Mr. G. M. Rao Chairman

#### Dear Shareholders.

The year 2012-13 has been remarkable for the Company in more ways than one. Set against a background of a worsening Current Account Deficit coupled with rupee depreciation against the US dollar and euro, persistently high inflation and constrained liquidity in the domestic and global financial markets, most Indian enterprises have faced multiple and serious challenges.

Considering the above, I am happy to state that your Company has seen significant improvement in its airport sector, disinvested multiple stakes in the power and highways sectors, and evolved a new approach to raising capital.

#### Maiden Dividend

Our shareholders put lot of faith in the Company and stood by us through troubled times. In recognition of their loyalty, I am happy to inform that the Board is pleased to announce a maiden dividend of 10% for this year.

The substantial growth in gross revenue recorded by DIAL is the more significant in the backdrop of 4% net decline in the pan-India air traffic. Delhi and Hyderabad continue to getting recognised at a global level in the Airport Service Quality by being ranked fourth and second respectively by ACI in their respective categories. DIAL has become the world's first airport to achieve 'ISO 22301:2012' certification for its Business Continuity Management System and also received the International Safety Award from British Safety Council. Hyderabad airport received the Best Cargo Airport award by Air Cargo Agents Association of India. Our Sabiha Gokcen International Airport in

Istanbul was the only airport named under the 'super brands' of Turkey in that region.

Despite considerable external challenges, the 181.6 km Hyderabad – Vijayawada and 99 km Hungund – Hospet Highway projects were well commissioned in time, as also the 1st Unit of 300 MW of Warora and 1st Unit of 350 MW of Kamalanga power projects. These will result in a quantum increase in our revenue stream and cash flow.

Against these positive developments, one unfortunate event that occurred was the nationalization of Male' Airport where we were denied a fair treatment. We were compelled to take the matter to the courts of law and go in for compensation under the terms of contract. The matter is under arbitration and I remain optimistic about the eventual outcome.

Reviewing our portfolio and processes from time to time is an on-going exercise to ensure compliance with our strategy. After a careful review of the changed circumstances around the KUA highway project, we decided to give notice of termination. Our stand was appreciated by one and all including the Government. We presented an alternative business model to NHAI that would not only enable us to take up this project again, but also stimulate investment in the highways sector. We also exited the 58 km Thondapalli - Jadcherla Highway asset, Coal mines in South Africa as well as 800 MW Island Power, Singapore, at a healthy premium. Power, Singapore, at a healthy premium.

# Macro-economic outlook & inherent volatility

The GMR Group has recognized that the environment has changed over the last few years, and will continue to be volatile in the foreseeable future. In this context, profitability and liquidity will prove to be the critical differentiators for sustained financial performance. These in turn will be driven by the ability to adapt and to proactively maintain a high quality portfolio.

As a result, the Group last year carried out an exhaustive analysis of the trends in the infrastructure sector. This analysis resulted in deep insights into the changes that can be expected over the next few years in the infrastructure sector, the financial ecosystem, and the economic environment. The results indicated that there is a need for proactive focus on operating cash flows and to develop a capital recycling mechanism. After analysing these in detail, the Group changed its strategic direction to an Asset Light – Asset Right (ALAR) approach.

The Asset Right strategy builds upon the Group's strengths as a developer, where it follows the principle of "Develop, Build, Create Value, Divest, and Reinvest". Through regular portfolio reviews, the Group identifies those assets which have already created maximum value, as well as those which are value eroding. Divesting these assets releases capital for better opportunities, and also improves the quality of its portfolio. This recycling approach insulates the Group from the volatility seen in the global equity markets and enables sustainable growth and profits.

The Asset Light approach will improve profitability and frees cash flows by 'sweating' of existing assets, i.e. achieving better operating efficiencies by increasing revenue and reducing cost. The Group will also use the knowledge base built over the past few years to invest in new opportunities with a low capex requirement.

We strongly believe that the appropriate combination of the above two will form a sustainable long term business model for Indian infrastructure developers.

rigorously operationalized this strategy with multiple organizational initiatives, and ensuring a strong focus on profitability, cash flow and liquidity in our 3 year rolling Strategic Plans and Annual Operating Plans. Our Asset Right execution has resulted in the successful divestment of GMR stakes in Jadcherla (Highways), Island Power (Energy, Singapore) & Homeland Energy Group (Energy, South Africa). These have cumulatively released over Rs 1,800 crore of equity.

On the corporate front, our focus, among others, is on innovative measures to raise cost-effective funds and a drastic increase in operational efficiencies such as cost reduction, improvement of project management processes and shared services and process excellence. Our Business Excellence initiative has already resulted in operational savings of close-to Rs. 90 crore last year alone.

#### **Value-based Governance**

While building entrepreneurial institutions of lasting value that make difference to the lives of the people is the core philosophy at GMR, we did not lose sight

of the fact that organisations have several parallels with human beings... they breathe, they grow, they expand, they migrate, get sick and ultimately perish. And like human beings, only those organisations shall stand the test of time which are founded on sound values that have percolated into its operational practices.

In order to create a unique values based culture at GMR, the management has taken up several initiatives for value assimilation and demonstration transcending the work place and interactions with stakeholders. One of such initiatives was "Leader Led Sessions" on the 7 identified values of the Group... starting with Humility. So far, 106 leaders have presided over such sessions for their teams covering about two thousand employees across the organization. They discussions about initiated importance and impact of observance of values at personal level as well as in building institutional culture with the support of innovative learning modules developed by our Talent Management Group.

#### **Public Advocacy Measures**

Your Company has grown in stature and is invited by various government and business forums. It is our responsibility to present ideas and suggestions at policy level to ensure the healthy growth of infrastructure in our country.

Your Company is a member of high level committee for infrastructure finance, constituted by the Prime Minister's Office, chaired by Mr. Deepak Parekh.

In order to tackle the issues of power sector, the Association of Power

Producers, of which your Company is an active member, has made several representations at the Prime Minister's Office and all other concerned ministries. Business Chairman Mr. GBS Raju and I are members of the sub groups formed under the chairmanship of Power Minister. Some of the concepts being pursued are pooled price mechanism for gas and coal, and mechanism for coal linkages for upcoming power plants.

In the airports sector, especially in context of DIAL, your Company had been actively engaged with AERA to obtain the revision in aeronautical charges for the control period 2009-14 which were not revised for several years in the past. Going forward, we expect the tariff revision process to be streamlined well ahead of next control period in 2014 and without any adjustment or calibration for partial time during a control period.

#### **Sector Outlooks**

#### Airports

I am happy to note that the Indian airports sector now has a stable regulatory and appellate framework in place and working as intended.

The past year has been possibly a low point for the overall Aviation sector and things can only improve from now on. While air traffic remains a cause for concern with pan-India 2012 passenger traffic recording a net decline of 4% compared to 2011, I consider this decline to be of a temporary nature and not a systemic issue. In the long term, I am confident that India's economic might will prevail and favourable demographics will continue to drive demand for air travel both on domestic and international routes.

#### Energy

Ensuring a sustained supply of gas continues to be a challenge faced by the entire gas-based power plant sector. Needless to say, we are taking every step possible to safeguard our supplies and increase them proactively.

We are happy to state that this complete dependence on gas will come to an end with our coal-based power plants expected to come online during the ensuing financial year. Coupled with a robust backup plan for coal supply from our domestic linkages, imported coal and our own captive sources in Indonesia, we expect to significantly improve our Energy sector performance.

#### **Urban Infrastructure & Highways**

The entire Highways sector continues to face challenging times with issues such as land acquisition and regulatory and environmental clearances. However, we consider these to be transient issues and expect that they will be ironed out in due course. The last year's performance in highways reflects the cost of such challenges.

We believe that public private partnership is a must to build the roads the nation needs, and look forward to a refinement of the partnership model to ensure that it is a success for all stakeholders.

#### **Looking Forward**

In our journey ahead for the year 2013-14, 2nd Unit of 300 MW of Warora, 2nd and 3rd Units of 350 MW each of Kamalanga and 1st Unit of 685 MW of Chhattisgarh will be commissioned. 29.7 km Chennai Outer Ring Road will also get completed this year.

Today we live in a highly connected world, yet, in highly uncertain times. Despite all the challenges, our Group has succeeded to put itself in a strong position only due to its foundation of enduring business models and Institutional strengths of values and beliefs. Our recently launched new initiatives towards outsourcing of transactional and routine processes to drive process standardization, process efficiency, process improvement and cost reduction have been very successful.

In this journey, I would like to thank all of you, the GMR family of shareholders, for your solidarity and support. With your continued support and good wishes, I am sure, the Group will emerge fitter and stronger.

Coming to the macroeconomic and sector outlook, we remain committed to the Public-Private Partnership (PPP) model and will continue to seek out attractive projects that meet the ALAR strategy guidelines, both in India and globally. I look forward to the collective refinement of the PPP model to appropriately reflect the current economic volatility and intense pressure on financing typical infrastructure projects. While initiatives are already underway for allowing external financing, deepening corporate bond markets, and so on, the financing model itself will need to reinvent itself, potentially following global trends favouring pension funds, sovereign funds and private equity players. We look forward to significant policy initiatives by the governments in this field.

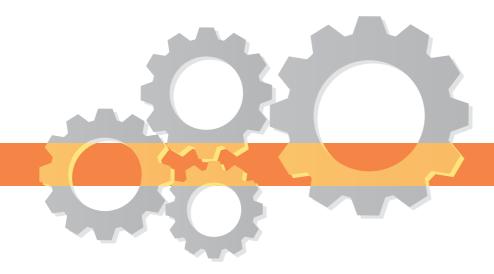

#### Acknowledgements

I express my sincere gratitude to our shareholders, investors, joint venture partners, banks and financial institutions with whom we have enjoyed cordial relationships. I would also like to thank SEBI, NSE, BSE, RBI, NHAI, TIDCO, AAI, AERA, CERC, Central and State Governments and all other regulatory bodies for providing continuous support and an enabling environment for smooth running of our business. I wish to express my appreciation to my colleagues on the Board and our employees for their thought leadership, dedication and commitment. I express my sincere appreciation to the Board of Directors and the employees of the subsidiaries for their continued support. I am indeed grateful to you all for your cooperation and the trust you have reposed in us.

With my very best regards,

Ang

G. M. Rao

# A CASE FOR A DIFFERENT BUSINESS MODEL IN INFRASTRUCTURE

# GMR transitions with Asset Light Asset Right

The emerging global volatility and uncertainty coupled with the lack of an institutionalized policy environment demand the Indian Infrastructure players to be more dynamic and adaptive than ever before.

The above systemic volatility coupled with the massive investments projected (Rs. 55 trillion during the 12th Plan) for the infrastructure sector demands far-reaching changes in financing models.

As outlined in the 2011-12 Annual Report, your Company had recognized that the ability to rapidly and appropriately adapt to the intrinsically volatile world, proactively assess the quality of one's portfolio, profitability and liquidity will prove to be the critical differentiators for sustained financial performance.

Your company adopted the "Asset Light – Asset Right" (ALAR) strategy after a detailed analysis of the trends in the infrastructure sector. As part of ALAR strategy, your Company's focus moves now from asset growth to cash growth. Your company will shift investments from assets with low profit potential to those with higher returns. This will help improve profits & cash even if size of assets is lower. ALAR approach is two pronged strategy – Asset Right & Asset Light.

#### **Asset Right**

Asset Right strategy is about making portfolio more attractive and releasing capital. This capital recycling happens based on the right valuation and right timing. In addition, this also triggers divesting the value eroding assets. This would lead to generate growth capital and improve profits. The funds will be used for more attractive opportunities. This approach builds upon our strengths as a developer, and consequently we follow the principle of "Develop, Build, Create Value, and Divest".

#### **Asset Light**

The objective of the Asset Light strategy is to improve profitability and free cash flows by 'sweating' of existing assets, i.e. achieve better operating efficiencies by increasing revenue & reducing cost and invest in new opportunities with lower capex. Through this approach new revenue streams can be developed by utilizing your Company's intellectual instead of financial capital. We are actively engaged in developing several such options.

# **GMR:** Strategy, Planning and **Enterprise** Risk Management

Over the years, GMR has continued to invest in sound institutional processes of business planning, enterprise risk management and performance management, leading to process-driven decision making while preserving the entrepreneurial DNA of the group.

The result was that even as an unprecedented global uncertainty affected capital availability, interest rates, exchange rates and the infrastructure regulatory framework, our strategy and planning processes were geared to address them.

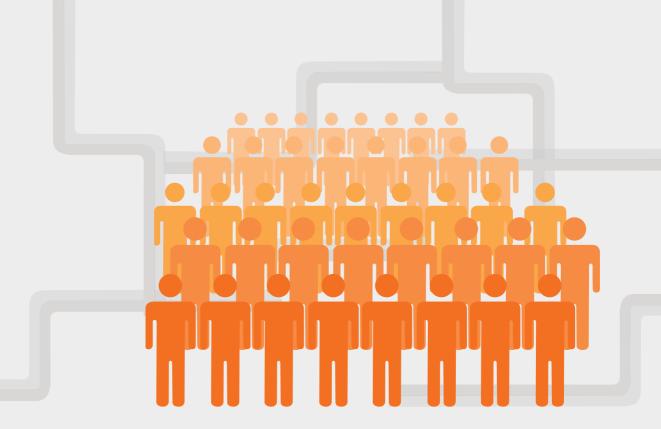

Your Company continues to follow a rigorous strategic planning process from strategy to goal-setting which includes using IT for planning, consolidation, decision support and business reviews. The process is enabled by a combination of central, sector and business teams.

Further, your Company continues to expand the reach of its robust enterprise risk management processes comprising new bids, project execution and asset management. These processes are designed to provide the Board with an independent expert view on all strategic decisions with detailed modelling and analysis.

During the year under review, your Company responded with multiple initiatives to address the near-systemic volatility and uncertainty. It built upon the detailed group-wide long-range (five

years) exercise carried out in the last financial year and refined the three-year strategy (FY14-16) and annual operating plans (FY14).

This resulted in the operationalization of the crucial ALAR strategy and continued to highlight the benefits of effective risk management, rigorous focus on business excellence, project execution, cash conservation, revenue maximization and cost management.

In order to enable the development of future leaders, the multi-tier leadership development program has been enhanced right from entry level (Executive) to Senior levels (Vice President). The content of the programme has been redesigned based

on need, focusing on "Asset Light Asset Right", "Shrink and Grow" and "Sweat the Asset". A pipeline of 167 top potential leaders has been identified to occupy strategic roles across the organization based on succession planning. The succession planning health of the

organization is at 77%. The focus is on developing the top potential leaders for future roles through job rotation and accelerated development program as per career aspiration aligned to future role.

#### **PROCESS & GOVERNANCE**

# In GMR, we continue to believe in a sound governance comprising of the following:

- Family governance guided by a family constitution
- Management assurance
- Ethics & Intelligence
- Group Performance Advisory Council (GPAC)
- Whistle-blower Policy and Ombudspersons
- Corporate Centers of Excellence
- In-house dedicated Shared Service Center
- Business Excellence

In the current financial year FY 12-13, the Group successfully completed Phase 1 of the build and operate phase for its Shared Services Centre for human resource management and finance and accounting processes for a select set of group companies. The outcomes of the Phase 1 completion indicate and align to the overall objectives to be delivered. Through the effort of the Shared Services, the group has been able to automate significant employee and vendor facing processes. It is expected that such automation implemented will deliver significant process cycle time

reduction going forward in the fiscal year FY 13-14.

The focus for the next fiscal year will be towards increasing the level processing maturity by transitioning additional processes that non-transactional in nature and are from other locations/ operating sites of GMR. The next fiscal year will also aim at enabling end to end process improvements for a critical few vendor facing processes by adopting best in class practices such as e-Payments. digitization, scanning and document management systems.

#### **TECHNOLOGY**

#### IT infrastructure

Our IT infrastructure provides seamless network and connectivity across all GMR Group locations — national and international. It includes video conferencing across all locations and VoIP at all desks, messaging and collaboration solutions, live meetings, and so on. All of these enhance collaboration while reducing costs.

During the year, we have further improved efficiencies through modernization of our datacentre and virtualization of servers.

#### Automation as an advantage

We are one of a limited number of groups to have a single instance of SAP across all our companies. This enables standardization of reporting and financial controls as well as cost efficiencies.

We have already e-enabled several core employee processes including travel, HR and performance management.

As our portfolio shifts from projects to assets, we have started automating various business processes with solutions designed to enhance operational efficiency, reduce project lifecycle costs and times, and improve governance. A few examples are:

- Business Intelligence and dashboards to facilitate the monitoring of key metrics and quick decision making.
- In Airports, the use of E-POS and analytics for retail and duty-free reveunes, a mobile app on Windows 8 for passengers.
- ▶ In Energy, automation and control systems for power plant processes, including plant maintenance and materials management.
- In Highways, we have an automated toll management system and centralised video monitoring.
- For project management, we have developed collaborative tools,

centralised project war rooms, and an Engineering Document Management Solution to enable design and engineering collaboration with external partners.

#### IT security

Your Company has well-defined IT policies, standardized across group with systems for continuous monitoring and alerts. In airports, DIAL became first airport in India and second in World to achieve ISO 19770-1 certification. Some of the features are

- Assessment and certification for ISO 27001, and ISO 22301 (formerly BS 25999)
- Secured network, applications and data
- Implemented Data Protection Mechanisms

#### **GMR Varalakshmi Foundation**

GMR Varalakshmi Foundation, the CSR arm of GMR Group, has the mandate to enhance quality of lives of communities surrounding the Group's businesses. Towards this, it focuses on four dimensions: Education; Health, Hygiene and Sanitation; Empowerment and Livelihoods; and Community Development.

Under the area of Education, GMRVF runs several educational institutions including an Engineering, Degree and Polytechnic colleges apart from several schools. 20% of the seats in the schools are set aside for children from socio-economically disadvantaged backgrounds and are free. The Foundation also supports the education of poor students by facilitating scholarships and educational loans. Over 3.000 students have received this support. Apart from this, the Foundation focuses on improving the infrastructure facilities and quality of education in Government schools and pre-schools, apart from running its own Balawadis (pre-schools for children of 3-5 year age group). The Foundation works with about 300 government. schools, reaching out to

about 30,000 children. The Foundation is also managing and supporting over 180 Balwadis and Anganwadis across the country benefiting 3,500 pre-school age children.

GMRVF provides health and emergency services to under-served communities in its target areasthrough 27 medical clinics, 4 ambulances and 4 Mobile Medicare Units. The clinics serve over 7000 patients per month. A 135-bed secondary care hospital has been established in Srikakulam, Andhra Pradesh, to serve the communities bv offering quality treatment at affordable prices. The Foundation has also constructed 19 public toilets used by about 30000 people per month. Many health awareness programs are organized by the Foundation towards preventive care. Enhancing livelihoods is a key area of GMRVF's focus, and towards this, GMRVF runs 8 vocational training centres which train about 4000 unemployed and drop-out youth every year in different market relevant skills. Over 80% of them are settled in wage or self-employment. GMRVF also works towards women

empowerment by promoting and strengthening Women Self Help Groups. About 300 groups with over 3500 members are receiving mentorship, capacity building and market support. Products made by these groups are marketed under an initiative called EMPOWER, through shops at Delhi and Hyderabad International Airports, bulk orders for conferences and seminars and through an online store. This helps assure a steady stream of income for the women.

An innovative initiative in the area of youth empowerment are Pratibha career counselling-cum-coaching centres which have helped about 400 youth to get jobs in public and private sector organizations.

The community development thrust of the Foundation focuseson working with the community on various initiatives, e.g., establishing village libraries, promoting youth and children's clubs and generating awareness on a number of social and environmental issues.

With its interventions, GMR Group is touching the lives of lakhs of people.

#### Mamatha-A Gifted Child!

Mamatha's family supported GMR Hyderabad International Airport Ltd by giving 2 acres of land and a house during land acquisition. Her father Anjaneyulu is a differently-abled person and runs a

petty shop at home while her mother works as a wage labourer. Mamatha was selected for support from GMRVF under its Gifted Children program where meritorious children from underprivileged backgrounds are supported for education at quality schools. Mamatha was admitted in GMR Chinmaya Vidyalaya, Shamshabad when she was in Std. III and is now in Std. IX. "Initially I felt nervous at the school as I was not able to follow English which teachers and other students speak, but the teachers and GMRVF staff supported me to overcome my inhibitions and made me confident and self-disciplined" she says. Mamatha excels in academics and is also good at painting and sports. She aspires to become an IAS Officer and serve the poor and needy!

#### Fighting Odds for a Better Life!

A girl who failed her Board exam is now a team leader at a Data Entry Company! Yes,

this is the true story

of 30 years old Anthonyamma who after failing board exams was working as a helper in an NGO at a salary of Rs. 2,500 per month. Her husband who is alcoholic has never contributed much to supporting her or their two children. She came to know about the GMR Varalakshmi Centre for Empowerment and Livelihoods at Bangalore through a community awareness programme organised by GMRVF for Candidate Mobilisation. She joined the 4th batch of the Basic Computer Course and showed great interest in being part of the course. She was very hard

working and applied herself seriously to the training, including the spoken English and soft skill sessions which improved her self-confidence. On completion of the course Anthonyamma joined adata entry company and very soon has become a team leader earning a salary of Rs. 8000 per month. Her employer says that she has good leadership qualities and is a very efficient team leader. Now Anthonyamma is able to provide better quality of life for her family and is sending her children to a good school.

The revenue from operations of the Company on standalone basis has gone up by 3.68% from ₹ 1,381.87 Crore to Rs 1,432.79 Crore. This has been contributed on account of increased revenue to the extent of ₹ 51.13 Crore from EPC segment. The increase in borrowings from ₹ 2,960.13 Crore to ₹ 4,237.20 Crore to meet the increased requirement of funds for investments in subsidiaries is the reason for the increase in interest expenditure from ₹ 197.35 Crore to ₹ 374.43 Crore. Profit on sale of the investment in GMR Energy (Singapore) Pte Limited amounting to ₹ 75.83 Crore, has been shown as an exceptional item in the financial statement.

#### Dividend

Considering the gain of ₹ 75.83 Crore earned by the Company on divestment of its stake in GMR Energy (Singapore) Pte. Limited and better operational performance base of the airport sector during the financial year under review, the Board of Directors has recommended a dividend of ₹ 0.10 per

equity share of ₹ 1 each (10%) for the financial year (FY) ended March 31, 2013 subject to the approval of shareholders at the Annual General Meeting.

#### **Subsidiary Companies**

As on March 31, 2013, the Company had 127 subsidiaries apart from other joint venture and associate companies. Operation of businesses through subsidiaries is mainly due to requirement of concession agreements. The complete list of subsidiary companies as on March 31, 2013 is provided in Annexure 'A' to this report.

# Review of Operations / Projects of Subsidiary Companies and EPC

The detailed review of operations of each subsidiary's business is presented in the respective Company's Directors' Report; a brief overview of the major developments thereof is presented below. Further, Management Discussion

and Analysis, forming part of this Report, also brings out a brief review of the business operations of various subsidiaries, joint ventures.

#### **Airport Sector**

Airports business consists of four operating airports, with two in India at Delhi and Hyderabad, and two airports abroad at Istanbul, Turkey and Male. Male Airport has since been taken over by Maldives Airports Company Limited (MACL), an entity owned by Government of Maldives.

An overview of these assets during the year is briefly given below:

#### Delhi International Airport Private Limited (DIAL)

DIAL is a Joint Venture (JV) between GMR Group (54%), Airports Authority of India (AAI) (26%), Fraport AG Frankfort Airport Services Worldwide (Fraport) (10%) and Malaysia Airports (Mauritius) Private Limited (10%) and has entered into a long-term agreement to operate, manage and develop the Indira Gandhi International Airport (IGIA), Delhi. Passenger traffic at IGIA was 34.3 million in FY 2012-13, which has seen a marginal decline over the previous year in line with the 2% decline in the overall sector primarily due to decline in domestic air traffic by 9%. International traffic however went up by 8%. Cargo tonnage at IGIA recorded 0.546 MT which was 3.88% decline over the previous year, which followed the overall cargo decline of 4% in the sector. Revision of tariff rates during the year enabled DIAL post a profit after tax (PAT) of ₹ 72.52 Crore for the financial year under review.

The significant developments during the year were:

- DIAL was ranked the 4<sup>th</sup> best airport globally and 2<sup>nd</sup> best in the capacity band of 25-40 million passengers per annum (mppa) in the ASQ survey by Airport Council International (ACI);
- DIAL implemented Business Continuity Management System to avoid any operational disruptions due to unforeseen circumstances and became the world's first airport to achieve the 'ISO 22301:2012 Certification' for Business Continuity Management system;
- National Air Traffic Services implementation to maximize Runway/ Apron Utilization; Achieved Air Traffic Movements (ATMs) of 73/hour during peak hour operations, up from 65 movements per hour;
- Air Freight Station at Kanpur and Ludhiana launched;
- DIAL's Carbon Emissions inventory has been verified as per ISO 14064 by M/s DNV and accredited by ACI for Level 2 (Reduction);
- DIAL has started Solar Power generation and has setup a pilot project for the same.

# GMR Hyderabad International Airport Limited (GHIAL)

GHIAL is a JV Company promoted by the GMR Group (63%) in partnership with AAI (13%), Government of Andhra Pradesh (13%) and MAHB (Mauritius) Private Limited (11%). GHIAL has set up India's first Greenfield Airport, Rajiv Gandhi International Airport (RGIA) at Shamshabad, Hyderabad.

RGIA recorded passenger traffic of 8.38 million in FY 2012-13, which is down by 3% over FY 2011-12. In FY 2012-13, international traffic grew by 10% as compared to FY 2011-12 while the domestic traffic declined by 6%. ATMs were 90,647 Nos. in FY 2012-13, which are down by 9% over FY 2011-12. In FY 2012-13, the domestic ATMs declined by 12% and international ATMs grew by 2% as compared to FY 2011-12.

The growth in international traffic was largely due to capacity increase i.e. inclusion of new airlines and increase in frequency of existing routes.

Cargo handled in FY 2012-13 was 83,990 tons which registered a growth of 3% over 2011-12. The domestic cargo declined by 2% and international cargo grew by 7% as compared to FY 2011-12. Better operating performance resulted in profit after tax (PAT) of ₹ 105.84 Crore for the financial year.

On domestic front, Kingfisher airlines withdrew its operations completely out of Hyderabad while Indigo and Spicejet added their capacities and routes.

The Company has adopted a two-pronged strategy, for overall improvement in its business. The first focused on airlines that are the primary customers called "Route Development Strategy" and the second one being "Passenger Development Strategy". The primary objective of these strategies are to make Hyderabad Airport as South and Central India's gateway thereby enabling airlines to have financially sustainable operations from Hyderabad.

The following certificates were received during the year:

- 1st Airport in India to receive ISO 20000 certification for Best Practices in Information Technology Management;
- RGIA accredited ISO 50001:2011 Energy Management System Certification.

# Istanbul Sabiha Gokcen International Airport Limited (ISGIA)

ISGIA is promoted and developed by the consortium consisting of GMR Infrastructure Limited (GMR Group - 40%), Limak Holding (40%) and Malaysia Airports Holdings Berhad (20%). The terminal developed by the consortium has a capacity to handle up-to 25 million passenger per annum and has the rights to operate the terminal buildings, multi-story car park, cargo, aircraft refueling operations, airport hotel and Commercial Important Person (CIP) facilities in the airport.

ISGIA is located in the Asian side of Istanbul with connection to two major highways and has a catchment area of 20 million population. The city of Istanbul has a vibrant and growing economy and is the economic capital of the country. It is the 3rd most visited city in Europe and 5th in the world. ISGIA recorded 14.9 million total passengers in calendar year 2012, which corresponds to a 9% annual increase in total passenger traffic.

The group's 40% share of loss of ISGIA was ₹ 123.33 Crore for the financial year.

ISGIA's growth potential remains promising due to the capacity constraints at the city's major Ataturk airport. As a result, nine new airlines started

flights out of ISGIA during the year and Turkish Airways has also started new international destinations from ISGIA from March 2013.

#### **GMR Male International Airport Private Limited (GMIAL)**

- Ibrahim Nasir International Airport is a brownfield airport in Malé, the
  capital city of Maldives. The airport is developed and operated by
  GMIAL, a joint venture partnership between GMR Group (77%) and
  Malaysia Airports (Labuan) Private Limited (23%);
- Refurbishment of existing commercial areas and development of new commercial areas was nearly complete, which were leading to an increase in discretionary consumer spending at the airports as more retail options were now available at the airport;
- New terminal development project was on track for an early 2014 commercial opening date before it had to be halted due to a 'Stop-Work' order by the Ministry of Civil Aviation, Maldives in August, 2012;
- Overall passenger traffic at the airport had increased 6.5% for the 8
  months period in FY 2012-13. International traffic grew at 1.9%
  compared to the same period last year, despite negative impact on
  international tourist traffic due to political disruptions in first half of
  calendar year 2012;
- The airport was taken over by MACL, an entity owned by Government
  of Maldives, on December 08, 2012 declaring that the concession
  agreement is void ab-initio and the arbitration process has been
  initiated for settlement.
- Management of the group is confident of proving that the concession agreement was not void ab-initio and that group would be entitled for compensation under the concession agreement.

#### **Aerotropolis Development**

Hyderabad and Delhi airports and surrounding land are being developed as an airport city or "Aerotropolis", with a mix of aeronautical and non-aeronautical developments. As adjoining commercial areas to the airports, they are bound to encourage the business activity and have a positive impact on the economy. DIAL is developing Aerocity in the locality of the Delhi Airport which may ultimately cover 250 acres of land.

GHIAL is developing India's largest Airport City in the vicinity of Hyderabad Airport with an objective of creating an ecosystem that will generate benefits for the Airport as well as the regional economy and facilitate in establishing the prominence of Hyderabad Airport in the global arena. Master Plan for the entire Airport City has been completed and the physical infrastructure activities have started. The initial phase assets consisting of Aerospace SEZ, Retail, Business School, Exhibition Centre etc. are in various stages of design and development.

#### **GMR Aviation Private Limited**

GMR Aviation Private Limited operates and owns one of the youngest fleets in the country and addresses the growing need for charter services in the country. The operations are managed by professionals with robust processes and systems to ensure highest levels of efficiency and safety. The company has three aircrafts (two Falcons and one Hawker) and two helicopters in its fleet. Due to slow down of Indian Economy, the overall business for internal as well as external air charter has come down, which resulted in a loss of ₹ 31.11 Crore, which includes ₹ 8 Crore for cancelation of purchase agreement of an aircraft.

#### Aircraft - Maintenance, Repair and Overhaul (MRO)

The MRO facility is a part of aero SEZ of GMR Hyderabad International Airport. It is being operated by MAS GMR Aero Technic Limited ("MGAT") which is a wholly owned subsidiary of MAS GMR Aerospace Engineering Company Limited ("MGAE"). MGAE is a 50:50 joint venture set up by GHIAL and Malaysian Aerospace Engineering Sdn Bhd.

The MRO facility has ultra-modern facilities for aircraft maintenance, painting, avionics upgrades, interior refurbishments, aircraft modifications and structural repairs. It can cater to various types of narrow-body as well as wide-body aircraft belonging to Airbus, Boeing and ATR families.

During the year under review, maintenance service was provided on 30 various families of aircraft which include C-checks on B737-800, B737-900, ATR-72, A320, and A321 for domestic customers and painting on Cessna Citation 560XL and ATR 72-500 aircraft. Additionally Engine Change, Nose Landing gear & Main Landing gear change were carried out on B737-800 & B737-900 aircraft. Apart from the above, seat retrofit was performed on two A320 aircraft. The main customers during the year were - Spicejet, Go Air, Kingfisher and Indigo. The group's 50% share of loss of MGAT was ₹ 45.35 Crore.

#### **Energy Sector**

Energy Sector through Special Purpose Vehicles (SPVs) is operating around 1484 MWs of Coal, Gas, Liquid fuel and Renewable power plants in India and around 5690 MWs of power projects under various stages of construction and development besides a pipeline of other projects. The Energy Sector has a diversified portfolio of thermal and hydro projects with a mix of merchant and long term Power Purchase Agreements.

The current operating portfolio of energy sector comprises of:

| Name of SPV   |                       | Capacity                            | Fuel                             |

The following are the major highlights of the Energy sector:

#### **Operating Assets**

- GPCL Achieved Energy management system Certification ISO 50001;
- GPCL achieved the GREEN Award from Tamil Nadu Pollution Control Board (TNPCB) presented by Honorable Chief Minister;

- GEL & GVPGL operated at a suboptimal PLF of about 25% due to reduced gas supply;
- Gujarat Solar Project and wind projects achieved Clean Development Mechanism (CDM) registration.

