## KEY HIGHLIGHTS

Results for Q1 were adversely impacted due to the COVID-19 pandemic and consequent nationwide lockdowns. However as informed in Q1 call we looked at future with optimism. The recovery in Q2 was better, faster and swifter than what we expected and the saga is continuing in Q3 also. In Q3 we had our record best sales, record best profitability and record best financial parameters. At the beginning of the year when everything was gloomy and disappointing, we believed in the saying -"When time gets tough, the tough get going". Our respected Chairman searched for opportunities and energized the whole team for their best coordinated efforts to combat the situation. Our respected MD, Mr. Agarwal chalked out new strategies to boost sales. It was decided that since demand is not coming to us, we shall go to demand. Technological tools were introduced to monitor and help sales team and a new concept from OLJ to ODJ was introduced. Normally sales team would go to the dealers for taking orders (Order Lene Jate Han OLJ) but under ODJ sales team went for giving orders to the dealers (Order Dene Jayenge ODJ). Production team worked hard to develop Viro-Kill feature and Marketing team quickly developed TVC and a campaign to introduce the same to the market. Admin and HR kept the morale of employees high despite pay cuts in the early part of the year, which is now restored and reimbursed. Procurement and Logistics team ensured seamless availability and supply of all inputs and outputs. Finance team worked hard to improve Balance Sheet and related financial parameters. The whole organization prepared itself for a war-like situation and ensured victory of each and every stake holder.
On Balance Sheet front, the Company has now practically become debt free. Its treasury assets are 140.49 crores against 129.86 crores borrowings. Company is not pre-paying its debts because the average cost of borrowing is less than the average return on treasury. Working capital cycle is at a historical low of 51 days against a normal of 70 days (199 days in Q1). Annualized Return on Average Capital Employed (ROACE) is 29.55\%.

## KEY HIGHLIGHTS

In current quarter we have booked an exceptional amount of Rs. 11.81 crores in Plywood Segment. This is on account of reversal of income recognized in earlier years. This relates to the Company's Assam unit. As per the original policy of the Government, eligible units were entitled to $100 \%$ excise refund but later on the government reduced and limited it to value addition. The objective of such reduction was to prevent misuse of $100 \%$ refund by some unscrupulous units indulged in malpractices of selling products at a higher price for claiming more refunds. This move by the government was challenged in Guwahati High Court on the grounds of Promissory Estoppel. It was argued that misuse of policy by some unscrupulous units cannot be a ground for denial of benefit to genuine units. The verdict of Guwahati High Court was in our favour which was then challenged by the government in the Supreme Court. The Supreme Court, after hearing, passed an interim order directing the government to pay $50 \%$ of differential amount to petitioners, which was duly received by us. However, the Supreme Court in its final order has held that the amended notification was clarificatory in nature and is not hit by the doctrine of Promissory Estoppel. We are in the process of exploring further legal remedies by way of review and curative petitions as we still feel that the act of some unscrupulous assesses cannot be considered as the basis to implement a judgement that has an adverse impact on the genuine manufacturers and the said act of the revenue authority cannot be in public interest. Although we are yet to receive any demand in this respect, we have reversed income of Rs. 11.81 crores which was recognized in earlier years, based on last the judgement and the likelihood of the company's petitions not being considered.

## KEY HIGHLIGHTS

Barring the above exceptional item, Company's blended EBIDTA for the quarter is $18.8 \%$ against $16 \%$ in the corresponding Q3 last year, $16.8 \%$ in Q2 this year and $15.6 \%$ for last whole year. Top line growth on QoQ basis is around $26 \%$ and on YoY basis is around $10 \%$. All the business segments have done well with improvement in profitability especially Laminates which has done exceedingly well.

In view of the carried forward MAT credit, the Company has not opted for the option of lower rate (25.16\%) of tax permitted under Section 115BAA of the Income Tax Act. The tax rate for 9 months after claiming applicable exemptions came at $27 \%$ but actual out flow on account of tax will be limited to $17.47 \%$ (MAT rate) and the balance will be adjusted out of the carried forward MAT credit amount.

Our Gabon unit has started operations and it will ensure consistent and quality supply of face veneer for our economy range of products. Our Myanmar unit is ensuring supply of face veneer for our premium range of products. Units at Laos are still to be feasible and operational.

We continue to look at the future with optimism and feel that our current capacities will not be sufficient for meeting future demands. We, therefore, are working on enhancement of capacities across all segments, both organic and un-organic. Our plan for expansion of MDF capacity at Hoshiarpur (Punjab) is frozen and is expected to be completed before next fiscal end. Working for Green-field MDF units at other locations is going on and will be frozen very soon.

We are consistently working towards improving throughput from all our existing units, improving efficiency, reducing cost and boosting sales. We have also appointed Boston Consulting Group (BCG) for advising and helping us in these exercises.
