## Forward Looking Statements

Some information in this report may contain forward looking statements. We have based these statements on our current beliefs, expectations and intentions as to facts, actions and events that will or may occur in the future. Such statements generally are identified by futuristic words such as 'believe', 'plan', 'anticipate', 'continue', 'estimate', 'expect', 'may', 'will' or other similar words. These statements may include assumptions or basis underlying the futuristic statement. We have chosen these assumptions or basis in good faith, and we believe that they are reasonable in all material respects. However, we caution you that these statements might vary from actual results, and the differences between the results implied by the statements and actual results can be material, depending on the circumstances.

## VALUE ACCRETIVE GROWTH POWERED BY QUALITY

### Weaving Values & Spinning Innovation

At Nitin Spinners, we cultivate growth methodically, consciously and with a clarity of purpose. This year, we reaffirmed our belief that enduring value is built through a dedication to excellence in what we make, how we operate and the principles we adhere to. Quality is intricately woven in every yarn we spin, every fabric we craft and every market we serve. We regard quality not as our differentiator but as our foundation.

Even in the face of global headwinds, we advanced with determination, guided by the values that define us and innovations that propel us. By refining our processes, optimising capacities and staying attuned to the emerging demand, we continued to create value that is both tangible and lasting. We recorded growth not by scaling alone, but by strengthening the threads of our operations.

As we step into the future, we remain focussed on spinning progress through purposeful investments and weaving enduring relationships. The fabric of our growth continues to be threaded with our values and textured by quality.

## About the Company

# A legacy Spun with Precision

Nitin Spinners is a quality-focused textile manufacturer with integrated capabilities in spinning, knitting, weaving, finishing and printing. We produce high-quality cotton and blended yarns, knitted fabrics and finished woven fabrics, driven by innovation, efficiency and long-term value creation.

Our presence now encompasses over 55 Countries, supported by an agile well-integrated value chain and future-ready manufacturing capabilities. From modest beginnings with open-end spinning, we have expanded into ring spinning, knitted fabrics, finished woven fabrics and value-added yarns. This diversification has afforded us the ability to strengthen our product depth, improve operational flexibility and serve a wide spectrum of clients.

Our facilities are equipped with state-of-the-art technology and governed by stringent quality systems that ensure consistency, precision and compliance with global standards. Certified under ISO 9001:2008, we remain aligned with the expectations of global customers across sectors.

Our growth strategy stands on four foundational pillars- technology, quality, agility and customer focus. With each expansion, we aspire to enhance our efficiency and deepen our market relevance. As we progress on our growth trajectory, we remain resolute on establishing trusted relationships, setting new benchmarks in performance and remain perceptive of the shifting demands of the industry.

# Message from the Chairman & Managing Director

## STRONG FINANCIAL OUTCOMES

Amidst this challenging industry landscape, Nitin Spinners achieved its highest-ever annual revenue of ₹3,305.65 Crores in FY25, marking a 14% year-on-year growth. This was a notable accomplishment, especially considering the prevailing lower yarn prices. Our export revenue reached an all-time high of ₹2,111 Crores, registering a 24% growth over the previous year. This reflects our ability to leverage our diversified global customer base across, while effectively adapting to market-specific demands.

Our Profit After Tax stood at ₹175.43 Crores, reflecting a significant 33% growth over the previous year. Consequently, our Earnings Per Share (EPS) increased to ₹31.20 from ₹23.29.

I am pleased to inform that Board of Directors have recommended dividend of 30% ie ₹3/per share on Equity shares.

## OPERATIONAL EXCELLENCE

A key driver of this performance was our high asset utilisation, coupled with our uncompromising focus on quality. Throughout the year, our spinning capacity operated at over 96%, while the weaving and finishing divisions consistently maintained utilisation rates above 90%. This robust throughput was a result of disciplined execution, sustained order inflows and rising demand for our high-quality, value-added products.

Our emphasis on rigorous quality assurance enabled us to consistently meet evolving customer expectations. Simultaneously, we continued to invest in internal efficiencies and prudent resource allocation, which helped optimise our cost structures and support margin expansion. A disciplined approach to working capital management ensured strong liquidity, even as we scaled our operations.

## STRATEGIC CAPITAL DEPLOYMENT FOR FUTURE GROWTH

To sustain growth momentum and prepare for evolving market scenario, the Board has approved a substantial capital expenditure plan of approximately ₹1,100 Crores for the current year. This investment will be allocated across our yarn and fabric verticals apart from increasing renewable power footprint. The primary objectives of this capital expenditure are to enhance value addition, improve product mix, strengthen cost competitiveness and introduce high-value, specialised products. These initiatives are designed to meet the growing demand for premium fashion products and sustainable textiles from both domestic and global brands.

At Nitin Spinners, we have always followed discipline of building steadily and have grown not by chasing trends but by staying committed to fundamentals, i.e., Focus on quality, integrity in relationships and consistency in delivering value. The proposed capital expenditure initiatives are also on the same principals and will ensure that we remain future-ready by incorporating efficient and scalable infrastructure that supports sustainable and profitable growth.

## SUSTAINABILITY AND SOCIAL RESPONSIBILITY

We consistently adopt cleaner production methods and implement resource-efficient technologies, particularly in our energy, water and waste management practices. Our focus on circularity is expanding, with efforts to enhance traceability, significantly reduce our environmental footprint and ensure responsible sourcing.

Our Corporate Social Responsibility (CSR) programmes improve access to education, healthcare and livelihood opportunities within the communities surrounding our operations. Through targeted interventions and partnerships, we strive to enhance the quality of life and build long-term trust with all our stakeholders. Further, employee welfare, safety and skill development remain central to our people-first approach.

## POSITIONED FOR VALUE-ACCRETIVE GROWTH

The textile industry is poised to experience moderate but steady growth, driven by improving trade relationships, supportive sectorial policies and an increasing global demand for Indian textiles. This favourable medium to long term outlook positions us well; our diversified product portfolio and export footprint allow us to capitalise on this momentum while mitigating risks from regional volatility.

For FY26, our strategic priorities will focus on optimising operations and precisely executing our investment plans. Given these favourable sectoral trends, our disciplined capital allocation and a continued emphasis on value-

added products, we are confident in our ability to deliver consistent returns for all stakeholders.

## A WORD OF APPRECIATION

I extend my heartfelt gratitude to our employees for their relentless efforts in ensuring the seamless and efficient operation of our business as well as to our esteemed Board of Directors for their sage advice and strategic guidance. I also thank our customers, vendors and Bankers for their continued trust and support and to each of our Shareholders for their patience and belief in our vision.

Warm Regards,

**Dinesh Nolkha**

## DEAR SHAREHOLDERS,

The fiscal year 2025 unfolded against a backdrop of global complexities, characterised by persistent geopolitical tensions, evolving international trade restrictions and a cautious consumer sentiment. Despite these challenging external factors, the Indian textile industry demonstrated remarkable resilience and achieved moderate growth. An important driver of this positive performance was the increase in demand across both domestic and export markets. Stable cotton prices further supported operating conditions. However, the industry did face a constraint on margins due to the marginal cost disadvantage of domestic cotton when compared to international prices.

Building on its demonstrated resilience, India's position in global textile trade has significantly strengthened. Trade agreements, notably the Free Trade Agreement (FTA) with major countries like UK, are expected to build long-term momentum for Indian exports.

## Geographic Presence

### Expanding the Circle of Value

We continue to enhance our international reach by maintaining a strategically diversified export base and responding swiftly to shifts in the markets. This approach allowed us to deepen our presence in crucial geographies while exploring new growth opportunities in Japan and Africa.

In FY2024-25, exports contributed 64% of our total revenue, with our products reaching upwards of 55 countries spanning six continents.

## Value Creation Model

# Crafting Value, Thread by Thread

## Manufacturing Excellence

# Spinning Excellence into Every Stage

The essence of our craft at Nitin Spinners lies in a finely tuned manufacturing ecosystem where integration meets innovation. Our technologically sophisticated production setup affords us the ability to deliver high-quality output, cost efficiency and operational flexibility across the textile value chain.