The Company along with its overseas subsidiary sold balance 70% interest in GMR Energy (Singapore) Pte Ltd.

The energy sector continues to face constraints in terms of availability of coal and gas for running the power plants. The supply of coal in India is not adequate due to lower production of coal which in turn necessitated many power producers to import coal with attendant risks in relation to pricing, government policies of the exporting countries, transportation etc. The availability of gas is also another challenge faced by the power producing companies. Lack of adequate fuel in the country continues to adversely impact the performance of the subsidiaries in the energy sector.

Amongst the energy subsidiary companies, GMR Power Corporation Limited, GMR Gujarat Solar Power Private Limited and GMR Renewable Energy Limited made a profit of ₹ 91.03 Crore, ₹ 9.05 Crore and ₹ 0.59 Crore respectively. GMR Energy Limited, GMR Vemagiri Power Generation Limited, EMCO Energy Limited and GMR Energy Trading Limited made a loss of ₹ 494.92 Crore, ₹ 76.93 Crore, ₹ 17.12 Crore and ₹ 16.27 Crore respectively. Loss in GMR Energy Limited includes an exceptional loss on account of impairment of investment in HEG of ₹ 350.47 Crore.

The Company has projects under implementation, which on completion will result in substantial increase in power generating capacity. Update on projects under implementation is given below:

- EMCO Energy Limited (EMCO): Unit 1 (300 MW) commissioned;
- EMCO: Won Case I bid for supply of 200 MW to Dadra and Nagar Haveli distribution company for 7 years 3 Months term;
- EMCO Unit 1 Fuel Supply Agreement signed with South Eastern Coalfields Ltd.
- GMR Kamalanga Energy Limited (GKEL): Unit 1 (350 MW) commercial operation achieved on April 29, 2013;
- GMR Chhattisgarh Energy Limited [Chhattisgarh Thermal Power Plant (CTPP)]: Achieved Integrated Management System (IMS) certification for successful implementation of Quality, Environmental & Safety standards;
- The implementation of coal based projects is progressing well to achieve commercial operation of the plant (all the units of GKEL, EMCO and first unit of CTPP) during the financial year 2014;
- Alaknanda and Bajoli Holi Hydro projects received all statutory clearances including Stage II forest clearance and CDM registration;
- Nepal Hydro projects achieved key project development milestones as per plan and license for import of power to India for a period of 30

years was obtained from Directorate General of Foreign Trade (DGFT), Government of India (GOI).

#### **Highways**

The FY 2012-13 has seen a decline in the highway sector due to various factors such as slowed economic situation, delay in clearances, sand quarry and mining bans, power shortage, funding constraints, etc. This has resulted in lower investment from private players in infrastructure in general including roads and highways sector.

GMR Highways Limited is one of the leading highways developers in India with 8 operating highways of total length of 3170 lane kms and 1 project under construction of total length of 178 lane kms. There is a healthy mix of 5 toll projects, viz Ambala - Chandigarh, Thondapalli - Jadcherla, Tindivanam - Ulundurpet, Hyderabad - Vijayawada and Hungund - Hospet; and 4 annuity projects, viz Tuni - Anakapalli, Tambaram - Tindivanam, Adloor Yellareddy - Gundla Pochanpalli and Chennai Outer Ring Road. The group entered into a Share Purchase Agreement for divestment of 74% stake in Thondapalli - Jadcherla project. Quality of construction and operational safety are of utmost priority.

Highways sector operating subsidiary companies, GMR Tambaram Tindivanam Expressways Private Limited, GMR Tuni Anakapalli Expressways Private Limited, GMR Pochanpalli Expressways Limited and GMR Jadcherla Expressways Private Limited, made a profit of ₹ 9.30 Crore, ₹ 6.47 Crore, ₹ 17.96 Crore and ₹ 2.08 Crore respectively. GMR Ambala Chandigarh Expressways Private Limited, GMR Hyderabad Vijayawada Expressways Private Limited, GMR Hyderabad Vijayawada Expressways Private Limited, GMR Ulundurpet Expressways Private Limited made a loss of ₹ 23.13 Crore, ₹ 21.47 Crore, ₹ 14.39 Crore and ₹ 8.25 Crore respectively.

During FY 2012-13, COD of Hyderabad Vijayawada project and partial COD of Hungund Hospet project was achieved overcoming various challenges during the construction lifespan viz. delay in land acquisition and local agitation. Arbitration process was initiated in respect of Ambala Chandigarh for loss of traffic under State Support Agreement & Concession Agreement (SSA & CA).

#### Kishangarh-Udaipur-Ahmedabad Highway

Amid various economic challenges, financial closure was successfully achieved for the development of four lane 555.5 Km long Kishangarh - Udaipur - Ahmedabad highway into a six lane highway, the first mega highway project in the country which the company had won in international competitive bidding. While the Company completed/complied with most of its obligations within stipulated time from the signing of the agreement, on the other hand, the Highways Authority could not fulfill its key obligations within the stipulated time, including getting the Environmental and Forest Clearance and issuing the Fee notification for the project. This has led to an inordinate delay in fixing the "appointed date" and there was no certainty as to when these key conditions would be fulfilled by the Authority. This uncertainty has materially affected the project putting additional financial burden on the Company. Considering these uncertainties and various

unfavorable factors that were beyond Company's control, the Company issued a notice of termination of concession agreement to the Highways Authority. Highways ministry is proactively working with other ministries, government authorities and various industry bodies for resolving the issues.

#### **Urban Infrastructure**

With the objectives of generation of additional economic activity, promotion of exports of goods and services, promotion of investment from domestic and foreign sources, creation of employment opportunities and development of infrastructure facilities, the urban infrastructure sector is focusing on developing special investment regions.

#### Kakinada and Krishnagiri SEZ

With the master plan underway for both the special investment regions in the year under review, all the necessary approvals on utility front from the Government, which includes approval for ground water abstraction, approval for power, consent for establishment and no objection certificate from Forest Department was obtained.

On the Kakinada SEZ development front, Memorandum of Understanding (MoU) has been signed with Rural Shores for setting up of BPO and two 'Letters of Intent' with fisheries processing firms for setting up of Marine Park. The Marine Park is expected to generate an employment to 3000 people in the region.

On Krishnagiri SEZ development front, a detailed plan on the EMC (Electronic Manufacturing Cluster) has been submitted to Department of Electronics and Information Technology (DeITY) and waiting for an in-principle approval from the Government for a greenfield EMC.

A concept note for setting up a Multi Skill Development Center (MSDC) has been submitted to Government of Tamilnadu. MoU with Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) has been signed for designing and establishing MSDCs in both Kakinada and Krishnagiri Regions.

# Engineering Procurement and Construction (EPC) Division

The Company had entered the EPC business to mitigate execution risk for in-house project development. EPC Division has been instrumental in successful and timely completion of new Highway assets. Apart from Highway Projects, EPC Division is supporting GMR Energy business in Balance of Plant (BoP) Segment and has completed Coal handling Unit at EMCO (Warora Power Plant). EPC Division has also undertaken Coal Blending system, Ash handling plant, Raw water Reservoir, Township and other non-plant structures.

Key highlights of the year under review were:

- Completed Hyderabad-Vijayawada Toll Project (0-65 kms)
- Completed 4-laning of Hungund-Hospet Toll Project (22 kms of 4 laning)
- Commissioned Coal Handling Plant at Warora Power Plant

Over the last three years, EPC Division has built an over ₹ 100 Crore Equipment Bank which includes Batching Plants, HMP Plants, Boom Placer and other equipment.

#### **Risk Management**

As an enterprise with presence in different segments of infrastructure industry and considering the high levels of economic volatility currently witnessed in the global markets, the Company is exposed to a number of risks that impact our businesses in varying measures. It is imperative to identify and address these risks and at the same time leverage opportunities for achieving the set objectives.

The Company's risk management framework is in line with the current best practices and effectively addresses the emerging challenges in a dynamic business environment.

Significant developments during the year include:

- Delhi International Airport Private Limited (DIAL) became the first airport in the world to be certified for ISO-22301:2012, Societal Security- Business Continuity Management System;
- Project Risk Management framework has been strengthened along with one of the top consultants in the world and being implemented for the ongoing projects;
- A Contractual Risk Review Framework has been developed for implementation across the Group that would help us in identifying and addressing contract related risks and compliance areas in an appropriate manner;
- Risk management process is critically woven in the strategic planning process with various risks identified to the strategic objectives of all the businesses and initiatives defined to address them:
- Risk review of important policies impacting the group such as treasury policy, foreign exchange policy and insurance policy manual etc. taken up:
- Formalized a country risk and opportunity profile framework to evaluate different countries being explored by the Group for investments and other business opportunities.

The Enterprise Risk Management (ERM) Team presents to the Management and the Audit Committee of the Board, the risk assessment and minimization procedures adopted to assess the reliability of the risk management structure and efficiency of the process.

A detailed note on risks and concerns affecting the businesses of the Company is provided in Management Discussion and Analysis.

The Vision of GMR Group's CSR activities is to make sustainable impact on the human development of under-served communities through initiatives in Education, Health and Livelihoods. Towards such inclusive growth, GMRVF works with the communities neighboring GMR Group's businesses for their economic and social development. Currently, GMRVF is working in over 200 villages/ urban communities across 22 locations.

#### **Environmental Protection and Sustainability**

The Company has been aligning sustainability to assist organization in identifying the cross-cutting dimensions of triple bottom line performance and in understanding the process elements of environmental accountability and engagements. Triple bottom line performance expands the traditional reporting framework to take into account social and environmental performance in addition to financial performance.

Every business operations should be driven with core values in accordance with business requirements to attain sustainability with respect to social, environment and economy. The Company's business culture is cautiously driven through 7 core values (GMR Values & Beliefs) viz., Humility, Entrepreneurship, Teamwork and Relationships, Deliver the promise, Learning, Social Responsibility and Respect for Individual. Thus, Company's Environmental Initiatives are driven with three main values and beliefs -'Humility', 'Social Responsibility' & 'Respect for Individual' towards achieving the harmony with nature and society.

The Company believes in integrating strong environmental management practices into its industrial enterprises across all business operations. Each business enterprise has been covered under stupendously articulated Corporate Environmental, Health, Safety & Quality (EHSQ) Policy. Sustainable practices reduce risks to life and property, and improve system efficiency which helps to conserve natural resources. When such practices become institutionalized, they reduce costs. Several unique schemes have been implemented to prevent pollution and conserve natural resources to achieve sustainable development.

The Company is aggressively implementing national policies, regulation and objectives in Environmental Management and Pollution Control measures. Continuous efforts are laid to build the strong foundation towards environmental excellence for all of its operations.

#### **Airport Sector**

At DIAL, the Operational Environment management focuses on energy management, air quality, noise level, emissions management, waste management, water and waste water management, natural resource conservation and bird and animal hazard management. Proactive and collaborative efforts such as Workshop on Carbon Footprint of Indian Aviation with Directorate General of Civil Aviation (DGCA), Airports and Airlines, Community Noise issues discussions along with DGCA and Ministry

of Civil Aviation and Collaborative Environment Management Programs with stakeholders are examples of efforts on social concerns.

DIAL is successfully maintaining its certifications for all the international programs to which it subscribes through continual improvement in the environmental performance. ACI has recognized DIAL for Greenhouse Gas (GHG) Inventory and Accredited to the Reduction Level under Airport Carbon Accreditation. DIAL has bagged the Greentech Environmental Management Award, 2013 for the best environmental practices. DIAL in collaboration with International Air Transport Association (IATA) conducted the workshop on 'Infrastructure, Fuel Efficiency for Emission Reductions & Sustainable Aviation Environment Management' and 70 numbers of participants were certified. Various workshops and training on Environmental Management System, Environmental Legal requirement, green initiatives, and CSR for Aerocity builders were some of the prime initiatives during FY 2012-13.

DIAL has established an Aircraft Noise Monitoring System (ANMS) and the Indira Gandhi International Airport Noise Mapping with DGCA & National Aerospace Laboratory is done.

As part of Corporate Environmental Responsibility, GHIAL has voluntarily initiated and completed the GHG accounting since the calendar year 2009 till 2012. Further, it has successfully completed verification of the GHG data through third party as per ISO 14064-1 specifications. By this, GHIAL has obtained level of assurance for its reduction of GHG emission. Airport Council International has accredited RGIA under the Airport Carbon Accreditation Programme - level 2 during FY 2012-13. Online continuous environmental monitoring station has been installed at RGIA. Ambient air quality, meteorological parameters and ambient noise levels are being monitored. This initiative forms one of the best environmental practices at Indian Airports. GHIAL has bagged First Prize for the Best landscape in Private Institutions category (3rd consecutive time), First Prize for the Best Rotaries and Second Prize for Residential Township. The award was received from the Commissioner Horticulture, Department of Horticulture, Government of Andhra Pradesh.

This year a group wide initiative was undertaken to conserve electricity and water through project 'Bijlee' (Electricity) and project 'Paani' (Water) respectively.

#### **Energy Sector**

All the Operating units are in compliance with environmental regulations. Hazardous wastes management and disposal has been in accordance with Central Pollution Control Board (CPCB) guidelines. The environmental management system followed at these operating units provides no-opportunity for any environmental violations through establishment of continuous ambient air monitoring systems at appropriate locations in and around the plants. Thus, environmental performance indicators like stack emissions, ambient air quality are maintained well within the stipulated norms. Also, each of the operating units has dedicated Effluent treatment Plant to treat waste water from the units and discharge in accordance with Pollution Control Board Norms. Noise level monitoring has been the part of the monitoring scheme which will ensure the noise levels within the legal

perimeter and also, helps in quick identification of any abnormality during operation.

Energy Sector has continuously ventured to promote cleaner fuel operations and renewable energy. The supercritical technology power plant is under development at Chhattisgarh. The 25 MW capacity Solar Photo-Voltaic based power generation has become part of the success story under Phase-1 of Gujarat Solar Power Policy-2009. Further, installation of 2.1 MW and 1.25 MW wind turbine generators in the state of Gujarat and Tamil Nadu respectively with the total capacity of the wind turbine generator being 3.35 MW has added the Company for its one step ahead commitment towards sustainability in terms of clean and renewable energy resource.

Energy Sector has pledged its commitment beyond the regulatory compliance and thus, ensuring the implementation of internationally accredited Management Systems at major units at operation. Environmental Management System (ISO 14001:2004) has been successfully implemented and certified by the certification agency. The strong management review through triple bottom-line approach ensures the continuous improvement in environmental performance.

GMR Power Corporation Limited (GPCL), Chennai plant has successfully maintained the performance standards in accordance with OHSAS 18001, ISO 14001 and ISO 9001. Further, to add the feather into its cap, the GPCL is certified with ISO 50001:2011 (Energy Management Systems) which is one of the first-of-its-kind standardization norms to any power plant and thus, the energy conservation initiatives resulted in savings of 1.42 Million Units of power during FY 2012-13. Also, GPCL has been rewarded with 'GREEN Award' from Government of Tamil Nadu for Environment protection activities, recycling the waste water, and reduction in usage of fossil fuels. The best environmental practices are consistently thriving to achieve the best environmental performance throughout the year.

GMR Vemagiri Power Generation Limited (GVPGL), Rajahmundry has also maintained the certification OHSAS 18001, ISO 14001 and ISO 9001. This year was marked with greenery development with 4500 saplings planted in the plant premises. The company was able to harvest rain water of 1,00,000 m3 during the season, and also conserve 30,000 m3 of water for gardening purpose through recycling of Cooling Tower (CT) blow down water. GVPGL, which is also registered as CDM project under Kyoto Protocol, has already been contributing towards the GHG emission reduction and Sustainable Development.

GMR Energy Limited (GEL), Kakinada has maintained the certification for Environmental Management System (ISO 14001:2004) in accordance to the standards requirement for continual improvement. The plant premises have enhanced the rain-water harvesting potential through the well-connected drainage network. GEL, Kakinada is now registered at Verified Carbon Standards Board (VCS Board) for its contribution towards GHG's reduction by using cleaner fuel for power generation.

GHG Accounting as per ISO 14064-1 specifications is already initiated at GVPGL, GEL and GPCL voluntarily to map the carbon foot print of the power

plant.

GMR Infrastructure Limited (GIL) understands the global thrusts for minimizing the effect of developmental projects towards global warming. The Company has developed / under development of various projects voluntarily, which ultimately reduces GHG emissions into the atmosphere and thus, minimizing the global warming effect. GMR Rajahmundry Energy Ltd., Rajahmundry which utilizes Natural Gas (Clean fuel) for power generation has been successfully registered as CDM Project at United Nations Framework Convention on Climate Change (UNFCCC) during the FY 2012-13. The two hydro projects promoted by the Company at the location of Alaknanda and Bajoli-Holi have been registered under CDM at UNFCCC during the FY 2012-13. Further, the Solar Power project set up at Gujarat and Wind power project at Gujarat and Tamil Nadu are also registered as CDM Projects at UNFCCC.

### IV. Code of Conduct

As per requirement of Clause 49 of the Listing Agreement with the Stock Exchanges, the Board has laid down a Code of Conduct ("the Code") for all Board members and Senior Management Personnel of the Company. The

Code is posted on the website of GMR Group (www.gmrgroup.in). All Board members and Senior Management Personnel affirm compliance with the code on an annual basis and the declaration to that effect by Mr. B. V. N. Rao, Managing Director, is attached to this report.

A Code of business conduct and ethics applicable to all the employees of the Group has been communicated and affirmed by them on an annual basis, which are to be followed in day to day work life which will enable the employees to maintain highest standards of values in their conduct to achieve organizational objectives.

The Company recognizes that sexual harassment violates fundamental rights of gender equality, right to life and liberty and right to work with human dignity as guaranteed by the Constitution of India. To meet this objective, measures have been taken to eliminate and to take necessary penal action for any act of sexual harassment, which includes unwelcome sexually determined behaviour. The Company has taken initiatives to create wide awareness amongst the employees about the policy for prevention of sexual harassment by displaying posters at all the prominent places in the Offices of the Company.

### V. Whistle Blower Policy

To maintain high level of legal, ethical and moral standards and to provide a gateway for employees to voice concern in a responsible and effective manner about serious malpractice, impropriety, abuse or wrongdoing within the organisation, the Company has a Whistle Blower Policy in place, applicable to the Company and its subsidiaries.

This mechanism has been communicated to all concerned and posted on the Group's intranet.

### VI. Risk Management

Risk is an inherent aspect of business, especially in a dynamic industry such as infrastructure. The Company's Enterprise Risk Management philosophy is to integrate the process for managing risk across the organization and throughout its business and lifecycle to enable protection and enhancement of stakeholder value and ensure an institution in perpetuity.

Your Company's Enterprise risk management framework, in line with the current best practices, clearly defines the applicability, coverage, processes and linkages. The framework has been implemented with the development of risk registers at the enterprise, sector, functions and key business unit levels. The top risks across the business units and functions are aggregated and escalated to top management. The risk profiles covering current controls and mitigation plans are prepared for top risks and reviewed on a regular basis.

In addition to qualitative aspects, we also focus on quantitative impact of risks through sensitivity and scenario analysis, usage of tools & techniques and highlighting major value drivers for each business. These endeavors ensure risk-informed decision making, throughout the entire Value Chain (i.e. Pre Bid- Bid - Project - Asset) of your Company's Business.

We have in place a robust Bid Risk Framework for carrying out detailed risk analysis for all the bids / opportunities that come up to the Board for

<sup>+</sup> Appointed as a member with effect from September 11, 2012.

approval. Additionally, we have revised our Project Risk Management and Contractual Risk Review Framework which is being implemented to strengthen our risk management process across the Group.

ERM team also carries out risk review of the major policies and processes that have a group wide impact (e.g. treasury policy, foreign exchange policy, code of conduct, whistleblower policy etc.) and provides inputs for tighter controls and limits on the same.

The Company has also strengthened its processes to build resilience to deal with eventualities through Business Continuity Planning (BCP) and Disaster Recovery Planning (DRP) exercise for its key assets and projects.

A detailed note on risks and concerns affecting the businesses of the Company is provided in Management Discussion and Analysis.

## The New Infra Business Strategy - Asset Light Asset Right

The emerging global volatility and uncertainty coupled with the lack of institutionalized policy environment demand the Indian Infrastructure players to be more dynamic and adaptive than ever before.

### **Global Economic Scenario**

Now we are more affected by world events than ever before.

Global market continued to suffer by volatility and uncertainty in FY 13. While US gave mixed indictors on its path to recovery, Eurozone still remained in crisis and was forced to take harsh bailouts like the Cyprus. Although the breakup is averted, only zero to marginal growth can be expected this year in Eurozone. Meanwhile, export driven China was also affected by the global slowdown and is likely to improve in medium to long term.

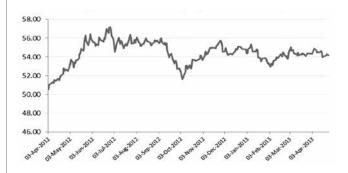

### **Indian Economy**

India's economic growth continued to struggle during FY 13. The percentage share of investments to GDP in physical assets like Gold, Real Estate etc. continued to be higher as compared to liquid financial assets. High oil and gold bill coupled with weak exports due to slow global recovery led to a liquidity crisis and continued to put stress on the Balance of payments (BoP) during 2012-13. The inflation continued to hover between 7-8% for most of the year and at one stage the country also faced the risk of downgrade.

However, this crisis situation was averted by the various policy measures taken by Indian Government - like diesel price deregulation, disinvestment in sectors like Retail, Aviation etc. RBI too played its role in measures to bring back the growth through minor reduction in interest rates in Q3 and Q4. Even the global oil prices came down to a reasonable level towards the end of the FY 13.

Amidst this Indian rupee remained volatile and performed a range bound movement as shown in the chart below:

### Rupee Dollar Exchange Rate Trend - Apr 2012 to Mar 2013

India continues to sit on a huge latent demand; however more policy reforms are required to improve the economic situation and investor confidence.

## Projected investment in infrastructure in the twelfth Plan

Despite a bleak and uncertain macro-economic outlook, the prospects for infrastructure look positive with the planning commission recognizing the continued infrastructure deficit of India. The 12th five year plan (2012-17) envisages doubling of investment over the previous 11th five year plan. In addition, almost half of its share is expected to come through the private sector. This provides tremendous business potential for established and emerging infrastructure developers.

| Parameter      | 10th Plan       | 11th Plan       | 12th Plan      |
|----------------|-----------------|-----------------|----------------|
|                | (2002-2007)     | (2007-12)       | (2012-17)      |
| Infrastructure | 225 Billion USD | 500 Billion USD | 1 Trillion USD |
| Spend          |                 | (₹ 24 Tn)       | (₹ 55 Tn)      |

These investments are of a magnitude that has not been seen before. Their sheer size necessitates a change in financing models. The debt requirement would require banks to have over 50% of their gross credit to infrastructure. The equity requirement would need over a third of the market capitalization to be in infrastructure. While initiatives are underway for allowing external financing, deepening corporate bond markets, and so on, the financing model will change. In a volatile world, quality of portfolio, profitability and liquidity are the critical differentiators. In this new environment, adaptability is the key to sustained financial performance.

The Group adopted Asset Light - Asset Right (ALAR) strategy after a detailed analysis of the trends in the infrastructure sector. As part of ALAR strategy,

the Groups's focus moves now from asset growth to cash growth. The Group will shift investments from assets with low profit potential to those with higher returns. This will help improve profits & cash even if size of assets is lower.

In addition following initiatives have been taken up at the corporate level:

- Re-design organization structure to increase effectiveness;
- Merger of related operating units in EPC;
- Improvement of project management processes;
- Shared services and process excellence;
- · Raising cost-effective funds.

### Sector outlook and future plan

Airport sector outlook for FY 2013-14 and future plan

The Indian aviation industry has grown at a 14.4% CAGR in passenger traffic over the past decade and is expected to grow at 12.6% CAGR from 2013 to 2020. Overall, it is expected that:

- Favourable demographics will continue to drive demand for air travel both on domestic and international routes:
- b) Airlines are likely to maintain capacity discipline;
- c) Opportunities would be sought to cut-costs to achieve growth.

# Indira Gandhi International Airport (IGIA) - Delhi Airport The outlook for IGIA, New Delhi is driven by the expected moderate growth in passenger and cargo traffic:

- Passenger traffic is expected to grow at ~6 % in 2013-14;
- Cargo traffic from IGIA, New Delhi is expected to grow between 1-2% given the global macro-economic scenario and better growth in 2014-15 once the global economy stabilizes.

The company will continue to work towards achieving its long term strategic objectives, which include:

- Maximize value from existing assets;
- Emerge as international air traffic "Hub" for passengers and cargo;
- Build a Customer focused organization;
- · Cost Management;
- Improve connectivity to the airport.

### Rajiv Gandhi International Airport (GHIAL) -Hyderabad Airport

GHIAL is expected to witness a passenger traffic growth of 4-5% during FY 14. GHIAL will work towards achieving the following strategic objectives:

- To make Hyderabad the regional Hub of South and Central India;
- To position Hyderabad as the Cargo and Logistics Hub of India;

- To triple the passenger based Non-Aero incomes in the period 2010-2016:
- To increase the Non-Aero revenues by leasing space in Airport-based SEZ & FTZ;
- To regain our world No.1 ACI ranking;
- To be a shining example in "Great Place to Work".

## Istanbul Sabiha Gocken International Airport (ISGIA) - Turkey Airport

The Turkey government's outlook towards Istanbul is positive and is being shown in the investments on the 3rd Bridge, 3rd Airport, Metro and Marmaray projects (expected to be commenced in October 2013). Outlook for ISGIA is a 19% traffic increase through a larger share of international traffic growth.

- The strategic initiatives proposed to meet the future goals are:
  - Attracting more international routes;
  - Attracting full service carriers such as Turkish Airlines;
  - Improving retail / commercial revenues;
  - Sustain efforts to optimize costs without compromise to service delivery standards.
- Airport connectivity is expected to improve with the proposed subway system and Marmaray rail projects which are expected to commence in October 2013. Connection to ISGIA is anticipated in 2014;
- Environmental Impact Assessment (EIA) report process for the ISGIA 2nd runway is underway. On completion of EIA report, tender for the 2nd runway will be released in second half of 2013;
- Improvement in the commercial area performance is expected due to introduction of new brands, new spaces in the mezzanine and also improved passenger profile.

### Maintenance Repair and Overhaul (MRO)

MAS GMR Aero Technic Limited (MGAT), a subsidiary of the Company, is aiming to get necessary approvals from Directorate General of Civil Aviation (DGCA) and European Aviation Safety Agency (EASA) for providing base checks on Bombardier Q400 aircraft during the Financial Year 2013-14. MGAT intends to become an Authorized Service Facility (ASF) for Bombardier Q400 and other Dash series aircraft. This would enable MGAT to service the Bombardier aircraft in the region.

MGAT is in advanced stage of negotiations with various domestic airlines and is making efforts to execute contracts to that effect. MGAT has plans to improvise the marketing efforts to penetrate into the international market by engaging marketing consultants and generating more business. MGAT aims at securing End of Lease checks of aircraft from an International Airline. This will form a strong case and will help in securing more End of Lease checks from the international market.

MGAT has plans to aggressively foray into the international market and to actively participate in international MRO and Airline conferences, in order to create recognition in the market. With such business development activities, MGAT is aiming at performing around 75 checks on various types of aircraft including C-checks and End of Lease checks, in the Financial Year 2013-14.

### **Energy Sector Outlook for FY13-14 and future plan**

In line with the Group's Asset Light Asset Right strategy, the group divested its stake in GMR Energy Singapore Pte Limited (GESPL) and further the Energy business would continuously evaluate its portfolio to enhance value.

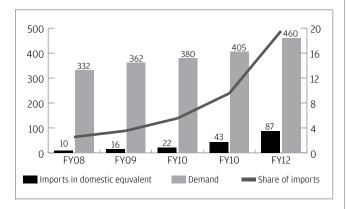

For the financial year the Energy sector would focus on the following factors:

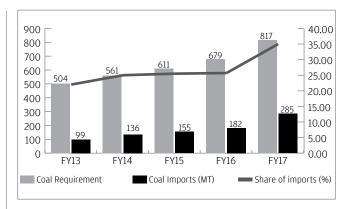

- · Strive to enhance Profitability, Liquidity and Organisational capability;
- · Recycling of capital and strategic divestments;
- Timely completion of on-going projects within the budgeted project cost;
- Maximize the returns by Sweating of Assets through operational excellence and optimum fuel & power sale mix;
- Focus on improving process efficiency and maturity;
- Organizational re-structuring to make it nimble, flat and enhance accountability.

### **Detailed Outlook**

**Coal:** Coal is expected to remain a major fuel source with 66% of the capacity addition target in the 12th five year plan. However, availability of domestic coal is a major challenge on account of reasons such as less production from Coal India Limited (CIL), issues related to coal block allocation, land acquisition and Environmental & forest clearances. The gap between demand and availability of coal has to be met through importing coal. But the nationalistic policies of the coal exporting countries have impacted the financial viability of imported coal based plants.

The issuance of Presidential Directive to CIL to sign fuel supply agreements (FSAs) might bring some relief to the power producers, but CIL's inability to meet its commitment with domestic production would lead to import of fuel. The price pooling mechanism or a fuel cost pass through mechanism for imported

coal at a benchmark price are some of the remedial measures under serious consideration of the Government to resolve the current deficit situation.

Thus, the power producers face a serious challenge of arranging coal to run their power plants at an optimum level and to meet the obligations under the power supply agreements. Power producers are forced to depend on the e-auction markets or get in to long term coal supply agreements/invest in overseas coal mines, to ensure long term fuel security.

Gas: Based on the earlier production estimates of natural gas from KG D6 basin, many gas based power plants have been set up in the State of Andhra Pradesh. However, the significant drop in the natural gas supplies from these fields in the last 2 years has resulted in the non-operation of these power plants to a large extent. As a result, despite having power shortage in the country, the gas based capacity has remained grossly unutilized or stranded causing immense loss to the economy. Government is considering solutions such as (a) Gas pooling mechanism (b) Rationalization of taxes on LNG by classifying it as a declared good (c) Establishing Liquefied Natural Gas (LNG) terminal at the east coast, which would significantly save the transportation cost of LNG (d) Peaking power policy, which will help the gas based capacity to run on Regasified Liquified Natural Gas (RLNG). Some states like Andhra Pradesh has come out with a policy to supply RLNG based power to the willing customers who can pay higher tariffs for the power.

Power Trading: While the outlook for power trading seems to be bright in the long term, the sector is currently facing several challenges. With precondition of Long Term Power Purchase Agreement (LTPPA) for domestic coal supply by CIL, merchant market would be based on imported/e-auction coal. Considering this and continued supply shortfall, it is expected that average merchant rates would remain subdued in the medium term. Towards the later half of the 12th five year plan, prices are expected to increase further given the higher level of peak deficit expected. The mandatory conditions for debt restructuring to progressively reduce exposure to Short Term power purchase and CIL's insistence to sign Fuel Supply Agreements (FSAs) with power plants having PPAs, will discourage developers to set up new merchant capacities.

It has been observed over the years that the prices of long term tariffs under case 1 bids have been gradually increasing. The power generators are factoring the increased costs & risks associated with long term fuel sourcing and regulatory uncertainties, into the bid.

### Case-I bids history (2007-2012)

### **Recent Policy Initiatives**

The Central Government has taken some positive initiatives to overcome the challenges being faced by Indian Power Sector:

- · Financial Restructuring of State Discoms;
- · Hike in power tariffs across regions;
- Persuading CIL to sign FSAs' with the power developers;
- Group of Ministers (GoM) approval of environment clearances for coal mines which had been stuck for a long time;
- Setting up of Cabinet Committee on Investment to fast track the large projects by addressing uneven policies, bureaucratic delays and expedite approvals;
- Attempts by Central Government on ensuring fuel supply through bankable FSAs and building consensus for coal price pooling;
- Easing External Commercial Borrowing (ECB) norms for infrastructure companies;
- Public Private Partnership (PPP) Policy framework with CIL;
- Re-introduction of Wind Generation Based Incentive (GBI);
- · Extension of Tax holiday by another year;
- Low interest bearing funds from National Clean Energy Fund (NCEF) to Indian Renewable Energy Development Agency (IREDA) for viable renewable energy projects;
- · Policy to encourage shale gas exploration and production.

### Urban infrastructure and Highways sector outlook for FY 2013-14 and future plan Highways

With most of the projects either getting operational last year or will become operational in FY 2013-14, the focus of the business will shift from project management to asset management in future. Consequently, the focus will shift to output-based parameters like safety, quality, lane availability, and similar other operating Key Performance Indicators (KPIs) to ensure higher level of service to users by adopting cost-effective measures.

