ensure that remuneration is affordable on a sustainable basis.

4. Nomination and Remuneration Committee

- 4.1 Members of the Committee shall be appointed by the Board and shall comprise of three or more non-executive directors out of which not less than one-half shall be independent directors.
- 4.2 The Committee shall be responsible for
- 4.2.1 Formulating framework and / or policy for remuneration, terms of employment and any changes, including service contracts, remuneration, policy for and scope of pension arrangements, etc for Executives and reviewing it on a periodic basis;
- 4.2.2 Formulate the criteria for determining qualifications, positive attributes and independence of a director and recommend to the Board a policy, relating to the remuneration for the Executives.
- 4.2.3 Identifying persons who are qualified to become Directors and who may be appointed in Senior Management in accordance with the criteria laid down in this policy, recommend to the Board their appointment and removal and carry out evaluation of every director's performance.
- 4.2.4 Formulating terms for cessation of employment and ensure that any payments made are fair to the individual and the Company, that failure is not rewarded and that the duty to mitigate loss is fully recognised;
- 4.3 The Committee shall:
- 4.3.1 review the ongoing appropriateness and relevance of the remuneration policy;
- 4.3.2 ensure that all provisions regarding disclosure of remuneration, including pensions, are fulfilled;
- 4.3.3 obtain reliable, up-to-date information about remuneration in other companies;
- 4.3.4 ensure that no director or executive is involved in any decisions as to their own remuneration.
- 4.4 Without prejudice to the generality of the terms of reference of the Remuneration Committee set out above, the Remuneration Committee shall:
- 4.4.1 operate the Company's share option schemes (if

- any) or other incentives schemes (if any) as they apply to. It shall recommend to the Board the total aggregate amount of any grants to employees (with the specific grants to individuals to be at the discretion of the Board) and make amendments to the terms of such schemes (subject to the provisions of the schemes relating to amendment);
- 4.4.2 liaise with the trustee / custodian of any employee share scheme which is created by the Company for the benefit of employees or Directors; and
- 4.4.3 review the terms of Executive Directors' service contracts from time to time.

5. Procedure for selection and appointment of the Board Members

- 5.1 Board membership criteria
- 5.1.1. The Committee, along with the Board, reviews on an annual basis, appropriate skills, characteristics and experience required of the Board as a whole and its individual members. The objective is to have a Board with diverse background and experience in business, government, academics, technology and in areas that are relevant for the Company's global operations.
- 5.1.2. In evaluating the suitability of individual Board members, the Committee takes into account many factors, including general understanding of the Company's business dynamics, global business and social perspective, educational and professional background and personal achievements. Directors must possess experience at policy-making and operational levels in large organizations with significant international activities that will indicate their ability to make meaningful contributions to the Board's discussion and decision-making in the array of complex issues facing the Company.
- 5.1.3. Director should possess the highest personal and professional ethics, integrity and values. They should be able to balance the legitimate interest and concerns of all the Company's stakeholders in arriving at decisions, rather than advancing the interests of a particular constituency.

- 5.1.4. In addition, Directors must be willing to devote sufficient time and energy in carrying out their duties and responsibilities effectively. They must have the aptitude to critically evaluate management's working as part of a team in an environment of collegiality and trust.
- 5.1.5. The Committee evaluates each individual with the objective of having a group that best enables the success of the Company's business.
- 5.2. Selection of Board Members/ extending invitation to a potential director to join the Board
- 5.2.1. One of the roles of the Committee is to periodically identify competency gaps in the Board, evaluate potential candidates as per the criteria laid above, ascertain their availability and make suitable recommendations to the Board. The objective is to ensure that the Company's Board is appropriate at all points of time to be able to take decisions commensurate with the size and scale of operations of the Company. The Committee also identifies suitable candidates in the event of a vacancy being created on the Board on account of retirement, resignation or demise of an existing Board member. Based on the recommendations of the Committee, the Board evaluates the candidate(s) and decides on the selection of the appropriate member.
- 5.2.2. The Board then makes an invitation (verbal / written) to the new member to join the Board as a Director.

 On acceptance of the same, the new Director is appointed by the Board.

6. Procedure for selection and appointment of Executives other than Board Members

- 6.1 The Committee shall actively liaise with the relevant departments of the Company to study the requirement for management personnel and produce a written document thereon;
- 6.2 The Committee may conduct a wide-ranging search for candidates for the positions of KMP and SMP within the Company, within enterprises controlled by the Company or within enterprises in which the Company holds equity and on the human resources

market:

- 6.3 The professional, academic qualifications, professional titles, detailed work experience and all concurrently held positions of the initial candidates shall be compiled as a written document;
- 6.4 A meeting of the Committee shall be convened, and the qualifications of the initial candidates shall be examined on the basis of the conditions for appointment of KMP and SMP;
- 6.5 Before the selection of KMP or SMP, the recommendations of and relevant information on the relevant candidate(s) shall be submitted to the Board of Directors;
- 6.6 The Committee shall carry out other follow-up tasks based on the decisions of and feedback from the Board of Directors.

7. Compensation Structure

- 7.1 Remuneration to Non-Executive Directors:
 - The Non-executive Directors of the Company are paid remuneration by way of sitting fees only for attending the meetings of the Board of Directors and its Committees. The said sitting fees paid to the Non-executive Directors for the Board Meetings and Committee meetings are fixed by the Board and reviewed from time to time in accordance with applicable law. The Non-executive Directors shall also be paid such commission as the Board may approve from time to time subject to the limits prescribed in the Act or Rules made thereunder and approved by the shareholders.
- 7.2 Remuneration to Executive Directors, Key Managerial Personnel(s) (KMPs) & Senior Management Personnel(s) (SMPs):
 - The Company has a credible and transparent framework in determining and accounting for the remuneration of the Managing Director/Whole Time Directors (MD/WTDs), Key Managerial Personnel(s) (KMPs) and Senior Management Personnel(s) (SMPs). Their remuneration are governed by the external competitive environment, track record, potential, individual performance and performance

of the Company as well as industry standards. The remuneration determined for MD/WTDs are approved by the Board of Directors and members at the next general meeting of the Company and by the Central Government in case such appointment is at variance to the conditions specified in Schedule V of the Companies Act, 2013. As a policy, the Executive Directors are neither paid sitting fee nor any commission.

