PUSHING THE BOUNDARIES

PRIME FOCUS LIMITED

ANNUAL REPORT 2013-14
for fifteen months ended 30 June 2014

MANY **DREAMT** IT COULD BE DONE
OTHERS **THOUGHT** IT COULD BE DONE
SOME **PLANNED** IT COULD BE DONE

FEW
WILLED
IT HAD TO BE DONE

What differentiates the doers from the dreamers and the thinkers is their sheer tenacity, gritty determination, steely resolve and unshakeable faith in their vision, venture and values.

In a world that is constrained and confined with limits and boundaries, these select few not only dream, but also dare, and do.

They keep PUSHING THE BOUNDARIES.

In 1995, a group of four started a small business of extending post production services from a garage in Mumbai.

PUSHING THE BOUNDARIES of geography, it expanded its presence around the world from Mumbai to 16 cities across 4 continents and 7 time zones.

PUSHING THE BOUNDARIES of creativity, it executed some of the most enthralling and fantastical visual effects and 3D movies ever seen.

PUSHING THE BOUNDARIES of technology, it embraced Cloud to create a pioneering Media ERP (enterprise resource planning) software for managing the business of content.

PUSHING THE BOUNDARIES of collaboration, it extended its relationships with top broadcasters, studios, production houses, brands, advertising agencies, sports bodies and other content organizations across all major content markets.

PUSHING THE BOUNDARIES of financial performance, it enjoyed the faith and trust of marquee investors.

Today, Prime Focus has evolved from a garage to become a global powerhouse of M&E services.

AND YET, WE BELIEVE THIS IS JUST THE BEGINNING. BECAUSE, EVERY DREAM CAN BE DARED BY

The world of media and entertainment has always been defined by creativity and driven by technology in its ongoing quest to create magic, mystery and mystique to enthrall, enchant and entertain the audience. Creativity and technology come together to create the magnetic lure and the alluring attraction in the fascinating world of media and entertainment.

From humble beginnings in 1995, Prime Focus has emerged as the world's leading integrated and independent Media and Entertainment services company.

- In creative services, we are the world's largest VFX and 3D conversion services provider. We have worked on some of the best known movies in the last two decades – from *Star Wars* to *Harry Potter*, from *Avatar* to *Sin City* and from *Transformers* to *Gravity*.
- In technology product and services, our CLEAR™ Media ERP is the world's first and most established hybrid cloud platform managing over 350,000 hours of content. Prime Focus Technologies (PFT) is the first M&E industry focussed cloud technology solution provider to secure ISO 27001 certification. PFT manages *The Business of Content*™ for a range of marquee content owners that include *Disney*, *Star*, *Zee*, *AP* and *A&E* among others.
- In production services, we are now the market leader in India with over 25% of studio inventory in Mumbai. We are the only MPAA certified studio in India with sync sound capability. Prime Focus is the number one production equipment rental services provider to the advertising, broadcast and film production communities.

- In post production services, we are the only DI lab in South Asia with 4K facility. In the last 15 months, we delivered DI for 33 films including blockbusters like *Aashiqui 2* and *Dhoom 3*. Our Mumbai team performed post for 30 commercials including acclaimed Spots like *Flipkart*, *Asian Paints* and *Tanishq*. We delivered sound for 14 films including hit films like *Yeh Jawaani Hai Deewani* and *2 States*. In London, our post business was involved with high profile shows like *Sherlock* (BBC), *Atlantis* (BBC1) and *World War II from Space* (History Channel) as well as popular commercials like *Duracell* and *Omega*.
- With over 5,500 inspired people spread across our global locations, we have an unmatched matrix of size, scale and scope to offer the best solutions in terms of creativity, technology, security and on-time delivery.

The last fifteen months have been both eventful and exciting for us. Path-breaking mergers and acquisitions, launch of the world's largest digital media services cloud infrastructure - True North, and investments by marquee investors like Macquarie Capital and Reliance Capital.

At Prime Focus, we are poised to take the leap into the next trajectory of growth and expansion as we continue

PUSHING THE BOUNDARIES TO #1

IN A TRANSFORMATIONAL EVENT IN JUNE 2014, THE VFX BUSINESS OF PRIME FOCUS WORLD WAS MERGED WITH DOUBLE NEGATIVE, EUROPE'S LARGEST INDEPENDENT VFX HOUSE TO CREATE THE WORLD'S LARGEST VFX, 3D CONVERSION AND ANIMATION SERVICES COMPANY.

Prime Focus World (PFW), a subsidiary of Prime Focus Limited, is the Hollywood-facing business of the Company. PFW has been providing visual effects, 2D-3D conversion and animation services to studios and production houses across the world. With 4,000 team members working across Beijing, Chandigarh, Goa, London, Los Angeles, Mumbai, Singapore and Vancouver, PFW has an infrastructure to offer unmatched advantages in scale and cost-efficiency to its clients. PFW has brought its expertise to many wide release Hollywood films, including *Gravity*, *The Amazing Spider-Man 2*, *Maleficent*, *Edge of Tomorrow*, *Transformers: Age of Extinction*, *Guardians of the Galaxy*, *Teenage Mutant Ninja Turtles*, *Sin City: A Dame to Kill For*, *White House Down*, *Wizard of Oz*, *The Great Gatsby* and *World War Z*, along with previously released *Men in Black 3*, *Star Wars: Episode I, II & III*, *Dredd 3D*, *Total Recall*, *Tim Burton's Frankenweenie*, *Harry Potter and the Deathly Hallows: Part 2*, *Narnia: The Voyage of the Dawn Treader*, *Resident Evil: Retribution*, *Green Lantern*, *Immortals*, *Wrath of the Titans*, *Mirror Mirror*, *Transformers: Dark of the Moon* and *Avatar*.

For transition into the elite Tier 1 club of visual effects services providers in Hollywood, a key edge is creative pedigree. In a single move, by orchestrating the merger with Double Negative (Dneg), PFW has powered

its way in to the select Tier 1 club of creative services providers in Hollywood.

SYNERGY

The merger of PFW and Dneg has created indisputably the world's largest independent and integrated VFX, stereo conversion and animation services company serving the Hollywood film industry. The amalgamated VFX business will trade under the Double Negative brand, and combine the delivery of unmatched creative design and development by the best that the West has to offer, with the unbeatable infrastructure, scale and cost efficiency of the East.

Dneg will be opening in Vancouver in early 2015 by bringing key talent and technology besides having complete access to all production and technology infrastructure in India.

PUSHING THE BOUNDARIES with Dneg, Prime Focus has become the leading, independent Tier 1 VFX provider in Hollywood.

FOUNDED IN 1998 WITH A TEAM OF JUST 30, DOUBLE NEGATIVE HAS GROWN TO BECOME ONE OF THE INDUSTRY'S SUCCESS STORIES AND IS NOW EUROPE'S LARGEST INDEPENDENT PROVIDER OF VISUAL EFFECTS FOR FILM (OPERATING FROM LOCATIONS IN BOTH LONDON AND SINGAPORE).

THROUGH STEADY AND CONSTANT GROWTH, DOUBLE NEGATIVE HAS ALWAYS SOUGHT TO RETAIN BOTH THE CREATIVE DRIVE AND INVOLVEMENT OF ITS ARTISTS THROUGH ALL PROJECTS AND A CLOSE COLLABORATIVE WORKING RELATIONSHIP WITH CLIENTS. THIS HAS PROVED A WINNING COMBINATION RESULTING IN RECOGNITION FROM THE VISUAL EFFECTS SOCIETY (FOR *INCEPTION* AND *SHERLOCK HOLMES*), BAFTA (FOR *INCEPTION* AND *HARRY POTTER AND THE DEATHLY HALLOWS PART 2*) AND THE ACADEMY® AWARD (FOR *INCEPTION*).

RECENT WORK INCLUDES *MAN OF STEEL*, *THOR: THE DARK WORLD*, *THE HUNGER GAMES: CATCHING FIRE*, *TRANSCENDENCE*, *GODZILLA*, *JUPITER ASCENDING*, *HERCULES*, *INTERSTELLAR* AND *THE HUNGER GAMES: MOCKINGJAY PART 1*. PROJECTS UNDER PRODUCTION INCLUDE *AVENGERS: AGE OF ULTRON*, *TERMINATOR: GENISYS*, *INSURGENT*, *BATMAN VS SUPERMAN: DAWN OF JUSTICE*, *EXODUS: GODS AND KINGS*, AND *ANT-MAN*.

PFW HAD A POWER PACKED SUMMER LINE UP BEING INVOLVED IN MORE THAN HALF OF ALL RELEASES FROM THE MAINSTREAM STUDIOS.

THE SEASON KICK-STARTED WITH ITS WORK ON *MALEFICENT* AND *EDGE OF TOMORROW*. IT WAS ALSO THE LEAD CONVERSION HOUSE AND A VFX PROVIDER ON *TRANSFORMERS: AGE OF EXTINCTION* AND THE EXCLUSIVE STEREO VFX PARTNER ON *SIN CITY: A DAME TO KILL FOR*.

PFW has expanded its state-of-the art facility at Chandigarh in May 2014 with a potential to create nearly 500 new jobs. It also opened a brand new facility in Goa that can seat 250 artists.

3D CONVERSION

The global leader in 3D conversion services with ~29% market share, PFW has echoed its expertise by providing exclusive conversion for Warner Bros' space-thriller *Gravity*, directed by Alfonso Cuarón. *Gravity* has prompted the kind of enthusiasm for 3D viewership not seen since the release of *Avatar* which again PFW was associated with. The space odyssey garnered widespread appreciation for its 3D which is apparent from the fact that 80% of ticket sales came from 3D screenings, with global audiences choosing to pay premium prices for the spectacular effects.

In what has been the most detailed and sophisticated conversion to date, PFW was involved in the project since 2010, making *Gravity* the most intense 3D project that the company has accomplished so far.

"3D is fundamental for the experience of *Gravity*. The movie's immersive quality can only be fully experienced in 3D, from the vastness of space to the intimate isolation of the characters, the intense power of debris collisions to the serenity of the ever-present Earth. With 3D, audiences float in space."

- Alfonso Cuarón, Director

With *Gravity*, we have proved again that in the niche space of 3D conversion, we have been **PUSHING THE BOUNDARIES** ever since we became the first company in the world to convert a full length film to 3D in 2010 and are today the undisputed market leader.

TECHNOLOGY PRODUCT & SERVICES

A JOURNEY TO THE CLOUD...AND BEYOND!

IN MARCH 2014, PRIME FOCUS TECHNOLOGIES ANNOUNCED THE ACQUISITION OF DAX, A LEADING PROVIDER OF CLOUD-BASED PRODUCTION WORKFLOW AND MEDIA ASSET MANAGEMENT APPLICATIONS TO THE ENTERTAINMENT INDUSTRY, TO ACCELERATE ITS STRATEGIC EXPANSION IN NORTH AMERICA WITH A VISION TO VIRTUALIZE THE CONTENT SUPPLY CHAIN BEFORE, DURING AND AFTER THE PRODUCTION PHASE.

Prime Focus Technologies (PFT), is a subsidiary of Prime Focus Limited and brings together a unique blend of Media and IT skills backed by a deep understanding of the global media and entertainment industry. PFT works with major content owners like Disney, Warner Bros., 21st Century Fox-owned Star TV, Zee TV, Warner Bros. Television Studios, CBS Television Studios, 20th Century Fox Television Studios, FX Networks, Crown Media Holdings, Relativity Media, Legendary Pictures, Starz Media, Lionsgate, EROS International, SONY Music, Viacom 18, SONY MSM, Fox Television Studios, Showtime, Hindustan Unilever Limited and The Associated Press.

At the heart of PFT is CLEAR, the world's first and most proven hybrid cloud-enabled Media ERP Suite that virtualizes the content supply chain. For the last six years, CLEAR has helped broadcasters, studios, brands, sports and digital businesses drive creative enablement, enhance ecosystem efficiencies and sustainability, reduce cost and realize new monetization opportunities.

The technology business has been growing steadily in India, where PFT is a leader in the space. It has added new clients like Disney and others to cement its leadership position.

To replicate the success of its India business in the US, PFT acquired DAX for a base consideration of US\$ 9.1 mn in a uniquely structured performance linked transaction. This acquisition has set the course for PFT's strategic expansion in North America by creating an unrivalled industry leader offering a uniquely robust and dynamic stack of enterprise-class Media ERP solutions to Broadcasters and Studios.