The Company divested its stake in GMR Jadcherla Expressways Private Limited (GJEPL) having seen its full potential value is realized in line with the Asset Light Asset Right strategy. In line with the strategy, the Company will be focusing on consolidation of assets and churning of equity. Equity so raised will be used to bid or acquire assets having potential to give higher returns and steady cash streams to the business.

The Company will continue its Business Excellence journey to be agile in the existing tough economic situations and be ahead of its peers.

### Urban Infrastructure - Kakinada and Krishnagiri SEZ

The major focus and objective of the company in next few years would be to monetize the developed land parcels by getting necessary approvals needed to provide basic amenities. This objective will also ensure fitment of SEZ business with group's "Asset Light and Asset Right" strategy. With minimum financial support from the corporate, both the projects have potential to generate cash and enhance the company's valuation.

### **Property Development**

The Company has started to develop each of the Hyderabad and Delhi Airports and surrounding land as an Airport City or "Aerotropolis", with a mix of aeronautical and non-aeronautical developments.

### Delhi Airport Aerocity

The Delhi Airport is expected to include Delhi Aerocity - a world class development constituting hospitality and commercial developments, which may ultimately cover up to 5% of the approximately 5,100-acre land area at the airport. As part of the first phase, the company has leased out 45 acres of land for the development of the Hospitality District. Several leading international and national hotel brands have already commenced construction and will commence operation during the year 2013-14.

### GMR Hyderabad Airport City Development

GMR Hyderabad International Airport Limited is planning to develop India's largest first Airport City (Aerotropolis) in the vicinity of Hyderabad Airport with an objective of creating an ecosystem that will generate benefits for the Airport as well as the regional economy and facilitate in establishing the prominence of Hyderabad Airport in the global arena. Master Plan for the entire Airport City has been completed and the physical infrastructure activities have also been started. The initial phase assets consisting of Aerospace SEZ, Retail, Business School, Exhibition Centre etc. are in various stages of design and development.

Schulich Business School (York University, Canada) is planning to set-up their campus in the Airport City. The Aerospace Park, which also has a multiproduct SEZ, is operational. MAS-GMR has a MRO facility and CFM International (CFM) has an engine training facility in the SEZ. A helicopter assembly facility is also planned by Tata Group in the Aerospace Park.

### **Environmental Protection and Sustainability**

The Company believes in integrating strong environmental management practices into its industrial enterprises across all processes. Several schemes have been implemented to prevent pollution and conserve natural resources to achieve sustainable development.

The Company is aggressively implementing national policies and objectives in Environmental Management and Emission Control. In its quest to march towards business excellence, it is pursuing to attain excellence in the vital area of environmental management.

All the operating units are in compliance with environmental regulations. Hazardous wastes are being disposed through Central Pollution Control Board authorized agencies. Continuous ambient monitoring systems have been set up at appropriate locations in and around the plants and the environmental performance indicators like stack emissions, ambient air quality among others are maintained well within the stipulated norms.

'DIAL-T3' and 'GHIAL' have developed a comprehensive Carbon Accounting & Management System and have verified it through a third party. This ensures the compliance to Airport Carbon Accreditation Program in India.

The group wide initiative was undertaken to conserve electricity and water through project 'Bijlee' and project 'Paani' respectively.

Discussion and Analysis of Financial Condition and Operational Performance

The consolidated financial position as at March 31, 2013 and performance of the Company and its subsidiaries/joint ventures during the Financial Year ended on that date are discussed hereunder:

## A. Reserves and surplus: ₹ 6,888.94 crore (March 31, 2012: ₹ 7,148.54 crore)

A summary of reserves and surplus is as follows

(₹ in Crore)

| Particulars   | March 31, 2013 | March 31, 2012 |
|---|----------------|----------------|
| Capital reserve on consolidation                      | 125.87         | 115.85         |
| Capital reserve on acquisition                        | 3.41           | 3.41           |
| Capital reserve government grant                      | 65.49          | 65.49          |
| Capital redemption reserve                            | 28.53          | 19.50          |
| Debenture redemption reserve                          | 158.62         | 80.78          |
| Employee stock option outstanding                     | 0.96           | 0.96           |
| Securities premium                                    | 6,926.79       | 7,269.93       |
| Foreign currency translation reserve                  | 337.91         | 282.43         |
| Foreign currency monetary translation reserve         | (2.51)         | (2.50)         |
| Special reserve u/s 45IC of RBI Act                   | 0.20           | 26.86          |
| Sub Total   | 7,645.27       | 7,862.71       |
| Surplus/(Deficit) in the statement of profit and loss | (756.33)       | (714.17)       |
| Total   | 6,888.94       | 7,148.54       |

The reserve and surplus has decreased from ₹ 7,148.54 crore as at March 31, 2012 to ₹ 6,888.94 crore as at March 31, 2013.

Major reasons for changes in reserves and surplus position are as under:

- Additional stake acquired during the year in GTAEPL and GTTEPL resulting in increase of ₹ 10.02 crore as capital reserve on consolidation.
- ii. Reduction of ₹ 343.14 crore in the securities premium during the year on account of utilization of ₹ 346.60 crore towards debenture issue expenses, share issue expenses and debenture redemption premium in the Company and its subsidiaries offset by ₹ 3.46 crore transferred to minority interest.
- iii. Debenture redemption reserve balance has increased on account of additional reserves of ₹ 59.87 crore created in the Company and ₹ 17.97 crore by way of transfer from statement of profit and loss in GPEPL.
- iv. Foreign currency translation reserve balance has gone up by ₹ 55.48
   crore on account of additions to reserve made while consolidating the
   overseas entities
- v. Deficit in the statement of profit and loss increased by ₹ 42.16 crore mainly on account of:
  - Profit for the year of ₹ 88.12 crore (after an exceptional income
    of ₹ 777.27 crore on account of profit on sale of investment in
    GESPL, loss on impairment of assets in HEGL and write of assets
    in GMIAL).
  - Allocation of profit to minority on dilution of interest in subsidiaries/joint ventures of ₹ 14.32 crore.
  - Appropriation of preference dividend and dividend distribution tax totaling to ₹ 10.52 crore declared by the Company's subsidiaries.
  - Appropriation of proposed equity dividend and dividend distribution tax totaling to ₹ 45.23 crore declared by the Company.
  - Transfer from special reserve u/s 45IC of RBI Act of ₹ 26.66 crore (net) in a subsidiary company.
  - Transfer of an amount of ₹ 77.84 crore (net) to debenture redemption reserve account by the Company and GPEPL and transfer of ₹ 9.03 crore to capital redemption reserve on redemption of preference shares issued by GEL.

## B. Minority interest: ₹ 1,720.00 crore (March 31, 2012: ₹ 1,791.72 crore)

The Minority interest reduced by ₹ 147.21 crore on account of divestment of stake in GESPL, which is a subsidiary of GISPL. This reduction was offset by increase in minority share of profits of ₹ 47.29 crore and share of brought forward profit of ₹ 14.32 to minority interest pursuant to an additional investment of ₹ 80.75 crore in GKEL by minority shareholders.

### Long-term borrowings (including current maturities of long term borrowings)

Secured loans: ₹ 35,423.79 crore (March 31, 2012: ₹ 26,657.16 crore).

The increase of ₹ 8,766.63 crore is mainly on account of the issue of debentures in the Company, GEL and fresh project loan disbursements mainly in GKEL, GCHEL, GREL, EMCO in Energy sector project companies and in GCORR, GOSEHHHPL in Highways sector project companies to meet the cost of projects under development. This is offset by reduction of ₹ 1,273 crore on account of transfer of liability to the buyer as a part of the sale transaction of GESPL.

Unsecured loans: ₹ 2,068.89 crore (March 31, 2012 : ₹ 2,104.21 crore).

The decrease of ₹ 35.32 crore is mainly due to repayment of loans amounting to ₹ 299.06 crore, and new loans taken by the Company & GEL to meet the temporary obligations.

## D. Trade payables (Non-current): ₹ 68.57 crore (March 31, 2012: ₹ 11.67 crore)

Trade payables increased by ₹ 56.90 crore due to increase in payables of ₹ 7.50 crore in GVPGL and ₹ 46.23 crore in ISG.

## E. Other long-term liabilities: ₹ 2,858.23 crore (March 31, 2012: ₹ 2,478.52 crore)

The increase of ₹ 379.71 crore is mainly due to the following

- i. GHIAL has repaid an advance of ₹ 10.14 crore to customers and DIAL has received deposits of ₹ 78.15 crore from concessionaries.
- ii. Increase in unearned revenue of ₹ 37.32 crore and ₹ 22.97 crore in ISG & GHIAL respectively.
- iii. Increase in deferred obligation on deposit from concessionaires of ₹ 40.20 crore and ₹ 14.73 crore in DIAL and ISG respectively.
- iv. Increase of concession fees payable by GHIAL by ₹ 29.47 crore.
- v. Increase in retention money payable by ₹ 14.89 crore in the Company, ₹ 128.72 crore in GREL, ₹ 247.68 crore in GCHEPL, ₹ 18.88 crore in GCORRPL which is offset by payment of ₹ 74.34 crore by various project companies on completion of the project during the year.

## F. Short-term borrowings ₹ 4,856.62 crore (March 31, 2012: ₹ 7,315.57 crore)

The increase of ₹ 2,458.95 crore is mainly on account of increase in bills discounting in GKEL, GCHEL, GREL, and EMCO and new loans taken by GEL, DIAL and GHIAL to meet the temporary obligations.

## G. Trade payables - current: ₹ 1,481.59 crore (March 31, 2012: ₹ 1.236.71 crore)

Increase of ₹ 244.88 crore in current trade payables is mainly due to:

- Increase of ₹ 23.60 crore, ₹ 200.03 crore, ₹ 120.87 crore in GIML, DIAL and in EMCO respectively
- ii. Decrease of ₹ 47.23 crore, ₹ 91.82 crore, ₹ 19.08 crore and ₹ 19.04 crore in ISG, GMIAL, GTAEPL and GTTEPL respectively.

# H. Other current liabilities (Other than current maturities of long-term loan): ₹ 5,632.69 crore (March 31, 2012: ₹ 4,745.77 crore)

The increase of ₹ 886.92 crore is mainly due to increase in advances or deposits received by ₹ 149.76 crore, ₹ 501.16 crore in non- trade payables, ₹ 185.60 crore in Development Fee accrued, ₹ 208.72 crore on interest accrued but not due and ₹ 169.67 crore decrease in unearned revenue

| Net Fixed Assets               | 46,513.54      | 41,984.93      |

- a. Gross block has gone up by ₹ 4,887.57 crore. The major reasons are as follows:
  - Carriageways gone up by ₹ 2,626.97 crore on capitalization of GHVEPL and partial capitalization of GOSEHHHPL.
  - ₹ 2,342.96 crore capitalized EMCO on successful commencement of Unit 1 of the project.
- b. Capital work-in-progress has increased by ₹ 2,249.38 crore primarily from energy project companies GKEL, GCHEPL, EMCO and GREL.
- Intangible assets under development decreased by ₹ 1,728.34 crore in GHVEPL and GOSEHHHPL.

# J. Investments: ₹ 282.79 crore (March 31, 2012: ₹ 721.60 crore) The investments decreased by ₹ 438.81 crore during the year on account of shift in investment pattern from liquid mutual funds to bank deposits.

## K. Other non-current assets: ₹ 3,845.81 crore (March 31, 2012: 1,616.34 crore)

Increase of  $\ref{eq}$  2,229.47 crore mainly due to increase in non-current bank balances which includes  $\ref{eq}$  747.20 crore in GICL, increase in development fund receivable of  $\ref{eq}$  163.73 crore in DIAL and claim recoverable of  $\ref{eq}$  918.94 crore in GMIAL.

### L. Current assets

a. Cash and bank balances: ₹ 5,134.84 crore (March 31, 2012: ₹ 4.256.14 crore).

- Increase of  $\ref{thmosphip}$  878.70 crore in the cash, cash equivalents and other bank balances is mainly on account of funds received consequent to sale of GESPL.
- b. Other current assets: ₹ 1,484.82 crore (March 31, 2012: ₹ 1,224.36 crore)

Other current assets mainly consists of interest accrued but not due on deposits, claims and grants receivables, assets held for sale and other receivables. Increase of ₹ 260.46 crore is on account of ₹ 715.41 crore from assets held for sale which is offset by receipt of development fund of ₹ 475.47 crore in DIAL.

The total income has increased by ₹ 1,551.76 crore representing a growth of 18.65%.

There is a healthy distribution of business over various sectors. The detailed analysis on the sectoral revenues is as follows:-

### Operating income from airport segment

Income from our airport segment consists of income from aeronautical sources (principally consisting of landing and parking, passenger service fees and user development fees charged), non-aeronautical sources (consisting principally of income from rentals, trade concessionaires and ground handling) cargo operations and rentals received in connection with commercial development on land that is part of our airport projects.

Income from airport operations has increased by 39.21% from ₹ 4,381.29 crore for fiscal 2012 to ₹ 6,099.07 crore for fiscal 2013 mainly on account of increase in tariff at DIAL effective May 15, 2012 based on Tariff Order from AERA.

### Operating income from power segment

Income from our power segment consists of fixed and variable components of electricity tariff charged to the state electricity boards and distribution companies as per the terms of the respective power purchase agreements, sale of power on merchant basis, trading of power and sale of coal.

Income from power segment has increased by 1.93 % from ₹ 2,374.99 crore for fiscal 2012 to ₹ 2,420.76 crore for fiscal 2013. The increase is resulting from full year operations of PTGEMS and the Solar power plant (GGSPPL) which is offset by reduction in PLF in the gas-based power plants due to non-availability of fuel.

### Operating income from road segment

Income from our road operations is derived from annuity payments received from NHAI for our three annuity projects and toll charges collected from road users of the five toll road projects.

The operating income from road business has increased by 27.54 % from ₹ 405.64 crore for fiscal 2012 to ₹ 517.37 crore for fiscal 2013. The increase is due to commissioning of Hyderabad Vijayawada (GHVEPL) and Hungund

Hospet (GOSEHHHPL), both toll-based road projects during the year coupled with increase in traffic and toll rates in the existing three toll-based projects.

### Operating income from EPC sector

Income from our EPC division is derived from the execution of engineering, procurement and construction works in connection with power and road projects under implementation.

During the current year, the EPC sector has contributed ₹ 655.16 crore to the operating income as against ₹ 970.89 crore in the previous year.

### Operating income from Other Sector

Income from other sector includes management services income, investment income and operating income of our aviation and hotel businesses. During the current year, the other sector has contributed ₹ 175.51 crore to the Operating Income as against ₹ 187.30 crore in the previous year.

### Other income

Other income includes income from investments, profit on sale of investments, reversal of provisions no longer required and other miscellaneous income. Other income has increased by 13.87 % from ₹ 243.42 crore in fiscal 2012 to ₹ 277.19 crore in fiscal 2013.

### Expenditure

Revenue share paid/payable to concessionaire grantors

The revenue share paid/payable to various airport concessionaires has increased from ₹ 830.97 crore in fiscal 2012 to ₹ 1,669.48 crore in fiscal 2013 primarily on account of increase in operating income at DIAL.

### Consumption of fuel/raw materials

The consumption of fuel and raw material decreased from ₹ 1,745.48 crore in fiscal 2012 to ₹ 1,233.75 crore in fiscal 2012 primarily on account of reduction of fuel consumption in gas based power plants. .

### Purchase of traded goods/increase in stock

Purchase value of the traded goods has decreased from ₹ 1,300.02 crore in fiscal 2012 to ₹ 1,251.50 crore in fiscal 2013 primarily on account of decrease in fuel trading, due to termination of operation in Male airport which is offset by increase in duty free product sales.

### **Subcontracting expenses**

Subcontract expenses increased from ₹ 722.64 crore in fiscal 2012 to ₹ 963.15 crore in fiscal 2013, primarily on account of full year operations of PTGEMS which is offset by decrease in operations of EPC Division.

### Employee benefits expenses

The decrease in employee benefit costs is mainly on account of termination of operations at Male Airport which is offset by periodic increases in employee costs.

### Other expenses

Following are the components of other expenses:

Consumption of fuel and lubricants, water, salaries and wages of
operational employees, technical consultancy fee, cost of variation
works, insurance for plant and machinery, airport operator fee, cargo
handling charges, lease rentals and repairs and maintenance to plant
and machinery, office rental, travel, insurance, electricity, consultancy
and other professional charges, contributions to provident fund,
provision for advances, claims and debts, losses on sale of fixed assets
and investments, travelling and conveyance, communication, loss on
foreign exchange and other miscellaneous expenses.

Increase in other expenses is mainly on account of full year operations of PTGEMS, fixed assets write off and provision for doubtful advances/receivables in HEG and Male airport during the fiscal year.

### Finance costs

Following are the components of financing costs:

 Interest on term loans, interest to others and other finance charges viz., prepayment premiums, guarantee commission, bank charges among others.

Financing costs mainly have gone up on account of full year operations of Gujarat Solar Power Project, PTGEMS, Hyderabad-Vijayawada & Hugund-Hospet Toll Road Projects, increased interest rates and additional borrowings for meeting operational requirements.

### **Utilisation fees**

Increase in utilisation fees is on account of increase in traffic in ISGIA.

### Depreciation and amortisation expenses

Increase in depreciation and amortisation is mainly on account of full year operations of Gujarat Solar Power Project & PTGEMS; part period operations of Hyderabad-Vijayawada & Hungund-Hospet Toll Road Projects (both commissioned during the second half of the year); partial capitalization of EMCO; part period operations of Male Airport and also due to the impact of change in method of amortization of highway projects during the previous year.

### **Exceptional items**

In fiscal 2013, a profit of ₹ 1,231.25 crore has been recognized on account of divestment of the existing 70% stake held in GMR Energy Singapore Pte Limited (GESPL).

In fiscal 2013, we have provided for loss of impairment of fixed assets in HEGL for ₹ 251.37 crore and ₹ 202.61 crore Assets write of in Male Airport due to termination of Airport operations.

In fiscal 2012 we have incurred a onetime interest cost of ₹ 162.12 crore incurred in DIAL on account of borrowings against development fund.

### Profit / (loss) before taxation and minority interest

In fiscal 2013, we have recorded a profit before tax & minority interest of ₹ 392.85 crore as against Loss before tax & minority interest of ₹ 848.12 crore in fiscal 2012.

#### Taxes

Tax expense has increased from ₹ 210.72 crore in fiscal 2012 to ₹ 257.44 crore in fiscal 2013, mainly due to the increase in current taxes by ₹ 24.21 crore in fiscal 2013, increase in deferred tax charge during the year by ₹ 40.23 crore and a higher MAT credit of ₹ 17.72 crore during the year.

### Profit / (loss) after taxation and before minority interest

In fiscal 2013, we have recorded a profit after tax & before minority interest of ₹ 135.41 crore as against Loss after tax & before minority interest of ₹ 1,058.84 crore in fiscal 2012.

### Net profit / (loss) after minority interest

In fiscal 2013, we have recorded a Net profit after minority interest of ₹ 88.12 crore as against net loss after minority interest of ₹ 603.34 crore in fiscal 2012.

Minority interest represents share of the profits and losses of various subsidiaries which relates to the minority shareholders. The share of profit to minority shareholders for the year 2012-13 amounts to ₹ 47.29 crore as against loss of ₹ 455.50 crore for the previous year.

### Corporate Social Responsibility

GMR Varalakshmi Foundation (GMRVF) is the corporate social responsibility arm of the GMR Group. Its vision is to make sustainable impact on the human development of the under-served communities through initiatives in Education, Health and Livelihoods.

Towards this, GMRVF works with the communities neighbouring GMR Group's businesses for their economic and social development thus supporting their development, even as the businesses grow. The thrust areas enable the Foundation to develop need-based and locale - specific responses to the needs of the diverse communities it works with.

Currently, the Foundation is working in over 200 villages/urban communities across 22 locations. The locations in India spread across different states namely Andhra Pradesh, Arunachal Pradesh, Chhattisgarh, Delhi, Himachal Pradesh, Karnataka, Madhya Pradesh, Maharashtra, Odisha, Punjab, Tamil Nadu and Uttarakhand.

### The activities of GMRVF for FY 13 are given below:

Education: Foundation sets up and runs quality educational institutions in under-served areas. It also works with the Government in making quality education accessible to all sections of the community. Towards this end, the Foundation is:

- Running an Engineering College, Degree College and Polytechnic and several schools in the under-served areas. The Foundation's flagship institution, GMR Institute of Technology was ranked 45 in Top 100 Engineering Colleges in India by Dataquest;
- Several scholarships and freeships are given for poor students from surrounding communities to these institutions;
- In addition, Foundation supports about 300 Government schools with Vidya Volunteers, Teaching and Learning Materials, After-School tuitions, Small infrastructure etc. benefiting about 35000 children;
- Foundation also focuses on quality pre-school education and works with over 180 Anganwadis and Bala Badis benefiting 3500 children;
- Several other initiatives are taken up to make quality education accessible to the children which include running tent schools for children of migrant labour, providing transport support, boarding support etc.

Health, Hygiene and Sanitation: With the belief that health is a key dimension of well-being, GMRVF works towards better health and healthy lifestyles of the communities. GMRVF's initiatives in the area of health include:

- Running a 135-bed secondary care hospital in Srikakulam, one of the
  poorest districts of Andhra Pradesh, to serve the communities in this
  area by offering quality treatment at affordable prices. A robust
  concession scheme is in place to help all sections of communities to
  avail the services;
- Running 28 medical clinics in areas where medical facilities are inaccessible to the communities-offering services to over 7000 people per month;
- Running 4 Mobile Medical Units which take health care to the door steps of about 7000 elders every month;
- Running 4 Ambulances to provide emergency care for the communities;
- Building and maintaining public toilets and conducting several awareness programs on hygiene and sanitation.

Empowerment and Livelihoods: The Foundation lays a major thrust on the economic and social empowerment of women and youth, and towards this it has taken up several initiatives which include:

- Running 8 vocational training centres to provide appropriate marketrelevant skills to dropout youth to increase their employability. About 4,500 youth are trained every year through these centers and more than 80% of them are settled in wage or self-employment;
- GMRVF's vocational training initiative works towards bridging the skill
  gap between employers and those who seek employment. It actively
  seeks partnerships with different industry leaders for providing best
  quality training in different market relevant skills;

- Further, Foundation works with about 300 Self Help Groups of women and supports them for taking up income generation activities;
- Foundation initiated EMPOWER (Enabling Marketing of Products of Women Entrepreneurs) program to market the products made by under-privileged women through shops at Delhi and Hyderabad Airports, setting up of stalls and exhibitions, bulk orders for conferences and seminars, and through an online store www. empowershop.org;
- GMRVF also works with farmers to support them to increase their incomes, through training, capacity building and input materials.

Community Development: To meet the different emerging needs of the community, GMRVF takes up various community development initiatives based on the local needs. It runs about 80 community libraries, manages 100 children and youth groups and celebrates different days of significance with the community to improve their awareness on various social issues.

Employee Involvement: Social Responsibility is one of the core values of GMR Group and many of the employees of GMR Group actively participate in community development initiatives. Over the year, over 4000 employees and their family members participated in more than 600 programs, contributing about 10,000 hours of volunteer time and benefiting over 60,000 people. As recognition for its corporate social responsibility initiatives, GMRVF received Rotary Vocational Award for the year 2012-13.

### Risk and Concerns

Our business in the Infrastructure sector exposes the Company to a variety of risks. Consequently, the company seeks to continuously improve its Enterprise Risk Management (ERM) processes and framework in line with the current best practices. The Company's aim is to ensure that we proactively identify, measure and monitor various risks and implement appropriate risk treatment plans to deal with them by establishing a suitable balance between harnessing opportunities and containing risks.

Our philosophy is to integrate the process for managing risk across the organization and throughout its businesses & lifecycle to enable protection and enhancement of stakeholder value and also ensure an institution in perpetuity.

**Process Maturity:** The Company has well-defined processes for risk identification, assessment, profiling, treatment and monitoring & review actions thereof. The ERM process has been rolled out with development of risk registers for Sectors, Key Business Units and Corporate functions. The risks for each Sector and Group Corporate Services have been arrived at through aggregation / consolidation of the risks of their respective business units and functions.

The framework is strengthened from time to time to keep it updated to meet with the changing business requirements covering the following:

 Bid / Opportunities: A very rigorous bid screening framework is being deployed where both the qualitative as well as quantitative risks are analyzed. All bids are stress tested under difference scenarios in detail to ensure proactive evaluation of projects and aid risk-based decision making;

- Project Risk Management (PRM): A framework has been strengthened along with one of the top consultants in the world that ensures stage gates and focuses extensively on project completion on time and within the cost and quality parameters;
- Asset Risk Management: A forward looking risk assessment is being carried out for the company's assets whereby top drivers of risks to next 2-3 years cash flows and P&L are being assessed and detailed risk mitigation and review plan is being developed;
- Contractual Risk Review (CRR): Framework has been developed and being implemented for identifying and addressing contract related risks and compliance areas.

The ERM Framework and Deployment across the Group is independently assessed by Internal Team i.e. Management Assurance Group (MAG) as well as External Panel of Experts. Their inputs and recommendations serve as opportunities for improvements and also help create better alignment and learning across the Group.

**Business Resilience:** In order to build business resilience across the Group and deal with eventualities, we have significantly progressed on development of detailed Business Continuity Plans (BCP) & Disaster Recovery Plans (DRP) for identifying high impact events for our key assets and putting in place appropriate processes & risk treatment plans to avoid / reduce the impact. Our Delhi International Airport (DIAL) is the first Airport in the world to be certified for ISO-22301:2012, Societal Security, BCMS.

**Linkages:** Strong linkage with Corporate Strategy enables sharper focus on key strategic risks. Detailed risk analysis is carried out during the formulation of the Company's Strategic Plan and Annual Operating plan. ERM team also shares the results of its exercise with the Management Assurance Group (MAG) to enable it to draw plans for risk-based audit.

**Risk Awareness:** The ERM Team seeks to enhance the awareness of risk management by conducting regular risk awareness training and workshops across the sectors, publishing quarterly risk newsletters and circulating relevant articles and case studies.

**Reporting:** The ERM Team regularly presents the risk assessment and minimization procedures adopted to assess the reliability of the risk management structure and efficiency of the process to the Management and the Audit Committee of the Board.

Macroeconomic Risk factors: Weak macroeconomic factors in India have a significant impact on the operating performance of the Group. Revenue from our airport projects, merchant sale of electricity and our toll road projects are exposed to the changes in the economic environment and market demand. The diversified nature of our portfolio across different subsectors within the Infrastructure Sector and our revised strategies would help in mitigating some of these risks.

**Regulatory Risk:** Being in the Infrastructure Sector, we are exposed to regulatory risks. However, based on our experiences, we provide inputs and suggestions to the Government along with various industry bodies to shape the regulatory scenario in the country for better development of the Sector. For e.g. like all other private operators, our Airports business is exposed to regulatory risks which would affect the revenue model assumed.

Fuel availability risks: Non-availability of natural gas has adversely affected the performance of our gas based power plants and hence the profitability of the Group. Moving forward, we aim to diversify our fuel mix through focusing on the commissioning of coal-based projects and initiating construction of hydroelectric projects thereby reducing our exposure to a single source of fuel. Availability of domestic coal and getting coal linkages is also a challenge to focus on.

**Input Costs Risk:** We are directly exposed to the variation in price of input materials and allied costs, though the Company has sought to bring in-house an increasing portion of the construction work associated with our present and future projects under development. Whilst the Company continues to pursue cost reduction initiatives, increase in price of input materials could severely impact the Company's profitability to the extent that the same are not absorbed by the market through price increases. However, with most of our projects coming close to completion, our exposure would significantly reduce to that extent.

Project development, acquisition and management: Based on the portfolio exercise carried out last year at the Group level and the prevailing external environment, management has taken a conscious decision to follow an "Asset Light and Asset Right" model whereby our endeavor would always be looking at a portfolio which will maximize efficiency to the stakeholders while simultaneously being selective in new bids and acquisition. The focus is as always on consolidation of our existing portfolio, sweating of assets and completion of the existing projects within time, cost and quality parameters. The Group has also initiated the outsourcing of some of its non-core activities in Finance, HR, IT and Management Assurance Group so as to gain more management bandwidth, improve productivity and efficiency in the Group's operations.

Ability to finance projects at competitive rates: Infrastructure projects are typically capital intensive and require high levels of finance in a mix of debt and equity. However, taking cognizance of the fact that soon banks would be reaching their sectoral caps and fund availability through this route might be insufficient for planned sector growth in the future, we are continuously exploring innovative means to finance/refinance our project with the aim to reduce the overall interest cost. Most of our under construction projects have already achieved financial closure.

**Credit Risk:** Our exposure to merchant sale of electricity to private sector customers and weak financial health of airlines in the airports sector might expose us to credit risk of default in payments. We have developed models to check and regularly monitor the credit-worthiness of our customers. Also, all our receivables are being closely monitored and reviewed frequently by the top management.

**Interest Rate Risk:** The debts relating to our projects are subject to fluctuations in interest rates. Any increase in interest rate may adversely affect our profitability. We are continuously exploring and implementing innovative means of financing/refinancing our existing loan with the aim of reducing our interest costs e.g. we have reduced our interest cost for Hyderabad Airport through take-out finance last year. Also, with the divestments of some of our assets, we also aim to reduce our debt exposure and thereby the interest cost.

Foreign Currency Exchange Rate Risk: We are exposed to the vagaries of exchange rate risk, as we have some expenditures in foreign currencies for procurement of project equipment, but a majority of revenues are in Indian Rupees (though Airports and other international assets earn some foreign currency). We have in place a mechanism of having regular review of our foreign exposures including the sensitivity of our financials to the movements in exchange rate. However, we have hedged most of our exposure and keep rolling them as a part of a robust foreign exchange risk management policy which is reviewed regularly and approved by the Board.

### Internal control systems and their adequacy

The Company has in place adequate systems of internal control. It has documented procedures covering all financial, operating and management functions. These controls have been designed to provide a reasonable assurance with regard to maintaining proper accounting controls, monitoring of operations, protecting assets from unauthorised use or losses, compliances with regulations and for ensuring reliability of financial reporting. The Company has continued its efforts to align all its processes and controls with best practices in these areas as well. All these controls and processes have been embedded and integrated with SAP system which has been implemented across all group companies. Some significant features of the internal control systems include the following:

- A well-established multi-disciplinary Management Assurance Group (MAG) comprising of internal resources and outsourced audit teams, which carries out audit of functions across the sectors, report to audit committee, gives assurance and support to management with the objective to add value, improve organization's operations and accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes;
- Delegation of power and responsibility matrix with authority limits defined for incurring capital and revenue expenditure;
- Corporate policies on accounting and major processes;
- Well-defined processes for formulating and reviewing annual and long-term business plans;
- Preparation and monitoring of annual budgets for all operating activities, projects and service functions;
- Bid documents/records of all new projects including M&A deals are being critically reviewed for probable risks;

- Effective project management and technical audits are being carried out:
- Identifying and mitigating key business and transactional risks through effective risk management process.

### Developments in Human Resources and Organisation Development at GMR Group

"Effective leadership is not about making speeches or being liked; leadership is defined by results not attributes" - Peter F. Drucker

The focus on building organization and people capability continues for the GMR Group this year as well, through the established robust process around Identifying, Developing and Deploying potential leaders in critical position across the enterprise. The emphasis has been towards grooming leaders within rather than hiring from outside which we call as 'Make v/s Buy' ratio. The shift is towards 'Make'.

The Talent Review process has been reviewed to make it outcome based realizing the goal of creating a robust talent pipeline for current and future requirement of the organisation as per 'Sankalp 2020'.

In order to enable the development of future leaders the multi-tier leadership development program has been enhanced right from entry level (Executive) to Senior levels (Vice -President). The content of the programme has been redesigned based on GMR Group's strategic direction of "Asset Light Asset Right", "Shrink and Grow" and "Sweat the Asset".

Focus on Senior Leadership Team development continues through development centres and assessment centres based on which Individual Development Plans (IDPs) for them have been put in place. Going forward the focus for the Senior Leadership Team would be to develop their next in line as functional managers with strong financial capabilities.

In order to enable effective assessment across levels, the competency based assessment process along with potential identification, 9-box placement and identification of successors has been automated and piloted in the Energy Business.

