In this annual report we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make contain forward looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expect', 'project', 'intend', 'plan', 'believe' and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward looking statements will be realised, although we believe we have been prudent in assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

# Growing The Future

The importance of quality seeds for improving agriculture yield has been recognized from time immemorial.

The Kaveri Seed Company's firm conviction is that future of agriculture is destined in the seed. Quality seed produced through innovative research is an important contributor for improvement of agriculture and global food security. Organised production of superior quality seed for the benefit of the farmers is the business motto of Kaveri Seeds since its inception. The company has come a long way to become one of the fastest growing hybrid seed companies in India with consistence in growth in all key indicators such as revenue, profit & market share.

The Kaveri Seed Company's firm conviction is that future of agriculture is destined in the seed. Quality seed produced through innovative research is an important contributor for improvement of agriculture and global food security.

The importance of quality seeds for improving agriculture yield has been recognized from time immemorial.

The company has been able to augment growth with focus on R&D based product development, structured business coupled with quality seed production and distribution network. The flagship seed brands of the company have been able to deliver the desired brand expectation to farmers through increased farm yields, resistance to pests and tolerance to adverse climatic conditions.

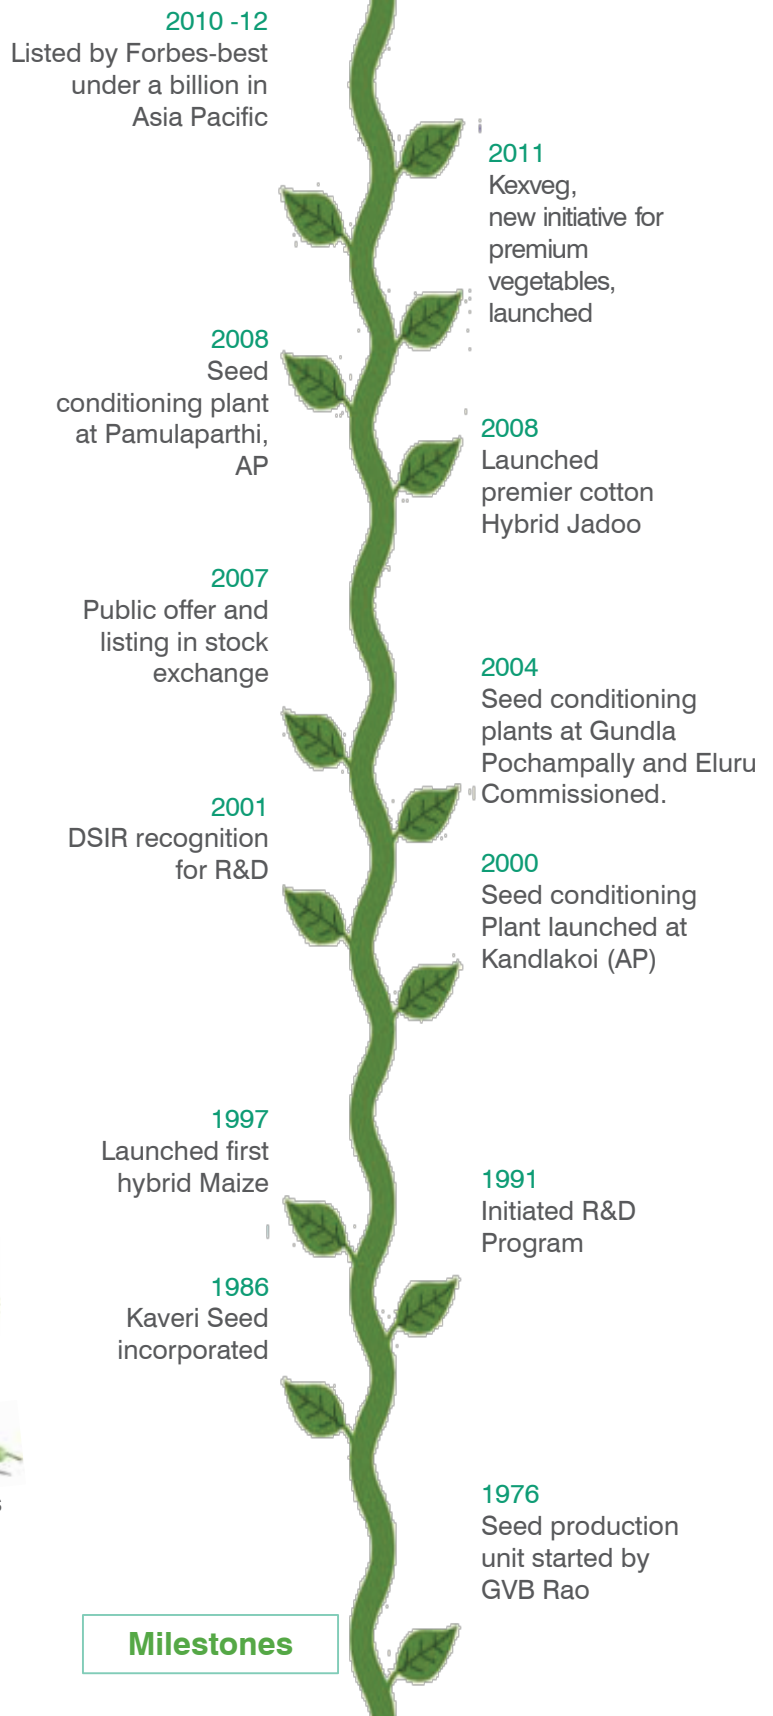

Annual Report 2013-14 reflects our commitment and responsibility to report the progress towards growing the future with value for all our stakeholders i.e. farmers, investors, customers, employees, and business partners.