DAX IS THE PROVIDER OF PRODUCTION WORKFLOW AND MEDIA ASSET MANAGEMENT APPLICATIONS AND SERVICES TO COMPANIES THAT PRODUCE, DISTRIBUTE AND LICENSE AUDIO-VISUAL CONTENT. THE DAX PLATFORM, INCLUDING EMMY® AWARD-WINNING DIGITAL DAILIES®, IS A HIGHLY-SECURE INNOVATIVE WEB-BASED APPLICATION USED BY MOST MAJOR STUDIOS AND TELEVISION NETWORKS FOR COLLABORATION AND DISTRIBUTION MANAGEMENT OF CONTENT DURING THE PRODUCTION PROCESS, AND FOR MARKETING AND DISTRIBUTION OF FINAL PRODUCT AND LIBRARY ASSETS.

THE COMPANY IS BASED IN CULVER CITY, CALIFORNIA, CLOSE TO THE MAJOR HOLLYWOOD STUDIOS AND NETWORKS IT SERVICES, AS WELL AS SERVING CANADA'S MEDIA INDUSTRY, AND ITS CLIENTELE SHOOTING IN CANADA, FROM ITS TORONTO OFFICE.

ADVANTAGE PFT+DAX

The global market for media asset management, workflow management, collaboration and media processing services is pegged at approximately US\$ 10 bn. With content enterprises like broadcast networks faced with flat top lines and rising operating costs, organizations are increasingly attentive to solutions like virtualization of content supply chain operations, and media process outsourcing to enhance overall profitability as well as top line by realizing new media monetization opportunities in the multi-screen world.

The acquisition of DAX gives PFT the ownership of DAX's patented technology and products including the Primetime Emmy® award winning Digital Dailies® solution which is the de-facto industry standard in television production. PFT will significantly enhance the value proposition to DAX's marquee customers including major studios and broadcast networks (Warner Bros. Television Studios, CBS Television Studios, 20th Century Fox Television Studios, Relativity Media, Legendary Pictures, Fox Television Studios, A&E, Showtime, Starz Media and Lionsgate) and many independent production and distribution companies. DAX also has an outpost in Toronto, Canada's TV production hub.

"The PFT-DAX combine will translate our vision to build the best enterprise platform for Production on the Cloud by taking a fresh look at media work flows through the lens of a studio that wants to efficiently collaborate across divisions with its entertainment content before, during and after the production phase."

NEW CLIENTS AND PARTNERSHIPS

PFT has won impressive clients during the last fifteen months. Some of these marquee wins are:

- Partnership with Deltatre, a leader in digital media technologies in April 2013 to provide solution that will allow direct consumer outreach and enhanced viewer experience. The first joint launch was the highly successful Starsports.com.
- In September 2013, PFT joined hands with RSG Media, a global leader in enterprise rights and royalty management solutions to integrate PFT's CLEAR Hybrid Cloud enabled Media ERP platform with RSG Media's Rights Logic Rights and Royalty Management solution to help content enterprises manage end-to-end their digital media supply chain covering rights, operations and monetization.
- PFT-DAX entered into an agreement with FX Networks to deliver cloud enabled DAX production workflow solution including Digital Dailies®, DAX BOX™ and DAX Mobile® for all FX shows and pilots. FX is the home of many critically-acclaimed and award-winning hit dramas such as *Sons of Anarchy*, *Justified*, *The Americans*, *Anger Management*, *The American Horror Story* and the upcoming Guillermo del Toro thriller, *The Strain*. The agreement marks FX as one of the first wave of buyers for the DAX Box™, a DVR-like set-top box with secure HD streaming at home, office or theatre, co-developed with PFT and launched at the NABSHOW 2014 in Las Vegas.
- In June 2014, India's Broadcast Audience Research Council (BARC) selected PFT for Play-out Monitoring Services. PFT's Play-out Monitoring Service will input reliable data in to BARC's Audience Measurement System for monitoring content, promos and TVCs across channels. PFT will scan over 400 channels on a daily basis – a whopping 35 mn hours of content annually.
- In October 2014, PFT-DAX entered into an agreement with Crown Media Holdings to deliver the cloud enabled DAX® production workflow solution including the Emmy® award-winning Digital Dailies® and DAX Mobile®, as well as Cuts and Video Watermarking for Crown Media Family Networks. Crown Media Family Networks is the parent company of Hallmark Channel and Hallmark Movies & Mysteries, the top destinations on cable for family friendly programming.

PRODUCTION SERVICES

COMPREHENSIVE SOLUTIONS, SEAMLESS COLLABORATIONS

THE PROPOSED COMBINATION OF RELIANCE MEDIAWORKS AND PRIME FOCUS LIMITED WILL CREATE THE WORLD'S LARGEST AND MOST INTEGRATED MEDIA SERVICES GROUP WITH OVER 5,500 PROFESSIONALS ACROSS 20 LOCATIONS OFFERING VISUAL EFFECTS, STEREO 3D CONVERSION, ANIMATION, AND CLOUD-BASED DIGITAL MEDIA SOLUTIONS THAT TRANSCENDS THE FILM, ADVERTISING AND TELEVISION INDUSTRIES.

Prime Focus started as a post-production services company and over the years, has emerged as a leading post house and the largest production equipment rental services provider for TV, Advertising and Film production in India. As the Company took rapid steps to emerge as an M&E services powerhouse with a global footprint and complete the entire bouquet of creative, technology production and post-production services, its focus on the fast-evolving and burgeoning M&E space in India was never lost.

The proposed merger of RMW's Film and Media Services business has propelled Prime Focus into a front-runner position in production services in India offering end-to-end solutions, largest infrastructure and latest technology.

RELIANCE MEDIAWORKS (RMW) IS ONE OF INDIA'S LEADING M&E COMPANIES WITH A PRESENCE ACROSS SEVERAL BUSINESSES INCLUDING THEATRICAL EXHIBITION OF FILMS, FILM AND MEDIA SERVICES AND TELEVISION CONTENT PRODUCTION AND DISTRIBUTION. HEADQUARTERED IN MUMBAI, INDIA, RMW HAS OPERATIONS ACROSS 78 CITIES AND TOWNS IN INDIA AND INTERNATIONALLY IN THE UNITED KINGDOM AND THE UNITED STATES.

THE COMPANY HAS COMPREHENSIVE PRESENCE IN FILM AND MEDIA SERVICES: MOTION PICTURE PROCESSING AND DI; FILM, AUDIO RESTORATION AND IMAGE ENHANCEMENT; 3D; DIGITAL MASTERING; STUDIOS AND EQUIPMENT RENTALS; VISUAL EFFECTS; ANIMATION AND BROADCAST WITH PRESENCE ACROSS INDIA, THE USA AND THE UK AND OFFERS END-TO-END INTEGRATED SERVICES ACROSS THE ENTIRE FILM AND MEDIA SERVICES VALUE CHAIN TO PRODUCTION HOUSES, STUDIOS AND BROADCASTERS, GLOBALLY.

RMW OFFERS COMPREHENSIVE SOLUTIONS AND INTEGRATED SERVICES INCLUDING PRODUCTION, POST PRODUCTION AND MEDIA & CREATIVE SERVICES TO PRODUCTION HOUSES, STUDIOS AND BROADCASTERS.

THE MERGER

The pending merger of RMW's Film and Media Services business shall enable the creation of an unmatched and winning proposition in Media Services through:

- Sunset to Sunrise Digital Pipeline connecting Los Angeles, New York and Mumbai with ability to establish connectivity with any business partner through a 300 Mbps global Ethernet connection with Los Angeles
- Provision of Accelerated File Exchange Server with over 300 Mbps internet for clients who do not have access to private leased lines connecting Los Angeles
- Connected with Sohonet linking multiple Hollywood and UK studios and facilities
- Academy Award® winning Lowry Digital's Image processing services for legacy content and new releases
- End-to-end solution spanning Studio, Equipment, Post, Colour Correction/DI, Image Processing, Cloud based Media ERP suite, VFX/3D/Animation and Digital Distribution
- MPAA and Fox Security certified facility built to exacting Hollywood standards
- Access to nearly 25% of total studio inventory in Mumbai at Film City, spread over 500 acres with convenient and central location
- Access to India's largest Hollywood benchmarked studio spread over 200,000 sqft with 8 sound stages with sync-sound
- Designed by Los Angeles architects on par with international standards including stringent sync-sound, fire protection, detection and fire fighting facilities adhering to LA County Fire Safety Norms

THE STUDIO IS ON PAR WITH INTERNATIONAL STANDARDS. IT OFFERS SYNC-SOUND I.E. A NOISE CO-EFFICIENT LESS THAN 30 DB, WHICH IS NOT OFFERED BY ANY OTHER INDIAN STUDIO.

IT IS THE LARGEST, FULLY AIR-CONDITIONED FACILITY IN MUMBAI WITH A CLEAR INTERNAL HEIGHT OF 58 FT. THE SOUND STAGES ARE DIGITALLY CONNECTED WITH THE PROCESSING, DI & MASTERING LABS, WHICH IS AN ADDED ADVANTAGE TO FILM MAKERS WHO CAN REVIEW AND SERVICE THE CONTENT ON A REAL-TIME BASIS

The combination of Prime Focus and Reliance MediaWorks is PUSHING THE BOUNDARIES to create synergies that will generate sustained multiplier effects in revenues and profitability.

BRINGING HOLLYWOOD TO THE EAST

Prime Focus has always been at the forefront of thought-leadership in the M&E industry. With pioneering offerings like CLEAR and View-D™ (proprietary 2D to 3D conversion process), and a sustainable Global Digital Pipeline allowing talent and technology to collaborate seamlessly on projects, innovation has been the driving force behind the Company's growth and success.

Today, as an integrated and independent media services powerhouse offering the entire spectrum of services for the M&E industry, the Company has ambitious plans to bring Hollywood to the East. VFX intensive movies that require a major portion of shooting indoors can now be made in Mumbai. Prime Focus can offer an exhaustive suite of creative, technology, production and post services to the Hollywood film makers. Apart from this, it can leverage the highly professional and talented English speaking crew available in Mumbai, the film production capital of India. While Hollywood will benefit from unmatched scale and efficiencies, the Indian industry will benefit from local job creation and related social upside.

POST PRODUCTION SERVICES

UNMATCHED SCALE, FLEXIBILITY AND QUALITY

CONSOLIDATION IN INDIA; SPEEDING IN THE UK.

We have been offering world class post production services to the M&E industry in India and the UK covering Digital Intermediate (Color Grading), Sound and Picture Post. We work with all major film studios, advertising agencies, brands and production houses (television and commercials) to deliver compelling content.

As a result of the proposed merger, we will have access to the only one-of-its-kind true 4K Digital Intermediate Lab in South Asia.

HD quality content combined with top television makers bringing down the prices of their entry-level LCD and LED TV sets have created a strong demand for high quality visuals from TV audiences. And customer centric broadcasters in their quest for TRPs are getting prime time content color graded to address the new expectation. Prime Focus is leading the race offering DI to a number of high profile shows like 24, *MasterChef Junior*, *MTV Roadies*, *Har Ghar*, *Satyamev Jayate*, *Cover Shot*, *Yudh* and *Comedy Nights With Kapil*.

ADVANTAGE INDIA

The benefit of the proposed merger will be consolidation – of resources, of costs and of skills. Undoubtedly, this will result in higher efficiencies and leaner operations, giving a clear and definite advantage in terms of costs as well as delivery time-frames to customers.

The merger will also allow us to offer “all under one roof” bundled services to clients in India that will include Creative, Technology, Production and Post-Production services.

LONDON UPDATE

As one of the top post-production houses in the UK, Prime Focus London works on varied projects, large and small – trailers and documentaries, singles and serials, commercials and films.

DRAMA

Atlantis – the peak time, 13 part, Saturday night drama for BBC1. Series 1 began last Autumn and we are currently working on Series 2

Sherlock – the international favourite made by Hartswood for the BBC

TV

Live From Space

This special broadcasting event consisted of a package of documentaries and a live broadcast from the Space station. A TV first, commissioned by C4 and National Geographic, this won Prime Focus a NASA Award for its contribution to the project.

DOCUMENTARY

As a specialist in documentaries, our programmes have won worldwide acclaim for their content and impact. We have ‘preferred supplier’ status for multiple episodes of the current affairs series *Dispatches* – the episode *Hunted*, an expose on Russian homophobic vigilantism, won a Grierson Award for Current Affairs.

The BBC programmes celebrating the 50th Anniversary of the National Theatre continue to win multiple arts awards

We completed the 9th series of *Great British Menu* (Optomen/BBC) and the 9th series of *An Island Parish* (Tiger Aspect/BBC)

Ultimate Airport for Arrow has transmitted globally on National Geographic and a third series is now underway

Building on our long-standing reputation for drama documentary we completed 20 episodes of *Paranormal Witness*. Made by Raw TV for SyFy in the US, this is the channel’s highest rated show.