As part of the institutional building process, 'Leader-led Sessions' was introduced on Values and Beliefs (V&B) across the enterprise - facilitated by Senior Leadership Team (SLT) members. 103 leaders have been developed internally who have covered approximately 3000 employees as part of the Humility tenet. Over and above the Leader-led Session, an e-learning course on V&B as well as 'Code of Business Conduct and Ethics' have been launched. The intention is to ensure that all employees of the organisation go through these two programmes as part of culture building.

Virtual Management development program was strengthened by increasing the number of courses from 120 to 240, covering the four pillars (Leading Self, Leading Others, Leading Change and Leading Business) and 11 competencies - to enable learning virtually and ensure maximum coverage as per the training needs identified.

We also have aligned all our development programmes to our competency model. To enable and create awareness of the competency framework, an e-learning program on 'Competency Awareness' has been launched.

Being a core Infrastructure developer, our focus on Commercial and Contracts, Engineering, Procurement, Construction, Operations and Maintenance (CEPCOM) continues to be high on priority. Based on the outcome of competency mapping and assessment which has been automated, each of the sectors has initiated technical training programs to fill the identified gaps in the respective sectors.

Internal communication is a key to sustaining vibrancy and organisational health. Throughout the year, Town Hall meetings were conducted across the Group, where Group Holding Board (GHB) members and CEOs shared the

Group's plans with employees and answered several queries. The Skip Level Meetings, a formal forum for employees to share specific views and opinions about the work environment to their skip level manager were also conducted across the group. The results of the Employee Engagement Survey were shared across the organisation and the managers have worked out action plans based on their score cards.

A number of Team Building and alignment exercises in the form of offsite workshops and Out Bound Training (OBT) programmes were conducted throughout the year. These programmes also help in integration of new comers into the GMR culture through understanding and alignment of our core values and beliefs.

### Section E: Principle-wise performance

Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

 Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs /Others?

Yes. The Code of Business Conduct and Ethics policy of the company embodies the Group's Values and Beliefs and endeavour to lay down guidelines for employees of the Group to follow in their day to day work life. The policy applies to all employees on regular rolls of the company including Full Time Directors, Advisors, In-house Consultants, Expatriates and employees on contract.

As an extension of the Code of Conduct, Company has a Whistle Blower policy which applies to third parties with concerns regarding any serious malpractice or impropriety within the group. Third parties include Vendors, Service providers, Partners, JV employees, and customers. There is also a supplier Code of Conduct and Business Ethics to ensure transparent business governance.

Company has an Ethics and Intelligence Department to expeditiously investigate and take action to protect the culture and ethical environment.

How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

As specified in the Corporate Governance Report, 85 investors' complaints were received during the financial year 2012-13, which have been fully resolved.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

 List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and / or opportunities.

The Company's EPC business as a separate operating division is catering to the requirements for implementing the projects undertaken by the subsidiaries and others.

GMR Group (including the Company) believes in integrating strong Environmental Management practices into its industrial enterprises across all processes. Several unique schemes have been implemented to prevent pollution and conserve natural resources to achieve sustainable development.

- Energy All the operating units are in compliance with environmental regulations. Hazardous wastes are being disposed through Pollution Control Board authorised agencies. Efficient monitoring systems have been set up at appropriate locations in and around the plants and the Environmental performance indicators like stack emissions, ambient air quality, among others are maintained well within the stipulated norms.
- Delhi Airport the Operational Environment management focuses on energy management, air quality, noise level, emissions management, waste management, water and waste water management, natural resource conservation and bird and animal hazard management. Proactive and collaborative efforts such as Workshop on Carbon Footprint of Indian Aviation with DGCA, Airports and Airlines, Community Noise issues discussions along with DGCA and Ministry of Civil Aviation

(MoCA) and Collaborative Environment Management Programs with stakeholders are examples of efforts on social concerns. DIAL has established an Aircraft Noise Monitoring System (ANMS) in order to develop a database of aircraft noise which will help in formulating future mitigation strategies on noise in parity with the working group on airport noise formed by DGCA. 'Track your Aircraft Noise' program is one of the noise mitigation initiatives by the team, which offers an awareness on noise levels 10 decibels(A) below the DGCA standard for both night and day periods for aircraft movements taking place at IGIA

 Hyderabad Airport - As part of Corporate Environmental responsibility, GHIAL has voluntarily initiated and completed the GHG accounting for the calendar years 2009, 2010, 2011 & 2012. Further, it successfully completed verification of the GHG data of three years by M/s. Bureau Veritas as per ISO 14064-1 specifications. Bio-fuel tree plantation (Jatropha) is one of the novel initiatives taken by RGIA towards promoting green environment. Energy conservation practices are also being implemented.

In addition to this, various Energy and Water Conservation initiatives are underway within Energy sector and both Delhi & Hyderabad Airports.

- For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):
  - i. Reduction during sourcing / production / distribution achieved since the previous year throughout the value chain?
  - ii. Reduction during usage by consumers (energy, water) has been achieved since the previous year?
- Does the company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

EPC division of the Company seeks to source locally available material (unless otherwise Specified), deploys energy conservation measures and work with clients on Sustainability / Green initiatives. EPC division has built DAV School at Rajam, Andhra Pradesh, for which Green Certification is under process. Construction Equipments deployed by EPC division at project sites are fuel efficient and in compliance with emission norms.

The fuel in the Energy Sector subsidiary companies is sourced through pipelines to the plant avoiding wastages like leak, vapourisation etc. The Company and its subsidiaries have a Procurement Policy in place and vendors agree to the GMR Code of Conduct and Business Ethics.

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

There are several services at the construction sites of the Company for which local people have been given opportunity. These include housekeeping services, photography and Canteen, Mess services, Printing stationary. Apart from that supply of various building material such as sand, aggregate, Fly ash bricks, Moorum etc. has been given to local persons only. Many local people have been appointed and trained in various technical skills for execution of work like quality lab technicians, Plant and Machineries helper, Store assistant, operator for Transits mixture and Tough rider.

For subsidiary companies in Energy Sector: The Companies have a policy of procuring goods and services like horticulture, housekeeping and the like from nearby suitable sources of supply. The Companies have its internal methodology of procuring goods and services like horticulture, housekeeping, Hospitality support services, selling of products made by nearby community trained and managed through its CSR wing GMRVF.

While these refer to the individual entrepreneurs, GHIAL CSR runs at vocational training centre and enterprise centre for local women. The vocational training centre capacity builds youth towards different technical skills and more than 700 people from Airport surrounding villages have been provided employment in the Airport in different entry-level jobs. For the women enterprise, women from surrounding villages have been trained in making handicrafts and these are marketed through different channels. GHIAL has provided two shop spaces at the Airport, including one at international departure for selling these products. The total revenue for this initiative has grown from ₹ 8 lakhs in 2008-09 to more than ₹ 70 lakhs in 2012-13. Every year GHIAL itself buys many products for its own requirements from this enterprise approximately to the tune of several lakhs every year.
- (ii) Delhi Airport (DIAL): The Company has been procuring Goods & Services from Local & Small producers, traders & service Providers and based on quality of their deliverables, these Agencies are being considered for further opportunities. There are several steps taken to procure services from the communities surrounding place of work at the airport, for which local people have been given exclusive opportunity through the Business Development and CSR team of DIAL. Some of these are as below:

- Efforts have made to develop small entrepreneur's to procure Public Health related engineered Products (Urinal Sensor etc.), Horticulture Products, Flower Arrangement etc.;
- Tenders are generally invited from NGO's / War Widows for Cleaning Material & Consumables;
- For the women enterprise, 15 women from Meharamnagar village have been trained in making handicrafts (cushion covers, stoles, mobile pouches, ladies bags etc.) and to enable marketing of products made by these women, DIAL - CSR has set up one "EMPOWER Shop" at MLCP (Multi level car parking) at Terminal 3:

Principle 4: Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalized

 Has the company mapped its internal and external stakeholders? Yes/No

Whenever the Company sets up a business, it surveys the surrounding communities and identifies key stakeholders.

Out of the above, has the company identified the disadvantaged, vulnerable & marginalized stakeholders?

There is a specific focus on identifying the vulnerable amongst the stakeholders. These include landless, tribal communities, socially and economically backward sections, people with disabilities, womenheaded households, etc.

 Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalized stakeholders.
 If so, provide details thereof, in about 50 words or so.

For the Company, community is a major stakeholder of business. Thus, GMR Group works with the under-privileged communities around its business operations for improving their quality of life. A special focus is laid on vulnerable and marginalized sections of the community such as differently-abled persons, elders, tribals, migrant labour etc. GMR Varalakshmi Foundation (GMRVF) initiated Tent School program in Bangalore for the children of migrant labour communities. About 1000 children get benefit from this Tent School initiative that otherwise had to drop out of education due to migratory nature of their families. At Delhi, the CSR unit is running

Samarth program for mainstreaming differently-abled persons through inclusive education, creation of livelihood opportunities, facilitating their rights and entitlements etc. To address the health care needs of disadvantaged elderly people, GMRVF is running 4 Mobile Medical Units at different locations which take quality health care to the doorsteps of about 7000 elderly and vulnerable people. At Shahdol, GMRVF partnered with Women and Child Welfare Department to set up Anganwadi centers in tribal hamlets which provide pre-school education, nutrition support etc. for children of 0-5 years age, adolescent girls, pregnant and lactating women. Further, to ensure all the children access quality education, GMRVF is providing school bus support, boarding support etc. for the children (mostly from tribal communities) in hilly remote areas which enabled them to continue their education. In the vocational training program of GMRVF also, preference is given to the candidates from disadvantaged backgrounds and special efforts are put to mainstream them through provision of required skills. GMRVF also has focused programmes to reach out to women and improve their livelihoods.

Principle 5: Businesses should respect and promote human rights

 Does the policy of the company on human rights cover only the company or extend to the Group / Joint Ventures /Suppliers / Contractors / NGOs / Others?

The Company does not have an independent Human Rights Policy. However, policies like Code of Conduct, Whistle Blower Policy, Disciplinary Policy, Policy Against Sexual Harassment, Policy on Work Environment coupled with transparent HR processes and practices adequately cover the human rights aspects.

Yes, the company has a procedure to identify and assess potential environmental risk.

4. Does the company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if Yes, whether any environmental compliance report is filed?

Yes, the Company and the Group is actively involved in the development of Clean Development Mechanism (CDM) projects. It has taken the initiative towards developing the projects which are energy efficient, utilizes cleaner fuel, and uses renewable energy resources as fuel. In such endeavor, the Group has registered five CDM projects at United Nation Framework Convention on Climate Change (UNFCCC) during FY 2012-13. Also, UNFCCC has issued 1,11,667 certified emission reduction in FY 2012-13. The Group does not have the requirement to file any environmental compliance related to CDM; however, the environmental aspects related to compliance and sustainability are included in the Project design document of CDM.

5. Has the company undertaken any other initiatives on - clean technology, energy efficiency, renewable energy, etc Y/N. If yes, please give hyperlink for web page etc.

Yes. The Company understands the thrust of achieving energy efficiency, and effectively utilizes the available clean technology and renewable energy resources in all its business developments. Delhi Indira Gandhi International Airport, Terminal 3 has been awarded green building "LEED INDIA GOLD" rating from Indian Green Building Council (IGBC) thereby making it one of the largest Green Buildings in the world<sup>1</sup>. The Rajiv Gandhi International Airport (RGIA) Passenger Terminal Building has 'Leadership in Energy and Environmental Design' (LEED) certification for its unique design, which allows maximum natural lighting, and other features that enable optimal use of energy and water. RGIA is the first airport in the world to be awarded the LEED silver rating for its eco-friendly design<sup>2</sup>. Upcoming thermal power plants projects based on Coal are planned with the latest available technology viz Supercritical Technology and wherever feasible the projects are developed to use Natural Gas, which is the Clean fuel resource. The operating power plants viz. GMR Power

Corporation Limited (GPCL) and GMR Vemagiri Power Generation Limited (GVPGL) are already identified as energy efficient power plants as per the Notification [S.O. 687 (E) dated March 30 2012] issued by the Ministry of Power under the Perform, Achieve and Trade (PAT) Mechanism. The Company is involved in developing the projects under renewable portfolio. The Company takes the pride of commissioning 25 MW grid connected Solar Photo Voltaic based power plant at solar park developed by Gujarat Power Corporation Limited, Charanka in Gujarat. The Company has also commissioned the wind mill in Gujarat (2.1 MW Capacity) and Tamil Nadu (1.25 MW Capacity).

Yes, following are the broad areas:

- (i) Economic Reforms
- (ii) Airport Services
- (iii) Public Utility

# Principle 8: Businesses should support inclusive growth and equitable development

 Does the company have specified programmes / initiatives / projects in pursuit of the policy related to Principle 8? If yes details thereof.

Yes, GMR Group works with the communities surrounding its business operations with a vision to make sustainable impact on the human development of under-served communities through initiatives in Education, Health and Livelihoods. The programs are designed based on the local needs identified through the baseline studies at each location. Thus, all the programs are sensitive to the needs of local communities and thus ensure a high level of participation from the communities.

Under the area of Education, GMR Group is running an Engineering, Degree, Polytechnic and Community colleges in AP apart from several schools. 20% of the seats in all the schools are provided to the children from poor communities free of cost. Group also supports the education of poor students by facilitating Scholarships and Educational loans. About 3000 students have received such support. GMR Group also focuses on improving the infrastructure facilities and quality of education at Government schools and pre-schools, apart from running its own Bala Badis (Pre-schools for children of 3-5 year age group). Over 300 Govt. schools are supported reaching out to over 30000 children. About 4000 per school age children in 180 Bala Badis and Anganwadis across the country benefit from the Group's initiatives. Technology enabled learning is also facilitated with the setting up of 26 IBM Kid Smart Early Learning Centers across the locations.

In the area of health, GMR Group is providing health services to underserved communities by running a 135-bed hospital, 27 medical clinics, 4 ambulances and 4 Mobile Medicare Units. The medical clinics of the Foundation are serving over 7000 patients per month. The 135-bed secondary care hospital is established in Srikakulam, one of the poorest districts of Andhra Pradesh, to serve the communities in this area by offering world class treatment at comparatively very low prices. 19 public toilets have been constructed in both rural and urban locations to improve sanitation facilities which are used by about 30000 people per month. Many awareness programs are organized on health and hygiene related issues which have shown lot of impact on the health status of the communities.

Enhancing the livelihoods of the communities is another area of the focus areas, and to achieve this, as part of the CSR, 8 vocational training centers are run in different locations through which about 4000 under-privileged youth are trained every year in different

market relevant skills. Over 80% of these trainees are settled in wage or self-employment. The Group also works towards women empowerment by promoting and strengthening Women Self Help Groups. About 300 groups are formed so far with more than 3500 members and are receiving thrift, credit, capacity building and market support.

Further, the community development initiatives focus at establishing village libraries, promoting youth and children's clubs and also on generating awareness among communities on key social and environmental issues.

 Are the programmes / projects undertaken through in-house team / own foundation / external NGO / government structures / any other organization?

GMR Group implements the community development programs through GMR Varalakshmi Foundation, a Section 25 Company. The Foundation is governed by a Board of eminent professionals chaired by the Group Chairman. It has its own professional staff drawn from top academic institutions.

3. Have you done any impact assessment of your initiative?

Yes, GMRVF conducts impact assessment studies in its project locations to understand the effectiveness of the programs.

4. What is your company's direct contribution to community development projects - Amount in INR and the details of the projects undertaken?

The Company and the Group Companies during the year contributed to community development projects to the extent of  $\ref{thm:eq}$  23.71 Crore

Projects undertaken:

#### Education:

- Supporting Govt. schools with Vidya Volunteers, Teaching Learning Materials, After School Learning Centers, Small infrastructure, Teachers' training etc. to improve the quality of education;
- Supporting Govt. Anganwadis and setting up Bala Badis to provide quality pre-school education;
- Support to students with coaching for different entrance and competitive examinations, scholarships and loans for pursuing higher education etc.

Health, Hygiene and Sanitation:

- Running Medical Clinics, Mobile Medical Units and Ambulances where ever there is a gap of such health facilities;
- Conducting need based general and specialized health check-up camps and school health check-ups;
- Conducting health awareness programs with special focus on seasonal illnesses, HIV/AIDS etc.

Empowerment and Livelihoods:

- Running 8 vocational training centers for training under-privileged dropout youth in different vocational programs;
- Promoting and strengthening Self-Help Groups of women and providing training, input and marketing support for them to take up income generation programs;
- Running community libraries, supporting youth clubs, conducting awareness programs on social issues etc.
- Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

GMRVF lays a greater emphasis on involving community in their development process. Towards this, GMRVF conducts wide consultations with the communities before initiating any program and develops programs based on the local needs identified by the communities. Community members are engaged at every stage of the programs and all the systems and procedures have been made accountable and transparent for the communities. For example, in the education programs, GMRVF strengthens School Management Committees, Parents Associations and facilitates parent teacher meetings so that these committees monitor the programs closely and effectively. Where relevant, SHG federations have been formed and strengthened so that they would take the responsibility of facilitating and monitoring the SHGs. Child clubs, Youth clubs, Self Help Groups and other community based institutions are made involved in all the community development programs which help in building ownership of the programs.

Principle 9: Businesses should engage with and provide value to their customers and consumers in a responsible manner

1. What percentage of customer complaints / consumer cases are pending as on the end of financial year?

NIL

 Does the company display product information on the product label, over and above what is mandated as per local laws? Yes/No/ N.A. /Remarks (additional information)

Not Applicable

3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years and pending as on end of financial year. If so, provide details thereof, in about 50 words or so.

NIL

4. Did your company carry out any consumer survey / consumer satisfaction trends?

The Company measures customer satisfaction at four stages viz during initiation & mobilization, execution, handing over and defect liability period. Customer Satisfaction Survey captures feedback on various criteria like planning, execution, safety and quality on the scale of 1 to 5 and also captures suggestions / comments if any from the customer. This information is analyzed to arrive at actionable points to improve on the service offerings. Balance Score Card (BSC) and Goal Sheets (of related employees) have weightage for Customer feedback and Satisfaction index.

The subsidiaries of the Company i.e. Delhi International Airport Limited (DIAL) and GMR Hyderabad International Airport Limited (GHIAL), as per the covenants of the concession agreement, have to regularly conduct stakeholder surveys (including passengers & airlines) in order to evaluate the performance resulting in form of the internationally accepted ASQ scores. Based on the same, both DIAL and GHIAL are at second positions across the globe in their respective categories.

# Independent Auditors' Report

To the Board of Directors of GMR Infrastructure Limited

We have audited the accompanying consolidated financial statements of GMR Infrastructure Limited ('the Company'), its subsidiaries and its jointly controlled entities [collectively hereinafter referred to as 'the Group' and individually as 'component' (refer note 2 to the accompanying consolidated financial statements of the Group)], which comprise the consolidated balance sheet as at March 31, 2013, the consolidated statement of profit and loss and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

### Management's responsibility for the consolidated financial statements

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

#### Auditors' responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Basis for Qualified Opinion

- 1) As detailed in Note 35(viii)(j)(2) to the accompanying consolidated financial statements for the year ended March 31, 2013, GMR Rajahmundry Energy Limited ('GREL'), a subsidiary of the Company has capitalised ₹ 282.39 crore for the period July 1, 2012 to March 31, 2013 towards indirect expenditure and borrowing costs incurred on a plant under construction where active construction work has been put on hold pending securing supply of requisite natural gas and has approached the Ministry of Corporate Affairs for clarification on the applicability of / relaxation from the provisions of Accounting Standard ('AS') -10 and AS -16 to the aforesaid capitalisation. However, in our opinion, the capitalisation of such expenses is not in accordance with the relevant Accounting Standards. Had the aforesaid expenditure not been capitalised, profit after tax and minority interest of the Group for the year ended March 31, 2013 would have been lower by ₹ 276.49 crore.
- 2) As detailed in Note 35(viii) (n) to the accompanying consolidated financial statements for the year ended March 31, 2013, GMR Kishangarh Udaipur Ahmedabad Expressways Limited ('GKUAEL'), a subsidiary of the Company has issued a notice of intention to terminate the

Concession Agreement with National Highways Authority of India ('NHAI') which has been disputed by NHAI. As at March 31, 2013, GKUAEL has incurred and capitalised indirect expenditure towards project and borrowing costs of ₹ 107.75 crore and has given capital advances of ₹ 590.00 crore. In our opinion, the aforesaid capitalisation of ₹ 107.75 crore is not in accordance with the relevant Accounting Standards and such expenses should have been charged off in the consolidated financial statements. Had the aforesaid expenditure not been capitalised, profit after tax and minority interest of the Group for the year ended March 31, 2013 would have been lower by ₹ 107.75 crore. Further, having regard to the uncertainty in view of the dispute, we are also unable to comment on the final outcome of the matter and any other consequential impact that may arise in this regard, on the consolidated financial statements for the year ended March 31, 2013.

As detailed in Note 30(a) and 35(viii)(m) to the accompanying consolidated financial statements for the year ended March 31, 2013, the Concession Agreement entered into between GMR Male International Airport Private Limited ('GMIAL'), a subsidiary of the Company, Maldives Airport Company Limited ('MACL') and Ministry of Finance and Treasury ('MoFT') for the Rehabilitation, Expansion, Modernization, Operation and Maintenance of Male International Airport ('MIA') for a period of 25 years has been declared void ab initio by MACL and MoFT and MACL has taken possession of MIA with effect from December 8, 2012. GMIAL has initiated arbitration process to seek remedies under the said agreement and pending resolution of the dispute, continues to recognise the assets at their carrying values as at March 31, 2013 including the claim recoverable of ₹ 919.16 crore (USD 16.77 crore) as the management is of the opinion that GMIAL will be able to recover at least the carrying value of the assets.

Further, GMIAL has executed work construction contracts with GADL International Limited ('GADLIL'), a subsidiary of the Company and other service providers for Rehabilitation, Expansion and Modernization of MIA. Pursuant to the aforesaid takeover of the airport by MACL, GMIAL has terminated the contracts with GADLIL and these service providers and has received claims from GADLIL and other service providers towards termination payments. However, no such claims relating to the termination of contracts have been recognised in the consolidated financial statements as at March 31, 2013.

The takeover of MIA by MACL, indicate the existence of a material uncertainty about the going concern of GMIAL and GADLIL. However, the financial statements of GMIAL and GADLIL as at and for the year ended March 31, 2013 continue to be prepared on a going concern basis.

Having regard to the uncertainty in view of the dispute and the final outcome of the matter, we are unable to comment on its impact on the carrying value of the assets of GMIAL and GADLIL and any other consequential impact that may arise in this regard on the consolidated financial statements for the year ended March 31, 2013.

#### **Qualified opinion**

In our opinion and to the best of our information and according to the explanations given to us i.e. except for the effects / possible effects of the matters described in the Basis for Qualified Opinion paragraph, the consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the consolidated balance sheet, of the state of affairs of the Group as at March 31, 2013;
- (b) in the case of the consolidated statement of profit and loss, of the profit for the year ended on that date; and
- (c) in the case of the consolidated cash flow statement, of the cash flows for the year ended on that date.

#### **Emphasis of Matter**

- i. We draw attention to Note 35(viii) (h) to the accompanying consolidated financial statements for the year ended March 31, 2013 in connection with the carrying value of net assets of ₹ 238.35 crore (after providing for losses till date of ₹ 103.21 crore) as regards investment in GMR Ambala Chandigarh Expressways Private Limited ('GACEPL'), a subsidiary of the Company. Though GACEPL has been incurring losses since the commencement of commercial operations, based on management's internal assessment and legal opinion obtained by the management of GACEPL, the management of the Group is of the view that the carrying value of the net assets (after providing for losses till date) as regards investment in GACEPL is appropriate. Accordingly, no adjustments have been made in the accompanying consolidated financial statements. Our opinion is not qualified in respect of this matter.
- ii. We draw attention to Note 35 (viii) (r) to the accompanying consolidated financial statements for the year ended March 31, 2013 in connection with the approval pending from the Board of Approval of the Ministry of Commerce & Industry for the extension of the validity period for development of a port based multi-product SEZ by Kakinada SEZ Private Limited, a subsidiary of the Company. The management of the Group is confident of obtaining the necessary approval in the foreseeable future. Our opinion is not qualified in respect of this matter.
- iii. We draw attention to Note 35 (iv) (f) to the accompanying consolidated financial statements for the year ended March 31, 2013 regarding outstanding dues in GMR Hyderabad International Airport Limited and Delhi International Airport Private Limited ('DIAL'), subsidiaries of the Company, from Kingfisher Airlines Limited ('KAL') aggregating to ₹ 16.73 crore. The Group's management has represented that they have taken steps to recover the amounts and are of the opinion that the receivables are fully recoverable. Accordingly, no adjustments have been made in the accompanying consolidated financial statements. Our opinion is not qualified in respect of this matter.
- iv. We draw attention to note 35(viii)(k) to the accompanying consolidated financial statements for the year ended March 31, 2013 which indicate that the entire matter relating to claims / counter claim arising out of the Power Purchase Agreement and Land Lease Agreement, filed by GMR Power Corporation Limited ('GPCL'), a subsidiary of the Company, and Tamil Nadu Electricity Board, is sub-judice before the Hon'ble Supreme Court of India and has not attained finality. However, pending the resolution of matter, no adjustments have been made in the accompanying consolidated financial statements. Considering that substantial amount, though under protest, has been received, GPCL, based on an expert opinion, has offered the amount of claims received upto March 31, 2012 as income in its tax returns and has claimed the deduction under Section 80IA of the Income Tax Act 1961. Our opinion is not qualified in respect of this matter.
- v. We draw attention to Note 35(viii)(j)(1) to the accompanying consolidated financial statements for the year ended March 31, 2013 regarding (i) losses incurred by GMR Energy Limited ('GEL'), GMR Vemagiri Power Generation Limited ('GVPGL'), subsidiaries of the Company, and the consequent erosion of net worth resulting from the unavailability of adequate supply of natural gas; and (ii) rescheduling of the commercial operations date and the repayment of certain project loans by GREL pending linkage of natural gas supply. Based on business plans and valuation assessment, the management of the Group is of the view that the carrying value of the net assets in GEL, GVPGL and GREL as at March 31, 2013 is appropriate. However, continued uncertainty exists as to the availability of adequate supply of natural gas which is necessary to conduct operations at varying levels of capacity in the future and as such the accompanying consolidated financial statements

do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not qualified in respect of this matter.

#### Other Matters

- (a) The financial statements and other financial information of a subsidiary, with total assets of ₹ 11,878.19 crore as at March 31, 2013, total revenue (including other income) of ₹ 3,120.99 crore, total loss of ₹ 115.15 crore and net cash outflow amounting to ₹ 70.59 crore for the year then ended (after adjustments on consolidation) have been audited jointly by S.R. BATLIBOI & ASSOCIATES LLP along with other auditors.
- (b) The financial statements and other financial information of a subsidiary, with total assets of ₹ 2,620.48 crore as at March 31, 2013, total revenue (including other income) of ₹ 682.13 crore, total profit of ₹ 28.04 crore and net cash inflow amounting to ₹ 18.89 crore for the year then ended (after adjustments on consolidation) have been audited jointly by S R B C & CO LLP along with other auditors.
- (c) We did not audit the financial statements and other financial information of (i) 107 subsidiaries (including 6 subsidiaries consolidated for the period January 1, 2012 to December 31, 2012) with total assets of ₹ 39,935.12 crore as at March 31, 2013, total revenue (including other income) of ₹ 4,151.25 crore, total profit of ₹ 550.17 crore and net cash inflow amounting to ₹ 1,551.74 crore for the year then ended (after adjustments on consolidation); and (ii) 26 jointly controlled entities (including 13 jointly controlled entities consolidated for the period January 1, 2012 to December 31, 2012) whose financial statements include the Group's share of total assets of ₹ 2,186.60 crore as at March 31, 2013, total revenue (including other income) of ₹ 1,898.49 crore, total profit of ₹ 40.59 crore and net cash outflow amounting to ₹ 109.64 crore for the year then ended (after adjustments on consolidation). These financial statements and other financial information for these subsidiaries and jointly controlled entities have been audited by other auditors, whose reports have been furnished to us, and our opinion in so far as it relates to the affairs of such subsidiaries and jointly controlled entities is based solely on the report of such other auditors.
- (d) We did not audit the financial statements and other financial information of (i) 3 subsidiaries whose financial statements reflect total assets of ₹ 30.83 crore as at March 31, 2013, total revenue (including other income) of ₹ 2.42 crore, total loss of ₹ 1.71 crore and net cash outflows amounting to ₹ 5.92 crore for the year then ended (after adjustments on consolidation); and (ii) 3 jointly controlled entities whose financial statements include the Group's share of total assets of ₹ 22.44 crore as at March 31, 2013, total revenue (including other income) of ₹ 17.32 crore, total profit of ₹ 4.75 crore and net cash outflow amounting to ₹ 0.81 crore for the year then ended (after adjustments on consolidation). These financial statements and other financial information have been incorporated in the consolidated financial statements of the Group based on un-audited financial statements as provided by the management of the Company as audited financial statements of such component entities as at and for the year ended March 31, 2013 were not available and our opinion in so far as it relates to the affairs of such subsidiaries and jointly controlled entities is based solely on the basis of management certified financial statements. Our opinion is not qualified in respect of this matter.

### NOTE | 1 | CORPORATE INFORMATION

GMR Infrastructure Limited ('GIL' or 'the Company') and its subsidiary companies, associates and jointly controlled entities (hereinafter collectively referred to as 'the Group') are mainly engaged in generation of power, mining and exploration activities, development of highways, infrastructure development such as development and maintenance of airports and special economic zones, construction business including Engineering, Procurement and Construction (EPC) contracting activities and operation of special economic zones.

#### Power sector

Certain entities of the Group are involved in the generation of power. These are separate Special Purpose Vehicles ('SPV') which have entered into Power Purchase Agreements ('PPA') with the electricity distribution companies of the respective state governments / other government authorities (either on the basis of Memorandum of Understanding or through a bid process) or short term power supply agreements to generate and sell power directly to consumers as a merchant plant. Certain entities of the Group are involved in the mining and exploration activities and the Group is also involved in energy trading activities through one of its subsidiary companies.

### Airport sector

Certain entities of the Group are engaged in development and operation of airport infrastructure such as Greenfield International Airport at Hyderabad and modernisation and operation of international airports at Delhi, Male (refer note 30(a) with regard to discontinuance of operations) and Istanbul on build, own, operate and transfer basis.

#### **Development of Highways**

Certain entities of the Group are engaged in development of highways on build, operate and transfer model on annuity or toll basis. These are SPVs which have entered into concessionaire agreements with National Highways Authority of India ('NHAI') or respective state governments for carrying out these projects.

### **Construction business**

Certain entities of the Group are in the business of construction including as an EPC contractor. These entities are engaged in handling of EPC solution in the infrastructure sector.

### Others

### NOTE | 2 | PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include accounts of the subsidiary companies (accounted as per Accounting Standard (AS) 21), associates (accounted as per AS 23) and jointly controlled entities (accounted as per AS 27). Subsidiary undertakings are those companies in which the Company, directly or indirectly, has an interest of more than one half of voting power or otherwise controls the composition of the Board / Governing Body so as to obtain economic benefits from its activities. Subsidiary companies are consolidated from the date on which effective control is transferred to the Group till the date such control ceases. The consolidated financial statements have been prepared to comply in all material respects with the Accounting Standards notified by Companies (Accounting Standards) Rules, 2006, (as amended). The consolidated financial statements have been prepared under the historical cost convention on an accrual basis. The accounting policies have been consistently applied by the Group as in the previous year.

The consolidated financial statements of the Group have been prepared based on a line-by-line consolidation of the balance sheets, the statements of profit and loss and the cash flow statements of the Company and its subsidiary companies. All inter-company transactions, balances and unrealised surpluses and deficits on transactions between the entities in the Group are eliminated unless cost cannot be recovered.

The excess of the cost to the Company of its investments in subsidiary companies, over its proportionate share in equity of the investee Company as at the date of acquisition is recognised in the consolidated financial statements as Goodwill and disclosed under Intangible assets. In case the cost of investment in subsidiary companies is less than the proportionate share in equity of the investee company as on the date of investment, the difference is treated as capital reserve and shown under reserves and surplus.

The gains or losses arising from the dilution of interest on issue of additional shares to third parties is recorded as capital reserve or goodwill. Gains or losses arising on the direct sale by the Company of its investment in its subsidiary companies are transferred to the statement of profit and loss. Such gains or losses are the difference between the sale proceeds and the net carrying values of the investments.

The consolidated financial statements have been prepared using uniform policies for like transactions and other events in similar circumstances and are presented to the extent possible in the same manner as the Company's separate financial statements.

Investments in the associates have been accounted in the consolidated financial statements as per AS 23 on "Accounting for Investments in Associates". Investments in associate companies, which have been made for temporary purposes, have not been considered for consolidation.

