Managing Director's Message

Dear Shareholders,

It gives me immense pleasure to present the Annual Report of DISA India Limited for the fiscal year 2024–25. I extend my heartfelt gratitude to all our shareholders, customers, suppliers, employees, and partners for your unwavering support and trust. Your continued belief in our vision has been central to our journey of sustainable growth and innovation.

This year has once again been a year of continued growth and transformation as we have achieved significant milestones. Our top line sales of 3,847 MINR and the profits of 537 MINR have been the highest ever for Disa India Limited. We have also announced a strong dividend of 2000% for the FY.

I would like to share with you the highlights of the year.

Advancing green energy and environmental commitments : Our commitment to a greener future is both a responsibility and a passion that runs deep within our organization. At our Tumakuru facility, we are proud to continue sourcing 100% of our energy from wind power—a significant milestone in our journey to reduce emissions under our Science-Based (SBTi) targets.

Equally close to our hearts is our effort to give back to the communities we are part of. In our 40th year in India, we planted another 2,000 native saplings—bringing the total to 4,000— and helped transform barren land into thriving forest ecosystems. This is part of our five-year pledge to plant 5,000 trees by 2027, we are well on our way to achieving this target.

Investing locally and growing globally : We took a bold step forward in our growth journey: the acquisition of land for a new state-of-the-art facility. This strategic development is part of our long-term vision to enhance our capacity and position us to better serve growing demand in both domestic and international markets. We expect this facility to be ready for production in the last quarter of the current FY 2025-26 which will allow us to better serve our customers and strengthen our global footprint over many years.

Growing exports and elevating Indian manufacturing : Our manufacturing capabilities continue to support DISA India's global growth journey. Backed by Norican, we have successfully advanced our exports to Europe and the United States and are now further strengthening our presence with a focused push into the Southeast Asia (SEA) market. This growth reflects the trust and confidence global customers place in Norican's Indian manufacturing hub.

Transforming Aftermarket with the 'Full Service' approach : Supporting our customers beyond the initial sale is more critical than ever. In FY 2024–25, we launched our Full-Service initiative—a strategic transformation of our aftermarket services portfolio to better serve our customers at every stage of their equipment lifecycle. This includes a new Go-to-Market sales model, product innovation, and customer segmentation strategy, all aimed at delivering faster, smarter, and more responsive service. By strengthening our distributor network and developing tailored service offerings, we are aligning closely with customer needs across the lifecycle of our equipment.

Technology transfer milestone – SIMPSON Multi Cooler : We proudly marked a significant milestone with the successful tech transfer and launch of the SIMPSON Multi Cooler—the first of its kind built in India. This achievement not only shows our capability to absorb and adapt global technologies but also strengthens our position in delivering best-in-class solutions with trusted quality and efficiency.

Accelerating change with digital at the core : Digitalization remains central to our transformation journey. Through our Monitizer digital solutions, we are helping customers reach their production potential with intelligent, real-time data that reduces downtime, waste and emissions. In response to strong market feedback and through continuous innovation, we are retrofitting our global installed base, to ensure more customers benefit from connected, integrated IIoT and AI solutions.

Seizing opportunities for long-term growth : We stay anchored in our core values and energized by Norican's global mission of “Exceeding customers' expectations.” With the steadfast support of Norican's leadership and our Board of Directors, we are confidently moving forward ready to embrace new opportunities and create lasting value for all our stakeholders. Despite economic uncertainties, our solid foundation, experienced leadership, and strategic direction give us confidence in our ability to seize emerging opportunities and deliver long-term stakeholder value.

Finally, I want to thank all our employees for their commitment and passion. To our shareholders, thank you once again for your continued trust. Together, we are building a stronger, more sustainable DISA India Limited.

SEBI/HO/CFD/CMD1/CIR/P/2020/79 dated May 12, 2020, Circular no. SEBI/HO/CFD/CMD2/CIR/P/2021/11 dated January 15, 2021 and Circular No. SEBI/HO/CFD/CMD2/CIR/P/2022/62 and SEBI/HO/DDHS/P/CIR/2022/0063 dated May 13, 2022, SEBI/HO/CFD/PoD-2/P/CIR/2023/4 dated January 5, 2023, SEBI/HO/CFD/CFD-PoD-2/P/CIR/2023/167 dated October 7, 2023 and Circular No. SEBI/HO/CFD/CFD-PoD-2/P/CIR/2024/133 dated October 3, 2024 (collectively "**SEBI Circulars**") extended the relaxations pertaining to dispatch of hard copies of Annual Reports and Proxy Forms to listed entities who conduct their AGM through electronic mode till September 30, 2025 and permitted companies to conduct Annual General Meeting (AGM) through video conferencing or other audio visual means (VC) till September 30, 2025, subject to compliance with various conditions mentioned therein. In compliance with the MCA Circulars, SEBI Circulars and applicable provisions of the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the 40th AGM of your Company is being convened and conducted through VC.
2. The Company has facilitated the Members to participate in the 40th AGM through VC facility provided by Central Depository Services Limited (CDSL). The instructions for participation by members are given in the subsequent paragraphs. Participation in AGM through VC shall be allowed on a first-come-first-served basis.
3. As per MCA Circulars, members attending the 40th AGM through VC will be reckoned for the purpose of quorum as per Section 103 of the Companies Act, 2013.
4. For exercising the votes by the Members by electronic means,

the Company has provided the facility of remote e-voting as well as e-voting during the AGM. The procedure for using the remote e-voting facility as well as e-voting during the AGM is given in the subsequent paragraphs.

5. Members joining the AGM through VC shall be permitted to exercise their right to vote using the e-voting facility at the AGM, provided they have not cast their votes using remote e-voting facility. The members who have already cast their votes prior to AGM using the remote e-voting facility may also join the AGM through VC; but shall not be entitled to cast their votes again at the AGM.
6. As per the Companies Act, 2013, a member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her behalf and such proxy need not be a Member of the Company. Since 40th AGM is being held through VC as per MCA Circulars and SEBI Circulars, physical attendance of the Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for the 40th AGM and hence the Proxy Form and Attendance Slip are not annexed to this notice. Similarly, as this AGM is being held through VC, the route map is not annexed to this notice.
7. Corporate members may authorize their representatives for casting the votes using remote e-voting facility or for participation and voting in the AGM using VC. Institutional Investors are encouraged to attend and vote at the AGM through VC.
8. In case of joint holders, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote at the AGM.
9. In line with MCA Circulars and SEBI Circulars, the Annual Report for the Financial Year 2024-25 along with Notice of 40th AGM of the Company *inter-alia* indicating the process and manner of e-voting are being sent only by electronic mode to those members whose email IDs are registered with the Company or with respective Depository Participant(s) or Registrar and Share Transfer Agents of the Company for communication. Physical copies of the Annual Report will be sent by permitted mode to those Members who request for the same.

Members may note that the aforesaid documents may also be downloaded from the Company's website under the Investor Relations Section at <https://www.disagroup.com/en-in/> or from the website of BSE Limited at www.bseindia.com
10. The Register of Directors and Key Managerial Personnel and their shareholding and the Register of Contracts or Arrangements in which the directors are interested, maintained as per the Companies Act, 2013 will be available for electronic inspection by the members during the AGM. All the documents referred to in the Notice will also be available for electronic inspection by the members without any fee from the date of circulation of this notice up to the date of AGM i.e., August 14, 2025. Members seeking to inspect such documents may send an email to investor.relations@noricangroup.com.

11. Members seeking clarifications on the Annual Report are requested to send an email to investor.relations@norican-group.com on or before August 7, 2025. This would enable the Company to compile the information and provide replies at the meeting.
12. Persons holding the shares on August 7, 2025 (Record Date) would be entitled to attend the AGM. The Register of Members and the Share Transfer books of the Company will remain closed from August 8, 2025 to August 14, 2025 (both days inclusive).
13. Subject to the provisions of Section 123 of the Companies Act, 2013, Dividend as recommended by the Board of Directors, if declared, at the AGM, will be disbursed on or before September 12, 2025 to those Members whose name appear in the Register of Members (in respect of shares held in physical form) or in the records of Depositories as Beneficial Owners of Shares (in respect of shares in dematerialized form) as on the Record Date i.e., August 7, 2025.
14. SEBI vide its Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2021/655 dated November 3, 2021 (subsequently amended by Circular Nos. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2021/687 dated December 14, 2021, SEBI/HO/MIRSD/MIRSD-PoD-1/P/CIR/2023/37 dated March 16, 2023 and

SEBI/HO/MIRSD/POD-1/P/CIR/2023/181 dated November 17, 2023) has mandated that with effect from April 1, 2024, dividend to security holders (holding securities in physical form), shall be paid only through electronic mode. Such payment shall be made only after furnishing the PAN, choice of nomination, contact details including mobile number, bank account details and specimen signature.

In case of non-updation of PAN or Choice of Nomination or Contact Details or Mobile Number or Bank Account Details or Specimen Signature in respect of physical folios, dividend / interest etc. shall be paid upon furnishing all the aforesaid details in entirety.

15. Pursuant to the changes introduced by the Finance Act 2020 w.e.f. April 1, 2020, Dividends paid or distributed by a Company after April 1, 2020 shall be taxable in the hands of the shareholders. The Company shall therefore be required to deduct tax at source, as applicable, at the time of making the payment of the said Dividend.

The rate at which the dividend may be subject to withholding tax would vary depending on the residential status of the shareholder and the documents submitted by them and accepted by the Company. Accordingly, the above referred Final Dividend will be paid after deducting the tax at source as follows:

Resident Shareholders

It may be noted that tax would not be deducted at source on payment of dividend to resident Individual shareholder, if total dividend amount to be paid in a Financial Year does not exceed Rs.10,000/-.

Tax to be deducted at source for FY 2025-26, wherever applicable, would be as under:

Particulars	Applicable Rate	Documents required (if any)
Shareholders having the PAN	10%	Update the PAN and the residential status as per Income Tax Act, 1961 if not already done, with the depositories (in case of shares held in demat mode) and with the Company's Registrar and Transfer Agent (in case of shares held in physical mode).
	NIL	Form 15G (applicable to any person other than a Company or a Firm)/Form 15H (applicable to an Individual above the age of 60 years), provided that all the required eligibility conditions are met, and a self-attested copy of PAN is furnished.

Other Non-resident shareholders	20% (plus applicable surcharge and cess) OR Tax Treaty Rate (whichever is lower)	a) Self-attested copy of the Permanent Account Number (PAN Card) allotted by the Indian Income Tax authorities. b) Self-attested copy of Tax Residency Certificate (TRC) obtained from the tax authorities of the country of which the shareholder is resident, valid for FY 2025-26. c) Form 10F filed electronically with Income tax authorities. d) Self-declaration by the non-resident shareholder about having no Permanent Establishment in India in accordance with the applicable Tax Treaty. e) Self-declaration of Beneficial ownership by the non-resident shareholder.
Shareholders submitting the Order under Section 197 of the Income Tax Act	Rate provided in the Order	Lower/NIL withholding tax certificate obtained from tax authority.

In case, PAN is not available, the non-resident shareholder (other than a company) shall furnish (a) name, (b) email id, (c) contact number, (d) address in residency country, (e) Tax Identification Number of the residency country.

It is recommended that shareholders should independently satisfy their eligibility to claim DTAA benefit including meeting of all conditions laid down by DTAA.

Kindly note that the Company is not obligated to apply beneficial DTAA rates at the time of tax deduction / withholding on dividend amounts. Application of beneficial rate as per DTAA for the purpose of withholding taxes shall depend upon completeness and satisfactory review by the Company of the documents submitted by the non-resident shareholder.

Soft copies of following documents may be downloaded from the link <https://ipostatus.integratedregistry.in/TaxExemptionRegistration.aspx>

- (1) Form 15G.
- (2) Form 15H.
- (3) Form 10F.
- (4) Declaration from residents.
- (5) Declaration from non-residents.
- (6) Declaration under Rule 37BC from non-residents (other than companies) not having PAN.

Duly filled and signed aforesaid documents, as applicable,

should be mailed to investor.relations@noricangroup.com or uploaded on the weblink of RTA i.e., <https://ipostatus.integratedregistry.in/TaxExemptionRegistration.aspx> on or before August 7, 2025, 11.59 PM (IST), to enable the Company to determine the appropriate TDS/withholding tax rate applicable.

No communication on the tax determination/deduction received post August 7, 2025 shall be considered for payment of Dividend.

While deducting the withholding of taxes as mentioned above, the residential status of the shareholders will be considered as per the data available with the Company/RTA/the Depository Participants (the "DPs"). In case there is change in their status, then the shareholders are requested to update their current status with the Company/RTA/the DPs on or before August 7, 2025.

If the tax on said Dividend is deducted at a higher rate due to non-receipt of or satisfactory completeness of the aforementioned details/documents by August 7, 2025, the shareholder may claim an appropriate refund in the return of income filed with their respective tax authorities.

No claim shall lie against the Company for such taxes deducted.

The Company will arrange to send a copy of the TDS certificate to shareholders in due course, post payment of the said Dividend. Shareholders will also be able to view electronic credit of TDS in Form 26AS, which can be downloaded from the website of Income Tax Department.