Our facilities at Bhilwara and Chittorgarh house modern spinning, knitting, weaving and finishing lines, designed to accommodate a wide range of cotton and blended textile applications. Over the past fiscal, we successfully achieved optimal utilisation across the majority of our divisions, aided by seamless ramp-up of our expanded capacities. This operational momentum translated into augmented output, enhanced margins and a transition towards value-added offerings aligned with shifting market preferences.

We continue to channel our capital into modernisation, automation and resource efficiency to sharpen our competitive edge and support our shift towards more sustainable operations. Our manufacturing is governed by rigorous quality control and strong process discipline, enabling us to consistently deliver reliable and high-performance textile solutions at scale.

Best-in-class technology and state-of-the-art machinery enhance cost efficiency, ensure faster turnaround and improve operational effectiveness.

Captive solar power plants contribute to lower power costs and support our clean energy transition.

Strategic plant location streamlines logistics, supports quicker turnaround times (TAT) and reduces freight costs.

Reprocessing of waste materials enhances cost-savings and supports circular manufacturing practices.

Focused efforts in R&D and value enhancement have enabled us to successfully enter multiple international markets.

Easy access to raw material, with nearly 10 Lakhs bales of cotton available within a 250 km radius, strengthens sourcing reliability and cost control.

## Manufacturing Excellence Contd...

### Quality Focus

Every thread of our textile journey is woven with uncompromising approach to quality. It begins with sourcing raw materials and continues through each step of production to final dispatch. Our systems are designed to ensure

consistency, traceability and adherence to global textile standards. We are certified under ISO 9001:2008 and our products are tested for compliance with international benchmarks, including OEKO-TEX Standard 100. Equipped

with advanced laboratories and automated process monitoring and real-time quality checks, we ensure that every product meets the help us deliver products that meet the dynamic expectations of global brands.

### Certifications

### Research & Development

We regard R&D as a strategic catalyst of long-term competitiveness, allowing us to stay attuned to evolving customer expectations and nurture product innovation across the textile value chain. Our R&D efforts are directed towards the development new blends, enhancing quality benchmarks and expediting turnaround times on customised requirements. Close engagement with customers helps us comprehend end-use needs and tailor our yarns and fabrics accordingly.

We have strengthened our capabilities by establishing a modern design studio. The studio is equipped with advanced infrastructure including a pilot plant from Mathis, a fabric printing studio and spectrophotometers and colour computers from DataColor. These tools enable us to craft trend-attuned fabric samples and deliver precise colour matching for our global clientele. Our R&D team continues to explore new frontiers to elevate value addition, develop functional textiles and bolster our market relevance.

## Sustainability At Core

## Sustainability in Every Seam

For us, sustainability is integral to how we create long-term value. We direct our focus on resource conservation, reducing environmental footprint and building a responsible value chain that supports growth rooted in responsibility.

### Energy Management

We have embraced a structured method to manage and reduce energy consumption across our facilities. By deploying energy-efficient equipment and appliances powered by renewable sources, we have markedly reduced our dependence on conventional power. Smart systems enable real-time monitoring, while measures such as proper insulation, efficient lighting and process optimisation help curb the loss of energy and augment operational efficiency in a sustainable manner.

### Use of Renewable Energy

To reduce our dependence on conventional power, we have steadily scaled our renewable energy footprint. With an installed solar capacity of 18.8 MW, a meaningful portion of our energy demands are now met by cleaner alternatives. These investments have helped us lower energy costs and reduce greenhouse gas emissions while supporting our transition towards cleaner operations.

### Water Conservation

We continue to prioritise water efficiency across our manufacturing units. Our facilities are equipped with advanced systems for water recycling and reuse, considerably curbing freshwater consumption. The adoption of zero liquid discharge systems ensures that all effluents are treated and reintegrated into the process cycle. Through disciplined monitoring and process improvements, we are consistently lowering our water footprint.

### Utilising Sustainable Cotton and Fibres

We are gradually augmenting the share of sustainable and recycled fibres in our product portfolio to meet the growing demand for responsible textiles. Our sourcing and product development teams collaborate with suppliers and customers to deliver eco-conscious solutions that align with global sustainability benchmarks. This approach broadens our product offerings while contributing to the industry's shift towards ecologically responsible consumption.

## Empowering Communities

# Progress Woven with Responsibility

We are deeply invested in the well-being of communities surrounding our operations. Our CSR efforts are centred around nurturing inclusive growth. Through targeted interventions in education, healthcare, infrastructure and livelihood generation, we aim to uplift marginalised communities by addressing pressing issues and long-term aspirations

# Business Responsibility and Sustainability Report

## Overview

### Our Purpose

To be a leading textile manufacturer committed to delivering high-quality, innovative and sustainable products that enrich lives and foster responsible business practices across the globe.

### Our Vision

To be the most reliable supplier across the textile value chain by leading with quality, innovation, and sustainability. We aim to establish ourselves as an integrated textiles manufacturer through forward and vertical integration, providing superior quality products at competitive prices. Nitin Spinners is committed to remaining at the forefront of high-quality textile production, exceeding industry standards, enhancing shareholder value, and promoting strong partnerships. By focusing on innovation and customer-centric solutions, we strive to expand our global presence and contribute positively to our communities and the environment

### Our Values

At Nitin Spinners, our values are the cornerstone of our success. They guide our decisions, shape our culture, and inspire our people to achieve excellence every day.

**Innovation:** We are committed to adopting cutting-edge technology and continuously improving our processes to stay competitive and meet customer expectations. Innovation drives our pursuit of excellence in product quality and operational efficiency.

**Agility:** Agility is central to our operations, allowing us to adapt swiftly to changing market demands and environmental needs. This flexibility helps us maintain a competitive edge and capitalize on new opportunities.

**Sustainability:** We prioritize eco-friendly practices, such as using organic cotton, recycled fibres, installation of ZLD and renewable energy sources, which contribute to resource conservation and minimize our environmental footprint.

**Integrity:** Our business is built on a foundation of transparency, accountability, and ethical practices. We are dedicated to maintaining high standards in corporate governance and stakeholder engagement.

**Community Engagement:** We are deeply committed to social responsibility, supporting local communities through education, healthcare, and infrastructure development. Our CSR initiatives are an integral part of our corporate culture, aimed at fostering equitable growth and development.

### Sustainable Development

Nitin Spinners is dedicated to promoting sustainable development across all facets of its operations. We have implemented a Zero Liquid Discharge system, water recycling, and rainwater harvesting facilities to reduce our water footprint. We actively utilize solar energy, resulting in a reduction in carbon emissions, and ensure that over 43% of our raw materials are sourced sustainably, including organic, regenagri and BCI cotton. Additionally, our community-focused CSR initiatives support education, health and environmental conservation efforts.

## Principle 1

### Ethics, Transparency and Accountability

We adhere to strong corporate governance practices, reinforced by our Code of Conduct for all employees and a Vigil Mechanism for reporting grievances. Our policies are designed to ensure ethical, transparent, and accountable business operations. We regularly review compliance with statutory requirements and maintain a zero-tolerance approach toward bribery and corruption.

## Principle 2

### Product Life Cycle Sustainability

Our commitment to producing sustainable and safe textile products is reflected in our sourcing of certified raw materials, including BCI-certified cotton and recycled fibers. We minimize waste through recycling initiatives and have adopted a Zero Liquid Discharge (ZLD) system for wastewater management. Additionally, we have made significant investments in renewable energy, such as solar power installations, to reduce our carbon footprint.

## Principle 3

### Employee Well-being

We prioritize the well-being of our employees by providing health and safety initiatives, including health insurance, regular safety training, and workplace hazard assessments. Our employee policies adhere to SA 8000 standards for social accountability, covering non-discrimination, safe working conditions, and fair labor practices.