# NOTE | 2 | PRINCIPLES OF CONSOLIDATION (Contd.)

Investments in the jointly controlled entities have been accounted using proportionate consolidation method whereby the Group includes its share of the assets, liabilities, income and expenses of the jointly controlled entities in its consolidated financial statements as per AS 27 on "Financial Reporting of Interests in Joint Ventures."

The entities considered in the consolidated financial statements in each of the years are listed below

The reporting dates of the subsidiary companies and jointly controlled entities coincide with that of the parent Company except in case of HEGL and its subsidiary companies and jointly controlled entities (refer Sl. No 29 to 41 above) and PTGEMS and its subsidiary companies and jointly controlled entities (refer Sl. No 150 to 162 above), whose financial statements for the year ended on and as at December 31, 2012 were considered for the purpose of the audited consolidated financial statements of the Group.

The financial statements of other subsidiary companies / jointly controlled entities have been drawn up to the same reporting date as of the Company, i.e. March 31, 2013

#### Notes:

- 1. Wound up / sold during the year.
- 2. Further infusion of Equity Share Capital during the year.
- 3. Acquired additional stake from the minority shareholder.
- 4. Became a jointly controlled entity pursuant to the infusion of equity share capital by the minority shareholders and existence of joint venture agreements.
- 5. Dilution due to change in holding structure of the subsidiary companies during the year.
- 6. Subsidiary of PTGEMS incorporated during the year.
- 7. Subsidiary company / jointly controlled entity incorporated during the year.
- 8. Acquired during the year.

### NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES

### a) Use of estimates

The preparation of consolidated financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

# b) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised.

### Power sector business:

In case of power generating companies, revenue from energy units sold as per the terms of the PPA and Letter Of Intent ('LOI') (collectively hereinafter referred to as 'the PPAs') is recognised on an accrual basis and includes unbilled revenue accrued up to the end of the accounting year. Revenue from energy units sold on a merchant basis is recognised in accordance with billings made to customers based on the units of energy delivered and the rate agreed with the customers.

Revenue from the sale of coal is recognised when the risks and rewards of ownership passes to the purchaser including delivery of the product, the selling price is fixed or determinable, and collectability is reasonably assured. Revenue earned in the pre-production stage and related operating costs have been recorded against the carrying value of mining and exploration and development properties.

Claims for delayed payments charges and any other claims, which the Group is entitled to, under the PPAs, are accounted for in the year of acceptance.

### NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES (Contd.)

#### Development of highways:

In case of companies involved in construction and maintenance of roads, toll revenue from operations is recognised on accrual basis which coincides with the collection of toll. In annuity based projects, revenue recognition is based on annuity accrued on time basis in accordance with the provisions of the concessionaire agreement entered into with NHAI or with respective State Governments. Claims raised on NHAI under concessionaire agreement are accounted for in the year of acceptance.

#### Revenue share paid / payable to concessionaire grantors:

Revenue share paid / payable to Concessionaire / grantors as a percentage of revenues, pursuant to the terms and conditions of the relevant agreement for development, construction, operation and maintenance of the respective roads has been disclosed as revenue share paid / payable to concessionaire grantors in the statement of profit and loss.

#### Airport sector business:

In case of airport infrastructure companies, aeronautical and non aeronautical revenue is recognised on an accrual basis and is net of service tax, applicable discounts and collection charges, when services are rendered and it is possible that an economic benefit will be received which can be quantified reliably.

In case of cargo handling revenue, revenue from outbound cargo is recognised at the time of acceptance of cargo with respect to non-airline customers and at the time of departure of aircraft with respect to airline customers and revenue from inbound cargo is recognised at the time of arrival of aircraft in case of airline customers and at the point of delivery of cargo in case of non-airline customers. Interest on delayed receipts from customers is recognised on acceptance.

Revenue from commercial property development rights granted to concessionaires is recognized on accrual basis, as per the terms of the agreement entered into with the customers.

Revenue from the sale of goods at the duty free outlets operated by the Group is recognized at the time of delivery of goods to customers which coincides with transfer of risks and rewards to its customers. Sales are stated net of returns and discounts.

Revenue from hotel operations comprises income by way of hotel room rent, sale of food, beverages and allied services relating to the hotel and is recognised net of taxes and discounts as and when the services are provided.

Revenue from sale of fuel is recognised when fuel is transferred to the customers and is measured based at the consideration received or receivable, net of returns and trade discounts.

Revenue from developing, operating, maintaining and managing the sites at the airport for display of advertisements is recognised over the period of display of advertisements, net of taxes and rebates.

### Revenue share paid/ payable to concessionaire grantors:

Revenue share paid / payable to Concessionaire / grantors as a percentage of revenues, pursuant to the terms and conditions of the relevant agreement for development, construction, operation and maintenance of the respective airports has been disclosed as revenue share paid/payable to concessionaire grantors' in the statement of profit and loss.

### Construction business:

Construction revenue and costs are recognised by reference to the stage of completion of the construction activity at the balance sheet date, as measured by the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs. Where the outcome of the construction cannot be estimated reliably, revenue is recognised to the extent of the construction costs incurred if it is probable that they will be recoverable. In the case of contracts with defined milestones and assigned price for each milestone, revenue is recognized on transfer of significant risks and rewards which coincides with achievement of milestone and its acceptance by its customer. Provision is made for all losses incurred to the balance sheet date. Any further losses that are foreseen in bringing contracts to completion are also recognised.

#### Others:

- i. Dividend income is recognised when the right to receive dividend is established by the reporting date.
- ii. Income from management / technical services is recognised as per the terms of the agreement on the basis of services rendered.
- iii. Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other operating income" for companies engaged in investing activities and under the head "other income" for other companies in the statement of profit and loss.
- iv. Benefits arising out of duty free scrips utilised for the acquisition of fixed assets or inventory are recognised as income once it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

### NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES (Contd.)

- v. On disposal of current investments, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss. Such income is included under the head "other operating income" for companies engaged in investing activities and under the head "other income" for other companies in the statement of profit and loss.
- vi. Revenue from certified emission reductions is recognised as per the terms and conditions agreed with the customers on sale of the certified emission reduction units.
- vii. Insurance claim is recognised on acceptance of the claims by the insurance company.
  - Revenue earned in excess of billings has been included under "other assets" as unbilled revenue and billings in excess of revenue have been disclosed under "other liabilities" as unearned revenue.
  - Expenditure including pre-operative and other incidental expenses incurred by the Group on projects that are in the process of commissioning, being recoverable from the respective SPVs / subsidiary companies created for carrying out these projects, are not charged to the statement of profit and loss and are treated as advances to the respective entities.

### c) Operation and maintenance contracts

Certain entities engaged in power generation have entered into a Long Term Service Agreements (LTSAs), Technical Service Agreement ('TSA') for maintenance of the power plants, Operations and Maintenance Agreement for regular and major maintenance and Long Term Assured Parts Supply Agreement (LTAPSA), Repair Work Supply Agreement ('PRWST') for supply of parts for planned and unplanned maintenance over the term of the agreements. Amounts payable under the LTSAs / TSA are charged to the statement of profit and loss based on actual factored fired hours of the gas turbines during the year on the basis of average factored hour cost including customs duty applicable at the current prevailing rate. Periodical minimum payments are accounted for as and when due. Amounts payable under PRWST are charged to the statement of profit and loss on an accrual basis.

Operations and Maintenance Agreements have been entered by certain subsidiary companies in the road sector for operations, regular and major maintenance of the highways. Amounts payable under such agreements are charged to the statement of profit and loss on an accrual basis.

#### d) Fixed assets

#### Tangible assets

Tangible assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises of purchase price and freight, duties, levies and borrowing costs if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of tangible asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing tangible assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

The Group adjusts exchange differences arising on translation / settlement of long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset to the cost of the asset and depreciates the same over the remaining life of the asset. In accordance with the Ministry of Corporate Affairs ('MCA') circular dated August 09, 2012, exchange differences adjusted to the cost of fixed assets are total differences, arising on long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset, for the period. In other words, the Group does not differentiate between exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost and other exchange differences.

Gains or losses arising from de-recognition of tangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the tangible asset and are recognised in the statement of profit and loss when the asset is de-recognised.

Tangible assets under installation or under construction as at balance sheet are shown as Capital work-in-progress and the related advances are shown as loans and advances.

#### Intangible assets

In case of airport infrastructure companies, amounts in the nature of upfront fee and other costs incurred pursuant to the terms of the respective concession agreements are recognised as Intangible assets.

Carriageways represents commercial rights to collect toll fee in relation to roads projects and to receive annuity in the case of annuity based projects which has been accounted at the cost incurred on the project activity towards reconstruction, strengthening, widening, rehabilitation of the roads on build, operate and transfer basis. It includes all direct material, labour and subcontracting costs, inward freight, duties, taxes, obligation towards negative grant payable to concessionaires, if any, and any directly attributable expenditure on making the commercial right ready for its intended use.

#### e) Exploration and evaluation expenditure

Exploration and evaluation expenditure incurred for potential mineral reserves and related to the project expenditure are recognised and reported as part of 'intangible assets under development' when one of the below conditions are met:

### NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES (Contd.)

- i. Such costs are expected to be either recouped in full through successful exploration and development of the area of interest or alternatively by its sale, or
- ii. When exploration and evaluation activities in the area of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically available reserves and active and significant operations in relation to the area are continuing or are planned for future.

Ultimate recoupment of the exploration expenditure carried forward is dependent upon a successful development and commercial exploitation, or alternatively, sale of the respective area. Assets are reassessed on regular basis and these costs are carried forward provided that atleast one of the conditions outlined above is met. All other exploration and evaluation expenditure is recognised as expense in the period in which it is incurred.

#### f) Deferred stripping costs

The Group defers stripping costs incurred subsequently, during the production stage of its operations, for those operations where this is the most appropriate basis for matching the costs against the related economic benefits and the effect is material. This is generally the case where there are fluctuations in stripping costs over the life of the mine (or pit). The amount of stripping costs deferred is based on the ratio ('Ratio') obtained by dividing the tonnage of waste mined either by the quantity of ore mined or by the quantity of minerals contained in the ore. In some operations, the quantity of ore is a more practical basis for matching costs with the related economic benefits where there are important co-products or where the grade of the ore is relatively stable from year to year. Stripping costs incurred in the period are deferred to the extent that the current period Ratio exceeds the life of mine ratio. Such deferred costs are then charged to statement of profit and loss to the extent that, in subsequent periods, the current period Ratio falls short of the life of mine ratio.

The life of mine ratio is based on proved and probable reserves of the mine. The life of mine waste-to-ore ratio is a function of the pit design(s) and therefore changes to that design will generally result in changes to the Ratio. Changes in other technical or economic parameters that impact on reserves will also have an impact on the life of mine ratio even if they do not affect the pit design(s). Changes to the life of mine ratio are accounted for prospectively.

In the production stage of some mines, further development of the mine requires a phase of unusually high overburden removal activity that is similar in nature to pre-production mine development. The costs of such unusually high overburden removal activity are deferred and charged to statement of profit and loss in subsequent periods on a units of production basis. This accounting treatment is consistent with that for stripping costs incurred during the development phase of a mine, before production commences.

Deferred stripping costs are included in 'Minining properties (including deferred exploration and stripping costs)' under intangible assets. These form part of the total investment in the relevant cash generating unit, which is reviewed for impairment if events or changes in circumstances indicate that the carrying value may not be recoverable.

# g) Leases

### For lessee:

Finance leases, which effectively transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, are capitalised at the inception of the lease term at the lower of the fair value of the leased property and present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised as finance costs in the statement of profit and loss. Lease management fees, legal charges and other initial direct costs of lease are capitalised.

A leased asset is depreciated on a straight-line basis over the useful life of the asset or the useful life envisaged in Schedule XIV to the Companies Act, 1956, whichever is lower. However, if there is no reasonable certainty that the Group will obtain the ownership by the end of the lease term, the capitalised asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset, the lease term or the useful life envisaged in Schedule XIV to the Companies Act, 1956.

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

### For lessor:

Leases in which the Group transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognised as a receivable at an amount equal to the net investment in the lease. After initial recognition, the Group apportions lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognised in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

### NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES (Contd.)

Leases in which the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognised in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognised as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognised immediately in the statement of profit and loss.

#### h) Depreciation / Amortisation

#### In case of entities under CERC Regulations:

Depreciation on plant and machinery is provided using straight line method at the rate of 5.28% per annum. After a period of 12 years from the date of commencement of commercial operations, the remaining written down value shall be depreciated over the balance useful life of the asset estimated by the management or in the manner prescribed under Central Electricity Regulatory Commission (Terms and Conditions of Tariff) Regulations, 2009 in terms of MCA Circular No: 31/2011 dated May 31, 2011 ('CERC regulations').

Other tangible assets are depreciated using straight line method at the rates specified in the CERC regulations, which is estimated by the management to be the estimated useful lives of the fixed assets, except for fixed assets individually costing Rs 5,000 or less, which are fully depreciated in the year of acquisition.

#### Other entities:

For domestic subsidiary companies and jointly controlled entities, other than as stated aforesaid and below, the Group provides depreciation on fixed assets, using straight line method at the rates specified under Schedule XIV to the Companies Act, 1956 or rates based on useful lives of the assets which are estimated by the management whichever are higher, except for assets individually costing less than ₹ 5,000, which are fully depreciated in the year of acquisition.

Leasehold land is amortised over the tenure of the lease except in case of power plant where it is amortised from the date of commercial operation. Leasehold improvements are amortised over the primary period of the lease or estimated useful life whichever is shorter.

Depreciation on adjustments to the historical cost of the assets on account of foreign exchange fluctuations is provided prospectively over the residual useful life of the asset.

For overseas subsidiary companies, jointly controlled entities and associates, the Group provides depreciation based on estimated useful lives of the fixed assets as determined by the management of such subsidiary companies, jointly controlled entities and associates. In view of different sets of environment in which such foreign subsidiary companies, jointly controlled entities and associates operate in their respective countries, depreciation is provided based on local laws and management estimates. These companies follow straight line method of depreciation spread over the useful life of each individual asset. It is practically not possible to align rates of depreciation of such subsidiary companies, jointly controlled entities and associates with those of the domestic subsidiary companies, jointly controlled entities and associates.

The estimated useful lives of the assets considered by such overseas entities are as follows:

| Accet category                        | Useful lit | Useful life in years |  |  |
|---------------------------------------|------------|----------------------|--|--|

Intangible assets

Goodwill arising on consolidation is not amortised but tested for impairment.

Intangible assets representing upfront fees and other payments made to concessionaires of the respective airports, pursuant to the terms and conditions of concession agreements are amortised on a straight line method over the initial and extended periods of concession agreements, as applicable.

Carriageways related to annuity based projects are amortised over the period of the respective Concessionaire Agreements on a straight line basis.

Carriageways related to toll based road projects are amortised based on proportion of actual revenue received during the accounting year to the total projected revenue till the end of the concession period in terms of MCA notification dated April 17, 2012.

The total projected revenue for the entire useful life is reviewed at the end of each financial year for expected changes in traffic and adjusted to reflect any changes in the estimate which will lead to actual collection at the end of useful life.

Intangible assets representing carriageways and airport concessionaire rights are amortised over the concession period, ranging from 17 to 20 years and 20 to 60 years respectively, which is beyond the maximum period of 10 years as specified in AS 26 on Intangible Assets, as the economic benefits from the underlying assets would be available to the Group over such period as per the respective concessionaire agreements.

Software is amortised based on the useful life of 6 years on a straightline basis as estimated by the management.

#### i) Impairment of tangible and intangible assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ('CGU') net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Group bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss, except for previously revalued tangible fixed assets, where the revaluation was taken to revaluation reserve. In this case, the impairment is also recognised in the revaluation reserve upto the amount of any previous revaluation.

After impairment, depreciation / amortisation is provided on the revised carrying amount of the asset over its remaining useful life.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

# j) Investments

Investments, which are readily realisable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident.

Current investments are carried in the consolidated financial statements at lower of cost or fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in nature in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

# NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES (Contd.)

#### k) Inventories

Inventories are valued as follows:

Raw materials, components, stores and spares: Raw materials, components, stores and spares are valued at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a weighted average basis and includes all applicable costs in bringing goods to their present locations and condition.

<u>Contract work-in-progress:</u> Costs incurred that relate to future activities on the contract are recognised as contract work-in-progress. Contract work-in-progress comprises of construction cost and other directly attributable overhead valued at cost.

<u>Traded / Finished goods:</u> Traded goods are valued at lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all applicable costs incurred in bringing goods to their present location and condition.

Self-generated certified emission reductions are recognised on grant of credit by United Nations Framework Convention on Climate Change ('UNFCCC') and are measured at lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

#### I) Employee benefits

a. Defined contribution plans

Contributions paid / payable to defined contribution plans comprising of provident fund, pension fund, superannuation fund etc., in accordance with the applicable laws and regulations are recognised as expenses during the period when the services are rendered by the employees.

The Group makes monthly contributions and has no further obligations under such plans beyond its contributions.

b. Defined benefit plans

The liability as at the balance sheet date is provided for based on the actuarial valuation, based on projected unit credit method at the balance sheet date, carried out by an independent actuary. Actuarial gains and losses comprise experience adjustments and the effect of changes in the actuarial assumptions and are recognised immediately in the statement of profit and loss as an income or expense.

c. Other long term employee benefits

The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains / losses are immediately taken to the statement of profit and loss and are not deferred. The Group presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

d. Short term employee benefits

Accumulated leave, which is expected to be utilised within the next twelve months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

#### m) Foreign currency transactions

Foreign currency transactions and balances

i. Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

ii. Conversior

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

iii. Exchange differences

The Group accounts for exchange differences arising on translation / settlement of foreign currency monetary items as below:

1. Exchange differences arising on a monetary item that, in substance, forms part of the Group's net investment in a non-integral foreign operation is accumulated in the foreign currency translation reserve until the disposal of the net investment. On the disposal of such net

#### NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES (Contd.)

investment, the cumulative amount of the exchange differences which have been deferred and which relate to that investment is recognised as income or as expenses in the same period in which the gain or loss on disposal is recognised.

- 2. Exchange differences arising on long-term foreign currency monetary items related to acquisition of a fixed asset are capitalised and depreciated over the remaining useful life of the asset.
- 3. Exchange differences arising on other long-term foreign currency monetary items are accumulated in the "Foreign Currency Monetary Item Translation Difference Account" and amortised over the remaining life of the concerned monetary item.
- 4. All other exchange differences are recognised as income or as expenses in the period in which they arise.

For the purpose of 2 and 3 above, the Group treats a foreign monetary item as "long-term foreign currency monetary item", if it has a term of 12 months or more at the date of its origination. In accordance with MCA circular dated August 09, 2012, exchange differences for this purpose, are total differences arising on long-term foreign currency monetary items for the period. In other words, the Group does not differentiate between exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost and other exchange difference.

iv. Forward exchange contracts entered into to hedge foreign currency risk of an existing asset / liability

The premium or discount arising at the inception of forward exchange contract is amortised and recognised as an expense / income over the life of the contract. Exchange differences on such contracts, except the contracts which are long-term foreign currency monetary items, are recognised in the statement of profit and loss in the period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such forward exchange contract is also recognised as income or as expense for the period. Any gain / loss arising on forward contracts which are long-term foreign currency monetary items is recognized in accordance with paragraph (iii)(2) and (iii)(3) above.

v. Translation of integral and non-integral foreign operations

The Group classifies all its foreign operations as either "integral foreign operations" or "non-integral foreign operations."

The financial statements of an integral foreign operations are translated as if the transactions of the foreign operations have been those of the Company itself.

The assets and liabilities of non-integral foreign operations are translated into the reporting currency at the exchange rate prevailing at the reporting date. Their statement of profit and loss are translated at exchange rates prevailing at the dates of transactions or weighted average rates, where such rates approximate the exchange rate at the date of transaction. The exchange differences arising on translation are accumulated in the foreign currency translation reserve. On disposal of a non-integral foreign operations, the accumulated foreign currency translation reserve relating to that foreign operation is recognised in the statement of profit and loss.

When there is a change in the classification of foreign operations, the translation procedures applicable to the revised classification are applied from the date of the change in the classification.

Any goodwill or capital reserve arising on acquisition of non-integral operations is translated at closing rate.

### n) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average numbers of equity shares outstanding during the period are adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

#### o) Government grants and subsidies

Grants or subsidies including airport development fee from the government or any regulatory authority are recognised when there is reasonable assurance that the grant / subsidy will be received and all conditions attached to the grant / subsidy will be complied with.

When the grant or subsidy relates to revenue, it is recognised as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate.

Where the grant or subsidy relates to an asset, the grant or subsidy amount (net of direct amount incurred to earn aforesaid grant or subsidy) is deducted from the gross value of the asset concerned in arriving at the carrying amount of the related asset.

Government grants of the nature of promoters' contribution are credited to capital reserve and treated as a part of shareholders' funds.

### NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES (Contd.)

Development fee entitlement in terms of preliminary ad-hoc approval of Ministry of Civil Aviation ('MoCA') dated February 9, 2009, which was finally approved by Airports Economy Regulatory Authority ('AERA') vide its order No. 28/2011-12 and issued on November 14, 2011 towards development of project, is reduced from the total project cost. The balance portion of development fee for the project cost, which is under construction, shall be accrued and reduced from the aforesaid cost after completion of assets under construction.

### p) Taxes on income

Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 ('IT Act') enacted in India and tax laws prevailing in the respective tax jurisdictions where the entities in the Group operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Deferred tax liabilities are recognised for all taxable timing differences. Deferred tax assets are recognised for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the entities in the Group have unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

In the situations where the entities in the Group are entitled to a tax holiday under IT Act enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognised in respect of timing differences which reverse during the tax holiday period, to the extent the entity's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognised in the year in which the timing differences originate. However, the entities in the Group restricts recognition of deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

At each reporting date, the entities in the Group re-assess unrecognised deferred tax assets. It recognises unrecognised deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each reporting date. The entities in the Group writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum Alternate Tax 'MAT' paid in a year is charged to the statement of profit and loss as current tax. The entities in the Group recognises MAT credit available as an asset only to the extent that there is convincing evidence that the entities in the Group will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the entities in the Group recognises MAT credit as an asset in accordance with the Guidance Note on 'Accounting for Credit Available in respect of Minimum Alternative Tax' under IT Act, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The entities in the Group reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the entities in the Group does not have convincing evidence that it will pay normal tax during the specified period.

# q) Segment reporting policies

### Identification of segments:

The Group's operating businesses are organised and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Group operate.

#### Inter segment transfers:

The Group accounts for intersegment sales / transfers at cost plus appropriate margins.

#### Allocation of common costs:

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

### NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES (Contd.)

#### Unallocated items:

Unallocated items includes general corporate income and expense items, which are not allocated to any business segment. It includes income tax, deferred tax charge or credit and the related tax liabilities and tax assets, interest expense or interest income and related interest generating assets, interest bearing liabilities, which are not allocated to any business segment.

#### Segment accounting policies:

The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the consolidated financial statements of the Group as a whole.

#### r) Provisions

A provision is recognised when the Group has a present obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Where the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

#### s) Derivative instruments

In accordance with the Institute of Chartered Accountants of India ('ICAI') announcement, derivative contracts, other than foreign currency forward contracts covered under AS 11, are marked to market on a portfolio basis, and the net loss, if any, after considering the offsetting effect of gain on the underlying hedged item, is charged to the statement of profit and loss. Net gain, if any, after considering the offsetting effect of loss on the underlying hedged item, is ignored.

#### t) Shares issue expenses and premium on redemption

Share issue expenses incurred are expensed in the year of issue and debenture / preference share issue expenses and redemption premium payable on preference shares / debentures are expensed over the term of preference shares / debentures. These are adjusted against the securities premium account of the respective entities as permitted by Section 78 of the Companies Act, 1956 to the extent of balance available in such securities premium account.

### u) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

### v) Borrowing costs

Borrowing cost includes interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

#### w) Employee stock compensation cost

In respect of HEGL, a subsidiary in Canada, officers, directors, employees and consultants are offered stock-based compensation. Measurement and disclosure of the employee share-based payment plans is done in the consolidated financial statements in accordance with Securities Exchange Board of India ('SEBI') (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Guidance Note on 'Accounting for Employee Share-based Payments', issued by the ICAI. The said subsidiary accounts all stock-based payments using a fair value-based method of accounting. The fair value of each stock option granted is accounted over the vesting period. The fair value is calculated using the Black-Scholes option pricing model.

### x) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognise a contingent liability but discloses its existence in the consolidated financial statements.

#### b) Terms/rights attached to equity shares

The Company has only one class of equity shares having a par value of ₹ 1 per share. Every member holding equity shares there in shall have voting rights in portion to the member's share of the paid up equity share capital. The Company declares and pays dividend in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting.

In the event of liquidation of the Company, the holders of equity shares would be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the equity shareholders.

NOTE 4(a)

GAPL purchased the aircraft division of GMR Industries Limited (GIDL) under slump sale on October 01, 2008 for a purchase consideration of ₹ 29.00 crore on a going concern basis and the transaction was concluded in the month of March 2009. Accordingly, an amount of ₹ 3.41 crore being the excess of net value of the assets acquired (based on a valuation report) over the purchase consideration has been recognised as capital reserve on acquisition.

### NOTE 4(b)

During the year ended March 31, 2006, GHIAL had received a grant of ₹ 107.00 crore from Government of Andhra Pradesh ('GoAP') towards Advance Development Fund Grant, as per the State Support Agreement. This is in the nature of financial support for the project and accordingly, the Group's share amounting to ₹ 67.41 crore as at April 1, 2011 was included in Capital reserve (government grant). During the year ended March 31, 2012, pursuant to dilution in Group's effective holding in GHIAL, ₹ 1.92 crore was transferred to minority interest.

# NOTE 4(c)

During the year ended March 31, 2011, GCORRPL had received project support fund of ₹ 28.44 crore from the Government of Tamil Nadu ('GoTN') as per the concession agreement and the Group's share amounts to ₹ 25.53 crore. The total project support fund is ₹ 300.00 crore and the same will be disbursed on quarterly basis based on the progress of the project and the expenditure incurred by the concessionaire on the civil works as per the disbursement methodology of the project fund as specified in clause 30.2.1 of the concession agreement entered into by GCORRPL with GoTN. During the year ended March 31, 2012, the grant received by GCORRPL during earlier years aggregating to ₹ 25.53 crore (net off ₹ 2.91 crore transferred to minority interest in earlier years) has been adjusted with intangible assets under development.

#### NOTE 4(d)

As required by section 45-1C of RBI Act, 20% of GAL's and DSPL's net profit of the year is transferred to special reserve. The said reserve can be used only for the purpose as may be specified by the RBI from time to time.

#### NOTE 4(e)

On July 9, 2012, GAL had written a letter to the RBI seeking the status as Core Investment Company ('CIC') and exemption from registration with the RBI. Pursuant to the reply by the RBI vide letter reference DNBS (BG) No. 382/01.02.636/2012-13 dated September 5, 2013, GAL has been exempted from the requirement of registration with RBI under section 45-IA of RBI Act, 1934, in terms of para (i) of RBI notification No. DNBS(PD) 22-/CGM (US)-2011 dated January 5, 2011. Further it was advised that Certificate of Registration bearing No. B-02.00225 dated March 3, 2010 issued in the name of "GMR Airports Limited" has been cancelled. However, GAL has to adhere to the guidelines issued by the Bank vide Circular CC No. 291 dated July 2, 2012.

GAL vide reference no. GAL / DEL / CS / 130101 on January 7, 2013, wrote another letter to RBI for the permission to reverse provisions against Standard Assets and Reserve Fund created as per Section 45-IC of the RBI Act, 1934. RBI, vide letter reference DNBS (BG) NO. 1047/01.02.636/2012-13 dated March 14, 2013, advised that CICs which are not systemically important are exempt from registration required under Section 45-IA of the RBI Act, 1934 and Prudential Norms Directions for NBFCs. Since CIC non-Non Depository Systematic Investment companies are exempt from registration requirements, the provisions of section 45IC will not be applicable to them.

Hence, based on above developments during the year, the Group has written back the provisions against Standard Assets of ₹ 1.57 crore to other income and transferred the Reserve Fund created under section 45-IC of the RBI Act, 1934 pertaining to GAL amounting to ₹ 28.33 crore to the statement of profit and loss.

#### NOTE 4(f)

The Board of Directors of the Company have recommended a dividend of ₹ 0.10 per equity share of ₹ 1 each for the year ended March 31, 2013.

Refer note 5 and note 8 as regards restriction on balances with banks arising in connections with the borrowings made by the Group.

<sup>\*\*</sup> As at March 31, 2013, GICL, a subsidiary of the Company, has fixed deposits of ₹ 747.20 crore with Eurobank, Cyprus. The Republic of Cyprus is presently facing economic difficulties. The management is of the view that inspite of such economic difficulties the amount held as fixed deposit with Eurobank is good for recovery though withdrawal of the amount from the Republic of Cyprus would be subject to restriction as may be imposed by the Central Bank of the country. Accordingly, the amount of deposit has been considered as non current.

<sup>^</sup> Restricted deposits includes margin money deposit and deposits with banks that are pledged by the Group with the Government and other authorities and with lenders against long term and short term borrowings availed by the Group.

### NOTE 30 DISCONTINUING OPERATIONS

a) GMIAL entered into an agreement on June 28, 2010 with Maldives Airports Company Limited ('MACL') and Ministry of Finance and Treasury (MoFT), Republic of Maldives for the Rehabilitation, Expansion, Modernization, Operation and Maintenance of Male airport for a period of 25 years ("the Concession Agreement"). On November 27, 2012, MACL and MoFT issued notices to GMIAL stating that the concession agreement was void ab initio and that neither MoFT nor MACL had authority under the laws of Maldives to enter into the agreement. It was also stated that MACL would take over the possession and control of Male airport within 7 days of the said letter.

Though GMIAL denied that the contract was void ab initio, MACL took over the possession and control of the Male International Airport and GMIAL vacated the airport effective December 8, 2012. This has resulted in the GMIAL's principal activity becoming impossible from the date of takeover. The matter is currently under arbitration and the procedural meeting was held on April 10, 2013. GMIAL is in the process of seeking remedies under the aforesaid concession agreement and does not anticipate counter claims if any. In view of the aforesaid matter, GMIAL continues to reflect assets amounting to ₹ 1,295.80 crore (USD 23.65 crore) including claim recoverable ₹ 919.16 crore (USD 16.77 crore) at their carrying values as at March 31, 2013, net off assets written off of ₹ 202.61 crore. Such assets written off are disclosed as an exceptional item in these consolidated financial statements. The outcome of the arbitration is uncertain as at March 31, 2013. GMIAL's ability to continue its future business operations is solely dependent on the outcome of arbitration and / or a negotiated settlement. However financial statements of GMIAL as at and for the year ended March 31, 2013 have been prepared and accordingly consolidated on a going concern basis in these consolidated financial statements.

Further, GMIAL has executed work construction contracts with GADLIL and other service providers for rehabilitation, expansion, modernization of Male International Airport. Pursuant to aforesaid takeover of airport, GMIAL has terminated the contracts with GADLIL and these service providers. As per the terms of contracts, in the event of discontinuation of construction, GMIAL is required to pay termination payment to the service providers. GMIAL has received claims of around USD 8.00 crore during the year ended March 31, 2013 from GADLIL and other service providers. However, no such claims relating to the termination of contracts have been recognised in these consolidated financial statements as at March 31, 2013 since the amounts payable are not certain.

Based on an internal assessment and a legal opinion obtained by GMIAL, the management of the Group is confident of proving that the concession agreement was not void ab initio and that the Group would be entitled for compensation under the concession agreement.

The statement disclosed in note 30(e) of these consolidated financial statements includes the revenue and expenses, the carrying amounts of the total assets and liabilities and the cash flows of discontinuing operations with regard to GMIAL.