8 Role of Independent Directors

- 8.1 The Committee shall, in consultation with the Independent Directors of the Company, prepare and submit this policy to the Board for its approval.
- 8.2 The Independent Directors shall have power and authority to determine appropriate levels of remuneration of Executive Directors, Key Managerial Personnel and Senior Management and have a prime role in appointing and where necessary recommend removal of Executive Directors, Key Managerial Personnel and Senior Management.
- 8.3 The Independent Directors shall submit its recommendations / proposals / decisions to the Committee which the Committee shall consult and take to the Board of Directors.

There were no Penalties/ Punishment/ Compounding of offences for breach of any provisions of the Companies Act, 2013 against the Company or its Directors or other officer in default, during the year.

Sajjan Bhajanka Chairman and Managing Director

Annexure - 8

Disclosure of the particulars with respect to conservation of energy, technology absorption and foreign exchange earnings and outgo as required under Section 134(3) (m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014.

A. Conservation of Energy

- (i) The Company adopted the following measures towards conservation of energy:
 - Energy meters installed at all location to monitor/ control for power optimum utilisation.
 - Resin plant floor washing waste water are being reused in resin preparation.
 - Resin formulations changed to avoid vacuum distillation thus no effluent water is discharged.
 - Installation of wet scrubbers for air pollution control installed in lamination plant.
 - Auto control capacitor panels installed for maintaining power factor as per norms.
 - Variable frequency drives installed operate ID fan at reduced speed to avoid heat loss and save power.
 - The electric distribution network is periodically analysed for corrective and proactive measures to optimise energy usage, ensuring an effective and efficient system of energy distribution.
 - Yearly energy audit is conducted and recommendations are implemented to obtain optimum utilisation.
 - Installation of electrical parameters for monitoring of different sections for power control.
 - Changed over supply power from 11 KV to 33 KV which minimised drastically the load shedding and the operation of generators. Moreover, the quality of voltage is steady minimising the damage to motors.
 - Installation of sky light sheet which enabled to switch off the lighting system during day time.
 - Installation of turbo vents to improve air circulation without electrical energy.
 - Rain water harvesting-all rain water collected and stored.

- There is a gradual shift towards installation of LED lighting by phasing out conventional Tube Lights/ Sodium/Mercury Halogen lights. As a result of which, there is a reduction of 20KW in lighting load.
- (ii) The steps taken by the Company for utilising alternate sources of energy:

Increased the turbo vents for better air circulation without electrical energy.

(iii) Additional investments including Capital Investments on equipment and proposals, if any:

Investments, wherever required, for conservation of energy are proactively made by the Company. The Company has a continuous process to monitor and explore ways and means for conservation of energy.

B. Technology Absorption

- (i) Efforts made towards technology absorption:
 - The Company is carrying out in-house research to develop new and better products and also to improvise the quality of existing products.
 - The Company is regularly trying to increase usage of environmentally safe ingredients in its products.
 - The Company is working to control/reduce formaldehyde emission from plywood and HPL by improved glue formulation.
 - Correction module has been installed to control board density across width.
 - Manufacturing process/parameters are continuously monitored and modified wherever required to ensure better productivity both in terms of quantity and quality.
 - Collaboration with different research laboratories for development of innovative products.
 - Adopted Nano Technology for producing anti-bacterial and anti-fungal Laminates and Plywood.
 - Introducing Nano Technology shortly in Plywood and Laminates to produce Fire Retardant properties,

currently under development.

- Developed new resin manufacturing technology to avoid vacuum distillation at final stage to avoid liquid effluent discharge.
- Setting up a quality assurance cell to ensure the dispatch of only goods produced under strict process control with specific standard notifications from the factory.
- Participating in national and international conferences, seminars and exhibitions.
- Analysing feedback from users to improve products and services.

(ii) Benefits derived:

- Improved product quality and quantity
- Cost reduction, technology up-gradation
- Reduction in manufacturing time

- Customer satisfaction by delivery of diversified range of products
- Better utilisation of resources through improved processes

(iii) Details of Imported Technology:

The Company has not imported technology during the last three years and wherever required, the Company takes guidance from technical experts as well as from suppliers of machinery within India.

(iv) Expenditure on R&D:

During the year under review, the Company has not incurred any specific and material capital/recurring expenditure on research and development. Research and Development is carried out inhouse using the existing manufacturing setup. The Company is a member of Indian Plywood Industries Research and Training Institute (IPIRTI) and has contributed ₹ 18,000 to it. The technologies used by the Company are indigenous.

MANAGEMENT DISCUSSION AND ANALYSIS

Indian economic overview

The Indian economy is expected to record a five-year high growth rate of 7.6% in 2015-16 on the back of improved performances from the manufacturing and agricultural sectors.

The CSO pegged India's GDP growth rate at 7.3% for the October-December quarter and revised the GDP growth estimates for April-June and July-September quarters to 7.6% and 7.7% from the initial estimates of 7% and 7.4%, respectively.

The growth rate of 7.6% would be the fastest in the last five years. The previous high of 8.9% was recorded in 2010-11. Real gross value addition, a new concept introduced by the CSO to measure economic growth, is projected at 7.3% in this fiscal against 7.1% in 2014-15.

The manufacturing sector is estimated to grow at 9.5% in 2015-16, up from 5.5% a year ago. The agricultural sector too is projected to grow at a rate of 1.1% compared to a decline of 0.2% a year ago.

Industry structure and developments

Wood panel products

Wood panel products comprise materials used in making furniture, such as plywood, laminates, medium density fibre boards and decorative veneers. Plywood and medium density fibre boards form the backbone of the Indian furniture space, whereas laminates and decorative veneers are surfacing products which are used for decorative purposes and are being increasingly embraced across socioeconomic milieus. The Indian wood panel market is valued at ₹28,500 crore. Plywood has a share of 63% (₹18,000 crore).