16. As per Section 124 of the Companies Act, 2013, the amount of Dividend remaining unpaid or unclaimed within 30 days from the date of declaration shall be transferred to 'unpaid dividend account' of the Company. Amount transferred to 'unpaid dividend account', which remains unpaid or unclaimed for a period of seven years from the date of transfer, is required to be transferred to the Investor Education and Protection Fund (IEPF) of the Central Government. Similarly, all the Shares in respect of which Dividend has not been paid or claimed for seven consecutive years or more shall be transferred to the IEPF.

17. In line with the provisions of Section 124 of the Companies Act, 2013, Members who have not so far encashed the Dividend, for any of the Dividends declared earlier, are requested to make their claims to the Company immediately. Please note that in respect of unclaimed dividend amount and the shares transferred to IEPF, Shareholders may claim the Dividend and corresponding shares transferred to IEPF including all benefits accruing on such shares, if any, from IEPF authorities after following the procedure prescribed in the Companies Act, 2013 and Investor Education Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016.

18. The Shares of the Company are compulsorily traded in dematerialized form as per the directions of the Stock Exchange. Accordingly, members who have not opted for dematerialization of shares are once again reminded to take steps to dematerialize their holdings. Further, the members may note that as per SEBI(LODR) (Fourth Amendment) Regulations, 2018, with effect from April 1, 2019, except in case of transmission or transposition of securities, no transfer of securities shall be processed unless the securities are held in the dematerialized form.

Moreover, SEBI Circular dated January 25, 2022 requires the companies to issue the securities to investors only in dematerialized form while processing the service requests such as issue of duplicate securities certificates, claim from Unclaimed Suspense Account, renewal/exchange of securities certificate, endorsement, sub-division/splitting of securities certificate, consolidation of securities certificates/folios, transmission and transposition. EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Item No. 4 – To appoint the Secretarial Auditors of the Company.

The Board of Directors has, based on the recommendation of the Audit Committee and subject to approval of the shareholders, appointed Messrs. GDR & Partners LLP, Company Secretaries (ICSI Firm Regn. No.:L2024KR016500) (Peer review Certificate No. 6014/2024) as Secretarial Auditors of the Company for a term of five (5) years to hold office from the conclusion of the 40th AGM till the conclusion of the 45th AGM (i.e., for the Financial Year April 1, 2025 - March 31, 2026 to April 1, 2029 - March 31, 2030).

Rationale for appointment:

Messrs. GDR & Partners LLP, Company Secretaries have given their consent to act as the Secretarial Auditors of the Company and have confirmed that their appointment, if made, will be within the limit specified under Section 204 of the Companies Act, 2013. They have also confirmed that they are not disqualified to be appointed as secretarial auditors in terms of the provisions of the Section 204 of the Companies Act, 2013 and the Rules made thereunder, read with Regulation 24A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and other applicable Regulations.

Messrs. GDR & Partners LLP, a firm of Company Secretaries set up in 2024 (with 5 partners and each partner having over 20 years of experience) is promoted by seasoned professionals and is managed with highest degree of professionalism with diversified and extensive experience in related areas. The firm conducts itself within the framework of applicable professional standards. They are engaged in providing advisory to the corporates, non-corporate entities, institutions and entrepreneurs in the areas of Corporate and Commercial Laws, India Entry Services, Corporate Restructuring, Insolvency & Bankruptcy, Contract Management, Labour and Industrial Laws and other allied services. GDR serves start-ups, small, medium and large business enterprises, private equity investors, Domestic & Foreign Institutional Investors. GDR believes in providing responsive and tailor made services to meet specific needs of their clients.

In view of their qualifications and experience in undertaking Secretarial Audit, it is proposed to appoint Messrs. GDR & Partners LLP, Company Secretaries as Secretarial Auditors of the Company.

The Board, based on the recommendations of the Audit Committee, approved a remuneration of Rs. 4,00,000/- (Rupees Four Lakhs only) plus taxes as applicable and out of pocket expenses for the Financial Year April 1, 2025 - March 31, 2026.

The fee for the remaining term may be finalized in subsequent years based on the recommendation of the Audit Committee and as may be approved by the Board of Directors.

None of the Directors or Key Managerial Personnel is concerned or interested in the Resolution.

The Board recommends the Ordinary Resolution set out at Item No. 4 of the accompanying Notice for approval by the Members of the Company

Item No. 5 – To ratify the remuneration of Cost Auditors.

In terms of Section 148 of the Companies Act, 2013 ('the Act') and the Rules made thereunder, the Company is required to maintain Cost Audit records and to have the same audited by a Cost Auditor. Further, Rule 14 of the Companies (Audit and Auditors) Rules, 2014, requires that the remuneration payable to the Cost Auditor shall be ratified by the Shareholders.

Based on the recommendation of the Audit Committee, the Board of Directors at its Meeting held on May 23, 2024, had re-appointed Messrs. Rao, Murthy & Associates as Cost Auditors, for conducting the Cost Audit for the Financial Year 2024-25 on a remuneration of Rs. 1,80,000/- (Rupees One Lakh Eighty Thousand Only) plus applicable taxes and reimbursement of out of pocket expenses at actuals.

The Company has received a Certificate from the Cost Auditors confirming their independence and arm's length relationship with the Company and their willingness to act as Cost Auditors of the Company. Accordingly, consent of the Members is sought for passing an Ordinary Resolution as set out at Item No. 5 of the Notice.

None of the Directors or Key Managerial Personnel is concerned or interested financially or otherwise in this Resolution.

The Board recommends the Ordinary Resolution set out at Item No. 5 of the Notice for approval of the Members.

PERFORMANCE OF THE COMPANY

The growth was supported by key strategic initiatives, including launch of SIMPSON products for foundry market, new product launch in Wheel & Air segment of the business, further expansion

in digital transformation, and continued drive for operational excellence. These efforts have positioned us well for long-term success and created a strong foundation for future growth.

We also strengthened our balance sheet and maintained a disciplined approach to capital allocation. Our investments in tech transfer and enhancing people capabilities through technical and leadership trainings have not only enhanced our competitive edge but also demonstrated our commitment to building lasting shareholder value.

Our key business of automotive business showed a decent revival during the financial year. The infrastructure industries growth and investments such as railways, wind energy, steel, ports and airports added to the new businesses we received during the year.

As a result, we have outpaced the industry growth, and have gained significant advantage in the Indian industry.

CHANGE IN THE NATURE OF BUSINESS

There has been no change in the nature of business of the Company during the Financial Year.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

ECONOMIC SCENARIO AND OUTLOOK

We are operating in an environment marked by significant global uncertainty. In this context, we offer our assessment of the current business landscape and its potential implications.

Domestic Outlook

India's macroeconomic fundamentals remain robust, with no major shifts compared to the previous year. The Reserve Bank of India (RBI) has taken proactive policy measures to ensure liquidity and support economic stability amid global turbulence. Domestically, demand remains steady, particularly in key sectors such as automotive and infrastructure. These sectors continue to drive the India growth story, and our company's strong presence in both provides a degree of resilience against global headwinds.

Global Challenges

The global environment remains volatile, shaped by prolonged geopolitical conflicts, including trade wars and physical wars, that have persisted for over three years. This level of uncertainty has not been witnessed in recent decades, excluding the COVID-19 years. The unpredictable actions of major economies continue to cloud visibility and impact global trade flows. While our direct exposure to the most affected regions is limited, we are not entirely insulated from the broader implications of these developments.

Exports are expected to face significant challenges in the near term. Although our current exposure to the U.S. market is limited, the evolving trade dynamics and policy shifts could pose hurdles to our future export growth plans. The foundry industry in India has approximately 10–15% of its business linked to exports, and the ultimate outcome will hinge on the resolution or escalation of ongoing trade negotiations and geopolitical tensions.

Impact of Geopolitical Tensions

Continued conflicts in Europe and the Middle East, combined with a broader global economic slowdown, are affecting large economies and international markets. While our company has no direct business exposure to conflict zones or to markets under sanctions such as Russia or Belarus. We are closely monitoring the situation to mitigate any indirect impact.

Company Outlook

Despite the global challenges, we are cautiously optimistic. The demand from the domestic automotive and infrastructure sectors remain stable and is expected to continue into the new financial

year. We are mindful of headwinds such as capacity underutilization and tight liquidity in the capital goods sector, both of which are being monitored closely. Nevertheless, we are well-positioned to respond with agility.

To counterbalance the uncertainty, we continue to explore new markets and diversify our revenue streams. Our initiatives, including the expansion into newer geographies, application-driven product development, and the adoption of digital solutions through the Norican Group are aligned with our long-term strategic goals.

We remain vigilant and flexible, ready to take timely actions as the external environment evolves.

INDUSTRY OUTLOOK AND OPPORTUNITIES

The foundry industry is currently in an exciting phase of development, fueled by new investments from both global and local players. A noteworthy trend is the entry of large forging groups into the sector, acquiring foundries and expressing strong ambitions to establish a significant presence in the industry. At the same time, product quality demands are increasing, driven by Indian companies' aspirations to expand their export footprints and compete globally.

The overall outlook for the foundry industry remains positive and growth oriented. The introduction of new U.S. tariffs may further boost the industry by providing Indian foundries a competitive edge over neighbouring Asian countries.

End-use industries such as automotive, agriculture, infrastructure, railways, and general engineering are already showing growth signs. India currently produces approximately 13 million tonnes of castings annually, making it the second-largest producer globally behind China and ahead of the United States. In the short term, demand is expected to remain steady, with a projected annual growth rate of 4–5%.

Sector Trends and Opportunities

The automotive sector continues to be the largest consumer of castings. In FY 2024–25, the automotive industry grew at a moderate rate of around 4% across all segments. Government-led infrastructure investments also present significant growth opportunities for our company. Furthermore, a noticeable shift in production from China to India, driven by the global "China+1" strategy, has been undertaken by several multinational corporations, further enhancing India's attractiveness as a manufacturing hub.

Competitive Landscape

As the industry becomes more attractive, competition is intensifying. Chinese players are actively exploring the Indian market in both the foundry and shot blasting machinery segments. DISA India is proactively addressing these challenges by enhancing customer engagement in both the OEM and aftermarket sectors.

Industry Challenges

Despite the positive outlook, the foundry industry faces several

challenges. These include the need for cleaner and sustainable technologies, difficulty in attracting skilled labour willing to work in demanding environments, attrition, and the high gestation period required for greenfield projects to yield returns.

DISA India's Strategic Position

DISA India has consistently demonstrated a deep understanding of the market environment and continues to take strategic actions to stay ahead of the competition. The company is introducing innovative technologies and new machines tailored to the Indian market.

Our group company, Norican, remains a strong partner, reaffirming its commitment through significant investments. A new facility near our existing plant in Tumkur is under development, aimed at increasing capacity and serving global demand for Norican technologies. R&D capabilities have also been expanded through DISA Technologies, with a 30% increase in engineering workforce in recent years. Our engineers have been trained at global technology centers across Europe and the U.S.

"Exceeding Customer Expectations" continues to be our driving principle. Our "Full Foundry" concept has been strengthened further through the introduction of Simpson and digital solutions such as Monetizer.

Customer-Centric Service Model

We are now in the sixth year of our unique customer engagement model based on long-term service contracts in the aftermarket business. This model has successfully enhanced customer productivity, reduced downtime, and lowered casting costs. Our robust distributor network ensures timely parts availability and responsive support. This gives us an unmatched supply chain advantage in the Indian foundry sector.

Outlook for FY 2025-26

India's GDP growth for FY 2025-26 is projected to be between 6.3% and 6.5%, slightly below the previous year but still indicative of a strong and expanding market. This reinforces our confidence

and commitment to our business, customers, employees, and shareholders.

Given the evolving global scenario, agile and strategic responses are essential. DISA India, with its solid foundation and forward-looking strategies, is well-positioned to lead the Indian foundry industry and expand its influence across the global market.

The Index of Industrial Production (IIP) and Purchasing Managers' Index (PMI) have historically been good indicators for business sentiments in capital goods order intake. Movements in IIP and PMI have been explained in the following charts.

KEY RATIOS

As required by the Listing Regulations, the Company is required to furnish the details of significant changes (i.e., change of 25% or more as compared to the immediate previous Financial Year) in key financial ratios, along with detailed explanations for the changes.

The Company has identified the following ratios as Key financial ratios:

Particulars	Standalone			Consolidated		
	2024-25	2023-24	Change %	2024-25	2023-24	Change %
Operation Profit Margin (EBITDA) %	15.4%	15.1%	0.3%	15.4%	15.3%	0.01%
Net Profit Margin %	14.1%	13.0%	1.1%	13.0%	13.1%	(0.1%)
Debtor Turnover Ratio	10.6	8.5	2.1	10.6	8.4	2.2
Inventory Turnover Ratio	2.9	2.8	0.1	2.9	2.8	0.1
Interest Coverage Ratio	34.6	27.4	7.2	32.8	28.3	4.5
Current Ratio	2.0	2.1	(0.1)	2.0	2.1	(0.1)
Debt Equity Ratio	0.00	0.01	(0.01)	0.00	0.01	(0.01)
Earning Per Share (Rs.)	369.55	285.65	83.9	346.72	294.87	51.85

During the year, there were favorable changes in the above ratios. The increase in profit margin was driven by an increase in volume of OEM sales. Increase in Debtors turnover ratio is indicative of the high Sales and robust collection.

The details of return on net worth at standalone and consolidated levels are given below:

Particulars	Standalone			Consolidated		
	2024-25	2023-24	Change %	2024-25	2023-24	Change %
Return on Net Worth %	20.4%	17.4%	2.0	18.9%	17.4%	1.5%

Return on net worth is computed by dividing the net profit by year end net worth. Increase in Net profit during the year has increased the return on Net worth.

