## C H A I R M A N

Dear Stakeholders,

The Global Steel Industry was in the throes of turbulent time. The year gone by (2015-16) threw severe challenges at our Company. Excess steel capacity globally coupled with (a) sluggish investment and consumption spending and (b) historically low prices have resulted in a severe strain on the Company's operational and financial performance. Falling oil and gas related investments and the squeeze on Government spending have affected steel demand in economies dependant on oil based revenue.

With the deep integration of China in global manufacturing supply chain, this sector has slowed as a consequence of weak growth in global trade. The scenario for emerging markets and developing economies is not very encouraging either. Exports from China continue to penetrate markets all over the world, exerting downward pressure on the price of the steel in India. The Country suffered from unprecedented inflow of Steel imports from China, Japan, South Korea and Russia. In this climate, your Company will likely look to reduce debt, manage costs and implement operational improvements to weather the turbulence ahead. Your Company is looking towards 2017 for signs of recovery but bracing for a tough year in 2016. The Government of India has announced its first list of 20 smart Cities that will offer smart solutions such as assured power, water, supply, sanitation and solid waste management, efficient urban mobility robust, IT connectivity, e- governance, citizen safety, among others.

The Government's "Make in India" initiative along with other drives to improve the ease of doing business in India have been slowly leading to positive results. The emphasis has been on simplification and rationalization of the existing rules and introduction of IT to make governance more efficient and effective. India was ranked 142<sup>nd</sup> in 'Doing Business Report', 2015. The World Bank has released Doing Business Report 2016 on 27/10/15 where India ranked 130<sup>th</sup> thereby improving its Rank in starting a business dealing with construction permit and getting electricity indicators.

India's prospects are brightening due to low oil prices, the reform momentum and policies to increase infrastructure & manufacturing output. India's Steel demand will increase by 5.4% in 2017 reaching 88.3 MT in 2017. During the year 15-16, we have faced sluggish growth and on such devastating conditions we were irrepensible. We have re-organised business to optimum cost, enhance capacity efficiency and productivity of our workforce. We tried that the Company remain unflinching to counter all outlandish challenges but due to enhanced finance cost for borrowings and stagnant demand, we failed to become true beneficiaries thereby incurring loss of ` (17,844. 36) Lacs.

India's iron ore production in F.Y. 2016 reached 155 MT, registering an annual growth of 23%. A bulk of the incremental production has come from Odisha, where post the operationalisation of "The Mines & Minerals (Development & Regulation) Amendment Act, 2015," a number of mines, which were closed after the Hon'ble Supreme Court order dated 16<sup>th</sup> May, 2014, resumed production in F.Y. 2016.

During the end of this year which was a period of high ebb & flow, we hereby confirm to have a propitious upcoming year, with the strategies we have undertaken & operative measures we have taken. I thereby solicit the support & cooperation of all our Stakeholders to help us win and achieve the highest possible goals.

# MANAGING DIRECTOR

Dear Stakeholders,

The financial year 2015-16 was a year of various combinations like falling cost of Iron Ore, an international glut of finished steel and patchy domestic demand which made the year a hard year to survive for steel manufacturers. This year faced margin pressure due to imports from China, South Korea and other Countries. Dumping of steel by those countries has resulted in a decline in Net Sales Realisation for steel manufacturers in India

The Government of India, knowing the importance of the sector to the country's industrial development has taken a number of steps to further encourage investment and improve the economy. "Make in India" mission is one such long term initiative which will help India to be a "Manufacturing Hub". The Government in June made anti-dumping moves when it imposed an additional duty on imported steel (for specific categories) coming from certain Countries. In September 2015, it also slapped on a 20% safeguard duty to protect Indian Steel manufacturers from a surge of steel imports. With the introduction of MIP in Feb 2016, imports have started to decline, leading to a stabilisation of steel prices in India. This will help steel manufacturers in India.

At MSPL, we have been consistently improving technical excellence, cost and energy efficiencies in our plant at Raigarh. We are improving our internal control and reporting system to reduce administrative & other overhead expenses. We are relentlessly taking steps in areas of logistics, repairs and maintenance, stores and spares and focusing on initiatives such as yield optimization, improvement in overall equipment effectiveness, supply chain optimization and manpower productivity improvement to optimize costs to remain competitive in the coming year.