COMMERCIALS AND BRANDED CONTENT

All the *Duracell* animated adverts for the global campaign, plus all the variants of the *CIF Kitchen* commercials were created by Prime Focus

Omega sponsor videos for use at the Sochi Olympics in 3D were also delivered by Prime Focus

The Broadcast VFX team won an Emmy® for our VFX work on *World War II from Space*, a programme made by October Films for History Channel.

Television Magazine ran their usual UK post survey in October 2013 and, yet again, Prime Focus was deemed to be one of the leading facilities in London. Ranked overall in 6th position, we scored particularly highly in the Producers’ scores – the broadcast production community voted us 4th overall and the advertising community voted us 5th. A fantastic score for our specialist services.

NEW MARKETS

PUSHING THE BOUNDARIES OF GLOBAL EXPANSION

CHINA IS TODAY ONE OF THE LARGEST AND FASTEST GROWING MARKETS FOR M&E IN THE WORLD WITH REVENUES OF US\$ 3.9 BN IN 2013. THE INDUSTRY HAS BOUNCED BACK STRONGLY IN 2013 WITH DOMESTIC RELEASES IN MAINLAND CHINA GIVING FOREIGN FILMS A FIERCE COMPETITION. THE WORLD'S FASTEST DEVELOPING ECONOMY IS ALSO HOME TO ONE OF THE LARGEST MIDDLE CLASS POPULATION, AFFLUENT AND UNAFRAID TO SPEND ON ENTERTAINMENT. CHINA IS INDEED ONE OF THE HOT-SPOTS OF FUTURE GROWTH FOR THE GLOBAL M&E BUSINESS.

In 2013, China became the first M&E market in the world to cross US\$ 3 bn in gross box office revenues. Prime Focus was one of the first players in the industry to have spotted the potential and emergence of China in the M&E space. It established its presence in the Chinese market through a joint venture way back in March 2013, with AID Capital and local partner Zhejiang Jingqi Wenhua Chuanbo Company Limited to offer visual effects and 3D conversion services to the movie industry in the Greater China area.

Today, domestic films made in China account for US\$ 2.06 bn out of the total box office revenues of US\$ 3.2 bn, i.e., a staggering 58.6%, making it an important content market.

Prime Focus is ideally poised to leverage this big opportunity. It has the best of both worlds – the creative excellence of the West combined with the cost advantages of the East. With a proven track-record of working on some of the most acclaimed movies in recent time, and with its experience of having collaborated with the top production houses in Hollywood, Prime Focus is all set to expand its presence in this new hot-spot of growth.

In China, the Company has successfully delivered one film – ICEMAN 3D.

Major projects in the pipeline:

GHOST BLOWS OUT THE LAMP
VFX & 3D

GU JIAN QI TAN
VFX

THE TAKING OF TIGER MOUNTAIN

EXECUTIVE CHAIRMAN'S MESSAGE

Our sustained focus and commitment to quality has translated into more awards and recognitions on the global M&E stage.

Our work in widely acclaimed films like *Gravity* has not only won accolades, but also reinforced our undisputed position as leaders in creative services.

- Namit Malhotra

Dear Shareholders,

It is my pleasure and privilege to address you once again after a gap of 2 years, when I had to be away to specifically drive the business in Hollywood.

This year, we are presenting our Annual Report for a period of fifteen months, i.e., from April 2013 till June 2014 necessitated by the appointment of new auditors. I am delighted and excited to share with you that these fifteen months have been extremely eventful for the Company. We have had mergers and acquisitions in India and internationally that have long-term implications on the strategic growth and progress of your Company, consolidating and strengthening our already formidable presence across the entire spectrum of M&E services: creative, technology, production as well as post production, and offering sustainable value to all our stakeholders. We are making history here as an organization – by orchestrating the creation of a unique digital media services platform for the M&E industry worldwide.

The VFX business of the Company under PFW was merged with Double Negative in the month of June 2014. This, I believe, is one of the most transformational events, not only for your Company, but also for the entire M&E industry. Double Negative is the largest independent VFX house in Europe, and with this merger, we will be combining the best of both the worlds: the creative excellence of the West with the scale and cost advantages of the East. With an order book of around US\$ 150 mn, this deal offers an assured growth path: we will be in a strong position to sustain growth, generate free cash flows, pare down debt by ~30-40% over the next 3-4 quarters and offer significant value to all our stakeholders.

The acquisition of DAX, creator of the Primetime Emmy® Award winning Digital Dailies® in April 2014 by PFT will give it the much needed impetus to expand into the North America markets. Besides having deep and valued relationships, DAX also has lean sales and customer support team locally. The success of this acquisition has already been validated in the form of agreements with FX Networks and Crown Media Holdings. PFT continues to enjoy a healthy and growing long term order book in the range of US\$150 mn.

Our CLEAR™ Media ERP Suite, is now the first M&E industry focussed cloud technology solution to have an ISO 27001 certification, underlining our strict adherence to safety and security of content.

With the proposed merger of the Films and Media Services business of Reliance MediaWorks in July 2014, we now have significant leadership position in production and post production services in India, with a world class capability to invite Hollywood to mount VFX heavy projects leveraging our talent and infrastructure in Mumbai!

Our sustained focus and commitment to quality has translated into more awards and recognitions on the global M&E stage. Our work in

We have had M&As in India and internationally that have long-term implications on the strategic growth and progress of your Company, consolidating and strengthening our already formidable presence across the entire spectrum of M&E services and offering sustainable value to all our stakeholders.

widely acclaimed films like *Gravity* has not only won accolades, but also reinforced our undisputed position as leaders in creative services.

The biggest validation of the potential and prospects of your Company came in the form of new investors: during this period, we saw Reliance Capital come back as a major investor in Prime Focus Limited. Macquarie Capital also came in with an investment of US\$ 38 mn in June 2013, as did China's AID Partners with US\$ 10 mn in March 2013 – both in Prime Focus World. Today, we are proud of the faith and trust of these marquee investors which also include Standard Chartered Private Equity. Their faith is the strongest validation of the Prime Focus story.

While a lot has been happening on the business front, I would also like to share with you the fact that my father and Chairman Emeritus of your Company, Mr. Naresh Malhotra, was conferred with the prestigious Dadasaheb Phalke Award for his immense contribution to and excellence in the video and film industry.

We celebrated our 16th anniversary in October 2013, when we also launched PFT's True North, the hub of its global content operations, inaugurated by none other than Mr. Amitabh Bachchan. In this short span of less than two decades, we have emerged and evolved from our very humble beginnings to become a formidable force in M&E services, and yet, I believe this is just the beginning. We continue to remain focused on our strategic goals and exemplary execution to achieve what we set out to do years ago – global leadership in M&E services.

At Prime Focus, I assure you we shall always continue PUSHING THE BOUNDARIES.

I thank you all for your support and confidence.

Yours sincerely,

Namit Malhotra

Founder, Executive Chairman & Global CEO

MANAGING DIRECTOR'S MESSAGE

The two mergers i.e. PFW-Dneg and PFL-RMW, as well as the DAX acquisition by PFT, are transformational steps in the evolution of your Company. We are extremely positive about the future, with an expanding order book in creative services with bigger projects and non-linear scale up in technology services, as we replicate our success to newer markets.

- Ramakrishnan
Sankaranarayanan

Dear Shareholders,

There is positivity in the air all around us. The doom and the gloom of the past few years now seem to be finally getting over, and a new wave of optimism and confidence is sweeping across economies and industries.

Global Box Office (GBO) collections have remained buoyant and rose by almost 4% to reach nearly US\$ 36 bn in 2013. In a very significant development, the Chinese box office collections grew by a whopping 27% to reach US\$ 3.6 bn, making it the first international market outside of the US to cross US\$ 3 bn in box office collections. 3D films comprised 12 of the top 13 highest-grossing films of 2014, with those films amassing a huge US\$7.5+ bn and counting at the worldwide box office. The rest of 2014's 3D release have likewise contributed an additional US\$ 1+ bn to date, with several major 3D releases still to come, that should push the final 3D box office tally over US\$ 10 bn and likely towards the US\$ 12 bn mark.

In India the M&E industry showed a handsome gain of 11.8% to reach ₹918 bn in 2013. With multiplexes opening up in not just tier 1 but also tier 2 and 3 cities across India, revenue potential of films has gone up substantially. Three Hindi movies crossed the coveted ₹2 bn mark, with another five grossing more than ₹1 bn. Cable digitization and greater accountability in terms of number of subscribers have led to increasing emphasis on better content in the TV industry. This has been further aided by lowering of entry level pricing for LED/LCD television sets leading to audiences becoming more sensitive to visual quality of content as well. The upside in all of this has been broadcasters demanding higher quality post production within episodic content. 4G roll out and the large population, both young and digitally savvy, are making digital the next big bet for media and entertainment companies, worldwide especially India.

According to Frost & Sullivan, the market for Cloud solutions in M&E industry is expected to grow nine times by 2020. If global consumer spending is an indication of the great times ahead, then broadband will show the strongest growth for next 5 years at 10% CAGR touching US\$ 558 bn followed by in-home video buoyed by ongoing growth in subscription TV and VOD at 7.1% CAGR touching US\$ 345 bn by 2017, according to McKinsey's Global Media Report 2013. A recent report from Strategy Analytics reveals Subscription Video On Demand (SVOD) services led by Netflix, Hulu and Amazon will make up nearly half of OTT revenues in North America with overall OTT video market likely to cross US\$ 10.7 billion in 2014.

These are indeed positive signs for the industry and for Prime Focus as a business.

The fifteen month period was satisfactory for your Company. All the businesses of your Company continued to grow, adding new clients, offering new services, entering new markets and winning more awards.

- With Dneg in our stable, we are the largest global Independent Tier 1 VFX and 3D Conversion services provider

- In a study commissioned by us with Ernst & Young, the digital content solutions market was pegged to grow at 5% CAGR and reach US\$ 12.9 bn by 2018 spurred by ever increasing adoption of Cloud and media ERP kind of solutions
- The proposed merger with RMW allows us to offer end-to-end services to the Indian M&E community with significant market leverage
- US\$ 300 mn+ combined order pipeline
- 5,500+ people across 16 cities

The highlights of the financial performance of your Company for the fifteen months period are:

- The net revenue of the company for FY14 (for fifteen months) ending June 2014 is ₹10,342 mn compared to ₹7,622 mn in the FY13
- EBITDA for the year is at ₹2,363 mn against EBITDA of ₹1,820 mn in the previous year
- Profit after tax at ₹243 mn (net loss of ₹203 mn last year)
- Diluted EPS at ₹1.31 per share up from ₹1.24 in the previous year

The increase in revenue was driven by the technology business, which contributed 20% to the total revenue, as well as the creative services business. During the year, PFT also successfully raised about ₹461 mn through private placement with HNIs. The funds are planned to be used for expansion of CLEAR™ in international markets, as well as in retiring debts.

We are determined to reduce our debt in the near future, and believe we will be able to do this as most of the capex has already been completed. The future revenue streams as well as monetization/liquidation of assets will be used for debt reduction. Also, we foresee significant cost synergies of US\$ 8-10 mn near-term by removing just duplication and overheads across Prime Focus-Dneg-RMW businesses.

This has been a landmark year which saw us successfully emerge as the world's largest global integrated media services player. A decade ago, we embarked on a bold strategic road map with a strong vision for leadership in both creative and technology based media services. The two mergers i.e. PFW-Dneg and PFL-RMW, as well as the DAX acquisition by PFT, are transformational steps in the evolution of your Company. At this stage, we are extremely positive about the future, with an expanding order book in creative services with bigger projects and non-linear scale up in technology services as we replicate our success to newer markets.

Yours sincerely,

Ramakrishnan Sankaranarayanan
Managing Director

19. CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO:

i. Conservation of Energy and Technology absorption:

In terms of section 217(1)(e) of the erstwhile Companies Act, 1956, read with the Companies (Disclosure of Particulars in the Report of the Board of Directors) Rules, 1988, the Directors furnish herein below the required additional information:

Conservation of Energy:

Although the Company is not engaged in manufacturing activities, the Company makes every effort to conserve energy as far as possible in its post production facilities, Studios, Offices, etc. The Company also takes significant measures to reduce energy consumption by using energy efficient computers and by purchasing energy-efficient equipment. The Company purchases PCs, laptops, air conditioners etc that meet environment standards, wherever possible and replace old equipment with more energy-efficient equipment.

Additional investments and proposals, if any, being implemented for reduction of consumption of energy:

The Company constantly evaluates new developments and invests into latest energy efficient technology.

