***Note:** Includes an exceptional gain of Rs. 12.6 crore, representing Employee Retention Credit (ERC) received by CP Industries, US subsidiary, from the Department of the Treasury, Internal Revenue Service, USA.

Commenting on the performance for the quarter, Mr. Pushkar Khurana, Chairman, and Mr. Puneet Khurana, Managing Director, said in a joint statement:

"We have started FY2026 on a strong note, delivering healthy growth in Q1. Consolidated revenues stood at Rs. 386.9 crore, representing a YoY increase of 12.9%, while PBT rose 61% to Rs. 53 crore. Both our India and US operations delivered remarkable performances, underscoring the strength of our diversified business model and execution capabilities across geographies.

We are seeing robust demand in our core markets, and with new capacities coming onstream this year at Mundra and Egypt, we will be significantly enhancing our ability to cater to the growing requirements of both domestic and international customers in FY27.

Government policy support for clean energy continues to create a favourable environment for high-pressure gas storage solutions. Emerging applications in areas such as compressed biogas, semiconductors, and hydrogen are gaining strong momentum, and EKC's high-pressure seamless cylinders are already enabling safe and reliable storage where purity, safety, and pressure integrity are critical.

With growing adoption of our high-pressure seamless cylinders across a widening range of applications, we are well positioned to capture the next phase of growth. We remain committed to driving innovation, expanding our capabilities, and delivering long-term value."

<End>

About Everest Kanto Cylinder Limited

Everest Kanto Cylinder Limited (EKC) (BSE: 532684, NSE: EKC), established in 1978, is a clean energy solutions company and a leading global manufacturer of seamless steel gas cylinders with over 20 million industrial gas and CNG cylinders currently in service.

EKC operates two manufacturing facilities in India located at Tarapur (Maharashtra) and Kandla SEZ (Gujarat) and two international facilities at Jebel Ali Free Zone in Dubai and Pittsburgh (PA), USA, with aggregate capacity of about 1.5 million cylinders annually. EKC's product range of industrial, CNG and jumbo cylinders is used for high pressure storage of gases such as oxygen, hydrogen, nitrogen, argon, helium, air etc and finds applications in a wide variety of industries such as manufacturing, fire equipment/suppression systems, medical establishments, aerospace/ defence and automobiles apart from some specialized usage areas.

Given its strong position in the Indian domestic market and wide acceptance across several key international markets built over the last four decades, EKC is poised to benefit from the increasing usage of gases in industrial production and automobile sectors based on both economic and environmental considerations.
