FROM THE DESK OF CHAIRMAN

My Dear Shareholders,

It was another year which posed huge challenge for cement industry due to high prices of energy specifically of petcoke and coal. This eroded the profit margins for cement industry considerably and putting huge pressure on other industries as well. The Ukrainian war has created supply chain disruption like never before raising inflation globally. Inflation in some countries are running at 40 years high.

On other side the industry saw a major shift in terms of change of ownership of 2 large cement companies from MNC to Indian Entrepreneur. As you all know Indian cement industry is the 2nd largest in the world after China and many global players have been interested in having their presence in India and they were successful in buying some Indian cement companies in past. But due to intense competition and low return on capital employed (specially in dollar terms) many have left Indian shores and exit of Holcim, the largest cement player in the world, and second largest in India leaves a big question mark about the low profitability of Indian cement industry.

Cement prices have remained subdued for a very long period of time and if adjusted for inflation they have been negative in past 4-5 years. One had expected cement prices to move up post 3rd wave of Covid as the construction industry and the other infrastructure projects started gathering momentum. But unfortunately cement prices have remained subdued, putting lot of pressure on margins of cement industry.

The ambitious plans of some of the players to enhance capacities in next couple of years bodes well for Capex cycle but will surely put pressure on margins for cement industry if the demand doesn't keep pace and prices remain weak.

I have seen in my 40 years of experience with industry that the returns generated by cement companies in terms of ROE and ROCE have been low and, in many cases, they are even below the cost of capital. (Average lower than 10%)

I am happy to share that in this situation your Company has done extremely well during 2022-23 and have posted an

I am also happy to share with you that with the tremendous efforts made by our management team we have been able to get our environmental clearance for expansion of capacity at Sikka from 1.2 million tons to 3 million tons. This is a major achievement enabling us to further improve on productivity and with minimum capex increase production on sustained basis.

EBIDTA margin of over Rs 800 which is perhaps one of the best in the industry. And as always, our ROE and ROCE and dividend yield remain best in the class.

I am also happy to share with you that with the tremendous efforts made by our management team we have been able to get our environmental clearance for expansion of capacity at Sikka from 1.2 million tons to 3 million tons. This is a major achievement enabling us to further improve on productivity and with minimum capex increase production on sustained basis. Our company is also evaluating various options to enhance our cement capacity to 3 million tons. We will soon complete our evaluation and approach you for your approvals for enhancing the capacity.

Cement being basic building block and we are poised for a sustained growth of over 6%, India will be one of the few countries where economic growth will be one of the best. As you know cement is a proxy for the growth, we remain very optimistic about future growth of cement and of your company.

Sincerely,
Anil Singhvi

ACS No.:16938

EXPLANATORY STATEMENT:

[Pursuant to Section 102 of the Companies Act, 2013 ("Act")]

As required by Section 102 of the Act, the following Explanatory Statement sets out all material facts relating to the business mentioned under Item Nos. 4, 5 & 6 of the accompanying Notice dated 17th May, 2023.

Item No. 4

Appointment of Ms. Mitu Samarnath Jha (holding DIN 07244627) as an Independent Director:

Pursuant to the Regulation 25(6) of SEBI (LODR) Regulations, 2015, the Board of Directors, on the recommendation of the Nomination and Remuneration Committee, at their meeting held on 27th April, 2023, appointed Ms. Mitu Samarnath Jha (DIN 07244627) as an Additional Director in the category of "Non-Executive Independent Director" effective from 27th April, 2023.

Pursuant to Section 161 of the Companies Act, 2013 and Article 109 of the Articles of Association of the Company, Ms. Mitu Samar shall hold her office of Director till the date of ensuing Annual General Meeting. Notice have been received from a Member under Section 160 of the Companies Act, 2013 proposing the candidature of Ms. Mitu Samar for the office of the Director of the Company.

Pursuant to the provisions of Sections 149, 150, 152 and other applicable provisions, if any of the Companies Act, 2013 read with Schedule IV to the Companies Act, 2013 and the Companies (Appointment and Qualification of Directors) Rules, 2014 (including any statutory modification(s) or re-enactment thereof for the time being in force) and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, Ms. Mitu Samar is proposed to be appointed as an Independent Director of the Company to hold office for a period of 5 years i.e. w.e.f. 27th April, 2023 and upto the date of 83rd Annual General Meeting in the year 2028 and she shall not be liable to retire by rotation hereinafter in accordance with the provisions of the Companies Act, 2013.

Ms. Mitu Samar has also submitted a declaration that she meets the criteria for independence as provided in Section 149(6) of the Companies Act, 2013 and provisions of the SEBI Listing Regulations. The Board has also considered such declarations and has formed opinion that she fulfils the criteria of independence and are independent from management.

In view of the two decades of experience in brand positioning and reputation management and having worked with well-known companies including CRISIL, Standard & Poor's etc., it is desirable that the Company should avail the benefits of her association with the Company.

In view of the above, the Board recommends adoption of resolution set out at Item No. 4 of the accompanying Notice of Annual General Meeting as a Special Resolution. Accordingly,

the approval of the Members is sought to appoint Ms. Mitu Samar as an Independent Director of the Company.

None of the Directors and Key Managerial Personnel of the Company or their relatives, except Ms. Mitu Samar, are in any way, concerned or interested, financially or otherwise in the Resolution.

Other details required to be given as per under relevant Regulations of SEBI Listing Regulations and Secretarial Standard on General Meetings are given in the notes to the Notice of the Annual General Meeting.

Item No. 5

Appointment of Statutory Auditors and fixing their remuneration:

This explanatory statement is in terms of Regulation 36(5) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations").

The Members of the Company at the 73rd Annual General Meeting (AGM) held on 7th September, 2018 had appointed M/s. BSR & Associates LLP, Chartered Accountants, Mumbai (Firm Registration No.116231W/W-100024) as the Statutory Auditors of the Company for a period of 5 (five) years, commencing from conclusion of 73rd AGM till the conclusion of 78th AGM to be held in the year 2023. Therefore the term of M/s. BSR & Associates LLP as the Statutory Auditors of the Company will expire in this AGM. It is proposed to appoint M/s. BSR & Co., Chartered Accountants, Mumbai (Firm Registration No. 128510W), a member entity of B S R & Affiliates, as the Statutory Auditors of the Company.

In terms of the provisions of Section 139 of the Companies Act, 2013 ("the Act"), the Companies (Audit and Auditors) Rules, 2014, and other applicable provisions, the Company can appoint or reappoint an audit firm as statutory auditors for not more than two terms of five consecutive years.

BSR and Co. Chartered Accountants, Mumbai ("BSR") is partnership firm having firm registration no. as 128510W. BSR is a member entity of B S R & Affiliates, a network registered with the Institute of Chartered Accountants of India. BSR is registered in Mumbai, Gurgaon, Bangalore, Kolkata, Hyderabad, Pune, Chennai, Chandigarh, Ahmedabad, Vadodara, Noida, Jaipur and Kochi.

After evaluating and considering various aspects of the audit firm like industry experience, market standing of the firm, clientele served, technical knowledge, competency of the audit team, independence etc., the Board of Directors, pursuant to the recommendation of the Audit Committee, at its meeting held on 27th April, 2023, approved the appointment of M/s. BSR & Co. , Chartered Accountants, as the Statutory Auditors of the Company for the second term of five consecutive years, to hold office from the conclusion of this 78th AGM till the conclusion of

the 83rd AGM of the Company to be held in the year 2028 at such remuneration as may be decided by the Board plus travelling and other incidental expenses that may be incurred by them in connection with the Audit. The reappointment is subject to approval of shareholders of the Company.

BSR have given their consent to act as Statutory Auditors of the Company and have confirmed that the said appointment, if made, will be in accordance with the conditions prescribed under Sections 139 and 141 of the Act.

None of the Directors/Key Managerial Personnel of the Company and/or their relatives are, in any way, concerned or interested in the resolution as set out at Item No. 5 of the Notice.

The Board of Directors, therefore, recommends the resolution set out at Item No. 5 to be passed as an Ordinary Resolution by the members.

Item no. 6

Ratification of Remuneration to Cost Auditor

The Board of Directors at their meeting held on 27th April, 2023, on the recommendation of the Audit Committee, has approved the re-appointment of M/s. Kiran J Mehta & Co, Cost Accountants, Ahmedabad as the Cost Auditors to conduct the audit of Cost records of the Company for the financial year ending on 31st March, 2024 on a remuneration of Rs.1,50,000/- (Rupees One Lakh Fifty Thousand) plus out of pocket expenses actually incurred for the purpose of such audit.

In accordance with the provisions of Section 148(3) of the Companies Act, 2013 ("Act") read with Rule 14 of the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors is required to be ratified by the shareholders of the Company.

Kiran J Mehta & Co. has furnished a certificate regarding their eligibility for appointment as Cost Auditors of the Company. They have vast experience in the field of cost audit and have conducted the audit of the cost records of the Company for the previous years under the provisions of the Act.

Accordingly, consent of the Members is sought for passing an Ordinary Resolution as set out at Item No. 6 of the Notice for remuneration to the Cost Auditor for the financial year ending on 31st March, 2024.

None of the Directors and Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise in the Resolution.

The Board recommends adoption of resolution set out at Item No. 6 of the accompanying Notice of Annual General Meeting as an Ordinary Resolution.

ANNEXURE C

Information pursuant to Section 197(12) of the Companies Act, 2013 read with Rule 5(1) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014

- i. **Ratio of the remuneration of each Director / Key Managerial Personnel (KMP) to the median remuneration of all the employees of the Company for the Financial Year is as follows:**

Median remuneration of all the employees of the Company for the Financial Year 2022-23 (in Rs.)	8,30,683
Percentage increase in the median remuneration of employees in the Financial Year	10%
Number of permanent employees (average) on the rolls of the Company as on 31 st March, 2023	241

Name of the Director/KMP	Designation	Ratio of remuneration to median remuneration of All employees
Executive Director		
Mr. Anil Singhvi	Executive Chairman	36.14
Mr. KK Rajeev Nambiar	CEO & Managing Director	30.50
Other KMPs		
Mr. Vikas Kumar	CFO	6.97
Mr. Suresh Kumar Meher	VP (Legal) & Company Secretary	7.75

Note

- Independent Directors were paid sitting fees & commission. Other Non-Executive Directors were not paid any remuneration during the financial year. Hence this is not applicable for Non-Executive Directors.
- The ratio of remuneration of each Director and KMP to the median remuneration is based on the CTC of the remuneration (excluding prerequisite value of stock options exercised by eligible employees under ESOP Plan and other benefits as per Company Policy) for the year 2022-23 in their respective capacity as such Director or KMP. Percentage increase in remuneration of CEO & Managing Director, CFO and Company Secretary are 8%, 10% and 6% respectively and exclusive of prerequisite value of stock options exercised by them during the year.

