Torrent enters into a contract for development of 197.40 MW Wind Power Project with a leading WTG manufacturing group

March 28, 2016: In order to fulfil its renewable power purchase obligation, the Ahmedabad-based Torrent Power Limited (“TPL”) forayed into renewable energy generation in the year 2012, by commissioning the 49.60 MW Wind Power Project at Lalpur, Jamnagar, Gujarat. Subsequently, TPL has also commissioned (through its wholly owned subsidiary) the 51 MW Solar Power Project at Charanka Solar Park, Gujarat in year 2015. TPL is also implementing the 81 MW Solar Power Project at Kamrej, Surat and the 136.80 MW Wind Power Project in Rajkot and Surendranagar districts, in the State of Gujarat.

Continuing its journey in renewable energy space, TPL has entered into a contract with a leading WTG manufacturing group for development of the 197.40 MW Wind Power Project. The said capacity will be developed across three sites in Kutch and Bhavnagar districts in the State of Gujarat. This Project is expected to be commissioned progressively by March 2017 and shall have off take arrangements for fulfilment of Renewable Power Purchase Obligations.

About Torrent Power Limited:

Torrent Power Limited is an integrated power utility of the Torrent Group, having a group turnover of approx. Rs. 16,000 Crores.