During the year, we have converted unsecured loans of ₹ 120.05 cr from promoter related companies in to 6% Non Cumulative Redeemable Preference Shares of ₹ 10/- with a premium of ₹ 90/- per share. We stabilised light structural rolling mill, which resulted in increase in production of structural items to 1.19 lac mtpa, enabling us to achieve our

targeted sales and significantly enrich our product mix. To improve our sales and realization, we are concentrating on the B2C segment, which would further push volumes and realizations.

During FY 2015-16 we achieved gross sales of ₹ 1,007 cr and incurred loss after tax of ₹ 178.44 cr. Prices of finished goods has reduced during the year but the prices of raw material has not reduced in same proportion to prices of finished goods. During the year, pellet plant operated at 75% capacity, sponge iron at 101% capacity, SMS at 80%, Rolling mill at 86%, Structural Rolling Mill at 71% and Power at 71% capacity.

Looking at the sluggish demand for pellet, we have stopped operations at our 3 lac MTPA of pellet plant during the year. We have increased utilization of hot conveyor system in to billet & rolling mill to improve efficiency and reduce cost.

The availability of iron ore is gradually improving after the reopening of several iron ore mines in Odisha in FY 2015-16. We ensured adequate and uninterrupted supply of iron ore by sourcing it from local miners. The availability of coal has also improved with the increase in production by Coal India. Coal is also easily available in international market. Besides improved rail logistics has also helped us streamline our raw material procurements.

Going forward, our focus will be to improve margins by way of operational efficiency, increased capacity utilization and financial control. We are confident in bringing profitable situation and reinforce the cash flows in coming year. I look forward to your continued support in our concerted journey to build a sustainable and value creating enterprises.

## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### OVERVIEW

**M**SP Steel & Power Limited is a public limited company having its registered office in Kolkata, West Bengal and plant at Jamgaon, Raigarh, Chhattisgarh. The Company is listed on BSE and NSE Stock Exchanges.

The company has an integrated steel plant located at Raigarh. In-house power generation through its captive power units, along with beneficiation and pellet manufacturing facilities enables it to operate at the lowest end of the cost curve as it is able to use low-grade iron ore fines and coal. MSPL also rolls its steel at its rolling and structure mills to produce value-added rolled long products.

The Company has a diversified portfolio ranging from pellets, sponge iron, billets, power, TMT, structurals having its manufacturing plants at Raigarh, Chhattisgarh ensuring production of cost efficient and premium quality products.

### STEEL INDUSTRY

The steel industry continues to face a challenging economic environment due to the toxic cocktail of economic slowdown in China, volatility in financial markets, sluggish growth in global trade, and low prices of oil and other commodities. Although the automobile and construction sectors continue to support demand, the steel industry is reeling from high debt, and continued weakness in the manufacturing sector and foreign steel imports into the Country. High levels of imports and lower drilling activities by energy companies continued to put pressure on pricing and shipments.

Steel imports rose 18 per cent thereby importing 994,000 Tonnes of Steel in March, provisional government data showed, on the back of deals struck before the government imposed a floor price in February to curb cheap imports, which resulted in 1.1% fall in India's production. Imports were up 9.1 per cent compared with February. Consumption of steel, in the only major market where steel demand is growing, rose 4.3 per cent between April 2015 and March 2016, largely driven by imports.

India produced 7.34 MT of steel in the month of September 2015, which was nearly equal to the country's steel

production in September 2014. During the FY 2015-16, India's steel imports rose 20.2% to 11.21 MT, while steel consumption in the country grew 4.3%. The Country's steel imports declined year on year from November to February, owing to a 20% safeguard duty applicable on imports.

In addition, the steel industry is challenged by dwindling investments, turbulence in the financial market and geopolitical conflicts in many developing regions. The domestic market continues to be inundated with cheap imports from overseas producers, especially from China. The imposition of the minimum import price by the Govt of India in Feb-2016 was a temporary boost to steel prices in India, effects of which are seen to be fading away as the underlying demand continues to be sluggish. However, with consumption picking up, good monsoons and a likely increase in government spending, there appear to be some green shoots which could augur well for the industry.