## Principle 4

### Stakeholder Engagement

We actively engage with our stakeholders, including employees, local communities, and shareholders. Stakeholder grievances are addressed through dedicated committees, and we maintain regular engagement with the community through our CSR initiatives, which focus on healthcare, education, and infrastructure development.

## PRINCIPLE 5

### Human Rights

We believe that human rights are fundamental to our operations. We train our employees on fair labor practices, prevent child labor, and ensure workplace safety. Our policies are designed to respect human rights throughout our operations and value chain, promoting a culture of respect and dignity.

## Principle 6

### Environmental Responsibility

We emphasize environmental sustainability by reducing water usage, recycling waste, and investing in renewable energy. Our Zero Waste to Landfill policy ensures that no waste is sent to landfills, with all by-products either recycled internally or repurposed for other industries. These efforts reflect our broader commitment to responsible environmental stewardship.

## Principle 7

### Responsible Policy Advocacy

We participate in various industry associations and advocacy groups, including the Confederation of Indian Textile Industry and the Cotton Textiles Export Promotion Council. Through these platforms, we advocate for policies that promote sustainable practices within the textile industry and engage responsibly in public policy discussions.

## Principle 8

### Inclusive Growth and Equitable Development

Through our Corporate Social Responsibility (CSR) programs, we support inclusive growth by focusing on education, healthcare, and infrastructure development in the communities where we operate. Our CSR committee oversees the progress of these projects, ensuring they align with our commitment to equitable development.

## Principle 9

### Consumer Value

We place a high value on customer satisfaction and have established mechanisms for handling complaints and feedback. We consistently achieve high levels of customer satisfaction through our commitment to innovation, quality, and responsible business practices. Additionally, our data privacy and cybersecurity policies are designed to protect customer information and maintain trust.

## Message from the Chairman & Managing Director

At Nitin Spinners Limited, sustainability is an integral part of our business strategy. This Business Responsibility and Sustainability Report (BRSR) for the financial year 2024-25 outlines our ongoing efforts to align with the National Guidelines on Responsible Business Conduct (NGRBC) and our continued dedication to creating long-term value for all stakeholders.

Our journey towards sustainability is driven by a deep understanding of the challenges and opportunities presented by our industry. We recognize the importance of reducing our environmental footprint and enhancing our resource efficiency, which is why we have focused on energy conservation, waste management and sustainable sourcing. The installation of rooftop solar power plants and our Zero Liquid Discharge (ZLD) system are key milestones in our efforts to reduce energy consumption and ensure responsible water usage.

People are at the heart of our business, and we are committed to ensuring the well-being of our employees and workers. Through our health and safety initiatives, we have successfully implemented ISO 45001 certifications, providing a safe and healthy workplace for everyone at Nitin Spinners. Furthermore, we have continuously invested in skill development and training programs to empower our workforce, ensuring they are equipped with the knowledge and tools to thrive in a rapidly changing world.

As we expand our global footprint, serving customers in more than 55 countries, we continue to prioritize the highest standards of quality and sustainability in our products. Our sustainable sourcing efforts, including the use of Organic and Better Cotton Initiative (BCI), GOTS OCS certified cotton, regenagri and recycled materials; demonstrate our commitment to minimizing our impact on the environment while delivering value to our customers.

I would like to extend my appreciation to all our stakeholders employees, customers, suppliers, investors and the communities in which we operate. It is through our collective efforts that we are able to make meaningful progress towards a more sustainable future.

As we look ahead, we remain focused on driving continuous improvement in our sustainability performance. We are committed to being a responsible corporate citizen, contributing to the socio-economic development of the communities we serve, and promoting a circular economy that benefits all.

## 26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying The risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Market Shift towards Sustainable Textiles	O	Increasing global and domestic demand for sustainable and traceable textile products presents a strong growth opportunity.	We are expanding our sustainable product portfolio by using organic, BCI, and recycled cotton, and enhancing our traceability systems.	Positive
2	Energy Consumption and Cost Efficiency	R	Energy is a major component of our operational expenditure. Rising tariffs and environmental concerns over fossil fuel use demand a more efficient and cleaner energy approach.	We have undertaken multiple energy efficiency initiatives, including switching to biomass pellets for boiler fuel, expanding our solar PV installations, and modernizing equipment to exceed the energy performance benchmarks set by BEE.	Negative
3	Climate Change Impact on Cotton Yield	R	Cotton yields are increasingly threatened by erratic weather patterns and droughts in key sourcing regions.	We are working with cotton farmers, promoting climate-resilient farming practices, and strengthening supplier diversification.	Negative
4	Water Consumption in Operations	R	Water scarcity and operational dependency on water pose regulatory and reputational risks, especially in water-stressed regions.	We have achieved 98% water recycling at our fabric plant, adopted Zero Liquid Discharge, and strengthened rainwater harvesting and sewage treatment capacities.	Negative
5	ESG and Compliance Requirements	O	Strengthening ESG regulations from global brands and investors drive demand for compliance-ready suppliers.	We have adopted ISO 14001, Higg Index, and other third-party verified standards. Sustainability disclosures aligned with global frameworks are being enhanced.	Positive
6	Circularity and Waste Management	O	Rising demand for circularity in textiles can create a competitive advantage for early movers.	We are piloting initiatives to reuse post-industrial waste, exploring partnerships for textile-to-textile recycling.	Positive

# Management Discussion and Analysis

## Economic overview

### Global economy<sup>1</sup>

In CY 2024, the global economy sustained its growth trajectory, recording a growth rate of 3.3%, despite on-going geopolitical tensions, shifting trade dynamics, realignment of supply chains and alterations in monetary policy. In response to these headwinds, governments worldwide prioritised policy reforms and aimed at prioritising innovation, enhancing supply chain resilience and promoting economic diversification to secure long-term stability.

Inflationary pressures eased considerably over the year, with global inflation declining from 6.6% in CY 2023 to 5.7% in CY 2024. This decline was primarily due to effective monetary interventions and greater stability in energy markets, which contributed to price stabilisation and supported a broader economic rebound. Emerging Markets and Developing Economies (EMDEs) outpaced advanced economies with a growth rate of 4.3%, compared to 1.8% in the latter. Their strong performance was catalysed by robust domestic demand, increased Foreign Direct Investment (FDI) and a strategic pivot towards reducing reliance on external trade.

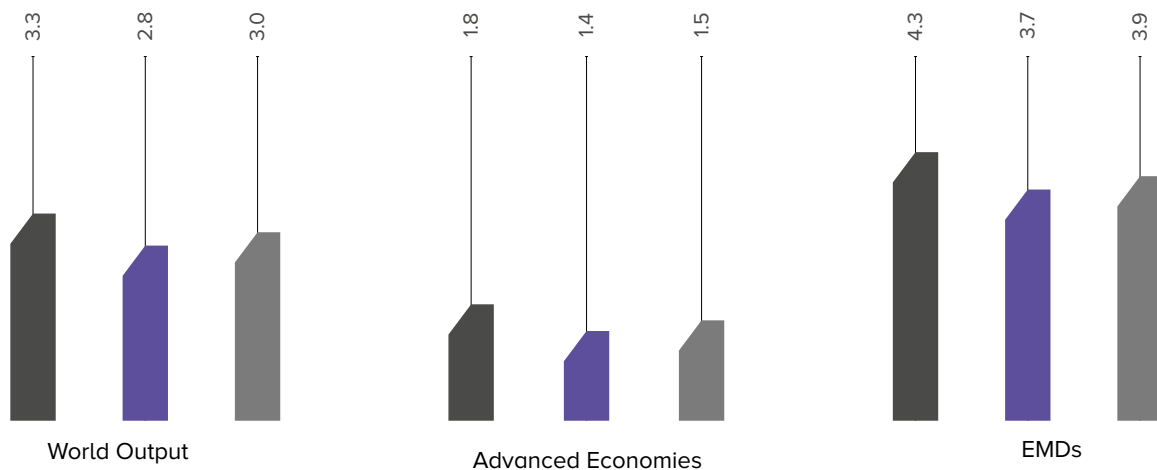

### Outlook

The global economy is projected to expand at a measured pace, with growth estimated at 2.8% in CY 2025 and 3.0% in CY 2026. This outlook is supported by a gradual decline in inflation and the implementation of targeted policies by Central Banks worldwide. Emerging markets are expected to maintain stable momentum with a growth rate of 3.7%, while developed economies are likely to experience a slow but steady recovery, reaching 1.4% growth in CY 2025.