- ii. **Average percentile increase already made in the salaries of employees other than the managerial personnel in the last financial year and its comparison with the percentile increase in the managerial remuneration and justification thereof and point out if there are any exceptional circumstances for increase in the managerial remuneration:**

On an average an employee receives an annual increase (excluding on account of promotions) of approx. 8%, which also include wage increments for unionized employees due to wage settlements. The wage revision for staff cadre employees is done annually as per Company's HR Policy. In order to ensure that remuneration reflects Company performance, the performance pay & annual increment are also linked to organization performance, apart from an individual's performance. The individual increments for staff cadre employees are based on Cost to Company (CTC) consisting of Annual Base Salary and the performance/ variable pay. The percentage increase in remuneration of Mr. Rajeev Nambiar, CEO & Managing Director as well as Mr. Anil Singhvi, Executive Chairman during the year are mentioned in table above.

Average increase in the remuneration of the employees other than the Managerial Personnel and that of the Key Managerial Personnel is in the line with the industry practice and industry trends. Average increase in the remuneration is also guided by factors like economic growth, inflation, mandatory increases, external competitiveness and talent retention. Whilst the Company endeavors on cost effective initiatives including employees cost being one of the key areas of cost monitoring and control, the results of any structural initiatives needs to be measured over a long-term horizon and cannot be strictly compared only with annual performance indicators.

- iii. **The key parameters for any variable component of remuneration availed by the directors**

Performance assessment is based on the Company performance and individual performance. Based on the performance assessment, the variable remuneration is approved by the Nomination & Remuneration Committee and recommended to the Board for their approval within the overall limits as permitted under the law and as approved by the Members. Other than, CEO & Managing Director, no other Director is in receipt of any variable components of remuneration.

- iv. **The remuneration is as per the Remuneration Policy of the Company as posted on website of the Company at <https://www.digvijaycement.com/policies/>**

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

ECONOMIC SCENARIO AND OUTLOOK

GLOBAL ECONOMY

Global economic activity is experiencing a broad-based and sharper-than-expected slowdown, with inflation higher than seen in several decades. The cost-of-living crisis, tightening financial conditions in most regions, continued Russia's invasion of Ukraine, and the lingering COVID-19 pandemic all weigh heavily on the outlook.

However, despite several headwinds, global gross domestic product (GDP) growth forecast for 2023 was revised from 2.7% to 2.9%, signaling that the expected global recession will not be as severe as previously feared. According to the International Monetary Fund (IMF), "adverse risks have moderated" since its previous World Economic Outlook, released in October 2022. Global inflation is expected to be lower on-year in 2023 but will remain above the pre-pandemic average and higher than central bank targets.

While risks have reduced, the global economy remains vulnerable to the geopolitical fallout from the Russia-Ukraine conflict. Increasing crude oil and food grain prices and formation of trade blocs due to intensification of the conflict remain risks to the economy.

The global cement market size reached US\$ 363.2 Billion in 2022. Going forward, it is expected that the market will reach US\$ 518.5 Billion by 2028, exhibiting a CAGR of 6.11% during 2022-2028.

INDIAN ECONOMY

India's recovery from the pandemic was relatively quick, and growth in the upcoming year will be supported by solid domestic demand and a pickup in capital investment. Incipient signs of a new private sector capital formation cycle are visible and more importantly, compensating for the private sector's caution in capital expenditure, the government raised capital expenditure substantially. According to the Economic Survey 2022-2023, budgeted capital expenditure rose 2.7 times in the last seven years, from FY16 to FY23, re-invigorating the Capex cycle. In Union Budget 2023-24, Capital investment outlay has been increased steeply for the third year in a row by 33% i.e. Rs. 10 Lakh Crore, which would be 3.3 per cent of GDP. This will be almost three times the outlay in 2019-20. Structural reforms such as the introduction of the Goods and Services Tax and the Insolvency and Bankruptcy Code enhanced the efficiency and transparency of the economy and ensured financial discipline and better compliance.

Strong domestic demand amidst high commodity prices may raise India's total import bill and contribute to widen Current Account Deficit (CAD). These may be exacerbated by subduing export growth on account of slackening global demand and the Indian currency may come under depreciation pressure due to widening CAD. Entrenched inflation may prolong the tightening

cycle, and therefore, borrowing costs may stay 'higher for longer'. In such a scenario, global economy may be characterized by low growth in FY24 and will also impact the Indian Economy. However, the oil prices may stay low, and India's CAD may be better than currently projected.

The Impact

Higher Oil Price: The crude oil price had touched 130 dollars a barrel earlier this year. It fell later and went below \$85 per barrel in September 2022.

Rise in crude oil prices has in the past, led to rise in under-recoveries as the government did not want the retail prices to rise sharply. Under-recovery refers to the difference in the cost of producing petroleum products, and the price at which they are delivered to consumers. It indicates the loss incurred by oil marketing companies while supplying these petroleum products. The central government compensates these oil marketing companies (OMCs) by sharing some of this incurred loss through a burden sharing mechanism.

Higher Inflation: International Energy Agency has said that a 10% increase in crude oil prices in India will lead to an increase in the Wholesale Price Index (WPI) by nearly 0.9%. There is also a significant impact on the consumer price index (CPI) with increasing crude oil prices. Hence, inflation increases with a rise in crude oil prices. The RBI and the Indian government are trying hard to bring inflation below the 6% threshold, but if oil prices increase, controlling inflation won't be easy.

GOVERNMENT INITIATIVES

In order to help private sector companies, thrive in the industry, the Government has been approving their investment schemes. Some of the initiatives taken by the Government off late are as below:

- As per the Union Budget 2022-23:
 - Higher allocation for infrastructure– US\$ 26.74 billion in roads and US\$ 18.84 billion in railways is likely to boost demand for cement.
 - Under the housing for all segment, eight million households will be identified according Rs. 48,000 crore (US\$ 6.44 billion) set aside for PM Awas Yojana.
 - The government approved an outlay of Rs. 199,107 crore (US\$ 26.74 billion) for the Ministry of Road Transport and Highways, and this step is likely to boost the demand for cement.
- As per Invest India, National Infrastructure Pipeline (NIP) expanded to 9,305 projects from 7,400 projects.
- In October 2021, Prime Minister, Mr. Narendra Modi, launched the 'PM Gati Shakti - National Master Plan (NMP)' for multimodal connectivity. Gati Shakti will bring

synergy to create a world-class, seamless multimodal transport network in India. This will boost the demand for cement in the future.

- The Union Budget allocated Rs. 13,750 crore (US\$ 1.88 billion) and Rs. 12,294 crore (US\$ 1.68 billion) for Urban Rejuvenation Mission: AMRUT and Smart Cities Mission and Swachh Bharat Mission.

G20 PRESIDENCY LEAD BY INDIA : 1st December, 2022, is a momentous day as India assumed the presidency of the G20 forum, taking over from Indonesia. As the largest democracy in the world, and the fastest growing economy, India's G20 presidency will play a crucial role in building upon the significant achievements. In India's G20 Presidency will work to promote this universal sense of one-ness. Hence our theme - 'One Earth, One Family, One Future' as emphasised by the Indian Prime Minister. India is on a mission to bring about a shared global future for all through the Amrit Kaal initiative with a focus on the LIFE movement which aims to promote environmentally conscious practices and a sustainable way of living. With a clear plan and a development-oriented approach, India aims to promote a rules-based order, peace and just growth for all. The 200+ events planned in the run up to the 2023 Summit will strengthen India's agenda and the six thematic priorities of India's G20 presidency.

INDIAN CEMENT INDUSTRY : OUTLOOK AND OPPORTUNITIES

India is the second-largest producer of cement in the world. It accounts for more than 8% of the global installed capacity. India has a lot of potential for development in the infrastructure and construction sector and the cement sector is expected to largely benefit from it. Furthermore, on the back of rising rural housing demand, the consumption of cement in India has been growing consistently. Strong expansion of the industrial sector, which has fully recovered from the COVID-19 pandemic shock, is one of the main demand drivers for the cement industry. As a result, there is a strong potential for an increase in the long-term demand for the cement industry. Some of the recent initiatives, such as the development of ninety-eight smart cities, are expected to significantly boost the sector.

Currently, the installed cement capacity in India is 553 MTPA with a production of 298 MTPA.

As India has a high quantity and quality of limestone deposits through-out the country, the cement industry promises huge potential for growth. India has a total of 210 large cement plants, of which seventy-seven are in Andhra Pradesh, Rajasthan, and Tamil Nadu. Nearly 32% of India's cement production capacity is based in South India, 20% in North India, 13% in Central, 15% in West India, and the remaining 20% is based in East India. India's cement production is expected to increase at a CAGR of 5.65% between FY16-22, driven by demands in roads, urban infrastructure and commercial real estate. The consumption of cement in India is expected to grow at a CAGR of 5.68% from FY16 to FY22. As per Crisil Ratings, the Indian cement industry

is likely to add ~80 million tonnes (MT) capacity by FY24, the highest in the last 10 years, driven by increasing spending on housing and infrastructure activities.

Robust Demand & Attractive Opportunities

As per ICRA, in FY22, the cement production in India is expected to increase by ~12% YoY, driven by rural housing demand and government's strong focus on infrastructure development.

As per Crisil Ratings, the Indian cement industry is likely to add ~80 million tonnes (MT) capacity by FY24, the highest since the last 10 years, driven by increasing spending on housing and infrastructure activities.

Long-Term Potential

Indian cement companies are amongst the world greenest cement manufacturers. With high allocation under the Union Budget 2023-24 for infrastructure, affordable housing schemes and road projects to fuel the economy, the domestic cement industry is poised for a volume surge.

Increasing Investments

FDI inflows in the industry, related to manufacturing of cement and gypsum products, reached US\$ 5.49 billion between April 2020 and September 2022.

The demand for affordable houses, with a ticket size of <Rs. 40-50 lakh(US \$ 53,694 -67,118), is expected to rise in Tier 2 and 3 cities, leading to an increase in demand for cement.

COMPANY'S PERFORMANCE

During the year under review, earnings before interest, tax and depreciation (EBITDA) of the Company recorded Rs. 10,759.78 lakhs as compared to Rs.12,106.36 lakhs in the previous year.

The reduction in EBITDA was mainly due to high cost of Coal and Crude Oil and intense market competition, which has impacted the margin of cement industry. These increases were caused largely due to external factors beyond control.

The demand for cement may continue to be driven further by the pick-up in the infrastructure projects viz. bridges, roads, ports, metro rails and low budget housing segment, bringing opportunities for growth in this sector. The long-term outlook for cement is expected to be positive.

Despite the very high cost of coal that has impacted the margins of cement industry, the Company performed well by improving plant performance and keeping the cost under control. The Company has recorded operating profit of Rs. 10,759.78 lakhs with an EBITDA margin of 15% . Concerted efforts throughout the year resulted in higher sales volume, cement and clinker production. The Company continues to focus on optimizing costs, improving operational efficiency, blended and special products sales and strengthening the brand.

SEGMENT REVIEW AND ANALYSIS

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). Chief Executive Officer (CEO) and Managing Director (MD) of the Company has been identified as CODM who assesses the financial performance and position of the Company and makes strategic decisions.

The Company's CODM has identified one business segment viz. Manufacturing and Sales of Cement and its only production facility is located in India. There are no other reportable segments.

COST AND PROFITABILITY

On the cost front, the Company witnessed significant pressure over the course of the year due to the increase in crude oil and coal prices impact on each cost element. These increases were caused largely due to external factors beyond control.