Impact of the measures and consequent impact on the cost of production of goods:

As energy costs comprise a very small part of our total expenses, the financial impact of these measures is not material.

Total energy consumption:

As the Company does not form part of the list of industries specified in the schedule, the same is not applicable to the Company.

Research and Development (R&D) and Technology Absorption:

Your company is predominantly a service provider and therefore has not set up a formal R&D unit, however continuous research and development is carried out at various development centers as an integral part of the activities of the Company. The Company adopts the latest trends in the technology development and introduces the same so as to ensure reduction in cost with best quality output.

PFL...‘Pushing the boundaries and soaring to new heights’

Bold strategic path adopted a decade back transforms PFL into “World’s Largest Global Integrated Media Services player”

The year gone by will go down as a landmark in the evolution of Prime Focus Limited (PFL). A year that saw the Company push its boundaries in all of its businesses and soar to new heights and emerge as the World’s largest global independent and integrated media services player. The achievements were on multiple fronts such that, by the end of the year, each business was on a higher trajectory bolstered by strong organic and inorganic initiatives:

- **Recognition for our focus on high quality:** PFW’s exclusive 3D conversion work in Hollywood Blockbuster “Gravity” propelled its 2D-3D conversion business to reach the zenith with multiple global awards and recognition. In recognition of the same, PFL’s Founder, Executive Chairman and CEO, Mr. Namit Malhotra was nominated to the Board of Governors of International 3D & Advanced Imaging Society.
- **Global Market dominance in VFX:** The Company pushed its limits in the VFX space, adopting inorganic route to catapult into the tier1 position. PFW combined with Hollywood maestro Double Negative and PFW’s joint venture in China is at the tipping point of an exciting growth phase in the fast growing Chinese Filmed Entertainment market.
- **Domestic businesses ready for next growth phase:** In a paradigm shift, PFL will absorb Reliance MediaWorks’ (RMW) film and media services business division, subject to necessary approvals. This will step-up the Company’s offerings in the fast growing Indian Media and Entertainment (M&E) market, while gaining from RMW’s Hollywood relationships.
- **PFT defines new frontiers on its non-linear growth path:** PFT has further energized its overseas market offering with acquisition of DAX in North America and addition of new international clients including impressive line-up in South Africa. ISO certification, BARC project win have strengthened its leadership in domestic M&E markets.
- **Industry Acknowledgement of our contribution to M&E:** PFL Chairman Emeritus Mr. Naresh Malhotra received the prestigious Dadasaheb Phalke Award, 2014

All these transformational steps have put both the creative and technology businesses on an accelerated growth path.

Global economic growth is projected to grow from 3.0% in 2013 to 3.6% in 2014 and 3.9% in 2015. The key growth drivers in advanced economies are reduction in fiscal tightening, except in Japan, and highly accommodative monetary conditions. Growth is expected to be strongest in the United States at 2.8% whereas emerging economies will be helped by stronger external demand from advanced economies though tighter financial conditions will dampen domestic demand growth. In China, growth is projected to remain at 7.5% in 2014.

Indian Economy set to overcome below 5% growth trend of last 2 years

In 2014-15, the Indian economy is poised to overcome the sub-5% GDP growth witnessed over the last two years. The past growth slowdown was broad based and affecting mainly the industrial sector. Inflation too declined during this period, but continued to be above the comfort zone. The redeeming features in the last year was development on the macro stabilization front with dramatic improvement in the external economic situation and current account deficit (CAD) at 1.7% of GDP as against 4.7%

in 2012-13. With the new Government in the centre, there are increased expectations of a change for the better. This, coupled with the expected recovery in the global economy, has resulted in better growth prospects in 2014-15 and beyond. (Source: Budget)

Accelerating growth in Global E&M Industry at 6.4% CAGR, to reach US\$ 2.1 trillion by 2018

As per McKinsey's Global Media Report 2014, total global media spending will rise from US\$1.6 trillion in 2013 to a projected US\$2.1 trillion in 2018, at a higher 6.4% CAGR compared to 4.8% CAGR during 2008-13. Consumer spending on cinema is expected to increase from US\$37 billion in 2013 to reach US\$48 billion by 2018, growing at CAGR of 5.2%.

Global Box office up by 4% on the back of increased international box office collections

According to the Theatrical Market Statistics 2013 released by the Motion Pictures Association of America, Inc. (MPAA), the global box office collections for all films released in each country around the world reached US\$35.9 billion in 2013, up by 4% over the 2012 level of US\$34.7 billion. This was largely due to increase in international (US\$25.0 billion) and U.S./Canada (US\$10.9 billion) box office collections. All international regions experienced growth in 2013. The Chinese box office (US\$3.6 billion) grew by 27% in 2013, becoming the first international market to exceed US\$3 billion in box office collections.

The increase in 2013 U.S./Canada box office collections was due to an equivalent increase in average ticket price (2%) compared to 2012, in-line with the 2% increase in inflation as measured by the consumer price index (CPI). However, admissions fell by 20 million (-1%) compared to 2012.

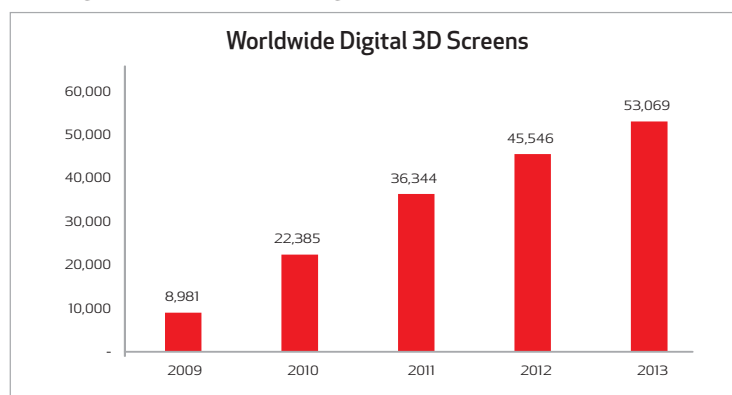

Rise in digital screens worldwide results in more VFX&3D heavy Hollywood blockbusters

The number of digital screens globally reached 111,809 in 2013, an increase of 25% over 2012. Over 80% of the world's screens and at least 50% of screens in every region are now digital (MPAA). The rise in consumption in digital format has created a demand for VFX, 3D and Animation content.

Globally, the VFX industry size is US\$2.1 billion and is growing steadily (Source: Frank N. Magid Associates, Inc.) VFX consumes about 30%-40% of the total budget of a film. VFX heavy films perform well in the international markets because of a wider reach and greater demand. The VFX market is in line to grow at a steady pace going forward. According to Box Office Mojo, this year's VFX heavy movies like Man of Steel (US\$668 million), Thor: the Dark World (US\$644 million), The Hunger Games-Catching Fire (US\$864 million) and Fast & Furious 6 (US\$788 million) performed very well at the box office and generated good returns for producers.

According to the Theatrical Market Statistics 2013, the demand for the 3D format has been on the rise. Over the last five years, the number of 3D movie screens around the world has increased to over 53,000 from a paltry 2,536 screens in 2008 with 3D digital comprising 36% of total screens. 3D continues to contribute significantly to global film collections. Transformers: Age of Extinction, Maleficent, The Amazing Spider-Man 2, Iron Man 3 and other movies received substantial boosts from 3D pricing worldwide. The next several years will see an expansion of 3D's power at the global box office with increasing franchises and sequels with respect to popular superheroes across the big screen. It is expected that more than 70 3D films will hit theatres in 2015 and 2016.

Growing need for Content Management solutions for E&M industry

Total Addressable market for technology-based media services is expected to grow at a CAGR of 5% from US\$10.6 billion to reach US\$12.9 billion by 2018. North America is the largest market while Asia and Latin America are the fastest growing markets.

Indian E&M Industry poised to grow at higher 14% CAGR driven by increasing digitisation

According to FICCI-KPMG Report 2014, the Indian Media & Entertainment (M&E) industry registered a growth of 11.8% over 2012 and touched ₹ 918 billion in 2013. The year also saw the industry benefit from the digitisation of media products and services along with growth in regional media. Gaming and digital advertising were the two prominent industry sub-sectors which recorded a strong growth in 2013 compared to the previous year, albeit on a smaller base.

Increasing digitisation across sub-sectors of the M&E industry, increase in advertisement rates in TV, innovative strategies to monetise digital content, rapid growth of new media powered by increasing smartphone penetration and campaign spending during the general elections were key levers of growth for the Indian M&E industry in 2014. The industry is expected to register a higher CAGR of 14.2% to touch ₹ 1,786 billion by 2018.

Indian film industry to reach ₹ 220 billion by 2018 with focus shifting towards tier 2 & 3 cities

The Indian film Industry has been witnessing significant growth on the back of differentiated content, wider releases across digital screens and aggressive promotions by production houses. The industry is heavily dependent on domestic theatricals which contribute more than 75% to the industry's revenues. Factors such as rapid urbanisation, penetration of multiplexes in tier II and III cities, increasing sophistication in production and marketing of films and audience's receptivity to differentiated content are together expected to help the industry sustain its growth over the next few years and be worth ₹ 219.8 billion by 2018.

The growth in domestic theatrical revenues can be largely attributed to the growth in number of screens via growth of the multiplex segment, coupled with increased ticket prices and a steady supply of content across genres and languages. In 2013, the industry added approximately 150-200 screens with major growth coming from expansion of multiplexes in tier II and III cities. With metros and most of the tier I markets getting saturated, the focus is now shifting to the tier 2 and 3 cities which are experiencing rapid urbanisation and greater economic growth.

FY14 to be a growth year for VFX & Post Production

VFX and Post-Production saw impressive growth of 21% and 14%, respectively, in 2013 to reach ₹ 9.3 billion and ₹ 17.7 billion whereas the performance of the animation industry grew only by ~5% and reached ₹ 12.7 billion. Overall, 2014 was a good year for the VFX industry as almost all top grossers had substantial use of VFX like Yeh Jawaani Hai Deewani, Aashiqui 2 and Jai Ho.. The use of VFX is not restricted to big budget action movies, even low-budget and non-action oriented movies owe a lot to the magic of VFX for example Go Goa Gone, Main Tera Hero and Ek Villain, etc. Television as a medium is getting bigger and better also because of increased use of VFX in television content in serials like '24'. Top television makers such as Sony, Panasonic and Videocon are bringing down the prices of their entry-level LCD and LED TV sets which will create a demand for high quality visuals and hence more demand for DI/ colour grading in TV content market.

Business Overview:

Prime Focus Limited is the world's largest global independent and integrated media services player with a unique full bouquet of 'Creative cum tech' media services. This includes visual effects, stereo 3D conversion, animation, video/audio postproduction, digital content management and distribution, Digital Intermediate, versioning and adaptation, and equipment rental to the Film, Broadcast, Advertising and Media industries.

The Company was founded in 1997 in a small garage in Mumbai by Mr. Namit Malhotra to provide post production services. Over the years, the Company has acquired access to global markets through strategic acquisitions as well as established state-of-the-art capabilities of its own. The Company has joined hands with top-tier studio customers to deliver quality franchise movies. Prime Focus has been able to leverage its global business model and continues to expand into new markets. In FY14, over 80% of PFL's revenues came from outside India. The Company's global clientele is serviced from 16 cities across the globe. Prime Focus has a highly differentiated business model which seamlessly blends creativity, technology and finance to provide a holistic solution to its clients. PFL's new businesses (VFX, 3D & PFT) contributed 80% of FY14 revenues.

Prime Focus has operations in Los Angeles, New York, Vancouver, London, Singapore, Mumbai, Goa, Hyderabad, Bangalore, Kolkata, Noida and Chandigarh. The Company's clients include the all the biggest studios like Warner Bros, Marvel, Universal studio, Paramount, Lucasfilms, Universal, Sony, Twentieth Century Fox, Legendary Pictures, Relativity and DreamWorks, broadcast networks like Bloomberg, Disney, Star, Associated Press and Zee, and advertising agencies like JWT and Lowe, amongst others.

More than 5,500 employees are working for PFL group across 16 facilities in 4 continents across 7 time zones. This global presence is a strong differentiator, as well as key to profitability, optimizing local advantages. With its JV becoming operational in China, the company is now present in all key content markets globally.

World Sourcing Model

Marquee investors have constantly backed PFL over the years further validating its robust business model and overall performance. In November 2012, Prime Focus successfully raised ~\$70 million from Standard Chartered Group. AID Partners Capital Limited, a private equity firm focused on buyout opportunities and expansion capital primarily in media and entertainment sector invested US\$10 million in PFW valuing it at US\$250 million. Macquarie Capital, the principal investing arm of the Macquarie Group, further invested US\$38 million into PFW, valuing it at an Enterprise Value of US\$300 million

RMW's film and media services business merger with PFL is combined with a cash investment of ₹ 2.4 billion in PFL from promoters of PFL and from RMW. Further, the net business consideration paid to RMW is ₹ 3.5 billion toward transfer of Film and Media Services business to Company. Post-merger completion, RMW will get 30.2% stake.

