CMD's Message

Mr. Satish Kumar Agarwal
Chairman & Managing Director

On this very great moment, by presenting annual report of Kamdhenu Limited, I am overwhelmed to proclaim that for the financial year 2015-16, our company has shown unswerving performance. Despite the market slump in construction sector, last year was a good year for Kamdhenu Limited in many ways. Profit Margin shows that how all available resources are being used in best manner.

Last financial year has seen a downturn in India's construction sector. Market slump was primarily due to distressed demand from the infrastructure sector. The three major sectors that drive the demand for construction are steel, cement and electricity. These sectors have witnessed a sharp fall in production growth. India's construction sector fell in the second quarter of fiscal 2016, in spite of the government's attempt to boost growth through several measures. In its approach to elevate the growth of construction sector, government started a project to develop 100 smart cities. In its most recent set of reforms, the government of India announced major FDI (foreign direct investment) reforms in various sectors in November 2015. These included reforms in the construction and manufacturing sectors. In the construction sector, the requirements of minimum area and capitalization have been waived. This means foreign investors can now invest in very small projects through the FDI route. These efforts of the government are observed by the entrepreneurs as a significant step in the upliftment of construction sector in near future.

Amid all the doom and gloom stories of the market, Kamdhenu Limited has been able to write a success story for last fiscal 2016. At a time when most manufacturers have struggled to create demand for their products, Company has gained a profit of Rs. 815 lakhs in compare to their last year's profit which was Rs. 803 lakhs. Diminishing sale prices of the steel products brought down the sales from 1011 cr. to 885 cr. however, the sales of the product in terms of quantity are almost same. Further, the board of directors has recommended dividend @ 7% on the paid up capital, for the financial year 2015-16 subject to approval of the shareholders.

In addition to this, company has achieved a remarkable growth in its paint segment in the financial year 2015-16. Kamdhenu Paints' annual gross sales have also increased by 22 % to Rs. 200 Cr in the financial year 2015-16 as compared to Rs. 164 cr for fiscal 2014-15.

Kamdhenu TMT is the largest TMT selling brand in India. Kamdhenu SS10000 TMT is a unique double rib pattern design of steel rebar with the chemical composition and physical properties equivalent to British Standard B500C which would give the steel rebar/TMT Bars more strength.

Cementing its position as a remarkable brand, we are leading by providing a broad range of the best quality color coated GI/Galvanized sheet products. Minimal maintenance cost, high durability, corrosion resistant, leak proof, thermally efficient are the key attributes of our Galvanized sheets.

Kamdhenu Paints - Colour Dreamz, i.e. our paint section, which offers a wide range of sustainable products and solutions that include Exterior & Interior Emulsions, Water based primers, Wood Finishes, Aluminum Paints and Textured & Designer Paints.

Being an employee friendly company, we recognize that fostering a healthy sense of work-life balance among employees can have both short and long-term benefits.

Brands can be promoted through Ads, but can lead through supreme quality. Quality vetting measures are important part of our manufacturing process. Since inception, company strived towards building a trustful brand image among its customers with outstanding service.

Aiming to obtain dynamic expansion across the nation, Kamdhenu Limited ventured into "Franchisee Business Model". On one side this model helps Kamdhenu to generate high financial returns with lesser risk and on the flip side, it has brought a significant change in the way its partners operate their business. A web of 8500 dealers and distributors supplying products to the customers and making our PAN- India operations a great success.

Eternal brand building and brand association activities are the key factors of our brand promotion policy. Strategically using conventional and unconventional media, Kamdhenu Limited has been able to establish a positive image in the industry and among its target group. We at Kamdhenu believe that along with customer satisfaction, dealers' satisfaction is equally important. Company organises overseas trips and

bollywood events for dealers as a part of its brand building activity.

Being a responsible corporate group, we are committed to serve the society at large. CSR approach of Kamdhenu Group is in line with our attitudes towards mainstream business, thus we have a dedicated social wing, Kamdhenu Jeevandhara.

Working on the mantra of "winning trust with best quality", Kamdhenu Limited has bagged two global awards in a single year. We are awarded as World's Greatest Brands 2015 Asia & GCC chosen by consumers and industry. Adding another feather in our cap, we achieved the award of ASIA's MOST PROMISING BRAND 2015-16, by World Consulting and Research Organization in the category of Manufacturing-Steel-Promising.

Concluding my words, I would like to express my gratitude to all those who have played a pivotal role in the successful voyage of the company so far. Our dealers and distributors along with our employees showed their mettle to bring fruitful results for the company. I take this opportunity to thank our customers, as their trust is a valuable asset for the company. With a clear vision into the future, we are committed to deliver greater value to our customers, shareholders and other stakeholders.