Controlling costs is an on-going exercise of your Company. The Company continues to focus on cost reduction through procurement sourcing, increasing power sourcing of green energy (wind, solar and power through Waste Heat Recovery), which is eco-friendly and cheaper source of power, better use of alternative fuel, optimising logistics operations, debottlenecking & asset optimisation, capacity utilisation to optime fixed cost and increasing sales & marketing footprints with better blended and special product mix to improve the overall performance and profitability of the Company.

OPPORTUNITIES, THREATS, RISK & CONCERN

The Company has well defined structure which enable and empower management to identify, assess and leverage business opportunities and manage risk exposure in the organization effectively.

As per Risk Management framework and procedures, management treat various category of risks and take appropriate actions for its mitigation. For example, for higher priority risks, the Company has developed and implemented specific risk management plans that supports management in strategic decisions and funding considerations, if any. Lower priority risks are also monitored as per plan. Company has the process of communication, consultation, monitoring and periodical review of the risks and effectiveness of the mitigation plan.

Raw material risk

The cement industry depends primarily on limestone and other raw materials. However, availability of limestone from nearby sources is limited and thus, it is essential to promote the use of blended cement, which uses alternative raw materials such as fly ash and slag. The increase in the cost of these alternative materials and availability of those materials may further increase the production costs.

Competition risk

The cement industry is witnessing a significant imbalance in its total installed capacity vis-a-vis the capacity utilization which presently is 67%. Despite the capacity overhang, capacity expansion still continues, resulting in intense competition and adverse impact on the Company's market share, sales volume and profitability. To improve the presence in the market and reducing the competition risk, Company has planned to expand its capacity and got significant approval of Environmental Clearance (EC) from the Government.

Cement capacity additions on a spree; likely to add 130-140 MT incremental capacity in next 5 years Improving demand outlook over the medium term and push to gain market share have triggered a wave of capacity addition announcements by cement manufactures, especially large players. Over fiscal 2024-28, CRISIL MI&A Research expects the industry to add 130-140 million tonne per annum (MTPA) of grinding capacities, taking the country's total installed capacity to 730-740 MTPA by fiscal 2028. In fiscal 2023, though, the cement industry is estimated to have added 30-32 MT (inclusive of grinding and integrated units) vs ~34 MT added in fiscal 2022, as higher input costs in the form of elevated power and fuel prices have dented players' profitability, leading to lower cash flows and capex slowdown. Fiscal 2024 is expected to witness a similar trend of capacity additions, estimated at 30-32 MT. CRISIL MI&A Research estimates overall installed capacity to reach ~600 MT as of fiscal 2023.

Large players to account for almost half of total capacity addition in the next five years :

CRISIL Research expects bulk of the capacities (~88%) up to fiscal 2028 to be added by large- and midsize players, as these have better finances to sustain in challenging times. Large companies will be able to fund capex through internal accruals. Also, their comfortable gearing levels give them the financial flexibility to raise debt, if required.

New wave of consolidation on the cards for cement industry: The sector has witnessed consolidation, with large cement makers taking over regional heavyweights as well as struggling companies through competitive bidding under the Insolvency and Bankruptcy Code.

Considering the capex plans of the large players, the cement industry is on the road to becoming more competitive, with more consolidations expected. Indeed, while most of the stressed assets have been acquired over the past five years, we anticipate an acceleration in consolidation where other relatively weak midsize and small assets will be the focus.

Infrastructure Risk

Infrastructure sector drives overall development of the economy and is a major focus of the Government of India. Any pullback by

the government on its initiatives will result in de-growth for the cement industry. Moreover, too many regulatory approvals and compliances might be a hindrance to the segment's progress.

Power, fuel and freight risk

The production cost has seen an adverse impact due to the increased cost of power & fuel and freight cost. Fuel cost has gone up by 44% compared to the previous year.

During the year, the Company has noticed high volatility of fuel prices in the international markets coupled with uncertainty over availability of domestic and linkage coal continue to pose challenges in regard to coal availability and pricing to the cement industry as well as the Company. During the year, almost 58% of the Company's requirement for kiln fire is met by Coal. Thus, any rise in international coal prices will adversely impact the operating costs of the Company.

The cement companies have so far managed to mitigate its impact due to the availability of substantial inventory at their disposal. However, that comfort is gone now. It has exposed the companies to the volatility in raw material prices.

The cement industry is highly energy intensive and close to 42% of its total expenditure consists of power and fuel costs. Out of 42% of power and fuel expense, about 10.50% of the cost relates to power. However, it's Company's endeavor to continuously focus on green energy with cheaper sourcing and becoming a self-sufficient Company in current energy scenario.

During the year, the Company consumed 38% of total power requirement from Green Energy Sources like Wind and WHRS.

At Digvijay Cement, we currently use railways for a limited use for despatches. With the rise in diesel prices, the cost of road transportation has increased. The cost increase and huge dependence on road transportation is having an adverse impact on our operational costs.

Marketing Risk

Due to increased demand for cement, intense competition is expected, which may adversely impact on the Company's market share, sales volume, and profitability.

Cyber Security:

In the last few years, technology has evolved manifold and so have the risks attached to it. The proliferation of business data beyond data centres to the cloud, social media and digital platforms for B2B and B2C connect are impacting cyber security.

In addition to data loss, cyber-attacks can impact business operations, machinery and human assets, and result in legal and regulatory liabilities.

Appropriate controls (technology and governance) are being planned and implemented.

Strategies:

The Company has followed two strategies. First is a short-term strategy, aimed at health, cost and cash to mitigate immediate risks. We focused on ensuring the health and safety of our employees, suppliers and channel partners, while initiating stringent measures to control costs and strengthen cash flows.

Secondly, long-term strategies include increasing our market reach through capacity expansion, launch of innovative and superior quality products; enhance efficiency through digital transformation, cost optimization and logistics efficiency; and achieve our sustainability goals through our targeted initiatives across four pillars of our sustainable development plan.

The Company successfully integrated its environmental, social and governance (ESG) plans and targets across all functions and continue to give top priority to improve upon in all ESG parameters.

DIGITAL TRANSFORMATION AND AUTOMATION

We have seen an uptick in the adoption of digital means for doing business across all the functions after the setback caused by the pandemic. This has led us to realign our strategy around digital transformation and automation. Our digital transformation and automation strategy was targeted at making our digital assets more functional so that we could better serve growing customer needs. We comprehensively rebuilt our digital strategy to build new capabilities during the year. The digital transformation encompasses the entire value chain, including manufacturing, logistics, sales and marketing, consumer connect, finance and human resources. Digital elements are intertwined in the business processes as a major media for capturing and disseminating information, analyzing operational parameters and engaging with all stakeholders.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Company is following a proper and adequate system of internal controls in respect of all its activities including safeguarding and protecting its assets against loss from unauthorized use of disposition. Further, all transactions entered into by the Company are duly authorized and recorded correctly. M/s RSM Astute Consulting Group (RSM), Chartered Accountant has been working as the Internal Auditor of the Company for FY 2022-23. The Internal Auditors are submitting reports to the Company on a Quarterly basis.

INTERNAL CONTROLS OVER FINANCIAL REPORTING (ICFR)

The internal financial controls within the Company are commensurate with the size, scale and complexity of its operations. The controls were tested during the year and no reportable material weaknesses either in their design or operations were observed. The Company has robust policies and procedures which, *inter alia*, ensure integrity in conducting

its business, the safeguarding of its assets, timely preparation of reliable financial information, accuracy and completeness in maintaining accounting records and the prevention and detection of frauds and errors. The operating effectiveness of such controls are in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (“the Guidance Note”) and the Standards on Auditing specified by the Central Government in accordance with Section 143(10) of the 2013 Act and other authoritative pronouncements, to the extent applicable to an audit of internal financial controls over financial reporting, both issued by the ICAI.

HUMAN RESOURCE DEVELOPMENT / INDUSTRIAL RELATIONS

The Company continued with efforts to ensure that its pool of human resources is “future ready” through its robust processes of learning & development, capability building and its development programmes. Efforts were taken to develop leadership lines as well as to enhance technical and functional capabilities with special focus on nurturing young talent, in order to face future challenges that may arise. The Company organized several training, awareness and coaching programs to develop the leadership, technical and management skills of employees. Employee engagement programs were organized to create openness and sharing ideas by employees. This learning journey includes formal, informal and highly interactive components that would help in honing their leadership, and coaching skills. It will ensure that the development initiatives result not just in better skills but in enhanced performance and higher engagement.

The total number of employees on the rolls of the Company as on 31st March, 2023 was 241 (Previous year as on 31st March, 2022, number was 259).

Industrial relations during the year under report remained cordial.

EDUCATION

The Company has been providing primary/secondary education for the children of the employees and local community staying in nearby areas of Factory / Mines. The Company has provided educational kits to needy children in the nearby villages. More details on this is covered in the Annual Report on CSR activities forming part of the Directors’ Report.

ENVIRONMENT, SUSTAINABILITY AND GOVERNANCE

The Company has been continuously contributing towards environmental sustainability. Continuous improvement, enhanced process efficiency and periodic capital expenditures

have helped us position “KAMAL” Cement one of the most responsible cement manufacturers in the country. The Company has been periodically reviewing the criteria of Environment, Sustainability & Governance (ESG) as per its ESG Policy with a focus on continuous improvement in Environment Sustainability. During the year, the Company’s efforts continued with the same rigour. It conducted its business maintaining high standards of governance, respecting nature and demonstrating social responsiveness towards its communities & people.

Under its ESG Implementation plan, the Company has identified 14 key areas viz. water management, circular economy & waste management, energy & climate change, atmospheric emissions, biodiversity management & greenbelt development, sustainable mining, product quality management, health & safety, transparency, ethical practices & corporate governance, innovations & digitalization, sales & supply chain, human resources, community engagement and corporate social responsibility under which key initiatives are undertaken. Despite a challenging year 2022-23, we were able to achieve considerable improvements across the targets and are on track with the agenda of the Company.

More details on the Company’s ESG initiative and performance during the year is annexed to this MDA and BRSR forming an integral part of the Annual Report.

CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis describing the Company’s objectives, projections, estimates, expectations or predictions may be “forward looking statements” within the meaning of applicable laws or regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company’s operations include global and domestic demand-supply conditions finished goods prices, raw materials costs and availability, fluctuations in exchange rates, changes in Government regulations, tax laws, natural calamities litigation and industrial relations, monsoon, economic developments within the country and other factors.

Water Management

During the year, specific water consumption is reduced by 30.19% in plant and colony with continuous efforts of creating water sensitivity among employees and their families, creating water harvesting ponds / structures at plant and mining locations and by optimizing process. Overall the specific water intensity is reduced from 0.197 kl / t cem to 0.138 kl / t cem in 2022-23.

Circular Economy, Waste Management and Resource Conservation

From our systematic approach in a circular economy perspective, we utilized various types of waste at our operation with the aim 'wastes nothing'. Waste that is produced is either re-utilized in system or send to resource recovery i.e. downgrade uses. We co-processed 10674 MT of wastes (hazardous/non-hazardous) in our kiln as alternative fuels and raw materials (AFR) in the reporting year. Likewise, we utilized 2,22,587 MT of fly ash for manufacturing of cement in the year 2022-23.

With our focus on sustainability and circular economy, we have achieved consumption of 1414 to plastics under EPR initiative and achieved 89.55% of obligation against requirement of 70%.