### ECONOMIC ENVIRONMENT

#### GLOBAL

The year 2015-16 may be specially remembered as a year of slowdown for the global economy, which grew only by 3.1% as against 3.4% in year 2014. No sector made cash on the declining prices of raw materials, as inventories of finished products went up due to a fall in demand. The Global Steel market is suffering from insufficient investment expenditure and continued weakness in the manufacturing sector. With the deep integration of China in the global manufacturing supply chain, this sector has slowed as a consequence of weak growth in global trade. Manufacturing exports in emerging economies, in particular in Asia, declined owing to slower Chinese demand. Sluggish demand conditions seen across the world along with a surplus in steel-making capacity has led to a sharp decline in global prices. Besides, most of the economies have failed to report any meaningful growth despite stimulus packages by Central Banks across the world. This clearly has not been amongst the brighter and better years for steel industry,

#### INDIA

India's economic growth accelerated to 7.9 per cent in the

first quarter, widening its lead over China and confirming the country's status as the world's fastest expanding large economy and the most dynamic emerging market.

In the past, too, the Indian steel industry had faced oversupply and below-cost product prices, resulting from large new capacity coming in a bunch. But, all that had happened with steel in earlier years paled into insignificance compared with the present state of the industry burdened as it is with bank debts of around Rs 3 lakh crore and heavy losses in the second half of 2015-16.

Annual expansion in the Indian Economy in the 2015-16 financial year reached 7.6 per cent, up from 7.2 per cent the previous year. While China's economy is much larger than India's, growth there slowed to 6.7 per cent in the first quarter of 2016 — the lowest since the depths of the financial crisis seven years ago.

India will be the fastest growing major economy in 2016-17 growing at estimated 7.5%, ahead of China, at a time when global growth is facing increasing downside risks, as per the World Economic outlook released by the IMF.

The agricultural sector has witnessed a weak growth due to drought for last two years. Two consecutive years of sub-par monsoon had a significant impact on the output of both food as well as non-food crops, which hampered rural development.

Industry	Percentage change over previous year	
	2014-15	2015-16
1. Agriculture, forestry & fishing	4.90	4.40
2. Mining & quarrying	2.80	3.70
3. Manufacturing	7.60	8.10
4. Electricity, gas, water supply & other utility services	12.90	10.50
5. Construction	7.80	0.60
6. Trade, hotels, transport, communication and services related to broadcasting	13.30	6.40
7. Financial, real estate & professional services	13.30	7.00
8. Public administration, defence and Other Services	17.30	12.50
9. Gross Value Added (GVA) at Basic Price	10.50	6.80

Source: Advance The Central Statistics Office (CSO) Estimates of National Income, 2015-16

In light of Prime Minister Narendra Modi's avowed focus on economic development, the government appears keen to support the steel industry, partly to ensure that the industry's loans on the books of banks don't turn irrecoverably bad. Through the project called 'Make in India' the government is attracting FDI and focuses on twenty five sectors of the economy. The industry has got some support in the form of tariff and non-tariff barriers but is expecting more.

## India's Industrial Production

Industrial production in India increased 1.2 percent year-on-year in May of 2016, recovering from an upwardly revised 1.3 percent drop in April and beating market expectations for a 0.4 percent decline.

## GLOBAL OUTLOOK

Steel demand in the emerging and developing economies excluding China is forecast to grow by 4.8% in 2017. Steel demand in these economies will amount to 457.1 Mt in 2017, accounting for about 30% of world steel demand. After falling 3.0% last year, global steel demand is tipped to contract even further this year before stabilizing in 2017. The severe depression in construction is contribution to a slowdown in the manufacturing sectors, especially metal products, as well as slower growth in automotive. The Chinese real estate market and corporate debt problem, anxiety in the financial markets, high (household) debt and volatile capital flows in many emerging economies, geopolitical tensions and unstable political situations in several regions could further worsen the global economic environment, though growth for steel demand in all markets except China is expected in 2017.

## INDIAN OUTLOOK

The long-term growth prospective of the Indian economy is positive due to its young population, corresponding low dependency ratio, healthy savings, investment rates, and increasing integration into the global economy. The Indian economy has the potential to become the world's 3rd-largest economy by the next decade, and one of the largest economies by mid-century. And the outlook for short-term growth is also good as according to the IMF, the Indian economy is the "bright spot" in the global landscape. India also topped the World Bank's growth outlook for 2015-16 for 16 and expected to grow 8.0% + in 2016-17.

India will be the fastest growing major economy in 2016-17 growing at 7.5%, ahead of China, at a time when global growth is facing increasing downside risks, as per the World Economic outlook released by the IMF, thereby strengthening of bank balance sheet and implementation of economic reforms.

