MANGALAM CEMENT LIMITED

Forward- looking statement

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions.

This report and other statements - written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'project', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in assumptions. The achievements of results are subject to risks, uncertainties, and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated, or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Green Initiative

If there is a future,

Our plant at Aligarh

it will be green

Water conservation in mining pits

RAIN WATER HARVESTING

Due to rain water harvesting in mined out pits, water table of the surrounding area has increased.

The Company is also encouraging drip irrigation to conserve water.

WATER HARVESTING

We undertake water harvesting initiatives in mined-out regions (22 lacs cubic metres of stored water) through roof-top water storage, accumulation of rain water in mined-out pits and pits across our plant.

POLLUTION-FREE PLANT VICINITY

We monitor the performance of our pollution-control equipment regularly. We have enhanced focus on ensuring dust-free surroundings, so all the transfer points of raw materials are provided with water mist dust suppression system. Besides, consistent water sprinkling (from harvested water) in the vicinity of the dust emission area is conducted to reduce dust levels. The effluent treatment plant ensures zero discharge.

GREEN COVER

We have planted saplings to ensure a dense green belt around our plants and mines. Plants are developed at our own nurseries and distributed to residents of colonies, schools and villagers to encourage them to plant more trees. Moreover, environmental awareness programmes are conducted regularly for employees and their families.

Management Discussion & Analysis

INDUSTRY OVERVIEW

India is the second largest cement manufacturer in the world and accounts for 6.9% of world's cement output. The present installed capacity is nearly 455 million MT and is estimated to touch 550 million MT by FY20. The Government of India is strongly focused on infrastructure development to boost economic growth and this augurs well for the Cement industry.

The Government also intends to expand the capacities of the Railways and the facilities for handling and storage to ease the transportation of cement and reduce transportation cost. These measures would lead to increase in construction activities thereby boosting cement demand.

Overall, the sector is witnessing the signs of recovery and with expected revival in the economy and growth in rate of GDP, the cement industry is expected to grow better with increased demand led by huge concrete road construction, increased spending in infrastructure projects and housing.

One of the most important challenges to the industry is due to the increase in fuel and coal prices and availability of the same. Although the overall capacity utilization still remains on the lower side, the expected increase in demand and relatively slower new capacity additions should help in increasing capacity utilization levels further.

PERFORMANCE REVIEW

Your company has registered growth of 7.68% in sales, including 14.85% growth in volume, which was mainly due to additional volume garnered from Aligarh Grinding Unit and improvements in markets of Madhya Pradesh and Uttar Pradesh. Cement realizations also improved as compared to the previous year; however in the second half of the year the realization dipped.

Power and Fuel prices have increased significantly particularly after the restriction on use of Pet coke was imposed in November 2017. The complete ban on usage of pet coke in captive power plants and various restrictions on procurement etc. have impacted the cost and availability adversely.

The logistics costs have also increased due to increase in fuel prices and in the lead distance for a part of the year because of a major diversion in freight traffic due to road construction near our plant on the Morak - Kota Highway.

The Company has produced 2.76 MMT of cement as compared to 2.39 MMT in the previous year, witnessing a growth of 15.62%.

excluding trail run production of 9905 MT

Clinker and cement production increased compare to previous year by 13% and 15% respectively.

● **Sales and Despatch Volume**

Particulars	FY18	FY17
Sales Volume (MMT) :		
Cement	2.76	2.41
Clinker	0.00	0.04
Despatch Volume (MMT)		
Cement	2.76	2.40*
Clinker	0.00	0.04

* excluding despatch of 9,259 MT from production undertaken during trial run

● **Power and Coal Consumption**

Particulars	FY18	FY17
Power Consumption (Per MT of Cement)	72 kwh	75 kwh
Coal Consumption (Per MT of Clinker)	99.69 Kg	93.26 Kg

● **e-Power generation**

Particulars	FY18	FY17
Captive Thermal Power Plant (In Lakhs kwh)	1816.37	1687.00
Wind Turbines (In Lakhs kwh)	156.10	170.79

Despite the satisfactory increase in volumes and the slight increase in realizations, the Company's performance could not improve due to increase in costs primarily due to the very sharp increase in fuel prices and power costs.

The cement industry is expected to improve as the industry shall get the benefit of the government's road concretization program, creation of smart cities and Housing for all initiatives. The Company plans to focus and strengthen on production of fly ash based cement and plans to increase the proportion of its blended cement to 75% in FY19 and even further in coming years.

Cost of production has increased with increase in input costs without a corresponding increase in market realization. This continues to pose a significant challenge to improving the overall profitability.

WASTE HEAT RECOVERY PROJECT

With the present increasing trend of cost of power and fuel as well as complete ban on usage of Pet Coke in Captive Power Plants, a Waste Heat Recovery project was evaluated and it was decided to go ahead with the project. The Project envisages 11 MW Power generation by using waste heat from the flue gases, and has a capital outlay of around Rs. 100 crores. This shall not only save power & fuel cost to a great extent but also help to reduce the impact of any further increases in coal and pet coke prices. The estimated payback period of the project is 4-5 years.