## Who we are

Kaveri Seed Company is a premium seed company engaged in the production and distribution of high quality hybrid seeds. The Kaveri saga began in 1976 when Mr.G.V.Bhaskar Rao, a young agriculture graduate, through his start-up – GVB Rao & Co. developed a proprietary corn hybrid which was an instant hit with the farmers owing to its improved yields. Encouraged with the success, the company got into large scale value breeding and registered as Kaveri Seed Company in 1986 and in 2007 got listed in stock exchange.

Kaveri Seeds is the second largest producer of hybrid cotton seeds in India with a y-o-y growth in its market share. Kaveri Seeds has over 60,000 acres of seed production, in states of Karnataka, Andhra Pradesh, Maharashtra, and Gujarat and across other locales of the country. The company has a pan-India presence with a strong distribution network of 15,000 distributors (direct & in-direct) and retailers across 15 key states in India. Kaveri has multiple warehouses at strategic location with a combined storage space of 500,000 sqft. The company has a dedicated marketing team of experienced professionals.

### Our Seed portfolio

## Research & Development

R&D of Kaveri unifies the best of traditional breeding with cutting edge biotechnology to make its research programmes unique and farmer centric.

With more than three decades in seed industry, the company's research and development efforts are focused on developing high yielding hybrid & varietal seed of field and vegetable crops.

R&D of Kaveri unifies the best of traditional breeding with cutting edge biotechnology to make its research programmes unique and farmer centric. The investment made in Biotechnology in the recent past has started paying off in terms of accelerating the breeding programmes of cotton, Corn and rice. DNA profiling of proprietary lines, use of DNA markers in genetic purity assessment and tracking the gene of interest in breeding material are some of the activities being pursued for gainful deployment of biotechnology tools in product development.

In order to retain the leadership position and further enhance it our R&D efforts are afoot to innovate and register more lines and hybrids.

In view of the enormous scope of Biotechnology applications in agriculture and agri business, the Kaveri Seed Company has forged ahead to invest liberally in establishing the state of the art Research and Development facilities managed by qualified and trained science managers.

During the product development seed trials are conducted under varied climatic conditions spread across the country.

**R&D Process@Kaveri**

India was the first country to produce hybrid cotton manually. The country currently hosts one third of the world acreage of cotton (~12 million ha).

Since 2006, it is the second largest producer of cotton and accounts for 21% of the global cotton production. FY14 is set to be the year of historically high cotton production in India. Despite the total area under cotton falling to 11.73 million ha in FY14 from 11.98 million ha in FY13, the average cotton yields per hectare have gone up by nine per cent i.e. 565.36 kg per /ha. The increase in productivity is primarily due to improved hybrids and use of quality seed.

## Hybrid Bt Cotton @ Kaveri

Though slightly late as licensee of the Bollgard Technology, Kaveri steered fast towards market success with two of its key cotton seed brands, 'Jaadoo' and Jackpot'. Kaveri trades different brands to cater different markets – Jaadoo and ATM in Maharashtra, ATM in Gujarat, and Jackpot in MP depending on the demand for the trait and specific adaption to the region.

## Cotton - Vision to be Market Leader

With phenomenal success with hybrid cotton, Kaveri plans to launch new hybrids to bag further market share and envisions to be the unmatched market leader.

Intense breeding efforts are underway at Kaveri to restructure the cotton plant fortified against sucking pests, leaf curl virus and to withstand the onslaught of abiotic stresses.

## Maize: Future perfect

Our R&D's thrust is on innovation. New technologies - Marker assisted recurrent selection and Doubled Haploid technology for accelerated development of inbreds are being seriously pursued

In India, maize ranks as the most important food & feed crop next to rice and wheat. Corn production has nearly doubled in the last one and half decades largely due to adoption of single cross hybrids. There is immense scope for further increase in India's maize production by breeding high yielding climate resilient hybrids tolerant to biotic and abiotic stresses . As a more profitable alternative maize can be cultivated by even small farmers in states like UP, Bihar, Andhra Pradesh and Karnataka.

### Maize@Kaveri

From its inception Kaveri pioneered production and sale of quality seed of hybrid maize. Accelerated investment on maize R&D, quality assurance, state of the art processing, and unmatched marketing capabilities helped the Company to bag a sizeable share in the present day market of maize. Based on National Evaluation process, five maize hybrids were released and notified by CVRC.

Four hybrids; are in test production and marketing. Kaveri's quest for enhancing the productivity of maize hybrids and stabilizing yields against the onslaught of wilt, drought and heat stress is yielding results. The R&D of Kaveri is partnering with CIMMYT Asia in a US AID supported project on Heat Tolerant Maize for Asia (HTMA) to evolve maize hybrids that beat the heat. Similarly a programme on breeding for drought tolerant maize-Marker -Assisted Dissection of "Genetic Basis of yield and improving yield potential under drought stress in maize supported by Biotechnology Industry Research Assistance Council (BIRAC) of Department of Biotechnology, Govt Of India is underway.

Our R&D's thrust is on innovation. New technologies - Marker assisted recurrent selection and Doubled Haploid technology for accelerated development of inbreds are being pursued seriously.

Hybrid rice has the potential to significantly increase rice yields to the tune of 15-20% by giving more output per unit cropped area. With its ability to give better yield per unit area it can also help in saving land, soil and water. However adoption of hybrid rice in India has been slow with a coverage of only about 5% (2 - 3 m.ha) of the total area planted under hybrid rice. The low rate of adoption in India is largely due to the grain quality unable to match the consumer's taste.

## Hybrid Rice @ Kaveri

At Kaveri hybrid rice is on the top of Company's growth agenda. Kaveri is investing in hybrid rice research in terms of human resource deployment as well as infrastructure. Through conjunct use of hybrid and biotechnologies- blending traditional breeding with genomics, the R&D of Kaveri is surging forward to breed the best of rice hybrids and varieties fortified with biotic stress resistance.