- i. The Competition Act, 2002
- ii. The Indian Contract Act, 1872
- iii. The Sale of Goods Act, 1930
- iv. The Forward Contracts (Regulation) Act, 1952
- v. The Indian Stamp Act, 1899
- vi. The Transfer of Property Act, 1882

I have also examined compliances with the applicable clauses of Secretarial Standards issued by the Institute of Company Secretaries of India on the Board and General Meeting i.e. SS-1 and SS-2.

I further state that during the period under review and based on my verification of the records maintained by the Company and also on the review of compliance reports/statements by respective department heads/Chief Financial Officer/ Company Secretary taken on record by the Board of Directors of the Company, in my opinion, adequate systems and process and control mechanism exist in the Company to monitor and ensure compliance with applicable Labour laws, environmental laws and other applicable

laws as mentioned above. Certain nonmaterial findings made during the course of the audit relating to the provisions of the Act and Labour Laws were addressed suitably by the Management.

I also report that with regard to financial and taxation matters, I have relied on the draft Audit Report, Limited Review Report and the Internal Audit Report provided by the Statutory/Internal Auditor as the case may be.

I further report that the Board of Directors of the Company is duly constituted with proper balance of Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors which took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is issued to all Directors to schedule the Board Meetings; agenda and detailed notes on agenda were sent at least seven days in advance (in certain instances, detailed notes on agenda were sent within seven days, with the consent of Directors), and a system exists for seeking and obtaining further information and clarifications on the agenda items before the Meeting and for meaningful participation at the Meeting.

Majority decision is carried through while the dissenting Members' views are captured and recorded as part of the minutes as per the practice followed. However, during the period under report, there was no such instance.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

INDEPENDENT AUDITOR'S REPORT

To the Members of DISA India Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of DISA India Limited ("the Company"), which comprise the Balance sheet as at March 31, 2025, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance

with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended March 31, 2025. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

Key audit matters	How our audit addressed the key audit matter
Revenue from operations (as described in Note 3.2 and 23 of the standalone financial statements)	
The Company recognises revenue from sale of goods based on the terms and conditions specified in the agreement(s), which vary for different products. For sale of goods around the balance sheet date, it is essential to ensure that the transfer of control of the goods to the customer occurs before the balance sheet date. Considering the Company has material sale transactions close to the year-end and recognition of revenue is subject to transfer of control to the customers before the balance sheet date, we consider the risk of revenue from sale of goods being recognised in the incorrect period as a key audit matter.	<ul style="list-style-type: none">Our audit procedures include the following:We evaluated the Company's accounting policies pertaining to revenue recognition and assessed compliance with the policies in terms of Ind AS 115 - Revenue from Contracts with Customers.We tested the internal controls relating to determination of point in time at which the transfer of control of goods occurs for revenue recognition in the appropriate period in accordance with the Company's accounting policy.For a sample of sales transactions recorded closer to the year end, we performed the following audit procedures:Analysed the terms and conditions of the underlying agreements for the different products, andVerified evidence like lorry receipts, despatch entries in gate register and other supporting documents for transfer of control of the goods prior to the balance sheet date.We read and assessed the relevant disclosures made in the standalone financial statements.

We have determined that there are no other key audit matters to communicate in our report.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and

whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except that the Company does not have a server physically located in India for the daily backup of the books of account and other books and papers maintained in electronic mode, and; for the matters stated in the paragraph (i) (vi) below on reporting under Rule 11(g);

The interim dividend declared and paid by the Company

during the year and until the date of this audit report is in accordance with Section 123 of the Act.

As stated in note 18c to the standalone financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with Section 123 of the Act to the extent it applies to declaration of dividend.

- vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated with respect to and only for sale and purchase transactions during the period from February 26, 2025 to March 31, 2025, except that, audit trail feature is not enabled for any direct changes to data when using certain access rights, as described in note 46(x) to the financial statements. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, in respect of accounting software, to the extent where the audit trail has been enabled. Additionally, the audit trail in respect of the prior year has not been preserved by the Company as per the statutory requirements for record retention, as stated in Note 46(x) to the financial statements

Re: DISA India Limited (the "Company")

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) Property, Plant and Equipment were physically verified by the Management during the year in accordance with a planned programme of verifying them once in three years which is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) are held in the name of the Company.
- (d) The Company has not revalued its Property, Plant and Equipment (including Right-of-use assets) or intangible assets during the year ended March 31, 2025.
- (e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The Management has conducted physical verification of inventory, including inventory lying with third parties, at reasonable intervals during the year. In our opinion the coverage and the procedure of such verification by the Management is appropriate. No material discrepancies were noticed on such verification.
- (b) The Company has not been sanctioned working capital limits in excess of Rs. five crores in aggregate from banks or financial institutions during any point of time of the year on the basis of security of current assets. Accordingly, the requirement to report on clause 3(iii)(b) of the Order is not applicable to the Company.
- (iii) (a) During the year, the Company has not provided loans, advances in the nature of loans, stood guarantee or provided security to companies, firms, limited liability partnerships or any other party. Accordingly, the requirement to report on clause 3(iii)(a) of the Order is not applicable to the Company.
- (b) During the year, the Company has not made investments, provided guarantees, provided security and granted loans and advances in the nature of loans to companies, firms, limited liability partnerships or any other party. Accordingly, the requirement to report on clause 3(iii)(b) of the Order is not applicable to the Company.
- (c) During the year, the Company has not granted loans and advances in the nature of loans to companies, firms, limited liability partnerships or any other party. In an earlier year, the Company granted a loan repayable on demand to its subsidiary company, which is repaid during the year. Further, in respect of such loan, the schedule of payment of interest has been stipulated in the agreement and receipts are regular.
- (d) There are no amounts of loans and advances in the nature of loans granted to companies, firms, limited liability partnerships or any other party which are overdue for more than ninety days.
- (e) There were no loans or advance in the nature of loan granted to companies, firms, Limited Liability Partnerships or any other parties which has fallen due during the year, that have been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.
- (f) During the year, the Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to companies, firms, limited liability partnerships or any other party. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company.
- (iv) Loans, investments, guarantees and security in respect of which provisions of Sections 185 and 186 of the Companies Act, 2013 are applicable have been complied with by the Company.
- (v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of Sections 73 to 76 of the Companies Act, 2013 and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under Section 148(1) of the Companies Act, 2013, related to the manufacture of goods, and are of the opinion that prima facie, the specified

accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.

- (vii) (a) The Company is regular in depositing with appropriate authorities undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other statutory dues applicable to it. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in

respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

- (b) There are no dues of goods and services tax, provident fund, employees' state insurance, service tax, customs duty, value added tax, cess, and other statutory dues which have not been deposited on account of any dispute. The dues of income tax, excise duty, central sales tax and entry tax, which have not been deposited on account of any dispute, are as follows:

(Amount in INR millions)

Name of the statute	Nature of the Dues	Amount	Amount paid Under protest	Period to which the amount relates	Forum where the dispute is pending
The Central Excise Act, 1944	Excise Duty	2.1	0.2	FY 2013-2018	CESTAT
The Central Sales Tax Act, 1956	Central Sales Tax	6.6	2.3	FY 2012-2013	Karnataka Appellate Tribunal
The Karnataka Tax on Entry of Goods Act, 1979	Entry Tax	0.7	0.6	FY 2012-2013	Karnataka Appellate Tribunal

The Income Tax Act, 1961	Income Tax	180.8	137.9	AY 2022-23	Assessing Officer

- viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the (books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.

- (ix) (a) The Company did not have any outstanding loans or borrowings or interest thereon due to any lender during the year. Accordingly, the requirement to report on clause ix(a) of the Order is not applicable to the Company.

- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

- (c) The Company did not have any term loan outstanding during the year hence, the requirement to report on clause ix(c) of the Order is not applicable to the Company.

- (d) On an overall examination of the standalone financial statements of the Company, no funds raised on short-term basis have been used for long-term purposes by the Company.

- (e) On an overall examination of the standalone financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary company.

- (f) The Company has not raised loans during the year on the

pledge of securities held in its subsidiary company. Hence, the requirement to report on clause ix(f) of the Order is not applicable to the Company.

- (x) (a) The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments) hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company.

- (b) The Company has not made any preferential allotment or private placement of shares /fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.

- (xi) (a) No fraud by the Company or no material fraud on the Company has been noticed or reported during the year.

- (b) During the year, no report under Sub-section (12) of Section 143 of the Companies Act, 2013 has been filed by secretarial auditor or by us in Form ADT - 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.

- (c) As represented to us by the Management, there are no whistle blower complaints received by the Company during the year.

- (xii) The Company is not a Nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to

report on clause 3(xii) of the Order is not applicable to the Company.

(xiii) Transactions with the related parties are in compliance with Sections 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the standalone financial statements, as required by the applicable accounting standards.

(xiv)(a) The Company has an internal audit system commensurate with the size and nature of its business.

(b) The internal audit reports of the Company issued till the date of the audit report, for the period under audit have been considered by us.

(xv) The Company has not entered into any non-cash transactions with its directors or person connected with its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.

(xvi)(a) The provisions of Section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a) of the Order is not applicable to the Company.

(b) The Company is not engaged in any Non-Banking Financial or Housing Finance activities. Accordingly, the requirement to report on clause (xvi)(b) of the Order is not applicable to the Company.

(c) The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi) of the Order is not applicable to the Company.

(d) There is no Core Investment Company as a part of the group, hence, the requirement to report on clause 3(xvi) of the Order is not applicable to the Company.

(xvii) The Company has not incurred cash losses in the current financial year and in the immediately preceding financial year

respectively.

(xviii) There has been no resignation of the statutory auditors during the year and accordingly requirement to report on clause 3(xviii) of the Order is not applicable to the Company.

(xix) On the basis of the financial ratios disclosed in note 44 to the standalone financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx)(a) In respect of other than ongoing projects, there are no unspent amounts that are required to be transferred to a fund specified in Schedule VII of the Companies Act, 2013, in compliance with second proviso to Sub-section 5 of Section 135 of the Companies Act, 2013. This matter has been disclosed in note 31(ii) to the financial statements.

(b) There are no unspent amounts in respect of ongoing projects, that are required to be transferred to a special account in compliance of provision of Sub-section (6) of Section 135 of Companies Act, 2013. This matter has been disclosed in note 31(ii) to the financial statements.

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF DISA INDIA LIMITED

Report on the Internal Financial Controls under Clause (I) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements of DISA India Limited ("the Company") as of March 31, 2025, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the

design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these standalone financial statements.

Meaning of Internal Financial Controls with Reference to these Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at

March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

1. General information

1.1. DISA India Limited ('the Company') is a public limited company incorporated in India in 1984 under the Companies Act 1956. It is listed on Bombay Stock Exchange and headquartered in Bangalore. Its Promoters are DISA Holding AG of Switzerland and DISA Holding A/S of Denmark and the Company's ultimate holding company is Norican Global A/S, Denmark (together referred as 'Norican Group'). The registered office of the Company is located at World Trade Center (WTC), 6th Floor, Unit No. S-604, Brigade Gateway Campus, 26/1, Dr. Rajkumar Road, Malleswaram-Rajajinagar, Bengaluru - 560 055, India. CIN of the Company is L85110KA1984PLC006116.

1.2. The Company is an equipment manufacturer and is engaged in supplying complete foundry systems that includes primarily DISA brand of moulding machines, sand mixers with combination of sand plant equipment, surface preparation machines and environmental control systems to customers across the country and has manufacturing plant located in Tumkur, Bangalore, Karnataka.

1.3. The Company's standalone financial statements were approved by the Company's Board of Directors on May 21, 2025.

2. Material accounting policies

2.1. Statement of compliance and basis of preparation

The standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to standalone financial statement.

The financial statements have been prepared on the historical cost basis, except for the defined benefit plans, which have been measured at fair value.

The accounting policies adopted for preparation and presentation of financial statement have been consistent with the previous year.

The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest million (INR 000,000), except when otherwise indicated.

The Company has prepared the financial statements on the basis that it will continue to operate as a going concern.

2.2. Functional currency

Financial statements are presented in Indian Rupees, which is

the functional currency of the Company, and the currency of primary economic environment in which the Company operates.

2.3. Significant accounting judgements, estimates and assumptions

The preparation of the Company's standalone financial statements requires the Management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Estimates and assumptions are reviewed on periodic basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

The key assumptions concerning the future and other key sources of estimation, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities, within the next financial year, are described below. The Company's assumptions and estimates are based on parameters available at the time of preparation of the standalone financial statements. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Provision for inventories

Management reviews the aged inventory on a periodic basis. The purpose is to ascertain whether an allowance is required to be made in the financial statements for any obsolete and slow-moving items. The Management also evaluates on the usability of existing inventories as a result of technological and regulatory changes if any and provides for the required allowances for slow moving/ non-moving and obsolete inventory. This review also involves comparison of the carrying value of the aged inventory item with the respective net realisable value. Management believes that adequate allowance for obsolete and slow-moving inventories has been made in the financial statements.

Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate,

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the Management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables. These mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Allowance for doubtful trade receivables

The Company determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company considered current and anticipated future economic conditions relating to industries the Company deals with.

