CMD's Comment on Quarter Performance

"The quarter has met our expectations. Order inflow has been encouraging since the start of the financial year, with over Rs. 320 Cr in orders received so far, and more in the pipeline. While revenue for the quarter was modest, primarily due to temporary delays in customer approvals, these are expected to normalize in the coming quarters. We remain confident of delivering our year's targets. Our continuous focus on new product developments have yielded products of international quality. We are optimistic that these products will soon be tested and potentially lead to bigger contracts. We are excited about the opportunities ahead and remain committed to driving continued growth and value for our stakeholders."