Technology Products and Services

Our Technology business offers customer transformational solutions that help virtualize the content supply chain and manage their business of content better. CLEAR™, our award-winning Hybrid Cloud technology enabled Media ERP platform and Cloud-enabled Media services, helps broadcasters, studios, advertisers, sports bodies, the government and service providers drive creative enablement, enhance ecosystem efficiencies & sustainability, reduce cost and realize new monetization opportunities.

Primetime Emmy® Award winning Digital Dailies (Technology acquired in DAX Acquisition) is the de-facto industry standard in television production. Our vision is to build the best enterprise platform for Production on the Cloud by taking a fresh look at media work flows through the lens of a studio that wants to efficiently collaborate across divisions with its entertainment content before, during and after the production phase. Digital Dailies is one of the significant steps taken towards Production clients. PFT's CLEAR Media ERP platform combined with DAX's team and products will accelerate the realization of this vision.

Our Cloud-enabled media services deliver over 10 million files (VOD/ Syndication fulfilment), 100,000 new television episodes, 5,000 hours of dubbing, 5,000 hours of compliance editing and over 35,000 hours of closed captioning/subtitling) annually.

Business Arms:

Prime Focus World:

Prime Focus World (PFW) is the creative services business arm of Prime Focus, the global leader in media and entertainment industry services. PFW employs professionals in 8 cities across 3 continents and 5 time zones. PFW provides visual effects, stereo 3D conversion and animation services to the Film, Broadcast, Advertising and Media industries. PFW has developed View-D™ (stereoscopic 2D to 3D conversion) which is today relied upon by most Hollywood producers. Leveraging its global digital pipeline and pioneering delivery model WorldSourcing®, PFW partners content creators at every stage of the process ensuring work flow efficiencies, cost optimization and creative enablement. PFW is a leader in the 2D to 3D conversion space with approximately 29% market share. Entered Animation space with animated television series for a major toy manufacturer to offer high end premium animation services

PFW was an established but not a tier 1 player in the VFX market. However, the combination with Double Negative has positioned PFW as a tier 1 VFX service provider. The market is dominated by four to five key players that control almost US\$750 million to US\$800 million of annual revenue. Double Negative works closely with all leading studios like Marvel, Universal, Warner Brothers, Fox, Sony, Disney and Legendary, etc. Some of the most prominent film makers such as Christopher Nolan, Ridley Scott that have created some of the biggest franchises like the Dark Knight and Inception works closely with DNEG. DNEG has delivered 130+ film projects till date. This augments PFW's 3D conversion leadership - with VFX global leadership—now making it the “house of choice” for VFX & 3D services of tier 1 Hollywood studios, while enhancing unmatched offering in growing Indian M&E services market.

Section 4

PFL Business Strategy:

PFL's strategic goal is to sustain clear leadership in creative services (3D, VFX and animation) and establish PFT as the de-facto Media ERP technology leader of the M&E industry globally. The three M&A transactions undertaken during the year were strategic steps that helped the company achieve the position of the World's largest independent and integrated media services player.

Present	Strategic Direction	Future
<ul style="list-style-type: none"> Global leader in stereo 3D conversion (30% share) One of the top 3 global VFX players Tier 1 player in growing Indian M & E market Established PFT business, witnessing high growth and improving profitability Invested in facilities and work forces Secured successful rounds of funding from Marquee investors – SCPE, AID, Macquarie and Reliance ADA group. 	<ul style="list-style-type: none"> Strengthen leadership in VFX & 3D by growing presence in all our existing markets- synergies from mergers to provide thrust to growth in revenue and margins PFT to be rolled out in US at accelerated pace through DAX Ramp up in new markets like china Cost consolidation & effective utilisation of resources Reduction in debt through improving cash flows and low capex 	<ul style="list-style-type: none"> Sustain clear leadership across all M&E services markets To be house of choice for VFX and 3D services for tier 1 studios Establish CLEAR as the de-facto ERP of the M&E industry globally Leverage on the robust World sourcing model to increase returns Higher Margins & Optimum level of Debt & Cash Flows

PFW Combination with Double Negative catapults PFW into Tier 1 VFX leadership globally

Gravity, Star Wars I and Transformers-Dark of the Moon have already established PFW as a leader in the global 3D services market and landed prestigious and exclusive 3D conversion projects like Edge of Tomorrow, Maleficent, Transformers-Age of Extinction. However, the global market for VFX is more fragmented than the 3D market and PFW, despite working on multiple quality projects like Avatar, the Great Gatsby, and Sin City, was not a Tier 1 player. The combination with Double Negative, in one go, catapults PFW into the 'elite' group of tier 1 service providers.

Double Negative works closely with all leading studios like Marvel, Universal, Warner Brothers, Fox, Sony, Disney and Legendary, etc. Some of the most prominent film makers such as Christopher Nolan, Ridley Scott have tremendous faith and confidence in Double Negative. These are Academy Award winning film makers who have created some of the biggest franchises like the Dark Knight and Inception for which were awarded the Academy Award for best visual effects.

Entered fastest growing Chinese market via JV with AID partners

April 17, 2014 marked a new chapter in the Prime Focus World story with the cinema release of its first feature film stereo conversion project for China led out of its Beijing facility. PFW was the exclusive stereo conversion partner for Iceman 3D, a martial arts epic from director Law Win-cheong and Hong Kong superstar Donnie Yen. PFW delivered all 2,282 shots from its Mumbai office. The success of the 3D format in China seems secure following the success of Hollywood 3D blockbusters such as Transformers: Age of Extinction and Guardians of the Galaxy in 2014. The Beijing team is currently working with Chinese filmmakers on a number of high-profile domestic projects, including "The Taking of Tiger Mountain" directed by Hark Tsui (VFX), "Ghost blow out the lamp" directed by Lu Chuan (VFX & 3D Conversion), "Gu Jian Qi Tan" directed by Liang Shengquan (VFX) and "The Journey of flower" by Ling Yufen (VFX)

PFL - RMW combination to enhance service offerings in both India and World

PFL and Reliance Media Works are merging their global film and media services businesses, subject to necessary approvals. Post-deal, PFL will be delivering services across the spectrum for clients starting from film equipment rental, shooting floors/sound stages, editing /colour grading, VFX & Animation, 2D to 3D conversion and digital distribution. The merger will also add strong assets including an integrated state of the art studio to PFL's Indian capacities. Reliance's global relationships and investments (Dreamworks) can be leveraged to create enhanced revenue synergies.

Synergies to create sustainable value through enhanced efficiencies

PFT strengthening its roots in the US at accelerated pace post DAX acquisition

PFT pioneered a cutting-edge ERP solution in FY09 for M&E industry with CLEAR, now the world's most established cloud-based Media ERP platform. In the last 3 years, PFT has grown at 19x from a garage startup to establishing a global footprint. PFT's vision is to be the de-facto Media ERP technology leader globally. The recent DAX acquisition will help fuel PFT's market penetration in North America. DAX is a provider of production workflow and media asset management applications and services to the entertainment industry. The company is already seeing good traction in North America. PFT also won a contract from South Africa's leading broadcasting network to aid Smart content discovery. Apart from that PFT also signed deal with FX networks and Crown Media Holdings for DAX solutions and with BARC to offer play-out monitoring services to power one of the world's largest audience measurement programs. This robust non-linear model is expected to drive global growth going forward.

Profitability to receive a boost post integration

Going forward, the company expects 4% to 5% increase in EBITDA margin over the next 24 to 36 months as the immense integration benefits start to set in and the rationalization of cost base and overheads across these operating entities takes place.

Roadmap targeting profitability and cash flows

Initiatives to remove duplicated costs have already been started with PFL closing down PFW's London & Vancouver VFX Operations. Revenue enhancement opportunities from this merger along with PFL's World Sourcing capabilities are expected to benefit PFW going forward.

Section 5

Financial Analysis:

PFL recorded over ₹ 10 billion in revenue in FY14, the increase is mainly driven by increase in technology revenue (contributing 20% of revenue compared to 11% in FY13), followed by increase in creative services revenue. On the post production front, the India business continues to deliver strong performance. EBITDA margins have remained above 20% over the last five years even with an on-going expansion exemplifying strong leadership position and managerial acumen.

The fiscal year was extended by three months and hence, the audited numbers are for the entire 15 months as of June 30th 2014.

Financial Highlights of the year:

- The net revenue of the company for FY14 (for fifteen months) ending June 2014 is ₹ 10,342 million compared to ₹ 7,622 million in the FY13.
- EBITDA for the year is at ₹ 2,363 million against EBITDA of ₹ 1,820 million in the previous year.
- A smart turnaround in PFL post the successful FCCB redemption in FY13 saw the company post profit for the year of ₹ 243 million compared to a loss of ₹ 203 million in the previous year.
- Diluted EPS was ₹ 1.31 per share up from (₹ 1.24) per share in the previous year.
- Debt maintenance: Company continues to focus on streamlining the debt across its various subsidiaries to maintain the debt at reasonable levels as well as rationalize the interest costs through the appropriate mix of domestic and lower cost FX debt commensurate to the FX denominated business in the group. The Double Negative transaction was financed via Equity dilution by the promoters along with the assumption of low cost FX debt. The Company has also sold its backend facility effective June 30th, 2014 to its international subsidiary Prime Focus World N.V., which resulted in repayment of higher cost Rupee Debt in the Company to the tune of approximately US\$20 million. Similarly, most of the technical equipment capital expenditure across the Group is being financed either through lower cost capital leases facilitated by vendors themselves, or through Buyers Credit financing which, again, is at lower interest costs. The Company continues to actively pursue opportunities to monetize non-core assets and use proceeds towards higher cost debt retirement.

Section 6

Outlook:

FY15 is going to be year of consolidation and integration for Prime Focus. PFL is at its inflection point post the three strategic steps taken in FY14 as well as the continuous investment in people, processes and technology over past many years. The Double Negative merger became effective from July 01, 2014 whereas the acquisition of RMW Film and Media Services business is awaiting regulatory approval. The Company has moved up the

value-chain in all its businesses; as a Tier1 VFX provider post DNEG merger, as a top-notch global 3D services provider post earning critical and global acclaim in Gravity and as a leading technology services provider ready to replicate the success seen in India on the global level post the DAX acquisition.

According to the PWC Outlook 2014-18, Global Filmed Entertainment revenue is expected to cross US\$100 billion in 2017. VFX heavy films like Transformers (US\$1,087 million), The Amazing Spiderman 2 (US\$709 million), Maleficent (US\$757 million) have been performing exceedingly well in the international markets. 80% of top performing movies were special effects heavy in 2013 (Box Office Mojo). The success of **Gravity** has given a big push to the 3D format with 80% of Gravity's opening weekend US box office sales from 3D screenings, the highest share ever for a 3D release. According to the Motion Picture Association of America, China's box-office collections in 2013 grew 27 % YOY to US\$3.6 billion, or roughly 10% of total global sales. The populous nation's middle class, with many experiencing movie theatres for the first time—is fuelling China's appetite for Hollywood movies. According to PWC's Global Entertainment and Media outlook report, spending at Chinese box offices is likely to surge 88.5%, to US\$5.9 billion by 2018 from US\$3.13 billion in 2013.

Indian film industry is growing on the back of differentiated content along with wider release across digital screens (added 200 screens in 2013), aggressive promotions (average of ₹ 250-300 million) and increased average ticket price (from ₹ 150 in 2011 to ₹ 170 in 2013).

On the technology services front, the Company's goal is to expand globally targeting an overseas revenue share similar to that in creative services. PFT, post DAX, is seeing good traction in the North American market and South African market. In the Indian market, Broadcast Audience Research Council (BARC) has selected Prime Focus Technologies (PFT) for play-out monitoring services. PFT's play-out monitoring services will input reliable data in to BARC's Audience Measurement System for generating TV viewership per thousand (TVTs). PFT is now set to open a new facility at Bangalore that can seat an additional 500 people and is also augmenting its sales force globally to serve global clients.

In summary, PFL's unique DNA of 'Creative cum Tech offerings' unmatched both in terms of breadth and reach, accelerated via organic and inorganic expansion make it well-poised to for profitable growth.