Your Company shall be 100% self-sufficient on its captive power generation at Morak. The project shall be commissioned by April 2019.

RISKS & MITIGATING STEPS

The Company has proper enterprise risk management (ERM) policies in place to identify, manage and mitigate risks. The Company reviews the policies and mechanisms periodically to align with the changes in market practices and regulations.

The Audit Committee has also been delegated with the responsibility of monitoring and reviewing risk management, assessment and minimization procedure, developing, implementing and monitoring risk management plan to identify, review and mitigate all foreseeable elements of risks which the Company may be exposed to.

Mangalam Cement is committed to ensure a secure business environment with proactive awareness, appraisal and mitigation measures.

The key risks identified by the Company is as follows :-

Economic volatility risk : Macro-economic factors have always formed the fundamental baseline on which the economy's industrial performance is based and a slowdown may impact the Company's performance. The government is implementing favourable policies and regulations at breakneck speed that have strengthened business sentiments. With increased population, surged need for housing, moderate inflation, stabilising currency and improved disposable income, large social initiatives and improvement in rural consumption the Company expects the demand for cement to grow sustainably.

Raw Material and Mineral Components risk : Limestone being the primary raw material for production of cement and its long term

availability is critical under the present regulatory environment. Your Company possess sufficient limestone reserves for its current requirement. However, getting additional suitable quality reserves is critical to your Company's long term growth plans. The Company has adopted various measures to improve sourcing including changing the input mix to keep costs under check.

Energy Cost risks : Cement industry is highly energy intensive as such changes in fuel prices impact the cost of production significantly. Driven by global demand-supply scenario, tightness in domestic Coal production and despatch as well as ban on usage of Pet Coke, the fuel prices have increased drastically. The Company is continuously focused on optimisation of fuel mix and energy consumption and exploring alternating fuels for use in the manufacturing process, in addition to the full utilization of its wind turbine power generation. The commissioning of the WHR project would significantly help to insulate the company from such risks.

Competition risk : Increasing cement players within the industry may impact realisation on account of stiff competition. To mitigate this risk, the Company has marked its product quality as its primary strength. Very efficiently, the Company has witnessed higher realisations per ton of cement on account of this uniqueness. It maintains a judicious mix of retail and institutional sales as well, which further strengthens its dealer base and retailer network. The Company also reinforced its marketing and sales team, enabling increased market penetration, retaining existing clients and acquiring potential customers, simultaneously.

Information Technology risk : Risks related to Information Technology systems, data integrity and physical assets. Your Company deploys Information Technology systems including ERP to support its business processes. Risks could primarily arise from unavailability of systems and/or loss or manipulation of information. To mitigate these risks, your Company uses back up procedures and stores information at two different locations. Systems are upgraded regularly with latest security standards. For critical applications, security policies and procedures are updated on a periodic basis and users educated on adherence to the policies so as to eliminate data leakages.

Human asset risk : Human resource is one of the most important assets of any company. The lack of a judicious employee mix (experienced and new) may hinder the Company's overall growth.

Therefore, to maintain a steady balance, utmost emphasis has been laid down on retaining experienced personnel and recruiting management trainees to create a robust team. The Company provides specialised training to its employees and is consistently building a leadership pipeline. It maintains an attrition level that is much below industry standards.

Customer reach risk : Inability to reach out to the demand pockets in key regions across India may affect business growth. The Company has developed extensive network strength, ensuring its business growth. Logistics and transportation facilities have been strengthened for efficient dispatch. The Company's marketing department closely works with dealers and institutional clients to cater to their demand requirements.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Your Company's internal control procedures are adequate to ensure compliance with various policies, practices and statutes in keeping with the organization's pace of growth and increasing complexity of operations.

Your Company maintains a system of internal controls designed to provide reasonable assurance regarding the following:

- Effectiveness and efficiency of operations
- Adequacy of safeguards for assets
- Prevention and detection of frauds and errors
- Accuracy and completeness of the accounting records
- Timely preparation of reliable financial information

The internal controls and governance process are duly reviewed for their adequacy and effectiveness through periodic audits by independent internal and external auditors. The Audit Committee is periodically briefed on the corrective and preventive action taken to mitigate the risks.

For the Financial Year ended on 31st March, 2018

{Pursuant to Section 204 (1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014}

To
The Members,
Mangalam Cement Limited
Aditya Nagar, Morak
Dist. – Kota

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Mangalam Cement Limited (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of Mangalam Cement Limited's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2018 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter :

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2018 according to the provisions of :

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') :-
 - a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations,

2011;

INFORMATION AS PER SECTION 134 (3) (M) READ WITH RULE 8 OF THE COMPANIES (ACCOUNTS) RULES, 2014 AND FORMING PART OF THE DIRECTORS' REPORT FOR THE YEAR ENDED 31st MARCH 2018.