With warm regards,
Yours sincerely

Satish Kumar Agarwal
Chairman & Managing Director
Kamdhenu Limited

PROMISING QUALITY ASSURANCE

Optimum strength, ductility and toughness are the key features of Kamdhenu TMT bars. These TMT bars are widely used in general purpose concrete reinforcement structures, bridges and flyovers, dams, thermal and hydel power plants, industrial structures, high-rise buildings, underground platforms in metro railway and rapid transport system. TMT Bars are thermo-mechanically-treated through leading world temp core based technology for high yield strength. The process involves rapid quenching of the hot bars through a series of water jets after they roll out of the last mill stand. The bars are cooled, allowing the core and surface temperatures to equalize. The bar core cools down slowly to turn into a ferrite-pearlite aggregate. Controlled chemistry, supervision by expert metallurgists and engineers, coupled with hi-tech process makes Kamdhenu TMT rebars unique from other rebars in the country.

Company manufactures bars by using CRM Belgium technology. The manufacturing plants are fully automated for hot rolling and fine twisting techniques and use proper quenching processes for TMT technology.

Kamdhenu TMT rebars is a quintessence of strength and security. Our commitment is to deliver a product that gives value for money.

PROMISING SECURITY, DELIVERING A SUSTAINABLE PRODUCT

KAMDHENU SS 10000, double rib TMT rebar is a lynchpin product from our wide range of steel products. KAMDHENU SS 10000 has a unique double rib pattern for better reinforcement solution in terms of greater rib depth/height and closer rib spacing at different angles. Innovative to its core, thermo mechanical technique is used to manufacture KAMDHENU SS 10000 rebar. For making a high quality rebar a three stage process is used, i.e. quenching stage, tempering stage, cooling stage. Cementing a strong bond with the people, KAMDHENU SS 10000 has attained a remarkable market place specifically in the north India.

Due to uniformity & critically designed ribs, fatigue strength & ductility of Kamdhenu SS 10000 is much superior to ordinary rebars. Moreover, meticulous testing throughout the steel making & rolling process is there to ensure the quality standards are maintained.

High tensile strength and flexible structure makes Kamdhenu TMT bar earthquake resistant. Moreover, these TMT bars are lighter in weight compared to normal bars.

Kamdhenu Limited aims to make a solid mark and firm its leadership position in the market by providing most contemporary, superior quality products at reasonable cost.

PROMISING STRENGTH, BUILDING A STRONG NATION

Structural steel industry continues to pioneer new innovations for both the material and the use of structural steel. Structural steel is the most recycled material on our planet – today's structural steel is made of 88% recycled product, is fully recyclable in the future. Design tools continue to mature to allow more efficient steel designs. Research activities are funded by the structural steel industry through AISC (American Institute of Steel Construction) to further the understanding of the behavior of structural steel with the goals of increasing industry productivity while bringing greater economy to projects.

In the era of emerging technology, success of a company depends on how efficiently it meets immediate demands of the market place. We at Kamdhenu, determined to fulfill the demands of fast paced construction sector by providing customized structural steel products and offering after sales service. High ductility, superior bendability, weldability and straightness for better fabrication are the key attributes of our products. A wide range of Kamdhenu Structural Steel products include Channels, Flats, Angles, Beams, Round and Squarebars.

Sustainability is Kamdhenu structural steel's middle name. Our structural steel buildings can be modified in the future for new applications, loading conditions, vertical expansions and changes in owner desires in ways that other framing systems can never accomplish.

By continually adapting our product designs and manufacturing processes, we are able to deliver best quality products. In comparison with other steel products, our product range provides superior bendability and weldability. Kamdhenu structural steel products are strengthening industrial structures, flyovers, bridges, dams, transmission line towers, underground platforms in metro railways and many other building projects across the nation.

Due to its unique method of manufacturing, Kamdhenu structural steel products guarantees strength and ductility. This combination results adding safety of structure.

PRE-ENGINEERED BUILDING

Infrastructural revolution in the country is going to create a great market demand of pre-engineered building. 'Make in India' campaign is continuously driving investments. Major Indian cities have monorail projects, as a feeder system to the metro, in different phases of planning. Developed nations like America have a huge demand of PEB. Also the demand of PEB in Indian market is enhancing like never before. To cater the demand of this sector, Kamdhenu Limited has fair plans.

These are built over a structural concept of primary members, secondary members, roof & wall sheeting connected to each other & various other building components. The building can be provided with skylight, wall lights, turbo vents, ridge ventilators, roof monitors, doors & windows trusses, mezzanine floors, fascias, canopies, crane system, insulators etc. These customized buildings are designed to be lighter in weight & high in strength. Our pre-engineered buildings are cost effective, durable, long-lasting and environment friendly. Moreover, we provide faster installation with excellence.

Company manufactures hi-rib roofing profile from pre-painted galvanized steel (PPGI)/ Al-Zn Alloy coated steel and color coated Al-Zn Alloy coated steel. Kamdhenu Hi-rib Roofing can be fixed on roof, wall cladding, any slope and height as per the designer's choice and customers' requirement.