Section 7

Opportunities and Threats:

Digital transformation and continued disruption are the overriding concerns as well as the greatest opportunities facing the media and entertainment industry of the future. There is a tectonic shift in the online and mobile distribution of content. The problem faced by the industry is that this shift is extremely swift which does not allow the industry to adjust and adapt to the new ways of distribution and consumption. There continues to be a greater union of digitalization with various forms of media content. This greatly emphasises companies to focus more on technology improvements and innovations in order to provide astounding customer experiences.

Domestically, there is a remarkable shift in the industry starting with digitalization of television by implementation of DTH to conversion from 2D viewing to 3D viewing of content. Internationally, there is a steady transformation in the distribution technology from 3G to 4G which demands for greater speed and better technology for content distribution. Innovation in technological solutions adopted by market participants throughout the industry will be crucial in their survival in this fast changing industry landscape. 4K UHD TV has generated a lot of excitement and press attention since the start of 2013. At the 2013 Consumer Electronics Show (CES), all the major display vendors announced and demonstrated 4K UHD TV consumer displays. In parallel, global broadcasters and media organizations have been testing 4K UHD TV production including Sky, Netflix, and RAI, with transmission tests supported by SIS Live, Ericsson and others. RMW merger will add Lowry digital in Prime Focus's portfolio which is equipped with 2K to 4K conversion and hence is in a better position to monetize on the upcoming opportunity.

Section 8

Risks and Concerns:

Macro-economic trends:

With the advent of globalization, economic turbulence in one part of the world affects everyone. Since early 2009, the global economy has faced a marked slowdown which has affected fresh investments and impacted overall consumption. Although, the global economic outlook seems to have stabilised, it will still take considerable time for the economy to completely recover.

Geographical risks:

Prime Focus is present in multiple markets which makes it fallible to regional pressures. Hence, the risk of being largely affected by events which unfold in a particular geography is redundant. Company further diversifies its operations in regional markets like Tamil, Telugu and Kannada to further mitigate its risk.

Currency fluctuation:

The Company accrues income from various parts of the world as it has operations and dealings with customers all across the globe. This results in a huge risk of currency fluctuation. To combat this situation the Company has in place an efficient foreign exchange management team that continuously monitors the currency markets.

Competition:

Where there is opportunity, there will be competition. With the growth in demand for animation and VFX there is an influx of new market participants as everyone tries to take their share of this lucrative opportunity. Super specialisation has become the norm of the industry and with the growing demand for quality content there is a huge gap to be filled. Prime Focus realizes the significance of this threat and is making conscious efforts in this direction. The Company has a strong brand recall, a portfolio of offerings and is also expanding this space to be competitive. Moreover, the Company has delivered award winning work and established relationships with major studios around the globe.

Section 9

Internal control systems and their adequacy:

The Company has internal controls commensurate with its size. It has also adopted standard operating procedures, policies and process guidelines. These guidelines are well documented with clearly defined authority limits corresponding with the level of responsibility for each functional area. They are designed to ensure that transactions are conducted and authorised within their framework. Further, the Company's reporting guidelines ensure that transactions are recorded and reported in conformity with generally accepted accounting principles. These guidelines are regularly reviewed and updated to meet the expectations of the current business environment. The Company's Code of Business Conduct lays down ethical standards expected from each of its personnel's and business associates in their day to-day actions. The Company's robust internal audit programme which works to conduct a risk-based audit not only tests the adherence to laid down policies and procedures but also suggests improvements in the current processes and systems. The audit program is agreed upon with the Audit Committee. Internal Audit observations and recommendations are reported to the Audit Committee, which monitors the implementation of such recommendations. Company has appointed well reputed audit firm Deloitte, one of the Big 4 Global audit firms (among the largest International firm offering audit, assurance, tax, consulting, advisory etc.) as the statutory auditor.

Section 10

Material developments in human resources:

Your company places utmost importance in its people. It firmly believes that its people are its greatest assets and most unique source of sustained competitive advantage. In an industry that is totally based on human skills, the Company's Human Resources function continuously endeavours to make sure that the people working for the Company possess cutting edge skill-sets. The Company strives to maintain a safe, healthy and happy work environment. Talent is nurtured and developed through various developmental programmes and Prime Focus encourages its personnel's to undertake these for both professional and personal development. As on June 30, 2014, the total number of personnel's was over 5500.

Section 11

Cautionary Statement:

This document contains statements about expected future events, financial and operating results of Prime Focus Limited, which are forward looking. By their nature, forward-looking statements require the Company to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that the assumptions, predictions and other forward-looking statements will not prove to be accurate. Readers are cautioned not to place undue reliance on forward-looking statements as a number of factors could cause assumptions, actual future results and events to differ materially from those expressed in the forward-looking statements. Accordingly, this document is subject to the disclaimer and qualified in its entirety by the assumptions, qualifications and risk factors referred to in the management's discussion and analysis of Prime Focus Limited Annual Report, 2013-14.

Corporate Governance Report

(As required by Clause 49 of the Listing Agreement of the Stock Exchanges, as amended effective October 1, 2014)

1. COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE:

The Company's corporate governance philosophy rests on the pillars of integrity, accountability, equity, transparency and environmental responsibility that conform fully with laws, regulations and guidelines. The Company's philosophy on corporate governance is to achieve business excellence and maximizing shareholder value through ethical business conduct. The Company's philosophy also includes building partnerships with all stakeholders, employees, customers, vendors, service providers, local communities and government. Independent Auditor's Report

To the Members of
Prime Focus Limited
Report on the Financial Statements

We have audited the accompanying financial statements of **Prime Focus Limited** ("the Company"), which comprise the Balance Sheet as at 30th June, 2014, the Statement of Profit and Loss and Cash Flow Statement for the period from 1st April, 2013 to 30th June, 2014, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards notified under the Companies Act, 1956 ("the Act") (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 in terms of General Circular 15/2013 dated 13th September, 2013 of the Ministry of Corporate Affairs) and in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) In the case of the Balance Sheet, of the state of affairs of the Company as at 30th June, 2014;
- (b) In the case of the Statement of Profit and Loss, of the profit of the Company for the period ended on that date; and
- (c) In the case of the Cash Flow Statement, of the cash flows of the Company for the period ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of Section 227(4A) of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by Section 227(3) of the Act, we report that:
 - a. We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, the Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement comply with the Accounting Standards notified under the Act (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 in terms of General Circular 15/2013 dated 13th September, 2013 of the Ministry of Corporate Affairs).
 - e. On the basis of the written representations received from the directors as on 30th June, 2014, taken on record by the Board of Directors, none of the directors is disqualified as on 30th June, 2014, from being appointed as a director in terms of Section 274(1) (g) of the Act.

ANNEXURE TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in Paragraph 1 under "Report on Other Legal and Regulatory Requirements" section of our report of even date

Having regard to the nature of the Company's business/ activities/ result during the period clauses (ii), (vi) (viii), (xii), (xiii), (xiv), (xviii) and (xx) of paragraph 4 of the Order are not applicable to the Company.

- i. In respect of its fixed assets:
 - a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
 - b) As explained to us, all the fixed assets have been physically verified by the management in a phased periodical manner, which in our opinion is reasonable, having regard to the size of the Company and nature of its assets. No material discrepancies were noticed on such physical verification.
 - c) Although a substantial part of the fixed assets have been disposed off during the period, in our opinion and according to the information and explanations given to us, the ability of the Company to continue as a going concern is not affected.
- ii. In respect of the loans, secured or unsecured, granted or taken by the Company to / from companies, firms or other parties covered in the register maintained under Section 301 of the Companies Act, 1956, according to the information and explanations given to us:
 - a) The Company has granted unsecured loans aggregating ₹ 874,202,742 to one party during the period. At the year end, the outstanding balances of such loans granted aggregated ₹ 6,530,990 and the maximum amount involved during the period was ₹ 255,021,968.
 - b) The rate of interest and other terms and conditions of such loans are, in our opinion, prima facie, not prejudicial to the interest of the Company.
 - c) The receipts of principal amounts and interest have been as per stipulations.
 - d) In respect of the said loans and interest thereon, there are no overdue amounts.
 - e) The Company has not taken loans secured or unsecured from companies, firms or other parties covered in the Register maintained under Section 301 of the Companies Act, 1956.
- iii. In our opinion and according to the information and explanations given to us, having regard to the explanations that some of the items purchased are of special nature and suitable alternative sources are not readily available for obtaining comparable quotations, the Company needs to strengthen the internal control system to make it commensurate with the size of the Company and the nature of its business for the purchases of fixed assets and sale of services. In view of this being our first year of audit, we are unable to comment on the continuing failure, if any, to correct major weaknesses in such internal control system.
- iv. In respect of contracts or arrangements entered in the Register maintained in pursuance of Section 301 of the Companies Act, 1956, to the best of our knowledge and belief and according to the information and explanations given to us:
 - (a) The particulars of contracts or arrangements referred to in Section 301 that needed to be entered in the Register maintained under the said Section have been so entered.
 - (b) Where each of such transaction is in excess of ₹5 lakhs in respect of any party, the transactions have been made at prices which are prima facie reasonable having regard to the prevailing market prices at the relevant time or the prices at which transactions for similar services have been made with other parties or as per information available with the Company.
- v. In our opinion, the internal audit function carried out during the period by a firm of Chartered Accountants appointed by the Management has not been commensurate with the size of the Company and the nature of its business. The scope of internal audit function and the extent of coverage needs to be enhanced to make it commensurate with the size of the Company and the nature of its business.

vi. According to the information and explanations given to us, in respect of statutory dues:

- a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Investor Education and Protection Fund, Employees' State Insurance, Income Tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty, Cess and other material statutory dues applicable to it with the appropriate authorities, except for payment of Service Tax and Tax Deducted at Source, where delays have been noted.
- b) There were no undisputed amounts payable in respect of Provident Fund, Investor Education and Protection Fund, Employees' State Insurance, Income tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty, Cess and other material statutory dues in arrears as at 30th June, 2014 for a period of more than six months from the date they became payable.
- c) There are no cases of non-deposit with the appropriate authorities of disputed dues of Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty and Cess. Details of dues of Income Tax which have not been deposited as on 30th June, 2014 on account of disputes are given below:

Statute	Nature of Dues	Amount involved (₹)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax	73,155,229	Assessment year 2007-2008, 2009-2010 and 2010-2011	Commissioner of Income Tax (Appeals)
		653,294	Assessment year 2008-2009	Income Tax Appellate Tribunal
Total		73,808,523		

- vii. The Company has no accumulated losses at the end of the financial period, but has incurred cash loss during the immediately preceding financial year.
- viii. In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of dues to financial institutions, banks and debenture holders.
- ix. In our opinion and according to the information and explanations given to us, the terms and conditions of the guarantees given by the Company for loans taken by Others from banks or financial institutions are not, prima facie, prejudicial to the interests of the Company.
- x. In our opinion and according to the information and explanations given to us, the term loans have been applied by the Company during the period for the purposes for which they were obtained.
- xi. In our opinion and according to the information and explanations given to us, and on an overall examination of the Balance Sheet of the Company, we report that funds raised on short-term basis have, prima facie, not been used during the period for long-term investment.
- xii. The Company has unsecured debentures outstanding during the period on which no security or charge is required to be created.
- xiii. To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company has been noticed or reported during the period.

Significant Accounting Policies and Notes to Accounts

1. Corporate information

Prime Focus Limited (the Company) is a public listed company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company is engaged in the business of post-production including digital intermediate, visual effects, 2D to 3D conversion and other technical and creative services to the Media and Entertainment industry.

2. Statement of significant accounting policies:

a. Basis of preparation

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the Accounting Standards notified under Section 211 (3C) of the Companies Act, 1956 ("the 1956 Act") (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 ("the 2013 Act") in terms of General Circular 15/2013 dated 13 September, 2013 of the Ministry of Corporate Affairs) and the relevant provisions of the 1956 Act/ the 2013 Act, as applicable. The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

b. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Accounting estimates change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

c. Tangible fixed assets

Fixed assets are stated at cost of acquisition or construction. They are stated at historical cost less accumulated depreciation and impairment loss, if any. The cost comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standards of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

d. Depreciation

Depreciation on tangible fixed assets is provided using the Straight Line Method (SLM) as per the useful lives of the assets estimated by the management, or at the rates prescribed under Schedule XIV of the Companies Act, 1956 whichever are higher, as per the following rates:

Asset Group	Rates (SLM)	Schedule XIV Rates (SLM)
Buildings	1.63%	1.63%
Plant and equipment - computer based assets	16.21% - 33.33%	16.21%
Plant and equipment - non computer based assets	7.07% - 14.29%	7.07%
Furniture and fixtures	10.00%	6.33%
Office equipments	16.21%	13.91%
Vehicles	9.50%	9.50%

Cost of Leasehold improvement is amortised over a period of lease

Depreciation is provided at 100% on items of fixed assets costing less than ₹ 5000/- in the period of purchase.

e. Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment loss, if any. Intangible assets are amortized on a straight line basis over the estimated useful economic life.