Useful lives of property, plant and equipment

Management reviews the useful lives of property, plant and equipment at least once a year. Such lives are dependent upon an assessment of both the technical lives of the assets and also their likely economic lives based on various internal and external factors including relative efficiency and operating costs. This reassessment may result in change in depreciation and amortisation expected in future periods.

Provision for warranty

Warranty estimates are established using historical information on the nature, frequency and average cost of warranty claims and also Management estimates regarding possible future outflow on servicing the customers for any corrective action in respect of product failure.

3. Summary of material accounting policies

3.1. Current versus non-current classification

Based on the time involved between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has identified twelve months as its operating cycle for determining current and non-current classification of assets and liabilities in the balance sheet.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

3.2. Revenue from contracts with customers

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of goods & service tax, returns, discounts offered by the Company as part of the contract. Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer, it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks. Specific criteria's in relation to satisfaction of performance obligations have been met for each for the Company's activities described below:

3.2.1 Revenue from sale of products

Revenue from sale of manufactured goods is recognised at the point in time on satisfaction of each performance obligation by transfer of control of the machines to the customer, generally on dispatch. A performance obligation is transferred when the customer obtains control.

a) Revenue from sale of manufactured machinery:

The Company earns revenues from sale of two categories of manufactured machineries 1) smaller machines or parts of larger assembled machineries i.e. sand plants and 2) single machines viz. moulding machines, short-blast machines, filters, and other similar machines. For the first category, each individual machine or part of the large assembled machines are separate performance obligation with transaction price allocated to each of these identified performance obligation in the contract on a relative stand-alone selling price. For the second category, each single machine is identified as a separate performance obligation.

The Company also considers other promises viz. supervision of installation services in the contract that are separate performance obligations to which a portion of the transaction price is allocated.

b) Revenue from sale of traded and manufactured parts of machinery:

Revenue from sale of traded and manufactured parts of machinery is recognised at the point in time on satisfaction of each performance obligation by transfer of control to the customer, generally on delivery.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (3.15) Financial instruments – initial recognition and subsequent measurement.

The Company applies the practical expedient for short-term advances received from customers. That is, the promised amount of consideration is not adjusted for the effects of a significant financing component if the period between the transfer of the promised good or service and the payment is one year or less.

3.2.2. Warranty obligations

The Company typically provides warranties for general repairs of defects that existed at the time of sale, as required by law. These assurance-type warranties are accounted for under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets. Refer to the accounting policy on warranty provisions in section (3.13) Provisions.

Provisions for the expected cost of warranty obligations are recognized at the date of sale of the relevant products, based on the best estimate established using historical information on the nature, frequency and average cost of warranty claims and Management estimates regarding possible future incidence based on corrective actions on product failures. The timing of outflows will vary as and when warranty claim will arise.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 2.3.

3.2.3 Supervision services for erection and commissioning

The Company provides supervision services as bundled together with the sale of equipment to a customer. The supervision of installation services do not significantly customise or modify the equipment.

Contracts for bundled sales of equipment and supervision services are comprised of separate performance obligations because the equipment and installation and supervision services are both sold on a stand-alone basis and are distinct within the context of contract. Accordingly, the Company allocates the transaction price based on the relative stand-alone selling prices of the equipment and installation and supervision services.

The Company recognises revenue supervision services over time because the customer simultaneously receives and

consumes the benefits provided to them. The Company uses an input method in measuring progress of the installation and supervision services because there is a direct relationship between the Company's effort (i.e., based on cost incurred or labour hours incurred) and the transfer of service to the customer. The Company recognises revenue on the basis of the cost/labour hours expended relative to the total expected cost/labour hours to complete the service.

3.2.4. Loyalty Discount

Loyalty discount is provided to dealers who are customers of the Company on sale of spare parts that can be redeemed against subsequent sales. The Company applies the most likely amount method or the expected value method to estimate the variable consideration in the contract. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract. The most likely amount is used for those contracts with a single volume threshold, while the expected value method is used for those with more than one volume threshold. The Company then applies the requirements on constraining estimates in order to determine the amount of variable consideration that can be included in the transaction price and recognised as revenue. A refund liability is recognised for the expected future rebates (i.e., the amount not included in the transaction price).

3.2.5. Commission Income

Commission Income is recognized on accrual basis as per the terms of the agreement

3.2.6. Export Entitlements

Export entitlements from government authorities are recognized in the statement of profit & loss when the right to receive credit as per the terms of the scheme is established in respect of exports made by the Company and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

3.2.7. Interest Income

Interest Income is accrued on a time basis by reference to the principal outstanding and at the effective interest rate applicable.

3.3. Leasing

Company as a Lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

asset for a period of time in exchange for consideration.

Right-of-use assets

The Company recognises a right-of-use asset at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term i.e., 5 years.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. In addition, the right-of-use asset is periodically reduced by impairment losses.

Lease liabilities

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate. Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. The lease liability is measured at amortised cost using the effective interest method.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases of real estate properties that have a lease term of 12 months. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset is classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned. Payments received under

operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the term of the lease.

3.4. Foreign currency transactions & translations

In preparing the financial statements of the Company, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded at the rates of exchange prevailing on the dates of the transactions.

Monetary items denominated in foreign currencies are restated at the rates prevailing on the balance sheet date. Exchange differences on monetary items are recognized in the statement of profit or loss in the period in which those arise.

Non-monetary items denominated in foreign currencies that are measured at fair value are restated to the functional currency at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not restated.

3.5. Employee benefits

3.5.1 Defined Contribution Plans

The Company makes defined contribution to the Government Employee Provident Fund, Superannuation Fund and Employees' State Insurance, which are recognised in the Statement of Profit and Loss, on accrual basis. The Company recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. The Company has no obligation, other than the contribution payable to the provident fund.

3.5.2. Defined Benefit Plans

The Company operates a defined benefit gratuity plan in India. The Company contributes to a gratuity fund maintained by an independent insurance company. The Company's liabilities under The Payment of Gratuity Act, 1972 are determined on the basis of actuarial valuation made at the end of each financial year using the projected unit credit method. Obligation is measured at the present value of estimated future cash flows using a discounted rate that is determined by reference to market yields at the Balance Sheet date on Government bonds, where the terms of the Government bonds are consistent with the estimated terms of the defined benefit obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and fair value of plan assets. This cost is included in the 'Employee benefits expense' in the Statement of Profit and Loss. Re-measurement gains or losses and return on plan assets (excluding amounts included in net Interest on the net defined benefit liability) arising from changes in actuarial assumptions are recognised in

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

the period in which they occur, directly in OCI. These are presented as re-measurement gains or losses on defined benefit plans under other comprehensive income in other equity. Remeasurements gains or losses are not reclassified subsequently to the Statement of Profit and Loss.

3.5.3. Leave encashment / Compensated absences

The employees of the Company are entitled to compensated absences. The employees can carry forward a portion of the unutilised accumulating compensated absences and utilise it in future periods or receive cash at retirement or termination of employment. The Company records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement. The Company measures the expected cost of compensated absences as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period. The Company recognises accumulated compensated absences based on actuarial valuation in the Statement of Profit and Loss.

The Company presents the entire leave as a current liability in the Balance Sheet, since it does not have any unconditional right to defer its settlement for twelve months after the reporting date.

3.5.4. Short term & Other Long-Term Employee benefits

Short-term employee benefits are recognised as an expense on accrual basis.

3.6. Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

3.7. Taxation

Tax expense for the year comprises of current tax expense and deferred tax using rates at the balance sheet date.

3.7.1. Current Tax

The current tax payable is based on taxable profit for the year and any adjustment to tax payable in respect of previous years, computed as per Income Tax Act 1961. The current tax is calculated using effective tax rates that have been enacted by the end of the reporting period.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

will accept an uncertain tax treatment. The Company shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

3.7.2. Deferred Tax

Deferred tax is recognized on temporary timing differences between the carrying amounts of assets and liabilities in the financial statements using the tax rates and the tax laws enacted or substantially enacted as at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.

Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized except, when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Company relies on the same forecast assumptions used elsewhere in the financial statements.

Deferred tax relating to items recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The Company offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied

by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

3.8. Property, plant and equipment

Property, plant & equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost (i.e., Purchase cost, Net of duties), less accumulated depreciation and accumulated impairment losses, if any. Cost includes purchase price, non - refundable taxes & duties, freight and other directly attributable costs to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Management. Freehold land is not depreciated.

Items such as spare parts, stand-by equipment and servicing equipment are recognized as property, plant and equipment if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Projects under which property, plant and equipment are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

The Company, based on technical assessment made by technical expert and Management estimate, depreciates certain property, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The Management believes that these estimated useful lives reflect fair approximation of the period over which the assets are likely to be used. The Company has used the following rates to provide depreciation on its property, plant and equipment:

Nature of Asset	Useful lives (in years)
Buildings	30-60
Plant and machinery	10-15
Furniture and fixtures	10
Office equipment	5
Patterns	7
Vehicles	5-10
Computers	3-6

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in statement of profit and loss.

The Company reviews the estimated residual values, expected useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. In particular, the Company considers the impact of health, safety and environmental legislation in its assessment of expected useful lives and estimated residual values. Furthermore, the Company considers climate-related matters, including physical and transition risks. Specifically, the Company determines whether climate-related legislation and regulations might impact either the useful life or residual values, e.g., by banning or restricting the use of the Company's fossil fuel-driven machinery and equipment or imposing additional energy efficiency requirements on the Company's buildings and office properties.

3.9. Investment Properties

Investment properties are properties held to earn rentals and / or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 40 requirements for cost model. Investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any

The Company depreciates building component of investment property over 40 years from the date of original purchase.

The Company, based on technical assessment made by technical expert and Management estimate, depreciates the building over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The Management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Though the Company measures investment properties using cost-based measurement, the fair value of investment properties are disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model recommended by the International Valuation Standards Committee.

An investment property is derecognized upon disposal or when

the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

3.10. Other Intangible Assets

3.10.1. Recognition

Intangible assets that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses, if any. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the tax authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates.

Intangible assets, with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives of four years.

Computer software, except standard utility software packages which are not integral part of the hardware are classified as Intangible assets.

3.10.2. Derecognition of intangible assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss when the asset is derecognized.

3.11. Impairment of non-financial assets

At the end of each reporting period, the Company reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs. Corporate assets are also allocated to individual cash generating units when a reasonable and consistent basis of allocation can be identified, or otherwise corporate assets are allocated to the smallest group of cash-

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

generating units for which a reasonable and consistent allocation basis can be identified.

The Company assesses whether climate risks, including physical risks and transition risks could have a significant impact.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in statement of profit and loss.

3.12. Inventories

Raw materials, Components, Work-in-Progress, finished goods and Stock-in-trade are valued at lower of cost and net realizable value. Cost is ascertained on FIFO basis. Cost includes direct materials and where applicable direct labor costs and overhead costs that have been incurred in bringing the goods to the current location and condition. Work-in-progress and finished goods include appropriate proportion of overheads and where applicable.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

3.13. Provisions and contingent liability

Provisions are recognized when the Company has a present obligation as a result of a past event that it is probable will result in an outflow of economic benefits that can be reasonably estimated.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present

obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Provisions, contingent liabilities are reviewed at each Balance Sheet date.

3.14. Investment in subsidiaries

A subsidiary is an entity that is controlled by another entity. Investment in its subsidiary are carried at cost less impairment, if any.

The Company reviews its carrying value of investments carried at cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is recorded in the Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the Investment is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the cost of the Investment. A reversal of an impairment loss is recognised immediately in Statement of Profit or Loss.

3.15. Financial instruments

Financial instruments are recognised when the Company becomes a party to the contract that gives rise to financial assets and financial liabilities. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

Financial Assets

Financial assets at amortised cost

A 'financial asset' is measured at the amortised cost if both the following conditions are met:

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. The Company's financial assets at amortised cost includes loans, trade receivables, cash and cash equivalents, bank balance other than cash and cash equivalent and security deposits included under other financial assets.

Financial assets at fair value through OCI (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss.

Impairment of financial assets

For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The amount of ECLs (or reversal) that is required to adjust the

loss allowance at the reporting date to the amount that is required to be recorded is recognized as an impairment loss or gain in statement of profit and loss..

Financial liabilities

Financial liabilities at amortised cost

This is the category most relevant to the Company. After initial recognition, such financial liabilities are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. The Company's financial liabilities at amortised cost includes lease liabilities, trade payables and employee payables included under other financial liabilities.

Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

3.16. Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

Cash for the purpose of cash flow statement comprises cash on hand and demand deposits with banks. Cash equivalents are short term (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.17. Dividend

The Company recognises a liability to make cash distributions to equity holders of the Company when the distribution is authorised, and the distribution is no longer at the discretion of

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

the Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

3.18. Segment reporting

Operating segments are components of the Company whose operating results are regularly reviewed by the Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

Manufacturing and selling of foundry machinery and machinery parts is identified as single operating segment for the purpose of making decision on allocation of resources and assessing its performance (refer note 40).

3.19. Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit/(loss) per share.

3.20. Events after the reporting period

If the Company receives information after the reporting period, but prior to the date of approved for issue, about conditions that existed at the end of the reporting period, it will assess whether the information affects the amounts that it recognises in its standalone financial statements. The Company will adjust the amounts recognised in its standalone financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Company will not change the amounts recognised in its standalone financial statements but will disclose the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an

estimate cannot be made, if applicable.

3.21. Changes in accounting policies and disclosures

New and amended standards.

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. 01 April 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its standalone financial statements.