Plywood

The Indian plywood industry is over 75 years old. From producing tea chests, it has evolved over the years to emerge as a versatile interior decoration solution. A 70% share of the

₹18,000 crore industry is held by unorganised players and the rest by organised ones. The organised segment has been growing at a CAGR of 12-15% while the overall plywood industry has grown at a CAGR of 4-6% over the last five years. Plywood demand is all set to get a boost following a number of decisive initiatives undertaken by the Central Government like 'Smart Cities'. As against a 5-6% growth seen in FY2015-16, a double-digit growth is expected to transpire during the current fiscal.

To manufacture plywood, three critical raw materials are needed: face veneers, core and panel veneers and chemicals. The top and bottom layers of plywood utilise face veneers. Core and panel veneers form the intermediate layers. Face veneer is imported predominantly from Myanmar. Core timber and veneer is available abundantly in India. Chemicals are imported or procured from domestic suppliers, depending upon the price. India's plywood industry is likely to reach a market value of ₹479.7 billion by 2019. This growth in the plywood market is expected to be led by a surge in the growth of commercial and domestic developments. [Source: news-pr.in and capitalmarket.com]

*Distribution channels

Distribution channels within the plywood industry comprises of dealers who are responsible for maintaining optimum levels of inventory. These distribution channels comprise of carpenter and architectural channels, retail-store channels, government offices channels, corporate channels as well as real estate and builders channels, among others.

*Raw material security

The key RMs for plywood manufacturing comprise of:

- 1. Face veneer, the outer and back layer of plywood
- 2. Core timber
- 3. Chemicals

Raw timber was principally imported from Myanmar until the country imposed an export ban in April 2014. At present, Myanmar allows only processed timber exports. This affected the Indian domestic plywood industry significantly, motivating companies like Century Plyboards to set up independent veneer plants in Myanmar.

GST – A potential game changer for the organised segment

The implementation of the GST (goods and service tax) is expected to bring down the large indirect tax differential between the unorganised and the organised players (18% compared to the current 23-24%). The price advantage enjoyed by the unorganised manufacturers will diminish gradually, making high-quality plywood competitive. This is also likely to allow branded players to tap into the low-cost unorganised segment, which is twice as big as the organised one. Consequently, players in the organised segment are readying themselves to service demand from the mid-priced segments, either captively or by entering into JVs with smaller players. [Source: Capital Market]

Laminates

The past few years have been witness to the growing ubiquity of laminates for furniture and cabinetry. They are preferred over wood and paint for the wide range of choices on offer, their aesthetic appeal, ease of installation and maintenance and their cost-effectiveness. Furthermore, laminates are stain-proof and resistant to light acids, steam, moisture and abrasion. Indian laminates market is pegged at around ₹3,500 crore and exports amounts to nearly ₹800 crore.

[Source: Economic Times]

MDF

MDF is a superior substitute for cheap unbranded plywood and demand for it is being driven by a penchant for readymade

modular furniture among the young and the aspiring who are eager on aestheticising their interiors. Moreover, with ready-to-move-in offices and retail outlets mushrooming across the country, the prospects for this sector look brighter than ever. The MDF market is estimatedly worth ~₹35 billion in India and has grown at a CAGR of ~5-8% over the last five years. The Central Government's decision to withhold fresh licenses for the manufacture of plywood has widened the gap between demand and supply. This is a positive development for the MDF industry and will increase the use of engineered panel products. [Source: Capital Market]

Furniture industry

The Indian furniture industry is estimated to be worth ~₹48,000 crore and is growing at a rate of 25% annually. ~85% share of the home furnishing industry is held by unorganised players. However, according to a study by World Bank, India's organised furniture industry is expected to grow by 20% per annum over the next few years and is projected to cross US\$ 32 billion by 2019. Moreover, the anticipated increase in tourism, hospitality, retail and medical sectors is also expected to spur furniture demand in the country. The expected rise in demand in the residential realty vertical is pegged as high as 20%. The home furniture market will witness concurrent levels of growth over the next five years, with office and institutional segments remaining not too far behind. [Source: Capital Market]

Opportunities and threats

Opportunities

- *Potential housing and infrastructure boom including housing schemes offered by the government
- *Supportive government policies such as GST, reduction in excise duty, etc.
- *Ready-made furniture segment
- *Tier-II/III penetration
- *Pick-up in commercial market

Threats

- *Raw material linkages
- *Foreign exchange volatility
- *Labour intensive
- *Unorganised sector dominance
- *Environmental regulations
- *Rising acceptance of MDF
- *Counterfeits
- *Sluggish off take in housing
- *Delay in GST implementation

Outlook and optimism

*Revival of the real estate segment: Over the years, there has been a steady shift in employment patterns—from agriculture to manufacturing, which in turn has fuelled the rate of urbanisation and demand for real estate. The demand for housing will receive a shot in the arm with Central Government's 'Housing for all by 2022' initiative which will also drive investment and spur demand for modern interiors.

*Evolving demographic profiles: The average age of the Indian population is a mere 24 years. Add to this the fact that these individuals are armed with progressively larger wallets (from ₹80,388 in FY14 to ₹88,533 in FY15) means that disposable incomes are on the rise. Nuclear families are the new normal in India, further catalysing the need for quality housing and stylish interiors. The Central Government is all set to implement the recommendations of the 7th Pay Commission in FY16 and the prompt implementation of OROP (one rank one pension). The New Pay Commission will result in substantial increment of around 24% in current salaries of employees as well as pensioners, translating into an incremental demand for interior decor products.

*Increased investments in corporate real estate: GDP growth and relaxation of FDI in real estate is expected to result in the demand for office space burgeoning. Moreover, an increasing number of corporate offices are being set up in Tier-II and III locations shooting up demand for office furniture in hitherto untapped territories.

*Booming hospitality sector: The hospitality segment in India is witnessing a robust growth in demand propelled by rising incidence of business and leisure travel. This opportunity is being seized with both hands by hoteliers, and several highend hotel projects are in the pipeline. With several other budget hotels, service apartments, spas and other niche centres getting

established pan-India, the demand for interior furniture will see a proportionate increase.

Logistics

Overview and outlook

The Indian ports and shipping industry plays a vital role in sustaining trade and commerce. Around 95% of India's trade by volume and 70% by value takes place through maritime channels. The logistics business is intimately intertwined with growth in economic activity and the industry is estimated to have grown at a rate of \sim 15% in the last five years. The industry is largely dominated by unorganised players due to complex tax structures and lack of a world-class infrastructure.