Pre - Engineered Buildings, revolution in the construction sector, Kamdhenu Limited has the potential to write another success story in this revolution.

4. MATERIAL CHANGES AND COMMITMENTS

There is no material changes and commitments effecting the financial position of the company which have occurred during the financial year 2015-16 of the company to which the financial statement relates and the date of this report.

5. OPERATING RESULTS AND BUSINESS OPERATIONS

The Company has achieved gross Sales and Operating Revenues of Rs.88538 Lacs during the financial year 2015-16 registering a decline of 12% compared to last year. Decline in revenues is mainly on account of decrease in the selling price of steel products.

The operating profit (profit after tax) increased by 1.5% i.e. Rs.815 Lacs in financial year 2015-16 compared to Rs.803 Lacs in financial year 2014-15 inspite of adverse market conditions.

The yearly sale under steel division has been declined by 19% as compared to the previous year as the total sales have been declined to Rs.68468 Lacs from Rs. 84607 Lacs mainly due to fall in selling prices.

Despite cut throat competition from the big players in the market, the yearly turnover of paint division of the Company registered a growth of 22% as compared to the previous year and touched to Rs.20005 Lacs from Rs.16413 Lacs in previous year. The company has been constantly involved in establishing the extensive marketing network, brand promotion, lucrative discount and

rebate schemes to further enhance the performance of paints division of the company. The Paint Division is at present operating from 32 sales depots across the country.

The Power division of the Company has generated a revenue of Rs. 66 Lacs during the financial year under review as against Rs. 87 Lacs previous year resulting decline by 24%. The decline in revenue is due to continuous break down of the wind turbines and local security problems which has already been rectified by the AMC agency.

Overall Gross block as at 31st March, 2016 has increased to Rs.7817 Lacs as compared to Rs.7409 Lacs as at 31st March, 2015. Addition to gross block is mainly on account of acquisition of tinting machines in the paint division and additions in plant and machinery.

The tax expenses of the Company for current year are Rs.426 Lacs as compared to Rs.387 Lacs in the previous year which comprises current year tax, deferred tax and earlier year tax.

The earnings per share for the year is Rs.3.48 as against Rs.3.43 in the previous year.

Corporate Governance Report

1. OUR PHILOSOPHY ON CORPORATE GOVERNANCE

We are committed to defining, following and practicing the highest level of Corporate Governance across all our business functions. Our corporate governance is reflection of our value system encompassing our culture, policies and relationship with our stakeholders. Integrity and transparency are keys to our corporate governance practices and performance and ensure that we retain and gain the trust of our stakeholders at all times.

Corporate Governance is the combination of practices and compliance with laws and regulations leading to effective control and management of the Organisation. We consider stakeholders as our partners in our success and remain committed to maximizing stakeholder value. Good Corporate Governance leads to long term stakeholder value. Integrity, transparency and accountability are the major ingredients of the philosophy behind the Corporate Governance practices adopted by Kamdhenu Limited. The Company has a well established and proven system which not only ensures complete transparency and fairness but also ensures the integrity in the operations and conduct of the company. Existence of a strong mechanism to ensure the regulatory compliances is another aspect on which the company has sets a very high standard. The Company continues its endeavor to achieve corporate excellence in its functioning and conduct of business with strong accountability so as to generate sustainable economic value for all its stakeholders.

The key principles of our corporate governance are

- Satisfy both the letter of law and the spirit of law.
- Ensure high level of transparency and disclosure.
- Treating the management as trustee of shareholders' capital.
- Have a simple and transparent corporate structure driven solely by business needs.
- Prioritizing stakeholders' relationships.

1.1 Key Board activities during the year

The Board provides and critically evaluates strategic direction of the Company, management policies and their effectiveness. Their main function is to ensure that long-term interests of the stakeholders are being served. The agenda for Board is comprised of the detailed analysis and review of annual strategic / operational plans/ budgeting and capital allocation. The Board also reviews the business plans of all business segments including future business developments.

1.2 Role of the Company Secretary in Overall Governance Process

The Company Secretary plays a key role in ensuring that the Board procedures are followed and regularly reviewed. He ensures that all relevant information, details and documents are made available to the directors for effective decision making at the meetings. He is primarily responsible to ensure compliance with applicable statutory requirements and is the interface between the company and regulatory authorities.

1.3 Selection and Appointment of New Directors on the Board

Considering the requirements of the skill-sets on the Board and the broad guidelines, eminent persons having an independent standing in their respective field/profession and who can effectively contribute to the Company's business and policy decisions are considered by the Nomination and Remuneration Committee for appointment of new Directors on the Board. The number of directorships and memberships in various committees of other companies by such persons is also considered.