3.22. Climate-related matters

The Company considers climate-related matters in estimates and assumptions, where appropriate. This assessment includes a wide range of possible impacts on the Company due to both physical and transition risks. Even though the Company believes its business model and products will still be viable after the transition to a low-carbon economy, climate-related matters increase the uncertainty in estimates and assumptions underpinning several items in the financial statements. Even though climate-related risks might not currently have a significant impact on measurement, the Company is closely monitoring relevant changes and developments, such as new climate-related legislation. The items and considerations that are most directly impacted by climate-related matters are:

- Useful life of property, plant and equipment. When reviewing the residual values and expected useful lives of assets, the Company considers climate-related matters, such as climate-related legislation and regulations that may restrict the use of assets or require significant capital expenditures.
- Impairment of non-financial assets. The value-in-use may be impacted in several different ways by transition risk in particular, such as climate-related legislation and regulations and changes in demand for the Company's products.

3.23. Standards notified but not yet effective.

There are no standards that are notified and not yet effective as on the date.

Fair value of the company's investment property :

The Company's investment property consists of three office spaces located at Pune, Kolkata and New Delhi, a freehold land and a factory building located in Hosakote Industrial area, Karnataka. The Management has determined that the investments property consists of two classes of asset, "Freehold Land" and "Building (which includes three office spaces and a factory building)" based on nature, characteristics and risks of each property.

As at March 31, 2025, the fair values of three office spaces are Rs. 60.8 Million (March 31, 2024 : Rs.56.2 Million), a factory building Rs. 56.4 Million and a freehold land Rs. 260.0 Million. Fair valuation of Investment Properties as at March 31, 2025 has been arrived at on the basis of valuation carried out by an independent valuers not related to the Company. The valuers are registered with the authority which governs the valuers in India, and in the opinion of the Management, valuer has appropriate qualifications and relevant experience in valuation of properties.

Fair value hierarchy disclosures for investment properties have been provided in note 38.

The Company has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

The aforesaid freehold land and factory building is currently vacant. The Company is not using this vacant freehold land and factory building for its own use. The Company has held the Freehold Land and Building for undetermined future use, hence, the property is treated as Investment Properties.

Description of valuation techniques used and key inputs to valuation on investment properties:

Investment properties	Valuation technique	Significant unobservable Inputs	Range (weighted average)	
			As at March 31, 2025	As at March 31, 2024
Buildings				
Office buildings	Comparison method under market approach (refer 'a' below)	Market Rate (Rs. per sq. ft)	Rs. 15,550 to Rs. 25,000	Rs. 14,750 to Rs. 23,000
Factory building	Depreciated replacement cost method under cost approach (refer 'b' below)	Depreciated Replacement Cost (Rs. per sq. ft)	Rs. 1,085 per sq. ft.	NA
Freehold Land				
Freehold Land	Comparison method under market approach (refer 'a' below)	Market Rate (Rs. per sq. ft)	Rs. 1,290 to Rs. 1,300 per sq.ft.	NA

(a) Under the market approach, the fair value for Office buildings and Freehold land is determined based on the market survey and enquiries, depending upon various comparable factors such as permissible usage, size, shape, location, abutting road, marketability, demand and supply of similar properties in the said locality.

(b) Under the cost approach, fair value was determined based on depreciated replacement cost of buildings on the basis of current cost per square feet and rate of depreciation based on age/effective age, total useful economic life, balance useful economic life, observed wear and tear, the condition of the property.

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

(All amounts in Indian Rupees Millions, unless otherwise stated)

(a) Trade receivables are non-interest bearing and are generally on terms of 30 to 60 days. During the year ended, March 31, 2025, Rs 0.6 Million (March 31, 2024: Rs 8.1 million) was recognised as provision for expected credit losses on trade receivables.

(b) Contract assets relates to revenue earned from Supervision services for erection and commissioning. As such, the balances of this account vary and depend on the number of ongoing contracts at the end of the year.

The transaction price allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) for contract assets is expected to be recognised within one year

(c) Advances from customers include short-term advances received to deliver machinery equipment's, and loyalty points not yet redeemed.

The amount of revenue recognised in the current year of Rs 822.1 Million (March 31, 2024: Rs 705.4 Million) that was included in the opening advance from customer balance towards unsatisfied performance obligation.

(vi) Performance obligation

Information about the Company's performance obligations are summarised below:

Sale of manufactured machinery

The performance obligation is satisfied upon dispatch of the machines or sub-machines (part of larger machineries) and payment is generally collected in advance.

In some contracts, supervision services for erection and commissioning are agreed to be provided to customers as a part of sale of manufactured machinery. The supervision services are accounted for as a separate performance obligation and a portion of the transaction price is allocated. The performance obligation for the supervision services is satisfied over one-year based on time elapsed.

Sale of traded and manufactured parts of machinery

The performance obligation is satisfied upon delivery of the spare parts and payment is generally due within 30 to 60 days from delivery.

Customers are entitled to loyalty discounts which results in allocation of a portion of the transaction price to the loyalty discounts. Revenue is recognised when the loyalty discount is redeemed.

In addition, the Company updates its estimates of the loyalty discount that will be redeemed on a quarterly basis and any adjustments to the contract liability balance are charged against revenue.

33 EARNINGS PER SHARE (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the parent by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

The following table reflects the income and share data used in the basic and diluted EPS computations:

34 EMPLOYEE BENEFIT OBLIGATIONS

As per Ind AS 19 "Employee Benefits", the disclosures of Employee benefits as defined in the Accounting Standard are given below:

The Company has one post-employment funded plans, namely Gratuity.

The gratuity plan is governed by the Payment of Gratuity Act, 1972 (Act). Under the Act, an employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age. Gratuity being administered by a Trust is computed as 15 days salary, for every completed year of service or part thereof in excess of 6 months and is payable on retirement/termination/resignation. The Gratuity plan for the Company is a defined benefit scheme where annual contributions as demanded by the insurer are deposited to a Gratuity Fund established to provide gratuity benefits. The Fund has taken a Scheme of Insurance, whereby these contributions are transferred to the insurer. The Company makes provision of such gratuity asset/liability in the books of accounts on the basis of actuarial valuation as per the projected unit credit method.

(All amounts in Indian Rupees Millions, unless otherwise stated)

These plans typically expose the Company to actuarial risks such as interest rate risk and salary risk.

a) Interest risk: a decrease in the bond interest rate will increase the plan liability.

b) Salary risk: the present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, a variation in the expected rate of salary increase of the plan participants will change the plan liability.

VI. Sensitivity Analysis

Significant actuarial assumptions for the determination of defined obligation are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	Gratuity	
	Year ended March 31, 2025	Year ended March 31, 2024
Impact in present value of defined benefit obligation:		
If discount rate is increased by 0.5%	(2.6)	(2.5)
If discount rate is decreased by 0.5%	2.7	2.6
If salary escalation rate is increased by 0.5%	2.4	2.3
If salary escalation rate is decreased by 0.5%	(2.4)	(2.3)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognized in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

VII. Asset Liability Matching Strategies

The Company has purchased insurance policy, which is basically a year-on year cash accumulation plan in which the interest rate is declared on yearly basis and is guaranteed for a period of one year. The Insurance Company, as part of the policy rules, makes all of the gratuity payments happening during the year (subject to sufficiency of funds under the policy). The policy thus mitigates the liquidity risk. However, being a cash accumulation plan, the duration of assets is shorter compared to the duration of liabilities. Thus, the Company is exposed to movement in interest rate (in particular, the significant fall in interest rates, which should result in a increase in liability without corresponding increase in the asset).

VIII. Effect of Plan on Entity's Future Cash Flows

(i) Funding arrangements and Funding Policy

The Company has purchased an insurance policy to provide for payment of gratuity to the employees. Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Company. Any deficit in the assets arising as a result of such valuation is funded by the Company.

(ii) Expected contribution during the next annual reporting period.

The Company's best estimate of Contribution during the next year is Rs. 17.1 Million (March 31, 2024 9.1 Million)

(i) The Company is contesting the tax litigations in respect of income tax matters for the years FY 2011-12 and FY 2012-13 for disallowances made by the tax authorities. The Management, including its tax advisors, believes that it's position will likely to be upheld at the various forums where the matters are pending. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in its standalone financial statements. The Company does not expect the outcome of these proceedings to have a materially adverse effect on its financial position.

(ii) The Company is contesting disallowances made by the tax authorities for CST/VAT matters for the FY 2012-13 where the demand is for non-filing of C forms. During the year ended March 31, 2025, the Management as a practice of abundance caution has created a provision against the demand.

(All amounts in Indian Rupees Millions, unless otherwise stated)

The Management assessed that the fair value of cash and cash equivalents, other bank balances, trade receivables, loans, other financial assets, trade payables and other financial liabilities approximate the carrying amount largely due to short-term maturity of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

(ii) Fair value hierarchy:

Fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Quantitative disclosures fair value measurement hierarchy for assets as at March 31, 2025 and March 31, 2024:

Particulars	Date of Valuation	Fair value measurement using			
		Total	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs level 3)

As on March 31, 2025 and March 31, 2024, the Company does not hold any financial instruments which are measured at fair value. Therefore, disclosure under fair value is not applicable to the Company.

(iii) Financial risk management

The Company's principal financial liabilities comprise of trade payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade receivables, and cash and cash equivalents that derive directly from its operations.

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on it's financial performance. The market risk to the Group is mainly due to foreign exchange exposure risk, Interest rate risk and other price risk. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer. The Company's risk management activity focuses on actively securing the Company's short to medium-term cash flows by minimising the exposure to volatile financial markets. Long-term financial investments are managed to generate lasting returns. The Group does not actively engage in the trading of financial assets for speculative purposes. The most significant financial risks to which the Group is exposed are described below.

(A) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk includes trade payable, trade receivable, bank deposits, loans.

a) Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group has interest bearing bank deposits which are carrying fixed rate of interest. However, the exposure to risk of changes in market interest rates is minimal. The Group has not used any interest rate derivatives to hedge the interest rate risk.

b) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a foreign currency). The Group does not enter into any derivative instruments for trading or speculative purposes.

The carrying amount of the Company's Foreign Currency denominated monetary items are as follows:

Particulars	Balance as at March 31, 2025	Balance as at March 31, 2024
Liabilities		
EURO	261.7	171.2
USD	9.2	9.3
Total Liabilities	270.9	180.5
Assets		
EURO	14.9	78.4
USD	10.7	8.6
Total Assets	25.6	87.0

Foreign Currency sensitivity analysis

The Company is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to Euro and US Dollar.

The following table details the Company's sensitivity to a 5% increase and decrease in the Rupees against the relevant foreign currencies. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes receivables and payable in currency other than the functional currency of the Company.

A 5% strengthening of the Rupee against key currencies to which the Company is exposed (net of hedge) would have led to additional gain in the Statement of Profit and Loss. A 5% weakening of the Rupee against these currencies would have led to an equal but opposite effect.

c) Commodity price risk

The Company is affected by the price volatility of certain commodities. Its operating activities require the ongoing manufacturing of OEM products, and therefore require a continuous supply of steel.

(B) Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Company only deals with parties which has good credit rating/ worthiness given by external rating agencies or based on Company's internal assessment.

(a) Trade receivables management

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivable based on a provision matrix. The Provision matrix takes into account historical credit loss experience and adjusted for forward-looking information.

The reversal/allowance for life time expected credit loss on customer balances for the year ended is disclosed in Note 12.

(b) Financial instrument and bank deposits

Credit risk from balances with banks is managed by the Company in accordance with its policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty.

(c) Liquidity Risk

Liquidity risk refers to the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The objective of liquidity risk management, is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company generates cash flows from operations to meet its financial obligations, maintains adequate liquid assets in the form of cash & cash equivalents.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual payments:

Particulars	Less than 1 year	Between 1 to 5 years	Over 5 years	Total
As at March 31, 2025				
Trade payables (Refer Note 19)	562.7	-	-	562.7

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of DISA India Limited (hereinafter referred to as "the Holding Company"), its subsidiary (the Holding Company and its subsidiary together referred to as "the Group") comprising of the consolidated Balance sheet as at March 31, 2025, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of the other auditor on separate financial statements and on the other financial information of the subsidiary, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2025, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities

for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2025. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us and by other auditor of component not audited by us, as reported by them in their audit report furnished to us by the Management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Key audit matters	How our audit addressed the key audit matter
Revenue from operations (as described in note 3.2 and 22 of the consolidated financial statements)	
The Holding Company recognises revenue from sale of goods based on the terms and conditions specified in the agreement(s), which vary for different products. For sale of goods around the balance sheet date, it is essential to ensure that the transfer of control of the goods by the Holding Company to the customer occurs before the balance sheet date. Considering the Holding Company has material sale transactions close to the year-end and recognition of revenue is subject to transfer of control to the customers before the balance sheet date, we consider the risk of revenue from sale of goods being recognised in the incorrect period as a key audit matter.	<p>Our audit procedures include the following:</p> <ul style="list-style-type: none">• We evaluated the Holding Company's accounting policies pertaining to revenue recognition and assessed compliance with the policies in terms of Ind AS 115 - Revenue from Contracts with Customers.• We tested the internal controls relating to determination of point in time at which the transfer of control of goods occurs for revenue recognition in the appropriate period in accordance with the Holding Company's accounting policy.• For a sample of sales transactions recorded closer to the year end, we performed the following audit procedures:<ul style="list-style-type: none">- Analysed the terms and conditions of the underlying agreements for the different products, and- Verified evidence like lorry receipts, despatch entries in gate register and other supporting documents for transfer of control of the goods prior to the balance sheet date.• We read and assessed the relevant disclosures made in the consolidated financial statements.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective company(ies) and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of their respective company(ies) to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in

the Group are also responsible for overseeing the financial reporting process of their respective company(ies).