As inflation is forecast to ease to 4.2% in CY 2025 and further to 3.5% in CY 2026, consumer expenditure is expected to strengthen. Despite recent hikes in tariffs by USA and the implementation of protectionist measures across several geographies, the global economy remains interconnected and resilient.

In response to uncertainties in global trade, governments and businesses are adapting by tapping into new markets and enhancing supply chain efficiencies. Additionally, a sharper focus on boosting productivity through technological innovation, improved workforce health and smarter infrastructure is predicted to catalyse sustained growth and offer a pathway to renewed global progress.

### Indian economy

India's economy grew at a rate of 6.5% in FY 2024-25, despite global challenges, such as geopolitical conflicts, supply chain disruptions and shifting trade dynamics. This performance was driven by targeted government measures, particularly the allocation of ₹11.21 Lakhs Crores in the Union Budget for infrastructure and rural connectivity. Strategic capital investments also played a key role in containing the fiscal deficit

at 4.7% of GDP, thereby providing significant scope to boost demand and stimulate economic growth.

India's manufacturing sector, along with supportive government measures played a crucial role in expediting economic growth and bolstering employment opportunities. India has now become the 4th largest economy of the world, ahead of Japan. The country's per capita income has also doubled in last 10 years.

## Management Discussion and Analysis (Contd..)

### Outlook

Despite global uncertainties, India is predicted to sustain its growth trajectory, supported by strong domestic demand, disinflationary trends and a favourable macro-economic environment like sustained domestic and foreign investments, robust manufacturing growth and improvement in trade and financial services. The government's continued focus on capital expenditure, improving rural demand and the rapid increase of digital and physical infrastructure are expected to further improve economic growth and social well-being. As supply chains stabilise and input costs moderate, industries integrated into essential services and everyday consumption are well-positioned to benefit from heightened demand and enhanced operational efficiency.

The recent repo rate reduction by the Reserve Bank of India (RBI) is set to inject liquidity, enhance credit access and boost market sentiment. Simultaneously, the government is adopting a calibrated approach to the evolving global tariff landscape to protect national economic interests. Moreover, the UK Free Trade Agreement (FTA) aims to enhance bilateral trade by reducing tariffs, streamlining customs procedures and encouraging investment flows. It offers expanded market access for goods and services, demonstrating stronger economic ties and mutual growth opportunities.

### Industry overview

#### Global textile and apparel industry

The global textile industry, valued at US \$ 1,976.84 billion in FY 2024, exhibited steady growth driven by the increasing demand for natural fibres. Additionally, the Asia Pacific region, remained a dominant market owing to its easy access to raw materials, a young population driving demand for fashionable apparel and significant government investments in countries, such as India, China and Bangladesh. The industry is highly fragmented, with a broad spectrum of offerings, which spans clothing and home décor to technical and medical textiles. Moreover, it has major players continuously adopting strategies to strengthen their market positions.

Globally, the textile sector benefited from rising consumer awareness of sustainable and eco-friendly products, leading to stricter regulations and a shift towards clean production techniques. North America is projected to be the fastest-growing region while Europe exhibits significant growth potential, supported by demand for organic fabrics and favourable trade policies.

### Outlook

The global textile industry valued at an estimated US\$ 2,123.72 billion in 2025, is poised for sustained expansion at a Compound

Annual Growth Rate (CAGR) of 7.35% through 2034. The sector is predicted to capitalise on trends towards sustainable practices. While challenges related to production costs and raw material availability persists, sustained investments in technology, research and development, evolving consumer preferences for eco-friendly and high-performance textiles are set to fuel the industry's growth momentum in the years ahead.

#### Indian textile and apparel industry

The textile and apparel industry being a major economic driver, contributes significantly to the nation's GDP and employment generation. As one of the largest sources of employment after agriculture, the sector engages over 45 million people directly.<sup>2</sup> The industry witnessed steady growth 2024, with the market value reaching an estimated US\$ 222.08 billion and is projected to sustain its growth in the upcoming years.<sup>3</sup> This growth is expected to be propelled by rising domestic consumption, with India's expanding middle class fuelling demand for high-end and branded apparel and the exponential rise in online retail that has made fashion more accessible across both urban and rural markets. The sector benefits from a unique blend of traditional craftsmanship and modern innovation, displayed at landmark events like Bharat Tex 2025, which drew global attention to India's capabilities in sustainable textiles.

Government initiatives have been crucial in shaping the industry's trajectory. Schemes such as the PM MITRA Parks and the Production Linked incentives (PLI) programme have enhanced infrastructure, encouraged large-scale production of man-made and technical textiles thereby, improving the sector's global competitiveness. India's diverse product range and a strong push for sustainability and digitalisation, have positioned the country as an emerging leader in the global textile and apparel market.<sup>4</sup>

## Management Discussion and Analysis (Contd..)

### Outlook

The textile and apparel industry stands as a key driver of economic growth. However, it has reinforced its global market presence as well. The sector's export potential strengthened, supported by expanded trade alliances, improved infrastructure and a favourable policy environment. Also, government support, technological advancement, rising consumer demand and FTA major consuming countries has set India's textile and apparel industry for a high growth trajectory, thereby, propelling sustained expansion and innovation in the forthcoming years.

### Indian cotton textiles industry

Cotton is a major commercial crop in India and contributes about 24% of the total cotton production of the world. It provides employment and income for millions of farmers and workers across the country. India holds the largest cotton acreage in the world. It also contributes to the country's foreign exchange earnings through the export of raw cotton, processed materials, and finished textile products.

The Indian cotton textiles industry experienced moderate growth in 2024-25. Cotton prices remained largely stable during the year contributing to more predictable input costs. However at the end of the fiscal, domestic cotton prices increased due to sharp decline in estimated domestic cotton output to 29.14 million bales against earlier estimates of 31.5 million bales. Government of India has launched a ₹600 Crores, five-year Cotton Mission aimed at increasing productivity, especially for extra-long staple cotton and promoting sustainable cotton.

A rebound in exports and favorable domestic demand are expected to drive India's cotton yarn industry to a higher revenue growth in the fiscal 2025-26, up from a modest 2-4% growth in the previous fiscal.

### Opportunities and challenges

#### Opportunities

##### Strong Domestic demand

Increasing demand in domestic market due to rising income levels and growing middle class, changing taste and preferences, continues to drive demand for Indian Textiles and apparel.

##### Shift in global sourcing preferences

Heightened labour rates in Vietnam and political unrest in Bangladesh position India an ideal sourcing destination among global buyers. Moreover, possible US tariffs against Chinese textiles may divert orders to Indian producers.

##### Free Trade Agreement (FTA) with various consuming countries

The newly signed India-UK FTA is expected to augment textile exports to the UK by removing import tariffs on textiles and apparel. Consequently, it will potentially enhance Indian textile exporters' profit margins, further propelling competition in the UK market. Further trade agreements under negotiation with other countries, will enhance competitiveness of Indian Textiles

##### Government initiatives

The Government of India has come up with a number of initiatives to support the textile industry, such as the PLI Scheme and Mega Integrated Textile Region and Apparel (MITRA) Parks. This will enable the textile industry to become globally competitive, boost employment generation and attract investments in value added segments.

##### Sustainability and revival of indigenous cotton

Government of India has introduced Kasturi Cotton, a cleaner, greener alternative. This eco-friendly cotton from India is designed to reduce environmental impact while meeting the growing demand for sustainable cotton for fashion brands.