## Hybrid Rice: The next leg of growth

Gene pyramiding for resistance to diseases and insect pests in hybrids is being carried out under a programme supported by BIRAC (DBT). A major accomplishment in this direction is the development of bacterial leaf blight resistant rice hybrid with medium slender grain. The broad portfolio of paddy seeds includes varieties and hybrids. One of rice hybrids, KPH 460 ranked first in AICRIP trials for two consecutive years. Aside this, three more hybrids of different maturity and grain types are promoted for second year testing at all India level. Kaveri rice hybrid KPH 272 is found promising in National Aerobic trials and favour with farmers in various rice growing areas of the country.

One of the rice hybrids, KPH 460 ranked first in AICRIP trials for two consecutive years.

## Other Crops Growing to future

Beyond the three major crops- cotton, maize and rice, Kaveri has strengthened its seed portfolio with vegetable & other field crops.

Beyond the three major field crops- cotton, maize and rice, Kaveri has strengthened its seed portfolio of vegetable & other field crops too. Bajra, sunflower and jowar are the other field crops. Tomato, chilly, Brinjal, okra and gourds are the prominent vegetable seeds of Kaveri.

Bajra ranks third in area after rice and wheat in the country. Like jowar and maize, bajra too has high biomass but grows under most adverse agro climatic conditions. Being a rain fed crop, it thrives under extreme drought conditions when all others fail.

Adaptability to marginal lands and harsh ecology makes bajra a sought after crop in times of climate drift towards a warming world. Programmed breeding and product development efforts of the company over the years has yielded excellent hybrids of pearl millet with particular emphasis on resistance to drought, downy mildew and balancing productivity between grain and fodder. The company bred bajra hybrids Super Boss, Fouzi and KBH 563 are high yielders with attractive grain and drought enduring.

The area under jowar drastically dwindled during the last one and half decades. Nonetheless, the company continues to trade its best breed of sorghum hybrids- Colonel, White Pearl, KSH 95Y3 and KSH 361.

Sunflower is showing signs of positive growth in terms of seed demand. Development of short duration hybrids with reduced height and increased oil content with resistance to powdery mildew and bud necrosis virus has resulted in several pipeline hybrids undergoing evaluation and test marketing. Two pipeline hybrids KSFH 384 and KSFH 460 are in the advanced stage of testing in All India Coordinated Trials. KSFH 384 with high seed yield and volume weight is promising. This apart the already popular market brands -Sunkranti and Champ continue to contribute to the company's revenues.

Demand for vegetables nationwide, is increasing and concomitantly seed volume and value for business. In view of demand for higher quality and more variety in vegetables, Kaveri R&D is laying increased thrust on vegetable breeding with emphasis on tomato, hot pepper, brinjal, okra and to lesser extent on gourds. Tomato hybrids KTH 354 and KTH 304 and hot pepper hybrids KHPH 248, and KHPH 272 are in the market this year, with a good feedback for KHPH 272. The Company also introduced an eggplant hybrid KEPH 474 to the market during the year under report.

Success has also been achieved in commercialization of okra hybrids, Kaveri Nadiya KBH 909, KBH 916 and OP varieties Kaveri 49 and Kaveri 54 with some degree of resistance to yellow vein mosaic virus. Aside these, a number of gourds bred by the company are also being marketed are bitter gourd -Kaveri 67, Ridge gourd- Kaveri 63 and Kaveri 72, Bottle gourd - Nova

## Dear Shareholders,

The country has been making strides in agricultural production since last five decades by adopting high yielding varieties and hybrids developed through indigenous research and technology tie-ups.

We are growing on par with many developed countries in the use of improved seeds, crop protection and in partial farm mechanisation.

Nevertheless, the ever increasing demand for food in the backdrop of increasing cost of cultivation, depleting cultivable area, deteriorating soil health and climate change remain daunting tasks as ever. Majority of Indian farmers are still unable to harvest optimal yields and benefit from improved

varieties and agro technologies due to problems beset with unpredictable weather conditions, inappropriate use of agri inputs, and inaccessible extension services of agriculture value chain.

Quality seed and other inputs, diversification of crops, Soil health, irrigation, affordable mechanization, last but not the least, market linkages with proper remunerative price can make farming in India more sustainable.

For the country to achieve a GDP growth of 8%, it is estimated that agriculture sector to have a annual growth not less than 4% y-o-y basis. Greater synergy between National agricultural research system and private sector is required for surmounting the agrarian challenges being faced by the farming community.

### a) Our focus

Going down the memory I go back 30 years, when an experimental seed production of public-bred varieties of corn at our family farm laid the beginning of Kaveri. Since then the unique proposition of Kaveri has been research and innovation.

Today the cornerstone of our business is our experienced research team with expertise in crop breeding and biotechnology applications.

Today the cornerstone of our business is our experienced research team with varied exposures in plant biotechnology and best breeding practises.

The estimated contribution of quality seeds to the total production is 15-20% depending upon the crop. Our focus on research to develop quality seeds have enabled us to be one of the fastest growing seed companies in India. Our R&D based wide portfolio of high quality hybrids are able to improve farm yields and augment farmer's income.

## b) Our Performance

The Year 2013-14 had a good monsoon covering almost the whole country during the Kharif season. The seed industry on the whole had a good business year. Excess rains in the beginning of rabi, helped in increase of acreage of crops particularly Paddy & Pulses.

**We have renewed our leadership position in 2013-14 with our flagship brands in the key crops garnering a sizable market share.**

The company has already developed a large number of hybrids of field and vegetable crops – already marketed and at various stages of product development.