The Nomination and Remuneration Committee works with the Board to determine the appropriate characteristics, skills and experience required for the Board as a whole and for individual member. Board members are expected to possess expertise, leadership skills required to manage and guide a high growth.

Management Discussion & Analysis

COMPANY IN BRIEF

Kamdhenu Limited (Formerly known as Kamdhenu Ispat Limited) is a well established flagship company operating in the business of steel manufacturing since 1995. In order to bring more transparency and dynamism to the operations of the company, Kamdhenu Limited ventured into Franchisee Business Model. This step has been taken to involve more and more regional steel units spread in the vast stretch of the country by encouraging their participation and support in technology transfer / upgradation of their facilities for better productivity levels. Interested parties will find all the important information here to tie-up with us in our innovative Franchisee Business Model. The Stockyard Model is also a refined form of the same concept, which is another step forward for enabling de-centralization of company's operations towards movement of stocks. Kamdhenu also forayed into decorative paints business in 2008. The complete information about Kamdhenu Paints is available on separate website www.kamdhenupaints.com. Kamdhenu being TMT expert, in 2013, launched KAMDHENU SS 10000 TMT Bar which is a premium product with double rib, double strength and double safety suitable for highly seismic zone. The product profiles are also elaborated at length for better insight on the technical details and highlight the Quality benchmarking process undertaken by Kamdhenu Group to meet the International Standards.

Kamdhenu's market strategy is to provide one stop construction solution by offering diverse range of products and service offerings, and continue expanding geographic presence throughout India. Company is commanding a superior brand value having steel and paints products of international quality at competitive prices. Kamdhenu TMT Bar is largest TMT selling brand in India. Company is also rapidly growing in decorative paints sector and competing with established players in the market.

ECONOMIC SCENARIO

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organisation (CSO) and International Monetary Fund (IMF). According to the Economic Survey 2015-16, the Indian economy will continue to grow more than 7 per cent in 2016-17. The improvement in India's economic fundamentals has accelerated in the year 2015 with the combined impact of strong government reforms, RBI's inflation focus supported by benign global commodity prices.

India was ranked the highest globally in terms of consumer confidence during October-December quarter of 2015, continuing its earlier trend of being ranked the highest during first three quarters of 2015, as per the global consumer confidence index created by Nielsen.

MARKET SIZE

According to IMF World Economic Outlook Update (January 2016), Indian economy is expected to grow at 7.00-7.75 per cent during FY 2016-17, despite the uncertainties in the global market. The Economic Survey 2015-16 had forecasted that the Indian economy will growing by more than seven per cent for the third successive year 2016-17 and can start growing at eight per cent or more in next two years. Foreign direct investment (FDI) in India have increased by 29 per cent during October 2014-December 2015 period post the launch of Make in India campaign, compared to the 15-month period before the launch.

The steps taken by the government in recent times have shown positive results as India's gross domestic product (GDP) at factor cost at constant (2011-12) prices 2015-16 is Rs 113.5 trillion (US\$ 1.668 trillion), as against Rs 105.5 trillion (US\$ 1.55 trillion) in 2014-15, registering a growth rate of 7.6 per cent. The economic activities which witnessed significant growth were 'financing, insurance, real estate and business services' at 11.5 per cent and 'trade, hotels, transport, communication services' at 10.7 per cent.

With the improvement in the economic scenario, there have been various investments leading to increased M&A activity. India has emerged as one of the strongest performers with respect to deals across the world in terms of Mergers and Acquisitions (M&A). The total transaction value of M&A involving Indian companies stood at US\$ 26.3 billion with 930 deals in 2015 as against US\$ 29.4 billion involving 870 deals in 2014. Total private equity (PE) investments in India for 2015 reached a record high of US\$ 19.5 billion through 159 deals, according to the PwC MoneyTree India report.

GOVERNMENT INITIATIVES

Numerous foreign companies are setting up their facilities in India on account of various government initiatives like Make in India and Digital India. Government of India has launched the Make in India initiative with an aim to boost the manufacturing sector of Indian economy. This initiative is expected to increase the purchasing power of an average Indian consumer, which would further boost demand, and hence spur development, in addition to benefiting investors. Besides, the Government has also come up with Digital India initiative, which focuses on three core components: creation of digital infrastructure, delivering services digitally and to increase the digital literacy. Currently, the manufacturing sector in India contributes over 15 per cent of the GDP. The Government of India, under the Make in India initiative, is trying to give boost to the contribution made by the manufacturing sector and aims to take it up to 25 per cent of the GDP.

A. INDUSTRY STRUCTURE, DEVELOPMENTS AND OUTLOOK

Business Segments of the Company: The Company generates its revenue from three segments, namely Steel, Paints and Power (wind mills).

