15% of Q4 sales comprised of completed and nearing completion category and the balance from ongoing projects and new launches.

With a focussed outlook towards project delivery and execution, our foray into newer construction technologies like Precast, Plasmolite and Plaswall have further strengthened our quality and would shorten project cycle times.

### **New Launches:**

Our new launches of Purva Westend and Purva Palm Beach under the Puravankara brand have met with an excellent response with both having sold over 60% of the launched area.

Our aggressive marketing efforts are yielding results by tapping into the demand for the ready-to-move-in category, as is evident from the consistent sales in this category over the last few quarters.

Both the brands, Puravankara and Provident will see several new projects launched across varied geographies in FY14-15.