In our endeavour to grow in future, year 2013-14 has been significant with our continued growth in all key parameters. In FY14 Kaveri's revenues grew 41 per cent to Rs.100241 Lakhs, helped by growth in cotton, corn and paddy brands. Net profit jumped to Rs. 21056 Lakhs from Rs.12987 in FY14.

## c) Growth drivers

**Cotton:** Kaveri's key cotton seed brands, 'Jaadoo', Jackpot and ATM continue to garner performance based brand equity among farmers. Going beyond success of cotton seed, Kaveri plans to launch new hybrids to bag further market share and

consolidate leadership in the cotton seed business. Intense breeding efforts are underway at Kaveri to restructure the cotton plant and genetically fortify against sucking pests and leaf curl virus and to withstand the onslaught of abiotic stresses.

**Rice:** In F14 we further strengthened our R&D by investing in hybrid rice research in terms of human resources as well as infrastructure. Through conjunct use of hybrids and biotechnologies- blending traditional breeding with genomics, the R&D of Kaveri is surging forward to breed the best of rice hybrids and varieties insulated against biotic stresses. A major outcome of these efforts is the development of bacterial leaf blight resistant rice hybrid with medium slender grain. Two of our rice hybrids, KPH-371 and KPH-199 are notified recently.

**Maize:** Kaveri's quest for enhancing the productivity of maize hybrids and stabilizing yields against the onslaught of wilt, drought and heat stress is yielding results. The R&D of Kaveri is partnering with CIMMYT Asia in a US AID supported project on Heat Tolerant Maize for Asia (HTMA) to evolve maize hybrids that beat the heat.

Similarly a programme on breeding for drought tolerant maize- Marker -assisted dissection of genetic basis of yield and improving yield potential under drought stress in maize is being supported by Biotechnology Industry Research Council. Domestic maize demand is forecasted to grow by 36 per cent by 2017, and to double by 2022. Maize is one crop where SRR is low in certain states like Rajasthan, a state with large maize acreage. With right kind of hybrids these markets can grow exponentially in these states.

Looking ahead we envisage cutting edge innovation in seeds to be the main driving force in the growth of Indian agriculture. High-density cotton planting can increase cotton market further. Hybridization of rice just at 5% with immense scope to spread further and forecasted demand for maize to double in a decade are some of the opportunities for your seed company to grow in the future.

Your company will continue to make all efforts to deliver superior quality seeds to millions of farmers in India through our intense focus on farmer centric research and commercialisation of novel products.

I would like to thank all our stakeholders i.e farmers, investors, customers, employees, and business partners for their continued support to your Company's exciting journey of growing the future.

Sincerely,

**GV.Bhaskar Rao**

Indian seed Industry is one of the vibrant ones in the world. In value India is estimated at 12154 Cr. and 6th in rank after USA, China, France, Brazil and Canada.

## 1. Agriculture Economic Scenario

Over 3 billion people - half the world's population live in rural areas. Agriculture is the livelihood of approximately 2.5 billion of them.

With the world population growing @ 1% a year, an estimated 752 million people are going to be added by 2022 thus putting additional demand on food while the area for farming remains static.

Against this backdrop, it's imperative that the additional food needs be met from enhancing productivity.

For many emerging economies, especially those like India, agriculture is the engine of economic growth. Agriculture in most of the developing economies is known for the larger contribution to national GDP,

Whereas in case of developed economies percentage contribution of agriculture to the national GDP is inconspicuous. Experts believe that developing countries and emerging economies will play an increasingly important role in agricultural markets in near future.

### 1.1 Indian Agriculture Sector

With 179.9 m.ha. under plough, India has the second largest cropped area in the world. Majority of the Indian population relies on agriculture for employment and livelihood. Steady investments in technology development, quality inputs,

irrigation, infrastructure, emphasis on modern agricultural practices and provision of agricultural credit and subsidies are the major factors contributing to agriculture growth.

The country has emerged as a major player in the global agriculture market. Agriculture accounts for 14 per cent of gross domestic product (GDP) and 11 per cent of India's total exports; Currently, India is the world's largest rice exporter and second in wheat.

It is the second largest producer of cotton in the world after China accounting for about 18% of the world cotton production. Horticulture exports have also seen good growth. India's agro exports during 2013-14 touched US\$ 45 billion

## 2. Sectoral overview – Seeds:

As per the International Seed Federation estimates of 2013 the world seed market is assessed at 45 billion USD.

Indian seed Industry is one of the vibrant ones in the world. In value India is estimated at 12154 Cr. and 6th in rank after USA, China, France, Brazil and Canada. Indian seed industry is undergoing metamorphosis with increased role of private seed companies, entry of MNCs, joint ventures of Indian companies with multinational companies and a wave of consolidations. In value terms the major growth has come from the increased adoption of Bt cotton hybrids, single cross corn hybrids and hybrid vegetables.

### Area, Production and Yield of Major Crops in 2013-14 ( Economy Survey – Govt of India)

Commodity	Area	Production	Yield
Rice	43.9 (2.57)*	106.3 (1.05)*	2419 (-1.75)*
Maize	9.3 (6.90)	24.2 (8.52)	2602 (1.40)
Cotton	11.7 (-2.50)	36.5 (6.73)	529 (8.85)
Bajra	7.9 (8.22)	9.2 (5.75)	1161 (-3.09)

(Area: Million ha; Prod: Million tonnes; Yield: kg/ha) \*with Per Cent Change over 2012-13)

The volume growth is mainly through increased Seed Replacement Rate in crops like Paddy and Wheat. Indian seed industry is undergoing metamorphosis with increased role of private seed companies, entry of MNCs, joint ventures of Indian companies with multinational companies and a wave of consolidations.