Software

Software is amortized on straight line basis over its estimate of useful life being six years.

f. Impairment

The carrying values of assets are reviewed at each Balance Sheet date for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the higher of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, except in case of revalued assets.

g. Leases

Finance leases, which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the inception of the lease term at the lower of the fair value of the leased property and present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in the Statement of Profit and Loss. Lease management fees, legal charges and other initial direct costs of lease are capitalized.

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight line basis over the leased term.

h. Borrowing cost

Borrowing costs include interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowing and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs relating to acquisition or construction of qualifying assets which takes substantial period of time to get ready for its intended use are capitalised to the extent they relate to the period till such assets are ready to be put to use. All other borrowing costs are expensed in the period in which they occur.

i. Investments

Long-term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

j. Revenue recognition

Revenue comprises the fair value of the consideration for the sale of services and products in the ordinary course of the Company's activities. Revenue is shown net of applicable taxes.

The Company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and no significant uncertainty exists as to its determination or realisation. The Company bases its estimates on empirical evidence of the past taking into consideration the type of transaction, the type of customer and the specifics of each arrangement.

- i. The Company provides a variety of post-production services including digital intermediate, visual special effects (VFX), two dimension to three dimension (2D to 3D) conversion and other technical services to its subsidiaries and to clients in the film, broadcast and commercial sectors.

Revenue on time-and-material contracts are recognized as the related services are performed and the revenues from the end of the last billing to the balance sheet date are recognized as unbilled revenues. Revenue from services provided under fixed price contracts, where the outcome can be estimated reliably, is recognized following the percentage of completion method, where revenue is recognized in proportion to the progress of the contract activity. The progress of the contract activity is usually determined as a proportion of hours spent up to the balance sheet date, which bears to the total hours estimated for the contract. If losses are expected on contracts these are recognized when such losses become evident.

Unbilled revenue is included within 'other current assets' and billing in advance is included as deferred revenue in 'other current liabilities'.

- ii. Others

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividends are recognised when the shareholders' right to receive payment is established by the Balance Sheet date. Dividend from subsidiaries is recognized even if same are declared after the balance sheet date but pertains to period on or before the date of balance sheet.

k. Foreign currency transactions**Initial recognition**

Foreign Currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

At the period end, foreign currency monetary items are reported using the closing exchange rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Exchange differences

Exchange differences are recognised as income or expenses in the period in which they arise except in case of exchange differences arising on long term foreign currency monetary items related to acquisition of fixed assets which are capitalised and depreciated over the remaining useful life of assets.

l. Income taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier year.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Minimum Alternative Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal Income Tax during the specified period.

m. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

n. Provisions and contingencies

A provision is recognized when the Company has a legal and constructive obligation as a result of a past event, for which it is probable that cash outflow will be required and a reliable estimate can be made of the amount of the obligation. A contingent liability is disclosed when the Company has a possible or present obligation where it is not probable that an outflow of resources will be required to settle it. Contingent assets are neither recognized nor disclosed.

o. Retirement and other employee benefits

Defined Contribution Plan

Provident Fund:

The Company contributes towards Provident Fund and Family Pension Fund. Liability in respect thereof is determined on the basis of contribution as required under the Statute / Rules.

Defined Benefit Plan

Gratuity:

Provision for gratuity is made based upon the actual valuation done at the end of every financial year using "Projected Unit Credit Method" Major drivers in actuarial assumptions, typically, are years of services and employees compensation. Gains and losses on changes in actuarial assumptions are accounted for in the Statement of Profit and Loss.

p. Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

The Company had recognized a deferred tax asset on the carry forward losses and unabsorbed depreciation in the previous year. In the current period, the entire unabsorbed depreciation and part of the carry forward losses have been set off against the taxable income for the period. During the period, the Company has entered into non-cancellable agreements to lease / sublease its premises and render outsourcing services to wholly owned subsidiaries, for a term of three to five years. The resultant revenue coupled with the revenue from existing business activities would generate sufficient taxable income to off-set losses carried forward. Accordingly, the management is confident of realizing the said deferred tax asset.

Independent Auditors' Report

To,

The Board of Directors of Prime Focus Limited

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of PRIME FOCUS LIMITED (the "Company") and its subsidiaries (the Company and its subsidiaries constitute "the Group"), which comprise the Consolidated Balance Sheet as at June 30, 2014, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the period April 1, 2013 to June 30, 2014, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

The Company's Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of the reports of the other auditors on the financial statements / financial information of the subsidiaries referred to below in the Other Matter paragraph, the aforesaid consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Consolidated Balance Sheet, of the state of affairs of the Group as at June 30, 2014;
- (b) in the case of the Consolidated Statement of Profit and Loss, of the profit of the Group for the period ended on that date; and
- (c) in the case of the Consolidated Cash Flow Statement, of the cash flows of the Group for the period ended on that date.

Other Matter

We did not audit the financial statements / consolidated financial statements of 11 subsidiaries, whose financial statements / consolidated financial statements reflect total assets (net) of Rs. 5,946,064,424 as at June 30, 2014, total revenues of Rs. 1,636,357,094 and net cash outflows amounting to Rs. 106,455,644 for the period ended on that date, as considered in the consolidated financial statements. These subsidiaries have been audited by other auditors for the year ended March 31, 2014. These audited financial statements reflect total assets (net) of Rs 5,966,374,949 as at March 31, 2014, total revenue of Rs 1,404,661,348 and net cash outflows amounting to Rs 79,732,372 for the year ended March 31, 2014. The respective auditors' reports have been furnished to us and our opinion is solely based on the reports of other auditors. We have relied on the unaudited financial information of these subsidiaries which reflect total assets (net) of Rs. 5,946,064,424 as at June 30, 2014, total revenue of Rs. 231,695,746 and net cash outflows amounting to Rs. 26,723,272 for the period from April 1, 2014 to June 30, 2014. These financial information, as approved by the Board of Directors of the Company, have been furnished to us by the Management and our opinion, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, is based solely on such approved unaudited financial information.

Our opinion is not qualified in respect of this matter.

1. Corporate information

Prime Focus Limited (the Company or the Parent Company) is a public company domiciled in India and incorporated under the provision of the Companies Act, 1956. The Company and its subsidiaries (collectively referred to as 'the Group') are engaged in the business of post-production including visual Effects, 2D to 3D conversion and providing complete solutions in terms of other technical and creative services to the Media and Entertainment Industry.

2. Statement of significant accounting policies:

a. Basis of preparation

The consolidated financial statements of the Group have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Group has prepared these consolidated financial statements to comply in all material respects with the accounting standards notified under Section 211 (3C) of the Companies Act, 1956 ("the 1956 Act") (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 ("the 2013 Act") in terms of General Circular 15/2013 dated 13 September, 2013 of the Ministry of Corporate Affairs) and the relevant provisions of the 1956 Act/ the 2013 Act, as applicable. The consolidated financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of consolidated financial statements are consistent with those of previous year.

b. Principles of consolidation

The consolidated financial statements include the financial statements of the Company and all its subsidiaries (collectively referred to as 'the Group'), which are more than 50% owned or controlled and have been prepared, in accordance with the principles of consolidation laid down in Accounting Standard 21, Consolidated Financial Statements, notified under Section 211 (3C) of the Companies Act, 1956.

The consolidated financial statements have been prepared on the following basis:

- i) The financial statements of the subsidiary companies, used in the consolidation have been drawn upto March 31, 2014. Adjustments have been made for the effects of significant transactions or other events that occurred between March 31 and the date of the financial statements of the Parent.
- ii) The financial statements of the Company and its subsidiaries have been combined on a line-by line basis by adding together the book values of like items of assets, liabilities, income and expenses after eliminating intra-group balances / transactions and resulting profits in full. An unrealized loss resulting from intra-group transactions has also been eliminated except to the extent that recoverable value of related assets is lower than their cost to the Group.
- iii) The assets and liabilities of non-integral subsidiaries are translated into Indian Rupees at the rate of exchange prevailing as of the balance sheet date. Revenue and expenses are translated into Indian Rupees at an average rate. Any exchange difference arising on consolidation is recognised in the Foreign Currency Translation Reserve.
- iv) The consolidated financial statements are prepared using uniform accounting policies to the extent practicable across the Group. Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with those used by the Company, except in case of depreciation.
- v) Goodwill arising on consolidation

The excess of cost to the parent, of its investment in subsidiary over its portion of equity in the subsidiary at the respective dates on which investment in the subsidiary was made, is recognized in the financial statements as goodwill and in the case where equity exceeds the cost; the difference is accounted as capital reserve. The parent's portion of equity in the subsidiary is determined on the basis of the value of assets and liabilities as per the financial statements of the subsidiary as on the date of investment.

However, for subsidiary companies, Prime Focus London Plc, UK and its subsidiaries ('PF London Group') and Prime Focus World N.V. ('PFWNV') and its subsidiaries ('PFW Group'), goodwill arising on consolidation represents the excess of their respective cost of acquisition over the fair value of their respective share of the net assets / net liabilities of the acquired entity at the date of acquisition.

Goodwill on consolidation of PF London Group and PFW Group is ₹ 63,034,885 (Previous year ₹. 34,396,647) and ₹.1,207,581,397 (Previous year: ₹ 1,095,030,051), respectively.

Goodwill arising on consolidation is evaluated for impairment annually.

c. Use of estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Accounting estimates change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the consolidated financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

d. Tangible fixed assets

Fixed assets are carried at cost of acquisition or construction. They are stated at historical cost less accumulated depreciation and impairment loss. The cost comprises the purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standards of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

e. Depreciation

Depreciation on tangible fixed assets is provided using the Straight Line Method (SLM) as per the useful lives of the assets estimated by the management, or at the rates prescribed under Schedule XIV of the Companies Act, 1956 whichever is higher.

Asset Group	Rates (SLM)	Schedule XIV Rates (SLM)
Building	1.63% - 2.50%	1.63%
Plant and equipment - computer based assets	16.21% - 33.33%	16.21%
Plant and equipment - non computer based assets	7.07% - 14.29%	7.07%
Furniture and Fixtures	10.00%	6.33%
Office Equipments	16.21%	13.91%
Vehicles	9.50% - 20.00%	9.50%

Leasehold improvements are depreciated on a straight line basis over the period of the lease or useful economic life whichever is shorter.

However, subsidiary companies, PF London Group and Prime Focus International Limited (PFIL), provides depreciation using Written Down Value ('WDV') Method, to write down the cost of fixed assets to their residual values over the estimated useful economic lives at the following rates:

Asset Group	Rates (WDV)
Plant and equipment	13.91%
Furniture and fixtures	18.10%
Vehicles	25.89%

Gross book value of assets of PF London Group is ₹.2,922,904,227 (previous year ₹.2,336,363,065). Net book value of assets of PF London Group is ₹.1,184,573,303 (previous year ₹. 1,097,083,077) and depreciation charge for the period is ₹.197,612,694 (previous year ₹.177,557,310).

Gross book value of assets of PFIL is ₹.2,037,057,045 (previous year ₹.1,069,866,004). Net book value of assets of PFIL is ₹.1,920,137,922 (previous year ₹.1,035,856,688) and depreciation charge for the period is ₹.71,147,375 (previous year ₹.35,347,872).

Pursuant to the enactment of the 2013 Act, effective 1st April, 2014, Prime Focus Technologies Private Limited (PFT) has revised the estimated useful lives of its fixed assets to ensure compliance with the stipulations of Schedule II to the Act. Accordingly, the unamortized depreciable amounts of the fixed assets as at 1st April, 2014 have been charged over the revised remaining useful lives. Further, in accordance with the stipulations of the said Schedule, written down value of fixed assets, whose lives had expired as at 1st April, 2014 aggregating ₹. 2,250,751 (net of tax) have been adjusted against retained earnings.

f. Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment loss, if any. Intangible assets are amortized on a straight line basis over the estimated useful economic life.

The Group is amortizing the intangible asset pertaining to the 2D to 3D conversion business over 20 years as the Group believes the benefits from this intangible asset will accrue over 20 years.

Film rights

The Company amortizes film costs using the individual-film-forecast method. Under the individual-film-forecast method, such costs are amortized for each film in the ratio that current period revenue for such films bears to management's estimate of remaining unrecognized ultimate revenue as at the beginning of the financial period. Management regularly reviews and revises, where necessary, its total estimates on a film-by-film basis, which may result in a change in the rate of amortization and/or a write down of the intangible asset to fair value. The period of amortization only starts at the point at which the asset starts to produce economic returns.