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

•Obtain sufficient appropriate audit evidence regarding the financial information of the entity or business activities within the Group of which we are the independent auditor, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entity included in the consolidated financial statements of which we are the independent auditor. For the other entity included in the consolidated financial statements, which have been audited by other auditor, such other auditor remain responsible for the direction, supervision and performance of the audit carried out by such other auditor. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company included in the consolidated financial statements of which we are the independent auditor regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended March 31, 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements and other financial information, in respect of one subsidiary, whose financial statements include total assets of Rs 83.0 million as at March 31, 2025, and total revenues of Rs 92.3 million and net cash inflows of Rs 9.0 million for the year ended on that date. The financial statement and other financial information have been audited by other auditor, which financial statements, other financial information and auditor's report have been furnished to us by the Management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the subsidiary, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary is based solely on the report of such other auditor.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the report of the other auditor.

**ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF
EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS
OF DISA INDIA LIMITED.**

**Report on the Internal Financial Controls under Clause (i) of
Sub-section 3 of Section 143 of the Companies Act, 2013 ("the
Act")**

In conjunction with our audit of the consolidated financial statements of DISA India Limited (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group"), which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the companies included in the Group, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, specified under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both, issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating

effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of its report referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

**Meaning of Internal Financial Controls with Reference to
Consolidated Financial Statements**

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls with
Reference to Consolidated Financial Statements**

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

1. General information

1.1. DISA India Limited ("the Company" or "the Holding Company") along with its wholly owned subsidiary, Bhadra Castalloy Private Limited (formerly known as Bhadra Castalloys Private Limited), collectively called as "Group". DISA India Limited is a public limited company incorporated in India in 1984 under the Companies Act 1956. It is listed on Bombay Stock Exchange and headquartered in Bangalore. Its Promoters are DISA Holding AG of Switzerland and DISA Holding A/S of Denmark and the Company's ultimate holding company is Norican Global A/S, Denmark (together referred as 'Norican Group'). The registered office of the Company is located at World Trade Center (WTC), 6th Floor, Unit No. S-604, Brigade Gateway Campus, 26/1, Dr. Rajkumar Road, Malleswaram-Rajajinagar, Bengaluru - 560 055, India. CIN of the Company is L85110KA1984PLC006116.

1.2. The Group is an equipment manufacturer and is engaged in supplying complete foundry systems that includes primarily DISA brand of moulding machines, sand mixers with combination of sand plant equipment, surface preparation machines and environmental control systems to customers across the country and has manufacturing plant located in Tumkur, Bangalore, Karnataka.

1.3. The Company's consolidated financial statements were approved by the Company's Board of Directors on May 21, 2025.

2. Material accounting policies

2.1 Statement of compliance and basis of preparation

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to consolidated financial statement.

The financial statements have been prepared on the historical cost basis, except for the defined benefit plans, which have been measured at fair value.

The accounting policies adopted for preparation and presentation of financial statement have been consistent with the previous year.

The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest million (INR 000,000), except when otherwise indicated.

The Group has prepared the financial statements on the basis that it will continue to operate as a going concern.

2.2. Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its wholly owned subsidiary as

at March 31, 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements;
- The Group's voting rights and potential voting rights; and
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed off during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of the subsidiary used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31, 2025.

Consolidation procedure:

- (a) Combine like items of assets, liabilities, equity, income,

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

expenses and cash flows of the parent with those of its subsidiary. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.

- (b) Offset (eliminate) the carrying amount of the parent's investment in the subsidiary and the parent's portion of equity of the subsidiary. Business combinations policy explains how to account for any related goodwill.
- (c) Eliminate in full intraGroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group (profits or losses resulting from intraGroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). IntraGroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12, Income Taxes, applies to temporary differences that arise from the elimination of profits and losses resulting from intraGroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity shareholders of the parent of the Group. When necessary, adjustments are made to the financial statements of subsidiary to bring their accounting policies into line with the Group's accounting policies. All intra-Group assets and liabilities, equity, income, expenses and cash flows relating to transactions between member and the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary;
- Derecognises the carrying amount of any noncontrolling interests;
- Derecognises the cumulative translation differences recorded in equity;
- Recognises the fair value of the consideration received;
- Recognises the fair value of any investment retained;
- Recognises any surplus or deficit in profit or loss; and
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

2.3. Goodwill

Goodwill is initially measured at cost. After initial recognition, goodwill is measured at cost less any accumulated impairment

losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in Statement of Profit and Loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

2.4. Functional currency

Financial statements are presented in Indian Rupees, which is the functional currency of the Group, and the currency of primary economic environment in which the Group operates.

2.5. Significant accounting judgements, estimates and assumptions

The preparation of the Group's consolidated financial statements requires the Management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Estimates and assumptions are reviewed on periodic basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

The key assumptions concerning the future and other key sources of estimation, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities, within the next financial year, are described below. The Group's assumptions and estimates are based on parameters available at the time of preparation of the consolidated financial statements. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Provision for inventories

Management reviews the aged inventory on a periodic basis. The purpose is to ascertain whether an allowance is required to be made in the financial statements for any obsolete and slow-moving items. The Management also evaluates on the usability of existing inventories as a result of technological and regulatory changes if any and provides for the required allowances for slow moving/ non-moving and obsolete inventory. This review also involves comparison of the carrying value of the aged inventory item with the respective net realisable value. Management believes that adequate allowance for obsolete and slow-moving inventories has been made in the financial statements.

Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the Management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables. These mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Allowance for doubtful trade receivables

The Group determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Group considered current and anticipated future economic conditions relating to industries the Group deals with.

Useful lives of property, plant and equipment

Management reviews the useful lives of property, plant and equipment at least once a year. Such lives are dependent upon an assessment of both the technical lives of the assets and also their likely economic lives based on various internal and external factors including relative efficiency and operating costs. This reassessment may result in change in depreciation and amortisation expected in future periods.

Provision for warranty

Warranty estimates are established using historical information on the nature, frequency and average cost of warranty claims and also Management estimates regarding possible future outflow on servicing the customers for any corrective action in respect of product failure.

3. Summary of material accounting policies

3.1. Current versus non-current classification

Based on the time involved between the acquisition of assets for processing and their realization in cash and cash equivalents, the Group has identified twelve months as its operating cycle for determining current and non-current classification of assets and liabilities in the balance sheet.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

3.2. Revenue from contracts with customers

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of goods & service tax, returns, discounts offered by the Group as part of the contract. Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer, it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks. Specific criteria's in relation to satisfaction of performance obligations have been met for each for the Group's activities described below:

3.2.1 Revenue from sale of products

Revenue from sale of manufactured goods is recognised at the point in time on satisfaction of each performance obligation by transfer of control of the machines to the customer, generally on dispatch. A performance obligation is transferred when the customer obtains control.

a) Revenue from sale of manufactured machinery:

The Group earns revenues from sale of two categories of manufactured machineries 1) smaller machines or parts of larger assembled machineries i.e. sand plants and 2) single machines viz. moulding machines, short-blast machines, filters, and other similar machines. For the first category, each individual machine or part of the large assembled machines are separate performance obligation with transaction price allocated to each of these identified performance obligation in

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

the contract on a relative stand-alone selling price. For the second category, each single machine is identified as a separate performance obligation.

The Group also considers other promises viz. supervision of installation services in the contract that are separate performance obligations to which a portion of the transaction price is allocated.

b) Revenue from sale of traded and manufactured parts of machinery:

Revenue from sale of traded and manufactured parts of machinery is recognised at the point in time on satisfaction of each performance obligation by transfer of control to the customer, generally on delivery.

A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (3.15) Financial instruments – initial recognition and subsequent measurement.

The Group applies the practical expedient for short-term advances received from customers. That is, the promised amount of consideration is not adjusted for the effects of a significant financing component if the period between the transfer of the promised good or service and the payment is one year or less.

3.2.2. Warranty obligations

The Group typically provides warranties for general repairs of defects that existed at the time of sale, as required by law. These assurance-type warranties are accounted for under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets. Refer to the accounting policy on warranty provisions in section (3.13) Provisions.

Provisions for the expected cost of warranty obligations are recognized at the date of sale of the relevant products, based on the best estimate established using historical information on the nature, frequency and average cost of warranty claims and Management estimates regarding possible future incidence based on corrective actions on product failures. The timing of outflows will vary as and when warranty claim will arise.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 2.5.

3.2.3 Supervision services for erection and commissioning

The Group provides supervision services as bundled together with the sale of equipment to a customer. The supervision of installation services do not significantly customise or modify the equipment.

Contracts for bundled sales of equipment and supervision services are comprised of separate performance obligations because the equipment and installation and supervision services are both sold on a stand-alone basis and are distinct within the context of contract. Accordingly, the Group allocates the transaction price based on the relative stand-alone selling prices of the equipment and installation and supervision services.

The Group recognises revenue supervision services over time because the customer simultaneously receives and consumes the benefits provided to them. The Group uses an input method in measuring progress of the installation and supervision services because there is a direct relationship between the Group's effort (i.e., based on cost incurred or labour hours incurred) and the transfer of service to the customer. The Group recognises revenue on the basis of the cost/labour hours expended relative to the total expected cost/labour hours to complete the service.

3.2.4. Loyalty Discount

Loyalty discount is provided to dealers who are customers of the Group on sale of spare parts that can be redeemed against subsequent sales. The Group applies the most likely amount method or the expected value method to estimate the variable consideration in the contract. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract. The most likely amount is used for those contracts with a single volume threshold, while the expected value method is used for those with more than one volume threshold. The Group then applies the requirements on constraining estimates in order to determine the amount of variable consideration that can be included in the transaction price and recognised as revenue. A refund liability is recognised for the expected future rebates (i.e., the amount not included in the transaction price).

3.2.5. Commission Income

Commission Income is recognized on accrual basis as per the terms of the agreement.

3.2.6. Export Entitlements

Export entitlements from government authorities are recognized in the statement of profit & loss when the right to receive credit as per the terms of the scheme is established in respect of exports made by the Group and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

3.2.7. Interest Income

Interest Income is accrued on a time basis by reference to the principal outstanding and at the effective interest rate applicable.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

3.3. Leasing

Group as a Lessee

The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. .

Right-of-use assets

The Group recognises a right-of-use asset at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term i.e., 5 years.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. In addition, the right-of-use asset is periodically reduced by impairment losses.

Lease liabilities

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate. Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. The lease liability is measured at amortised cost using the effective interest method.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases of real estate properties that have a lease term of 12 months. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Group as a Lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset is classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms.

Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned. Payments received under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the term of the lease.

3.4. Foreign currency transactions & translations

In preparing the financial statements of the Group, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded at the rates of exchange prevailing on the dates of the transactions.

Monetary items denominated in foreign currencies are restated at the rates prevailing on the balance sheet date. Exchange differences on monetary items are recognized in the statement of profit or loss in the period in which those arise.

Non-monetary items denominated in foreign currencies that are measured at fair value are restated to the functional currency at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not restated.

3.5. Employee benefits

3.5.1 Defined Contribution Plans

The Group makes defined contribution to the Government Employee Provident Fund, Superannuation Fund and Employees' State Insurance, which are recognised in the Statement of Profit and Loss, on accrual basis. The Group recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. The Group has no obligation, other than the contribution payable to the provident fund.

3.5.2. Defined Benefit Plans

The Group operates a defined benefit gratuity plan in India. The Group contributes to a gratuity fund maintained by an independent insurance Company. The Group's liabilities under The Payment of Gratuity Act, 1972 are determined on the basis of actuarial valuation made at the end of each financial year using the projected unit credit method. Obligation is measured at the present value of estimated future cash flows using a discounted rate that is determined by reference to market yields at the Balance Sheet date on Government bonds, where the terms of the Government bonds are consistent with the estimated terms of the defined benefit obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and fair value of plan assets. This cost is included in the 'Employee benefits expense' in the Statement of Profit and Loss. Re-measurement gains or losses and return on plan assets (excluding amounts included in net Interest on the net defined benefit liability) arising from changes in actuarial assumptions are recognised in

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

the period in which they occur, directly in OCI. These are presented as re-measurement gains or losses on defined benefit plans under other comprehensive income in other equity. Remeasurements gains or losses are not reclassified subsequently to the Statement of Profit and Loss.

3.5.3. Leave encashment / Compensated absences

The employees of the Group are entitled to compensated absences. The employees can carry forward a portion of the unutilised accumulating compensated absences and utilise it in future periods or receive cash at retirement or termination of employment. The Group records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement. The Group measures the expected cost of compensated absences as the additional amount that the Group expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period. The Group recognises accumulated compensated absences based on actuarial valuation in the Statement of Profit and Loss.

The Group presents the entire leave as a current liability in the Balance Sheet, since it does not have any unconditional right to defer its settlement for twelve months after the reporting date.

3.5.4. Short term & Other Long-Term Employee benefits

Short-term employee benefits are recognised as an expense on accrual basis.