## 2.1 Overview Major Crops.

FY14 is set to be the year of historically high cotton production in India. Despite the total planted area for cotton falling to 11.73 million ha in FY14 from 11.98 million ha in FY13, the average cotton yield per hectare has increased in FY14 by ninepercent.

India's maize production rose from 11.15 million tonnes in 2002-3 to 22.5 million tonnes in 2012-13. Majority of it is being used as animal feed, followed by industrial consumption of starch and other industrial products.

Hybrid paddy segment in India is highly underpenetrated with 5% area under hybrid paddy as compared to over 55% in China. Government subsidy programs are the main driver for this segment. Varied cooking quality tastes and wide ranging preferences from region to region makes hybrid rice breeding a hard task.

In FY14 horticulture production, estimated at 265 million tonnes, exceeded the production of food grains and oil seeds in FY13 owing to an 9.6% increase in productivity of horticulture crops between 2008-09 and 2012-13.

## 2.2 Seed Industry Outlook

Cotton, Maize and paddy are expected to be the main growth drivers.

The penetration of hybrid cotton in India is almost nearing saturation.

Further growth will be propelled by increased seed rate (high density planting). Cotton plant with compact plant type and synchronous bolls is the need for machine picking. Expansion of area under single cross maize hybrids may further boost production. It is anticipated that India's hybrid maize sector would double in the next three years, driven by demand from poultry and starch industry. The rising demand for corn as animal feed and food is the key contributor for maize hybrid penetration.

With ascendancy in income levels and lifestyle, the demand for vegetables is likely to go up concomitantly subscribing to the growth of vegetable seed market

In the near future, organised players and seed companies with a strong R&D and diversified portfolio of products are expected to reap the benefits.

## 2.3 Seed Exports:

Seed export from India is likely to double to reach Rs 1,000 crore mark in the next 2-3 years. Close to 100 varieties from India have been registered in the OECD list and Kaveri has many of its seed brands registered in OECD.

The listing is an offer from India to the members of OECD for evaluation and adaptation in their countries.

Currently, India exports Rs 400-450 crore worth of seeds. The exports are likely to go up as countries other than OECD members may also evince similar interest.

Seed export from India is likely to double to reach Rs 1,000 crore mark in the next 2-3 years. Close to 100 varieties from India have been registered in the OECD list.

### 3. Business Overview: Kaveri Seed Co Ltd

Kaveri Seed Company Ltd is not only a leading seed company engaged in the production and distribution of high quality hybrid seeds of field & vegetable crops but also micro nutrients and bio-products.

Over the years, the Company has created a robust portfolio of products encompassing commercial crops – cotton and sunflower; food crops – corn, rice, bajra and jowar; vegetables – tomato, okra and chilly. The Company’s premier cotton hybrids – Jaadoo, Jackpot, ATM and Singha are in the forefront of the cotton seed market and are highly sought after by farmers. These proprietary products from Kaveri have helped cotton farmers to fetch higher returns on investment. Additionally, the Company’s bajra hybrids – Super Boss and Fouzi with attractive grain colour grain

colour and capacity to withstand the onslaught of downy mildew are premium in the market.

#### 3.1 Research & Development

Kaveri has a large pool of elite crop germplasm- the genetic wealth of the company. The R&D of Kaveri focuses on market oriented & need based breeding programs resulting in highly successful commercial products. The R&D infrastructure includes a 600+ acres of owned as well as leased research farms and highly motivated team of scientists and technical personnel. The R&D is recognized by Department of Science & Technology, Government of India and collaborates with all the leading NARS research centres / SAUs and CGIAR Institutes -ICRISAT, IRRI, CYMMIT.

After scoring in Cotton seed trade, the company strongly believes that next leap comes from hybrid rice and maize. The acreage for hybrid paddy has doubled from 1 million hectares in 2006 to more than 2.5 million hectares in 2013.

It is well positioned to capitalize on the emerging opportunity with two of its rice hybrids recommended for release and others in the various stages of evaluation in National Trials.

In Maize, the Company from its inception pioneered production and sale of quality hybrid maize seeds. Accelerated investment on maize R&D, quality assurance, state of the art processing, and unmatched marketing capabilities helped the Company to be a significant player in maize.

## 4. Risk management

### a. Climate risk

Changing climate conditions such as continuous dry spell, or excessive rainfall may drastically impact commercial seed production of the Company.

The Company's diverse product portfolio of commercial crops (cotton and sunflower) food crops (corn, rice, and millets), vegetable crops and quantum of seed reserves help de-risk from any such contingency.

Further, the Company's hybrids with buffering capacity to withstand abiotic stresses help endure the weather aberrations.

### b. Competition risk

In business, competition from peers can impact the Company's trade. The Company's ability to innovate from long term investment in R&D for knowledge driven products and sustained quality assurance serve as forte to the Company's business. In addition, the Company's aggressive market network across the country help marketing the products across the country.

### c. Dependency risk

Dependency on any one particular product may affect the growth prospects of the Company. The Company's several wide ranging products in the market and in the assembly line minimize its dependency on any single hybrid or crop. In addition to this, the Company is refurbishing its products by phasing out extant and focusing on new and value added ones.

### d. Product life-cycle risk

Accelerated product innovation & development through technology advances is impacting the market life of a product. The Company's continuous investment in Research & Development and an array of new products in the assembly line helps to keep ahead of peers.

## 5. Internal Control system

The Company has in place adequate and appropriate systems of internal controls commensurate with its size and the nature of its operations that stood the test of time.

The systems have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information complying with applicable statutes and safeguarding assets from unauthorized use, executing transactions with proper authorizations and ensuring compliance of corporate policies. The internal audit is being carried out by a firm of Chartered Accountant having considerable expertise and experience.