A. CONSERVATION OF ENERGY

1. Energy conservation measures taken:

Following energy saving jobs were carried out in plant (in house) -

- Replacement of Raw Mill-I (Ball Mill) old generation separator by latest LNTV separator.
- Replacement of conventional type HPSV lights with energy efficient LED lights.
- Utilisation of 150.16 lac units wind energy (Green power) for plant captive use.
- Optimisation of process for Raw meal grinding, Kiln operation and cement grinding.
- Modification in water circulation system of Unit-II Clinkerisation section.
- Installation of VFD for CPP P&V system
- Replacement of 330 KW DC motor with 160 KW AC motor alongwith VFD in Cement Mill-II.
- Automation of water pumps in Plant & Colony.
- Feeding of limestone in VRM-I from reclaimer of Unit-II as Crusher-II specific power is less.

2. Additional investment and proposals, if any, being implemented for reduction of consumption of energy :

- We are installing Waste Heat Recovery (WHR) based power plant in our Kiln-I and Kiln-II and expected gross power generation will be around 11 MW.
- Replacement of 4 nos. fans by higher capacity fans in Unit-I Kiln FLS Clinker cooler for increase in Clinker production & energy saving.
- Installation of air slide for shifting of cement from Unit-II Cement Mill to Unit-I & Unit-III Cement Mill Silos, for flexibility and improvement in specific power consumption in cement grinding.
- Replacement of DC motors of Cooler fan no. 2,3 & 4 of Unit-II Clinker Cooler by AC motor alongwith VFD.
- Replacement of Sodium light fittings by Energy efficient LED light fittings.

3. Impact of the measures as above for the reduction of energy consumption and consequent impact of the cost of production of goods.

By measures taken in S.No.1 our specific power consumption has reduced from 60.13 to 59.79 units per ton of Clinker in Clinkerisation section (Unit-I & II Combined) and from 25.71 to 25.35 units per ton of cement in cement grinding (Cement Mill-I, II & -III Combined).

Overall specific power consumption of Unit-I, II & III Combined has reduced from 74.73 to 72.51 units per ton of cement.

The measures stated in S.No.2 above will result in saving of energy used in both thermal and electrical as well as improvement of quality of cement and overall productivity.

R & D activities of the organization are done through in-house R & D centre. Special emphasis is given on product development, consistency in quality, and energy savings especially for semi-finished and finished products with best utilisation of available resources. Significant reduction in power consumption and installation of efficient equipment's for environment protection was also considered.

A brief note on progress of each of the projects of In-house R & D, i) successfully completed, ii) under progress and iii) proposed taken up during the year-

• Projects successfully completed during the year 2017-18 :-

- Modification of clinker feeding system to cement mill no-II by installation of bucket elevator, for power saving eliminating two nos. of belts and reducing fugitive emission at transfer points.
- For efficiency improvement in Cement mill no.-2, modification for V-Separator Centre feeding system to spread the material by introducing two belts.
- Installation of high efficiency separator in Raw Ball Mill circuit to increase production rate and reducing power with improved physical quality parameters of raw mix.
- Installation of high efficiency cone (Dedusting Cone) in Raw Ball Mill cyclones to reduce pressure drop and power.
- Installation of wagon clinker loading system by means of belt conveyor with weighing arrangement, which has reduced fugitive emissions (due to dumper movements), loading time and loading cost.
- To control Cooler ESP emissions, ESP was upgraded from 4 to 5 chambers, which has resulted in better collection efficiency and reduction in cooler ESP dust emissions.
- Removal of GCT for reducing pressure drop in Unit-II.
- Reroute of Pet Coke/Coal transportation system from coal yard to coal mill to reduce fugitive emissions and power.
- VRM-II modification to reduce pressure drop by mill internal modification.
- Re-routing of recirculation cooling water line -2 for VRM -II, VCM-II, Kiln -II and Cooler -II through gravity and resulted in stopping of one circulation pump (Energy saving).
- To maximize the inward transportation of Gypsum through railway wagons by developing wagon loading area by re-aligning the railway track which has reduced Green House Gases(GHG) by avoiding road transportation.
- Optimizing length of DPC in Kiln -I at clinker crusher discharge to reduce power and maintenance cost.
- Partly replacement of conveyor belt by installing DPC, which has reduced down time and belt replacement frequency due to hot clinker. This has resulted in reduce transportation of clinker through trucks to MGU.
- Water pumps have been made to run in auto mode with level sensor, avoiding manual running and saving of power and man power cost.
- Solenoid valves were provided in all the compressors cooling water line for power saving to avoid idle running of water pumps while compressors are not running.

B. RESEARCH & DEVELOPMENT (R&D)

1. Significant achievements of In-House R & D facility-

• **Benefit derived from the above projects :-**

1. Saving in specific power consumption and fuel.
2. Improvement in throughputs.
3. Consistency in quality and in plant operations
4. saving in energy consumption
5. dust free environment
6. Reduction in cost of production

• **Projects under progress and proposed for the year 2018-19 :-**

UNDER PROGRESS :

1. A proposal for additive feeding from Unit-I to Unit-II as an alternative.
2. Unit-I Cooler ESP modification by addition of one chamber to reduce dust emission level.
3. Installation of SNCR system to reduce NOx emissions in stacks of both the units and at CPP.
4. Implementation of Waste Heat Recovery Project to utilize the waste heat from the pre-heaters and clinker coolers of Unit- I & II.
5. Replacement of first four cooler fans by higher capacity fans in Kiln-I clinker cooler to improve heat recuperation efficiency and clinker cooling efficiency.