STEEL SEGMENT

INDUSTRY STRUCTURE AND OUTLOOK

India is the world's third-largest producer of crude steel (up from eighth in 2003) and is expected to become the second-largest producer by 2016. The growth in the Indian steel sector has been driven by domestic availability of raw materials such as iron ore and cost-effective labour. Consequently, the steel sector has been a major contributor to India's manufacturing output. The Indian steel industry is very modern with state-of-the-art steel mills. It has always strived for continuous modernization and up-gradation of older plants and higher energy efficiency levels.

India's crude steel capacity reached 109.85 Million Tonnes (MT) in 2014-15, a growth of 7.4 per cent. Production of crude steel grew by 8.9 per cent to 88.98 MT. Total finished steel production for sale increased by 5.1 per cent to 92.16 MT. Consumption of total finished steel increased 3.9 per cent to 76.99 MT. India produced 7.34 MT of steel in the month of September 2015, which was nearly equal to the country's steel production in September 2014.

The steel sector in India contributes nearly two per cent of the country's gross domestic product (GDP) and employs over 600,000 people. The per capita consumption of total finished steel in the country has risen from 51 Kg in 2009-10 to about 59 Kg in 2014-15. India's steel consumption for FY 2015-16 is estimated to increase by 7 per cent, higher than 2 per cent growth last year, due to improving economic activity, as per E&Y's 'Global Steel 2015-16' report.

India is expected to become the world's second largest producer of crude steel in the next 10 years, moving up from the third position, as its capacity is projected to increase to about 300 MT by 2025. Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors. PAINTS SEGMENT

INDUSTRY STRUCTURE AND OUTLOOK

The paint industry can easily grow at 12-13% annually over the next few years from its current size of Rs 350 bn. The per capita paint consumption in India which is a little over 4 kgs is still very low as compared to the developed western nations. Therefore, as the country develops and modernizes, the per capita paint consumption is bound to increase. The un-organised sector controls around 35% of the paint market, with the organised sector accounting for the balance. In the un-organised segment, there are about 2,000 units having small and medium sized paint manufacturing plants. Demand for paints comes from two broad categories.

DECORATIVES

Major segments in decorative include exterior wall paints, interior wall paints, wood finishes and enamel and ancillary products such as primers, putties etc. Decorative paints account for over 70% of the overall paint market in India. Demand for decorative paints arises from household painting, architectural and other display purposes. Demand in the festive season (September-December) is significant, as compared to other periods. This segment is price sensitive and is a higher margin business.

INDUSTRIAL

Three main segments of the industrial sector include automotive coatings, powder coatings and protective coatings. User industries for industrial paints include automobiles engineering and consumer durables. The industrial paints segment is far more technology intensive than the decorative segment.

The paints sector is raw material intensive, with over 300 raw materials (50% petro-based derivatives) involved in the manufacturing process. Since most of the raw materials are petroleum based, the industry benefits from softening crude prices. FY15-16 had its share of both excitement as well as challenges. However, it has now dawned that although many macroeconomic indicators are on the mend, it will take time for the growth potential of the economy to be fully realized. On the positive side, softening of international crude and commodity rates has eased the mounting cost pressures on the industry to some extent. And while operating margins haven't improved much, they can certainly expand in the forthcoming quarters should things continue to remain the same.

The market for paints in India is expected to grow at 1.5 times to 2 times GDP in the next five years. With GDP growth expected to be between 6-7% levels.

POWER SEGMENT

INDUSTRY STRUCTURE AND OUTLOOK

In 2015, India announced plans to increase its renewable energy output to 175 GW by the year 2022, with 60 GW coming from wind power alone. This is a "very ambitious target" set by a government eager to overcome an antiquated electricity system in dramatic need of reform, adding that its success will rely heavily on "a lot of investment in its dysfunctional market structure."

Many of the issues facing India are parallel to those facing the United States, where the federal government has some say, but actual implementation of energy policy is governed by the individual states. The total installed capacity of renewable power projects as on December, 2015 aggregates to 38,096.49 MW (excluding 41.27 GW of large hydro projects) against the total potential capacity of 249.19 GW.

India has wind potential of around 102.77 GW out of which the total installed capacity as on December, 2015 was 24,677.72 MW with an untapped potential of about 77%. India chalked up a respectable 2,623 MW. A major part of capacity addition and exploitation of wind potential in the future is expected from private sector projects. India aims to 2,400 MW additional wind power to the electricity network in the country until the end of March 2016. The country aims to increase installed renewable energy capacity to 175 GW in 2022 and to 100 GW provide from solar energy, 60 GW provide from wind energy.

B. OPPORTUNITIES AND THREATS

STEEL

The steel industry is a significant contributor to the country's Gross National Product (GNP) and total excise duty collections. Thus, the political and economic importance of the steel industry necessitates drastic changes to happen going forward. CRISIL foresees Government and financial institutions playing a leading role towards reviving the sector. The Government's role is envisaged in terms of offering special financial packages, export benefits, duty protections etc. As regards the financial institutions, debt restructuring could be one of the solutions to the industry's problems.