**It is well positioned to capitalize on the emerging opportunity with two of its rice hybrids recommended for release and others in the various stages of evaluation in National Trials.**

The audit is carried on a monthly basis and monthly reports are submitted to the management. The Audit Committee reviews the internal audit reports, statutory audit reports, the quarterly and annual financial statements and discusses all significant audit observations and follow up actions arising from them. The auditors of the Company also scrutinize the internal audit reports as part of their statutory audit functions.

## 6. Material developments in human resources/ industrial relations front including number of people employed

Relations between the management and employees have been cordial. Employees have been imparted training to update their skills and proficiency in their areas of specialisation.

The management acknowledges the contributions made by each and every employee and records its appreciation for the cooperation extended by them at all levels.

#### **Item No.17**

##### **Approval of the Borrowing Limits of the Company**

Pursuant to Section 180 of the Act, the Board of Directors of a company can borrow money subject to consent of the shareholders by a special resolution where the money to be borrowed, together with the money already borrowed by the company will not exceed the aggregate of its paid-up share capital and free reserves, apart from temporary loans obtained from the company's bankers in the ordinary course of business. The said provision of the Act is similar to the provisions of Section 293(1)(d) of the Companies Act 1956 (Old Act), except that the approval of the shareholders is through a special resolution instead of ordinary resolution specified under the Old Act. The shareholders of the Company, at the Extra Ordinary General Meeting held on 4th December 2006, had authorized the Board to borrow up to Rs.100 Crores. The Ministry of Corporate Affairs, vide their circular dated 25th March 2014 has clarified that the resolutions passed under the provisions of the Old Act will be valid till 12th September 2014.

In view of the above it is necessary for the Company to pass a Special Resolution under the provisions of Section 180(1)(c) to ensure continuous compliance pertaining to

borrowing of funds up to Rs.400 Crores, over and above the aggregate of the paid up share capital and free reserves of the Company, to meet the funds requirement of the Company from time to time.

None of the Directors / Key Managerial Personnel of the Company / their relatives is in any way, concerned or interested, in these resolutions.

The Board commends the Special Resolution set out at Item No. 17 for approval by the shareholders.

#### **Item No.18**

##### **Authorisation to Mortgage and Charge**

As per the existing limits, the Board of Directors have powers to create charge on the movable and immovable assets of the company up to an amount of Rs. 100 Crores (Rupees One Hundred Crores only) in excess of the aggregate of the paid up capital and free reserves in favour of lending Financial Institution (s) / Bank (s) etc. To meet the future requirement of the company, the Board of Directors are required to borrow funds from time to time, for which mortgages / charges / hypothecations are to be created on the movable and immovable assets of the company and hence it is considered necessary to enhance the said limit up to Rs.400 Crores (Rupees Four Hundred Crores only) in excess of the aggregate of the Company's paid up capital and free reserves.

The Directors recommends the resolution for members' approval as a Special Resolution pursuant to Section 180(1)(a) of the Companies Act, 2013.

None of the Directors, Key Managerial Personnel or their relatives are in any way concerned or interested, financially or otherwise in this resolution.

It is a new all time high for your Company translating to EPS of Rs.30.40 as compared to Rs.18.69 of last year.

## FUTURE OUTLOOK

With the area under agriculture cultivation coming down across the world the focus is on producing more from limited land and resources. This is imperative to feed the ever increasing population in the globe. Despite growth in food production, hunger in it various forms are still prevalent in the world – a complex challenge the world is trying to overcome.

By 2050, the world requirement for food will double, driven by anticipated population of more than 9 billion and a demand for improved diets, particularly in developing countries like India. Farming community is in general under great stress to produce more from less. There is a need to increase productivity in a more accelerated way in order to ensure food and nutritional security to a growing population that is on the path of societal ascendancy. Farms need to produce more year by year to provide food, feed and fiber to meet the demands of the population. Anticipated and experiencing climate changes, dwindling natural resources and biodiversity pose additional challenges to improve farm productivity at required pace.

At Kaveri our relentless focus has been developing high quality seeds. Contribution of quality seeds to the total production is estimated to be 15-20% depending upon the crop. Our vision to be a benchmark seed company and our focus on research have enabled us to be one of the fastest growing seed company in India. In the long run, organised players and seed companies with a strong R&D and diversified portfolio of products will reap the benefit.

## DIVIDEND:

Your Directors have proposed a final dividend of 120% i.e., Rs.2.40 per equity share and together with the interim dividend of 120% i.e. Rs.2.40 per equity share, the total dividend for the financial year 2013-14 comes to 240% i.e. Rs.4.80 per share on the equity shares of Rs.2/- each against 160% i.e. Rs.3.20 per share paid in the previous year.

### **DIRECTORS:**

Sub-section (10) of Section 149 of the Companies Act, 2013 (effective 1 April 2014) provides that an Independent Director shall hold office for a term of up to five consecutive years on the Board of a Company; and shall be eligible for re-appointment on passing of a special resolution by the shareholders of the Company. Sub-section (11) of the same section states that no Independent Director shall be eligible for more than two consecutive terms of up to five years each. In addition, sub-section 13 of Section 149 states that the provisions of retirement by rotation as defined in sub-sections (6) and (7) of Section 152 of the Act, shall not apply to such Independent Directors.

The new Clause 49 notified by the SEBI on April 17, 2014, most of which comes into effect from 1 October 2014, states in sub-clause II (B)(2) that any Independent Director "who has already served five years or more in a listed company as on 1 October 2014, shall be eligible for appointment, on completion of his present term, for one more term of up to five years only.

The appointment of Non-Executive Directors — whose sub-set comprise Independent Directors — under the Companies Act, 1956 was a defacto term of three years because one third of such fiduciaries were eligible for retirement by rotation.