## OPPORTUNITIES & THREATS:

Without Steel there will be no modern industrial world. The Indian steel industry, one of the core industries in India, currently makes is the world's third largest producer of crude steel and is expected to become the second largest producer soon. The per capita consumption of steel is generally accepted as a yardstick to measure the level of social-economic development and living standard of its countrymen, thus no developing country can afford to ignore steel industry.

Indian steel industry has been blessed with a number of inherent advantages but at the same time it also faces some crucial constraints.

## ❖ OPPORTUNITIES

- Potentially huge domestic demand from steel intensive investments like infrastructure building, real estate, automobile / auto components, communications, ship building, defense, medical equipments and consumer durables etc.
- A largely untapped rural market
- Huge potential for productive foreign collaboration particularly in specialized steel making products and equipment.

## ❖ THREATS

- The high cost of electricity in India may hamper the steel industry's production level.
- Increased steel import at a cheaper rate has declined market share of Indian Steel industries.
- Slow growth of infrastructure development
- Unstable/Adverse global market trends
- Dwindling raw material reserves specially iron ore through exports
- Increase market competitiveness
- High Cost of Capital

The steel industry is subject to cyclical swings arising from factors such as excess capacity, regional demand and supply imbalances and volatile swings in market demand and prices, more recently exacerbated by swings in input prices as well as changes in the regulatory environment and degrowth in coal production. Hence low price steel imports are the biggest threat to the viability of the steel industry in India.

## Independent Auditors' Report

### To the Members of MSP Steel & Power Limited

#### 1. Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **MSP Steel & Power Limited** ('the Company'), which comprise the Balance Sheet as at 31st March 2016, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### 2. Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in sub-section 5 of section 134 of the Companies Act, 2013 ('the Act') with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

#### 3. Auditors' Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the

provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under sub-section 10 of section 143 of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

#### 4. Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2016, and its loss and its cash flows for the year ended on that date.

#### 5. Report on Other Legal and Regulatory Requirements

## Annexure 'B' to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act 2013 ('the Act').

**W**e have audited the internal financial controls over financial reporting of MSP Steel & Power Limited ('the Company'), as of 31st March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

(I) Management's Responsibility for Internal Financial Controls.

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit to Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

(ii) Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that

we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidences about the adequacy of internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

(iii) Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparations of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and

that receipts and expenditure of the Company are being made only in accordance with authorizations of the Management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of Company's assets that could have a material effect on the financial statements.

(iv) **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitation of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

(v) **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India.

The financial statements are presented in Indian rupees rounded off to the nearest rupees in lacs.

##### (b) Use of Estimates

The preparation of the financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

##### (c) Tangible and Intangible Fixed Assets

Fixed Assets are stated at cost, less accumulated depreciation and impairment if any. The cost of acquisition comprises of purchase price inclusive of duties (net of Cenvat / VAT), taxes, incidental expenses, erection/commissioning/trial run expenses and borrowing cost etc., up to the date the assets are ready for intended use. Borrowing costs relating to acquisition of fixed assets for the period of time for it to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Machinery spares which can be used only in connection with an item of fixed assets and whose use as per technical assessment, is expected to be irregular, are capitalized and depreciated prospectively over the residual life of the respective assets.

All direct expenditure and administrative costs relating to construction/erection of the project for bringing it to the working conditions for intended use are capitalized as "Pre-operative & Trial Run Expenses (pending allocation)".

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and impairment loss, if any.

##### (d) Depreciation/Amortization of Fixed Assets

## Notes to the Financial Statements for the year ended 31st March, 2016 (Contd.)

The classification of Plant and Machinery into continuous and non-continuous process is done as per the technical evaluation and depreciation thereon is provided accordingly.

Depreciation on fixed assets is provided on a pro-rata basis on the straight line method based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013.

Depreciation on assets added / disposed off during the year is provided on pro-rata basis.

In case of impairment, if any, depreciation is provided on the revised carrying amount of the assets over their remaining useful life.

The intangible assets are amortized over the useful economic life of the respective assets.

### (e) Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as 'operating leases'. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

### (f) Impairment of Fixed Assets

The carrying amount of assets are reviewed at each balance sheet date to determine if there is any indication of impairment based on external/internal factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price and 'value in use' of the assets. In assessing value in use, the estimated future cash flows are discounted to their present value.

### (g) Borrowing Costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction/erection or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are charged to revenue.

### (h) Government Grants and Subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

Where the Company receives non-monetary grants, the asset is accounted for on the basis of its acquisition cost. In case a non-monetary asset is given free of cost, it is recognized at a nominal value.