Further, CRISIL is of the opinion that meaningful consolidation is the long term solution to the present distress situation. Consolidation through mergers and acquisitions would improve the balance sheets and also improve operating efficiencies. The operating efficiencies would largely improve on account of economies of scale, reduction of administrative and overhead costs and labour restructuring. The poor financial health of many of the players and the large exposure of financial institutions to the sector has already initiated the process of management change.

Management changes, mergers and acquisitions, which offers good opportunities for efficient players. Under these circumstances efficient players can look out for buying good assets at very competitive prices. The process could clean up the balance sheet of the industry as a whole and the industry would be in a better position to withstand downturns. Further, in the long term the industry prospects are not that gloomy as it appears today, given the expected increase in investments in infrastructure projects in India. Moreover, the expected growth in the housing sector and the increasing urbanisation of rural India also strengthens the industry prospects.

In addition to the strategic opportunities, CRISIL also foresees the scope for improvement in operating efficiencies. The low steel prices have resulted in the lowering of equipment costs, which offers excellent opportunities for modernisation of existing facilities. In addition cost efficiencies can be improved by critically observing each component of the cost structure and identifying the inefficient areas of operations.

Overall, the ability of the Indian steel industry to restructure and strengthen itself in the coming years would critically depend on the Government initiatives and the proactive steps taken by the existing management and financial institutions in the right direction.

Global steel demand over the next decade will mainly depend on the emerging economies. However, economic conditions for the global steel industry remain uncertain and challenging.

The main factors that led to a previously significant increase in demand for steel are new infrastructure developments and the growing needs of the increasing middle class in the developing countries. The construction, automobile, and white goods industries will attract a high demand for steel over the next decade. The construction sector will be the key consumer of steel over the forecast period (2015-2025).

The Company has the opportunity to convert the demand of unbranded steel products into Kamdhenu branded products through the franchisee model of business, consequently enhance the performance of the company.

The high cost of electricity in India may hamper the steel industry's production level.

PAINTS

The Indian paint and coatings industry was riding high on the growth in the Indian automobile industry, new construction in the housing segment and improving infrastructure throughout the country. Thus, there has been a higher growth of emulsion paints for interiors vis-a-vis distempers. There is increasing use of economy emulsion in place of lower-priced distempers. Similar is the trend for exteriors where emulsion-based coatings are now preferred against conventional cement-based coatings.

In spite of economic slowdown, the Indian paint industry is growing though at a slower rate. It has tremendous potential for growth in the coming years. The decorative segment has outpaced the industrial segment in growth rate but the industrial segment has the greater potential for growth, as and when the automobile industry business improves. The players with aggressive marketing strategies and comprehensive product portfolios will grow at a faster rate. The emerging trends in technology and marketing indicate that the industry is likely to consolidate in the coming years with industry leaders improving their market share.

Consumers are looking forward to new product launches some for application in special areas. Companies are increasing the value-added services available to customers by offering a variety of finishes through specialized and trained applicators, well supported by back end support of specialized service. Moreover, consumers are continuously looking for better products, more and more consumers are switching to marginally higher-priced emulsions where they get more durable and better-looking finishes in a wider range of colours.

Disposable income plays a critical role in the decorative paint market. Thus, increase in people's income will help the industry to grow. Moreover, the rural sector has a major share of the decorative paints segment. Thus, any benefit to the rural sector for improving the disposable income is directly correlated to the growth of the paint industry. Besides, decorative paints are marketing savvy products backed by large advertisement campaigns and dealership networks. Huge investments required in setting up a vast marketing and dealership network, to advertise and develop a brand over a period of time will also help the industry to reach new heights.

The supporting speculations for infrastructure, commercial and industrial consumers are like increased repainting activity, globalisation resulting in mega projects managed by international consultants, Boom in the Indian Housing Sector, increasing urbanisation, Shift from semi-permanent to permanent housing structures.

The Company can take the advantage of Kamdhenu brand in paint business by providing quality products at reasonable price and building brand equity in paint business.

Some of the prominent challenges for Indian paint industry are:

Seasonal Demand: Paint Industry is a seasonal industry. The demand shoots up during the Diwali season or other festive seasons and it will be low in the rainy season.

Inventory Management at Dealer Level: The product differentiation is minimal in paint industry. The very close substitutes are readily available. Hence the inventory management at the dealer level is of a prime importance. It is also important for brand visibility and occupying the shelf space.

Distribution Costs: Distribution costs are important for a lower price product like Distemper. The Distemper is a stiff paint and is sold on weight basis. It is called as the “Bread and Butter” of the paint industry as the consumption is highest for this product. Hence, the cost associated with distribution of it is of prime importance.

Shade Offerings: As the shades offered by the paints companies are very high in number, the problem of distribution becomes very significant. The demand for a particular shade may peak up suddenly in a particular region. The inventory management at the distributor and dealer level is of great importance.