Therefore, it stands to reason that those Independent Directors who would complete their present three-year term at the ensuing AGM of the Company in September 2014, and are eligible for re-appointment, may be considered by the shareholders for re-appointment for a term of up to five years. Therefore, the Board recommends reappointing the retiring Directors, Dr. Y.L.Nene and Mr. M. Srikanth Reddy for an additional period of five years each, respectively.

Further, the Board also recommends the appointment of Mr. P.Varaprasad Rao, Dr. S. Raghuvardhan Reddy,

Dr. S.M.Ilyas and Mr. K.Purushotham as Independent Directors under the provisions of the Companies Act, 2013 and Clause 49 of the Listing Agreement, not liable to retire by rotation and to hold office for the period as stated in their respective resolutions and the explanatory statement forming part of the Notice of the AGM.

The brief profile of all the Independent Directors is given in the accompanying notice of the annual report for reference of the shareholders.

Further, pursuant to the provisions of Section 152 of the Companies Act, 2013 (effective 1 April 2014), one-third of the retiring Board members (other than Independent Directors), shall retire every year and if eligible, can be re-appointed, by the shareholders at their meeting. Hence, approval of shareholders is also being sought for variation in terms of appointment of Mr. R.Venumanohar Rao, Whole time Director for making his office liable to retire by rotation. All other terms and conditions of his appointment shall remain unchanged.

The respective resolutions to the above referred matters are included in the notice convening the 27th Annual General Meeting scheduled on 18th September 2014.

## **STATUTORY AUDITORS**

The statutory auditors of the Company, M/s. P.R.Reddy & Co. Chartered Accountants, retire at the ensuing Annual General Meeting and have confirmed their eligibility and willingness to accept office of the statutory auditors, if re-appointed.

Section 139(2) of the Companies Act, 2013 (effective 1 April 2014), mandates that a listed company or such other prescribed classes of companies shall not appoint or reappoint an audit firm as Statutory Auditors for more than two terms of five consecutive years each.

Further, the companies as aforesaid, whose Statutory Auditors has held office for a period of ten years or more are required to comply with these provisions, within three years from the date of commencement of these provisions i.e. 1 April 2014. For this purpose, the term of the audit firm before the commencement of these provisions shall be taken into account for calculating the period of ten consecutive years. Our auditors, M/s. P.R.Reddy & Co. Chartered Accountants, are holding the office as Statutory Auditors since inception. Hence, they can only be re-appointed in transitional period up to three years, i.e. up to FY2017 (subject to ratification by the members at every subsequent AGM).

The Audit Committee and the Board of Directors recommend the re-appointment of M/s. P.R.Reddy & Co. Chartered Accountants as statutory auditors of the Company up to FY2017, for shareholders' approval.

## **FIXED DEPOSITS:**

Your Company has not accepted any deposits under

Section 58A of the Companies Act, 1956 and hence no amount of principal or interest was outstanding as on the date of this Annual Report.

## **DIRECTORS' RESPONSIBILITY STATEMENT:**

# NOTES ON FINANCIAL STATEMENTS

## 1. Statement of significant Accounting Policies

### a. System of Accounting

The Financial Statements of the Company have been prepared under the historical cost convention, on accrual basis, to comply in all material respects with the mandatory Accounting Standards issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 1956, except in the case of sale of realizable scrap which is accounted for on receipt basis. The accounting policies have been consistently applied by the company and are consistent with those used in the previous year.

### b. Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured

- i. Revenue from sale of goods is recognized on dispatch which coincides with transfer of significant risks & rewards to customer and is net of sales returns and sales tax, wherever applicable.
- ii. Interest is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable

### c. Fixed assets and Depreciation

#### Tangibles:

- i. Fixed assets are stated at cost less accumulated depreciation, impairment losses and specific grant/subsidies if any. Cost comprises the purchase price, freight, duties, taxes and any attributable cost of bringing the asset to its working condition for its intended use. Finance costs relating to acquisition of fixed assets are included to the extent they relate to the period till such assets are ready for intended use.
- ii. Expenditure directly relating to construction activity is capitalized. Indirect expenditure is capitalized to the extent it relates to the construction activity or is incidental thereto. Income earned during construction period is deducted from the total expenditure relating to construction activity.
- iii. Assets retired from active use and held for disposal are stated at their estimated net realizable values or net book values, whichever is lower.

- iv. The carrying amount of fixed assets are reviewed at each balance sheet date when required to assess whether they are recorded in excess of their recoverable amounts, and where carrying values exceed the estimated recoverable amount, assets are written down to their recoverable amount.
- v. Impairment loss, if any, is provided to the extent the carrying amount of Assets exceeds their recoverable amount.
- vi. Depreciation is provided on written down value method, at the rate specified in schedule XIV to the Companies Act, 1956.

#### Intangibles:

- i. Computer software is being depreciated on WDV method at the rates specified in Schedule XIV of the companies Act, 1956.

### d. Research and Product Development costs:

Research costs which are of revenue nature is charged to revenue, while capital expenditure is included in the respective heads under fixed assets.

Expenditure of R&D during the year.

Capital Expenditure Rs.544,16,198/-(1,28,14,179/-)

Revenue Expenditure Rs.885,04,060/-(8,66,86,947/-)

### e. Investments

- i. Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long term investments.
- ii. Long-term investments are carried at cost. However, provisions for diminution in value are made to recognize a decline, other than temporary, in the value of the investments. Current investments are carried at lower of cost and fair value determined in respect of each category of Investment.
- f. Inventories
- i. Raw materials, packing materials, stores, spares and consumables are valued at cost, calculated on "First-in first out" basis. Items held for use in the production of inventories are not written down below cost if the finished product in which they will be incorporated are expected to be sold at or above cost.