By the utilization of AFR we achieved 1.60 % of TSR.

Sales & Supply Chain

The Company continued to increase its blended cement portfolio in total cement production. During 2022-23, the Company increased its blended cement portfolio from 52.30% to 56.40%.

Energy and Climate Change

During 2022-23, the Company's Waster Heat Recovery System (WHRS) at its plant site generated 275 lakh units (Net) of electrical energy. Additionally, the Company consumed 123 lakh units (Net) of wind power through Power Purchase Agreement (PPA).

Thus, a total of 398 lakh units (Net) of green energy was consumed in 2022-23, which is 38.40% of total electrical energy consumption requirement.

The Company continuously focus on green energy with cheaper sourcing and becoming a self-sufficient Company in current energy scenario. With this approach, the Hybrid power contract, executed previous year, will generate about 37% of total power requirement of the plant and put together with WHRS will constitute over 65% of total power needs of the Company.

Atmospheric Emissions

During 2022-23, the overall GHG emission is reduced from 697 kgCO2 / t cement to 680 kgCO2 / t cement despite so many variation in fuel quality and fuel price variation in the current year.

Stack emission are maintained below the stipulated guide value of < 30 mg/Nm3. There is overall reduction in specific dust emission to the level of 43 gm / t cem as compared to 55 gm / t cem in previous year. Water sprinkling and plantation of trees is being continuous process of our facility to sustain and protect the environment.

Apart from Raw material storage shed and Coal storage shed, we have taken improvement projects like installation of Continuous Emission Monitoring System (CEMS) in DG set, installation of CEM in other stacks, development of truck parking yard.

NOx emission compliance was ensured through primary and secondary measures for NOx control and implementation of Selective Non-Catalytic Reduction (SNCR) systems in integrated cement plants in previous years. There is 10 % reduction in specific NOx emissions from 425 mg/Nm³ of cement in to 382 mg/Nm³ of cement in 2022-23.

The Company's SOx emissions are well within the specified regulatory limits and do not require major emission control measures. The specific SOx emissions was 43 mg/Nm³ of cement in 2022-23 against 51 mg/Nm³ in previous year.

The Company is required to have continuous online reporting of ambient air quality, effluents and process emission on a real-time basis on the websites of regulatory authorities and accordingly Company has complied with this requirement. Monitoring of major stacks emissions (dust, NOx and SOx) & Continuous Ambient Air Quality (PM10, PM2.5, SO2, NOx, CO, O3) of the Company's plant at Sikka is being done. During the year, the Company has installed Ambient Air Weather & Monitoring System to gather information & monitor on regular basis, in order to reduce the impact of operational emissions on nearby community.

Biodiversity management and greenbelt development

We recognize that our businesses can influence the local ecology of the areas where we operate and that we have significant role to engage in recreation and protecting the ecosystems around us. The Company is committed to the protection of environment and maintenance of biodiversity for balancing the ecosystem. This also helps us in providing an additional aesthetic look in and around our works including our mines and residential areas. A green belt has been developed in the plant premises, mines and nearby areas. Your Company has planted more than 65,000 trees during the year with cumulative plantation of approx. 3,00,000 trees with the survival rate of more than 80 percent. The team at the Plant & Mines has made lot of efforts in conservation and propagation of rare species of trees, Ayurveda plants increasing forest cover and fruit gardens. The native species selected for plantation include Neem, Pipal, Conocarpus, Peela Gulmohar, Chickoo, Mango, Ashok, Amaltas, etc.

For enhancement of biodiversity in operation areas, your Company has taken a forward step for preparation of Comprehensive Action Plan on Biodiversity (CAPB), with having clear vision on conservation of existing habitats, towards further improvement and delivery mechanisms.

Sustainable Mining

Mining is a key activity at SDCCL, carried out for sourcing Limestone, our primary raw material. We operate in secluded, challenging environment with undulated topography and as a result, we are sensitive to the ecological needs of locals. We are always working in manner to ensure that our mining activities cause minimum disturbance.

The Mining is being performed in eco-friendly manner in accordance with approved mining plan without drilling and blasting. Dozer-Ripper is the primary extraction equipment, which eliminates drilling and blasting induced pollutants like dust, noise, vibrations and other emissions. There is no solid waste generated from the mining. Multi-pit mining is adopted for blending low-grade & high-grade limestone for optimum utilization of mineral resources. The limestone is transported through trucks with fully covered tarpaulin. Reclamation of

matured pits and non-mineralized zones are going on side by side as part of the Progressive Mines Closure Plan.

Mining is restricted to above water table and no dewatering from the mines pit. During the reporting year we planted around 31,000 nos. of trees in area of 18.04 hectares land and converted 26.07 Hectares area as water reservoir so far, which helps to recharge ground water table of the surroundings.

Product Quality Management

Quality control is an important aspect of cement production. Product Quality Management (PQM) ensures ‘assured quality’ of cement. At Digvijay Cement, PQM involves a comprehensive set of tools that are used to control and manage product quality and strength.

Health and Safety

Health and Safety initiatives of the Company has continued to be an integral part of the H&S governance and assurance system. This has reinforced focus on the ground level and leadership engagement through interaction with frontline workers. This initiative has become a way of life at Digvijay and its implementation has improved safety performance in the Company.

Company regularly conducts safety audits through internal team as well as external agencies / authorities and organises EHS Training & awareness programme. Apart from this, Company celebrate National Safety Week, Global Safety Day, Ozone Day, Earth Day etc. covering population at all levels, including school, nearby villages. With a view to encourage and motivate employees (direct & indirect) for active participation, rewards are given every month.

Ethical Practices and Corporate Governance

Company believes that business ethics and profit go together in the long-run for the sustenance of any organization. As a good corporate citizen, the Company is committed to sound corporate practices based on conscience, openness, fairness, professionalism and accountability in building confidence of its various stakeholders in it thereby paving the way for its long-term success. Company manages its affairs in a fair manner by giving utmost importance to transparency in decision making process, ethical dealings with all, pollution free clean

environment. The way the Company operates is expressed in its Vision and its Values, in its Code of Conduct, and in its other policies.

Company is committed to the creation of long-term sustainable value for the benefit of all its stakeholders. With a view to create awareness amongst all its employees and other stakeholders Company at regular intervals organizes trainings and awareness program. Such initiatives also give great insights into the importance of managing different ethics and conflicting situations.

Details about Company’s philosophy and practices on Corporate Governance is included in the Corporate Governance Report, forming integral part of Annual Report.

Innovation and Digitization

Digitization offers a wealth of information about how efficiently cement manufacturing process is performing. Capturing this data in real time is key to achieving optimum performance – as well as increasing the availability factor. At Digvijay Cement new distributed control systems (DCS) and digital tools help enabling to adjust and optimise operating parameters, spot potential problems before they have the chance to escalate, and take advantage of our remote services to diagnose, troubleshoot and even make adjustments from afar. It’s all possible with DCS system and other digitalization measures.

Community engagement and Corporate Social Responsibilities

We are a customer-centric organization which takes pride in collaborating with all our customers, from channel partners to the end consumer, in order to better understand their requirements. We conduct regular customer satisfaction surveys which allow our customers to share their valuable feedback with us. Training programmes are conducted for engineers, channel partners, builders and contractors. We organise visits to our manufacturing plant as a part of this initiative. We connect closely with communities around our manufacturing facility and look for opportunities to support them to become more self-sufficient. Enthusiastic and dedicated CSR teams reach out to communities.

Details about CSR activities is included in the Directors Report, forming integral part of Annual Report.

The Company is committed to achieve and comply with sustainable development goals. For this purpose, the Company has defined plans and strategies for the successful implementation and monitoring of the agenda.

CORPORATE GOVERNANCE

The Board of Directors of Shree Digvijay Cement Company Limited (“Company”) is pleased to present the Company’s Report on Corporate Governance for the year ended 31st March, 2023. This Report includes a review of how corporate governance acts as the foundation for our corporate activity and is embedded in our business and the decisions we make.

A) COMPANY’S PHILOSOPHY ON CORPORATE GOVERNANCE:

At Digvijay Cement, Corporate Governance has been an integral part of the way we are doing our business. As a good corporate citizen, the Company is committed to sound corporate practices based on conscience, openness, fairness, professionalism and accountability in building confidence of its various stakeholders in it thereby paving the way for its long-term success. The Company believes that good Corporate Governance emerges from the application of the best and sound management practices and compliance with the laws coupled with adherence to the highest standards of transparency and business ethics. Company’s Board is committed to the creation of long-term sustainable value for the benefit of all stakeholders.

INDEPENDENT AUDITOR'S REPORT

To the Members of Shree Digvijay Cement Company Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Shree Digvijay Cement Company Limited (the "Company") which comprise the standalone balance sheet as at 31 March 2023, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2023, and its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Revenue recognition

See Note 26 to standalone financial statements

The key audit matter

- Revenue is recognised when the control over the underlying products has been transferred to the customer.
- We consider a risk of misstatement of the Financial Statements related to revenue recognised during the year and as at year end which may include:
 - i. inconsistencies with customer agreements; or
 - ii. overstatement of revenues by recording revenues in the current reporting period which should be recognised in a subsequent year; or
 - iii. risk of recording fictitious revenue to achieve the targets
- Accordingly, revenue recognition during the year and as at year end is considered as a key audit matter.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matter(s)

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

How the matter was addressed in our audit

Our audit procedures include:

- Assessing the Company's revenue recognition policy for compliance with Ind AS
- Testing the design, implementation and operating effectiveness of the Company's manual and automated controls around recording of revenue
- Verifying the appropriateness of revenue recognition which included evaluating the Company's transit time assessment and quantification of any sales reversals based on the terms in sales contracts
- Performing testing on selected statistical samples of revenue transactions recorded throughout the year and at the year end and checking delivery documents
- Assessing and testing the adequacy of presentation and disclosures

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and auditor's report(s) thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements

or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure A to the Independent Auditor's Report on the Standalone Financial Statements of Shree Digvijay Cement Company Limited for the year ended 31 March, 2023

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified in a phased manner over a period of three years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than immovable properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee) disclosed in the standalone financial statements are held in the name of the Company.
- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

- (ii) (a) The inventory, except goods-in-transit has been physically verified by the management during the year. For goods-in-transit subsequent evidence of receipts has been linked with inventory records. In our opinion, the frequency of such verification

is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory

- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the books of account of the Company.
- (iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not provided any guarantee or security, secured or unsecured to companies, firms, limited liability partnership or any other parties during the year. The Company has granted unsecured advances in the nature of loans to other parties during the year in respect of which the requisite information provided in clause (a). The Company has made investment in its wholly owned subsidiary company which prima facie is not prejudicial to the interest of the Company. The Company has not made any investments in firms, limited liability partnership or any other parties. Accordingly, clause 3(iii)(b) to clause 3(iii)(f) of the Order are not applicable to the Company.
- (a) Based on the audit procedures carried on by us and as per the information and explanations given to us the Company has provided advances in the nature of loans to any other entity as below:

Particulars	Advances in nature of loans (Rs. in lakhs)
Aggregate amount during the year	81.02
Others (Employees)	
Balance outstanding as at balance sheet date	57.96
Others (Employees)*	

*As per the Companies Act, 2013

- (iv) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not given any loans, or provided any guarantee or security as specified under Section 185 and 186 of the Companies Act, 2013 ("the

Act"). In respect of the investments made by the Company, in our opinion the provisions of Section 186 of the Act have been complied with.