3.6. Fair value measurement

The Group measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by

selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

3.7. Taxation

Tax expense for the year comprises of current tax expense and deferred tax using rates at the balance sheet date.

3.7.1. Current Tax

The current tax payable is based on taxable profit for the year and any adjustment to tax payable in respect of previous years, computed as per Income Tax Act 1961. The current tax is calculated using effective tax rates that have been enacted by the end of the reporting period.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

3.7.2. Deferred Tax

Deferred tax is recognized on temporary timing differences between the carrying amounts of assets and liabilities in the financial statements using the tax rates and the tax laws enacted or substantially enacted as at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.

Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized except, when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Group relies on the same forecast assumptions used elsewhere in the financial statements.

Deferred tax relating to items recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The Group offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

3.8. Property, plant and equipment

Property, plant & equipment held for use in the production or supply of goods or services, or for administrative purposes, are

stated in the balance sheet at cost (i.e., Purchase cost, Net of duties), less accumulated depreciation and accumulated impairment losses, if any. Cost includes purchase price, non - refundable taxes & duties, freight and other directly attributable costs to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Management. Freehold land is not depreciated.

Items such as spare parts, stand-by equipment and servicing equipment are recognized as property, plant and equipment if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Projects under which property, plant and equipment are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

The Group, based on technical assessment made by technical expert and Management estimate, depreciates certain property, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The Management believes that these estimated useful lives reflect fair approximation of the period over which the assets are likely to be used. The Group has used the following rates to provide depreciation on its property, plant and equipment:

Nature of Asset	Useful lives (in years)
Buildings	30-60
Plant and machinery	10-15
Furniture and fixtures	10
Office equipment	5
Patterns	7
Vehicles	5-10
Computers	3-6

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in statement of profit and loss.

The Group reviews the estimated residual values, expected useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. In particular, the Group considers the impact of health, safety and environmental legislation in its assessment of expected useful lives and

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

estimated residual values. Furthermore, the Group considers climate-related matters, including physical and transition risks. Specifically, the Group determines whether climate-related legislation and regulations might impact either the useful life or residual values, e.g., by banning or restricting the use of the Group's fossil fuel-driven machinery and equipment or imposing additional energy efficiency requirements on the Group's buildings and office properties.

3.9. Investment Properties

Investment properties are properties held to earn rentals and / or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 40 requirements for cost model. Investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any

The Group depreciates building component of investment property over 40 years from the date of original purchase.

The Group, based on technical assessment made by technical expert and Management estimate, depreciates the building over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The Management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Though the Group measures investment properties using cost-based measurement, the fair value of investment properties are disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model recommended by the International Valuation Standards Committee.

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

3.10. Other Intangible Assets

3.10.1. Recognition

Intangible assets that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses, if any. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the tax authorities), and any directly attributable expenditure

on making the asset ready for its intended use and net of any trade discounts and rebates.

Intangible assets, with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives of four years.

Computer software, except standard utility software packages which are not integral part of the hardware are classified as Intangible assets.

3.10.2. Derecognition of intangible assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss when the asset is derecognized.

3.11. Impairment of non-financial assets

At the end of each reporting period, the Group reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs. Corporate assets are also allocated to individual cash generating units when a reasonable and consistent basis of allocation can be identified, or otherwise corporate assets are allocated to the smallest Group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

The Group assesses whether climate risks, including physical risks and transition risks could have a significant impact.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in statement of profit and loss.

3.12. Inventories

Raw materials, Components, Work-in-Progress, finished goods

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

and Stock-in-trade are valued at lower of cost and net realizable value. Cost is ascertained on FIFO basis. Cost includes direct materials and where applicable direct labor costs and overhead costs that have been incurred in bringing the goods to the current location and condition. Work-in-progress and finished goods include appropriate proportion of overheads and where applicable.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

3.13. Provisions and contingent liability

Provisions are recognized when the Group has a present obligation as a result of a past event that it is probable will result in an outflow of economic benefits that can be reasonably estimated.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

Provisions, contingent liabilities are reviewed at each Balance Sheet date.

3.14. Investment in subsidiaries

A subsidiary is an entity that is controlled by another entity. Investment in its subsidiary are carried at cost less impairment, if any.

The Group reviews its carrying value of investments carried at cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is recorded in the Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the Investment is increased to the revised estimate of its recoverable amount, so that the increased carrying

amount does not exceed the cost of the Investment. A reversal of an impairment loss is recognised immediately in Statement of Profit or Loss.

3.15. Financial instruments

Financial instruments are recognised when the Group becomes a party to the contract that gives rise to financial assets and financial liabilities. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

Financial Assets

Financial assets at amortised cost

A 'financial asset' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Group. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. The Group's financial assets at amortised cost includes loans, trade receivables, cash and cash equivalents, bank balance other than cash and cash equivalent and security deposits included under other financial assets.

Financial assets at fair value through OCI (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss.

Impairment of financial assets

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

The Group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The amount of ECLs (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recorded is recognized as an impairment loss or gain in statement of profit and loss

Financial liabilities

Financial liabilities at amortised cost

This is the category most relevant to the Group. After initial recognition, such financial liabilities are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. The Group's financial liabilities at amortised cost includes lease liabilities, trade payables and employee payables included under other financial liabilities.

Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

3.16. Cash flow statement

Cash flows are reported using the indirect method, whereby

profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

Cash for the purpose of cash flow statement comprises cash on hand and demand deposits with banks. Cash equivalents are short term (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.17. Dividend

The Group recognises a liability to make cash distributions to equity holders of the Group when the distribution is authorised, and the distribution is no longer at the discretion of the Group. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Group's Board of Directors.

3.18. Segment reporting

Operating segments are components of the Group whose operating results are regularly reviewed by the Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

Manufacturing and selling of foundry machinery and machinery parts is identified as single operating segment for the purpose of making decision on allocation of resources and assessing its performance (refer note 38).

3.19. Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit/(loss) per share.

3.20. Events after the reporting period

If the Company receives information after the reporting period, but prior to the date of approved for issue, about conditions that existed at the end of the reporting period, it will assess whether the information affects the amounts that it recognises in its consolidated financial statements. The Company will adjust the amounts recognised in its

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

consolidated financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Company will not change the amounts recognised in its consolidated financial statements but will disclose the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an estimate cannot be made, if applicable

3.21. Changes in accounting policies and disclosures

New and amended standards.

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. 01 April 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its consolidated financial statements

3.22. Climate-related matters

The Group considers climate-related matters in estimates and assumptions, where appropriate. This assessment includes a wide range of possible impacts on the Group due to both physical and transition risks. Even though the Group believes its business model and products will still be viable after the transition to a low-carbon economy, climate-related matters increase the uncertainty in estimates and assumptions underpinning several items in the financial statements. Even though climate-related risks might not currently have a significant impact on measurement, the Group is closely monitoring relevant changes and developments, such as new climate-related legislation. The items and considerations that are most directly impacted by climate-related matters are:

- Useful life of property, plant and equipment. When reviewing the residual values and expected useful lives of assets, the Group considers climate-related matters, such as climate-related legislation and regulations that may restrict the use of assets or require significant capital expenditures.
- Impairment of non-financial assets. The value-in-use may be impacted in several different ways by transition risk in particular, such as climate-related legislation and regulations and changes in demand for the Group's products.

3.23. Standards notified but not yet effective.

There are no standards that are notified and not yet effective as on the date.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

CIN: L85110KA1984PLC006116

(All amounts in Indian Rupees Millions, unless otherwise stated)

Fair value of the Company's investment property :

The Group's investment property consists of three office spaces located at Pune, Kolkata and New Delhi, a freehold land and a factory building located in Hosakote Industrial area, Karnataka. The Management has determined that the investments property consists of two classes of asset, "Freehold Land" and "Building (which includes three office spaces and a factory building)" based on nature, characteristics and risks of each property.

As at March 31, 2025, the fair values of three office spaces are Rs. 60.8 Million (March 31, 2024 : Rs.56.2 Million), a factory building Rs. 56.4 Million and a freehold land Rs. 260.0 Million. Fair valuation of Investment Properties as at March 31, 2025 has been arrived at on the basis of valuation carried out by an independent valuers not related to the Group. The valuers are registered with the authority which governs the valuers in India, and in the opinion of the Management, valuer has appropriate qualifications and relevant experience in valuation of properties.

Fair value hierarchy disclosures for investment properties have been provided in Note 36.

The Group has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

The aforesaid freehold land and factory building is currently vacant. The Group is not using this vacant freehold land and factory building for its own use. The Group has held the Freehold Land and Building for undetermined future use, hence, the property is treated as Investment Properties.

Description of valuation techniques used and key inputs to valuation on investment properties:

Investment properties	Valuation technique	Significant unobservable Inputs	Range (weighted average)	
			As at March 31, 2025	As at March 31, 2024
Buildings				
Office Buildings	Comparison method under market approach (refer 'a' below)	Market Rate (Rs. per sq. ft)	Rs. 15,550 to Rs. 25,000	Rs. 14,750 to Rs. 23,000
Factory Building	Depreciated replacement cost method under cost approach (refer 'b' below)	Depreciated Replacement Cost (Rs. per sq. ft)	Rs. 1,085 per sq. ft.	NA
Freehold Land				
Freehold Land	Comparison method under market approach (refer 'a' below)	Market Rate (Rs. per sq. ft)	Rs. 1,290 to Rs. 1,300 per sq.ft.	NA

(a) Under the market approach, the fair value for Office buildings and Freehold land is determined based on the market survey and enquiries, depending upon various comparable factors such as permissible usage, size, shape, location, abutting road, marketability, demand and supply of similar properties in the said locality.

(b) Under the cost approach, fair value was determined based on depreciated replacement cost of buildings on the basis of current cost per square feet and rate of depreciation based on age/effective age, total useful economic life, balance useful economic life, observed wear and tear, the condition of the property.

(a) Trade receivables are non-interest bearing and are generally on terms of 30 to 60 days. During the year ended, March 31, 2025, Rs 0.6 Million (March 31, 2024: Rs 8.1 million) was recognised as provision for expected credit losses on trade receivables.

(b) Contract assets relates to revenue earned from Supervision services for erection and commissioning. As such, the balances of this account vary and depend on the number of ongoing contracts at the end of the year.

The transaction price allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) for contract assets is expected to be recognised within one year.

(c) Advances from customers include short-term advances received to deliver machinery equipment's, and loyalty points not yet redeemed. The outstanding balances of these accounts increased in 2024-25 due to the continuous increase in the Group's customer base.

The amount of revenue recognised in the current year of Rs 822.1 Million (March 31, 2024: Rs 705.4 Million) that was included in the opening advance from customer balance towards unsatisfied performance obligation.

(vi) **Performance obligation**

Information about the Group's performance obligations are summarised below:

Sale of manufactured machinery

The performance obligation is satisfied upon dispatch of the machines or sub-machines (part of larger machineries) and payment is generally collected in advance.

In some contracts, supervision services for erection and commissioning are agreed to be provided to customers as a part of sale of manufactured machinery. The supervision services are accounted for as a separate performance obligation and a portion of the transaction price is allocated. The performance obligation for the supervision services is satisfied over one-year based on time elapsed.

Sale of traded and manufactured parts of machinery

The performance obligation is satisfied upon delivery of the spare parts and payment is generally due within 30 to 60 days from delivery.

Customers are entitled to loyalty discounts which results in allocation of a portion of the transaction price to the loyalty discounts. Revenue is recognised when the loyalty discount is redeemed.

In addition, the Group updates its estimates of the loyalty discount that will be redeemed on a quarterly basis and any adjustments to the contract liability balance are charged against revenue.

32 EARNINGS PER SHARE (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the Group by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the parent by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

The following table reflects the income and share data used in the basic and diluted EPS computations:

33 EMPLOYEE BENEFIT OBLIGATIONS

As per Ind AS 19 "Employee Benefits", the disclosures of Employee benefits as defined in the Accounting Standard are given below:

The Group has one post-employment funded plans, namely Gratuity.

The gratuity plan is governed by the Payment of Gratuity Act, 1972 (Act). Under the Act, an employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age. Gratuity being administered by a Trust is computed as 15 days salary, for every completed year of service or part thereof in excess of 6 months and is payable on retirement/termination/resignation. The Gratuity plan for the Group is a defined benefit scheme where annual contributions as demanded by the insurer are deposited to a Gratuity Fund established to provide gratuity benefits. The Fund has taken a Scheme of Insurance, whereby these contributions are transferred to the insurer. The Group makes provision of such gratuity asset/liability in the books of accounts on the basis of actuarial valuation as per the projected unit credit method.

IV. Investment details:

Particulars	%invested as at Year ended March 31, 2025	%invested as at Year ended March 31, 2024
Investment with insurer (Investment in Policy of LIC)	100%	100%

V. The Principal assumption used in determining gratuity obligations are as follows:

Particulars	Gratuity	
	For the Year ended March 31, 2025	For the Year ended March 31, 2024
Mortality Table	2012-14 (IALM)	2006-08 (IALM)
Discount Rate (per annum)	6.60%	7.20%
Expected Return on plan assets (per annum)	6.60%	7.20%
Rate of escalation in salary (per annum)	8.00%	8.00%

Estimates of future salary increases considered in actuarial valuation take account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

These plans typically expose the Group to actuarial risks such as interest rate risk and salary risk.

- Interest risk: a decrease in the bond interest rate will increase the plan liability.
- Salary risk: the present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, a variation in the expected rate of salary increase of the plan participants will change the plan liability.