Low Per Capita Consumption: As mentioned earlier, the per capita paint consumption in India is in one of the lowest. This shows the lower penetration of the paint industry in the country. The paint companies have to educate the customers that they should go for the repainting of their houses frequently. This is a very unique feature of the industry that the Indian people will go for repainting either for some festival such as Diwali or occasions like Marriage or when the repainting is absolutely unavoidable.

Competition from the Unorganized Players: A critical challenge in the paints industry was the competition from the unorganized players, who were not liable for excise as well as other taxes.

POWER (WIND MILLS)

The earth's surface is made of different types of land and water. These surfaces absorb the sun's heat at different rates, giving rise to the differences in temperature and subsequently to winds. Wind turbines convert the kinetic energy of the moving wind into electricity. Hence flow of wind in the region where wind power project is located works both as opportunities and threats. Electricity production depends on- wind speed, location, season and air temperature. Hence various monitoring systems are needed and may cost expensive.

It is estimated that with the current level of technology, the 'on-shore' potential for utilization of wind energy for electricity generation is of the order of 65,000 MW. India also is blessed with 7517km of coastline and its territorial waters extend up to 12 nautical miles into the sea. The unexploited resource availability has the potential to sustain the growth of wind energy sector in India in the years to come.

Repair and maintenance cost is a very important factor in wind power mill as after installation, this is the main cost incurred in generating electricity. High repair and maintenance cost and breakdown works as threats for wind power mills, where as low cost and availability of turbines in working conditions is beneficial for generation of electricity.

Local support and security of turbine areas also works as opportunities or threats. It effects the cost involved and availability of machines for generation.

GROSS SALES AND OPERATING REVENUES

The Company has earned gross Sales and Operating Revenues of Rs.885 crores during the financial year 2015-16 registering a decline of 12% compared to last year. Decline in revenues is mainly on account of decrease in the selling price of steel products. Profit after tax increased by 1.5% to Rs.815 Lacs in the financial year 2015-16 compared to Rs.803 Lacs in the financial year 2014-15.

EARNING PER SHARE (EPS)

Earning per share (EPS) for the financial year 2015-16 stood at Rs.3.48 which was 1.46% higher than EPS of Financial year 2014-15 of Rs.3.43. This gives positive indication in the stock market and build confidence of investors.

C. SEGMENTWISE PERFORMANCE

STEEL

The present standing of Kamdhenu Limited is the result of continuous hard work and commitment spanning two decades dedicated to the achievement of its organizational objective. The upper edge of Kamdhenu products lies in the facts that we always give emphasis on quality and innovation.

The Company has established its unique Franchisee Business Model which has proven itself, over a period of time, in sustaining and performing in the market. The Franchisee Business Model has not only made possible the presence of quality products across India but also succeed in organizing the unstructured sector of the market to the satisfaction of customers and its business associates.

The yearly sale under steel division has been declined by 19% as compared to the previous year as the total sales have been declined to Rs.68468 Lacs from Rs.84607 Lacs. Decline in sales is due to fall in market price.

Segment results indicates the Profit (before interest, tax and unallocable items) from steel division increased by 15% as compared to the previous year as it reached to Rs.3286 Lacs during financial year 2015-16 from Rs.2856 Lacs in 2014-15. Increase in the profit from steel division reflects better marketing strategy, brand acceptance, pan india presence and all-round better performance.

Capital employed in steel division as at 31st March, 2016 stood at Rs.11332 Lacs as compared to Rs.11150 Lacs as at 31st March, 2015. There is an increase of 1.63% in capital employed compared to previous year.

PAINTS

Despite cut throat competition from the big players in the market, the yearly turnover of paint division of the Company registered a growth of 22% as compared to the previous year and touched to Rs.20005 Lacs from Rs.16413 Lacs in previous year. The company has been constantly involved in establishing the extensive marketing network, brand promotion, lucrative discount and rebate schemes to further enhance the performance of paints division of the company.

Segment results indicates the Profit (before interest, and unallocable items) from paint division declined by 49% as compared to the previous year reached to Rs.325 Lacs during financial year 2015-16 from Rs.635 Lacs in 2014-15. The decline in the profit from paint division is due to substantial expenditures on sale promotion and advertisement to establish the paints products in the market amid throat cut competition from big players.

Capital employed in paint division as at 31st March, 2016 stood at Rs.10442 Lacs as compared to Rs.9379 Lacs as at 31st March, 2015. There is an increase of 11.33 % in capital employed compared to previous year.

POWER

The Power division of the Company has generated a revenue of Rs.66 Lacs during the financial year under review as against Rs.87 Lacs last year resulting decline by 24%. The decline in revenue is due to continuous break down and local security problem which has now been rectified.