- (v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.
- (vi) We have broadly reviewed the books of accounts maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Act in respect of its manufactured goods and are of the opinion that *prima facie*, the prescribed accounts and records have been made and maintained. However, we have not carried out a detailed examination of the records with a view to determine whether these are accurate or complete.
- (vii) (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective 1 July

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, statutory dues relating to Goods and Service Tax, Provident Fund, Income-Tax, Duty of Customs or Cess or other statutory dues which have not been deposited on account of any dispute are as follows:

- (e) According to the information and explanations given to us and on an overall examination of the financial statements of the company, we report that the company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary as defined under Companies Act, 2013. The Company does not hold any investment in any associate companies or joint ventures as defined under Companies Act, 2013
- (f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiary as defined under Companies Act, 2013. The Company does not hold any investment in any associate companies or joint ventures as defined under Companies Act, 2013.
- (x) (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments). Accordingly, clause 3(x)(a) of the Order is not applicable.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable.
- (xi) (a) Based on examination of the books and records of the Company and according to the information and explanations given to us, no fraud by the Company or on the Company has been noticed or reported during the course of the audit.
- (b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
- (xii) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.
- (xiii) In our opinion and according to the information and explanations given to us, the transactions with related parties are in compliance with Section 177 and 188 of the Act, where applicable, and the details of the related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- (xiv) (a) Based on information and explanations provided to us and our audit procedures, in our opinion, the Company has an internal audit system commensurate with the size and nature of its business.
- (b) We have considered the internal audit reports of the Company issued till date for the period under audit.

Annexure B to the Independent Auditor's Report on the standalone financial statements of Shree Digvijay Cement Company Limited for the year ended 31 March 2023

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Shree Digvijay Cement Company Limited ("the Company") as of 31 March 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements

based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures

of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to

future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

1 Company Overview

Shree Digvijay Cement Company Limited (the 'Company') is a public limited Company domiciled in India with its registered office address being Digvijaygram, Dist: Jamnagar, Gujarat - 361140. The Company is listed on the Bombay Stock Exchange (BSE) & National stock exchange (NSE). The Company's principal business is manufacturing and selling of cement. The Company has one manufacturing facility at Sikka (via Jamnagar). The Company caters mainly to the domestic market.

2(A) Summary of significant accounting policies

2.01 Basis of preparation

a) Compliance with Indian Accounting Standards (Ind AS)

The standalone financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

b) Historical cost convention

The standalone financial statements have been prepared on a historical cost basis, except for following items:

- i) Employee's Defined Benefit Plan as per actuarial valuation.
- ii) Employee share based payments measured at fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using another valuation technique. In determining the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

c) Current versus non-current classification

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of the products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

2.02 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). Managing director (MD) of the Company has been identified as CODM who assesses the financial performance and position of the Company, and makes strategic decisions.

2.03 Foreign Currency Transactions

a) Functional and presentation currency

The standalone financial statements are presented in Indian Rupees (INR), which is the Company's functional and presentation currency.

b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the standalone statement of profit and loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Non-monetary items that are measured at historical cost in foreign currency are translated using the exchange rate at the date of the transaction.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

2.04 Revenue Recognition

Revenue from sale of goods is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods. The Company assesses promises in the contract that are separate performance obligations to which a portion of transaction price is allocated.

Revenue is measured based on the transaction price as specified in the contract with the customer. It excludes discounts, incentives, volume rebates, goods & services tax and amounts collected on behalf of third parties. In determining the transaction price, the Company considers below, if any:

Variable consideration :

This includes discounts, incentives, volume rebates, etc. It is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. It is reassessed at end of each reporting period.

Consideration payable to a customer :

Such amounts are accounted as reduction of transaction price and therefore, of revenue unless the payment to the customer is in exchange for a distinct good that the customer transfers to the Company.

Further, in accordance with Ind AS 37, the Company recognises a provision for onerous contract when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contract balances :

Trade receivables that do not contain a significant financing component are measured at transaction price.

Contract liabilities : A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. Contract liabilities are recognised as revenue when the Company performs under the contract.

Significant payment terms :

Generally, the Company provides 21 days credit period for trade type customers and 30 days for non-trade type customers. Further, trade customers are eligible for certain discounts as per basis quantity upliftment by the customer on monthly, quarterly and annual.

Interest income :

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the amortised cost and at the effective interest rate applicable.

2.05 Borrowing costs

General and specific borrowing costs that are attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of such asset till such time the asset is ready for its intended use or sale and borrowing costs are being incurred. Qualifying assets are assets that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are recognised as an expense in the period in which they are incurred.

2.06 Leases - As a lessee

Ind AS 116 – Leases:

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A Contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the site on which it is located, less any lease incentives received. Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole.

Lease payments included in the measurement of the lease liability comprises of fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option.

The lease liability is subsequently remeasured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Lease liability and the right of use asset have been separately presented in the balance sheet and lease payments have been classified as financing activities.

The Company has elected not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Company recognises the lease payments associated with these leases as an expense in standalone statement of profit and loss over the lease term. The related cash flows are classified as operating activities.

2.07 Employee benefits

a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

b) Other long-term employee benefit obligations

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the period are treated as other long term employee benefits for measurement purpose. The Company's liability is actuarially determined by an independent actuary using the Projected Unit Credit method at the end of each period. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in standalone statement of profit and loss.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

c) **Post employee obligations**

The Company operates the following post-employment schemes:

- defined benefit plans such as gratuity
- defined contribution plans such as provident fund and superannuation fund

i) **Gratuity obligations**

The liability recognised in the standalone balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is determined at the year end by independent actuary using the projected unit credit method.

The present value of the defined benefit obligation denominated in Indian Rupees is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the standalone statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the standalone statement of changes in equity. Remeasurements are not reclassified to profit and loss in the subsequent periods.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in standalone statement of profit and loss as past service cost.

ii) **Defined contribution plans**

Provident fund

The Company pays contributions towards provident fund to the regulatory authorities as per local regulations where the Company has no further payment obligations. The contributions are recognised as employee benefit expense when they are due.

Superannuation Fund

Contribution towards superannuation fund for qualifying employees as per the Company's policy is made to Life Insurance Corporation of India where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from contribution made on monthly basis.

2.08 **Current and deferred tax**

Income tax expense or credit represents the sum of the current tax and deferred tax.

Current and deferred tax is recognised in the Standalone Statement of Profit and Loss except to the extent it relates to items recognised in 'Other comprehensive income' or directly in equity, in which case it is recognised in 'Other comprehensive income' or directly in equity, respectively.

Current tax

Current tax payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the standalone statement of profit and loss because some items of income or expense are taxable or deductible in different years or may never be taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Current tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority. The Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable in the future arising from temporary differences between the carrying amounts of assets and liabilities in the standalone balance sheet and the corresponding tax bases used in the computation of taxable profit. It is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised, based on tax rates that have been enacted or substantively enacted by the reporting date.

A deferred tax asset shall be recognised for the carry-forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

Deferred income tax assets and liabilities are off-set against each other and the resultant net amount is presented in the standalone balance sheet, if and only when, (a) the Company currently has a legally enforceable right to set-off the current income tax assets and liabilities, and (b) when the Deferred income tax assets and liabilities relate to income tax levied by the same taxation authority.

Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

2.09 Property, plant and equipment

All items of property, plant and equipment ("PPE") are stated at historical cost less accumulated depreciation less accumulated impairment losses. The cost of property, plant and equipment includes purchase price including import duties, non-refundable taxes and expenditure that is directly attributable to acquisition and installation, cost of dismantling and removing the item and restoring the site on which it is located.

Capital work in progress is carried at cost, less any recognised impairment loss. Depreciation of these assets commences when the assets are substantially ready for their intended use. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other non-current Assets".

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the standalone statement of profit and loss during the reporting period in which they are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in Standalone Statement of Profit and Loss.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on a pro-rata basis on the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives as per technical evaluation. Estimated useful lives of the assets thereof are as under:

Assets class	Life of Assets in Years
Buildings	30 - 60
Railway Sidings	21
Plant and Equipment	5 - 21
Electric Installations	5 - 20
Rolling Stocks and Locomotives	18
Furniture and Fixtures	5 - 20
Office Equipments & Computers	3 - 6
Vehicles	5 - 10
Jetty and Wharf	20 - 21

Estimated useful lives, residual values and depreciation methods are reviewed annually, taking into account commercial and technological obsolescence as well as normal wear and tear and adjusted prospectively, if appropriate.

2.10 Intangible Assets and Amortisation

Intangible assets with finite useful life are recognised when the Company controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured. Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any.

Amortisation methods and periods

The Company amortises intangible assets with finite useful life using straight line method over the following periods:

Asset class	Life of Assets in Years
Computer Software and Licenses	3 to 6
Asset Retirement Obligation	10 to 16
Mining rights (Land)	Based on extractions of reserve

The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Standalone Statement of Profit and Loss.

Intangible assets under development is carried at cost, less any recognised impairment loss. Amortisation of these assets commences when the assets are substantially ready for their intended use.

Mines Reclamation provision and related asset

An obligation for restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the development or ongoing extraction from mines. The Company recognizes unavoidable obligations, legal or assumed, to restore the mines upon exhaustion of reserves/end of lease period whichever is earlier. These obligations represent the net present value of cash flows expected to be incurred for the restoration process and initially recognized as assets under mining rights (land) which are amortised over its remaining useful life. The obligation is estimated on the basis of cash flows expected to be incurred as per applicable mining regulations, which mainly includes cost of plantation, fencing, biodiversity management, sustainable development, rainwater harvesting etc. The increase in liability due to unwinding of discount is recognised in the Standalone Statement of Profit and Loss under finance cost. Subsequent adjustments to the obligation for changes in the estimated cash flows/disbursement period/discount rate are made against fixed assets and depreciation/amortisation is modified prospectively.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

2.11 Impairment of non-financial assets

Non-financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.12 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost of raw materials, packing materials and fuels comprises cost of purchases. Cost of work-in progress and finished goods comprises direct materials, direct labour, other direct costs and related production overheads. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost is determined using the weighted average method. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

2.13 Cash and cash equivalents

For the purpose of presentation in the Standalone Statement of Cash Flows, cash and cash equivalents includes cash on hand, demand deposits with banks, short-term highly liquid investments with an original maturity of three months or less that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.14 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

i) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss),
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in the Standalone Statement of Profit or Loss or other comprehensive income.