- b. The Group has an investment of ₹ 167.94 crore and has given a loan of ₹ 219.20 crore to HEGL. During the year ended March 31, 2013, the Group has entered into agreements for divestment of the key coal mines held by certain subsidiaries and jointly controlled entities of HEGL, subject to obtaining necessary approvals. Based on the realisable value of these mines, pursuant to the proposed divestment, the Group has made an impairment provision of ₹ 251.37 crore towards the carrying value of the net assets of HEGL (including goodwill on consolidation of ₹ 98.71 crore). The management of the Group is confident that the carrying value of net assets as at March 31, 2013 in HEGL after the aforesaid impairment provision is appropriate. The Group has disclosed such impairment provision as an exceptional item in these consolidated financial statements.
  - The statement disclosed in note 30(e) of these consolidated financial statements includes the revenue and expenses, the carrying amounts of the total assets and liabilities and the cash flows of discontinuing operations with regard to HEGL and its subsidiaries and jointly controlled entities.
- c. During the year ended March 31, 2012, the Group had divested its 30% stake in GESPL to PETRONAS Power Sdn Bhd, a subsidiary of Petronas International Corporation Limited and had recognised a profit of ₹ 37.11 crore arising on such sale of shares, which has been disclosed under other income. During the year ended March 31, 2013, the Group has divested its balance 70% stake in GESPL to FPM Power Holding Limited and has realised a profit of ₹ 1,231.25 crore arising on such sale of shares, which has been disclosed as an 'exceptional item' in these consolidated financial statements. GESPL was developing a 800MW combined cycle gas turbine power plant in Jurong Island, Singapore. Further, the Company has provided a guarantee of SGD 38.00 crore towards warranties as specified in the Share Purchase Agreement (SPA) and other SPA transaction documents for a period till September 30, 2014 and in respect of tax claims, if any, the guarantee period is upto March 31, 2018.
  - The statement disclosed in note 30(e) of these consolidated financial statements includes the revenue and expenses, the carrying amounts of the total assets and liabilities and cash flows of discontinuing operations with regard to GESPL.
- d. During the year ended March 31, 2013, the Group has entered into definitive sale agreements for divestment of 74% equity shareholding in GJEPL to Macquarie SBI Infrastructure Investments Pte. Limited and SBI Macquarie Infrastructure Trustee Limited. Subsequent to the year end, the sale transaction has been completed.
  - GJEPL was a special purpose vehicle formed to widen the existing 2 lane portion from Km 34.14 (Farukhnagar) to Km 80.05 (Jadcherla) on National Highway 7 in the State of Andhra Pradesh to 4 lanes and improvement, operation and maintenance of Km 22.3 (Thondapalli) to Km 34.14 (Farukhnagar) on National Highway 7 in the State of Andhra Pradesh.

The statement disclosed in note 30(e) of these consolidated financial statements includes the revenue and expenses, the carrying amounts of the total assets and liabilities and cash flows of discontinuing operations with regard to GJEPL.

Note 32(b)(i) - GOSEHHHPL is entitled to a grant of ₹ 340.19 crore as cash support by way of an outright grant for meeting the project cost from NHAI subject to the satisfaction of the conditions as per Article 25 of the Concession Agreement. The grant is to be deposited in escrow account and is to be utilised towards the project cost. As at March 31, 2013, GOSEHHHPL has received a grant of ₹ 241.80 (March 31, 2012: ₹ 82.74 crore) against the aforesaid sanction and the same has been deducted from the cost of intangible assets under development.

Note 32(b)(ii) - GCORRPL is entitled to a grant of ₹ 300.00 crore as project support fund by way of a grant, which is to be disbursed on a quarterly basis based on the progress of the project and the expenditure incurred by the concessionaire on the civil works as per the disbursement methodology of the project fund as specified in clause 30.2.1 of the concession agreement entered into by GCORRPL with the GoTN. As at March 31, 2013, GCORRPL has received a grant of ₹ 211.59 crore (March 31, 2012: ₹ 106.70 crore) against the aforesaid sanction and the same has been deducted from the cost of intangible assets under development.

### b. Others in addition to 33(a) above:

- i. During the year ended March 31, 2010, GVPGL was granted a refund of customs duty of ₹ 69.09 crore which was paid earlier towards the import of plant and machinery. Considering that the cost of plant and machinery included the customs duty, the refund was adjusted to the cost of the asset and related depreciation expense of ₹ 11.19 crore, charged from the date of capitalisation till the date of grant of such refund, was credited to the statement of profit and loss during the year ended March 31, 2010. GVPGL received a refund of ₹ 59.11 crore.
  - a. During the year ended March 31, 2011, GVPGL had received an intimation from the Office of the Joint Director General of Foreign Trade ('JDGFT') for cancellation of duty drawback refund Order received in 2009-10 to the extent of ₹ 9.99 crore, in view of which, GVPGL had restored the capitalisation of customs duty and adjusted the cost of the asset and the related depreciation expense of ₹ 2.39 crore, chargeable from the date of capitalisation till the date of cancellation of such refund, was adjusted with the depreciation for the year ended March 31, 2011.
  - b. During the year ended March 31, 2012, GVPGL had received a further intimation from DGFT for cancellation of duty drawback refund Order of ₹ 59.11 crore received in 2009-10, thereby seeking refund of the amount GVPGL received earlier. Based on an expert's opinion, the management of the Group is confident that the duty drawback refund granted earlier was appropriate and that the cancellation of the duty drawback refund is not tenable as the intimation cannot be applied retrospectively. Accordingly, no adjustment has been made with regard to ₹ 59.11 crore already received by GVPGL in the consolidated financial statements of the Group.
  - c. GVPGL has filed a writ petition with the Hon'ble High Court of Delhi in November 2011 as regards the aforesaid matter, which is pending settlement as at March 31, 2013.
- ii. During the year ended March 31, 2011, GPCL had received a refund of customs duty of ₹ 29.57 crore which was paid earlier towards the import of the plant and machinery, which was passed on to Tamil Nadu Electricity Board (TNEB) as a pass through as per the terms of the PPA. During the year ended March 31, 2012, GPCL had received an intimation for cancellation of the duty draw back refund received earlier. The Group does not foresee any liability in respect of the same demand as the liability, if any, is to be recovered from TNEB, the ultimate beneficiary of the refund received earlier. However pending settlement of the matter, the same has been considered as a contingent liability in these consolidated financial statements of the Group.
- iii. During the year ended March 31, 2012, GVPGL had received a demand of ₹ 48.21 crore for the period September 2006 to November 2011 from the Chief Electrical Inspectorate, GoAP, whereby GoAP had imposed electricity duty on generation and sale of electrical energy calculated at the rate of six paise for each electricity unit generated by GVPGL since commencement of commercial operations. Based on an internal assessment and an expert opinion, the management of the Group is confident that the provisions of Electricity Duty Act and Rules, 1939 ('Electricity Rules') in respect of payment of electricity duty are not applicable to GVPGL. Accordingly electricity duty liability of ₹ 57.27 crore for the period September 2006 to March 2013 (March 31, 2012 : ₹ 52.02 crore) has been considered as a contingent liability in these consolidated financial statements of the Group.
- iv. During the year ended March 31, 2012, GEL received an intimation from the Chief Electrical Inspectorate, GoAP, whereby GoAP had demanded electricity duty on generation and sale of electrical energy amounting to ₹ 11.06 crore calculated at the rate of six paise for each electricity unit generated by GEL for the period from June 2010 to December 2011. GEL had filed a writ petition with the Hon'ble High Court of Judicature of Andhra Pradesh at Hyderabad against the intimation by GoAP and it was granted a stay order on deposit of 1/3rd of the duty demanded within a stipulated time. GEL had not made the requisite deposit and accordingly the interim stay was automatically vacated.
  - However, based on an internal assessment and a legal opinion obtained by GEL, the management is confident that the provisions of Electricity Rules in respect of payment of electricity duty are not applicable to GEL and accordingly electricity duty liability of ₹ 14.61 crore for the period from June 2010 to March 31, 2013 (March 31, 2012: ₹ 12.36 crore) has been considered as a contingent liability and accordingly no adjustments have been made to these consolidated financial statements of the Group.
- v. As at March 31, 2013, Municipal Corporation of Delhi ('MCD') has demanded property tax of ₹ 105.18 crore (March 31, 2012: ₹ 59.24 crore) on the land and properties at Delhi Airport. DIAL had filed a writ petition in the Delhi High Court challenging the applicability of the DMC (Amendment) Act, 1957 on the land and properties at the Delhi Airport and has deposited an amount of ₹ 13.68 crore under protest. Based on the legal opinion obtained, the management of the Group is confident of success in the writ petition and hence amount of ₹ 105.18 crore has been considered as a contingent liability in these consolidated financial statements of the Group.

- vi. GEL had entered into a PPA with Karnataka Power Transmission Corporation Limited for supply of energy during the period December 15, 1997 to July 7, 2008. GEL had a Fuel Supply Agreement ('FSA') with a fuel supplier toward purchase of Naphtha for generation of electricity during the aforementioned period. The FSA provided for payment of liquidated damages to the fuel supplier in the event that there was a shortfall in the purchase of the annual guaranteed quantity.
  - During the year ended March 31, 2013, GEL has received a notice for good faith negotiation under erstwhile FSA entered into between GEL and the fuel supplier with respect to dispute regarding liquidated damages amounting to ₹ 296.16 crore along with an interest of ₹ 5.55 crore toward failure of purchase of the annual guaranteed quantity for the period from November 21, 2001 to June 6, 2008. GEL vide its letter dated October 31, 2012 has disputed the demand from the supplier towards the aforementioned damages.
  - Further, GEL received a notice of arbitration from the fuel supplier's legal representative requesting the appointment of arbitrator for the dispute resolution which has been disputed by GEL in their reply dated February 15, 2013. Based on its internal assessment and a legal opinion, the management of the Group is confident that the claim of the fuel supplier towards such liquidated damages is not tenable and accordingly no adjustments have been made to these consolidated financial statements of the Group.
- vii. In case of DIAL, with effect from June 1, 2007, the Airports Authority of India ('AAI') has claimed service tax on the annual fee payable to them considering the same as rental from immovable property. DIAL has disputed the grounds of the levy under provisions of the OMDA. As the matter is under dispute and pending with the Hon'ble High Court of Delhi, the impact of the same, if any, has not been considered in these consolidated financial statements of the Group.
- viii. HMACPL has accrued customs officers' salaries stationed at air cargo terminal based on debit notes raised by the customs department on GHIAL as the ultimate cost has to be borne by the custodian i.e. HMACPL. GHIAL had filed a writ petition under Article 226 of the Constitution of India in the Hon'ble High Court of Judicature of Andhra Pradesh at Hyderabad against the demand raised. During the year ended March 31, 2013, GHIAL had received an order from the Hon'ble High court of Andhra Pradesh (Single Judge), stating that the grounds on which the levy was made by customs department were wholly unsustainable and accordingly, HMACPL had reversed the accrued customs duty amounting to ₹ 14.02 crore (March 31, 2012: ₹ Nil) for the period from March 23, 2008 to March 31, 2012 as provision no longer required and included the same in other income for the year ended March 31, 2013.
  - Subsequent to the above order, the customs department preferred an appeal against the same and on November 2, 2012, a bench of two judges of the Hon'ble High Court of Andhra Pradesh passed an order for interim suspension of the said order passed by the Hon'ble Single Judge. Management, based on internal assessment/legal opinion, is confident that there is no financial impact of this interim suspension order and accordingly, no further adjustment has been made in these consolidated financial statements of the Group.
- ix. SGH dismissed 552 employees in January 2012 out of which 348 employees have filed a joint lawsuit against SGH for wrongful dismissal in February 2012. The courts have ruled against SGH and asked for payment of 16 months' salary as compensation to the employees. SGH appealed against the rulings and in January 2013, the Supreme Court of Turkey has ratified the decision of the lower courts and decided against SGH and ordered to pay Euro 0.12 crore (Group's share of Euro 0.03 crore) (March 31, 2012: EUR Nil) due in February 2013 in respect to the 90 employees who are part of 348 joint lawsuits. SGH had already made provision amounting to Euro 0.43 crore (Group's share of Euro 0.12 crore) for the joint lawsuits of 348 employees, including all legal expenses for the year ended March 31, 2013.
  - In October 2012, 130 additional employees were dismissed; out of which 101 employees have filed cases for wrongful dismissal against SGH as of December 31, 2012. In respect to the lawsuits of 101 employees; SGH has made provision of Euro 0.21 crore (Groups' share of Euro 0.06 crore) (March 31, 2012: Euro Nil) as at March 31, 2013. Based on an internal assessment, the management of the Group is of the view that no further financial implications will arise on account of the aforesaid lawsuits and accordingly, no further adjustments have been made in these consolidated financial statements.
- x. In respect of ongoing land acquisition process of KSPL, there are claims of different types pending before various judicial forums. These claims are subject to judicial verdicts as at March 31, 2013. The Group based on its internal assessment is of the view that there would not be any claims against the Group and accordingly, no adjustments have been made to these consolidated financial statements of the Group for the year ended March 31, 2013.
- xi. The Deputy Commissioner of Commercial Taxes, Bhuvaneshwar have demanded ₹ 150.23 crore (including penalty of ₹ 100.16 crore) for non payment of entry tax on imported plant and machinery worth ₹ 2,464.05 crore during the financial year 2010-11 to financial year 2012-13 from outside India as per Orissa Entry Tax Act, 1999. GKEL has deposited ₹ 13.42 crore under protest and has filed an appeal before Appellate authorities and Special Leave Petition ('SLP') before Hon'ble Supreme Court of India. However based on an internal assessment, the management of the Group is of the view that no further financial implications will arise on account of aforesaid matter and accordingly, no further adjustment have been made in these consolidated financial statements.
- xii. Refer note 35(vi)(c) for details of contingent liabilities on issue of non-cumulative compulsorily convertible non-participatory preference shares (CCPS) by GAL to Investor I and Investors II.
- xiii. Refer note 35(vi)(b) for details of contingent liabilities on issue of fully paid up compulsorily convertible cumulative preference shares ('CCCPS') by GEL at an agreed upon IRR.

#### NOTE 35 OTHERS

#### i) Foreign currency transactions

The MCA, GoI vide its Notification No GSR 225 (E) dated March 31, 2009 announced Companies Accounting Standards (Amendment) Rules 2009 prescribing changes to AS 11 on 'The Effects of Changes in Foreign Exchange Rates'.

The Group has, pursuant to the adoption of principles of Companies Accounting Standard (Amendment) Rules 2009, exercised the option of recognising the exchange differences arising in reporting of foreign currency monetary items at rates different from those at which they were recorded earlier, in the original cost of such depreciable assets in so far such exchange differences arose on foreign currency monetary items relating to the acquisition of depreciable assets. Accordingly,

- a. Exchange loss amounting to ₹ 268.25 crore (net off exchange difference of ₹ 25.55 crore accounted as detailed under note 35(i)(c)) (March 31, 2012: exchange loss of ₹ 312.11 crore) has been adjusted to the cost of depreciable assets in these consolidated financial statements of the Group.
- b. An exchange gain of ₹ 0.01 crore, (March 31, 2012: exchange loss of ₹ 4.88 crore), net of amortisation, on long term monetary assets has been accumulated in the 'Foreign currency monetary item translation difference account' and is being amortised in the statement of profit and loss over the balance period of such long term monetary assets but not beyond March 31, 2020. The unamortised balance as at March 31, 2013 amounts to a debit balance of ₹ 2.51 crore (March 31, 2012: ₹ 2.50 crore).
- c. In view of the clarification issued by MCA through General Circular No. 25/2012 dated August 09, 2012 with regard to paragraph 46A of Notification No. GSR . 914(E) dated December 29, 2011 on AS -11, the Group has capitalized the exchange difference of ₹ 25.55 crore which was charged off to the statement of profit and loss during the year ended March 31, 2012 and the finance costs for the year ended March 31, 2013 are shown net off such adjustments.

#### (ii) Negative grant

In accordance with the terms of the concession agreements entered into with NHAI by GACEPL, GJEPL and GUEPL dated November 16, 2005, February 20, 2006 and April 19, 2006 respectively, the companies have an obligation to pay an amount of ₹ 507.96 crore by way of Negative Grant to NHAI and pursuant to which an amount of ₹ 321.30 crore has been paid as at March 31, 2013 (March 31, 2012: ₹ 297.58 crore) and the balance amount of ₹ 186.66 crore (March 31, 2012: ₹ 210.38 crore) has been disclosed as 'negative grant' under note 5 - 'Long term borrowings' in these consolidated financial statements of the Group (refer note 5).

#### (iii) Utilisation fees

Pursuant to the implementation agreement between Undersecretariat for Defense Industries (Administration) and consortium consisting of Limak Insaat Sanayi Ve Ticaret A.S., the Company and MAHB, utilisation fee of Euro 193.20 crore was payable in annual installments over the final 17 years of the 20 year concession period, starting from 2011. The concession period has been extended by a total of 665 days through February 2030 for an additional concession fee totaling approximately Euro 24.40 crore, which is accounted as below:

- (i) Utilization fees is charged as per units of usage method, based on revenue projections with a corresponding credit to utilisation fees liability.
- (ii) Prepaid utilisation fees as at March 31, 2013 amounts to ₹ 225.79 crore (March 31, 2012: ₹ 139.62 crore), which has been included in current prepaid expenses in note 13.

### (iv) Trade receivables

a. The Government of Karnataka vide its Order No. EN 540 NCE 2008 dated January 1, 2009 (the Order) invoked Section 11 of the Electricity Act, 2003 ('the Electricity Act') and directed GEL to supply power to the State Grid during the period January 01, 2009 to May 31, 2009 at a specified rate. The period was subsequently extended up to June 5, 2009 vide Order No. EN 325 NCE 2009 dated September 22, 2009. GEL had a contract with a buyer till January 31, 2009 at a selling rate higher than such specified rate and, as such, filed a petition before the Hon'ble High Court of Karnataka

challenging the Order. Revenue recognition in respect of power supplied during January 2009 has been made in the books as per the original contracted rate, based on a legal opinion. The differential revenue, so recognised in the books, amounts to ₹ 44.04 crore.

Based on the interim directions of the Hon'ble High Court of Karnataka in the month of March 2009, Karnataka Electricity Regulatory Commission ('KERC') has recommended a higher band of tariff than the specified rate in the Order. However, revenue recognition for the four months ended June 05, 2009 has been made, on a prudent basis, as per the rate specified in the Order.

The Hon'ble High Court of Karnataka, in its order dated March 26, 2010, has dismissed the petition of GEL challenging the Order by invoking section 11(1) of the Electricity Act with a direction that if the Order has any adverse financial impact on the Group, then a remedy is provided to GEL to approach the appropriate commission under the Electricity Act empowered to offset the adverse financial impact in such manner as it considers appropriate. GEL had filed a Special Leave Petition ('SLP') before the Hon'ble Supreme Court of India to appeal against the said Order of the Hon'ble High Court of Karnataka, and has sought ex-parte ad-interim order staying the operation of the said Order and to direct ESCOMs to pay minimum rate prescribed by KERC. Additionally, GEL filed a petition before KERC to decide on the adverse financial impact suffered by GEL because of invoking of powers u/s 11(1), in reply to which the Government of Karnataka undertakings ('respondents') have filed their reply on April 26, 2012 contesting GEL's claim of ₹ 166.75 crore and have made a counter claim of ₹ 223.53 crore against GEL on account of adverse impact suffered by the respondents. In response to counter claim made by the respondent, GEL has filed an updated petition with KERC on September 6, 2012.

In reply to petition filed by GEL, KERC, vide their order dated November 30, 2012 through majority judgment directed for a tariff of ₹ 6.90/ Kwh for the entire period for which the order was in force to offset the adverse financial impact suffered by GEL. GEL has filed an appeal before the APTEL, New Delhi challenging the KERC's order to the limited extent that KERC has failed to fully offset the adverse financial impact suffered by GEL. Further, during the year, GEL has withdrawn its SLP filed before the Hon'ble Supreme Court of India.

In view of the order received from KERC, appeal filed with APTEL and legal opinion obtained, the management of the Group is confident that there will not be any adverse financial impact to GEL with regard to these transactions and no adjustment has been made in these consolidated financial statements pending final resolution of the matter.

- b. GEL had entered into a LOI with GETL, for sale of electricity on merchant basis at a monthly pre-determined rate for the period from June 01, 2012 to May 30, 2013. GETL, in turn sells the power purchased from GEL to Andhra Pradesh Central Power Distribution Company Limited (APCPDCL). On February 7, 2013, GETL received a letter from APCPDCL wherein APCPDCL has informed that APDISCOMs have already filed an application with Andhra Pradesh Electricity Regulatory Commission ('APERC') to determine tariff payable regarding power supplied by GETL for the aforesaid contract period and the same is pending decision by the APERC. Further, APCPDCL claimed that KG D-6 gas was allocated to GEL by Ministry of Petroleum and Natural Gas ('MoPNG'), Government of India ('GOI') at the rate approved by Empowered Group of Ministers, GOI. As per the directives, GEL is required to supply entire power to APDISCOMs at a regulated tariff of APERC. In light of the above, APCPDCL has proposed to recover the differential amount of unit rate paid from June 01, 2012, under the above LOI from the bench mark unit rate paid to the new power projects under long-term power purchase agreements subject to necessary adjustments, after tariff determination by APERC.
  - GEL and GETL have filed a writ petition in the Hon'ble High Court of Andhra Pradesh disputing the aforementioned claim. The matter is pending final settlement, however based on an internal assessment, the management of the group is confident that there will not be any adverse financial impact on the Group with regard to aforesaid matter and as such no adjustment has been made in these consolidated financial statements of the Group.
- c. As at March 31, 2013, the power segment companies have receivables (including unbilled revenue) from TNEB and TANGENDCO Limited ('TANGENDCO') aggregating to ₹ 722.56 crore (March 31, 2012: ₹ 850.76 crore). Based on an internal assessment and various discussions that the Group had with TNEB and TANGENDCO, the management of the Group is confident of recovery of such receivables and accordingly, no adjustment has been made in these consolidated financial statements of the Group.
- d. As at March 31, 2013, GVPGL has total receivables of ₹ 10.98 crore (March 31, 2012: ₹ 10.98 crore) towards MAT reimbursement claim recognised by GVPGL. MAT reimbursement claim has not been acknowledged by the customer of GVPGL. During the year ended March 31, 2013, Andhra Pradesh Electricity Regulatory Commission (APERC) has issued an order whereby APERC has directed the customer to pay the MAT reimbursement claim along with interest after validation of payment of MAT by GVPGL. GVPGL has submitted the copies of bank challans and based on its internal assessment is confident of recovery of such receivables and accordingly, no provision towards such receivables has been made in these consolidated financial statements of the Group.
- e. Considering the delays in realization of dues from Air India and its subsidiaries (collectively referred to as 'Air India') and the uncertainty over the timing of the ultimate collection involved, DIAL and GHIAL, as a measure of prudence, had decided to recognize the revenue from Air India w.e.f. October 1, 2011 only when such uncertainty of realization is removed as required by para 9.2 of AS 9, 'Revenue Recognition'.
  - DIAL and GHIAL followed this practice till December 31, 2012 due to continued uncertainty. However, in view of substantial recoveries during the period January 1, 2013 to March 31, 2013 and other developments subsequent to the year end, the management of the Group believes that the reasonable certainty of realization has been established during the quarter ended March 31, 2013 and has accordingly recognized revenue from Air India amounting to ₹ 239.08 crore in these consolidated financial statements of the Group.
- f. As at March 31, 2013, GHIAL and DIAL have receivables from Kingfisher Airlines Limited ('KAL') aggregating to ₹ 16.73 crore (March 31, 2012: ₹ 24.09 crore). The management of the Group is of the view that the receivables are fully recoverable and DIAL and GHIAL have taken necessary steps to recover these amounts. As such, no adjustments have been made in these consolidated financial statements of the Group.

#### (v) Passenger Service Fee (PSF)

a. In case of DIAL and GHIAL, the PSF charged from the departing passengers has two components, viz., Facilitation Component (FC) and Security Component (SC). Ministry of Civil Aviation ('MoCA') had issued a Standard Operating Procedure ('SOP') for accounting / auditing of PSF (SC) according to which, amounts collected towards PSF (SC) are held by the airport infrastructure companies in fiduciary capacity on behalf of the GoI and are deposited in an escrow account utilised for meeting the security related expenses of the airports. It is also stipulated in the escrow account agreement that MoCA will have supervening powers to direct the escrow bank on the issues regarding operations as well as withdrawal from the escrow account. The PSF (SC) accounts are required to be maintained separately in accordance with the procedures laid down in the SOP and are subject to audit by the Comptroller & Auditor General of India (C&AG).

Following are the details of PSF (SC) account balances, which have been audited by one of the joint auditors of DIAL and GHIAL for the year ended March 31, 2012.

<sup>\*</sup>Includes an amount of ₹ 33.31 crore and ₹ 33.23 crore (March 31, 2012: ₹ 33.31 crore and ₹ 33.23 crore) paid under protest for Assessment year 2007-08 and 2008-09 respectively, related to taxability of PSF (SC).

b. MoCA issued a Circular No.AV 13028/001/2009-AS dated January 8, 2010, giving fresh guidelines regarding the expenditure which could be met out of the PSF(SC) and was subsequently clarified by MoCA vide order dated April 16, 2010. Based on the said circular, DIAL is not debiting aforesaid security expenditure to PSF (SC) escrow account. Further, vide circular No.AV 13024/43/2003-SS (AD) dated May 17, 2012, it was further directed that any such expenditure already debited was required to be credited back to PSF (SC) account. However, security expenditure amounting to ₹ 24.48 crore was already incurred prior to April 16, 2010 and debited to PSF (SC) account.

DIAL has filed a writ petition with the Hon'ble Delhi High Court challenging the applicability of the said circulars/letter issued by MoCA. The Hon'ble Delhi High Court vide its order dated December 21, 2012 has restrained MoCA from taking any coercive measures in the form of initiation of criminal proceedings against DIAL and now the matter is posted on October 24, 2013. In a similar case the aforesaid MoCA circulars/ letters were challenged before the Hon'ble Andhra Pradesh High court and the court has passed an interim order dated July 13, 2012, holding that the MoCA circular dated April 16, 2010 was prospective in nature and therefore reversal of payment of any amount prior to the issuance of the circular did not arise. Based on an internal assessment and the aforesaid order of the Hon'ble Delhi High Court, the management is confident that no liability in this regard would be payable and as such no provision has been made in these financial statements.

#### (vi) Preference shares issued by subsidiaries

- a. During the year ended March 31, 2010, GEL issued 0.0001% 200,000,000 non-cumulative redeemable preference shares of ₹ 10 each fully paid up amounting to ₹ 200.00 crore along with a securities premium of ₹ 100.00 crore to ICICI. GEL shall redeem 5% of the subscription amount outstanding under each tranche on the completion of 13th, 24th, 36th and 48th month from the date on which the subscription money was remitted and remaining outstanding amount shall be redeemed on December 31, 2014. The applicable yield shall be 14.00% p.a for tranches subscribed prior to December 31, 2010 and for tranches subscribed on or after January 1, 2011 onwards, the applicable yield shall be 14.00% or ICICI Bank Benchmark Advance Rate plus the applicable liquidity premia plus 0.25% per annum, whichever is higher. The 5% of the subscription amount outstanding has been redeemed on the completion of 13th month, 24th month and 36th month during the year ended March 31, 2011, March 31, 2012 and March 31, 2013 respectively.
- b. During the year ended March 31, 2011, GEL had issued following fully paid up CCCPS:

| Investor Company                                   | No. of preference shares | Amount<br>(₹ in crore) |
|--|--------------------------|------------------------|
| Claymore Investments (Mauritius) Pte Limited       | 9,300,000                | 930.00                 |

| Total  |                          | 1,395.00               |

CCCPS are convertible upon the occurrence of QIPO of GEL at an agreed internal rate of return ('IRR'). In case of non occurrence of QIPO within 3 years of the closing date, as defined in the terms of share subscription and shareholders agreement between the parties, investors have the right to require GIL to purchase the preference shares or if converted, the equity shares of GEL at an agreed upon IRR or exercise other rights as per the terms of the share subscription and shareholders agreement. The holders would be entitled to dividend, if dividend is paid to other class of preference shareholders. The preference shareholders have a right to attend General Meetings of GEL and vote on resolutions directly affecting their interest. In the event of winding up of GEL, GEL would repay the preference share capital in priority to the equity shares of GEL but it does not confer any further right to participate either in profits or assets of GEL.

c. During the year ended March 31, 2011, GAL has issued 2,298,940 non-cumulative compulsory convertible non-participatory preference shares (CCPS1) bearing 0.0001% dividend on the face value of ₹ 1,000 each fully paid up amounting to ₹ 229.89 crore at a premium of ₹ 2,885.27 each totaling to ₹ 663.31 crore to Macquaire SBI Infrastructure Investments 1 Limited, ('Investor I') for funding and consolidation of airport related investments by the Group. Further, during the year ended March 31, 2012 GAL issued 1,432,528 non-cumulative compulsory convertible non-participatory preference shares (CCPS 2) bearing 0.0001% dividend on the face value of ₹ 1,000 each fully paid up amounting to ₹ 143.25 crore at a premium of ₹ 3,080.90 each totaling to ₹ 441.35 crore to Standard Chartered Private Equity (Mauritius) III Limited, JM Financial - Old Lane India Corporate Opportunities Fund I Limited, JM Financial Trustee Company Private Limited, JM Financial Products Limited and Build India Capital Advisors LLP ('Investors II'). GIL and GAL have provided Investor I and Investors II various conversion and exit options at an agreed IRR as per the terms of the Restructuring Options Agreements and Investment agreements executed between GIL, GAL, Investor I and Investors II.

#### (vii) Development Fund (DF) Order

- a. AERA DF Order No. 28/2011-12, 30/ 2012-13 and AERA tariff order No. 03/2012-13 on determination of Aeronautical Tariff; issued on November 14, 2011, April 24, 2012 and December 28, 2012 respectively
  - (i) DIAL has accrued DF amounting to ₹ 350.00 crore during the year ended March 31, 2013 (March 31, 2012: ₹ 1,238.35 crore) earmarked for construction of Air Traffic Control 'ATC' tower, currently under progress as at March 31, 2013. DF amounting to ₹ 164.40 crore has been adjusted against the expenditure on construction of ATC tower incurred till March 31, 2013 and balance DF amounting to ₹ 185.60 crore, pending utilization, has been disclosed under other current liabilities.
  - (ii) While calculating such additional DF amount:
    - a) In accordance with the earlier Standard Operating Procedure 'SOP' approved and issued by the AAI dated February 19, 2009 read with the MoCA order dated February 9, 2009, DIAL was adjusting collection charges against DF receipts. However, AERA vide its subsequent order no. 28/2011-12 issued on November 14, 2011 has observed that in terms of Section 22A of the AAI Act, 1994 (amended from time to time) as well as Section 13(1)(b) of the AERA Act, 2008, the function of AERA is limited only to determining the rate/amount of DF and manner of collection and administration cost incurred thereupon is an issue, which had already been prescribed by way of rules by the Central Government. In view of the fact that DF rules notified by the MoCA dated August 2, 2011 do not prescribe adjustment of collection charges from the DF receipts; DIAL has reduced DF collection charges aggregating to ₹ 2.84 crore (As on March 2012 : ₹ 10.47 crore) from the DF grant, which was earlier adjusted against the DF receivable.
    - b) The DF amount collected from airlines so far as considered by AERA for determination of additional DF has not been computed based on the principle of NPV as allowed earlier by MoCA in its order dated February 9, 2009. In its DF Order, issued on November 14, 2011, AERA had stated that the treatment of interest paid on debts raised by DIAL on securitization of DF and the liability would be considered at the stage of tariff determination. Further, based on submissions made by DIAL and other stakeholders, AERA in its order No. 03/2012-13 issued on April 24, 2012 considered the aforesaid interest amount aggregating to ₹ 350.50 crore for the period from March 1, 2009 till November 30, 2011 as an operating cost for the purpose of tariff determination and not to be adjusted against the DF receipts.

In view of the aforesaid order and the fact that DIAL has used DF loans obtained against DF receivable for the construction of the airport, DIAL has capitalized a portion of interest aggregating to ₹ Nil (March 31, 2012: ₹ 188.38 crore) till the date of commencement of operations of the domestic and international terminals at the airport and interest aggregating to ₹ Nil (March 31, 2012: ₹ 162.12 crore) subsequent to such commencement of operations is charged to the statement of profit and loss which is disclosed as an exceptional item during the year ended March 31, 2012.