Segment results indicates the Profit (before interest and tax and unallocable items) from power division declined by 23% as compared to the previous year as it reached to Rs.49 Lacs during financial year 2015-16 from Rs.64 Lacs in 2014-15.

D. INTERNAL CONTROL SYSTEM

Legal Business, ethical Business has always been a core component of our principles. To ensure the adequacy and efficiency of the various operations, Kamdhenu Limited has a comprehensive internal control system equipped with qualified and experienced personnel in various departments including Finance, Accounts, Administration, Technical and Corporate affairs.

The entire mechanism is constructed and operated under the vision and guidance of Audit Committee and Board of Directors making the entire process an independent, objective and reasonable mechanism brining the adequacy and effectiveness of the organization's risk management, control and governance processes.

The Internal Control Systems ensures smooth corporate functioning and quality management within the company. Each and every transaction are duly authorized, recorded and reported. Other than that the company has also put in place well defined delegation of power with authority limits for approving revenue as well as capital expenditure. Processes for creating and reviewing the annual and long-term business plans have been laid down. The Internal audit is carried out based on internal audit plan, which is reviewed each year in consultation with the Statutory Auditors and the Audit Committee. The Internal Audit process is designed to review the internal control checks in the system and covers all significant areas of the Company's operations such as Sales, Purchases, Inventory, Debtors, Creditors, Fixed Assets and legal compliances.

There are no materially significant financial and commercial transactions with the related parties conflicting with the interest of the Company during the financial year under review.

E. RISKS AND CONCERNS

Steel industry is highly fragmented and competitive and increased competitive pressure may adversely affect the financial results. Significant increase in prices or shortage of raw material could affect the results of operations and financial conditions of the company. Any disruption in supply chain management may adversely affect the operations of the company. Any variation in the demand of derived industries may adversely affect the demand of the products.

Most of the raw materials i.e. M.S. Ingot/Billets and M.S. Scrap are being procured from local producers which involve logistic issues, economic decision making into ensuring optimum inventory. Rising prices of raw materials, inadequate availability of good quality of coal are other obstacles.

As Steel industry is capital and labour intensive, it involves high power and fuel consumption, so any change in the cost of capital, labour, fuel and power may adversely affect the performance of the Company. Any sub-standard manufacturing with the mala-fide intentions by any franchisee unit may affect the goodwill of the brand.

Any disruption/discontinuance of production by any of the franchisee unit may affect the royalty income and supply of products in that region.

In the Paint industry there may be a shortage of petroleum product in near future. Now there is a shifting of the use of paint towards water base and that is also good for the health of mankind ultimately all have to go towards the low VOC (Volatile Organic Compound) content paint where the cost of the component is higher. People of developed country can afford the price, but in our country cost of the paint is a major factor.

In the Power division Power generation from Wind mills may be affected by the flow of wind and other technical factors & natural calamities.

Any change in the tax regime, financial policies and environmental regulations by Central as well as State Government, political instability at the Central or State level may affect the financial position of the company.

F. HUMAN RESOURCES / INDUSTRIAL RELATIONS

Your Company maintained the momentum during the year implementing Human Resource practices for effective staffing, retention, training and staff development facilitating delivery excellence for our customers. Kamdhenu's people centric focus providing an open work environment fostering continuous improvement and development helped several employees realize their career aspirations during the year. Kamdhenu has continually adopted structures that help attract best external talent and promote internal talent to higher roles and responsibilities.

Kamdhenu Limited recognizes people as the primary source of its competitiveness and continues to focus on people development by leveraging technology and developing a continuously learning human resource base to unleash their potential and fulfill their aspirations therefore the industrial relations climate in Kamdhenu Limited remained harmonious and peaceful during the year. The Company has been taking initiatives for harnessing the inherent strengths of its employees and for continuous improvement in work culture and operating & maintenance practices. Presently your company employs 655 employees.

G. DISCLOSURE OF ACCOUNTING TREATMENT

In the preparation of financial statements, no accounting treatment different from that prescribed in the Accounting Standard has been followed.

F. CAUTIONARY STATEMENT

Statement in the Directors' Report and Management Discussion and Analysis describing the Company's objectives, projections, estimates and expectations may be 'forward-looking statements' within the meaning, if applicable, of securities laws and regulations.

Although we believe our expectations are based on reasonable assumptions, these forward looking statements may be influenced by numerous risks and uncertainties that could cause actual outcomes and results to be materially different from those expressed or implied. Important factors that could influence the company's operations include economic developments within the country, demand and supply conditions in the industry, input prices, changes in government regulations, tax laws and other factors such as litigation and industrial relations.

Annexure II to Independent Auditors' Report

(Referred to in our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Kamdhenu Limited ("the Company") as at 31st March 2016 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

- (a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the company; and
- (c) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016 based on the internal financial controls over financial reporting criteria established by the company considering the essential component of internal controls as stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
