Anil Singhvi, Executive Chairman of the Company said “The performance during the quarter was impacted due to the lower than expected cement prices in Gujarat and subdued demand. Cement demand is showing some improvement now and we anticipate that prices will also move in tandem. This positive trend should lead to better realization and profitability in the coming months”.

The company's expansion plan to increase its capacity from 1.5 million tons to 3.0 million tons by setting up a new cement grinding plant is now ready and currently undergoing trial runs. We expect to launch the cement from this plant very soon.