6. Up gradation of Unit-II Data Control System (DCS), operating system.
7. Up gradation of packer 1 & 2 for packing plant-II for packing of cement bags for improved weight accuracy.
8. Additional clinker loading system by installation of belt conveyor from MCL Gantry to railway wagons.
9. Phospho gypsum beneficiation plant.
10. Usage of alternative fuel in pyro processing system in both kilns.

• **PROPOSED :**

Independent Auditor's Report

To
The Members of Mangalam Cement Limited
Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial Statement of **Mangalam Cement Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018 and the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Ind-AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as

well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at 31st March, 2018, its Profit including other comprehensive Income its cash flows and the changes in equity for the year ended on that date.

Emphasis of Matters

We draw attention to Note No 32.5 regarding coal valuing Rs. 1512.64 Lacs included in inventory of Stores and Spares sent for processing and is lying with a vendor for long time. Due to financial difficulty, vendor could not supply the material but the Company is hopeful of recovery.

Our opinion is not modified in respect of the above matter.

Other Matter

The financial statements of the Company for the year ended 31st March 2017 has been audited by previous auditor who expressed and unmodified opinion on May 13, 2017.

Our Opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

As required by section 143(3) of the Act, we report that:

1. As required by the Companies' (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure-A statements on the matters specified in the paragraphs 3 and 4 of the Order, to the extent applicable.
2. (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under section 133 of the Act, read with relevant rules issued thereunder.
- (e) The matters about coal sent for processing as described under the emphasis of matters paragraph above, in our opinion, shall have no adverse effect on the functioning of the Company.

- (f) On the basis of written representations received from the directors as on 31st March'2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
- (g) with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B"; and
- (h) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

Annexure - B to the Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mangalam Cement Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the Ind-AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind-AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind-AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind-AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind-AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India however same need to be further strengthened.

Cash Flow Statement

for the Year ended 31st March, 2018

Effective April 1, 2017, the Company adopted the amendment to Ind AS 7, which require the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the Balance Sheet for liabilities arising from financing activities, to meet the disclosure requirement. The adoption of amendment did not have any material impact on the Statement of Cash Flows.

- Notes
1. The above cash flow statement has been prepared under the Indirect Method as set out in IND AS - 7
 2. Previous year's figures have been regrouped wherever necessary to confirm to this year's classification.

NOTE 32**Significant Accounting Policies and Notes on Accounts as at and for the year ended on 31st March 2018****32.1. Corporate Information**

Mangalam Cement Limited ('MCL' or 'the Company') is a public limited company domiciled and incorporated in India and its shares are publicly traded on the National Stock Exchange ('NSE') and the Bombay Stock Exchange ('BSE'), in India. The registered office of the Company is at Aditya Nagar, Morak - 326520, Kota (Rajasthan). The Company is principally engaged in manufacturing of Cement in India. These financial statements are prepared in Indian rupees.

These financial statements were authorised for issue by the Board of Directors at their meeting held on 15th May, 2018.

32.2 Significant Accounting Policies

The Company has consistently applied the following accounting policies to all periods presented in the financial statements.

32.2.1 Basis of preparation (Compliance with Ind-AS)

The financial statements have been prepared in accordance with all material respects with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standard Rules), 2015 notified under section 133 of Companies Act, 2013 and Companies (Indian Accounting Standard) Amendment Rules, 2016 and other relevant provisions of the Companies Act, 2013.

Accounting Policies have been consistently applied except where a newly issued accounting standards is initially adopted or a revision to an existing accounting standard required a change in the accounting policy hitherto in use.

32.2.2 Basis of measurement

The financial statements have been prepared under the historical cost convention on accrual basis except certain insurance claims which are accounted for on receipt basis on account of uncertainties and the following items, which are measured on following basis on each reporting date:

- Certain financial assets and liabilities (including derivative instruments) that is measured at fair value
- Defined benefit liability/(assets): present value of defined benefit obligation less fair value of plan assets.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company take into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- **Level 1** inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the company

can access at the measurement date;

- **Level 2** inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

- **Level 3** inputs are unobservable inputs for the asset or liability.

32.2.3 Functional and presentation currency

These financial statements are presented in Indian National Rupee ('INR'), which is the Company's functional currency. All amounts have been rounded to the nearest Lakhs, unless otherwise indicated.

32.2.4 Significant accounting Judgements and Estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

A. Judgements

Information about the judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements have been given below:

- Classification of leases into finance and operating lease
- Classification of financial assets: assessment of business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and interest on the principal amount outstanding.

B. Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the financial statements for every period ended is included below:

- Measurement of defined benefit obligations: key actuarial assumptions;
- Recognition of deferred tax assets: availability of future taxable profit against which carry-forward tax losses can be used;
- Impairment test: key assumptions underlying recoverable amounts.
- Useful life and residual value of fixed assets
- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources
- Impairment of financial assets: key assumptions used in estimating recoverable cash flows
- In determining the fair value of the mine restoration obligation the Company uses technical estimates to determine the expected cost to restore the mines and the expected timing of these costs. Discount rates are determined based on expected rate of return.

Notes

forming part of the Financial Statements

32.2.5 Classification of Assets and Liabilities as Current and Non-Current

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset/liabilities is treated as current when it is:

- Expected to be realised/settled (liabilities) or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading
- Expected to be realised/settled within twelve months after the reporting period, or
- Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other assets/liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets/liabilities.

The operating cycle is the time between the acquisition of the assets for processing and their realisation in cash and cash equivalents.

32.2.6 Property, plant and equipment**Recognition and measurement**

Items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of assets comprises of purchase price and directly attributable cost of bringing the assets to working condition for its intended use including borrowing cost and incidental expenditure during construction incurred up to the date when the assets are ready to use. Capital work in progress includes cost of assets at sites, construction expenditure and interest on the funds deployed less any impairment loss, if any.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as a separate item (major components) of property, plant and equipment. Any gain on disposal of property, plant and equipment is recognised in Statement of Profit and loss.

Subsequent Measurement

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

Depreciation

Depreciation on fixed assets is calculated on Straight Line Method using the rates arrived at based on the estimated useful lives given in Schedule II of the Companies Act, 2013. Depreciation on additions to or on disposal of assets is calculated on pro-rata basis. Depreciation methods, useful lives and residual values are reviewed in each financial year end and changes, if any, are accounted for prospectively.

Capital work-in-progress

Capital work-in-progress assets in the course of construction for production or/and supply of goods or services or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognised impairment loss. At the point when an asset is operating

at management's intended use, the cost of construction is transferred to the appropriate category of property, plant and equipment. Costs associated with the commissioning of an asset are capitalised where the asset is available for use but incapable of operating at normal levels until a period of commissioning has been completed.

Disposal of assets

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between net disposal proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss.

32.2.7 Intangible assets

Intangible assets are stated at cost less accumulated amortisation and impairment. Intangible assets are amortised over their respective individual estimated useful life on a straight line method. The useful lives of intangible assets are as follows:

- a) Mining rights are amortised over the period of the leases.
- b) Computer software is amortised over a period of 5 years.

Cost of Site restoration is capitalised as Intangible Assets under the head "Mining Rights". Amortisation methods, useful lives and residual values are reviewed in each financial year end and changes, if any, are accounted for prospectively.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the statement of profit and loss when the asset is derecognised.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, and whenever there is an indication that the asset may be impaired, impairment loss is recognised in the statement of profit & loss.

32.2.8 Non-current assets (or disposal groups) held for sale

Non-current assets, or disposal groups comprising assets and liabilities, are classified as held-for sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use.

Such assets, or disposal groups, are generally measured at the lower of their carrying amount and fair value less costs to sell. An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

Once classified as held-for-sale, intangible assets and property, plant and equipment are no longer amortised or depreciated

32.2.9 Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication on impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment loss in respect of assets other than goodwill is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised in prior years. A reversal of impairment loss is recognised immediately in the Statement of Profit & Loss.

32.2.10 Research and Development Expenses

Revenue expenditure on Research and Development is charged as expenses under the head "Research and Development" in the year in which it is incurred. Capital expenditure incurred on equipment and facilities that are acquired for research and development activities is capitalised and depreciated according to the policy followed by the Company.

32.2.11 Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets upto the assets are substantially ready for their intended use or sale.

The loan origination costs directly attributable to the acquisition of borrowings (e.g. loan processing fee, upfront fee) are amortised on the basis of the Effective Interest Rate (EIR) method over the term of the loan.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

32.2.12 Foreign currency transactions

Transactions in foreign currencies are recorded by the Company at their respective functional currency considering exchange rates prevailing on the date of transactions qualifies for recognition. Monetary assets and liabilities denominated in foreign currency are translated to the functional currency at the exchange rates prevailing at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit

and loss except exchange differences on foreign currency borrowings included in the borrowing cost when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

32.2.13 Employee benefits**a. Short term employee benefits**

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

b. Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. The company has following defined contribution plans:

- a) Provident fund
- b) Super Annuation Fund

c. Defined benefit plans

For defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds.

Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to the statement of profit and loss. Past service cost is recognised in the statement of profit and loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in the statement of profit and loss.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

d. Other long-term employee benefits

The company has long term employment benefit plans i.e. accumulated leave. The liability for accumulated

leave, which is a defined benefit scheme, is provided based on actuarial valuation as at the Balance Sheet date, based on Projected Unit Credit Method, carried out by an independent actuary.