#### Challenges

##### Supply Chain and Infrastructure Bottlenecks

The Indian textile sector is challenged by supply chain fragmentation and inefficient logistics systems. Delays in raw material procurement and inconsistent quality further heighten production costs.

##### Tariff and Non-tariff Barriers by different countries

Tariff barriers and other restrictive trade practices by certain countries poses challenges for growth and competitiveness of Indian Textiles Industry

##### Technological gaps

Technological innovation in Domestic Textiles Machinery is limited especially in weaving and processing segments resulting into import of highly expensive imported machinery.

## Management Discussion and Analysis (Contd..)

### Labour issues and skill shortages

Despite being a labour-intensive sector, the Indian textile industry struggles with shortages of labour and absence of skilled employees.

### Environmental sustainability and regulatory compliance

The textile industry is a major source of environmental pollution which includes water and air pollution and greenhouse gas emissions. Environmental sustainability concerns in India have resulted in stricter regulatory oversight and compliance rules, which hinder textile production.

### Company overview

Nitin Spinners Limited, headquartered in Bhilwara, Rajasthan, has established itself as one of the leading integrated textile manufacturers in India, specialising in cotton and blended yarns, knitted fabrics and finished woven textiles. Since its inception, the Company has demonstrated a strong commitment to innovation and operational excellence, with its state-of-the-art spinning, weaving and finishing facilities that ensure high efficiency and consistent product quality. Its strategic focus on value addition, continuous product development and investment in advanced technology has enabled Nitin Spinners to meet the evolving demands of both domestic and international markets.

With a well-diversified export base spanning Asia, Europe and Latin America (LATAM), African countries, Nitin Spinners has positioned itself as a trusted partner in the global textile industry. The Company's disciplined financial management and robust product mix, combined with its proximity to raw material sources and key logistics hubs, have supplemented sustained growth and profitability. Recent capital investments are set to further expand capacity, enhancing cost efficiencies and enabling Nitin Spinners to capitalise on emerging opportunities in global supply chains and favourable trade agreements thereby reinforcing its leadership in the textile sector.

### Risks and concerns

Risk management is an important part of the governance system, contributing to the achievement of strategic objectives and protecting the value, assets and reputation of the organisation. Below are some risks identified by Nitin Spinners along with their corresponding mitigation strategies:

Risk	Impact	Mitigation
<b>Competition risk</b> 	Increased competition can reduce returns on investment, market share and profit margins.	The Company manages this risk by emphasising value addition, quality, customer service, product variety and cost efficiency and increasing customer base.
<b>Foreign currency exchange risk</b> 	Rupee depreciation may lower earnings, because most of the revenue is generated by exports.	The Company implements a consistent forex hedging policy to safeguard against currency fluctuations.
<b>Raw material price inflation risk</b> 	Escalation in cotton prices may adversely affect profitability.	The Company strictly monitors cotton prices and maintains a disciplined stocking policy to prevent price volatility.
<b>Reputation risk</b> 	Delayed payments or poor product quality may reduce stakeholder trust and harm operations.	The Company ensures product quality and timely delivery, aligning with stakeholder expectations by enforcing strict control processes.
<b>Customer concentration risk</b> 	Losing a major client or over-reliance on a few customers can lead to revenue loss.	The Company consistently works to expand its customer base by targeting various geographies.

### Environment and safety

Nitin Spinners Limited reinforced its commitment to environmental sustainability and workplace safety through multiple strategic initiatives. The company continued to embed eco-friendly practices by increasing the use of sustainable fibers such as BCI, organic, regenagri cotton and recycled cotton/polyester which now constitute about 43% of its product line, aligning with global trends toward responsible sourcing and reduced environmental impact. Additionally, the expansion of renewable energy capacity to 18.8 MW emphasizes the company's focus on minimizing its carbon footprint and operational costs. On the safety front, the company maintained rigorous operational

discipline, leveraging modern infrastructure and technology to ensure a safe working environment for its employees. These ongoing efforts reflect the company's broader ESG goals and its dedication to sustainable growth, positioning it as a responsible leader in the textile industry.

### Corporate Social Responsibility (CSR) Initiatives

The Company continued its dedication to corporate social responsibility by creating meaningful, long-term benefits for its employees and the surrounding communities. It provides empowering opportunities for women and generates stable employment that supports local economic growth. Key initiatives

## Management Discussion and Analysis (Contd..)

include the construction of a women's hostel in Bhilwara and significant efforts toward cotton development and research. The Company also facilitated infrastructure development in rural areas, including roads, drainage systems, and water harvesting projects, thereby enhancing the quality of life and resilience of local communities. Additionally, it promoted education for differently-abled children and supported the construction of school rooms and hostels for higher studies. Through these initiatives, the Company aims to promote long-term, constructive change for the environment and society.

### Human resources

The Company demonstrated robust operational performance, underpinned by disciplined execution and optimal utilization of expanded capacities. The company's workforce played a pivotal role in supporting stable, controlled growth amid a dynamic business environment. Enhanced production volumes across yarn and fabrics segments reflected effective manpower deployment and skill development initiatives. Strategic investments in capacity building, sustainability, and value addition were complemented by a continued emphasis on employee engagement and operational efficiency. As the company looks ahead, its human resources remain central to driving innovation, maintaining high standards of quality, and supporting the company's growth ambitions in both domestic and international markets.

The company has total employee strength of 6736 as on 31st March 2025

### Internal control and their adequacy

Nitin Spinners maintains effective internal control systems, which are consistently enhanced and adjusted to adapt to evolving business landscapes, as well as statutory and accounting standards. The Company possesses a strong Management Information System, which plays a vital role within this control framework. The Audit Committee of the Board of Directors regularly evaluates the efficiency and efficacy of these internal control systems, offering recommendations for enhancement and reinforcement where necessary. During the past year, the internal control system underwent testing, revealing no significant flaws in either design or implementation. India is the six largest embodied in various transcript and also various other activities.

### Cautionary statement

The passages found in the Management Discussion and Analysis, which outline the Company's goals, forecasts, assessments, anticipations, might qualify as 'forward-looking statements' according to relevant laws and regulations. Actual outcomes might significantly deviate from what is either directly stated or indirectly implied. Key determinants that could impact the Company's activities encompass the availability and costs of raw materials, fluctuating demand and pricing trends in the Company's main markets, alterations in governmental regulations and tax structures, economic shifts within India and the nations where the Company operates, along with other ancillary factors.

# Independent Auditors' Report

To the Members of **Nitin Spinners Limited, Bhilwara**

## Report on the Audit of the Financial Statements

### Opinion

We have audited the accompanying financial statements of **Nitin Spinners Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the material accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by Companies Act, 2013 ("the Act") in the manner so required, and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind As") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 ("the act"). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How the matter was addressed in our audit
<p><b>1. Valuation of Inventories</b></p> <ul style="list-style-type: none"> <li>The net carrying value of inventory as on 31st March, 2025 is 22.23% of Total Assets of the company.</li> <li>Sales in the industry can be extremely volatile with consumer demand changing significantly (Seasonal) based on current trends. As a result, there is a risk that the carrying value of inventory exceeds its net realisable value.</li> </ul> <p>Hence, we determined the valuation of inventories as a key audit matter.</p> <p><b>Related Disclosures:</b></p> <p>Please refer to point 6 to Note-1 (C) for details of the material accounting policies of inventories and Note-6 of Notes to Financial Statements for relevant disclosures of inventories.</p>	<p><b>Our Audit Procedure:</b></p> <ul style="list-style-type: none"> <li>We have performed the Inventory physical stock count on sample basis. We performed inventory counts at location, which is selected based on financial significance and risk and we performed the following procedures at each site:           <ul style="list-style-type: none"> <li>(i) Selected a sample of inventory items and compared the quantities we counted to the quantities recorded.</li> <li>(ii) Observed a sample of management's inventory count procedures to assess compliance with Company's policy, and</li> <li>(iii) Made inquiries regarding obsolete inventory items and inspected the condition of items counted.</li> </ul> </li> <li>We have also evaluated a selection of controls over inventory existence across the company.</li> <li>Examining the Company's historical trading patterns of inventory sold at full price and inventory sold below full price, together with the related margins achieved for each product lines in order to gain comfort that stock has not been sold below cost.</li> </ul>