Software

Software is amortized on straight line basis over its estimate of useful life being six years.

Acquired intangible assets

Externally acquired finite-lived intangible assets are initially recognized at cost and subsequently amortized on a straight-line basis over their useful economic lives.

Intangible assets are recognized in business combinations if they are separable from the acquired entity or give rise to other contractual/legal rights. The amounts ascribed to such intangibles are arrived at by using appropriate valuation techniques.

Finite-lived intangible assets that were acquired in a business combination, such as trade names, developed technology, customer relationships/ contracts, non-compete, intellectual property and goodwill are amortized on a straight-line basis over their estimated useful life as follows:

Trade names	Over 5 years
Developed technology	Over 5 years
Customer relationships & contracts	Over 5 – 10 years
Non-compete	Over 10 years
Intellectual property	Over 10 years
Goodwill	Over 10 years

The period of amortization only starts at the point at which the asset becomes available to produce economic returns. Amortization is classified as an operating expense.

Research and development costs

Research costs are expensed as incurred. Development costs are expensed as incurred unless, technical and commercial feasibility of the project together with availability of required resource the intent to complete the project and ability to use or sell the asset, can be demonstrated. Additionally, the assets should be able to generate probable future economic benefit and cost thereof should be measured reliably.

g. Impairment

The carrying values of assets are reviewed at each Balance Sheet date for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognized, if the carrying amount of these assets exceeds their recoverable amount. The recoverable

amount is the higher of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognized for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss, except in case of revalued assets

h. Borrowing cost

Borrowing costs include interest, amortization of ancillary costs incurred in connection with the arrangement of borrowing and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs relating to acquisition or construction of qualifying assets which takes substantial period of time to get ready for its intended use are capitalised to the extent they relate to the period till such assets are ready to be put to use. All other borrowing costs are expensed in the period in which they occur.

i. Leases

Finance leases, which effectively transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the inception of the lease term at the lower of the fair value of the leased property and present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in the Statement of Profit and Loss. Lease management fees, legal charges and other initial direct costs of lease are capitalized.

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight line basis over the leased term.

j. Inventory

Inventory valued at the lower of cost and net realizable value less any provision for impairment.

k. Investments

Long-term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

l. Revenue Recognition

Revenue comprises the fair value of the consideration for the sale of services and products in the ordinary course of the Group's activities. Revenue is shown net of applicable taxes.

The Group recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Group and no significant uncertainty exists as to its determination or realisation. The Group bases its estimates on historical results of the past taking into consideration the type of transaction, the type of customer and the specifics of each arrangement.

- i.** The Group provides a variety of post-production services including digital intermediate, visual special effects (VFX), two dimension to three dimension (2D to 3D) conversion and other technical services to its clients in the film, broadcast and commercial sectors.

Revenue on time-and-material contracts are recognized as the related services are performed and the revenues from the end of the last billing to the balance sheet date are recognized as unbilled revenues. Revenue from services provided under fixed price contracts, where the outcome can be estimated reliably, is recognized following the percentage of completion method, where revenue is recognized in proportion to the progress of the contract activity. The progress of the contract activity is usually determined as a proportion of hours spent up to the balance sheet date, which bears to the total hours estimated for the contract. If losses are expected on contracts these are recognized when such losses become evident.

Unbilled revenue is included within 'other current assets' and billing in advance is included as deferred revenue in 'other current liabilities'.

- ii.** Contract with contingent revenue terms

Some customer contracts for the provision of services are structured so that the economic benefits that flow to the Group are contingent on a future event, such as the performance of the film at the box office. In such cases management perform an assessment of the probability that the contingent event will occur. These assessments are generally based on available market information and revenue will only be recognised when this assessment shows that it is probable the contingent event will occur and therefore it is probable the economic benefits will flow to the Group. When the determination to recognize revenue is reached, the Group calculates revenue in accordance with the fixed price contract policy with regard to percentage of completion method, unbilled revenue, deferred revenue and change orders.

- iii.** Others

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividends are recognised when the shareholders' right to receive payment is established by the Balance Sheet date.

m. Foreign currency transactions

Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

At the period end, foreign currency monetary items are reported using the closing exchange rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Exchange differences

Exchange differences are recognised as income or expenses in the period in which they arise except in case of exchange differences arising on long term foreign currency monetary items related to acquisition of fixed assets which are capitalised and depreciated over the remaining useful life of assets.

n. Income taxes

Tax expense comprises of current and deferred tax. Current income tax is determined on the basis of taxable income and tax credits computed for each of the entities in the Group in accordance with the provisions of applicable tax laws of the respective jurisdiction where the entities are located. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by same governing taxation laws. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Group has unabsorbed depreciation or carry forward tax losses, the corresponding deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each balance sheet date the Group re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Group writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Minimum Alternative Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT credit entitlement. The Group reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Group will pay normal Income Tax during the specified period.

o. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

p. Provisions and contingencies

A provision is recognized when the Group has a legal and constructive obligation as a result of a past event, for which it is probable that cash outflow will be required and a reliable estimate can be made of the amount of the obligation. A contingent liability is disclosed when the Group has a possible or present obligation where it is not probable that an outflow of resources will be required to settle it. Contingent assets are neither recognized nor disclosed.

q. Retirement and other employee benefits

Post-employment benefits and other long term benefits of the Group:

Payments to defined contribution retirement benefit plans are recognized as an expense when the employees have rendered service entitling them to the contributions.

Retirement benefits in the form of Provident Fund and Family Pension Fund are defined contribution schemes and the contributions are charged to the Statement of Profit and Loss of the period when the contributions to the respective funds are due. Liability in respect thereof is determined on the basis of contributions as required under the Statute/Rules. There are no other obligations other than the contribution payable to the respective funds.

Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation done as per Projected Unit Credit method, carried out by an independent actuary at the end of the period. Actuarial gains and losses are recognized in full in the period in which they occur in the Statement of Profit and Loss.

r. Cash flow statement

Cash flows are reported using the indirect method, whereby profit/(loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

On March 19, 2013, the PFWNV issued 187,500 of class B Convertible Redeemable Preferred Shares ("class B Preferred"), which carry a par value of €0.01 per share, for \$10.0 million. These class B Preferred shares form a separate class and carry equal rights. The preferred shares are senior to the ordinary shares of PFWNV with respect to distribution of assets and rights upon liquidation of PFWNV or a Sale Transaction. The holder of the class B Preferred is entitled to the same dividend or distribution that the Board may declare to the holders of the Ordinary shares of PFWNV. The class B Preferred shareholders are entitled to vote together with Ordinary shareholders and the number of entitled votes will be calculated based on an as converted basis according to the then applicable conversion rate of the class B Preferred shares to ordinary shares of PFWNV. All outstanding class B Preferred shares shall automatically be converted into ordinary shares of PFWNV in the event of a qualifying initial public offering.

On June 21, 2013, PFWNV issued 827,781 of class A Convertible Redeemable Preferred Shares ("class A Preferred"), which carry a par value of €0.01 per share, for \$38.0 million. These class A Preferred form a separate class and carry equal rights. The Series A Preferred shares are senior to the Series B Preferred shares and ordinary shares of PFWNV with respect to distribution of assets and rights upon liquidation of PFWNV or a Sale Transaction. The holder of the class A Preferred is entitled to a cumulative preferred dividend, accrued on quarterly basis, of 5% per annum over the aggregate of (a) nominal value of the class A Preferred, plus (b) share premium paid, in addition to the same dividend or distribution that the Board may declare from time to time to the holders of the Ordinary shares of PFWNV. The class A Preferred shareholders are entitled to vote together with Ordinary shareholders of PFWNV and the number of entitled votes will be calculated based on an "as converted" basis according to the then applicable conversion rate of the class A Preferred shares to ordinary shares of PFWNV. All outstanding class A Preferred shares shall mandatorily convert to ordinary shares of PFWNV upon completion of a qualifying initial public offering or at any time at the option of the holder into ordinary shares.

In consolidated financials, class A & B Convertible Redeemable Preferred Shares are considered as part of Minority interest of the group.

The Group had recognized a deferred tax asset on the carry forward losses and unabsorbed depreciation in the previous year. In the current period, the entire unabsorbed depreciation and part of the carry forward losses have been set off against the taxable income for the period. During the period, the Group has entered into non-cancellable agreements to lease / sublease its premises and render outsourcing services to wholly owned subsidiaries, for a term of three to five years. The resultant revenue coupled with the revenue from existing business activities would generate sufficient taxable income to off-set losses carried forward. Accordingly, the management is confident of realizing the said deferred tax asset.

31. Stock based compensation

- i. PFT has reserved issuance of 231,572 (Previous year 62,505) equity shares of ₹10/- each for offering to eligible employees of PFT under Employees Stock Option Scheme (ESOP). 169,067 options were granted during the period. From options granted in previous year 4,880 were vested during the period.

The current status of the stock options granted to the Employees is as under:

	Current period	Previous year	Current period	Previous Year
	No. of outstanding options		Weighted average exercise price	
Outstanding at the beginning of the period / year	60,645	-	263	-
Granted during the period / year	169,067	62,505	2,847	263
Lapsed/ forfeited during the period / year	11,847	1,860	263	263
Exercised during the period / year	-	-	-	-
Expired during the period / year	-	-	-	-
Outstanding at the end of the period / year	217,865	60,645	2,268	263
Exercisable at the end of the period / year	4,880	-	263	-

For stock options outstanding as at June 30, 2014 the range of exercise price is ₹263 to ₹ 4,478 and weighted average remaining contractual life is 5.35 Weighted average fair value of options granted during the year is ₹ 822

Following are details with regard to determination of the fair value of stock options:

Option Pricing Model used – Black-Scholes-Merton formula

Weighted average share price – ₹ 2,488/- per share

Expected volatility – 10%

Option life – 6 years

Expected dividends – 0% yield

Risk-free interest rate – 8.68% p.a.

PFT has followed the intrinsic value method to account for the grant of stock options. Since the intrinsic value, being the difference between the Net Asset Value and the Exercise Price, is Nil, the grant of options does not have any financial implications.

- ii. PF London Group operates an equity-settled, share-based compensation plan. The fair value of the employee services received in exchange for the grant of the options is recognized as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options granted.

The charge for the period recognised in Statement of Profit and Loss in respect of equity-settled, share-based payments is ₹ nil (Previous year: ₹ nil).

The following tables reconcile the number of share options outstanding and the weighted average exercise price:

For the period ended 30 June 2014	Options	Weighted average exercise price
	Number	Pence
Outstanding at 1 April 2013	1,000,287	7.00
Granted	-	-
Forfeited	-	-
Exercised	-	-
Outstanding at 30 June 2014	1,000,287	7.00

Outstanding at 31 March 2013	1,000,287	7.00
Exercisable as at 31 March 2013	1,000,287	-

The average share price during the year ended 31 March 2013 was 11.28 pence. Since PF London Group has delisted from AIMS w.e.f 16th December 2013, no share price information is available.

- iii. During the period the Board of Directors of PFW N.V. approved the share option plan and reserved 973,285 common shares for issuance thereunder and options of 408,586 ordinary shares were granted to certain executives and board members.

Each share option converts into one ordinary share of PFW N.V. on exercise. No amounts are paid or payable by the recipient on receipt of the option. The options carry neither rights to dividends nor voting rights. Options may be exercised at any time from the date of vesting to the date of the expiry.

The following share-based payment arrangements were in existence during the current period:

	Number	Grant date	Expiry date	Exercise Price per share	Fair Value at Grant date
Grants	408,586	1-Jul-2013	1-Jul-2023	\$ 13.13	\$ 8.92-9.31

61,250 options were fully vested at the date of grant and 347,336 options vest over a period of 16 to 36 months after their date of the grant and expire within ten years from the date of grant, or ninety days after the resignation of the optionee, if not exercised.

Fair value of share options granted in the period

The weighted average fair value of the share options granted during the fiscal year is \$9.12. Options were priced using a black scholes option pricing model. Where relevant, the expected life used in the model has been adjusted based on management's best estimate for the effects of non-transferability, exercise restrictions and behavioral considerations. Expected volatility is based on historical sale price volatility of comparable companies in the industry over the expected life of 5.19 – 5.81 years.

Inputs into the model were as follows:

Grant date share price	\$ 13.13
Exercise price	\$ 13.13
Expected volatility	85%
Expected life	5.19 – 5.81 years
Dividend yield	-
Risk free interest rate	1.39 – 1.66%

Movement in shares options during the period

The following reconciles the shares options outstanding at the beginning and the end of the period:

	Numbers of Options	Weighted average exercise price
Balance at beginning of period	-	-