32.2.14 Revenue Recognition

- a. The Company recognises revenue from sale of goods when the titles have been passed at which time all the following conditions are satisfied:
 - i) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
 - ii) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
 - iii) the amount of revenue can be measured reliably;
 - iv) it is probable that the economic benefits associated with the transaction will flow to the Company; and
 - v) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue represents net value of goods and services provided to customers after deducting for certain incentives including, but not limited to discounts, volume rebates, etc. Shipping and handling amounts invoiced to customers are included in revenue and the related shipping and handling costs incurred are included in freight and forwarding expenses when the Company is acting as principal in the shipping and handling arrangement. Sales include excise duty, wherever applicable and are net of Sales Tax / Goods and Service Tax.

- b. Revenue (other than sale) is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Export incentives and subsidies are recognized when there is reasonable assurance that the Company will comply with the conditions and the incentive will be received. Claim on insurance companies and others, where quantum of accrual cannot be ascertained with reasonable certainty, are accounted for on acceptance basis.
- c. Interest income on deposits is recognised on a time proportion basis.
- d. Dividend income is recognised when the right to receive dividend is established.

32.2.15 Government Grants and Subsidies

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants that compensate the Company for expenses incurred are recognised in the statement of profit and loss, as income or deduction from the relevant expense, on a systematic basis in the periods in which the expense is recognised.

When the grant relate to an asset, it is recognised as income in equal amounts over the expected useful life of related assets.

32.2.16 Inventories

- i. Inventories are valued as follows :

Raw materials, stores and spares : Lower of cost and net realisable value. Cost is determined on a weighted average basis. Materials and other items held for use in the production of inventories are not written down below costs, if finished goods in which they will be incorporated are expected to be sold at or above cost.

Work-in-progress, finished goods and traded goods : Lower of cost and net realisable value. Cost includes direct materials, labour and a proportion of manufacturing overheads.

Waste : At net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and to make the sale.

- ii. Provision for obsolete/ old inventories is made, wherever required.

32.2.17 Mining Restoration

Mine restoration expenditure is provided for in the Statement of Profit and Loss based on present value of estimated expenditure required to be made towards site restoration at the time of vacation of mine. The unwinding of the discount is expensed as incurred and recognised as a finance cost in the Statement of Profit and Loss. The cost estimates are reviewed periodically and adjusted as appropriate. Changes in the estimated future costs or discount rate applied are added to or deducted from the site restoration cost.

32.2.18 Provisions and contingencies, Contingent liabilities and Contingent Assets

Based on the best estimate, provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable ("more likely than not") that it is required to settle the obligation, and a reliable estimate can be made of the amount of the obligation at reporting date.

A contingent liability is a possible obligation that arises from a past event, with the resolution of the contingency dependent on uncertain future events, or a present obligation where no outflow is probable. Major contingent liabilities are disclosed in the financial statements unless the possibility of an outflow of economic resources is remote.

Contingent assets are not recognized in the financial statements but disclosed, where an inflow of economic benefit is probable.

32.2.19 Measurement of fair value**a. Financial instruments**

The estimated fair value of the Company's financial instruments is based on market prices and valuation techniques. Valuations are made with the objective to include relevant factors that market participants would consider in setting a price, and to apply accepted economic and financial methodologies for the pricing of financial instruments. References for less active markets are carefully reviewed to establish relevant and comparable data.

b. Marketable and non-marketable equity securities

Fair value for listed shares is based on quoted market

prices as of the reporting date. Fair value for unlisted shares is calculated based on commonly accepted valuation techniques utilizing significant unobservable data, primarily cash flow-based models.

c. Derivatives

The Company uses derivative financial instruments, such as forward currency contracts and interest rate swaps to hedge its foreign currency risks and interest rate risks respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value provided by the respective banks. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss.

32.2.20 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts and interest rate swaps.

a. Financial Assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Classifications

The company classifies its financial assets as subsequently measured at either amortised cost or fair value depending on the company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Business model assessment

The company makes an assessment of the objective of a business model in which an asset is held at an instrument level because this best reflects the way the business is managed and information is provided to management.

Financial Assets at amortised cost

A financial asset is measured at amortised cost only if both of the following conditions are met:

- * it is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- * the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate ('EIR') method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance income in the profit or loss. The losses arising from impairment

are recognised in the profit or loss.

Financial Assets at fair value through Other Comprehensive Income (FVOCI)

Financial Assets with contractual cash flow characteristics that are solely payments of principal and interest and held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets are classified to be measured at FVOCI.

Financial Assets at fair value through profit and loss (FVTPL)

Any Financial Assets, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

b. Equity Instruments

All equity instruments in scope of Ind AS 109 are measured at fair value. On initial recognition an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

All other Financial Instruments are classified as measured at FVTPL

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the company's balance sheet) when:

- * The rights to receive cash flows from the asset have expired, or
- * The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognize the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

On de-recognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised)

and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit or loss.

Impairment of financial assets

The Company assesses on a forward-looking basis the expected credit loss associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

With regard to trade receivable, the Company applies the simplified approach as permitted by Ind AS 109, Financial Instruments, which requires expected lifetime losses to be recognised from the initial recognition of the trade receivables.

c. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, amortised cost, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of amortised cost, net of directly attributable transaction costs.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below :

Financial Liabilities measured at amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risks are recognized in OCI. These gains/loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

De-recognition of financial liabilities

The company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

32.2.21 Income tax

Income tax expense comprises current and deferred tax. It

is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in Other Comprehensive Income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax assets and liabilities are offset only if, the Company:

- a) Has a legally enforceable right to set off the recognised amounts; and
- b) Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

ii. Deferred tax

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised in the statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

combination.