### (I) Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as 'Current Investments'. All other investments are classified as 'Long-term Investments'.

On initial recognition, all investments are measured at cost. Current investments are carried at lower of cost and fair value determined on an individual

## Notes to the Financial Statements for the year ended 31st March, 2016 (Contd.)

investment basis. Long term investments are carried at cost. Provision for diminution in value is recognized when there is an 'other than temporary' decline in the value of the investments.

### (j) Inventories

Raw materials, Components, Stores and Spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products for which they will be used are expected to be sold at or above cost. Cost of raw materials, components and stores and spares is determined on 'First in First out' basis.

Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty. Cost is determined on annual average basis.

Saleable scrap and by-products are valued at net realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

### (k) Revenue Recognition

All expenses and income to the extent considered payable and receivable respectively, unless otherwise stated, are accounted for on an accrual basis. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

#### Sale of Goods

Revenue from sale of goods is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer, which generally coincides with delivery.

#### Sale of Power

Revenue from sale of power is recognized on transmission of power to the customers from the grid.

#### Sale of Carbon Credits

Revenue is recognized when carbon credit units are sold to third parties and there is no significant uncertainty as regards the collection thereof.

#### Export Incentives

Export Incentives under the Duty Drawback scheme are recognized when such incentive accrues upon export of goods provided that there is reasonable certainty of receiving the credit and its quantification can be assessed. Income is recognized at lower of the estimated credit receivable and estimated net realisable value.

#### Interest

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the Statement of Profit and Loss.

#### Dividend

Dividend income on investments is recognised when the right to receive dividend is established.

#### Insurance Claims

Insurance Claims are accounted depending on the certainty of receipts on settlement.

### (l) Foreign Currency Transactions and Balances

Transactions denominated in foreign currencies are normally recorded at the exchange rates prevailing

## Notes to the Financial Statements for the year ended 31st March, 2016 (Contd.)

on the date of the transaction.

Foreign currency monetary items are restated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange differences arising on the settlement or reporting of monetary items at rates different from those at which they were initially recorded are recognized as income or expenses in the year in which they arise except for fixed assets.

The premium/ discount arising at the inception of forward exchange contract is amortized and recognized as an expense/ income over the life of the contract. Exchange differences on such contracts at the reporting date are recognized in the Statement of Profit and Loss. Any profit or loss arising on cancellation or renewal of such forward exchange contract is also recognized as income or as expense for the period.

### (m) Employee Benefits

Short term employee benefits are charged off at the undiscounted amount in the period in which the related service is rendered.

Post employment and other long term employee benefits are charged off in the period in which the employee has rendered services. The amount charged off is recognized at the present value of the amounts payable determined using actuarial valuation techniques. Actuarial gains and losses in respect of post employment and other long term benefits are charged to Statement of Profit and Loss.

The Company's contribution to the Provident Fund and the Family pension fund are charged to Statement of Profit and Loss.

### (n) Income taxes

Tax expense comprises of Current Tax and Deferred Tax at the applicable enacted or substantively enacted rates.

Current Tax represents the amount of Income Tax payable in respect of taxable income for the reporting period. Provision for Current Tax is made on the basis of estimated taxable income for the period at the rates prevailing under the Income-tax Act, 1961. Current Tax is net of credit for entitlement for Minimum Alternate Tax (MAT).

Deferred Tax represents the effect of timing difference between taxable income and accounting income for the reporting period that originates in one year and are capable of reversal in one or more subsequent years. Deferred Tax asset is recognized and carried forward only to the extent that there is a virtual certainty that the asset will be realized in future.

MAT Credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal Income Tax during the specified period. In the year in which the Minimum Alternative Tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance note issued by the ICAI, the said asset is created by way of credit to Statement of Profit & Loss and shown as MAT credit entitlement. The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

### (o) Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a

## Notes to the Financial Statements for the year ended 31st March, 2016 (Contd.)

present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognised but are disclosed in the Notes. Contingent Assets are neither recognised nor disclosed in the financial statements.

### (p) Derivative Instruments

Derivative contracts, other than foreign currency forward contracts covered under AS 11, are marked to market on a portfolio basis, and the net loss, if any, after considering the offsetting effect of gain on the underlying hedged item, is charged to the Statement of Profit and Loss. Net gain, if any, after considering the offsetting effect of loss on the underlying hedged item, is ignored.