- ii. Finished goods and Work-in-process are valued at lower of cost or net realizable value. Cost includes materials, labour and a proportion of appropriate overheads.
- iii. Trading goods are valued at lower of cost or net realizable value
- iv. Net realizable value is the estimated selling price in the ordinary course of business, reduced by the estimated costs of completion and costs to effect the sale.

**v. Management has carried out physical verification of stock.**

**g. Retirement and other Employee Benefits**

- i. Contribution to Provident Fund, which is a defined contribution plan, are charged to the profit and loss account on an accrual basis.
- ii. Gratuity is a defined benefit obligation and is provided for on the basis of an actuarial valuation made at the end of each financial year.
- iii. Actuarial gains/losses are immediately taken to Profit and Loss Account.
- iv. The accrual for unutilized leave is determined for the entire available leave balance standing to the credit of the employees at period-end. The value of such leave balance eligible for carry forward, is determined by actuarial valuation and charged to revenue in the period determined.

**h. Income Tax**

Tax expense consists of both current and deferred taxes. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961. Deferred income taxes reflect the impact of currency year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date.

**i. Deffered Tax Liability**

# Consolidated Auditors' Report

To  
The Board of Directors of  
**Kaveri Seed Company Limited**

## Report on the Consolidated Financial Statements

1. We have audited the accompanying consolidated financial statements of Kaveri Seed Company Limited (the "Company") and its subsidiary (collectively referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2014, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

## Management's Responsibility for the Consolidated Financial Statements

2. Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with accounting principles generally accepted in India including Accounting Standards referred to in Section 211(3C) of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

3. Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Group's preparation and presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

5. In our opinion and to the best of our information and according to the explanations given to us, the consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:
  - (a) in the case of the Consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2014;
  - (b) in the case of the Consolidated Statement of Profit and Loss, of the profit of the Group for the year ended on that date and
  - (c) in the case of the Consolidated Cash Flow Statement, of the cash flows of the Group for the year ended on that date.

# NOTES ON CONSOLIDATED FINANCIAL STATEMENTS

## 1. Statement of significant Accounting Policies

### a. System of Accounting

The Financial Statements of the Company have been prepared under the historical cost convention, on accrual basis, to comply in all material respects with the mandatory Accounting Standards issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 1956, except in the case of sale of realizable scrap which is accounted for on receipt basis. The accounting policies have been consistently applied by the company and are consistent with those used in the previous year.

### b. Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured

- i. Revenue from sale of goods is recognized on dispatch which coincides with transfer of significant risks & rewards to customer and is net of sales returns and sales tax, wherever applicable.
- ii. Interest is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable

### c. Fixed assets and Depreciation

#### Tangibles:

- i. Fixed assets are stated at cost less accumulated depreciation, impairment losses and specific grant/subsidies if any. Cost comprises the purchase price, freight, duties, taxes and any attributable cost of bringing the asset to its working condition for its intended use. Finance costs relating to acquisition of fixed assets are included to the extent they relate to the period till such assets are ready for intended use.
- ii. Expenditure directly relating to construction activity is capitalized. Indirect expenditure is capitalized to the extent it relates to the construction activity or is incidental thereto. Income earned during construction period is deducted from the total expenditure relating to construction activity.
- iii. Assets retired from active use and held for disposal are stated at their estimated net realizable values or net book values, whichever is lower.

- iv. The carrying amount of fixed assets are reviewed at each balance sheet date when required to assess whether they are recorded in excess of their recoverable amounts, and where carrying values exceed the estimated recoverable amount, assets are written down to their recoverable amount.
- v. Impairment loss, if any, is provided to the extent the carrying amount of Assets exceeds their recoverable amount.
- vi. Depreciation is provided on written down value method, at the rate specified in schedule XIV to the Companies Act, 1956.

#### Intangibles:

- i. Computer software is being depreciated on WDV method at the rates specified in Schedule XIV of the companies Act, 1956.

### d. Research and Product Development costs:

Research costs which are of revenue nature is charged to revenue, while capital expenditure is included in the respective heads under fixed assets.

Expenditure of R&D during the year.

Capital Expenditure Rs.544,16,198/-(1,28,14,179/-)

Revenue Expenditure Rs.885,04,060/-(8,66,86,947/-)

### e. Investments

- i. Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long term investments.
- ii. Long-term investments are carried at cost. However, provisions for diminution in value are made to recognize a decline, other than temporary, in the value of the investments. Current investments are carried at lower of cost and fair value determined in respect of each category of Investment.

### f. Inventories

- i. Raw materials, packing materials, stores, spares and consumables are valued at cost, calculated on "First-in first out" basis. Items held for use in the production of inventories are not written down below cost if the finished product in which they will be incorporated are expected to be sold at or above cost.

- ii. Finished goods and Work-in-process are valued at lower of cost or net realizable value. Cost includes materials, labour and a proportion of appropriate overheads.
- iii. Trading goods are valued at lower of cost or net realizable value
- iv. Net realizable value is the estimated selling price in the ordinary course of business, reduced by the estimated costs of completion and costs to effect the sale.
- v. Management has carried out physical verification of stock.

#### **g. Retirement and other Employee Benefits**

- i. Contribution to Provident Fund, which is a defined contribution plan, are charged to the profit and loss account on an accrual basis.
- ii. Gratuity is a defined benefit obligation and is provided for on the basis of an actuarial valuation made at the end of each financial year.
- iii. Actuarial gains/losses are immediately taken to Profit and Loss Account.
- iv. The accrual for unutilized leave is determined for the entire available leave balance standing to the credit of the employees at period-end. The value of such leave balance eligible for carry forward, is determined by actuarial valuation and charged to revenue in the period determined.

#### **h. Income Tax**

Tax expense consists of both current and deferred taxes. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961. Deferred income taxes reflect the impact of currency year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date.

#### **i. Deffered Tax Liability**