Credit of Minimum Alternative Tax (MAT) is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

32.2.22 Leases

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the percentage value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the statement of profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Lease in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to statement of profit and loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

32.2.23 Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less.

For the purposes of the Cash Flow Statement, cash and cash equivalents is as defined above, net of outstanding bank overdrafts. In the balance sheet, bank overdrafts are shown within borrowings in current liabilities.

32.2.24 Earning Per Share

Basic Earnings per equity shares are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity share outstanding during the year.

For calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period are adjusted for the effect of all diluted potential equity shares.

32.2.25 Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount

is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

32.2.26 Standards issued but not yet effective

The amendments to standards that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

a. Amendment to Ind AS 21

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018. The Company is evaluating the requirements of the amendment and the effect on the financial statements will be given in due course.

b. Amendment to Ind AS 115

Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The standard permits two possible methods of transition:

- Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors
- Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach).

The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018. The Company is evaluating the requirements of the amendment and the effect on the financial statements will be given in due course.

Capital Management

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The primary objective of the Company's capital management is to maximize the shareholder value. The Company's primary objective when managing capital is to ensure that it maintains an efficient capital structure and healthy capital ratios and safeguard the Company's ability to continue as a going concern in order to support its business and provide maximum returns for shareholders. The Company also proposes to maintain an optimal capital structure to reduce the cost of capital. No changes were made in the objectives, policies or processes during the year ended March 31, 2018 and March 31, 2017.

For the purpose of the Company's capital management, capital includes issued capital, share premium and all other equity reserves. Net debt includes, interest bearing loans and borrowings, trade and other payables less cash and short term deposits.

The Company monitors capital using gearing ratio, which is net debt divided by total capital as under :

	(₹ In Lacs)	
Particulars	31st March, 2018	31st March, 2017
Loans and borrowings	37,179.83	39,085.92
Less : cash and cash equivalents	991.68	790.32
Net debts	36,188.15	38,295.60
Equity Share Capital	2,669.38	2,669.38
Other Equity	48,827.44	47,930.59
Total capital	51,496.82	50,999.97
Capital and net debt	87,684.97	89,295.57
Gearing ratio	41%	43%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches of the financial covenants of any interest bearing loans and borrowing for reported periods.

B. Fair Value Hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are:

- Recognised and measured at fair value and
- measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Other Financial Liabilities	11,097.54	11,097.54	11,440.86	11,440.86

Level 1 : Hierarchy includes financial instruments measured using quoted prices. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2 : The fair value of financial instruments that are not traded in an active market (for example, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3 : If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

There are no transfers between level 1 and level 2 during the year.

Annual Report 2017-18

Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of forward foreign exchange contracts is determined as per valuation provided by the bank
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities and preference shares, where the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

Valuation Process

The Company gets the valuations performed from an independent valuer, required for financial reporting purposes, including level 3 fair values.

The main level 3 inputs for unlisted preference shares used by the Company are derived and evaluated as follows:

- Risk adjusted discount rates are estimated based on expected cash inflows arising from the instrument and the entity's knowledge of the business and how the current economic environment is likely to impact it.

Changes in level 2 and 3 fair values are analysed at the end of each reporting period.

Note No. 32.14**Financial risk management objective and policies**

"The Company has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk; and
- Market risk"

Risk Management Framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the processes to ensure that executive management controls risks through the mechanism of property defined framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed by the board annually to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit Committee oversees compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities.

The carrying amount of financial assets represents the maximum credit exposure. The Company monitor credit risk very closely both in domestic market. The Management impact analysis shows credit risk and impact assessment as low.

Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Management has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes market check, industry feedback, past financials and external ratings, if they are available. Sale limits are established for each customer and reviewed periodically.

The Company establishes an allowance for impairment that represents its expected credit losses in respect of trade and other receivables. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables.

In monitoring customer credit risk, customers are reviewed according to their credit characteristics, including whether they are an individual or a legal entity, their geographic location, industry and existence of previous financial difficulties.

The ageing analysis of the receivables has been considered from the date the invoice falls due

(₹ In Lacs)

Particulars	Neither due nor impaired (including unbilled)	Up to 6 months	6 to 12 months	Above 12 months	Total
As at 31st March , 2018	85.15	3,344.30	123.11	96.58	3,649.14
As at 31st March , 2017	71.22	3,162.30	128.93	71.55	3,434.00

During the year, the Company has made no write-offs of trade receivables, it does not expect to receive future cash flows or recoveries from collection of cash flows previously written off. The Company management also pursue all legal option for recovery of dues wherever necessary based on its internal assessment.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected future cash flows. This is generally carried out in accordance with practice and limits set by the Company. These limits vary by location to take into account requirement, future cash flow and the liquidity in which the entity operates. In addition, the Company's liquidity management strategy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Financing Arrangement

The Company had access to the following undrawn borrowing facilities at the end of the reporting period :

	(₹ In Lacs)	
Particulars	31st March, 2018	31st March, 2017

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk, such as commodity price risk and equity price risk. Financial instruments affected by market risk include trade payables, trade receivables, borrowings, etc.