Key Audit Matter	How the matter was addressed in our audit
	<ul style="list-style-type: none"> <li>Evaluating the rationality of the inventory policies such as the policy of inventory valuation and provision for obsolescence and understanding whether the valuation of inventory was performed in accordance with the Company's policy.</li> <li>Analysing the inventory aging report and net realizable value of inventories.</li> <li>Inspecting the post period sales situation and evaluating the net realizable value of measurement applied on aging inventory in order to verify the evaluation accuracy of the estimated inventory allowance by the Company and</li> <li>Assessing whether the disclosures of provision for inventory valuation are appropriate.</li> </ul>
<b>2. Trade Receivables</b> <p>The recoverability of trade receivables and the level of provisions for doubtful debts are considered to be a significant risk due to the pervasive nature of these balances to the financial statements, and the importance of cash collection with reference to the working capital management of the business.</p> <p>As at 31st March, 2025 the trade receivables balances (net of provisions) consist of 15.72% of the total amount of assets of the company. Accordingly, we determined audit of trade receivables as the key audit matter.</p> <p><b>Related Disclosures:</b></p> <p>Please refer to Note-7 of Notes to Financial Statements for relevant disclosures of trade receivables.</p>	<p><b>Our Audit Procedure:</b></p> <ul style="list-style-type: none"> <li>Assessed the design and implementation of key controls around the monitoring of recoverability.</li> <li>Discussed with the management regarding the level and ageing of trade receivables, along with the consistency and appropriateness of receivables provisioning by assessing recoverability with reference to amount received in respect of trade receivables.</li> <li>In addition, we have considered the company's previous experience of bad debt exposure and the individual counter-party credit risk.</li> <li>Tested these balances on a sample basis through agreement to post period end invoicing and cash receipt.</li> <li>The accuracy and completeness were verified through, analytical review and balance confirmation.</li> <li>Analysing the aging schedule of trade receivable, past collection records, industry boom and concentration of customers' credit risk.</li> </ul>
<b>3. Revenue Recognition</b> <p>Revenue is an important measure used to evaluate the performance of the Company. There is a risk that the revenue is presented for amounts higher than what has been actually generated by the Company. Consequently, we considered revenue recognition to be a significant key audit matter.</p> <p><b>Related Disclosures:</b></p> <p>Please refer to Point 11 to Note-1(C) of the accounting policies for details of accounting policies and Note-22 of Notes to Financial Statements.</p>	<p><b>Our Audit procedure:</b></p> <ul style="list-style-type: none"> <li>Assessing the design, implementation existence and operating effectiveness of internal control procedures implemented as well as test of details to ensure accurate processing of revenue transactions.</li> <li>Inspecting underlying documentation for any book entries which were considered to be material on a sample basis.</li> <li>Inspecting the key terms and conditions of agreements with major customers on a sample basis to assess if there were any terms and conditions that may have affected the accounting treatment of the revenue recognition.</li> <li>The accuracy and completeness of revenue was verified through, cut-off test, analytical reviews and balance confirmation.</li> </ul>

### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon. The other information as identified above is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the other information as identified above, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

### Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities, selection and application of appropriate accounting policies, making judgments and estimates that are reasonable and prudent, and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, and according to the information & explanation given to us, we give in the **Annexure-1**, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by section 143(3) of the Act, based on our audit we report:

## Annexure “II” forming part of Independent Auditor’s Report

### Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to financial statements of Nitin Spinners Limited (“the Company”) as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

### Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls with reference to financial statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

### Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls with reference to Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal financial controls with reference to financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to Ind AS financial statements were operating effectively as at March 31, 2025, based on the internal financial controls with reference to Ind AS financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

# Notes to the Financial Statements

for the year ended 31<sup>st</sup> March 2025

## Note No. 1 - Company Information and Material Accounting Policies

### A. Corporate Overview

Nitin Spinners Limited (the "Company"), incorporated on 15th October, 1992, is a Company domiciled in India and limited by shares (CIN: L17111RJ1992PLC006987). The address of the Company's Registered Office is 16-17 Km. Stone, Chittor Road, Hamirgarh, Distt. Bhilwara- (Rajasthan 311025). The company is engaged in manufacturing of Cotton and Blended Yarn, Knitted Fabrics and Woven Fabrics. The company is listed at National Stock Exchange of India Limited and at BSE Limited.

### B. Basis of Preparation

These Separate Financial Statements are prepared on Going Concern basis following Accrual basis of accounting and comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto, the Companies Act, 2013 (to the extent applicable), applicable provisions of the Companies Act, 2013.

#### 1. Basis of Measurement/Use of Estimates

- (i) The Financial Statements are prepared on Accrual basis under the Historical Cost convention except certain Financial Assets and Liabilities (including Derivatives instruments) that are measured at fair value.

Historical Cost is generally based on the Fair Value of the consideration given in exchange for goods and services.

Fair Value is the price that would be received to sell an asset or paid to transfer a Liability in an orderly transaction between market participants at the measurement date.

- (ii) The preparation of Financial Statements requires judgments, estimates and assumptions that affect the reported amount of Assets and Liabilities, disclosure of Contingent Liabilities on the date of the Financial Statements and the reported amount of Revenues and Expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized.

#### 2. Functional and Presentation Currency

These Financial Statements are presented in Indian Rupees (INR), which is the Company's functional currency. All financial information presented in INR has been rounded to the nearest lacs (up to two decimals), except as stated otherwise.

### 3. Current and Non-Current classification

The Company presents Assets and Liabilities in the Balance Sheet based on Current/Non-Current classification.

An Asset is Current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or Cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as Non-Current.

A Liability is Current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

All other Liabilities are classified as Non-Current.

Deferred Tax Assets/Liabilities are classified as Non-Current.

### C. Material Accounting Policies

A summary of the material Accounting Policies applied in the preparation of the Financial Statements are as given below. These Accounting Policies have been applied consistently to all periods presented in the Financial Statements.

#### 1. Property, Plant & Equipment

##### 1.1. Initial Recognition and Measurement

An item of Property, Plant and Equipment is recognized as an Asset if and only if it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Items of Property, Plant and Equipment are measured at Cost less Accumulated Depreciation/Amortization and Accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the

# Notes to the Financial Statements

for the year ended 31<sup>st</sup> March 2025

asset, inclusive of non-refundable taxes & duties, to the location and condition necessary for it to be capable of operating in the manner intended by management.

When parts of an item of property, plant and equipment have different useful lives, they are recognized separately.

Items of spare parts, stand-by equipment and servicing equipment which meet the definition of Property, Plant and Equipment are capitalized.

## 1.2. Subsequent Costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

The cost of replacing part of an item of Property, Plant and Equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of Property, Plant and Equipment are recognized in Statement of Profit or Loss as and when incurred.

## 1.3. Derecognition

Property, Plant and Equipment are derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and Losses on disposal of an item of Property, Plant and Equipment are determined by comparing the proceeds from disposal with the carrying amount of Property, Plant and Equipment, and are recognized in the Statement of Profit and Loss.

## 1.4. Depreciation

Assets are depreciated using straight line method over the estimated useful life of the asset as specified in Part "C" of Schedule II of Companies Act, 2013 except for Plant & Machinery (other than Laboratory Equipments, Fire Fighting Equipments and Tools & Equipments) whose estimated useful life is taken as 13 years (Triple Shift) after retaining residual life of 5% of original cost. Assets residual values and useful lives are reviewed at each financial year end considering the physical condition of the assets.