In 2015-16, the rising freight volumes of coal (10%), fertilisers (19.6%), edible oil (20.6%), other liquids (10.9%), other goods (6.4%), and iron and steel (17.7%) is expected to encourage a corresponding growth of cargo traffic by 4.2% at major ports. In contradiction, the steep fall in iron ore traffic by 31.8% and slow growth of 2.5% in container cargo is likely to adversely affect the growth of overall cargo traffic during the year under review.

Additionally, overall cargo volumes at major ports calculated to remain high in 2016-17. Large volume commodities such as petroleum, oil and lubricants (POL), loaded by major ports, is expected to grow by 2.3% to reach 198 million tonnes. The rising consumption of petroleum products and removal of sanctions imposed on Iran are factors that will contribute to this growth.

The container cargo traffic growth is expected to improve by 5.3% to reach 128.9 million tonnes in 2015-16, significantly higher than the past volumes. As per IMF's World Economic Outlook (WEO) update, the global economy, which was subdued in 2015, is expected to slowly improve over the coming years. Correspondingly, trade of commodities like capital goods, automobiles, textiles and electronic goods (those mainly transported by containerization processes) will improve. In addition, 2016-17 is expected to show a y-o-y growth of 10% in other goods cargo, increasing volumes from 80.9 million tonnes (estimated) to 89 million tonnes.

Segment-wise performance

Plywood: Revenues from plywood business reported a growth of 2.94% from ₹1,243.06 crore in 2014-15 to ₹1,279.59 crore in 2015-16. The Company maintained its market share despite the overall industry remained muted owing to slow growth in the downstream sectors.

Laminates: Laminates reported a growth of 14.20% from ₹321.27 crore in 2014-15 to ₹366.89 crore in 2015-16. Value-added and premium quality products drove business in this segment.

Logistics: Revenues from the logistics sector reported a 12.50% growth from ₹75.42 crore in 2014-15 to ₹84.85 crore in 2015-16.

Remuneration policy

The Board is responsible for approving and overseeing implementation of the Remuneration Policy and the same is reviewed and reassessed by the Nomination and Remuneration Committee as and when required and found appropriate. Recommendations are made to the Board to update the Policy based on changes that may be brought about due to any regulatory amendments, industry trends or otherwise. The remuneration of Directors, Key Managerial Personnel and all other employees is based on competency, contribution and commitment demonstrated by them towards the Company.

Nomination and Remuneration Committee recommends the remuneration for the Executive Directors and Key Managerial Personnel and the same is then approved by the Board and Shareholders, where required. The remuneration paid to Executive Directors is determined keeping in view the industry benchmark, the relative performance of the Company to the industry performance. Independent Non-Executive Directors are appointed for their professional expertise in their individual capacity as individual Professionals / Business Executives.

Independent Non-Executive Directors receives sitting fees for each meeting of the Board and Committee of the Board

attended by him, of such sum as may be approved by the Board of Directors within the overall limits prescribed under the Companies Act, 2013 and The Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014.

The Independent Non-Executive Directors are also entitled to receive commission, of such sum as may be approved by the Board within the overall limits approved by the shareholders. Presently, the total commission payable to them shall not exceed 1% of the net profits of the Company during each Financial Year subject to a maximum of ₹1 lac per annum.

The Independent Directors of the Company are not entitled to participate in Stock Option Scheme of the Company, if any, introduced by the Company.

The Remuneration Policy has been published elsewhere in this Report as an Annexure to the Directors Report.

Criteria of making payments to Non-Executive Directors

With changes in the Corporate Governance norms brought by the Companies Act, 2013 as well as the Listing Regulations, the role of Non-Executive Directors particularly the Independent Directors and the degree and quality of their engagement with the Board and the Company has undergone significant changes. The Company is being hugely benefited from their expertise, advice and inputs. They devote their valuable time in deliberating on the strategic and critical issues in the course of the Board and Committee meetings of the Company and give their valuable advice, suggestions and guidance to the management of the Company from time to time.

The Company believes that the remuneration paid to its Non-Executive Independent Directors should be reflective of the size of the Company and complexity of the sector/industry/ Company's operations and should be consistent with recognised best practices. Overall remuneration (sitting fees and commission) should be reasonable and sufficient to attract, retain and motivate Directors aligned to the requirements of the Company, taking into consideration the challenges faced by the Company and its future growth imperative.

Contribution of the Non-Executive Directors in Board and Committee Meetings, time devoted by them, participation in strategic decision making, timely guidance to the Board on important policy matters of the Company, performance of the Company and industry practices and benchmarks forms the main criteria for determining payments to Non-Executive

Directors.

Pecuniary relationship of Non-Executive Directors

The Company has no pecuniary relationship or transaction with its Non-Executive and Independent Directors other than payment of sitting fees to them for attending Board and Committee meetings and Commission as approved by members for their valuable services rendered to the Company and reimbursement of their travelling expenses for this purpose.

Sitting fees

Non-Executive Directors are paid a sitting fee of ₹30,000/for each Board meeting and ₹15,000/- for each Committee meeting attended by them. These fees have been decided taking into consideration the extent of business transacted at various meetings.

Commission

Commission not exceeding in aggregate one percent of the net profits of the Company for each financial year, as computed in the manner laid down in Section 198 of the Companies Act, 2013, subject to a maximum of ₹1,00,000 per Director is paid to all Non-Executive Directors. This is based on the premise that Non-Executive Directors, drawn from various fields, have necessary expertise and they all contribute in some way or the other in making Board / Committee procedures effective and fruitful, essential for the growth of the Company.

Independent Auditor's Report

TO
THE MEMBERS OF
CENTURY PLYBOARDS (INDIA) LIMITED

Report on the Standalone Financial Statements

 We have audited the accompanying standalone financial statements of Century Plyboards (India) Limited ('the Company'), which comprise the Balance Sheet as at 31st March 2016, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We

- conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
- 4. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.
- 5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

6. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2016 and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

7. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in the paragraph 3 and 4 of the Order.