For investments in debt instruments, this will depend on the business model in which the investment is held.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through statement of profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through statement of profit or loss are expensed in standalone statement of profit and loss.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in standalone statement of profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in standalone profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to statement of profit or loss and recognised in other income. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through statement of profit and loss (FVTPL): Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through standalone statement of profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through statement of profit or loss is recognised in standalone statement of profit or loss in the period in which it arises. Interest income from these financial assets is included in other income.

iii) Impairment of financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through standalone statement of profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognized as an impairment gain or loss in standalone statement of profit and loss.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables. As a practical expedient, the Company uses a provision matrix to determine impairment loss of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL loss allowance (or reversal) during the year is recognized in the standalone statement of profit and loss.

iv) De-recognition of financial assets

A financial asset is derecognised only when:

- the Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v) Trade Receivables

All financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTP L), transaction costs that are attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Financial Liabilities

i) Classification

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

ii) Measurement

Financial liabilities are initially recognised at fair value, reduced by transaction costs (in case of financial liability not at fair value through statement of profit or loss), that are directly attributable to the issue of financial liability. After initial recognition, financial liabilities are measured at amortised cost using effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash outflow (including all fees paid, transaction cost, and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through statement of profit and loss.

iii) Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the standalone statement of profit and loss.

iv) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in standalone statement of profit and loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in standalone statement of profit and loss.

v) Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.15 Provisions and contingent liabilities

Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and amount of the obligation can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the management's best estimate of the expenditure required to settle the present obligation at the Balance sheet date. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as an interest expense.

Contingent liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent Assets

A contingent asset is disclosed, where an inflow of economic benefits is probable.

2.16 Earnings per share

Basic earnings per share is calculated by dividing the profit or loss attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share, adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

2.17 Employee Share based payments:

Equity-settled share-based payments to employees are measured at the fair value of the employee stock options at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is amortised over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in the Standalone Statement of Profit and Loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the Share Option Outstanding.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

The Company measures the cost of equity-settled transactions with employees using Black-Scholes model to determine the fair value of the liability incurred on the grant date. Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant.

This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 44

2.18 Investment in Subsidiaries :

The Company's investment in its subsidiary is carried at cost net of accumulated impairment loss, if any. On disposal of the Investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Standalone Statement of Profit and Loss.

2.19 Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 31 March 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from 1 April 2023, as below:

Ind AS 1 Presentation of Financial Statements – Disclosure of Accounting Policies

The amendments replace all instances of the term 'significant accounting policies' with 'material accounting policy information'. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements. The supporting paragraph in Ind AS 1 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors—Definition of Accounting Estimates

The amendments replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 12 Income Taxes—Deferred Tax related to Assets and Liabilities arising from a Single Transaction

Under the amendments, an entity does not apply the initial recognition exemption for transactions that give rise to equal taxable and deductible temporary differences. Equal taxable and deductible temporary differences may arise on initial recognition of an asset and liability in a transaction that is not a business combination and affects neither accounting nor taxable profit. For example, this may arise upon recognition of a lease liability and the corresponding right-of-use asset applying Ind AS 116 Leases at the commencement date of a lease. The amendments should be applied to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period presented, a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability should also be recognized for all deductible and taxable temporary differences associated with leases and decommissioning obligations. The Company does not expect the amendment to have any significant impact in its financial statements.

2.20 Rounding of amounts

All amounts disclosed in the standalone financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2(B) Critical estimates and judgements

The preparation of standalone financial statements requires the use of accounting estimates. Management also needs to exercise judgement in applying the Company's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. The areas involving critical estimates or judgements are:

a) Mines Reclamation Provision and related asset

In determining the fair value of the Mines Restoration Obligation, assumptions and estimates are made in relation to discount rates, the expected cost of mines restoration and the expected timing of those costs. (Refer note 2(A) 2.10 and 18).

b) Provisions & Contingent Liabilities

The Company exercises judgement in measuring and recognising provisions and the exposures to contingent liabilities which is related to pending litigation or other outstanding claims. If a loss arising from these litigations and/or claims is probable and can be reasonably estimated, the management record the amount of the estimated loss. If a loss is reasonably possible, but not probable, the management discloses the nature of the significant contingency and, if quantifiable, the possible loss that could result from the resolution of the matter. As additional information becomes available, the management reassess any potential liability related to these litigations and claims and may need to revise the estimates. Such revisions or ultimate resolution of these matters could materially impact the results of operations, cash flows or financial statements of the Company. (Refer Note 23 and 25)

c) Current tax expense and deferred tax

The calculation of the Company's tax charge necessarily involves a degree of estimation and judgement in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process. The final resolution of some of these items may give rise to material adjustment to taxable profits/losses (Refer note 7 and 24).

Recognition of deferred tax assets

The recognition of deferred tax assets is based upon whether it is probable that sufficient taxable profits will be available in the future against which the reversal of temporary differences will be offset. To determine the future taxable profits, the management considers the nature of the deferred tax assets, recent operating results, future market growth, forecasted earnings and future taxable income in the jurisdictions in which the Company operate. (Refer Note 19).

d) Useful lives of property, plant and equipment and intangibles

The Company reviews the estimated useful lives of property, plant and equipment at the end of each reporting period or even earlier in case, circumstances change such that the recorded value of an asset may not be recoverable. The estimate of useful life requires significant management judgment and requires assumptions that can include: planned use of equipments, future volume trends, revenue and expense growth rates and annual operating plans, and in addition, external factors such as changes in macroeconomic trends which are considered in connection with the Company's long-term strategic planning. (Refer note 2(A) 2.09 and 2(A) 2.10).

e) Employee benefit plans

The Company's obligation on account of gratuity and compensated absences is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates. Further details about gratuity obligations are given in Note 30A(ii).

The Company has acquired mineral rights of three mines i.e. Debarh-Bhavneswar, Mokhana and Pachhtardi having total expected Limestone Reserve of 27.49 million tons. Out of which, the Company has got the clearance for Pachhtardi mine. The value of the same mine has been moved to Intangible assets under Mining right (land). However, the Company is yet to obtain environment clearance on remaining mines from Ministry of Environment & Forest, Climate Change. These mines are outside the Eco-Sensitive Zone but Debarh-Bhavneswar and Mokhana mines major portion fall within 1km restrictions of Barda Wildlife Sanctuary. The Company has made various representation to Ministry of Environment and Forest and State Government. Management is confident of getting positive response from the respective authorities and will be able to get the requisite clearance. Value of such assets is Rs. 351.24 lakhs (as on March 31, 2022 - Rs. 351.24 lakhs).

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

The estimates of future salary increases, considered in actuarial valuation, takes into account, inflation, seniority, promotions and other relevant factors, such as demand and supply in the employment market.

Mortality:

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates.

Sensitivity Analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions by 50 basis Point is:

Particulars	Impact on defined benefit obligation			
	Increase in assumptions by 0.5%		Decrease in assumptions by 0.5%	
	March 31, 2023	March 31, 2022	March 31, 2023	March 31, 2022
Discount rate (%)	-1.95%	-2.30%	2.03%	2.41%
Change due to Discount rate (Rs. In lakhs)	(21.04)	(27.04)	21.90	28.34
Salary growth rate (%)	2.00%	2.36%	-1.94%	-2.27%
Change due to Salary growth rate (Rs. In lakhs)	21.57	27.75	(20.93)	(26.69)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied which has been used for calculating the defined benefit liability recognised in the Balance Sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Expected Contribution to the Fund in the next year:

(Rs. in lakhs)

Particulars	Amount
Gratuity	150.00

iii) Risk Exposure

The Gratuity scheme is Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The risks commonly affecting the defined benefit plan are expected to be:

Demographic Risk : This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

Salary Inflation Risk : Higher than expected increases in salary will increase the defined benefit obligation.

Interest-Rate Risk : The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

iv) Defined Benefit Liability and Employer Contributions

The Company considers that the contribution rates set at the last valuation date are sufficient to eliminate the deficit over the agreed period and that regular contributions, which are based on service costs, will not increase significantly.

**NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023**

The weighted average duration of the defined benefit obligation is 3.98 years (March 31, 2022 - 4.70 years). The expected maturity analysis of undiscounted gratuity is as follows:

36 FAIR VALUE MEASUREMENTS

(i) Financial instruments by category

There are no financial assets/liabilities that are measured at fair value through statement of profit and loss or other comprehensive income. The following financial assets/liabilities are measured at amortised cost:

Particulars	(Rs. in lakhs)	
	As at March 31, 2023	As at March 31, 2022
Financial Assets		
Other non-current financial assets	546.32	1,025.10

Note : Investments in subsidiary have been accounted at historical cost. Since these are scoped out of Ind AS 109 for the purposes of measurement, the same have not been disclosed in the tables above.

(ii) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level is as follows:-

NOTES TO THE STANDALONE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

iii) Fair value of financial assets and liabilities measured at amortised cost

The carrying amounts of term deposits and interest there on, trade receivables, cash and cash equivalents, other financial assets, borrowings, trade payables and other current financial liabilities are considered to be the same as their fair values due to their short-term nature.

37 FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The market risk to the Company is foreign exchange risk and interest rate. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer.

37A CREDIT RISK

Credit risk comprises of direct risk of default, the risk of deterioration of creditworthiness as well as concentration risks. It mainly arises from trade receivables, cash and cash equivalents (excluding cash on hand) and bank deposits.

(i) Credit risk management

a) Trade receivables

The carrying amount of trade receivables represent the maximum credit exposure net of provision for impairment. The maximum exposure to credit risk was Rs. 2,165.98 lakhs as of March 31, 2023 (March 31, 2022 - Rs. 1336.02 lakhs).

Trade receivables are derived from revenue earned from customers. Credit risk for trade receivable is managed by the Company through credit approvals, establishing credit limits and periodic monitoring of the creditworthiness of its customers to which the Company grants credit terms in the normal course of business. Further, there are customers covered either by security deposits or bank guarantee. The Company's credit period generally ranges from 0-30 days.

As per simplified approach, the Company uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix takes into account a continuing credit evaluation of Company's customers' financial condition; aging of trade accounts receivable, the extent of credit insurance coverage; the value and adequacy of collateral received from the customers in certain circumstances; the Company's historical loss experience; and changes in credit risk and capital availability of the Company's customers resulting from economic conditions. The Company defines default as an event when there is no reasonable expectation of recovery.

Expected credit loss for trade receivables as at March 31, 2023

(Rs. in lakhs)

Expected credit losses (Loss allowance provision)	-	3.86	3.86
Carrying amount of trade receivables (net of impairment)	1,333.59	2.43	1,336.02

b) Cash and cash equivalent and bank deposits

Credit risk on cash and cash equivalents and bank deposits is generally low as the said deposits have been made with banks having good reputation, good past track record and high quality credit rating and the Company also reviews their credit-worthiness on an on-going basis.

37B LIQUIDITY RISK

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities (comprising the undrawn borrowing facilities below), by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The liquidity risk is managed by Company's Liquidity and Financial Indebtedness Management Policy, which aims to ensure the availability of sufficient net funds to meet the Company's financial commitments with minimal additional cost. One of the main liquidity monitoring measurement instruments is the cash flow projection, using a minimum projection period of 12 months from the benchmark date.

(i) Financing arrangements

The Company has undrawn borrowing facilities of Rs. 8,800.23 lakhs as at March 31, 2023 (Rs. 9,180.58 lakhs as at March 31, 2022). Undrawn credit facilities comprises of fund based and non-fund based.