Depreciation on additions to/deductions from Property, Plant & Equipment during the year is

charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

Where it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably, subsequent expenditure on a PPE along-with its unamortized depreciable amount is charged off prospectively over the revised useful life determined by technical assessment.

In circumstance, where a property is abandoned, the cumulative capitalized costs relating to the property are written off in the same period.

## 2. Capital Work-in-Progress

The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

## 3. Intangible Assets and Intangible Assets under Development

### 3.1. Initial recognition and measurement

An Intangible Asset is recognized if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the company and the cost of the asset can be measured reliably.

Intangible assets that are acquired by the Company, which have finite useful lives, are recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

Expenditure on development activities is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Company intends to and has sufficient resources to complete development and to use or sell the asset.

# Notes to the Financial Statements

for the year ended 31<sup>st</sup> March 2025

Expenditure incurred which are eligible for capitalizations under intangible assets are carried as intangible assets under development till they are ready for their intended use.

## 3.2. Subsequent Costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

## 3.3. Derecognition

An Intangible Asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and Losses on disposal of an item of Intangible Assets are determined by comparing the proceeds from disposal with the carrying amount of Intangible Assets and are recognized in the Statement of Profit and Loss.

## 3.4. Amortization

Intangible Assets having definite life is amortized on straight line method in their useful lives. Useful life of Computer Software is estimated at five years.

## 4. Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction, exploration, development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale. Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of:

- interest expense calculated using the effective interest method as described in Ind AS 109 – ‘Financial Instruments’,
- finance charges in respect of finance leases recognized in accordance with Ind AS 116 – ‘Leases’,
- exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs and,
- other costs that an entity incurs in connection with the borrowing of funds. Income earned on

temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are charged to revenue as and when incurred.

## 5. Statement of Cash Flows

Cash Flow Statement has been prepared in accordance with the Indirect method prescribed in Ind AS 7 ‘Statement of Cash Flows’.

## 6. Inventories

Inventories are valued at the lower of cost and net realisable value. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Spare parts other than those capitalized as Property, Plant and Equipment are carried as inventory.

The diminution in the value of obsolete, unserviceable and surplus stores & spares is ascertained on review and provided for.

## 7. Cash and Cash Equivalent

Cash and cash equivalent in the Balance Sheet comprises Cash at Banks, Cash on Hand and Short-Term Deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

## 8. Government Grants

Government grants are recognized where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions. When the government grant relates to an asset, the asset is disclosed by deducting that grant in arriving at the carrying amount of that asset. Government grants that compensate the Company for expenses incurred are recognized in the statement of profit and loss, as income or deduction from the relevant expense, on a systematic basis in the periods in which the expense is recognized.

## 9. Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an

# Notes to the Financial Statements

for the year ended 31<sup>st</sup> March 2025

outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent Liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a Contingent Liability, unless the probability of outflow of economic benefits is remote. Contingent Liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent Assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent Assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

## 10. Foreign Currency Transactions and Translation

Transactions in foreign currencies are initially recorded at the functional currency rates at the date the transaction first qualifies for recognition.

Monetary Assets and Liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in Statement of Profit and Loss in the year in which it arises.

Non-monetary items are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

## 11. Revenue Recognition

The Company derives revenues primarily from business of textiles. Effective April 1, 2018, the Company adopted Ind AS 115 "Revenue from Contracts with Customers" using cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted. The following is a summary of new and/or revised material accounting policies related to revenue recognition. Refer Note1 "Material Accounting Policies," in the Company's 2018 Annual Report for the policies in effect for Revenue prior to April 1, 2018.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Ind AS 115 moves away from the "transfer of risk and rewards" approach and introduces a new "transfer of control" approach delivered through the new five-step model described as follows:

1. Identify the contract with a customer.
2. Identify the separate performance obligations in the contract.
3. Determine the transaction Price.
4. Allocate the transaction price to the separate performance obligations.
5. Recognize revenue when (or as) each performance obligation is satisfied.

At contract inception, an entity assesses the goods or services promised in a contract with a customer and identify each performance obligation promised to be transferred to the customer either:

- (a) a good or service (or a bundle of goods or services) that is distinct; or
- (b) a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

The company classifies the right to consideration in exchange for deliverables as either a receivable or as a contract asset. A receivable is a right to consideration that is unconditional upon passage of time. Revenues in excess of billings is recorded as contract asset and is classified as a financial asset for these cases a right

# Notes to the Financial Statements

for the year ended 31<sup>st</sup> March 2025

to consideration is unconditional upon passage of time. This would result in the timing of revenue recognition being different from the time of billing the customers.

Company classifies amount received as advance from customers against sales as contract liability.

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

## 11.1 Sale of Goods

Revenue from the sale of goods is recognized upon transfer of control of the goods have passed to the buyer, which generally coincides with dispatch. Revenue from export sales are recognized on shipment basis. Revenue from the sale of goods is measured at an amount that reflects the consideration we expect to receive in exchange for those products (i.e. the transaction price). The Company presents revenues net of indirect taxes, returns and allowances, trade discounts and volume rebates in its Statement of Profit and Loss.

## 11.2 Rendering of services

Revenue from Job work services is recognized based on the services rendered in accordance with the terms of contracts.

## 11.3 Other Export Benefit

Export benefits are accounted for in the year of export at net market realizable value.

## 11.4 Other Income

Revenue from transactions or events that do not arise from a contract with a customer not in the scope of Ind AS 115 are continue to be recognized in accordance with the other standards. Such Income includes Interest and Dividend income which are dealt with in Ind AS 109 and Rental income to be accounted as per Ind AS 116.

## 11.5 Interest Income

For all financial instruments measured at amortized cost and interest-bearing financial assets classified as fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for

example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit or loss.

## 11.6 Dividend

Dividend Income is recognized when the company's right to receive is established which generally occurs when the shareholders approve the dividend.

## 11.7 Income other than Interest and Dividend

Other income is recognized in the Statement of Profit and Loss when increase in future economic benefits related to an increase in an asset or a decrease of a liability has arisen that can be measured reliably.

## 12. Employee Benefits

### 12.1. Short Term Benefit

Short-term employee benefit obligations are measured on an undiscounted basis and are booked as an expense as the related service is provided.

A liability is recognized for the amount expected to be paid under performance related pay if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

### 12.2. Post-Employment Benefits

Employee Benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit). These are of two types:

#### 12.2.1. Defined Contribution Plans

Defined contribution Plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. Provident Fund and Family Pension Funds are Defined Contribution Plans in which company pays a fixed contribution and will have no further obligation.

#### 12.2.2. Defined Benefit Plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Company pays Gratuity as per provisions of the Gratuity Act, 1972. The Company's net obligation in respect of defined benefit plans

# Notes to the Financial Statements

for the year ended 31<sup>st</sup> March 2025

is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the company, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses in respect of gratuity are recognized in OCI in the period in which they arise.

## 12.3 Other Long-Term Employee Benefits

Benefits under the Company's Leave Encashment Scheme constitute other long-term employee benefits. The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains or losses are recognized in profit or loss in the period in which they arise.

## 13. Income Taxes

Income Tax Expense comprises Current and Deferred Tax. Current Tax Expense is recognized in Statement of Profit and Loss A/c except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which it is recognized in OCI or Equity.

Current Tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustment to tax payable in respect of previous years. Current Income Taxes are recognized under 'Income Tax payable' net of payments on account, or under 'Tax receivables' where there is a debit balance.

Deferred Tax is recognized using the Balance Sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred Tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred Tax Assets and Liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle Current Tax Liabilities and Assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Deferred Tax is recognized in Statement of Profit and Loss except to the extent that it relates to items recognized directly in OCI or Equity, in which case it is recognized in OCI or Equity.

A Deferred Tax Asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

## 14. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### a. Financial Assets

#### Initial recognition and measurement

All financial assets are recognized initially at fair value plus or minus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition or issue of the financial asset.