VI. Sensitivity Analysis

Significant actuarial assumptions for the determination of defined obligation are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	Gratuity	
	Year ended March 31, 2025	Year ended March 31, 2024
Impact in present value of defined benefit obligation:		
If discount rate is increased by 0.5%	(2.6)	(2.5)
If discount rate is decreased by 0.5%	2.7	2.6
If salary escalation rate is increased by 0.5%	2.4	2.3
If salary escalation rate is decreased by 0.5%	(2.4)	(2.3)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognized in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

VII. Asset Liability Matching Strategies

The Group has purchased insurance policy, which is basically a year-on year cash accumulation plan in which the interest rate is declared on yearly basis and is guaranteed for a period of one year. The Insurance Company, as part of the policy rules, makes all of the gratuity payments happening during the year (subject to sufficiency of funds under the policy). The policy thus mitigates the liquidity risk. However, being a cash accumulation plan, the duration of assets is shorter compared to the duration of liabilities. Thus, the Group is exposed to movement in interest rate (in particular, the significant fall in interest rates, which should result in a increase in liability without corresponding increase in the asset).

VIII. Effect of Plan on Entity's Future Cash Flows

(i) Funding arrangements and Funding Policy

The Group has purchased an insurance policy to provide for payment of gratuity to the employees. Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Group. Any deficit in the assets arising as a result of such valuation is funded by the Group.

(ii) Expected contribution during the next annual reporting period

The Group's best estimate of Contribution during the next year is Rs. 17.1 Million (March 31, 2024: 9.1 Million)

IX. Expected outflow in future years (as provided in actuarial report)

Particulars	Gratuity	
	Year ended March 31, 2025	Year ended March 31, 2024
Year 1	17.1	9.1
Year 2	11.1	15.8
Year 3	15.1	9.2
Year 4	22.1	9.0
Year 5	13.5	11.6
Year 6 to 10	60.2	48.8

The average duration of the defined benefit plan obligation at the end of the reporting period is 5 years (March 31, 2024: 6 years).

2. Defined Contribution Plans.

The Group has no obligation, other than the contributions payable to the below mentioned fund. Contribution of Defined Contribution Plan, recognized as expense for the year are as under:

Particulars	Year ended March 31, 2025	Year ended March 31, 2024
Employer's Contribution to Provident Fund	17.4	17.7
Employers' Contribution to Superannuation Fund	7.3	7.7
Employers' Contribution to ESIC	-	0.1

34 CAPITAL AND OTHER COMMITMENTS

Particulars	Year ended March 31, 2025	Year ended March 31, 2024
Estimated amount of contracts remaining to be executed on capital accounts not provided for	63.7	1.3

35 CONTINGENT LIABILITIES

Particulars	Year ended March 31, 2025	Year ended March 31, 2024
Claims against the Group not acknowledged as debt		
Income tax (refer note (i))	10.8	10.8
CST/VAT [Rs 2.3 Million (March 31, 2024: Rs. 2.3 Million) paid under protest] (refer note (ii))	-	6.6

- (i) The Group is contesting the tax litigations in respect of income tax matters for the years FY 2011-12 and FY 2012-13 for disallowances made by the tax authorities. The Management, including its tax advisors, believes that it's position will likely to be upheld at the various forums where the matters are pending. The Group has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in its consolidated financial statements. The Group does not expect the outcome of these proceedings to have a materially adverse effect on its financial position.
- (ii) The Group is contesting disallowances made by the tax authorities for CST/VAT matters for the FY 2012-13 where the demand is for non-filing of C forms. During the year ended March 31, 2025, the Management as a practice of abundance caution has created a provision against the demand.

36 FINANCIAL INSTRUMENTS

(i) Financial Instruments by category

Particulars	Note	Carrying Value		Fair Value	
		Year ended March 31, 2025	Year ended March 31, 2024	Year ended March 31, 2025	Year ended March 31, 2024
(A) Financial assets					
Measured at amortised cost					
(a) Trade receivables	12	426.7	309.7	426.7	309.7
(b) Other financial assets	8	288.6	30.4	288.6	30.4
(c) Cash and cash equivalents	13a	230.3	75.1	230.3	75.1
(d) Bank balance other than cash and cash equivalent	14	1,871.2	2,310.7	1,871.2	2,310.7
		2,816.8	2,725.9	2,816.8	2,725.9
(B) Financial liabilities					
Measured at amortised cost					
(a) Trade payables	18	560.8	462.0	560.8	462.0
(b) Lease liability	42	7.5	19.4	7.5	19.4
(c) Other financial liabilities	19	94.1	68.5	94.1	68.5
		662.4	549.9	662.4	549.9

The Management assessed that the fair value of cash and cash equivalents, other bank balances, trade receivables, loans, other financial assets, trade payables and other financial liabilities approximate the carrying amount largely due to short-term maturity of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

(ii) Fair value hierarchy:

Fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Particulars	Date of Valuation	Fair value measurement using			
		Total	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs level 3)
Assets for which fair values are disclosed:					
Financial assets (Note 5)					
Office buildings	March 31, 2025	60.8	-	-	60.8
	March 31, 2024	56.2	-	-	56.2
Factory building	March 31, 2025	56.4	-	-	56.4
	March 31, 2024	NA	-	-	NA
Freehold land	March 31, 2025	260.0	-	-	260.0
	March 31, 2024	NA	-	-	NA

As on March 31, 2025 and March 31, 2024, the Group does not hold any financial instruments which are measured at fair value. Therefore, disclosure under fair value is not applicable to the Group.

(iii) Financial risk management

The Group's principal financial liabilities comprise of trade payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include loans, trade receivables, and cash and cash equivalents that derive directly from its operations.

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. The Group's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The market risk to the Group is mainly due to foreign exchange exposure risk, Interest rate risk and other price risk. The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer. The Group's risk management activity focuses on actively securing the Group's short to medium-term cash flows by minimising the exposure to volatile financial markets. Long-term financial investments are managed to generate lasting returns. The Group does not actively engage in the trading of financial assets for speculative purposes. The most significant financial risks to which the Group is exposed are described below.

(A) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risks: interest rate risk, currency risk and other risk. Financial instruments affected by market risk includes trade payable, trade receivable, bank deposits, loans and advances.

a) Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Since the Group has interest bearing bank deposits which are carrying fixed rate of interest, the exposure to risk of changes in market interest rates is minimal. The Group has not used any interest rate derivatives.

b) Foreign Currency Risk

Foreign Currency risk is the risk that the fair value of future cash flows of an exposure will fluctuate due to changes in foreign exchange rates. The Group does not enter into any derivative instruments for trading or speculative purposes.

The carrying amount of the Group Foreign Currency denominated monetary items are as follows:

Particulars	Year ended March 31, 2025	Year ended March 31, 2024
Liabilities		
EURO	261.7	171.2
USD	9.2	18.2
Total Liabilities	270.9	189.4
Assets		
EURO	14.9	78.4
USD	10.7	8.6
Total Assets	25.6	87.0

Foreign Currency sensitivity analysis

The Group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to Euro and US Dollar.

The following table details the Group's sensitivity to a 5% increase and decrease in the Rupees against the relevant foreign currencies. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes receivables and payable in currency other than the functional currency of the Group.

A 5% strengthening of the Rupee against key currencies to which the Group is exposed (net of hedge) would have led to additional gain in the Statement of Profit and Loss. A 5% weakening of the Rupee against these currencies would have led to an equal but opposite effect.

Analysis of 5% strengthening of the Rupee

Particulars	EURO Impact (net of tax)	
	Year ended March 31, 2025	Year ended March 31, 2024
Impact on profit or loss for the year	(9.2)	(3.5)
Impact on total equity as at the end of the reporting period	9.2	3.5

Particulars	USD Impact (net of tax)	
	Year ended March 31, 2025	Year ended March 31, 2024
Impact on profit or loss for the year	0.1	(0.4)
Impact on total equity as at the end of the reporting period	(0.1)	0.4

c) Commodity price risk

The Group is affected by the price volatility of certain commodities. Its operating activities require the ongoing manufacturing of OEM products, and therefore require a continuous supply of steel.

(B) Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Group only deals with parties which has good credit rating/ worthiness given by external rating agencies or based on Groups internal assessment.

(a) Trade receivables management

The Group has used a practical expedient by computing the expected credit loss allowance for trade receivable based on a provision matrix. The Provision The reversal/allowance for life time expected credit loss on customer balances for the year ended is disclosed in Note 12.

(b) Financial instrument and bank deposits

Credit risk from balances with banks is managed by the Group in accordance with its policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty.

(C) Liquidity Risk

Liquidity risk refers to the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The objective of liquidity risk management, is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group generates cash flows from operations to meet its financial obligations, maintains adequate liquid assets in the form of cash & cash equivalents.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual payments:

Particulars	Less than 1 year	Between 1 to 5 years	Over 5 years	Total
As at March 31, 2025				
Trade payables (Refer Note 18)	560.8	-	-	560.8

Lease liability	13.3	7.8	-	21.1
Other financial liabilities (Refer Note 19)	68.5	-	-	68.5

(iv) Capital management

For the purpose of the Group's capital management, capital includes issued equity capital, convertible preference shares, securities premium and all other equity reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to maximise the shareholder value. The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants.

Particulars	Year ended March 31, 2025	Year ended March 31, 2024
Borrowings	-	-
Less: cash and cash equivalents	230.3	75.1

Note: The above is determined to the extent such parties have been identified on the basis of information collected by the Management and this has been relied upon by the auditors.

- 4¹** The Group has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under Sections 92-92F of the Income-tax Act, 1961. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Group is in the process of updating the documentation for the international transactions entered into with the associated enterprises during the financial year and expects such records to be in existence latest by within due date of filing the Return of Income as required under law. The Management is of the opinion that its international transactions are at arm's length so the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.

4² LEASES

Group as a lessee

The Group has entered into property lease for office space. This lease is for a period of five years. The Group's obligations under the lease is secured by the lessor's title to the leased assets.

(All amounts in Indian Rupees Millions, unless otherwise stated)

The Group had total cash outflows for leases of Rs 13.3 Million in March 31, 2025 (Rs. 12.3 Million in March 31, 2024). The Group also had no non-cash additions to right-of-use assets and lease liabilities for the year ended March 31, 2025 and March 31, 2024. There are no future cash outflows relating to leases that have not yet commenced.

The Group has no lease contracts that contains variable payments

The Group has a lease contract that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Group's business needs. Management exercises significant judgement in determining whether these extension and termination options are reasonably certain to be exercised.

Group as a lessor

The Group has entered into operating leases on its investment property portfolio consisting of office buildings (see Note 5). These leases have terms up to five years. All leases include a clause to enable upward revision of the rental charge on an annual basis according to prevailing market conditions. The lessee is also required to provide a residual value guarantee on the properties. Green Commitment: Tree Plantation Drive

Norican Group

Shaping Industry

Reinforcing our belief and commitment that real sustainability begins at the grassroots, we continue to dedicate ourselves to restoring green cover through meaningful action. As part of our five-year pledge to plant 5,000 trees by 2027, we planted 2,000 additional native saplings this year—bringing the total to 4,000.

What started as barren land is steadily transforming into a self-sustaining forest ecosystem, deepening our engagement with the environment and the communities we proudly serve.

Milestone Achievement: Simpson Multi-Cooler Launch

We marked a proud moment in DISA India's journey with the successful technology transfer and launch of the first-ever SIMPSON Multi-Cooler built in India. This achievement is a testament to our commitment to localizing global excellence and delivering trusted, high-performance solutions to foundries worldwide.

IFEX 2025: A Showcase of Innovation

Norican Group

Shaping Industry

IFEX 2025 was a vibrant display of DISA India's technological depth and customer-centric innovation. Our booth was abuzz with excitement as visitors explored a wide array of castings produced on our DISA machines, experienced the Made-in-India Simpson Multi-Cooler, discovered Wheelabrator's advanced TITAN Wheel technology, engaged with our TAG digital solutions and Full-Service Aftermarket offerings.

The enthusiastic response from visitors and customers reaffirmed our commitment to creating long-term value—not just through machines or parts, but by building complete lifecycle partnerships that support their success at every stage.

Customer Symposium : Crafting the Future of Non-Ferrous Moulding

In line with our commitment to delivering value and exceeding customer expectations, our Customer Symposium in Moradabad—India's brass hub—brought together stakeholders from the non-ferrous casting and forging sectors to discuss the future of precision and productivity.

By showcasing DISA's advanced moulding technologies and Norican Group's comprehensive solutions, the event sparked meaningful conversations around productivity, quality, and innovation. It reinforced our role in shaping the future of the industry and deepened engagement with a key customer segment.

Shaping the Future of the Foundry Industry through Education

At DISA India, we believe that shaping the future of the foundry industry begins with empowering its next generation. As part of our CSR commitment and dedication to industry development, we have partnered with the National Institute of Advanced Manufacturing Technology (NIAMT), Ranchi (formerly NIFFT), to support bright young minds aspiring to lead in manufacturing.

Through the "Jan Johansen DISAMATIC Scholarship", we proudly recognize and support the top 10 meritorious students each year, enabling them to pursue academic excellence and industry-relevant skills. This initiative reflects our enduring commitment to nurturing talent and building a strong, skilled workforce for tomorrow's foundries. In FY 2024–25, we contributed 0.75 million, reinforcing our commitment to shaping the next generation of skilled manufacturing professionals.