- 8. As required by Section 143 (3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this report are in agreement with the books of account;
 - d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
 - e) On the basis of the written representations received from the directors as on 31st March 2016 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2016 from being appointed as a director in terms of Section 164 (2) of the Act:
 - With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in 'Annexure B'; and

- With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - The Company has disclosed the impact of pending litigations on its financial position in its financial statements as stated in Note 27 to the financial statements:
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts to the Investor Education and Protection Fund by the Company.

(Referred to in paragraph 8 (f) with the heading 'Report on Other Legal and Regulatory Requirements' section of our report of even date in respect to statutory audit of Century Plyboards (India) Limited for the year ended 31st March 2016)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

 We have audited the internal financial controls over financial reporting of Century Plyboards (India) Limited ('the Company') as of 31st March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants

- of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
- We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

6. A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial

statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1.0 Corporate Information

Century Plyboards (India) Ltd. (the Company) is a public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on National Stock Exchange of India Ltd. and BSE Ltd. The Company is primarily engaged in manufacturing and sale of Plywood, Laminates, Decorative Veneers, Pre-laminated boards and Flush Doors and providing Container Freight Station services. The Company presently has manufacturing facilities near Kolkata, Karnal, Guwahati, Kandla and Chennai. Container Freight station is located near Kolkata port.

1.1 Significant Accounting Policies

(i) Basis of Preparation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the Accounting Standards as prescribed under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention on an accrual basis. The accounting policies applied by the Company are consistent with those used in the previous year.

(ii) Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

(iii) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

- (a) Revenue from sale of goods is recognized upon passage of title which generally coincides with delivery of materials to the customers. The Company collects sales taxes and value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenues. Excise duty deducted from revenue (Gross) is the amount that is included in the revenue (Gross) and not the entire amount of liability arising during the year.
 - Sales figures are net of rebates and discounts.
- (b) Revenue from services are recognized pro-rata as and when the services are rendered. The company collects service tax on behalf of the government and therefore, it is not an economic benefit flowing to the company and hence excluded from revenue.
- (c) Dividend Income is recognized when the company's right to receive the payment is established by the balance sheet date.
- (d) Interest income is recognized on a time proportion basis taking into account the amount outstanding and rate applicable.
- (e) Insurance and other claims are accounted for as and when accepted.

(iv) Fixed Assets

Fixed Assets are stated at cost or revalued amount, as the case may be, less accumulated depreciation / amortisation and cumulative impairment, if any. Cost comprises the purchase price inclusive of duties (net of cenvat / VAT), taxes, incidental expenses and erection / commissioning expenses etc. up to the date, the asset is ready for its intended use. In case of revaluation of fixed assets, the original cost as written-up by the valuer, is considered in the accounts and the differential amount is transferred to revaluation reserve.

Machinery spares which can be used only in connection with an item of fixed assets and whose use as per technical assessment is expected to be irregular, are capitalized and depreciated over the residual life of the respective assets.

(v) Impairment of Assets

The carrying amounts of assets are reviewed at each balance sheet date to determine if there is any indication of impairment based on external/internal factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price and 'Value in use' of the assets. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

(vi) Depreciation/Amortisation

- (a) Depreciation on fixed assets is provided under Written Down Value method at the rates determined based on useful lives of the respective assets and residual values in accordance with Schedule II of the Companies Act, 2013.
- (b) Depreciation on fixed assets added / disposed of during the year is provided on pro-rata basis with reference to the date of addition / disposal.
- (c) Leasehold properties are depreciated over the useful life, lease term i.e. 15 years.
- (d) Intangible assets (Computer Software) are amortised on a Written Down Value method over a period of 5 years.
- (e) In case of impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

(vii) Foreign Currency Transactions

(a) Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount, the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(b) Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction, and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined. Investments in foreign companies are considered at the exchange rates prevailing on the date of their acquisition.

(c) Exchange Differences

Exchange differences arising on the settlement / conversion of monetary items are recognized as income or expenses in the year in which they arise.

(viii) Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as Current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and market value on individual investment basis. Long term Investments are considered at cost, unless there is an "other than temporary" decline in value, in which case adequate provision is made for the diminution in the value of Investments.

(ix) Inventories

Raw Materials, stores and spares are valued at lower of cost and net realizable value. However, these items are considered to be realizable at cost if the finished products, in which they will be used, are expected to be sold at or above cost.

Work in progress, finished goods and stock in trade are valued at lower of cost and net realisable value. Cost includes direct materials & labour and a part of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty.

Cost of Inventories is computed on weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(x) Government Grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with.

- (a) When the grant or subsidies relates to an expense item, it is recognized as income over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate.
- (b) When the grant or subsidy relates to an asset, it is deducted from the gross value of the asset concerned in arriving at the carrying amount of related asset.
- (c) Government grants of the nature of promoter's contribution are credited to capital reserve and treated as a part of the shareholders funds.

(xi) Retirement and other employee benefits

- (a) Retirement benefit in the form of Provident Fund is a defined contribution scheme and the company recognizes contribution payable to the provident fund scheme as an expenditure when an employee renders the related service. The Company has no obligations other than the contribution payable to the respective funds.
- (b) Gratuity liability, being a defined benefit obligation, is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year.
- (c) Short term compensated absences are provided for based on estimates.
- (d) The Company treats accumulated leaves expected to be carried forward beyond twelve months as long term employee benefit for measurement purposes. Such long term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the end of each financial year. The Company does not have an unconditional right to defer the settlement for the period beyond 12 months and accordingly entire leave liability is shown as current liability.
- (e) Actuarial gains / losses are immediately taken to the statement of profit and loss and are not deferred.

(xii) Earning per Share

Basic Earning per Share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deductible preference dividend and attributable taxes) by the weighted number of equity shares outstanding during the year.

For the purpose of calculating diluted earning per share, net profit or loss for the year attributable to equity share holders and the weighted average number of shares outstanding during the year are adjusted for the effect of all dilutive potential equity shares.

(xiii) Excise Duty and Custom Duty

Excise duty on finished goods stock lying at the factories is accounted for at the point of manufacture of goods and accordingly, is considered for valuation of finished goods stock lying in the factories as on the balance sheet date. Similarly, customs duty on imported material in transit/lying in bonded warehouse is accounted for at the time of import/bonding of materials.