#### Impairment of Financial Assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets and credit risk exposure.

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, the credit quality of the instrument improves then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

# Notes to the Financial Statements

for the year ended 31<sup>st</sup> March 2025

In respect of Trade receivables or any financial asset that result from transactions that are within the scope of Ind AS 115, company follows 'simplified approach' for recognition of impairment loss allowance within the scope of Ind AS 115, if they do not contain a significant financing component. It recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

## b. Financial Liabilities

### Initial recognition and measurement

All Financial Liabilities are recognized at fair value and in case of loans, net of directly attributable transaction cost. Fees of recurring nature are directly recognized in the Statement of Profit and Loss as finance cost.

### Subsequent Measurement

Financial Liabilities are carried at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on acquisition and any material transaction that are any integral part of the EIR. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate the fair value of the instrument.

### Derecognition

A Financial Liability is derecognized when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

## c. Derivative Financial Instruments

The Company uses forwards to mitigate the risk of changes in interest rates, exchange rates and commodity prices. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value on the reporting date. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken to cash flow hedge reserve through Statement of Other Comprehensive Income.

These are accounted for as follows:

### a) Cash flow hedge

When derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in the cash flow hedging reserve being part of other comprehensive income. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the Statement of Profit and Loss. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the Statement of Profit and Loss upon the occurrence of the underlying transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified in the Statement of Profit and Loss.

### b) Fair Value Hedge

Changes in the fair value of hedging instruments and hedged items that are designated and qualify as fair value hedges are recorded in the Statement of Profit and Loss. If the hedging relationship no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortized to Statement of Profit and Loss over the period of maturity.

## 15. CSR Expenditure

The Company undertakes Corporate Social Responsibility (CSR) activities as per Section 135 of the Companies Act, 2013 and the Companies (CSR Policy) Rules, 2014. CSR expenditure includes amounts incurred on activities that are approved as ongoing projects by the Board in line with the CSR policy and applicable law.

CSR expenditure is recognized in the Statement of Profit and Loss in the period in which it is incurred. For ongoing projects, any unspent amount at the end of the financial year is transferred to a separate "Unspent CSR Account" with a scheduled bank within 30 days from the end of the financial year, in accordance with Section 135(6) of the Act. Such amounts are spent within the timelines prescribed under Rule 4(6) of the CSR Rules.

The Company does not capitalize any CSR expenditure unless it results in the creation of an asset controlled by a qualifying entity as specified under Rule 7(4) of the CSR Rules.

## D. Other Accounting Policies

### 1. Leases:

#### 1.1 Recognition:

The Company as a Lessee

The Company's Lease Asset classes primarily consist of Leases for Land and Buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events

or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

#### 1.2 Accounting for

##### 1.2.1 Operating Leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating lease. Payments made under operating leases are recognized as an expense over the lease term.

##### 1.2.2 Finance Lease

Leases of Property, Plant and Equipment where the Company, as lessee has substantially all risks and rewards of ownership are classified as finance lease. On initial recognition, assets held under finance leases are recorded as Property, Plant and Equipment and the related liability is recognized under borrowings. At inception of the lease, finance leases are recorded at amounts equal to the fair value of the leased asset or, if lower, the present value of the minimum lease payments. Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability.

## 2. Impairment of Non-Financial Assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount (higher of its fair value less costs to disposal or its value in use) is estimated.

An impairment loss is recognized if the carrying amount of an asset or its Cash Generating Unit (CGU) exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss.

# Notes to the Financial Statements

for the year ended 31<sup>st</sup> March 2025

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount which is only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

## 3. Dividends

Dividends and Interim dividends payable to a Company's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

## 4. Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest prior period presented, the opening balances of assets, liabilities and equity for the earliest prior period presented, are restated.

## 5. Earnings Per Share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

## E. Major Estimates made in preparing Financial Statements:

### 1. Useful life of Property, Plant and Equipment and Intangible Assets

The estimated useful life of Property, Plant and Equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Useful life of the assets other than Plant and machinery (except Laboratory Equipments, Fire Fighting Equipments and Tools & Equipments) are in accordance with Schedule II of the Companies Act, 2013.

The Company reviews at the end of each reporting date the useful life of property, plant and equipment, and are adjusted prospectively, if appropriate.

Intangible assets are being amortized on straight line basis over the period of five years.

### 2. Post-Employment Benefit Plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

### 3. Provisions and Contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events requires best judgment by management regarding the probability of exposure to potential loss. In case of change in the circumstances following unforeseeable developments, the likelihood could alter.

### ii. Financial Risk Management

The Company's Financial Risk Management is an integral part of how to plan and execute its business strategies. The Company's financial risk management is set by the Managing Board. The Board of directors has established the risk management committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee reports regularly to the board of directors on its activities.

Company is exposed to following risk from the use of its financial instrument:

- Credit Risk
- Liquidity Risk
- Market Risk

# Notes to the Financial Statements

for the year ended 31<sup>st</sup> March 2025

## Note 36 - Disclosure as per Ind AS 107 “Financial instrument disclosure” (Contd..)

### (a) Credit Risk

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. The Company categorise a loan or receivable for write off when a debtor fails to make contractual payments greater than 2 years past due. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

#### Provision for Expected Credit or Loss

##### (a) Financial assets for which loss allowance is measured using 12 month expected credit losses:

The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

##### (b) Financial assets for which loss allowance is measured using life time expected credit losses:

The Company provides loss allowance on trade receivables using life time expected credit loss and as per simplified approach.

### (b) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company's finance department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

### (c) Market Risk

Considering the Company's existing foothold/experience in the Textile sector, established & diversified client base, association with various international/domestic agents, it's competent sales team and an established marketing setup in India and International Market, it does not foresee any problem in marketing its production.

Market Risk is the risk of loss of future earnings, fair values of future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchanges rates, equity prices and other market changes that effect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, and other market changes.

The Company manages market risk through a finance department, which evaluates and exercises independent control over the entire process of market risk management. The finance department recommends risk management objectives and policies, which are approved by Senior Management and the Audit Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures, borrowing strategies, and ensuring compliance with market risk limits and policies.

#### i) Interest Rate Risk

It is the risk where changes in market interest rates might adversely affect the company's financial condition. The short term/immediate impact of changes in interest rates are on the Company's net interest income/expenses. On a longer term, change in interest rate impact the cash flows on the assets, liabilities and off-balance sheet items, giving rise to a risk to the net worth of the Company arising out of all reprising mismatches and other interest rate sensitive positions.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments is as follows:

## Note 37 - Disclosure as per Ind AS 115 "Revenue from Contract with Customers"

The company has adopted Ind AS 115 "Revenue from Contracts with Customers" which is mandatory for reporting periods beginning on or after 01st April 2018. The Company has adopted the cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018. In accordance with this method, the comparatives have not been retrospectively adjusted. Application of Ind AS 115 does not have any material impact on the financial results of the company.

### Disaggregate revenue information

The table below presents disaggregated revenues from contracts with customers for the year ended March 31, 2025 by contract-type. The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

- Export Sales (Including Export Incentives)	211107.21
<b>Total</b>	<b>330565.42</b>

### Trade receivables and Contract Balances

The Company classifies the right to consideration in exchange for deliverables either as a receivable or as unbilled revenue. A receivable is a right to consideration that is unconditional upon passage of time. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time. This would result in the timing of revenue recognition being different from the timing of billing the customers.

Company classifies amount received as advance from customers against sales as contract liability.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended 31<sup>st</sup> March 2025, the company recognizes revenue of ₹ 389.25 Lacs arising from opening contract liabilities as of 1<sup>st</sup> April, 2024.

The remaining contract liability as on 31<sup>st</sup> March 2025 is ₹ 240.65 Lacs (Previous Year ₹ 389.25 Lacs) which is to be satisfied within 1 year or less.

### Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognised as at the end of the reporting period and an explanation as to when the Company expects to recognise these amounts in revenue. Applying