(ii) Maturities of financial liabilities

INDEPENDENT AUDITOR'S REPORT

To the Members of Shree Digvijay Cement Company Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Shree Digvijay Cement Company Limited (hereinafter referred to as the "Holding Company") and its subsidiary (Holding Company and its subsidiary together referred to as "the Group"), which comprise the consolidated balance sheet as at 31 March 2023, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2023, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Revenue recognition

See Note 25 to consolidated financial statements

The key audit matter

- Revenue is recognised when the control over the underlying products has been transferred to the customer.
- We consider a risk of misstatement of the Financial Statements related to revenue recognised during the year and as at year end which may include:
 - i. inconsistencies with customer agreements; or
 - ii. overstatement of revenues by recording revenues in the current reporting period which should be recognised in a subsequent year; or
 - iii. risk of recording fictitious revenue to achieve the targets
- Accordingly, revenue recognition during the year and as at year end is considered as a key audit matter.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matter(s)

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

How the matter was addressed in our audit

Our audit procedures include:

- Assessing and testing the adequacy of presentation and disclosures
- Assessing the Holding Company's revenue recognition policy for compliance with Ind AS
- Testing the design, implementation and operating effectiveness of the Holding Company's manual and automated controls around recording of revenue
- Verifying the appropriateness of revenue recognition which included evaluating the Company's transit time assessment and quantification of any sales reversals based on the terms in sales contracts
- Performing testing on selected statistical samples of revenue transactions recorded throughout the year and at the year end and checking delivery documents
- Assessing and testing the adequacy of presentation and disclosures

Information Other than the Financial Statements and Auditor's Report Thereon

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's annual report, but does not include the financial statements and auditor's report(s) thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the Companies

included in the Group are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis

of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Holding Company and such other entity included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2 A. As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
- c. Annexure B to the Independent Auditor's Report on the consolidated financial statements of Shree Digvijay Cement Company Limited for the year ended 31 March 2023

Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

In conjunction with our audit of the consolidated financial statements of Shree Digvijay Cement Company Limited (hereinafter referred to as "the Holding Company") as of and for the year ended 31 March 2023, we have audited the internal financial controls with reference to financial statements of the Holding Company and such company incorporated in India under the Act which is its subsidiary company, as of that date.

In our opinion, the Holding Company and such company incorporated in India which is its subsidiary company, has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The respective Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the respective company's considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance

with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

1 Company Overview

Shree Digvijay Cement Company Ltd (the 'Company') is a public limited Company domiciled in India with its registered office address being Digvijaygram, Dist: Jamnagar, Gujarat - 361140. The Company is listed on the Bombay Stock Exchange (BSE) & National stock exchange (NSE). The Company's principal business is manufacturing and selling of cement. The Company has one manufacturing facility at Sikka (via Jamnagar). The Company caters mainly to the domestic market. Shree Digvijay Cement Company Limited (the "Company") and its subsidiary collectively referred to as the "Group"

2(A) Summary of significant accounting policies

2.01 Basis of preparation

a) Compliance with Indian Accounting Standards (Ind AS)

The consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

b) Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis, except for following items:

- i) Employee's Defined Benefit Plan as per actuarial valuation.
- ii) Employee share based payments measured at fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using another valuation technique. In determining the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

c) Current versus non-current classification

All the assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of the products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

2.02 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). Chief executive officer (CEO) and Managing director (MD) of the Group has been identified as CODM who assesses the financial performance and position of the Group, and makes strategic decisions.

2.03 Foreign Currency Transactions

a) Functional and presentation currency

The consolidated financial statements are presented in Indian Rupees (INR), which is the Group's functional and presentation currency.

b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of profit and loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Non-monetary items that are measured at historical cost in foreign currency are translated using the exchange rate at the date of the transaction.

2.04 Revenue Recognition

Revenue from sale of goods is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods. The Group assesses promises in the contract that are separate performance obligations to which a portion of transaction price is allocated.

Revenue is measured based on the transaction price as specified in the contract with the customer. It excludes discounts, incentives, volume rebates, goods & services tax and amounts collected on behalf of third parties. In determining the transaction price, the Group considers below, if any:

Variable consideration:

This includes discounts, incentives, volume rebates, etc. It is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. It is reassessed at end of each reporting period.

Consideration payable to a customer :

Such amounts are accounted as reduction of transaction price and therefore, of revenue unless the payment to the customer is in exchange for a distinct good that the customer transfers to the Group.

Further, in accordance with Ind AS 37, the Group recognises a provision for onerous contract when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contract balances:

Trade receivables : All financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTP L), transaction costs that are attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Contract liabilities : A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. Contract liabilities are recognised as revenue when the Group performs under the contract.

Significant payment terms:

Generally, the Group provides 21 days credit period for trade type customers and 30 days for non-trade type customers. Further, trade customers are eligible for certain discounts as per basis quantity upliftment by the customer on monthly, quarterly and annual.

Interest income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the amortised cost and at the effective interest rate applicable.

2.05 Borrowing costs

General and specific borrowing costs that are attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of such asset till such time the asset is ready for its intended use or sale and borrowing costs are being incurred. Qualifying assets are assets that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are recognised as an expense in the period in which they are incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

2.06 Leases - As a lessee

Ind AS 116 – Leases:

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A Contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the site on which it is located, less any lease incentives received. Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using incremental borrowing rate. For leases with reasonably similar characteristics, the Group, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole.

Lease payments included in the measurement of the lease liability comprises of fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option.

The lease liability is subsequently remeasured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Lease liability and the right of use asset have been separately presented in the balance sheet and lease payments have been classified as financing activities.

The Group has elected not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Group recognises the lease payments associated with these leases as an expense in statement of profit and loss over the lease term. The related cash flows are classified as operating activities.

2.07 Employee benefits

a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

b) Other long-term employee benefit obligations

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the period are treated as other long term employee benefits for measurement purpose. The Group's liability is actuarially determined by an independent actuary using the Projected Unit Credit method at the end of each period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in consolidated statement of profit and loss.

c) **Post employee obligations**

The Group operates the following post-employment schemes:

- defined benefit plans such as gratuity
- defined contribution plans such as provident fund and superannuation fund

i) **Gratuity obligations**

The liability recognised in the consolidated balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is determined at the year end by independent actuary using the projected unit credit method.

The present value of the defined benefit obligation denominated in Indian Rupees is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the consolidated statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the consolidated statement of changes in equity. Remeasurements are not reclassified to profit and loss in the subsequent periods.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in consolidated statement of profit and loss as past service cost.

ii) **Defined contribution plans**

Provident fund

The Group pays contributions towards provident fund to the regulatory authorities as per local regulations where the Group has no further payment obligations. The contributions are recognised as employee benefit expense when they are due.

Superannuation Fund

Contribution towards superannuation fund for qualifying employees as per the Group's policy is made to Life Insurance Corporation of India where the Group has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Group does not carry any further obligations, apart from contribution made on monthly basis.

2.08 **Current and deferred tax**

Income tax expense or credit represents the sum of the current tax and deferred tax.

Current and deferred tax is recognised in the Consolidated Statement of Profit and Loss except to the extent it relates to items recognised in 'Other comprehensive income' or directly in equity, in which case it is recognised in 'Other comprehensive income' or directly in equity, respectively.

Current tax

Current tax payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the Consolidated Statement of profit and loss because some items of income or expense are taxable or deductible in different years or

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

may never be taxable or deductible. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority. The Group periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable in the future arising from temporary differences between the carrying amounts of assets and liabilities in the consolidated balance sheet and the corresponding tax bases used in the computation of taxable profit. It is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised, based on tax rates that have been enacted or substantively enacted by the reporting date.

A deferred tax asset shall be recognised for the carry-forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

Deferred income tax assets and liabilities are off-set against each other and the resultant net amount is presented in the Consolidated Balance sheet, if and only when, (a) the Group currently has a legally enforceable right to set-off the current income tax assets and liabilities, and (b) when the Deferred income tax assets and liabilities relate to income tax levied by the same taxation authority.

Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

2.09 Property, plant and equipment

All items of property, plant and equipment ("PPE") are stated at historical cost less accumulated depreciation less accumulated impairment losses. The cost of property, plant and equipment includes purchase price including import duties, non-refundable taxes and expenditure that is directly attributable to acquisition and installation, cost of dismantling and removing the item and restoring the site on which it is located.

Capital work in progress is carried at cost, less any recognised impairment loss. Depreciation of these assets commences when the assets are substantially ready for their intended use. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other non-current Assets".

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the consolidated statement of profit and loss during the reporting period in which they are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in consolidated statement of profit and loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on a pro-rata basis on the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives as per technical evaluation. Estimated useful lives of the assets thereof are as under:

Assets class	Life of Assets in Years
Buildings	30 - 60
Railway Sidings	21
Plant and Equipment	5 - 21
Electric Installations	5 - 20
Rolling Stocks and Locomotives	18
Furniture and Fixtures	5 - 20
Office Equipments & Computers	3 - 6
Vehicles	5 - 10
Jetty and Wharf	20 - 21

Estimated useful lives, residual values and depreciation methods are reviewed annually, taking into account commercial and technological obsolescence as well as normal wear and tear and adjusted prospectively, if appropriate.

2.10 Intangible Assets and Amortisation

Intangible assets with finite useful life are recognised when the Group controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Group and the cost of the asset can be reliably measured. Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any.

Amortisation methods and periods

The Group amortises intangible assets with finite useful life using straight line method over the following periods:

Asset class	Life of Assets in Years
Computer Software and Licenses	3 to 6
Asset Retirement Obligation	10 to 16
Mining rights (Land)	Based on extractions of reserve

The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Consolidated Statement of Profit and Loss.

Intangible assets under development is carried at cost, less any recognised impairment loss. Amortisation of these assets commences when the assets are substantially ready for their intended use.

Mines Reclamation provision and related asset

An obligation for restoration, rehabilitation and environmental costs arises when environmental disturbance is caused by the development or ongoing extraction from mines. The Group recognizes unavoidable obligations, legal or assumed, to restore the mines upon exhaustion of reserves/end of lease period whichever is earlier. These obligations represent the net present value of cash flows expected to be incurred for the restoration process and initially recognized as assets under mining rights (land) which are amortised over its remaining useful life. The obligation is estimated on the basis of cash flows expected to be incurred as per applicable mining regulations, which mainly includes cost of plantation, fencing, biodiversity management, sustainable development, rainwater harvesting etc. The increase in liability due to unwinding of discount is recognised in the Consolidated Statement of Profit and Loss under finance cost. Subsequent adjustments to the obligation for changes in the estimated cash flows/disbursement period/discount rate are made against fixed assets and depreciation/amortisation is modified prospectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

2.11 Impairment of non-financial assets

Non-financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.12 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost of raw materials, packing materials and fuels comprises cost of purchases. Cost of work-in progress and finished goods comprises direct materials, direct labour, other direct costs and related production overheads. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost is determined using the weighted average method. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

2.13 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, demand deposits with banks, short-term highly liquid investments with an original maturity of three months or less that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.14 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss),
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in consolidated statement of profit or loss or other comprehensive income.