(xiv) Borrowing Costs

Borrowing costs includes interest, amortization of ancillary costs incurred in connection with the arrangements of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing cost directly attributable to the acquisition, construction of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur.

(xv) Taxation

Tax expenses comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. Deferred income taxes reflect the impact of current year timing differences between taxable income for the year and reversal of timing differences of earlier years.

The deferred tax for timing differences between the book and tax profits for the year is accounted for using the tax rates and laws that have been substantively enacted as of the Balance Sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. If the company has carry forward unabsorbed depreciation and tax losses, deferred tax assets are recognized only to the extent there is virtual certainty supported by convincing evidence that sufficient taxable income will be available against which such deferred tax asset can be realized.

The carrying amounts of deferred tax assets are reviewed at each balance sheet date. The company writes-down the carrying amount of deferred tax assets to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Minimum Alternate Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the Minimum Alternate Tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendation contained in guidance note issued by the Institute of Chartered Accountants of India, the said assets is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement. The company reviews the carrying amount of MAT at each Balance Sheet date and writes down MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the company will pay normal income-tax during specified period.

(xvi) Segment Reporting

a) Identification of segments:

The company has identified that its business segments are the primary segments. The Company's business are organized and managed separately according to the nature of products/services, with each segment representing a strategic business unit that offers different product / services and serves different markets. The analysis of geographical segments is based on geographical locations of customers.

b) Inter segment transfers:

The Company generally accounts for intersegment sales and transfers at current market prices.

c) Allocation of Common Costs:

Common allocable costs are allocated to each segment on case to case basis applying the ratio, appropriate to each relevant case. Revenue and expenses, which relates to the enterprise as a whole and are not allocable to segment on a reasonable basis, have been included under the head "Unallocated".

The accounting policies adopted for segment reporting are in line with those of the Company's accounting policies.

(xvii) Fixed Assets Acquired under Lease

(a) Finance Lease

Assets acquired under lease agreements which effectively transfer to the company substantially all the risks and benefits incidental to ownership of the leased items, are capitalized at the lower of the fair value and present value of minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments are apportioned between the finance charges and the reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of their liability. Finance charges are charged directly to the expenses account.

(b) Operating Lease

Leases where the lessor effectively retains substantially all the risks and benefits of the ownership of the leased assets are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of profit and loss on a straight line basis.

(xviii) Derivative Instruments

The Company uses forward exchange contracts to hedge its risks associated with foreign currency fluctuations relating to the underlying transactions, highly probable forecast transactions and firm commitments. In respect of forwards exchange contracts with underlying transactions, the premium or discount arising at the inception of such contract is amortized as expense or income over the life of contract. Other forwards exchange contracts outstanding at the Balance Sheet date are marked to market and in case of loss the same is provided for in the financial statement. Any profit or losses arising on cancellation of forward exchange contracts are recognised as income or expense for the period.

(xix) Cash and Cash equivalents

Cash and cash equivalents in the cash flow statement comprise of cash at bank and in hand and short-term investments with an original maturity of three months or less.

(xx) Provision

A provision is recognized when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions made in terms of Accounting Standard 29 are not discounted to their present value and are determined based on best estimates required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

(xxi) Contingent Liabilities & Contingent Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements. Contingent Assets are neither recognized or disclosed in the financial statements.

CONSOLIDATED FINANCIAL STATEMENTS

Independent Auditor's Report

TO
THE MEMBERS OF
CENTURY PLYBOARDS (INDIA) LIMITED

Report on the Consolidated Financial Statements

 We have audited the accompanying consolidated financial statements of Century Plyboards (India) Limited ('the Holding Company') and its subsidiaries (collectively hereinafter referred to as "the Group") comprising of the Consolidated Balance Sheet as at 31st March 2016, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information ('the consolidated financial statements').

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 ('the Act') that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the Companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

- 4. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.
- 5. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 7 on 'Other Matters' below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

6. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs

DIRECTORS' REPORTS

of the Company as at 31st March 2016 and its profit and its cash flows for the year ended on that date.

Other Matters

7. We did not audit the financial statements / financial information of ten subsidiaries whose financial statements / financial information reflect total assets of Rs. 3326 lacs as at 31st March, 2016, total revenues of Rs. 500 lacs and net cash outflow amounting to Rs. 57 lacs for the year ended on that date, as considered in the consolidated financial statements. This financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

- 8. As required by sub-section 3 of Section 143 of the Act, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - c) The consolidated balance sheet, the consolidated statement of profit and loss, and the consolidated cash flow statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - On the basis of the written representations received from the directors of the Holding Company as on

31st March 2016 taken on record by the Board of Directors of the Holding Company and the report of the statutory auditors of its subsidiary companies incorporated in India, none of the Directors of the Group incorporated in India is disqualified as on 31 March 2016 from being appointed as a Director of that company in terms of sub-section 2 of Section 164 of the Act.

- With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate report in "Annexure A"; and
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group. Refer Note 30 to the consolidated financial statements;
 - The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and subsidiary companies incorporated in India.

Annexure - A to the Independent Auditor's Report

(Referred to in paragraph 8 (f) with the heading 'Report on Other Legal and Regulatory Requirements' section of our report of even date in respect to statutory audit of Century Plyboards (India) Limited for the year ended 31st March 2016)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

 In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2016, we have audited the internal financial controls over financial reporting of Century Plyboards (India) Limited ('the Holding Company') and its subsidiary companies which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed

- to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
- 5. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 7 below on 'Other Matters', is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements

Meaning of Internal Financial Controls over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records

DIRECTORS

that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial

controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to subsidiaries, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Principles of consolidation

The Consolidated Financial Statements which relate to Century Plyboards (India) Limited (the Company) and its subsidiaries (together referred to as the "Group") have been prepared on the following basis:

- (a) The financial statements of the company and its subsidiaries are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenditure, after fully eliminating intra group balances, intra group transactions and any unrealized profit / loss included therein, in accordance with Accounting Standards (AS-21), "Consolidated Financial Statements".
- (b) The excess/shortfall of cost to the company of its investments in the subsidiary companies, over the net assets at the time of acquisition in the subsidiaries as on the date of investment is recognized in the financial statements as goodwill/capital reserve as the case may be.
- (c) The subsidiary companies considered in the financial statements are as follows:

- (d) The consolidated financial statements have been prepared using uniform accounting policies, except stated otherwise, for like transactions and are presented, to the extent possible, in the same manner as the Company's separate financial statements.
- (e) The financial statements of the group entities used for the purpose of consolidation are drawn up to the same reporting date as that of the Company i.e. year ended March 31, 2016.
- (f) The financial statements of Overseas subsidiaries have been prepared in accordance with International Financial Reporting Standards, including International Accounting Standards Interpretations, issued or adopted by the International Accounting Standards Board (IASB) or the country specific GAAP as applicable to them. These subsidiaries are not significant as compared to the company's consolidated operations and hence, the impact thereof, if any, on account of any differences due to adoption of different Accounting Standards as stated above, in comparison to the Indian Generally Accepted Accounting Principles (IGAAP) is not material.

