Profit before tax	4,199	783	7,526	3,891
Profit after tax	3,140	1,019	5,603	3,330

**Anil Singhvi, Executive Chairman of the Company** said "I am very glad at the stupendous performance of SDCC during the quarter. It was led by very high productivity of clinker & cement coupled with all round cost savings. Despite a very lackluster sales in November'23 resulting in lower sales for the quarter, the company posted the Highest ever EBITDA of Rs. 51.10 Crores, over 3 times on Q3 of 22-23. EBITDA per ton of over Rs. 1550 is perhaps the industry leading and highest ever for SDCC."

Demand of Cement has picked up well after a slow start post festival season. It is expected to further improve in the coming months.