### (q) Excise Duty

Excise Duty and Cess on manufacturing goods is accounted for at the time of their clearances from the

factory. Excise Duty and Cess in respect of stock of finished goods and scrap awaiting clearance from

the factory at the year-end are considered for valuation of inventory.

### (r) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders are divided with the weighted average number of shares outstanding during the year after adjustment for the effects of all dilutive potential equity shares.

## Independent Auditors' Report on Consolidated Financial Statements

To The Members of MSP Steel & Power Limited

### 1. Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of MSP Steel & Power Limited ( 'the Holding Company'), its subsidiary and associate (collectively referred to as 'the Group') and a jointly controlled company, which comprise the consolidated Balance Sheet as at 31st March, 2016, the consolidated Statement of Profit and Loss, the consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information ('the consolidated financial statements').

### 2. Management's Responsibility for the consolidated Financial Statements

The Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013('the Act') that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group including its jointly controlled company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules. The respective Board of Directors of the companies included in the Group and of its jointly controlled company are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its jointly controlled company and for preventing and detecting frauds and other irregularities, the selection and application of appropriate accounting policies, making judgments and estimates that are reasonable and prudent and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error which have been used for the purpose of preparation of these consolidated financial statements by the Board of Directors of the Company.

### 3. Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under sub-section 10 of section 143 of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal financial control relevant to the Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

### 4. Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting

principles generally accepted in India, of the consolidated state of affairs of the Group and its jointly controlled company as at 31st March, 2016, and their consolidated loss, and their consolidated cash flows for the year ended on that date.

Statement of Profit and Loss and the consolidated Cash Flow Statement dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

## 5. Other Matter

We did not audit the financial statement of Madanpur South Coal Company Limited (a Jointly Controlled Company) whose unaudited financial statement reflect total assets (net) of ₹ 931.77 lacs as at 31st March, 2016, and total loss (net) of ₹ 4.49 lacs for the year ended on that date, as considered in the consolidated financial statements.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of above matter.

d In our opinion, the aforesaid consolidated financial statement comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

e On the basis of the written representations received from the directors of the Company as on 31st March, 2016, taken on record by the Board of Directors of the Company and the report of the statutory auditors of its subsidiary and Associate and unaudited financial statements of its Jointly Controlled Company, none of the directors of the Group Companies, incorporated in India is disqualified as on 31st March, 2016, from being appointed as a director in terms of sub-section 2 of Section 164 of the Act.

## 6. Report on Other Legal and Regulatory Requirements

1 As required by sub-sections 3 of Section 143 of the Act, we report, to the extent applicable, that:

- a We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

## Annexure to the Independent Auditors' Report

**R**eport on the Internal Financial Controls over Financial Reporting under Clause (i) of sub-section 3 of Section 143 of the Companies Act 2013 ('the Act').

We have audited the internal financial controls over financial reporting of **MSP Steel & Power Limited ('the Holding Company')**, its Subsidiary and associate incorporated in India as at 31st March, 2016 in conjunction with our audit of the consolidated financial statements of the Company for the year ended and as on that date.

### Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its Subsidiary and Associate and a jointly controlled company are responsible for establishing and maintaining internal financial controls based on the respective internal control over financial reporting criteria established by the Holding Company, its Subsidiary and Associate and a jointly controlled company incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit to Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls

and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidences about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditure of the Company are being made only in accordance with authorizations of the Management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of Company's assets that could have a

material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitation of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the Holding Company, its Subsidiary & Associate incorporated in India, have in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating

effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India.

## Notes to the Consolidated Financial Statements

For the year ended 31st March, 2016 (Contd.)

### MSP STEEL & POWER LIMITED SIGNIFICANT ACCOUNTING POLICIES

#### 1. Corporate Information

MSP Steel & Power Limited ('the Company') is a public company domiciled in India and is listed on the BSE Limited and the National Stock Exchange of India Limited (NSE). The Company is engaged in the manufacture and sale of iron and steel products and generation and sale of power. The Company has manufacturing plant in Raigarh, Chattisgarh.