Minorities' interest in net profits/losses of the subsidiaries for the year is identified and adjusted against the income in order to arrive at the net income attributable to the shareholders of the Company. Their share of net assets is identified and presented in the consolidated balance sheet separately. Where accumulated losses attributable to the minorities are in excess of their equity, in the absence of the contractual obligation on the minorities, the same are accounted for by Century Plyboards (India) Limited, being the holding company.

^{**}The companies are subsidiaries of Century Ply (Singapore) Pte Ltd.

2. Basis of Preparation

The financial statements have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). These financial statements have been prepared to comply in all material respects with the Accounting Standards as prescribed under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention on an accrual basis. The accounting policies applied by the Group are consistent with those used in the previous year except for the change in accounting policy mentioned below.

3.1 Significant Accounting Policies

(i) Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

(ii) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

- (a) Revenue from sale of goods are recognized upon passage of title which generally coincides with delivery of materials to the customers. The Group collects sales taxes and value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the Group. Hence, they are excluded from revenues. Excise duty deducted from revenue (Gross) is the amount that is included in the revenue (Gross) and not the entire amount of liability arising during the year.
 - Sales figures are net of rebates and discounts.
- (b) Revenue from services is recognized pro-rata as and when the services are rendered. The Group collects service tax on behalf of the government and therefore, it is not an economic benefit flowing to the Group and hence excluded from revenue.
- (c) Dividend Income is recognized when the groups' right to receive the payment is established by the balance sheet
- (d) Interest income is recognized on a time proportion basis taking into account the amount outstanding and rate applicable.
- (e) Insurance and other claims are accounted for as and when accepted.

(iii) Fixed Assets

Fixed Assets are stated at cost or revalued amount, as the case may be, less accumulated depreciation / amortisation and cumulative impairment, if any. Cost comprises the purchase price inclusive of duties (net of cenvat / VAT), taxes, incidental expenses and erection / commissioning expenses etc. up to the date, the asset is ready for its intended use. In case of revaluation of fixed assets, the original cost as written-up by the valuer, is considered in the accounts and the differential amount is transferred to revaluation reserve.

Machinery spares which can be used only in connection with an item of fixed assets and whose use as per technical assessment is expected to be irregular, are capitalized and depreciated over the residual life of the respective assets.

(iv) Impairment of Assets

The carrying amounts of assets are reviewed at each balance sheet date to determine if there is any indication of impairment based on external/internal factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price and 'Value in use' of the

assets. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

(v) Depreciation/Amortisation

- a) Depreciation on fixed assets is provided under Written Down Value method at the rates determined based on useful lives of the respective assets and residual values in accordance with Schedule II of the Companies Act, 2013.
- b) Depreciation on fixed assets added / disposed of during the year is provided on pro-rata basis with reference to the date of addition / disposal.
- c) Leasehold properties are depreciated over the useful life, lease term i.e. 15 years or useful life envisaged in Schedule II whichever is lower.
- d) Intangible assets (Computer Software) are amortized on a Written Down Value method over a period of 5 years.
- In case of impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

(vi) Foreign Currency Transactions

(a) Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount, the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(b) Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction, and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined. Investments in foreign companies are considered at the exchange rates prevailing on the date of their acquisition.

(c) Exchange Differences

Exchange differences arising on the settlement / conversion of monetary items are recognized as income or expenses in the year in which they arise.

(vii) Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as Current investments. All other investments are classified as Long term investments. Current investments are carried at lower of cost and market value on individual investment basis. Long term Investments are considered at cost, unless there is an "other than temporary decline in value, in which case adequate provision is made for the diminution in the value of Investments.

(viii) Inventories

Raw Materials, stores and spares are valued at lower of cost and net realizable value. However, these items are considered to be realizable at cost if the finished products, in which they will be used, are expected to be sold at or above cost.

Work in progress, Finished goods and Stock in Trade are valued at lower of cost and net realisable value. Cost includes direct materials & labour and a part of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty.

Cost of Inventories is computed on weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(ix) Government Grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with.

- a) When the grant or subsidies relates to an expense item, it is recognized as income over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate.
- (b) When the grant or subsidy relates to an asset, it is deducted from the gross value of the asset concerned in arriving at the carrying amount of related asset.
- (c) Government grants of the nature of promoter's contribution are credited to capital reserve and treated as a part of the shareholders funds.

(x) Retirement and other employee benefits

- (a) Retirement benefit in the form of Provident Fund is a defined contribution scheme and the Group recognizes contribution payable to the provident fund scheme as an expenditure when an employee renders the related service. The Group has no obligations other than the contribution payable to the respective funds.
- (b) Gratuity liability, being a defined benefit obligation, is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year.
- (c) Short term compensated absences are provided for based on estimates.
- (d) The Company treats accumulated leaves expected to be carried forward beyond twelve months as long term employee benefit for measurement purposes. Such long term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the end of each financial year. The Company does not have an unconditional right to defer the settlement for the period beyond 12 months and accordingly entire leave liability is shown as current liability.
- (e) Actuarial gains / losses are immediately taken to the statement of profit and loss and are not deferred.

(xi) Earning per Share

Basic Earning per Share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deductible preference dividend and attributable taxes) by the weighted number of equity shares outstanding during the year.