- c) AERA has passed an order vide Order No 30/2012-13 dated December 28, 2012 in respect of levy of development fee at Delhi airport. As per the said order, the rate of Airport Development Fee 'ADF' has been reduced from ₹ 200 to ₹ 100 and from ₹ 1,300 to ₹ 600 per embarking domestic and international passenger respectively. Further, as per the said order, such revised rates have come into force with effect from January 1, 2013 and estimated DF collection period has been extended up to April 2016.
- b. The Central Government has framed Airport Authority of India (Major Airports) Development Fee Rules, 2011 (collectively referred as 'DF Rules') vide its notification dated August 2, 2011. The said rules prescribe the guidelines for operation and administration of DF being collected at major airports in India. As per DF Rules and Section 22A of the AAI Act, AAI may levy on / collect from the embarking passengers at an airport, the DF at the rates as may be prescribed by the relevant authority i.e. AERA. Further such DF amount shall be credited to AAI escrow account and will be regulated and utilised in accordance with DF SOP dated November 30, 2011 issued by the AAI. In view of AAI's rights under the DF rules, DIAL has been appointed by the AAI to collect DF on behalf of AAI at Delhi Airport and deposit the same to the designated AAI DF escrow account. In view of the provisions of the DF Rules and DF SOP, the management of the Group believes that DIAL's responsibility is restricted only to the billing on behalf of AAI. Accordingly, billing to Airlines is not recorded in these consolidated financial statements of the Group. The Group accounts the DF on receipt of the same from AAI escrow account based on the Group's application for release of the DF amounts for repayment of DF loan and interest in accordance with the drawdown schedule.

The Statement showing amounts billed to the Airlines, payable to AAI and balance in the escrow bank account in the name of AAI to the extent not reflected in the Group's accounts as at March 31, 2013 are as follows:

### (viii) Others

- a. DIAL received advance development costs of ₹ 653.13 crore (March 31, 2012: ₹ 620.13 crore) from various Developers at Commercial Property District towards facilitating the development of common infrastructure there in. As per the terms of the agreement, DIAL will facilitate the development of common infrastructure upon receipt of advance towards development cost in accordance with the instructions and specifications in the agreement. Further, DIAL has no right to escalate the development cost and in case, any portion of the advance development cost is not utilized by DIAL towards development of any infrastructure facility, the same shall be returned to the Developers upon earlier of the expiry of the initial term of agreement or upon termination of the development agreement. As at March 31, 2013, DIAL has incurred development expenditure of ₹ 276.66 crore (March 31, 2012: Rs 230.10 crore) which has been adjusted against the aforesaid advance and balance amount is disclosed in long term and current liabilities in these consolidated financial statements of the Group.
- b. During the year, DIAL has collected "Marketing Fund" at a specified percentage from various concessionaires as per respective concessionaire agreements, to be utilized towards sales promotional activities as defined in such agreements. During the year ended March 31, 2013, DIAL had billed ₹ 23.91 crore towards such Marketing Fund and has incurred expenditure amounting to ₹ 2.20 crore towards agency fees to various external advertising and marketing service providers from the amount so collected. The balance amount of ₹ 21.71 crore as at March 31, 2013 (March 31, 2012: ₹ Nil) pending utilization, against such sales promotion activities is included under "Other Liabilities" as specific fund to be used for the purposes for which the amounts are collected.
- c. During the year March 31, 2012, with a view to restructure the holdings in Indian and International airport business, the Company has transferred 612,500,000 equity shares and 238,139,998 equity shares of DIAL and GHIAL respectively held by it to GAL, a subsidiary of the Company, at cost. GAL is 97.15% subsidiary of the Company.
- d. As at March 31, 2013, DIAL has an accumulated losses of ₹ 1,380.69 crore (March 31, 2012: ₹ 1,453.21 crore) thus resulting in substantial erosion of its net worth as at the year end. However, during the year ended March 31, 2013, DIAL has earned a net profit of ₹ 72.52 crore (March 31, 2012: net loss of ₹ 1,085.40 crore) and has met all its obligations as at March 31, 2013. AERA vide its powers conferred under section 13(1) (a) of AERA Act, 2008 passed an Aeronautical tariff hike Order No.03/2012-13 issued on April 24, 2012. The aforesaid Order increased the Aeronautical tariffs to be levied at Delhi airport for the fourth and fifth tariff year (i.e. 2012-13 and 2013-14) of the first five year control period (i.e. 2009-10 to 2013-14) which is effective from May 15, 2012 and April 1, 2013 respectively. AERA has also approved the rates of UDF in terms of the provisions of section 13 (1) (b) of the AERA Act. 2008 read with Rule 89 of the Aircraft Rules 1937.

Based on the Order received and DIAL's business plan, the management of the Group is confident that DIAL will be able to generate sufficient profits in future years and would meet its financial obligations as they arise.

- e. As at March 31, 2013, GHRL has accumulated losses of ₹85.03 crore (March 31, 2012: ₹61.18 crore). The accumulated losses at the year ended March 31, 2013 are more than fifty percent of the net-worth of GHRL. Also, GHRL has incurred cash loss during the year ended March 31, 2013. The management of the Group expects that there will be significant increase in the operations of GHRL that will lead to improved cash flows and long term sustainability. GHIAL has undertaken to provide such financial support as necessary, to enable GHRL to meet the operational requirements as they arise and to meet its liabilities as and when they fall due. Accordingly, these consolidated financial statements of the Group do not include any adjustments relating to the recoverability and classification of carrying amounts of assets or the amounts and classification of liabilities that may be necessary if GHRL is unable to continue as a going concern.
- f. During the year ended March 31, 2013, HDFRL has incurred a net loss of ₹ 1.55 crore (March 31, 2012: ₹ 0.94 crore) and has accumulated losses of ₹ 5.82 crore (March 31, 2012: ₹ 4.27crore) against equity of ₹ 9.95crore (March 31, 2012: ₹ 4.95 crore). These conditions indicate the existence of material uncertainty that may cast significant doubt about HDFRL's ability to continue as a going concern. Based on business plans, the management expects that there will be significant increase in the operations of HDFRL that will lead to improved cash flows and long term profitability. GHIAL has undertaken to provide such financial support as necessary, to enable HDFRL to meet the operational requirements as they arise and to meet its liabilities as and when they fall due. Accordingly, these consolidated financial statements of the Group do not include any adjustments relating to the recoverability and classification of carrying amounts of assets or the amounts and classification of liabilities that may be necessary if the entity is unable to continue as a going concern.
- g. The Company along with its subsidiary has an investment of ₹ 484.45 crore in its joint venture ISG as at March 31, 2013 (March 31, 2012: ₹ 376.47 crore). The Group's share of ISG's accumulated losses / negative reserves amounts to ₹ 436.42 crore (March 31, 2012: ₹ 306.09 crore), thereby resulting in substantial erosion of net worth of ISG as at March 31, 2013. Based on ISG's business plan, the management of the Group is confident that ISG will be able to generate sufficient profits in future years and would meet its financial obligations as they arise.
- h. The Group has an investment of ₹ 341.56 crore (including loans of ₹ 104.97 crore, share application money pending allotment of ₹ 20.00 crore and investment in equity and preference shares of ₹ 216.59 crore as at March 31, 2013) [March 31, 2012: ₹ 307.86 crore (including loans of ₹ 91.27 crore and investments in equity and preference shares of ₹ 216.59 crore)]. As at March 31, 2013 GACEPL has been incurring losses since the commencement of commercial operations. The management of the Group believes that these losses are primarily attributable to the loss of revenue arising as a result of diversion of partial traffic on parallel roads. The matter is currently under arbitration. Based on an internal assessment and a legal opinion, the management of the Group is confident that it will be able to claim compensation from relevant authorities for the loss it has suffered due to such diversion of traffic and accordingly, the management of the Group is of the view that the carrying value of net assets of ₹ 238.35 crore (after providing for losses till date of ₹ 103.21 crore) [March 31, 2012: ₹ 227.79 crore (after providing for losses till date of ₹ 80.07 crore)] as regards investment in GACEPL as at March 31, 2013 is appropriate.
- i. The consolidated financial statements of PTDSU and its subsidiaries (PTDSI and PTBSL) have accumulated deficit of ₹ 21.92 crore (USD 0.40 crore) (March 31, 2012: ₹ 18.04 crore (USD 0.35 crore)). PTBSL, a coal property Company remains in the exploration phase and is consistently in need of capital injection for its exploration costs. The management of the Group has committed to provide funding through stockholder loan in the form of Mandatory Convertible Bond until PTBSL commences commercial operations and generates income on its own. The management of the Group is not aware of any material uncertainties that may cast significant doubt upon these entities ability to continue as a going concern and hence these consolidated financial statements of the Group do not include any adjustments relating to the recoverability and classification of carrying amounts of assets or the amounts and classification of liabilities.
- 1. The Group is engaged in the business of generation and sale of electrical energy from its two gas based power plants of 220MW and 387.63MW situated at Kakinada and Vemagiri respectively. Further, the Group has investments in GREL which is constructing a gas based power plant. In view of lower supplies / availability of natural gas to the power generating companies in India, the Group is facing shortage of natural gas supply and delays in securing gas linkages. During the year ended March 31, 2013, GEL and GVPGL have incurred losses, thereby resulting in erosion of networth of these gas based power generating companies and GREL has not commenced commercial operations pending linkages of natural gas supply. The Group is actively pursuing / making representations with various government authorities to secure the natural gas linkage / supply as the natural gas supplies from KG D6 basin have dropped significantly from September 2011 onwards. The Group, for its 768 MW gas based power plant, which is under construction at Rajahmundry, has applied for allocation of gas and MoPNG is yet to allocate the gas linkage. The consortium of lenders have approved the reschedulement of Commercial Operation Date ('COD') of the plant under construction to April 1, 2014 and repayment of project loans. The Group and the Association of Power Producers are closely monitoring the macro situation and are evaluating various approaches / alternatives to deal with the situation and the management of the Group is confident that the GoI would take necessary steps / initiatives in this regard to improve the situation regarding availability of natural gas from alternate sources in the foreseeable future. Based on business plan and valuation assessment, the management of the Group is confident that GEL and GVPGL will be able to generate sufficient profits in future years, GREL will achieve the COD as stated aforesaid and these gas based power generating companies would meet their financial obligations as they arise and hence considers that the carrying value of the net assets of the above entities as at March 31, 2013 is appropriate. Despite the aforementioned loss, these consolidated financial statements of the Group do not include any adjustments that might result from the outcome of this uncertainty.
  - 2. In respect of plant under construction at Rajahmundry, pending securing supply of requisite natural gas, the Group has put on hold the active construction work of the plant. The management of the Group believes that the indirect expenditure attributable to the construction of the project and borrowing costs incurred during the period of uncertainty around securing gas supplies qualifies for capitalisation under paragraphs 9.3 and 9.4 of AS -10 and paragraphs 18 and 19 of AS -16. The subsidiary company setting up the plant has approached the MCA seeking

clarification / relaxation on applicability of the aforementioned paragraphs to the gas availability situation referred in 35 (viii)(j)(1) above. The management of the Group is confident of obtaining necessary clarification / relaxation allowing such capitalisation. Pending receipt of requisite clarification / relaxation, the Group has capitalised aforesaid expenses amounting to ₹ 282.39 crore for the period July 1, 2012 to March 31, 2013 towards cost of the plant under construction.

k. GPCL approached Tamil Nadu Electricity Regulatory Commission ('TNERC') to resolve the claims / counterclaims arising out of the PPA and Land Lease Agreement ('LLA') in respect of the dues recoverable from TNEB on account of sale of energy including reimbursement towards interest on working capital, MAT, rebate, start/ stop charges and payment of land lease rentals to TNEB. GPCL had received a favourable Order from TNERC on April 16, 2010 and in pursuance of the Order, GPCL had filed its claim on April 30, 2010 amounting to ₹ 481.68 crore and recognised ₹ 79.55 crore as income in the books of account.

TNEB filed a petition against TNERC Order in Appellate Tribunal for Electricity ('APTEL'). In terms of an interim Order on November 19, 2010 from APTEL, TNEB deposited ₹ 537.00 crore including interest on delayed payment of the claim amount. APTEL vide its Order dated February 28, 2012, upheld the claim of GPCL and further directed GPCL to verify and pay counter claims of TNEB in respect of the benefits earned if any, by GPCL with regard to the delayed payment towards fuel supply that are not as per the terms of the FSA. GPCL has appealed to the Hon'ble Supreme Court in Civil Appeals seeking certain interim relief with respect to the benefits pointed out by APTEL on credit period of Fuel Supplies in terms of the FSA.

GPCL is availing tax holiday under Section 80IA of the IT Act in respect of its income from power generation. Considering that the substantial amount, though under protest, has been received by GPCL, based on an expert opinion, GPCL has offered the claims upto March 31, 2012 as income in its tax returns and has claimed the deduction as available under Section 80IA of the IT Act.

However, in accordance with the Group's accounting policy, pending acceptance of claims by TNEB and pending adjudication of petition before the Hon'ble Supreme Court, the Group has not recognised such balance claim in the books of account.

In accordance with the above, the amount received towards the above mentioned claims after the date of Order is being disclosed as advance from the customer in these consolidated financial statements of the Group. Further, GPCL has been legally advised that in view of the appeal filed by TNEB against the Order of APTEL in Hon'ble Supreme Court, the entire matter is now subjudice and has not attained the finality.

- I. The Group has an investment of ₹ 1,237.47 crore (including investments in equity share capital of ₹ 822.87 crore and subordinate loan of ₹ 414.60 crore) in GCHEPL as at March 31, 2013 [March 31, 2012: ₹ 924.67 crore (including investments in equity share capital of ₹ 510.07 crore and subordinate loan of ₹ 414.60 crore)] and has also provided corporate/ bank guarantee towards loan taken by GCHEPL from the project lenders. GCHEPL is in advanced stage of construction of 1,370 MW coal based thermal power plant at Raipur district, Chhattisgarh and is awaiting linkage of domestic coal. GCHEPL has obtained provisional Mega Power status certificate from the GoI, Ministry of Power vide letter dated September 8, 2011. The management of the Group is confident of obtaining the linkage of domestic coal prior to the completion of construction of the plant and is of the view that the carrying value of its investment including subordinate loan in GCHEPL as at March 31, 2013 is appropriate.
- m. GADLIL is registered in the Republic of Maldives for upgrading of existing terminal and construction of new terminal at the Male International Airport. As per the work construction contract dated October 25, 2010 entered into with GMIAL, the expected substantial completion date of the construction was July 01, 2014, and GADLIL's registration in the Republic of Maldives is valid till December 31, 2016. However, pursuant to the takeover of Male airport by MACL, GMIAL has terminated the work construction contract with GADLIL on December 10, 2012. These conditions indicate the existence of a material uncertainty about the going concern of GADLIL. However, the financial statements of GADLIL as at and for the year ended March 31, 2013 have been prepared and accordingly consolidated on a going concern basis.
- n. GKUAEL had entered into a Concession Agreement with NHAI on November 30, 2011 for six laning of Kishangarh-Udaipur-Ahmedabad section of National Highways 79A, 79, 76 and 8. Pursuant to non-fulfillment of mandatory 'conditions precedent' specified under the Concession Agreement within the due date, GKUAEL has issued a notice to NHAI dated December 21, 2012 of its intention to terminate the Concession Agreement. In response, NHAI vide their letter dated January 1, 2013 termed the notice not maintainable both in law and in facts. Further, NHAI in their letter dated January 17, 2013 to GKUAEL has also indicated of making good the alleged defaults of NHAI within the cure period of 90 days.
  - The Company along with its subsidiary has made an investment of ₹ 700.00 crore in GKUAEL, which is primarily utilized towards payment of mobilization advance of Rs 590.00 crore to its EPC contractors and Rs 107.75 crore towards indirect expenditure attributable to the project and borrowing costs ('project expenses'). The management of the Group is confident of recovering the aforesaid mobilisation advance and does not anticipate any compensation to be payable to NHAI in view of the aforesaid dispute and continue to carry such project expenses as capital work in progress pending satisfactory resolution of the matter.
- o. The Company has given an interest free loan of ₹ 115.00 crore to GWT during the year ended March 31, 2011 for the purpose of an employee benefit scheme. GWT has utilised the proceeds of the loan received from the Company in the following manner and the position as at March 31, 2013 is:

| Particulars                | March 31, 2013<br>(₹ in crore) | March 31, 2012<br>(₹ in crore) |

SEBI has issued Circular No. CIR/CFD/DIL/3-2013 dated January 17, 2013 prohibiting listed entities from framing any employee benefit scheme involving acquisition of own securities from the secondary market. The management of the Group has submitted the details of the GWT to the stock

- exchanges and is in the process of complying with the requirements of the circular within the prescribed timelines. SEBI has issued Circular No. CIR/CFD/DIL/7-2013 dated May 13, 2013 extending the date of compliance to December 31, 2013.
- p. As at March 31, 2013, the Group has an outstanding interest bearing inter corporate loan of ₹ 126.04 crore (USD 2.30 crore) receivable from a subsidiary of GHPL, the Ultimate Holding Company of the Group. Subsequent to March 31, 2013, an amount of ₹ 98.64 crore (USD 1.80 crore) has been repaid and the management of the Group is confident of the recovery of the balance outstanding loan in the immediate future.
- q. As at March 31, 2013, GICL has fixed deposits of ₹747.20 crore with Eurobank, Cyprus. The Republic of Cyprus is presently facing economic difficulties. The management is of the view that inspite of such economic difficulties the amount held as fixed deposit with Eurobank is good for recovery though withdrawal of the amount from the Republic of Cyprus would be subject to restriction as may be imposed by the Central Bank of Cyprus. Accordingly, the amount of deposit has been considered as restrictive bank balance and disclosed under "Other Non Current Assets" in these consolidated financial statements of the Group.
- r. KSPL is undertaking development of a port based multi-product SEZ at Kakinada. The approvals from the Ministry of Commerce and Industry for the SEZ development were valid till June 26, 2012. Pending completion of the development of the SEZ, KSPL has applied for extension of the validity period which is pending approval from the Board of Approval of the Ministry of Commerce & Industry. The management is confident of obtaining the necessary approvals in the foreseeable future and continues with the active development of the SEZ.
- s. KSPL, has acquired land for development of Special Economic Zone and initiated various rehabilitation and resettlement initiatives thereafter for relocating the inhabitants residing on the land acquired. The amount of expenditure incurred by KSPL towards rehabilitation and resettlement initiatives amounting to ₹ 60.63 crore (March 31, 2012: 55.94 crore) has been treated as part of the land acquisition cost and is classified under capital work-in-progress. Considering that the negotiations with the beneficiaries towards obtaining possession of land necessitating the rehabilitation is in progress, no provision has been made towards the potential cost that is likely to be incurred by KSPL towards rehabilitation and settlement.
- t. As per CERC guidelines, maximum rate that can be received by GKEL for Infirm Power exported prior to COD with the prior permission of regional load dispatch center is at ₹ 1.65 rate per unit for power generated with domestic coal. GKEL on prudent basis has estimated trial run income at ₹ 1.35 rate per unit for Infirm Power exported amounting to ₹ 3.13 crore.

- v. A search under Section 132 of the IT Act was carried out at the premises of the Company and certain entities of the Group by the Income Tax Authorities on October 11, 2012, followed by search closure visits on various dates during the year ended March 31, 2013, to check the compliance with the provisions of the IT Act. The Income Tax Department has subsequently sought certain information / clarifications. The Group has not received any demand from the Income Tax Authorities. The management of the Group believes that it has complied with all the applicable provisions of the IT Act with respect to its operations.
- w. The C&AG has conducted the performance audit of Public Private Partnership (PPP) project of AAI at Delhi airport for the period 2006 to 2012. C&AG has presented its report before Rajya Sabha on August 17, 2012 wherein they have made certain observations on DIAL. The management is of the opinion that the observations in the C&AG report do not have any financial impact on these consolidated financial statements of the Group.

#### NOTE | 36 | DERIVATIVE INSTRUMENTS:

#### (i) IRS outstanding as at the balance sheet date:

a. In case of DIAL, as per the conditions precedent to disbursement of External Commercial Borrowing (ECB) loan, DIAL has entered into an IRS agreements from floating rate of interest to fixed rate of interest against its foreign currency loan of USD 34.13 crore (March 31, 2012: USD 35.00 crore). Since the critical terms of the IRS and the principal terms of the loan are same, based on the internal assessment carried out by the management of the Group, the net impact of the mark to market valuation of the IRS, net of gain / loss on the underlying loan is not expected to be material and accordingly no adjustment has been made in these consolidated financial statements of the Group.

- i. In case of GPCL, GTAEPL and GTTEPL, as the timing differences are originating and reversing within the tax holiday period under the provisions of section 80-IA of the IT Act, deferred tax has not been recognised by these Companies.
- ii. GHIAL is entitled to claim tax holiday for any 10 consecutive years out of 15 years, from the year of commencement of commercial operations in 2007-08, under Section 80-IA of the IT Act with regard to income from airport operations. Considering that GHIAL had brought forward losses of ₹ Nil (March 31, 2012: ₹ 57.60 crore), unabsorbed depreciation of ₹ 674.35 crore (March 31, 2012: ₹ 740.31 crore), and other items of ₹ 16.12 crore (March 31, 2012: ₹ 14.77 crore) as at March 31, 2013 under IT Act, the management of the Group, based on the projected future taxable income, expects to avail such tax holiday from the assessment year 2018-19.

GHIAL has continued recognition of deferred tax asset (net) amounting to ₹ 30.60 crore (March 31, 2012: ₹ 83.80 crore) on carry forward business loss, unabsorbed depreciation and other items available for set-off from future taxable income before commencement of the expected tax holiday period. The management of the Group, based on an internal assessment and legal opinion, believes that there is virtual certainty, with convincing evidence, of availability of such future taxable income as it is entitled to levy regulated charges at the airport as per the Concession agreement read along with Order Nos. 13 and 14/2010-11 and Direction 5/2010-11 of AERA which ensure a reasonable rate of return to the airport operator, considering the fair rate of return on regulatory assets base, operations and maintenance expenses, depreciation and taxes.

Based on an independent expert's opinion, the aforementioned net deferred tax asset has been recognised in respect of all the timing differences which have originated up to March 31, 2013 and are expected to reverse either before commencement of the expected tax holiday period or after the expiry of such tax holiday period.

- iii. In case of PT BSL, deferred tax asset has not been recognised on unabsorbed losses on the grounds of prudence in view of the management's assessment of future profitability.
- iv. During the year ended March 31, 2010, based on an expert opinion, GVPGL had recognised deferred tax asset amounting to ₹ 147.00 crore on carry forward business loss and unabsorbed depreciation available for set-off from future taxable income before commencement of the expected tax holiday period. The management believed that there was virtual certainty, with convincing evidence, of availability of such future taxable income in view of the power pricing mechanism in the PPA entered into with the APDISCOMs for supply of 370 MW out of the total capacity of 387 MW, as amended, for a period of 23 years set to expire in 2029 and the agreement entered into by the Group with Reliance Industries Limited, Niko (Neco) Limited and BP Exploration (Alpha) Limited for the supply of natural gas for a period till March 31, 2014 pursuant to allocation of natural gas from KG D-6 being made available to the

Group under firm allocation basis by the MoPNG, GoI, vide their letter dated November 18, 2009.

The management had recognized deferred tax / liability in respect of all the timing differences which had originated up to March 31, 2012 and were expected to reverse either before the commencement of the expected tax holiday period or after the expiry of such tax holiday period.

During the year ended March 31, 2013, the natural gas supplies from KG D-6 basin have dropped significantly. In the absence of virtual certainty supported by convincing evidence of future taxable profits to the Group, for set off of unabsorbed depreciation and carry forward losses, the management has written down the carrying amount of deferred tax asset in the financial statements of the Group for the year ended March 31, 2013.

### Stock options granted

The weighted average fair value of stock options granted during the period was CAD Nil (December 31, 2011: CAD Nil). The BlackScholes valuation model has been used for computing the weighted average fair value considering the following inputs:

| Particulars                           | December 31, 2012 | December 31, 2011 |
|---------------------------------------|-------------------|-------------------|
| Weighted average share price (in CAD) | 0.07              | 0.07              |
| Exercise price (in CAD)               | 0.13              | 0.13              |
| Expected volatility (%)               | 133%              | 133%              |
| Expected life                         | 1                 | 2                 |
| Average risk-free interest rate (%)   | 0.97%             | 0.97%             |

The expected volatility was determined based on historical volatility data; historical volatility includes early years of the HEGL life; HEGL expects the volatility of its share price to reduce as it matures. To allow for the effects of early exercise, it was assumed that the employees will exercise the options one and half year after the vesting date.

# Independent Auditors' Report on the Standalone Financial Statements of GMR Infrastructure Limited

To the Members of GMR Infrastructure Limited

### Report on the financial statements

We have audited the accompanying financial statements of GMR Infrastructure Limited ("the Company"), which comprise the balance sheet as at March 31, 2013, and the statement of profit and loss and the cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

### Management's responsibility for the financial statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Basis for Qualified Opinion**

As detailed in Note 43 to the accompanying financial statements for the year ended March 31, 2013, the Company through its subsidiary GMR Infrastructure (Mauritius) Limited ('GIML') has made an investment of ₹ 126.58 Crore (USD 2.31 Crore) towards 77% equity shareholding in GMR Male International Airport Private Limited ('GMIAL') and has given a corporate guarantee of Rs. 2,301.60 Crore (USD 42.00 Crore) to the lenders in connection with the borrowings made by GMIAL. The Concession Agreement entered into between GMIAL, Maldives Airport Company Limited ('MACL') and Ministry of Finance and Treasury ('MoFT') for the Rehabilitation, Expansion, Modernization, Operation and Maintenance of Male International Airport ('MIA') for a period of 25 years has been declared void ab initio by MACL and

MoFT and MACL has taken possession of MIA with effect from December 8. 2012. GMIAL has initiated the arbitration process to seek remedies under the said agreement and pending resolution of the dispute, such investment has been carried at cost in the financial statements as at March 31, 2013 as the management is of the opinion that GMIAL will be able to recover at least the carrying value of the assets including the claim recoverable of ₹ 919.16 Crore (USD 16.77 Crore). Further, GMIAL has executed work construction contracts with GADL International Limited ('GADL International'), a subsidiary of the Company and other service providers for rehabilitation, expansion, and modernization of MIA. Pursuant to the aforesaid takeover of the airport by MACL, GMIAL has terminated the contracts with GADL International and these service providers and have received claims from GADL International and other service providers towards termination payments. However, such claims relating to the termination of contracts have not been recognised since the amounts payable are not certain as at March 31, 2013. The takeover of MIA by MACL, initiation of arbitration proceedings and its consequent impact on the operations indicate the existence of a material uncertainty that may cast a significant doubt about the going concern of GMIAL and GADL International.

Having regard to the uncertainty in view of the dispute and the final outcome of the matter, we are unable to comment on its impact on the carrying value of the investment pertaining to the aforesaid project and any other consequential impact that may arise in this regard on the financial statements for the year ended March 31, 2013.

### **Qualified opinion**

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effect of the matter described in the Basis for Qualified Opinion paragraph, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the balance sheet, of the state of affairs of the Company as at March 31, 2013;
- (b) in the case of the statement of profit and loss, of the profit for the year ended on that date; and
- (c) in the case of the cash flow statement, of the cash flows for the year ended on that date.

### **Emphasis of Matter**

a) We draw attention to Note 30 to the accompanying financial statements for the year ended March 31, 2013 in connection with an investment of ₹ 341.56 Crore (including loans of ₹ 104.97 Crore, share application money pending allotment of ₹ 20.00 Crore and investment in equity / preference shares of ₹ 216.59 Crore made by the Company and its subsidiaries) in GMR Ambala Chandigarh Expressways Private Limited ('GACEPL'), a subsidiary of the Company. Though GACEPL has been incurring losses since the commencement of commercial operations, based on management's internal assessment and legal opinion obtained by the management of GACEPL, such investment has been carried at cost. Our opinion is not qualified in respect of this matter.

b) We draw attention to Note 44 to the accompanying financial statements for the year ended March 31, 2013, regarding (i) losses incurred by GMR Energy Limited ('GEL'), GMR Vemagiri Power Generation Limited ('GVPGL'), subsidiaries of the Company, and the consequent erosion of net worth resulting from unavailability of adequate supply of natural gas and (ii) rescheduling of the commercial operations date and the repayment of certain project loans by GMR Rajahmundry Energy Limited ('GREL'), a subsidiary company, pending linkage of natural gas supply. Based on business plans and valuation assessment, the management is of the view that the carrying value of the investments (including advances) as at March 31, 2013 made by the Company directly / through its subsidiaries in GEL, GVPGL and GREL is appropriate. However, continued uncertainty exists as to the availability of adequate supply of natural gas which is necessary to conduct operations at varying levels of capacity in the future and as such the accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not qualified in respect of this matter.

### Report on other legal and regulatory requirements

- As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of subsection (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
- 2. As required by section 227(3) of the Act, we report that:
  - (a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - (b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
  - (c) The balance sheet, the statement of profit and loss, and the cash flow statement dealt with by this Report are in agreement with the books of account;
  - (d) except for the matter described in the Basis for Qualified Opinion paragraph, in our opinion, the balance sheet, the statement of profit and loss, and the cash flow statement comply with the Accounting Standards referred to in subsection (3C) of section 211 of the Act; and
  - (e) On the basis of written representations received from the directors as on March 31, 2013, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2013, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Act.

# Annexure referred to in clause 1 of paragraph on report on other legal and regulatory requirements of our report of even date

Re: GMR Infrastructure Limited

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
  - (b) All fixed assets have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
  - (c) There was no disposal of a substantial part of fixed assets during the year.
- (ii) (a) The inventory has been physically verified by the management during the year. In our opinion, the frequency of verification is reasonable.
  - (b) The procedures of physical verification of inventory followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
  - (c) The Company is maintaining proper records of inventory. Discrepancies noted on physical verification of inventories were not material, and have been properly dealt with in the books of account.
- (iii) (a) The Company has granted unsecured loan to one entity covered in the register maintained under section 301 of the Act. The maximum amount involved during the year (excluding interest) was ₹ 65.99 Crore and the year-end balance of loan (excluding interest) granted to such party was ₹ Nil.
  - (b) In our opinion and according to the information and explanations given to us and considering the economic interest of the Company in the above entity, the rate of interest and other terms and conditions for such loan are not prima facie prejudicial to the interest of the Company.
  - (c) In respect of loans granted, repayment of the principal amount is as stipulated and payment of interest has been regular.
  - (d) There is no overdue amount of loans granted to companies, firms or other parties listed in the register maintained under section 301 of the Act.
  - (e) According to information and explanations given to us, the Company has not taken any loans, secured or unsecured, from companies, firms or other parties covered in the register maintained under section 301 of the Act. Accordingly, the provisions of clause 4(iii)(e) to (g) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, there is an adequate internal control system commensurate with the size of the Company and the nature of its business, for the purchase of inventory and fixed assets and for the sale of services. In case of purchase of certain fixed assets and inventory, the management has

represented that because of the unique and specialized nature of the items involved, alternate quotations could not be obtained in certain cases. The activities of the Company do not involve sale of goods. During the course of our audit, we have not observed any major weakness or continuing failure to correct any major weakness in the internal control system of the Company in respect of these areas.

- (v) (a) According to the information and explanations provided by the management, we are of the opinion that the particulars of contracts or arrangements referred to in section 301 of the Act that need to be entered into the register maintained under section 301 have been so entered.
  - (b) In respect of transactions made in pursuance of such contracts or arrangements and exceeding the value of Rupees five lakhs entered into during the financial year, because of the unique and specialized nature of the items involved and absence of any comparable prices, we are unable to comment whether the transactions were made at prevailing market prices at the relevant time.
- (vi) The Company has not accepted any deposits from the public within the meaning of section 58A and 58AA of the Act and the rules framed thereunder.
- (vii) In our opinion, the Company has an internal audit system commensurate with the size and nature of its business.
- (viii) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 209(1)(d) of the Act, related to the construction activities and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of records with a view to determine whether they are accurate or complete.
- (ix) (a) Undisputed statutory dues including provident fund, employees' state insurance, sales-tax, wealth-tax, service tax, customs duty, excise duty, investor education and protection fund, cess and other material statutory dues have generally been regularly deposited with the appropriate authorities though there have been slight delays in few cases in remittance of profession tax and tax deducted at source under the Income tax Act, 1961.
  - (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, investor education and protection fund, income-tax, wealth-tax, service tax, sales-tax, customs duty, excise duty, cess and other material statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
  - (c) According to the records of the Company, the dues outstanding of income-tax, sales-tax, wealth-tax, service tax, customs duty, excise duty and cess on account of any dispute, are as follows:

| Name of the  | Nature of   | Amount | Period for    | Forum where    |
|--------------|-------------|--------|---------------|----------------|
| statute      | dues        | (₹ in  | which amount  | dispute is     |
|              |             | Crore) | relates to    | pending        |
| Finance Act, | Service Tax | 29.09  | October 2007  | Commissioner   |
| 1994         |             |        | to March 2012 | of Service Tax |

- (x) The Company has no accumulated losses at the end of the financial year and it has not incurred cash losses in the current and immediately preceding financial year.
- (xi) Based on our audit procedures and as per the information and explanations given by the management, we are of the opinion that the Company has not defaulted in repayment of dues to a financial institution, bank or debenture holders.
- (xii) According to the information and explanations given to us and based on the documents and records produced before us, the Company has not granted loans and advances on the basis of security by way of pledge of shares, debentures and other securities.
- (xiii) In our opinion, the Company is not a chit fund or a nidhi / mutual benefit fund / society. Therefore, the provisions of clause 4(xiii) of the Order are not applicable to the Company.
- (xiv) In our opinion, the Company is not dealing in or trading in shares, securities, debentures and other investments. Accordingly, the provisions of clause 4(xiv) of the Order are not applicable to the Company.
- (XV) The Company has given a guarantee in respect of a loan taken by a group Company from a bank in respect of which it has not charged any commission nor was any adequate explanation provided to us of the benefit to the Company for giving such a guarantee. In respect of other guarantees given by the Company for loans taken by others from banks or financial institutions, the terms and conditions, in our opinion, are not prima-facie prejudicial to the interest of the Company.
- (xvi) Based on the information and explanations given to us by the management, term loans were applied for the purpose for which the loans were obtained.
- (xvii) According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we report that no funds raised on short-term basis have been used for long-term investment.
- (xviii) The Company has not made any preferential allotment of shares to parties or companies covered in the register maintained under section 301 of the Act.
- (xix) According to the information and explanations given to us, the Company has issued 6,500 secured debentures of ₹ 0.10 Crore each, during the period covered by our audit report. The outstanding amount as at March 31, 2013 in respect of these secured debentures is ₹ 987.50 Crore. The Company has created security in respect of debentures issued. Further, the Company has unsecured debentures of

- ₹ 350.00 Crore outstanding as at March 31, 2013 on which no security is required to be created.
- (xx) The Company has not raised any money through a public issue during the year.
- (xxi) Based on the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and as per the information and explanations given by the management, we report that no fraud on or by the Company has been noticed or reported during the year.