#### 2. Summary of Significant Accounting Policies

##### (a) Principles of Consolidation

The Consolidated Financial Statements relate to MSP Steel & Power Limited ('the Holding Company'), its subsidiaries & Associates (collectively referred to as 'Group') and its jointly controlled entity. The details are as given below:

Name of the Subsidiaries / Joint Venture (JV)	Country of Incorporation	Proportion of ownership/interest	
		As at 31st March, 2016	As at 31st March, 2015
MSP Cement Limited	India	100.00%	100.00%
AA ESS Tradelinks Private Limited	India	42.75%	52.32%
Madanpur South Coal Company Limited (JV)	India	14.90%	14.90%

##### Consolidation Procedure

- (i) The Financial Statements of the Group have been prepared based on a line-by-line consolidation by adding together the book value of like items of assets and liabilities, revenue and expenses as per the respective financial statements. Intra group balances and intra group transactions have been eliminated. The group's interest in the joint venture is accounted using proportionate consolidation.
- (ii) The Consolidated Financial Statements are prepared using uniform accounting policies for similar material transactions and other events in similar

circumstances, unless otherwise stated.

- (iii) The difference between the costs of investments in the subsidiaries over the net assets at the time of acquisition of shares in the subsidiaries is recognised in the consolidated financial statements as Goodwill or Capital Reserve, as the case may be.
- (iv) Minority Interest's share of net profit of consolidated subsidiaries for the year is identified and adjusted against the revenue of the Group in order to arrive at the net revenue attributable to the shareholders of the company. The excess of loss over the minority interest in the equity, if any, is adjusted in majority interest.
- (v) Minority Interest's share of net assets of consolidated subsidiaries is identified and presented in the consolidated balance sheet separate from liabilities and the equity of the Company's shareholders.
- (vi) Investments other than in subsidiaries and joint ventures have been accounted as per AS - 13, 'Accounting for Investments'.

##### (b) Basis of Preparation of Consolidated Financial Statements

These consolidated financial statements of the company have been prepared to comply in all material aspects with applicable accounting principles in India, the applicable Accounting Standards prescribed under section 133 of the Companies Act, 2013 ('Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and other accounting principles generally accepted in India, to the extent applicable. The consolidated financial statements have been prepared on an accrual basis and under the historical cost convention. The consolidated financial statements are presented in Indian rupees rounded off to the nearest rupees in lacs.

##### (c) Use of Estimates

The preparation of the consolidated financial statements in

## Notes to the Consolidated Financial Statements

### For the year ended 31st March, 2016 (Contd.)

conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

#### (d) Tangible and Intangible Fixed Assets

Fixed Assets are stated at cost, less accumulated depreciation and impairment if any. The cost of acquisition comprises of purchase price inclusive of duties (net of Cenvat / VAT), taxes, incidental expenses, erection/commissioning/trial run expenses and borrowing cost etc., up to the date the assets are ready for intended use. Borrowing costs relating to acquisition of fixed assets for the period of time for it to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Machinery spares which can be used only in connection with an item of fixed assets and whose use as per technical assessment, is expected to be irregular, are capitalized and depreciated prospectively over the residual life of the respective assets.

All direct expenditure and administrative costs relating to construction/erection of the project for bringing it to the working conditions for intended use are capitalized as "Pre-operative & Trial Run Expenses (pending allocation)".

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated

amortisation and impairment loss, if any.

#### (e) Depreciation/Amortization of Fixed Assets

The classification of Plant and Machinery into continuous and non-continuous process is done as per the technical evaluation and depreciation thereon is provided accordingly.

Depreciation on fixed assets is provided on a pro-rata basis on the straight line method based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013.

Depreciation on assets added / disposed off during the year is provided on pro-rata basis.

In case of impairment, if any, depreciation is provided on the revised carrying amount of the assets over their remaining useful life.

The intangible assets are amortized over the useful economic life of the respective assets.

#### (f) Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as 'operating leases'. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

#### (g) Impairment of Fixed Assets

The carrying amount of assets are reviewed at each balance sheet date to determine if there is any indication of impairment based on external/internal factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price and 'value in use' of the assets. In assessing value in use, the estimated future cash flows are discounted to their present value.

#### (h) Borrowing Costs

Borrowing cost includes interest, amortization of

## Notes to the Consolidated Financial Statements

### For the year ended 31st March, 2016 (Contd.)

ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction/erection or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are charged to revenue.

#### (i) Government Grants and Subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

Where the Company receives non-monetary grants, the asset is accounted for on the basis of its acquisition cost. In case a non-monetary asset is given free of cost, it is recognized at a nominal value.

#### (j) Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as 'Current Investments'. All other investments are classified as 'Long-term Investments'.

On initial recognition, all investments are measured at cost. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. Provision for diminution in value is recognized when there is an 'other than temporary' decline in the value of the investments.