For investments in debt instruments, this will depend on the business model in which the investment is held.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

ii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through statement of profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through statement of profit or loss are expensed in consolidated statement of profit and loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost is recognised in consolidated statement of profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in consolidated profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to statement of profit or loss and recognised in other income. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through statement of profit and loss (FVTPL): Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through statement of profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through statement of profit or loss is recognised in consolidated statement of profit or loss in the period in which it arises. Interest income from these financial assets is included in other income.

iii) Impairment of financial assets

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through statement of profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognized as an impairment gain or loss in consolidated statement of profit and loss.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables. As a practical expedient, the Group uses a provision matrix to determine impairment loss of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL loss allowance (or reversal) during the year is recognized in the consolidated statement of profit and loss.

iv) De-recognition of financial assets

A financial asset is derecognised only when:

- the Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v) Trade Receivables

All financial assets are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTP L), transaction costs that are attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Financial Liabilities

i) Classification

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

ii) Measurement

Financial liabilities are initially recognised at fair value, reduced by transaction costs (in case of financial liability not at fair value through statement of profit or loss), that are directly attributable to the issue of financial liability. After initial recognition, financial liabilities are measured at amortised cost using effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash outflow (including all fees paid, transaction cost, and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through statement of profit and loss.

iii) Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit and loss.

iv) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in consolidated statement of profit and loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in consolidated statement of profit and loss.

v) Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

2.15 Provisions and contingent liabilities

Provision

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and amount of the obligation can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the management's best estimate of the expenditure required to settle the present obligation at the Balance sheet date. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as an interest expense.

Contingent liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent Assets

A contingent asset is disclosed, where an inflow of economic benefits is probable.

2.16 Earnings per share

Basic earnings per share is calculated by dividing the profit or loss attributable to owners of the Group by the weighted average number of equity shares outstanding during the financial year. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share, adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

2.17 Employee Share based payments:

Equity- settled share-based payments to employees are measured at the fair value of the employee stock options at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is amortised over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in the Consolidated Statement of Profit and Loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the Share Option Outstanding.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

The Group measures the cost of equity-settled transactions with employees using Black-Scholes model to determine the fair value of the liability incurred on the grant date. Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant.

This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 43

2.18 Recent pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 31 March 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from 1 April 2023, as below:

Ind AS 1 Presentation of Financial Statements – Disclosure of Accounting Policies

The amendments replace all instances of the term ‘significant accounting policies’ with ‘material accounting policy information’. Accounting policy information is material if, when considered together with other information included in an entity’s financial statements, it can reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements. The supporting paragraph in Ind AS 1 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors—Definition of Accounting Estimates

The amendments replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 12 Income Taxes—Deferred Tax related to Assets and Liabilities arising from a Single Transaction

Under the amendments, an entity does not apply the initial recognition exemption for transactions that give rise to equal taxable and deductible temporary differences. Equal taxable and deductible temporary differences may arise on initial recognition of an asset and liability in a transaction that is not a business combination and affects neither accounting nor taxable profit. For example, this may arise upon recognition of a lease liability and the corresponding right-of-use asset applying Ind AS 116 Leases at the commencement date of a lease. The amendments should be applied to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period presented, a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability should also be recognized for all deductible and taxable temporary differences associated with leases and decommissioning obligations. The Company does not expect the amendment to have any significant impact in its financial statements.

2.19 Rounding of amounts

All amounts disclosed in the consolidated financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2(B) Critical estimates and judgements

The preparation of consolidated financial statements requires the use of accounting estimates. Management also needs to exercise judgement in applying the Group’s accounting policies. This note provides an overview of the areas that involved a

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. The areas involving critical estimates or judgements are:

a) Mines Reclamation Provisions and related asset

In determining the fair value of the Mines Restoration Obligation, assumptions and estimates are made in relation to discount rates, the expected cost of mines restoration and the expected timing of those costs. (Refer note 2(A) 2.10 and 17).

b) Provisions & Contingent Liabilities

The Group exercises judgement in measuring and recognising provisions and the exposures to contingent liabilities which is related to pending litigation or other outstanding claims. If a loss arising from these litigations and/or claims is probable and can be reasonably estimated, the management record the amount of the estimated loss. If a loss is reasonably possible, but not probable, the management discloses the nature of the significant contingency and, if quantifiable, the possible loss that could result from the resolution of the matter. As additional information becomes available, the management reassess any potential liability related to these litigations and claims and may need to revise the estimates. Such revisions or ultimate resolution of these matters could materially impact the results of operations, consolidated cash flows or consolidated financial statements of the Group. (Refer Note 22 and 24)

c) Current tax expense and deferred tax

The calculation of the Group's tax charge necessarily involves a degree of estimation and judgement in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process. The final resolution of some of these items may give rise to material adjustment to taxable profits/losses (Refer note 6 and 23).

Recognition of deferred tax assets

The recognition of deferred tax assets is based upon whether it is probable that sufficient taxable profits will be available in the future against which the reversal of temporary differences will be offset. To determine the future taxable profits, the management considers the nature of the deferred tax assets, recent operating results, future market growth, forecasted earnings and future taxable income in the jurisdictions in which the Group operate. (Refer Note 18).

d) Useful lives of property, plant and equipment and intangibles

The Group reviews the estimated useful lives of property, plant and equipment at the end of each reporting period or even earlier in case, circumstances change such that the recorded value of an asset may not be recoverable. The estimate of useful life requires significant management judgement and requires assumptions that can include: planned use of equipments, future volume trends, revenue and expense growth rates and annual operating plans, and in addition, external factors such as changes in macroeconomic trends which are considered in connection with the Group's long-term strategic planning. (Refer note 2(A) 2.09 and 2(A) 2.10).

e) Employee benefit plans

The Group's obligation on account of gratuity and compensated absences is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates. Further details about gratuity obligations are given in note 29A(ii).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Correct wording is Major Category of Plan Assets as a % of total Plan Assets : (Rs. in lakhs)

Particulars	As at March 31, 2023	As at March 31, 2022
Government of India securities	23%	25%
Corporate bonds	6%	6%
Insurance managed fund	69%	68%
Others	2%	1%
	100%	100%

Actuarial Assumptions: (Rs. in lakhs)

Particulars	As at March 31, 2023	As at March 31, 2022
Discount rate	7.40%	6.80%
Salary growth rate	8.50%	8.50%

The discount rates reflects the prevailing market yields of Indian Government securities as at the Balance Sheet date for the estimated term of the obligations.

The estimates of future salary increases, considered in actuarial valuation, takes into account, inflation, seniority, promotions and other relevant factors, such as demand and supply in the employment market.

Mortality:

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates.

Sensitivity Analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions by 50 basis Point is:

Particulars	Impact on defined benefit obligation			
	Increase in assumptions by 0.5%		Decrease in assumptions by 0.5%	
	March 31, 2023	March 31, 2022	March 31, 2023	March 31, 2022
Discount rate (%)	-1.95%	-2.30%	2.03%	2.41%
Change due to Discount rate (Rs. In lakhs)	(21.04)	(27.04)	21.90	28.34
Salary growth rate (%)	2.00%	2.36%	-1.94%	-2.27%
Change due to Salary growth rate (Rs. In lakhs)	21.57	27.75	(20.93)	(26.69)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied which has been used for calculating the defined benefit liability recognised in the Balance Sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Expected Contribution to the Fund in the next year: (Rs. in lakhs)

Particulars	Amount
Gratuity	150.00

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023****iii) Risk Exposure**

The Gratuity scheme is Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The risks commonly affecting the defined benefit plan are expected to be:

Demographic Risk: This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

Salary Inflation Risk : Higher than expected increases in salary will increase the defined benefit obligation.

Interest-Rate Risk: The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

iv) Defined Benefit Liability and Employer Contributions

The Group considers that the contribution rates set at the last valuation date are sufficient to eliminate the deficit over the agreed period and that regular contributions, which are based on service costs, will not increase significantly.

The weighted average duration of the defined benefit obligation is 3.98 years (March 31, 2022 - 4.70 years). The expected maturity analysis of undiscounted gratuity is as follows:

Particulars	(Rs. in lakhs)	
	As at March 31, 2023	As at March 31, 2022

Other financial liabilities	3,562.58	3,532.00
Total Financial Liabilities	9,838.70	9,789.36

(ii) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level is as follows:-

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

iii) Fair value of financial assets and liabilities measured at amortised cost

The carrying amounts of term deposits and interest there on, trade receivables, cash and cash equivalents, other financial assets, borrowings, trade payables and other current financial liabilities are considered to be the same as their fair values due to their short-term nature.

36 FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. The Group's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The market risk to the Group is foreign exchange risk and interest rate. The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer.

36A CREDIT RISK

Credit risk comprises of direct risk of default, the risk of deterioration of creditworthiness as well as concentration risks. It mainly arises from trade receivables, cash and cash equivalents (excluding cash on hand) and bank deposits.

(i) Credit risk management

a) Trade receivables

The carrying amount of trade receivables represent the maximum credit exposure net of provision for impairment. The maximum exposure to credit risk was Rs. 2,165.98 lakhs as of March 31, 2023 (March 31, 2022 - Rs. 1336.02 lakhs).

Trade receivables are derived from revenue earned from customers. Credit risk for trade receivable is managed by the Company through credit approvals, establishing credit limits and periodic monitoring of the creditworthiness of its customers to which the Company grants credit terms in the normal course of business. Further, there are customers covered either by security deposits or bank guarantee. The Company's credit period generally ranges from 0-30 days.

As per simplified approach, the Group uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix takes into account a continuing credit evaluation of Group's customers' financial condition; aging of trade accounts receivable, the extent of credit insurance coverage; the value and adequacy of collateral received from the customers in certain circumstances; the Group's historical loss experience; and changes in credit risk and capital availability of the Group's customers resulting from economic conditions. The Group defines default as an event when there is no reasonable expectation of recovery.

Expected credit loss for trade receivables as at March 31, 2023			(Rs. in lakhs)
Ageing	0-120 days	> 120 days	Total
Gross carrying amount	2,161.21	9.26	2,170.47
Expected loss rate	0%	48%	0.21%
Expected credit losses (Loss allowance provision)	-	4.49	4.49
Carrying amount of trade receivables (net of impairment)	2,161.21	4.77	2,165.98

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2023**

Expected credit loss for trade receivables as at March 31, 2022			(Rs. in lakhs)
Ageing	0-120 days	> 120 days	Total
Gross carrying amount	1,333.59	6.29	1,339.88
Expected loss rate	0%	61%	0.29%
Expected credit losses (Loss allowance provision)	-	3.86	3.86
Carrying amount of trade receivables (net of impairment)	1,333.59	2.43	1,336.02

b) Cash and cash equivalent and bank deposits

Credit risk on cash and cash equivalents and bank deposits is generally low as the said deposits have been made with banks having good reputation, good past track record and high quality credit rating and Group also reviews their credit-worthiness on an on-going basis.

36B LIQUIDITY RISK

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities (comprising the undrawn borrowing facilities below), by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The liquidity risk is managed by Group's Liquidity and Financial Indebtedness Management Policy, which aims to ensure the availability of sufficient net funds to meet the Group's financial commitments with minimal additional cost. One of the main liquidity monitoring measurement instruments is the cash flow projection, using a minimum projection period of 12 months from the benchmark date.

(i) Financing arrangements

The Company has undrawn borrowing facilities of Rs. 8,800.23 lakhs as at March 31, 2023 (Rs. 9,180.58 lakhs as at March 31, 2022). Undrawn credit facilities comprises of fund based and non-fund based.