For the purpose of calculating diluted earning per share, net profit or loss for the year attributable to equity share holders and the weighted average number of shares outstanding during the year are adjusted for the effect of all dilutive potential equity shares.

(xii) Excise Duty and Custom Duty

Excise duty on finished goods stock lying at the factories is accounted for at the point of manufacture of goods and accordingly, is considered for valuation of finished goods stock lying in the factories as on the balance sheet date. Similarly, customs duty on imported material in transit/lying in bonded warehouse is accounted for at the time of import/bonding of materials.

(xiii) Borrowing Costs

Borrowing costs includes interest, amortization of ancillary costs incurred in connection with the arrangements of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing cost directly attributable to the acquisition, construction of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur.

(xiv) Taxation

Tax expenses comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. Deferred income taxes reflect the impact of current year timing differences between taxable income for the year and reversal of timing differences of earlier years.

The deferred tax for timing differences between the book and tax profits for the year is accounted for using the tax rates and laws that have been substantively enacted as of the Balance Sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. If the Group has carry forward unabsorbed depreciation and tax losses, deferred tax assets are recognized only to the extent there is virtual certainty supported by convincing evidence that sufficient taxable income will be available against which such deferred tax asset can be realized.

The carrying amounts of deferred tax assets are reviewed at each balance sheet date. The Group writes-down the carrying amount of deferred tax assets to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such writedown is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Minimum Alternate Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. In the year in which the Minimum Alternate Tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendation contained in guidance note issued by the Institute of Chartered Accountants of India, the said assets is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement. The Group reviews the carrying amount of MAT at each Balance Sheet date and writes down MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Group will pay normal income-tax during specified period.

(xv) Segment Reporting

a) Identification of segments:

The Group has identified that its business segments are the primary segments. The Group's business are organized and managed separately according to the nature of products/services, with each segment representing a strategic business unit that offers different product / services and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Group operate.

b) Inter segment transfers:

The Group generally accounts for intersegment sales and transfers at current market prices.

c) Allocation of Common Costs:

Common allocable costs are allocated to each segment on case to case basis applying the ratio, appropriate to each relevant case. Revenue and expenses, which relates to the enterprise as a whole and are not allocable to segment on a reasonable basis, have been included under the head "Unallocated".

The accounting policies adopted for segment reporting are in line with those of the Group's accounting policies.

(xvi) Fixed Assets Acquired under Lease

(a) Finance Lease

Assets acquired under lease agreements which effectively transfer to the Group substantially all the risks and benefits incidental to ownership of the leased items, are capitalized at the lower of the fair value and present value of minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments are apportioned between the finance charges and the reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of their liability. Finance charges are charged directly to the expenses account.

(b) Operating Lease

Leases where the lessor effectively retains substantially all the risks and benefits of the ownership of the leased assets are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of profit and loss on a straight line basis.

(xvii) Derivative Instruments

The Company uses forward exchange contracts to hedge its risks associated with foreign currency fluctuations relating to the underlying transactions, highly probable forecast transactions and firm commitments. In respect of forwards exchange contracts with underlying transactions, the premium or discount arising at the inception of such contract is amortized as expense or income over the life of contract. Other forwards exchange contracts outstanding at the Balance Sheet date are marked to market and in case of loss the same is provided for in the financial statement. Any profit or losses arising on cancellation of forward exchange contracts are recognised as income or expense for the period.

(xviii) Cash and Cash equivalents

Cash and cash equivalents in the cash flow statement comprise of cash at bank and in hand and short-term investments with an original maturity of three months or less.

(xix) Provision

A provision is recognized when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions made in terms of Accounting Standard 29 are not discounted to their present value and are determined based on best estimates required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

(xx) Contingent Liabilities & Contingent Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements. Contingent Assets are neither recognized or disclosed in the financial statements.

38. The Group's segment information as at and for the year ended 31st March, 2016 are as below: (contd.)

Notes:

(a) Business Segments: The business segments have been identified on the basis of the products of the Group. Accordingly, the Group has identified following business segments:

Plywood - Plywood, Block-Board, Veneer & Timber

Laminate - Decorative Laminates & Pre-laminated Boards

CFS Services - Container Freight Stations services

Others - Mainly trading of chemicals, minerals, readymade furniture and equipments

- (b) Geographical Segments: The Group primarily operates in India and therefore the analysis of geographical segments is demarcated into India and overseas operations.
- (c) The Group has common fixed assets for producing goods for domestic and overseas market. Hence separate figures for fixed assets/additions to fixed assets have not been furnished.
- 39. The Company has paid anti-dumping duty amounting to ₹176.77 lac (₹176.77 lac) on import of phenol which in opinion of the management and based on a legal opinion, is in excess of actual margin of dumping of said materials and accordingly refundable in terms of Section 9AA of Custom Tariff Act, 1975 and hence the same is considered as receivable and included under the head Loans & Advances.
- 40. The Company enjoys tax holiday benefit in respect of its certain units under section 80IA and 80IE of the Income Tax Act, 1961 (Act) and accordingly at present is paying Minimum Alternative Tax (MAT) under Section 115JB of the Act. Utilisation of such MAT credit would commence immediately upon completion of the Tax holiday period and the management is certain that there will be sufficient taxable profit to utilise the MAT credit recognised in the books of accounts.
- 41. The Accounting policy in respect of depreciation followed by the group's subsidiary namely Century ply (Singapore) Pte Ltd. (along with its subsidiaries), Century Myanmar Private Ltd., and Innovation Pacific Singapore Pte Limited is on Straight line value method which is different from the accounting policy followed by the group i,e., Written down value method. In view of different sets of environment in which foreign subsidiaries operate in their respective countries, provision for depreciations is made to comply with respective country's law and by use of management estimate. The gross value of depreciable tangible asset in note 12 includes ₹4415.68 lac (previous year ₹2220.25) on which depreciation has been charged on Straight line value method. It is not practical to align above policies of the subsidiaries with those of the group.
- 42. a) The contribution of the subsidiaries acquired during the year is as under:

Name of the subsidiary	Revenue (post acquisition)	Net profit/(loss) (post acquisition)	Net assets ₹ in Lac	
	₹ in Lac	₹ in Lac		
Century Infotech Ltd.	30.75	(177.22)	117.54