#### (k) Inventories

Raw materials, Components, Stores and Spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products for which they will be used are expected to be sold at or above cost. Cost of raw materials, components and stores and spares is determined on 'First in First out' basis.

Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty. Cost is determined on annual average basis.

Saleable scrap and by-products are valued at net realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

#### (l) Revenue Recognition

All expenses and income to the extent considered payable and receivable respectively, unless otherwise stated, are accounted for on an accrual basis. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

##### Sale of Goods

Revenue from sale of goods is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer, which generally coincides with delivery.

##### Sale of Power

Revenue from sale of power is recognized on transmission of power to the customers from the grid.

##### Sale of Carbon Credits

## Notes to the Consolidated Financial Statements

### For the year ended 31st March, 2016 (Contd.)

Revenue is recognized when carbon credit units are sold to third parties and there is no significant uncertainty as regards the collection thereof.

#### Export Incentives

Export Incentives under the Duty Drawback scheme are recognized when such incentive accrues upon export of goods provided that there is reasonable certainty of receiving the credit and its quantification can be assessed. Income is recognized at lower of the estimated credit receivable and estimated net realisable value.

#### Interest

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the Statement of Profit and Loss.

#### Dividend

Dividend income on investments is recognised when the right to receive dividend is established.

#### Insurance Claims

Insurance Claims are accounted depending on the certainty of receipts on settlement.

#### (m) Foreign Currency Transactions and Balances

Transactions denominated in foreign currencies are normally recorded at the exchange rates prevailing on the date of the transaction.

Foreign currency monetary items are restated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange differences arising on the settlement or reporting of monetary items at rates different from those

at which they were initially recorded are recognized as income or expenses in the year in which they arise except for fixed assets.

The premium/ discount arising at the inception of forward exchange contract is amortized and recognized as an expense/ income over the life of the contract. Exchange differences on such contracts at the reporting date are recognized in the Statement of Profit and Loss. Any profit or loss arising on cancellation or renewal of such forward exchange contract is also recognized as income or as expense for the period.

#### (n) Employee Benefits

Short term employee benefits are charged off at the undiscounted amount in the period in which the related service is rendered.

Post employment and other long term employee benefits are charged off in the period in which the employee has rendered services. The amount charged off is recognized at the present value of the amounts payable determined using actuarial valuation techniques. Actuarial gains and losses in respect of post employment and other long term benefits are charged to Statement of Profit and Loss.

The Company's contribution to the Provident Fund and the Family pension fund are charged to Statement of Profit and Loss.

#### (o) Income taxes

Tax expense comprises of Current Tax and Deferred Tax at the applicable enacted or substantively enacted rates.

Current Tax represents the amount of Income Tax payable in respect of taxable income for the reporting period. Provision for Current Tax is made on the basis of estimated taxable income for the period at the rates prevailing under the Income-tax Act, 1961. Current Tax is net of credit for entitlement for Minimum Alternate Tax (MAT).

Deferred Tax represents the effect of timing difference between taxable income and accounting income for the reporting period that originates in one year and are capable of reversal in one or more subsequent years.

## Notes to the Consolidated Financial Statements

### For the year ended 31st March, 2016 (Contd.)

Deferred Tax asset is recognized and carried forward only to the extent that there is a virtual certainty that the asset will be realized in future.

MAT Credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal Income Tax during the specified period. In the year in which the Minimum Alternative Tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance note issued by the ICAI, the said asset is created by way of credit to Statement of Profit & Loss and shown as MAT credit entitlement. The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

#### **(p) Provisions, Contingent Liabilities and Contingent Assets**

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognised but are disclosed in the Notes. Contingent Assets are neither recognised nor disclosed in the consolidated financial statements.

#### **(q) Derivative Instruments**

Derivative contracts, other than foreign currency forward contracts covered under AS 11, are marked to market on a portfolio basis, and the net loss, if any, after considering the offsetting effect of gain on the underlying hedged item, is charged to the Statement of Profit and Loss. Net gain, if any, after considering the offsetting effect of loss on the underlying hedged item, is ignored.

#### **(r) Excise Duty**

Excise Duty and Cess on manufacturing goods is accounted for at the time of their clearances from the factory. Excise Duty and Cess in respect of stock of finished goods and scrap awaiting clearance from the factory at the year-end are considered for valuation of inventory.

#### **(s) Earnings per share**

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders are divided with the weighted average number of shares outstanding during the year after adjustment for the effects of all dilutive potential equity shares.