Foreign currency risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD and small exposure in EUR. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The objective of the hedges is to minimise the volatility of the Rs. cash flows of highly probable forecast transactions by hedging the foreign exchange inflows on regular basis. The Company also take help from external consultants who for views on the currency rates in volatile foreign exchange markets.

Currency risks related to the principal amounts of the Company's foreign currency payables, have been partially hedged using forward contracts taken by the Company.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Company's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

Interest rate risk

The Company's exposure to the risk of changes in market interest rates relates primarily to long term debt. To protect itself from the volatility prevailing, the Company maintain its long term borrowing on fixed interest rate through interest rate swap instrument for borrowings in foreign currency, in which it agrees to exchange at specific intervals, the difference between fixed and variable interest amounts calculated by reference to an agreed upon principal amount.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows.

Particulars	Increase/ decrease in basis points	Effect on profit before tax
31st March, 2018	50 basis point	151.04
31st March, 2017	50 basis point	135.23

ANNEXURE TO THE NOTICE

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 (1) OF THE COMPANIES ACT, 2013 ("the Act")

Item No. 04

Section 197 of the Companies Act, 2013 provides that in the case of Director who are neither managing director nor whole-time director/executive director may by way of special resolution, authorise payment of commission in addition to the fee for attending the meetings of the Board where such Directors are rendering useful advice to the Company. To retain such Non-Executive Director, it is desirable that they should be paid commission @ 1% of the net profit of the Company not exceeding Rs. 7.00 Lacs (Rupees Seven Lacs Only) to each of the Director in any financial year, except the Managing Director and Executive Directors. The shareholders in their Annual General Meeting held on 17th August, 2015 had approved payment of commission @ 1% of the net profits of the Company but not exceeding 7.0 Lacs to each of the Non-Executive Directors of the Company for a period of three years. This period of three years completes on 31st March, 2018. Hence the proposed resolution seeks authority for such payment to the Non-Executive Directors for a period of three years effective from 01st April, 2018.

Therefore, the Board of Directors in the best interest of the Company, recommends the special resolution set out at item no. 4 of this Notice, for approval by the shareholders.

All the Directors of the Company (except Smt. Vidula Jalan and Shri Anshuman Vikram Jalan, Executive Directors and the Key

Managerial Personnel and their respective relatives) are interested in the Resolution to the extent the remuneration is payable to them in accordance with the proposed resolution.

Item No. 05

The Board on the recommendation of the Audit Committee has approved the re-appointment of M/s. J K Kabra & Co., Cost Accountants, New Delhi as Cost Auditors to conduct the audit of the cost records of the Company for the financial year ending 31st March, 2019 pursuant to Section 148 of the Companies Act, 2013 on a remuneration of Rs.1,20,000/- (Rupees One Lac Twenty Thousand only) plus service taxes applicable and out of pocket expenses.

As per Rule 14 of Companies (Audit and Auditors) Rules 2014, the appointment and remuneration payable to the Cost Auditors is to be ratified by the Shareholders. Hence this resolution is put for the consideration of the shareholders.

None of the Directors and Key Managerial personnel or their relatives are interested in the above resolution.

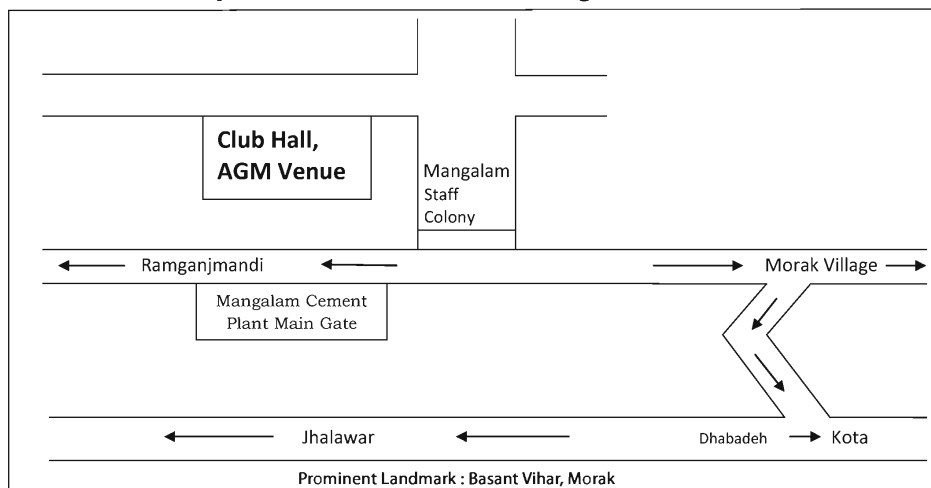

The Board of Directors recommends the resolution for your approval.
