Vertical Integration

Backward Integrated through Italy & Dahej Facilities for captive consumption and for Downstream Progression

From Source, to Quality Solutions

- Efforts in both organic and inorganic expansions, showcases company's commitment to fortifying position in the market
- Strategic focus on captive consumption ensures utilization of raw materials for downstream products
- Strategic forward integration into Blends and Vanillin swings company's business model to high-value additives / solutions

Green Chemistry

Green chemistry goals at CFS

- Promoting use of energy-efficient processes
- Minimizing the generation of waste during chemical
- Synthesis Supporting end consumers clean-label demands

The integration of green chemistry encompasses the following

- Finding ways to adopt new ecosystems to include new materials, processes, and alternatives to nature's finite resources like briquette instead of coal as an energy source
- Solvent, one of the largest waste components in the manufacturing process is recovered, purified and repurposed for manufacturing process
- Through fermentation technology, company work on developing products like nutritional lipids in a sustainable form for the food and beverage, pet food, and animal nutrition industries

Exploring new horizons

- Add value to existing products
- Integrate customized, enhanced applications
- Develop derivatives for Hydroquinone and Catechol
- Improve current process for efficient manufacturing and better products
- Develop new products for a more comprehensive and robust portfolio

Innovative Solution

Expanding Innovative Solutions

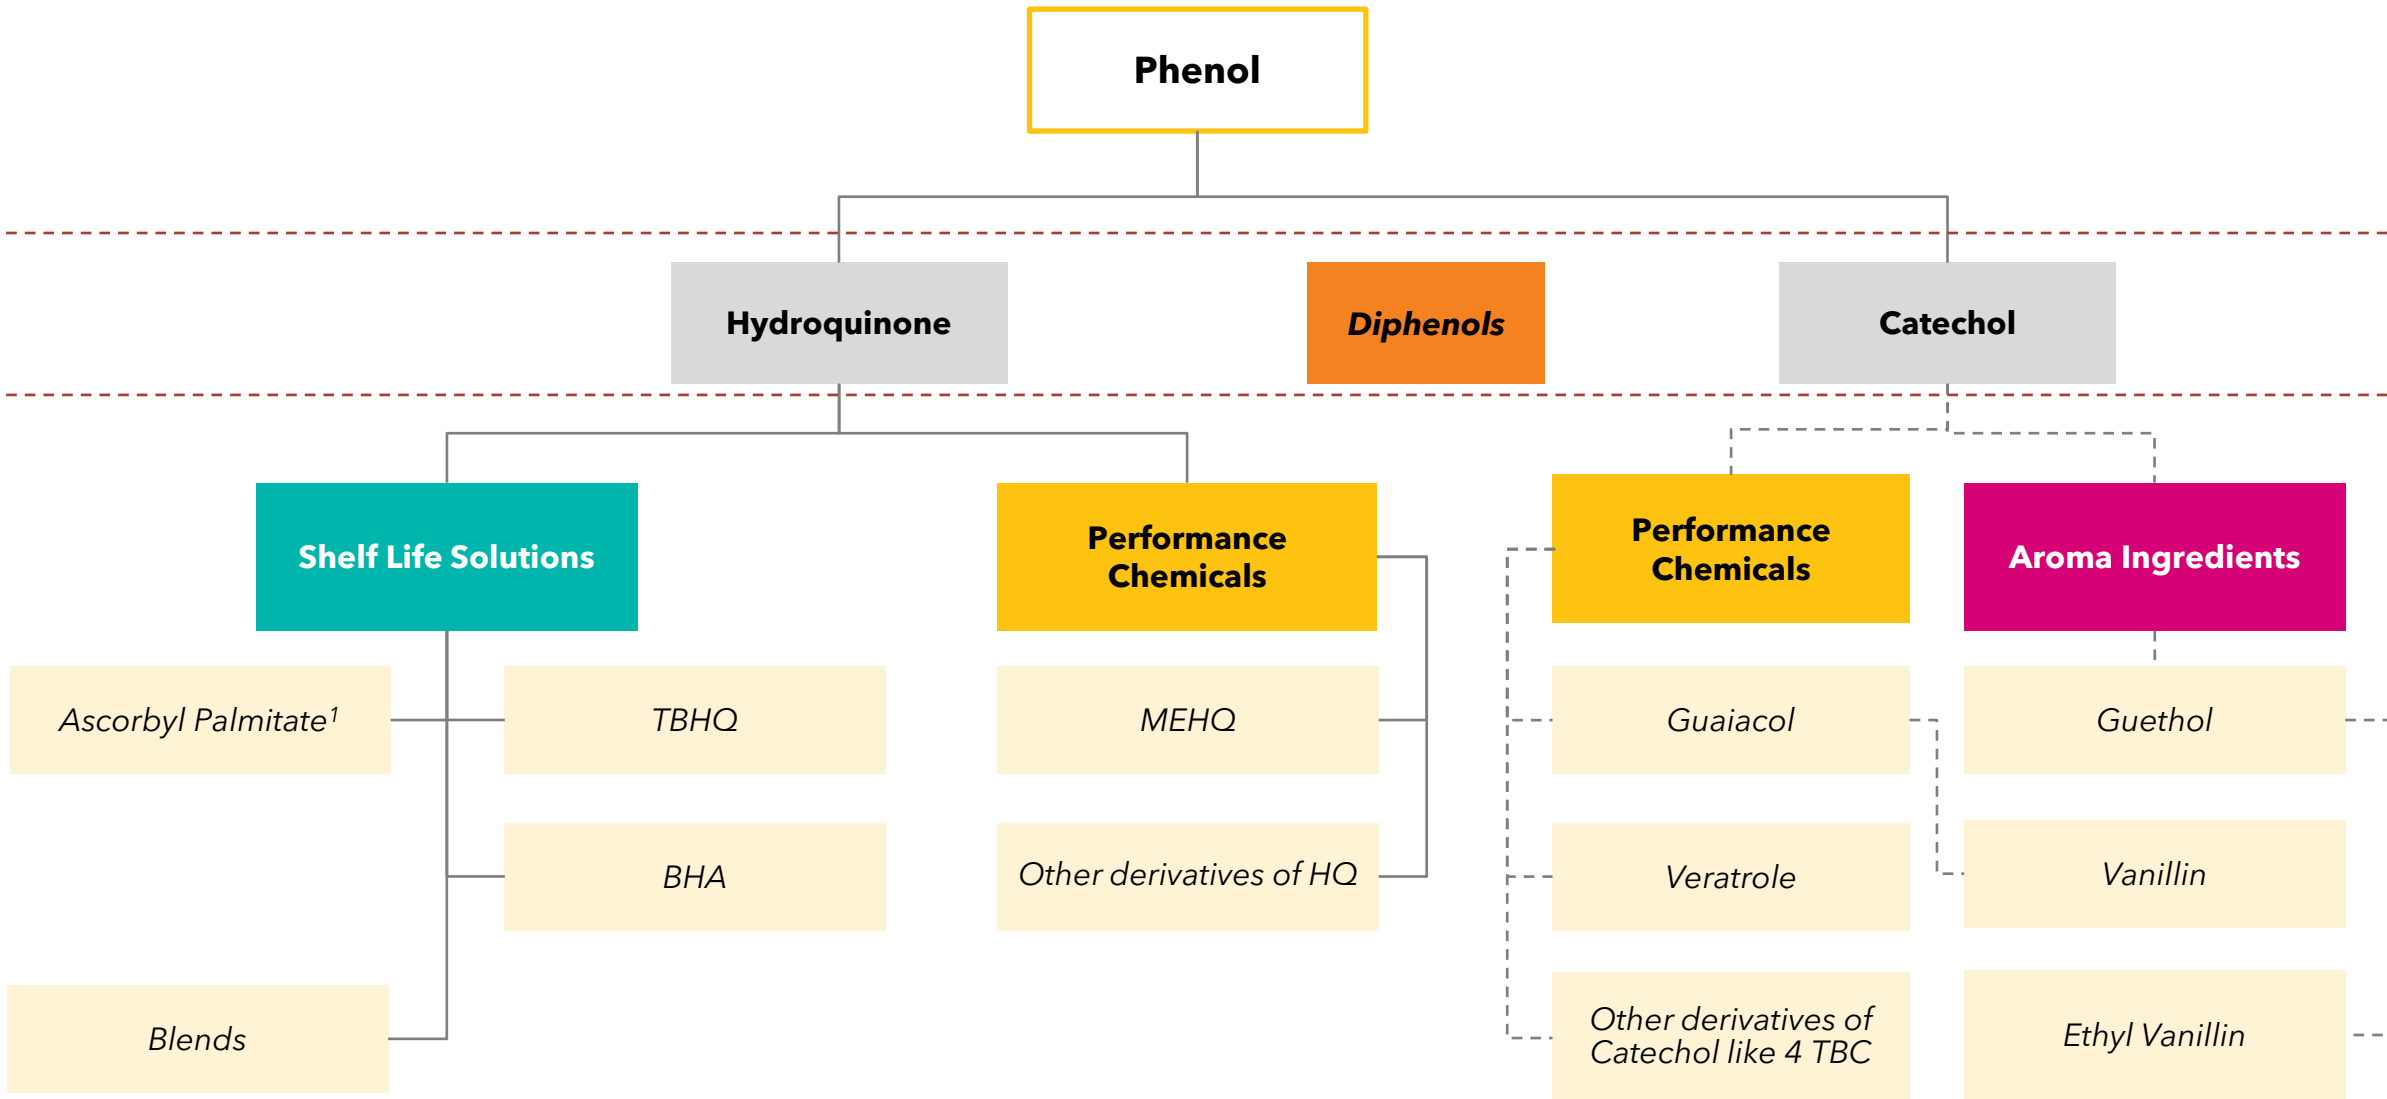

Building a purposeful portfolio

- Establishing CFS as a strong player across food and feed protection, safety solutions, sensory sciences, functional excellence, performance chemicals, health and nutrition
- Vertically integrated across the value chain, giving customers complete control
- An extensive global footprint enabling us to make a localized impact through enhanced accessibility, customer convenience, and a wide array of sustainable solutions

Integration Chain

Manufactured In-house

¹ Ascorbyl Palmitate is not a part of HQ / Catechol value-chain and is manufactured from ascorbic acid

Way Forward

Shelf-Life Solutions

- Maintaining market leadership for Antioxidants
- Increasing focus on high margin blends and additives. These formulations are specifically tailored to meet the diverse needs of the industry
- Widen portfolio to provide a comprehensive solution for the food, pet food, biodiesel, livestock and aquaculture industries

Performance Chemicals

- Aim to expand Diphenol chain, specifically focusing on expanding downstream products
- Introduction of new products like CME, Chloranil, Napthol etc.
- Increasing manufacturing capacity of existing products through debottlenecking (MEHQ)
- Aim to give a major impetus to the 'Make in India' initiative by launching exciting products

Aroma Ingredients

- Introduce specialized and customized products within the vanillin range, catering to diverse application needs
- Actively pursuing an expansion in the aroma industry
- The production of Ethyl Vanillin and vanillin ex-clove (natural vanillin) completes comprehensive range of Vanillin offerings for the market
- Poised to achieve optimum capacity utilization in coming years

Health and Wellness

- Improving process stability, laying the framework for expanding into new markets, and investigating potential applications in existing ones are currently top priorities for Biosus™ DHA
- Aim is to establish a formidable presence in prominent markets such as Europe and the United States.