#### 1. CORPORATE INFORMATION

GMR Infrastructure Limited ('GIL' or 'the Company') is a public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956 ('the Act'). Its stocks are listed on two stock exchanges in India. The Company carries its business in the following verticals:

a) Engineering Procurement Construction (EPC)

The Company is engaged in handling EPC solutions in the infrastructure sector.

b) Others

The Company's business also comprises of investment activity and corporate support to various infrastructure Special Purpose Vehicles (SPV).

#### 2. BASIS OF PREPARATION

The financial statements of the Company have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under the Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Act. The financial statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

### NOTE 2.1 Summary of significant accounting policies

#### a) Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

### b) Tangible fixed assets

Tangible fixed assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of tangible fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing tangible fixed assets, including day to day repairs and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

The Company adjusts exchange differences arising on translation/settlement of long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset to the cost of the tangible asset and depreciates the same over the remaining life of the asset. In accordance with the Ministry of Corporate Affairs ('MCA') circular dated August 09, 2012, exchange differences adjusted to the cost of tangible fixed assets are total differences, arising on long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset, for the period. In other words, the Company does not differentiate between exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost and other exchange differences.

Gains or losses arising from derecognition of tangible fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the tangible fixed assets and are recognised in the statement of profit and loss when the tangible fixed asset is derecognised.

### c) Depreciation on tangible fixed assets

Depreciation on tangible fixed assets is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by the management, or those prescribed under the Schedule XIV to the Act, whichever is higher. The Company has used the following rates to provide depreciation on its tangible fixed assets.

| Assets                 | Rates (SLM) |
|------------------------|-------------|
| Plant and equipments   | 4.75%       |
| Office equipments      | 4.75%       |
| Furniture and fixtures | 6.33%       |
| Vehicles               | 9.50%       |
| Computers              | 16.21%      |

### NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES (Contd.)

Asset individually costing Indian Rupees (₹) 5,000 or less, are fully depreciated in the year of acquisition.

#### d) Intangible assets

Intangible assets (Computer software) acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

Computer software is amortised based on the useful life of 6 years on a straight line basis as estimated by the management.

Gains or losses arising from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the intangible assets and are recognised in the statement of profit and loss when the intangible asset is derecognised.

### e) Impairment of tangible/intangible assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ('CGU') net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss, except for previously revalued tangible fixed assets, where the revaluation was taken to revaluation reserve. In this case, the impairment is also recognised in the revaluation reserve up to the amount of any previous revaluation.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior year. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

#### f) Leases

Where the Company is lessee

Finance leases, which effectively transfer to the Company substantially all the risks and benefits incidental to the ownership of the leased item, are capitalised at the inception of the lease term at the lower of the fair value of the leased property and present value of the minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised as finance costs in the statement of profit and loss. Lease management fees, legal charges and other initial direct costs of lease are capitalised.

A leased asset is depreciated on a straight-line basis over the useful life of the asset or the useful life envisaged in Schedule XIV to the Act, whichever is lower. However, if there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, the capitalised asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset, the lease term or the useful life envisaged in Schedule XIV to the Act.

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

#### g) Borrowing costs

Borrowing costs include interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings.

#### NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES (Contd.)

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

#### h) Investments

Investments, which are readily realisable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

### i) Inventories

Raw materials, components, stores and spares are valued at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials, components and stores and spares is determined on a weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Costs incurred that relate to future activities on the contract are recognised as "Contract work in progress".

Contract work in progress comprising construction costs and other directly attributable overheads is valued at lower of cost and net realisable value.

### j) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

### Revenue from construction activity

Construction revenue and costs are recognised by reference to the stage of completion of the construction activity at the balance sheet date, as measured by the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs. Where the outcome of the construction cannot be estimated reliably, revenue is recognised to the extent of the construction costs incurred if it is probable that they will be recoverable. In the case of contracts with defined milestones and assigned price for each milestone, it recognises revenue on transfer of significant risks and rewards which coincides with achievement of milestone and its acceptance by its customer. Provision is made for all losses incurred to the balance sheet date. Any further losses that are foreseen in bringing contracts to completion are also recognised. Variations in contract work, claims and incentive payments are recognised to the extent that it is probable that they will result in revenue and they are capable of being reliably measured. Contract revenue earned in excess of billing has been reflected as unbilled revenue and billing in excess of contract revenue has been reflected as unearned revenue.

#### Dividends

Dividend income is recognised when the Company's right to receive dividend is established by the reporting date.

#### Income from management/ technical services

Income from management/ technical services is recognised as per the terms of the agreement on the basis of services rendered.

#### Interes

Interest on investments and bank deposits are recognised on a time proportion basis taking into account the amounts invested and the rate applicable.

### k) Foreign currency translation

Foreign currency transactions and balances.

### NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES (Contd.)

### (i) Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

### (ii) Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

### (iii) Exchange differences

The Company accounts for exchange differences arising on translation/settlement of foreign currency monetary items as below:

- Exchange differences arising on long-term foreign currency monetary items related to acquisition of a fixed asset are capitalised and depreciated over the remaining useful life of the asset.
- 2. Exchange differences arising on other long-term foreign currency monetary items are accumulated in the "Foreign Currency Monetary Item Translation Difference Account" and amortised over the remaining life of the concerned monetary item.
- 3. All other exchange differences are recognised as income or as expenses in the period in which they arise.

For the purpose of (iii)(1) and (iii)(2) above, the Company treats a foreign monetary item as "long-term foreign currency monetary item", if it has a term of twelve months or more at the date of its origination. In accordance with MCA circular dated August 9, 2012, exchange differences for this purpose, are total differences arising on long-term foreign currency monetary items for the period. In other words, the Company does not differentiate between exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost and other exchange differences.

#### I) Retirement and other employee benefits

### (i) Defined contribution plans

Retirement benefit in the form of provident fund, superannuation fund and pension fund are defined contribution schemes. The Company has no obligation, other than the contributions payable to the provident fund, pension fund and superannuation fund. The Company recognises contribution payable to the provident fund, pension fund and superannuation fund schemes as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre payment will lead to, for example, a reduction in future payment or a cash refund.

### (ii) Defined benefit plan

Gratuity liability is a defined benefit obligation and is provided on the basis of actuarial valuation, based on projected unit credit method at the balance sheet date, carried out by an independent actuary. Actuarial gains and losses comprise experience adjustments and the effect of changes in the actuarial assumptions and are recognised in full in the period in which they occur in the statement of profit and loss as an income or expense.

### (iii) Other long-term employee benefits

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end. Actuarial gains/ losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

#### (iv) Short-term employee benefits

Accumulated leave, which is expected to be utilised within the next twelve months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

### NOTE | 2.1.| SIGNIFICANT ACCOUNTING POLICIES (Contd.)

### m) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all potential dilutive equity shares.

#### n) Income taxes

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income tax Act, 1961 (the 'IT Act') enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier year. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Deferred tax liabilities are recognised for all taxable timing differences. Deferred tax assets are recognised for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each reporting date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Minimum Alternate Tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognises MAT credit as an asset in accordance with the Guidance Note on Accounting for credit available in respect of MAT under the IT Act, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT credit entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

### o) Segment reporting

#### **Identification of segments**

The Company's operating businesses are organised and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

#### Allocation of common costs

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

### **Unallocated items**

Unallocated items include general corporate income and expense items which are not allocated to any business segment.

### NOTE | 2.1. | SIGNIFICANT ACCOUNTING POLICIES (Contd.)

### Segment accounting policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statement of the Company as a whole.

### p) Shares/debentures issue expenses and premium redemption

Equity shares issue expenses incurred are expensed in the year of issue and preference share/debenture issue expenses and redemption premium payable on preference shares/ debentures are expensed over the term of preference shares/debentures. These are adjusted to the securities premium account as permitted by Section 78(2) of the Act to the extent of balance available in such securities premium account.

#### q) Provisions

A provision is recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Where the Company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

#### r) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

### s) Cash and cash equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and cash/ cheques/ drafts on hand and short-term investments with an original maturity of three months or less.

#### NOTE 30

The Company has an investment of ₹ 341.56 Crore (March 31, 2012: ₹ 307.86 Crore) [including loans of ₹ 104.97 Crore (March 31, 2012: ₹ 91.27 Crore), share application money pending allotment of ₹ 20.00 Crore (March 31, 2012: ₹ Nil) and investment in equity/preference shares of ₹ 216.59 Crore (March 31, 2012: ₹ 216.59 Crore) made by the Company and its subsidiaries] in GACEPL as at March 31, 2013. GACEPL has been incurring losses since the commencement of commercial operations. The management believes that these losses are primarily attributable to loss of revenue arising as a result of diversion of partial traffic on parallel roads. The matter is currently under arbitration however, based on management's internal assessment and a legal opinion, the management of GACEPL is confident that it will be able to claim compensation from relevant authorities for the loss it has suffered due to such diversion of traffic and accordingly, the investment in GACEPL has been carried at cost.

### NOTE 43

The Company through its subsidiary GIML has made an investment of ₹ 126.58 Crore (USD 2.31 Crore) towards 77% holding in GMIAL and GIML has pledged deposits of Rs 789.12 Crore (USD 14.40 Crore) towards loan taken by GMIAL from its lenders Further the Company has given a guarantee of ₹ 2,301.60 Crore (USD 42.00 Crore) to the lenders in connection with the borrowings made by GMIAL.

GMIAL entered into an agreement on June 28, 2010 with Maldives Airports Company Limited ('MACL') and Ministry of Finance and Treasury ('MoFT'), Republic of Maldives for the Rehabilitation, Expansion, Modernization, Operation and Maintenance of Male International Airport ('MIA') for a period of 25 years ("the Concession Agreement"). On November 27, 2012, MACL and MoFT issued notices to GMIAL stating that the concession agreement was void ab initio and that neither MoFT nor MACL had authority under the laws of Maldives to enter into the agreement. It was also stated that MACL would take over the possession and control of MIA within 7 days of the said letter. Though GMIAL denied that the contract was void ab initio, MACL took over the possession and control of the MIA and GMIAL vacated the airport effective December 8, 2012. This has resulted in the GMIAL principal activity becoming impossible from the date of takeover. The matter is currently under arbitration and the procedural meeting was held on April 10, 2013. GMIAL is in the process of seeking remedies under the aforesaid concession agreement and does not anticipate counter claims if any. The outcome of the arbitration is uncertain as at March 31, 2013. In view of the aforesaid matter, GMIAL continues to reflect assets including the claim recoverable of ₹ 919.16 Crore (USD 16.77 Crore) at their carrying values as at March 31, 2013, net of assets written off of ₹ 202.61 Crore. GMIAL's ability to continue its future business operations and consequential impact on investments made/ guarantees given by the Company and GIML is solely dependent on the outcome of arbitration and/or a negotiated settlement.

Further, GMIAL has executed work construction contracts with GADLIL, a subsidiary of the Company and other service providers for rehabilitation, expansion, and modernisation of MIA. Pursuant to the aforesaid takeover of the airport by MACL, GMIAL has terminated the contracts with GADLIL and these service providers. As per the terms of contracts, in the event of discontinuation of construction, GMIAL is required to pay termination payment to the service providers. GMIAL has received claims from GADL and other service providers towards termination payments. However, no such claims relating to the

termination of contracts have been recognised in the financial statements of GMIAL as at March 31, 2013 since the amounts payable are not certain. The takeover of MIA by MACL, indicate the existence of a material uncertainty about the going concern of GMIAL and GADLIL.

Based on an internal assessment and a legal opinion obtained by GMIAL, the management of the Company is confident of proving that the concession agreement was not void ab initio and that GMIAL would be entitled for compensation under the concession agreement and accordingly these financial statements of the Company do not include any adjustments that might result from the outcome of this uncertainty.

The Company's subsidiaries GEL and GVPGL are engaged in the business of generation and sale of electrical energy from their two gas based power plants of 220MW and 387.63MW situated at Kakinada and Vemagiri respectively. Further, GREL, a subsidiary, is constructing a gas based power plant. In view of lower supplies/availability of natural gas to the power generating companies in India, these subsidiaries are facing shortage of natural gas supply and delays in securing gas linkages. During the year ended March 31, 2013, GEL and GVPGL have incurred losses resulting in erosion of networth of these gas based power generating companies and GREL has not commenced commercial operations pending linkages of natural gas supply. Further, GREL for its 768 MW gas based power plant, which is under construction at Rajahmundry, has applied for allocation of gas and Ministry of Petroleum and Natural Gas (MoPNG) is yet to allocate the gas linkage.

The consortium of lenders have approved the reschedulement of Commercial Operation Date ('COD') of the plant under construction to April 1, 2014 and repayment of project loans. GEL along with its subsidiaries is actively pursuing/ making representations with various government authorities to secure the natural gas linkage/supply as the natural gas supplies from KG D6 basin have dropped significantly from September 2011 onwards. The Group and the Association of Power Producers are closely monitoring the macro situation and are evaluating various approaches/alternatives to deal with the situation and the management is confident that the Government of India would take necessary steps/initiatives in this regard to improve the situation regarding availability of natural gas from alternate sources in the foreseeable future. Based on business plan and valuation assessment, the management is confident that GEL and GVPGL will be able to generate sufficient profits in future years, GREL will achieve the COD as stated aforesaid and these gas based power generating companies would meet their financial obligations as they arise and hence the carrying value of investments (including advances) made by the Company directly or through its subsidiaries ('investments') in above entities as at March 31, 2013 is appropriate.

## NOTE 45

During the year ended March 31, 2012, with a view to restructure the holdings in Indian and International airport business, the Company had transferred 612,500,000 equity shares and 238,139,998 equity shares of DIAL and GHIAL respectively held by it to GAL at cost. GAL is a 97.15% subsidiary of the Company.

During the year ended March 31, 2011, pursuant to restructuring, to facilitate expansion of the energy business both in India as well as globally, the Company had transferred its entire shareholding in GEL to GREEL, a subsidiary of the Company, at cost.

During the year ended March 31, 2013 with a view to restructure the equity holdings in road business, the Company had transferred 55,752,000 equity shares, 47,601,300 equity shares and 80,295,000 equity shares held in GPEPL, GJEL and GUEPL respectively to GMRHL at cost. GMRHL is a 100.00% subsidiary of the Company.

Further the Company has transferred 4,798,600 8% non-cumulative redeemable preference shares and 3,201,400 8% non-cumulative redeemable preference shares held in GUEPL to GTTEPL and GTAEPL at cost.

A search under Section 132 of the IT Act was carried out at the premises of the Company by the Income Tax Authorities on October 11, 2012, followed by search closure visits on various dates thereafter, to check the compliance with the provisions of the IT Act. The Income Tax Department has subsequently sought certain information/clarifications. The Company has not received any show cause notice/demand from the Income Tax Authorities. The management of the Company believes that it has complied with all the applicable provisions of the IT Act with respect to its operations.

# NOTE 49

As per the transfer pricing rules prescribed under the IT Act, the Company is examining domestic and international transactions and documentation in respect thereof to ensure compliance with the said rules. The management does not anticipate any material adjustments with regard to the transaction involved.

Certain amounts (currency value or percentages) shown in the various tables and paragraphs included in the financial statements have been rounded off or truncated as deemed appropriate by the management of the Company.

Previous year's figures have been regrouped and reclassified, wherever necessary, to conform to the current year's classification.

Highways Authority of India ('NHAI') which has been disputed by NHAI. As at March 31, 2013, GKUAEL has incurred and capitalised indirect expenditure towards project and borrowing costs of Rs. 107.75 crore and has given capital advances of Rs.590.00 crore. In the opinion of the independent auditors, the aforesaid capitalisation of Rs 107.75 crore is not in accordance with the relevant Accounting Standards and such expenses should have been charged off in the consolidated financial statements. Had the aforesaid expenditure not been capitalised, profit after tax and minority interest of the Group for the year ended March 31, 2013 would have been lower by Rs. 107.75 crore. Further, having regard to the uncertainty in view of the dispute, the independent auditors are also unable to comment on the final outcome of the matter and any other consequential impact that may arise in this regard, on the consolidated financial statements for the year ended March 31, 2013. Management Response GKUAEL had entered into a Concession Agreement with NHAI on November 30, 2011 for six laning of Kishangarh-Udaipur-Ahmedabad section of National Highways 79A, 79, 76 and 8. Pursuant to non-fulfillment of mandatory 'conditions precedent' specified under the Concession Agreement within the due date, GKUAEL has issued a notice to NHAI dated December 21, 2012 of its intention to terminate the Concession Agreement. In response, NHAI vide their letter dated January 1, 2013 termed the notice not maintainable both in law and in facts. Further, NHAI in their letter dated January 17, 2013 to GKUAEL has also indicated of making good the alleged defaults of NHAI within the cure period of 90 days. The Company along with its subsidiary has made an investment of Rs. 700,00 crore in GKUAEL, which is primarily utilized towards payment of mobilization advance of Rs. 590.00 crore to its EPC contractors and Rs 107.75 crore towards indirect expenditure attributable to the project and borrowing costs ('project expenses'). The management of the Group is confident of recovering the aforesaid mobilisation advance and does not anticipate any compensation to be payable to NHAI in view of the aforesaid dispute and continue to carry such project expenses as capital work in progress pending satisfactory resolution of the matter. 6(b) Additional comments from the GKUAEL has submitted a revised proposal to NHAL Board of board/audit committee chair: NHAI has recommended the proposal for settlement and forwarded it to the Ministry of Road Transport & Highways (MoRT) for approval. Frequency of qualification First year of qualification Draw attention to Qualification Reference - Page No. 74 of the Annual Report relevant notes in the annual financial statements and management Note Reference - Note 30(a) and 35(viii)(m), Page No. 122 and response to the qualification in 135 respectively of the Annual Report the directors report: Qualification The Concession Agreement entered into between GMR Male International Airport Private Limited ('GMIAL'), a subsidiary of the Company, Maldives Airport Company Limited ('MACL') and Ministry of Finance and Treasury ('MoFT') for the Rehabilitation, Expansion, Modernization, Operation and Maintenance of Male International Airport ('MIA') for a period of 25 years has been declared void ab initio by MACL and MoFT and MACL has taken possession of MIA with effect from December 8, 2012. GMIAL has initiated arbitration process to seek remedies under the said agreement and pending resolution of the dispute, continues to recognise the assets at their carrying values as at March 31, 2013 including the claim recoverable of Rs. 919.16 crore (USD 16.77 crore) as the management is of the opinion that GMIAL will be able to recover at least the carrying value of the assets.

Further, GMIAL has executed work construction contracts with GADL International Limited ('GADLIL'), a subsidiary of the Company and other service providers for Rehabilitation.

Expansion and Modernization of MIA. Pursuant to the aforesaid takeover of the airport by MACL, GMIAL has terminated the contracts with GADLIL and these service providers and has received claims from GADLIL and other service providers towards termination payments. However, no such claims relating to the termination of contracts have been recognised in the consolidated financial statements as at March 31, 2013.

The takeover of MIA by MACL, indicate the existence of a material uncertainty about the going concern of GMIAL and GADLIL. However, the financial statements of GMIAL and GADLIL as at and for the year ended March 31, 2013 continue to be prepared on a going concern basis.

Having regard to the uncertainty in view of the dispute and the final outcome of the matter, the independent auditors are unable to comment on its impact on the carrying value of the assets of GMIAL and GADLIL and any other consequential impact that may arise in this regard on the consolidated financial statements for the year ended March 31, 2013.

# Management Response

GMIAL entered into an agreement on June 28, 2010 with MACL, MoFT and Republic of Maldives for the Rehabilitation, Expansion, Modernization, Operation and Maintenance of MIA MoFT issued notices to GMIAL stating that the concession agreement was void ab initio and that neither MoFT nor MACL had authority under the laws of Maldives to enter into the agreement. It was also stated that MACL would take over the possession and control of MIA within 7 days of the said letter.

Though GMIAL denied that the contract was void ab initio, MACL took over the possession and control of the MIA and GMIAL vacated the airport effective December 8, 2012. This has resulted in the GMIAL's principal activity becoming impossible from the date of takeover. The matter is currently under arbitration and the procedural meeting was held on April 10, 2013. GMIAL is in the process of seeking remedies under the aforesaid concession agreement and does not anticipate counter claims if any. In view of the aforesaid matter, GMIAL continues to reflect assets amounting to Rs. 1,295.80 crore (USD 23.65 crore) including claim recoverable Rs. 919.16 crore (USD 16.77 crore) at their carrying values as at March 31, 2013, net of assets written off of Rs. 202.61 crore. Such assets written off are disclosed as an exceptional item in the consolidated financial statements. The outcome of the arbitration is uncertain as at March 31, 2013. GMIAL's ability to continue its future business operations is solely dependent on the outcome of arbitration and / or a negotiated settlement. However financial statements of GMIAL as at and for the year ended March 31, 2013 have been prepared and accordingly consolidated on a going concern basis in the consolidated financial statements.

Further, GMIAL has executed work construction contracts with GADLIL and other service providers for rehabilitation, expansion, modernization of MIA. Pursuant to aforesaid takeover of airport, GMIAL has terminated the contracts with GADLIL and these service providers. As per the terms of contracts, in the event of discontinuation of construction, GMIAL is required to pay termination payment to the service providers. GMIAL has received claims of around USD 8.00 crore during the year ended March 31, 2013 from GADLIL and other service providers. However, no such claims relating to the termination of contracts have been recognised in the consolidated financial statements as at March 31, 2013 since the amounts payable are not certain.

Based on an internal assessment and a legal opinion obtained by GMIAL, the management of the Group is confident of proving that the concession agreement was not void ab initio and that the Group would be entitled for compensation under the concession agreement.

GADLIL is registered in the Republic of Maldives for upgrading of existing terminal and construction of new terminal at the MIA. As per the work construction contract dated October 25, 2010 entered into with GMIAL, the expected substantial completion date of the construction was July 01, 2014, and GADLIL's registration in the Republic of Maldives is valid till December 31,

2016. However, pursuant to the takeover of Male airport by MACL, GMIAL has terminated the work construction contract with GADLIL on December 10, 2012. These conditions indicate the existence of a material uncertainty about the going concern of GADLIL. However, the financial statements of GADLIL as at and for the year ended March 31, 2013 have been prepared and accordingly consolidated on a going concern basis. accordingly consolidated on a going concem basis. Additional comments from the The matter is currently before the Arbitration Tribunal in 6(c) board/audit committee chair: Singapore.

subsidiary company, pending linkage of natural gas supply.

Based on business plans and valuation assessment, the management is of the view that the carrying value of the investments (including advances) as at March 31, 2013 made by the Company directly / through its subsidiaries in GEL, GVPGL and GREL is appropriate. However, continued uncertainty exists as to the availability of adequate supply of natural gas which is necessary to conduct operations at varying levels of capacity in the future and as such the standalone financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Management Response:

The Company's subsidiaries GEL and GVPGL are engaged in the business of generation and sale of electrical energy from their two gas based power plants of 220MW and 387.63MW situated at Kakinada and Vernagiri respectively. Further, GREL, a subsidiary, is constructing a gas based power plant. In view of lower supplies/ availability of natural gas to the power generating companies in India, these subsidiaries are facing shortage of natural gas supply and delays in securing gas linkages. During the year ended March 31, 2013, GEL and GVPGL have incurred losses resulting in erosion of networth of these gas based power generating companies and GREL has not commenced commercial operations pending linkages of natural gas supply.

Further, GREL for its 768 MW gas based power plant, which is under construction at Rajahmundry, has applied for allocation of gas and Ministry of Petroleum and Natural Gas ('MoPNG') is yet to allocate the gas linkage. The consortium of lenders have approved the reschedulement of Commercial Operations Date ('COD') of the plant under construction to April 1, 2014 and repayment of project loans. GEL along with its subsidiaries ('the Group') is actively pursuing / making representations with various government authorities to secure the natural gas linkage / supply as the natural gas supplies from KG D6 basin have dropped significantly from September 2011 onwards. The Group and the Association of Power Producers are closely monitoring the macro situation and are evaluating various approaches / alternatives to deal with the situation and the management is confident that the Government of India would take necessary steps / initiatives in this regard to improve the situation regarding availability of natural gas from alternate sources in the foreseeable future. Based on business plan and valuation assessment, the management is confident that GEL and GVPGL will be able to generate sufficient profits in future years, GREL will achieve the COD as stated aforesaid and these gas based power generating companies would meet their financial obligations as they arise and hence the carrying value of investments (including advances) made by the Company directly or through its subsidiaries in above entities as at March 31, 2013 is appropriate. GMIAL entered into an agreement on June 28, 2010 with Maldives Airports Company for the Rehabilitation, Expansion, Modernization, Operation and Maintenance of Male International Airport ('MIA') for a period of 25 years ('the Concession Agreement'). On concession agreement was void ab initio and that neither MoFT nor MACL had MACL would take over the possession and control of MIA within 7 days of the said possession and control of MIA within 7 days of the said possession and control of the MIA and GMIAL vacated the airport effective December date of takeover. The matter is currently under arbitration and the procedural meeting aforesaid concession agreement and does not another of the Agril 10, 2013. GMIAL is in the process of seeking remedies under the outcome of the arbitration is uncertain as at March 31, 2013. In view of the aforesaid 1919.16 Crore (USD 16.77 Crore) at their carrying values as at March 31, 2013, net of operations and consequential impact on investments made/ guarantees given by the negotiated settlement.

Further, GMIAL has executed work construction contracts with GADL International, a subsidiary of the Company and other service providers for rehabilitation, expansion, and modernization of MIA. Pursuant to the aforesaid takeover of the airport by MACL, GMIAL has terminated the contracts with GADL International and these service providers. As per the terms of contracts, in the event of discontinuation of construction, received claims from GADL International and other service providers. GMIAL has termination payments. However, no such claims relating to the termination of contracts have been recognised in the standalone financial statements of GMIAL as at March indicate the existence of a material uncertainty about the going concern of GMIAL and GADL International.

Based on an internal assessment and a legal opinion obtained by GMIAL, the management of the Company is confident of proving that the concession agreement was not void ab initio and that GMIAL would be entitled for compensation under the concession agreement and accordingly the standalone financial statements of the company do not include any adjustments that might result from the outcome of this

However, pending the resolution of matter, no adjustments have been made in the consolidated financial statements. Considering that substantial amount, though under protest, has been received, GPCL, based on an expert opinion, has offered the amount of claims received upto March 31, 2012 as income in its income tax returns and has claimed the deduction under Section 80IA of the Income Tax Act, 1961 GPCL approached Tamil Nadu Electricity Regulatory Commission (TNERC) to resolve the claims / counterclaims arising out of the PPA and LLA in respect of the dues recoverable from TNEB on account of sale of energy including reimbursement towards interest on working capital, Minimum Alternate Tax (MAT), rebate, start/ stop charges and payment of land lease rentals to TNEB. GPCL had received a favourable Order from TNERC on April 16, 2010 and in pursuance of the Order, GPCL had filed its claim on April 30, 2010 amounting to Rs. 481.68 crore and recognised Rs. 79.55 crore as income in the books of account. TNEB filed a petition against TNERC Order in Appellate Tribunal for Electricity (APTEL). In terms of an interim Order on November 19, 2010 from APTEL, TNEB deposited Rs. 537.00 crore including interest on delayed payment of the claim amount. APTEL vide its Order dated February 28, 2012, upheld the claim of GPCL and further directed GPCL to verify and pay counter claims of TNEB in respect of the benefits earned if any, by GPCL with regard to the delayed payment towards fuel supply that are not as per the terms of the Fuel Supply Agreement (FSA). GPCL has appealed to the Hon'ble Supreme Court in Civil Appeals seeking certain interim relief with respect to the benefits pointed out by APTEL on credit period of Fuel Supplies in GPCL is availing tax holiday under Section 80IA of the Income tax act, 1961 ('IT Act') in respect of its income from power generation. Considering that the substantial amount, though under protest, has been received by GPCL, based on an expert opinion, GPCL has offered the claims upto March 31, 2012 as income in its tax returns and has claimed the deduction as available under Section 80IA of the IT Act. However, in accordance with the Group's accounting policy, pending acceptance of claims by TNEB and pending adjudication of petition before the Honorable Supreme Court, the Group has not recognised such balance claim in the books of account. In accordance with the above, the amount received towards the above mentioned claims after the date of Order is being disclosed as advance from the customer in the consolidated financial statements. Further, GPCL has been legally advised that in view of the appeal filed by TNEB against the Order of APTEL in Honorable Supreme Court, the entire matter is now subjudice and has not attained the finality 5(d) Frequency of observation The independent auditors had given emphasis of matter in their auditors' report for the year ended March 31, 2012. the unavailability of adequate supply of natural gas and (ii) rescheduling of the commercial operations date and the repayment of certain project loans by GMR Rajahmundry Energy Limited ('GREL') pending linkage of natural gas supply. Based on business plans and valuation assessment, the management of the Group is of the view that the carrying value of the net assets in GEL, GVPGL and GREL as at March 31, 2013 is appropriate. However, continued uncertainty exists as to the availability of adequate supply of natural gas which is necessary to conduct operations at varying levels of capacity in the future and as such the consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

# Management Response

The Group is engaged in the business of generation and sale of electrical energy from its two gas based power plants of 220MW and 387,63MW situated at Kakinada and Vemagin respectively. Further, the Group has investments in GREL which is constructing a gas based power plant. In view of lower supplies / availability of natural gas to the power generating companies in India, the Group is facing shortage of natural gas supply and delays in securing gas linkages. During the year ended March 31, 2013, GEL and GVPGL have incurred losses, thereby resulting in erosion of networth of these gas based power generating companies and GREL has not commenced commercial operations pending linkages of natural gas supply. The Group is actively pursuing / making representations with various government authorities to secure the natural gas linkage / supply as the natural gas supplies from KG D6 basin have dropped significantly from September 2011 onwards. The Group, for its 768 MW gas based power plant, which is under construction at Rajahmundry, has applied for allocation of gas and Ministry of petroleum and Natural Gas (MoPNG) is yet to allocate the gas linkage. The consortium of lenders have approved the reschedulement of Commercial Operation Date ('COD') of the plant under construction to April 1, 2014 and repayment of project loans. The Group and the Association of Power Producers are closely monitoring the macro situation and are evaluating various approaches / alternatives to deal with the situation and the management of the Group is confident that the Government of India would take necessary steps / initiatives in this regard to improve the situation regarding availability of natural gas from alternate sources in the foreseeable future. Based on business plan and valuation assessment, the management of the Group is confident that GEL and GVPGL will be able to generate sufficient profits in future years, GREL will achieve the COD as stated aforesaid and these gas based power generating companies would meet their financial obligations as they arise and hence considers that the carrying value of the net assets of the above entities as at March 31, 2013 is appropriate. Despite the aforementioned loss, the consolidated financial statements of the Group do not include any adjustments that might result from the outcome of this uncertainty...
